

Amendment

By and between Louisville Gas & Electric Company and Kentucky Utilities Company ("LG&E/KU") and East Kentucky Power Cooperative ("EKPC") with respect to Appendix B of the Capacity Purchase and Tolling Agreement dated August 26, 2014 between LG&E/KU with Bluegrass Generation Company LLC, ("Tolling Agreement") whose rights and obligations were assumed by EKPC on December 29, 2015.

The purpose of this Amendment is to change the term "Average Cost of Natural Gas" to reflect a different natural gas index as The Wall Street Journal on-line ceased publishing natural gas indices on October 1, 2018. Appendix B of the Tolling Agreement currently includes the term as amended November 15, 2017:

Average Cost of Natural Gas = The average of the Cash Price for "Natural Gas, Henry Hub" indices as posted in The Wall Street Journal on-line (\$/MMBtu) plus \$0.35/MMBtu for the days that Scheduled Energy is delivered in a month.

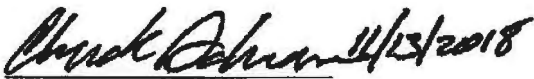

LG&E/KU and EKPC hereby agree to change the term to the following, effective October 1, 2018:

Average Cost of Natural Gas = The average of the prices for "Henry Hub Natural Gas Spot Price" indices as posted by the U.S. Energy Information Administration on-line (\$/MMBtu) plus \$0.35/MMBtu for the days that Scheduled Energy is delivered in a month.

Dated and Agreed: November 13, 2018
