**Response to Kentucky Cable Telecommunications Association's First Data Requests
Dated January 8, 2015**

Case No. 2014-00371

Question No. 1-1

Responding Witness: Robert M. Conroy

Q-1-1. Justify your current pole rates under the Commission's pole rate methodology as set forth in PSC Administrative Case No. 251. Please provide all calculations and source data.

A-1-1. The Company's current pole rate was approved by the Commission in Case No. 2012-00221 after discovery regarding the pole attachment methodology on which the Company's rate is based. The rate, as adjusted for the return on equity the parties to Case No. 2012-00221 negotiated as part of a settlement agreement, was presented to the Commission for its review and approval. On December 20, 2012, after a hearing on the agreement, the Commission entered an Order approving the agreement, including the pole attachment rates, to be effective for service rendered on and after January 1, 2013. In Case No. 2012-00221, the Company provided its calculations and workpapers demonstrating how its proposed rate was calculated. The calculations were attached to my testimony at Exhibit M4, a copy of which is attached. The workpapers were provided in electronic format in response to the Staff's Second Request for Information, Question No. 75 in File 27, a copy of which is being provided in electronic format. The Company has not proposed to change the rate in this proceeding.

KENTUCKY UTILITIES COMPANY

**Response to Kentucky Cable Telecommunications Association's First Data Requests
Dated January 8, 2015**

Case No. 2014-00371

Question No. 1-13

Responding Witness: Paul Gregory "Greg" Thomas

- Q-1-13. Provide all data and supporting documentation of any survey or audit you, or a third party acting on your behalf, has conducted regarding the number of poles you own between March 31, 2012 to present.
- A-1-13. Records of pole ownership are validated through the on-going pole inspection and treatment program. KU has not engaged a third party to survey or audit the number of poles owned.

Case No. 2014-00371

Question No. 1-26

Responding Witness: Robert M. Conroy

Q-1-26. Please provide the amount that an average KU residential customer’s monthly electric bill would change from the amount forecasted by the Company for the test year if the Commission were to reduce KU’s current annual pole attachment rates by \$1, \$2, \$3, or \$4 and the amount of that reduction were to be recovered from electric ratepayers. In making these calculations, assume that the Company’s revenue requirement, as proposed by the Company, is unchanged. Please also assume that the pole attachment fee reductions are to be recovered from residential users in the same percentage that the Company’s revenues are proposed to be recovered from residential customers (according to Ex. MJB-3, page 9, approximately 35%).

A-1-26. KU rejects the assumption provided in the question. According to KU’s longstanding practice, pole attachment revenues are directly assigned to the retail customers for the state in which the pole attachments are located. Further, pole attachment revenues are allocated to residential customers on the basis of total utility plant, not on the basis of total revenue, the assumption in the question. Therefore, KU performed the requested analysis by increasing the residential revenue allocation by 47% of the reduction in pole attachment revenue as described. See Exhibit MJB-3, page 9 of 29, line 17 and Exhibit MJB-9, page 23 of 38, row 660 for the actual allocations.

KU Current Pole Attachments 148,681
Percent of Pole Attachment revenue allocated to Residential: 47%

Suggested Change in Annual Pole Attachment Rates

Annual Rate Change	Annual Revenue Change	Revenue Change Allocated to Residential	Change in Residential Bill
\$ (1.00)	\$ (148,681.00)	\$ 69,880.07	\$ 0.01
\$ (2.00)	\$ (297,362.00)	\$ 139,760.14	\$ 0.03

Question No. 1-27

Responding Witness: Robert M. Conroy

- Q-1-27. Making the same assumptions as requested in DR No. 1-26, if the Commission were to reduce KU's current annual pole attachment rates by \$1, \$2, \$3, or \$4, what effect would it have on KU's overall rate of return?
- A-1-27. Pole attachment revenue does not change KU's overall rate of return as filed in this case. To the extent miscellaneous revenues are included in the revenue requirement change, the change is allocated to KU's retail customers and the filed overall rate of return remains the same.
