3. KU will disclose the confidential information, pursuant to a confidentiality agreement, to intervenors with a legitimate interest in this information and as required by the Commission.

4. If the Commission disagrees with this request for confidential protection, however, it must hold an evidentiary hearing (a) to protect KU's due process rights and (b) to supply with the Commission with a complete record to enable it to reach a decision with regard to this matter.²

5. In compliance with 807 KAR 5:001, Sections 8(3) and 13(2)(e), KU is filing with the Commission one paper copy that identifies information for which confidential protection is sought. KU seeks confidential protection of the entire document, and this is reflected in both the paper copy containing the confidential information and in the redacted version.

6. KU requests that the information be kept confidential until the Company notifies the Commission that the transmission study at issue has become public and no longer requires confidential protection.
