#### **Adjustment of Electric Rates**

6. LG&E requests Commission approval of a change in existing rates, terms, conditions and tariffs for electric service. LG&E proposes to change its existing electric rates and tariffs to those rates and charges set forth in the proposed tariffs attached hereto at Tab 4 of the Filing Requirements. A comparison of the present and proposed rates and charges is attached hereto at Tab 5 of the Filing Requirements. The proposed revisions in the special contracts are summarized at Tab 4 of the Filing Requirements. The proposed adjustments in electric rates will result in an increase in operating revenues of approximately \$30 million, or 2.7 percent, per year for the forecasted test period compared to the operating revenues for the forecasted test period under existing electric rates.

7. The monthly residential electric bill increase due to the proposed electric rates will be 2.73 percent, or approximately \$2.75, for a customer using 984 kWh of electricity (the average monthly consumption of an LG&E residential electric customer).

**Adjustment of Gas Rates**

8. LG&E also requests Commission approval of a change in existing rates, terms, conditions and tariffs for gas service. LG&E proposes to change its existing gas rates and tariffs to those rates and charges set forth in the proposed tariffs attached hereto at Tab 4 of the Filing Requirements. A comparison of the present and proposed rates and charges is attached hereto at Tab 5 of the Filing Requirements. The proposed revisions in the special contracts are summarized at Tab 5 of the Filing Requirements. The proposed adjustments in gas rates will result in an increase in operating revenues of approximately \$14 million, or 4.2 percent, per year for the forecasted test period compared to the operating revenues for the forecasted test period under existing gas rates.

9. The monthly residential gas bill increase due to the proposed gas rates will be 4.2 percent, or approximately \$2.62, for a customer using 57 Ccf of gas (the average monthly consumption of an LG&E residential gas customer).

**Support for Changes in Existing Rates and Tariffs**

10. In accordance with 807 KAR 5:001 Section 16(1)(b)(1), LG&E states that the requested change in existing rates, terms, conditions and tariffs is required to enable LG&E to continue providing safe, reasonable, and adequate service to its customers, and to afford LG&E a reasonable opportunity to earn a fair return on its investment property which is used to provide that service while attracting necessary capital at reasonable rates. LG&E's current rates and tariffs are inadequate for those purposes. Therefore, as explained in more detail in

the verified testimony and exhibits identified below, the requested change in existing rates is required.

11. LG&E supports its request for a change in its existing rates and tariffs for electric and gas service with the verified testimony and exhibits of the following persons:

- Victor A. Staffieri, Chairman, Chief Executive Officer and President
- Kent W. Blake, Chief Financial Officer
- Paul W. Thompson, Chief Operating Officer
- David Sinclair, Vice President – Energy Supply and Analysis
- William E. Avera, President, FINCAP, Inc., and Adrien M. McKenzie, Consultant, FINCAP, Inc.
- John J. Spanos, Senior Vice President, Gannett Fleming, Inc.
- Edwin “Ed” R. Staton, Vice President – State Regulation and Rates
- Dr. Martin J. Blake, Principal, The Prime Group LLC
- J. Clay Murphy, Director – Gas Management, Planning, and Supply
- Robert M. Conroy, Director – Rates

12. LG&E further supports its request for a change in its existing rates and tariffs for electric and gas service with the following exhibits complying with the requirements of 807 KAR 5:001, Section 14, 16 and 17:

13. As authorized by KRS 278.192(1), the Application for a general adjustment of gas and electric rates is supported by a twelve-month fully forecasted test period in accordance with 807 KAR 5:001 Section 16(1)(a)2 with the test period ending June 30, 2016. The Application is supported by a base period consisting of the twelve (12) months ending February 28, 2015. As authorized by KRS 278.192(2), this base period begins not more than nine (9) months prior to the date of the filing of this Application, and is a period consisting of

not less than six (6) months of historical data and not more than six (6) months of estimated data. Within forty-five (45) days after the last day of the base period, LG&E will file the actual results for the estimated months of the base period as required by KRS 278.192(2)(b).

14. In support of its application for a general adjustment of gas and electric rates supported by a fully forecasted test period, LG&E has presented its financial data for the forecasted period in the form of pro forma adjustments to the base period, has limited the forecasted adjustments to the forecasted period, and has based capitalization and net investment rate base on a thirteen-month average for the forecasted period, all as shown in Tabs 8, 9, and 10.

15. The testimony and exhibits to the application demonstrate the rates, terms, conditions and tariffs proposed for gas and electric service are fair, just, and reasonable under KRS 278.030.

**WHEREFORE**, LG&E respectfully requests the Kentucky Public Service Commission to enter an order:

1. Approving the revised tariff sheets for gas and electric service at Tab 4 of the Filing Requirements; and
2. Granting all other relief to which Louisville Gas and Electric Company may be entitled.
