JOINT PETITION OF
LOUISVILLE GAS AND ELECTRIC COMPANY
AND KENTUCKY UTILITIES COMPANY
FOR CONFIDENTIAL PROTECTION

Louisville Gas and Electric Company (“LG&E”) and Kentucky Utilities Company (“KU”) (collectively, the “Companies”) petition the Public Service Commission of Kentucky (“Commission”) pursuant to 807 KAR 5:001, Section 13, to grant confidential protection to certain supply-side resource information provided in Table 8 of Exhibit 5 to the Companies’ Application in this proceeding. In support of this Joint Petition, the Companies state as follows:

1. Under the Kentucky Open Records Act, the Commission is entitled to withhold from public disclosure commercially sensitive information to the extent that open disclosure would permit an unfair commercial advantage to competitors of the entity disclosing the information to the Commission. *See* KRS 61.878(1)(c). Public disclosure of the information identified herein would, in fact, prompt such a result for the reasons set forth below.

2. Public disclosure of information relating to supply-side alternatives would reveal the procedures followed and the factors and inputs considered by the Companies in evaluating the viability of possible generation projects. Public disclosure would give the Companies’ contractors, vendors, and competitors access to the Companies’ cost and operational parameters,

and insight into the Companies' contracting practices. Public access to this information would impact the Companies' ability to negotiate with prospective contractors and vendors, and could harm the Companies' competitive position in the wholesale power market. All such commercial harms would ultimately harm LG&E's and KU's customers, who would have to pay higher rates if the disclosed information adversely affected the Companies' generation asset procurement process.

3. The information for which the Companies are seeking confidential treatment is not known outside of LG&E and KU, is not disseminated within LG&E and KU except to those employees with a legitimate business need to know and act upon the information, and is generally recognized as confidential and proprietary information in the energy industry.

4. The Commission has granted confidential treatment to similar information.¹

5. The Companies do not object to limited disclosure of the confidential information described herein, pursuant to an acceptable protective agreement, to intervenors with legitimate interests in reviewing the same for the purpose of participating in this case.

6. If the Commission disagrees with this request for confidential protection, it must hold an evidentiary hearing (a) to protect the Companies' due process rights and (b) to supply the Commission with a complete record to enable it to reach a decision with regard to this matter.

Utility Regulatory Commission v. Kentucky Water Service Company, Inc., Ky. App., 642 S.W.2d 591, 592-94 (1982).

7. In compliance with 807 KAR 5:001, Sections 8 (3) and 13 (2)(e), the Companies are filing with the Commission one paper copy that identifies by highlighting the information for

which confidential protection is sought and one electronic copy with the same information obscured.

8. The Companies respectfully request that the Commission grant confidential treatment to the confidential information for five years, after which time it should no longer have commercial value.

WHEREFORE, Louisville Gas and Electric Company and Kentucky Utilities Company respectfully request that the Commission grant confidential protection, or in the alternative, schedule an evidentiary hearing on all factual issues.
