RE: Investigation of Kentucky Utilities Company's and Louisville Gas and Electric Company's Respective Need for and Cost of Multiphase Landfills at the Trimble County and Ghent Generating Stations Case No. 2015-00194

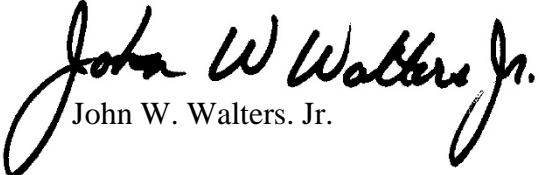

Dear Mr. DeRouen:

Please find enclosed additional pages that were inadvertently omitted from Exhibit F of Sterling Ventures' Response in Opposition to Kentucky Utilities Company's and Louisville Gas and Electric Company's Petition for Confidentiality, which was filed with the Commission on September 8, 2015. The attached is a copy of the Strategist Modeling and Output exhibit that Xcel Energy filed with the Minnesota Public Utilities Commission as part of Xcel's 2015 Upper Midwest Resource Plan. The attached should be added after the last page of Exhibit F of Sterling's Response.

In accordance with the Commission's 2 July 2015 Order in this case and 807 KAR 5:001 Section 8, counsel certify that a) the electronically filed documents are a true and accurate representation of the original paper document(s) being overnighted to the Commission on 4 September 2015 to be filed within two business days of the electronic transmission; b) and that all materials in the paper documents are included in the electronic filing; and c) no party has been excused from participation by electronic submission. In accordance with the Commission's 2 July 2015 Order, Ordering Paragraph 4, and 807 KAR 5:001 Section 8, Sterling Ventures, LLC is filing with the Commission one original paper of the entire filing.

Please let me know should there be any questions regarding the above.

Sincerely,

John W. Walters, Jr.
