-----------------------	----	-----	--------	-----

APPLICATION OF NORTHERN KENTUCKY)
WATER DISTRICT FOR APPROVAL OF) CASE NO. 2015-00324
MADISON PIKE 24 INCH HYDRAULIC)
REDUNDANCY PROJECT (Phase 1))
FOR ISSUANCE OF A CERTIFICATE)
OF CONVENIENCE AND NECESSITY)

APPLICATION FOR APPROVAL OF CONSTRUCTION

Northern Kentucky Water District (NKWD), by counsel, petitions for an order approving the construction the Madison Pike Project as described below pursuant to KRS 278.020.

In support of the application, the following information is provided:

1. NKWD's office address is 2835 Crescent Spring Rd., Erlanger, KY 41018-0640. Its principal officers are listed in its current Annual Report on page 6, which is filed with the Commission as are its prior years Reports and is incorporated by reference. Its contact officer is:

Jack Bragg, Vice President Finance 2835 Crescent Spring Rd. Erlanger, KY 41018-0640 (859) 578 9898 Phone (859) 578-3668 fax jbragg@nkywater.org

- 2. NKWD is a non-profit water district organized under Chapter 74 and has no separate articles of incorporation;
- 3. A description of NKWD's water system and its property stated at original cost by accounts is contained in its Annual Report, which is incorporated by reference.
 - 4. NKWD serves retail customers in Kenton, Boone and Campbell Counties and

sells water at wholesale to non-affiliated water distribution systems in Kenton, Boone, Pendleton and Campbell Counties.

5. NKWD proposes to construct new facilities as described in Exhibit A. The District's Water Distribution System Master Plan has identified the need for a hydraulic improvement project along Madison Pike from Dudley Road to Hands Pike, which is broken down into three phases. This overall project is designed to improve flows to the Richardson Road Pump Station and southern end of Kenton County and is in anticipation of a future 1080 pump station. This improvement will also help strengthen and improve redundancy to the industrial area along Madison Pike.

This project involves the construction/installation of approximately 5,610 linear feet of 24-inch Class 50 ductile iron pipe, approx. 146 linear feet of 20-inch/12-inch/8-inch Class 50 ductile iron pipe, together with fire hydrants, valves, fittings, appurtenances and related work along Madison Pike from Mary Laidley to Hands Pike in the City of Covington, Kenton County Kentucky.

6. The project will be funded by a future Bond Anticipation Note (BAN) with an estimated budget of \$1,991,000 from the 2015 5-Year Capital Budget by PSC Ref No. 178, Page 40, "Madison Pike from Mary Laidley to Hands Pike (Phase 1)". The total project budget is \$1,991,000 which includes construction cost, engineering, materials, and contingencies. A summary of the project costs is provided below:

o Engineering \$ 62,837.00

o Contractor's Bid \$1,095,292.00

Misc. & Contingencies \$832,871.00

Total Project Cost \$ 1,991,000.00

Because the BAN is temporary financing for fewer than two years, NKWD believes no approval of the financing is necessary. However, if approval pursuant to KRS 278.300 is needed, such approval is requested.

- 7. The construction is in the public interest and is required to allow NKWD to continue to provide adequate service to its customers. The project, its cost, need and other details are contained in Exhibit A. The District has received all approvals from the DOW for the Plans and Specifications and funding for these improvements. See Exhibit B.
 - 8. Easements are not required. Rights of Way statements are attached to exhibit B.
 - 9. This service will not compete with any other utility in the area.
- 10. The proposed construction project identified in Exhibit A is scheduled to begin construction in upon PSC approval and the expected in service date is in November, 2016. Board approval of the final bids for the project is included in Exhibit C. Bids for this project were opened on September 3, 2015 and are subject to acceptance for 90 days. Therefore, the bids will expire on December 1, 2015.
- 11. No new franchises are required. A copy of the DOW letter approving the Plans and Specifications for the proposed improvements is attached as Exhibit B.
- 12. Construction descriptions are in Exhibit A and Bid Documents. Facts relied on to justify the public need are included in the project descriptions in Exhibit A.
 - 13. Maps of the area showing location of the proposed facilities are in Exhibit A.
 - 14. The construction costs will be funded by as described above.
- 15. Estimated operating costs for operation and maintenance, depreciation and debt service after construction are shown in Exhibit D.
 - 16. A description of the facilities and operation of the system are in Exhibit A.
- 17. A full description of the route, location of the project, description of construction and related information is in Exhibit A.
- 18. The start date for construction is January, 2016 or upon PSC approval. The proposed in-service date is July, 2016. The total estimated cost of construction at

completion is referenced in Exhibits A, B and D.

- 19. CWIP at end of test year is listed in the Annual Report incorporated by reference.
- 20. Plant retirements are listed in Exhibit B and the Annual Report. No salvage values are included as booked.
- 21. The use of the funds and need for the facilities is justified based on a the engineering report included as Exhibit A
 - 22. No rate adjustment is being proposed.
 - 23. The following information is provided in response to 807 KAR 5:001 (8):
- a. Articles of Incorporation None. NKWD is a statutorily created water district under KRS Chapter 74;
 - 24. The following information is supplied pursuant to 807 KAR 5:001(9):
- a. Facts relied upon to show that the application is in the public interest: See Exhibit A.
 - 25. The following information is provided as required by 807 KAR 5:001 (11):
 - a. A general description of the property is contained in the Annual Report,
 - b. No stock is to be issued; No bonds are to be issued in this case;
 - c. There is no refunding or refinancing;
- d. The proceeds of the financing are to construct the property described in Exhibit A.
- e. The par value, expenses, use of proceeds, interest rates and other information is not applicable because no bonds are being issued at this time.
 - 26. The following exhibits are provided pursuant to 807 KAR 5:001 (11)(2):
- a. There are no trust deeds. All notes, indebtedness and mortgages are included in Exhibit F.
 - b. Property is to be constructed is described in Exhibit A.
 - 27. The following information is provided pursuant to 807 KAR 5:001(6):

- a. No stock is authorized.
- b. No stock is issued.
- c. There are no stock preferences.
- d. Mortgages are listed in Exhibit E.
- e. Bonds are listed in Exhibit E.
- f. Notes are listed in Exhibit E.
- g. Other indebtedness is listed in Exhibit E.
- h. No dividends have been paid.
- i. Current balance sheet, income statement and debt schedule are attached as Exhibit F.
 - 28. USoA plant accounts are included in Exhibit D.
- 29. Depreciation cost, cost of operation after installation and debt service are in Exhibit D.

For these reasons, the District requests issuance of an order granting authority to construct the facilities and for any other authorization that may be necessary.

Re: Madison Pike 24-inch Hydraulic/Redundancy, Kenton County, Kentucky

To Whom It May Concern:

This is to indicate that the above referenced project was initiated by the Northern Kentucky Water District. The project has been reviewed by the District and the necessary water for domestic use is available and will be supplied under normal conditions, and the District shall accept maintenance of this project.

The District cannot approve this project under Agreed Order No. DWO 06008 since the water main is greater than 12" diameter.

If there are questions, please do not hesitate to contact me at 859-426-2703.

Other I	nform	ation to be Submitted with the Project
	1.	Provide a copy of the U.S.G.S. 7 ½ minute topographic map or a detailed vicinity map with the location(s) of the
		proposed project.
	2.	If the project includes a new or upgraded pump station(s), provide the pump sizing calculations and the proposed
1	ALL	pump's characteristics curve along with the efficiency, horsepower and NPSHR data. Also, identify each pump station's locations coordinates (DMS).
	3. N/A	If the project proposes the addition of storage tanks, provide engineering calculations which demonstrates a complete fill and drain cycle every 72 hours. Also, identify each storage tank's location coordinates (DMS).
	4.	Provide engineering calculations or an electronic model demonstrating the availability of 30 psig in the waterline under peak demand conditions.
	5.	Provide engineering calculations or an electronic model that demonstrates if the proposed waterlines are capable of a 2.5 ft/sec flow velocity and show associated residual system pressures.
	6.	Provide a signed letter of acceptance from the utility, which states that the utility has reviewed and approved the plans and specifications and agrees to serve the proposed project upon completion. If another utility will own, operate and maintain any portion of this project provide an acceptance letter from that utility as well.
	7.	If the utility is a purchaser and the project demand is over 10,000 gallons per day or the utility has exceeded 85% of its purchase contract, provide a valid acceptance letter from the seller.
	8.	If the project will provide water service to existing residences, provide the names and addresses of all existing residences to be served by the project, if known.
	9.	If the project is funded by a State Revolving Fund Loan (SRF) provide a completed SRF Plans and Specifications Checklist along with 1 complete printed copy of the project specifications.
IV.	Envi	ronmental Benefits

FIRE FLOW CERTIFICATION

Madison Pike 24-Inch Hydraulic Redundancy Phase I City of Covington Kenton County, KY January 30, 2015

I certify that the proposed improvements meet the 807 KAR 5:066, Section 10b regulation for fire flow protection relating to KRS Chapter 278. I am certifying that "the system can provide a minimum fire flow of 250 gallons per minute; and the water system supporting this flow has the capability of providing this flow for a period of not less than two (2) hours plus consumption at the maximum daily rate". This certification is based on the information available and is not a guarantee of any precise results.

This certification is based on hydraulic modeling performed using InfoWater, the program available from Innovyze. Supporting documentation and operating conditions are attached and are the basis for this certification.

It should be noted that input data used for modeling is based on available data. Results can change and are dependent on the demand conditions, which can vary at any given time. These values will impact the final results when adjusted. The certification is based on estimated conditions and contains many assumptions based on historical data.

With this certification, the Northern Kentucky Water District will permit the construction of fire hydrants within this development.

Fire flow analyses were made using a hydrant within the subdivision that would provide a representative result that should simulate the results at other hydrants within the system. Minor variations at different hydrants would still provide a flow rate that meets the minimum standard.

HYDRAULIC AND FLUSHING VELOCITY CERTIFICATION

Madison Pike 24-Inch Hydraulic Redundancy Phase I City of Covington Kenton County, KY January 30, 2015

I certify that the proposed improvements will meet the American Water Works Association Standard C651 standard for flushing velocity in the main meeting 2.5 feet per second while maintaining at least 20 psi pressure in accordance with 401 KAR 8:100 under average day with the Richardson Road Pump Station turned off.

The maximum flow rate that can reliably be supplied to the main and meet 20 psi in the system under maximum hour conditions is 2,200 gpm. At least 30 psi can be maintained under the peak domestic demand. The peak domestic demand using the D.R. Taylor formula for 0 customers is 0 gpm.

This certification is based on the information available and is not a guarantee of any precise results.

Results are based on hydraulic modeling performed using InfoWater, the program available from Innovyze. Supporting documentation and operating conditions are attached and are the basis for this certification.

It should be noted that input data used for modeling is based on available data. Results can change and are dependent on the demand conditions, which can vary at any given time. These values will impact the final results when adjusted. The certification is based on estimated conditions for maximum hour and average day demand conditions and contains many assumptions based on historical data.

With this certification, the Northern Kentucky Water District will permit the construction of the proposed development.

The assumed Hazen-Williams roughness coefficient for all new pipe was 120, which is suitable for ductile iron or PVC. The water level in the Dudley Tanks was one-half full.

<u>Plan Review and Permit Status</u> - The District has reviewed and approved the plans and specifications prepared by Bayer Becker titled "NKWD – Madison Pike, Mary Laidley to Hands Pike, 24-inch Hydraulic Redundancy Project (Phase 1) Covington, Kenton County, Kentucky" dated September 2015, sealed by a P.E.

The District received approval from the Division of Water on March 25, 2015 (see attached letter).

<u>Easements and Right-of-Way Status</u> – No Easements were needed for this project and all right-of-way statements have been submitted (permits attached).

Start date of construction - January 2016

Proposed date in service – July 2016

<u>Plant retirements</u> – There are no retirements as a result of this project.

Madison Pike 24-inch Hyd/Redundancy

Kenton County, KY

Dear Mr. Schuchter:

We have reviewed the plans and specifications for the above referenced project. The plans include the construction of approximately 5,600 LF of 24-inch DIP water line. This is to advise that plans and specifications for the above referenced project are APPROVED with respect to sanitary features of design, as of this date with the requirements contained in the attached construction permit.

If you have any questions concerning this project, please contact Mr. Fred Sarabi at 502-564-3410 extension 4825.

Sincerely,

Mark Rasche, P.E.

SUBJECT: Kenton, MP - 15.8-16.6

Route No. 17

Permit Number 06-2015-00369

Dear Applicant:

Your application for an encroachment permit has been approved by the Department of Highways. We are returning two copies of the approved permit so one may be kept in your records files. The other copy must be given to the party responsible for completing the project and must be kept at the jobsite at all times.

Please see that the work is done in strict conformity with the permit and any other applicable conditions. (See Form TC99-21 and any other attached documents, conditions or specifications). The work should be completed no later than 06/30/16. When the permitted work and any necessary restoration have been completed please notify this office by using the attached form which will serve as a notification for final inspection.

If there are any question regarding this permit, please do not hesitate to contact Matt Bogen at 859-341-2700 or fax number 859-341-6729.

Sincerely,

Robert A. Hans, P.E. Chief District Engineer Department of Highways District 6- Covington 421 Buttermilk Pike Covington, KY 41017

Engineer's Recommendation of Award

Civil Engineers | Transportation Engineers | Landscape Architects | Planners | Land Surveyors

September 14, 2015

Mr. John Scheben Northern Kentucky Water District 2835 Crescent Springs Road Erlanger, KY 41018

RE:

Madison Pike 24-inch Water Main Redundancy Project (Phase 1) KY 17 (Madison Pike) - Mary Laidley Road to Hands Pike Bid Recommendation/Tabulation Covington, Kenton County, KY

Dear John,

I have reviewed the bids received for the above-mentioned project in the City of Covington. As indicated on the attached bid tabulation, Lykins Contracting, Inc. is the low bidder of the ten (10) bids received at a price of \$1,095,292.00. This cost is approximately 8% below our engineer's estimate of \$1,192,146.00.

Lykins Contracting is a qualified and reputable contractor. Based on the Water District's past project experience with Lykins, it is our recommendation that they be awarded the contract for the Madison Pike 24-inch Redundancy Project (Phase 1).

Please review the above and attached and contact me to discuss any questions you may have.

Sincerely

Rob T. Keller, P.E., LEED AP Senior Project Manager

Board Meeting Minutes

Northern Kentucky Water District Board of Commissioners Regular Meeting September 17, 2015

A regular meeting of the Board of Commissioners of the Northern Kentucky Water District was held on September 17, 2015 at the District's facility located at 2835 Crescent Springs Road, Erlanger, Kentucky. All Commissioners were present, except for Commissioner Collins. Also present were Ronald Lovan, Jack Bragg, Steve Broering, Amy Kramer, Chris Bryant and Brian Dunham.

Chairperson Sommerkamp called the meeting to order at 12:40 p.m., and ______led the pledge of allegiance.

The Commissioners reviewed correspondence received and articles published since the last board meeting, which was a Regular Meeting on August 20, 2015.

On motion of Commissioner Wagner, seconded by Commissioner Cunningham, the Commissioners unanimously approved the minutes for the Regular Board of Commissioners meeting held on August 20, 2015.

The Board was provided a copy of the District's check registers, which included the check number, check date, payee, check amount and description of the reason for each payment, detailing the District's expenditures for the period August 1, 2015 through August 31, 2015. On motion of Commissioner Cunningham, seconded by Commissioner Spaulding, and after discussion, the Commissioners unanimously approved the expenditures of the District for the month of August, 2015.

On motion of Commissioner Spaulding, seconded by Commissioner Cunningham, the Commissioners unanimously approved the District's acceptance of the bid by and awarding a contract to Lykins Contracting, Inc., for the Madison Pike Phase 1 Hydraulic Improvement Project with a project budget of \$1,991,000, and authorized staff to execute the appropriate documents.

On motion of Commissioner Macke, seconded by Commissioner Wagner, the Commissioners unanimously approved the District's acceptance of the bid by and awarding a contract to Wessel Lawn Care, for the annual snow and ice removal at District facilities for one year with two one-year options to extend at the District's discretion, and authorized staff to execute the appropriate documents.

On motion of Commissioner Macke, seconded by Commissioner Wagner, the Commissioners unanimously approved the District's acceptance of the bid by and awarding a contract to Jack Gemmer & Sons, Inc., for the Washington Avenue and Vine Street Water Main Replacement Project with a project budget of \$350,000, and authorized staff to execute the appropriate documents.

On motion of Commissioner Wagner, seconded by Commissioner Cunningham, the Commissioners unanimously approved the District's acceptance of the bid by and awarding a contract to Paymentus, for the Electronic Bill Presentment and Payment Absorbed Fee model bid, including Alternate D of the bid, for a single one-year term with the option to extend at the District's discretion for up to four additional one-year terms, and authorized staff to execute the appropriate documents.

The Commissioners reviewed the District's financial reports and Department reports. As part of her report, Ms. Kramer reviewed with the Commissioners the status of on-going projects within the 2014 5-Year Capital Budget and operating budget, including providing an update on the two change orders incurred since the last board meeting.

Other matters of a general nature were discussed.

On a motion of Commissioner Spaulding, seconded by Commissioner Wagner, the Board unanimously agreed to go into executive session under the provisions of KRS 61.810(1)(c) to discuss pending or proposed litigation against the District and to protect the District's legal interests and strategy in connection with such litigation. The executive session commenced at 2:04 p.m. and ended at 2:55 p.m.

On a motion by Commissioner	Spaulding, seconded by Commissioner Cunningham, the
meeting was adjourned at 2:55 p.m.	
CHAIRMAN	SECRETARY

Project Madison Pike, Mary Laidley to Hands Pike, 24-inch Hydraulic Redundancy Project (Phase 1) Covington, Kenton County, Kentucky

PROJECT FINANCE INFORMATION

Customers Added and Revenue Effect

Debt Issuance and Source of Debt

Additional Costs for Operating and Maintenance

USoA Plant Account

Depreciation Cost and Debt Service After Construction

Customers Added and Revenue Effect: There are no new customers anticipated.

Debt Issuance and Source of Debt: The project will be funded by a future BAN with an estimated budget of \$1,991,000 from the 2015 5-Year Capital Budget by PSC Ref No. 178, Page 40, "Madison Pike from Mary Laidley to Hands Pike (Phase 1)". The total project budget is \$1,991,000 which includes construction cost, engineering, materials, and contingencies. A summary of the project costs is provided below:

0	Engineering	\$ 62,837.00
0	Contractor's Bid	\$ 1,095,292.00
0	Misc. & Contingencies	\$ 828,904.75
	Total Project Cost	\$ 1,991,000.00

USoA Accounts: The anticipated amounts for the project cost of \$1,991,000.00 will fall under the following Uniform System of Accounts Codes:

Code 331 "Transmission & Distribution Mains"	\$ 1	,973,286
Code 334 "Meter & Meter Installation"	\$	0
Code 335 "Hydrants"	\$	17,714

Additional Costs and O&M: No additional operating and maintenance costs are anticipated from the project.

Depreciation and Debt Service: Annual depreciation and debt service after construction are as follows:

Depreciation: \$31,572/year over 62.5 years for water mains

\$354/year over 50 years for fire hydrants

Debt Service: \$120,802.00 over 25 years (conventional 3.5% loan).
