### NOTICE

Please take notice that Duke Energy Kentucky, Inc. has applied to the Kentucky Public Service Commission for approval to revise its Demand Side Management (DSM) rate for electric service and gas service for residential and commercial customers. Duke Energy Kentucky's current monthly DSM rate for residential gas customers is \$0.081352 per hundred cubic feet and for non-residential gas customers is \$0.000000 per hundred cubic feet. Duke Energy Kentucky's current monthly DSM rate for residential electric customers is \$0.005944 per kilowatt-hour and for non-residential customers is \$0.001654 per kilowatt-hour for distribution service and \$0.000161 per kilowatt-hour for transmission service.

Duke Energy Kentucky seeks approval to revise these rates as follows: Duke Energy Kentucky's monthly DSM rate for residential gas customers would decrease to \$0.044741 per hundred cubic feet and for non-residential gas customers would remain at \$0.000000 per hundred cubic feet. Duke Energy Kentucky's monthly DSM rate for residential electric customers would increase to \$0.007128 per kilowatt-hour and for non-residential customers would increase to \$0.002757 per kilowatt-hour for distribution service and would decrease to \$0.000049 per kilowatt-hour for transmission service.

The rate contained in this notice is the rate proposed by Duke Energy Kentucky. However, the Public Service Commission may order a rate to be charged that differs from this proposed rate. Such action may result in a rate for consumers other than the rate in this notice. The foregoing rates reflect a proposed increase in electric revenues of approximately \$4.50 million or 1.40% over current total electric revenues and a decrease of \$2.38 million or (2.04%) over current gas revenues.

A typical residential gas customer using 70 ccf in a month will see a decrease of \$2.56 or (3.25%). A typical residential electric customer using 1000 kWh in a month will see an increase of \$1.18 or 1.43%. A typical non-residential electric customer using 40 kilowatts and 14,000 kWh will see an increase of \$15.44 or 1.45%. A non-residential customer served at transmission voltage using 10,000 kilowatts and 4,000,000 kWh will see a decrease of \$448.00 or (0.20%). Non-residential gas customers will see no change in their bills from this application.

Any corporation, association, body politic or person may by motion within thirty (30) days after publication or mailing of notice of the proposed rate changes, submit a written request to intervene to the Public Service Commission, 211 Sower Boulevard, P.O. Box 615, Frankfort, Kentucky 40602, and shall set forth the grounds for the request including the status and interest of the party. The intervention may be granted beyond the thirty (30) day period for good cause shown. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of this application filed with the Public Service Commission is available for public inspection at Duke Energy Kentucky's office at 4580 Olympic Boulevard, Erlanger, Kentucky 41018 and on its website at <http://www.duke-energy.com>.
