**OHIO COUNTY WATER DISTRICT’S RESPONSE TO**  
**NOTICE OF FILING DEFICIENCIES**

In response to the letter of July 6, 2016 in which Commission Staff noted certain deficiencies in the Application of Ohio County Water District (“Ohio District”), Ohio District states:

1. Ohio District has obtained all easements necessary for the location and construction of the proposed water transmission mains.
2. Those portions of the proposed water transmission mains that run along U.S. Highway 231 and Ohio County roads will be located on private property, not in state or county highway right-of-ways. Ohio District has acquired easements from the owners of these properties to permit the placement of the proposed water transmission mains.
3. Exhibit 6 to Ohio District’s Application contains maps depicting the location and route of the proposed water transmission mains and of the easements acquired to enable the construction of those transmission mains.
4. The phrase “proposed water transmission mains” should be substituted for references in Ohio District’s Application to “proposed water main replacement and upgrade.”

Dated: July 8, 2016
