NiSource had \$7.8 million and \$5.9 million of cash on deposit with brokers and MISO for collateral requirements associated with open derivative positions reflected within "Restricted cash" on the Condensed Consolidated Balance Sheets (unaudited) as of June 30, 2014 and December 31, 2013, respectively.

8. Fair Value

A. Fair Value Measurements

Recurring Fair Value Measurements. The following tables present financial assets and liabilities measured and recorded at fair value on NiSource's Condensed Consolidated Balance Sheets (unaudited) on a recurring basis and their level within the fair value hierarchy as of June 30, 2014 and December 31, 2013 :

Recurring Fair Value Measurements June 30, 2014 (in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of June 30, 2014
Assets				
Price risk management assets:				
Commodity financial price risk programs	\$ 2.6	\$ —	\$ —	\$ 2.6
Interest rate risk activities	—	10.7	—	10.7
Available-for-sale securities	24.3	94.3	—	118.6
Total	\$ 26.9	\$ 105.0	\$ —	\$ 131.9

Liabilities				
Price risk management liabilities:				
Commodity financial price risk programs	\$ 0.9	\$ —	\$ 0.2	\$ 1.1
Total	\$ 0.9	\$ —	\$ 0.2	\$ 1.1

Recurring Fair Value Measurements December 31, 2013 (in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2013
Assets				
Price risk management assets:				
Commodity financial price risk programs	\$ 2.1	\$ —	\$ —	\$ 2.1
Interest rate risk activities	—	21.1	—	21.1
Available-for-sale securities	25.3	96.1	—	121.4
Total	\$ 27.4	\$ 117.2	\$ —	\$ 144.6

Liabilities				
Price risk management liabilities:				
Commodity Financial price risk programs	\$ 1.6	\$ —	\$ 0.1	\$ 1.7
Total	\$ 1.6	\$ —	\$ 0.1	\$ 1.7

Price risk management assets and liabilities include commodity exchange-traded and non-exchange-based derivative contracts. Exchange-traded derivative contracts are based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards, and options. In certain instances, these instruments may utilize models to measure fair value. NiSource uses a similar model to value similar instruments. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability, and market-corroborated inputs, i.e., inputs derived principally from or corroborated by observable market data by correlation or other means. Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures. As of June 30, 2014 and December 31, 2013, there were no material transfers between fair value hierarchies. Additionally, there were no changes in the method or significant assumptions used to estimate the fair value of NiSource's financial instruments.

Price risk management assets also include fixed-to-floating interest rate swaps, which are designated as fair value hedges, as a means to achieve NiSource's targeted level of variable-rate debt as a percent of total debt. NiSource uses a calculation of future cash inflows and estimated future outflows related to the swap agreements, which are discounted and netted to determine the current fair value. Additional inputs to the present value calculation include the contract terms, as well as market parameters such as current and projected interest rates and volatility. As they are based on observable data and valuations of similar instruments, the interest rate swaps are categorized in Level 2 in the fair value hierarchy. Credit risk is considered in the fair value calculation of the interest rate swap.

Available-for-sale securities are investments pledged as collateral for trust accounts related to NiSource's wholly-owned insurance company. Available-for-sale securities are included within "Other investments" in the Condensed Consolidated Balance Sheets (unaudited). Securities classified within Level 1 include U.S. Treasury debt securities which are highly liquid and are actively traded in over-the-counter markets. NiSource values corporate and mortgage-backed debt securities using a matrix pricing model that incorporates market-based information. These securities trade less frequently and are classified within Level 2. Total gains and losses from available-for-sale securities are included in other comprehensive income (loss). The amortized cost, gross unrealized gains and losses, and fair value of available-for-sale debt securities at June 30, 2014 and December 31, 2013 were:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
June 30, 2014 <i>(in millions)</i>				
Available-for-sale debt securities				
U.S. Treasury	\$ 26.9	\$ 0.3	\$ (0.2)	\$ 27.0
Corporate/Other	90.8	1.3	(0.5)	91.6
Total Available-for-sale debt securities	\$ 117.7	\$ 1.6	\$ (0.7)	\$ 118.6
December 31, 2013 <i>(in millions)</i>				
Available-for-sale debt securities				
U.S. Treasury	\$ 30.3	\$ 0.3	\$ (0.5)	\$ 30.1
Corporate/Other	91.5	1.1	(1.3)	91.3
Total Available-for-sale debt securities	\$ 121.8	\$ 1.4	\$ (1.8)	\$ 121.4

For the three months ended June 30, 2014 and 2013, the net realized gain on the sale of available-for-sale U.S. Treasury debt securities was zero and \$0.2 million, respectively. For the three months ended June 30, 2014 and 2013, the net realized gain on the sale of available-for-sale Corporate/Other bond debt securities was \$0.1 million for each period.

For the six months ended June 30, 2014 and 2013, the net realized gain on the sale of available-for-sale U.S. Treasury debt securities was \$0.1 million and \$0.4 million, respectively. For the six months ended June 30, 2014 and 2013, the net realized gain on the sale of available-for-sale Corporate/Other bond debt securities was \$0.2 million and \$0.3 million, respectively.

The cost of maturities sold is based upon specific identification. At June 30, 2014, approximately \$4.9 million of U.S. Treasury debt securities have maturities of less than a year while the remaining securities have maturities of greater than one year. At June 30, 2014, approximately \$6.3 million of Corporate/Other bonds have maturities of less than a year while the remaining securities have maturities of greater than one year.

There are no material items in the fair value reconciliation of Level 3 assets and liabilities measured at fair value on a recurring basis for the three and six months ended June 30, 2014 and 2013.

Non-recurring Fair Value Measurements. There were no significant non-recurring fair value measurements recorded during the six months ended June 30, 2014.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

B. Other Fair Value Disclosures for Financial Instruments. The carrying amount of cash and cash equivalents, restricted cash, notes receivable, customer deposits and short-term borrowings is a reasonable estimate of fair value due to their liquid or short-term nature. NiSource's long-term borrowings are recorded at historical amounts unless designated as a hedged item in a fair value hedge.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate fair value.

Long-term Debt. The fair values of these securities are estimated based on the quoted market prices for the same or similar issues or on the rates offered for securities of the same remaining maturities. Certain premium costs associated with the early settlement of long-term debt are not taken into consideration in determining fair value. These fair value measurements are classified as Level 2 within the fair value hierarchy. For the six months ended June 30, 2014 and 2013, there were no changes in the method or significant assumptions used to estimate the fair value of the financial instruments.

The carrying amount and estimated fair values of financial instruments were as follows:

<i>(in millions)</i>	Carrying Amount as of June 30, 2014	Estimated Fair Value as of June 30, 2014	Carrying Amount as of Dec. 31, 2013	Estimated Fair Value as of Dec. 31, 2013
Long-term debt (including current portion)	\$ 8,170.6	\$ 9,123.1	\$ 8,135.3	\$ 8,697.3

9. Transfers of Financial Assets

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited). The maximum amount of debt that can be recognized related to NiSource's accounts receivable programs is \$515 million .

All accounts receivables sold to the commercial paper conduits are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined in part by required loss reserves under the agreements. Below is information about the accounts receivable securitization agreements entered into by NiSource's subsidiaries.

Columbia of Ohio is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CGORC, a wholly-owned subsidiary of Columbia of Ohio. CGORC, in turn, is party to an agreement with BTMU and BNS under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to commercial paper conduits sponsored by BTMU and BNS. This agreement was last renewed on October 18, 2013. The maximum seasonal program limit under the terms of the current agreement is \$240 million . The current agreement expires on October 17, 2014, and can be further renewed if mutually agreed to by all parties. As of June 30, 2014, \$150.0 million of accounts receivable had been transferred by CGORC. CGORC is a separate corporate entity from NiSource and Columbia of Ohio, with its own separate obligations, and upon a liquidation of CGORC, CGORC's obligations must be satisfied out of CGORC's assets prior to any value becoming available to CGORC's stockholder.

NIPSCO is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to NARC, a wholly-owned subsidiary of NIPSCO. NARC, in turn, is party to an agreement with PNC and Mizuho under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to commercial paper conduits sponsored by PNC and Mizuho. This agreement was last renewed on August 28, 2013. The maximum seasonal program limit under the terms of the current agreement is \$200 million . The current agreement expires on August 27, 2014, and can be further renewed if mutually agreed to by all parties. As of June 30, 2014, \$125.0 million of accounts receivable had been transferred by NARC. NARC is a separate corporate entity from NiSource and NIPSCO, with its own separate obligations, and upon a liquidation of NARC, NARC's obligations must be satisfied out of NARC's assets prior to any value becoming available to NARC's stockholder.

Columbia of Pennsylvania is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CPRC, a wholly-owned subsidiary of Columbia of Pennsylvania. CPRC, in turn, is party to an agreement with BTMU under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to a commercial paper conduit sponsored by BTMU. The maximum seasonal program limit under the terms of the agreement is \$75 million . The agreement with BTMU was renewed on March 11, 2014, having a current scheduled termination date of March 10, 2015, and can be further

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

renewed if mutually agreed to by both parties. As of June 30, 2014, \$25.0 million of accounts receivable had been transferred by CPRC. CPRC is a separate corporate entity from NiSource and Columbia of Pennsylvania, with its own separate obligations, and upon a liquidation of CPRC, CPRC's obligations must be satisfied out of CPRC's assets prior to any value becoming available to CPRC's stockholder.

The following table reflects the gross and net receivables transferred as well as short-term borrowings related to the securitization transactions as of June 30, 2014 and December 31, 2013 for Columbia of Ohio, NIPSCO and Columbia of Pennsylvania:

<i>(in millions)</i>	June 30, 2014		December 31, 2013	
Gross Receivables	\$	503.3	\$	610.9
Less: Receivables not transferred		203.3		345.8
Net receivables transferred	\$	300.0	\$	265.1
Short-term debt due to asset securitization	\$	300.0	\$	265.1

Columbia of Ohio, NIPSCO and Columbia of Pennsylvania remain responsible for collecting on the receivables securitized and the receivables cannot be sold to another party.

10. Goodwill

NiSource tests its goodwill for impairment annually as of May 1 unless indicators, events, or circumstances would require an immediate review. Goodwill is tested for impairment using financial information at the reporting unit level, which is consistent with the level of discrete financial information reviewed by operating segment management. NiSource's three reporting units are Columbia Distribution Operations, Columbia Transmission Operations and NIPSCO Gas Distribution Operations.

NiSource's goodwill assets as of June 30, 2014 were \$3.7 billion pertaining primarily to the acquisition of Columbia on November 1, 2000. Of this amount, approximately \$2.0 billion is allocated to Columbia Transmission Operations and \$1.7 billion is allocated to Columbia Distribution Operations. In addition, NIPSCO Gas Distribution Operations' goodwill assets of \$17.8 million at June 30, 2014 relate to the purchase of Northern Indiana Fuel and Light in March 1993 and Kokomo Gas in February 1992.

NiSource completed a quantitative ("step 1") fair value measurement of its reporting units during the May 1, 2012 goodwill test. The test indicated that the fair value of each of the reporting units that carry or are allocated goodwill substantially exceeded their carrying values, indicating that no impairment existed.

ASU 2011-08 allows entities testing goodwill for impairment the option of performing a qualitative ("step 0") assessment before calculating the fair value of a reporting unit for the goodwill impairment test. If a step 0 assessment is performed, an entity is no longer required to calculate the fair value of a reporting unit unless the entity determines that, based on that assessment, it is more likely than not that its fair value is less than its carrying amount.

NiSource applied the qualitative step 0 analysis to its reporting units for the annual impairment test performed as of May 1, 2014. For the current year test, NiSource assessed various assumptions, events and circumstances that would have affected the estimated fair value of the reporting units as compared to its base line May 1, 2012 step 1 fair value measurement. The results of this assessment indicated that it is not more likely than not that its reporting unit fair values are less than the reporting unit carrying values.

NiSource considered whether there were any events or changes in circumstances subsequent to the annual test that would reduce the fair value of any of the reporting units below their carrying amounts and necessitate another goodwill impairment test. No such indicators were noted that would require a subsequent goodwill impairment testing during the second quarter.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

11. Income Taxes

NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2014 and 2013, adjusted for tax expense associated with certain discrete items. The effective tax rates for the three months ended June 30, 2014 and 2013 were 33.5% and 31.2%, respectively. The effective tax rate for the six months ended June 30, 2014 and 2013 were 37.0% and 34.4%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking, and other permanent book-to-tax differences.

The increase in the three month effective tax rate of 2.3% in 2014 versus 2013 is primarily due to deferred tax adjustments recorded in 2013 related to state apportionment changes. The increase in the year-to-date effective tax rate of 2.6% is primarily due to the impact of the Indiana tax rate change, see below for further information, and deferred tax adjustments recorded in 2013 related to state apportionment changes.

On March 25, 2014, the governor of Indiana signed into law Senate Bill 1, which among other things, lowers the corporate income tax rate from 6.5% to 4.9% over six years beginning on July 1, 2015. The reduction in the tax rate will impact deferred income taxes and tax related regulatory assets and liabilities recoverable in the ratemaking process. In addition, other deferred tax assets and liabilities, primarily deferred tax assets related to the Indiana net operating loss carry forward, will be reduced to reflect the lower rate at which these temporary differences and tax benefits will be realized. In the first quarter of 2014, NiSource recorded tax expense of \$7.1 million to reflect the effect of this rate change. This expense is largely attributable to the remeasurement of the Indiana net operating loss at the 4.9% rate. The majority of NiSource's tax temporary differences are related to NIPSCO's utility plant. The remeasurement of these temporary differences at 4.9% was recorded as a reduction of a regulatory asset.

There were no material changes recorded in the second quarter of 2014 to NiSource's uncertain tax positions as of December 31, 2013.

12. Pension and Other Postretirement Benefits

NiSource provides defined contribution plans and noncontributory defined benefit retirement plans that cover its employees. Benefits under the defined benefit retirement plans reflect the employees' compensation, years of service and age at retirement. Additionally, NiSource provides health care and life insurance benefits for certain retired employees. The majority of employees may become eligible for these benefits if they reach retirement age while working for NiSource. The expected cost of such benefits is accrued during the employees' years of service. Current rates of rate-regulated companies include postretirement benefit costs, including amortization of the regulatory assets that arose prior to inclusion of these costs in rates. For most plans, cash contributions are remitted to grantor trusts.

For the six months ended June 30, 2014, NiSource has contributed \$12.5 million to its pension plans and \$20.1 million to its other postretirement benefit plans.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

The following tables provide the components of the plans' net periodic benefits cost for the three and six months ended June 30, 2014 and 2013 :

Three Months Ended June 30, <i>(in millions)</i>	Pension Benefits		Other Postretirement Benefits	
	2014	2013	2014	2013
Components of Net Periodic Benefit Cost				
Service cost	\$ 8.7	\$ 9.3	\$ 2.2	\$ 3.0
Interest cost	27.3	24.3	7.8	8.1
Expected return on assets	(45.3)	(42.1)	(9.1)	(7.6)
Amortization of transition obligation	—	—	—	0.1
Amortization of prior service cost (credit)	—	0.1	(0.9)	(0.2)
Recognized actuarial loss	11.9	19.7	0.1	2.8
Settlement loss	—	3.6	—	—
Total Net Periodic Benefit Costs	\$ 2.6	\$ 14.9	\$ 0.1	\$ 6.2

Six Months Ended June 30, <i>(in millions)</i>	Pension Benefits		Other Postretirement Benefits	
	2014	2013	2014	2013
Components of Net Periodic Benefit Cost				
Service cost	\$ 17.4	\$ 18.7	\$ 4.5	\$ 6.0
Interest cost	54.6	48.6	16.0	16.2
Expected return on assets	(90.6)	(84.5)	(18.2)	(15.2)
Amortization of transition obligation	—	—	—	0.2
Amortization of prior service cost (credit)	—	0.2	(1.5)	(0.4)
Recognized actuarial loss	23.8	40.4	0.1	5.6
Settlement loss	—	24.3	—	—
Total Net Periodic Benefit Costs	\$ 5.2	\$ 47.7	\$ 0.9	\$ 12.4

In 2013, NiSource pension plans had lump sum payouts exceeding the plan's 2013 service cost plus interest cost and, therefore, settlement accounting was required.

13. Variable Interests and Variable Interest Entities

In general, a VIE is an entity that (1) has an insufficient amount of at-risk equity to permit the entity to finance its activities without additional financial subordinated support provided by any parties, (2) whose at-risk equity owners, as a group, do not have power, through voting rights or similar rights, to direct activities of the entity that most significantly impact the entity's economic performance or (3) whose at-risk owners do not absorb the entity's losses or receive the entity's residual return. A VIE is required to be consolidated by a company if that company is determined to be the primary beneficiary of the VIE.

NiSource consolidates those VIEs for which it is the primary beneficiary. NiSource considers quantitative and qualitative elements in determining the primary beneficiary. Qualitative measures include the ability to control an entity and the obligation to absorb losses or the right to receive benefits.

NiSource's analysis includes an assessment of guarantees, operating leases, purchase agreements, and other contracts, as well as its investments and joint ventures. For items that have been identified as variable interests, or where there is involvement with an identified VIE, an in-depth review of the relationship between the relevant entities and NiSource is made to evaluate qualitative and quantitative factors to determine the primary beneficiary, if any, and whether additional disclosures would be required under the current standard.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

NIPSCO has a service agreement with Pure Air, a general partnership between Air Products and Chemicals, Inc. and First Air Partners LP, under which Pure Air provides scrubber services to reduce sulfur dioxide emissions for Units 7 and 8 at the Bailly Generating Station. NiSource has made an exhaustive effort to obtain information needed from Pure Air to determine the status of Pure Air as a VIE. However, NIPSCO has not been able to obtain this information and as a result, it is unclear whether Pure Air is a VIE and if NIPSCO is the primary beneficiary. NIPSCO will continue to request the information required to determine whether Pure Air is a VIE. NIPSCO has no exposure to loss related to the service agreement with Pure Air and payments under this agreement were \$10.6 million and \$6.4 million for the six months ended June 30, 2014 and 2013, respectively.

14. Long-Term Debt

On July 15, 2014, NiSource Finance redeemed \$500.0 million of 5.40% senior unsecured notes at maturity.

15. Short-Term Borrowings

NiSource Finance maintains a \$2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's \$1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes. At June 30, 2014, NiSource had no outstanding borrowings under this facility.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse, RBS and Wells Fargo. Commercial paper issuances are supported by available capacity under NiSource's \$2.0 billion unsecured revolving credit facility. At June 30, 2014, NiSource had \$801.1 million of commercial paper outstanding.

As of June 30, 2014, NiSource had \$30.5 million of stand-by letters of credit outstanding of which \$14.3 million were under the revolving credit facility. At December 31, 2013, NiSource had \$31.6 million of stand-by letters of credit outstanding of which \$14.3 million were under the revolving credit facility.

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term debt on the Condensed Consolidated Balance Sheets (unaudited) in the amount of \$300.0 million and \$265.1 million as of June 30, 2014 and December 31, 2013, respectively. Refer to Note 9, "Transfers of Financial Assets," for additional information.

<i>(in millions)</i>	June 30, 2014	December 31, 2013
Commercial Paper weighted average interest rate of 0.63% and 0.70% at June 30, 2014 and December 31, 2013, respectively.	\$ 801.1	\$ 433.6
Accounts receivable securitization facility borrowings	300.0	265.1
Total Short-Term Borrowings	\$ 1,101.1	\$ 698.7

Given their turnover is less than 90 days, cash flows related to the borrowings and repayments of the items listed above are presented net in the Condensed Statements of Consolidated Cash Flows (unaudited).

16. Share-Based Compensation

The stockholders approved and adopted the NiSource Inc. 2010 Omnibus Incentive Plan (the "Omnibus Plan"), at the Annual Meeting of Stockholders held on May 11, 2010. The Omnibus Plan provides for awards to employees and non-employee directors of incentive and nonqualified stock options, stock appreciation rights, restricted stock and restricted stock units, performance shares, performance units, cash-based awards and other stock-based awards. The Omnibus Plan provides that the number of shares of common stock of NiSource available for awards is 8,000,000 plus the number of shares subject to outstanding awards granted under either the 1994 Plan (defined below) or the Director Stock Incentive Plan ("Director Plan") that expire or terminate for any reason. No further awards are permitted to be granted under the 1994 Plan or the Director Plan. At June 30, 2014, there were 6,320,477 shares reserved for future awards under the Omnibus Plan.

Prior to May 11, 2010, NiSource issued long-term equity incentive grants to key management employees under a long-term incentive plan approved by stockholders on April 13, 1994 ("1994 Plan"). The types of equity awards previously authorized under the 1994 Plan did not significantly differ from those permitted under the Omnibus Plan.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

NiSource recognized stock-based employee compensation expense of \$5.7 million and \$4.4 million for the three months ended June 30, 2014 and 2013, respectively, as well as related tax benefits of \$1.9 million and \$1.4 million, respectively. For the six months ended June 30, 2014 and 2013, stock-based employee compensation expense of \$11.0 million and \$8.7 million was recognized, respectively, as well as related tax benefit of \$4.1 million and \$3.0 million, respectively.

As of June 30, 2014, the total remaining unrecognized compensation cost related to nonvested awards amounted to \$28.9 million, which will be amortized over the weighted-average remaining requisite service period of 2.3 years.

Stock Options. As of June 30, 2014, approximately 0.1 million options were outstanding and exercisable with a weighted average strike price of \$22.62. No options were granted during the six months ended June 30, 2014 and 2013. As of June 30, 2014, the aggregate intrinsic value for the options outstanding and exercisable was \$2.4 million. During the six months ended June 30, 2014 and 2013, cash received from the exercise of options was \$5.9 million and \$15.3 million, respectively.

Restricted Stock Units and Restricted Stock. During the six months ended June 30, 2014, NiSource granted 88,655 restricted stock units and shares of restricted stock, subject to service conditions. The total grant date fair value of restricted stock units and shares of restricted stock was \$2.8 million, based on the average market price of NiSource's common stock at the date of each grant less the present value of any dividends not received during the vesting period, which will be expensed, net of forfeitures, over the vesting period which is generally three years. As of June 30, 2014, 257,351 nonvested (all of which are expected to vest) restricted stock units and shares of restricted stock were granted and outstanding.

Performance Shares. During the six months ended June 30, 2014, NiSource granted 535,037 performance shares subject to service and performance conditions. The grant date fair value of the awards was \$16.6 million, based on the average market price of NiSource's common stock at the date of each grant less the present value of dividends not received during the vesting period which will be expensed, net of forfeitures, over the three year requisite service and performance period. As of June 30, 2014, 1,735,551 nonvested performance shares were granted and outstanding.

401(k) Match, Profit Sharing and Company Contribution. NiSource has a voluntary 401(k) savings plan covering eligible employees that allows for periodic discretionary matches as a percentage of each participant's contributions payable in shares of common stock. NiSource also has a retirement savings plan that provides for discretionary profit sharing contributions payable in shares of common stock to eligible employees based on earnings results; and eligible exempt employees hired after January 1, 2010, receive a non-elective company contribution of three percent of eligible pay payable in shares of common stock. For the quarters ended June 30, 2014 and 2013, NiSource recognized 401(k) match, profit sharing and non-elective contribution expense of \$8.4 million and \$7.9 million, respectively. For the six months ended June 30, 2014 and 2013, NiSource recognized 401(k) match, profit sharing and non-elective contribution expenses of \$16.9 million and \$14.3 million, respectively.

17. Other Commitments and Contingencies

A. Guarantees and Indemnities. As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit. These agreements are entered into primarily to support or enhance the creditworthiness otherwise attributed to a subsidiary on a stand-alone basis, thereby facilitating the extension of sufficient credit to accomplish the subsidiaries' intended commercial purposes. The total guarantees and indemnities in existence at June 30, 2014 and the years in which they expire were:

<i>(in millions)</i>	Total	2014	2015	2016	2017	2018	After
Guarantees of subsidiaries debt	\$ 7,710.5	\$ 500.0	\$ 230.0	\$ 616.5	\$ 507.0	\$ 800.0	\$ 5,057.0
Accounts receivable securitization	300.0	300.0	—	—	—	—	—
Lines of credit	801.1	801.1	—	—	—	—	—
Letters of credit	30.5	12.6	17.9	—	—	—	—
Other guarantees	180.9	49.4	29.5	—	—	—	102.0
Total commercial commitments	\$ 9,023.0	\$ 1,663.1	\$ 277.4	\$ 616.5	\$ 507.0	\$ 800.0	\$ 5,159.0

Guarantees of Subsidiaries Debt. NiSource has guaranteed the payment of \$7.7 billion of debt for various wholly-owned subsidiaries including NiSource Finance and Columbia of Massachusetts, and through a support agreement, Capital Markets,

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

which is reflected on NiSource's Condensed Consolidated Balance Sheets (unaudited). The subsidiaries are required to comply with certain covenants under the debt indenture and in the event of default, NiSource would be obligated to pay the debt's principal and related interest. NiSource does not anticipate its subsidiaries will have any difficulty maintaining compliance. On October 3, 2011, NiSource executed a Second Supplemental Indenture to the original Columbia of Massachusetts Indenture dated April 1, 1991, for the specific purpose of guaranteeing Columbia of Massachusetts' outstanding medium-term notes.

Lines and Letters of Credit and Accounts Receivable Advances. NiSource Finance maintains a \$2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018 . The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's \$1.5 billion commercial paper program, provide for the issuance of letters of credit, and also for general corporate purposes. At June 30, 2014 , NiSource had no borrowings under its five-year revolving credit facility, \$801.1 million in commercial paper outstanding and \$300.0 million outstanding under its accounts receivable securitization agreements. At June 30, 2014 , NiSource issued stand-by letters of credit of approximately \$30.5 million for the benefit of third parties. See Note 15, "Short-Term Borrowings," for additional information.

Other Guarantees or Obligations. NiSource has additional purchase and sales agreement guarantees totaling \$67.6 million , which guarantee performance of the seller's covenants, agreements, obligations, liabilities, representations and warranties under the agreements. No amounts related to the purchase and sales agreement guarantees are reflected in the Condensed Consolidated Balance Sheets (unaudited). Management believes that the likelihood NiSource would be required to perform or otherwise incur any significant losses associated with any of the aforementioned guarantees is remote.

NiSource has on deposit a letter of credit with Union Bank, N.A., Collateral Agent, in a debt service reserve account in association with Millennium's notes as required under the Deposit and Disbursement Agreement that governs the Millennium notes. This account is to be drawn upon by the note holders in the event that Millennium is delinquent on its principal and interest payments. The value of NiSource's letter of credit represents 47.5% (NiSource's ownership percentage in Millennium) of the debt service reserve account requirement, or \$16.2 million . The total exposure for NiSource is \$16.2 million . NiSource has an accrued liability of \$1.5 million related to the inception date fair value of this guarantee as of June 30, 2014 .

NiSource has issued other guarantees supporting derivative related payments associated with interest rate swap agreements issued by NiSource Finance, operating leases for many of its subsidiaries and for other agreements entered into by its current and former subsidiaries.

B. Other Legal Proceedings. In the normal course of its business, NiSource and its subsidiaries have been named as defendants in various legal proceedings. In the opinion of management, the ultimate disposition of these currently asserted claims will not have a material impact on NiSource's consolidated financial statements.

C. Environmental Matters. NiSource operations are subject to environmental statutes and regulations related to air quality, water quality, hazardous waste and solid waste. NiSource believes that it is in substantial compliance with those environmental regulations currently applicable to its operations and believes that it has all necessary permits to conduct its operations.

It is management's continued intent to address environmental issues in cooperation with regulatory authorities in such a manner as to achieve mutually acceptable compliance plans. However, there can be no assurance that fines and penalties will not be incurred. Management expects a significant portion of environmental assessment and remediation costs to be recoverable through rates for certain NiSource companies.

As of June 30, 2014 and December 31, 2013 , NiSource had recorded an accrual of approximately \$132.9 million and \$143.9 million , respectively, to cover environmental remediation at various sites. The current portion of this accrual is included in "Legal and environmental" in the Condensed Consolidated Balance Sheets (unaudited). The noncurrent portion is included in "Other noncurrent liabilities" in the Condensed Consolidated Balance Sheets (unaudited). NiSource accrues for costs associated with environmental remediation obligations when the incurrence of such costs is probable and the amounts can be reasonably estimated. The original estimates for cleanup can differ materially from the amount ultimately expended. The actual future expenditures depend on many factors, including currently enacted laws and regulations, the nature and extent of contamination, the method of cleanup, and the availability of cost recovery from customers. These expenditures are not currently estimable at some sites. NiSource periodically adjusts its accrual as information is collected and estimates become more refined.

Air

The actions listed below could require further reductions in emissions from various emission sources. NiSource will continue to closely monitor developments in these matters.

Table of Contents

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Climate Change . On June 2, 2014, the EPA proposed a GHG performance standard for existing fossil-fuel fired electric generating units under section 111(d) of the Clean Air Act. The proposed rule establishes state-specific CO₂ emission rate goals and requires each state to submit a plan indicating how the generating units within the state will meet the EPA's emission rate goal. Final CO₂ emission rate standards are expected to be set by the EPA in June 2015, and state plans are required to be submitted to the EPA as early as June 2016. The cost to comply with this rule will depend on a number of factors, including the requirements of the final federal regulation and the level of NIPSCO's required GHG reductions. It is possible that this new rule, comprehensive federal or state GHG legislation, or other GHG regulation could result in additional expense or compliance costs that could materially impact NiSource's financial results.

National Ambient Air Quality Standards . The CAA requires the EPA to set NAAQS for particulate matter and five other pollutants considered harmful to public health and the environment. Periodically the EPA imposes new or modifies existing NAAQS. States that contain areas that do not meet the new or revised standards must take steps to maintain or achieve compliance with the standards. These steps could include additional pollution controls on boilers, engines, turbines, and other facilities owned by electric generation, gas distribution, and gas transmission operations.

The following NAAQS were recently added or modified:

Particulate Matter: In December 2009, the EPA issued area designations for the 2006 24-hour PM_{2.5} standard, and several counties in which NiSource operates were designated as non-attainment. In addition, a final rule was promulgated in December 2012 that lowered the annual PM_{2.5} standard from 15 to 12 µg/m³. NiSource will continue to monitor these matters and cannot estimate their impact at this time.

Ozone (eight hour): On September 2, 2011, the EPA announced it would implement its 2008 eight-hour ozone NAAQS rather than tightening the standard in 2012. The EPA will review, and possibly propose a new standard in 2014. In addition, the EPA has designated the Chicago metropolitan area, including the area in which NIPSCO operates one of its electric generation facilities, as non-attainment for ozone. NiSource will continue to monitor this matter and cannot estimate the impact of any new rules at this time.

Nitrogen Dioxide (NO₂): The EPA revised the NO₂ NAAQS by adding a one-hour standard while retaining the annual standard. The new standard could impact some NiSource combustion sources. The EPA designated all areas of the country as unclassifiable/attainment in January 2012. After the establishment of a new monitoring network and possible modeling implementation, areas will potentially be re-designated sometime in 2016. States with areas that do not meet the standard will be required to develop rules to bring areas into compliance within five years of designation. Additionally, under certain permitting circumstances emissions from some existing NiSource combustion sources may need to be assessed and mitigated. NiSource will continue to monitor this matter and cannot estimate the impact of these rules at this time.

Waste

NiSource subsidiaries are potentially responsible parties at waste disposal sites under the CERCLA (commonly known as Superfund) and similar state laws. Additionally, a program has been instituted to identify and investigate former MGP sites where Gas Distribution Operations subsidiaries or predecessors may have liability. The program has identified 66 such sites where liability is probable. Remedial actions at many of these sites are being overseen by state or federal environmental agencies through consent agreements or voluntary remediation agreements.

NiSource utilizes a probabilistic model to estimate its future remediation costs related to its MGP sites. The model was prepared with the assistance of a third party and incorporates NiSource and general industry experience with remediating MGP sites. NiSource completes an annual refresh of the model in the second quarter of each fiscal year. No material changes to the estimated liability were noted as a result of the refresh completed as of June 30, 2014. The total estimated liability at NiSource related to the facilities subject to remediation was \$123.7 million and \$129.5 million at June 30, 2014 and December 31, 2013, respectively. The liability represents NiSource's best estimate of the probable cost to remediate the facilities. NiSource believes that it is reasonably possible that remediation costs could vary by as much as \$25 million in addition to the costs noted above. Remediation costs are estimated based on the best available information, applicable remediation standards at the balance sheet date, and experience with similar facilities.

Additional Issues Related to Individual Business Segments

The sections below describe various regulatory actions that affect Columbia Pipeline Group Operations and Electric Operations.

Table of Contents

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Columbia Pipeline Group Operations.

Air

In April 2014, the Pennsylvania DEP proposed a rule, *Additional RACT Requirements for Major Sources of NOx and VOCs*, which may require emissions reductions from several Columbia Transmission turbines and reciprocating engines. Management has been provided three years to make its emissions sources compliant. The rule is expected to be finalized by the end of 2014. Columbia Transmission will continue to monitor developments in this matter and cannot estimate costs at this time.

Waste

Columbia Transmission continues to conduct characterization and remediation activities at specific sites under a 1995 AOC (subsequently modified in 1996 and 2007). NiSource utilizes a probabilistic model to estimate its future remediation costs related to the 1995 AOC. The model was prepared with the assistance of a third party and incorporates NiSource and general industry experience with remediating sites. NiSource completes an annual refresh of the model in the second quarter of each fiscal year. No material changes to the liability were noted as a result of the refresh completed as of June 30, 2014. The total remaining liability at Columbia Transmission related to the facilities subject to remediation was \$4.1 million and \$8.7 million at June 30, 2014 and December 31, 2013, respectively. The liability represents Columbia Transmission's best estimate of the cost to remediate the facilities or manage the sites. Remediation costs are estimated based on the information available, applicable remediation standards, and experience with similar facilities. Columbia Transmission expects that the remediation for these facilities will be substantially completed in 2015.

Electric Operations.

Air

NIPSCO is subject to a number of new air-quality mandates in the next several years. These mandates require NIPSCO to make capital improvements to its electric generating stations. The cost of capital improvements is estimated to be \$860 million, of which approximately \$195.2 million remains to be spent. This figure includes additional capital improvements associated with the New Source Review Consent Decree and the Utility Mercury and Air Toxics Standards Rule. NIPSCO believes that the capital costs will likely be recoverable from customers.

EPA Cross-State Air Pollution Rule / Clean Air Interstate Rule (CAIR) / Transport Rule: On July 6, 2011, the EPA announced its replacement for the 2005 CAIR to reduce the interstate transport of fine particulate matter and ozone. The CSAPR reduces overall emissions of SO₂ and NO_x by setting state-wide caps on power plant emissions. The EPA initially intended to implement an emissions trading program and other aspects of the CSAPR in 2012, but this implementation date was delayed by litigation. The EPA now is seeking permission from a court to begin enforcing CSAPR on January 1, 2015. The EPA's implementation of CSAPR would not significantly impact NIPSCO's current emissions control plans. NIPSCO utilizes the inventory model in accounting for emission allowances issued under the CAIR program whereby these allowances were recognized at zero cost upon receipt from the EPA. NIPSCO believes its current multi-pollutant compliance plan and New Source Review Consent Decree capital investments will allow NIPSCO to meet the emission requirements of CSAPR.

Utility Mercury and Air Toxics Standards Rule: On December 16, 2011, the EPA finalized the MATS rule establishing new emissions limits for mercury and other air toxics. Compliance for NIPSCO's affected units is required by April 2016. NIPSCO is implementing an IURC-approved plan for environmental controls to comply with MATS.

New Source Review: On September 29, 2004, the EPA issued an NOV to NIPSCO for alleged violations of the CAA and the Indiana SIP. The NOV alleged that modifications were made to certain boiler units at three of NIPSCO's generating stations between the years 1985 and 1995 without obtaining appropriate air permits for the modifications. NIPSCO, the EPA, the Department of Justice, and IDEM have settled the matter through a consent decree, entered on July 22, 2011.

Water

The Phase II Rule of the Clean Water Act Section 316(b), which requires all large existing steam electric generating stations to meet certain performance standards to reduce the effects on aquatic organisms at their cooling water intake structures, became effective on September 7, 2004. Under this rule, stations will either have to demonstrate that the performance of their existing fish protection systems meet the new standards or develop new systems, such as a closed-cycle cooling tower. A pre-publication version of the final rule was released on May 19, 2014. NIPSCO is still evaluating the final rule and cannot estimate the cost of compliance at this time.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

On June 7, 2013, the EPA published a proposed rule to amend the effluent limitations guidelines and standards for the Steam Electric Power Generating category. These proposed regulations could impose new water treatment requirements on NIPSCO's electric generating facilities. NIPSCO will continue to monitor developments in this matter and cannot estimate the cost of compliance at this time.

Waste

On June 21, 2010, the EPA published a proposed rule for regulation of CCRs. The proposal outlines multiple regulatory approaches that the EPA is considering. These proposed regulations could negatively affect NIPSCO's ongoing byproduct reuse programs and would impose additional requirements on its management of coal combustion residuals. NIPSCO will continue to monitor developments in this matter and cannot estimate the cost of compliance at this time.

D. Other Matters.

Transmission Upgrade Agreements. On February 11, 2014, NIPSCO entered into TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors have agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, which is estimated at \$50.3 million, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs, filed a complaint at FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. NIPSCO will continue to monitor developments in this matter but cannot estimate the impact (if any) on the Condensed Consolidated Financial Statements (unaudited) the complaint will have at this time.

Springfield, Massachusetts. On November 23, 2012, while Columbia of Massachusetts was investigating the source of an odor of gas at a service location in Springfield, Massachusetts, a gas service line was pierced and an explosion occurred. While this explosion impacted multiple buildings and resulted in several injuries, no life threatening injuries or fatalities have been reported. Columbia of Massachusetts is fully cooperating with both the Massachusetts DPU and the Occupational Safety & Health Administration in their investigations of this incident. Columbia of Massachusetts believes any costs associated with damages, injuries, and other losses related to this incident are substantially covered by insurance. Any amounts not covered by insurance are not expected to have a material impact on NiSource's consolidated financial statements. In accordance with GAAP, NiSource recorded any accruals and the related insurance recoveries resulting from this incident on a gross basis within the Condensed Consolidated Balance Sheets (unaudited).

Equity Investment

As Millennium is an equity method investment, NiSource is required to recognize a proportional share of Millennium's OCI. The remaining unrecognized loss at June 30, 2014 of \$17.1 million, net of tax, related to terminated interest rate swaps is being amortized over the period ending June 2025 into earnings using the effective interest method through interest expense as interest payments are made by Millennium. The unrecognized loss of \$17.1 million and \$17.7 million at June 30, 2014 and December 31, 2013, respectively, is included in gains and losses on cash flow hedges above.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

19. Business Segment Information

Operating segments are components of an enterprise for which separate financial information is available and evaluated regularly by the chief operating decision maker in deciding how to allocate resources and assess performance. NiSource's Chief Executive Officer is the chief operating decision maker.

At June 30, 2014, NiSource's operations are divided into three primary business segments. The Gas Distribution Operations segment provides natural gas service and transportation for residential, commercial and industrial customers in Ohio, Pennsylvania, Virginia, Kentucky, Maryland, Indiana and Massachusetts. The Columbia Pipeline Group Operations segment offers gas transportation and storage services for LDCs, marketers and industrial and commercial customers located in northeastern, mid-Atlantic, midwestern and southern states along with unregulated businesses that include midstream services and development of mineral rights positions. The Electric Operations segment provides electric service in 20 counties in the northern part of Indiana.

The following table provides information about business segments. NiSource uses operating income as its primary measurement for each of the reported segments and makes decisions on finance, dividends and taxes at the corporate level on a consolidated basis. Segment revenues include intersegment sales to affiliated subsidiaries, which are eliminated in consolidation. Affiliated sales are recognized on the basis of prevailing market, regulated prices or at levels provided for under contractual agreements. Operating income is derived from revenues and expenses directly associated with each segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

NiSource Inc.

Note regarding forward-looking statements

The Management's Discussion and Analysis, including statements regarding market risk sensitive instruments, contains "forward-looking statements," within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Investors and prospective investors should understand that many factors govern whether any forward-looking statement contained herein will be or can be realized. Any one of those factors could cause actual results to differ materially from those projected. These forward-looking statements include, but are not limited to, statements concerning NiSource's plans, objectives, expected performance, expenditures and recovery of expenditures through rates, stated on either a consolidated or segment basis, and any and all underlying assumptions and other statements that are other than statements of historical fact. From time to time, NiSource may publish or otherwise make available forward-looking statements of this nature. All such subsequent forward-looking statements, whether written or oral and whether made by or on behalf of NiSource, are also expressly qualified by these cautionary statements. All forward-looking statements are based on assumptions that management believes to be reasonable; however, there can be no assurance that actual results will not differ materially.

Realization of NiSource's objectives and expected performance is subject to a wide range of risks and can be adversely affected by, among other things, weather, fluctuations in supply and demand for energy commodities, growth opportunities for NiSource's businesses, increased competition in deregulated energy markets, the success of regulatory and commercial initiatives, dealings with third parties over whom NiSource has no control, actual operating experience of NiSource's assets, the regulatory process, regulatory and legislative changes, the impact of potential new environmental laws or regulations, the results of material litigation, changes in pension funding requirements, changes in general economic, capital and commodity market conditions, counterparty credit risk, and the matters set forth in the "Risk Factors" section of NiSource's 2013 Form 10-K, many of which are beyond the control of NiSource. In addition, the relative contributions to profitability by each segment, and the assumptions underlying the forward-looking statements relating thereto, may change over time. NiSource expressly disclaims a duty to update any of the forward-looking statements contained in this report.

The following Management's Discussion and Analysis of Financial Conditions and Results of Operations should be read in conjunction with NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2013 .

CONSOLIDATED REVIEW

Executive Summary

NiSource (the "Company") is an energy holding company under the Public Utility Holding Company Act of 2005 whose subsidiaries are engaged in the transmission, storage and distribution of natural gas in the high-demand energy corridor stretching from the Gulf Coast through the Midwest to New England and the generation, transmission and distribution of electricity in Indiana. NiSource generates virtually 100% of its operating income through these rate-regulated businesses. A significant portion of NiSource's operations is subject to seasonal fluctuations in sales. During the heating season, which is primarily from November through March, net revenues from gas sales are more significant, and during the cooling season, which is primarily from June through September, net revenues from electric sales and transportation services are more significant, than in other months.

For the six months ended June 30, 2014 , NiSource reported income from continuing operations of \$344.9 million , or \$1.10 per basic share, compared to \$288.4 million , or \$0.92 per basic share reported for the same period in 2013.

The increase in income from continuing operations was due primarily to the following items:

- Regulatory and service programs at Gas Distribution Operations increased net revenues by \$59.1 million primarily due to the impacts of the rate settlement in 2013 at Columbia of Pennsylvania and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Refer to Note 8, "Regulatory Matters," to the Consolidated Financial Statements included in NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2013 for more information.
- Colder weather in 2014 resulted in an increase in income from continuing operations of \$26.4 million compared to the prior year. Weather statistics are provided in the Gas Distribution Operations' segment discussion.
- Growth projects placed in service resulted in an increase in demand margin revenue of \$22.4 million at Columbia Pipeline Group Operations. Refer to the Columbia Pipeline Group Operations' segment discussion for further information on growth projects.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

- The Company recognized previously deferred gains of \$17.8 million from the conveyances of mineral interests at Columbia Pipeline Group Operations. As of June 30, 2014, remaining gains of approximately \$21.8 million recorded in "Deferred revenue" on the Condensed Consolidated Balance Sheets (unaudited) will be recognized in earnings upon performance of future obligations.

These increases to income from continuing operations were partially offset by the following:

- Employee and administrative expense increased by \$26.9 million due primarily to outages and maintenance, greater labor expense due to a growing workforce and reduced payroll capitalization, and IT support and enhancement projects.
- Interest expense increased by \$17.6 million resulting from the issuance of \$500.0 million of long-term debt in October 2013 and the issuance of \$750.0 million of long-term debt in April 2013, partially offset by the maturity of \$420.3 million of long-term debt in March 2013.
- Depreciation and amortization increased \$13.9 million primarily due to higher capital expenditures. NiSource projects 2014 capital expenditures to be approximately \$2.2 billion .

These factors and other impacts to the financial results are discussed in more detail within the following discussions of "Results of Operations" and "Results and Discussion of Segment Operations."

Platform for Growth

NiSource's business plan will continue to center on commercial and regulatory initiatives; commercial growth and expansion of the gas transmission and storage business; financial management of the balance sheet; and cost and process excellence.

Commercial and Regulatory Initiatives

NiSource is moving forward on regulatory initiatives across several distribution company markets. Whether through full rate case filings or other approaches, NiSource's goal is to develop strategies that benefit all stakeholders as it addresses changing customer conservation patterns, develops more contemporary pricing structures, and embarks on long-term investment programs to enhance its infrastructure.

NIPSCO continued to focus on customer service, reliability and long-term growth and modernization initiatives during the second quarter, while executing on significant environmental investments.

- On April 30, 2014, the IURC approved NIPSCO's seven-year, \$710 million, natural gas modernization program, referred to as TDSIC. This program, which complements the in-progress \$1.1 billion electric TDSIC approved in February 2014, will address system modernization as well as system expansion in certain areas.
- Progress also continued on two major NIPSCO electric transmission projects designed to enhance system flexibility and reliability. The route has been selected for the Greentown-Reynolds project, a 70-mile, 765-kV line. The project is a joint development agreement with Pioneer Transmission. The Reynolds-Topeka project, a 100-mile, 345-kV line, remains on schedule with right-of-way acquisition and permitting in process. The projects involve a NIPSCO investment of approximately \$500 million and are anticipated to be in service by the end of 2018.
- Two remaining FGD projects at NIPSCO's coal-fired electric generating facilities remain on schedule and on budget. The FGD investments are part of approximately \$860 million in environmental investments, including water quality and emission-control projects, recently completed and planned at NIPSCO's electric generating facilities. One project is expected to be completed by the end of 2014 and the other by the end of 2015.

NiSource's Gas Distribution companies continue to execute their strategy of long-term infrastructure replacement and enhancement, and advance their regulatory agenda.

- On April 30, 2014, Columbia of Virginia filed a rate case with the VSCC to recover investments with a multi-year gas distribution system modernization program. If approved as filed, the case would increase annual revenues by approximately \$24.9 million. The VSCC issued a procedural order in the case on May 28, 2014 which scheduled the case for hearing on December 9, 2014. New rates are subject to refund and are scheduled to become effective October 1, 2014.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

- On June 26, 2014, Massachusetts Governor Deval Patrick signed into law House Bill 4164, an Act relative to natural gas leaks. The centerpiece of the Bill significantly reduces the lag in recovery associated with priority pipe replacement under Columbia of Massachusetts' current Targeted Infrastructure Reinvestment Factor. Columbia of Massachusetts will make its first filing under the new law on October 31, 2014.
- On March 21, 2014, Columbia of Pennsylvania filed a rate case with the Pennsylvania PUC to support continuation of Columbia of Pennsylvania's ongoing infrastructure modernization program. If approved, the case would increase annual revenues by approximately \$54.1 million. The case is currently in discovery, and a final order from the Pennsylvania PUC is expected in the fourth quarter of 2014.

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for a complete discussion of regulatory and commercial matters.

Modernization, Commercial Growth and Expansion of the Columbia Pipeline Group Operations

Columbia Pipeline Group Operations continues to make progress on its long-term infrastructure modernization program, as well as a series of midstream and core growth initiatives tied to NiSource's asset position in the Utica and Marcellus Shale production regions.

- Columbia Transmission began engineering and planning for the approximately \$50 million Utica Access project. The project includes construction of nearly 5 miles of 20 inch pipeline and other facilities to provide 205,000 Dth per day of new firm service to allow Utica production access to liquid trading points on its system. This project is expected to be in service late in 2016.
- Columbia Transmission is on track with the second year of its long-term system modernization program. Under the program, Columbia Transmission will invest approximately \$300 million annually in improvements to system reliability, safety and flexibility. Columbia Transmission and its customers have agreed to the initial five years of the comprehensive modernization program, with an opportunity to mutually extend the agreement. The overall program is expected to last 10 years or more and involves an aggregate investment in excess of \$4 billion.

Financial Management of the Balance Sheet

On July 15, 2014, NiSource Finance redeemed \$500.0 million of 5.40% senior unsecured notes at maturity.

Additionally on July 15, 2014, \$500.0 million of fixed-to-variable interest rate swaps expired, whereby NiSource Finance received payments based upon a fixed 5.40% interest rate and paid a floating interest rate amount based on U.S. 6-month BBA LIBOR plus an average of 0.78% per annum.

On March 14, 2014, Standard & Poor's affirmed the senior unsecured ratings for NiSource and its subsidiaries at BBB-. Standard & Poor's outlook for NiSource and all of its subsidiaries is stable. On January 31, 2014, Moody's Investors Service upgraded the senior unsecured rating for NiSource to Baa2 from Baa3 and NiSource's commercial paper rating to P-2 from P-3. Additionally, the rating for NIPSCO was upgraded to Baa1 from Baa2.

Ethics and Controls

NiSource has had a long-term commitment to providing accurate and complete financial reporting as well as high standards for ethical behavior by its employees. NiSource's senior management takes an active role in the development of this Form 10-Q and the monitoring of the company's internal control structure and performance. In addition, NiSource will continue its mandatory ethics training program for all employees.

Refer to "Controls and Procedures" included in Item 4.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Results of Operations

Quarter Ended June 30, 2014

Net Income

NiSource reported net income of \$78.2 million , or \$0.25 per basic share, for the three months ended June 30, 2014 , compared to net income of \$71.7 million , or \$0.23 per basic share, for the second quarter of 2013 . Income from continuing operations was \$78.5 million , or \$0.25 per basic share, for the three months ended June 30, 2014 , compared to income from continuing operations of \$72.4 million , or \$0.23 per basic share, for the second quarter of 2013 . Operating income was \$219.6 million , an increase of \$25.6 million from the same period in 2013 . All per share amounts are basic earnings per share. Basic average shares of common stock outstanding at June 30, 2014 were 315.0 million compared to 312.2 million at June 30, 2013 .

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expenses. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the quarter ended June 30, 2014 , were \$963.4 million , a \$111.2 million increase from the same period last year. This increase in net revenues was primarily due to increased Columbia Pipeline Group Operations' net revenues of \$69.7 million, higher Gas Distribution Operations' net revenues of \$26.1 million and increased Electric Operations' net revenues of \$15.3 million.

- Columbia Pipeline Group Operations' net revenues increased primarily due to higher regulatory trackers, which are offset in expense, of \$47.5 million, increased demand margin revenue of \$15.0 million as a result of growth projects placed in service and higher mineral rights royalty revenue of \$7.5 million.
- Gas Distribution Operations' net revenues increased primarily due to an increase of \$19.0 million for regulatory and service programs, including the impacts of the rate settlement in 2013 at Columbia of Pennsylvania and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program.
- Electric Operations' net revenues increased primarily due to higher industrial, commercial, and residential usage of \$8.1 million, an increase in the return on the environmental capital investment recovery of \$5.0 million due to an increased plant balance eligible for recovery, lower fuel handling costs of \$2.2 million and the effects of weather of \$2.1 million. These increases were partially offset by a decrease in off-system sales of \$5.5 million.

Operating Expenses

Operating expenses for the second quarter of 2014 were \$754.9 million , an increase of \$88.7 million from the 2013 period. This increase was primarily due to higher operation and maintenance expenses of \$80.7 million and increased depreciation and amortization of \$5.8 million. The increase in operation and maintenance expenses was primarily due to increased regulatory trackers, which are offset in net revenues, of \$48.1 million, higher outside service costs of \$11.2 million, increased employee and administrative costs of \$11.1 million, and higher electric generation costs of \$11.0 million as a result of outages and maintenance. The increase in depreciation and amortization is primarily due to higher capital expenditures placed in service.

Equity Earnings in Unconsolidated Affiliates

Equity Earnings in Unconsolidated Affiliates were \$11.1 million during the second quarter of 2014 compared to \$8.0 million for the second quarter of 2013 . Equity Earnings in Unconsolidated Affiliates includes investments in Millennium, Hardy Storage and Pennant, which are integral to the Columbia Pipeline Group Operations' business. Equity earnings increased primarily from increased earnings at Millennium attributable to growth projects placed in service.

Other Income (Deductions)

Other Income (Deductions) reduced income by \$101.6 million in the second quarter of 2014 compared to a reduction in income of \$88.7 million in the prior year. The increase in deductions is primarily due to an increase in interest expense of \$7.1 million resulting from the issuance of \$500.0 million of long-term debt in October 2013.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Income Taxes

Income tax expense for the quarter ended June 30, 2014 was \$39.5 million compared to \$32.9 million in the prior year. NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2014 and 2013, adjusted for tax expense associated with certain discrete items. The effective tax rates for the quarters ended June 30, 2014 and 2013 were 33.5% and 31.2% , respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility rate-making, and other permanent book-to-tax differences. The 2.3% increase from 2013 to 2014 is primarily due to deferred tax adjustments recorded in 2013 related to state apportionment changes. Refer to Note 11, "Income Taxes," in the Notes to Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Results of Operations

Six Months Ended June 30, 2014

Net Income

NiSource reported net income of \$344.4 million , or \$1.10 per basic share, for the six months ended June 30, 2014 , compared to net income of \$332.2 million , or \$1.06 per basic share, for the six months ended 2013 . Income from continuing operations was \$344.9 million , or \$1.10 per basic share, for the six months ended June 30, 2014 , compared to income from continuing operations of \$288.4 million , or \$0.92 per basic share, for the six months ended 2013 . Operating income was \$753.3 million , an increase of \$130.4 million from the same period in 2013 . All per share amounts are basic earnings per share. Basic average shares of common stock outstanding at June 30, 2014 were 314.6 million compared to 311.7 million at June 30, 2013 .

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expenses. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the six months ended June 30, 2014 , were \$2,222.6 million , a \$264.2 million increase from the same period last year. This increase in net revenues was primarily due to increased Gas Distribution Operations' net revenues of \$117.4 million, higher Columbia Pipeline Group Operations' net revenues of \$113.9 million and increased Electric Operations' net revenues of \$32.6 million.

- Gas Distribution Operations' net revenues increased primarily due to an increase of \$59.1 million for regulatory and service programs, including the impacts of the rate settlement in 2013 at Columbia of Pennsylvania and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Additionally, there were the effects of colder weather of \$19.9 million, increased regulatory and tax trackers, which are offset in expense, of \$17.4 million, higher residential and commercial usage of \$7.2 million, an increase in off-system sales of \$4.6 million, higher revenue of \$4.0 million due to increased customer count and an increase in large customer revenue of \$3.3 million. These increases were partially offset by a decrease of \$5.5 million resulting from NIPSCO's GCIM.
- Columbia Pipeline Group Operations' net revenues increased primarily due to higher regulatory trackers, which are offset in expense, of \$72.0 million, increased demand margin revenue of \$22.4 million primarily as a result of growth projects placed in service and higher mineral rights royalty revenue of \$14.6 million.
- Electric Operations' net revenues increased primarily due to higher industrial usage of \$15.7 million, an increase in the return on the environmental capital investment recovery of \$13.1 million due to an increased plant balance eligible for recovery, the effects of weather of \$6.5 million and higher off-system sales of \$4.1 million. Additionally, there was increased revenue of \$2.8 million as a result of two electric transmission projects authorized by MISO. These increases were partially offset by a decrease in transmission upgrade revenue of \$6.5 million and lower trackers, which are offset in expense, of \$4.0 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Operating Expenses

Operating expenses for the six months ended June 30, 2014 were \$1,490.2 million, an increase of \$139.6 million from the 2013 period. This increase was primarily due to higher operation and maintenance expenses of \$127.6 million, increased other taxes of \$17.1 million and higher depreciation and amortization of \$10.9 million. These increases were partially offset by an increase in the gain on sale of assets of \$16.0 million. The increase in operation and maintenance expenses was primarily due to increased regulatory trackers, which are offset in net revenues, of \$81.3 million, higher employee and administrative costs of \$26.9 million, increased electric generation costs of \$10.9 million and higher outside service costs of \$6.1 million. The increase in other taxes is primarily due to higher property and other taxes of \$10.0 million and increased tax trackers, which are offset in net revenues, of \$7.1 million. The increase in depreciation and amortization is primarily due to higher capital expenditures placed in service. The increase in gain on sale of assets primarily relates to recognized gains of \$17.8 million resulting from conveyances of mineral interests at Columbia Pipeline Group Operations.

Equity Earnings in Unconsolidated Affiliates

Equity Earnings in Unconsolidated Affiliates were \$20.9 million during the six months ended June 30, 2014, compared to \$15.1 million from the 2013 period. Equity Earnings in Unconsolidated Affiliates includes investments in Millennium, Hardy Storage and Pennant, which are integral to the Columbia Pipeline Group Operations' business. Equity earnings increased primarily from increased earnings at Millennium attributable to growth projects placed in service.

Other Income (Deductions)

Other Income (Deductions) reduced income by \$206.2 million in the six months ended June 30, 2014, compared to a reduction in income of \$183.2 million in the prior year. The increase in deductions is primarily due to an increase in interest expense of \$17.6 million resulting from the issuance of \$500.0 million of long-term debt in October 2013 and the issuance of \$750.0 million of long-term debt in April 2013, partially offset by the maturity of \$420.3 million of long-term debt in March 2013.

Income Taxes

Income tax expense for the six months ended June 30, 2014 was \$202.2 million compared to \$151.3 million in the prior year. NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2014 and 2013, adjusted for tax expense associated with certain discrete items. The effective tax rates for the six months ended June 30, 2014 and 2013 were 37.0% and 34.4%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility rate-making, and other permanent book-to-tax differences. The 2.6% increase from 2013 to 2014 is primarily due to the impact of the Indiana tax rate change and deferred tax adjustments recoded in 2013 related to state apportionment changes. Refer to Note 11, "Income Taxes," in the Notes to Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Discontinued Operations

There was a net loss of \$0.5 million in the six months ended June 30, 2014 from discontinued operations compared to net income of \$7.4 million in 2013. The net income in 2013 relates primarily to a settlement at NiSource's former exploration and production subsidiary, CER. A gain on the disposition of discontinued operations of \$36.4 million was recorded in the first quarter of 2013 as a result of a gain on the sale of the service plan and leasing business lines of NiSource's Retail Services business.

Liquidity and Capital Resources

A significant portion of NiSource's operations, most notably in the gas distribution, gas transportation and electric businesses, are subject to seasonal fluctuations in cash flow. During the heating season, which is primarily from November through March, cash receipts from gas sales and transportation services typically exceed cash requirements. During the summer months, cash on hand, together with the seasonal increase in cash flows from the electric business during the summer cooling season and external short-term and long-term financing, is used to purchase gas to place in storage for heating season deliveries and perform necessary maintenance of facilities. NiSource believes that through income generated from operating activities, amounts available under its short-term revolver, commercial paper program and long-term debt agreements and NiSource's ability to access the capital markets, there is adequate capital available to fund its operating activities and capital expenditures in 2014.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Operating Activities

Net cash from operating activities for the six months ended June 30, 2014 was \$651.0 million , a decrease of \$243.5 million compared to the six months ended June 30, 2013 . The decrease in net cash from operating activities was primarily attributable to an income tax refund received in 2013. No income tax refunds were received in 2014. Additionally, there was a decrease of \$98.5 million in working capital from (under) overrecovered gas and fuel costs due to the timing of gas and fuel cost recoveries in 2014 compared to 2013.

Pension and Other Postretirement Plan Funding. NiSource expects to make contributions of approximately \$38.3 million to its pension plans and approximately \$39.1 million to its other postretirement benefit plans in 2014 , which could change depending on market conditions. For the six months ended June 30, 2014 , NiSource has contributed \$12.5 million to its pension plans and \$20.1 million to its other postretirement benefit plans.

Investing Activities

NiSource's capital expenditures for the six months ended June 30, 2014 were \$852.9 million , compared to \$801.7 million for the comparable period in 2013 . This increased spending is mainly due to continued spending on infrastructure replacement programs in the Gas Distributions Operations segment, higher spending in the Columbia Pipeline Group Operations segment for various growth projects primarily in the Marcellus and Utica Shale areas and for expenditures under its modernization program and increased expenditures in the Electric Operations segment due to TDSIC and other tracker program spend. NiSource projects 2014 capital expenditures to be approximately \$2.2 billion .

Restricted cash was \$9.8 million and \$8.0 million as of June 30, 2014 and December 31, 2013 , respectively.

Contributions to equity investees increased \$22.1 million primarily due to higher contributions made by NiSource Midstream to Pennant. Refer to the Columbia Pipeline Group Operations segment discussion in the Management's Discussion and Analysis of Financial Conditions and Results of Operations for information on these contributions.

Financing Activities

Credit Facilities. NiSource Finance maintains a \$2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's \$1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse, RBS and Wells Fargo. Commercial paper issuances are supported by available capacity under NiSource's \$2.0 billion unsecured revolving credit facility.

NiSource Finance had no borrowings outstanding under its revolving credit facility at June 30, 2014 and December 31, 2013 . In addition, NiSource Finance had \$801.1 million in commercial paper outstanding at June 30, 2014 , at a weighted average interest rate of 0.63% and \$433.6 million in commercial paper outstanding at December 31, 2013 , at a weighted average interest rate of 0.70% .

As of June 30, 2014 and December 31, 2013 , NiSource had \$300.0 million and \$265.1 million , respectively, of short-term borrowings recorded on the Condensed Consolidated Balance Sheets (unaudited) and cash from financing activities in the same amount relating to its accounts receivable securitization facilities. See Note 9, "Transfers of Financial Assets," to the Condensed Consolidated Financial Statements (unaudited).

As of June 30, 2014 , NiSource had \$30.5 million of stand-by letters of credit outstanding of which \$14.3 million were under the revolving credit facility. At December 31, 2013 , NiSource had \$31.6 million of stand-by letters of credit outstanding of which \$ 14.3 million were under the revolving credit facility.

As of June 30, 2014 , an aggregate of \$1,184.6 million of credit was available under the credit facility.

Debt Covenants . NiSource is subject to a financial covenant under its revolving credit facility and its three-year term loan, which requires NiSource to maintain a debt to capitalization ratio that does not exceed 70%. A similar covenant in a 2005 private placement note purchase agreement requires NiSource to maintain a debt to capitalization ratio that does not exceed 75%. As of June 30, 2014 , the ratio was 60.6%.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

NiSource is also subject to certain other non-financial covenants under the revolving credit facility and the term loan. Such covenants include a limitation on the creation or existence of new liens on NiSource's assets, generally exempting liens on utility assets, purchase money security interests, preexisting security interests and an additional subset of assets equal to \$150 million. An asset sale covenant generally restricts the sale, lease and/or transfer of NiSource's assets to no more than 10% of its consolidated total assets and dispositions for a price not materially less than the fair market value of the assets disposed of that do not impair the ability of NiSource and NiSource Finance to perform obligations under the revolving credit facility, and that, together with all other such dispositions, would not have a material adverse effect. The revolving credit facility and the term loan also include a cross-default provision, which triggers an event of default under the credit facility in the event of an uncured payment default relating to any indebtedness of NiSource or any of its subsidiaries in a principal amount of \$50 million or more.

NiSource's indentures generally do not contain any financial maintenance covenants. However, NiSource's indentures are generally subject to cross-default provisions ranging from uncured payment defaults of \$5 million to \$50 million, and limitations on the incurrence of liens on NiSource's assets, generally exempting liens on utility assets, purchase money security interests, preexisting security interests and an additional subset of assets capped at 10% of NiSource's consolidated net tangible assets.

Sale of Trade Accounts Receivables. Refer to Note 9, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on the sale of accounts receivable.

All accounts receivable sold to the commercial paper conduits are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined, in part, by required loss reserves under the agreements.

Credit Ratings. On March 14, 2014, Standard & Poor's affirmed the senior unsecured ratings for NiSource and its subsidiaries at BBB-. Standard & Poor's outlook for NiSource and all of its subsidiaries is stable. On January 31, 2014, Moody's Investors Service upgraded the senior unsecured rating for NiSource to Baa2 from Baa3 and NiSource's commercial paper rating to P-2 from P-3. Additionally, Moody's upgraded the rating for NIPSCO to Baa1 from Baa2 and affirmed the rating for Columbia of Massachusetts. Moody's outlook for NiSource and all of its subsidiaries is stable. On December 9, 2013, Fitch affirmed the senior unsecured ratings for NiSource at BBB-, and the existing ratings of all other subsidiaries. Fitch's outlook for NiSource and all of its subsidiaries is stable. Although all ratings continue to be investment grade, a downgrade by Standard & Poor's or Fitch would result in a rating that is below investment grade.

Certain NiSource affiliates have agreements that contain "ratings triggers" that require increased collateral if the credit ratings of NiSource or certain of its subsidiaries are rated below BBB- by Standard & Poor's or Baa3 by Moody's. These agreements are primarily for insurance purposes and for the physical purchase or sale of power. The collateral requirement that would be required in the event of a downgrade below the ratings trigger levels would amount to approximately \$38.0 million. In addition to agreements with ratings triggers, there are other agreements that contain "adequate assurance" or "material adverse change" provisions that could necessitate additional credit support such as letters of credit and cash collateral to transact business.

Contractual Obligations. There were no material changes recorded during the six months ended June 30, 2014 to NiSource's contractual obligations as of December 31, 2013.

Market Risk Disclosures

Risk is an inherent part of NiSource's energy businesses. The extent to which NiSource properly and effectively identifies, assesses, monitors and manages each of the various types of risk involved in its businesses is critical to its profitability. NiSource seeks to identify, assess, monitor and manage, in accordance with defined policies and procedures, the following principal market risks that are involved in NiSource's energy businesses: commodity price risk, interest rate risk and credit risk. Risk management at NiSource is a multi-faceted process with oversight by the Risk Management Committee that requires constant communication, judgment and knowledge of specialized products and markets. NiSource's senior management takes an active role in the risk management process and has developed policies and procedures that require specific administrative and business functions to assist in the identification, assessment and control of various risks. These include but are not limited to market, operational, financial, compliance and strategic risk types. In recognition of the increasingly varied and complex nature of the energy business, NiSource's risk management process, policies and procedures continue to evolve and are subject to ongoing review and modification.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Commodity Price Risk

NiSource is exposed to commodity price risk as a result of its subsidiaries' operations involving natural gas and power. To manage this market risk, NiSource's subsidiaries use derivatives, including commodity futures contracts, swaps and options. NiSource is not involved in speculative energy trading activity.

Commodity price risk resulting from derivative activities at NiSource's rate-regulated subsidiaries is limited, since regulations allow recovery of prudently incurred purchased power, fuel and gas costs through the ratemaking process, including gains or losses on these derivative instruments. If states should explore additional regulatory reform, these subsidiaries may begin providing services without the benefit of the traditional ratemaking process and may be more exposed to commodity price risk. Some of NiSource's rate-regulated utility subsidiaries offer commodity price risk products to its customers for which derivatives are used to hedge forecasted customer usage under such products. These subsidiaries do not have regulatory recovery orders for these products and are subject to gains and losses recognized in earnings due to hedge ineffectiveness.

Interest Rate Risk

NiSource is exposed to interest rate risk as a result of changes in interest rates on borrowings under its revolving credit agreement, term loan, commercial paper program and accounts receivable programs, which have interest rates that are indexed to short-term market interest rates. NiSource is also exposed to interest rate risk due to changes in interest rates on fixed-to-variable interest rate swaps that hedge the fair value of long-term debt. Based upon average borrowings and debt obligations subject to fluctuations in short-term market interest rates, an increase (or decrease) in short-term interest rates of 100 basis points (1%) would have increased (or decreased) interest expense by \$4.2 million and \$7.9 million for the three and six months ended June 30, 2014, respectively, and \$3.1 million and \$7.1 million for the three and six months ended June 30, 2013, respectively.

Credit Risk

Due to the nature of the industry, credit risk is embedded in many of NiSource's business activities. NiSource's extension of credit is governed by a Corporate Credit Risk Policy. In addition, Risk Management Committee guidelines are in place which document management approval levels for credit limits, evaluation of creditworthiness, and credit risk mitigation efforts. Exposures to credit risks are monitored by the Corporate Credit Risk function which is independent of commercial operations. Credit risk arises due to the possibility that a customer, supplier or counterparty will not be able or willing to fulfill its obligations on a transaction on or before the settlement date. For derivative related contracts, credit risk arises when counterparties are obligated to deliver or purchase defined commodity units of gas or power to NiSource at a future date per execution of contractual terms and conditions. Exposure to credit risk is measured in terms of both current obligations and the market value of forward positions net of any posted collateral such as cash, letters of credit and qualified guarantees of support.

NiSource closely monitors the financial status of its banking credit providers and interest rate swap counterparties. NiSource evaluates the financial status of its banking partners through the use of market-based metrics such as credit default swap pricing levels, and also through traditional credit ratings provided by major credit rating agencies.

Fair Value Measurement

NiSource measures certain financial assets and liabilities at fair value. The level of the fair value hierarchy disclosed is based on the lowest level of input that is significant to the fair value measurement. NiSource's financial assets and liabilities include price risk assets and liabilities, available-for-sale securities and a deferred compensation plan obligation.

Exchange-traded derivative contracts are generally based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards, and options. In certain instances, NiSource may utilize models to measure fair value. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability, and market-corroborated inputs, i.e., inputs derived principally from or corroborated by observable market data by correlation or other means. Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Price risk management assets also include fixed-to-floating interest rate swaps, which are designated as fair value hedges, as a means to achieve its targeted level of variable-rate debt as a percent of total debt. NiSource uses a calculation of future cash inflows and estimated future outflows related to the swap agreements, which are discounted and netted to determine the current fair value. Additional inputs to the present value calculation include the contract terms, as well as market parameters such as current and projected interest rates and volatility. As they are based on observable data and valuations of similar instruments, the interest rate swaps are categorized in Level 2 in the fair value hierarchy. Credit risk is considered in the fair value calculation of the interest rate swap.

Refer to Note 8, "Fair Value" in the Notes to the Condensed Consolidated Financial Statements (unaudited) for additional information on NiSource's fair value measurements.

Off Balance Sheet Arrangements

As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit.

NiSource has purchase and sales agreement guarantees totaling \$67.6 million, which guarantee performance of the seller's covenants, agreements, obligations, liabilities, representations and warranties under the agreements. No amounts related to the purchase and sales agreement guarantees are reflected in the Condensed Consolidated Balance Sheets (unaudited). Management believes that the likelihood NiSource would be required to perform or otherwise incur any significant losses associated with any of the aforementioned guarantees is remote.

NiSource has other guarantees outstanding. Refer to Note 17-A, "Guarantees and Indemnities," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information about NiSource's off balance sheet arrangements.

Other Information

Critical Accounting Policies

There were no significant changes to critical accounting policies for the period ended June 30, 2014.

Recently Issued Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 outlines a single, comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. NiSource is required to adopt ASU 2014-09 for periods beginning after December 15, 2016, including interim periods, and the new standard is to be applied retrospectively with early adoption not permitted. NiSource is currently evaluating the impact the adoption of ASU 2014-09 will have on its Condensed Consolidated Financial Statements (unaudited) and Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2014, the FASB issued ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. ASU 2014-08 changes the criteria for reporting a discontinued operation. Under the new pronouncement, a disposal of a part of an organization that has a major effect on its operations and financial results is a discontinued operation. NiSource is required to adopt ASU 2014-08 prospectively for all disposals or components of its business classified as held for sale during fiscal periods beginning after December 15, 2014. NiSource is currently evaluating what impact, if any, adoption of ASU 2014-08 will have on its Condensed Consolidated Financial Statements (unaudited) and Notes to Condensed Consolidated Financial Statements (unaudited).

NiSource's Gas Distribution Operations serve approximately 3.3 million customers in seven states: Ohio, Indiana, Pennsylvania, Massachusetts, Virginia, Kentucky and Maryland. The regulated subsidiaries offer both traditional bundled services as well as transportation only for customers that purchase gas from alternative suppliers. The operating results reflect the temperature-sensitive nature of customer demand with 74% of annual residential and commercial throughput affected by seasonality. As a result, segment operating income is higher in the first and fourth quarters reflecting the heating demand during the winter season.

Regulatory Matters

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Gas Distribution Operations segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Gas Distribution Operations

Customer Usage. Increased efficiency of natural gas appliances and improvements in home building codes and standards has contributed to a long-term trend of declining average use per customer. Usage for the six months ended June 30, 2014 increased from the same period last year primarily due to colder weather compared to the prior year. While historically, rate design at the distribution level has been structured such that a large portion of cost recovery is based upon throughput, rather than in a fixed charge, operating costs are largely incurred on a fixed basis, and do not fluctuate due to changes in customer usage. As a result, the NiSource LDCs have pursued changes in rate design to more effectively match recoveries with costs incurred. Each of the states in which the NiSource LDCs operate has different requirements regarding the procedure for establishing changes to rate design. Columbia of Ohio restructured its rate design through a base rate proceeding and has adopted a "decoupled" rate design which more closely links the recovery of fixed costs with fixed charges. Columbia of Massachusetts and Columbia of Virginia received regulatory approval of decoupling mechanisms which adjust revenues to an approved benchmark level through a volumetric adjustment factor. Columbia of Maryland has received regulatory approval to implement a residential class revenue normalization adjustment, a decoupling mechanism whereby monthly revenues that exceed or fall short of approved levels are reconciled in subsequent months. In a prior base rate proceeding, Columbia of Pennsylvania implemented a residential weather normalization adjustment charge. In a prior base rate proceeding, NIPSCO implemented a higher fixed customer charge for residential and small customer classes moving toward full straight fixed variable rate design.

Environmental Matters

Various environmental matters occasionally impact the Gas Distribution Operations segment. As of June 30, 2014, a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 17-C, "Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Gas Distribution Operations segment.

Weather

In general, NiSource calculates the weather related revenue variance based on changing customer demand driven by weather variance from normal heating degree-days. Normal is evaluated using heating degree days across the NiSource distribution region. While the temperature base for measuring heating degree days (i.e. the estimated average daily temperature at which heating load begins) varies slightly across the region, the NiSource composite measurement is based on 65 degrees. NiSource composite heating degree days reported do not directly correlate to the weather related dollar impact on the results of Gas Distribution Operations. Heating degree days experienced during different times of the year or in different operating locations may have more or less impact on volume and dollars depending on when and where they occur. When the detailed results are combined for reporting, there may be weather related dollar impacts on operations when there is not an apparent or significant change in the aggregated NiSource composite heating degree-day comparison.

Weather in the Gas Distribution Operations' territories for the second quarter of 2014 was 7% warmer than normal and 1% warmer than the second quarter in 2013.

Weather in the Gas Distribution Operations' territories for the six months ended June 30, 2014 was 14% colder than normal and 15% colder than the same period in 2013.

Throughput

Total volumes sold and transported of 198.0 MMDth for the second quarter of 2014 increased by 4.2 MMDth from the same period last year. This 2.2% increase in volumes was primarily attributable to higher industrial throughput partially offset by a decrease in off-system sales.

Total volumes sold and transported of 595.9 MMDth for the six months ended June 30, 2014 increased by 39.6 MMDth from the same period last year. This 7.1% increase in volume was primarily attributable to colder weather.

Net Revenues

Net revenues for the second quarter of 2014 were \$359.4 million, an increase of \$26.1 million from the same period in 2013. The increase in net revenues is due primarily to an increase of \$19.0 million for regulatory and service programs, including the impacts of the rate settlement in 2013 at Columbia of Pennsylvania and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Gas Distribution Operations

Net revenues for the six months ended June 30, 2014 were \$1,002.0 million, an increase of \$117.4 million from the same period in 2013. The increase in net revenues is due primarily to an increase of \$59.1 million for regulatory and service programs, including the impacts of the rate settlement in 2013 at Columbia of Pennsylvania and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Additionally, there were the effects of colder weather of \$19.9 million, increased regulatory and tax trackers, which are offset in expense, of \$17.4 million, higher residential and commercial usage of \$7.2 million, an increase in off-system sales of \$4.6 million, higher revenue of \$4.0 million due to increased customer count and an increase in large customer revenue of \$3.3 million. These increases were partially offset by a decrease of \$5.5 million resulting from NIPSCO's GCIM.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased gas costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three and six months ended June 30, 2014 was a revenue decrease of \$31.8 million and \$0.3 million, respectively, compared to a decrease of \$25.8 million and \$50.5 million for the three and six months ended June 30, 2013, respectively.

Operating Income

For the second quarter of 2014, Gas Distribution Operations reported operating income of \$59.8 million, an increase of \$9.8 million from the comparable 2013 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses were \$16.3 million higher than the comparable period reflecting increased outside service costs of \$9.8 million, higher depreciation of \$4.0 million due to increased capital expenditures and an increase in employee and administrative expenses of \$2.3 million.

For the six months ended June 30, 2014, Gas Distribution Operations reported operating income of \$361.6 million, an increase of \$77.5 million from the comparable 2013 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses were \$39.9 million higher than the comparable period reflecting increased regulatory and tax trackers, which are offset in net revenues, of \$17.4 million, higher depreciation of \$7.7 million due to increased capital expenditures, an increase in employee and administrative expenses of \$6.1 million and higher other taxes of \$5.2 million.

NiSource's Columbia Pipeline Group Operations segment primarily consists of the operations of Columbia Transmission, Columbia Gulf, NiSource Midstream, NEVCO, Crossroads Pipeline, and the equity investments in Pennant, Millennium and Hardy Storage. In total, NiSource owns a pipeline network of approximately 15,000 miles extending from the Gulf of Mexico to New York and the eastern seaboard. The pipeline network serves customers in 16 northeastern, mid-Atlantic, midwestern and southern states, as well as the District of Columbia. In addition, the Columbia Pipeline Group Operations segment operates one of the nation's largest underground natural gas storage systems.

Columbia Pipeline Group Operations' most significant projects are as follows:

Warren County. The Columbia Pipeline Group Operations segment spent approximately \$37 million on an expansion project, which included new pipeline and modifications to existing compression assets, with Virginia Power Services Energy Corporation, Inc., the energy manager for Virginia Electric and Power Company. This project expanded the Columbia Transmission system in order to provide up to nearly 250,000 Dth per day of transportation capacity under a long-term, firm contract. The project went into service in the second quarter of 2014.

West Side Expansion. The Columbia Pipeline Group Operations segment is investing approximately \$200 million in new pipeline and compression to increase supply origination from the Smithfield and Waynesburg areas on the Columbia Transmission system and provide a backhaul transportation path to Gulf Coast markets on the Columbia Gulf system. This investment will increase capacity up to 444,000 Dth per day from the Smithfield and Waynesburg areas and up to 540,000 Dth per day from Leach to Rayne transporting Marcellus production under long-term, firm contracts. Limited interim service is being provided throughout 2014 with the project fully in service by the fourth quarter of 2014.

Giles County. The Columbia Pipeline Group Operations segment is spending approximately \$25 million to construct nearly thirteen miles of pipeline to provide 45,000 Dth per day of firm service to a third party off of its Line KA system into Columbia of Virginia's system. Columbia of Virginia will expand pipeline facilities and an existing direct connection with the third party's plant in Giles County, Virginia. The project is planned to be in service by the fourth quarter of 2014.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Columbia Pipeline Group Operations

Line 1570 Expansion . The Columbia Pipeline Group Operations segment is replacing 18.7 miles of 20-inch bare steel pipe with 24-inch pipe from Waynesburg, Pennsylvania to Redd Farm, Pennsylvania at an approximate cost of \$20 million. The project also includes the installation of two compressors at Redd Farm and an uprate in horsepower at Waynesburg, increasing capacity by nearly 100,000 Dth per day. The project is expected to be in service by the end of 2014.

East Side Expansion. The Columbia Pipeline Group Operations segment plans to invest approximately \$275 million in developing its East Side Expansion project, which will provide access for Marcellus supplies to the northeastern and mid-Atlantic markets. Backed by binding precedent agreements, the project will add up to 312,000 Dth per day of capacity, which is expected to be placed in service by the end of the third quarter of 2015.

Chesapeake, Virginia LNG Facility Modernization. The Columbia Pipeline Group Operations segment is investing approximately \$30 million to upgrade the facility and extend its associated customer contracts for 15 years. The project's first phase was completed in the fourth quarter of 2013. The remainder of the project is expected to be completed by mid-2015.

Washington County Gathering. The Columbia Pipeline Group Operations segment will construct a field gathering system in Pennsylvania that will gather well pad production of primarily dry gas from a third party producer. Pipeline laterals will be built to connect well pads as drilling is developed. The approximate \$120 million investment will include about 25 miles of gathering pipelines of varying diameter, a compressor station and dehydration unit. The gas gathering agreement has an initial 15-year term with the option to extend. Construction is expected to begin in late 2014 with an expected in service date during the second half of 2015.

Kentucky Power. The Columbia Pipeline Group Operations segment is constructing nearly three miles of 16 inch greenfield pipeline from Columbia Transmission's Line P that will serve a natural gas-fired electric generation plant in Kentucky. The project will cost nearly \$25 million and will provide 72,000 Dth per day of capacity to the plant under an executed binding precedent agreement. The project is expected to be in service by the middle of 2016.

Utica Access. The Columbia Pipeline Group Operations segment is investing approximately \$50 million to construct nearly 5 miles of 20 inch pipeline and other facilities to provide 205,000 Dth per day of new firm service to allow Utica production access to liquid trading points on its system. This project is expected to be in service late in 2016.

Cameron Access. The Columbia Pipeline Group Operations segment has entered into binding precedent agreements for the construction of new pipeline facilities along the Columbia Gulf system to connect with the Cameron LNG Terminal in southern Louisiana. The approximately \$310 million project will transport supplies from numerous supply basins to the planned LNG export facility, which received Department of Energy approval late in 2013. The project will offer an initial capacity of up to 800,000 Dth per day and is expected to be placed into service as early as the third quarter of 2017.

Equity Investments

Pennant. NiSource Midstream entered into a 50:50 joint venture in 2012 with affiliates of Hilcorp to construct new wet natural gas gathering pipeline infrastructure and NGL processing facilities to support natural gas production in the Utica Shale region of northeastern Ohio and western Pennsylvania. NiSource Midstream and Hilcorp jointly own Pennant with NiSource Midstream serving as the operator of Pennant and the facilities. NiSource accounts for the joint venture under the equity method of accounting.

Pennant is investing in the construction of 20-24 inch wet gas gathering pipeline facilities with a capacity of approximately 500 MMcf per day. In addition, Pennant constructed a gas processing facility in New Middletown, Ohio that will have an initial capacity of 200 MMcf per day and is constructing a NGL pipeline with an initial capacity of 45,000 barrels per day that can be expanded to 90,000 barrels per day. Consistent with the terms of the joint venture, NiSource Midstream will operate the gas processing facility, NGL pipeline and associated wet gas gathering system. The joint venture is designed and anticipated to serve other producers with significant acreage development in the area with an interest in obtaining capacity on the system. The construction of the facilities will allow Pennant to become a full-service solution for providers in the northern Utica Shale region, offering access to wet gas gathering and processing as well as residue gas and NGL takeaway to attractive market destinations. NiSource Midstream's initial investment in this area, including the gathering pipeline, related laterals, NGL pipeline and the processing plant, will be approximately \$185 million. Portions of the facilities were placed in service in the fourth quarter of 2013 and the second quarter of 2014, with the remainder to be placed in service in the third quarter of 2014.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Columbia Pipeline Group Operations

During the second quarter of 2014 , NiSource Midstream made cash contributions to Pennant totaling \$23.8 million. A cash contribution of \$15.6 million was made during the same period last year. For the six months ended June 30, 2014 , NiSource Midstream made cash contributions to Pennant of \$52.2 million. A cash contribution of \$26.1 million was made during the same period last year.

In a separate agreement with Hilcorp, test wells were drilled in 2012 and continued in 2013 to support the development of the hydrocarbon potential on more than 100,000 combined acres in the Utica/Point Pleasant Shale formation. Production wells were drilled in 2013 and 2014, with the full production program in development. NiSource is investing alongside Hilcorp in the development of the acreage, with NiSource owning both a working and overriding royalty interest. All of the Hilcorp/NiSource acreage is dedicated to Pennant.

Millennium. Millennium operates approximately 250 miles of pipeline under the jurisdictional authority of the FERC. The Millennium pipeline has the capability to transport natural gas to markets along its route, which lies between Corning, New York and Ramapo, New York, as well as to the New York City market through its pipeline interconnections. Columbia Transmission owns a 47.5% interest in Millennium and acts as operator for the pipeline in partnership with DTE Millennium Company and National Grid Millennium LLC, which each own an equal remaining share of the company.

During the second quarter of 2014 and 2013 , Columbia Transmission made no contributions to Millennium. For the six months ended June 30, 2014 and 2013 , Columbia Transmission made contributions of \$2.6 million and \$6.6 million, respectively, to fund its share of capital projects. During the second quarter of 2014 and 2013, Columbia Transmission received distributions of earnings of \$4.8 million and \$4.3 million, respectively. For the six months ended June 30, 2014 and 2013 , Columbia transmission received distributions of earnings of \$11.9 million and \$10.9 million, respectively.

Millennium began two projects in 2012 that added approximately 30,000 hp of compression to its system. The first project went into service on June 1, 2013 and increased capacity at its interconnections with Algonquin Gas Transmission, with a total investment of approximately \$50 million. The second project included a total investment of approximately \$40 million that increased capacity with interconnections to other third-party facilities. The second project was placed into service on March 31, 2014. Columbia Transmission's share of the above investments is limited to its 47.5% interest in Millennium.

Hardy Storage. Hardy Storage is a 50:50 joint venture between subsidiaries of Columbia Transmission and Piedmont that manages an underground storage field in Hardy and Hampshire counties in West Virginia. Columbia Transmission serves as operator of the company, which is regulated by the FERC. Hardy Storage has a working storage capacity of 12 Bcf and the ability to deliver 176,000 Dth of natural gas per day.

During the second quarter of 2014 and 2013 , NiSource received \$0.5 million and \$1.0 million of available accumulated earnings, respectively. For the six months ended June 30, 2014 and 2013 , NiSource received \$1.0 million and \$1.4 million of available accumulated earnings, respectively. NiSource made no contributions during 2014 or 2013.

Nature of Sales

Columbia Transmission and Columbia Gulf compete for transportation customers based on the type of service a customer needs, operating flexibility, available capacity and price. Columbia Gulf and Columbia Transmission provide a significant portion of total transportation services under firm contracts and derive a smaller portion of revenues through interruptible contracts, with management seeking to maximize the portion of physical capacity sold under firm contracts.

Firm service contracts require pipeline capacity to be reserved for a given customer between certain receipt and delivery points. Firm customers generally pay a "capacity reservation" fee based on the amount of capacity being reserved regardless of whether the capacity is used, plus an incremental usage fee when the capacity is used. Annual capacity reservation revenues derived from firm service contracts generally remain constant over the life of the contract because the revenues are based upon capacity reserved and not whether the capacity is actually used. The high percentage of revenue derived from capacity reservation fees mitigates the risk of revenue fluctuations within the Columbia Pipeline Group Operations segment due to changes in near-term supply and demand conditions. The following percentages exclude the impact of intrasegment revenues and over / under collections of tracker-related revenues. For the quarter ended June 30, 2014 , approximately 94.3% of the transportation revenues were derived from capacity reservation fees paid under firm contracts and 3.9% of the transportation revenues were derived from usage fees under firm contracts compared to approximately 93.1% and 5.0%, respectively, for the quarter ended June 30, 2013 . For the six months ended June 30, 2014 , approximately 93.4% of the transportation revenues were derived from capacity reservation fees under firm

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Columbia Pipeline Group Operations

contracts and 4.6% of the transportation revenues were derived from usage fees under firm contracts compared to approximately 92.6% and 5.8% respectively, for the six months ended June 30, 2013 .

Interruptible transportation service is typically short term in nature and is generally used by customers that either do not need firm service or have been unable to contract for firm service. These customers pay a usage fee only for the volume of gas actually transported. The ability to provide this service is limited to available capacity not otherwise used by firm customers, and customers receiving services under interruptible contracts are not assured capacity in the pipeline facilities. Columbia Pipeline Group Operations provides interruptible service at competitive prices in order to capture short term market opportunities as they occur and interruptible service is viewed by management as an important strategy to optimize revenues from the gas transmission assets. For both the quarters ended June 30, 2014 and 2013 , approximately 1.8% of the transportation revenues were derived from interruptible contracts. For the six months ended June 30, 2014 and 2013 , approximately 2.1% and 1.6%, respectively, of the transportation revenues were derived from interruptible contracts.

Regulatory Matters

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on regulatory matters for the Columbia Pipeline Group Operations segment.

Environmental Matters

Various environmental matters occasionally impact the Columbia Pipeline Group Operations segment. As of June 30, 2014 , a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 17-C, "Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Columbia Pipeline Group Operations segment.

Throughput

Columbia Transmission's throughput consists of gas transportation service deliveries to LDC city gates, to gas fired power plants, other industrial customers, or other interstate pipelines in its market area. Columbia Transmission's market area covers portions of northeastern, mid-Atlantic, midwestern, and southern states as well as the District of Columbia. Gas delivered via transportation services to storage is not accounted for as throughput until it is withdrawn from storage and delivered to one of the aforementioned locations via a transportation service. Throughput for Columbia Gulf traditionally consists of gas delivered to Columbia Transmission at Leach, Kentucky as well as gas delivered south of Leach to other interstate pipelines or to an LDC's city gate. Market conditions on Columbia Gulf have resulted in greater use of backhaul transportation services from supplies originating near Leach Kentucky and its Louisiana interconnects to markets in the southeastern United States. Crossroads Pipeline serves customers in northern Indiana and Ohio via gas flowing west to east originating from outside the Chicago area to Cygnet, Ohio where it interconnects with Columbia Transmission. Intra-segment eliminations represent gas delivered to an affiliated pipeline within the segment.

Throughput for the Columbia Pipeline Group Operations segment totaled 321.5 MMDth for the second quarter of 2014 , compared to 288.3 MMDth for the same period in 2013 . The increase of 33.2 MMDth reflected favorable pricing conditions to third party interconnects in the Southeast region of the United States, which have been running at near full capacity.

Throughput for the Columbia Pipeline Group Operations segment totaled 910.0 MMDth for the six months ended June 30, 2014 , compared to 825.4 MMDth for the same period in 2013 . The increase of 84.6 MMDth was primarily attributable to much colder than normal weather and the favorable pricing conditions to third party interconnects, mentioned above.

Net Revenues

Net revenues were \$343.4 million for the second quarter of 2014 , an increase of \$69.7 million from the same period in 2013 . The increase in net revenues is due primarily to higher regulatory trackers, which are offset in expense, of \$47.5 million, increased demand margin revenue of \$15.0 million primarily as a result of growth projects placed in service and higher mineral rights royalty revenue of \$7.5 million.

Net revenues were \$688.9 million for the six months ended June 30, 2014, an increase of \$113.9 million from the same period in 2013. The increase in net revenues is due primarily to higher regulatory trackers, which are offset in expense, of \$72.0 million, increased demand margin revenue of \$22.4 million primarily as a result of growth projects placed in service and higher mineral rights royalty revenue of \$14.6 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Columbia Pipeline Group Operations

Operating Income

Operating income was \$103.7 million for the second quarter of 2014 , an increase of \$14.9 million from the second quarter of 2013 . Operating income increased as a result of higher net revenues, as described above, and higher equity earnings partially offset by increased operating expenses. Equity earnings increased \$3.1 million due to higher earnings at Millennium attributable to growth projects placed in service. Operating expenses were \$57.9 million higher than the comparable period primarily as a result of increased regulatory trackers, which are offset in net revenues, of \$47.5 million, higher employee and administrative expenses of \$4.2 million and increased depreciation of \$2.3 million.

Operating income was \$262.6 million for the six months ended June 30, 2014, an increase of \$40.3 million from the comparable 2013 period. Operating income increased as a result of higher net revenues, as described above, and higher equity earnings partially offset by increased operating expenses. Equity earnings increased \$5.8 million due to higher earnings at Millennium attributable to growth projects placed in service. Operating expenses were \$79.4 million higher than the comparable period primarily as a result of increased regulatory trackers, which are offset in net revenues, of \$72.0 million, higher employee and administrative expenses of \$10.9 million, increased depreciation of \$6.3 million and higher property taxes of \$2.5 million. These increases were partially offset by an increase in the gains on the sale of assets of \$17.6 million primarily resulting from conveyances of mineral interests.

NiSource generates and distributes electricity, through its subsidiary NIPSCO, to approximately 459 thousand customers in 20 counties in the northern part of Indiana. The operating results reflect the temperature-sensitive nature of customer demand with annual sales affected by temperatures in the northern part of Indiana. As a result, segment operating income is generally higher in the second and third quarters, reflecting cooling demand during the summer season.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Electric Operations

Electric Supply

On October 28, 2011, NIPSCO filed its 2011 Integrated Resource Plan with the IURC. The plan evaluates demand-side and supply-side resource alternatives to reliably and cost-effectively meet NIPSCO customers' future energy requirements over the next twenty years. Existing resources are expected to be sufficient, assuming favorable outcomes for environmental upgrades, to meet customers' needs for the next decade. NIPSCO continues to monitor and assess economic, regulatory and legislative activity, and will update its resource plan as appropriate.

Regulatory Matters

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Electric Operations segment.

Environmental Matters

Various environmental matters occasionally impact the Electric Operations segment. As of June 30, 2014, a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 17-C, "Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Electric Operations segment.

Transmission Upgrade Agreements

On February 11, 2014, NIPSCO entered into TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors have agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, which is estimated at \$50.3 million, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs, filed a complaint at FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. NIPSCO will continue to monitor developments in this matter but cannot estimate the impact (if any) on the Condensed Consolidated Financial Statements (unaudited) the complaint will have at this time.

Sales

Electric Operations sales quantities for the second quarter of 2014 were 4,260.9 gwh, a decrease of 228.8 gwh compared to the second quarter of 2013. The 5.1% decrease is primarily attributable to a decrease in market opportunities for off-system sales during the second quarter of 2014, partially offset by an increase in industrial usage.

Electric Operations sales quantities for the six months ended June 30, 2014 were 9,044.9 gwh, an increase of 355.8 gwh compared to the same period in 2013. The 4.1% increase is primarily attributable to an increase in industrial usage due to large industrial customers expanding plant operations and using less internal generation.

Net Revenues

Net revenues were \$259.1 million for the second quarter of 2014, an increase of \$15.3 million from the same period in 2013. The increase in net revenues is due primarily to higher industrial, commercial, and residential usage of \$8.1 million, an increase in the return on the environmental capital investment recovery of \$5.0 million due to an increased plant balance eligible for recovery, lower fuel handling costs of \$2.2 million and the effects of weather of \$2.1 million. These increases were partially offset by a decrease in off-system sales of \$5.5 million.

Net revenues were \$529.1 million for the six months ended June 30, 2014, an increase of \$32.6 million from the same period in 2013. The increase in net revenues is due primarily to higher industrial usage of \$15.7 million, an increase in the return on the environmental capital investment recovery of \$13.1 million due to an increased plant balance eligible for recovery, the effects of weather of \$6.5 million and higher off-system sales of \$4.1 million. Additionally, there was increased revenue of \$2.8 million as a result of two electric transmission projects authorized by the MISO. These increases were partially offset by a decrease in transmission upgrade revenue of \$6.5 million and lower trackers, which are offset in expense, of \$4.0 million.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased fuel costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three and six months ended June 30,

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Electric Operations

2014 was a revenue increase of \$10.5 million and \$30.8 million, respectively, compared to a revenue increase of \$6.9 million and a decrease of \$0.3 million for the three and six months ended June 30, 2013, respectively.

Operating Income

For the second quarter of 2014, Electric Operations reported operating income of \$62.9 million, an increase of \$3.4 million from the comparable 2013 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses increased \$11.9 million due primarily to higher electric generation costs of \$11.0 million as a result of outages and maintenance and increased employee and administrative expenses of \$5.6 million.

For the for the six months ended June 30, 2014, Electric Operations reported operating income of \$141.8 million, an increase of \$17.1 million from the comparable 2013 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses increased \$15.5 million due primarily to higher employee and administrative expenses of \$12.1 million and increased electric generation costs of \$10.9 million. These increases were partially offset by a decrease in trackers, which are offset in net revenues, of \$4.0 million.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

NiSource Inc.

For a discussion regarding quantitative and qualitative disclosures about market risk see “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Market Risk Disclosures.”

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

NiSource’s Chief Executive Officer and its Principal Financial Officer, after evaluating the effectiveness of NiSource’s disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)), have concluded based on the evaluation required by paragraph (b) of Exchange Act Rules 13a-15 and 15d-15 that, as of the end of the period covered by this report, NiSource’s disclosure controls and procedures are considered effective.

Changes in Internal Controls

During the quarter ended June 30, 2014, NiSource implemented the second phase of a multi-year process of migrating all of its subsidiaries to a common general ledger system. During this phase, Columbia of Ohio, Columbia of Pennsylvania, Columbia of Virginia, Columbia of Kentucky and Columbia of Maryland migrated to this new general ledger system. The implementation is not being made in response to any deficiency in our internal controls. This implementation has resulted in certain changes to business processes and internal controls impacting our financial reporting. NiSource has taken steps to monitor and maintain appropriate internal control over financial reporting during this phase and will continue to evaluate the operating effectiveness of related controls during subsequent phases and periods.

Pursuant to Item 601(b)(4)(iii) of Regulation S-K, NiSource hereby agrees to furnish the SEC, upon request, any instrument defining the rights of holders of long-term debt of NiSource not filed as an exhibit herein. No such instrument authorizes long-term debt securities in excess of 10% of the total assets of NiSource and its subsidiaries on a consolidated basis.

**Certification Pursuant to
Section 302 of the Sarbanes-Oxley Act of 2002**

I, Robert C. Skaggs, Jr., certify that:

1. I have reviewed this Quarterly Report of NiSource Inc. on Form 10-Q for the quarter ended June 30, 2014 ;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

1. Basis of Accounting Presentation

The accompanying Condensed Consolidated Financial Statements (unaudited) for NiSource (the “Company”) reflect all normal recurring adjustments that are necessary, in the opinion of management, to present fairly the results of operations in accordance with GAAP in the United States of America.

The accompanying financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in NiSource’s Annual Report on Form 10-K for the fiscal year ended December 31, 2013 . Income for interim periods may not be indicative of results for the calendar year due to weather variations and other factors.

The Condensed Consolidated Financial Statements (unaudited) have been prepared pursuant to the rules and regulations of the SEC. Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although NiSource believes that the disclosures made are adequate to make the information not misleading.

Planned Separation of Columbia Pipeline Group and Initial Public Offering of Columbia Pipeline Partners LP

On September 28, 2014, NiSource announced that its Board of Directors had approved in principle plans to separate its natural gas pipeline and related businesses into a stand-alone publicly traded company (the “Proposed Separation”). If completed, the Proposed Separation will result in two energy infrastructure companies: NiSource Inc., a fully regulated natural gas and electric utilities company, and Columbia Pipeline Group Inc., a natural gas pipeline, midstream and storage company (“CPG”). The Proposed Separation is expected to occur in mid-2015.

Under the plan for the Proposed Separation, NiSource shareholders would retain their current shares of NiSource stock and receive a *pro rata* distribution of shares of CPG stock in a transaction that is expected to be tax-free to NiSource and its shareholders.

On September 29, 2014, Columbia Pipeline Partners LP, a wholly owned subsidiary (“CPPL”), filed with the Securities and Exchange Commission a Registration Statement on Form S-1 related to CPPL’s proposed initial public offering of common units representing limited partner interests in CPPL. We expect that CPPL will sell a minority share of its total limited partner interests in the offering, which is expected to occur in the first quarter of 2015. If the proposed offering closes, CPPL’s initial asset would consist of an approximate 14.6% ownership interest in CPG OpCo LP (“Columbia OpCo”), which is the entity that will own substantially all of NiSource’s natural gas transmission, midstream and storage assets. In addition, NiSource, through its ownership of CPG, would indirectly own (a) the remaining ownership interest in Columbia OpCo, (b) the general partner of CPPL, (c) the remaining CPPL limited partner interests that are not sold in the offering and (d) all the incentive distribution rights in CPPL.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****2. Recent Accounting Pronouncements**

In June 2014, the FASB issued ASU 2014-12, *Compensation - Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period*. ASU 2014-12 clarifies that entities should treat performance targets that can be met after the requisite service period of a share-based payment award as performance conditions that affect vesting. NiSource is required to adopt ASU 2014-12 for periods beginning after December 15, 2015, including interim periods, and the guidance is to be applied prospectively, with early adoption permitted. Retroactive application would apply to awards with performance targets outstanding after the beginning of the first annual period presented. The adoption of this guidance will not have a material impact on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 outlines a single, comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. NiSource is required to adopt ASU 2014-09 for periods beginning after December 15, 2016, including interim periods, and the new standard is to be applied retrospectively with early adoption not permitted. NiSource is currently evaluating the impact the adoption of ASU 2014-09 will have on its Condensed Consolidated Financial Statements (unaudited) and Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2014, the FASB issued ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. ASU 2014-08 changes the criteria for reporting a discontinued operation. Under the new pronouncement, a disposal of a part of an organization that has a major effect on its operations and financial results is a discontinued operation. NiSource is required to adopt ASU 2014-08 prospectively for all disposals or components of its business classified as held for sale during fiscal periods beginning after December 15, 2014. NiSource is currently evaluating what impact, if any, adoption of ASU 2014-08 will have on its Condensed Consolidated Financial Statements (unaudited) and Notes to Condensed Consolidated Financial Statements (unaudited).

3. Earnings Per Share

Basic EPS is computed by dividing income available to common stockholders by the weighted-average number of shares of common stock outstanding for the period. The weighted average shares outstanding for diluted EPS includes the incremental effects of the various long-term incentive compensation plans. The numerator in calculating both basic and diluted EPS for each period is reported net income. The computation of diluted average common shares follows:

<i>(in thousands)</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Denominator				
Basic average common shares outstanding	315,418	312,842	314,889	312,053
Dilutive potential common shares:				
Stock options	32	112	30	102
Shares contingently issuable under employee stock plans	725	369	649	327
Shares restricted under stock plans	451	490	438	477
Diluted Average Common Shares	316,626	313,813	316,006	312,959

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****4. Discontinued Operations and Assets and Liabilities Held for Sale**

There were no assets and liabilities of discontinued operations and held for sale on the Condensed Consolidated Balance Sheets (unaudited) at September 30, 2014 and December 31, 2013 .

Results from discontinued operations are provided in the following table. These results are primarily from a settlement at NiSource's former exploration and production subsidiary, CER, NiSource's Retail Services business, and NiSource's unregulated natural gas marketing business.

<i>(in millions)</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Net Revenues from Discontinued Operations	\$ —	\$ 0.4	\$ —	\$ 1.3
(Loss) Income from discontinued operations	(0.2)	0.1	(1.0)	12.2
Income tax (benefit) expense	(0.1)	—	(0.4)	4.7
(Loss) Income from Discontinued Operations - net of taxes	\$ (0.1)	\$ 0.1	\$ (0.6)	\$ 7.5
(Loss) Gain on Disposition of Discontinued Operations - net of taxes	\$ —	\$ (1.5)	\$ —	\$ 34.9

5. Asset Retirement Obligations

Certain costs of removal that have been, and continue to be, included in depreciation rates and collected in the service rates of the rate-regulated subsidiaries are classified as “Regulatory liabilities” on the Condensed Consolidated Balance Sheets (unaudited).

Changes in NiSource’s liability for asset retirement obligations for the nine months ended September 30, 2014 and 2013 are presented in the table below:

<i>(in millions)</i>	2014	2013
Balance as of January 1,	\$ 174.4	\$ 160.4
Accretion expense	1.2	0.9
Accretion recorded as a regulatory asset/liability	6.3	6.5
Additions	2.3	9.7
Settlements	(1.4)	(1.3)
Change in estimated cash flows ⁽¹⁾	(7.6)	(0.7)
Balance as of September 30,	\$ 175.2	\$ 175.5

⁽¹⁾The change in estimated cash flows for 2014 is primarily attributed to changes in estimated costs to retire pipeline.

6. Regulatory Matters

Gas Distribution Operations Regulatory Matters

Significant Rate Developments . On April 30, 2013, Indiana Governor Pence signed Senate Enrolled Act 560 into law. Among other provisions, this legislation provides for cost recovery outside of a base rate proceeding for new or replacement electric and gas transmission, distribution, and storage projects that a public utility undertakes for the purposes of safety, reliability, system modernization, or economic development. Provisions of the TDSIC statute require that, among other things, requests for recovery include a seven-year plan of eligible investments. Once the plan is approved by the IURC, 80 percent of eligible costs can be recovered using a periodic rate adjustment mechanism. The cost recovery mechanism is referred to as a TDSIC mechanism. Recoverable costs include a return on, and of, the investment, including AFUDC, post in service carrying charges, operation and maintenance expenses, depreciation, and property taxes. The remaining 20 percent of recoverable costs are to be deferred for future recovery in the public utility's next general rate case. The periodic rate adjustment mechanism is capped at an annual increase of no more than two percent of total retail revenues. On October 3, 2013, NIPSCO filed its gas TDSIC seven-year plan of eligible investments for a total of approximately \$710 million with the IURC. On April 30, 2014, the IURC issued an order approving NIPSCO's gas TDSIC seven-year plan. On May 29, 2014, the NIPSCO Industrial Group filed a Notice of Appeal with the Indiana Court of Appeals in response to the IURC's April 30, 2014 ruling. Subsequently, the NIPSCO Industrial Group filed a Voluntary Notice of Dismissal, which was granted with prejudice.

On September 12, 2014, Columbia of Ohio filed an application that seeks authority to establish a regulatory asset and defer, for accounting and financial reporting purposes, the expenditures to be incurred in implementing Columbia of Ohio's Pipeline Safety Program. Columbia of Ohio is requesting authority to defer Pipeline Safety Program costs of up to \$15 million annually. Comments are due November 17, 2014, and Reply Comments are due December 2, 2014.

On November 25, 2013, Columbia of Ohio filed a Notice of Intent to file an application to adjust rates associated with its IRP and DSM Riders. Columbia of Ohio filed its Application on February 28, 2014, requesting authority to increase revenues by approximately \$25.5 million . The parties have settled all issues, and on April 7, 2014 filed a stipulation providing for a revenue increase of approximately \$25.5 million . On April 23, 2014, Columbia of Ohio received approval of its annual infrastructure replacement and demand-side management rider request from the PUCO. New rates became effective April 30, 2014.

On September 16, 2013, Columbia of Massachusetts filed its Peak Period GAF for the period November 1, 2013 through April 30, 2014, and its Peak Period 2012-2013 GAF Reconciliation. On January 17, 2014, Columbia of Massachusetts filed a revision to the GAF effective February 1, 2014, and on February 18, 2014, Columbia of Massachusetts filed its second revision to the GAF effective March 1, 2014, to eliminate Columbia of Massachusetts's projected Peak Period under-collection of \$50.0 million . On February 28, 2014, the Massachusetts DPU approved a revised GAF subject to further review and reconciliation to recover approximately \$25 million of the anticipated under-collection and defer recovery of the remaining \$25 million to November 2014 through April 2015, and thus, this deferred amount has been incorporated into the proposed GAF as filed on September 16, 2014, in Columbia of Massachusetts's 2014-2015 Peak Period GAF filing.

On August 4, 2014, Columbia of Massachusetts filed its 2014-2015 Peak Period LDAF and on September 16, 2014, Columbia of Massachusetts filed its 2014 PEF and its 2014 RAAF, each with a proposed effective date of November 1, 2014. Columbia of Massachusetts expects approval of the 2014-2015 LDAF by October 31, 2014. Columbia of Massachusetts also expects approval of the 2014 PEF and 2014 RAAF by October 31, 2014, subject to further investigation and reconciliation.

On April 16, 2013, Columbia of Massachusetts submitted a filing with the Massachusetts DPU requesting an annual revenue requirement increase of \$30.1 million . Pursuant to the procedural schedule for this case, on September 3, 2013, Columbia of Massachusetts filed its updated revenue requirement of \$29.5 million and on October 16, 2013, filed an updated cost of service for \$30 million . A final revenue requirement update of \$29.9 million was filed on December 16, 2013. On February 28, 2014, the Massachusetts DPU issued an order granting an annual revenue requirement increase of \$19.3 million effective March 1, 2014, and the compliance filing associated with the order has been approved.

On March 21, 2014, Columbia of Pennsylvania filed a base rate case with the Pennsylvania PUC, seeking a revenue increase of approximately \$54.1 million annually. The case is driven by Columbia of Pennsylvania's capital investment program which exceeds \$180 million in both 2014 and 2015 as well as new pipeline safety-related operation and maintenance expenditures. Columbia of Pennsylvania seeks Pennsylvania PUC approval to implement additional rates to recover costs that are projected to be incurred after the implementation of those new rates, as authorized by the Pennsylvania General Assembly with the passage of Act 11 of

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

2012. Columbia of Pennsylvania's filing seeks to implement rates in December 2014 under which Columbia of Pennsylvania would immediately begin to recover costs that are projected for the twelve-month period ending December 31, 2015. On September 5, 2014, the parties to the rate case filed a joint petition which seeks approval of a full settlement. If the settlement is approved, Columbia of Pennsylvania will be authorized to increase its annual base revenues by \$32.5 million. The administrative law judge assigned to the case issued a Recommended Decision on October 17, 2014, in which he recommended that the settlement be approved, without modification. A final order from the Pennsylvania PUC is expected in the fourth quarter of 2014.

On April 30, 2014, Columbia of Virginia filed a base rate case with the VSCC seeking an annual revenue increase of \$31.8 million, which includes \$6.9 million in annual revenues currently collected as a separate infrastructure replacement rider on customers' bills under the Virginia SAVE Plan Act. The SAVE rider will be reset to zero and these revenues will be moved into non-gas base rates, resulting in a proposed net revenue increase of \$24.9 million per year. Columbia of Virginia also seeks to recover costs related to its implementation of pipeline safety programs and forward looking adjustments to its capital investments and changes in operating costs projected to occur during the rate year ending September 30, 2015. In addition, Columbia of Virginia is proposing a change from volumetric based (Mcf) billing to thermal based (Btu) billing. The VSCC issued a procedural order in the case on May 28, 2014 which scheduled the case for hearing on December 9, 2014. New rates are subject to refund and became effective October 1, 2014.

Cost Recovery and Trackers. A significant portion of the distribution companies' revenue is related to the recovery of gas costs, the review and recovery of which occurs via standard regulatory proceedings. All states require periodic review of actual gas procurement activity to determine prudence and to permit the recovery of prudently incurred costs related to the supply of gas for customers. NiSource distribution companies have historically been found prudent in the procurement of gas supplies to serve customers.

Certain operating costs of the NiSource distribution companies are significant, recurring in nature, and generally outside the control of the distribution companies. Some states allow the recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for the distribution companies to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such mechanisms include GCR adjustment mechanisms, tax riders, gas energy efficiency programs, and bad debt recovery mechanisms.

Comparability of Gas Distribution Operations line item operating results is impacted by regulatory trackers that allow for the recovery in rates of certain costs such as bad debt expenses. Increases in the expenses that are subject to trackers result in a corresponding increase in net revenues and therefore have essentially no impact on total operating income results.

Certain NiSource distribution companies have completed rate proceedings involving infrastructure replacement or are embarking upon regulatory initiatives to replace significant portions of their operating systems that are nearing the end of their useful lives. Each LDC's approach to cost recovery may be unique, given the different laws, regulations and precedent that exist in each jurisdiction.

As further discussed above, NIPSCO has approval from the IURC to recover certain costs for transmission, distribution and storage system improvements. On August 28, 2014, NIPSCO filed its gas TDSIC-1 with the IURC for ratemaking and accounting relief associated with the eligible investments, which included \$4.4 million of net capital expenditures for the period ended June 30, 2014. This filing includes changes to the revenue requirement mechanism to be consistent with the IURC order in the electric TDSIC case and revised seven-year plan eligible investment projections. An order is expected in the first quarter of 2015.

Columbia Pipeline Group Operations Regulatory Matters

Significant Rate Developments. On January 30, 2014, Columbia Transmission received FERC approval of its December 2013 filing to recover costs associated with the first year of its comprehensive system modernization program. During 2013, Columbia Transmission completed more than 30 individual projects representing a total investment of about \$300 million. The program includes replacement of aging pipeline and compressor facilities, enhancements to system inspection capabilities, and improvements in real-time analytics and control systems. Recovery of the 2013 investments began on February 1, 2014.

The second year of the program includes planned modernization investments of approximately \$330 million. Columbia Transmission and its customers have agreed to the initial five years of the comprehensive modernization program, with an opportunity to mutually extend the agreement.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Cost Recovery Trackers. A significant portion of the regulated transmission and storage companies' revenue is related to the recovery of their operating costs, the review and recovery of which occurs via standard regulatory proceedings with the FERC under section 4 of the Natural Gas Act. However, certain operating costs of the NiSource regulated transmission and storage companies are significant and recurring in nature, such as fuel for compression and lost and unaccounted for gas, which is settled in-kind and reflected net of recoveries in operating expenses. The FERC allows for the recovery of such costs via cost tracking mechanisms. These tracking mechanisms allow the transmission and storage companies' rates to fluctuate in response to changes in certain operating costs or conditions as they occur to facilitate the timely recovery of its costs incurred. The tracking mechanisms involve a rate adjustment that is filed at a predetermined frequency, typically annually, with the FERC and is subject to regulatory review before new rates go into effect. Other such costs under regulatory tracking mechanisms include third-party pipeline transportation, electric compression, certain environmental related expenses, and certain operational purchases and sales of natural gas.

Electric Operations Regulatory Matters

Significant Rate Developments . On July 19, 2013, NIPSCO filed its electric TDSIC, further discussed above, with the IURC. The filing included the seven-year plan of eligible investments for a total of approximately \$1.1 billion with the majority of the spend occurring in years 2016 through 2020. On February 17, 2014, the IURC issued an order approving NIPSCO's seven-year plan of eligible investments. The Order also granted NIPSCO ratemaking relief associated with the eligible investments through a rate adjustment mechanism. On March 10, 2014, the OUCC filed a Petition for Reconsideration with the IURC, and the IURC denied that Petition for Reconsideration on May 7, 2014. In addition, the NIPSCO Industrial Group and the OUCC have filed Notices of Appeal with the Indiana Court of Appeals in response to the IURC's ruling, which are still pending.

On November 12, 2013, several industrial customers, including INDIEC, filed a complaint at the FERC regarding the 12.38% base ROE used to set the MISO Transmission Owners' transmission rates and requested a reduction in the base ROE to 9.15% . The complaint requested that FERC limit the capital structure of MISO Transmission Owners to no more than 50% common equity for ratemaking purposes and that FERC eliminate incentive adders for membership in a RTO. On October 16, 2014, FERC issued an Order that dismissed the portions of the complaint that challenged Transmission Owner capital structures and incentive adders; set the base ROE for hearing and suspended to allow for settlement; set a refund effective date of November 12, 2013; and directed the parties to the new two-step discounted cash flow methodology established by FERC in Opinion No. 531 in Docket No. EL11-77-001. NIPSCO is unable to estimate the impact of this complaint or the timing of any potential impact at this time.

Cost Recovery and Trackers . A significant portion of NIPSCO's revenue is related to the recovery of fuel costs to generate power and purchased power. These costs are recovered through a FAC, a standard, quarterly, "summary" regulatory proceeding in Indiana.

Certain operating costs of the Electric Operations are significant, recurring in nature, and generally outside the control of NIPSCO. The IURC allows for recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for NIPSCO to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such mechanisms include electric energy efficiency programs, MISO non-fuel costs and revenues, federally mandated costs, resource capacity charges, and environmental related costs.

NIPSCO has approval from the IURC to recover certain environmental related costs through an ECT. Under the ECT, NIPSCO is permitted to recover (1) AFUDC and a return on the capital investment expended by NIPSCO to implement environmental compliance plan projects through an ECRM and (2) related operation and maintenance and depreciation expenses once the environmental facilities become operational through an EERM. On August 1, 2014, NIPSCO filed ECR-24 which included \$658.4 million of net capital expenditures for the period ended June 30, 2014. An order is expected in the fourth quarter of 2014.

As further discussed above, NIPSCO has approval from the IURC to recover certain costs for transmission and distribution system improvements. On August 28, 2014, NIPSCO filed its electric TDSIC-1 with the IURC for ratemaking and accounting relief associated with the eligible investments, which included \$19.4 million of net capital expenditures for the period ended June 30, 2014. An order is expected in the fourth quarter of 2014.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

7. Fair Value

A. Fair Value Measurements

Recurring Fair Value Measurements. The following tables present financial assets and liabilities measured and recorded at fair value on NiSource's Condensed Consolidated Balance Sheets (unaudited) on a recurring basis and their level within the fair value hierarchy as of September 30, 2014 and December 31, 2013 :

Recurring Fair Value Measurements September 30, 2014 (in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of September 30, 2014
Assets				
Price risk management assets:				
Commodity financial price risk programs	\$ 0.7	\$ —	\$ —	\$ 0.7
Available-for-sale securities	31.6	103.6	—	135.2
Total	\$ 32.3	\$ 103.6	\$ —	\$ 135.9
Liabilities				
Price risk management liabilities:				
Commodity financial price risk programs	\$ 3.5	\$ —	\$ 0.9	\$ 4.4
Total	\$ 3.5	\$ —	\$ 0.9	\$ 4.4

Recurring Fair Value Measurements December 31, 2013 (in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2013
Assets				
Price risk management assets:				
Commodity financial price risk programs	\$ 2.1	\$ —	\$ —	\$ 2.1
Interest rate risk activities	—	21.1	—	21.1
Available-for-sale securities	25.3	96.1	—	121.4
Total	\$ 27.4	\$ 117.2	\$ —	\$ 144.6
Liabilities				
Price risk management liabilities:				
Commodity Financial price risk programs	\$ 1.6	\$ —	\$ 0.1	\$ 1.7
Total	\$ 1.6	\$ —	\$ 0.1	\$ 1.7

Price risk management assets and liabilities include commodity exchange-traded and non-exchange-based derivative contracts. Exchange-traded derivative contracts are based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards, and options. In certain instances, these instruments may utilize models to measure fair value. NiSource uses a similar model to value similar instruments. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability, and market-corroborated inputs, i.e., inputs derived principally from or corroborated by observable market data by correlation or other means. Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures. As of

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

September 30, 2014 and December 31, 2013 , there were no material transfers between fair value hierarchies. Additionally, there were no changes in the method or significant assumptions used to estimate the fair value of NiSource's financial instruments.

At December 31, 2013, price risk management assets also include fixed-to-floating interest rate swaps, which are designated as fair value hedges, as a means to achieve NiSource's targeted level of variable-rate debt as a percent of total debt. NiSource used a calculation of future cash inflows and estimated future outflows related to the swap agreements, which we discounted and netted to determine the current fair value. Additional inputs to the present value calculation include the contract terms, as well as market parameters such as current and projected interest rates and volatility. As they are based on observable data and valuations of similar instruments, the interest rate swaps are categorized in Level 2 in the fair value hierarchy. Credit risk is considered in the fair value calculation of the interest rate swap. On July 15, 2014, \$500.0 million of fixed-to-variable interest rate swaps expired, whereby NiSource Finance received payments based upon a fixed 5.40% interest rate and paid a floating interest rate amount based on U.S. 6-month BBA LIBOR plus an average of 0.78% per annum.

Available-for-sale securities are investments pledged as collateral for trust accounts related to NiSource's wholly-owned insurance company. Available-for-sale securities are included within "Other investments" in the Condensed Consolidated Balance Sheets (unaudited). Securities classified within Level 1 include U.S. Treasury debt securities which are highly liquid and are actively traded in over-the-counter markets. NiSource values corporate and mortgage-backed debt securities using a matrix pricing model that incorporates market-based information. These securities trade less frequently and are classified within Level 2. Total gains and losses from available-for-sale securities are included in other comprehensive income (loss). The amortized cost, gross unrealized gains and losses, and fair value of available-for-sale debt securities at September 30, 2014 and December 31, 2013 were:

September 30, 2014 <i>(in millions)</i>	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale debt securities				
U.S. Treasury	\$ 34.3	\$ 0.2	\$ (0.3)	\$ 34.2
Corporate/Other	101.0	0.9	(0.9)	101.0
Total Available-for-sale debt securities	\$ 135.3	\$ 1.1	\$ (1.2)	\$ 135.2
<hr/>				
December 31, 2013 <i>(in millions)</i>	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale debt securities				
U.S. Treasury	\$ 30.3	\$ 0.3	\$ (0.5)	\$ 30.1
Corporate/Other	91.5	1.1	(1.3)	91.3
Total Available-for-sale debt securities	\$ 121.8	\$ 1.4	\$ (1.8)	\$ 121.4

For the three months ended September 30, 2014 and 2013 , the net realized gain on the sale of available-for-sale U.S. Treasury debt securities was zero and \$0.1 million , respectively. For the three months ended September 30, 2014 and 2013 , the net realized gain on the sale of available-for-sale Corporate/Other bond debt securities was \$0.1 million and zero , respectively.

For the nine months ended September 30, 2014 and 2013 , the net realized gain on the sale of available-for-sale U.S. Treasury debt securities was \$0.1 million and \$0.5 million , respectively. For the nine months ended September 30, 2014 and 2013 , the net realized gain on the sale of available-for-sale Corporate/Other bond debt securities was \$0.3 million .

The cost of maturities sold is based upon specific identification. At September 30, 2014 , approximately \$4.9 million of U.S. Treasury debt securities have maturities of less than a year while the remaining securities have maturities of greater than one year. At September 30, 2014 , approximately \$6.2 million of Corporate/Other bonds have maturities of less than a year while the remaining securities have maturities of greater than one year.

There are no material items in the fair value reconciliation of Level 3 assets and liabilities measured at fair value on a recurring basis for the three and nine months ended September 30, 2014 and 2013 .

Non-recurring Fair Value Measurements. There were no significant non-recurring fair value measurements recorded during the nine months ended September 30, 2014 .

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

B. Other Fair Value Disclosures for Financial Instruments. The carrying amount of cash and cash equivalents, restricted cash, notes receivable, customer deposits and short-term borrowings is a reasonable estimate of fair value due to their liquid or short-term nature. NiSource's long-term borrowings are recorded at historical amounts.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate fair value.

Long-term Debt. The fair values of these securities are estimated based on the quoted market prices for the same or similar issues or on the rates offered for securities of the same remaining maturities. Certain premium costs associated with the early settlement of long-term debt are not taken into consideration in determining fair value. These fair value measurements are classified as Level 2 within the fair value hierarchy. For the nine months ended September 30, 2014 and 2013, there were no changes in the method or significant assumptions used to estimate the fair value of the financial instruments.

The carrying amount and estimated fair values of financial instruments were as follows:

<i>(in millions)</i>	Carrying Amount as of September 30, 2014	Estimated Fair Value as of September 30, 2014	Carrying Amount as of Dec. 31, 2013	Estimated Fair Value as of Dec. 31, 2013
Long-term debt (including current portion)	\$ 8,416.1	\$ 9,338.2	\$ 8,135.3	\$ 8,697.3

8. Transfers of Financial Assets

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited). The maximum amount of debt that can be recognized related to NiSource's accounts receivable programs is \$515 million.

All accounts receivables sold to the commercial paper conduits are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined in part by required loss reserves under the agreements. Below is information about the accounts receivable securitization agreements entered into by NiSource's subsidiaries.

Columbia of Ohio is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CGORC, a wholly-owned subsidiary of Columbia of Ohio. CGORC, in turn, is party to an agreement with BTMU and BNS under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to commercial paper conduits sponsored by BTMU and BNS. This agreement was last renewed on October 17, 2014. The maximum seasonal program limit under the terms of the current agreement is \$240 million. The current agreement expires on October 16, 2015, and can be further renewed if mutually agreed to by all parties. As of September 30, 2014, \$70.8 million of accounts receivable had been transferred by CGORC. CGORC is a separate corporate entity from NiSource and Columbia of Ohio, with its own separate obligations, and upon a liquidation of CGORC, CGORC's obligations must be satisfied out of CGORC's assets prior to any value becoming available to CGORC's stockholder.

NIPSCO is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to NARC, a wholly-owned subsidiary of NIPSCO. NARC, in turn, is party to an agreement with PNC and Mizuho under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to commercial paper conduits sponsored by PNC and Mizuho. This agreement was last renewed on August 27, 2014. The maximum seasonal program limit under the terms of the current agreement is \$200 million. The current agreement expires on August 26, 2015, and can be further renewed if mutually agreed to by all parties. As of September 30, 2014, \$125.0 million of accounts receivable had been transferred by NARC. NARC is a separate corporate entity from NiSource and NIPSCO, with its own separate obligations, and upon a liquidation of NARC, NARC's obligations must be satisfied out of NARC's assets prior to any value becoming available to NARC's stockholder.

Columbia of Pennsylvania is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CPRC, a wholly-owned subsidiary of Columbia of Pennsylvania. CPRC, in turn, is party to an agreement with BTMU under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to a commercial paper conduit sponsored by BTMU. The maximum seasonal program limit under the terms of the agreement is \$75 million. The agreement with BTMU was renewed on March 11, 2014, having a current scheduled termination date of March 10, 2015, and can be further renewed if mutually agreed to by both parties. As of September 30, 2014, \$10.0 million of accounts receivable had been transferred

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

by CPRC. CPRC is a separate corporate entity from NiSource and Columbia of Pennsylvania, with its own separate obligations, and upon a liquidation of CPRC, CPRC's obligations must be satisfied out of CPRC's assets prior to any value becoming available to CPRC's stockholder.

The following table reflects the gross and net receivables transferred as well as short-term borrowings related to the securitization transactions as of September 30, 2014 and December 31, 2013 for Columbia of Ohio, NIPSCO and Columbia of Pennsylvania:

<i>(in millions)</i>	September 30, 2014		December 31, 2013	
Gross Receivables	\$	374.0	\$	610.9
Less: Receivables not transferred		168.2		345.8
Net receivables transferred	\$	205.8	\$	265.1
Short-term debt due to asset securitization	\$	205.8	\$	265.1

Columbia of Ohio, NIPSCO and Columbia of Pennsylvania remain responsible for collecting on the receivables securitized and the receivables cannot be sold to another party.

9. Goodwill

NiSource tests its goodwill for impairment annually as of May 1 unless indicators, events, or circumstances would require an immediate review. Goodwill is tested for impairment using financial information at the reporting unit level, which is consistent with the level of discrete financial information reviewed by operating segment management. NiSource's three reporting units are Columbia Distribution Operations, Columbia Transmission Operations and NIPSCO Gas Distribution Operations.

NiSource's goodwill assets as of September 30, 2014 were \$3.7 billion pertaining primarily to the acquisition of Columbia on November 1, 2000. Of this amount, approximately \$2.0 billion is allocated to Columbia Transmission Operations and \$1.7 billion is allocated to Columbia Distribution Operations. In addition, NIPSCO Gas Distribution Operations' goodwill assets of \$17.8 million at September 30, 2014 relate to the purchase of Northern Indiana Fuel and Light in March 1993 and Kokomo Gas in February 1992.

NiSource completed a quantitative ("step 1") fair value measurement of its reporting units during the May 1, 2012 goodwill test. The test indicated that the fair value of each of the reporting units that carry or are allocated goodwill substantially exceeded their carrying values, indicating that no impairment existed.

ASU 2011-08 allows entities testing goodwill for impairment the option of performing a qualitative ("step 0") assessment before calculating the fair value of a reporting unit for the goodwill impairment test. If a step 0 assessment is performed, an entity is no longer required to calculate the fair value of a reporting unit unless the entity determines that, based on that assessment, it is more likely than not that its fair value is less than its carrying amount.

NiSource applied the qualitative step 0 analysis to its reporting units for the annual impairment test performed as of May 1, 2014. For the current year test, NiSource assessed various assumptions, events and circumstances that would have affected the estimated fair value of the reporting units as compared to its base line May 1, 2012 step 1 fair value measurement. The results of this assessment indicated that it is not more likely than not that its reporting unit fair values are less than the reporting unit carrying values.

NiSource considered whether there were any events or changes in circumstances subsequent to the annual test that would reduce the fair value of any of the reporting units below their carrying amounts and necessitate another goodwill impairment test. No such indicators were noted that would require a subsequent goodwill impairment testing during the third quarter.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

10. Income Taxes

NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2014 and 2013, adjusted for tax expense associated with certain discrete items. The effective tax rates for the three months ended September 30, 2014 and 2013 were 45.1% and 36.0%, respectively. The effective tax rate for the nine months ended September 30, 2014 and 2013 were 37.7% and 34.7%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking, and other permanent book-to-tax differences.

The increase in the three month effective tax rate of 9.1% in 2014 versus 2013 is primarily due to a change in the estimated annual effective tax rate due to a revision in estimated nontaxable income during the third quarter of 2014. The increase in the year-to-date effective tax rate of 3.0% is primarily due to the impact of the Indiana tax rate change, see below for further information, and deferred tax adjustments recorded in 2013 related to state apportionment changes.

On March 25, 2014, the governor of Indiana signed into law Senate Bill 1, which among other things, lowers the corporate income tax rate from 6.5% to 4.9% over six years beginning on July 1, 2015. The reduction in the tax rate will impact deferred income taxes and tax related regulatory assets and liabilities recoverable in the ratemaking process. In addition, other deferred tax assets and liabilities, primarily deferred tax assets related to the Indiana net operating loss carry forward, will be reduced to reflect the lower rate at which these temporary differences and tax benefits will be realized. In the first quarter of 2014, NiSource recorded tax expense of \$7.1 million to reflect the effect of this rate change. This expense is largely attributable to the remeasurement of the Indiana net operating loss at the 4.9% rate. The majority of NiSource's tax temporary differences are related to NIPSCO's utility plant. The remeasurement of these temporary differences at 4.9% was recorded as a reduction of a regulatory asset.

There were no material changes recorded in 2014 to NiSource's uncertain tax positions as of December 31, 2013.

11. Pension and Other Postretirement Benefits

NiSource provides defined contribution plans and noncontributory defined benefit retirement plans that cover its employees. Benefits under the defined benefit retirement plans reflect the employees' compensation, years of service and age at retirement. Additionally, NiSource provides health care and life insurance benefits for certain retired employees. The majority of employees may become eligible for these benefits if they reach retirement age while working for NiSource. The expected cost of such benefits is accrued during the employees' years of service. Current rates of rate-regulated companies include postretirement benefit costs, including amortization of the regulatory assets that arose prior to inclusion of these costs in rates. For most plans, cash contributions are remitted to grantor trusts.

For the nine months ended September 30, 2014, NiSource has contributed \$35.3 million to its pension plans and \$29.3 million to its other postretirement benefit plans.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

The following tables provide the components of the plans' net periodic benefits cost for the three and nine months ended September 30, 2014 and 2013 :

Three Months Ended September 30, <i>(in millions)</i>	Pension Benefits		Other Postretirement Benefits	
	2014	2013	2014	2013
Components of Net Periodic Benefit Cost				
Service cost	\$ 8.7	\$ 9.0	\$ 2.0	\$ 3.0
Interest cost	27.2	24.9	7.0	8.0
Expected return on assets	(45.3)	(42.0)	(9.3)	(7.6)
Amortization of transition obligation	—	—	—	0.2
Amortization of prior service cost (credit)	0.1	—	(1.4)	(0.2)
Recognized actuarial loss	11.9	18.9	0.2	2.8
Settlement loss	—	4.0	—	—
Total Net Periodic Benefit Cost (Credit)	\$ 2.6	\$ 14.8	\$ (1.5)	\$ 6.2

Nine Months Ended September 30, <i>(in millions)</i>	Pension Benefits		Other Postretirement Benefits	
	2014	2013	2014	2013
Components of Net Periodic Benefit Cost				
Service cost	\$ 26.1	\$ 27.7	\$ 6.5	\$ 9.0
Interest cost	81.8	73.5	23.0	24.2
Expected return on assets	(135.9)	(126.5)	(27.5)	(22.8)
Amortization of transition obligation	—	—	—	0.4
Amortization of prior service cost (credit)	0.1	0.2	(2.9)	(0.6)
Recognized actuarial loss	35.7	59.3	0.3	8.4
Settlement loss	—	28.3	—	—
Total Net Periodic Benefit Cost (Credit)	\$ 7.8	\$ 62.5	\$ (0.6)	\$ 18.6

In 2013, NiSource pension plans had lump sum payouts exceeding the plans' 2013 service cost plus interest cost and, therefore, settlement accounting was required.

12. Variable Interests and Variable Interest Entities

In general, a VIE is an entity that (1) has an insufficient amount of at-risk equity to permit the entity to finance its activities without additional financial subordinated support provided by any parties, (2) whose at-risk equity owners, as a group, do not have power, through voting rights or similar rights, to direct activities of the entity that most significantly impact the entity's economic performance or (3) whose at-risk owners do not absorb the entity's losses or receive the entity's residual return. A VIE is required to be consolidated by a company if that company is determined to be the primary beneficiary of the VIE.

NiSource consolidates those VIEs for which it is the primary beneficiary. NiSource considers quantitative and qualitative elements in determining the primary beneficiary. Qualitative measures include the ability to control an entity and the obligation to absorb losses or the right to receive benefits.

NiSource's analysis includes an assessment of guarantees, operating leases, purchase agreements, and other contracts, as well as its investments and joint ventures. For items that have been identified as variable interests, or where there is involvement with an identified VIE, an in-depth review of the relationship between the relevant entities and NiSource is made to evaluate qualitative and quantitative factors to determine the primary beneficiary, if any, and whether additional disclosures would be required under the current standard.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

NIPSCO has a service agreement with Pure Air, a general partnership between Air Products and Chemicals, Inc. and First Air Partners LP, under which Pure Air provides scrubber services to reduce sulfur dioxide emissions for Units 7 and 8 at the Bailly Generating Station. NiSource has made an exhaustive effort to obtain information needed from Pure Air to determine the status of Pure Air as a VIE. However, NIPSCO has not been able to obtain this information and, as a result, it is unclear whether Pure Air is a VIE and if NIPSCO is the primary beneficiary. NIPSCO will continue to request the information required to determine whether Pure Air is a VIE. NIPSCO has no exposure to loss related to the service agreement with Pure Air and payments under this agreement were \$17.0 million and \$17.1 million for the nine months ended September 30, 2014 and 2013, respectively.

13. Long-Term Debt

On August 20, 2014, NiSource Finance negotiated a \$750.0 million three-year bank term loan with a syndicate of banks which carries a floating interest rate of BBA LIBOR plus 100 basis points.

On July 15, 2014, NiSource Finance redeemed \$500.0 million of 5.40% senior unsecured notes at maturity.

14. Short-Term Borrowings

NiSource Finance maintains a \$2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's \$1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes. At September 30, 2014, NiSource had no outstanding borrowings under this facility.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse, RBS and Wells Fargo. Commercial paper issuances are supported by available capacity under NiSource's \$2.0 billion unsecured revolving credit facility. At September 30, 2014, NiSource had \$1,105.3 million of commercial paper outstanding.

As of September 30, 2014, NiSource had \$31.2 million of stand-by letters of credit outstanding of which \$15.0 million were under the revolving credit facility. At December 31, 2013, NiSource had \$31.6 million of stand-by letters of credit outstanding of which \$14.3 million were under the revolving credit facility.

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term debt on the Condensed Consolidated Balance Sheets (unaudited) in the amount of \$205.8 million and \$265.1 million as of September 30, 2014 and December 31, 2013, respectively. Refer to Note 8, "Transfers of Financial Assets," for additional information.

<i>(in millions)</i>	September 30, 2014	December 31, 2013
Commercial Paper weighted average interest rate of 0.67% and 0.70% at September 30, 2014 and December 31, 2013, respectively.	\$ 1,105.3	\$ 433.6
Accounts receivable securitization facility borrowings	205.8	265.1
Total Short-Term Borrowings	\$ 1,311.1	\$ 698.7

Given their turnover is less than 90 days, cash flows related to the borrowings and repayments of the items listed above are presented net in the Condensed Statements of Consolidated Cash Flows (unaudited).

15. Share-Based Compensation

The stockholders approved and adopted the NiSource Inc. 2010 Omnibus Incentive Plan (the "Omnibus Plan"), at the Annual Meeting of Stockholders held on May 11, 2010. The Omnibus Plan provides for awards to employees and non-employee directors of incentive and nonqualified stock options, stock appreciation rights, restricted stock and restricted stock units, performance shares, performance units, cash-based awards and other stock-based awards. The Omnibus Plan provides that the number of shares of common stock of NiSource available for awards is 8,000,000 plus the number of shares subject to outstanding awards granted under either the 1994 Plan (defined below) or the Director Stock Incentive Plan ("Director Plan") that expire or terminate for any reason. No further awards are permitted to be granted under the 1994 Plan or the Director Plan. At September 30, 2014, there were 6,260,962 shares reserved for future awards under the Omnibus Plan.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Prior to May 11, 2010, NiSource issued long-term equity incentive grants to key management employees under a long-term incentive plan approved by stockholders on April 13, 1994 (“1994 Plan”). The types of equity awards previously authorized under the 1994 Plan did not significantly differ from those permitted under the Omnibus Plan.

NiSource recognized stock-based employee compensation expense of \$16.3 million and \$8.8 million for the three months ended September 30, 2014 and 2013 , respectively, as well as related tax benefits of \$5.4 million and \$3.2 million , respectively. For the nine months ended September 30, 2014 and 2013 , stock-based employee compensation expense of \$27.3 million and \$17.5 million was recognized, respectively, as well as related tax benefit of \$10.1 million and \$6.1 million , respectively.

As of September 30, 2014 , the total remaining unrecognized compensation cost related to nonvested awards amounted to \$26.8 million , which will be amortized over the weighted-average remaining requisite service period of 2.2 years .

Stock Options. As of September 30, 2014 , approximately 0.1 million options were outstanding and exercisable with a weighted average strike price of \$22.62 . No options were granted during the nine months ended September 30, 2014 and 2013 . As of September 30, 2014 , the aggregate intrinsic value for the options outstanding and exercisable was \$2.0 million . During the nine months ended September 30, 2014 and 2013 , cash received from the exercise of options was \$6.8 million and \$22.6 million , respectively.

Restricted Stock Units and Restricted Stock. During the nine months ended September 30, 2014 , NiSource granted 148,133 restricted stock units and shares of restricted stock, subject to service conditions. The total grant date fair value of restricted stock units and shares of restricted stock was \$4.8 million , based on the average market price of NiSource’s common stock at the date of each grant less the present value of any dividends not received during the vesting period, which will be expensed, net of forfeitures, over the vesting period which is generally three years. As of September 30, 2014 , 309,829 nonvested (all of which are expected to vest) restricted stock units and shares of restricted stock were granted and outstanding.

Performance Shares. During the nine months ended September 30, 2014 , NiSource granted 535,037 performance shares subject to service and performance conditions. The grant date fair value of the awards was \$16.6 million , based on the average market price of NiSource’s common stock at the date of each grant less the present value of dividends not received during the vesting period which will be expensed, net of forfeitures, over the three year requisite service and performance period. As of September 30, 2014 , 1,735,551 nonvested performance shares were granted and outstanding.

401(k) Match, Profit Sharing and Company Contribution. NiSource has a voluntary 401(k) savings plan covering eligible employees that allows for periodic discretionary matches as a percentage of each participant’s contributions payable in shares of common stock. NiSource also has a retirement savings plan that provides for discretionary profit sharing contributions payable in shares of common stock to eligible employees based on earnings results; and eligible exempt employees hired after January 1, 2010, receive a non-elective company contribution of three percent of eligible pay payable in shares of common stock. For the quarters ended September 30, 2014 and 2013 , NiSource recognized 401 (k) match, profit sharing and non-elective contribution expense of \$10.5 million and \$7.9 million , respectively. For the nine months ended September 30, 2014 and 2013 , NiSource recognized 401(k) match, profit sharing and non-elective contribution expenses of \$27.4 million and \$22.2 million , respectively.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****16. Other Commitments and Contingencies**

A. Guarantees and Indemnities. As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit. These agreements are entered into primarily to support or enhance the creditworthiness otherwise attributed to a subsidiary on a stand-alone basis, thereby facilitating the extension of sufficient credit to accomplish the subsidiaries' intended commercial purposes. The total guarantees and indemnities in existence at September 30, 2014 and the years in which they expire were:

<i>(in millions)</i>	Total	2014	2015	2016	2017	2018	After
Guarantees of subsidiaries debt	\$ 7,960.5	\$ —	\$ 230.0	\$ 616.5	\$ 1,257.0	\$ 800.0	\$ 5,057.0
Accounts receivable securitization	205.8	205.8	—	—	—	—	—
Lines of credit	1,105.3	1,105.3	—	—	—	—	—
Letters of credit	31.2	—	31.2	—	—	—	—
Other guarantees	142.4	7.4	29.5	—	—	—	105.5
Total commercial commitments	\$ 9,445.2	\$ 1,318.5	\$ 290.7	\$ 616.5	\$ 1,257.0	\$ 800.0	\$ 5,162.5

Guarantees of Subsidiaries Debt. NiSource has guaranteed the payment of \$8.0 billion of debt for various wholly-owned subsidiaries including NiSource Finance and Columbia of Massachusetts, and through a support agreement, Capital Markets, which is reflected on NiSource's Condensed Consolidated Balance Sheets (unaudited). The subsidiaries are required to comply with certain covenants under the debt indenture and in the event of default, NiSource would be obligated to pay the debt's principal and related interest. NiSource does not anticipate its subsidiaries will have any difficulty maintaining compliance. On October 3, 2011, NiSource executed a Second Supplemental Indenture to the original Columbia of Massachusetts Indenture dated April 1, 1991, for the specific purpose of guaranteeing Columbia of Massachusetts' outstanding medium-term notes.

Lines and Letters of Credit and Accounts Receivable Advances. NiSource Finance maintains a \$2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's \$1.5 billion commercial paper program, provide for the issuance of letters of credit, and also for general corporate purposes. At September 30, 2014, NiSource had no borrowings under its five-year revolving credit facility, \$1,105.3 million in commercial paper outstanding and \$205.8 million outstanding under its accounts receivable securitization agreements. At September 30, 2014, NiSource issued stand-by letters of credit of approximately \$31.2 million for the benefit of third parties. See Note 14, "Short-Term Borrowings," for additional information.

Other Guarantees or Obligations. NiSource has additional purchase and sales agreement guarantees totaling \$25.6 million, which guarantee performance of the seller's covenants, agreements, obligations, liabilities, representations and warranties under the agreements. No amounts related to the purchase and sales agreement guarantees are reflected in the Condensed Consolidated Balance Sheets (unaudited). Management believes that the likelihood NiSource would be required to perform or otherwise incur any significant losses associated with any of the aforementioned guarantees is remote.

NiSource has on deposit a letter of credit with Union Bank, N.A., Collateral Agent, in a debt service reserve account in association with Millennium's notes as required under the Deposit and Disbursement Agreement that governs the Millennium notes. This account is to be drawn upon by the note holders in the event that Millennium is delinquent on its principal and interest payments. The value of NiSource's letter of credit represents 47.5% (NiSource's ownership percentage in Millennium) of the debt service reserve account requirement, or \$16.2 million. The total exposure for NiSource is \$16.2 million. NiSource has an accrued liability of \$1.5 million related to the inception date fair value of this guarantee as of September 30, 2014.

NiSource has issued other guarantees supporting derivative related payments associated with operating leases for many of its subsidiaries and for other agreements entered into by its current and former subsidiaries.

B. Other Legal Proceedings. In the normal course of its business, NiSource and its subsidiaries have been named as defendants in various legal proceedings. In the opinion of management, the ultimate disposition of these currently asserted claims will not have a material impact on NiSource's consolidated financial statements.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

C. Environmental Matters. NiSource operations are subject to environmental statutes and regulations related to air quality, water quality, hazardous waste and solid waste. NiSource believes that it is in substantial compliance with those environmental regulations currently applicable to its operations and believes that it has all necessary permits to conduct its operations.

It is management's continued intent to address environmental issues in cooperation with regulatory authorities in such a manner as to achieve mutually acceptable compliance plans. However, there can be no assurance that fines and penalties will not be incurred. Management expects a significant portion of environmental assessment and remediation costs to be recoverable through rates for certain NiSource companies.

As of September 30, 2014 and December 31, 2013, NiSource had recorded an accrual of approximately \$130.9 million and \$143.9 million, respectively, to cover environmental remediation at various sites. The current portion of this accrual is included in "Legal and environmental" in the Condensed Consolidated Balance Sheets (unaudited). The noncurrent portion is included in "Other noncurrent liabilities" in the Condensed Consolidated Balance Sheets (unaudited). NiSource accrues for costs associated with environmental remediation obligations when the incurrence of such costs is probable and the amounts can be reasonably estimated. The original estimates for cleanup can differ materially from the amount ultimately expended. The actual future expenditures depend on many factors, including currently enacted laws and regulations, the nature and extent of contamination, the method of cleanup, and the availability of cost recovery from customers. These expenditures are not currently estimable at some sites. NiSource periodically adjusts its accrual as information is collected and estimates become more refined.

Air

The actions listed below could require further reductions in emissions from various emission sources. NiSource will continue to closely monitor developments in these matters.

Climate Change. On June 2, 2014, the EPA proposed a GHG performance standard for existing fossil-fuel fired electric generating units under section 111(d) of the Clean Air Act. The proposed rule establishes state-specific CO₂ emission rate goals and requires each state to submit a plan indicating how the generating units within the state will meet the EPA's emission rate goal. Final CO₂ emission rate standards are expected to be set by the EPA in June 2015, and state plans are required to be submitted to the EPA as early as June 2016. The cost to comply with this rule will depend on a number of factors, including the requirements of the final federal regulation and the level of NIPSCO's required GHG reductions. It is possible that this new rule, comprehensive federal or state GHG legislation, or other GHG regulation could result in additional expense or compliance costs that could materially impact NiSource's financial results.

National Ambient Air Quality Standards. The CAA requires the EPA to set NAAQS for particulate matter and five other pollutants considered harmful to public health and the environment. Periodically the EPA imposes new or modifies existing NAAQS. States that contain areas that do not meet the new or revised standards must take steps to maintain or achieve compliance with the standards. These steps could include additional pollution controls on boilers, engines, turbines, and other facilities owned by electric generation, gas distribution, and gas transmission operations.

The following NAAQS were recently added or modified:

Particulate Matter: In December 2009, the EPA issued area designations for the 2006 24-hour PM_{2.5} standard, and several counties in which NiSource operates were designated as non-attainment. In addition, a final rule was promulgated in December 2012 that lowered the annual PM_{2.5} standard from 15 to 12 µg/m³. NiSource will continue to monitor these matters and cannot estimate their impact at this time.

Ozone (eight hour): On September 2, 2011, the EPA announced it would implement its 2008 eight-hour ozone NAAQS rather than tightening the standard in 2012. The EPA will review, and possibly propose a new standard in 2014. In addition, the EPA has designated the Chicago metropolitan area, including the area in which NIPSCO operates one of its electric generation facilities, as non-attainment for ozone. NiSource will continue to monitor this matter and cannot estimate the impact of any new rules at this time.

Nitrogen Dioxide (NO₂): The EPA revised the NO₂ NAAQS by adding a one-hour standard while retaining the annual standard. The new standard could impact some NiSource combustion sources. The EPA designated all areas of the country as unclassifiable/attainment in January 2012. After the establishment of a new monitoring network and possible modeling implementation, areas will potentially be re-designated sometime in 2016. States with areas that do not meet the standard will be required to develop rules to bring areas into compliance within five years of designation. Additionally, under certain permitting circumstances emissions

Table of Contents

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

from some existing NiSource combustion sources may need to be assessed and mitigated. NiSource will continue to monitor this matter and cannot estimate the impact of these rules at this time.

Waste

NiSource subsidiaries are potentially responsible parties at waste disposal sites under the CERCLA (commonly known as Superfund) and similar state laws. Additionally, a program has been instituted to identify and investigate former MGP sites where Gas Distribution Operations subsidiaries or predecessors may have liability. The program has identified 66 such sites where liability is probable. Remedial actions at many of these sites are being overseen by state or federal environmental agencies through consent agreements or voluntary remediation agreements.

NiSource utilizes a probabilistic model to estimate its future remediation costs related to its MGP sites. The model was prepared with the assistance of a third party and incorporates NiSource and general industry experience with remediating MGP sites. NiSource completes an annual refresh of the model in the second quarter of each fiscal year. No material changes to the estimated liability were noted as a result of the refresh completed as of June 30, 2014. The total estimated liability at NiSource related to the facilities subject to remediation was \$122.8 million and \$129.5 million at September 30, 2014 and December 31, 2013, respectively. The liability represents NiSource's best estimate of the probable cost to remediate the facilities. NiSource believes that it is reasonably possible that remediation costs could vary by as much as \$25 million in addition to the costs noted above. Remediation costs are estimated based on the best available information, applicable remediation standards at the balance sheet date, and experience with similar facilities.

Additional Issues Related to Individual Business Segments

The sections below describe various regulatory actions that affect Columbia Pipeline Group Operations and Electric Operations.

Columbia Pipeline Group Operations.

Air

In April 2014, the Pennsylvania DEP proposed a rule, *Additional RACT Requirements for Major Sources of NOx and VOCs*, which may require emissions reductions from several Columbia Transmission turbines and reciprocating engines. The rule is expected to be finalized by the end of 2014 and would give facilities three years to bring emissions sources into compliance with the reductions required by this rule. Columbia Transmission will continue to monitor developments in this matter and cannot estimate costs at this time.

Waste

Columbia Transmission continues to conduct characterization and remediation activities at specific sites under a 1995 AOC (subsequently modified in 1996 and 2007). NiSource utilizes a probabilistic model to estimate its future remediation costs related to the 1995 AOC. The model was prepared with the assistance of a third party and incorporates NiSource and general industry experience with remediating sites. NiSource completes an annual refresh of the model in the second quarter of each fiscal year. No material changes to the liability were noted as a result of the refresh completed as of June 30, 2014. The total remaining liability at Columbia Transmission related to the facilities subject to remediation was \$2.8 million and \$8.7 million at September 30, 2014 and December 31, 2013, respectively. The liability represents Columbia Transmission's best estimate of the cost to remediate the facilities or manage the sites. Remediation costs are estimated based on the information available, applicable remediation standards, and experience with similar facilities. Columbia Transmission expects that the remediation for these facilities will be substantially completed in 2015.

Electric Operations.

Air

NIPSCO is subject to a number of new air-quality mandates in the next several years. These mandates require NIPSCO to make capital improvements to its electric generating stations. The cost of capital improvements is estimated to be \$860 million, of which approximately \$155.8 million remains to be spent. This figure includes additional capital improvements associated with the New Source Review Consent Decree and the Utility Mercury and Air Toxics Standards Rule. NIPSCO believes that the capital costs will likely be recoverable from customers.

EPA Cross-State Air Pollution Rule / Clean Air Interstate Rule (CAIR) / Transport Rule: On July 6, 2011, the EPA announced its replacement for the 2005 CAIR to reduce the interstate transport of fine particulate matter and ozone. The CSAPR reduces overall emissions of SO₂ and NO_x by setting state-wide caps on power plant emissions. Implementation of the CSAPR was delayed for

Table of Contents

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

several years by litigation, but the EPA recently received permission from a court to begin enforcing CSAPR on January 1, 2015. The EPA's implementation of CSAPR will not significantly impact NIPSCO's current emissions control plans. NIPSCO utilizes the inventory model in accounting for emission allowances issued under the CAIR program whereby these allowances were recognized at zero cost upon receipt from the EPA. NIPSCO believes its current multi-pollutant compliance plan and New Source Review Consent Decree capital investments will allow NIPSCO to meet the emission requirements of CSAPR.

Utility Mercury and Air Toxics Standards Rule: On December 16, 2011, the EPA finalized the MATS rule establishing new emissions limits for mercury and other air toxics. Compliance for NIPSCO's affected units is required by April 2015, or by April 2016 for those affected units that have been approved for a one year compliance extension by IDEM. NIPSCO is implementing an IURC-approved plan for environmental controls to comply with MATS.

New Source Review: On September 29, 2004, the EPA issued an NOV to NIPSCO for alleged violations of the CAA and the Indiana SIP. The NOV alleged that modifications were made to certain boiler units at three of NIPSCO's generating stations between the years 1985 and 1995 without obtaining appropriate air permits for the modifications. NIPSCO, the EPA, the Department of Justice, and IDEM have settled the matter through a consent decree, entered on July 22, 2011.

Water

On August 15, 2014, the EPA published the final Phase II Rule of the Clean Water Act Section 316(b), which requires all large existing steam electric generating stations to meet certain performance standards to reduce the effects on aquatic organisms at their cooling water intake structures. Under this rule, stations will have to either demonstrate that the performance of their existing fish protection systems meet the new standards or develop new systems, such as a closed-cycle cooling tower. The cost to comply will depend on a number of factors, including evaluation of the various compliance options available under the regulation and permitting-related discussions with IDEM. NIPSCO is currently evaluating these options and cannot estimate the cost of compliance at this time.

On June 7, 2013, the EPA published a proposed rule to amend the effluent limitations guidelines and standards for the Steam Electric Power Generating category. These proposed regulations could impose new water treatment requirements on NIPSCO's electric generating facilities. NIPSCO will continue to monitor developments in this matter and cannot estimate the cost of compliance at this time.

Waste

On June 21, 2010, the EPA published a proposed rule for regulation of CCRs. The proposal outlines multiple regulatory approaches that the EPA is considering. These proposed regulations could negatively affect NIPSCO's ongoing byproduct reuse programs and would impose additional requirements on its management of coal combustion residuals. NIPSCO will continue to monitor developments in this matter and cannot estimate the cost of compliance at this time.

D. Other Matters.

Transmission Upgrade Agreements. On February 11, 2014, NIPSCO entered into TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors have agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, which is estimated at \$50.3 million, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs, filed a complaint at FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. NIPSCO will continue to monitor developments in this matter but cannot estimate the impact (if any) on the Condensed Consolidated Financial Statements (unaudited) the complaint will have at this time.

Springfield, Massachusetts. On November 23, 2012, while Columbia of Massachusetts was investigating the source of an odor of gas at a service location in Springfield, Massachusetts, a gas service line was pierced and an explosion occurred. While this explosion impacted multiple buildings and resulted in several injuries, no life threatening injuries or fatalities have been reported. Columbia of Massachusetts is fully cooperating with both the Massachusetts DPU and the Occupational Safety & Health Administration in their investigations of this incident. Columbia of Massachusetts believes any costs associated with damages, injuries, and other losses related to this incident are substantially covered by insurance. Any amounts not covered by insurance are not expected to have a material impact on NiSource's consolidated financial statements. In accordance with GAAP, NiSource recorded any accruals and the related insurance recoveries resulting from this incident on a gross basis within the Condensed Consolidated Balance Sheets (unaudited).

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

18. Business Segment Information

Operating segments are components of an enterprise for which separate financial information is available and evaluated regularly by the chief operating decision maker in deciding how to allocate resources and assess performance. NiSource's Chief Executive Officer is the chief operating decision maker.

At September 30, 2014, NiSource's operations are divided into three primary business segments. The Gas Distribution Operations segment provides natural gas service and transportation for residential, commercial and industrial customers in Ohio, Pennsylvania, Virginia, Kentucky, Maryland, Indiana and Massachusetts. The Columbia Pipeline Group Operations segment offers gas transportation and storage services for LDCs, marketers and industrial and commercial customers located in northeastern, mid-Atlantic, midwestern and southern states along with unregulated businesses that include midstream services and development of mineral rights positions. The Electric Operations segment provides electric service in 20 counties in the northern part of Indiana.

The following table provides information about business segments. NiSource uses operating income as its primary measurement for each of the reported segments and makes decisions on finance, dividends and taxes at the corporate level on a consolidated basis. Segment revenues include intersegment sales to affiliated subsidiaries, which are eliminated in consolidation. Affiliated sales are recognized on the basis of prevailing market, regulated prices or at levels provided for under contractual agreements. Operating income is derived from revenues and expenses directly associated with each segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NiSource Inc.

Note regarding forward-looking statements

The Management's Discussion and Analysis, including statements regarding market risk sensitive instruments, contains "forward-looking statements," within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Investors and prospective investors should understand that many factors govern whether any forward-looking statement contained herein will be or can be realized. Any one of those factors could cause actual results to differ materially from those projected. These forward-looking statements include, but are not limited to, statements concerning NiSource's plans, objectives, expected performance, expenditures, recovery of expenditures through rates, stated on either a consolidated or segment basis, the Proposed Separation, the Columbia Pipeline Partners LP initial public offering and any and all underlying assumptions and other statements that are other than statements of historical fact. From time to time, NiSource may publish or otherwise make available forward-looking statements of this nature. All such subsequent forward-looking statements, whether written or oral and whether made by or on behalf of NiSource, are also expressly qualified by these cautionary statements. All forward-looking statements are based on assumptions that management believes to be reasonable; however, there can be no assurance that actual results will not differ materially.

Factors that could cause actual results to differ materially from the projections, forecasts, estimates and expectations discussed in this Quarterly Report on Form 10-Q include, among other things, weather, fluctuations in supply and demand for energy commodities, growth opportunities for NiSource's businesses, increased competition in deregulated energy markets, the success of regulatory and commercial initiatives, dealings with third parties over whom NiSource has no control, actual operating experience of NiSource's assets, the regulatory process, regulatory and legislative changes, the impact of potential new environmental laws or regulations, the results of material litigation, changes in pension funding requirements, changes in general economic, capital and commodity market conditions, counterparty credit risk, the timing to consummate the Proposed Separation and the Columbia Pipeline Partners LP initial public offering (collectively, the "Proposed Transactions"), the risk that a condition to consummation of a proposed transaction is not satisfied, disruption to operations as a result of the Proposed Transactions, the inability of one or more of the businesses to operate independently following the completion of the Proposed Separation and the matters set forth in the "Risk Factors" section of NiSource's 2013 Form 10-K and this Form 10-Q, many of which are beyond the control of NiSource. In addition, the relative contributions to profitability by each segment, and the assumptions underlying the forward-looking statements relating thereto, may change over time. NiSource expressly disclaims a duty to update any of the forward-looking statements contained in this report.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2013 .

CONSOLIDATED REVIEW

Planned Separation of Columbia Pipeline Group and Initial Public Offering of Columbia Pipeline Partners LP

On September 28, 2014, NiSource announced that its Board of Directors had approved in principle plans to separate its natural gas pipeline and related businesses into a stand-alone publicly traded company (the "Proposed Separation"). If completed, the Proposed Separation will result in two energy infrastructure companies: NiSource Inc., a fully regulated natural gas and electric utilities company, and Columbia Pipeline Group Inc., a natural gas pipeline, midstream and storage company ("CPG"). The Proposed Separation is expected to occur in mid-2015.

Under the plan for the Proposed Separation, NiSource shareholders would retain their current shares of NiSource stock and receive a *pro rata* distribution of shares of CPG stock in a transaction that is expected to be tax-free to NiSource and its shareholders.

The Proposed Separation is subject to various conditions, including, without limitation, the receipt by NiSource of a legal opinion on the tax-free nature of the distribution and final approval of the NiSource Board of Directors. NiSource shareholder approval of the transaction is not required. There is no assurance that the transaction will be completed in mid-2015 or at all.

On September 29, 2014, Columbia Pipeline Partners LP, a wholly owned subsidiary ("CPPL"), filed with the Securities and Exchange Commission a Registration Statement on Form S-1 related to CPPL's proposed initial public offering of common units representing limited partner interests in CPPL. We expect that CPPL will sell a minority share of its total limited partner interests in the offering, which is expected to occur in the first quarter of 2015. If the proposed offering closes, CPPL's initial asset would consist of an approximate 14.6% ownership interest in CPG OpCo LP ("Columbia OpCo"), which is the entity that will own

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

substantially all of NiSource's natural gas transmission, midstream and storage assets. In addition, NiSource, through its ownership of CPG, would indirectly own (a) the remaining ownership interest in Columbia OpCo, (b) the general partner of CPPL, (c) the remaining CPPL limited partner interests that are not sold in the offering and (d) all the incentive distribution rights in CPPL.

If the Proposed Separation occurs, CPG would no longer be a subsidiary of NiSource and, thus, NiSource would cease to own (a) any interest in Columbia OpCo, (b) the general partner of CPPL, (c) any of the limited partner interests in CPPL or (d) any of the incentive distribution rights in CPPL.

Executive Summary

NiSource (the "Company") is an energy holding company under the Public Utility Holding Company Act of 2005 whose subsidiaries are engaged in the transmission, storage and distribution of natural gas in the high-demand energy corridor stretching from the Gulf Coast through the Midwest to New England and the generation, transmission and distribution of electricity in Indiana. NiSource generates virtually 100% of its operating income through these rate-regulated businesses. A significant portion of NiSource's operations is subject to seasonal fluctuations in sales. During the heating season, which is primarily from November through March, net revenues from gas sales are more significant, and during the cooling season, which is primarily from June through September, net revenues from electric sales and transportation services are more significant, than in other months.

For the nine months ended September 30, 2014, NiSource reported income from continuing operations of \$376.4 million, or \$1.19 per basic share, compared to \$337.9 million, or \$1.08 per basic share reported for the same period in 2013.

The increase in income from continuing operations was due primarily to the following items:

- Regulatory and service programs at Gas Distribution Operations increased net revenues by \$69.9 million primarily due to the impacts of the rate settlement in 2013 at Columbia of Pennsylvania and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Refer to Note 8, "Regulatory Matters," to the Consolidated Financial Statements included in NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2013 for more information.
- Demand margin revenue increased by \$34.1 million at Columbia Pipeline Group Operations primarily as a result of growth projects placed in service. Refer to the Columbia Pipeline Group Operations' segment discussion for further information on growth projects.
- The Company recognized previously deferred gains of \$20.8 million from the conveyances of mineral interests at Columbia Pipeline Group Operations. As of September 30, 2014, remaining gains of approximately \$21.0 million recorded in "Deferred revenue" on the Condensed Consolidated Balance Sheets (unaudited) will be recognized in earnings upon performance of future obligations.
- Net revenues increased by \$20.6 million as a result of higher industrial usage at Electric Operations primarily due to large industrial customers expanding plant operations and using less internal generation. Refer to the Electric Operations' segment discussion for further information.
- Increased third party drilling activity resulted in an increase in mineral rights royalty revenue at Columbia Pipeline Group Operations of \$20.5 million. The Company expects to invest in excess of \$20 million a year in its mineral rights positions.

These increases to income from continuing operations were partially offset by the following:

- Employee and administrative expense increased by \$55.2 million due primarily to outages and maintenance, greater labor expense due to a growing workforce and reduced payroll capitalization, and IT support and enhancement projects.
- Interest expense increased by \$23.5 million resulting from the issuance of \$500.0 million of long-term debt in October 2013 and the issuance of \$750.0 million of long-term debt in April 2013. These increases were partially offset by the maturity of \$500 million of long-term debt in July 2014 and the maturity of \$420.3 million of long-term debt in March 2013.
- Outside service costs increased by \$22.7 million primarily due to costs associated with the Proposed Separation and Columbia of Pennsylvania's pipeline safety initiatives.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

- Depreciation and amortization increased \$21.2 million primarily due to higher capital expenditures. NiSource projects 2014 capital expenditures to be approximately \$2.2 billion .

These factors and other impacts to the financial results are discussed in more detail within the following discussions of "Results of Operations" and "Results and Discussion of Segment Operations."

Platform for Growth

NiSource's business plan will continue to center on commercial and regulatory initiatives; commercial growth and expansion of the gas transmission and storage business; financial management of the balance sheet; and cost and process excellence.

Commercial and Regulatory Initiatives

NiSource is moving forward on regulatory initiatives across several distribution company markets. Whether through full rate case filings or other approaches, NiSource's goal is to develop strategies that benefit all stakeholders as it addresses changing customer conservation patterns, develops more contemporary pricing structures, and embarks on long-term investment programs to enhance its infrastructure.

NIPSCO continued to focus on customer service, reliability and long-term growth and modernization initiatives during the third quarter, while executing on significant environmental investments.

- On April 30, 2014, the IURC approved NIPSCO's seven-year, \$710 million, natural gas modernization program, referred to as TDSIC. The program complements the in-progress \$1.1 billion electric TDSIC approved in February 2014, and is addressing system modernization as well as system expansion in certain areas.
- Progress also continued on two major NIPSCO electric transmission projects designed to enhance system flexibility and reliability. Right-of-way acquisition and permitting are underway for both projects. The Greentown-Reynolds project is a 70-mile, 765-kV line being constructed in a joint development agreement with Pioneer Transmission, and the Reynolds-Topeka project is a 100-mile, 345-kV line. The projects involve a NIPSCO investment of approximately \$500 million and are anticipated to be in service by the end of 2018.
- Two remaining FGD projects at NIPSCO's coal-fired electric generating facilities remain on schedule. The FGD investments are part of approximately \$860 million in environmental investments, including water quality and emission-control projects, recently completed and planned at NIPSCO's electric generating facilities. One project is expected to be completed by the end of 2014 and the other by the end of 2015.

NiSource's Gas Distribution companies continue to execute their strategy of long-term infrastructure replacement and enhancement and advance their regulatory agenda.

- On April 30, 2014, Columbia of Virginia filed a rate case with the VSCC to recover investments with a multi-year gas distribution system modernization program. If approved as filed, the case would increase annual revenues by approximately \$24.9 million. The VSCC issued a procedural order in the case on May 28, 2014 which scheduled the case for hearing on December 9, 2014. New rates are subject to refund and became effective October 1, 2014.
- On March 21, 2014, Columbia of Pennsylvania filed a rate case with the Pennsylvania PUC seeking an annual revenue increase of approximately \$54.1 million to support continuation of Columbia of Pennsylvania's ongoing infrastructure modernization program. On September 5, 2014, the parties to the rate case filed a joint petition which seeks approval of a full settlement which features an annual increase of \$32.5 million. On October 17, 2014, the administrative law judge assigned to the case issued a Recommended Decision in which he recommended that the settlement be approved, without modification. A final order from the Pennsylvania PUC is expected in the fourth quarter of 2014.
- On June 26, 2014, Massachusetts Governor Deval Patrick signed into law House Bill 4164, an Act relative to natural gas leaks. The centerpiece of the Bill significantly reduces the lag in recovery associated with priority pipe replacement under Columbia of Massachusetts' current Targeted Infrastructure Reinvestment Factor. Columbia of Massachusetts will make its first filing under the new law on October 31, 2014. Recovery of infrastructure investments made under this program are expected to begin May 1, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for a complete discussion of regulatory and commercial matters.

Modernization, Commercial Growth and Expansion of the Columbia Pipeline Group Operations

Columbia Pipeline Group Operations continues to make progress on its long-term infrastructure modernization program, as well as a series of midstream and core growth initiatives tied to NiSource's asset position in the Utica and Marcellus Shale production regions.

- Columbia Transmission is on track with the second year of its long-term system modernization program. The second year of the program includes planned modernization investments of approximately \$330 million. Columbia Transmission and its customers have agreed to the initial five years of the comprehensive modernization program, with an opportunity to mutually extend the agreement. The overall program is expected to last 10 years or more and involves an aggregate investment in excess of \$4 billion.
- In August 2014, Columbia Pipeline Group confirmed details of its planned \$1.75 billion investment in the Leach XPress and Rayne XPress projects. The projects will create a new pathway for delivering natural gas supplies to market, providing transportation capacity of approximately 1.5 Bcf per day for Marcellus and Utica shale gas on the Columbia Transmission system and 1.0 Bcf per day on the Columbia Gulf system. The projects, expected to be placed into service by the end of 2017, include approximately 150 miles of new transmission pipeline and new compression facilities at multiple sites in Ohio and West Virginia.
- The Columbia Pipeline Group Operations segment will invest approximately \$870 million in its WB XPress project. This project will transport approximately 1.3 Bcf of Marcellus Shale production on the Columbia Transmission system to pipeline interconnects and East Coast markets, which includes access to the Cove Point LNG terminal. Resolution of conditions precedent is anticipated in the fourth quarter of 2014. The project is expected to be placed in service during the fourth quarter of 2018.
- NiSource Midstream began work on its \$120 million Washington County Gathering project. The project, anchored by a long-term agreement with a subsidiary of Range Resources Corporation, will consist of gathering pipelines and compression facilities in western Pennsylvania to transport production into a nearby Columbia Transmission pipeline. The project is expected to be in service during the fourth quarter of 2015, with additional expansion expected as gas production grows.
- NiSource Midstream is expanding and optimizing its Big Pine Gathering System to support Marcellus Shale production in Western Pennsylvania by investing \$65 million in facility enhancements to make a connection to the Big Pine pipeline and add compression facilities that will add incremental capacity. The project is expected to be in service during the third quarter of 2015.

Financial Management of the Balance Sheet

On August 20, 2014, NiSource Finance negotiated a \$750.0 million three-year bank term loan with a syndicate of banks which carries a floating interest rate of BBA LIBOR plus 100 basis points.

On July 15, 2014, NiSource Finance redeemed \$500.0 million of 5.40% senior unsecured notes at maturity.

Additionally on July 15, 2014, \$500.0 million of fixed-to-variable interest rate swaps expired, whereby NiSource Finance received payments based upon a fixed 5.40% interest rate and paid a floating interest rate amount based on U.S. 6-month BBA LIBOR plus an average of 0.78% per annum.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

On September 28, 2014, NiSource announced that its Board of Directors has approved in principle plans to separate its natural gas pipeline and related businesses into a stand-alone publicly traded company whereby NiSource will continue as a fully regulated natural gas and electric utilities company. The separation announcement triggered ratings reviews by Standard & Poor's, Moody's, and Fitch. On September 29, 2014, Standard & Poor's affirmed the senior unsecured ratings for NiSource and the existing ratings of its other rated subsidiaries at BBB- and the NiSource Finance commercial paper rating of A-3, placing the company's ratings on watch positive. On September 29, 2014, Moody's Investors Service affirmed the NiSource senior unsecured rating of Baa2 and commercial paper rating of P-2, with a stable outlook. Additionally, Moody's affirmed NIPSCO's Baa1 rating and affirmed the Baa2 rating for Columbia of Massachusetts. On September 29, 2014, Fitch affirmed the senior unsecured ratings for NiSource at BBB-, and the existing ratings of all other subsidiaries. Fitch's outlook for NiSource and its subsidiaries is stable.

Ethics and Controls

NiSource has had a long-term commitment to providing accurate and complete financial reporting as well as high standards for ethical behavior by its employees. NiSource's senior management takes an active role in the development of this Form 10-Q and the monitoring of the company's internal control structure and performance. In addition, NiSource will continue its mandatory ethics training program for all employees.

Refer to "Controls and Procedures" included in Item 4.

Results of Operations

Quarter Ended September 30, 2014

Net Income

NiSource reported net income of \$31.4 million , or \$0.10 per basic share, for the three months ended September 30, 2014 , compared to net income of \$48.1 million , or \$0.16 per basic share, for the third quarter of 2013 . Income from continuing operations was \$31.5 million , or \$0.10 per basic share, for the three months ended September 30, 2014 , compared to income from continuing operations of \$49.5 million , or \$0.16 per basic share, for the third quarter of 2013 . Operating income was \$157.8 million , a decrease of \$18.6 million from the same period in 2013 . All per share amounts are basic earnings per share. Basic average shares of common stock outstanding at September 30, 2014 were 315.4 million compared to 312.8 million at September 30, 2013 .

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expenses. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the quarter ended September 30, 2014 , were \$893.4 million , a \$59.6 million increase from the same period last year. This increase in net revenues was primarily due to increased Columbia Pipeline Group Operations' net revenues of \$35.0 million, higher Gas Distribution Operations' net revenues of \$19.5 million and increased Electric Operations' net revenues of \$5.7 million.

- Columbia Pipeline Group Operations' net revenues increased primarily due to higher regulatory trackers, which are offset in expense, of \$15.6 million, increased demand margin revenue of \$11.8 million primarily as a result of growth projects placed in service, higher mineral rights royalty revenue of \$5.9 million and increased condensate revenue of \$2.6 million.
- Gas Distribution Operations' net revenues increased primarily due to an increase of \$10.2 million for regulatory and service programs, including the implementation of rates under Columbia of Ohio's approved infrastructure replacement program and the impacts of the rate case at Columbia of Massachusetts. Additionally, there was an increase in net revenues as result of a settlement of \$3.2 million at Columbia of Massachusetts in 2013, increased industrial and commercial usage of \$1.4 million, higher net revenues due to increased margins of \$1.4 million and higher large customer revenue of \$1.3 million.
- Electric Operations' net revenues increased primarily due to higher industrial and residential usage of \$7.4 million, increased trackers, which are offset in expense, of \$4.4 million and an increase in the return on the environmental capital investment recovery of \$4.2 million due to an increased plant balance eligible for recovery. These increases were partially offset by the effects of weather of \$10.3 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Operating Expenses

Operating expenses for the third quarter of 2014 were \$747.6 million, an increase of \$79.7 million from the 2013 period. This increase was primarily due to higher operation and maintenance expenses of \$60.6 million, increased depreciation and amortization of \$8.5 million and a decrease in the gain on the sale of assets of \$6.9 million. The increase in operation and maintenance expenses was primarily due to increased employee and administrative costs of \$31.7 million, higher regulatory trackers, which are offset in net revenues, of \$18.6 million, increased outside service costs of \$13.4 million, higher electric generation costs of \$3.4 million and increased storm damage costs of \$3.3 million. These increases were partially offset by a decrease in software data conversion costs of \$7.5 million and lower environmental costs of \$3.7 million. The increase in depreciation and amortization is primarily due to higher capital expenditures placed in service. The decrease in the gain on the sale of assets primarily resulted from the sale of storage base gas in 2013.

Equity Earnings in Unconsolidated Affiliates

Equity Earnings in Unconsolidated Affiliates were \$12.0 million during the third quarter of 2014 compared to \$10.5 million for the third quarter of 2013. Equity Earnings in Unconsolidated Affiliates includes investments in Millennium, Hardy Storage and Pennant, which are integral to the Columbia Pipeline Group Operations' business. Equity earnings increased primarily from increased earnings at Millennium attributable to growth projects placed in service.

Other Income (Deductions)

Other Income (Deductions) reduced income by \$100.4 million in the third quarter of 2014 compared to a reduction in income of \$99.0 million in the prior year. The increase in deductions is primarily due to an increase in interest expense of \$5.9 million resulting from the issuance of \$500.0 million of long-term debt in October 2013 and the expiration of \$500.0 million of interest rate swaps in July 2014. These increases were partially offset by the maturity of \$500.0 million of long-term debt in July 2014. Other, net of \$9.2 million was recorded in 2014 compared to \$4.7 million in the prior year. This increase is primarily attributable to current period transmission upgrade agreement income.

Income Taxes

Income tax expense for the quarter ended September 30, 2014 was \$25.9 million compared to \$27.9 million in the prior year. NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2014 and 2013, adjusted for tax expense associated with certain discrete items. The effective tax rates for the quarters ended September 30, 2014 and 2013 were 45.1% and 36.0%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking, and other permanent book-to-tax differences. The increase in the three month effective tax rate of 9.1% in 2014 versus 2013 is primarily due to a change in the estimated annual effective tax rate due to a revision in estimated nontaxable income during the third quarter of 2014. Refer to Note 10, "Income Taxes," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Results of Operations

Nine Months Ended September 30, 2014

Net Income

NiSource reported net income of \$375.8 million, or \$1.19 per basic share, for the nine months ended September 30, 2014, compared to net income of \$380.3 million, or \$1.22 per basic share, for the nine months ended 2013. Income from continuing operations was \$376.4 million, or \$1.19 per basic share, for the nine months ended September 30, 2014, compared to income from continuing operations of \$337.9 million, or \$1.08 per basic share, for the nine months ended 2013. Operating income was \$911.1 million, an increase of \$111.8 million from the same period in 2013. All per share amounts are basic earnings per share. Basic average shares of common stock outstanding at September 30, 2014 were 314.9 million compared to 312.1 million at September 30, 2013.

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expenses. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the nine months ended September 30, 2014, were \$3,116.0 million, a \$323.8 million increase from the same period last year. This increase in net revenues was primarily due to increased Columbia Pipeline Group Operations' net revenues of \$148.9 million, higher Gas Distribution Operations' net revenues of \$136.9 million, and increased Electric Operations' net revenues of \$38.3 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

- Columbia Pipeline Group Operations' net revenues increased primarily due to higher regulatory trackers, which are offset in expense, of \$87.6 million, increased demand margin revenue of \$34.1 million primarily as a result of growth projects placed in service, higher mineral rights royalty revenue of \$20.5 million due to increased third party drilling activity and higher condensate revenue of \$3.7 million.
- Gas Distribution Operations' net revenues increased primarily due to an increase of \$69.9 million for regulatory and service programs, including the impacts of the rate settlement in 2013 at Columbia of Pennsylvania and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program, the effects of colder weather of \$19.7 million and increased regulatory and tax trackers, which are offset in expense, of \$17.0 million. Additionally, there was higher residential, commercial and industrial usage of \$8.8 million, an increase in off-system sales of \$5.1 million, higher revenue of \$4.9 million due to increased customer count and an increase in large customer revenue of \$4.6 million. Also, there were higher net revenues due to increased margins of \$3.9 million, higher net revenues from the recovery of storage inventory costs of \$3.6 million and a settlement of \$3.2 million at Columbia of Massachusetts in 2013. These increases were partially offset by a decrease of \$5.8 million resulting from NIPSCO's GCIM.
- Electric Operations' net revenues increased primarily due to higher industrial and residential usage of \$21.9 million, an increase in the return on the environmental capital investment recovery of \$17.3 million due to an increased plant balance eligible for recovery. Additionally, there were increased net revenues of \$4.1 million as a result of two electric transmission projects authorized by the MISO and higher off-system sales of \$3.9 million. These increases were partially offset by a decrease in transmission upgrade revenue of \$6.5 million and the effects of weather of \$3.8 million.

Operating Expenses

Operating expenses for the nine months ended September 30, 2014 were \$2,237.8 million, an increase of \$219.3 million from the 2013 period. This increase was primarily due to higher operation and maintenance expenses of \$188.2 million, increased other taxes of \$20.8 million and higher depreciation and amortization of \$19.4 million. These increases were partially offset by an increase in the gain on sale of assets of \$9.1 million. The increase in operation and maintenance expenses was primarily due to increased regulatory trackers, which are offset in net revenues, of \$99.9 million, higher employee and administrative costs of \$55.2 million, increased outside service costs of \$22.7 million, higher electric generation costs of \$14.3 million and an increase of uncollectibles of \$4.5 million. These increases were partially offset by lower software data conversion costs of \$7.5 million and a decrease in environmental costs of \$5.5 million. The increase in other taxes is primarily due to higher property and other taxes of \$13.9 million and increased tax trackers, which are offset in net revenues, of \$6.9 million. The increase in depreciation and amortization is primarily due to higher capital expenditures placed in service. The increase in the gain on sale of assets primarily results from conveyances of mineral interests of \$20.8 million, offset by the sale of storage base gas in 2013 of \$11.1 million at Columbia Pipeline Group Operations.

Equity Earnings in Unconsolidated Affiliates

Equity Earnings in Unconsolidated Affiliates were \$32.9 million during the nine months ended September 30, 2014, compared to \$25.6 million from the 2013 period. Equity Earnings in Unconsolidated Affiliates includes investments in Millennium, Hardy Storage and Pennant, which are integral to the Columbia Pipeline Group Operations' business. Equity earnings increased primarily from increased earnings at Millennium attributable to growth projects placed in service.

Other Income (Deductions)

Other Income (Deductions) reduced income by \$306.6 million for the nine months ended September 30, 2014, compared to a reduction in income of \$282.2 million in the prior year. The increase in deductions is primarily due to an increase in interest expense of \$23.5 million resulting from the issuance of \$500.0 million of long-term debt in October 2013 and the issuance of \$750.0 million of long-term debt in April 2013. These increases were partially offset by the maturity of \$500 million of long-term debt in July 2014 and the maturity of \$420.3 million of long-term debt in March 2013.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Income Taxes

Income tax expense for the nine months ended September 30, 2014 was \$228.1 million compared to \$179.2 million in the prior year. NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2014 and 2013, adjusted for tax expense associated with certain discrete items. The effective tax rates for the nine months ended September 30, 2014 and 2013 were 37.7% and 34.7% , respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility rate-making, and other permanent book-to-tax differences. The increase in the year-to-date effective tax rate of 3.0% is primarily due to the impact of the Indiana tax rate change, and deferred tax adjustments recorded in 2013 related to state apportionment changes. Refer to Note 10, "Income Taxes," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Discontinued Operations

There was a net loss of \$0.6 million in the nine months ended September 30, 2014 from discontinued operations compared to net income of \$7.5 million in 2013 . The net income in 2013 relates primarily to a settlement at NiSource's former exploration and production subsidiary, CER. A gain on the disposition of discontinued operations of \$36.4 million was recorded in the first quarter of 2013 as a result of a gain on the sale of the service plan and leasing business lines of NiSource's Retail Services business.

Liquidity and Capital Resources

A significant portion of NiSource's operations, most notably in the gas distribution, gas transportation and electric businesses, are subject to seasonal fluctuations in cash flow. During the heating season, which is primarily from November through March, cash receipts from gas sales and transportation services typically exceed cash requirements. During the summer months, cash on hand, together with the seasonal increase in cash flows from the electric business during the summer cooling season and external short-term and long-term financing, is used to purchase gas to place in storage for heating season deliveries and perform necessary maintenance of facilities. NiSource believes that through income generated from operating activities, amounts available under its short-term revolver, commercial paper program and long-term debt agreements and NiSource's ability to access the capital markets, there is adequate capital available to fund its operating activities and capital expenditures in 2014 .

Operating Activities

Net cash from operating activities for the nine months ended September 30, 2014 was \$886.5 million , a decrease of \$192.1 million compared to the nine months ended September 30, 2013 . The decrease in net cash from operating activities was primarily attributable to an income tax refund received in 2013.

Pension and Other Postretirement Plan Funding. NiSource expects to make contributions of approximately \$38.3 million to its pension plans and approximately \$39.1 million to its other postretirement benefit plans in 2014 , which could change depending on market conditions. For the nine months ended September 30, 2014 , NiSource has contributed \$35.3 million to its pension plans and \$29.3 million to its other postretirement benefit plans.

Investing Activities

NiSource's capital expenditures for the nine months ended September 30, 2014 were \$1,441.7 million , compared to \$1,297.3 million for the comparable period in 2013 . This increased spending is mainly due to continued spending on infrastructure replacement programs in the Gas Distributions Operations segment, higher spending in the Columbia Pipeline Group Operations segment for various growth projects primarily in the Marcellus and Utica Shale areas and for expenditures under its modernization program and increased expenditures in the Electric Operations segment primarily due to TDSIC spend. NiSource projects 2014 capital expenditures to be approximately \$2.2 billion .

Restricted cash was \$16.0 million and \$8.0 million as of September 30, 2014 and December 31, 2013 , respectively.

Contributions to equity investees decreased \$13.3 million primarily due to lower contributions made by Columbia Transmission to Millennium and NiSource Midstream to Pennant. Refer to the Columbia Pipeline Group Operations segment discussion in the Management's Discussion and Analysis of Financial Condition and Results of Operations for information on these contributions.

Financing Activities

Credit Facilities. NiSource Finance maintains a \$2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

including the provision of liquidity support for NiSource Finance's \$1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse, RBS and Wells Fargo. Commercial paper issuances are supported by available capacity under NiSource Finance's \$2.0 billion unsecured revolving credit facility.

NiSource Finance had no borrowings outstanding under its revolving credit facility at September 30, 2014 and December 31, 2013 . In addition, NiSource Finance had \$1,105.3 million in commercial paper outstanding at September 30, 2014 , at a weighted average interest rate of 0.67% and \$433.6 million in commercial paper outstanding at December 31, 2013 , at a weighted average interest rate of 0.70% .

As of September 30, 2014 and December 31, 2013 , NiSource had \$205.8 million and \$265.1 million , respectively, of short-term borrowings recorded on the Condensed Consolidated Balance Sheets (unaudited) and cash from financing activities in the same amount relating to its accounts receivable securitization facilities. See Note 8, "Transfers of Financial Assets," to the Condensed Consolidated Financial Statements (unaudited).

As of September 30, 2014 , NiSource had \$31.2 million of stand-by letters of credit outstanding of which \$15.0 million were under the revolving credit facility. At December 31, 2013 , NiSource had \$31.6 million of stand-by letters of credit outstanding of which \$ 14.3 million were under the revolving credit facility.

As of September 30, 2014 , an aggregate of \$879.7 million of credit was available under the credit facility.

Debt Covenants . NiSource is subject to a financial covenant under its revolving credit facility and its three-year term loans, which requires NiSource to maintain a debt to capitalization ratio that does not exceed 70%. A similar covenant in a 2005 private placement note purchase agreement requires NiSource to maintain a debt to capitalization ratio that does not exceed 75%. As of September 30, 2014 , the ratio was 61.8%.

NiSource is also subject to certain other non-financial covenants under the revolving credit facility and the term loans. Such covenants include a limitation on the creation or existence of new liens on NiSource's assets, generally exempting liens on utility assets, purchase money security interests, preexisting security interests and an additional subset of assets equal to \$150 million. An asset sale covenant generally restricts the sale, lease and/or transfer of NiSource's assets to no more than 10% of its consolidated total assets and dispositions for a price not materially less than the fair market value of the assets disposed of that do not impair the ability of NiSource and NiSource Finance to perform obligations under the revolving credit facility, and that, together with all other such dispositions, would not have a material adverse effect. The revolving credit facility and the term loans also include a cross-default provision, which triggers an event of default under the credit facility in the event of an uncured payment default relating to any indebtedness of NiSource or any of its subsidiaries in a principal amount of \$50 million or more.

NiSource's indentures generally do not contain any financial maintenance covenants. However, NiSource's indentures are generally subject to cross-default provisions ranging from uncured payment defaults of \$5 million to \$50 million, and limitations on the incurrence of liens on NiSource's assets, generally exempting liens on utility assets, purchase money security interests, preexisting security interests and an additional subset of assets capped at 10% of NiSource's consolidated net tangible assets.

Sale of Trade Accounts Receivables. Refer to Note 8, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on the sale of accounts receivable.

All accounts receivable sold to the commercial paper conduits are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined, in part, by required loss reserves under the agreements.

Credit Ratings. On September 28, 2014, NiSource announced that its Board of Directors has approved in principle plans to separate its natural gas pipeline and related businesses into a stand-alone publicly traded company whereby NiSource will continue as a fully regulated natural gas and electric utilities company. The separation announcement triggered ratings reviews by Standard & Poor's, Moody's, and Fitch. On September 29, 2014, Standard & Poor's affirmed the senior unsecured ratings for NiSource and the existing ratings of its other rated subsidiaries at BBB- and the NiSource Finance commercial paper rating of A-3, placing the company's ratings on watch positive. On September 29, 2014, Moody's Investors Service affirmed the NiSource senior unsecured rating of Baa2 and commercial paper rating of P-2, with a stable outlook. Additionally, Moody's affirmed NIPSCO's Baa1 rating and affirmed the Baa2 rating for Columbia of Massachusetts. On September 29, 2014, Fitch affirmed the senior

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

unsecured ratings for NiSource at BBB-, and the existing ratings of its other rated subsidiaries. Fitch's outlook for NiSource and its subsidiaries is stable. Although all ratings continue to be investment grade, a downgrade by either Standard & Poor's or Fitch would result in a rating that is below investment grade.

Certain NiSource affiliates have agreements that contain "ratings triggers" that require increased collateral if the credit ratings of NiSource or certain of its subsidiaries are rated below BBB- by Standard & Poor's or Baa3 by Moody's. These agreements are primarily for insurance purposes and for the physical purchase or sale of power. The collateral requirement that would be required in the event of a downgrade below the ratings trigger levels would amount to approximately \$38.9 million. In addition to agreements with ratings triggers, there are other agreements that contain "adequate assurance" or "material adverse change" provisions that could necessitate additional credit support such as letters of credit and cash collateral to transact business.

Contractual Obligations. There were no material changes recorded during the nine months ended September 30, 2014 to NiSource's contractual obligations as of December 31, 2013.

Market Risk Disclosures

Risk is an inherent part of NiSource's energy businesses. The extent to which NiSource properly and effectively identifies, assesses, monitors and manages each of the various types of risk involved in its businesses is critical to its profitability. NiSource seeks to identify, assess, monitor and manage, in accordance with defined policies and procedures, the following principal market risks that are involved in NiSource's energy businesses: commodity price risk, interest rate risk and credit risk. Risk management at NiSource is a multi-faceted process with oversight by the Risk Management Committee that requires constant communication, judgment and knowledge of specialized products and markets. NiSource's senior management takes an active role in the risk management process and has developed policies and procedures that require specific administrative and business functions to assist in the identification, assessment and control of various risks. These include but are not limited to market, operational, financial, compliance and strategic risk types. In recognition of the increasingly varied and complex nature of the energy business, NiSource's risk management process, policies and procedures continue to evolve and are subject to ongoing review and modification.

Commodity Price Risk

NiSource is exposed to commodity price risk as a result of its subsidiaries' operations involving natural gas and power. To manage this market risk, NiSource's subsidiaries use derivatives, including commodity futures contracts, swaps and options. NiSource is not involved in speculative energy trading activity.

Commodity price risk resulting from derivative activities at NiSource's rate-regulated subsidiaries is limited, since regulations allow recovery of prudently incurred purchased power, fuel and gas costs through the ratemaking process, including gains or losses on these derivative instruments. If states should explore additional regulatory reform, these subsidiaries may begin providing services without the benefit of the traditional ratemaking process and may be more exposed to commodity price risk. Some of NiSource's rate-regulated utility subsidiaries offer commodity price risk products to its customers for which derivatives are used to hedge forecasted customer usage under such products. These subsidiaries do not have regulatory recovery orders for these products and are subject to gains and losses recognized in earnings due to hedge ineffectiveness.

There are no material commodity price risk assets or liabilities as of September 30, 2014 and December 31, 2013.

Interest Rate Risk

NiSource is exposed to interest rate risk as a result of changes in interest rates on borrowings under its revolving credit agreement, term loans, commercial paper program and accounts receivable programs, which have interest rates that are indexed to short-term market interest rates. Based upon average borrowings and debt obligations subject to fluctuations in short-term market interest rates, an increase (or decrease) in short-term interest rates of 100 basis points (1%) would have increased (or decreased) interest expense by \$5.6 million and \$13.6 million for the three and nine months ended September 30, 2014, respectively, and \$3.6 million and \$10.7 million for the three and nine months ended September 30, 2013, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Credit Risk

Due to the nature of the industry, credit risk is embedded in many of NiSource's business activities. NiSource's extension of credit is governed by a Corporate Credit Risk Policy. In addition, Risk Management Committee guidelines are in place which document management approval levels for credit limits, evaluation of creditworthiness, and credit risk mitigation efforts. Exposures to credit risks are monitored by the Corporate Credit Risk function which is independent of commercial operations. Credit risk arises due to the possibility that a customer, supplier or counterparty will not be able or willing to fulfill its obligations on a transaction on or before the settlement date. For derivative related contracts, credit risk arises when counterparties are obligated to deliver or purchase defined commodity units of gas or power to NiSource at a future date per execution of contractual terms and conditions. Exposure to credit risk is measured in terms of both current obligations and the market value of forward positions net of any posted collateral such as cash, letters of credit and qualified guarantees of support.

NiSource closely monitors the financial status of its banking credit providers. NiSource evaluates the financial status of its banking partners through the use of market-based metrics such as credit default swap pricing levels, and also through traditional credit ratings provided by major credit rating agencies.

Fair Value Measurement

NiSource measures certain financial assets and liabilities at fair value. The level of the fair value hierarchy disclosed is based on the lowest level of input that is significant to the fair value measurement. NiSource's financial assets and liabilities include price risk assets and liabilities, available-for-sale securities and a deferred compensation plan obligation.

Exchange-traded derivative contracts are generally based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards, and options. In certain instances, NiSource may utilize models to measure fair value. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability, and market-corroborated inputs, i.e., inputs derived principally from or corroborated by observable market data by correlation or other means. Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures.

Refer to Note 7, "Fair Value" in the Notes to the Condensed Consolidated Financial Statements (unaudited) for additional information on NiSource's fair value measurements.

Off Balance Sheet Arrangements

As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit.

NiSource has purchase and sales agreement guarantees totaling \$25.6 million, which guarantee performance of the seller's covenants, agreements, obligations, liabilities, representations and warranties under the agreements. No amounts related to the purchase and sales agreement guarantees are reflected in the Condensed Consolidated Balance Sheets (unaudited). Management believes that the likelihood NiSource would be required to perform or otherwise incur any significant losses associated with any of the aforementioned guarantees is remote.

NiSource has other guarantees outstanding. Refer to Note 16-A, "Guarantees and Indemnities," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information about NiSource's off balance sheet arrangements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NiSource Inc.

Other Information

Critical Accounting Policies

There were no significant changes to critical accounting policies for the period ended September 30, 2014 .

Recently Issued Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* . ASU 2014-09 outlines a single, comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. NiSource is required to adopt ASU 2014-09 for periods beginning after December 15, 2016, including interim periods, and the new standard is to be applied retrospectively with early adoption not permitted. NiSource is currently evaluating the impact the adoption of ASU 2014-09 will have on its Condensed Consolidated Financial Statements (unaudited) and Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2014, the FASB issued ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. ASU 2014-08 changes the criteria for reporting a discontinued operation. Under the new pronouncement, a disposal of a part of an organization that has a major effect on its operations and financial results is a discontinued operation. NiSource is required to adopt ASU 2014-08 prospectively for all disposals or components of its business classified as held for sale during fiscal periods beginning after December 15, 2014. NiSource is currently evaluating what impact, if any, adoption of ASU 2014-08 will have on its Condensed Consolidated Financial Statements (unaudited) and Notes to Condensed Consolidated Financial Statements (unaudited).

NiSource’s Gas Distribution Operations serve approximately 3.3 million customers in seven states: Ohio, Indiana, Pennsylvania, Massachusetts, Virginia, Kentucky and Maryland. The regulated subsidiaries offer both traditional bundled services as well as transportation only for customers that purchase gas from alternative suppliers. The operating results reflect the temperature-sensitive nature of customer demand with 74% of annual residential and commercial throughput affected by seasonality. As a result, segment operating income is higher in the first and fourth quarters reflecting the heating demand during the winter season.

Regulatory Matters

Refer to Note 6, “Regulatory Matters,” in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Gas Distribution Operations segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Gas Distribution Operations

Customer Usage. Increased efficiency of natural gas appliances and improvements in home building codes and standards has contributed to a long-term trend of declining average use per customer. Usage for the nine months ended September 30, 2014 increased from the same period last year primarily due to colder weather compared to the prior year. While historically, rate design at the distribution level has been structured such that a large portion of cost recovery is based upon throughput, rather than in a fixed charge, operating costs are largely incurred on a fixed basis, and do not fluctuate due to changes in customer usage. As a result, the NiSource LDCs have pursued changes in rate design to more effectively match recoveries with costs incurred. Each of the states in which the NiSource LDCs operate has different requirements regarding the procedure for establishing changes to rate design. Columbia of Ohio restructured its rate design through a base rate proceeding and has adopted a "decoupled" rate design which more closely links the recovery of fixed costs with fixed charges. Columbia of Massachusetts and Columbia of Virginia received regulatory approval of decoupling mechanisms which adjust revenues to an approved benchmark level through a volumetric adjustment factor. Columbia of Maryland has received regulatory approval to implement a residential class revenue normalization adjustment, a decoupling mechanism whereby monthly revenues that exceed or fall short of approved levels are reconciled in subsequent months. In a prior base rate proceeding, Columbia of Pennsylvania implemented a residential weather normalization adjustment charge. In a prior base rate proceeding, NIPSCO implemented a higher fixed customer charge for residential and small customer classes moving toward full straight fixed variable rate design.

Environmental Matters

Various environmental matters occasionally impact the Gas Distribution Operations segment. As of September 30, 2014, a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 16-C, "Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Gas Distribution Operations segment.

Weather

In general, NiSource calculates the weather related revenue variance based on changing customer demand driven by weather variance from normal heating degree-days. Normal is evaluated using heating degree days across the NiSource distribution region. While the temperature base for measuring heating degree days (i.e. the estimated average daily temperature at which heating load begins) varies slightly across the region, the NiSource composite measurement is based on 65 degrees. NiSource composite heating degree days reported do not directly correlate to the weather related dollar impact on the results of Gas Distribution Operations. Heating degree days experienced during different times of the year or in different operating locations may have more or less impact on volume and dollars depending on when and where they occur. When the detailed results are combined for reporting, there may be weather related dollar impacts on operations when there is not an apparent or significant change in the aggregated NiSource composite heating degree-day comparison.

Weather in the Gas Distribution Operations' territories for the third quarter of 2014 was 18% colder than normal and 6% colder than the third quarter in 2013.

Weather in the Gas Distribution Operations' territories for the nine months ended September 30, 2014 was 14% colder than normal and 14% colder than the same period in 2013.

Throughput

Total volumes sold and transported of 166.2 MMDth for the third quarter of 2014 decreased by 1.5 MMDth from the same period last year. This 0.9% decrease in volumes was primarily attributable to a decrease in off-system sales partially offset by higher industrial throughput.

Total volumes sold and transported of 762.1 MMDth for the nine months ended September 30, 2014 increased by 38.1 MMDth from the same period last year. This 5.3% increase in volume was primarily attributable to colder weather.

Net Revenues

Net revenues for the third quarter of 2014 were \$297.3 million, an increase of \$19.5 million from the same period in 2013. The increase in net revenues is due primarily to an increase of \$10.2 million for regulatory and service programs, including the implementation of rates under Columbia of Ohio's approved infrastructure replacement program and the impacts of the rate case at Columbia of Massachusetts. Additionally, there was an increase in net revenues as result of a settlement of \$3.2 million at Columbia of Massachusetts in 2013, increased industrial and commercial usage of \$1.4 million, higher net revenues due to increased margins of \$1.4 million and higher large customer revenue of \$1.3 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Gas Distribution Operations

Net revenues for the nine months ended September 30, 2014 were \$1,299.3 million, an increase of \$136.9 million from the same period in 2013. The increase in net revenues is due primarily to an increase of \$69.9 million for regulatory and service programs, including the impacts of the rate settlement in 2013 at Columbia of Pennsylvania and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program, the effects of colder weather of \$19.7 million and increased regulatory and tax trackers, which are offset in expense, of \$17.0 million. Additionally, there was higher residential, commercial and industrial usage of \$8.8 million, an increase in off-system sales of \$5.1 million, higher revenue of \$4.9 million due to increased customer count and an increase in large customer revenue of \$4.6 million. Also, there were higher net revenues due to increased margins of \$3.9 million, higher net revenues from the recovery of storage inventory costs of \$3.6 million and a settlement of \$3.2 million at Columbia of Massachusetts in 2013. These increases were partially offset by a decrease of \$5.8 million resulting from NIPSCO's GCIM.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased gas costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three and nine months ended September 30, 2014 was a revenue increase of \$10.0 million and \$9.7 million, respectively, compared to an increase of \$8.1 million and a decrease of \$42.4 million for the three and nine months ended September 30, 2013, respectively.

Operating Income

For the third quarter of 2014, Gas Distribution Operations reported operating income of \$0.8 million, an increase of \$5.8 million from the comparable 2013 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses were \$13.7 million higher than the comparable period reflecting increased employee and administrative expenses of \$12.9 million and higher depreciation of \$4.3 million due to increased capital expenditures. These increases were partially offset by a decrease in environmental costs of \$3.7 million.

For the nine months ended September 30, 2014, Gas Distribution Operations reported operating income of \$362.4 million, an increase of \$83.3 million from the comparable 2013 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses were \$53.6 million higher than the comparable period reflecting higher employee and administrative expenses of \$17.7 million, increased regulatory and tax trackers, which are offset in net revenues, of \$17.0 million and higher depreciation of \$12.0 million due to increased capital expenditures. Additionally, there was increased other taxes of \$6.3 million, higher outside service costs of \$4.0 million and increased uncollectibles of \$3.7 million. These increases were partially offset by a decrease in environmental costs of \$5.8 million.

NiSource's Columbia Pipeline Group Operations segment primarily consists of the operations of Columbia Transmission, Columbia Gulf, NiSource Midstream, NEVCO, Crossroads Pipeline, and the equity investments in Pennant, Millennium and Hardy Storage. In total, NiSource owns a pipeline network of approximately 15,000 miles extending from the Gulf of Mexico to New York and the eastern seaboard. The pipeline network serves customers in 16 northeastern, mid-Atlantic, midwestern and southern states, as well as the District of Columbia. In addition, the Columbia Pipeline Group Operations segment operates one of the nation's largest underground natural gas storage systems.

Columbia Pipeline Group Operations' most significant projects are as follows:

Warren County. The Columbia Pipeline Group Operations segment invested approximately \$37 million on an expansion project, which included 2.5 miles of 24-inch new pipeline and modifications to existing compression assets, with Virginia Power Services Energy Corporation, Inc., the energy manager for Virginia Electric and Power Company. This project expanded the Columbia Transmission system in order to provide up to nearly 250,000 Dth per day of transportation capacity under a long-term, firm contract. The project went into service in the second quarter of 2014.

West Side Expansion. The Columbia Pipeline Group Operations segment invested approximately \$200 million in new pipeline and compression to increase supply origination from the Smithfield and Waynesburg areas on the Columbia Transmission system and provide transportation to Gulf Coast markets on the Columbia Gulf system. This investment will increase capacity up to 444,000 Dth per day from the Smithfield and Waynesburg areas and up to 540,000 Dth per day from Leach to Rayne transporting Marcellus production under long-term, firm contracts. Limited interim service was provided throughout 2014 with the project fully in service in October 2014.

Giles County. The Columbia Pipeline Group Operations segment spent approximately \$25 million to construct nearly 13 miles of 8-inch pipeline to provide 46,000 Dth per day of firm service to a third party off of its Line VA system into Columbia of Virginia's system. Columbia of Virginia expanded pipeline facilities and an existing direct connection with the third party's plant in Giles County, Virginia. The project was placed into service in October 2014.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Columbia Pipeline Group Operations

Line 1570 Expansion. The Columbia Pipeline Group Operations segment is replacing approximately 19 miles of 20-inch bare steel pipe with 24-inch pipe from Waynesburg, Pennsylvania to Redd Farm, Pennsylvania at an approximate cost of \$20 million. The project also includes the installation of two compressors at Redd Farm and an uprate in horsepower at Waynesburg, increasing capacity by nearly 99,000 Dth per day. The project is expected to be in service in the fourth quarter of 2014.

Big Pine Expansion. The Columbia Pipeline Group Operations segment is investing approximately \$65 million to make a connection to the Big Pine pipeline and add compression facilities that will add incremental capacity. The additional 9 mile 20-inch pipeline and compression facilities will support Marcellus shale production in western Pennsylvania. Approximately half of the increased capacity generated by the project is expected to be supported by a long-term fee-based agreement with a regional producer, with the remaining capacity expected to be sold to other area producers in the near term. The project is expected to be placed in service by the third quarter of 2015.

East Side Expansion. The Columbia Pipeline Group Operations segment plans to invest approximately \$275 million in developing its East Side Expansion project, which will provide access for Marcellus supplies to the northeastern and mid-Atlantic markets. Backed by binding precedent agreements, the project will add up to 312,000 Dth per day of capacity, which is expected to be placed in service by the end of the third quarter of 2015.

Chesapeake, Virginia LNG Facility Modernization. The Columbia Pipeline Group Operations segment is investing approximately \$33 million to upgrade the facility and extend its associated customer contracts for 15 years. The project's first phase was completed in the fourth quarter of 2013. The remainder of the project is expected to be placed into service in the second quarter of 2015.

Washington County Gathering. The Columbia Pipeline Group Operations segment is constructing a field gathering system in Pennsylvania that will gather well pad production of primarily dry gas from a third party producer. Pipeline laterals will be built to connect well pads as drilling is developed. The approximate \$120 million investment will include about 20 miles of gathering pipelines of varying diameter, a compressor station and dehydration unit. The gas gathering agreement has an initial 15-year term with the option to extend. The project is expected to be in service during the fourth quarter of 2015, with additional expansion expected as gas production grows.

Kentucky Power Plant. The Columbia Pipeline Group Operations segment is constructing nearly 3 miles of 16-inch greenfield pipeline from Columbia Transmission's Line P that will serve a third-party natural gas-fired electric generation plant in Kentucky. The project will cost approximately \$24 million and will provide 72,000 Dth per day of capacity to the plant under an executed binding precedent agreement. The project is expected to be in service by the end of the second quarter of 2016.

Utica Access. The Columbia Pipeline Group Operations segment is investing approximately \$51 million to construct nearly 5 miles of 20-inch greenfield pipeline to provide 205,000 Dth per day of new firm service to allow Utica production access to liquid trading points on its system. This project is expected to be in service by the end of the fourth quarter of 2016.

Leach XPress. The Columbia Pipeline Group Operations segment will invest approximately \$1.4 billion in this project. The project involves the installation of approximately 124 miles of 36-inch pipeline from Majorsville to the Crawford compressor station (Crawford) located on the Columbia Transmission system, and 27 miles of 36-inch pipeline from Crawford to the McArthur compressor station located on the Columbia Transmission system, and approximately 101,700 hp across multiple sites. The project will provide approximately 1.5 Bcf per day of capacity out of the Marcellus and Utica production regions to the Leach compressor station (Leach) located on the Columbia Gulf system, TCO Pool, and other markets on the Columbia Transmission system. Virtually all of the project's capacity has been secured with long-term firm contracts. The project is expected to go in service during the fourth quarter of 2017.

Rayne XPress. The Columbia Pipeline Group Operations segment will invest approximately \$330 million to modify existing facilities and to add new compression. This project would transport approximately 1 Bcf per day of growing southwest Marcellus and Utica production away from constrained production areas to markets and liquid transaction points. Capable of receiving gas from Columbia Transmission's Leach XPress project, gas would be transported from the Leach, Kentucky interconnect with Columbia Transmission in a southerly direction towards the Rayne compressor station in southern Louisiana to reach various Gulf Coast markets. Definitive agreements for firm service have been secured for the project's capacity. The project is expected to be placed in service by the end of the fourth quarter of 2017.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Columbia Pipeline Group Operations

WB XPress. The Columbia Pipeline Group Operations segment will invest approximately \$870 million in this project that will transport approximately 1.3 Bcf of Marcellus Shale production on the Columbia Transmission system to pipeline interconnects and East Coast markets, which includes access to the Cove Point LNG terminal. Resolution of conditions precedent is anticipated in the fourth quarter of 2014. The project is expected to be placed in service during the fourth quarter of 2018.

Cameron Access. The Columbia Pipeline Group Operations segment has entered into binding precedent agreements for the improvement to existing pipeline and the construction of new pipeline and compression facilities along the Columbia Gulf system to connect with the Cameron LNG Terminal in southern Louisiana. The approximately \$310 million project will transport supplies from numerous supply basins to the planned LNG export facility, which received Department of Energy approval late in 2013. The project will offer an initial capacity of up to 800,000 Dth per day and is expected to be placed into service by the first quarter of 2018.

Equity Investments

Pennant. NiSource Midstream entered into a 50:50 joint venture in 2012 with affiliates of Hilcorp to construct new wet natural gas gathering pipeline infrastructure and NGL processing facilities to support natural gas production in the Utica Shale region of northeastern Ohio and western Pennsylvania. NiSource Midstream and Hilcorp jointly own Pennant with NiSource Midstream serving as the operator of Pennant and the facilities. NiSource accounts for the joint venture under the equity method of accounting.

Pennant invested in the construction of 20-24 inch wet gas gathering pipeline facilities with a capacity of approximately 500 MMcf per day. In addition, Pennant constructed a gas processing facility in New Middletown, Ohio that will have an initial capacity of 200 MMcf per day and is constructing a NGL pipeline with an initial capacity of 45,000 barrels per day that can be expanded to 90,000 barrels per day. Consistent with the terms of the joint venture, NiSource Midstream operates the gas processing facility, NGL pipeline and associated wet gas gathering system. The joint venture is designed and anticipated to serve other producers with significant acreage development in the area with an interest in obtaining capacity on the system. The facilities allow Pennant to be a full-service solution for providers in the northern Utica Shale region, offering access to wet gas gathering and processing as well as residue gas and NGL takeaway to attractive market destinations. NiSource Midstream's initial investment in this area, including the gathering pipeline, related laterals, NGL pipeline and the processing plant, is approximately \$195 million. Portions of the facilities were placed in service in the fourth quarter of 2013 and the second quarter of 2014, with the remainder placed in service in October 2014.

During the third quarter of 2014, NiSource Midstream made cash contributions to Pennant totaling \$9.0 million. Cash contributions of \$41.9 million were made during the same period last year. For the nine months ended September 30, 2014 and 2013, NiSource Midstream made cash contributions to Pennant of \$61.2 million and of \$68.0 million, respectively.

In a separate agreement with Hilcorp, test wells were drilled in 2012 and continued in 2013 to support the development of the hydrocarbon potential on more than 100,000 combined acres in the Utica/Point Pleasant Shale formation. Production wells were drilled in 2013 and 2014, with the full production program in development. NiSource is investing alongside Hilcorp in the development of the acreage, with NiSource owning both a working and overriding royalty interest. All of the Hilcorp/NiSource acreage is dedicated to Pennant.

Millennium. Millennium operates approximately 253 miles of pipeline and three compressor stations with approximately 43,000 hp of installed capacity under the jurisdictional authority of the FERC. The Millennium pipeline has the capability to transport natural gas to markets along its route, which lies between Corning, New York and Ramapo, New York, as well as to the New York City market through its pipeline interconnections. Columbia Transmission owns a 47.5% interest in Millennium and acts as operator for the pipeline in partnership with DTE Millennium Company and National Grid Millennium LLC, which each own an equal remaining share of the company.

During the third quarter of 2014 and 2013, Columbia Transmission made contributions of zero and \$2.4 million, respectively, to Millennium. For the nine months ended September 30, 2014 and 2013, Columbia Transmission made contributions of \$2.6 million and \$9.0 million, respectively, to fund its share of capital projects. During the third quarter of 2014 and 2013, Columbia Transmission received distributions of earnings of \$14.2 million and \$6.2 million, respectively. For the nine months ended September 30, 2014 and 2013, Columbia transmission received distributions of earnings of \$26.1 million and \$17.1 million, respectively.

Millennium began two projects in 2012 that added approximately 30,000 hp of compression to its system. The first project went into service in June 2013 and increased capacity at its interconnections with Algonquin Gas Transmission, with a total investment

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Columbia Pipeline Group Operations

of approximately \$50 million. The second project included a total investment of approximately \$40 million that increased capacity with interconnections to other third-party facilities. The second project was placed into service in March 2014. Columbia Transmission's share of the above investments is limited to its 47.5% interest in Millennium.

Hardy Storage. Hardy Storage is a 50:50 joint venture between subsidiaries of Columbia Transmission and Piedmont that consists of 29 storage wells in a depleted gas production field in Hardy and Hampshire counties in West Virginia. Columbia Transmission serves as operator of the company, which is regulated by the FERC. Hardy Storage facilities interconnect with Columbia Transmission and include approximately 37 miles of pipeline and nearly 7,200 hp of installed capacity with a working storage capacity of 12 Bcf and the ability to deliver 176,000 Dth of natural gas per day.

During both the third quarter of 2014 and 2013, NiSource received \$0.5 million of available accumulated earnings. For the nine months ended September 30, 2014 and 2013, NiSource received \$1.5 million and \$1.9 million of available accumulated earnings, respectively. NiSource made no contributions during 2014 or 2013.

Nature of Sales

Columbia Transmission and Columbia Gulf compete for transportation customers based on the type of service a customer needs, operating flexibility, available capacity and price. Columbia Gulf and Columbia Transmission provide a significant portion of total transportation services under firm contracts and derive a smaller portion of revenues through interruptible contracts, with management seeking to maximize the portion of physical capacity sold under firm contracts.

Firm service contracts require pipeline capacity to be reserved for a given customer between certain receipt and delivery points. Firm customers generally pay a "capacity reservation" fee based on the amount of capacity being reserved regardless of whether the capacity is used, plus an incremental usage fee when the capacity is used. Annual capacity reservation revenues derived from firm service contracts generally remain constant over the life of the contract because the revenues are based upon capacity reserved and not whether the capacity is actually used. The high percentage of revenue derived from capacity reservation fees mitigates the risk of revenue fluctuations within the Columbia Pipeline Group Operations segment due to changes in near-term supply and demand conditions. For the quarter ended September 30, 2014, approximately 94.6% of the transportation revenues were derived from capacity reservation fees paid under firm contracts and 3.6% of the transportation revenues were derived from usage fees under firm contracts compared to approximately 93.7% and 4.1%, respectively, for the quarter ended September 30, 2013. For the nine months ended September 30, 2014, approximately 93.8% of the transportation revenues were derived from capacity reservation fees paid under firm contracts and 4.3% of the transportation revenues were derived from usage fees under firm contracts compared to approximately 92.9% and 5.3% respectively, for the nine months ended September 30, 2013.

Interruptible transportation service is typically short term in nature and is generally used by customers that either do not need firm service or have been unable to contract for firm service. These customers pay a usage fee only for the volume of gas actually transported. The ability to provide this service is limited to available capacity not otherwise used by firm customers, and customers receiving services under interruptible contracts are not assured capacity in the pipeline facilities. Columbia Pipeline Group Operations provides interruptible service at competitive prices in order to capture short term market opportunities as they occur and interruptible service is viewed by management as an important strategy to optimize revenues from the gas transmission assets. For the quarters ended September 30, 2014 and 2013, approximately 1.8% and 2.2%, respectively, of the transportation revenues were derived from interruptible contracts. For the nine months ended September 30, 2014 and 2013, approximately 2.0% and 1.8%, respectively, of the transportation revenues were derived from interruptible contracts.

Regulatory Matters

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on regulatory matters for the Columbia Pipeline Group Operations segment.

Environmental Matters

Various environmental matters occasionally impact the Columbia Pipeline Group Operations segment. As of September 30, 2014, a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 16-C, "Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Columbia Pipeline Group Operations segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Columbia Pipeline Group Operations

Throughput

Columbia Transmission's throughput consists of gas transportation service deliveries to LDC city gates, to gas fired power plants, other industrial customers, or other interstate pipelines in its market area. Columbia Transmission's market area covers portions of northeastern, mid-Atlantic, midwestern, and southern states as well as the District of Columbia. Gas delivered via transportation services to storage is not accounted for as throughput until it is withdrawn from storage and delivered to one of the aforementioned locations via a transportation service. Throughput for Columbia Gulf traditionally consists of gas delivered to Columbia Transmission at Leach, Kentucky as well as gas delivered south of Leach to other interstate pipelines or to an LDC's city gate. Market conditions on Columbia Gulf continue to support greater use of backhaul transportation services from supplies originating near Leach, Kentucky and its Louisiana interconnects to markets in the southeastern United States. Crossroads Pipeline serves customers in northern Indiana and Ohio via gas flowing west to east originating from outside the Chicago area to Cygnet, Ohio where it interconnects with Columbia Transmission. Intra-segment eliminations represent gas delivered to an affiliated pipeline within the segment.

Throughput for the Columbia Pipeline Group Operations segment totaled 285.0 MMDth for the third quarter of 2014 , compared to 260.0 MMDth for the same period in 2013 . The increase of 25.0 MMDth reflected increased Marcellus natural gas production and favorable pricing conditions to third party interconnects in the Southeast region of the United States.

Throughput for the Columbia Pipeline Group Operations segment totaled 1,195.0 MMDth for the nine months ended September 30, 2014 , compared to 1,085.4 MMDth for the same period in 2013 . The increase of 109.6 MMDth was primarily attributable to increased natural gas production on the Columbia Pipeline Group system and the transportation of volumes to third party interconnects mentioned above.

Net Revenues

Net revenues were \$317.6 million for the third quarter of 2014 , an increase of \$35.0 million from the same period in 2013 . The increase in net revenues is due primarily to higher regulatory trackers, which are offset in expense, of \$15.6 million, increased demand margin revenue of \$11.8 million primarily as a result of growth projects placed in service, higher mineral rights royalty revenue of \$5.9 million and increased condensate revenue of \$2.6 million.

Net revenues were \$1,006.5 million for the nine months ended September 30, 2014 , an increase of \$148.9 million from the same period in 2013. The increase in net revenues is due primarily to higher regulatory trackers, which are offset in expense, of \$87.6 million, increased demand margin revenue of \$34.1 million primarily as a result of growth projects placed in service, higher mineral rights royalty revenue of \$20.5 million due to increased third party drilling activity and higher condensate revenue of \$3.7 million.

Operating Income

Operating income was \$94.4 million for the third quarter of 2014 , a decrease of \$4.3 million from the third quarter of 2013 . Operating income decreased as a result of increased operating expenses, partially offset by higher net revenues, as described above, and higher equity earnings. Operating expenses were \$40.8 million higher than the comparable period primarily as a result of increased regulatory trackers, which are offset in net revenues, of \$15.6 million, higher employee and administrative expenses of \$13.5 million, a decrease in gains on the sale of assets of \$8.1 million primarily resulting from the sale of storage base gas in 2013, higher outside service costs of \$5.8 million, and increased depreciation of \$2.5 million. These increases were partially offset by a decrease in software data conversion costs of \$7.5 million. Equity earnings increased \$1.5 million due to higher earnings at Millennium.

Operating income was \$357.0 million for the nine months ended September 30, 2014 , an increase of \$36.0 million from the comparable 2013 period. Operating income increased as a result of higher net revenues, as described above, and higher equity earnings partially offset by increased operating expenses. Operating expenses were \$120.2 million higher than the comparable period primarily as a result of increased regulatory trackers, which are offset in net revenues, of \$87.6 million, higher employee and administrative expenses of \$24.4 million, increased depreciation of \$8.8 million, higher outside service costs of \$7.5 million and increased property taxes of \$3.1 million. These increases were partially offset by an increase in the gain on the sale of assets of \$9.5 million primarily resulting from conveyances of mineral interests of \$20.8 million, offset by the sale of storage base gas in 2013 of \$11.1 million and lower software data conversion costs of \$7.5 million. Equity earnings increased \$7.3 million due to higher earnings at Millennium attributable to growth projects placed in service.

NiSource generates and distributes electricity, through its subsidiary NIPSCO, to approximately 459 thousand customers in 20 counties in the northern part of Indiana. The operating results reflect the temperature-sensitive nature of customer demand with annual sales affected by temperatures in the northern part of Indiana. As a result, segment operating income is generally higher in the second and third quarters, reflecting cooling demand during the summer season.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Electric Operations

Electric Supply

On October 28, 2011, NIPSCO filed its 2011 Integrated Resource Plan with the IURC. The plan evaluates demand-side and supply-side resource alternatives to reliably and cost-effectively meet NIPSCO customers' future energy requirements over the next twenty years. Existing resources are expected to be sufficient, assuming favorable outcomes for environmental upgrades, to meet customers' needs for the next decade. NIPSCO continues to monitor and assess economic, regulatory and legislative activity, and will update its resource plan as appropriate.

Regulatory Matters

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Electric Operations segment.

Environmental Matters

Various environmental matters occasionally impact the Electric Operations segment. As of September 30, 2014, a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 16-C, "Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Electric Operations segment.

Transmission Upgrade Agreements

On February 11, 2014, NIPSCO entered into TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors have agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, which is estimated at \$50.3 million, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs, filed a complaint at FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. NIPSCO will continue to monitor developments in this matter but cannot estimate the impact (if any) on the Condensed Consolidated Financial Statements (unaudited) the complaint will have at this time.

Sales

Electric Operations sales quantities for the third quarter of 2014 were 4,649.3 gwh, an increase of 105.6 gwh compared to the third quarter of 2013. The 2.3% increase is primarily attributable to an increase in industrial usage due to large industrial customers expanding plant operations and using less internal generation.

Electric Operations sales quantities for the nine months ended September 30, 2014 were 13,694.2 gwh, an increase of 461.4 gwh compared to the same period in 2013. The 3.5% increase is primarily attributable to an increase in industrial usage due to large industrial customers expanding plant operations and using less internal generation.

Net Revenues

Net revenues were \$277.2 million for the third quarter of 2014, an increase of \$5.7 million from the same period in 2013. The increase in net revenues is due primarily to higher industrial and residential usage of \$7.4 million, increased trackers, which are offset in expense, of \$4.4 million and an increase in the return on the environmental capital investment recovery of \$4.2 million due to an increased plant balance eligible for recovery. These increases were partially offset by the effects of weather of \$10.3 million.

Net revenues were \$806.3 million for the nine months ended September 30, 2014, an increase of \$38.3 million from the same period in 2013. The increase in net revenues is due primarily to higher industrial and residential usage of \$21.9 million, an increase in the return on the environmental capital investment recovery of \$17.3 million due to an increased plant balance eligible for recovery. Additionally, there was increased net revenues of \$4.1 million as a result of two electric transmission projects authorized by the MISO and higher off-system sales of \$3.9 million. These increases were partially offset by a decrease in transmission upgrade revenue of \$6.5 million and the effects of weather of \$3.8 million.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased fuel costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three and nine months ended

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Electric Operations

September 30, 2014 was a revenue decrease of \$22.2 million and an increase of \$8.6 million, respectively, compared to a revenue increase of \$6.9 million and \$6.6 million for the three and nine months ended September 30, 2013 , respectively.

Operating Income

For the third quarter of 2014 , Electric Operations reported operating income of \$76.9 million, a decrease of \$10.6 million from the comparable 2013 period. Operating income decreased as a result of increased operating expenses, partially offset by higher net revenues, as described above. Operating expenses increased \$16.3 million due primarily to higher employee and administrative expenses of \$5.3 million, an increase in trackers, which are offset in net revenues, of \$4.4 million, higher electric generation costs of \$3.4 million and increased storm damage costs of \$3.3 million.

For the nine months ended September 30, 2014 , Electric Operations reported operating income of \$218.7 million, an increase of \$6.5 million from the comparable 2013 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses increased \$31.8 million due primarily to higher employee and administrative expenses of \$15.3 million, increased electric generation costs of \$14.3 million as a result of maintenance related outages and higher storm damage costs of \$2.6 million.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

NiSource Inc.

For a discussion regarding quantitative and qualitative disclosures about market risk see “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Market Risk Disclosures.”

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

NiSource’s Chief Executive Officer and its Principal Financial Officer, after evaluating the effectiveness of NiSource’s disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)), have concluded based on the evaluation required by paragraph (b) of Exchange Act Rules 13a-15 and 15d-15 that, as of the end of the period covered by this report, NiSource’s disclosure controls and procedures are considered effective.

Changes in Internal Controls

There have been no changes in NiSource’s internal control over financial reporting during the fiscal quarter covered by this report that has materially affected, or is reasonably likely to materially affect, NiSource’s internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

NiSource Inc.

On August 29, 2014, Pike County Conservation District issued an NOV to Columbia Transmission alleging violations of the Pennsylvania Clean Streams Law and Columbia Transmission's Erosion and Sediment Control General Permit in connection with Columbia Transmission's Line 1278 Replacement Project. Discussions are ongoing with the Pike County Conservation District to resolve this NOV.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 ("Form 10-K"), except for the addition of the risk factors set forth below. The risks and uncertainties described below should be read in conjunction with the risk factors and other information disclosed in our Form 10-K.

The Proposed Separation may not be completed on the currently contemplated timeline or terms, or at all, and may not achieve the intended benefits .

The Proposed Separation is subject to conditions, including, without limitation, final NiSource Board of Directors approval and the receipt by NiSource of a legal opinion to the effect that the distribution of CPG shares to NiSource shareholders will qualify as tax-free under Section 355 of the U.S. Internal Revenue Code. Unanticipated developments or changes in market conditions may delay the Proposed Separation, and the Proposed Separation may not occur on the currently contemplated timeline or at all.

NiSource cannot predict with certainty when the benefits expected from the Proposed Separation will occur or the extent to which they will be achieved, if at all. Furthermore, there are various uncertainties and risks relating to the process of the Proposed Separation that could have a negative impact on our financial condition, results of operations and cash flows, including disruption of our operations and impairment of our relationship with regulators, key personnel, customers and vendors.

If the Proposed Separation is successfully completed, NiSource will face new and unique risks, including the possibility of reduced financial resources and less diversification of revenue sources, which may adversely impact NiSource's financial condition, results of operations and cash flows. In addition, the changes in our operational and financial profile may not meet some or all of our shareholders' investment strategies, which could cause investors to sell their NiSource shares and otherwise decrease demand for shares of NiSource common stock. Excess selling will cause the relative market price of NiSource common stock to decrease, and the market price of NiSource common stock may be subject to greater volatility following the completion of the Proposed Separation.

A condition to the Proposed Separation is the receipt by NiSource of a legal opinion to the effect that the distribution of CPG shares to NiSource shareholders will qualify as tax-free under Section 355 of the U.S. Internal Revenue Code. However, even if we receive such an opinion, the Internal Revenue Service could determine on audit that the distribution is taxable. Both NiSource and our shareholders could incur significant U.S. federal income tax liabilities if taxing authorities conclude the distribution is taxable.

Following the Proposed Separation, both NiSource and CPG are expected to have investment grade credit ratings. However, there is no assurance that this will occur, and even if both NiSource and CPG have investment grade credit ratings at the time the Proposed Separation is completed, there is no assurance that they will continue to maintain such investment grade credit ratings in the future.

Inability to complete the planned initial public offering of Columbia Pipeline Partners LP on the currently contemplated timeline or terms may adversely impact our stock price and our ability to enhance our growth potential .

On September 29, 2014, a registration statement relating to the proposed initial public offering, or IPO, of common units representing limited partner interests in Columbia Pipeline Partners LP was filed with the Securities and Exchange Commission but has not yet become effective. Completion of the registration is subject to market conditions and numerous other risks beyond our control, including, but not limited to, the general economy, credit markets, equity markets and energy prices. Therefore, it is possible that the master limited partnership will not complete an offering of securities, will not raise the planned amount of capital even if an offering of securities is completed, and will not be able to complete its proposed actions on the timetable indicated. Furthermore,

ITEM 1A. RISK FACTORS (continued)

NiSource Inc.

the structure, nature, purpose, proposed assets and liabilities, and proposed manner of offering of the master limited partnership may change materially from those anticipated. If the IPO is not completed or is delayed, our stock price may decline and our growth potential may be negatively impacted.

A registration statement relating to common units of Columbia Pipeline Partners LP has been filed with the SEC but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This quarterly report on Form 10-Q shall not constitute an offer to sell or the solicitation of an offer to buy any securities. Any offers, solicitations of offers to buy, or any sales of securities of Columbia Pipeline Partners LP will be made only in accordance with the registration requirements of the Securities Act of 1933 or an exemption therefrom.

TERM LOAN AGREEMENT , dated as of August 20, 2014 (this “ *Agreement* ”), among **NISOURCE FINANCE CORP.** , an Indiana corporation, as Borrower (the “ *Borrower* ”), **NISOURCE INC.** , a Delaware corporation (“ *NiSource* ”), as Guarantor (the “ *Guarantor* ”), the Lead Arrangers and other Lenders from time to time party hereto, **COBANK, ACB** , as Syndication Agent and **JPMORGAN CHASE BANK, N.A.** , as administrative agent for the Lenders hereunder (in such capacity, the “ *Administrative Agent* ”).

The parties hereto hereby agree as follows:

ARTICLE I DEFINITIONS

SECTION 1.01. Defined Terms. As used in this Agreement, the following terms have the meanings specified below:

“ *ABR* ”, when used in reference to any Loan or Borrowing, refers to whether such Loan is, or the Loans comprising such Borrowing are, bearing interest at a rate determined by reference to the Alternate Base Rate.

“ *Administrative Questionnaire* ” means an Administrative Questionnaire in a form supplied by the Administrative Agent.

“ *Affiliate* ” means, with respect to a specified Person, another Person that directly, or indirectly through one or more intermediaries, Controls or is Controlled by or is under common Control with the Person specified.

“ *Agent Party* ” has the meaning assigned to such term in Section 11.01(g).

“ *Aggregate Commitments* ” means the aggregate amount of the Commitments of all Lenders, as in effect from time to time. As of the date hereof, the Aggregate Commitments equal \$750,000,000.

“ *Alternate Base Rate* ” means, for any day, a rate *per annum* equal to the greatest of (a) the Prime Rate in effect on such day, (b) the Federal Funds Effective Rate in effect on such day plus 1/2 of 1% and (c) 1.0% per annum plus the LIBO Rate applicable to an Interest Period of one month on such day (or if such day is not a Business Day, the immediately preceding Business Day), provided that, for the avoidance of doubt, the LIBO Rate for any day shall be based on the rate appearing on Reuters Screen LIBOR01 Page (or on any successor or substitute page of such page) at approximately 11:00 a.m. London time on such day. Any change in the Alternate Base Rate due to a change in the Prime Rate, the Federal Funds Effective Rate or the one-month LIBO Rate shall be effective from and including the effective date of such change in the Prime Rate, the Federal Funds Effective Rate or the one-month LIBO Rate, respectively.

“ *Anti-Corruption Laws* ” means all laws, rules, and regulations of any jurisdiction applicable to the Borrower or its Subsidiaries from time to time concerning or relating to bribery or corruption.

“ *Applicable Percentage* ” means, with respect to any Lender, the percentage of the Aggregate Commitments represented by such Lender’s Commitment; provided that, in the case of Section 2.20 when a Defaulting Lender shall exist, “Applicable Percentage” shall mean the percentage of the Aggregate Commitment (disregarding any Defaulting Lender’s Commitment) represented by such Lender’s Commitment. If the Commitments have terminated or expired, the Applicable Percentages shall be determined based upon the aggregate principal amount of Outstanding Loans made or maintained by such Lender as a percentage of all Outstanding Loans; provided that, in the event that a Defaulting Lender shall exist, in accordance with Section 2.20, “Applicable Percentage” shall mean the percentage of all Outstanding Loans (disregarding any Defaulting Lender’s Outstanding Loans) represented by such Lender’s Outstanding Loans.

“ *Applicable Rate* ” means, for any day, (a) with respect to any ABR Loan, the applicable rate per annum set forth adjacent to the caption “ABR Loans” on the Pricing Grid and (b) with respect to any Eurodollar Loan, the applicable rate per annum set forth adjacent to the caption “Eurodollar Loans” on the Pricing Grid.

“ *Arrangers* ” means each of J.P. Morgan Securities LLC and CoBank, ACB.

“ *Assignment and Assumption* ” means an assignment and assumption entered into by a Lender and an assignee (with the consent of any party whose consent is required by Section 11.04), and accepted by the Administrative Agent, in the form of Exhibit A or any other form approved by the Administrative Agent.

“ **Authorized Officer** ” means the president, chief financial officer or the treasurer of the Borrower; provided that solely with respect to the submission of a Borrowing Request, “ **Authorized Officer** ” shall also mean the assistant treasurer or the treasury operations manager of the Borrower.

“ **Bankruptcy Event** ” means, with respect to any Person, such Person becomes the subject of a bankruptcy or insolvency proceeding, or has had a receiver, conservator, trustee, administrator, custodian, assignee for the benefit of creditors or similar Person charged with the reorganization or liquidation of its business appointed for it, or, in the good faith determination of the Administrative Agent, has taken any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any such proceeding or appointment, provided that a Bankruptcy Event shall not result solely by virtue of any ownership interest, or the acquisition of any ownership interest, in such Person by a Governmental Authority or instrumentality thereof, provided, further, that such ownership interest does not result in or provide such Person with immunity from the jurisdiction of courts within the United States of America or from the enforcement of judgments or writs of attachment on its assets or permit such Person (or such Governmental Authority or instrumentality) to reject, repudiate, disavow or disaffirm any contracts or agreements made by such Person.

“ **Beneficiary** ” has the meaning set forth in Section 10.01.

“ **Board** ” means the Board of Governors of the Federal Reserve System of the United States of America.

“ **Borrower** ” means NiSource Finance Corp., an Indiana corporation.

“ **Borrowing** ” means Loans of the same Type, made, converted or continued on the same date and, in the case of Eurodollar Loans, as to which a single Interest Period is in effect.

“ **Borrowing Request** ” means the request by the Borrower for the Borrowing in accordance with Section 2.02.

“ **Business Day** ” means any day that is not a Saturday, Sunday or other day on which commercial banks in New York City are authorized or required by law to remain closed; *provided* that, when used in connection with a Eurodollar Loan, the term “ **Business Day** ” shall also exclude any day on which banks are not open for dealings in dollar deposits in the London interbank market.

“ **Capital Lease** ” means, as to any Person, any lease of real or personal property in respect of which the obligations of the lessee are required, in accordance with GAAP, to be capitalized on the balance sheet of such Person.

“ **Capital Stock** ” means any and all shares, interests, participations or other equivalents (however designated) of capital stock of a corporation, any and all equivalent ownership interests in a Person other than a corporation (including, but not limited to, all common stock and preferred stock and partnership, membership and joint venture interests in a Person), and any and all warrants, rights or options to purchase any of the foregoing.

“ **CERCLA** ” means the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act, 42, U.S.C. Section 9601 et seq., as amended.

“ **Change in Law** ” means the occurrence, after the date of this Agreement (or with respect to any Lender, if later, the date on which such Lender becomes a Lender), of any of the following: (a) the adoption or taking effect of any law, rule, regulation or treaty, (b) any change in any law, rule, regulation or treaty or in the administration, interpretation, implementation or application thereof by any Governmental Authority or (c) the making or issuance of any request, rules, guideline, requirement or directive (whether or not having the force of law) by any Governmental Authority; provided, however, that notwithstanding anything herein to the contrary, (i) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules, guidelines, requirements and directives thereunder, issued in connection therewith or in implementation thereof, and (ii) all requests, rules, guidelines, requirements and directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or the United States of America or foreign regulatory authorities, in each case pursuant to Basel III, shall in each case be deemed to be a “Change in Law” regardless of the date enacted, adopted, issued or implemented.

“ **Change of Control** ” means (a) any “person” or “group” within the meaning of Sections 13(d) and 14(d)(2) of the Securities Exchange Act of 1934, as amended, shall become the “beneficial owner” (as defined in Rule 13d-3 under the Securities Exchange Act of 1934, as amended) of more than 50% of the then outstanding voting Capital Stock of the Guarantor, (b) Continuing Directors shall cease to constitute at least a majority of the directors constituting the Board of Directors of the Guarantor, (c) a consolidation or merger of the Guarantor shall occur after which the holders of the

outstanding voting Capital Stock of the Guarantor immediately prior thereto hold less than 50% of the outstanding voting Capital Stock of the surviving entity; (d) more than 50% of the outstanding voting Capital Stock of the Guarantor shall be transferred to an entity of which the Guarantor owns less than 50% of the outstanding voting Capital Stock; (e) there shall occur a sale of all or substantially all of the assets of the Guarantor; or (f) the Borrower, NIPSCO or Columbia shall cease to be a Wholly-Owned Subsidiary of the Guarantor (except to the extent otherwise permitted under clauses (i), (ii), (iii) or (iv) of Section 6.01(b)).

“ **Code** ” means the Internal Revenue Code of 1986, as amended from time to time.

“ **Columbia** ” means Columbia Energy Group, a Delaware corporation.

“ **Commitment** ” means, with respect to each Lender, the commitment of such Lender to make Loans hereunder as set forth herein. The amount of each Lender’s Commitment is the amount set forth on Schedule 2.01 opposite such Lender’s name.

“ **Communications** ” has the meaning assigned to such term in Section 11.01(g).

“ **Connection Income Taxes** ” means Other Connection Taxes that are imposed on or measured by net income (however denominated) or that are franchise Taxes.

“ **Consolidated Capitalization** ” means the sum of (a) Consolidated Debt, (b) consolidated common equity of the Guarantor and its Consolidated Subsidiaries determined in accordance with GAAP, and (c) the aggregate liquidation preference of preferred stocks (other than preferred stocks subject to mandatory redemption or repurchase) of the Guarantor and its Consolidated Subsidiaries upon involuntary liquidation.

“ **Consolidated Debt** ” means, at any time, the Indebtedness of the Guarantor and its Consolidated Subsidiaries that would be classified as debt on a balance sheet of the Guarantor determined on a consolidated basis in accordance with GAAP.

“ **Consolidated Subsidiary** ” means, on any date, each Subsidiary of the Guarantor the accounts of which, in accordance with GAAP, would be consolidated with those of the Guarantor in its consolidated financial statements if such statements were prepared as of such date.

“ **Contingent Guaranty** ” means a direct or contingent liability in respect of a Project Financing (whether incurred by assumption, guaranty, endorsement or otherwise) that either (a) is limited to guarantying performance of the completion of the Project that is financed by such Project Financing or (b) is contingent upon, or the obligation to pay or perform under which is contingent upon, the occurrence of any event other than failure of the primary obligor to pay upon final maturity (whether by acceleration or otherwise).

“ **Continuing Directors** ” means (a) all members of the board of directors of the Guarantor who have held office continually since the Effective Date, and (b) all members of the board of directors of the Guarantor who were elected as directors after the Effective Date and whose nomination for election was approved by a vote of at least 50% of the Continuing Directors.

“ **Contractual Obligation** ” means, as to any Person, any provision of any security issued by such Person or of any agreement, instrument or other undertaking to which such Person is a party or by which it or any of its property is bound.

“ **Control** ” means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ability to exercise voting power, by contract or otherwise. “ **Controlling** ” and “ **Controlled** ” have meanings correlative thereto.

“ **Credit Documents** ” means (a) this Agreement, any promissory notes executed pursuant to Section 2.10, and any Assignment and Assumptions, (b) any certificates, opinions and other documents required to be delivered pursuant to Section 3.01 and (c) any other documents delivered by a Credit Party pursuant to or in connection with any one or more of the foregoing.

“ **Credit Party** ” means each of the Borrower and the Guarantor; and “ **Credit Parties** ” means the Borrower and the Guarantor, collectively.

“ **Creditor Party** ” means the Administrative Agent or any other Lender.

“ **Debt for Borrowed Money** ” means, as to any Person, without duplication, (a) all obligations of such Person for borrowed money, (b) all obligations of such Person evidenced by bonds, debentures, notes or similar instruments, (c) all Capital Lease obligations of such Person, and (d) all obligations of such Person under synthetic leases, tax retention operating leases, off-balance sheet loans or other off-balance sheet financing products that, for tax purposes, are considered indebtedness for borrowed money of the lessee but are classified as operating leases under GAAP.

“ **Debt to Capitalization Ratio** ” means, at any time, the ratio of Consolidated Debt to Consolidated Capitalization.

“ **Default** ” means any event or condition that constitutes an Event of Default or that, upon notice, lapse of time or both would, unless cured or waived, become an Event of Default.

“ **Defaulting Lender** ” means any Lender that (a) has failed, within two Business Days of the date required to be funded or paid, to (i) fund any portion of its Loans or (ii) pay over to any Creditor Party any other amount required to be paid by it hereunder, unless, in the case of clause (i) above, such Lender notifies the Administrative Agent in writing that such failure is the result of such Lender’s good faith determination that a condition precedent to funding set forth in Section 3.02 (specifically identified and including the particular default, if any) has not been satisfied, (b) has notified the Borrower or any Creditor Party in writing, or has made a public statement to the effect, that it does not intend or expect to comply with any of its funding obligations under this Agreement (unless such writing or public statement indicates that such position is based on such Lender’s good faith determination that a condition precedent (specifically identified and including the particular default, if any) to funding a loan under this Agreement set forth in Section 3.02 cannot be satisfied) or generally under other agreements in which it commits to extend credit, (c) has failed, within three Business Days after request by a Creditor Party, acting in good faith, to provide a certification in writing from an authorized officer of such Lender that it will comply with its obligations to fund prospective Loans, provided that such Lender shall cease to be a Defaulting Lender pursuant to this clause (c) upon such Creditor Party’s receipt of such certification in form and substance satisfactory to it and the Administrative Agent, or (d) has become the subject of a Bankruptcy Event.

“ **Dollars** ” or “ **\$** ” refers to lawful money of the United States of America.

“ **Effective Date** ” means the date on which each of the conditions precedent set forth in Section 3.01 have been satisfied or waived by the Administrative Agent in accordance with Section 11.02.

“ **Electronic Signature** ” means an electronic sound, symbol, or process attached to, or associated with, a contract or other record and adopted by a Person with the intent to sign, authenticate or accept such contract or record.

“ **Electronic System** ” means any electronic system, including (i) e-mail, (ii) e-fax, (iii) Intralinks®, ClearPar® and (iv) any other Internet or extranet-based site, whether such electronic system is owned, operated or hosted by the Administrative Agent and any of its Related Parties or any other Person, providing for access to data protected by passcodes or other security system.

“ **Environmental Laws** ” means any and all foreign, federal, state, local or municipal laws (including, without limitation, common laws), rules, orders, regulations, statutes, ordinances, codes, decrees, judgments, awards, writs, injunctions, requirements of any Governmental Authority or other requirements of law regulating, relating to or imposing liability or standards of conduct concerning, pollution, waste, industrial hygiene, occupational safety or health, the presence, transport, manufacture, generation, use, handling, treatment, distribution, storage, disposal or release of Hazardous Materials, or protection of human health, plant life or animal life, natural resources or the environment, as now or at any time hereafter in effect.

“ **Environmental Liability** ” means any liability, contingent or otherwise (including any liability for damages, costs of environmental remediation, fines, penalties or indemnities), of the Guarantor or any of its Subsidiaries directly or indirectly resulting from or based upon (a) violation of any Environmental Law, (b) the generation, use, handling, transportation, storage, treatment or disposal of any Hazardous Materials, (c) exposure to any Hazardous Materials, (d) the release or threatened release of any Hazardous Materials into the environment or (e) any contract, agreement or other consensual arrangement pursuant to which liability is assumed or imposed with respect to any of the foregoing.

“ **ERISA** ” means the Employee Retirement Income Security Act of 1974, as amended from time to time, and the regulations promulgated and rulings issued thereunder.

“ **ERISA Affiliate** ” means any Person who, for purposes of Title IV of ERISA, is a member of the Guarantor’s controlled group, or under common control with the Guarantor, within the meaning of Section 414 of the Code and the regulations promulgated and rulings issued thereunder.

“ **ERISA Event** ” means (a) a reportable event, within the meaning of Section 4043 of ERISA, unless the 30-day notice requirement with respect thereto has been waived by the PBGC, (b) the provision by the administrator of any Plan of a notice of intent to terminate such Plan, pursuant to Section 4041(a)(2) and 4041(c) of ERISA (including any such notice with respect to a plan amendment referred to in Section 4041(e) of ERISA), (c) the withdrawal by the Guarantor or an ERISA Affiliate from a Multiple Employer Plan during a plan year for which it was a substantial employer, as defined in Section 4001(a)(2) of ERISA, (d) the failure by the Guarantor or any ERISA Affiliate to make a payment to a Plan required under Section 302 of ERISA, for which Section 303(k) imposes a lien for failure to make required payments, or (e) the institution by the PBGC of proceedings to terminate a Plan, pursuant to Section 4042 of ERISA, or the occurrence of any event or condition which may reasonably be expected to constitute grounds under Section 4042 of ERISA for the termination of, or the appointment of a trustee to administer, a Plan.

“ **Eurocurrency Liabilities** ” has the meaning assigned to that term in Regulation D of the Board, as in effect from time to time.

“ **Eurodollar** ”, when used in reference to any Loan or Borrowing, refers to whether such Loan is, or the Loans comprising such Borrowing are, bearing interest at a rate determined by reference to the LIBO Rate.

“ **Eurodollar Rate Reserve Percentage** ” of any Lender for the Interest Period for any Eurodollar Loan means the reserve percentage applicable during such Interest Period (or if more than one such percentage shall be so applicable, the daily average of such percentages for those days in such Interest Period during which any such percentage shall be so applicable) under regulations issued from time to time by the Board (or any successor) for determining the maximum reserve requirement (including, without limitation, any emergency, supplemental or other marginal reserve requirement) for such Lender with respect to liabilities or assets consisting of or including Eurocurrency Liabilities having a term equal to such Interest Period.

“ **Event of Default** ” has the meaning assigned to such term in Article VIII.

“ **Excluded Taxes** ” means, with respect to the Administrative Agent, any Lender or any other recipient of any payment to be made by or on account of any obligation of the Borrower hereunder, (a) income or franchise taxes imposed on (or measured by) its net income or net earnings (i) by the United States of America, or by the jurisdiction under the laws of which such recipient is organized or in which its principal office is located or, in the case of any Lender, in which its applicable lending office is located or (ii) that are Other Connection Taxes, (b) any branch profits Taxes imposed by the United States of America or any similar Taxes imposed by any other jurisdiction in which the Borrower is located, (c) in case of a Foreign Lender (other than an assignee pursuant to a request by the Borrower under Section 2.19(d)), any withholding tax that (i) is imposed on amounts payable to such Foreign Lender at the time such Foreign Lender becomes a party to this Agreement, except to the extent that such Foreign Lender’s assignor (if any) was entitled, at the time of assignment, to receive additional amounts from the Borrower with respect to such withholding tax pursuant to Section 2.17(a) or (ii) is attributable to such Foreign Lender’s failure to comply with Section 2.17 (e) when legally able to do so and (d) any U.S. Federal withholding Taxes imposed under FATCA.

“ **Extension of Credit** ” means the making by any Lender of a Loan.

“ **FATCA** ” means Sections 1471 through 1474 of the Code, as of the date of this Agreement (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), any current or future regulations or official interpretations thereof and any agreement entered into pursuant to Section 1471(b)(1) of the Code.

“ **Federal Bankruptcy Code** ” means Title 11 of the United States Code (11 U.S.C. § 101 et seq.) as now or hereafter in effect, or any successor statute.

“ **Federal Funds Effective Rate** ” means, for any day, the weighted average (rounded upwards, if necessary, to the next 1/100 of 1%) of the rates on overnight Federal funds transactions with members of the Federal Reserve System arranged by Federal funds brokers, as published on the next succeeding Business Day by the Federal Reserve Bank of New York, or, if such rate is not so published for any day that is a Business Day, the average (rounded upwards, if necessary, to the next 1/100 of 1%) of the quotations for such day for such transactions received by the Administrative Agent from three Federal funds brokers of recognized standing selected by it.

“ **Foreign Lender** ” means any Lender that is organized under the laws of a jurisdiction other than that in which the Borrower is located. For purposes of this definition, the United States of America, each State thereof and the District of Columbia shall be deemed to constitute a single jurisdiction.

“ **GAAP** ” means generally accepted accounting principles in the United States of America consistent with those applied in the preparation of the financial statements referred to in Section 4.01(e) and (f).

“ **Governmental Authority** ” means the government of the United States of America, any other nation, or any political subdivision of the United States of America or any other nation, whether state or local, any agency, authority, instrumentality, regulatory body, court, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any supra-national bodies such as the European Union or the European Central Bank), and any group or body charged with setting financial accounting or regulatory capital rules or standards (including, without limitation, the Financial Accounting Standards Board, the Bank for International Settlements or the Basel Committee on Banking Supervision or any successor or similar authority to any of the foregoing).

“ **Guarantor** ” means NiSource.

“ **Guaranty** ” means the guaranty of the Guarantor pursuant to Article X of this Agreement.

“ **Hazardous Materials** ” means any asbestos; flammables; volatile hydrocarbons; industrial solvents; explosive or radioactive materials; hazardous wastes; toxic substances; liquefied natural gas; natural gas liquids; synthetic gas; oil, petroleum, or related materials and any constituents, derivatives, or byproducts thereof or additives thereto; or any other material, substance, waste, element or compound (including any product) regulated pursuant to any Environmental Law, including, without limitation, substances defined as “hazardous substances,” “hazardous materials,” “contaminants,” “pollutants,” “hazardous wastes,” “toxic substances,” “solid waste,” or “extremely hazardous substances” in (i) CERCLA, (ii) the Hazardous Materials Transportation Act, 49 U.S.C. Section 1801 et seq., (iii) the Resource Conservation and Recovery Act, 42 U.S.C. Section 6901 et seq., (iv) the Federal Water Pollution Control Act, as amended, 33 U.S.C. Section 1251 et seq., (v) the Clean Air Act, 42 U.S.C. Section 7401 et seq., (vi) the Toxic Substances Control Act, 15 U.S.C. Section 2601 et seq., (vii) the Safe Drinking Water Act, 42 U.S.C. Section 300f et seq., or (viii) foreign, state, local or municipal law, in each case, as may be amended from time to time.

“ **Impacted Interest Period** ” has the meaning assigned to such term in the definition of “LIBO Rate”.

“ **Indebtedness** ” of any Person means (without duplication) (a) Debt for Borrowed Money, (b) obligations of such Person to pay the deferred purchase price of property or services, except trade accounts payable arising in the ordinary course of business which are not overdue, (c) all obligations, contingent or otherwise, of such Person in respect of any letters of credit, bankers’ acceptances or interest rate, currency or commodity swap, cap or floor arrangements, (d) all indebtedness of others secured by (or for which the holder of such indebtedness has an existing right, contingent or otherwise, to be secured by) any Lien on property owned or acquired by such Person, whether or not the indebtedness secured thereby has been assumed, (e) all amounts payable by such Person in connection with mandatory redemptions or repurchases of preferred stock, and (f) obligations of such Person under direct or indirect guarantees in respect of, and obligations (contingent or otherwise) to purchase or otherwise acquire, or otherwise to assure a creditor against loss in respect of, indebtedness or obligations of others of the kinds referred to in clauses (a) through (e) above.

“ **Indemnified Taxes** ” means Taxes other than (a) Excluded Taxes and (b) Other Taxes imposed on or with respect to any payment made by or on account of any obligation of any Credit Party under the Credit Documents.

“ **Indemnitee** ” has the meaning set forth in Section 11.03.

“ **Index Debt** ” means the senior unsecured long-term debt securities of the Borrower, without third-party credit enhancement provided by a Person other than the Guarantor.

“ **Ineligible Institution** ” has the meaning assigned to such term in Section 11.04(b).

“ **Information** ” has the meaning set forth in Section 11.12.

“ **Insufficiency** ” means, with respect to any Plan, the amount, if any, by which the present value of all vested and unvested accrued benefits under such Plan exceeds the fair market value of assets allocable to such benefits, all

determined as of the then most recent valuation date for such Plan using actuarial assumptions used in determining such Plan's normal cost for purposes of Section 412(b)(2)(A) of the Code.

“ **Interest Election Request** ” means a request by the Borrower to convert or continue all or a portion of any Borrowing in accordance with Section 2.06.

“ **Interest Payment Date** ” means (a) with respect to any ABR Loan, the last Business Day of each March, June, September and December, (b) with respect to any Eurodollar Loan, the last day of the Interest Period applicable to the Borrowing of which such Loan is a part and, in the case of a Eurodollar Borrowing with an Interest Period of more than three months' duration, the day that is three months after the first day of such Interest Period and (c) with respect to any Loan, the Maturity Date.

“ **Interest Period** ” means with respect to any Eurodollar Borrowing, the period commencing on the date of such Borrowing and ending on the numerically corresponding day in the calendar month that is one week or one, two, three or six months thereafter, as the Borrower may elect; *provided* that (a) if any Interest Period would end on a day other than a Business Day, such Interest Period shall be extended to the next succeeding Business Day unless such next succeeding Business Day would fall in the next calendar month, in which case such Interest Period shall end on the next preceding Business Day; and (b) any Interest Period that commences on the last Business Day of a calendar month (or on a day for which there is no numerically corresponding day in the last calendar month of such Interest Period) shall end on the last Business Day of the last calendar month of such Interest Period. For purposes hereof, the date of a Borrowing initially shall be the Effective Date and thereafter shall be the effective date of the most recent conversion or continuation of such Borrowing.

“ **Interpolated Rate** ” means, at any time, the rate per annum determined by the Administrative Agent (which determination shall be conclusive and binding absent manifest error) to be equal to the rate that results from interpolating on a linear basis between: (a) the LIBOR Screen Rate for the longest period (for which the LIBOR Screen Rate is available) that is shorter than the Impacted Interest Period and (b) the LIBOR Screen Rate for the shortest period (for which the LIBOR Screen Rate is available) that exceeds the Impacted Interest Period, in each case, at such time.

“ **Lenders** ” means the Persons listed on Schedule 2.01, including any such Person identified thereon or in the signature pages hereto as a Lead Arranger, and any other Person that shall have become a party hereto pursuant to an Assignment and Assumption, other than any such Person that ceases to be a party hereto pursuant to an Assignment and Assumption.

“ **LIBO Rate** ” means, with respect to any Eurodollar Borrowing for any applicable Interest Period, the London interbank offered rate administered by ICE Benchmark Administration (or any other Person that takes over the administration of such rate) for Dollars for a period equal in length to such Interest Period as displayed on pages LIBOR01 or LIBOR02 of the Reuters screen or, in the event such rate does not appear on either of such Reuters pages, on any successor or substitute page on such screen that displays such rate, or on the appropriate page of such other information service that publishes such rate as shall be selected by the Administrative Agent from time to time in its reasonable discretion (in each case the “ **LIBOR Screen Rate** ”) at approximately 11:00 a.m., London time, two (2) Business Days prior to the commencement of such Interest Period; provided that, if the LIBOR Screen Rate shall be less than zero, such rate shall be deemed to be zero for purposes of this Agreement; provided, further, that if a LIBOR Screen Rate shall not be available at such time for such Interest Period (the “ **Impacted Interest Period** ”), then the LIBO Rate for such Interest Period shall be the Interpolated Rate; *provided*, that, if any Interpolated Rate shall be less than zero, such rate shall be deemed to be zero for purposes of this Agreement. It is understood and agreed that all of the terms and conditions of this definition of “LIBO Rate” shall be subject to Section 2.14.

“ **LIBOR Screen Rate** ” has the meaning assigned to such term in the definition of “LIBO Rate”.

“ **Lien** ” has the meaning set forth in Section 6.01(a).

“ **Loans** ” means the loans made by the Lenders to the Borrower pursuant to this Agreement.

“ **Margin Stock** ” means margin stock within the meaning of Regulations U and X issued by the Board.

“ **Material Adverse Effect** ” means a material adverse effect on (a) the business, assets, operations, condition (financial or otherwise) or prospects of the Guarantor and its Subsidiaries taken as a whole; (b) the validity or enforceability

of any of Credit Documents or the rights, remedies and benefits available to the Administrative Agent and the Lenders thereunder; or (c) the ability of the Borrower or the Guarantor to consummate the Transactions.

“ **Material Subsidiary** ” means at any time the Borrower, NIPSCO, Columbia, and each Subsidiary of the Guarantor, other than the Borrower, NIPSCO and Columbia, in respect of which:

(a) the Guarantor’s and its other Subsidiaries’ investments in and advances to such Subsidiary and its Subsidiaries exceed 10% of the consolidated total assets of the Guarantor and its Subsidiaries taken as a whole, as of the end of the most recent fiscal year; or

(b) the Guarantor’s and its other Subsidiaries’ proportionate interest in the total assets (after intercompany eliminations) of such Subsidiary and its Subsidiaries exceeds 10% of the consolidated total assets of the Guarantor and its Subsidiaries as of the end of the most recent fiscal year; or

(c) the Guarantor’s and its other Subsidiaries’ equity in the income from continuing operations before income taxes, extraordinary items and cumulative effect of a change in accounting principles of such Subsidiary and its Subsidiaries exceeds 10% of the consolidated income of the Guarantor and its Subsidiaries for the most recent fiscal year.

“ **Maturity Date** ” means the earliest of (a) August 18, 2017 and (b) the date upon which (i) the Commitments are terminated if not previously expired and (ii) amounts payable under this Agreement are accelerated pursuant to Section 8.01 or otherwise.

“ **Moody’s** ” means Moody’s Investors Service, Inc., and any successor thereto.

“ **Multiemployer Plan** ” means a multiemployer plan as defined in Section 4001(a)(3) of ERISA.

“ **Multiple Employer Plan** ” means a single employer plan, as defined in Section 4001(a)(15) of ERISA, which (a) is maintained for employees of the Borrower or an ERISA Affiliate and at least one Person other than the Borrower and its ERISA Affiliates, or (b) was so maintained and in respect of which the Borrower or an ERISA Affiliate could have liability under Section 4064 or 4069 of ERISA in the event that such plan has been or were to be terminated.

“ **NIPSCO** ” means Northern Indiana Public Service Company, an Indiana corporation.

“ **Non-Recourse Debt** ” means Indebtedness of the Guarantor or any of its Subsidiaries which is incurred in connection with the acquisition, construction, sale, transfer or other disposition of specific assets, to the extent recourse, whether contractual or as a matter of law, for non-payment of such Indebtedness is limited (a) to such assets or (b) if such assets are (or are to be) held by a Subsidiary formed solely for such purpose, to such Subsidiary or the Capital Stock of such Subsidiary.

“ **Obligations** ” means all amounts, direct or indirect, contingent or absolute, of every type or description, and at any time existing and whenever incurred (including, without limitation, after the commencement of any bankruptcy proceeding), owing to the Administrative Agent or any Lender pursuant to the terms of this Agreement or any other Credit Document.

“ **OFAC** ” means the Office of Foreign Assets Control of the U.S. Department of the Treasury.

“ **Other Connection Taxes** ” means, with respect to any Recipient, Taxes imposed as a result of a present or former connection between such Recipient and the jurisdiction imposing such Tax (other than connections arising from such Recipient having executed, delivered, become a party to, performed its obligations under, received payments under, received or perfected a security interest under, engaged in any other transaction pursuant to or enforced any Credit Document, or sold or assigned an interest in any Loan or Credit Document).

“ **Other Taxes** ” means any and all present or future stamp or documentary taxes or any other excise or property taxes, charges or similar levies arising from any payment made hereunder or from the execution, delivery or enforcement of, or otherwise with respect to, this Agreement.

“ **Outstanding Loans** ” means, as to any Lender at any time, the aggregate principal amount of all Loans made or maintained by such Lender then outstanding.

“ **Parent** ” means, with respect to any Lender, any Person as to which such Lender is, directly or indirectly, a subsidiary.

“ **Participant** ” has the meaning set forth in Section 11.04.

“ **Participant Register** ” has the meaning set forth in Section 11.04.

“ **PBGC** ” means the Pension Benefit Guaranty Corporation referred to and defined in ERISA and any successor entity performing similar functions.

“ **Person** ” means any natural person, corporation, limited liability company, trust, joint venture, association, company, partnership, Governmental Authority or other entity.

“ **Plan** ” means any employee pension benefit plan (other than a Multiemployer Plan) subject to the provisions of Title IV of ERISA or Section 412 of the Code or Section 302 of ERISA, and in respect of which the Borrower or any ERISA Affiliate is (or, if such plan were terminated, would under Section 4069 of ERISA be deemed to be) an “employer” as defined in Section 3(5) of ERISA.

“ **Pricing Grid** ” means the pricing grid attached hereto as Annex A.

“ **Prime Rate** ” means the rate of interest *per annum* publicly announced from time to time by JPMorgan Chase Bank, N.A. as its prime rate in effect at its principal office in New York City; each change in the Prime Rate shall be effective from and including the date such change is publicly announced as being effective.

“ **Project** ” means an energy or power generation, transmission or distribution facility (including, without limitation, a thermal energy generation, transmission or distribution facility and an electric power generation, transmission or distribution facility (including, without limitation, a cogeneration facility)), a gas production, transportation or distribution facility, or a minerals extraction, processing or distribution facility, together with (a) all related electric power transmission, fuel supply and fuel transportation facilities and power supply, thermal energy supply, gas supply, minerals supply and fuel contracts, (b) other facilities, services or goods that are ancillary, incidental, necessary or reasonably related to the marketing, development, construction, management, servicing, ownership or operation of such facility, (c) contractual arrangements with customers, suppliers and contractors in respect of such facility, and (d) any infrastructure facility related to such facility, including, without limitation, for the treatment or management of waste water or the treatment or remediation of waste, pollution or potential pollutants.

“ **Project Financing** ” means Indebtedness incurred by a Project Financing Subsidiary to finance (a) the development and operation of the Project such Project Financing Subsidiary was formed to develop or (b) activities incidental thereto; *provided* that such Indebtedness does not include recourse to the Guarantor or any of its other Subsidiaries other than (x) recourse to the Capital Stock in any such Project Financing Subsidiary, and (y) recourse pursuant to a Contingent Guaranty.

“ **Project Financing Subsidiary** ” means any Subsidiary of the Guarantor (a) that (i) is not a Material Subsidiary, and (ii) whose principal purpose is to develop a Project and activities incidental thereto (including, without limitation, the financing and operation of such Project), or to become a partner, member or other equity participant in a partnership, limited liability company or other entity having such a principal purpose, and (b) substantially all the assets of which are limited to the assets relating to the Project being developed or Capital Stock in such partnership, limited liability company or other entity (and substantially all of the assets of any such partnership, limited liability company or other entity are limited to the assets relating to such Project); *provided* that such Subsidiary incurs no Indebtedness other than in respect of a Project Financing.

“ **Recipient** ” means, as applicable, (a) the Administrative Agent and (b) any Lender.

“ **Register** ” has the meaning set forth in Section 11.04.

“ **Related Parties** ” means, with respect to any specified Person, such Person’s Affiliates and the respective directors, officers, employees, agents, advisors and representatives of such Person and such Person’s Affiliates.

“ **Required Lenders** ” means, subject to the terms of Section 2.20, Lenders having more than 50% in aggregate amount of the Commitments, or if the Commitments shall have been terminated, of the aggregate amount of the Outstanding Loans of all Lenders.

“ **Responsible Officer** ” of a Credit Party means any of (a) the President, the chief financial officer, the chief accounting officer and the Treasurer of such Credit Party and (b) any other officer of such Credit Party whose responsibilities include monitoring compliance with this Agreement.

“ **Sanctioned Country** ” means, at any time, a country or territory which is the subject or target of any Sanctions.

“ **Sanctioned Person** ” means, at any time, (a) any Person listed in any Sanctions-related list of designated Persons maintained by OFAC, the U.S. Department of State, the United Nations Security Council, the European Union or any EU member state, (b) any Person operating, organized or resident in a Sanctioned Country or (c) any Person controlled by any such Person.

“ **Sanctions** ” means economic or financial sanctions or trade embargoes imposed, administered or enforced from time to time by (a) the U.S. government, including those administered by OFAC or the U.S. Department of State or (b) the United Nations Security Council, the European Union or Her Majesty’s Treasury of the United Kingdom.

“ **S&P** ” means Standard & Poor’s Ratings Services, a Standard & Poor’s Financial Services LLC business.

“ **Subsidiary** ” means, with respect to any Person, any corporation or other entity of which at least a majority of the outstanding shares of stock or other ownership interests having by the terms thereof ordinary voting power to elect a majority of the board of directors or other managers of such corporation or other entity (irrespective of whether or not at the time stock or other equity interests of any other class or classes of such corporation or other entity shall have or might have voting power by reason of the happening of any contingency) is at the time directly or indirectly owned or controlled by such Person or one or more of the Subsidiaries of such Person.

“ **Substantial Subsidiaries** ” has the meaning set forth in Section 8.01.

“ **Syndication Agent** ” means CoBank, ACB, in its capacity as syndication agent for the Lenders hereunder.

“ **Taxes** ” means any and all present or future taxes, levies, imposts, duties, deductions, withholdings, assessments, fees or other charges imposed by any Governmental Authority, including any interest, penalties and additions to tax imposed thereon or in connection therewith.

“ **Transactions** ” means the execution, delivery and performance by the Borrower and the Guarantor of this Agreement and the Borrowing of Loans hereunder.

“ **Type** ”, when used in reference to any Loan or Borrowing, refers to whether the rate of interest on such Loan, or on the Loans comprising the Borrowing, is determined by reference to the LIBO Rate or the Alternate Base Rate.

“ **Utility Subsidiary** ” means a Subsidiary of the Guarantor that is subject to regulation by a Governmental Authority (federal, state or otherwise) having authority to regulate utilities, and any Wholly-Owned Subsidiary thereof.

“ **Wholly-Owned Subsidiary** ” means, with respect to any Person, any corporation or other entity of which all of the outstanding shares of stock or other ownership interests in which, other than directors’ qualifying shares (or the equivalent thereof), are at the time directly or indirectly owned or controlled by such Person or one or more of the Subsidiaries of such Person.

“ **Withdrawal Liability** ” means liability to a Multiemployer Plan as a result of a complete or partial withdrawal from such Multiemployer Plan, as such terms are defined in Sections 4201, 4203 and 4205 of ERISA.

SECTION 1.02. Classification of Loans and Borrowings. For purposes of this Agreement, Loans may be classified and referred to by Type (e.g., a “ **Eurodollar Loan** ”). Borrowings also may be classified and referred to by Type (e.g., a “ **Eurodollar Borrowing** ”).

SECTION 1.03. Terms Generally. The definitions of terms herein shall apply equally to the singular and plural forms of the terms defined. Whenever the context may require, any pronoun shall include the corresponding masculine, feminine and neuter forms. The words “include”, “includes” and “including” shall be deemed to be followed by the phrase “without limitation”. The word “or” shall not be exclusive. The word “will” shall be construed to have the same meaning and effect as the word “shall”. The word “law” shall be construed as referring to all statutes, rules, regulations, codes and other laws (including official rulings and interpretations thereunder having the force of law or with which affected Persons customarily comply), and all judgments, orders and decrees, of all Governmental Authorities. Unless the context requires otherwise (a) any definition of or reference to any agreement, instrument or other document herein shall be construed as referring to such agreement, instrument or other document as from time to time amended, restated, supplemented or otherwise modified (subject to any restrictions on such amendments, restatements, supplements or modifications set forth herein), (b) any definition of or reference to any statute, rule or regulation shall be construed as referring thereto as from time to time amended, supplemented or otherwise modified (including by succession

of comparable successor laws), (c) any reference herein to any Person shall be construed to include such Person's successors and assigns, (d) the words "herein", "hereof" and "hereunder", and words of similar import, shall be construed to refer to this Agreement in its entirety and not to any particular provision hereof, (e) all references herein to Articles, Sections, Exhibits and Schedules shall be construed to refer to Articles and Sections of, and Exhibits and Schedules to, this Agreement and (f) the words "asset" and "property" shall be construed to have the same meaning and effect and to refer to any and all tangible and intangible assets and properties, including cash, securities, accounts and contract rights. The terms "knowledge of", "awareness of" and "receipt of notice of" in relation to a Credit Party, and other similar expressions, mean knowledge of, awareness of, or receipt of notice by, a Responsible Officer of such Credit Party.

SECTION 1.04. Accounting Terms; GAAP. Except as otherwise expressly provided herein, all terms of an accounting or financial nature shall be construed in accordance with GAAP, as in effect from time to time; *provided* that, if the Borrower notifies the Administrative Agent that the Borrower requests an amendment to any provision hereof to eliminate the effect of any change occurring after the Effective Date in GAAP or in the application thereof on the operation of such provision (or if the Administrative Agent notifies the Borrower that the Required Lenders request an amendment to any provision hereof for such purpose), regardless of whether any such notice is given before or after such change in GAAP or in the application thereof, then such provision shall be interpreted on the basis of GAAP as in effect and applied immediately before such change shall have become effective until such notice shall have been withdrawn or such provision amended in accordance herewith. Notwithstanding any other provision contained herein, all terms of an accounting or financial nature used herein shall be construed, and all computations of amounts and ratios referred to herein shall be made (i) without giving effect to any election under Accounting Standards Codification 825-10-25 (previously referred to as Statement of Financial Accounting Standards 159) (or any other Accounting Standards Codification or Financial Accounting Standard having a similar result or effect) to value any Indebtedness or other liabilities of the Borrower or any Subsidiary at "fair value", as defined therein and (ii) without giving effect to any treatment of Indebtedness in respect of convertible debt instruments under Financial Accounting Standards Board Staff Position APB 14-1 to value any such Indebtedness in a reduced or bifurcated manner as described therein, and such Indebtedness shall at all times be valued at the full stated principal amount thereof.

ARTICLE II THE CREDITS

SECTION 2.01. Commitments. Subject to the terms and conditions set forth herein, each Lender agrees to make a term loan to the Borrower in Dollars on the Effective Date in a single Borrowing in an aggregate principal amount equal to such Lender's Commitment. Amounts repaid or prepaid in respect of the Loans may not be reborrowed.

SECTION 2.02. Loans and Borrowing; Request for Borrowing.

(a) Each Loan shall be made as part of a Borrowing consisting of Loans made by the Lenders ratably in accordance with their respective Commitments. The failure of any Lender to make the Loan required to be made by it shall not relieve any other Lender of its obligations hereunder; provided that the Commitments of the Lenders are several and no Lender shall be responsible for any other Lender's failure to make its Loan as required.

(b) Subject to Section 2.14, each Borrowing shall be comprised entirely of ABR Loans or Eurodollar Loans or some combination thereof as the Borrower may request in accordance herewith. Each Lender at its option may make any Eurodollar Loan by causing any domestic or foreign branch or Affiliate of such Lender to make such Loan; provided that any exercise of such option shall not affect the obligation of the Borrower to repay such Loan in accordance with the terms of this Agreement.

(c) At the commencement of each Interest Period for any Eurodollar Borrowing, such Borrowing shall be in an aggregate amount that is an integral multiple of \$5,000,000 and not less than \$10,000,000. At the time that each ABR Borrowing is made, such Borrowing shall be in an aggregate amount that is an integral multiple of \$1,000,000; provided that an ABR Borrowing may be in an aggregate amount that is equal to the entire unused balance of the Aggregate Commitments. Borrowings of more than one Type may be outstanding at the same time; provided that there shall not at any time be more than a total of five Eurodollar Borrowings outstanding under this Agreement.

(d) To request a Borrowing, the Borrower shall notify the Administrative Agent of such request by telephone (i) in the case of a Eurodollar Borrowing, not later than 11:00 a.m., New York City time, three Business Days before the date of the proposed Borrowing; provided that the Administrative Agent shall have received a written indemnification letter substantially consistent with the terms of Section 2.16 concurrently with such request or (ii) in the case of an ABR Borrowing, not later than 10:00 a.m., New York City time, on the date of the proposed Borrowing. Borrowings on the Effective Date may be Eurodollar Borrowings. Such telephonic Borrowing Request shall be irrevocable and shall be confirmed promptly by hand delivery or telecopy to the Administrative Agent of a written Borrowing Request in substantially the form of Exhibit C (or such other form as shall be approved by the Administrative Agent) signed by an Authorized Officer of the Borrower. Each such telephonic and written Borrowing Request shall specify the following information:

- (i) the date of such Borrowing, which shall be a Business Day;

- (ii) whether such Borrowing is to be an ABR Borrowing or a Eurodollar Borrowing and the aggregate amount of each Type of Borrowing (if applicable); and
- (iii) in the case of a Eurodollar Borrowing, the initial Interest Period to be applicable thereto, which shall be a period contemplated by the definition of the term "Interest Period".

If no election as to the Type of Borrowing is specified, then the requested Borrowing shall be an ABR Borrowing. If no Interest Period is specified with respect to any requested Eurodollar Borrowing, then the Borrower shall be deemed to have selected an Interest Period of one month's duration. Promptly following receipt of the Borrowing Request in accordance with this Section, the Administrative Agent shall advise each Lender of the details thereof and of the amount of such Lender's Loan to be made as part of the requested Borrowing.

(e) Notwithstanding any other provision of this Agreement, the Borrower shall not be entitled to request, or to elect to convert or continue, any Eurodollar Borrowing if the Interest Period requested with respect thereto would end after the Maturity Date.

SECTION 2.03. [Intentionally Omitted].

SECTION 2.04. [Intentionally Omitted].

SECTION 2.05. Funding of Borrowings.

(a) Each Lender shall make the Loan to be made by it hereunder on the proposed date thereof by wire transfer of immediately available funds by 1:00 p.m., New York City time, to the account of the Administrative Agent designated by it for such purpose by notice to the Lenders. The Administrative Agent will make such Loans available to the Borrower by promptly crediting the amounts so received, in like funds, to an account established and maintained by the Borrower at the Administrative Agent's office in New York City.

(b) Unless the Administrative Agent shall have received notice from a Lender prior to the proposed time of any Borrowing that such Lender will not make available to the Administrative Agent such Lender's share of such Borrowing, the Administrative Agent may assume that such Lender has made such share available on such date in accordance with paragraph (a) of this Section and may, in reliance upon such assumption, make available to the Borrower a corresponding amount. In such event, if a Lender has not in fact made its share of the applicable Borrowing available to the Administrative Agent, then the applicable Lender and the Borrower severally agree to pay to the Administrative Agent forthwith on demand such corresponding amount with interest thereon, for each day from and including the date such amount is made available to the Borrower to but excluding the date of payment to the Administrative Agent, at (i) in the case of such Lender, the Federal Funds Effective Rate or (ii) in the case of the Borrower, the interest rate applicable to ABR Loans. If such Lender pays such amount to the Administrative Agent, then such amount shall constitute such Lender's Loan included in such Borrowing.

SECTION 2.06. Interest Elections.

(a) Each Borrowing initially shall be of the Type or Types specified in the Borrowing Request and, in the case of a Eurodollar Borrowing, shall have an initial Interest Period as specified in such Borrowing Request, subject to Section 2.02(d)(i). Thereafter, the Borrower may elect to convert such Borrowing to a different Type or to continue such Borrowing and, in the case of a Eurodollar Borrowing, may elect Interest Periods therefor, all as provided in this Section. The Borrower may elect different options with respect to different portions of such Borrowing, in which case each such portion shall be allocated ratably among the Lenders holding the Loans comprising such Borrowing, and the Loans comprising each such portion shall be considered a separate Borrowing.

(b) To make an election pursuant to this Section, the Borrower shall notify the Administrative Agent of such election by telephone by the time that a Borrowing Request would be required under Section 2.02 if the Borrower were requesting a Borrowing of the Type resulting from such election to be made on the effective date of such election; provided, however, with regard to any election pursuant to this Section 2.06 related to a Eurodollar Borrowing, notice of election shall be delivered not later than 11:00 a.m., New York City time, three (3) Business Days prior to effective date of such election. Each such telephonic Interest Election Request shall be irrevocable and shall be confirmed promptly by hand delivery or telecopy to the Administrative Agent of a written Interest Election Request in substantially the form of Exhibit G (or such other form as shall be approved by the Administrative Agent) and signed by the Borrower.

(c) Each telephonic and written Interest Election Request shall specify the following information in compliance with Section 2.02:

- (i) the Borrowing to which such Interest Election Request applies and, if different options are being elected with respect to different portions of such Borrowing, the portions thereof to be allocated to each resulting Type of

Borrowing (in which case the information to be specified pursuant to clauses (iii) and (iv) below shall be specified for each resulting Borrowing);

- (ii) the effective date of the election made pursuant to such Interest Election Request, which shall be a Business Day;
- (iii) whether the resulting Borrowing is to be an ABR Borrowing or a Eurodollar Borrowing; and
- (iv) if the resulting Borrowing is a Eurodollar Borrowing, the Interest Period to be applicable thereto after giving effect to such election, which shall be a period contemplated by the definition of the term "Interest Period".

If any such Interest Election Request requests a Eurodollar Borrowing but does not specify an Interest Period, then the Borrower shall be deemed to have selected an Interest Period of one month's duration.

(d) Promptly following receipt of an Interest Election Request, the Administrative Agent shall advise each Lender of the details thereof and of such Lender's portion of each resulting Type of Borrowing.

(e) If the Borrower fails to deliver a timely Interest Election Request with respect to a Eurodollar Borrowing prior to the end of the Interest Period applicable thereto, then, unless such portion of the Borrowing is repaid as provided herein, at the end of such Interest Period such portion of the Borrowing shall be converted to an ABR Borrowing. Notwithstanding any contrary provision hereof, if an Event of Default has occurred and is continuing and the Administrative Agent, at the request of the Required Lenders, so notifies the Borrower, then, so long as an Event of Default is continuing (i) no outstanding Borrowing may be converted to or continued as a Eurodollar Borrowing and (ii) unless repaid, each Eurodollar Borrowing shall be converted to an ABR Borrowing at the end of the Interest Period applicable thereto.

SECTION 2.07. Termination of Commitments. Unless previously terminated, the Commitments shall terminate at 5 p.m. Chicago Time on the Effective Date.

SECTION 2.08. [Reserved].

SECTION 2.09. [Reserved].

SECTION 2.10. Repayment of Loans; Evidence of Debt.

(a) The Borrower hereby unconditionally promises to pay to the Administrative Agent for the account of each Lender the then unpaid principal amount of each Loan on the Maturity Date.

(b) Each Lender shall maintain in accordance with its usual practice an account or accounts evidencing the indebtedness of the Borrower to such Lender resulting from the Loan made by such Lender, including the amounts of principal and interest payable and paid to such Lender from time to time hereunder.

(c) The Administrative Agent shall maintain accounts in which it shall record (i) the amount of each Loan made hereunder, the Type thereof and the Interest Period applicable thereto, (ii) the amount of any principal or interest due and payable or to become due and payable from the Borrower to each Lender hereunder and (iii) the amount of any sum received by the Administrative Agent hereunder for the account of the Lenders and each Lender's share thereof.

(d) The entries made in the accounts maintained pursuant to paragraph (b) or (c) of this Section shall be *prima facie* evidence of the existence and amounts of the obligations recorded therein; *provided* that the failure of any Lender or the Administrative Agent to maintain such accounts or any error therein shall not in any manner affect the obligation of the Borrower to repay the Loans in accordance with the terms of this Agreement.

(e) Any Lender may request that Loans made by it be evidenced by a promissory note. In such event, the Borrower shall prepare, execute and deliver to such Lender a promissory note payable to the order of such Lender (or, if requested by such Lender, to such Lender and its registered assigns) and in substantially the form of Exhibit F. Thereafter, the Loans evidenced by such promissory note and interest thereon shall at all times (including after assignment pursuant to Section 11.04) be represented by one or more promissory notes in such form payable to the order of the payee named therein (or, if such promissory note is a registered note, to such payee and its registered assigns).

SECTION 2.11. Optional Prepayment of Loans.

(a) The Borrower shall have the right at any time and from time to time to prepay any Borrowing in whole or in part, subject to prior notice in accordance with paragraph (b) of this Section.

(b) The Borrower shall notify the Administrative Agent by telephone (confirmed by teletype) of any prepayment hereunder (i) in the case of prepayment of a Eurodollar Borrowing, not later than 11:00 a.m., New York City time, three Business Days before the date of prepayment or (ii) in the case of prepayment of an ABR Borrowing, not later than 11:00 a.m., New York City time, one Business Day before the date of prepayment. Each such notice shall be irrevocable and shall specify the prepayment date and the principal amount of each Borrowing or portion thereof to be prepaid. Each such telephonic notice of prepayment shall be confirmed promptly by hand delivery or teletype to the Administrative Agent of a prepayment notice in substantially the

form of Exhibit H (or such other form as shall be approved by the Administrative Agent) and signed by the Borrower. Promptly following receipt of any such notice relating to a Borrowing, the Administrative Agent shall advise the Lenders of the contents thereof. Each partial prepayment of any Borrowing shall be in an amount that would be permitted in the case of an advance of a Borrowing of the same Type as provided in Section 2.02, it being understood that the foregoing minimum shall not apply to the prepayment in whole of the outstanding Loans of all Lenders. Each prepayment of a Borrowing shall be applied ratably to the Loans included in the prepaid Borrowing. Prepayments shall be accompanied by accrued interest to the extent required by Section 2.13 and by any amounts payable under Section 2.16 in connection with such prepayment.

SECTION 2.12. Fees. The Borrower agrees to pay to the Arrangers and the Administrative Agent, in each case, for its own account and for the account of the other Persons entitled thereto, the fees provided for in the applicable fee letters dated July 18, 2014 and July 30, 2014, executed and delivered with respect to the credit facility provided for herein, in each case, in the amounts and at the times set forth therein and in immediately available funds. All fees payable hereunder shall be paid in immediately available funds. Fees due and paid shall not be refundable under any circumstances.

SECTION 2.13. Interest.

(a) The Loans comprising each ABR Borrowing shall bear interest at a rate *per annum* equal to the Alternate Base Rate plus the Applicable Rate.

(b) The Loans comprising each Eurodollar Borrowing shall bear interest at a rate *per annum* equal to the LIBO Rate for the Interest Period in effect for such Borrowing plus the Applicable Rate.

(c) Notwithstanding the foregoing, if any principal of or interest on any Loan or any fee or other amount payable by the Borrower hereunder is not paid when due, whether at stated maturity, upon acceleration or otherwise, such overdue amount shall bear interest, after as well as before judgment, at a rate *per annum* equal to (i) in the case of overdue principal of any Loan, 2% plus the rate otherwise applicable to such Loan as provided above or (ii) in the case of any other amount, 2% plus the rate applicable to ABR Loans as provided above.

(d) Accrued interest on each Loan shall be payable in arrears on each Interest Payment Date for such Loan; provided that (i) interest accrued pursuant to paragraph (c) of this Section shall be payable on demand, (ii) in the event of any repayment or prepayment of any Loan, accrued interest on the principal amount repaid or prepaid shall be payable on the date of such repayment or prepayment and (iii) in the event of any conversion of any Eurodollar Loan prior to the end of the current Interest Period therefor, accrued interest on such Loan shall be payable on the effective date of such conversion.

(e) All interest hereunder shall be computed on the basis of a year of 360 days, except that interest computed by reference to the Alternate Base Rate at times when the Alternate Base Rate is based on the Prime Rate shall be computed on the basis of a year of 365 days (or 366 days in a leap year), and in each case shall be payable for the actual number of days elapsed (including the first day but excluding the last day). The applicable Alternate Base Rate or LIBO Rate shall be determined by the Administrative Agent, and such determination shall be conclusive absent manifest error.

SECTION 2.14. Alternate Rate of Interest. If prior to the commencement of any Interest Period for a Eurodollar Borrowing:

(a) the Administrative Agent reasonably determines (which determination shall be conclusive absent manifest error) that adequate and reasonable means do not exist for ascertaining the LIBO Rate for such Interest Period; or

(b) the Administrative Agent is advised by the Required Lenders that the LIBO Rate for such Interest Period will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Loans included in such Borrowing for such Interest Period;

then the Administrative Agent shall give notice thereof to the Borrower and the Lenders by telephone or telecopy as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders that the circumstances giving rise to such notice no longer exist, (i) any Interest Election Request that requests the conversion of any Borrowing to, or continuation of any Borrowing as, a Eurodollar Borrowing shall be ineffective and (ii) if any Borrowing Request requests a Eurodollar Borrowing, such Borrowing shall be made as an ABR Borrowing.

SECTION 2.15. Increased Costs. If any Change in Law shall:

(i) impose, modify or deem applicable any reserve, special deposit, compulsory loan, insurance charge or similar requirement against assets of, deposits with or for the account of, or credit extended by, any Lender (except any such reserve requirement described in paragraph (e) of this Section);

(ii) impose on any Lender or the London interbank market any other condition affecting this Agreement or Eurodollar Loans made by such Lender or participation therein; or

(iii) subject the Administrative Agent or any Lender to any Taxes (other than (A) Indemnified Taxes, (B) Taxes described in clauses (b) through (d) of the definition of Excluded Taxes and (C) Connection Income Taxes) imposed on or with respect to any payment made by or on account of any obligations of any Credit Party under the Credit Documents) on its loans, loan principal, commitments, or other obligations, or its deposits, reserves, other liabilities or capital attributable thereto;

and the result of any of the foregoing shall be to increase the cost to the Administrative Agent or such Lender of making, continuing, converting to or maintaining any Loan (or of maintaining its obligation to make any such Loan) or to reduce the amount of any sum received or receivable by the Administrative Agent or such Lender hereunder (whether of principal, interest or otherwise), then the Borrower will pay to the Administrative Agent or such Lender, as the case may be, such additional amount or amounts as will compensate the Administrative Agent or such Lender for such additional costs incurred or reduction suffered.

(a) If any Lender determines that any Change in Law regarding capital or liquidity requirements has or would have the effect of reducing the rate of return on such Lender's capital or on the capital of its holding company, if any, as a consequence of this Agreement to a level below that which such Lender or its holding company could have achieved but for such Change in Law (taking into consideration its policies and the policies of its holding company with respect to capital adequacy and liquidity), then from time to time the Borrower will pay to such Lender such additional amount or amounts as will compensate it or its holding company for any such reduction suffered.

(b) A certificate of a Lender setting forth the amount or amounts necessary to compensate it or its holding company as specified in paragraph (a) or (b) of this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay the amount shown as due on any such certificate within 10 days after receipt thereof.

(c) Failure or delay on the part of any Lender to demand compensation pursuant to this Section shall not constitute a waiver of its right to demand such compensation; provided that the Borrower shall not be required to compensate a Lender pursuant to this Section for any increased costs or reductions incurred more than ninety days prior to the date that such Lender notifies the Borrower of the Change in Law giving rise to such increased costs or reductions and of its intention to claim compensation therefor; provided, further that, if the Change in Law giving rise to such increased costs or reductions is retroactive, then the ninety day period referred to above shall be extended to include the period of retroactive effect thereof.

(d) The Borrower shall pay (without duplication as to amounts paid under this Section 2.15) to each Lender, so long as such Lender shall be required under regulations of the Board to maintain reserves with respect to liabilities or assets consisting of or including Eurocurrency Liabilities, additional interest on the unpaid principal amount of each Eurodollar Loan of such Lender, from the date of such Loan until such principal amount is paid in full, at an interest rate per annum equal at all times to the remainder obtained by subtracting (i) the LIBO Rate for the Interest Period for such Loan from (ii) the rate obtained by dividing such LIBO Rate by a percentage equal to 100% minus the Eurodollar Rate Reserve Percentage of such Lender for such Interest Period, payable on each date on which interest is payable on such Loan. Such additional interest determined by such Lender and notified to the Borrower and the Administrative Agent, accompanied by the calculation of the amount thereof, shall be conclusive and binding for all purposes absent manifest error.

(e) If any Lender determines that any law has made it unlawful, or that any Governmental Authority has asserted that it is unlawful, for any Lender or its applicable lending office to make, maintain or fund Eurodollar Loans, or to determine or charge interest rates based upon the LIBO Rate, or any Governmental Authority has imposed material restrictions on the authority of such Lender to purchase or sell, or to take deposits of, Dollars in the London interbank market, then, on notice thereof by such Lender to the Borrower through the Administrative Agent, any obligation of such Lender to make or continue Eurodollar Loans or to convert ABR Loans to Eurodollar Loans shall be suspended until such Lender notifies the Administrative Agent and the Borrower that the circumstances giving rise to such determination no longer exist. Upon receipt of such notice, the Borrower shall, upon demand from such Lender (with a copy to the Administrative Agent), prepay or, if applicable, convert all Eurodollar Loans of such Lender to ABR Loans, either on the last day of the Interest Period therefor, if such Lender may lawfully continue to maintain such Eurodollar Loans to such day, or immediately, if such Lender may not lawfully continue to maintain such Eurodollar Loans. Upon any such prepayment or conversion, the Borrower shall also pay accrued interest on the amount so prepaid or converted.

SECTION 2.16. Break Funding Payments. In the event of (a) the payment of any principal of any Eurodollar Loan other than on the last day of an Interest Period applicable thereto (including as a result of an Event of Default), (b) the conversion of any Eurodollar Loan other than on the last day of the Interest Period applicable thereto, (c) the failure to borrow, convert, continue or prepay any Loan on the date specified in any notice delivered pursuant hereto, or (d) the assignment of any Eurodollar Loan other than on the last day of the Interest Period applicable thereto as a result of a request by the Borrower pursuant to Section 2.19, then, in any such event, the Borrower shall compensate each Lender for the loss, cost and expense attributable to such event. In the case of a Eurodollar Loan, the loss to any Lender attributable to any such event shall be deemed to include an amount reasonably determined by such Lender to be equal to the excess, if any, of (x) the amount of interest that such Lender would pay for a deposit equal to the principal amount of such Loan for the period from the date of such payment, conversion, failure or assignment to the

last day of the then current Interest Period for such Loan (or, in the case of a failure to borrow, convert or continue, the duration of the Interest Period that would have resulted from such borrowing, conversion or continuation) if the interest rate payable on such deposit were equal to the LIBO Rate for such Interest Period, over (y) the amount of interest that such Lender would earn on such principal amount for such period if such Lender were to invest such principal amount for such period at the interest rate that would be bid by such Lender (or an affiliate of such Lender) for dollar deposit from other banks in the eurodollar market at the commencement of such period. A certificate of any Lender setting forth any amount or amounts that such Lender is entitled to receive pursuant to this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within 10 days after receipt thereof.

SECTION 2.17. Taxes.

(a) Any and all payments by or on account of any obligation of the Borrower hereunder shall be made free and clear of and without deduction for any Indemnified Taxes or Other Taxes; *provided* that if any Credit Party shall be required to deduct any Indemnified Taxes or Other Taxes from such payments, then (i) the sum payable shall be increased as necessary so that after making all required deductions (including deductions applicable to additional sums payable under this Section) the Administrative Agent or Lender (as the case may be) receives an amount equal to the sum it would have received had no such deductions been made, (ii) such Credit Party shall make such deductions and (iii) such Credit Party shall pay the full amount deducted to the relevant Governmental Authority in accordance with applicable law.

(b) In addition, the Borrower shall pay any Other Taxes to the relevant Governmental Authority in accordance with applicable law.

(c) The Borrower shall indemnify the Administrative Agent and each Lender, within 10 days after written demand therefor, for the full amount of any Indemnified Taxes or Other Taxes (and for any Taxes imposed or asserted on or attributable to amounts payable under this Section) paid by the Administrative Agent or such Lender, as the case may be, and any penalties, interest and reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes or Other Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to the Borrower by a Lender or by the Administrative Agent on its own behalf or on behalf of a Lender, shall be conclusive absent manifest error.

(d) As soon as practicable after any payment of Indemnified Taxes or Other Taxes by a Credit Party to a Governmental Authority, such Credit Party shall deliver to the Administrative Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to the Administrative Agent.

(e) Any Foreign Lender that is entitled to an exemption from or reduction of withholding tax under the laws of the jurisdiction in which the Borrower or the Guarantor is located, or any treaty to which such jurisdiction is a party, with respect to payments under this Agreement shall deliver to the Borrower (with an additional original or a photocopy, as required under applicable rules and procedures, to the Administrative Agent), at the time or times prescribed by applicable law or reasonably requested by the Borrower, such properly completed and executed documentation prescribed by applicable law as shall be necessary to permit such payments to be made without withholding or at a reduced rate. Further, in those circumstances as shall be necessary to allow payments hereunder to be made free of (or at a reduced rate of) withholding tax, each other Lender and the Administrative Agent, as applicable, shall deliver to Borrower such documentation as the Borrower may reasonably request in writing.

(f) Except with the prior written consent of the Administrative Agent, all amounts payable by a Credit Party hereunder shall be made by such Credit Party in its own name and for its own account from within the United States of America by a payor that is a United States person (within the meaning of Section 7701 of the Code).

(g) If a payment made to a Lender under any Credit Document would be subject to U.S. Federal withholding Tax imposed by FATCA if such Lender were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471 (b) or 1472(b) of the Code, as applicable), such Lender shall deliver to the Borrower and the Administrative Agent at the time or times prescribed by Law and at such time or times reasonably requested by the Borrower or the Administrative Agent such documentation prescribed by applicable Law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Borrower or the Administrative Agent as may be necessary for the Borrower and the Administrative Agent to comply with their obligations under FATCA and to determine that such Lender has complied with such Lender's obligations under FATCA or to determine the amount to deduct and withhold from such payment. Solely for purposes of this clause (g), "FATCA" shall include any amendments made to FATCA after the date of this Agreement.

SECTION 2.18. Payments Generally; Pro Rata Treatment; Sharing of Set-Offs.

(a) The Borrower shall make each payment required to be made by it hereunder (whether of principal, interest or fees, or under Section 2.15, 2.16, 2.17 or 11.03, or otherwise) prior to 12:00 noon, New York City time, on the date when due, in immediately available funds, without set-off or counterclaim. Any amounts received after such time on any date may, in the discretion of the Administrative Agent, be deemed to have been received on the next succeeding Business Day for purposes of calculating interest thereon. All such payments shall be made to the Administrative Agent at its office listed in Section 11.01(b),

except that payments pursuant to Sections 2.15, 2.16, 2.17 and 11.03 shall be made directly to the Persons entitled thereto. The Administrative Agent shall distribute any such payments received by it for the account of any other Person to the appropriate recipient promptly following receipt thereof. If any payment hereunder shall be due on a day that is not a Business Day, the date for payment shall be extended to the next succeeding Business Day, and, in the case of any payment accruing interest, interest thereon shall be payable for the period of such extension. All payments hereunder shall be made in Dollars.

(b) If at any time insufficient funds are received by and available to the Administrative Agent to pay fully all amounts of principal, interest and fees then due hereunder, such funds shall be applied (i) first, to pay interest and fees then due hereunder, ratably among the parties entitled thereto in accordance with the amounts of interest and fees then due to such parties, and (ii) second, to pay principal then due hereunder, ratably among the parties entitled thereto in accordance with the amounts of principal then due to such parties.

(c) If any Lender shall, by exercising any right of set-off or counterclaim or otherwise, obtain payment in respect of any principal of or interest on any of the Obligations owing to it resulting in such Lender receiving payment of a greater proportion of the aggregate amount of such Obligations and accrued interest thereon than the proportion received by any other Lender, then the Lender receiving such greater proportion shall purchase (for cash at face value) participations in the Loans of, or other Obligations owing to, other Lenders to the extent necessary so that the benefit of all such payments shall be shared by the Lenders ratably in accordance with the aggregate amount of principal of and accrued interest on their respective Loans or other Obligations, as applicable; *provided* that (i) if any such participations are purchased and all or any portion of the payment giving rise thereto is recovered, such participations shall be rescinded and the purchase price restored to the extent of such recovery, without interest, and (ii) the provisions of this paragraph shall not be construed to apply to any payment made by the Borrower pursuant to and in accordance with the express terms of this Agreement or any payment obtained by a Lender as consideration for the assignment of or sale of a participation in any of its Loans to any assignee or participant, other than to the Guarantor, the Borrower or any other Subsidiary or Affiliate of the Guarantor (as to which the provisions of this paragraph shall apply). The Borrower and the Guarantor consent to the foregoing and agree, to the extent they may effectively do so under applicable law, that any Lender acquiring a participation pursuant to the foregoing arrangements may exercise against the Borrower and the Guarantor rights of set-off and counterclaim with respect to such participation as fully as if such Lender were a direct creditor of the Borrower or the affected Guarantor in the amount of such participation.

(d) Unless the Administrative Agent shall have received notice from the Borrower prior to the date on which any payment is due to the Administrative Agent for the account of the Lenders hereunder that the Borrower will not make such payment, the Administrative Agent may assume that the Borrower has made such payment on such date in accordance herewith and may, in reliance upon such assumption, distribute to the Lenders the amount due. In such event, if the Borrower has not in fact made such payment, then each of the Lenders severally agrees to repay to the Administrative Agent forthwith on demand the amount so distributed to such Lender with interest thereon, for each day from and including the date such amount is distributed to it to but excluding the date of payment to the Administrative Agent, at the Federal Funds Effective Rate.

(e) If any Lender shall fail to make any payment required to be made by it pursuant to Section 2.05(b) or 2.18(d), then the Administrative Agent may, in its discretion (notwithstanding any contrary provision hereof), apply any amounts thereafter received by the Administrative Agent for the account of such Lender to satisfy such Lender's obligations under such Sections until all such unsatisfied obligations are fully paid.

(f) None of the funds or assets of the Borrower that are used to pay any amount due pursuant to this Agreement shall constitute funds obtained from transactions with or relating to Anti-Corruption Laws or Sanctions.

SECTION 2.19. Mitigation Obligations; Replacement of Lenders.

(a) Any Lender claiming reimbursement or compensation from the Borrower under either of Sections 2.15 and 2.17 for any losses, costs or other liabilities shall use reasonable efforts (including, without limitation, reasonable efforts to designate a different lending office of such Lender for funding or booking its Loans or to assign its rights and obligations hereunder to another of its offices, branches or affiliates) to mitigate the amount of such losses, costs and other liabilities, if such efforts can be made and such mitigation can be accomplished without such Lender suffering (i) any economic disadvantage for which such Lender does not receive full indemnity from the Borrower under this Agreement or (ii) otherwise be disadvantageous to such Lender.

(b) In determining the amount of any claim for reimbursement or compensation under Sections 2.15 and 2.17, each Lender will use reasonable methods of calculation consistent with such methods customarily employed by such Lender in similar situations.

(c) Each Lender will notify the Borrower either directly or through the Administrative Agent of any event giving rise to a claim under Section 2.15 or Section 2.17 promptly after the occurrence thereof which notice shall be accompanied by a certificate of such Lender setting forth in reasonable detail the circumstances of such claim.

(d) If any Lender requests compensation under Section 2.15, or if the Borrower is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.17, or if any Lender becomes a Defaulting Lender, then the Borrower may, at its sole expense and effort, upon notice to such Lender and the Administrative Agent, require such Lender to assign and delegate, without recourse (in accordance with and subject to the

restrictions contained in Section 11.04, provided that the Administrative Agent may, in its sole discretion, elect to waive the \$3,500 processing and recordation fee in connection therewith), all its interests, rights and obligations under this Agreement to an assignee that shall assume such obligations (which assignee may be another Lender, if a Lender accepts such assignment); *provided* that (i) the Borrower shall have received the prior written consent of the Administrative Agent, which consent shall not unreasonably be withheld, (ii) such Lender shall have received payment of an amount equal to the outstanding principal of its Loans, accrued interest thereon, accrued fees and all other amounts payable to it hereunder, from the assignee (to the extent of such outstanding principal and accrued interest and fees) or the Borrower (in the case of all other amounts) and (iii) in the case of any such assignment resulting from a claim for compensation under Section 2.15 or payments required to be made pursuant to Section 2.17, such assignment will result in a reduction in such compensation or payments. A Lender shall not be required to make any such assignment and delegation if, prior thereto, as a result of a waiver by such Lender or otherwise, the circumstances entitling the Borrower to require such assignment and delegation cease to apply.

SECTION 2.20. Defaulting Lenders.

Notwithstanding any provision of this Agreement to the contrary, if any Lender becomes a Defaulting Lender, then the following provisions shall apply for so long as such Lender is a Defaulting Lender, the Outstanding Loans of such Defaulting Lender shall not be included in determining whether the Required Lenders have taken or may take any action hereunder (including any consent to any amendment, waiver or other modification pursuant to Section 11.02); provided, that this Section 2.20 shall not apply to the vote of a Defaulting Lender in the case of an amendment, waiver or other modification requiring the consent of such Lender or each Lender affected thereby

In the event that the Administrative Agent and the Borrower agree that a Defaulting Lender has adequately remedied all matters that caused such Lender to be a Defaulting Lender, then the Applicable Percentage of the Lenders shall be readjusted to reflect the inclusion of such Lender's Commitment and on such date such Lender shall purchase at par such of the Loans of the other Lenders as the Administrative Agent shall determine may be necessary in order for such Lender to hold such Loans in accordance with its Applicable Percentage.

ARTICLE III CONDITIONS

SECTION 3.01. Conditions Precedent to the Effectiveness of this Agreement. This Agreement shall not become effective until the date on which each of the following conditions is satisfied (or waived in accordance with Section 11.02).

(a) The Administrative Agent (or its counsel) shall have received from each party thereto either (i) a counterpart of this Agreement signed on behalf of such party or (ii) written evidence satisfactory to the Administrative Agent (which may include facsimile or electronic transmission of a signed signature page of this Agreement) that such party has signed a counterpart of this Agreement.

(b) The Lenders, the Administrative Agent, the Arrangers and each other Person entitled to the payment of fees or the reimbursement or payment of expenses, pursuant hereto or to certain fee letters executed and delivered with respect to the credit facility provided for herein, shall have received all fees required to be paid by the Effective Date (including, without limitation, all fees owing on the Effective Date under Section 2.12 hereof), and all expenses for which invoices have been presented on or before the Effective Date.

(c) The Administrative Agent shall have received certified copies of the resolutions of the Board of Directors of each of the Guarantor and the Borrower approving this Agreement, and of all documents evidencing other necessary corporate action and governmental and regulatory approvals with respect to this Agreement.

(d) The Administrative Agent shall have received from each of the Borrower and the Guarantor, to the extent generally available in the relevant jurisdiction, a copy of a certificate or certificates of the Secretary of State (or other appropriate public official) of the jurisdiction of its incorporation, dated reasonably near the Effective Date, (i) listing the charters of the Borrower or the Guarantor, as the case may be, and each amendment thereto on file in such office and certifying that such amendments are the only amendments to the Borrower's or the Guarantor's charter, as the case may be, on file in such office, and (ii) stating, in the case of the Borrower, that the Borrower is authorized to transact business under the laws of the jurisdiction of its place of incorporation, and, in the case of the Guarantor, that the Guarantor is duly incorporated and in good standing under the laws of the jurisdiction of its place of incorporation.

(e) (i) The Administrative Agent shall have received a certificate or certificates of each of the Borrower and the Guarantor, signed on behalf of the Borrower and the Guarantor respectively, by a the Secretary, an Assistant Secretary or a Responsible Officer thereof, dated the Effective Date, certifying as to (A) the absence of any amendments to the charter of the Borrower or the Guarantor, as the case may be, since the date of the certificates referred to in paragraph (d) above, (B) a true and correct copy of the bylaws of each of the Borrower or the Guarantor, as the case may be, as in effect on the Effective Date, (C) the absence of any proceeding for the dissolution or liquidation of the Borrower or the Guarantor, as the case may be, (D) the truth,

in all material respects, of the representations and warranties contained in the Credit Documents to which the Borrower or the Guarantor is a party, as the case may be, as though made on and as of the Effective Date, and (E) the absence, as of the Effective Date, of any Default or Event of Default; and (ii) each of such certifications shall be true.

(f) The Administrative Agent shall have received a certificate of the Secretary or an Assistant Secretary of each of the Guarantor and the Borrower certifying the names and true signatures of the officers of Guarantor or the Borrower, as the case may be, authorized to sign, and signing, this Agreement and the other Credit Documents to be delivered hereunder on or before the Effective Date.

(g) The Administrative Agent shall have received from Schiff Hardin LLP, counsel for the Guarantor and the Borrower, a favorable opinion, substantially in the form of Exhibit B hereto and as to such other matters as any Lender through the Administrative Agent may reasonably request.

SECTION 3.02. Conditions Precedent to Each Extension of Credit. The obligation of each Lender to make any Extension of Credit (including the initial Extension of Credit but excluding any conversion or continuation of any Loan) shall be subject to the satisfaction (or waiver in accordance with Section 11.02) of each of the following conditions:

(a) The representations and warranties of the Guarantor and the Borrower set forth in this Agreement (other than the representation and warranty set forth in Section 4.01(g)) shall be true and correct in all material respects on and as of the date of such Extension of Credit, except to the extent that such representations and warranties are specifically limited to a prior date, in which case such representations and warranties shall be true and correct in all material respects on and as of such prior date provided, that, in each case, such materiality qualifier shall not be applicable to any representations and warranties that are already qualified or modified by “materiality,” “Material Adverse Effect” or similar language in the text thereof.

(b) Such Extension of Credit will comply with all other applicable requirements of Article II, including, without limitation Sections 2.01 and 2.02, as applicable.

(c) At the time of and immediately after giving effect to such Extension of Credit, no Default or Event of Default shall have occurred and be continuing.

(d) The Administrative Agent shall have timely received a Borrowing Request.

Each Extension of Credit and the acceptance by the Borrower of the benefits thereof shall be deemed to constitute a representation and warranty by the Borrower on the date thereof as to the matters specified in paragraphs (a), (b) and (c) of this Section.

ARTICLE IV REPRESENTATIONS AND WARRANTIES

SECTION 4.01. Representations and Warranties of the Credit Parties. Each of the Borrower and the Guarantor represents and warrants as follows:

(a) Each of the Borrower and the Guarantor is a corporation duly organized, validly existing and, in the case of the Borrower, authorized to transact business under the laws of the State of its incorporation, and, in the case of the Guarantor, in good standing under the laws of the State of its incorporation.

(b) The execution, delivery and performance by each of the Credit Parties of the Credit Documents to which it is a party (i) are within such Credit Party’s corporate powers, (ii) have been duly authorized by all necessary corporate action, (iii) do not contravene (A) such Credit Party’s charter or by-laws, as the case may be, or (B) any law, rule or regulation, or any material Contractual Obligation or legal restriction, binding on or affecting such Credit Party or any Material Subsidiary, as the case may be, and (iv) do not require the creation of any Lien on the property of such Credit Party or any Material Subsidiary under any Contractual Obligation binding on or affecting such Credit Party or any Material Subsidiary.

(c) No authorization or approval or other action by, and no notice to or filing with, any Governmental Authority or other Person is required for the due execution, delivery and performance by any Credit Party of this Agreement or any other Credit Document to which any of them is a party, except for such as (i) have been obtained or made and that are in full force and effect or (ii) are not presently required under applicable law and have not yet been applied for.

(d) Each Credit Document to which any Credit Party is a party is a legal, valid and binding obligation of such Credit Party, enforceable against such Credit Party in accordance with its terms, subject to applicable bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors’ rights generally and subject to general principles of equity, regardless of whether considered in a proceeding in equity or at law.

(e) The consolidated balance sheet of the Guarantor and its Subsidiaries dated as of December 31, 2013, and the related statements of income and retained earnings of the Guarantor and its Subsidiaries for the fiscal year then ended, copies of which have been made available or furnished to each Lender, fairly present the financial condition of the Guarantor and its Subsidiaries as at such date and the results of the operations of the Guarantor and its Subsidiaries for the period ended on such date, all in accordance with generally accepted accounting principles consistently applied.

(f) The unaudited consolidated balance sheet of the Guarantor and its Subsidiaries as at June 30, 2014, and the related statements of income and retained earnings of the Guarantor and its Subsidiaries for the six-month period then ended, copies of which have been made available or furnished to each Lender, fairly present (subject to year end audit adjustments) the financial condition of the Guarantor and its Subsidiaries as at such date and the results of the operations of the Guarantor and its Subsidiaries for the period ended on such date, all in accordance with generally accepted accounting principles consistently applied.

(g) Since December 31, 2013, there has been no material adverse change in such condition or operations, or in the business, assets, operations, condition (financial or otherwise) or prospects of any of the Credit Parties or of Columbia.

(h) There is no pending or threatened action, proceeding or investigation affecting such Credit Party before any court, governmental agency or other Governmental Authority or arbitrator that (taking into account the exhaustion of appeals) would have a Material Adverse Effect, or that (i) purports to affect the legality, validity or enforceability of this Agreement or any promissory notes executed pursuant hereto, or (ii) seeks to prohibit the ownership or operation, by any Credit Party or any of their respective Material Subsidiaries, of all or a material portion of their respective businesses or assets.

(i) The Guarantor and its Subsidiaries, taken as a whole, do not hold or carry Margin Stock having an aggregate value in excess of 10% of the value of their consolidated assets, and no part of the proceeds of any Loan hereunder will be used to buy or carry any Margin Stock.

(j) No ERISA Event has occurred, or is reasonably expected to occur, with respect to any Plan that could reasonably be expected to have a Material Adverse Effect.

(k) Schedule B (Actuarial Information) to the 2013 Annual report (Form 5500 Series) for each Plan, copies of which have been filed with the Internal Revenue Service and made available or furnished to each Lender, is complete and accurate and fairly presents the funding status of such Plan, and since the date of such Schedule B there has been no adverse change in such funding status which may reasonably be expected to have a Material Adverse Effect.

(l) Neither the Guarantor nor any ERISA Affiliate has incurred or is reasonably expected to incur any Withdrawal Liability to any Multiemployer Plan which may reasonably be expected to have a Material Adverse Effect.

(m) Neither the Guarantor nor any ERISA Affiliate has been notified by the sponsor of a Multiemployer Plan that such Multiemployer Plan is in reorganization or has been terminated, within the meaning of Title VI of ERISA, and no Multiemployer Plan is reasonably expected to be in reorganization or to be terminated, within the meaning of Title IV of ERISA, in either such case, that could reasonably be expected to have a Material Adverse Effect.

(n) No Credit Party is an "investment company", or a company "controlled" by an "investment company", within the meaning of the Investment Company Act of 1940, as amended.

(o) Each Credit Party has filed all tax returns (Federal, state and local) required to be filed by it and has paid or caused to be paid all taxes due for the periods covered thereby, including interest and penalties, except for any such taxes, interest or penalties which are being contested in good faith and by proper proceedings and in respect of which such Credit Party has set aside adequate reserves for the payment thereof in accordance with GAAP.

(p) Each Credit Party and its Subsidiaries are and have been in compliance with all laws (including, without limitation, all Environmental Laws), except to the extent that any failure to be in compliance, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect.

(q) No Subsidiary of any Credit Party is party to, or otherwise bound by, any agreement that prohibits such Subsidiary from making any payments, directly or indirectly, to such Credit Party, by way of dividends, advances, repayment of loans or advances, reimbursements of management or other intercompany charges, expenses and accruals or other returns on investment, or any other agreement that restricts the ability of such Subsidiary to make any payment, directly or indirectly, to such Credit Party, other than prohibitions and restrictions permitted to exist under Section 6.01(e).

(r) The information, exhibits and reports furnished by the Guarantor or any of its Subsidiaries to the Administrative Agent or to any Lender in connection with the negotiation of, or compliance with, the Credit Documents, taken as a whole, do not contain any material misstatement of fact and do not omit to state a material fact or any fact necessary to make the statements contained therein not misleading in light of the circumstances made.

(s) Each Credit Party and its Subsidiaries have implemented and maintain in effect policies and procedures reasonably designed to ensure compliance by each Credit Party and its Subsidiaries and their respective directors, officers, employees and agents with Anti-Corruption Laws and applicable Sanctions, and each Credit Party and its Subsidiaries and their respective officers and employees and to the knowledge of such Credit Party and its Subsidiaries, its respective directors and agents, are in compliance with Anti-Corruption Laws and applicable Sanctions in all material respects. None of (a) the Credit Parties or its Subsidiaries or to the knowledge of such Credit Party or its Subsidiaries, any of their respective directors, officers or employees, or (b) to the knowledge of the Credit Parties, any agent of the Credit Parties or any of their respective Subsidiaries that will act in any capacity in connection with or benefit from the credit facility established hereby, is a Sanctioned Person. No Borrowing, use of proceeds or other Transactions will violate Anti-Corruption Laws or applicable Sanctions.

ARTICLE V
AFFIRMATIVE COVENANTS

SECTION 5.01. Affirmative Covenants. So long as any Lender shall have any Commitment hereunder or any principal of any Loan, interest or fees payable hereunder shall remain unpaid, each of the Credit Parties will, unless the Required Lenders shall otherwise consent in writing:

(a) **Compliance with Laws, Etc.** (i) Comply, and cause each of its Subsidiaries to comply, in all material respects with all applicable laws, rules, regulations and orders (including, without limitation, any of the foregoing relating to employee health and safety or public utilities and all Environmental Laws), unless the failure to so comply could not reasonably be expected to have a Material Adverse Effect and (ii) maintain in effect and enforce policies and procedures reasonably designed to ensure compliance by each Credit Party and its Subsidiaries and their respective directors, officers, employees and agents with Anti-Corruption Laws and applicable Sanctions.

(b) **Maintenance of Properties, Etc.** Maintain and preserve, and cause each Material Subsidiary to maintain and preserve, all of its material properties which are used in the conduct of its business in good working order and condition, ordinary wear and tear excepted, if the failure to do so could reasonably be expected to have a Material Adverse Effect.

(c) **Payment of Taxes, Etc.** Pay and discharge, and cause each of its Subsidiaries to pay and discharge, before the same shall become delinquent, (i) all taxes, assessments and governmental charges or levies imposed upon it or upon its property, and (ii) all legal claims which, if unpaid, might by law become a lien upon its property; *provided, however*, that neither any Credit Party nor any of its Subsidiaries shall be required to pay or discharge any such tax, assessment, charge or claim which is being contested in good faith and by proper proceedings and as to which appropriate reserves are being maintained.

(d) **Maintenance of Insurance .** Maintain, and cause each of its Subsidiaries to maintain, insurance with responsible and reputable insurance companies or associations in such amounts and covering such risks as is usually obtained by companies engaged in similar businesses of comparable size and financial strength and owning similar properties in the same general areas in which such Credit Party or such Subsidiary operates, or, to the extent such Credit Party or Subsidiary deems it reasonably prudent to do so, through its own program of self-insurance.

(e) **Preservation of Corporate Existence, Etc.** Preserve and maintain, and cause each Material Subsidiary to preserve and maintain, its corporate existence, rights (charter and statutory) and franchises, except as otherwise permitted under this Agreement; *provided that* that no such Person shall be required to preserve any right or franchise with respect to which the Board of Directors of such Person has determined that the preservation thereof is no longer desirable in the conduct of the business of such Person and that the loss thereof is not disadvantageous in any material respect to any Credit Party or the Lenders.

(f) **Visitation Rights .** At any reasonable time and from time to time, permit the Administrative Agent or any of the Lenders or any agents or representatives thereof, on not less than five Business Days' notice (which notice shall be required only so long as no Default shall be occurred and be continuing), to examine and make copies of and abstracts from the records and books of account of, and visit the properties of, such Credit Party or any of its Subsidiaries, and to discuss the affairs, finances and accounts of the Credit Parties and their respective Subsidiaries with any of their respective officers and with their independent certified public accountants; subject, however, in all cases to the imposition of such conditions as the affected Credit Party or Subsidiary shall deem necessary based on reasonable considerations of safety and security and provided that so long as no Default or Event of Default shall have occurred and be continuing, each Lender will be limited to one visit each year.

(g) **Keeping of Books .** (i) Keep, and cause each of its Subsidiaries to keep, proper books of record and account, in which full and correct entries shall be made of all material financial transactions and the assets and business of each of the Credit Parties and each of their respective Subsidiaries, and (ii) maintain, and cause each of its Subsidiaries to maintain, a system of accounting established and administered in accordance with generally accepted accounting principles consistently applied.

(h) **Reporting Requirements .** Deliver to the Administrative Agent for distribution to the Lenders:

(i) as soon as available and in any event within 60 days after the end of each of the first three quarters of each fiscal year of the Guarantor (or, if earlier, concurrently with the filing thereof with the Securities and Exchange Commission or any national securities exchange in accordance with applicable law or regulation), commencing with the fiscal quarter ending September 30, 2014, balance sheets and cash flow statements of the Guarantor and its Consolidated Subsidiaries in comparative form as of the end of such quarter and statements of income and retained earnings of the Guarantor and its Consolidated Subsidiaries for the period commencing at the end of the previous fiscal year of the Guarantor and ending with the end of such quarter, each prepared in accordance with generally accepted accounting principles consistently applied, subject to normal year-end audit adjustments, certified by the chief financial officer of the Guarantor.

(ii) as soon as available and in any event within 90 days after the end of each fiscal year of the Guarantor (or, if earlier, concurrently with the filing thereof with the Securities and Exchange Commission or any national securities exchange in accordance with applicable law or regulation), commencing with the fiscal year ending December 31, 2014, a copy of the audit report for such year for the Guarantor and its Consolidated Subsidiaries containing balance sheets and cash flow statements of the Guarantor and its Consolidated Subsidiaries and statements of income and retained earnings

of the Guarantor and its Consolidated Subsidiaries for such year prepared in accordance with generally accepted accounting principles consistently applied as reported on by independent certified public accountants of recognized national standing acceptable to the Required Lenders, which audit was conducted by such accounting firm in accordance with generally accepted auditing standards;

(iii) concurrently with the delivery of financial statements pursuant to clauses (i) and (ii) above or the notice relating thereto contemplated by the final sentence of this Section 5.01(h), a certificate of a senior financial officer of each of the Guarantor and the Borrower (A) to the effect that no Default or Event of Default has occurred and is continuing (or, if any Default or Event of Default has occurred and is continuing, describing the same in reasonable detail and describing the action that the Guarantor or the Borrower, as the case may be, has taken and proposes to take with respect thereto), and (B) in the case of the certificate relating to the Guarantor, setting forth calculations, in reasonable detail, establishing Borrower's compliance, as at the end of such fiscal quarter, with the financial covenant contained in Article VII;

(iv) as soon as possible and in any event within five days after the occurrence of each Default or Event of Default continuing on the date of such statement, a statement of the chief financial officer of the Borrower setting forth details of such Event of Default or event and the action which the Borrower has taken and proposes to take with respect thereto;

(v) promptly after the sending or filing thereof, copies of all reports which the Guarantor sends to its stockholders, and copies of all reports and registration statements (other than registration statements filed on Form S-8) that the Guarantor, the Borrower or any Subsidiary of the Guarantor or the Borrower, files with the Securities and Exchange Commission;

(vi) promptly and in any event within 10 days after the Guarantor knows or has reason to know that any material ERISA Event has occurred, a statement of the chief financial officer of the Borrower describing such ERISA Event and the action, if any, which the Guarantor or any affected ERISA Affiliate proposes to take with respect thereto;

(vii) promptly and in any event within two Business Days after receipt thereof by the Guarantor (or knowledge being obtained by the Guarantor of the receipt thereof by any ERISA Affiliate), copies of each notice from the PBGC stating its intention to terminate any Plan or to have a trustee appointed to administer any Plan;

(viii) promptly and in any event within five Business Days after receipt thereof by the Guarantor (or knowledge being obtained by the Guarantor of the receipt thereof by any ERISA Affiliate) from the sponsor of a Multiemployer Plan, a copy of each notice received by the Guarantor or any ERISA Affiliate concerning (A) the imposition of material Withdrawal Liability by a Multiemployer Plan, (B) the reorganization or termination, within the meaning of Title IV of ERISA, of any Multiemployer Plan or (C) the amount of liability incurred, or which may be incurred, by the Guarantor or any ERISA Affiliate in connection with any event described in clause (A) or (B) above;

(ix) promptly after the Guarantor has knowledge of the commencement thereof, notice of any actions, suits and proceedings before any court or governmental department, commission, board, bureau, agency or instrumentality, domestic or foreign, affecting the Guarantor or any Material Subsidiary of the type described in Section 4.01(h);

(x) promptly after the Guarantor or the Borrower knows of any change in the rating of the Index Debt by S&P or Moody's, a notice of such changed rating; and

(xi) such other information respecting the condition or operations, financial or otherwise, of the Guarantor or any of its Subsidiaries as any Lender through the Administrative Agent may from time to time reasonably request.

Notwithstanding the foregoing, the Credit Parties' obligations to deliver the documents or information required under any of clauses (i), (ii) and (v) above shall be deemed to be satisfied upon (x) the relevant documents or information being publicly available on the Guarantor's website or other publicly available electronic medium (such as EDGAR) within the time period required by such clause, and (y) the delivery by the Guarantor or the Borrower of notice to the Administrative Agent and the Lenders, within the time period required by such clause, that such documents or information are so available.

(i) **Use of Proceeds** . Use the proceeds of the Loans hereunder for working capital and other general corporate purposes, including refinancing of existing indebtedness and not request any Borrowing, nor use, and shall procure that its Subsidiaries and its or their respective directors, officers, employees and agents shall not use, the proceeds of any Borrowing directly or indirectly (i) in furtherance of an offer, payment, promise to pay, or authorization of the payment or giving of money, or anything else of value, to any Person in violation of any Anti-Corruption Laws, (ii) for the purpose of funding, financing or facilitating any activities, business or transaction of or with any Sanctioned Person, or in any Sanctioned Country or (iii) in any manner that would result in the violation of any Sanctions applicable to any party hereto.

(j) **Ratings** . At all times maintain ratings by both Moody's and S&P with respect to the Index Debt.

ARTICLE VI
NEGATIVE COVENANTS

SECTION 6.01. Negative Covenants. So long as any Lender shall have any Commitment hereunder or any principal of any Loan, interest or fees payable hereunder shall remain unpaid, no Credit Party will, without the written consent of the Required Lenders:

(a) **Limitation on Liens** . Create or suffer to exist, or permit any of its Subsidiaries (other than a Utility Subsidiary) to create or suffer to exist, any lien, security interest, or other charge or encumbrance (collectively, “**Liens**”) upon or with respect to any of its properties, whether now owned or hereafter acquired, or collaterally assign for security purposes, or permit any of its Subsidiaries (other than a Utility Subsidiary) to so assign any right to receive income in each case to secure or provide for or guarantee the payment of Debt for Borrowed Money of any Person, without in any such case effectively securing, prior to or concurrently with the creation, issuance, assumption or guaranty of any such Debt for Borrowed Money, the Obligations (together with, if the Guarantor shall so determine, any other Debt for Borrowed Money of or guaranteed by the Guarantor or any of its Subsidiaries ranking equally with the Loans and then existing or thereafter created) equally and ratably with (or prior to) such Debt for Borrowed Money; *provided, however*, that the foregoing restrictions shall not apply to or prevent the creation or existence of:

(i) (A) Liens on any property acquired, constructed or improved by the Guarantor or any of its Subsidiaries (other than a Utility Subsidiary) after the date of this Agreement that are created or assumed prior to, contemporaneously with, or within 180 days after, such acquisition or completion of such construction or improvement, to secure or provide for the payment of all or any part of the purchase price of such property or the cost of such construction or improvement; or (B) in addition to Liens contemplated by clauses (ii) and (iii) below, Liens on any property existing at the time of acquisition thereof, provided that the Liens shall not apply to any property theretofore owned by the Guarantor or any such Subsidiary other than, in the case of any such construction or improvement, (1) unimproved real property on which the property so constructed or the improvement is located, (2) other property (or improvements thereon) that is an improvement to or is acquired or constructed for specific use with such acquired or constructed property (or improvement thereof), and (3) any rights and interests (A) under any agreements or other documents relating to, or (B) appurtenant to, the property being so constructed or improved or such other property;

(ii) existing Liens on any property or indebtedness of a corporation that is merged with or into or consolidated with any Credit Party or any of its Subsidiaries; *provided* that such Lien was not created in contemplation of such merger or consolidation;

(iii) Liens on any property or indebtedness of a corporation existing at the time such corporation becomes a Subsidiary of any Credit Party; *provided* that such Lien was not created in contemplation of such occurrence;

(iv) Liens to secure Debt for Borrowed Money of a Subsidiary of a Credit Party to a Credit Party or to another Subsidiary of the Guarantor;

(v) Liens in favor of the United States of America, any State, any foreign country or any department, agency or instrumentality or political subdivision of any such jurisdiction, to secure partial, progress, advance or other payments pursuant to any contract or statute or to secure any Debt for Borrowed Money incurred for the purpose of financing all or any part of the purchase price of the cost of constructing or improving the property subject to such Liens, including, without limitation, Liens to secure Debt for Borrowed Money of the pollution control or industrial revenue bond type;

(vi) Liens on any property (including any natural gas, oil or other mineral property) to secure all or part of the cost of exploration, drilling or development thereof or to secure Debt for Borrowed Money incurred to provide funds for any such purpose;

(vii) Liens existing on the date of this Agreement;

(viii) Liens for the sole purposes of extending, renewing or replacing in whole or in part Debt for Borrowed Money secured by any Lien referred to in the foregoing clauses (i) through (vii), inclusive, or this clause (viii); *provided, however*, that the principal amount of Debt for Borrowed Money secured thereby shall not exceed the principal amount of Debt for Borrowed Money so secured at the time of such extension, renewal or replacement (which, for purposes of this limitation as it applies to a synthetic lease, shall be deemed to be (x) the lessor’s original cost of the property subject to such lease at the time of extension, renewal or replacement, *less* (y) the aggregate amount of all prior payments under such lease allocated pursuant to the terms of such lease to reduce the principal amount of the lessor’s investment, and borrowings by the lessor, made to fund the original cost of the property), and that such extension, renewal or replacement shall be limited to all or a part of the property or indebtedness which secured the Lien so extended, renewed or replaced (plus improvements on such property);

(ix) Liens on any property or assets of a Project Financing Subsidiary, or on any Capital Stock in a Project Financing Subsidiary, in either such case, that secure only a Project Financing or a Contingent Guaranty that supports a Project Financing; or

(x) Any Lien, other than a Lien described in any of the foregoing clauses (i) through (ix), inclusive, to the extent that it secures Debt for Borrowed Money, or guaranties thereof, the outstanding principal balance of which at the

time of creation of such Lien, when added to the aggregate principal balance of all Debt for Borrowed Money secured by Liens incurred under this clause (x) then outstanding, does not exceed \$150,000,000.

If at any time any Credit Party or any of its Subsidiaries shall create, issue, assume or guaranty any Debt for Borrowed Money secured by any Lien and the first paragraph of this Section 6.01(a) requires that the Loans be secured equally and ratably with such Debt for Borrowed Money, the Borrower shall promptly deliver to the Administrative Agent and each Lender:

(1) a certificate of a duly authorized officer of the Borrower stating that the covenant contained in the first paragraph of this Section 6.01(a) has been complied with; and

(2) an opinion of counsel acceptable to the Required Lenders to the effect that such covenant has been complied with and that all documents executed by any Credit Party or any of its Subsidiaries in the performance of such covenant comply with the requirements of such covenant.

(b) **Mergers, Etc.** Merge or consolidate with or into, or, except in a transaction permitted under paragraph (c) of this Section, convey, transfer, lease or otherwise dispose of (whether in one transaction or in a series of transactions) all or substantially all of its assets (whether now owned or hereafter acquired) to any Person, or permit any of its Subsidiaries to do so, except that:

(i) any Subsidiary of the Guarantor (other than the Borrower) may merge or consolidate with or transfer assets to or acquire assets from any other Subsidiary of the Guarantor, *provided* that in the case of any such merger, consolidation, or transfer of assets to which NIPSCO or Columbia is a party, the continuing or surviving Person shall be a Wholly-Owned Subsidiary of the Guarantor; and

(ii) the Borrower may merge or consolidate with, or transfer assets to, or acquire assets from, any other Wholly-Owned Subsidiary of the Guarantor, *provided* that in the case of any such merger or consolidation to which the Borrower is not the surviving Person, or transfer of all or substantially all of the assets of the Borrower to any other Wholly-Owned Subsidiary of the Guarantor, immediately after giving effect thereto, (A) no Event of Default shall have occurred and be continuing (determined, for purposes of compliance with Article VII after giving effect to such transaction, on a pro forma basis as if such transaction had occurred on the last day of the Guarantor's fiscal quarter then most recently ended) and (B) such surviving Person or transferee, as applicable, shall have assumed all of the obligations of the Borrower under and in respect of the Credit Documents by written instrument satisfactory to the Administrative Agent and its counsel in their reasonable discretion, accompanied by such opinions of counsel and other supporting documents as they may reasonably require; and

(iii) any Subsidiary of the Guarantor may merge into the Guarantor or the Borrower or transfer assets to the Borrower or the Guarantor, *provided* that in the case of any merger or consolidation of the Borrower into the Guarantor or transfer of all or substantially all of the assets of the Borrower to the Guarantor, immediately after giving effect thereto, (A) no Event of Default shall have occurred and be continuing (determined, for purposes of compliance with Article VII after giving effect to such transaction, on a pro forma basis as if such transaction had occurred on the last day of the Guarantor's fiscal quarter then most recently ended) and (B) the Guarantor shall have assumed all of the obligations of the Borrower under and in respect of the Credit Documents by written instrument satisfactory to the Administrative Agent and its counsel in their reasonable discretion, accompanied by such opinions of counsel and other supporting documents as they may reasonably require; and

(iv) the Guarantor or any Subsidiary of the Guarantor may merge, or consolidate with or transfer all or substantially all of its assets to any other Person; *provided* that in each case under this clause (iii), immediately after giving effect thereto, (A) no Event of Default shall have occurred and be continuing (determined, for purposes of compliance with Article VII after giving effect to such transaction, on a pro forma basis as if such transaction had occurred on the last day of the Guarantor's fiscal quarter then most recently ended); (B) in the case of any such merger, consolidation or transfer of assets to which the Borrower is a party, the Borrower shall be the continuing or surviving corporation; (C) in the case of any such merger, consolidation, or transfer of assets to which NIPSCO or Columbia is a party, NIPSCO or Columbia, as the case may be, shall be the continuing or surviving corporation and shall be a Wholly-Owned Subsidiary of the Guarantor; (D) in the case of any such merger, consolidation or transfer of assets to which the Guarantor is a party, the Guarantor shall be the continuing or surviving corporation; and (E) the Index Debt shall be rated at least BBB- by S&P and at least Baa3 by Moody's.

(c) **Sales, Etc. of Assets** . Sell, lease, transfer or otherwise dispose of, or permit any of their respective Subsidiaries to sell, lease, transfer or otherwise dispose of (other than in connection with a transaction authorized by paragraph (b) of this Section) any substantial part of its assets; *provided* that the foregoing shall not prohibit any such sale, conveyance, lease, transfer or other disposition that (i) constitutes realization on a Lien permitted to exist under Section 6.01(a); or (ii) (A) (1) is for a price not materially less than the fair market value of such assets, (2) would not materially impair the ability of any Credit Party to perform its obligations under this Agreement and (3) together with all other such sales, conveyances, leases, transfers and other

dispositions, would have no Material Adverse Effect, or (B) would not result in the sale, lease, transfer or other disposition, in the aggregate, of more than 10% of the consolidated total assets of the Guarantor and its Subsidiaries, determined in accordance with GAAP, on December 31, 2013.

(d) **Compliance with ERISA** . (i) Terminate, or permit any ERISA Affiliate to terminate, any Plan so as to result in a Material Adverse Effect or (ii) permit to exist any occurrence of any Reportable Event (as defined in Title IV of ERISA), or any other event or condition, that presents a material (in the reasonable opinion of the Required Lenders) risk of such a termination by the PBGC of any Plan, if such termination could reasonably be expected to have a Material Adverse Effect.

(e) **Certain Restrictions** . Permit any of its Subsidiaries (other than, in the case of the Guarantor, the Borrower) to enter into or permit to exist any agreement that by its terms prohibits such Subsidiary from making any payments, directly or indirectly, to such Credit Party by way of dividends, advances, repayment of loans or advances, reimbursements of management or other intercompany charges, expenses and accruals or other returns on investment, or any other agreement that restricts the ability of such Subsidiary to make any payment, directly or indirectly, to such Credit Party; *provided* that the foregoing shall not apply to prohibitions and restrictions (i) imposed by applicable law, (ii) (A) imposed under an agreement in existence on the date of this Agreement, and (B) described on Schedule 6.01(e), (iii) existing with respect to a Subsidiary on the date it becomes a Subsidiary that are not created in contemplation thereof (but shall apply to any extension or renewal of, or any amendment or modification expanding the scope of, any such prohibition or restriction), (iv) contained in agreements relating to the sale of a Subsidiary pending such sale, *provided* that such prohibitions or restrictions apply only to the Subsidiary that is to be sold and such sale is permitted hereunder, (v) imposed on a Project Financing Subsidiary in connection with a Project Financing, or (vi) that could not reasonably be expected to have a Material Adverse Effect.

ARTICLE VII FINANCIAL COVENANT

So long as any Lender shall have any Commitment hereunder or any principal of any Loan, interest or fees payable hereunder shall remain unpaid, the Guarantor shall maintain a Debt to Capitalization Ratio of not more than 0.70 to 1.00.

ARTICLE VIII EVENTS OF DEFAULT

SECTION 8.01. Events of Default. If any of the following events (“*Events of Default*”) shall occur and be continuing:

(a) The Borrower shall fail to pay any principal of any Loan when the same becomes due and payable or shall fail to pay any interest, fees or other amounts hereunder within three Business Days after when the same becomes due and payable; or

(b) Any representation or warranty made by any Credit Party in any Credit Document or by any Credit Party (or any of its officers) in connection with this Agreement shall prove to have been incorrect in any material respect (or any such representation or warranty that was otherwise qualified by materiality shall prove to have been false or misleading in any respect) when made; or

(c) Any Credit Party shall fail to perform or observe any term, covenant or agreement contained in Section 5.01(e), 5.01(f), 5.01(h), 5.01(i), 6.01 or Article VII; or

(d) Any Credit Party shall fail to perform or observe any term, covenant or agreement contained in any Credit Document on its part to be performed or observed (other than one identified in paragraph (a), (b) or (c) above) if the failure to perform or observe such other term, covenant or agreement shall remain unremedied for thirty days after written notice thereof shall have been given to the Borrower by the Administrative Agent or any Lender; or

(e) The Guarantor, the Borrower or any of their respective Subsidiaries shall fail to pay any principal of or premium or interest on any Indebtedness (excluding Non-Recourse Debt) which is outstanding in a principal amount of at least \$50,000,000 in the aggregate (but excluding the Loans) of the Guarantor, the Borrower or such Subsidiary, as the case may be, when the same becomes due and payable (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise), and such failure shall continue after the applicable grace period, if any, specified in the agreement or instrument relating to such Indebtedness; or any other event shall occur or condition shall exist under any agreement or instrument relating to any such Indebtedness and shall continue after the applicable grace period, if any, specified in such agreement or instrument, if the effect of such event or condition is to accelerate, or to permit the acceleration of, the scheduled maturity of such Indebtedness; or any such Indebtedness shall be declared to be due and payable, or required to be prepaid (other than by a regularly scheduled required prepayment), prior to the stated maturity thereof; or

(f) Any Credit Party shall generally not pay its debts as such debts become due, or shall admit in writing its inability to pay its debts generally, or shall make a general assignment for the benefit of creditors; or any proceeding shall be instituted by or against any Credit Party seeking to adjudicate it a bankrupt or insolvent, or seeking liquidation, winding up, reorganization, arrangement, adjustment, protection, relief, or composition of it or its debts under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a receiver, trustee, custodian

or other similar official for it or for any substantial part of its property and, in the case of any such proceeding instituted against any Credit Party (but not instituted by any Credit Party), either such proceeding shall remain undismissed or unstayed for a period of 60 days, or any of the actions sought in such proceeding (including, without limitation, the entry of an order for relief against, or the appointment of a receiver, trustee, custodian or other similar official for, any Credit Party or for any substantial part of its property) shall occur; or any Credit Party shall take any corporate action to authorize any of the actions set forth above in this paragraph (f); or

(g) One or more Subsidiaries of the Guarantor (other than the Borrower) in which the aggregate sum of (i) the amounts invested by the Guarantor and its other Subsidiaries in the aggregate, by way of purchases of Capital Stock, Capital Leases, loans or otherwise, and (ii) the amount of recourse, whether contractual or as a matter of law (but excluding Non-Recourse Debt), available to creditors of such Subsidiary or Subsidiaries against the Guarantor or any of its other Subsidiaries, is \$100,000,000 or more (collectively, “**Substantial Subsidiaries**”) shall generally not pay their respective debts as such debts become due, or shall admit in writing their respective inability to pay their debts generally, or shall make a general assignment for the benefit of creditors; or any proceeding shall be instituted by or against Substantial Subsidiaries seeking to adjudicate them bankrupt or insolvent, or seeking liquidation, winding up, reorganization, arrangement, adjustment, protection, relief, or composition of them or their respective debts under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a receiver, trustee, custodian or other similar official for them or for any substantial part of their respective property and, in the case of any such proceeding instituted against Substantial Subsidiaries (but not instituted by the Guarantor or any Subsidiary of the Guarantor), either such proceeding shall remain undismissed or unstayed for a period of 60 days, or any of the actions sought in such proceeding (including, without limitation, the entry of an order for relief against, or the appointment of a receiver, trustee, custodian or other similar official for, the Substantial Subsidiaries or for any substantial part of their respective property) shall occur; or Substantial Subsidiaries shall take any corporate action to authorize any of the actions set forth above in this paragraph (g); or

(h) Any judgment or order for the payment of money in excess of \$50,000,000 shall be rendered against the Borrower, the Guarantor or any of its other Subsidiaries and either (i) enforcement proceedings shall have been commenced by any creditor upon such judgment or order or (ii) there shall be any period of 30 consecutive days during which a stay of enforcement of such judgment or order, by reason of a pending appeal or otherwise, shall not be in effect; or

(i) Any ERISA Event shall have occurred with respect to a Plan and, 30 days after notice thereof shall have been given to the Guarantor or the Borrower by the Administrative Agent, (i) such ERISA Event shall still exist and (ii) the sum (determined as of the date of occurrence of such ERISA Event) of the Insufficiency of such Plan and the Insufficiency of any and all other Plans with respect to which an ERISA Event shall have occurred and then exist (or, in the case of a Plan with respect to which an ERISA Event described in clauses (c) through (f) of the definition of ERISA Event shall have occurred and then exist, the liability related thereto) is equal to or greater than \$10,000,000 (when aggregated with paragraphs (j), (k) and (l) of this Section), and a Material Adverse Effect could reasonably be expected to occur as a result thereof; or

(j) The Guarantor or any ERISA Affiliate shall have been notified by the sponsor of a Multiemployer Plan that it has incurred Withdrawal Liability to such Multiemployer Plan in an amount which, when aggregated with all other amounts required to be paid to Multiemployer Plans by the Guarantor and its ERISA Affiliates as Withdrawal Liability (determined as of the date of such notification), exceeds \$10,000,000 or requires payments exceeding \$10,000,000 *per annum* (in either case, when aggregated with paragraphs (i), (k) and (l) of this Section), and a Material Adverse Effect could reasonably be expected to occur as a result thereof; or

(k) The Guarantor or any ERISA Affiliate shall have been notified by the sponsor of a Multiemployer Plan that such Multiemployer Plan is in reorganization or is being terminated, within the meaning of Title IV of ERISA, if as a result of such reorganization or termination the aggregate annual contributions of the Guarantor and its ERISA Affiliates to all Multiemployer Plans which are then in reorganization or being terminated have been or will be increased over the amounts contributed to such Multiemployer Plans for the respective plan year of each such Multiemployer Plan immediately preceding the plan year in which the reorganization or termination occurs by an amount exceeding \$10,000,000 (when aggregated with paragraphs (i), (j) and (l) of this Section), and a Material Adverse Effect could reasonably be expected to occur as a result thereof; or

(l) The Guarantor or any ERISA Affiliate shall have committed a failure described in Section 303(k)(1) of ERISA and the amount determined under Section 303(k)(3) of ERISA is equal to or greater than \$10,000,000 (when aggregated with paragraphs (i), (j) and (k) of this Section), and a Material Adverse Effect could reasonably be expected to occur as a result thereof; or

(m) Any provision of the Credit Documents shall be held by a court of competent jurisdiction to be invalid or unenforceable against any Credit Party purported to be bound thereby, or any Credit Party shall so assert in writing; or

(n) Any Change of Control shall occur;

then, and in any such event, the Administrative Agent (i) shall at the request, or may with the consent, of the Required Lenders, by notice to the Borrower, declare the Commitment of each Lender to be terminated, whereupon the same shall forthwith terminate, and (ii) shall at the request or with the consent of the Required Lenders, by notice to the Borrower, declare all amounts payable under this Agreement to be forthwith due and payable, whereupon all such amounts shall become and be forthwith due and payable, without presentment, demand, protest or further notice of any kind, all of which are hereby

expressly waived by the Borrower; *provided* that in the event of an actual or deemed entry of an order for relief with respect to any Credit Party under the Federal Bankruptcy Code, (1) the Commitment of each Lender hereunder shall automatically be terminated and (2) all such amounts shall automatically become and be due and payable, without presentment, demand, protest or any notice of any kind, all of which are hereby expressly waived by the Borrower.

ARTICLE IX THE ADMINISTRATIVE AGENT

SECTION 9.01. The Administrative Agent.

(a) Each of the Lenders hereby irrevocably appoints the Administrative Agent as its agent and authorizes the Administrative Agent to take such actions on its behalf and to exercise such powers as are delegated to the Administrative Agent by the terms hereof, together with such actions and powers as are reasonably incidental thereto.

(b) The Person serving as the Administrative Agent hereunder shall have the same rights and powers in its capacity as a Lender as any other Lender and may exercise the same as though it were not the Administrative Agent, and such bank and its Affiliates may accept deposits from, lend money to and generally engage in any kind of business with any Credit Party or any of such Credit Party's Subsidiaries or other Affiliates thereof as if it were not the Administrative Agent hereunder.

(c) The Administrative Agent shall not have any duties or obligations except those expressly set forth herein. Without limiting the generality of the foregoing, (i) the Administrative Agent shall not be subject to any fiduciary or other implied duties, regardless of whether a Default has occurred and is continuing, (ii) the Administrative Agent shall not have any duty to take any discretionary action or exercise any discretionary powers, except discretionary rights and powers expressly contemplated hereby that the Administrative Agent is required to exercise in writing by the Required Lenders, and (iii) except as expressly set forth herein, the Administrative Agent shall not have any duty to disclose, and shall not be liable for the failure to disclose, any information relating to the Borrower, the Guarantor or any of its other Subsidiaries that is communicated to or obtained by the bank serving as Administrative Agent or any of its Affiliates in any capacity. The Administrative Agent shall not be liable for any action taken or not taken by it with the consent or at the request of the Required Lenders (or, if applicable, all of the Lenders) or in the absence of its own gross negligence or willful misconduct. The Administrative Agent shall be deemed not to have knowledge of any Default unless and until written notice thereof is given to the Administrative Agent by the Borrower or a Lender, and the Administrative Agent shall not be responsible for or have any duty to ascertain or inquire into (1) any statement, warranty or representation made in or in connection with this Agreement, (2) the contents of any certificate, report or other document delivered hereunder or in connection herewith, (3) the performance or observance of any of the covenants, agreements or other terms or conditions set forth herein, (4) the validity, enforceability, effectiveness or genuineness of this Agreement or any other agreement, instrument or document, or (5) the satisfaction of any condition set forth in Article III or elsewhere herein, other than to confirm receipt of items expressly required to be delivered to the Administrative Agent and the conformity thereof to such express requirement.

(d) The Administrative Agent shall be entitled to rely upon, and shall not incur any liability for relying upon, any notice, request, certificate, consent, statement, instrument, document or other writing believed by it to be genuine and to have been signed or sent by the proper Person. The Administrative Agent also may rely upon any statement made to it orally or by telephone and believed by it to be made by the proper Person, and shall not incur any liability for relying thereon. The Administrative Agent may consult with legal counsel (who may be counsel for a Credit Party) independent accountants and other experts selected by it and shall not be liable for any action taken or not taken by it in accordance with the advice of any such counsel, accountants or experts.

(e) The Administrative Agent may perform any and all its duties and exercise its rights and powers by or through any one or more sub-agents appointed by the Administrative Agent. The Administrative Agent and any such sub-agent may perform any and all its duties and exercise its rights and powers through their respective Related Parties. The exculpatory provisions of the preceding paragraphs shall apply to any such sub-agent and to the Related Parties of the Administrative Agent and any such sub-agent, and shall apply to their respective activities in connection with the syndication of the credit facilities provided for herein as well as activities as Administrative Agent.

(f) Subject to the appointment and acceptance of a successor Administrative Agent as provided in this paragraph, the Administrative Agent may resign at any time by notifying the Lenders and the Credit Parties. Upon any such resignation, the Required Lenders shall have the right, with the consent of the Borrower (which consent shall not unreasonably be withheld), to appoint a successor, *provided* that no such consent of the Borrower shall be required if an Event of Default has occurred and is continuing. If no successor shall have been so appointed by the Required Lenders and shall have accepted such appointment within 30 days after the retiring Administrative Agent gives notice of its resignation, then the retiring Administrative Agent may, on behalf of the Lenders, appoint a successor Administrative Agent which shall be a bank with an office in New York, New York, or an Affiliate of any such bank, in any event having total assets in excess of \$500,000,000 and who shall serve until such time, if any, as an Agent shall have been appointed as provided above. Upon the acceptance of its appointment as Administrative Agent hereunder by a successor, such successor shall succeed to and become vested with all the rights, powers, privileges and duties of

the retiring Administrative Agent, and the retiring Administrative Agent shall be discharged from its duties and obligations hereunder. The fees payable by the Borrower to a successor Administrative Agent shall be the same as those payable to its predecessor unless otherwise agreed between the Borrower and such successor. After the Administrative Agent's resignation hereunder, the provisions of this Article and Section 11.03 shall continue in effect for its benefit in respect of any actions taken or omitted to be taken by it while it was acting as Administrative Agent.

(g) Each Lender acknowledges that it has, independently and without reliance upon the Administrative Agent or any other Lender and based on such documents and information as it has deemed appropriate, made its own credit analysis and decision to enter into this Agreement. Each Lender also acknowledges that it will, independently and without reliance upon the Administrative Agent or any other Lender and based on such documents and information as it shall from time to time deem appropriate, continue to make its own decisions in taking or not taking action under or based upon this Agreement, any related agreement or any document furnished hereunder or thereunder.

(h) No Lender identified on the signature pages of this Agreement as a "Lead Arranger" or "Syndication Agent", or that is given any other title hereunder other than "Administrative Agent", shall have any right, power, obligation, liability, responsibility or duty under this Agreement other than those applicable to all Lenders as such. Without limiting the generality of the foregoing, no Lender so identified as a "Lead Arranger" or "Syndication Agent" or that is given any other title hereunder, shall have, or be deemed to have, any fiduciary relationship with any Lender. Each Lender acknowledges that it has not relied, and will not rely, on the Lenders so identified in deciding to enter into this Agreement or in taking or not taking action hereunder.

(i) Notwithstanding anything to the contrary herein or in any other Credit Document, the authority to enforce rights and remedies hereunder and in the other Credit Documents against the Credit Parties or any of them shall be vested exclusively in, and all actions and proceedings at law in connection with such enforcement shall be instituted and maintained exclusively by, the Administrative Agent in accordance with Section 8.01 for the benefit of all the Lenders; provided, however, that the foregoing shall not prohibit (i) the Administrative Agent from exercising on its own behalf the rights and remedies that inure to its benefit (solely in its capacity as Administrative Agent) hereunder and under the other Credit Documents, (ii) any Lender from exercising setoff rights in accordance with Section 11.08 (subject to the terms of Section 2.18(c)) or (iii) any Lender from filing proofs of claim or appearing and filing pleadings on its own behalf during the pendency of a Bankruptcy Event relative to any Credit Party; and provided, further, that if at any time there is no Person acting as Administrative Agent hereunder and under the other Credit Documents, then (A) the Required Lenders shall have the rights otherwise ascribed to the Administrative Agent pursuant to Section 8.01 and (B) in addition to the matters set forth in clauses (ii), (iii) and (iv) of the preceding proviso and subject to Section 2.18(c), any Lender may, with the consent of the Required Lenders, enforce any rights and remedies available to it and as authorized by the Required Lenders.

ARTICLE X GUARANTY

SECTION 10.01. The Guaranty.

(a) The Guarantor, as primary obligor and not merely as a surety, hereby irrevocably, absolutely and unconditionally guarantees to the Administrative Agent and the Lenders and each of their respective successors, endorsees, transferees and assigns (each a "**Beneficiary**" and collectively, the "**Beneficiaries**") the prompt and complete payment by the Borrower, as and when due and payable, of the Obligations, in accordance with the terms of the Credit Documents. The provisions of this Article X are sometimes referred to hereinafter as the "**Guaranty**".

(b) The Guarantor hereby guarantees that the Obligations will be paid strictly in accordance with the terms of the Credit Documents, regardless of any law now or hereafter in effect in any jurisdiction affecting any such terms or the rights of the Beneficiaries with respect thereto. The obligations and liabilities of the Guarantor under this Guaranty shall be absolute and unconditional irrespective of: (i) any lack of validity or enforceability of any of the Obligations or any Credit Document, or any delay, failure or omission to enforce or agreement not to enforce, or the stay or enjoining, by order of court, by operation of law or otherwise, of the exercise of any right with respect to the foregoing (including, in each case, without limitation, as a result of the insolvency, bankruptcy or reorganization of any Beneficiary, the Borrower or any other Person); (ii) any change in the time, manner or place of payment of, or in any other term in respect of, all or any of the Obligations, or any other amendment or waiver of or consent to any departure from the Credit Documents or any agreement or instrument relating thereto; (iii) any exchange or release of, or non-perfection of any Lien on or in any collateral, or any release, amendment or waiver of, or consent to any departure from, any other guaranty of, or agreement granting security for, all or any of the Obligations; (iv) any claim, set-off, counterclaim, defense or other rights that the Guarantor may have at any time and from time to time against any Beneficiary or any other Person, whether in connection with this Transaction or any unrelated transaction; or (v) any other circumstance that might otherwise constitute a defense available to, or a discharge of, the Borrower or any other guarantor or surety in respect of the Obligations or the Guarantor in respect hereof.

(c) The Guaranty provided for herein (i) is a guaranty of payment and not of collection; (ii) is a continuing guaranty and shall remain in full force and effect until the Commitments have been terminated and the Obligations have been paid in full in cash; and (iii) shall continue to be effective or shall be reinstated, as the case may be, if at any time any payment, or any part thereof, of any of the Obligations is rescinded or must otherwise be returned by any Beneficiary upon or as a result of the insolvency, bankruptcy, dissolution, liquidation or reorganization of the Borrower or otherwise, all as though such payment had not been made.

(d) The obligations and liabilities of the Guarantor hereunder shall not be conditioned or contingent upon the pursuit by any Beneficiary or any other Person at any time of any right or remedy against the Borrower or any other Person that may be or become liable in respect of all or any part of the Obligations or against any collateral security or guaranty therefor or right of setoff with respect thereto.

(e) The Guarantor hereby consents that, without the necessity of any reservation of rights against the Guarantor and without notice to or further assent by the Guarantor, any demand for payment of any of the Obligations made by any Beneficiary may be rescinded by such Beneficiary and any of the Obligations continued after such rescission.

(f) The Guarantor's obligations under this Guaranty shall be unconditional, irrespective of any lack of capacity of the Borrower or any lack of validity or enforceability of any other provision of this Agreement or any other Credit Document, and this Guaranty shall not be affected in any way by any variation, extension, waiver, compromise or release of any or all of the Obligations or of any security or guaranty from time to time therefor.

(g) The obligations of the Guarantor under this Guaranty shall not be reduced, limited, impaired, discharged, deferred, suspended or terminated by any proceeding or action, voluntary or involuntary, involving the bankruptcy, insolvency, receivership, reorganization, marshalling of assets, assignment for the benefit of creditors, composition with creditors, readjustment, liquidation or arrangement of the Borrower or any similar proceedings or actions, or by any defense the Borrower may have by reason of the order, decree or decision of any court or administrative body resulting from any such proceeding or action. Without limiting the generality of the foregoing, the Guarantor's liability shall extend to all amounts and obligations that constitute the Obligations and would be owed by the Borrower, but for the fact that they are unenforceable or not allowable due to the existence of any such proceeding or action.

SECTION 10.02. Waivers.

(a) The Guarantor hereby unconditionally waives: (i) promptness and diligence; (ii) notice of or proof of reliance by the Administrative Agent or the Lenders upon this Guaranty or acceptance of this Guaranty; (iii) notice of the incurrence of any Obligation by the Borrower or the renewal, extension or accrual of any Obligation or of any circumstances affecting the Borrower's financial condition or ability to perform the Obligations; (iv) notice of any actions taken by the Beneficiaries or the Borrower or any other Person under any Credit Document or any other agreement or instrument relating thereto; (v) all other notices, demands and protests, and all other formalities of every kind in connection with the enforcement of the Obligations, of the obligations of the Guarantor hereunder or under any other Credit Document, the omission of or delay in which, but for the provisions of this Section 10 might constitute grounds for relieving the Guarantor of its obligations hereunder; (vi) any requirement that the Beneficiaries protect, secure, perfect or insure any Lien or any property subject thereto, or exhaust any right or take any action against the Borrower or any other Person or any collateral; and (vii) each other circumstance, other than payment of the Obligations in full, that might otherwise result in a discharge or exoneration of, or constitute a defense to, the Guarantor's obligations hereunder.

(b) No failure on the part of any Beneficiary to exercise, and no delay in exercising, any right, remedy, power or privilege hereunder or under any Credit Document or any other agreement or instrument relating thereto shall operate as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege hereunder or under any Credit Document or any other agreement or instrument relating thereto preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege. This Guaranty is in addition to and not in limitation of any other rights, remedies, powers and privileges the Beneficiaries may have by virtue of any other instrument or agreement heretofore, contemporaneously herewith or hereafter executed by the Guarantor or any other Person or by applicable law or otherwise. All rights, remedies, powers and privileges of the Beneficiaries shall be cumulative and may be exercised singly or concurrently. The rights, remedies, powers and privileges of the Beneficiaries under this Guaranty against the Guarantor are not conditional or contingent on any attempt by the Beneficiaries to exercise any of their rights, remedies, powers or privileges against any other guarantor or surety or under the Credit Documents or any other agreement or instrument relating thereto against the Borrower or against any other Person.

(c) The Guarantor hereby acknowledges and agrees that, until the Commitments have been terminated and all of the Obligations have been paid in full in cash, under no circumstances shall it be entitled to be subrogated to any rights of any Beneficiary in respect of the Obligations performed by it hereunder or otherwise, and the Guarantor hereby expressly and irrevocably waives, until the Commitments have been terminated and all of the Obligations have been paid in full in cash, (i) each and every such right of subrogation and any claims, reimbursements, right or right of action relating thereto (howsoever arising), and (ii) each and every right to contribution, indemnification, set-off or reimbursement, whether from the Borrower or any other Person now or hereafter primarily or secondarily liable for any of the Obligations, and whether arising by contract or operation of law or otherwise by reason of the Guarantor's execution, delivery or performance of this Guaranty.

(d) The Guarantor represents and warrants that it has established adequate means of keeping itself informed of the Borrower's financial condition and of other circumstances affecting the Borrower's ability to perform the Obligations, and agrees that neither the Administrative Agent nor any Lender shall have any obligation to provide to the Guarantor any information it may have, or hereafter receive, in respect of the Borrower.

**ARTICLE XI
MISCELLANEOUS**

SECTION 11.01. Notices. Except in the case of notices and other communications expressly permitted to be given by telephone, all notices and other communications provided for herein shall be in writing and shall be delivered by hand or overnight courier service, mailed by certified or registered mail or sent by telecopy, as follows:

(c) if to any Lender, to it at its address (or telecopy number) set forth in its Administrative Questionnaire.

Notices sent by hand or overnight courier service, or mailed by certified or registered mail, shall be deemed to have been given when

received; notices sent by facsimile shall be deemed to have been given when sent (except that, if not given during

normal business hours for the recipient, shall be deemed to have been given at the opening of business on the next business day for the recipient). Notices delivered through Electronic Systems, to the extent provided in paragraph (e) below, shall be effective as provided in said paragraph (e).

(d) Notices and other communications to the Lenders hereunder may be delivered or furnished by using Electronic Systems pursuant to procedures approved by the Administrative Agent; provided that the foregoing shall not apply to notices pursuant to Article II unless otherwise agreed by the Administrative Agent and the applicable Lender. The Administrative Agent or the Borrower may, in its discretion, agree to accept notices and other communications to it hereunder by electronic communications pursuant to procedures approved by it; provided that approval of such procedures may be limited to particular notices or communications.

(e) Unless the Administrative Agent otherwise prescribes, (i) notices and other communications sent to an e-mail address shall be deemed received upon the sender's receipt of an acknowledgement from the intended recipient (such as by the "return receipt requested" function, as available, return e-mail or other written acknowledgement), and (ii) notices or communications posted to an Internet or intranet website, including an Electronic System, shall be deemed received upon the deemed receipt by the intended recipient, at its e-mail address as described in the foregoing clause (i), of notification that such notice or communication is available and identifying the website address therefor; provided that, for both clauses (i) and (ii) above, if such notice, email or other communication is not sent during the normal business hours of the recipient, such notice or communication shall be deemed to have been sent at the opening of business on the next business day for the recipient.

(f) Any party hereto may change its address or telecopy number for notices and other communications hereunder by notice to the other parties hereto. All notices and other communications given to any party hereto in accordance with the provisions of this Agreement shall be deemed to have been given on the date of receipt.

(g) Electronic Systems.

(i) The Borrower and each Lender agrees that the Administrative Agent may, but shall not be obligated to, make Communications (as defined below) available to the Lenders by posting the Communications on Debt Domain, Intralinks, Syndtrak, ClearPar or a substantially similar Electronic System.

(ii) Any Electronic System used by the Administrative Agent is provided "as is" and "as available." The Agent Parties (as defined below) and the Credit Parties do not warrant the adequacy of such Electronic Systems and expressly disclaim liability for errors or omissions in the Communications. No warranty of any kind, express, implied or statutory, including, without limitation, any warranty of merchantability, fitness for a particular purpose, non-infringement of third-party rights or freedom from viruses or other code defects, is made by any Agent Party or any Credit Party in connection with the Communications or any Electronic System. In no event shall the Administrative Agent or any of its Related Parties (collectively, the "Agent Parties") or the Credit Parties have any liability to any Credit Party, any Lender, Administrative Agent or any other Person or entity for damages of any kind, including, without limitation, direct or indirect, special, incidental or consequential damages, losses or expenses (whether in tort, contract or otherwise) arising out of any Credit Party's or the Administrative Agent's transmission of Communications through an Electronic System, except to the extent that such damages, losses or expenses are determined by a court of competent jurisdiction by final and nonappealable judgment to have resulted from the gross negligence or willful misconduct of such Agent Party. "Communications" means, collectively, any notice, demand, communication, information, document or other material provided by or on behalf of any Credit Party pursuant to any Credit Document or the transactions contemplated therein which is distributed by the Administrative Agent or any Lender by means of electronic communications pursuant to this Section, including through an Electronic System.

SECTION 11.02. Waivers; Amendments.

(a) No failure or delay by the Administrative Agent or any Lender in exercising any right or power hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any such right or power, or any abandonment or discontinuance of steps to enforce such a right or power, preclude any other or further exercise thereof or the exercise of any other right or power. The rights and remedies of the Administrative Agent and the Lenders hereunder are cumulative and are not exclusive of any rights or remedies that they would otherwise have. No waiver of any provision of this Agreement or consent to any departure by any Credit Party therefrom shall in any event be effective unless the same shall be permitted by paragraph (b) of this Section, and then such waiver or consent shall be effective only in the specific instance and for the purpose for which given. Without limiting the generality of the foregoing, no Extension of Credit shall be construed as a waiver of any Default, regardless of whether the Administrative Agent or any Lender may have had notice or knowledge of such Default at the time.

(b) Neither this Agreement nor any provision hereof may be waived, amended or modified except pursuant to an agreement or agreements in writing entered into by the Borrower, the Guarantor and the Required Lenders or by the Borrower,

the Guarantor and the Administrative Agent with the consent of the Required Lenders; provided that no such agreement shall (i) increase the Commitment of any Lender without the written consent of such Lender, (ii) reduce the principal amount of any Loan or reduce the rate of interest thereon, or reduce any fees or other amounts payable hereunder, without the written consent of each Lender affected thereby, (iii) postpone the scheduled date of payment of the principal amount of any Loan or any interest thereon, or any fees or other amounts payable hereunder, or reduce the amount of, waive or excuse any such payment, or postpone the scheduled date of expiration of any Commitment, without the written consent of each Lender affected thereby, (iv) change Section 2.18(b) or (c) in a manner that would alter the pro rata sharing of payments required thereby, without the written consent of each Lender, (v) release the Guarantor from its obligations under the Guaranty without the written consent of each Lender, (vi) waive any of the conditions precedent to the effectiveness of this Agreement set forth in Section 3.01 without the written consent of each Lender or (vii) change any of the provisions of this Section or the definition of "Required Lenders" or any other provision hereof specifying the number or percentage of Lenders required to waive, amend or modify any rights hereunder or make any determination or grant any consent hereunder, without the written consent of each Lender; provided, further, that no such agreement shall amend, modify or otherwise affect the rights or duties of the Administrative Agent hereunder without the prior written consent of the Administrative Agent.

SECTION 11.03. Expenses; Indemnity; Damage Waiver.

(a) The Borrower shall pay (i) all reasonable out-of-pocket expenses incurred by the Administrative Agent and its Affiliates, including the reasonable fees, charges and disbursements of counsel for the Administrative Agent, in connection with the initial syndication of the credit facilities provided for herein, the preparation and administration of this Agreement or any amendments, modifications or waivers of the provisions hereof (whether or not the transactions contemplated hereby or thereby shall be consummated) and (ii) all reasonable out-of-pocket expenses incurred by the Administrative Agent or any Lender, including the reasonable fees, charges and disbursements of any counsel for the Administrative Agent or any Lender, in connection with the enforcement or protection of its rights in connection with this Agreement, including its rights under this Section, or in connection with the Loans made hereunder, including in connection with any workout, restructuring or negotiations in respect thereof.

(b) The Borrower shall indemnify the Administrative Agent, the Syndication Agent, each Lender and each Related Party of any of the foregoing Persons (each such Person being called an "Indemnitee") against, and hold each Indemnitee harmless from, any and all losses, claims, damages, liabilities and related reasonable expenses, including the reasonable fees, charges and disbursements of any counsel for any Indemnitee, incurred by or asserted against any Indemnitee arising out of, in connection with, or as a result of (i) the execution or delivery of this Agreement or any agreement or instrument contemplated hereby, the performance by the parties hereto of their respective obligations hereunder or the consummation of the Transactions or any other transaction contemplated hereby, (ii) any Loan or the use of the proceeds therefrom, (iii) any actual or alleged presence or release of Hazardous Materials on or from any property now, in the past or hereafter owned or operated by the Borrower, the Guarantor or any of its other Subsidiaries, or any Environmental Liability related in any way to the Borrower, the Guarantor or any of its other Subsidiaries, or (iv) any actual or prospective claim, litigation, investigation or proceeding relating to any of the foregoing, whether based on contract, tort or any other theory, whether brought by a third party or by the Borrower or any of its Subsidiaries, and regardless of whether any Indemnitee is a party thereto; provided that such indemnity shall not, as to any Indemnitee, be available to the extent that such losses, claims, damages, liabilities or related expenses are determined by a court of competent jurisdiction by final and nonappealable judgment to have resulted from the gross negligence or willful misconduct of such Indemnitee.

(c) To the extent that the Borrower fails to pay any amount required to be paid by it to the Administrative Agent under paragraph (a) or (b) of this Section, each Lender severally agrees to pay to the Administrative Agent such Lender's Applicable Percentage (determined as of the time that the applicable unreimbursed expense or indemnity payment is sought) of such unpaid amount; provided that the unreimbursed expense or indemnified loss, claim, damage, liability or related expense, as the case may be, was incurred by or asserted against the Administrative Agent in its capacity as such.

(d) To the extent permitted by applicable law, (i) the Borrower shall not assert, and does hereby waive, any claim against any Indemnitee for any damages arising from the use by others of information or other materials obtained through telecommunications, electronic or other information transmission systems (including the Internet), and (ii) without limiting the rights of indemnification of any Indemnitee set forth in this Agreement with respect to liabilities asserted by third parties, each party hereto shall not assert, and hereby waives, any claim against each other party, on any theory of liability, for special, indirect, consequential or punitive damages (as opposed to direct or actual damages) arising out of, in connection with, or as a result of, this Agreement or any agreement or instrument contemplated hereby, the Transactions or any Loan or the use of the proceeds thereof.

(e) All amounts due under this Section shall be payable not later than 20 days after written demand therefor.
for.

SECTION 11.04. Successors and Assigns.

(a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby; provided that, (i) except to the extent permitted pursuant to Section 6.01(b)(ii) and (iii), no Credit Party may assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of each Lender (and any attempted assignment or transfer by a Credit Party without such consent shall be null and void) and (ii) no Lender may assign or otherwise transfer its rights or obligations hereunder except in accordance with this Section. Nothing in this Agreement, expressed or implied, shall be construed to confer upon any Person (other than the parties hereto, their respective successors and assigns permitted hereby and, to the extent expressly contemplated hereby, the Related Parties of each of the Administrative Agent and the Lenders) any legal or equitable right, remedy or claim under or by reason of this Agreement.

(b) (i) Subject to the conditions set forth in paragraph (b)(ii) below, any Lender may assign to one or more Persons (other than an Ineligible Institution) all or a portion of its rights and obligations under this Agreement (including all or a portion of its Commitment and the Loans at the time owing to it) with the prior written consent (such consent not to be unreasonably withheld) of:

(A) the Borrower (provided that the Borrower shall be deemed to have consented to any such assignment unless it shall object thereto by written notice to the Administrative Agent within ten (10) Business Days after having received notice thereof); provided, further, that no consent of the Borrower shall be required for an assignment to a Lender, an Affiliate of a Lender, an Approved Fund or, if an Event of Default has occurred and is continuing, any other assignee; and

(B) the Administrative Agent.

(i) Assignments shall be subject to the following additional conditions:

(A) except in the case of an assignment to a Lender or an Affiliate of a Lender or an Approved Fund or an assignment of the entire remaining amount of the assigning Lender's Loans, the amount of the Commitment or Loans of the assigning Lender subject to each such assignment (determined as of the date the Assignment and Assumption with respect to such assignment is delivered to the Administrative Agent) shall not be less than \$5,000,000 unless each of the Borrower and the Administrative Agent otherwise consent, provided that no such consent of the Borrower shall be required if an Event of Default has occurred and is continuing;

(B) each partial assignment shall be made as an assignment of a proportionate part of all the assigning Lender's rights and obligations under this Agreement, provided that this clause shall not be construed to prohibit the assignment of a proportionate part of all the assigning Lender's rights and obligations in respect of such Lender's Loans;

(C) the parties to each assignment shall execute and deliver to the Administrative Agent an Assignment and Assumption, together with a processing and recordation fee of \$3,500, such fee to be paid by either the assigning Lender or the assignee Lender or shared between such Lenders;

(D) the assignee, if it shall not be a Lender, shall deliver to the Administrative Agent an Administrative Questionnaire in which the assignee designates one or more credit contacts to whom all syndicate-level information (which may contain material non-public information about the Borrower and its affiliates and their Related Parties or their respective securities) will be made available and who may receive such information in accordance with the assignee's compliance procedures and applicable laws, including Federal and state securities laws;

(E) without the prior written consent of the Administrative Agent, no assignment shall be made to a prospective assignee that bears a relationship to the Borrower described in Section 108(e)(4) of the Code; and

(F) no assignment shall be made to any Affiliate of any Credit Party.

For the purposes of this Section 11.04(b), the terms "Approved Fund" and "Ineligible Institution" have the following meaning:

"Approved Fund" means any Person (other than a natural person) that is engaged in making, purchasing, holding or investing in bank loans and similar extensions of credit in the ordinary course of its business and that is administered or managed by (a) a Lender, (b) an Affiliate of a Lender or (c) an entity or an Affiliate of an entity that administers or manages a Lender.

"Ineligible Institution" means (a) a natural person, (b) a Defaulting Lender, (c) the Borrower, any of its Subsidiaries or any of its Affiliates, or (d) a company, investment vehicle or trust for, or owned and operated for the primary benefit of, a natural person or relative(s) thereof.

Subject to acceptance and recording thereof pursuant to paragraph (d) of this Section, from and after the effective date specified in each Assignment and Assumption, the assignee thereunder shall be a party hereto and, to the extent of the interest

assigned by such Assignment and Assumption, have the rights and obligations of a Lender under this Agreement, and the assigning Lender thereunder shall, to the extent of the interest assigned by such Assignment and Assumption, be released from its obligations under this Agreement (and, in the case of an Assignment and Assumption covering all of the assigning Lender's rights and obligations under this Agreement, such Lender shall cease to be a party hereto but shall continue to be entitled to the benefits of Sections 2.15, 2.16, 2.17 and 11.03). Any assignment or transfer by a Lender of rights or obligations under this Agreement that does not comply with this paragraph shall be treated for purposes of this Agreement as a sale by such Lender of a participation in such rights and obligations in accordance with paragraph (e) of this Section.

(c) The Administrative Agent, acting for this purpose as a non-fiduciary agent of the Borrower, shall maintain at one of its offices in The City of New York a copy of each Assignment and Assumption delivered to it and a register for the recordation of the names and addresses of the Lenders, and the Commitment of, and principal amount of the Loans and other Obligations owing to, each Lender pursuant to the terms hereof from time to time (the "**Register**"). The entries in the Register shall be conclusive (absent manifest error), and the Borrower, the Administrative Agent and the Lenders may treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement, notwithstanding notice to the contrary.

(d) Upon its receipt of a duly completed Assignment and Assumption executed by an assigning Lender and an assignee, the assignee's completed Administrative Questionnaire (unless the assignee shall already be a Lender hereunder), the processing and recordation fee referred to in paragraph (b) of this Section and any written consent to such assignment required by paragraph (b) of this Section, the Administrative Agent shall accept such Assignment and Assumption and record the information contained therein in the Register. No assignment shall be effective for purposes of this Agreement unless it has been recorded in the Register as provided in this paragraph.

(e) Any Lender may, without the consent of or notice to the Borrower or the Administrative Agent, sell participations to one or more banks or other entities (a "**Participant**"), other than an Ineligible Institution, in all or a portion of such Lender's rights and obligations under this Agreement (including all or a portion of its Commitment and the Loans owing to it); *provided* that (i) such Lender's obligations under this Agreement shall remain unchanged, (ii) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations and (iii) the Borrower, the Guarantor and the Administrative Agent shall continue to deal solely and directly with such Lender in connection with such Lender's rights and obligations under this Agreement. Any agreement or instrument pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to enforce this Agreement and to approve any amendment, modification or waiver of any provision of this Agreement; *provided* that such agreement or instrument may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver described in the first proviso to Section 11.02(b) that affects such Participant. Subject to paragraph (f) of this Section, the Borrower agrees that each Participant shall be entitled to the benefits of Sections 2.15, 2.16 and 2.17 to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to paragraph (b) of this Section. Each Lender that sells a participation shall, acting solely for this purpose as a non-fiduciary agent of the Borrower, maintain a register on which it enters the name and address of each Participant and the principal amounts (and stated interest) of each Participant's interest in the obligations under this Agreement (the "**Participant Register**"); provided that no Lender shall have any obligation to disclose all or any portion of the Participant Register to any Person (including the identity of any Participant or any information relating to a Participant's interest in the obligations under this Agreement) except to the extent that such disclosure is necessary to establish that such interest is in registered form under Section 5f.103-1(c) of the United States Treasury Regulations. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender shall treat each person whose name is recorded in the Participant Register as the owner of such participation for all purposes of this Agreement notwithstanding any notice to the contrary. For the avoidance of doubt, the Administrative Agent (in its capacity as Administrative Agent) shall have no responsibility for maintaining a Participant Register.

(f) A Participant shall not be entitled to receive any greater payment under Section 2.15 or 2.17 than the applicable Lender would have been entitled to receive with respect to the participation sold to such Participant, unless the sale of the participation to such Participant is made with the Borrower's prior written consent. A Participant that would be a Foreign Lender if it were a Lender shall not be entitled to the benefits of Section 2.17 unless the Borrower is notified of the participation sold to such Participant and such Participant agrees, for the benefit of the Borrower, to comply with Section 2.17(e) as though it were a Lender.

(g) Any Lender may at any time pledge or assign a security interest in all or any portion of its rights under this Agreement to secure obligations of such Lender, including, without limitation, to a Federal Reserve Bank or any central bank, and this Section shall not apply to any such pledge or assignment of a security interest; *provided* that no such pledge or assignment of a security interest shall release a Lender from any of its obligations hereunder or substitute any such assignee for such Lender as a party hereto.

SECTION 11.05. Survival. All covenants, agreements, representations and warranties made by the Borrower and the Guarantor herein and in the certificates or other instruments delivered in connection with or pursuant to this Agreement shall be considered to have been relied upon by the other parties hereto and shall survive the execution and delivery of this Agreement and the making of any Loans. The provisions of Sections 2.15, 2.16, 2.17, 10.01(c)(iii) and 11.03 and Article IX shall survive and remain in full

force and effect regardless of the consummation of the transactions contemplated hereby, the repayment of the Loans, the expiration or termination of the Commitments or the termination of this Agreement or any provision hereof.

SECTION 11.06. Counterparts; Integration; Effectiveness; Electronic Execution. This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. This Agreement, the commitment letter relating to the credit facility provided hereby (to the extent provided therein) and any separate letter agreements with respect to fees payable to the Administrative Agent constitute the entire contract among the parties relating to the subject matter hereof and supersede any and all previous agreements and understandings, oral or written, relating to the subject matter hereof. Except as provided in Section 3.01, this Agreement shall become effective when it shall have been executed by the Administrative Agent and when the Administrative Agent shall have received counterparts hereof which, when taken together, bear the signatures of each of the other parties hereto, and thereafter shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. Delivery of an executed counterpart of a signature page of this Agreement by facsimile or other electronic imaging shall be effective as delivery of an original executed counterpart of this Agreement. The words "execution," "signed," "signature," "delivery," and words of like import in or relating to any document to be signed in connection with this Agreement and the transactions contemplated hereby shall be deemed to include Electronic Signatures, deliveries or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature, physical delivery thereof or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act.

SECTION 11.07. Severability. Any provision of this Agreement held to be invalid, illegal or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such invalidity, illegality or unenforceability without affecting the validity, legality and enforceability of the remaining provisions hereof; and the invalidity of a particular provision in a particular jurisdiction shall not invalidate such provision in any other jurisdiction.

SECTION 11.08. Right of Setoff. If an Event of Default shall have occurred and be continuing, each Lender or any Affiliate thereof is hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held and other indebtedness at any time owing by such Lender to or for the credit or the account of any Credit Party against any of and all the Obligations now or hereafter existing under this Agreement held by such Lender, irrespective of whether or not such Lender shall have made any demand under this Agreement and although such Obligations may be unmatured. The rights of each Lender under this Section are in addition to other rights and remedies (including other rights of setoff) which such Lender may have.

SECTION 11.09. Governing Law; Jurisdiction; Consent to Service of Process.

(a) This Agreement shall be construed in accordance with and governed by the law of the State of New York.

(b) Each Credit Party hereby irrevocably and unconditionally submits, for itself and its property, to the nonexclusive jurisdiction of the Supreme Court of the State of New York sitting in the Borough of Manhattan and of the United States District Court of the Southern District of New York sitting in the Borough of Manhattan, and any appellate court from any thereof, in any action or proceeding arising out of or relating to this Agreement, or for recognition or enforcement of any judgment, and each of the parties hereto hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York State or, to the extent permitted by law, in such Federal court. Each of the parties hereto agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this Agreement shall affect any right that the Administrative Agent or any Lender may otherwise have to bring any action or proceeding relating to this Agreement against any Credit Party or its properties in the courts of any jurisdiction.

(c) Each Credit Party hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement in any court referred to in paragraph (b) of this Section. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

(d) Each party to this Agreement irrevocably consents to service of process in the manner provided for notices in Section 11.01. Nothing in this Agreement will affect the right of any party to this Agreement to serve process in any other manner permitted by law.

SECTION 11.10. WAIVER OF JURY TRIAL . EACH PARTY HERETO HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY LEGAL PROCEEDING DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THIS AGREEMENT OR THE TRANSACTIONS

CONTEMPLATED HEREBY (WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY). EACH PARTY HERETO (A) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (B) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES HERETO HAVE BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION.

SECTION 11.11. Headings. Article and Section headings and the Table of Contents used herein are for convenience of reference only, are not part of this Agreement and shall not affect the construction of, or be taken into consideration in interpreting, this Agreement.

SECTION 11.12. Confidentiality. Each of the Administrative Agent and the Lenders agrees to maintain the confidentiality of the Information (as defined below), except that Information may be disclosed (a) to its and its Affiliates' directors, officers, employees and agents, including accountants, legal counsel and other advisors (it being understood that the Persons to whom such disclosure is made will be informed of the confidential nature of such Information and instructed to keep such Information confidential), (b) to the extent requested by any regulatory authority (including any self-regulatory authority, such as the National Association of Insurance Commissioners), (c) to the extent required by applicable laws or regulations or by any subpoena or similar legal process, (d) to any other party to this Agreement, (e) in connection with the exercise of any remedies hereunder or any suit, action or proceeding relating to this Agreement or the enforcement of rights hereunder, (f) subject to an agreement containing provisions substantially the same as those of this Section, to (i) any assignee of or Participant in, or any prospective assignee of or Participant in, any of its rights or obligations under this Agreement or (ii) actual or prospective counterparty (or its advisors) to any swap or derivative transaction or any credit insurance provider, in each case, relating to the Borrower and its obligations, (g) with the consent of the Borrower or (h) to the extent such Information (i) becomes publicly available other than as a result of a breach of this Section or (ii) becomes available to the Administrative Agent or any Lender on a nonconfidential basis from a source other than a Credit Party or any Subsidiary of a Credit Party. For the purposes of this Section, "**Information**" means all information received from any Credit Party or any Subsidiary of a Credit Party relating to a Credit Party or any Subsidiary of a Credit Party or its respective businesses, other than any such information that is available to the Administrative Agent or any Lender on a nonconfidential basis prior to disclosure by any Credit Party or any Subsidiary of a Credit Party; *provided that*, in the case of information received from any Credit Party or any Subsidiary of a Credit Party after the Effective Date, such information is clearly identified at the time of delivery as confidential. Any Person required to maintain the confidentiality of Information as provided in this Section shall be considered to have complied with its obligation to do so if such Person has exercised the same degree of care to maintain the confidentiality of such Information as such Person would accord to its own confidential information.

EACH LENDER ACKNOWLEDGES THAT INFORMATION AS DEFINED IN THE IMMEDIATELY PRECEDING PARAGRAPH FURNISHED TO IT PURSUANT TO THIS AGREEMENT MAY INCLUDE MATERIAL NON-PUBLIC INFORMATION CONCERNING THE BORROWER AND ITS RELATED PARTIES OR THEIR RESPECTIVE SECURITIES, AND CONFIRMS THAT IT HAS DEVELOPED COMPLIANCE PROCEDURES REGARDING THE USE OF MATERIAL NON-PUBLIC INFORMATION AND THAT IT WILL HANDLE SUCH MATERIAL NON-PUBLIC INFORMATION IN ACCORDANCE WITH THOSE PROCEDURES AND APPLICABLE LAW, INCLUDING FEDERAL AND STATE SECURITIES LAWS.

ALL INFORMATION, INCLUDING REQUESTS FOR WAIVERS AND AMENDMENTS, FURNISHED BY THE BORROWER OR THE ADMINISTRATIVE AGENT PURSUANT TO, OR IN THE COURSE OF ADMINISTERING, THIS AGREEMENT WILL BE SYNDICATE-LEVEL INFORMATION, WHICH MAY CONTAIN MATERIAL NON-PUBLIC INFORMATION ABOUT THE BORROWER, THE OTHER CREDIT PARTIES AND THEIR RELATED PARTIES OR THEIR RESPECTIVE SECURITIES. ACCORDINGLY, EACH LENDER REPRESENTS TO THE BORROWER AND THE ADMINISTRATIVE AGENT THAT IT HAS IDENTIFIED IN ITS ADMINISTRATIVE QUESTIONNAIRE A CREDIT CONTACT WHO MAY RECEIVE INFORMATION THAT MAY CONTAIN MATERIAL NON-PUBLIC INFORMATION IN ACCORDANCE WITH ITS COMPLIANCE PROCEDURES AND APPLICABLE LAW.

SECTION 11.13. USA PATRIOT Act . Each Lender hereby notifies the Credit Parties that pursuant to the requirements of the USA PATRIOT Act (Title III of Pub. L. 107-56 (signed into law October 26, 2001)) (the "Act"), it is required to obtain, verify and record information that identifies the Credit Parties, which information includes the name and address of the Credit Parties and other information that will allow such Lender to identify the Credit Parties in accordance with the Act.

SECTION 11.14 Acknowledgments . Each of the Guarantor and the Borrower hereby acknowledges that:

(a) it has been advised by and consulted with its own legal, accounting, regulatory and tax advisors (to the extent it deemed appropriate) in the negotiation, execution and delivery of this Agreement and the other Credit Documents;

(b) neither any Arranger, any Agent nor any Lender has any fiduciary relationship with or duty to the Guarantor or the Borrower arising out of or in connection with this Agreement or any of the other Credit Documents, and the relationship between any Arranger, the Administrative Agent and the Lenders, on one hand, and the Guarantor and the Borrower, on the other hand, in connection herewith or therewith is solely that of debtor and creditor, and, to the fullest extent permitted by law, each of the Guarantor and the Borrower hereby waives and releases any claims that it may have against the Administrative Agent, the Arrangers and the Lenders with respect to any breach or alleged breach of agency or fiduciary duty in connection with any aspect of any transaction contemplated hereby;

(c) it is capable of evaluating, and understands and accepts, the terms, risks and conditions of the transactions contemplated hereby and by the other Credit Documents; and

(d) no joint venture is created hereby or by the other Credit Documents or otherwise exists by virtue of the transactions contemplated hereby among the Arrangers, the Administrative Agent and the Lenders or among the Guarantor, the Borrower and the Lenders.

IN WITNESS WHEREOF , the parties hereto have caused this Agreement to be duly executed by their respective authorized officers as of the day and year first above written.

PRICING GRID

The “Applicable Rate” for any day with respect to any Eurodollar Loan or ABR Loan, as the case may be, is the percentage set forth below in the applicable row under the column corresponding to the Status that exists on such day:

Status	Level I	Level II	Level III	Level IV	Level V
Eurodollar Loans (basis points)	75	87.5	100.0	112.5	150
ABR Loans (basis points)	0	0	0	12.5	50

For purposes of this Pricing Grid, the following terms have the following meanings (as modified by the provisos below):

“**Level I Status**” exists at any date if, at such date, the Index Debt is rated either A- or higher by S&P or A3 or higher by Moody’s.

“**Level II Status**” exists at any date if, at such date, the Index Debt is rated either BBB+ by S&P or Baa1 by Moody’s.

“**Level III Status**” exists at any date if, at such date, the Index Debt is rated either BBB by S&P or Baa2 by Moody’s.

“**Level IV Status**” exists at any date if, at such date, the Index Debt is rated either BBB- by S&P or Baa3 by Moody’s.

“**Level V Status**” exists at any date if, at such date, the Index Debt is rated either BB+ by S&P or lower or Ba1 by Moody’s or lower, or, no other Status exists.

“**Status**” refers to the determination of which of Level I Status, Level II Status, Level III Status, Level IV Status or Level V Status exists at any date.

The credit ratings to be utilized for purposes of this Pricing Grid are those assigned to the Index Debt, and any rating assigned to any other debt security of the Borrower shall be disregarded. The rating in effect at any date is that in effect at the close of business on such date.

Provided, that the applicable Status shall change as and when the applicable Index Debt ratings change.

Provided further, that if the Index Debt is split-rated, the applicable Status shall be determined on the basis of the higher of the two ratings then applicable; *provided further, that*, if the Index Debt is split-rated by two or more levels, the applicable Status shall instead be determined on the basis of the rating that is one level above the lower of the two ratings then applicable.

Provided further, that if both Moody’s and S&P, or their successors as applicable, shall have ceased to issue or maintain such ratings, then the applicable Status shall be Level V.

EXHIBIT A

ASSIGNMENT AND ASSUMPTION

This Assignment and Assumption (the “Assignment and Assumption”) is dated as of the Effective Date set forth below and is entered into by and between [*Insert name of Assignor*] (the “Assignor”) and [*Insert name of Assignee*] (the “Assignee”). Capitalized terms used but not defined herein shall have the meanings given to them in the Term Loan Agreement identified below (as amended, the “Loan Agreement”), receipt of a copy of which is hereby acknowledged by the Assignee. The Standard Terms and Conditions set forth in Annex 1 attached hereto are hereby agreed to and incorporated herein by reference and made a part of this Assignment and Assumption as if set forth herein in full.

For an agreed consideration, the Assignor hereby irrevocably sells and assigns to the Assignee, and the Assignee hereby irrevocably purchases and assumes from the Assignor, subject to and in accordance with the Standard Terms and Conditions and the Loan Agreement, as of the Effective Date inserted by the Administrative Agent as contemplated below (i) all of the Assignor’s rights and obligations in its capacity as a Lender under the Loan Agreement and any other documents or instruments delivered pursuant thereto to the extent related to the amount and percentage interest identified below of all of such outstanding rights and obligations of the Assignor under the respective facilities identified below (including any guarantees included in such facilities) and (ii) to the extent permitted to be assigned under applicable law, all claims, suits, causes of action and any other right of the Assignor (in its capacity as a Lender) against any Person, whether known or unknown, arising under or in connection with the Loan Agreement, any other documents or instruments delivered pursuant thereto or the loan transactions governed thereby or in any way based on or related to any of the foregoing, including contract claims, tort claims, malpractice claims, statutory claims and all other claims at law or in equity related to the rights and obligations sold and assigned pursuant to clause (i) above (the rights and obligations sold and assigned pursuant to clauses (i) and (ii) above being referred to herein collectively as the “Assigned Interest”). Such sale and assignment is without recourse to the Assignor and, except as expressly provided in this Assignment and Assumption, without representation or warranty by the Assignor.

1. Assignor: _____

2. Assignee: _____

[and is an affiliate/ Approved fund of [identify Lender] ¹]

3. Borrower(s): NiSource Finance Corp., an Indiana corporation

4. Administrative Agent: JPMorgan Chase Bank, as the administrative agent under the Loan Agreement

5. Loan Agreement: The Term Loan Agreement dated as of August 20, 2014 among NiSource Finance Corp., as borrower, NiSource Inc., a Delaware corporation, as guarantor, the Lenders parties thereto, JPMorgan Chase Bank, N.A., as Administrative Agent, and the other agents parties thereto

6. Assigned Interest:

Aggregate Amount of Loans for all Lenders	Amount of Loans Assigned	Percentage Assigned of Loans ²
\$	\$	%
\$	\$	%
\$	\$	%

¹Select as applicable.

²Set forth, so at least 9 decimals, as a percentage of the Loans of all Lenders thereunder.

Effective Date: _____, 20__ [TO BE INSERTED BY ADMINISTRATIVE AGENT AND WHICH SHALL BE THE EFFECTIVE DATE OF RECORDATION OF TRANSFER IN THE REGISTER THEREFOR.]

STANDARD TERMS AND CONDITIONS FOR
ASSIGNMENT AND ASSUMPTION

1. Representations and Warranties.

1.1 Assignor. The Assignor (a) represents and warrants that (i) it is the legal and beneficial owner of the Assigned Interest, (ii) the Assigned Interest is free and clear of any lien, encumbrance or other adverse claim and (iii) it has full power and authority, and has taken all action necessary, to execute and deliver this Assignment and Assumption and to consummate the transactions contemplated hereby; and (b) assumes no responsibility with respect to (i) any statements, warranties or representations made in or in connection with the Loan Agreement or any other Credit Document, (ii) the execution, legality, validity, enforceability, genuineness, sufficiency or value of the Credit Documents or any collateral thereunder, (iii) the financial condition of the Borrower, any of its Subsidiaries or Affiliates or any other Person obligated in respect of any Credit Document or (iv) the performance or observance by the Borrower, any of its Subsidiaries or Affiliates or any other Person of any of their respective obligations under any Credit Document.

1.2. Assignee. The Assignee (a) represents and warrants that (i) it has full power and authority, and has taken all action necessary, to execute and deliver this Assignment and Assumption and to consummate the transactions contemplated hereby and to become a Lender under the Loan Agreement, (ii) it satisfies the requirements, if any, specified in the Loan Agreement that are required to be satisfied by it in order to acquire the Assigned Interest and become a Lender, (iii) from and after the Effective Date, it shall be bound by the provisions of the Loan Agreement as a Lender thereunder and, to the extent of the Assigned Interest, shall have the obligations of a Lender thereunder, (iv) it has received a copy of the Loan Agreement, together with copies of the most recent financial statements delivered pursuant to Section 5.01(h) thereof, as applicable, and such other documents and information as it has deemed appropriate to make its own credit analysis and decision to enter into this Assignment and Assumption and to purchase the Assigned Interest on the basis of which it has made such analysis and decision independently and without reliance on the Administrative Agent or any other Lender, (v) if it is a Non-U.S. Lender, attached to the Assignment and Assumption is any documentation required to be delivered by it pursuant to the terms of the Loan Agreement, duly completed and executed by the Assignee; and (vi) it does not bear a relationship to the Borrower described in Section 108(e)(4) of the Code; and (b) agrees that (i) it will, independently and without reliance on the Administrative Agent, the Assignor or any other Lender, and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit decisions in taking or not taking action under the Credit Documents, and (ii) it will perform in accordance with their terms all of the obligations which by the terms of the Credit Documents are required to be performed by it as a Lender.

2. Payments. From and after the Effective Date, the Administrative Agent shall make all payments in respect of the Assigned Interest (including payments of principal, interest, fees and other amounts) to the Assignor for amounts which have accrued to but excluding the Effective Date and to the Assignee for amounts which have accrued from and after the Effective Date.

3. General Provisions. This Assignment and Assumption shall be binding upon, and inure to the benefit of, the parties hereto and their respective successors and assigns. This Assignment and Assumption may be executed in any number of counterparts, which together shall constitute one instrument. Delivery of an executed counterpart of a signature page of this Assignment and Assumption by telecopy shall be effective as delivery of a manually executed counterpart of this Assignment and Assumption. This Assignment and Assumption shall be governed by, and construed in accordance with, the law of the State of New York.

FORM OF NOTE

NOTE

FOR VALUE RECEIVED, the undersigned (the “Borrower”), hereby promises to pay to _____ or registered assigns (the “Lender”), in accordance with the provisions of the Agreement (as hereinafter defined), the aggregate unpaid principal amount of each Loan made by the Lender to the Borrower under that certain Term Loan Agreement dated as of August 20, 2014 (as may be amended, restated, amended and restated, extended, supplemented or otherwise modified in writing from time to time in accordance with its terms, the “Agreement”; the terms defined therein being used herein as therein defined), between the Borrower, NiSource Inc., as guarantor, the Lenders party thereto, JPMorgan Chase Bank, N.A., as the Administrative Agent, and the other parties thereto. The Borrower promises to pay interest on the aggregate unpaid principal amount of each Loan made by the Lender to the Borrower under the Agreement from the date of such Loan until such principal amount is paid in full, at such interest rates and at such times as provided in the Agreement. All payments of principal and interest shall be made to the Administrative Agent for the account of the Lender in Dollars in immediately available funds at the Administrative Agent’s office pursuant to the terms of the Agreement. If any amount is not paid in full when due hereunder, such unpaid amount shall bear interest, to be paid upon demand, from the due date thereof until the date of actual payment (and before as well as after judgment) computed at the per annum rate set forth in the Agreement.

This Note is one of the promissory notes referred to in Section 2.10(e) of the Agreement, is one of the Credit Documents, is entitled to the benefits thereof and may be prepaid in whole or in part subject to the terms and conditions provided therein. Upon the occurrence and continuation of one or more of the Events of Default specified in the Agreement, all amounts then remaining unpaid on this Note shall become, or may be declared to be, immediately due and payable all as provided in the Agreement. Loans made by the Lender shall be evidenced by one or more loan accounts or records maintained by the Lender in the ordinary course of business. The Lender may also attach schedules to this Note and endorse thereon the date, amount and maturity of its Loans and payments with respect thereto.

The Borrower, for itself, its successors and assigns, hereby waives diligence, presentment, protest and demand and notice of protest, demand, dishonor and non-payment of this Note.

THIS NOTE SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK.

**Certification Pursuant to
Section 302 of the Sarbanes-Oxley Act of 2002**

I, Robert C. Skaggs, Jr., certify that:

1. I have reviewed this Quarterly Report of NiSource Inc. on Form 10-Q for the quarter ended September 30, 2014 ;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

DEFINED TERMS

The following is a list of frequently used abbreviations or acronyms that are found in this report:

NiSource Subsidiaries and Affiliates

Capital Markets	NiSource Capital Markets, Inc.
CER	Columbia Energy Resources, Inc.
CEVCO	Columbia Energy Ventures, LLC
CGORC	Columbia Gas of Ohio Receivables Corporation
Columbia	Columbia Energy Group
Columbia Gulf	Columbia Gulf Transmission Company, LLC
Columbia Midstream	Columbia Midstream Group, LLC
Columbia of Kentucky	Columbia Gas of Kentucky, Inc.
Columbia of Maryland	Columbia Gas of Maryland, Inc.
Columbia of Massachusetts	Bay State Gas Company
Columbia of Ohio	Columbia Gas of Ohio, Inc.
Columbia OpCo	CPG OpCo LP
Columbia of Pennsylvania	Columbia Gas of Pennsylvania, Inc.
Columbia of Virginia	Columbia Gas of Virginia, Inc.
Columbia Transmission	Columbia Gas Transmission, LLC
CPG	Columbia Pipeline Group
CPPL	Columbia Pipeline Partners LP
CPRC	Columbia Gas of Pennsylvania Receivables Corporation
Crossroads Pipeline	Crossroads Pipeline Company
Hardy Storage	Hardy Storage Company, LLC
Millennium	Millennium Pipeline Company, L.L.C.
NARC	NIPSCO Accounts Receivable Corporation
NDC Douglas Properties	NDC Douglas Properties, Inc.
NIPSCO	Northern Indiana Public Service Company
NiSource	NiSource Inc.
NiSource Corporate Services	NiSource Corporate Services Company
NiSource Development Company	NiSource Development Company, Inc.
NiSource Finance	NiSource Finance Corp.
Pennant	Pennant Midstream, LLC

Abbreviations

AFUDC	Allowance for funds used during construction
AOC	Administrative Order by Consent
AOCI	Accumulated Other Comprehensive Income (Loss)
ASU	Accounting Standards Update
BBA	British Banker Association
Bcf	Billion cubic feet
BNS	Bank of Nova Scotia
BTMU	The Bank of Tokyo-Mitsubishi UFJ, LTD.
BTU	British Thermal Unit
CAA	Clean Air Act
CAIR	Clean Air Interstate Rule

DEFINED TERMS (continued)

CAMR	Clean Air Mercury Rule
CCRs	Coal Combustion Residuals
CCRM	Capital Cost Recovery Mechanism
CERCLA	Comprehensive Environmental Response Compensation and Liability Act (also known as Superfund)
CO ₂	Carbon Dioxide
DEP	Department of Environmental Protection
DIMP	Distribution Integrity Management Program
DPU	Department of Public Utilities
DSM	Demand Side Management
Dth	Dekatherm
Dth/d	Dekatherm per day
ECR	Environmental Cost Recovery
ECRM	Environmental Cost Recovery Mechanism
ECT	Environmental Cost Tracker
EERM	Environmental Expense Recovery Mechanism
EPA	United States Environmental Protection Agency
EPS	Earnings per share
FAC	Fuel adjustment clause
FASB	Financial Accounting Standards Board
FERC	Federal Energy Regulatory Commission
FGD	Flue Gas Desulfurization
FTRs	Financial Transmission Rights
GAAP	Generally Accepted Accounting Principles
GAF	Gas Adjustment Factor
GCIM	Gas Cost Incentive Mechanism
GCR	Gas cost recovery
GHG	Greenhouse gases
gwh	Gigawatt hours
Hilcorp	Hilcorp Energy Company
hp	Horsepower
IDEM	Indiana Department of Environmental Management
IPO	Initial Public Offering
INDIEC	Indiana Industrial Energy Consumers, Inc.
IRP	Infrastructure Replacement Program
IURC	Indiana Utility Regulatory Commission
kV	Kilovolt
LDAF	Local Distribution Adjustment Factor
LDCs	Local distribution companies
LIBOR	London InterBank Offered Rate
LIFO	Last-in, first-out
LNG	Liquefied Natural Gas
MATS	Mercury and Air Toxics Standards
Mcf	Thousand cubic feet
MMcf	Million cubic feet

DEFINED TERMS (continued)

MGP	Manufactured Gas Plant
MISO	Midcontinent Independent System Operator
Mizuho	Mizuho Corporate Bank Ltd.
MLP	Master Limited Partnership
MMDth	Million dekatherms
mw	Megawatts
mwh	Megawatt hours
NAAQS	National Ambient Air Quality Standards
NGL	Natural Gas Liquids
NOV	Notice of Violation
NO ₂	Nitrogen dioxide
NO _x	Nitrogen oxide
NYMEX	New York Mercantile Exchange
OCI	Other Comprehensive Income (Loss)
OPEB	Other Postretirement Benefits
OUCC	Indiana Office of Utility Consumer Counselor
PEF	Pension Expense Factor
Piedmont	Piedmont Natural Gas Company, Inc.
PM	Particulate matter
PNC	PNC Bank, N.A.
Proposed Separation	On September 28, 2014, NiSource announced that its Board of Directors had approved in principle plans to separate its natural gas pipeline and related businesses into a stand-alone publicly traded company.
PUC	Public Utility Commission
PUCO	Public Utilities Commission of Ohio
RA	Resource Adequacy
RAAF	Residential Assistance Adjustment Factor
RACT	Reasonably Available Control Technology
RBS	Royal Bank of Scotland, PLC
RTO	Regional Transmission Organization
SAVE	Steps to Advance Virginia's Energy
SEC	Securities and Exchange Commission
SIP	State Implementation Plan
SO ₂	Sulfur dioxide
TDSIC	Transmission, Distribution and Storage System Improvement Charge
TUAs	Transmission Upgrade Agreements
VIE	Variable Interest Entities
VSCC	Virginia State Corporation Commission

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

1. Basis of Accounting Presentation

The accompanying Condensed Consolidated Financial Statements (unaudited) for NiSource (the “Company”) reflect all normal recurring adjustments that are necessary, in the opinion of management, to present fairly the results of operations in accordance with GAAP in the United States of America. The accompanying financial statements contain the accounts of the Company and its majority-owned or controlled subsidiaries, including CPPL (see Note 3).

The accompanying financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in NiSource’s Annual Report on Form 10-K for the fiscal year ended December 31, 2014 . Income for interim periods may not be indicative of results for the calendar year due to weather variations and other factors.

The Condensed Consolidated Financial Statements (unaudited) have been prepared pursuant to the rules and regulations of the SEC. Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although NiSource believes that the disclosures made are adequate to make the information not misleading.

Planned Separation of Columbia Pipeline Group

On September 28, 2014, NiSource announced that its Board of Directors had approved in principle plans to separate its natural gas pipeline and related businesses into a stand-alone publicly traded company (the “Proposed Separation”). If completed, the Proposed Separation will result in two energy infrastructure companies: NiSource Inc., a fully regulated natural gas and electric utilities company, and Columbia Pipeline Group Inc., a natural gas pipeline, midstream and storage company (“CPG”). The Proposed Separation is expected to occur on July 1, 2015.

Under the plan for the Proposed Separation, NiSource shareholders would retain their current shares of NiSource stock and receive a *pro rata* distribution of shares of CPG stock in a transaction that is expected to be tax-free to NiSource and its shareholders.

2. Recent Accounting Pronouncements

In April 2015, the FASB issued ASU 2015-05, *Intangibles - Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement*. ASU 2015-05 clarifies guidance on determining whether a cloud computing arrangement contains a software license that should be accounted for as internal-use software. NiSource is required to adopt ASU 2015-05 for periods beginning after December 15, 2015, including interim periods, and the guidance is permitted to be applied either (1) prospectively to all agreements entered into or materially modified after the effective date or (2) retrospectively, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-05 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2015, the FASB issued ASU 2015-03, *Interest - Imputation of Interest (Subtopic 835-30) : Simplifying the Presentation of Debt Issuance Costs* . ASU 2015-03 changes the way entities present debt issuance costs in financial statements by presenting issuance costs on the balance sheet as a direct deduction from the related debt liability rather than as a deferred charge. Amortization of these costs will continue to be reported as interest expense. NiSource is required to adopt ASU 2015-03 for periods beginning after December 15, 2015, including interim periods, and the guidance is to be applied retrospectively with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-03 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In February 2015, the FASB issued ASU 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis* . ASU 2015-02 amends consolidation guidance by including changes to the variable and voting interest models used by entities to evaluate whether an entity should be consolidated. NiSource is required to adopt ASU 2015-02 for periods beginning after December 15, 2015, including interim periods, and the guidance is to be applied retrospectively or using a modified retrospective approach, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-02 will have on the Condensed Consolidated Financial Statements (unaudited) and Notes to Condensed Consolidated Financial Statements (unaudited).

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****3. Columbia Pipeline Partners LP (CPPL)**

On December 5, 2007, NiSource formed CPPL (the "Partnership") (NYSE: CPPL) to own, operate and develop a portfolio of pipelines, storage and related assets.

On February 11, 2015, CPPL completed its IPO of 53.8 million common units representing limited partnership interests, constituting 53.5% of the Partnership's outstanding limited partnership interests. The Partnership received \$1,168.4 million of net proceeds from the IPO. NiSource, through CPG, owns the general partner of the Partnership, all of the Partnership's subordinated units and the incentive distribution rights. The assets of the Partnership consist of a 15.7 percent limited partner interest in Columbia OpCo, which consists of substantially all of the Columbia Pipeline Group Operations segment. The operations of the Partnership will be consolidated in NiSource's results as long as the Partnership remains a subsidiary. If the Proposed Separation occurs, CPG would no longer be a subsidiary of NiSource and, thus, NiSource would cease to own (a) any interest in Columbia OpCo, (b) the general partner of the Partnership, (c) any of the limited partner interests in the Partnership or (d) any of the incentive distribution rights in the Partnership. As of March 31, 2015, the portion of CPPL owned by the public is reflected as a noncontrolling interest in the Condensed Consolidated Financial Statements (unaudited).

The table below summarizes the effects of the changes in NiSource's ownership interest in Columbia OpCo on equity:

<i>(in millions)</i>	Three Months Ended March 31, 2015
Net income attributable to NiSource	268.4
Increase in NiSource's paid-in capital for the sale of 8.4% of Columbia OpCo	227.1
Change from net income attributable to NiSource and transfers to noncontrolling interest	495.5

The Partnership maintains a \$500.0 million revolving credit facility, of which \$50.0 million is available for issuance of letters of credit. The purpose of the facility is to provide cash for general partnership purposes, including working capital, capital expenditures and the funding of capital calls. At March 31, 2015, CPPL had no outstanding borrowings under this facility.

4. Earnings Per Share

Basic EPS is computed by dividing net income attributable to NiSource by the weighted-average number of shares of common stock outstanding for the period. The weighted average shares outstanding for diluted EPS includes the incremental effects of the various long-term incentive compensation plans. The numerator in calculating both basic and diluted EPS for each period is reported net income attributable to NiSource. The computation of diluted average common shares follows:

<i>(in thousands)</i>	Three Months Ended March 31,	
	2015	2014
Denominator		
Basic average common shares outstanding	316,587	314,222
Dilutive potential common shares:		
Stock options	—	59
Shares contingently issuable under employee stock plans	335	399
Shares restricted under stock plans	468	442
Diluted Average Common Shares	317,390	315,122

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****5. Gas in Storage**

Both the LIFO inventory methodology and the weighted average cost methodology are used to value natural gas in storage. Gas Distribution Operations price natural gas storage injections at the average of the costs of natural gas supply purchased during the year. For interim periods, the difference between current projected replacement cost and the LIFO cost for quantities of gas temporarily withdrawn from storage is recorded as a temporary LIFO liquidation credit or debit within the Condensed Consolidated Balance Sheets (unaudited). Due to seasonality requirements, NiSource expects interim variances in LIFO layers to be replenished by year-end. NiSource had a temporary LIFO liquidation debit of \$25.3 million and zero as of March 31, 2015 and December 31, 2014, respectively, for certain gas distribution companies recorded within "Prepayments and other," on the Condensed Consolidated Balance Sheets (unaudited).

6. Asset Retirement Obligations

Certain costs of removal that have been, and continue to be, included in depreciation rates and collected in the service rates of the rate-regulated subsidiaries are classified as "Regulatory liabilities" on the Condensed Consolidated Balance Sheets (unaudited).

Changes in NiSource's liability for asset retirement obligations for the three months ended March 31, 2015 and 2014 are presented in the table below:

<i>(in millions)</i>	2015		2014	
Balance as of January 1,	\$	159.4	\$	174.4
Accretion expense		0.4		0.4
Accretion recorded as a regulatory asset/liability		1.9		2.1
Additions		—		0.1
Settlements		(0.7)		(0.5)
Change in estimated cash flows		(0.1)		—
Balance as of March 31,	\$	160.9	\$	176.5

7. Regulatory MattersGas Distribution Operations Regulatory Matters

Significant Rate Developments . On November 25, 2014, Columbia of Ohio filed a Notice of Intent to file an application to adjust rates associated with its IRP and DSM Riders. Columbia of Ohio filed its Application on February 27, 2015, and requested authority to increase revenues by \$24.7 million . On March 26, 2015, PUCO Staff filed Comments recommending that the PUCO approve Columbia of Ohio's application in full. On April 22, 2015, the PUCO issued an Order that approved Columbia of Ohio's application.

On March 19, 2015, Columbia of Pennsylvania filed a base rate case with the Pennsylvania PUC, seeking a revenue increase of \$46.2 million annually. The case is driven by Columbia of Pennsylvania's capital investment program which exceeds \$197.0 million in 2015 and \$211.0 million in 2016 as well as costs to train and comply with pipeline safety-related operation and maintenance expenditures. Columbia of Pennsylvania's request for rate relief includes the recovery of costs that are projected to be incurred after the implementation of new rates, as authorized by the Pennsylvania General Assembly with the passage of Act 11 of 2012. New rates are expected to go into effect during the fourth quarter of 2015.

On April 16, 2015, Columbia of Massachusetts filed a base rate case with the Massachusetts DPU. The case, which seeks increased annual revenues of approximately \$49.0 million, is designed to support the company's continued focus on providing safe and reliable service in compliance with increasing state and federal regulations and oversight, and recovery of associated increased operations and maintenance costs. An order in the proceeding is expected on February 29, 2016 with new rates effective March 1, 2016.

On April 30, 2014, Columbia of Virginia filed a base rate case with the VSCC seeking an annual revenue increase of \$31.8 million, which includes \$6.9 million in annual revenues currently collected as a separate infrastructure replacement rider on customers' bills under the Virginia SAVE Plan Act. On December 10, 2014, Columbia of Virginia presented at hearing a Stipulation and Proposed Recommendation ("Stipulation") executed by certain parties to the rate proceeding, including the Staff of the VSCC and the Division of Consumer Counsel of the Office of the Attorney General of the Commonwealth of Virginia. The Stipulation includes

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

a base revenue increase of \$25.2 million, recovery of costs related to the implementation of pipeline safety programs, and the proposed change to thermal billing. On January 13, 2015, the Hearing Examiner issued a report that recommended that the VSCC approve the Stipulation. On March 30, 2015, the VSCC issued an Order Remanding for Further Action. In the Order, the VSCC found the revenue increase of \$25.2 million and apportionment of that increase between rate classes contained in the Stipulation reasonable. However, the VSCC remanded back to the Hearing Examiner for further proceedings the manner in which fixed costs are to be assigned to the fixed customer charges of each rate class.

Cost Recovery and Trackers. A significant portion of the distribution companies' revenue is related to the recovery of gas costs, the review and recovery of which occurs via standard regulatory proceedings. All states require periodic review of actual gas procurement activity to determine prudence and to permit the recovery of prudently incurred costs related to the supply of gas for customers. NiSource distribution companies have historically been found prudent in the procurement of gas supplies to serve customers.

Certain operating costs of the NiSource distribution companies are significant, recurring in nature, and generally outside the control of the distribution companies. Some states allow the recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for the distribution companies to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such tracking mechanisms include GCR adjustment mechanisms, tax riders, and bad debt recovery mechanisms.

Comparability of Gas Distribution Operations line item operating results is impacted by regulatory trackers that allow for the recovery in rates of certain costs such as bad debt expense. Increases in the expenses that are the subject of trackers, result in a corresponding increase in net revenues and therefore have essentially no impact on total operating income results.

Certain of the NiSource distribution companies have completed rate proceedings involving infrastructure replacement or are embarking upon regulatory initiatives to replace significant portions of their operating systems that are nearing the end of their useful lives. Each LDC's approach to cost recovery may be unique, given the different laws, regulations and precedent that exist in each jurisdiction.

NIPSCO has approval from the IURC to recover certain costs for gas transmission, distribution and storage system improvements. On February 27, 2015, NIPSCO filed gas TDSIC-2 which included \$43.3 million of net capital expenditures for the period ended December 31, 2014.

Columbia Pipeline Group Operations Regulatory Matters

Columbia Transmission Customer Settlement. In January 2015, Columbia Pipeline Group Operations commenced the third year of the Columbia Transmission long-term system modernization program. The Columbia Pipeline Group Operations segment expects to invest approximately \$300.0 million in modernization investments during 2015. Recovery of approximately \$320.0 million of investments made in 2014 began on February 1, 2015.

Cost Recovery Trackers. A significant portion of the transmission and storage regulated companies' revenue is related to the recovery of their operating costs, the review and recovery of which occurs via standard regulatory proceedings with the FERC under section 4 of the Natural Gas Act. However, certain operating costs of the NiSource regulated transmission and storage companies are significant and recurring in nature, such as fuel for compression and lost and unaccounted for gas. The FERC allows for the recovery of such costs via cost tracking mechanisms. These tracking mechanisms allow the transmission and storage companies' rates to fluctuate in response to changes in certain operating costs or conditions as they occur to facilitate the timely recovery of its costs incurred. The tracking mechanisms involve a rate adjustment that is filed at a predetermined frequency, typically annually, with the FERC and is subject to regulatory review before new rates go into effect. Other such costs under regulatory tracking mechanisms include upstream pipeline transmission, electric compression, operational purchases and sales of natural gas, and the revenue requirement for capital investments made under Columbia Transmission's long-term plan to modernize its interstate transmission system as discussed above.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Electric Operations Regulatory Matters

Significant Rate Developments . On July 19, 2012 and December 19, 2012, the FERC issued orders approving construction work in progress in rate base and abandoned plant cost recovery requested by NIPSCO for a 100-mile, 345 kV transmission project and its right to develop 50 percent of the 66-mile, 765 kV project. NIPSCO began recording revenue in the first quarter of 2013 using a forward looking rate, based on an average construction work in progress balance. For the three months ended March 31, 2015 and 2014, revenue of \$5.3 million and \$2.1 million , respectively, was recorded.

On July 19, 2013, NIPSCO filed its electric TDSIC with the IURC. The filing included the seven-year plan of eligible investments for a total of approximately \$1.1 billion with the majority of the spend occurring in years 2016 through 2020. On February 17, 2014, the IURC issued an order approving NIPSCO's seven-year plan of eligible investments. The Order also granted NIPSCO ratemaking relief associated with the eligible investments through a rate adjustment mechanism. The NIPSCO Industrial Group and the OUCC have filed Notices of Appeal with the Indiana Court of Appeals in response to the IURC's ruling. On November 25, 2014, NIPSCO's requested TDSIC factors were approved on an interim basis and subject to refund, pending the outcome of the appeals of the IURC's February 17, 2014 Orders. On April 8, 2015, the Court of Appeals issued an Order concluding that the IURC erred in approving NIPSCO's seven-year plan given its lack of detail regarding the projects for years two through seven. The Court then remanded the decision to the IURC. The April 8, 2015 Order is final after the expiration of 30 days if no parties petition for transfer to the Supreme Court. However, if a party petitions for transfer to the Supreme Court, the Order is not final until completion of the appellate process. NIPSCO is reviewing this decision and evaluating its options and does not believe the impact is material to the Condensed Consolidated Financial Statements (unaudited).

Cost Recovery and Trackers . A significant portion of NIPSCO's revenue is related to the recovery of fuel costs to generate power and the fuel costs related to purchased power. These costs are recovered through a FAC, a standard, quarterly, "summary" regulatory proceeding in Indiana.

Certain operating costs of the Electric Operations are significant, recurring in nature, and generally outside the control of NIPSCO. The IURC allows for recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for NIPSCO to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such mechanisms include electric energy efficiency programs, MISO non-fuel costs and revenues, resource capacity charges, and environmental related costs.

NIPSCO has approval from the IURC to recover certain environmental related costs through an ECT. Under the ECT, NIPSCO is permitted to recover (1) AFUDC and a return on the capital investment expended by NIPSCO to implement environmental compliance plan projects through an ECRM and (2) related operation and maintenance and depreciation expenses once the environmental facilities become operational through an EERM.

On April 22, 2015, the IURC issued an order on ECR-25 approving NIPSCO's request to begin earning a return on \$734.1 million of net capital expenditures for the period ended December 31, 2014. The order also approved a revised capital cost estimate of \$264.8 million for its Phase III multi-pollutant compliance plan projects related to the Unit 12 FGD, an increase from the previous IURC approved cost estimate of \$246.3 million .

NIPSCO has approval from the IURC to recover certain costs for transmission and distribution system improvements through the electric TDSIC. On November 25, 2014, the IURC approved, on an interim basis and subject to refund pending the outcome of appeals, NIPSCO's requested TDSIC factors associated with the eligible investments, which included \$19.4 million of net capital expenditures for the period ended June 30, 2014. On February 26, 2015, NIPSCO filed electric TDSIC-2 which included \$62.3 million of net capital expenditures for the period ended December 31, 2014. See further discussion regarding the electric TDSIC above.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

8. Fair Value

A. Fair Value Measurements

Recurring Fair Value Measurements. The following tables present financial assets and liabilities measured and recorded at fair value on NiSource's Condensed Consolidated Balance Sheets (unaudited) on a recurring basis and their level within the fair value hierarchy as of March 31, 2015 and December 31, 2014 :

Recurring Fair Value Measurements March 31, 2015 (in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of March 31, 2015
Assets				
Price risk management assets:				
Commodity financial price risk programs	\$ —	\$ —	\$ 0.2	\$ 0.2
Available-for-sale securities	30.5	100.9	—	131.4
Total	\$ 30.5	\$ 100.9	\$ 0.2	\$ 131.6
Liabilities				
Price risk management liabilities:				
Commodity financial price risk programs	\$ 9.3	\$ —	\$ —	\$ 9.3
Total	\$ 9.3	\$ —	\$ —	\$ 9.3

Recurring Fair Value Measurements December 31, 2014 (in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2014
Assets				
Price risk management assets:				
Commodity financial price risk programs	\$ 0.1	\$ —	\$ —	\$ 0.1
Available-for-sale securities	28.4	103.5	—	131.9
Total	\$ 28.5	\$ 103.5	\$ —	\$ 132.0
Liabilities				
Price risk management liabilities:				
Commodity financial price risk programs	\$ 14.2	\$ —	\$ 0.1	\$ 14.3
Total	\$ 14.2	\$ —	\$ 0.1	\$ 14.3

Price risk management assets and liabilities primarily include NYMEX futures and NYMEX options which are commodity exchange-traded and non-exchange-based derivative contracts. Exchange-traded derivative contracts are based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards, and options. In certain instances, these instruments may utilize models to measure fair value. NiSource uses a similar model to value similar instruments. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability, and market-corroborated inputs, i.e., inputs derived principally from or corroborated by observable market data by correlation or other means. Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures. As of March 31, 2015 and December

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

31, 2014 , there were no material transfers between fair value hierarchies. Additionally, there were no changes in the method or significant assumptions used to estimate the fair value of NiSource's financial instruments.

Commodity price risk resulting from derivative activities at NiSource's rate-regulated subsidiaries is limited, since regulations allow recovery of prudently incurred purchased power, fuel and gas costs through the ratemaking process, including gains or losses on these derivative instruments. If states should explore additional regulatory reform, these subsidiaries may begin providing services without the benefit of the traditional ratemaking process and may be more exposed to commodity price risk. Some of NiSource's rate-regulated utility subsidiaries offer commodity price risk products to its customers for which derivatives are used to hedge forecasted customer usage under such products. These subsidiaries do not have regulatory recovery orders for these products and are subject to gains and losses recognized in earnings due to hedge ineffectiveness.

Available-for-sale securities are investments pledged as collateral for trust accounts related to NiSource's wholly-owned insurance company. Available-for-sale securities are included within "Other investments" in the Condensed Consolidated Balance Sheets (unaudited). Securities classified within Level 1 include U.S. Treasury debt securities which are highly liquid and are actively traded in over-the-counter markets. NiSource values corporate and mortgage-backed debt securities using a matrix pricing model that incorporates market-based information. These securities trade less frequently and are classified within Level 2. Total unrealized gains and losses from available-for-sale securities are included in other comprehensive income (loss). The amortized cost, gross unrealized gains and losses, and fair value of available-for-sale debt securities at March 31, 2015 and December 31, 2014 were:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
March 31, 2015 <i>(in millions)</i>				
Available-for-sale debt securities				
U.S. Treasury securities	\$ 32.5	\$ 0.6	\$ —	\$ 33.1
Corporate/Other bonds	97.0	1.5	(0.2)	98.3
Total Available-for-sale debt securities	\$ 129.5	\$ 2.1	\$ (0.2)	\$ 131.4
December 31, 2014 <i>(in millions)</i>				
Available-for-sale debt securities				
U.S. Treasury securities	\$ 30.8	\$ 0.3	\$ (0.2)	\$ 30.9
Corporate/Other bonds	100.6	1.0	(0.6)	101.0
Total Available-for-sale debt securities	\$ 131.4	\$ 1.3	\$ (0.8)	\$ 131.9

For the three months ended March 31, 2015 and 2014 , the net realized gain on the sale of available-for-sale U.S. Treasury debt securities was zero and \$0.1 million , respectively. For the three months ended March 31, 2015 and 2014 , the net realized gain on the sale of available-for-sale Corporate/Other bond debt securities was zero and \$0.1 million , respectively.

The cost of maturities sold is based upon specific identification. At March 31, 2015 , approximately \$4.5 million of U.S. Treasury debt securities have maturities of less than a year while the remaining securities have maturities of greater than one year. At March 31, 2015 , approximately \$5.0 million of Corporate/Other bonds have maturities of less than a year while the remaining securities have maturities of greater than one year.

There are no material items in the fair value reconciliation of Level 3 assets and liabilities measured at fair value on a recurring basis for the three months ended March 31, 2015 and 2014 .

Non-recurring Fair Value Measurements. There were no significant non-recurring fair value measurements recorded during the three months ended March 31, 2015 .

B. Other Fair Value Disclosures for Financial Instruments. The carrying amount of cash and cash equivalents, restricted cash, notes receivable, customer deposits and short-term borrowings is a reasonable estimate of fair value due to their liquid or short-term nature. NiSource's long-term borrowings are recorded at historical amounts.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate fair value.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

Long-term Debt. The fair values of these securities are estimated based on the quoted market prices for the same or similar issues or on the rates offered for securities of the same remaining maturities. Certain premium costs associated with the early settlement of long-term debt are not taken into consideration in determining fair value. These fair value measurements are classified as Level 2 within the fair value hierarchy. For the three months ended March 31, 2015 and 2014, there were no changes in the method or significant assumptions used to estimate the fair value of the financial instruments.

The carrying amount and estimated fair values of financial instruments were as follows:

<i>(in millions)</i>	Carrying Amount as of March 31, 2015	Estimated Fair Value as of March 31, 2015	Carrying Amount as of Dec. 31, 2014	Estimated Fair Value as of Dec. 31, 2014
Long-term debt (including current portion)	\$ 8,420.6	\$ 9,637.7	\$ 8,422.5	\$ 9,505.7

9. Transfers of Financial Assets

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited). The maximum amount of debt that can be recognized related to NiSource's accounts receivable programs is \$515 million.

All accounts receivables sold to the purchasers are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined in part by required loss reserves under the agreements. Below is information about the accounts receivable securitization agreements entered into by NiSource's subsidiaries

Columbia of Ohio is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CGORC, a wholly-owned subsidiary of Columbia of Ohio. CGORC, in turn, is party to an agreement with BTMU and BNS, under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to commercial paper conduits sponsored by BTMU and BNS. The agreement was last renewed on October 17, 2014; the current agreement expires on October 16, 2015 and can be further renewed if mutually agreed to by all parties. The maximum seasonal program limit under the terms of the current agreement is \$240 million. As of March 31, 2015, no accounts receivable had been transferred by CGORC. CGORC is a separate corporate entity from NiSource and Columbia of Ohio, with its own separate obligations, and upon a liquidation of CGORC, CGORC's obligations must be satisfied out of CGORC's assets prior to any value becoming available to CGORC's stockholder.

NIPSCO is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to NARC, a wholly-owned subsidiary of NIPSCO. NARC, in turn, is party to an agreement with PNC and Mizuho under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to PNC and a commercial paper conduit sponsored by Mizuho. This agreement was last renewed on August 27, 2014; the current agreement expires on August 26, 2015 and can be further renewed if mutually agreed to by all parties. The maximum seasonal program limit under the terms of the current agreement is \$200 million. As of March 31, 2015, \$200.0 million of accounts receivable had been transferred by NARC. NARC is a separate corporate entity from NiSource and NIPSCO, with its own separate obligations, and upon a liquidation of NARC, NARC's obligations must be satisfied out of NARC's assets prior to any value becoming available to NARC's stockholder.

Columbia of Pennsylvania is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CPRC, a wholly-owned subsidiary of Columbia of Pennsylvania. CPRC, in turn, is party to an agreement with BTMU under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to a commercial paper conduit sponsored by BTMU. The agreement with BTMU was last renewed on March 10, 2015, having a current scheduled termination date of March 9, 2016 and can be further renewed if mutually agreed to by both parties. The maximum seasonal program limit under the terms of the agreement is \$75 million. As of March 31, 2015, \$75.0 million of accounts receivable had been transferred by CPRC. CPRC is a separate corporate entity from NiSource and Columbia of Pennsylvania, with its own separate obligations, and upon a liquidation of CPRC, CPRC's obligations must be satisfied out of CPRC's assets prior to any value becoming available to CPRC's stockholder.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

The following table reflects the gross and net receivables transferred as well as short-term borrowings related to the securitization transactions as of March 31, 2015 and December 31, 2014 for Columbia of Ohio, NIPSCO and Columbia of Pennsylvania:

<i>(in millions)</i>	March 31, 2015		December 31, 2014	
Gross Receivables	\$	755.1	\$	611.7
Less: Receivables not transferred		480.1		327.4
Net receivables transferred	\$	275.0	\$	284.3
Short-term debt due to asset securitization	\$	275.0	\$	284.3

Columbia of Ohio, NIPSCO and Columbia of Pennsylvania remain responsible for collecting on the receivables securitized and the receivables cannot be sold to another party.

10. Goodwill

NiSource tests its goodwill for impairment annually as of May 1 unless indicators, events, or circumstances would require an immediate review. Goodwill is tested for impairment using financial information at the reporting unit level, which is consistent with the level of discrete financial information reviewed by operating segment management. NiSource's three reporting units are Columbia Distribution Operations, Columbia Transmission Operations and NIPSCO Gas Distribution Operations.

NiSource applied the qualitative step 0 analysis to its reporting units for the annual impairment test performed as of May 1, 2014. The results of this assessment indicated that it is not more likely than not that its reporting unit fair values are less than the reporting unit carrying values.

NiSource considered whether there were any events or changes in circumstances subsequent to the annual test that would reduce the fair value of any of the reporting units below their carrying amounts and necessitate another goodwill impairment test. No such indicators were noted that would require a subsequent goodwill impairment testing during the first quarter of 2015.

11. Income Taxes

NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2015 and 2014, adjusted for tax expense associated with certain discrete items. The effective tax rates for the three months ended March 31, 2015 and 2014 were 35.4% and 37.9%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking, and other permanent book-to-tax differences. The decrease in the three month effective tax rate of 2.5% in 2015 versus 2014 is primarily due to the impact of the Indiana rate change in 2014.

There were no material changes recorded in 2015 to NiSource's uncertain tax positions as of December 31, 2014.

12. Pension and Other Postretirement Benefits

NiSource provides defined contribution plans and noncontributory defined benefit retirement plans that cover its employees. Benefits under the defined benefit retirement plans reflect the employees' compensation, years of service and age at retirement. Additionally, NiSource provides health care and life insurance benefits for certain retired employees. The majority of employees may become eligible for these benefits if they reach retirement age while working for NiSource. The expected cost of such benefits is accrued during the employees' years of service. Current rates of rate-regulated companies include postretirement benefit costs, including amortization of the regulatory assets that arose prior to inclusion of these costs in rates. For most plans, cash contributions are remitted to grantor trusts.

For the three months ended March 31, 2015, NiSource has contributed \$0.7 million to its pension plans and \$8.7 million to its other postretirement benefit plans.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

The following tables provide the components of the plans' net periodic benefits cost for the three months ended March 31, 2015 and 2014 :

Three Months Ended March 31, (in millions)	Pension Benefits		Other Postretirement Benefits	
	2015	2014	2015	2014
Components of Net Periodic Benefit Cost				
Service cost	\$ 9.5	\$ 8.7	\$ 1.8	\$ 2.3
Interest cost	25.2	27.3	6.8	8.2
Expected return on assets	(46.2)	(45.3)	(9.3)	(9.1)
Amortization of prior service credit	(0.1)	—	(1.4)	(0.6)
Recognized actuarial loss	15.9	11.9	1.1	—
Total Net Periodic Benefit Cost (Credit)	\$ 4.3	\$ 2.6	\$ (1.0)	\$ 0.8

13. Variable Interests and Variable Interest Entities

In general, a VIE is an entity that (1) has an insufficient amount of at-risk equity to permit the entity to finance its activities without additional financial subordinated support provided by any parties, (2) whose at-risk equity owners, as a group, do not have power, through voting rights or similar rights, to direct activities of the entity that most significantly impact the entity's economic performance or (3) whose at-risk owners do not absorb the entity's losses or receive the entity's residual return. A VIE is required to be consolidated by a company if that company is determined to be the primary beneficiary of the VIE.

NiSource consolidates those VIEs for which it is the primary beneficiary. NiSource considers quantitative and qualitative elements in determining the primary beneficiary. Qualitative measures include the ability to control an entity and the obligation to absorb losses or the right to receive benefits.

NiSource's analysis includes an assessment of guarantees, operating leases, purchase agreements, and other contracts, as well as its investments and joint ventures. For items that have been identified as variable interests, or where there is involvement with an identified VIE, an in-depth review of the relationship between the relevant entities and NiSource is made to evaluate qualitative and quantitative factors to determine the primary beneficiary, if any, and whether additional disclosures would be required under the current standard.

NIPSCO has a service agreement with Pure Air, a general partnership between Air Products and Chemicals, Inc. and First Air Partners LP, under which Pure Air provides scrubber services to reduce sulfur dioxide emissions for Units 7 and 8 at the Bailly Generating Station. NiSource has made an exhaustive effort to obtain information needed from Pure Air to determine the status of Pure Air as a VIE. However, NIPSCO has not been able to obtain this information and, as a result, it is unclear whether Pure Air is a VIE and if NIPSCO is the primary beneficiary. NIPSCO will continue to request the information required to determine whether Pure Air is a VIE. NIPSCO has no exposure to loss related to the service agreement with Pure Air and payments under this agreement were \$5.6 million and \$5.4 million for the three months ended March 31, 2015 and 2014, respectively.

14. Short-Term Borrowings

NiSource Finance maintains a \$2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's \$1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes. At March 31, 2015, NiSource had no outstanding borrowings under this facility.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse, RBS and Wells Fargo. Commercial paper issuances are supported by available capacity under NiSource's \$2.0 billion unsecured revolving credit facility. At March 31, 2015, NiSource had \$39.0 million of commercial paper outstanding.

As of March 31, 2015 and December 31, 2014, NiSource had \$30.9 million of stand-by letters of credit outstanding of which \$14.7 million were under the revolving credit facility.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

CPPL maintains a \$500.0 million revolving credit facility, of which \$50.0 million is available for issuance of letters of credit. The purpose of the facility is to provide cash for general partnership purposes, including working capital, capital expenditures and the funding of capital calls. At March 31, 2015, CPPL had no outstanding borrowings under this facility.

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited) in the amount of \$275.0 million and \$284.3 million as of March 31, 2015 and December 31, 2014, respectively. Refer to Note 9 for additional information.

<i>(in millions)</i>	March 31, 2015	December 31, 2014
Commercial Paper weighted average interest rate of 0.96% and 0.82% at March 31, 2015 and December 31, 2014, respectively	\$ 39.0	\$ 792.6
Credit facilities borrowings weighted average interest rate of 1.44% at December 31, 2014	—	500.0
Accounts receivable securitization facility borrowings	275.0	284.3
Total Short-Term Borrowings	\$ 314.0	\$ 1,576.9

Given their turnover is less than 90 days, cash flows related to the borrowings and repayments of the items listed above are presented net in the Condensed Statements of Consolidated Cash Flows (unaudited).

15. Share-Based Compensation

The stockholders approved and adopted the NiSource Inc. 2010 Omnibus Incentive Plan (the "Omnibus Plan"), at the Annual Meeting of Stockholders held on May 11, 2010. The Omnibus Plan provides for awards to employees and non-employee directors of incentive and nonqualified stock options, stock appreciation rights, restricted stock and restricted stock units, performance shares, performance units, cash-based awards and other stock-based awards. The Omnibus Plan provides that the number of shares of common stock of NiSource available for awards is 8,000,000 plus the number of shares subject to outstanding awards granted under either the long-term incentive plan approved by stockholders on April 13, 1994 ("1994 Plan") or the Director Stock Incentive Plan ("Director Plan"), that expire or terminate for any reason. No further awards are permitted to be granted under the 1994 Plan or the Director Plan. At March 31, 2015, there were 5,785,224 shares reserved for future awards under the Omnibus Plan.

NiSource recognized stock-based employee compensation expense of \$11.2 million and \$5.3 million for the three months ended March 31, 2015 and 2014, respectively, as well as related tax benefits of \$4.0 million and \$2.0 million, respectively.

As of March 31, 2015, the total remaining unrecognized compensation cost related to nonvested awards amounted to \$35.8 million, which will be amortized over the weighted-average remaining requisite service period of 2.3 years.

Restricted Stock Units and Restricted Stock. During the three months ended March 31, 2015, NiSource granted 486,523 restricted stock units and shares of restricted stock, subject to service conditions. The total grant date fair value of restricted stock units and shares of restricted stock was \$19.4 million, based on the average market price of NiSource's common stock at the date of each grant less the present value of any dividends not received during the vesting period, which will be expensed, net of forfeitures, over the vesting period which is generally three years. As of March 31, 2015, 723,406 nonvested (all of which are expected to vest) restricted stock units and shares of restricted stock were granted and outstanding.

401(k) Match, Profit Sharing and Company Contribution. NiSource has a voluntary 401(k) savings plan covering eligible employees that allows for periodic discretionary matches as a percentage of each participant's contributions payable in shares of common stock. NiSource also has a retirement savings plan that provides for discretionary profit sharing contributions payable in shares of common stock to eligible employees based on earnings results; and eligible exempt employees hired after January 1, 2010, receive a non-elective company contribution of three percent of eligible pay payable in shares of common stock. For the quarters ended March 31, 2015 and 2014, NiSource recognized 401(k) match, profit sharing and non-elective contribution expense of \$8.2 million and \$8.5 million, respectively.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****16. Other Commitments and Contingencies**

A. Guarantees and Indemnities. As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit. These agreements are entered into primarily to support or enhance the creditworthiness otherwise attributed to a subsidiary on a stand-alone basis, thereby facilitating the extension of sufficient credit to accomplish the subsidiaries' intended commercial purposes. The total guarantees and indemnities in existence at March 31, 2015 and the years in which they expire were:

<i>(in millions)</i>	Total	2015	2016	2017	2018	2019	After
Guarantees of subsidiaries debt	\$ 7,960.5	\$ 230.0	\$ 616.5	\$ 1,257.0	\$ 800.0	\$ 500.0	\$ 4,557.0
Accounts receivable securitization	275.0	275.0	—	—	—	—	—
Lines of credit	39.0	39.0	—	—	—	—	—
Letters of credit	30.9	30.9	—	—	—	—	—
Other guarantees	146.8	26.1	3.4	—	—	1.7	115.6
Total commercial commitments	\$ 8,452.2	\$ 601.0	\$ 619.9	\$ 1,257.0	\$ 800.0	\$ 501.7	\$ 4,672.6

Guarantees of Subsidiaries Debt. NiSource has guaranteed the payment of \$7,960.5 million of debt for various wholly-owned subsidiaries including NiSource Finance and Columbia of Massachusetts, and through a support agreement for Capital Markets, which is reflected on NiSource's Condensed Consolidated Balance Sheets (unaudited). The subsidiaries are required to comply with certain covenants under the debt indenture and in the event of default, NiSource would be obligated to pay the debt's principal and related interest. NiSource does not anticipate its subsidiaries will have any difficulty maintaining compliance. On October 3, 2011, NiSource executed a Second Supplemental Indenture to the original Columbia of Massachusetts Indenture dated April 1, 1991, for the specific purpose of guaranteeing Columbia of Massachusetts' outstanding unregistered medium-term notes.

Lines and Letters of Credit and Accounts Receivable Advances. NiSource Finance maintains a \$2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's \$1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes. At March 31, 2015, NiSource had no borrowings under its five-year revolving credit facility, \$39.0 million in commercial paper outstanding and \$275.0 million outstanding under its accounts receivable securitization agreements. At March 31, 2015, NiSource had issued stand-by letters of credit of approximately \$30.9 million for the benefit of third parties. See Note 14 for additional information.

CPPL maintains a \$500.0 million revolving credit facility, of which \$50.0 million is available for issuance of letters of credit. The purpose of the facility is to provide cash for general partnership purposes, including working capital, capital expenditures and the funding of capital calls. At March 31, 2015, CPPL had no outstanding borrowings under this facility.

Other Guarantees or Obligations. NiSource has purchase and sales agreement guarantees totaling \$25.6 million, which guarantee purchaser performance or seller performance under covenants, obligations, liabilities, representations or warranties under the agreements. No amounts related to the purchase and sale agreement guarantees are reflected in the Condensed Consolidated Balance Sheets (unaudited). Management believes that the likelihood NiSource would be required to perform or otherwise incur any significant losses associated with any of the aforementioned guarantees is remote.

NiSource has on deposit a letter of credit with Union Bank, N.A., Collateral Agent, in a debt service reserve account in association with Millennium's notes as required under the Deposit and Disbursement Agreement that governs the Millennium notes. This account is to be drawn upon by the note holders in the event that Millennium is delinquent on its principal and interest payments. The value of NiSource's letter of credit represents 47.5% (NiSource's ownership interest in Millennium) of the debt service reserve account requirement, or \$16.2 million. The total exposure for NiSource is \$16.2 million. NiSource has an accrued liability of \$1.5 million related to the inception date fair value of this guarantee as of March 31, 2015.

B. Other Legal Proceedings. In the normal course of its business, NiSource and its subsidiaries have been named as defendants in various legal proceedings. In the opinion of management, the ultimate disposition of these currently asserted claims will not have a material impact on NiSource's consolidated financial statements.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

C. Environmental Matters. NiSource operations are subject to environmental statutes and regulations related to air quality, water quality, hazardous waste and solid waste. NiSource believes that it is in substantial compliance with those environmental regulations currently applicable to its operations and believes that it has all necessary permits to conduct its operations.

It is management's continued intent to address environmental issues in cooperation with regulatory authorities in such a manner as to achieve mutually acceptable compliance plans. However, there can be no assurance that fines and penalties will not be incurred. Management expects a significant portion of environmental assessment and remediation costs to be recoverable through rates for certain NiSource companies.

As of March 31, 2015 and December 31, 2014, NiSource had recorded an accrual of approximately \$128.3 million and \$128.4 million, respectively, to cover environmental remediation at various sites. The current portion of this accrual is included in "Legal and environmental" in the Condensed Consolidated Balance Sheets (unaudited). The noncurrent portion is included in "Other noncurrent liabilities" in the Condensed Consolidated Balance Sheets (unaudited). NiSource accrues for costs associated with environmental remediation obligations when the incurrence of such costs is probable and the amounts can be reasonably estimated. The original estimates for cleanup can differ materially from the amount ultimately expended. The actual future expenditures depend on many factors, including currently enacted laws and regulations, the nature and extent of contamination, the method of cleanup, and the availability of cost recovery from customers. These expenditures are not currently estimable at some sites. NiSource periodically adjusts its accrual as information is collected and estimates become more refined.

Air

The actions listed below could require further reductions in emissions from various emission sources. NiSource will continue to closely monitor developments in these matters.

Climate Change. Future legislative and regulatory programs could significantly restrict emissions of GHGs or could impose a cost or tax on GHG emissions.

On June 2, 2014, the EPA proposed a GHG performance standard for existing fossil-fuel fired electric utility generating units under section 111 (d) of the Clean Air Act. The proposed rule establishes state-specific CO₂ emission rate goals, applied to the state's fleet of fossil-fuel fired electric generating units, and requires each state to submit a plan indicating how the state will meet the EPA's emission rate goal, including possibly imposing reduction obligations on specific units. Final CO₂ emission rate standards are expected to be set by the EPA by midsummer 2015, and state plans are required to be submitted to the EPA as early as June 2016. The cost to comply with this rule will depend on a number of factors, including the requirements of the final federal regulation and the level of NIPSCO's required GHG reductions. It is possible that this new rule, comprehensive federal or state GHG legislation, or other GHG regulation could result in additional expense or compliance costs that could materially impact NiSource's financial results. NiSource will continue to monitor this matter and cannot estimate its impact at this time.

National Ambient Air Quality Standards. The CAA requires the EPA to set NAAQS for particulate matter and five other pollutants considered harmful to public health and the environment. Periodically the EPA imposes new or modifies existing NAAQS. States that contain areas that do not meet the new or revised standards must take steps to maintain or achieve compliance with the standards. These steps could include additional pollution controls on boilers, engines, turbines, and other facilities owned by electric generation, gas distribution, and gas transmission operations.

The following NAAQS were recently added or modified:

Ozone: On November 25, 2014, the EPA proposed to lower the 8-hour ozone standard from 75 ppb to within a range of 65-70 ppb. If the standard is finalized and the EPA proceeds with designations, areas where NiSource operates currently designated as attainment may be re-classified as non-attainment. NiSource will continue to monitor this matter and cannot estimate its impact at this time.

Nitrogen Dioxide (NO₂): The EPA revised the NO₂ NAAQS by adding a one-hour standard while retaining the annual standard. The new standard could impact some NiSource combustion sources. The EPA designated all areas of the country as unclassifiable/attainment in January 2012. After the establishment of a new monitoring network and possible modeling implementation, areas will potentially be re-designated sometime in 2016. States with areas that do not meet the standard will be required to develop rules to bring areas into compliance within five years of designation. Additionally, under certain permitting circumstances, emissions from some existing NiSource combustion sources may need to be assessed and mitigated. NiSource will continue to monitor this matter and cannot estimate the impact of these rules at this time.

Table of Contents

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Waste

NiSource subsidiaries are potentially responsible parties at waste disposal sites under the CERCLA (commonly known as Superfund) and similar state laws. Additionally, NiSource affiliates have retained environmental liabilities, including cleanup liabilities, associated with certain former operations.

A program has been instituted to identify and investigate former MGP sites where Gas Distribution Operations subsidiaries or predecessors may have liability. The program has identified 66 such sites where liability is probable. Remedial actions at many of these sites are being overseen by state or federal environmental agencies through consent agreements or voluntary remediation agreements.

NiSource utilizes a probabilistic model to estimate its future remediation costs related to its MGP sites. The model was prepared with the assistance of a third party and incorporates NiSource and general industry experience with remediating MGP sites. NiSource completes an annual refresh of the model in the second quarter of each fiscal year. No material changes to the estimated liability were noted as a result of the refresh completed as of June 30, 2014. The total estimated liability at NiSource related to the facilities subject to remediation was \$120.3 million and \$121.5 million at March 31, 2015 and December 31, 2014, respectively. The liability represents NiSource's best estimate of the probable cost to remediate the facilities. NiSource believes that it is reasonably possible that remediation costs could vary by as much as \$25 million in addition to the costs noted above. Remediation costs are estimated based on the best available information, applicable remediation standards at the balance sheet date, and experience with similar facilities.

Additional Issues Related to Individual Business Segments

The sections below describe various regulatory actions that affect individual business segments for which NiSource has retained a liability.

Electric Operations.

Air

NIPSCO is subject to a number of air-quality mandates in the next several years. These mandates required NIPSCO to make capital improvements to its electric generating stations. The cost of capital improvements is estimated to be \$870 million, of which approximately \$107.3 million remains to be spent. This figure includes additional capital improvements associated with the New Source Review Consent Decree and the Utility Mercury and Air Toxics Standards Rule. NIPSCO believes that the capital costs will likely be recoverable from customers.

Utility Mercury and Air Toxics Standards Rule: On December 16, 2011, the EPA finalized the MATS rule establishing new emissions limits for mercury and other air toxics. NIPSCO's affected units have completed projects to meet the April 2015 compliance deadline. For NIPSCO's remaining affected units, a one year compliance extension granted by IDEM delays the compliance date until April 2016. NIPSCO continues to implement an IURC-approved plan for the installation of additional environmental controls needed to comply with the MATS extension.

Water

On August 15, 2014, the EPA published the final Phase II Rule of the Clean Water Act Section 316(b), which requires all large existing steam electric generating stations to meet certain performance standards to reduce the effects on aquatic organisms at their cooling water intake structures. Under this rule, stations will have to either demonstrate that the performance of their existing fish protection systems meet the new standards or develop new systems, such as a closed-cycle cooling tower. The cost to comply will depend on a number of factors, including evaluation of the various compliance options available under the regulation and permitting-related determinations by IDEM. NIPSCO is currently evaluating these options and cannot estimate the cost of compliance at this time.

On June 7, 2013, the EPA published a proposed rule to amend the effluent limitations guidelines and standards for the Steam Electric Power Generating category. These proposed regulations could impose new water treatment requirements on NIPSCO's electric generating facilities. NIPSCO will continue to monitor developments in this matter and cannot estimate the cost of compliance at this time.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Waste

On April 17, 2015, the EPA released a final rule for regulation of CCRs. The rule regulates CCRs under the Resource Conservation and Recovery Act Subtitle D, which determines them to be non-hazardous. It will require increased groundwater monitoring, reporting, recordkeeping, and posting related information to the Internet. The rule also establishes requirements related to CCR management, impoundments, landfills and storage. NIPSCO will have to modify its infrastructure and management of CCRs under this rule. The rule will allow NIPSCO to continue its byproduct beneficial use program. NIPSCO is currently evaluating the rule and cannot estimate the cost of compliance at this time.

D. Other Matters.

Transmission Upgrade Agreements. On February 11, 2014, NIPSCO entered into two TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors have agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs filed a complaint at the FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. On December 8, 2014, the FERC issued an order in response to the complaint finding that it is appropriate for NIPSCO to recover, through the multiplier, substantiated costs of ownership related to the TUAs. The FERC set for hearing the issue of what constitutes the incremental costs NIPSCO will incur, but is holding that hearing in abeyance to allow for settlement. NIPSCO will continue to monitor developments in this matter and does not believe the impact is material to the Condensed Consolidated Financial Statements (unaudited).

Springfield, Massachusetts. On November 23, 2012, while Columbia of Massachusetts was investigating the source of an odor of gas at a service location in Springfield, Massachusetts, a gas service line was pierced and an explosion occurred. While this explosion impacted multiple buildings and resulted in several injuries, no life threatening injuries or fatalities have been reported. Columbia of Massachusetts is fully cooperating with both the Massachusetts DPU and the Occupational Safety & Health Administration in their investigations of this incident. Columbia of Massachusetts believes any costs associated with damages, injuries, and other losses related to this incident are substantially covered by insurance. Any amounts not covered by insurance are not expected to have a material impact on NiSource's consolidated financial statements. In accordance with GAAP, NiSource recorded any accruals and the related insurance recoveries resulting from this incident on a gross basis within the Condensed Consolidated Balance Sheets (unaudited).

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****17. Accumulated Other Comprehensive Loss**

The following tables display the components of Accumulated Other Comprehensive Loss for the three months ended March 31, 2015 and 2014 :

Three Months Ended March 31, 2015 <i>(in millions)</i>	Gains and Losses on Securities ⁽¹⁾	Gains and Losses on Cash Flow Hedges ⁽¹⁾	Pension and OPEB Items ⁽¹⁾	Accumulated Other Comprehensive Loss ⁽¹⁾

⁽¹⁾ All amounts are net of tax. Amounts in parentheses indicate debits.

Equity Investment

As Millennium is an equity method investment, NiSource is required to recognize a proportional share of Millennium's OCI. The remaining unrecognized loss at March 31, 2015 of \$14.2 million, net of tax, related to terminated interest rate swaps is being amortized over the period ending June 2025 into earnings using the effective interest method through interest expense as interest payments are made by Millennium. The unrecognized loss of \$14.2 million and \$16.6 million at March 31, 2015 and December 31, 2014, respectively, is included in gains and losses on cash flow hedges above.

18. Business Segment Information

Operating segments are components of an enterprise for which separate financial information is available and evaluated regularly by the chief operating decision maker in deciding how to allocate resources and assess performance. NiSource's Chief Executive Officer is the chief operating decision maker.

At March 31, 2015, NiSource's operations are divided into three primary business segments. The Gas Distribution Operations segment provides natural gas service and transportation for residential, commercial and industrial customers in Ohio, Pennsylvania, Virginia, Kentucky, Maryland, Indiana and Massachusetts. The Columbia Pipeline Group Operations segment offers gas transportation and storage services for LDCs, marketers and industrial and commercial customers located in northeastern, mid-Atlantic, Midwestern and southern states and the District of Columbia along with unregulated businesses that include midstream services and development of mineral rights positions. The Electric Operations segment provides electric service in 20 counties in the northern part of Indiana.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

The following table provides information about business segments. NiSource uses operating income as its primary measurement for each of the reported segments and makes decisions on finance, dividends and taxes at the corporate level on a consolidated basis. Segment revenues include intersegment sales to affiliated subsidiaries, which are eliminated in consolidation. Affiliated sales are recognized on the basis of prevailing market, regulated prices or at levels provided for under contractual agreements. Operating income is derived from revenues and expenses directly associated with each segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NiSource Inc.

Note regarding forward-looking statements

The Management's Discussion and Analysis, including statements regarding market risk sensitive instruments, contains "forward-looking statements," within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Investors and prospective investors should understand that many factors govern whether any forward-looking statement contained herein will be or can be realized. Any one of those factors could cause actual results to differ materially from those projected. These forward-looking statements include, but are not limited to, statements concerning NiSource's plans, objectives, expected performance, expenditures, recovery of expenditures through rates, stated on either a consolidated or segment basis, the Proposed Separation and any and all underlying assumptions and other statements that are other than statements of historical fact. From time to time, NiSource may publish or otherwise make available forward-looking statements of this nature. All such subsequent forward-looking statements, whether written or oral and whether made by or on behalf of NiSource, are also expressly qualified by these cautionary statements. All forward-looking statements are based on assumptions that management believes to be reasonable; however, there can be no assurance that actual results will not differ materially.

Factors that could cause actual results to differ materially from the projections, forecasts, estimates and expectations discussed in this Quarterly Report on Form 10-Q include, among other things, weather, fluctuations in supply and demand for energy commodities, growth opportunities for NiSource's businesses, increased competition in deregulated energy markets, the success of regulatory and commercial initiatives, dealings with third parties over whom NiSource has no control, actual operating experience of NiSource's assets, the regulatory process, regulatory and legislative changes, the impact of potential new environmental laws or regulations, the results of material litigation, changes in pension funding requirements, changes in general economic, capital and commodity market conditions, counterparty credit risk, the timing to consummate the Proposed Separation; the risk that a condition to the Proposed Separation is not satisfied; disruption to operations as a result of the Proposed Separation, the inability of one or more of the businesses to operate independently following the completion of the Proposed Separation and the matters set forth in the "Risk Factors" section of NiSource's 2014 Form 10-K and this Form 10-Q, many of which are beyond the control of NiSource. In addition, the relative contributions to profitability by each segment, and the assumptions underlying the forward-looking statements relating thereto, may change over time. NiSource expressly disclaims any duty to update any of the forward-looking statements contained in this report.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2014 .

CONSOLIDATED REVIEW

Planned Separation of Columbia Pipeline Group and Initial Public Offering of Columbia Pipeline Partners LP

On September 28, 2014, NiSource (the "Company") announced that its Board of Directors had approved in principle plans to separate its natural gas pipeline and related businesses into a stand-alone publicly traded company (the "Proposed Separation"). If completed, the Proposed Separation will result in two energy infrastructure companies: NiSource Inc., a fully regulated natural gas and electric utilities company, and Columbia Pipeline Group Inc., a natural gas pipeline, midstream and storage company ("CPG"). The Proposed Separation is expected to occur on July 1, 2015.

Under the plan for the Proposed Separation, NiSource stockholders would retain their current shares of NiSource stock and receive a *pro rata* distribution of shares of CPG stock in a transaction that is expected to be tax-free to NiSource and its stockholders for U.S. federal income tax purposes.

The Proposed Separation is subject to various conditions, including, without limitation, the receipt by NiSource of a legal opinion on the tax-free nature of the distribution and final approval of the NiSource Board of Directors. NiSource shareholder approval of the transaction is not required. There is no assurance that the transaction will be completed on July 1, 2015 or at all.

In addition, prior to the Proposed Separation, CPG expects to issue its own long-term notes and use the proceeds from that offering to repay intercompany debt and pay a special dividend to NiSource, which plans to use the special dividend to reduce its net debt prior to the Proposed Separation.

On February 11, 2015, CPPL completed its IPO of 53.8 million common units representing limited partnership interests, constituting 53.5% of the Partnership's outstanding limited partnership interests. The Partnership received \$1,168.4 million of net proceeds

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

from the IPO. NiSource, through CPG, owns the general partner of the Partnership, all of the Partnership's subordinated units and the incentive distribution rights. The assets of the Partnership consist of a 15.7 percent limited partner interest in Columbia OpCo, which consists of substantially all of the Columbia Pipeline Group Operations segment. The operations of the Partnership will be consolidated in NiSource's results as long as the Partnership remains a subsidiary. If the Proposed Separation occurs, CPG would no longer be a subsidiary of NiSource and, thus, NiSource would cease to own (a) any interest in Columbia OpCo, (b) the general partner of the Partnership, (c) any of the limited partner interests in the Partnership or (d) any of the incentive distribution rights in the Partnership.

Executive Summary

NiSource is an energy holding company under the Public Utility Holding Company Act of 2005 whose subsidiaries are engaged in the transmission, storage and distribution of natural gas in the high-demand energy corridor stretching from the Gulf Coast through the Midwest to New England and the generation, transmission and distribution of electricity in Indiana. NiSource generates substantially all of its operating income through these rate-regulated businesses. A significant portion of NiSource's operations is subject to seasonal fluctuations in sales. During the heating season, which is primarily from November through March, net revenues from gas sales are more significant, and during the cooling season, which is primarily from June through September, net revenues from electric sales and transportation services are more significant, than in other months.

For the three months ended March 31, 2015, net income attributable to NiSource was \$268.4 million, or \$0.85 per basic share, compared to \$266.2 million, or \$0.85 per basic share reported for the same period in 2014.

The increase in net income attributable to NiSource was due primarily to the following items:

- Regulatory and service programs at Gas Distribution Operations increased net revenues by \$33.2 million primarily due to the impacts of the rate cases at Columbia of Pennsylvania, Columbia of Virginia and Columbia of Massachusetts, as well as the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Refer to Note 7, "Regulatory Matters," in the Notes to Consolidated Financial Statements included in NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2014 for more information.
- Demand margin revenue increased by \$30.7 million at Columbia Pipeline Group Operations primarily as a result of growth projects placed in service. Refer to the Columbia Pipeline Group Operations' segment discussion for further information on growth projects.

These increases in net income attributable to NiSource were partially offset by the following:

- Outside service costs increased by \$26.2 million primarily due to costs associated with the Proposed Separation.
- Employee and administrative expense increased by \$20.4 million due primarily to greater labor expense due to a growing workforce.

These factors and other impacts to the financial results are discussed in more detail within the following discussions of "Results of Operations" and "Results and Discussion of Segment Operations."

Platform for Growth

NiSource's business plan will continue to center on commercial and regulatory initiatives, commercial growth and expansion of the gas transmission and storage business, and financial management of the balance sheet.

Commercial and Regulatory Initiatives

NiSource is moving forward on regulatory initiatives across several distribution company markets. Whether through full rate case filings or other approaches, NiSource's goal is to develop strategies that benefit all stakeholders as it addresses changing customer conservation patterns, develops more contemporary pricing structures, and embarks on long-term investment programs to enhance its infrastructure.

NIPSCO continued to focus on customer service, reliability and long-term growth and modernization initiatives during the first quarter, while executing on significant environmental investments.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

- NIPSCO remains on schedule and on budget with its FGD unit at its Michigan City Generating Station. The approximately \$264.8 million project is expected to be placed in service by the end of 2015 along with an additional \$80 million in environmental investments at NIPSCO's coal-fired generating facilities. These investments, supported with cost recovery, help improve air quality and ensure NIPSCO's generation fleet remains in compliance with current environmental regulations. These investments also help ensure that NIPSCO can continue offering low-cost, reliable and efficient generating capacity for its customers.
- Progress also continued on two major NIPSCO electric transmission projects designed to enhance system flexibility and reliability. The Greentown-Reynolds project is a 70-mile, 765-kV line being constructed in a joint development agreement with Pioneer Transmission, and the Reynolds-Topeka project is a 100-mile, 345-kV line. Right-of-way acquisition and permitting are under way for both projects and construction has begun on the Reynolds-Topeka line. The projects involve a NIPSCO investment of approximately \$500 million and are anticipated to be in service by the end of 2018.

NiSource's Gas Distribution companies continue to execute their strategy of long-term infrastructure replacement and enhancement and advance their regulatory agenda.

- On March 19, 2015, Columbia of Pennsylvania filed a base rate case with the Pennsylvania PUC to support continuation of Columbia of Pennsylvania's infrastructure modernization and safety programs. If approved as filed, the case would increase annual revenues by \$46.2 million. New rates are expected to go into effect during the fourth quarter of 2015.
- On April 16, 2015, Columbia of Massachusetts filed a base rate case with the Massachusetts DPU. The case, which seeks increased annual revenues of approximately \$49.0 million, is designed to support the company's continued focus on providing safe and reliable service in compliance with increasing state and federal regulations and oversight and recovery of associated increased operations and maintenance costs. An order in the proceeding is expected on February 29, 2016 with new rates effective March 1, 2016.
- Columbia of Virginia's base rate case remains pending with the VSCC. The case is expected to provide a base rate increase of \$25.2 million, including recovery of pipeline safety program costs.

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for a complete discussion of regulatory and commercial matters.

Modernization, Commercial Growth and Expansion of the Columbia Pipeline Group Operations

Columbia Pipeline Group Operations continues to make progress on its long-term infrastructure modernization program, as well as a series of midstream and core growth initiatives tied to NiSource's asset position in the Utica and Marcellus Shale production regions.

- In January 2015, Columbia Pipeline Group Operations commenced the third year of the Columbia Transmission long-term system modernization program. The Columbia Pipeline Group Operations segment expects to invest approximately \$300 million in modernization investments during 2015. Recovery of approximately \$320 million of investments made in 2014 began on February 1, 2015. A settlement with the company's customers, approved in early 2013, addresses the initial five years of an expected 10 to 15 year program that is expected to exceed \$4 billion in investment.
- Columbia Pipeline Group Operations segment's East Side Expansion project will be placed in service in the fourth quarter of 2015. The \$275 million project will provide up to 312,000 Dth/d of additional capacity for Marcellus Shale supplies to reach growing and capacity constrained northeastern and mid-Atlantic markets.
- Progress continues on several other major growth projects, including Columbia Pipeline Group Operations' approximately \$1.8 billion combined investment in the Leach and Rayne XPress projects, the approximate \$850 million WB XPress project, the \$310 million Cameron Access project, the \$50 million Utica Access project, the \$33 million Chesapeake LNG project, and the \$24 million Kentucky Power Plant project. Together these projects will entail approximately 4 billion cubic feet of new capacity commitments across the Columbia Pipeline Group Operations' system, including access to LNG export facilities in Louisiana and Maryland.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

- NiSource Midstream also is on budget and schedule with the first phase of its \$120 million Washington County Gathering project and its approximately \$65 million Big Pine Expansion project. Both are expected to be in service in the third quarter of 2015.

Financial Management of the Balance Sheet

On March 30, 2015, Standard & Poor's affirmed the senior unsecured ratings for NiSource and its subsidiaries at BBB- and the commercial paper rating of A-3. Standard & Poor's outlook for NiSource and all of its subsidiaries is Watch Positive.

On February 11, 2015, CPPL completed its IPO of 53.8 million common units representing limited partnership interests. See additional information at the beginning of this section.

CPPL maintains a \$500.0 million revolving credit facility, of which \$50.0 million is available for issuance of letters of credit. The purpose of the facility is to provide cash for general partnership purposes, including working capital, capital expenditures and the funding of capital calls. At March 31, 2015, CPPL had no outstanding borrowings under this facility.

In preparation for the Planned Separation, the debt recapitalization process is expected to begin during the second quarter of 2015 and will include CPG issuing its own long-term debt prior to the separation to fund a one-time cash distribution to NiSource, which is to be used, in large part, to reduce NiSource's net debt.

Ethics and Controls

NiSource has had a long-term commitment to providing accurate and complete financial reporting as well as high standards for ethical behavior by its employees. NiSource's senior management takes an active role in the development of this Form 10-Q and the monitoring of the company's internal control structure and performance. In addition, NiSource will continue its mandatory ethics training program for all employees.

For additional information refer to Item 4, "Controls and Procedures."

Results of Operations

Quarter Ended March 31, 2015

Net Income Attributable to NiSource

NiSource reported net income of \$268.4 million, or \$0.85 per basic share, for the three months ended March 31, 2015, compared to net income of \$266.2 million, or \$0.85 per basic share, for the first quarter of 2014. Income from continuing operations was \$268.4 million, or \$0.85 per basic share, for the three months ended March 31, 2015, compared to income from continuing operations of \$266.4 million, or \$0.85 per basic share, for the first quarter of 2014. Operating income was \$530.1 million, a decrease of \$3.6 million from the same period in 2014. All per share amounts are basic earnings per share. Basic average shares of common stock outstanding at March 31, 2015 were 316.6 million compared to 314.2 million at March 31, 2014.

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expense. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the quarter ended March 31, 2015, were \$1,343.7 million, an \$84.5 million increase from the same period last year. This increase in net revenues was primarily due to increased Gas Distribution Operations' net revenues of \$91.1 million, offset by a decrease in Columbia Pipeline Group Operations' net revenues of \$5.8 million.

- Gas Distribution Operations' net revenues increased due primarily to an increase in regulatory and tax trackers, which are offset in expense, of \$50.6 million and an increase of \$33.2 million for regulatory and service programs, including the impacts of rate cases at Columbia of Pennsylvania, Columbia of Virginia and Columbia of Massachusetts, as well as the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Additionally, there was higher revenue of \$5.3 million resulting from the prior year reduction in revenue from NIPSCO's GCIM.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

These increases to net revenues were partially offset by the following:

- Columbia Pipeline Group Operations' net revenues decreased due primarily to lower regulatory trackers, which are offset in expense, of \$27.4 million and other miscellaneous decreases of \$9.1 million. These decreases were partially offset by increased demand margin revenue of \$30.7 million as a result of growth projects placed in service and new firm contracts.

Operating Expenses

Operating expenses for the first quarter of 2015 were \$829.0 million, an increase of \$93.7 million from the 2014 period. This increase was primarily due to higher operation and maintenance expenses of \$72.9 million, increased depreciation and amortization of \$8.8 and a decrease in the gain on the sale of assets of \$10.7 million. The increase in operation and maintenance expenses was primarily due to increased outside service costs of \$26.2 million, higher regulatory trackers, which are offset in net revenues, of \$24.7 million and increased employee and administrative costs of \$20.4 million. The increase in depreciation and amortization is primarily due to higher capital expenditures placed in service. The decrease in the gain on the sale of assets primarily resulted from lower gains on conveyance of mineral interests of \$12.2 million.

Equity Earnings in Unconsolidated Affiliates

Equity Earnings in Unconsolidated Affiliates were \$15.4 million during the first quarter of 2015 compared to \$9.8 million for the first quarter of 2014. Equity Earnings in Unconsolidated Affiliates includes earnings from investments in Millennium, Hardy Storage and Pennant, which are integral to the Columbia Pipeline Group Operations' business. Equity earnings increased primarily from increased earnings at Millennium attributable to growth projects placed in service and higher earnings at Pennant as a result of the joint venture projects going fully in-service.

Other Income (Deductions)

Other Income (Deductions) reduced income by \$103.9 million in the first quarter of 2015 compared to a reduction in income of \$104.6 million in the prior year.

Income Taxes

Income tax expense for the quarter ended March 31, 2015 was \$150.9 million compared to \$162.7 million in the prior year. NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2015 and 2014, adjusted for tax expense associated with certain discrete items. The effective tax rates for the quarters ended March 31, 2015 and 2014 were 35.4% and 37.9%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking, and other permanent book-to-tax differences. The decrease in the three month effective tax rate of 2.5% in 2015 versus 2014 is primarily due to the impact of the Indiana rate change in 2014. Refer to Note 11, "Income Taxes," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Liquidity and Capital Resources

A significant portion of NiSource's operations, most notably in the gas distribution, gas transportation and electric businesses, are subject to seasonal fluctuations in cash flow. During the heating season, which is primarily from November through March, cash receipts from gas sales and transportation services typically exceed cash requirements. During the summer months, cash on hand, together with the seasonal increase in cash flows from the electric business during the summer cooling season and external short-term and long-term financing, is used to purchase gas to place in storage for heating season deliveries and perform necessary maintenance of facilities. NiSource believes that through income generated from operating activities, amounts available under its short-term revolver, commercial paper program, long-term debt agreements and NiSource's ability to access the capital markets, there is adequate capital available to fund its operating activities and capital expenditures in 2015.

Operating Activities

Net cash from operating activities for the three months ended March 31, 2015 was \$604.3 million, an increase of \$210.3 million compared to the three months ended March 31, 2014. The increase in net cash from operating activities was primarily due to an increase in overrecovered gas and fuel costs and accounts receivable working capital accounts as a result of lower gas prices and warmer weather in the first quarter of 2015 compared to the same period in 2014.

Pension and Other Postretirement Plan Funding. NiSource expects to make contributions of approximately \$3.5 million to its pension plans and approximately \$34.8 million to its other postretirement benefit plans in 2015, which could change depending on market conditions. For the three months ended March 31, 2015, NiSource has contributed \$0.7 million to its pension plans and \$8.7 million to its other postretirement benefit plans.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Investing Activities

NiSource's capital expenditures for the three months ended March 31, 2015 were \$407.5 million, compared to \$386.3 million for the comparable period in 2014. This increased spending is mainly due to higher spending in the Columbia Pipeline Group Operations segment on various growth projects primarily in the Marcellus and Utica Shale areas and for expenditures under the modernization program. NiSource projects 2015 capital expenditures to be approximately \$2.4 billion.

Restricted cash was \$21.6 million and \$24.9 million as of March 31, 2015 and December 31, 2014, respectively.

Contributions to equity investees decreased \$32.2 million primarily due to no contributions being made to Pennant during the first quarter of 2015 as a result of the joint venture projects going fully in-service.

Financing Activities

Columbia Pipeline Partners LP. CPPL received net proceeds of \$1,168.4 million from its IPO completed on February 11, 2015.

Credit Facilities. NiSource Finance currently maintains a \$2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's \$1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes. In December 2014, with an effective date pending the Proposed Separation of NiSource and CPG, NiSource Finance revised the \$2.0 billion revolver to \$1.5 billion and extended the termination date to the fifth anniversary of the effective date. Contemporaneous with the revision to NiSource Finance's revolving credit facility, revolving credit facilities were established for CPG and CPPL in the amount of \$1.5 billion and \$500 million, respectively.

As of March 31, 2015, NiSource has deferred \$8.8 million of debt issuance costs related to the establishment of the CPG and CPPL credit facilities and the revision of the NiSource Finance facility.

The \$1.5 billion CPG credit facility will be effective with the Proposed Separation.

CPPL's \$500 million revolving credit facility, of which \$50 million will be available for issuance of letters of credit, became effective upon the closing of the IPO. The purpose of the facility is to provide cash for general partnership purposes, including working capital, capital expenditures and the funding of capital calls.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse, RBS and Wells Fargo. Commercial paper issuances are supported by available capacity under NiSource's \$2.0 billion unsecured revolving credit facility, which expires in September 2018. The aforementioned pending revolver amendment for NiSource Finance and pending revolver for CPG are expected to support commercial paper borrowings of \$1.5 billion each. CPPL is not expected to issue commercial paper.

NiSource Finance had no borrowings outstanding under its revolving credit facility at March 31, 2015 and \$500.0 million at December 31, 2014 at a weighted average interest rate of 1.44%. In addition, NiSource Finance had \$39.0 million in commercial paper outstanding at March 31, 2015, at a weighted average interest rate of 0.96% and \$792.6 million in commercial paper outstanding at December 31, 2014, at a weighted average interest rate of 0.82%.

As of March 31, 2015 and December 31, 2014, NiSource had \$275.0 million and \$284.3 million, respectively, of short-term borrowings recorded on the Condensed Consolidated Balance Sheets (unaudited) relating to its accounts receivable securitization facilities. See Note 9, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited).

As of March 31, 2015 and December 31, 2014, NiSource had \$30.9 million of stand-by letters of credit outstanding of which \$14.7 million were under the revolving credit facility.

As of March 31, 2015, an aggregate of \$1,946.3 million of credit was available under the credit facility.

Debt Covenants. NiSource is subject to a financial covenant under its revolving credit facility and its three-year term loans, which require NiSource to maintain a debt to capitalization ratio that does not exceed 70%. A similar covenant in a 2005 private placement note purchase agreement requires NiSource to maintain a debt to capitalization ratio that does not exceed 75%. As of March 31, 2015, the ratio was 53.9%.

NiSource is also subject to certain other non-financial covenants under the revolving credit facility. Such covenants include a limitation on the creation or existence of new liens on NiSource's assets, generally exempting liens on utility assets, purchase

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

money security interests, preexisting security interests and an additional subset of assets equal to \$150 million. An asset sale covenant generally restricts the sale, lease and/or transfer of NiSource's assets to no more than 10% of its consolidated total assets and dispositions for a price not materially less than the fair market value of the assets disposed of that do not impair the ability of NiSource and NiSource Finance to perform obligations under the revolving credit facility, and that, together with all other such dispositions, would not have a material adverse effect. The revolving credit facility also includes a cross-default provision, which triggers an event of default under the credit facility in the event of an uncured payment default relating to any indebtedness of NiSource or any of its subsidiaries in a principal amount of \$50 million or more.

NiSource's indentures generally do not contain any financial maintenance covenants. However, NiSource's indentures are generally subject to cross-default provisions ranging from uncured payment defaults of \$5 million to \$50 million, and limitations on the incurrence of liens on NiSource's assets, generally exempting liens on utility assets, purchase money security interests, preexisting security interests and an additional subset of assets capped at 10% of NiSource's consolidated net tangible assets.

CPPL's revolving credit facility contains various covenants and restrictive provisions which, among other things, limit CPPL's and its restricted subsidiaries' ability to incur additional indebtedness, guarantees and/or liens; consolidate, merge or transfer all or substantially all of their assets; make certain investments or restricted payments; modify certain material agreements; engage in certain types of transactions with affiliates; dispose of assets; and prepay certain indebtedness, each of which is subject to customary and usual exceptions and baskets, including an exception to the limitation on restricted payments for distributions of available cash, as permitted by CPPL's organizational documents. If CPPL fails to perform its obligations under these and other covenants, the revolving credit commitment could be terminated and any outstanding borrowings, together with accrued interest, under the revolving credit facility could be declared immediately due and payable. The CPPL revolving credit facility also contains customary events of default, including cross default provisions that apply to any other indebtedness CPPL may have with an outstanding principal amount in excess of \$50 million.

CPPL's revolving credit facility also contains certain negative financial covenants that will require CPPL (a) to maintain a consolidated total leverage ratio that does not exceed (i) 5.75 to 1.00 for the test period ending December 31, 2015, (ii) 5.50 to 1.00 for any test period ending after December 31, 2015 and on or before December 31, 2017, and (iii) 5.00 to 1.00 for any test period ending after December 31, 2017, provided that after December 31, 2017 and during a Specified Acquisition Period (as defined in CPPL's revolving credit facility), then the leverage ratio may not exceed 5.50 to 1.00 and (b) until CPG has received an investment grade rating, to maintain a Consolidated Interest Coverage Ratio (as defined in the MLP revolving credit facility) of no less than 3.00 to 1.00.

A breach by CPPL of any of these covenants could result in a default in respect of the related debt. If a default occurred, the relevant lenders could elect to declare the debt, together with accrued interest and other fees, to be immediately due and payable and proceed against CPPL or any guarantor, including NiSource.

Sale of Trade Accounts Receivables. Refer to Note 9, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on the sale of trade accounts receivable.

All accounts receivable sold to the purchasers are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined, in part, by required loss reserves under the agreements.

Credit Ratings. On March 30, 2015, Standard & Poor's affirmed the senior unsecured ratings for NiSource and its subsidiaries at BBB- and the commercial paper rating of A-3. Standard & Poor's outlook for NiSource and all of its subsidiaries is Watch Positive. On September 29, 2014, Moody's affirmed the NiSource senior unsecured rating of Baa2 and commercial paper rating of P-2, with a stable outlook. Additionally, Moody's affirmed NIPSCO's Baa1 rating and affirmed the Baa2 rating for Columbia of Massachusetts. On September 29, 2014, Fitch affirmed the senior unsecured ratings for NiSource at BBB-, and the existing ratings of its other rated subsidiaries. Fitch's outlook for NiSource and its subsidiaries is stable. Although all ratings continue to be investment grade, a downgrade by either Standard & Poor's or Fitch would result in a rating that is below investment grade.

Certain NiSource affiliates have agreements that contain "ratings triggers" that require increased collateral if the credit ratings of NiSource or certain of its subsidiaries are rated below BBB- by Standard & Poor's or Baa3 by Moody's. These agreements are primarily for insurance purposes and for the physical purchase or sale of power. The collateral requirement that would be required in the event of a downgrade below the ratings trigger levels would amount to approximately \$39.7 million as of March 31, 2015. In addition to agreements with ratings triggers, there are other agreements that contain "adequate assurance" or "material adverse change" provisions that could necessitate additional credit support such as letters of credit and cash collateral to transact business.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(continued)

NiSource Inc.

Contractual Obligations. There were no material changes recorded during the three months ended March 31, 2015 to NiSource's contractual obligations as of December 31, 2014 .

Market Risk Disclosures

Risk is an inherent part of NiSource's energy businesses. The extent to which NiSource properly and effectively identifies, assesses, monitors and manages each of the various types of risk involved in its businesses is critical to its profitability. NiSource seeks to identify, assess, monitor and manage, in accordance with defined policies and procedures, the following principal market risks that are involved in NiSource's energy businesses: commodity price risk, interest rate risk and credit risk. Risk management at NiSource is a multi-faceted process with oversight by the Risk Management Committee that requires constant communication, judgment and knowledge of specialized products and markets. NiSource's senior management takes an active role in the risk management process and has developed policies and procedures that require specific administrative and business functions to assist in the identification, assessment and control of various risks. These include but are not limited to market, operational, financial, compliance and strategic risk types. In recognition of the increasingly varied and complex nature of the energy business, NiSource's risk management process, policies and procedures continue to evolve and are subject to ongoing review and modification.

Commodity Price Risk

NiSource is exposed to commodity price risk as a result of its subsidiaries' operations involving natural gas and power. To manage this market risk, NiSource's subsidiaries use derivatives, including commodity futures contracts, swaps and options. NiSource is not involved in speculative energy trading activity.

Commodity price risk resulting from derivative activities at NiSource's rate-regulated subsidiaries is limited, since regulations allow recovery of prudently incurred purchased power, fuel and gas costs through the ratemaking process, including gains or losses on these derivative instruments. If states should explore additional regulatory reform, these subsidiaries may begin providing services without the benefit of the traditional ratemaking process and may be more exposed to commodity price risk. Some of NiSource's rate-regulated utility subsidiaries offer commodity price risk products to its customers for which derivatives are used to hedge forecasted customer usage under such products. These subsidiaries do not have regulatory recovery orders for these products and are subject to gains and losses recognized in earnings due to hedge ineffectiveness.

There are no material commodity price risk assets or liabilities as of March 31, 2015 and December 31, 2014 .

Interest Rate Risk

NiSource is exposed to interest rate risk as a result of changes in interest rates on borrowings under its revolving credit agreement, term loans, commercial paper program and accounts receivable programs, which have interest rates that are indexed to short-term market interest rates. Based upon average borrowings and debt obligations subject to fluctuations in short-term market interest rates, an increase (or decrease) in short-term interest rates of 100 basis points (1%) would have increased (or decreased) interest expense by \$4.9 million for the three months ended March 31, 2015 and \$3.7 million for the three months ended March 31, 2014 .

Credit Risk

Due to the nature of the industry, credit risk is embedded in many of NiSource's business activities. NiSource's extension of credit is governed by a Corporate Credit Risk Policy. In addition, Risk Management Committee guidelines are in place which document management approval levels for credit limits, evaluation of creditworthiness, and credit risk mitigation efforts. Exposures to credit risks are monitored by the Corporate Credit Risk function which is independent of commercial operations. Credit risk arises due to the possibility that a customer, supplier or counterparty will not be able or willing to fulfill its obligations on a transaction on or before the settlement date. For derivative related contracts, credit risk arises when counterparties are obligated to deliver or purchase defined commodity units of gas or power to NiSource at a future date per execution of contractual terms and conditions. Exposure to credit risk is measured in terms of both current obligations and the market value of forward positions net of any posted collateral such as cash and letters of credit.

NiSource closely monitors the financial status of its banking credit providers. NiSource evaluates the financial status of its banking partners through the use of market-based metrics such as credit default swap pricing levels, and also through traditional credit ratings provided by major credit rating agencies.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

Fair Value Measurement

NiSource measures certain financial assets and liabilities at fair value. The level of the fair value hierarchy disclosed is based on the lowest level of input that is significant to the fair value measurement. NiSource's financial assets and liabilities include price risk assets and liabilities, available-for-sale securities and a deferred compensation plan obligation.

Exchange-traded derivative contracts are generally based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards, and options. In certain instances, NiSource may utilize models to measure fair value. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability, and market-corroborated inputs, i.e., inputs derived principally from or corroborated by observable market data by correlation or other means. Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures.

Refer to Note 8, "Fair Value" in the Notes to the Condensed Consolidated Financial Statements (unaudited) for additional information on NiSource's fair value measurements.

Off Balance Sheet Arrangements

As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit.

NiSource has purchase and sales agreement guarantees totaling \$25.6 million, which guarantee purchaser performance or seller performance under covenants, obligations, liabilities, representations or warranties under the agreements. No amounts related to the purchase and sales agreement guarantees are reflected in the Condensed Consolidated Balance Sheets (unaudited). Management believes that the likelihood NiSource would be required to perform or otherwise incur any significant losses associated with any of the aforementioned guarantees is remote.

NiSource has other guarantees outstanding. Refer to Note 16-A, "Other Commitments and Guarantees - Guarantees and Indemnities," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information about NiSource's off balance sheet arrangements.

Other Information

Critical Accounting Policies

There were no significant changes to critical accounting policies for the period ended March 31, 2015.

Recently Issued Accounting Pronouncements

In April 2015, the FASB issued ASU 2015-05, *Intangibles - Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement*. ASU 2015-05 clarifies guidance on determining whether a cloud computing arrangement contains a software license that should be accounted for as internal-use software. NiSource is required to adopt ASU 2015-05 for periods beginning after December 15, 2015, including interim periods, and the guidance is permitted to be applied either (1) prospectively to all agreements entered into or materially modified after the effective date or (2) retrospectively, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-05 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2015, the FASB issued ASU 2015-03, *Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. ASU 2015-03 changes the way entities present debt issuance costs in financial statements by presenting issuance costs on the balance sheet as a direct deduction from the related debt liability rather than as a deferred charge. Amortization of these costs will continue to be reported as interest expense. NiSource is required to adopt ASU 2015-03 for periods beginning

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(continued)

NiSource Inc.

after December 15, 2015, including interim periods, and the guidance is to be applied retrospectively with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-03 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In February 2015, the FASB issued ASU 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis*. ASU 2015-02 amends consolidation guidance by including changes to the variable and voting interest models used by entities to evaluate whether an entity should be consolidated. NiSource is required to adopt ASU 2015-02 for periods beginning after December 15, 2015, including interim periods, and the guidance is to be applied retrospectively or using a modified retrospective approach, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-02 will have on the Condensed Consolidated Financial Statements (unaudited) and Notes to Condensed Consolidated Financial Statements (unaudited).

NiSource's Gas Distribution Operations serve approximately 3.4 million customers in seven states: Ohio, Indiana, Pennsylvania, Massachusetts, Virginia, Kentucky and Maryland. The regulated subsidiaries offer both traditional bundled services as well as transportation only for customers that purchase gas from alternative suppliers. The operating results reflect the temperature-sensitive nature of customer demand with 73% of annual residential and commercial throughput affected by seasonality. As a result, segment operating income is higher in the first and fourth quarters reflecting the heating demand during the winter season.

Regulatory Matters

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Gas Distribution Operations segment.

Customer Usage. Increased efficiency of natural gas appliances and improvements in home building codes and standards has contributed to a

long-term trend of declining average use per customer. Residential and commercial usage for the three months

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(continued)

NiSource Inc.
Gas Distribution Operations

ended March 31, 2015 decreased from the same period last year primarily due to warmer weather compared to the prior year. While historically, rate design at the distribution level has been structured such that a large portion of cost recovery is based upon throughput, rather than in a fixed charge, operating costs are largely incurred on a fixed basis, and do not fluctuate due to changes in customer usage. As a result, the NiSource LDCs have pursued changes in rate design to more effectively match recoveries with costs incurred. Each of the states in which the NiSource LDCs operate has different requirements regarding the procedure for establishing changes to rate design. Columbia of Ohio restructured its rate design through a base rate proceeding and has adopted a "de-coupled" rate design which more closely links the recovery of fixed costs with fixed charges. Columbia of Massachusetts and Columbia of Virginia received regulatory approval of decoupling mechanisms which adjust revenues to an approved benchmark level through a volumetric adjustment factor. Columbia of Maryland has received regulatory approval to implement a residential class revenue normalization adjustment, a decoupling mechanism whereby monthly revenues that exceed or fall short of approved levels are reconciled in subsequent months. In a prior base rate proceeding, Columbia of Pennsylvania implemented a residential weather normalization adjustment charge. In a prior base rate proceeding, NIPSCO implemented a higher fixed customer charge for residential and small customer classes moving toward full straight fixed variable rate design.

Environmental Matters

Currently, various environmental matters impact the Gas Distribution Operations segment. As of March 31, 2015, reserves have been recorded to cover probable environmental response actions. Refer to Note 16-C, "Other Commitments and Guarantees - Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Gas Distribution Operations segment.

Weather

In general, NiSource calculates the weather related revenue variance based on changing customer demand driven by weather variance from normal heating degree-days. Normal is evaluated using heating degree days across the NiSource distribution region. While the temperature base for measuring heating degree days (i.e. the estimated average daily temperature at which heating load begins) varies slightly across the region, the NiSource composite measurement is based on 65 degrees. NiSource composite heating degree days reported do not directly correlate to the weather related dollar impact on the results of Gas Distribution Operations. Heating degree days experienced during different times of the year or in different operating locations may have more or less impact on volume and dollars depending on when and where they occur. When the detailed results are combined for reporting, there may be weather related dollar impacts on operations when there is not an apparent or significant change in the aggregated NiSource composite heating degree-day comparison.

Weather in the Gas Distribution Operations' territories for the first quarter of 2015 was 18% colder than normal and 1% warmer than the first quarter in 2014.

Throughput

Total volumes sold and transported of 402.1 million MMDth for the first quarter of 2015 increased by 4.2 MMDth from the same period last year. This 1.1% increase in volumes was primarily attributable to higher industrial throughput.

Net Revenues

Net revenues for the first quarter of 2015 were \$733.7 million, an increase of \$91.1 million from the same period in 2014. The increase in net revenues is due primarily to an increase in regulatory and tax trackers, which are offset in expense, of \$50.6 million and an increase of \$33.2 million for regulatory and service programs, including the impacts of rate cases at Columbia of Pennsylvania, Columbia of Virginia and Columbia of Massachusetts, as well as the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Additionally, there was higher revenue of \$5.3 million resulting from the prior year reduction in revenue from NIPSCO's GCIM.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased gas costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three months ended March 31, 2015 was a revenue decrease of \$63.6 million compared to a revenue increase of \$31.5 million for the three months ended March 31, 2014.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(continued)

NiSource Inc.
Gas Distribution Operations

Operating Income

For the first quarter of 2015 , Gas Distribution Operations reported operating income of \$325.2 million, an increase of \$23.4 million from the comparable 2014 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses were \$67.7 million higher than the comparable period reflecting increased regulatory and tax trackers, which are offset in net revenues, of \$50.6 million, higher employee and administrative expenses of \$6.6 million, increased depreciation of \$3.9 million, and higher outside service costs of \$3.8 million.

NiSource's Columbia Pipeline Group Operations subsidiaries own and operate approximately 15,000 miles of interstate pipelines and operate one of the nation's largest underground natural gas storage systems, capable of operationally storing approximately 622 Bcf of natural gas. Through its subsidiaries, Columbia Transmission, Columbia Gulf, Columbia Midstream and Crossroads Pipeline, NiSource owns and operates an interstate pipeline network extending from the Gulf of Mexico to New York and the eastern seaboard. Together, these companies serve customers in 16 northeastern, mid-Atlantic, Midwestern and southern states and the District of Columbia.

Columbia Pipeline Group Operations' most significant projects are as follows:

West Side Expansion (Columbia Gulf-Bi-Directional) . The Columbia Pipeline Group Operations segment invested approximately \$113 million in system modifications and horsepower to provide a firm backhaul transportation path from the Leach, Kentucky interconnect with Columbia Transmission to Gulf Coast markets on the Columbia Gulf system. This investment will increase capacity up to 540,000 Dth/d to transport Marcellus production originating in West Virginia. The project is supported by long-term firm contracts and was placed in service in the fourth quarter of 2014. The Alexandria Compression portion of Columbia Gulf's West Side Expansion (approximately \$75 million in capital costs) will be placed in service in the third quarter of 2015.

Chesapeake LNG . The project involves the investment of approximately \$33 million to replace 120,000 Dth/d of existing LNG peak shaving facilities nearing the end of their useful lives. This project is expected to be placed in service in the second quarter of 2015.

Big Pine Expansion . The Columbia Pipeline Group Operations segment is investing approximately \$65 million to make a connection to the Big Pine pipeline and add compression facilities that will add incremental capacity. The additional approximately 10-mile, 20-inch pipeline and compression facilities will support Marcellus shale production in western Pennsylvania. Approximately 50% of the increased capacity generated by the project is supported by a long-term, fee-based agreement with a regional producer, with the remaining capacity expected to be sold to other area producers in the near term. This project is expected to be placed in service by the third quarter of 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(continued)

NiSource Inc.
Columbia Pipeline Group Operations

East Side Expansion . The Columbia Pipeline Group Operations segment has received FERC authorization to construct facilities for this project, which will provide access for production from the Marcellus shale to the northeastern and mid-Atlantic markets. Supported by long-term firm contracts, the project will add up to 312,000 Dth/d of capacity and is expected to be placed in service in the fourth quarter of 2015. The Columbia Pipeline Group Operations segment plans to invest up to approximately \$275 million in this project.

Washington County Gathering . A large producer has contracted with the Columbia Pipeline Group Operations segment to build an approximately 20-mile dry gas gathering system consisting of 8-inch, 12-inch, and 16-inch pipelines, a 20-inch lateral, as well as compression, measurement and dehydration facilities. The Columbia Pipeline Group Operations segment expects to invest approximately \$120 million beginning in 2014 through 2018 and expects to commence construction in early 2015. The initial wells are expected to come on-line in the third quarter of 2015. The project is supported with minimum volume commitments and further enhances Columbia Midstream's relationship with a producer that has a large Marcellus acreage position.

Kentucky Power Plant Project . The Columbia Pipeline Group Operations segment expects to invest approximately \$24 million to construct 2.7 miles of 16-inch greenfield pipeline and other facilities to a third-party power plant from Columbia Transmission's Line P. This project will provide up to 72,000 Dth/d of new firm service, is supported by a long-term firm contract, and will be placed in service in the second quarter of 2016.

Utica Access Project . The Columbia Pipeline Group Operations segment intends to invest approximately \$50 million to construct 4.7 miles of 24-inch greenfield pipeline to provide 205,000 Dth/d of new firm service to allow Utica production access to liquid trading points on our system. This project is expected to be in service in the fourth quarter of 2016. The Columbia Pipeline Group Operations segment has secured firm contracts for the full delivery volume.

Leach XPress . The Columbia Pipeline Group Operations segment finalized agreements for the installation of approximately 124 miles of 36-inch pipeline from Majorsville to the Crawford compressor station ("Crawford CS") located on the Columbia Transmission system, 27 miles of 36-inch pipeline from Crawford CS to the McArthur compressor station located on the Columbia Transmission system, and approximately 101,700 horsepower across multiple sites to provide approximately 1.5 MMDth/d of capacity out of the Marcellus and Utica production regions to the Leach compressor station ("Leach CS") located on the Columbia Gulf system, TCO Pool, and other markets on the Columbia Transmission system. Virtually all of the project's capacity has been secured with long-term firm contracts. The Columbia Pipeline Group Operations segment expects the project to go in service in the fourth quarter of 2017 and will invest approximately \$1.4 billion in this project.

Rayne XPress. This project would transport approximately 1 MMDth/d of growing southwest Marcellus and Utica production away from constrained production areas to markets and liquid transaction points. Capable of receiving gas from Columbia Transmission's Leach XPress project, gas would be transported from the Leach, Kentucky interconnect with Columbia Transmission in a southerly direction towards the Rayne compressor station in southern Louisiana to reach various Gulf Coast markets. The project also includes the creation of a new compressor station. The Columbia Pipeline Group Operations segment has secured definitive agreements for firm service for the project's capacity and expects the project to be placed in service in the fourth quarter of 2017. The Columbia Pipeline Group Operations segment expects to invest approximately \$383 million on the Rayne XPress project to modify existing facilities and to add new compression.

Cameron Access Project. The Columbia Pipeline Group Operations segment is investing approximately \$310 million in an 800,000 Dth/d expansion of the Columbia Gulf system through improvements to existing pipeline and compression facilities, a new state-of-the-art compressor station near Lake Arthur, Louisiana, and the installation of a new 26-mile pipeline in Cameron Parish to provide for a direct connection to the Cameron LNG Terminal. The Columbia Pipeline Group Operations segment expects the project to be placed in service in the first quarter of 2018 and has secured long-term firm contracts for approximately 90% of the increased volumes.

WB XPress . The Columbia Pipeline Group Operations segment expects to invest approximately \$850 million in this project to expand the WB system through looping and added compression in order to transport approximately 1.3 MMDth/d of Marcellus Shale production on the Columbia Transmission system to pipeline interconnects and East Coast markets, which includes access to the Cove Point LNG terminal. The Columbia Pipeline Group Operations segment expects this project to be placed in service in the fourth quarter of 2018.

[Table of Contents](#)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc. **Columbia Pipeline Group Operations**

Equity Investments

Pennant. Columbia Midstream entered into a 50:50 joint venture in 2012 with affiliates of Hilcorp to construct new wet natural gas gathering pipeline infrastructure and NGL processing facilities to support natural gas production in the Utica Shale region of northeastern Ohio and western Pennsylvania. Columbia Midstream and Hilcorp jointly own Pennant with Columbia Midstream serving as the operator of Pennant and the facilities. NiSource accounts for the joint venture under the equity method of accounting.

During the first quarter of 2015 and 2014, Columbia Midstream made contributions of zero and \$28.4 million, respectively, to Pennant. Pennant distributed \$1.2 million of earnings and returned \$1.3 million of capital to Columbia Midstream during the three months ended March 31, 2015. No distributions were received from Pennant during the three months ended March 31, 2014.

Millennium. The Millennium system is a FERC-regulated interstate natural gas transportation pipeline system, which consists of approximately 253 miles of natural gas transmission pipeline and three compressor stations with approximately 43,000 hp of installed capacity. Millennium transports an average of 1 Bcf/d of natural gas sourced from the Marcellus shale to markets across New York's Southern Tier and lower Hudson Valley, as well as to the New York City markets through its pipeline interconnections. Columbia Transmission owns a 47.5% interest in Millennium and acts as operator for the pipeline in partnership with DTE Millennium Company and National Grid Millennium LLC, which each own an equal remaining share of the company.

During the first quarter of 2015 and 2014, Columbia Transmission made contributions of zero and \$2.6 million, respectively, to Millennium. Columbia Transmission received distributions of earnings of \$16.6 million and \$7.1 million for the three months ended March 31, 2015 and 2014, respectively.

Hardy Storage. The Hardy Storage facility is a FERC-regulated interstate natural gas storage system, which consists of 29 storage wells in a depleted gas production field in Hampshire and Hardy counties, West Virginia, 36.7 miles of pipeline and 7,100 hp of installed capacity. The facility interconnects with Columbia Transmission and has approximately 12 MMDth of working gas capacity and 176,000 Dth/d of withdrawal capacity. Columbia Transmission owns a 50% interest in Hardy Storage and acts as operator for the system. A third party, Piedmont Natural Gas Company, Inc., owns the remaining 50% interest in Hardy Storage.

During both the first quarter of 2015 and 2014, NiSource received distributions of earnings of \$0.5 million from Hardy Storage. NiSource made no contributions during the first quarter of 2015 or 2014.

Nature of Sales

Columbia Transmission and Columbia Gulf compete for transportation customers based on the type of service a customer needs, operating flexibility, available capacity and price. Columbia Gulf and Columbia Transmission provide a significant portion of total transportation services under firm contracts and derive a smaller portion of revenues through interruptible contracts, with management seeking to maximize the portion of physical capacity sold under firm contracts.

Firm service contracts require pipeline capacity to be reserved for a given customer between certain receipt and delivery points. Firm customers generally pay a "capacity reservation" fee based on the amount of capacity being reserved regardless of whether the capacity is used, plus an incremental usage fee when the capacity is used. Annual capacity reservation revenues derived from firm service contracts generally remain constant over the life of the contract because the revenues are based upon capacity reserved and not whether the capacity is actually used. The high percentage of revenue derived from capacity reservation fees mitigates the risk of revenue fluctuations within the Gas Pipeline Group Operations segment due to changes in near-term supply and demand conditions. The following percentages exclude the impact of intrasegment revenues and tracker-related revenues. For the quarter ended March 31, 2015, approximately 93.9% of the transportation revenues were derived from capacity reservation fees paid under firm contracts and 4.5% of the transportation revenues were derived from usage fees under firm contracts compared to approximately 92.6% and 5.2%, respectively, for the quarter ended March 31, 2014.

Interruptible transportation service is typically short term in nature and is generally used by customers that either do not need firm service or have been unable to contract for firm service. These customers pay a usage fee only for the volume of gas actually transported. The ability to provide this service is limited to available capacity not otherwise used by firm customers, and customers receiving services under interruptible contracts are not assured capacity in the pipeline facilities. Columbia Pipeline Group Operations provides interruptible service at competitive prices in order to capture short term market opportunities as they occur and interruptible service is viewed by management as an important strategy to optimize revenues from the gas transmission assets.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(continued)

NiSource Inc.
Columbia Pipeline Group Operations

For the quarters ended March 31, 2015 and 2014 , approximately 1.6% and 2.2%, respectively, of the transportation revenues were derived from interruptible contracts.

Regulatory Matters

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on regulatory matters for the Columbia Pipeline Group Operations segment.

Environmental Matters

Currently, various environmental matters impact the Columbia Pipeline Group Operations segment. As of March 31, 2015 , a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 16-C, "Other Commitments and Guarantees - Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Columbia Pipeline Group Operations segment.

Throughput

Columbia Transmission's throughput consists of gas transportation service deliveries to LDC city gates, to gas fired power plants, other industrial customers, or other interstate pipelines in its market area. Columbia Transmission's market area covers portions of northeastern, mid-Atlantic, Midwestern, and southern states as well as the District of Columbia. Throughput for Columbia Gulf reflects transportation services for gas delivered through its mainline and laterals. Crossroads Pipeline's throughput comes from deliveries it makes to its customers and other pipelines that are located in northern Indiana and Ohio. Intersegment eliminations represent gas delivered to affiliated pipelines within the segment.

Throughput for the Columbia Pipeline Group Operations segment totaled 619.4 MMDth for the first quarter of 2015 , compared to 588.5 MMDth for the same period in 2014 . The increase of 30.9 MMDth primarily reflected increased Marcellus and Utica natural gas production.

Net Revenues

Net revenues were \$339.7 million for the first quarter of 2015 , a decrease of \$5.8 million from the same period in 2014 . The decrease in net revenues is due primarily to lower regulatory trackers, which are offset in expense, of \$27.4 million and other miscellaneous decreases of \$9.1 million. This decrease was partially offset by increased demand margin revenue of \$30.7 million as a result of growth projects placed in service and new firm contracts.

Operating Income

Operating income was \$163.0 million for the first quarter of 2015 , an increase of \$4.1 million from the first quarter of 2014 . Operating income increased as a result of decreased operating expenses and higher equity earnings, partially offset by lower net revenues, as described above. Operating expenses were \$4.3 million lower due to decreased regulatory trackers, which are offset in net revenues, of \$27.4 million. This decrease in operating expenses was partially offset by lower gains on the sale of assets of \$12.2 million primarily resulting from decreased gains on conveyances of mineral interests, higher employee and administrative expenses of \$7.5 million and increased depreciation of \$2.8 million. Equity Earnings increased \$5.6 million due to increased earnings at Millennium attributable to growth projects placed in service and higher earnings at Pennant as a result of the joint venture projects going fully in-service.

NiSource generates and distributes electricity, through its subsidiary NIPSCO, to approximately 461 thousand customers in 20 counties in the northern part of Indiana. The operating results reflect the temperature-sensitive nature of customer demand with annual sales affected by temperatures in the northern part of Indiana. As a result, segment operating income is generally higher in the second and third quarters, reflecting cooling demand during the summer season.

Electric Supply

On October 31, 2014, NIPSCO submitted its 2014 Integrated Resource Plan with the IURC. The plan evaluates demand-side and supply-side resource alternatives to reliably and cost-effectively meet NIPSCO customers' future energy requirements over the next twenty years. Existing resources are expected to be sufficient, assuming favorable outcomes for environmental upgrades, to meet customers' needs into the next decade. NIPSCO continues to monitor and assess economic, regulatory and legislative activity, and will update its resource plan as appropriate.

Regulatory Matters

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Electric Operations segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(continued)

NiSource Inc.
Electric Operations

Environmental Matters

Currently, various environmental matters impact the Electric Operations segment. As of March 31, 2015, a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 16-C, "Other Commitments and Guarantees - Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Electric Operations segment.

Transmission Upgrade Agreements

On February 11, 2014, NIPSCO entered into two TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors have agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs, filed a complaint at the FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. On December 8, 2014, the FERC issued an order in response to the complaint finding that it is appropriate for NIPSCO to recover, through the multiplier, substantiated costs of ownership related to the TUAs. The FERC set for hearing the issue of what constitutes the incremental costs NIPSCO will incur, but is holding that hearing in abeyance to allow for settlement. NIPSCO will continue to monitor developments in this matter and does not believe the impact is material to the Condensed Consolidated Financial Statements (unaudited).

Sales

Electric Operations sales quantities for the first quarter of 2015 were 4,382.7 gwh, a decrease of 401.3 gwh compared to the first quarter of 2014. The 8.4% decrease is primarily attributable to decreases in sales for resale and industrial usage. The decrease in sales for resale was primarily attributable to increased opportunities for off-system sales during the first quarter of 2014 due to the cold weather. The decrease in industrial usage was primarily attributable to higher internal generation from large industrial customers during the first quarter of 2015.

Net Revenues

Net revenues were \$270.1 million for the first quarter of 2015, an increase of \$0.1 million from the same period in 2014. The increase in net revenues is due primarily to lower fuel handling costs of \$3.5 million and higher net revenues of \$3.2 million as a result of two electric transmission projects authorized by the MISO. Additionally, there were increased trackers, which are offset in expense, of \$2.2 million and a higher return on the environmental capital investment recovery of \$1.6 million due to an increased plant balance eligible for recovery. These increases were partially offset by lower off-system sales of \$8.6 million.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased fuel costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three months ended March 31, 2015 was a revenue decrease of \$22.7 million compared to a revenue increase of \$20.3 million for the three months ended March 31, 2014.

Operating Income

For the first quarter of 2015, Electric Operations reported operating income of \$70.0 million, a decrease of \$8.9 million from the comparable 2014 period. Operating income decreased as a result of higher operating expenses of \$9.0 million due primarily to increased employee and administrative expenses of \$3.0 million, higher environmental expenses of \$2.3 million and increased trackers, which are offset in net revenues, of \$2.2 million.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

NiSource Inc.

For a discussion regarding quantitative and qualitative disclosures about market risk see “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Market Risk Disclosures.”

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

NiSource’s chief executive officer and its principal financial officer, are responsible for evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). NiSource's disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including NiSource's chief executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based upon that evaluation, NiSource's chief executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to provide reasonable assurance that financial information was processed, recorded and reported accurately.

Changes in Internal Controls

There have been no changes in NiSource's internal control over financial reporting during the fiscal quarter covered by this report that has materially affected, or is reasonably likely to materially affect, NiSource's internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

NiSource Inc.

On March 6, 2015, Columbia Transmission and Pike County Conservation District executed a Consent Assessment of Civil Penalty to resolve the NOV issued on August 29, 2014 alleging violations of the Pennsylvania Clean Streams Law and Columbia Transmission's Erosion and Sediment Control General Permit in connection with Columbia Transmission's Line 1278 Replacement Project. Columbia Transmission paid \$171,500 on March 13, 2015 to resolve the allegations of the NOV.

ITEM 1A. RISK FACTORS

There were no material changes from the risk factors disclosed in NiSource's 2014 Annual Report on Form 10-K filed on February 18, 2015.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

NiSource Inc.

** Exhibit filed herewith.

Pursuant to Item 601(b)(4)(iii) of Regulation S-K, NiSource hereby agrees to furnish the SEC, upon request, any instrument defining the rights of holders of long-term debt of NiSource not filed as an exhibit herein. No such instrument authorizes long-term debt securities in excess of 10% of the total assets of NiSource and its subsidiaries on a consolidated basis.

March 17, 2015

Mr. Donald Brown
114 Edgefield Drive
Downingtown, PA 19335

Dear Donald:

On behalf of NiSource Inc., I am pleased to offer you employment as Executive Vice President Finance reporting to Joseph Hamrock, and Executive Vice President and Chief Financial Officer of NiSource, upon appointment by the NiSource Board. Speaking on behalf of our leadership team, we look forward to the contribution you will make to our organization. This letter does not constitute an offer of a contract of guaranteed employment; if you accept this offer, you will be an employee at will. The terms of the offer are as follows.

Position : You will join us as Executive Vice President Finance, beginning April 6, 2015. You will report to Joseph Hamrock. Your work location will be in Columbus, Ohio.

Compensation : Your annual base salary will be \$450,000, payable monthly. Adjustments to base salary may be made periodically during your employment.

Benefits : While you are employed by NiSource Inc., or its subsidiaries (the "Company"), you will be entitled to participate in all benefit plans, including without limitation, any health, life and disability insurance plans, qualified and nonqualified retirement plans, or any other plan or benefit generally afforded to similarly situated executives of NiSource Inc.

Short-Term Incentive : Your annual incentive opportunity under our annual incentive plan will be based on a target of 60% of base salary, with a range of 25% to 95%. The payment of this short-term incentive is dependent upon Company performance, your own performance and your status as an employee in good standing. Actual payment may be greater than or less than the 60%, based on a combination of the stated factors. Annual incentive plans are determined each year based on business objectives and market conditions.

Signing Bonus : You will receive a signing bonus in the gross amount of \$75,000. This signing bonus will be paid within 30 days of your start date. You agree to repay this signing bonus to the Company in the event you choose to leave the Company before April 6, 2016.

Long-Term Incentive : You will also have the opportunity to participate in a long-term incentive compensation program, under the 2010 Omnibus Incentive Plan, on the same basis as other senior executives of the Company. Subject to approval by the Officer Nomination and Compensation Committee of the Board, you will receive a long-term incentive grant for 2015 in the amount of \$750,000. One hundred percent of the value of this award will be in restricted stock units, vesting in the first quarter of 2018.

Special Stock Grant: To compensate you for the loss of a portion of your incentive awards from your prior employer, you will also receive a grant of restricted stock units pursuant to the 2010 Omnibus Incentive Plan. The number of shares to be granted will be determined by dividing \$510,000 by the fair market value of one common share of NiSource Inc. on the date of grant. Vesting of the restricted stock shall be based solely on the passage of time. The restricted stock shall vest 1/3 increment on the first anniversary of your employment, and the final 2/3 increment will vest on the second anniversary of your employment.

Relocation: As a member of our Senior Management Team, you will be eligible to participate in the NiSource Relocation Policy at the Tier III Managerial Level (the executive level). The effective date of your relocation will be determined at a later date.

Vacation: You will receive four weeks of paid vacation per year.

Change in Control: Subject to approval by the Officer Nomination and Compensation Committee of the Board, NiSource Inc. will enter into a Change in Control Agreement with you on substantially the same terms as other senior executives of the Company.

Severance: You will be eligible to participate in the NiSource Executive Severance Policy in the event your employment with the Company is terminated.

NiSource Policies. You are expected to familiarize yourself with and observe all Company policies. Following your acceptance of this offer and during the course of your employment with the Company, you will have access to confidential and proprietary information of the Company. You agree to maintain the confidentiality of such information, before, during and after your employment.

Dispute Resolution: Should there be any dispute as to the meaning or application of this letter, both parties agree to submit the dispute to nonbinding mediation at the Company's expense. In the event the parties are unable to resolve the dispute through mediation, they agree to submit the dispute to binding arbitration under the standard employment rules of the American Arbitration Association. This letter shall be construed in accordance with the laws of the State of Ohio.

Your employment is contingent upon passing a drug screen, and completion of formal reference checking, which includes a background check of previous employment, military and driving history, professional references, and any criminal record.

I hope that you accept the Company's offer of employment. To acknowledge your acceptance, please sign and return one copy of this letter to me. We are truly delighted with your interest in working with us. Please feel free to contact me to discuss any questions you may have. We look forward to you joining us.

Sincerely,

/s/ Robert D. Campbell

Robert D. Campbell
Sr. Vice President
Human Resources

/s/ Donald Brown

Date

**Certification Pursuant to
Section 302 of the Sarbanes-Oxley Act of 2002**

I, Robert C. Skaggs, Jr., certify that:

1. I have reviewed this Quarterly Report of NiSource Inc. on Form 10-Q for the quarter ended March 31, 2015 ;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

1. Basis of Accounting Presentation

The accompanying Condensed Consolidated Financial Statements (unaudited) for NiSource Inc. ("NiSource" or the "Company") reflect all normal recurring adjustments that are necessary, in the opinion of management, to present fairly the results of operations in accordance with GAAP in the United States of America. The accompanying financial statements contain the accounts of the Company and its majority-owned or controlled subsidiaries, including Columbia Pipeline Group, Inc. ("CPG"). Refer to Note 21 for further information regarding the Separation of CPG from the Company, which was completed on July 1, 2015. Beginning with NiSource's quarterly Report on Form 10- for the three and nine months ended September 30, 2015, CPG will be reported as discontinued operations.

The accompanying financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2014 . Income for interim periods may not be indicative of results for the calendar year due to weather variations and other factors.

The Condensed Consolidated Financial Statements (unaudited) have been prepared pursuant to the rules and regulations of the SEC. Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although NiSource believes that the disclosures made in this quarterly report on Form 10- are adequate to make the information herein not misleading.

2. Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* . ASU 2014-09 outlines a single, comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In July 2015, the FASB deferred the effective date for ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim periods. Companies are permitted to adopt ASU 2014-09 on the original effective date of the ASU. NiSource is currently evaluating the impact the adoption of ASU 2014-09 will have on its Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2015, the FASB issued ASU 2015-05, *Intangibles - Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement*. ASU 2015-05 clarifies guidance on determining whether a cloud computing arrangement contains a software license that should be accounted for as internal-use software. NiSource is required to adopt ASU 2015-05 for periods beginning after December 15, 2015, including interim periods, and the guidance is permitted to be applied either (1) prospectively to all agreements entered into or materially modified after the effective date or (2) retrospectively, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-05 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2015, the FASB issued ASU 2015-03, *Interest - Imputation of Interest (Subtopic 835-30) : Simplifying the Presentation of Debt Issuance Costs* . ASU 2015-03 changes the way entities present debt issuance costs in financial statements by presenting issuance costs on the balance sheet as a direct deduction from the related debt liability rather than as a deferred charge. Amortization of these costs will continue to be reported as interest expense. NiSource is required to adopt ASU 2015-03 for periods beginning after December 15, 2015, including interim periods, and the guidance is to be applied retrospectively with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-03 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In February 2015, the FASB issued ASU 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis* . ASU 2015-02 amends consolidation guidance by including changes to the variable and voting interest models used by entities to evaluate whether an entity should be consolidated. NiSource is required to adopt ASU 2015-02 for periods beginning after December 15, 2015, including interim periods, and the guidance is to be applied retrospectively or using a modified retrospective approach, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-02 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****3. Columbia Pipeline Partners LP (CPPL)**

On December 5, 2007, NiSource formed CPPL (the "Partnership") (NYSE: CPPL) to own, operate and develop a portfolio of pipelines, storage and related assets.

On February 11, 2015, CPPL completed its IPO of 53.8 million common units representing limited partnership interests, constituting 53.5% of the Partnership's outstanding limited partnership interests. The Partnership received 1,168.4 million of net proceeds from the IPO. NiSource, through CPG, owned the general partner of the Partnership, all of the Partnership's subordinated units and the incentive distribution rights. The assets of the Partnership consist of a 15.7 percent limited partner interest in Columbia OpCo, which consists of substantially all of the Columbia Pipeline Group Operations segment. The operations of the Partnership are consolidated in NiSource's financial statements for the three and six months ended June 30, 2015. Beginning July 1, 2015, CPG is no longer a subsidiary of NiSource and, thus, NiSource ceased to own (a) any interest in Columbia OpCo, (b) the general partner of the Partnership, (c) any of the limited partner interests in the Partnership or (d) any of the incentive distribution rights in the Partnership. As of June 30, 2015, the portion of CPPL owned by the public is reflected as a noncontrolling interest in the Condensed Consolidated Financial Statements (unaudited).

The table below summarizes the effects of the changes in NiSource's ownership interest in Columbia OpCo on equity for the three and six months ended June 30, 2015:

<i>(in millions)</i>	Three Months Ended June 30, 2015	Six Months Ended June 30, 2015
Net (loss) income attributable to NiSource	\$ (36.4)	\$ 232.0
Increase in NiSource's paid-in capital for the sale of 8.4% of Columbia OpCo	—	227.1
Change from net (loss) income attributable to NiSource and transfers to noncontrolling interest	\$ (36.4)	\$ 459.1

The Partnership maintains a 500.0 million revolving credit facility, of which 50.0 million is available for issuance of letters of credit. The purpose of the facility is to provide cash for general partnership purposes, including working capital, capital expenditures and the funding of capital calls. At June 30, 2015, CPPL had 20.0 million of outstanding borrowings under this facility.

4. Earnings Per Share

Basic EPS is computed by dividing net income attributable to NiSource by the weighted-average number of shares of common stock outstanding for the period. The weighted average shares outstanding for diluted EPS includes the incremental effects of the various long-term incentive compensation plans. The numerator in calculating both basic and diluted EPS for each period is reported net income attributable to NiSource. The computation of diluted average common shares for the three months ended June 30, 2015 is not presented since NiSource had a loss from continuing operations and a net loss on the Condensed Statements of Consolidated (Loss) Income (unaudited) during the period and any incremental shares would have an antidilutive effect on EPS. The computation of diluted average common shares follows:

<i>(in thousands)</i>	Three Months Ended June 30, 2014	2015	Six Months Ended June 30, 2014
Denominator			
Basic average common shares outstanding	315,013	317,035	314,620
Dilutive potential common shares:			
Stock options	41	—	39
Shares contingently issuable under employee stock plans	616	513	580
Shares restricted under stock plans	431	483	427
Diluted Average Common Shares	316,101	318,031	315,666

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****5. Gas in Storage**

Both the LIFO inventory methodology and the weighted average cost methodology are used to value natural gas in storage. Gas Distribution Operations price natural gas storage injections at the average of the costs of natural gas supply purchased during the year. For interim periods, the difference between current projected replacement cost and the LIFO cost for quantities of gas temporarily withdrawn from storage is recorded as a temporary LIFO liquidation credit or debit within the Condensed Consolidated Balance Sheets (unaudited). Due to seasonality requirements, NiSource expects interim variances in LIFO layers to be replenished by year-end. NiSource had a temporary LIFO liquidation debit of 9.8 million and zero as of June 30, 2015 and December 31, 2014, respectively, for certain gas distribution companies recorded within "Prepayments and other," on the Condensed Consolidated Balance Sheets (unaudited).

6. Asset Retirement Obligations

Certain costs of removal that have been, and continue to be, included in depreciation rates and collected in the service rates of the rate-regulated subsidiaries are classified as "Regulatory liabilities" on the Condensed Consolidated Balance Sheets (unaudited).

Changes in NiSource's liability for asset retirement obligations for the six months ended June 30, 2015 and 2014 are presented in the table below:

<i>(in millions)</i>	2015	2014
Balance as of January 1,	\$ 159.4	174.4
Accretion expense	0.6	0.8
Accretion recorded as a regulatory asset/liability	3.9	4.2
Additions	7.6	3.0
Settlements	(1.2)	(1.0)
Change in estimated cash flows ⁽¹⁾	34.4	(3.4)
Balance as of June 30,	\$ 204.7	178.0

⁽¹⁾ The change in estimated cash flows is primarily attributable to estimated costs to comply with the EPA's final rule for regulation of CCRs and changes to cost estimates for certain solid waste management units. Refer to Note 17-C for additional information on CCRs.

7. Regulatory MattersGas Distribution Operations Regulatory Matters

Significant Rate Developments . On November 25, 2014, Columbia of Ohio filed a Notice of Intent to file an application to adjust rates associated with its IRP and DSM Riders. Columbia of Ohio filed its Application on February 27, 2015, and requested authority to increase revenues by 24.7 million . On March 26, 2015, PUCO Staff filed Comments recommending that the PUCO approve Columbia of Ohio's application in full. On April 22, 2015, the PUCO issued an Order that approved Columbia of Ohio's application. New rates went into effect on May 1, 2015.

On March 19, 2015, Columbia of Pennsylvania filed a base rate case with the Pennsylvania PUC, seeking a revenue increase of 46.2 million annually. The case is driven by Columbia of Pennsylvania's capital investment program which exceeds 197.0 million in 2015 and 211.0 million in 2016 as well as costs to train and comply with pipeline safety-related operation and maintenance expenditures. Columbia of Pennsylvania's request for rate relief includes the recovery of costs that are projected to be incurred after the implementation of new rates, as authorized by the Pennsylvania General Assembly with the passage of Act 11 of 2012. New rates are expected to go into effect during the fourth quarter of 2015.

On May 1, 2015, Columbia of Massachusetts filed its 2015 TIRF compliance filing for recovery of calendar year 2014 eligible facilities requesting recovery of a revenue requirement of 13.9 million effective November 1, 2015. If approved, the 2015 TIRF would terminate on March 1, 2016 concurrent with the effective date of the new distribution rates in Columbia of Massachusetts' currently pending rate case.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

On April 16, 2015, Columbia of Massachusetts filed a base rate case with the Massachusetts DPU. The case, which seeks increased annual revenues of approximately 49.0 million, is designed to support the company's continued focus on providing safe and reliable service in compliance with increasing state and federal regulations and oversight, and recovery of associated increased operations and maintenance costs. Columbia of Massachusetts has arrived at a settlement agreement in principle with the Attorney General in the case. The settlement agreement is expected to be finalized and filed for approval with the Massachusetts DPU in August 2015.

On April 30, 2014, Columbia of Virginia filed a base rate case with the VSCC seeking an annual revenue increase of 31.8 million. On December 10, 2014, Columbia of Virginia presented at hearing a Stipulation and Proposed Recommendation ("Stipulation") executed by certain parties to the rate proceeding. The Stipulation includes a base revenue increase of 25.2 million, recovery of costs related to the implementation of pipeline safety programs, and the proposed change to thermal billing. On January 13, 2015, the Hearing Examiner issued a report that recommended that the VSCC approve the Stipulation. On March 30, 2015, the VSCC issued an Order Remanding for Further Action. In the Order, the VSCC found the revenue increase of 25.2 million contained in the Stipulation reasonable. However, the VSCC remanded back to the Hearing Examiner for further proceedings the manner in which fixed costs are to be assigned to the fixed customer charges of each rate class. Following a hearing on June 3, 2015, the Hearing Examiner issued a report on June 30, 2015 recommending specific customer charges for each rate class. VSCC action on the report is pending, and a final order is expected by the end of 2015.

Cost Recovery and Trackers. A significant portion of the distribution companies' revenue is related to the recovery of gas costs, the review and recovery of which occurs via standard regulatory proceedings. All states require periodic review of actual gas procurement activity to determine prudence and to permit the recovery of prudently incurred costs related to the supply of gas for customers. NiSource distribution companies have historically been found prudent in the procurement of gas supplies to serve customers.

Certain operating costs of the NiSource distribution companies are significant, recurring in nature, and generally outside the control of the distribution companies. Some states allow the recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for the distribution companies to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such tracking mechanisms include GCR adjustment mechanisms, tax riders and bad debt recovery mechanisms.

Comparability of Gas Distribution Operations line item operating results is impacted by regulatory trackers that allow for the recovery in rates of certain costs such as bad debt expense. Increases in the expenses that are the subject of trackers, result in a corresponding increase in net revenues and therefore have essentially no impact on total operating income results.

Certain of the NiSource distribution companies have completed rate proceedings involving infrastructure replacement or are embarking upon regulatory initiatives to replace significant portions of their operating systems that are nearing the end of their useful lives. Each LDC's approach to cost recovery may be unique, given the different laws, regulations and precedent that exist in each jurisdiction.

NIPSCO has approval from the IURC to recover certain costs for gas transmission, distribution and storage system improvements. On February 27, 2015, NIPSCO filed gas TDSIC-2 which included 43.3 million of net capital expenditures for the period ended December 31, 2014. Given the Indiana Court of Appeals decision in NIPSCO's electric TDSIC filing (for further information, see "Electric Operations Regulatory Matters" below), NIPSCO elected to dismiss its TDSIC-2 filing in favor of supplying further detailed plan updates in the next proceeding, TDSIC-3, which NIPSCO expects to file by September 1, 2015. The TDSIC-3 filing will include net capital expenditures for the period ended June 30, 2015, inclusive of the 43.3 million from the TDSIC-2 filing.

Electric Operations Regulatory Matters

Significant Rate Developments. On July 19, 2012 and December 19, 2012, the FERC issued orders approving construction work in progress in rate base and abandoned plant cost recovery requested by NIPSCO for a 100-mile, 345 kV transmission project and its right to develop 50 percent of a 65-mile, 765 kV project. NIPSCO began recording revenue in the first quarter of 2013 using a forward looking rate, based on an average construction work in progress balance. For the six months ended June 30, 2015 and 2014, revenue of 10.0 million and 4.2 million, respectively, was recorded.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

On July 19, 2013, NIPSCO filed its electric TDSIC with the IURC. The filing included the seven-year plan of eligible investments for a total of approximately 1.1 billion with the majority of the spend occurring in years 2016 through 2020. On February 17, 2014, the IURC issued an order approving NIPSCO's seven-year plan of eligible investments. The Order also granted NIPSCO ratemaking relief associated with the eligible investments through a rate adjustment mechanism. The NIPSCO Industrial Group and the OUCC filed Notices of Appeal with the Indiana Court of Appeals in response to the IURC's ruling. On November 25, 2014, NIPSCO's requested TDSIC factors were approved on an interim basis and subject to refund, pending the outcome of the appeals of the IURC's February 17, 2014 Orders. On April 8, 2015, the Court of Appeals issued an Order concluding that the IURC erred in approving NIPSCO's seven-year plan given its lack of detail regarding the projects for years two through seven. The Court then remanded the decision to the IURC. On May 26, 2015, NIPSCO filed a settlement on remand which, among other things, requires NIPSCO to file an electric general rate case proceeding by December 31, 2015 and a new seven-year electric TDSIC plan following the filing of its next general rate case proceeding. This settlement is currently pending at the IURC, and a hearing was held on July 20, 2015. An order is expected in the third quarter of 2015.

Cost Recovery and Trackers . A significant portion of NIPSCO's revenue is related to the recovery of fuel costs to generate power and the fuel costs related to purchased power. These costs are recovered through a FAC, a standard, quarterly, "summary" regulatory proceeding in Indiana.

Certain operating costs of the Electric Operations are significant, recurring in nature, and generally outside the control of NIPSCO. The IURC allows for recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for NIPSCO to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such mechanisms include electric energy efficiency programs, MISO non-fuel costs and revenues, resource capacity charges, and environmental related costs.

NIPSCO has approval from the IURC to recover certain environmental related costs through an ECT. Under the ECT, NIPSCO is permitted to recover (1) AFUDC and a return on the capital investment expended by NIPSCO to implement environmental compliance plan projects through an ECRM and (2) related operation and maintenance and depreciation expenses once the environmental facilities become operational through an EERM.

On April 22, 2015, the IURC issued an order on ECR-25 approving NIPSCO's request to begin earning a return on 734.1 million of net capital expenditures for the period ended December 31, 2014. The order also approved a revised capital cost estimate of 264.8 million for its Phase III multi-pollutant compliance plan projects related to the Unit 12 FGD, an increase from the previous IURC approved cost estimate of 246.3 million . On July 31, 2015, NIPSCO filed ECR-26 which included 776.5 million of net capital expenditures for the period ended June 30, 2015.

NIPSCO has approval from the IURC to recover certain costs for transmission and distribution system improvements through the electric TDSIC. On November 25, 2014, the IURC approved, on an interim basis and subject to refund pending the outcome of appeals, NIPSCO's requested TDSIC factors associated with the eligible investments, which included 19.4 million of net capital expenditures for the period ended June 30, 2014. On February 26, 2015, NIPSCO filed electric TDSIC-2 which included 62.3 million of net capital expenditures for the period ended December 31, 2014. The TDSIC-2 proceeding is stayed pending the outcome of the remand. See further discussion regarding the electric TDSIC above.

Columbia Pipeline Group Operations Regulatory Matters

Columbia Transmission Customer Settlement. In January 2015, Columbia Pipeline Group Operations commenced the third year of the Columbia Transmission long-term system modernization program. The Columbia Pipeline Group Operations segment expects to invest approximately 300.0 million in modernization investments during 2015. Recovery of approximately 320.0 million of investments made in 2014 began on February 1, 2015.

Cost Recovery Trackers. A significant portion of the transmission and storage regulated companies' revenue is related to the recovery of their operating costs, the review and recovery of which occurs via standard regulatory proceedings with the FERC under section 4 of the Natural Gas Act. However, certain operating costs of the NiSource regulated transmission and storage companies are significant and recurring in nature, such as fuel for compression and lost and unaccounted for gas. The FERC allows for the recovery of such costs via cost tracking mechanisms. These tracking mechanisms allow the transmission and storage

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

companies' rates to fluctuate in response to changes in certain operating costs or conditions as they occur to facilitate the timely recovery of its costs incurred. The tracking mechanisms involve a rate adjustment that is filed at a predetermined frequency, typically annually, with the FERC and is subject to regulatory review before new rates go into effect. Other such costs under regulatory tracking mechanisms include upstream pipeline transmission, electric compression, operational purchases and sales of natural gas, and the revenue requirement for capital investments made under Columbia Transmission's long-term plan to modernize its interstate transmission system as discussed above.

8. Fair Value

A. Fair Value Measurements

Recurring Fair Value Measurements. The following tables present financial assets and liabilities measured and recorded at fair value on NiSource's Condensed Consolidated Balance Sheets (unaudited) on a recurring basis and their level within the fair value hierarchy as of June 30, 2015 and December 31, 2014 :

Recurring Fair Value Measurements June 30, 2015 (in millions)	quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of June 30, 2015
Assets				
Price risk management assets:				
Commodity financial price risk programs	0.4		0.2	0.6
Available-for-sale securities	27.3	99.7		127.0
Total	\$ 27.7	\$ 99.7	\$ 0.2	\$ 127.6
Liabilities				
Price risk management liabilities:				
Commodity financial price risk programs	8.3			8.3
Total	\$ 8.3	\$ —	\$ —	\$ 8.3

Recurring Fair Value Measurements December 31, 2014 (in millions)	quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2014
Assets				
Price risk management assets:				
Commodity financial price risk programs	0.1			0.1
Available-for-sale securities	28.4	103.5		131.9
Total	\$ 28.5	\$ 103.5	\$ —	\$ 132.0
Liabilities				
Price risk management liabilities:				
Commodity financial price risk programs	14.2		0.1	14.3
Total	\$ 14.2	\$ —	\$ 0.1	\$ 14.3

Price risk management assets and liabilities primarily include NYMEX futures and NYMEX options which are commodity exchange-traded and non-exchange-based derivative contracts. Exchange-traded derivative contracts are based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards, and options. In certain instances, these instruments may utilize models to measure fair value. NiSource uses a similar model to value similar instruments. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets,

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability, and market-corroborated inputs, i.e., inputs derived principally from or corroborated by observable market data by correlation or other means. Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures. As of June 30, 2015 and December 31, 2014, there were no material transfers between fair value hierarchies. Additionally, there were no changes in the method or significant assumptions used to estimate the fair value of NiSource's financial instruments.

Commodity price risk resulting from derivative activities at NiSource's rate-regulated subsidiaries is limited, since regulations allow recovery of prudently incurred purchased power, fuel and gas costs through the ratemaking process, including gains or losses on these derivative instruments. If states should explore additional regulatory reform, these subsidiaries may begin providing services without the benefit of the traditional ratemaking process and may be more exposed to commodity price risk. Some of NiSource's rate-regulated utility subsidiaries offer commodity price risk products to its customers for which derivatives are used to hedge forecasted customer usage under such products. These subsidiaries do not have regulatory recovery orders for these products and are subject to gains and losses recognized in earnings due to hedge ineffectiveness.

Available-for-sale securities are investments pledged as collateral for trust accounts related to NiSource's wholly-owned insurance company. Available-for-sale securities are included within "Other investments" in the Condensed Consolidated Balance Sheets (unaudited). Securities classified within Level 1 include U.S. Treasury debt securities which are highly liquid and are actively traded in over-the-counter markets. NiSource values corporate and mortgage-backed debt securities using a matrix pricing model that incorporates market-based information. These securities trade less frequently and are classified within Level 2. Total unrealized gains and losses from available-for-sale securities are included in other comprehensive income (loss). The amortized cost, gross unrealized gains and losses and fair value of available-for-sale debt securities at June 30, 2015 and December 31, 2014 were:

June 30, 2015 (in millions)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale debt securities				
U.S. Treasury securities	27.5	0.2	(0.2)	27.5
Corporate/Other bonds	99.5	0.7	(0.7)	99.5
Total Available-for-sale debt securities	\$ 127.0	\$ 0.9	\$ (0.9)	\$ 127.0
December 31, 2014 (in millions)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale debt securities				
U.S. Treasury securities	30.8	0.3	(0.2)	30.9
Corporate/Other bonds	100.6	1.0	(0.6)	101.0
Total Available-for-sale debt securities	\$ 131.4	\$ 1.3	\$ (0.8)	\$ 131.9

For the three months ended June 30, 2015 and 2014, the net realized gain on the sale of available-for-sale U.S. Treasury debt securities was 0.1 million and zero, respectively. For the three months ended June 30, 2015 and 2014, the net realized gain on the sale of available-for-sale Corporate/Other bond debt securities was 0.1 million for each period.

For the six months ended June 30, 2015 and 2014, the net realized gain on sale of available-for-sale U.S. Treasury debt securities was 0.1 million for each period. For the six months ended June 30, 2015 and 2014, the net gain on the sale of available-for-sale Corporate/Other bond debt securities was 0.1 million and 0.2 million, respectively.

The cost of maturities sold is based upon specific identification. At June 30, 2015, approximately 2.2 million of U.S. Treasury debt securities have maturities of less than a year while the remaining securities have maturities of greater than one year. At June 30, 2014, approximately 7.9 million of Corporate/Other bonds have maturities of less than a year while the remaining securities have maturities of greater than one year.

There are no material items in the fair value reconciliation of Level 3 assets and liabilities measured at fair value on a recurring basis for the three and six months ended June 30, 2015 and 2014.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

Non-recurring Fair Value Measurements. There were no significant non-recurring fair value measurements recorded during the six months ended June 30, 2015 .

B. Other Fair Value Disclosures for Financial Instruments. The carrying amount of cash and cash equivalents, restricted cash, notes receivable, customer deposits and short-term borrowings is a reasonable estimate of fair value due to their liquid or short-term nature. NiSource's long-term borrowings are recorded at historical amounts.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate fair value.

Long-term Debt. The fair values of these securities are estimated based on the quoted market prices for the same or similar issues or on the rates offered for securities of the same remaining maturities. Certain premium costs associated with the early settlement of long-term debt are not taken into consideration in determining fair value. These fair value measurements are classified as Level 2 within the fair value hierarchy. For the six months ended June 30, 2015 and 2014 , there were no changes in the method or significant assumptions used to estimate the fair value of the financial instruments.

The carrying amount and estimated fair values of financial instruments were as follows:

<i>(in millions)</i>	Carrying Amount as of June 30, 2015	Estimated Fair Value as of June 30, 2015	Carrying Amount as of Dec. 31, 2014	Estimated Fair Value as of Dec. 31, 2014
Long-term debt (including current portion)	\$ 9,323.7	\$ 9,958.4	8,422.5	9,505.7

9. Transfers of Financial Assets

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited). The maximum amount of debt that can be recognized related to NiSource's accounts receivable programs is 515 million .

All accounts receivables sold to the purchasers are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined in part by required loss reserves under the agreements. Below is information about the accounts receivable securitization agreements entered into by NiSource's subsidiaries.

Columbia of Ohio is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CGORC, a wholly-owned subsidiary of Columbia of Ohio. CGORC, in turn, is party to an agreement with BTMU and BNS, under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to commercial paper conduits sponsored by BTMU and BNS. This agreement was last renewed on October 17, 2014; the current agreement expires on October 16, 2015 and can be further renewed if mutually agreed to by all parties. The maximum seasonal program limit under the terms of the current agreement is 240 million . As of June 30, 2015 , no accounts receivable had been transferred by CGORC. CGORC is a separate corporate entity from NiSource and Columbia of Ohio, with its own separate obligations, and upon a liquidation of CGORC, CGORC's obligations must be satisfied out of CGORC's assets prior to any value becoming available to CGORC's stockholder.

NIPSCO is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to NARC, a wholly-owned subsidiary of NIPSCO. NARC, in turn, is party to an agreement with PNC and Mizuho under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to PNC and a commercial paper conduit sponsored by Mizuho. This agreement was last renewed on August 27, 2014; the current agreement expires on August 26, 2015 and can be further renewed if mutually agreed to by all parties. The maximum seasonal program limit under the terms of the current agreement is 200 million . As of June 30, 2015 , 141.8 million of accounts receivable had been transferred by NARC. NARC is a separate corporate entity from NiSource and NIPSCO, with its own separate obligations, and upon a liquidation of NARC, NARC's obligations must be satisfied out of NARC's assets prior to any value becoming available to NARC's stockholder.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

Columbia of Pennsylvania is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CPRC, a wholly-owned subsidiary of Columbia of Pennsylvania. CPRC, in turn, is party to an agreement with BTMU under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to a commercial paper conduit sponsored by BTMU. The agreement with BTMU was last renewed on March 10, 2015, having a current scheduled termination date of March 9, 2016 and can be further renewed if mutually agreed to by both parties. The maximum seasonal program limit under the terms of the agreement is 75 million. As of June 30, 2015, no accounts receivable had been transferred by CPRC. CPRC is a separate corporate entity from NiSource and Columbia of Pennsylvania, with its own separate obligations, and upon a liquidation of CPRC, CPRC's obligations must be satisfied out of CPRC's assets prior to any value becoming available to CPRC's stockholder.

The following table reflects the gross and net receivables transferred as well as short-term borrowings related to the securitization transactions as of June 30, 2015 and December 31, 2014 for Columbia of Ohio, NIPSCO and Columbia of Pennsylvania:

<i>(in millions)</i>		June 30, 2015	December 31, 2014
Gross Receivables	\$	443.3	611.7
Less: Receivables not transferred		301.5	327.4
Net receivables transferred	\$	141.8	284.3
Short-term debt due to asset securitization	\$	141.8	284.3

Columbia of Ohio, NIPSCO and Columbia of Pennsylvania remain responsible for collecting on the receivables securitized and the receivables cannot be sold to another party.

10. Goodwill

NiSource tests its goodwill for impairment annually as of May 1 unless indicators, events, or circumstances would require an immediate review. Goodwill is tested for impairment using financial information at the reporting unit level, which is consistent with the level of discrete financial information reviewed by operating segment management. NiSource's three reporting units are Columbia Distribution Operations, Columbia Transmission Operations and NIPSCO Gas Distribution Operations.

NiSource's goodwill assets as of June 30, 2015 were 3.7 billion pertaining primarily to the acquisition of Columbia on November 1, 2000. Of this amount, approximately 2.0 billion is allocated to Columbia Transmission Operations and 1.7 billion is allocated to Columbia Distribution Operations. In addition, NIPSCO Gas Distribution Operations' goodwill assets of 17.8 million at June 30, 2015 relate to the purchase of Northern Indiana Fuel and Light in March 1993 and Kokomo Gas in February 1992.

NiSource completed a quantitative ("step 1") fair value measurement of its reporting units during the May 1, 2012 goodwill test. The test indicated that the fair value of each of the reporting units that carry or are allocated goodwill substantially exceeded their carrying values, indicating that no impairment existed.

ASU 2011-08 allows entities testing goodwill for impairment the option of performing a qualitative ("step 0") assessment before calculating the fair value of a reporting unit for the goodwill impairment test. If a step 0 assessment is performed, an entity is no longer required to calculate the fair value of a reporting unit unless the entity determines that, based on that assessment, it is more likely than not that its fair value is less than its carrying amount.

NiSource applied the qualitative step 0 analysis to its reporting units for the annual impairment test performed as of May 1, 2015. For the current year test, NiSource assessed various assumptions, events and circumstances that would have affected the estimated fair value of the reporting units as compared to its base line May 1, 2012 step 1 fair value measurement. The results of this assessment indicated that it is not more likely than not that its reporting unit fair values are less than the reporting unit carrying values.

NiSource considered whether there were any events or changes in circumstances subsequent to the annual test that would reduce the fair value of any of the reporting units below their carrying amounts and necessitate another goodwill impairment test. No such indicators were noted that would require a subsequent goodwill impairment test during the second quarter of 2015.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****11. Income Taxes**

NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2015 and 2014, adjusted for tax expense associated with certain discrete items. The effective tax rates for the three months ended June 30, 2015 and 2014 were 35.8% and 33.5%, respectively. The effective tax rates for the six months ended June 30, 2015 and 2014 were 35.4% and 37.0%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking and other permanent book-to-tax differences.

The increase in the three month effective tax rate of 2.3% in 2015 versus 2014 is primarily attributed to the difference in the relative impact of permanent differences over pre-tax loss in 2015 and pre-tax income in 2014. The decrease in the six month effective tax rate of 1.6% is primarily due to the impact of the Indiana rate change in 2014 and pass through benefits of NiSource's non-controlling interests, offset by the effects of ratemaking.

There were no material changes recorded in 2015 to NiSource's uncertain tax positions as of December 31, 2014.

12. Pension and Other Postretirement Benefits

NiSource provides defined contribution plans and noncontributory defined benefit retirement plans that cover its employees. Benefits under the defined benefit retirement plans reflect the employees' compensation, years of service and age at retirement. Additionally, NiSource provides health care and life insurance benefits for certain retired employees. The majority of employees may become eligible for these benefits if they reach retirement age while working for NiSource. The expected cost of such benefits is accrued during the employees' years of service. Current rates of rate-regulated companies include postretirement benefit costs, including amortization of the regulatory assets that arose prior to inclusion of these costs in rates. For most plans, cash contributions are remitted to grantor trusts.

For the six months ended June 30, 2015, NiSource has contributed 1.4 million to its pension plans and 15.2 million to its other postretirement benefit plans.

The following tables provide the components of the plans' net periodic benefits cost (credit) for the three and six months ended June 30, 2015 and 2014:

Three Months Ended June 30, (in millions)	Pension Benefits		Other Postretirement Benefits	
	2015	2014	2015	2014
Components of Net Periodic Benefit Cost (Credit)				
Service cost	\$ 9.5	8.7	\$ 1.8	2.2
Interest cost	25.2	27.3	6.8	7.8
Expected return on assets	(46.2)	(45.3)	(9.3)	(9.1)
Amortization of prior service credit	(0.1)		(1.4)	(0.9)
Recognized actuarial loss	15.9	11.9	1.1	0.1
Total Net Periodic Benefit Cost (Credit)	\$ 4.3	2.6	\$ (1.0)	0.1

Six Months Ended June 30, (in millions)	Pension Benefits		Other Postretirement Benefits	
	2015	2014	2015	2014
Components of Net Periodic Benefit Cost (Credit)				
Service cost	\$ 19.0	17.4	\$ 3.6	4.5
Interest cost	50.4	54.6	13.6	16.0
Expected return on assets	(92.4)	(90.6)	(18.6)	(18.2)
Amortization of prior service credit	(0.2)		(2.8)	(1.5)
Recognized actuarial loss	31.8	23.8	2.2	0.1
Total Net Periodic Benefit Cost (Credit)	\$ 8.6	5.2	\$ (2.0)	0.9

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

13. Variable Interests and Variable Interest Entities

In general, a VIE is an entity that (1) has an insufficient amount of at-risk equity to permit the entity to finance its activities without additional financial subordinated support provided by any parties, (2) whose at-risk equity owners, as a group, do not have power, through voting rights or similar rights, to direct activities of the entity that most significantly impact the entity's economic performance or (3) whose at-risk owners do not absorb the entity's losses or receive the entity's residual return. A VIE is required to be consolidated by a company if that company is determined to be the primary beneficiary of the VIE.

NiSource consolidates those VIEs for which it is the primary beneficiary. NiSource considers quantitative and qualitative elements in determining the primary beneficiary. Qualitative measures include the ability to control an entity and the obligation to absorb losses or the right to receive benefits.

NiSource's analysis includes an assessment of guarantees, operating leases, purchase agreements, and other contracts, as well as its investments and joint ventures. For items that have been identified as variable interests, or where there is involvement with an identified VIE, an in-depth review of the relationship between the relevant entities and NiSource is made to evaluate qualitative and quantitative factors to determine the primary beneficiary, if any, and whether additional disclosures would be required under the current standard.

NIPSCO has a service agreement with Pure Air, a general partnership between Air Products and Chemicals, Inc. and First Air Partners LP, under which Pure Air provides scrubber services to reduce sulfur dioxide emissions for Units 7 and 8 at the Bailly Generating Station. NiSource has made an exhaustive effort to obtain information needed from Pure Air to determine the status of Pure Air as a VIE. However, NIPSCO has not been able to obtain this information and, as a result, it is unclear whether Pure Air is a VIE and if NIPSCO is the primary beneficiary. NIPSCO will continue to request the information required to determine whether Pure Air is a VIE. NIPSCO has no exposure to loss related to the service agreement with Pure Air. Payments under this agreement were 10.7 million and 10.6 million for the six months ended June 30, 2015 and 2014, respectively.

14. Long-Term Debt

On May 22, 2015, CPG closed its placement of 2,750.0 million in aggregate principal amount of its senior notes, comprised of 500.0 million of 2.45% senior notes due 2018, 750.0 million of 3.30% senior notes due 2020, 1,000.0 million of 4.50% senior notes due 2025 and 500.0 million of 5.80% senior notes due 2045.

CPG made cash payments to NiSource of approximately 2.6 billion from the proceeds of the CPG senior notes offering. In May 2015, using proceeds from the cash payments from CPG, NiSource Finance settled its two bank term loans in the amount of 1,075.0 million and executed a tender offer for 750.0 million consisting of a combination of its 5.25% notes due 2017, 6.40% notes due 2018 and 4.45% notes due 2021. In conjunction with the debt retired, NiSource Finance recorded a 97.2 million loss on early extinguishment of long-term debt, primarily attributable to early redemption premiums.

15. Short-Term Borrowings

During the second quarter of 2015, NiSource Finance maintained a 2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's 1.5 billion commercial paper program, provide for issuance of letters of credit and also for general corporate purposes. At June 30, 2015, NiSource had no outstanding borrowings under this facility. In connection with and effective upon the Separation, the 2.0 billion revolving credit facility was amended to reduce the amount available to 1.5 billion and extend the termination date to July 1, 2020. Refer to Note 21 for further information.

NiSource Finance's commercial paper program has a program limit of up to 1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse and Wells Fargo. At June 30, 2015, NiSource had no commercial paper outstanding.

As of June 30, 2015 and December 31, 2014, NiSource had 30.9 million of stand-by letters of credit outstanding of which 14.7 million were supported by the revolving credit facility.

During the second quarter of 2015, CPPL maintained a 500.0 million revolving credit facility, of which 50.0 million was available for issuance of letters of credit. The purpose of the facility is to provide cash for general partnership purposes, including working capital, capital expenditures and the funding of capital calls. At June 30, 2015, CPPL had 20.0 million of outstanding borrowings under this facility.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited) in the amount of 141.8 million and 284.3 million as of June 30, 2015 and December 31, 2014, respectively. Refer to Note 9 for additional information.

<i>(in millions)</i>	June 30, 2015	December 31, 2014
Commercial Paper weighted average interest rate of 0.82% at December 31, 2014	\$ —	792.6
Credit facilities borrowings weighted average interest rate of 1.26% and 1.44% at June 30, 2015 and December 31, 2014, respectively	20.0	500.0
Accounts receivable securitization facility borrowings	141.8	284.3
Total Short-Term Borrowings	\$ 161.8	1,576.9

Given their turnover and stated maturities are less than 90 days, cash flows related to the borrowings and repayments of the items listed above are presented net in the Condensed Statements of Consolidated Cash Flows (unaudited).

16. Share-Based Compensation

The NiSource stockholders originally approved and adopted the NiSource Inc. 2010 Omnibus Incentive Plan (the "Omnibus Plan"), at the Annual Meeting of Stockholders held on May 11, 2010. Stockholders re-approved the Omnibus Plan as amended at the Annual Meeting of Stockholders held on May 12, 2015. The Omnibus Plan provides for awards to employees and non-employee directors of incentive and nonqualified stock options, stock appreciation rights, restricted stock and restricted stock units, performance shares, performance units, cash-based awards and other stock-based awards. The Omnibus Plan provides that the number of shares of common stock of NiSource available for awards is 8,000,000 plus the number of shares subject to outstanding awards granted under either the long-term incentive plan approved by stockholders on April 13, 1994 ("1994 Plan") or the Director Stock Incentive Plan ("Director Plan"), that expire or terminate for any reason. No further awards are permitted to be granted under the 1994 Plan or the Director Plan. At June 30, 2015, there were 5,698,507 shares reserved for future awards under the Omnibus Plan.

NiSource recognized stock-based employee compensation expense of 2.9 million and 5.7 million for the three months ended June 30, 2015 and 2014, respectively, as well as related tax benefits of 1.0 million and 1.9 million, respectively. For the six months ended June 30, 2015 and 2014, stock-based employee compensation expense of 14.1 million and 11.0 million was recognized, respectively, as well as related tax benefits of 5.0 million and 4.1 million, respectively.

As of June 30, 2015, the total remaining unrecognized compensation cost related to nonvested awards amounted to 33.9 million, which will be amortized over the weighted-average remaining requisite service period of 2.2 years.

Restricted Stock Units and Restricted Stock. During the six months ended June 30, 2015, NiSource granted 548,592 restricted stock units and shares of restricted stock, subject to service conditions. The total grant date fair value of restricted stock units and shares of restricted stock was 22.2 million, based on the average market price of NiSource's common stock at the date of each grant less the present value of any dividends not received during the vesting period, which will be expensed, net of forfeitures, over the vesting period which is generally three years. As of June 30, 2015, 777,456 nonvested (all of which are expected to vest) restricted stock units and shares of restricted stock were granted and outstanding.

401(k) Match, Profit Sharing and Company Contribution. NiSource has a voluntary 401(k) savings plan covering eligible employees that allows for periodic discretionary matches as a percentage of each participant's contributions payable in shares of common stock. NiSource also has a retirement savings plan that provides for discretionary profit sharing contributions payable in shares of common stock to eligible employees based on earnings results; and eligible exempt employees hired after January 1, 2010 receive a non-elective company contribution of three percent of eligible pay payable in shares of common stock. For the quarters ended June 30, 2015 and 2014, NiSource recognized 401(k) match, profit sharing and non-elective contribution expense of 11.2 million and 8.4 million, respectively. For the six months ended June 30, 2015 and 2014, NiSource recognized 401(k) match, profit sharing and non-elective contribution expenses of 19.4 million and 16.9 million, respectively.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****17. Other Commitments and Contingencies**

A. Guarantees and Indemnities. As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit. These agreements are entered into primarily to support or enhance the creditworthiness otherwise attributed to a subsidiary on a stand-alone basis, thereby facilitating the extension of sufficient credit to accomplish the subsidiaries' intended commercial purposes. The total guarantees and indemnities in existence at June 30, 2015 and the years in which they expire were:

<i>(in millions)</i>	Total	2015	2016	2017	2018	2019	After
Guarantees of subsidiaries debt	6,135.5	230.0	291.5	267.4	476.0	500.0	4,370.6
Accounts receivable securitization	141.8	141.8					
Letters of credit	30.9	29.2	1.7				
Other guarantees	103.1					1.7	101.4
Total commercial commitments ⁽¹⁾	6,411.3	401.0	293.2	267.4	476.0	501.7	4,472.0

⁽¹⁾This amount does not include CPG's issuance of 2,750.0 million of long-term debt, which is guaranteed by certain subsidiaries of CPG. Additionally, this amount does not include CPPL's outstanding borrowings of 20.0 million under its revolving credit facility, which is guaranteed by CPG and certain subsidiaries of CPG.

Guarantees of Subsidiaries Debt. NiSource has guaranteed the payment of 6,135.5 million of debt for various wholly-owned subsidiaries including NiSource Finance and Columbia of Massachusetts, and through a support agreement, for Capital Markets, which is reflected on NiSource's Condensed Consolidated Balance Sheets (unaudited). The subsidiaries are required to comply with certain covenants under the debt indenture and in the event of default, NiSource would be obligated to pay the debt's principal and related interest. NiSource does not anticipate its subsidiaries will have any difficulty maintaining compliance. On October 3, 2011, NiSource executed a Second Supplemental Indenture to the original Columbia of Massachusetts Indenture dated April 1, 1991, for the specific purpose of guaranteeing Columbia of Massachusetts' outstanding unregistered medium-term notes.

Lines and Letters of Credit and Accounts Receivable Advances. During the second quarter of 2015, NiSource Finance maintained a 2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's 1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes. In connection with and effective upon the Separation, the 2.0 billion revolving credit facility was amended to reduce the amount available to 1.5 billion and extend the termination date to July 1, 2020. Refer to Note 21 for further information.

At June 30, 2015, NiSource had no borrowings under its five-year revolving credit facility, no commercial paper outstanding and 141.8 million outstanding under its accounts receivable securitization agreements. At June 30, 2015, NiSource had issued stand-by letters of credit of approximately 30.9 million for the benefit of third parties. See Note 15 for additional information.

Other Guarantees or Obligations. As of June 30, 2015, NiSource had on deposit a letter of credit with MUFG Union Bank, N.A., Collateral Agent, in a debt service reserve account in association with Millennium's notes as required under the Deposit and Disbursement Agreement that governs the Millennium notes. This account is to be drawn upon by the note holders in the event that Millennium is delinquent on its principal and interest payments. The value of NiSource's letter of credit represents 47.5% (NiSource's ownership interest in Millennium) of the debt service reserve account requirement, or 16.2 million. The total exposure for NiSource is 16.2 million. NiSource has an accrued liability of 1.5 million related to the inception date fair value of this guarantee as of June 30, 2015.

B. Other Legal Proceedings. The Company is party to certain claims and legal proceedings arising in the ordinary course of business, none of which is deemed to be individually significant at this time. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on the Company's results of operations, financial position or liquidity. It is possible that if one or more of such matters were decided against the Company, the effects could be material to the Company's results of operations in the period in which the Company would be required to record or adjust the related liability and could also be material to the Company's cash flows in the periods the Company would be required to pay such liability.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

C. Environmental Matters. NiSource operations are subject to environmental statutes and regulations related to air quality, water quality, hazardous waste and solid waste. NiSource believes that it is in substantial compliance with those environmental regulations currently applicable to its operations.

It is management's continued intent to address environmental issues in cooperation with regulatory authorities in such a manner as to achieve mutually acceptable compliance plans. However, there can be no assurance that fines and penalties will not be incurred. Management expects a significant portion of environmental assessment and remediation costs to be recoverable through rates for certain NiSource companies.

As of June 30, 2015 and December 31, 2014, NiSource had recorded an accrual of approximately 136.3 million and 128.4 million, respectively, to cover environmental remediation at various sites. The current portion of this accrual is included in "Legal and environmental" in the Condensed Consolidated Balance Sheets (unaudited). The noncurrent portion is included in "Other noncurrent liabilities" in the Condensed Consolidated Balance Sheets (unaudited). NiSource accrues for costs associated with environmental remediation obligations when the incurrence of such costs is probable and the amounts can be reasonably estimated. The original estimates for cleanup can differ materially from the amount ultimately expended. The actual future expenditures depend on many factors, including currently enacted laws and regulations, the nature and extent of contamination, the method of cleanup and the availability of cost recovery from customers. These expenditures are not currently estimable at some sites. NiSource periodically adjusts its accrual as information is collected and estimates become more refined.

Air

The actions listed below could require further reductions in emissions from various emission sources. NiSource will continue to closely monitor developments in these matters.

Climate Change. Future legislative and regulatory programs could significantly restrict emissions of GHGs or could impose a cost or tax on GHG emissions.

National Ambient Air Quality Standards. The CAA requires the EPA to set NAAQS for particulate matter and five other pollutants considered harmful to public health and the environment. Periodically the EPA imposes new or modifies existing NAAQS. States that contain areas that do not meet the new or revised standards must take steps to maintain or achieve compliance with the standards. These steps could include additional pollution controls on boilers, engines, turbines and other facilities owned by electric generation, gas distribution, and gas transmission operations.

The following NAAQS were recently added or modified:

Ozone: On November 25, 2014, the EPA proposed to lower the 8-hour ozone standard from 75 ppb to within a range of 65-70 ppb. If the standard is finalized and the EPA proceeds with designations, areas where NiSource operates currently designated as attainment may be re-classified as non-attainment. NiSource will continue to monitor this matter and cannot estimate its impact at this time.

Nitrogen Dioxide (NO₂): The EPA revised the NO₂ NAAQS by adding a one-hour standard while retaining the annual standard. The new standard could impact some NiSource combustion sources. The EPA designated all areas of the country as unclassifiable/attainment in January 2012. After the establishment of a new monitoring network and possible modeling implementation, areas will potentially be re-designated sometime in 2016. States with areas that do not meet the standard will be required to develop rules to bring areas into compliance within five years of designation. Additionally, under certain permitting circumstances, emissions from some existing NiSource combustion sources may need to be assessed and mitigated. NiSource will continue to monitor this matter and cannot estimate the impact of these rules at this time.

Waste

NiSource subsidiaries are potentially responsible parties at waste disposal sites under the CERCLA (commonly known as Superfund) and similar state laws. Additionally, NiSource affiliates have retained environmental liabilities, including cleanup liabilities, associated with certain former operations.

A program has been instituted to identify and investigate former MGP sites where Gas Distribution Operations subsidiaries or predecessors may have liability. The program has identified 66 such sites where liability is probable. Remedial actions at many of these sites are being overseen by state or federal environmental agencies through consent agreements or voluntary remediation agreements.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

NiSource utilizes a probabilistic model to estimate its future remediation costs related to its MGP sites. The model was prepared with the assistance of a third-party and incorporates NiSource and general industry experience with remediating MGP sites. NiSource completes an annual refresh of the model in the second quarter of each fiscal year. No material changes to the estimated future remediation costs were noted as a result of the refresh completed as of June 30, 2015. The total estimated liability at NiSource related to the facilities subject to remediation was 119.7 million and 121.5 million at June 30, 2015 and December 31, 2014, respectively. The liability represents NiSource's best estimate of the probable cost to remediate the facilities. NiSource believes that it is reasonably possible that remediation costs could vary by as much as 25 million in addition to the costs noted above. Remediation costs are estimated based on the best available information, applicable remediation standards at the balance sheet date, and experience with similar facilities.

Additional Issues Related to Individual Business Segments

The sections below describe various regulatory actions that affect individual business segments for which NiSource has retained a liability.

Electric Operations.

Air

NIPSCO is subject to a number of air-quality mandates in the next several years. These mandates required NIPSCO to make capital improvements to its electric generating stations. The cost of capital improvements is estimated to be 870 million, of which approximately 78.3 million remains to be spent. This figure includes additional capital improvements associated with the New Source Review Consent Decree and the Utility Mercury and Air Toxics Standards Rule. NIPSCO believes that the capital costs are probable of recovery from customers.

Utility Mercury and Air Toxics Standards Rule: On December 16, 2011, the EPA finalized the MATS rule establishing new emissions limits for mercury and other air toxics. NIPSCO's affected units have completed projects to meet the April 2015 compliance deadline. For NIPSCO's remaining affected units, a one year compliance extension granted by IDEM delays the compliance date until April 2016. NIPSCO continues to implement an IURC-approved plan for the installation of additional environmental controls needed to comply with the MATS extension. On June 29, 2015, the United States Supreme Court remanded the MATS rule back to the United States Court of Appeals for the District of Columbia Circuit for further proceedings. The MATS rule remains in effect until the Court of Appeals issues a ruling. The timing for resolving the process is unclear at this time, NIPSCO will continue to monitor developments in this matter.

On June 2, 2014, the EPA proposed a GHG performance standard for existing fossil-fuel fired electric utility generating units under section 111(d) of the CAA. The proposed rule establishes state-specific CO₂ emission rate goals applied to the state's fleet of fossil-fuel fired electric generating units, and requires each state to submit a plan indicating how the state will meet the EPA's emission rate goal, including possibly imposing reduction obligations on specific units. Final CO₂ emission rate standards are expected to be set by the EPA by the third quarter of 2015, and state plans are required to be submitted to the EPA as early as the third quarter of 2016. The cost to comply with this rule will depend on a number of factors, including the requirements of the final federal regulation and the level of NIPSCO's required GHG reductions. It is possible that this new rule, comprehensive federal or state GHG legislation, or other GHG regulation could result in additional expense or compliance costs that could materially impact NiSource's financial results. NIPSCO will continue to monitor this matter and cannot estimate its impact at this time.

Water

On August 15, 2014, the EPA published the final Phase II Rule of the Clean Water Act Section 316(b), which requires all large existing steam electric generating stations to meet certain performance standards to reduce the effects on aquatic organisms at their cooling water intake structures. Under this rule, stations will have to either demonstrate that the performance of their existing fish protection systems meet the new standards or develop new systems, such as a closed-cycle cooling tower. The cost to comply will depend on a number of factors, including evaluation of the various compliance options available under the regulation and permitting-related determinations by IDEM. NIPSCO estimates that the cost of compliance is between 4 million and 35 million, dependent upon study results, agency requirements and technology ultimately required to achieve compliance.

On June 7, 2013, the EPA published a proposed rule to amend the effluent limitations guidelines and standards for the Steam Electric Power Generating category. These proposed regulations could impose new water treatment requirements on NIPSCO's electric generating facilities. A final rule is expected in the fourth quarter of 2015. NIPSCO will continue to monitor developments in this matter and cannot estimate the cost of compliance at this time.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Waste

On April 17, 2015, the EPA released a final rule for regulation of CCRs. The rule regulates CCRs under the Resource Conservation and Recovery Act Subtitle D, which determines them to be non-hazardous. The rule will require increased groundwater monitoring, reporting, recordkeeping and posting related information to the Internet. The rule also establishes requirements related to CCR management, impoundments, landfills and storage. The rule will allow NIPSCO to continue its byproduct beneficial use program.

The publication of the CCR rule resulted in revisions to previously recorded legal obligations associated with the retirement of certain NIPSCO facilities. The actual asset retirement costs related to the CCR rule may vary substantially from the estimates used to record the increased asset retirement obligation due to the uncertainty about the compliance strategies that will be used and the preliminary nature of available data used to estimate costs. Refer to Note 6 for further information. In addition, in order to comply with the rule NIPSCO will be required to incur future capital expenditures to modify its infrastructure and manage CCRs. As allowed by the EPA, NIPSCO will continue to collect data over time to determine the nature, extent and cost of these future capital expenditures. Given the preliminary stage of this data collection, NIPSCO is unable to estimate a range for these future capital expenditures at this time.

D. Other Matters.

Transmission Upgrade Agreements. On February 11, 2014, NIPSCO entered into two TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs filed a complaint at the FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. On December 8, 2014, the FERC issued an order in response to the complaint finding that it is appropriate for NIPSCO to recover, through the multiplier, substantiated costs of ownership related to the TUAs. The FERC set for hearing the issue of what constitutes the incremental costs NIPSCO will incur, but is holding that hearing in abeyance to allow for settlement. NIPSCO will continue to monitor developments in this matter and does not believe the impact is material to the Condensed Consolidated Financial Statements (unaudited).

Springfield, Massachusetts. On November 23, 2012, while Columbia of Massachusetts was investigating the source of an odor of gas at a service location in Springfield, Massachusetts, a gas service line was pierced and an explosion occurred. While this explosion impacted multiple buildings and resulted in several injuries, no life threatening injuries or fatalities have been reported. Columbia of Massachusetts fully cooperated with both the Massachusetts DPU and the Occupational Safety & Health Administration in their investigations of this incident, which have been concluded. Columbia of Massachusetts believes any costs associated with damages, injuries and other losses related to this incident are substantially covered by insurance. Any amounts not covered by insurance are not expected to have a material impact on NiSource's consolidated financial statements. In accordance with GAAP, NiSource recorded any accruals and the related insurance recoveries resulting from this incident on a gross basis within the Condensed Consolidated Balance Sheets (unaudited).

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Equity Investment

As Millennium is an equity method investment, NiSource is required to recognize a proportional share of Millennium's OCI. The remaining unrecognized loss at June 30, 2015 of 13.9 million, net of tax, related to terminated interest rate swaps, is being amortized over the period ending June 2025 into earnings using the effective interest method through interest expense as interest payments are made by Millennium. The unrecognized loss of 13.9 million and 16.6 million at June 30, 2015 and December 31, 2014, respectively, is included in gains and losses on cash flow hedges above.

19. Business Segment Information

Operating segments are components of an enterprise for which separate financial information is available and evaluated regularly by the chief operating decision maker in deciding how to allocate resources and assess performance. NiSource's Chief Executive Officer is the chief operating decision maker.

At June 30, 2015, NiSource's operations are divided into three primary business segments. The Gas Distribution Operations segment provides natural gas service and transportation for residential, commercial and industrial customers in Ohio, Pennsylvania, Virginia, Kentucky, Maryland, Indiana and Massachusetts. The Electric Operations segment provides electric service in 20 counties in the northern part of Indiana. The Columbia Pipeline Group Operations segment offers gas transportation and storage services for LDCs, marketers and industrial and commercial customers located in northeastern, mid-Atlantic, Midwestern and southern states and the District of Columbia along with unregulated businesses that include midstream services and development of mineral rights positions.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

The following table provides information about business segments. NiSource uses operating income as its primary measurement for each of the reported segments and makes decisions on finance, dividends and taxes at the corporate level on a consolidated basis. Segment revenues include intersegment sales to affiliated subsidiaries, which are eliminated in consolidation. Affiliated sales are recognized on the basis of prevailing market, regulated prices or at levels provided for under contractual agreements. Operating income is derived from revenues and expenses directly associated with each segment.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

21. Subsequent Events

Separation of Columbia Pipeline Group . On July 1, 2015, NiSource completed the previously announced Separation of CPG from NiSource through a special pro rata stock dividend distributing one share of CPG common stock for every one share of NiSource common stock held by any NiSource stockholder as of 5:00 p.m. on June 19, 2015, the record date. The Separation resulted in two energy infrastructure companies: NiSource Inc., a fully regulated natural gas and electric utilities company, and CPG, a natural gas pipeline, midstream and storage company. As a stand-alone company, CPG's operations consist of all of NiSource's Columbia Pipeline Group Operations segment prior to the Separation. Effective July 1, 2015, CPG was classified as discontinued operations and will be reported as such in NiSource's quarterly Report on Form 10- for the three and nine months ended September 30, 2015.

On June 30, 2015, NiSource entered into a Separation and Distribution Agreement and several other agreements with CPG to effect the Separation and provide a framework for NiSource's relationship with CPG post-Separation.

As of July 1, 2015, certain tax attributes of the former NiSource consolidated group will be affected by the Separation. These include transfers of attributes to CPG along with changes in allocation and apportionment factors that may alter the size and duration of carryovers and other attributes. The tax attributes and the net deferred tax liabilities will be re-measured and adjusted in the third quarter of 2015.

In connection with and effective upon the Separation, the NiSource Finance revolving credit facility capacity was amended to reduce the amount available from 2.0 billion to 1.5 billion , and extend the termination date to July 1, 2020 .

On July 2, 2015 , NiSource declared a post-Separation dividend of 0.155 per share payable on August 20, 2015 to stockholders of record on July 31, 2015 .

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NiSource Inc.

Note regarding forward-looking statements

Management's Discussion and Analysis, including statements regarding market risk sensitive instruments, contains "forward-looking statements," within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Investors and prospective investors should understand that many factors govern whether any forward-looking statement contained herein will be or can be realized. Any one of those factors could cause actual results to differ materially from those projected. These forward-looking statements include, but are not limited to, statements concerning NiSource's plans, objectives, expected performance, expenditures, recovery of expenditures through rates, stated on either a consolidated or segment basis, the Separation and any and all underlying assumptions and other statements that are other than statements of historical fact. From time to time, NiSource may publish or otherwise make available forward-looking statements of this nature. All such subsequent forward-looking statements, whether written or oral and whether made by or on behalf of NiSource, are also expressly qualified by these cautionary statements. All forward-looking statements are based on assumptions that management believes to be reasonable; however, there can be no assurance that actual results will not differ materially.

Factors that could cause actual results to differ materially from the projections, forecasts, estimates and expectations discussed in this quarterly Report on Form 10- include, but are not limited to, NiSource's debt obligations and ability to comply with related covenants, changes in NiSource's credit rating, growth opportunities for NiSource's businesses, changes in general economic and market conditions, regulatory rate reviews and proceedings, increased competition in deregulated energy markets, compliance with environmental laws, fluctuations in weather, climate change, natural disasters, acts of terrorism and other catastrophic events, economic conditions in certain industries, fluctuations in the price of energy commodities, counterparty credit risk, any impairment of goodwill and definite-lived intangible assets, changes in taxation or accounting principles, accidents and other operating risks, aging infrastructure, disruptions in information technology and cyber-attacks, NiSource's ability to achieve the intended benefits of the Separation and other matters set forth in the "Risk Factors" section of this Form 10- , many of which are beyond the control of NiSource. In addition, the relative contributions to profitability by each segment, and the assumptions underlying the forward-looking statements relating thereto, may change over time. NiSource expressly disclaims any duty to update, supplement or amend any of its forward-looking statements, whether as a result of new information, subsequent events or otherwise.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2014 .

CONSOLIDATED REVIEW

Separation of Columbia Pipeline Group

On July 1, 2015, NiSource completed the previously announced Separation of CPG from NiSource through a special pro rata stock dividend distributing one share of CPG common stock for every one share of NiSource common stock held by any NiSource stockholder as of 5:00 p.m. on June 19, 2015, for the record date. The Separation resulted in two energy infrastructure companies: NiSource Inc., a fully regulated natural gas and electric utilities company, and CPG, a natural gas pipeline, midstream and storage company. As a stand-alone company, CPG's operations consist of all of NiSource's Columbia Pipeline Group Operations segment prior to the Separation. Refer to Note 21, "Subsequent Events," for additional information.

CPG is included in the following discussion as it was a wholly-owned subsidiary of NiSource as of June 30, 2015. Beginning with NiSource's quarterly Report on Form 10- for the three and nine months ended September 30, 2015, CPG will be reported as discontinued operations.

Executive Summary

NiSource is an energy holding company under the Public Utility Holding Company Act of 2005 whose subsidiaries are engaged in the transmission, storage and distribution of natural gas in the high-demand energy corridor stretching from the Gulf Coast through the Midwest to New England and the generation, transmission and distribution of electricity in Indiana. NiSource generates substantially all of its operating income through these rate-regulated businesses. A significant portion of NiSource's operations is subject to seasonal fluctuations in sales. During the heating season, which is primarily from November through March, net revenues from gas sales are more significant, and during the cooling season, which is primarily from June through September, net revenues from electric sales and transportation services are more significant, than in other months.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

For the six months ended June 30, 2015, net income attributable to NiSource was 232.0 million, or 0.73 per basic share, compared to 344.4 million, or 1.10 per basic share reported for the same period in 2014.

The decrease in net income attributable to NiSource was due primarily to the following items:

A loss on early extinguishment of long-term debt of 97.2 million. Refer to Note 14, "Long-Term Debt," for further information on long-term debt retired in May 2015.

Outside service costs increased by 62.7 million primarily due to costs associated with the Separation.

Employee and administrative expense increased by 41.6 million due primarily to greater labor expense due to a growing workforce.

Depreciation expense increased by 27.1 million due primarily to higher capital expenditures related to projects placed in service. NiSource capital expenditures are projected to be approximately 2.4 billion in 2015, which includes approximately 1.1 billion of expected CPG capital expenditures.

These decreases in net income attributable to NiSource were partially offset by the following:

Demand margin revenue increased by 55.7 million at Columbia Pipeline Group Operations primarily as a result of growth projects placed in service. Refer to the Columbia Pipeline Group Operations' segment discussion for further information on growth projects.

Regulatory and service programs at Gas Distribution Operations increased net revenues by 49.3 million primarily due to the impact of new rates at Columbia of Pennsylvania, Columbia of Virginia and Columbia of Massachusetts, as well as the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Refer to Note 7, "Regulatory Matters," in this report and in the Notes to Consolidated Financial Statements included in NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2014 for more information.

These factors and other impacts to the financial results are discussed in more detail within the following discussions of "Results of Operations" and "Results and Discussion of Segment Operations."

Platform for Growth

Following the Separation, NiSource's business plan will continue to center on commercial and regulatory initiatives and financial management of the balance sheet.

Commercial and Regulatory Initiatives

NiSource's utilities continue to move forward on core infrastructure investment programs supported by complementary regulatory and customer initiatives across several distribution company markets. NiSource utilities remain on track to invest approximately 1.3 billion during 2015 as part of its 30.0 billion long-term regulated utility infrastructure investment opportunities across its natural gas and electric utilities. NiSource's goal is to develop strategies that benefit all stakeholders as it addresses changing customer conservation patterns, develops more contemporary pricing structures, and embarks on long-term investment programs. These strategies will help improve reliability and safety, enhance customer services and reduce emissions while generating sustainable returns.

Gas Distribution Operations

On June 30, 2015, the Hearing Examiner in Columbia of Virginia's pending base rate case recommended specific fixed customer charges for each rate class, addressing the final outstanding issue in the case. The Commission had previously found that the stipulated annual revenue increase of 25.2 million is reasonable. A final order in the case is expected later this year.

Columbia of Pennsylvania's base rate case is progressing on schedule and remains pending before the Pennsylvania PUC. Filed on March 19, 2015, the case supports the continuation of Columbia of Pennsylvania's infrastructure modernization and safety programs. If approved as filed, the case would increase annual revenues by approximately 46.2 million. New rates are expected to go into effect during the fourth quarter of 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Columbia of Massachusetts' base rate case is also progressing on schedule and remains pending before the Massachusetts DPU. Filed on April 16, 2015, the case seeks to recover costs to support Columbia of Massachusetts' multi-year modernization plan to maintain the safety and reliability of natural gas service for customers. Columbia of Massachusetts has arrived at a settlement agreement in principle with the Attorney General in the case. The settlement agreement is expected to be finalized and filed for approval with the Massachusetts DPU in August 2015.

Electric Operations

On May 26, 2015, NIPSCO, the Indiana Office of Utility Consumer Counselor and some of NIPSCO's largest industrial customers reached a settlement agreement that resolves all concerns raised by the parties in an Indiana Court of Appeals proceeding surrounding NIPSCO's long-term Electric Infrastructure Modernization Plan. As part of the agreement, NIPSCO will file a base rate case, followed by a new seven-year plan in the fourth quarter of 2015.

NIPSCO remains on schedule and on budget with its FGD unit at its Michigan City Generating Station. The approximately 265.0 million project is expected to be placed in service by the end of 2015. This investment, supported with cost recovery, improves air quality and helps ensure NIPSCO's generation fleet remains in compliance with current environmental regulations. The project also helps ensure that NIPSCO can continue offering low-cost, reliable and efficient generating capacity for its customers.

Progress also continued on two major electric transmission projects designed to enhance region-wide system flexibility and reliability. The Greentown-Reynolds project is an approximately 65-mile, 765-kilovolt line being constructed in a joint development agreement with Pioneer Transmission, and the Reynolds-Topeka project is a 100-mile, 345-kilovolt line. Right-of-way acquisition and permitting are under way for both projects and substation construction has begun. These projects involve an investment of approximately 500 million for NIPSCO and are anticipated to be in service by the end of 2018.

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for a complete discussion of regulatory and commercial matters.

Financial Management of the Balance Sheet

As part of the recapitalization in connection with the Separation, on May 22, 2015, CPG closed its placement of 2,750.0 million in aggregate principal amount of its senior notes, comprised of 500.0 million of 2.45% senior notes due 2018, 750.0 million of 3.30% senior notes due 2020, 1,000.0 million of 4.50% senior notes due 2025 and 500.0 million of 5.80% senior notes due 2045.

CPG made cash payments to NiSource of approximately 2.6 billion from the proceeds of the CPG senior notes offering. In May 2015, using proceeds from the cash payments from CPG, NiSource Finance settled its two bank term loans in the amount of 1,075.0 million and executed a tender offer for 750.0 million consisting of a combination of its 5.25% notes due 2017, 6.40% notes due 2018 and 4.45% notes due 2021. In conjunction with the debt retired, NiSource Finance recorded a 97.2 million loss on early extinguishment of long-term debt, primarily attributable to early redemption premiums.

On February 11, 2015, CPPL completed its IPO of 53.8 million common units representing limited partnership interests. See Note 3, "Columbia Pipeline Partners LP (CPPL)," for additional information.

CPPL maintains a 500.0 million revolving credit facility, of which 50.0 million is available for issuance of letters of credit. The purpose of the facility is to provide cash for general partnership purposes, including working capital, capital expenditures and the funding of capital calls. At June 30, 2015, CPPL had 20.0 million of outstanding borrowings under this facility.

On June 17, 2015, with consideration of the Separation, Moody's affirmed the NiSource senior unsecured rating of Baa2 and commercial paper rating of P-2, with a stable outlook. Additionally, Moody's affirmed NIPSCO's Baa1 rating and affirmed the Baa2 rating for Columbia of Massachusetts. On June 18, 2015, with consideration of the Separation, Standard & Poor's raised the senior unsecured ratings for NiSource and its subsidiaries to BBB and the commercial paper rating to A-2. Standard & Poor's outlook for NiSource and all of its subsidiaries is Stable. On June 18, 2015, Fitch affirmed the senior unsecured ratings for NiSource at BBB-, and the existing ratings of its other rated subsidiaries. Fitch's outlook for NiSource and its subsidiaries is Positive in

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

anticipation of the Separation. Although all ratings continue to be investment grade, a downgrade by Fitch would result in a rating that is below investment grade. NiSource is committed to maintaining its investment grade credit ratings.

Ethics and Controls

NiSource has had a long-term commitment to providing accurate and complete financial reporting as well as high standards for ethical behavior by its employees. NiSource's senior management takes an active role in the development of this Form 10- and the monitoring of the company's internal control structure and performance. In addition, NiSource will continue its mandatory ethics training program for all employees.

For additional information refer to Item 4, "Controls and Procedures."

Results of Operations

Quarter Ended June 30, 2015

Net Income Attributable to NiSource

NiSource reported a net loss of \$36.4 million, or 0.11 per basic share, for the three months ended June 30, 2015, compared to net income of \$78.2 million, or 0.25 per basic share, for the second quarter of 2014. For the three months ended June 30, 2015, NiSource reported a loss from continuing operations of \$36.1 million, or 0.11 per basic share, compared to income from continuing operations of \$78.5 million, or 0.25 per basic share, for the second quarter of 2014. Operating income was \$165.1 million, a decrease of \$54.5 million from the same period in 2014. All per share amounts are basic earnings per share. Basic average shares of common stock outstanding at June 30, 2015 were 317.5 million compared to 315.0 million at June 30, 2014.

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expense. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the quarter ended June 30, 2015, were \$950.4 million, a \$13.0 million decrease from the same period last year. This decrease in net revenues was primarily due to decreased Columbia Pipeline Group Operations' net revenues of \$27.6 million, offset by an increase in Gas Distribution Operations' net revenues of \$15.9 million.

Columbia Pipeline Group Operations' net revenues decreased due primarily to lower regulatory trackers, which are offset in expense, of \$48.1 million and other miscellaneous decreases of \$4.5 million. These decreases were partially offset by increased demand margin revenue of \$25.0 million as a result of growth projects placed in service and new firm contracts.

This decrease to net revenues was partially offset by the following:

Gas Distribution Operations' net revenues increased primarily due to higher regulatory and service programs of \$16.1 million, including the implementation of rates under Columbia of Ohio's approved infrastructure replacement program, as well as the impact of new rates at Columbia of Pennsylvania and Columbia of Virginia. Additionally, there was an increase of \$2.9 million as a result of rent billed to affiliates, offset in expense, and an increase in net revenues of \$1.9 million due to customer increases. These increases were partially offset by lower commercial and residential usage of \$3.3 million and the effects of warmer weather of \$3.0 million.

Operating Expenses

Operating expenses for the second quarter of 2015 were \$799.0 million, an increase of \$44.1 million from the comparable 2014 period. This increase was primarily due to higher operation and maintenance expenses of \$27.9 million, and increased depreciation and amortization of \$18.3 million. The increase in operation and maintenance expenses was primarily due to higher outside service costs of \$37.6 million primarily associated with the Separation, increased employee and administrative costs of \$20.7 million and higher environmental costs of \$9.7 million. These increases were partially offset by decreased regulatory trackers, which are offset in net revenues, of \$44.4 million. The increase in depreciation and amortization is primarily due to higher capital expenditures placed in service.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Equity Earnings in Unconsolidated Affiliates

Equity Earnings in Unconsolidated Affiliates were 13.7 million during the second quarter of 2015 compared to 11.1 million for the second quarter of 2014. Equity Earnings in Unconsolidated Affiliates includes earnings from investments in Millennium, Hardy Storage and Pennant, which are integral to the Columbia Pipeline Group Operations' business. Equity earnings increased primarily from increased earnings at Pennant.

Other Income (Deductions)

Other Income (Deductions) reduced income by 207.8 million in the second quarter of 2015 compared to a reduction in income of 101.6 million in the prior year. This increase in deductions is primarily attributable to a loss on early extinguishment of long-term debt of 97.2 million and higher interest expense of 8.0 million in 2015.

Income Taxes

Income tax benefit for the quarter ended June 30, 2015 was 15.3 million compared to income tax expense of 39.5 million in the prior year. NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2015 and 2014, adjusted for tax expense associated with certain discrete items. The effective tax rates for the three months ended June 30, 2015 and 2014 were 35.8% and 33.5%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking and other permanent book-to-tax differences.

The increase in the three month effective tax rate of 2.3% in 2015 versus 2014 is primarily attributed to the difference in the relative impact of permanent differences over pre-tax loss in 2015 and pre-tax income in 2014. Refer to Note 11, "Income Taxes," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Results of Operations

Six Months Ended June 30, 2015

Net Income Attributable to NiSource

NiSource reported net income of 232.0 million, or 0.73 per basic share, for the six months ended June 30, 2015, compared to net income of 344.4 million, or 1.10 per basic share, for the six months ended June 30, 2014. Income from continuing operations was 232.3 million, or 0.73 per basic share, for the six months ended June 30, 2015, compared to income from continuing operations of 344.9 million, or 1.10 per basic share, for the six months ended 2014. Operating income was 695.2 million, a decrease of 58.1 million from the same period in 2014. All per share amounts are basic earnings per share. Basic average shares of common stock outstanding at June 30, 2015 were 317.0 million compared to 314.6 million at June 30, 2014.

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expense. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the six months ended June 30, 2015, were 2,294.1 million, a 71.5 million increase from the same period last year. This increase in net revenues was primarily due to increased Gas Distribution Operations' net revenues of 107.0 million, offset by a decrease in Columbia Pipeline Group Operations' net revenues of 33.4 million.

Gas Distribution Operations' net revenues increased due primarily to higher regulatory and tax trackers, which are offset in expense, of 52.2 million and an increase of 49.3 million for regulatory and service programs, including the impact of new rates at Columbia of Pennsylvania, Columbia of Virginia and Columbia of Massachusetts, as well as the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Additionally, there were higher net revenues of 6.3 million resulting from rent billed to affiliates, offset in expense.

This increase to net revenues was partially offset by the following:

Columbia Pipeline Group Operations' net revenues decreased due primarily to lower regulatory trackers, which are offset in expense, of 75.5 million and decreased mineral rights royalty revenue of 4.1 million. These decreases were partially offset by increased demand margin revenue of 55.7 million as a result of growth projects placed in service and new firm contracts.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Operating Expenses

Operating expenses for the six months ended 2015 were 1,628.0 million, an increase of 137.8 million from the same 2014 period. This increase was primarily due to higher operation and maintenance expenses of 100.8 million and increased depreciation and amortization of 27.1 million. The increase in operation and maintenance expenses was primarily due to higher outside service costs of 62.7 million primarily associated with the Separation, increased employee and administrative costs of 41.6 million and higher environmental costs of 12.1 million. These increases were partially offset by a decrease in regulatory trackers, offset in net revenues, of 19.7 million. The increase in depreciation and amortization is primarily due to higher capital expenditures placed in service.

Equity Earnings in Unconsolidated Affiliates

Equity Earnings in Unconsolidated Affiliates were 29.1 million during the six months ended June 30, 2015 compared to 20.9 million for the six months ended June 30, 2014. Equity Earnings in Unconsolidated Affiliates includes earnings from investments in Millennium, Hardy Storage and Pennant, which are integral to the Columbia Pipeline Group Operations' business. Equity earnings increased primarily from increased earnings at Pennant and Millennium.

Other Income (Deductions)

Other Income (Deductions) reduced income by 311.7 million for the six months ended June 30, 2015 compared to a reduction in income of 206.2 million in the prior year. This increase in deductions is primarily attributable to a loss on early extinguishment of long-term debt of 97.2 million and higher interest expense of 9.9 million in 2015.

Income Taxes

Income tax expense for the six months ended June 30, 2015 was 135.6 million compared to 202.2 million in the prior year. NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2015 and 2014, adjusted for tax expense associated with certain discrete items. The effective tax rates for the six months ended June 30, 2015 and 2014 were 35.4% and 37.0%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking, and other permanent book-to-tax differences.

The decrease in the six month effective tax rate of 1.6% is primarily due to the impact of the Indiana rate change in 2014 and pass through benefits of NiSource's non-controlling interests, offset by the effects of ratemaking. Refer to Note 11, "Income Taxes," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Liquidity and Capital Resources

A significant portion of NiSource's operations, most notably in the gas distribution, gas transportation and electric businesses, are subject to seasonal fluctuations in cash flow. During the heating season, which is primarily from November through March, cash receipts from gas sales and transportation services typically exceed cash requirements. During the summer months, cash on hand, together with the seasonal increase in cash flows from the electric business during the summer cooling season and external short-term and long-term financing, is used to purchase gas to place in storage for heating season deliveries and perform necessary maintenance of facilities. NiSource believes that through income generated from operating activities, amounts available under its short-term revolving credit facility, commercial paper program, long-term debt agreements and NiSource's ability to access the capital markets, there is adequate capital available to fund its operating activities and capital expenditures in 2015.

Operating Activities

Net cash from operating activities for the six months ended June 30, 2015 was 1,115.6 million, an increase of 464.6 million compared to the six months ended June 30, 2014. The increase in net cash from operating activities was primarily due to an increase in overrecovered gas and fuel costs and accounts receivable working capital accounts as a result of lower gas prices and warmer weather in the first half of 2015 compared to the same period in 2014.

Pension and Other Postretirement Plan Funding. NiSource expects to make contributions of approximately 3.5 million to its pension plans and approximately 34.8 million to its other postretirement benefit plans in 2015, which could change depending on market conditions. For the six months ended June 30, 2015, NiSource has contributed 1.4 million to its pension plans and 15.2 million to its other postretirement benefit plans.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Investing Activities

NiSource's capital expenditures for the six months ended June 30, 2015 were 991.1 million, compared to 852.9 million for the comparable period in 2014. This increased spending is mainly due to higher spending in the Columbia Pipeline Group Operations segment on various growth projects primarily in the Marcellus and Utica Shale areas and for expenditures under the modernization program. NiSource projects 2015 capital expenditures to be approximately 2.4 billion, which includes approximately 1.1 billion of expected CPG capital expenditures.

Restricted cash was 25.2 million and 24.9 million as of June 30, 2015 and December 31, 2014, respectively.

Net distributions to equity investees were 2.2 million for the six months ended June 30, 2015, compared to net contributions of 54.8 million for the comparable period in 2014. Refer to the Columbia Pipeline Group Operations' segment discussion for further information on equity investments.

Financing Activities

Columbia Pipeline Partners LP. CPPL received net proceeds of 1,168.4 million from its IPO completed on February 11, 2015.

Long-term Debt. Refer to Note 14, "Long-term Debt," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on long-term debt.

Credit Facilities. During the second quarter of 2015, NiSource Finance maintained a 2.0 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of September 28, 2018. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's 1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes. Upon the Separation, the NiSource Finance revolving credit facility capacity was reduced from 2.0 billion to 1.5 billion, and the termination date was extended to July 1, 2020.

During the second quarter of 2015, CPPL maintained a 500.0 million revolving credit facility, of which 50.0 million was available for issuance of letters of credit. The purpose of the facility is to provide cash for general partnership purposes, including working capital, capital expenditures and the funding of capital calls. At June 30, 2015, CPPL had 20.0 million of outstanding borrowings under this facility.

NiSource Finance's commercial paper program has a program limit of up to 1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse and Wells Fargo.

NiSource Finance had no borrowings outstanding under its revolving credit facility at June 30, 2015 and 500.0 million at December 31, 2014 at a weighted average interest rate of 1.44%. In addition, NiSource Finance had no commercial paper outstanding at June 30, 2015, and 792.6 million in commercial paper outstanding at December 31, 2014, at a weighted average interest rate of 0.82%.

As of June 30, 2015 and December 31, 2014, NiSource had 141.8 million and 284.3 million, respectively, of short-term borrowings recorded on the Condensed Consolidated Balance Sheets (unaudited) relating to its accounts receivable securitization facilities. See Note 9, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited).

As of June 30, 2015 and December 31, 2014, NiSource had 30.9 million of stand-by letters of credit outstanding of which 14.7 million were supported by the revolving credit facility.

As of June 30, 2015, an aggregate of 2,604.2 million of credit was available under the credit facilities and accounts receivable securitization programs.

Debt Covenants. NiSource is subject to a financial covenant under its revolving credit facility, which requires NiSource to maintain a debt to capitalization ratio that does not exceed 70%. A similar covenant in a 2005 private placement note purchase agreement requires NiSource to maintain a debt to capitalization ratio that does not exceed 75%. As of June 30, 2015, the ratio was 56.0%.

NiSource is also subject to certain other non-financial covenants under the revolving credit facility. Such covenants include a limitation on the creation or existence of new liens on NiSource's assets, generally exempting liens on utility assets, purchase money security interests, preexisting security interests and an additional subset of assets equal to 150 million. An asset sale covenant generally restricts the sale, lease and/or transfer of NiSource's assets to no more than 10% of its consolidated total assets

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

and dispositions for a price not materially less than the fair market value of the assets disposed of that do not impair the ability of NiSource and NiSource Finance to perform obligations under the revolving credit facility, and that, together with all other such dispositions, would not have a material adverse effect. The revolving credit facility also includes a cross-default provision, which triggers an event of default under the credit facility in the event of an uncured payment default relating to any indebtedness of NiSource or any of its subsidiaries in a principal amount of 50 million or more.

NiSource's indentures generally do not contain any financial maintenance covenants. However, NiSource's indentures are generally subject to cross-default provisions ranging from uncured payment defaults of 5 million to 50 million, and limitations on the incurrence of liens on NiSource's assets, generally exempting liens on utility assets, purchase money security interests, preexisting security interests and an additional subset of assets capped at 10% of NiSource's consolidated net tangible assets.

Sale of Trade Accounts Receivables. Refer to Note 9, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on the sale of trade accounts receivable.

All accounts receivable sold to the purchasers are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined, in part, by required loss reserves under the agreements.

Credit Ratings. On June 17, 2015, with consideration of the Separation, Moody's affirmed the NiSource senior unsecured rating of Baa2 and commercial paper rating of P-2, with a stable outlook. Additionally, Moody's affirmed NIPSCO's Baa1 rating and affirmed the Baa2 rating for Columbia of Massachusetts. On June 18, 2015, with consideration of the Separation, Standard & Poor's raised the senior unsecured ratings for NiSource and its subsidiaries to BBB and the commercial paper rating of A-2. Standard & Poor's outlook for NiSource and all of its subsidiaries is Stable. On June 18, 2015, Fitch affirmed the senior unsecured ratings for NiSource at BBB-, and the existing ratings of its other rated subsidiaries. Fitch's outlook for NiSource and its subsidiaries is Positive in anticipation of the Separation. Although all ratings continue to be investment grade, a downgrade by Fitch would result in a rating that is below investment grade. NiSource is committed to maintaining its investment grade credit ratings.

Certain NiSource affiliates have agreements that contain "ratings triggers" that require increased collateral if the credit ratings of NiSource or certain of its subsidiaries are rated below BBB- by Standard & Poor's or Baa3 by Moody's. These agreements are primarily for insurance purposes and for the physical purchase or sale of power. The collateral requirement that would be required in the event of a downgrade below the ratings trigger levels would amount to approximately 41.3 million as of June 30, 2015. In addition to agreements with ratings triggers, there are other agreements that contain "adequate assurance" or "material adverse change" provisions that could necessitate additional credit support such as letters of credit and cash collateral to transact business.

Contractual Obligations. There were no material changes recorded during the six months ended June 30, 2015 to NiSource's contractual obligations as of December 31, 2014.

Market Risk Disclosures

Risk is an inherent part of NiSource's energy businesses. The extent to which NiSource properly and effectively identifies, assesses, monitors and manages each of the various types of risk involved in its businesses is critical to its profitability. NiSource seeks to identify, assess, monitor and manage, in accordance with defined policies and procedures, the following principal market risks that are involved in NiSource's energy businesses: commodity price risk, interest rate risk and credit risk. Risk management at NiSource is a multi-faceted process with oversight by the Risk Management Committee that requires constant communication, judgment and knowledge of specialized products and markets. NiSource's senior management takes an active role in the risk management process and has developed policies and procedures that require specific administrative and business functions to assist in the identification, assessment and control of various risks. These include but are not limited to market, operational, financial, compliance and strategic risk types. In recognition of the increasingly varied and complex nature of the energy business, NiSource's risk management process, policies and procedures continue to evolve and are subject to ongoing review and modification.

Commodity Price Risk

NiSource is exposed to commodity price risk as a result of its subsidiaries' operations involving natural gas and power. To manage this market risk, NiSource's subsidiaries use derivatives, including commodity futures contracts, swaps and options. NiSource is not involved in speculative energy trading activity.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Commodity price risk resulting from derivative activities at NiSource's rate-regulated subsidiaries is limited, since regulations allow recovery of prudently incurred purchased power, fuel and gas costs through the ratemaking process, including gains or losses on these derivative instruments. If states should explore additional regulatory reform, these subsidiaries may begin providing services without the benefit of the traditional ratemaking process and may be more exposed to commodity price risk. Some of NiSource's rate-regulated utility subsidiaries offer commodity price risk products to its customers for which derivatives are used to hedge forecasted customer usage under such products. These subsidiaries do not have regulatory recovery orders for these products and are subject to gains and losses recognized in earnings due to hedge ineffectiveness.

There are no material commodity price risk assets or liabilities as of June 30, 2015 and December 31, 2014 .

Interest Rate Risk

NiSource is exposed to interest rate risk as a result of changes in interest rates on borrowings under its revolving credit facility, commercial paper program and accounts receivable programs, which have interest rates that are indexed to short-term market interest rates. Based upon average borrowings and debt obligations subject to fluctuations in short-term market interest rates, an increase (or decrease) in short-term interest rates of 100 basis points (1%) would have increased (or decreased) interest expense by 2.4 million and 7.2 million for the three and six months ended June 30, 2015 , respectively, and 4.2 million and 7.9 million for the three and six months ended June 30, 2014 , respectively.

Credit Risk

Due to the nature of the industry, credit risk is embedded in many of NiSource's business activities. NiSource's extension of credit is governed by a Corporate Credit Risk Policy. In addition, Risk Management Committee guidelines are in place which document management approval levels for credit limits, evaluation of creditworthiness, and credit risk mitigation efforts. Exposures to credit risks are monitored by the Corporate Credit Risk function which is independent of commercial operations. Credit risk arises due to the possibility that a customer, supplier or counterparty will not be able or willing to fulfill its obligations on a transaction on or before the settlement date. For derivative related contracts, credit risk arises when counterparties are obligated to deliver or purchase defined commodity units of gas or power to NiSource at a future date per execution of contractual terms and conditions. Exposure to credit risk is measured in terms of both current obligations and the market value of forward positions net of any posted collateral such as cash and letters of credit.

NiSource closely monitors the financial status of its banking credit providers. NiSource evaluates the financial status of its banking partners through the use of market-based metrics such as credit default swap pricing levels, and also through traditional credit ratings provided by major credit rating agencies.

Fair Value Measurement

NiSource measures certain financial assets and liabilities at fair value. The level of the fair value hierarchy disclosed is based on the lowest level of input that is significant to the fair value measurement. NiSource's financial assets and liabilities include price risk assets and liabilities, available-for-sale securities and a deferred compensation plan obligation.

Exchange-traded derivative contracts are generally based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards and options. In certain instances, NiSource may utilize models to measure fair value. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability and market-corroborated inputs, i.e., inputs derived principally from or corroborated by observable market data by correlation or other means. Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures.

Refer to Note 8, "Fair Value" in the Notes to the Condensed Consolidated Financial Statements (unaudited) for additional information on NiSource's fair value measurements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Off Balance Sheet Arrangements

As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit.

Refer to Note 17, "Other Commitments and Contingencies," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information about NiSource's off balance sheet arrangements.

Other Information

Critical Accounting Policies

There were no significant changes to critical accounting policies for the period ended June 30, 2015 .

Recently Issued Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* . ASU 2014-09 outlines a single, comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In July 2015, the FASB deferred the effective date for ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim periods. Companies are permitted to adopt ASU 2014-09 on the original effective date of the ASU. NiSource is currently evaluating the impact the adoption of ASU 2014-09 will have on its Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2015, the FASB issued ASU 2015-05, *Intangibles - Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement*. ASU 2015-05 clarifies guidance on determining whether a cloud computing arrangement contains a software license that should be accounted for as internal-use software. NiSource is required to adopt ASU 2015-05 for periods beginning after December 15, 2015, including interim periods, and the guidance is permitted to be applied either (1) prospectively to all agreements entered into or materially modified after the effective date or (2) retrospectively, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-05 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2015, the FASB issued ASU 2015-03, *Interest - Imputation of Interest (Subtopic 835-30) : Simplifying the Presentation of Debt Issuance Costs* . ASU 2015-03 changes the way entities present debt issuance costs in financial statements by presenting issuance costs on the balance sheet as a direct deduction from the related debt liability rather than as a deferred charge. Amortization of these costs will continue to be reported as interest expense. NiSource is required to adopt ASU 2015-03 for periods beginning after December 15, 2015, including interim periods, and the guidance is to be applied retrospectively with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-03 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In February 2015, the FASB issued ASU 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis* . ASU 2015-02 amends consolidation guidance by including changes to the variable and voting interest models used by entities to evaluate whether an entity should be consolidated. NiSource is required to adopt ASU 2015-02 for periods beginning after December 15, 2015, including interim periods, and the guidance is to be applied retrospectively or using a modified retrospective approach, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-02 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

NiSource Inc.

RESULTS AND DISCUSSION OF SEGMENT OPERATIONS

Presentation of Segment Information

NiSource's operations are divided into three primary business segments: Gas Distribution Operations, Columbia Pipeline Group Operations and Electric Operations. Refer to Note 21, "Subsequent Events," in the Notes to the Condensed Consolidated Financial Statements (unaudited) for additional information regarding the Separation and the treatment of CPG as discontinued operations effective July 1, 2015, which contains all of the operations of the Columbia Pipeline Group Operations segment.

NiSource's Gas Distribution Operations serve approximately 3.4 million customers in seven states: Ohio, Indiana, Pennsylvania, Massachusetts, Virginia, Kentucky and Maryland. The regulated subsidiaries offer both traditional bundled services as well as transportation only for customers that purchase gas from alternative suppliers. The operating results reflect the temperature-sensitive nature of customer demand with 73% of annual residential and commercial throughput affected by seasonality. As a result, segment operating income is higher in the first and fourth quarters reflecting the heating demand during the winter season.

Regulatory Matters

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Gas Distribution Operations segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Gas Distribution Operations

Customer Usage. Increased efficiency of natural gas appliances and improvements in home building codes and standards has contributed to a long-term trend of declining average use per customer. Residential and commercial usage for the six months ended June 30, 2015 decreased from the same period last year primarily due to warmer weather compared to the prior year. While historically, rate design at the distribution level has been structured such that a large portion of cost recovery is based upon throughput, rather than in a fixed charge, operating costs are largely incurred on a fixed basis, and do not fluctuate due to changes in customer usage. As a result, the NiSource LDCs have pursued changes in rate design to more effectively match recoveries with costs incurred. Each of the states in which the NiSource LDCs operate have different requirements regarding the procedure for establishing changes to rate design. Columbia of Ohio restructured its rate design through a base rate proceeding and has adopted a "de-coupled" rate design which more closely links the recovery of fixed costs with fixed charges. Columbia of Massachusetts and Columbia of Virginia received regulatory approval of decoupling mechanisms which adjust revenues to an approved benchmark level through a volumetric adjustment factor. Columbia of Maryland has received regulatory approval to implement a residential class revenue normalization adjustment, a decoupling mechanism whereby monthly revenues that exceed or fall short of approved levels are reconciled in subsequent months. In a prior base rate proceeding, Columbia of Pennsylvania implemented a residential weather normalization adjustment charge. In a prior base rate proceeding, NIPSCO implemented a higher fixed customer charge for residential and small customer classes moving toward full straight fixed variable rate design.

Environmental Matters

Currently, various environmental matters impact the Gas Distribution Operations segment. As of June 30, 2015, reserves have been recorded to cover probable environmental response actions. Refer to Note 17-C, "Other Commitments and Contingencies - Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Gas Distribution Operations segment.

Weather

In general, NiSource calculates the weather related revenue variance based on changing customer demand driven by weather variance from normal heating degree-days. Normal is evaluated using heating degree days across the NiSource distribution region. While the temperature base for measuring heating degree days (i.e. the estimated average daily temperature at which heating load begins) varies slightly across the region, the NiSource composite measurement is based on 65 degrees. NiSource composite heating degree days reported do not directly correlate to the weather related dollar impact on the results of Gas Distribution Operations. Heating degree days experienced during different times of the year or in different operating locations may have more or less impact on volume and dollars depending on when and where they occur. When the detailed results are combined for reporting, there may be weather related dollar impacts on operations when there is not an apparent or significant change in the aggregated NiSource composite heating degree-day comparison.

Weather in the Gas Distribution Operations' territories for the second quarter of 2015 was 18% warmer than normal and 12% warmer than the second quarter of 2014.

Weather in the Gas Distribution Operations' territories for the six months ended June 30, 2015 was 12% colder than normal and 2% warmer than the same period in 2014.

Throughput

Total volumes sold and transported of 183.1 MMDth for the second quarter of 2015 decreased by 14.9 MMDth from the same period last year. This 8% decrease in volumes was primarily attributable to lower off-system sales.

Total volumes sold and transported of 585.2 MMDth for the six months ended June 30, 2015 decreased by 10.7 MMDth from the same period last year. This 2% decrease in volume was primarily attributable to warmer weather.

Net Revenues

Net revenues for the second quarter of 2015 were 375.3 million, an increase of 15.9 million from the same period in 2014. The increase in net revenues is due primarily to higher regulatory and service programs of 16.1 million, including the implementation of rates under Columbia of Ohio's approved infrastructure replacement program, as well as the impact of new rates at Columbia of Pennsylvania and Columbia of Virginia. Additionally, there was an increase of 2.9 million as a result of rent billed to affiliates, offset in expense, and an increase in net revenues of 1.9 million due to customer increases. These increases were partially offset by lower commercial and residential usage of 3.3 million and the effects of warmer weather of 3.0 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Gas Distribution Operations

Net revenues for the six months ended June 30, 2015 were 1,109.0 million, an increase of 107.0 million from the same period in 2014. The increase in net revenues is due primarily to higher regulatory and tax trackers, which are offset in expense, of 52.2 million and an increase of 49.3 million for regulatory and service programs, including the impact of new rates at Columbia of Pennsylvania, Columbia of Virginia and Columbia of Massachusetts, as well as the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Additionally, there were higher net revenues of 6.3 million resulting from rent billed to affiliates, offset in expense.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased gas costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three and six months ended June 30, 2015 was a revenue decrease of 29.2 million and 92.8 million, respectively, compared to a revenue decrease of 31.8 million and 0.3 million for the three and six months ended June 30, 2014, respectively.

Operating Income

For the second quarter of 2015, Gas Distribution Operations reported operating income of 49.7 million, a decrease of 10.1 million from the comparable 2014 period. Operating income decreased as a result of higher operating expenses, partially offset by increased net revenues, as described above. Operating expenses were 26.0 million higher than the comparable period reflecting increased employee and administrative expenses of 11.8 million, higher depreciation of 4.1 million, increased outside service costs of 2.6 million and increased other taxes of 2.5 million.

For the six months ended June 30, 2015, Gas Distribution Operations reported operating income of 374.9 million, an increase of 13.3 million from the comparable 2014 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses were 93.7 million higher than the comparable period reflecting increased regulatory and tax trackers, which are offset in net revenues, of 52.2 million, higher employee and administrative expenses of 18.0 million, increased depreciation of 8.0 million, higher outside service costs of 6.2 million and increased other taxes of 3.8 million.

NiSource generates and distributes electricity, through its subsidiary NIPSCO, to approximately 461 thousand customers in 20 counties in the northern part of Indiana. The operating results reflect the temperature-sensitive nature of customer demand with annual sales affected by temperatures in the northern part of Indiana. As a result, segment operating income is generally higher in the second and third quarters, reflecting cooling demand during the summer season.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Electric Operations

Electric Supply

On October 31, 2014, NIPSCO submitted its 2014 Integrated Resource Plan with the IURC. The plan evaluates demand-side and supply-side resource alternatives to reliably and cost-effectively meet NIPSCO customers' future energy requirements over the next twenty years. Existing resources are expected to be sufficient, assuming favorable outcomes for environmental upgrades, to meet customers' needs into the next decade. NIPSCO continues to monitor and assess economic, regulatory and legislative activity, and will update its resource plan as appropriate.

Regulatory Matters

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Electric Operations segment.

Environmental Matters

Currently, various environmental matters impact the Electric Operations segment. As of June 30, 2015, a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 17-C, "Other Commitments and Contingencies - Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Electric Operations segment.

Transmission Upgrade Agreements

On February 11, 2014, NIPSCO entered into two TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs, filed a complaint at the FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. On December 8, 2014, the FERC issued an order in response to the complaint finding that it is appropriate for NIPSCO to recover, through the multiplier, substantiated costs of ownership related to the TUAs. The FERC set for hearing the issue of what constitutes the incremental costs NIPSCO will incur, but is holding that hearing in abeyance to allow for settlement. NIPSCO will continue to monitor developments in this matter and does not believe the impact is material to the Condensed Consolidated Financial Statements (unaudited).

Sales

Electric Operations sales quantities for the second quarter of 2015 were 3,976.5 gwh, a decrease of 284.4 gwh compared to the second quarter of 2014. The 6.7% decrease is primarily attributable to decreases in industrial usage, which was caused by a reduction in steel production due to the high levels of imports that have impacted the steel market since the start of 2015.

Electric Operations sales quantities for the six months ended June 30, 2015 were 8,359.2 gwh, a decrease of 685.7 gwh compared to the same period in 2014. The 7.6% decrease is primarily attributable to decreases in sales for resale and industrial usage. The decreases in sales for resale relate to increased opportunities for off-system sales during the first quarter of 2014 due to the cold weather that occurred during that period. The decrease in industrial usage was primarily attributable to a reduction in steel production due to the high level of imports that have impacted the steel market since the start of 2015.

Net Revenues

Net revenues for the second quarter of 2015 were 259.1 million, consistent with the same period in 2014. Trackers, which are offset in expense, increased net revenues by 5.7 million which were offset by lower industrial, residential and commercial usage of 6.0 million.

Net revenues for the six months ended June 30, 2015 were 529.2 million, an increase of 0.1 million from the same period in 2014. The increase in net revenues is due primarily to increased trackers, which are offset in expense, of 7.9 million, and higher net revenues of 5.2 million as a result of two electric transmission projects authorized by the MISO. Additionally, there were decreased fuel handling costs of 4.0 million and a higher return on the environmental capital investment recovery program of 3.8 million due to an increased plant balance eligible for recovery. These increases in net revenues were partially offset by lower off-system sales of 8.6 million, decreased industrial usage of 7.2 million and the effects of weather of 5.8 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Electric Operations

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased fuel costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three and six months ended June 30, 2015 was a revenue decrease of 2.0 million and 24.7 million, respectively, compared to a revenue increase of 10.5 million and 30.8 million for the three and six months ended June 30, 2014, respectively.

Operating Income

For the second quarter of 2015, Electric Operations reported operating income of 45.7 million, a decrease of 17.2 million from the comparable 2014 period. Operating income decreased as a result of higher operating expenses. Operating expenses increased 17.2 million due primarily to higher environmental costs of 7.7 million, increased trackers, which are offset in net revenues, of 5.7 million and increased depreciation of 4.9 million.

For the six months ended June 30, 2015, Electric Operations reported operating income of 115.7 million, a decrease of 26.1 million from the comparable 2014 period. Operating income decreased as a result of higher operating expenses offset by increased net revenues, as described above. Operating expenses increased 26.2 million due primarily to higher environmental costs of 10.0 million, increased trackers, which are offset in net revenues, of 7.9 million and increased depreciation of 5.4 million.

Total ⁽¹⁾	344.7	321.5	957.8	910.0

⁽¹⁾This amount excludes storage injections.

NiSource's Columbia Pipeline Group Operations subsidiaries own and operate approximately 15,000 miles of interstate pipelines and operate one of the nation's largest underground natural gas storage systems, capable of operationally storing approximately 622 Bcf of natural gas. Through its subsidiaries, Columbia Transmission, Columbia Gulf, Columbia Midstream and Crossroads Pipeline, NiSource owns and operates an interstate pipeline network extending from the Gulf of Mexico to New York and the eastern seaboard. Together, these companies serve customers in 16 northeastern, mid-Atlantic, Midwestern and southern states and the District of Columbia.

Columbia Pipeline Group Operations' most significant projects are as follows:

West Side Expansion (Columbia Gulf-Bi-Directional) . This project will increase capacity by up to 540,000 Dth/d to transport Marcellus production originating in West Virginia to Gulf Coast markets on the Columbia Gulf system. A portion of the project was placed in service in the fourth quarter of 2014 and the remaining portion will be placed in service in the third quarter of 2015. The total investment for the project is 113 million.

Chesapeake LNG . This approximately 28 million project was placed into service the second quarter of 2015 and replaced 120,000 Dth/d of existing LNG peak shaving facilities nearing the end of their useful lives.

Big Pine Expansion . The Columbia Pipeline Group Operations segment is investing approximately 65 million to extend the Big Pine pipeline and add compression facilities that will add incremental capacity. The project will support Marcellus shale production in western Pennsylvania. The Columbia Pipeline Group Operations segment expects the project piping to be placed in service in the third quarter of 2015 and the compression to be placed in service in 2016.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Columbia Pipeline Group Operations

East Side Expansion . The Columbia Pipeline Group Operations segment has received FERC authorization to construct facilities to provide access for production from the Marcellus shale to northeastern and mid-Atlantic markets. The approximately \$275 million project will add 312,000 Dth/d of capacity and is expected to be placed in service in the fourth quarter of 2015.

Washington County Gathering . A producer has contracted with us to build an approximately 20 mile gas gathering system in southwestern Pennsylvania. The Columbia Pipeline Group Operations segment expects to invest approximately \$120 million through 2018 with initial project in-service in the third quarter of 2015.

Kentucky Power Plant Project . The Columbia Pipeline Group Operations segment expects to invest approximately \$25 million to construct 2.7 miles of 16-inch pipeline and other facilities to a power plant near Columbia Transmission's Line P. This project will provide up to 72,000 Dth/d of new firm service and will be placed in service in the second quarter of 2016.

Utica Access Project . The Columbia Pipeline Group Operations segment expects to invest approximately \$50 million to construct 4.7 miles of 24-inch pipeline to provide 205,000 Dth/d of new firm transportation to provide Utica production access to liquid trading points on Columbia Transmission's system. This project is expected to be placed in service in the fourth quarter of 2016.

Gibraltar Project. The Columbia Pipeline Group Operations segment intends to invest approximately \$275 million to construct an approximately 1 MMDth/d dry gas header pipeline in southwest Pennsylvania. The Columbia Pipeline Group Operations segment expects this to be the first of multiple phases with an initial in-service in the third quarter of 2016.

Leach XPress . This project will provide approximately 1.5 MMDth/d of capacity from the Marcellus and Utica production regions to the Leach compressor station located on the Columbia Gulf system, TCO Pool, and other markets on the Columbia Transmission system. The Columbia Pipeline Group Operations segment expects the project, which involves an estimated investment of \$1.4 billion, to be placed in service in the fourth quarter of 2017.

Rayne XPress. This project will transport approximately 1 MMDth/d of southwest Marcellus and Utica production from the Leach, Kentucky interconnect with Columbia Transmission towards the Rayne compressor station in southern Louisiana to reach various Gulf Coast markets. The Columbia Pipeline Group Operations segment expects the project, which involves an estimated investment of \$380 million, to be placed in service in the fourth quarter of 2017.

Millennium Lateral. The Columbia Pipeline Group Operations segment intends to invest approximately \$20 million through its ownership stake in Millennium Pipeline to construct approximately 8 miles of 16-inch pipeline to a new power plant situated near Waywayanda, New York. This project will provide up to 127,000 Dth/d of new firm capacity and will be placed in service in the fourth quarter of 2017.

Cameron Access Project. This project, which involves an investment of approximately \$310 million, will provide 800,000 Dth/d of transportation capacity on the Columbia Gulf system to the Cameron LNG export terminal in Louisiana. The Columbia Pipeline Group Operations segment expects the project to be placed in service in the first quarter of 2018.

WB XPress . This project, which involves an investment of approximately \$850 million, will expand Columbia Transmission's WB system in order to transport approximately 1.3 MMDth/d of Marcellus production to pipeline interconnects and East Coast markets, including access to the Cove Point LNG terminal. The Columbia Pipeline Group Operations segment expects this project to be placed in service in the fourth quarter of 2018.

Mountaineer XPress. This approximately \$2 billion project will provide new takeaway capacity for Marcellus and Utica production. The project, which is expected to be placed in service in the fourth quarter of 2018, will provide up to 2.7 MMDth/d of firm transportation capacity on the Columbia Transmission system.

Gulf XPress. Gulf XPress will provide 860,000 Dth/d of firm transportation capacity for Marcellus and Utica production on the Columbia Gulf system. This project involves an investment of approximately \$0.7 billion and is expected to be placed in service in the fourth quarter of 2018.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

**NiSource Inc.
Columbia Pipeline Group Operations**

Equity Investments

Pennant. Columbia Midstream entered into a 50:50 joint venture in 2012 with affiliates of Hilcorp to construct new wet natural gas gathering pipeline infrastructure and NGL processing facilities to support natural gas production in the Utica Shale region of northeastern Ohio and western Pennsylvania. Columbia Midstream and Hilcorp jointly own Pennant with Columbia Midstream serving as the operator of Pennant and the facilities. NiSource accounts for the joint venture under the equity method of accounting.

During the second quarter of 2015, Columbia Midstream made no contributions to Pennant and made contributions of 23.8 million

to Pennant during the second quarter of 2014. No contributions were made to Pennant for the six months ended June 30, 2015 and contributions of 52.2 million were made for the six months ended June 30, 2014. Pennant distributed 1.5 million of earnings and returned 0.9 million of capital to Columbia Midstream during the three months ended June 30, 2015. No distributions were received from Pennant during the three months ended June 30, 2014. Pennant distributed 2.7 million of earnings and returned 2.2 million of capital to Columbia Midstream during the six months ended June 30, 2015. No distributions were received from Pennant during the six months ended June 30, 2014.

Millennium. The Millennium system is a FERC-regulated interstate natural gas transportation pipeline system, which consists of approximately 253 miles of natural gas transmission pipeline and three compressor stations with approximately 43,000 hp of installed capacity. Millennium transports an average of 1 Bcf/d of natural gas sourced from the Marcellus shale to markets across New York's Southern Tier and lower Hudson Valley, as well as to the New York City markets through its pipeline interconnections. Columbia Transmission owns a 47.5% interest in Millennium and acts as operator for the pipeline in partnership with DTE Millennium Company and National Grid Millennium LLC, which each own an equal remaining share of the company.

During the second quarter of 2015 and 2014, Columbia Transmission made no contributions to Millennium. During the six months ended June 30, 2015, Columbia Transmission made no contributions to Millennium Pipeline, and contributed 2.6 million for the six months ended June 30, 2014. Columbia Transmission received distributions of earnings of 7.6 million and 4.8 million for the three months ended June 30, 2015 and 2014, respectively, and 24.2 million and 11.9 million for the six months ended June 30, 2015 and 2014, respectively.

Hardy Storage. The Hardy Storage facility is a FERC-regulated interstate natural gas storage system, which consists of 29 storage wells in a depleted gas production field in Hampshire and Hardy counties, West Virginia, 36.7 miles of pipeline and 7,100 hp of installed capacity. The facility interconnects with Columbia Transmission and has approximately 12 MMDth of working gas capacity and 176,000 Dth/d of withdrawal capacity. Columbia owns a 50% interest in Hardy Storage and acts as operator for the system. A third party, Piedmont Natural Gas Company, Inc., owns the remaining 50% interest in Hardy Storage.

During the second quarter of 2015 and 2014, no contributions were made to Hardy Storage. During the six months ended 2015 and 2014, no contributions were made to Hardy Storage. Hardy Storage distributed 0.5 million of earnings to NiSource during each of the three months ended June 30, 2015 and 2014, and distributed 1.0 million of earnings to NiSource during each of the six months ended June 30, 2015 and 2014.

Nature of Sales

Columbia Transmission and Columbia Gulf compete for transportation customers based on the type of service a customer needs, operating flexibility, available capacity and price. Columbia Transmission and Columbia Gulf provide a significant portion of total transportation services under firm contracts and derive a smaller portion of revenues through interruptible contracts, with management seeking to maximize the portion of physical capacity sold under firm contracts.

Firm service contracts require pipeline capacity to be reserved for a given customer between certain receipt and delivery points. Firm customers generally pay a "capacity reservation" fee based on the amount of capacity being reserved regardless of whether the capacity is used, plus an incremental usage fee when the capacity is used. Annual capacity reservation revenues derived from firm service contracts generally remain constant over the life of the contract because the revenues are based upon capacity reserved and not whether the capacity is actually used. The high percentage of revenue derived from capacity reservation fees mitigates the risk of revenue fluctuations within the Gas Pipeline Group Operations segment due to changes in near-term supply and demand conditions. The following percentages exclude the impact of intrasegment revenues and tracker-related revenues. For the quarter ended June 30, 2015, approximately 94.5% of the transportation revenues were derived from capacity reservation fees paid under

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

**NiSource Inc.
Columbia Pipeline Group Operations**

firm contracts and 4.1% of the transportation revenues were derived from usage fees under firm contracts compared to approximately 94.3% and 3.9%, respectively, for the quarter ended June 30, 2014. For the six months ended June 30, 2015, approximately 94.2% of the transportation revenues were derived from the capacity reservation fees under firm contracts and 4.3% of the transportation revenue were derived from usage fees under firm contracts compared to approximately 93.4% and 4.6% respectively, for the six months ended June 30, 2014.

Interruptible transportation service is typically short term in nature and is generally used by customers that either do not need firm service or have been unable to contract for firm service. These customers pay a usage fee only for the volume of gas actually transported. The ability to provide this service is limited to available capacity not otherwise used by firm customers, and customers receiving services under interruptible contracts are not assured capacity in the pipeline facilities. Columbia Pipeline Group Operations provides interruptible service at competitive prices in order to capture short term market opportunities as they occur and interruptible service is viewed by management as an important strategy to optimize revenues from the gas transmission assets. For the quarters ended June 30, 2015 and 2014, approximately 1.3% and 1.8%, respectively, of the transportation revenues were derived from interruptible contracts. For the six months ended June 30, 2015 and 2014, approximately 1.5% and 2.1% respectively, of the transportation revenues were derived from interruptible contracts.

Regulatory Matters

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on regulatory matters for the Columbia Pipeline Group Operations segment.

Environmental Matters

Currently, various environmental matters impact the Columbia Pipeline Group Operations segment. As of June 30, 2015, a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 17-C, "Other Commitments and Contingencies - Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Columbia Pipeline Group Operations segment.

Throughput

Columbia Transmission's throughput consists of gas transportation service deliveries to LDC city gates, to gas fired power plants, other industrial customers or other interstate pipelines in its market area. Columbia Transmission's market area covers portions of northeastern, mid-Atlantic, Midwestern, and southern states as well as the District of Columbia. Throughput for Columbia Gulf reflects transportation services for gas delivered through its mainline and laterals. Crossroads Pipeline's throughput comes from deliveries it makes to its customers and other pipelines that are located in northern Indiana and Ohio. Intersegment eliminations represent gas delivered to affiliated pipelines within the segment.

Throughput for the Columbia Pipeline Group Operations segment totaled 344.7 MMDth for the second quarter of 2015, compared to 321.5 MMDth for the same period in 2014. The increase of 23.2 MMDth primarily reflected increased transportation of Marcellus and Utica natural gas production and increased deliveries to the power generation plants of the LDCs.

Throughput for the Columbia Pipeline Group Operations segment totaled 957.8 MMDth for the six months ended June 30, 2015, compared to 910.0 MMDth for the same period in 2014. The increase of 47.8 MMDth primarily reflected increased transportation of Marcellus and Utica natural gas production.

Net Revenues

Net revenues were 315.8 million for the second quarter of 2015, a decrease of 27.6 million from the same period in 2014. The decrease in net revenues is due primarily to lower regulatory trackers, which are offset in expense, of 48.1 million and other miscellaneous decreases of 4.5 million. These decreases were partially offset by increased demand margin revenue of 25.0 million as a result of growth projects placed in service and new firm contracts.

Net revenues were 655.5 million for the six months ended June 30, 2015, a decrease of 33.4 million from the same period in 2014. The decrease in net revenues is due primarily to lower regulatory trackers, which are offset in expense, of 75.5 million and decreased mineral rights royalty revenue of 4.1 million. These decreases were partially offset by increased demand margin revenue of 55.7 million as a result of growth projects placed in service and new firm contracts.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Columbia Pipeline Group Operations

Operating Income

Operating income was 108.6 million for the second quarter of 2015, an increase of 4.9 million from the second quarter of 2014. Operating income increased as a result of decreased operating expenses and higher equity earnings, partially offset by lower net revenues, as described above. Operating expenses were 29.9 million lower due to a decrease in regulatory trackers, which are offset in net revenues, of 48.1 million and higher gains on the sale of assets of 8.0 million primarily resulting from increased gains on conveyances of mineral interests. These decreases in operating expenses were partially offset by higher outside service costs of 7.8 million, increased employee and administrative expenses of 7.4 million and higher depreciation of 5.1 million. Equity Earnings increased 2.6 million due to increased earnings at Pennant.

Operating income was 271.6 million for the six months ended June 30, 2015, an increase of 9.0 million from the comparable 2014 period. Operating income increased as a result of lower operating expenses and increased equity earnings partially offset by lower net revenues, as described above. Operating expenses were 34.2 million lower than the comparable period primarily as a result of decreased regulatory trackers, which are offset in net revenues, of 75.5 million. This decrease in operating expenses was partially offset by higher employee and administrative expenses of 14.8 million, increased outside service costs of 9.7 million and higher depreciation of 7.9 million. Additionally, there were decreased gains on the conveyances of mineral interests of 4.2 million and increased other taxes of 2.3 million. Equity earnings increased 8.2 million primarily due to higher earnings at Pennant and Millennium.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

NiSource Inc.

For a discussion regarding quantitative and qualitative disclosures about market risk see “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Market Risk Disclosures.”

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

NiSource’s chief executive officer and its principal financial officer, are responsible for evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). NiSource’s disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including NiSource’s chief executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based upon that evaluation, NiSource’s chief executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to provide reasonable assurance that financial information was processed, recorded and reported accurately.

Changes in Internal Controls

During the quarter ended June 30, 2015, NiSource implemented the final phase of a multi-year process of migrating all of its subsidiaries to a common general ledger system. During this phase, NIPSCO and NiSource Corporate Services migrated to this new general ledger system. The implementation is not being made in response to any deficiency in our internal controls. This implementation has resulted in certain changes to business processes and internal controls impacting our financial reporting. NiSource has taken steps to monitor and maintain appropriate internal control over financial reporting during this phase and will continue to evaluate the operating effectiveness of related controls during subsequent periods.

PART II

ITEM 1. LEGAL PROCEEDINGS

NiSource Inc.

The Company is party to certain claims and legal proceedings arising in the ordinary course of business, none of which is deemed to be individually significant at this time. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on the Company's results of operations, financial position or liquidity. It is possible that if one or more of such matters were decided against the Company, the effects could be material to the Company's results of operations in the period in which the Company would be required to record or adjust the related liability and could also be material to the Company's cash flows in the periods the Company would be required to pay such liability.

ITEM 1A. RISK FACTORS

NiSource Inc.

NiSource's operations and financial results are subject to various risks and uncertainties, including those described below, that could adversely affect the Company's business, financial condition, results of operations, cash flows, and the trading price of the Company's common stock. In light of the Separation, the following risks and uncertainties amend and restate those previously disclosed in NiSource's most recent Annual Report on Form 10-K for the year ended December 31, 2014.

NiSource has substantial indebtedness which could adversely affect its financial condition.

NiSource had total consolidated indebtedness of 9,485.6 million outstanding as of June 30, 2015, of which 2,765.9 million was attributable to Columbia Pipeline Group. The Company's substantial indebtedness could have important consequences. For example, it could:

- limit the Company's ability to borrow additional funds or increase the cost of borrowing additional funds;
- reduce the availability of cash flow from operations to fund working capital, capital expenditures and other general corporate purposes;
- limit the Company's flexibility in planning for, or reacting to, changes in the business and the industries in which it operates;
- lead parties with whom NiSource does business to require additional credit support, such as letters of credit, in order for NiSource to transact such business;
- place NiSource at a competitive disadvantage compared to competitors that are less leveraged;
- increase vulnerability to general adverse economic and industry conditions; and
- limit the ability of the Company to execute on its growth strategy, which is dependent upon access to capital to fund its substantial investment program.

Some of NiSource's debt obligations contain financial covenants related to debt-to-capital ratios and cross-default provisions. NiSource's failure to comply with any of these covenants could result in an event of default, which, if not cured or waived, could result in the acceleration of outstanding debt obligations. Additionally, a drop in NiSource's credit rating could adversely impact the cost for NiSource to issue new debt securities.

A drop in NiSource's credit rating could adversely impact NiSource's liquidity.

On June 17, 2015, with consideration of the Separation, Moody's affirmed the NiSource senior unsecured rating of Baa2 and commercial paper rating of P-2, with a stable outlook. Additionally, Moody's affirmed NIPSCO's Baa1 rating and affirmed the Baa2 rating for Columbia of Massachusetts. On June 18, 2015, with consideration of the Separation, Standard & Poor's raised the senior unsecured ratings for NiSource and its subsidiaries to BBB and the commercial paper rating to A-2. Standard & Poor's outlook for NiSource and all of its subsidiaries is Stable. On June 18, 2015, Fitch affirmed the senior unsecured ratings for NiSource at BBB-, and the existing ratings of its other rated subsidiaries. Fitch's outlook for NiSource and its subsidiaries is Positive in anticipation of the Separation. Although all ratings continue to be investment grade, a downgrade by Fitch would result in a rating that is below investment grade. NiSource is committed to maintaining its investment grade credit ratings.

The Company's credit ratings could be lowered or withdrawn entirely by a rating agency if, in its judgment, the circumstances warrant. Therefore, there is no assurance that NiSource will continue to maintain such investment grade credit ratings in the future.

Certain NiSource affiliates have agreements that contain "ratings triggers" that require increased collateral if the credit ratings of NiSource or certain of its subsidiaries are rated below BBB- by Standard & Poor's or Baa3 by Moody's. These agreements are primarily for insurance purposes and for the physical purchase or sale of power. As of June 30, 2015 the collateral requirement that would be required in the event of a downgrade below the ratings trigger levels would amount to approximately 41.3 million. In addition to agreements with ratings triggers, there are other agreements that contain "adequate assurance" or "material adverse change" provisions that could necessitate additional credit support such as letters of credit and cash collateral to transact business.

If a rating agency were to downgrade the Company's rating below investment grade, its borrowing costs would increase and our funding sources could decrease. In addition, a failure by us to maintain an investment grade rating could affect our business relationships with suppliers and operating partners.

NiSource Inc.

NiSource may not be able to execute its growth strategy as planned.

Because of changes in the business or regulatory environment, NiSource may not be able to execute its business plan as intended. NiSource's customer and regulatory initiatives may not achieve planned results. In addition, NiSource's growth plan relies on the continued view of natural gas as an economically and ecologically attractive fuel. Any developments that cause natural gas no longer to be seen as a favored fuel could adversely affect our results of operations and growth prospects.

Adverse economic and market conditions or increases in interest rates could reduce net revenue growth, increase costs, decrease future net income and cash flows and impact capital resources and liquidity needs.

While the national economy is experiencing some recovery from the recent downturn, NiSource cannot predict how robust the recovery will be or whether or not it will be sustained.

Continued sluggishness in the economy impacting NiSource's operating jurisdictions could adversely impact NiSource's ability to grow its customer base and collect revenues from customers, which could reduce net revenue growth and increase operating costs. An increase in the interest rates NiSource pays would adversely affect future net income and cash flows. In addition, NiSource depends on debt to finance its operations, including both working capital and capital expenditures, and would be adversely affected by increases in interest rates. If the current economic recovery remains slow or credit markets again tighten, NiSource's ability to raise additional capital or refinance debt at a reasonable cost could be negatively impacted. Refer to Note 14, "Long-Term Debt," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information related to outstanding long-term debt and maturities of that debt.

Capital market performance and other factors may decrease the value of benefit plan assets, which then could require significant additional funding and impact earnings.

The performance of the capital markets affects the value of the assets that are held in trust to satisfy future obligations under defined benefit pension and other postretirement benefit plans. NiSource has significant obligations in these areas and holds significant assets in these trusts. These assets are subject to market fluctuations and may yield uncertain returns, which fall below NiSource's projected rates of return. A decline in the market value of assets may increase the funding requirements of the obligations under the defined benefit pension and other postretirement benefit plans. Additionally, changes in interest rates affect the liabilities under these benefit plans; as interest rates decrease, the liabilities increase, which could potentially increase funding requirements. Further, the funding requirements of the obligations related to these benefits plans may increase due to changes in governmental regulations and participant demographics, including increased numbers of retirements or changes in life expectancy assumptions. Ultimately, significant funding requirements and increased pension expense could negatively impact NiSource's results of operations and financial position.

The majority of NiSource's net revenues are subject to economic regulation and are exposed to the impact of regulatory rate reviews and proceedings.

Most of NiSource's net revenues are subject to economic regulation at either the federal or state level. As such, the net revenues generated by those regulated companies are subject to regulatory review by the applicable federal or state authority. These rate reviews determine the rates charged to customers and directly impact revenues. NiSource's financial results are dependent on frequent regulatory proceedings in order to ensure timely recovery of costs. Additionally, the costs of complying with future changes in environmental laws and regulations are expected to be significant, and their recovery through rates will be contingent on regulatory approval.

As a result of efforts to introduce market-based competition in certain markets where the regulated businesses conduct operations, NiSource may compete with independent marketers for customers. This competition exposes NiSource to the risk that certain stranded costs may not be recoverable and may affect results of NiSource's growth strategy and cash flows.

NiSource's costs of compliance with environmental laws are significant. The costs of compliance with future environmental laws and the recognition of environmental liabilities could impact cash flow and profitability.

NiSource's subsidiaries are subject to extensive federal, state and local environmental requirements that, among other things, regulate air emissions, water usage and discharges, remediation and the management of chemicals, hazardous waste, solid waste, and coal combustion residuals. Compliance with these legal obligations requires NiSource to make expenditures for installation of pollution control equipment, remediation, environmental monitoring, emissions fees and permits at many of NiSource's facilities. These expenditures are significant, and NiSource expects that they will continue to be significant in the future. Furthermore, if

ITEM 1A. RISK FACTORS

NiSource Inc.

NiSource's subsidiaries fail to comply with environmental laws and regulations or cause harm to the environment or persons, even if caused by factors beyond NiSource's control, that failure or harm may result in the assessment of civil or criminal penalties and damages against NiSource and its subsidiaries.

Existing environmental laws and regulations may be revised and new laws and regulations seeking to protect the environment may be adopted or become applicable to NiSource's subsidiaries. Revised or additional laws and regulations could result in significant additional expense and operating restrictions on NiSource's facilities or increased compliance costs, which may not be fully recoverable from customers and would, therefore, reduce net income. Moreover, such costs could materially affect the continued economic viability of one or more of NiSource's facilities.

Because NiSource's operations deal with natural gas and coal fossil fuels, emissions of GHGs are an expected aspect of the business. While NiSource attempts to reduce GHG emissions through efficiency programs, leak detection, and other programs, GHG emissions cannot be entirely eliminated. The current administration has made it clear that it is focused on reducing GHG emissions, through legislation and/or regulation. Imposing statutory or regulatory restrictions and/or costs on GHG emissions could increase NiSource's cost of producing energy, which could impact customer demand or NiSource's profitability. Compliance costs associated with these requirements could also affect NiSource's cash flow. The cost impact of any new or amended GHG legislation or regulations would depend upon the specific requirements enacted and cannot be determined at this time.

Even in instances where legal and regulatory requirements are already known, the original estimates for cleanup and environmental capital projects can differ materially from the amount ultimately expended. The actual future expenditures depend on many factors, including the nature and extent of contamination, the method of cleanup, the cost of raw materials, contractor costs, and the availability of cost recovery from customers. Changes in costs and the ability to recover under regulatory mechanisms could affect NiSource's financial position, operating results and cash flows.

A significant portion of the gas and electricity NiSource sells is used by residential and commercial customers for heating and air conditioning. Accordingly, the operating results fluctuate depending on the weather and, to a certain extent, usage of gas or electricity.

Energy sales are sensitive to variations in weather. Forecasts of energy sales are based on normal weather, which represents a long-term historical average. Significant variations from normal weather could have, and have had, a material impact on energy sales. Additionally, residential usage, and to some degree commercial usage is sensitive to fluctuations in commodity costs for gas and electricity, whereby usage declines with increased costs, thus affecting NiSource's financial results. Lastly, residential and commercial customers' usage is sensitive to economic conditions and the impact of macro-economic drivers such as unemployment, consumption and consumer confidence, which could also affect NiSource's financial results.

NiSource's business operations are subject to economic conditions in certain industries.

Business operations throughout NiSource's service territories have been and may continue to be adversely affected by economic events at the national and local level where it operates. In particular, sales to large industrial customers may be impacted by economic downturns. The U.S. manufacturing industry continues to adjust to changing market conditions including international competition, increasing costs, and fluctuating demand for its products.

Fluctuations in the price of energy commodities or their related transportation costs may have a negative impact on NiSource's financial results.

NiSource's electric generating fleet is dependent on coal and natural gas for fuel, and its gas distribution operations purchase and resell much of the natural gas they deliver. These energy commodities are vulnerable to price fluctuations and fluctuations in associated transportation costs. Hedging activities have been deployed in order to offset fluctuations in commodity supply prices and NiSource relies on regulatory recovery mechanisms in the various jurisdictions in order to fully recover the costs incurred in operations. However, while NiSource has historically been successful in recovery of costs related to such commodity prices, there can be no assurance that such costs will be fully recovered through rates in a timely manner. Additionally, increased gas and electricity costs could result in reduced demand from customers as a result of increased conservation activities.

NiSource is exposed to risk that customers will not remit payment for delivered energy or services, and that suppliers or counterparties will not perform under various financial or operating agreements.

NiSource's extension of credit is governed by a Corporate Credit Risk Policy, involves considerable judgment and is based on an evaluation of a customer or counterparty's financial condition, credit history and other factors. Credit risk exposure is monitored

NiSource Inc.

by obtaining credit reports and updated financial information for customers and suppliers, and by evaluating the financial status of its banking partners and other counterparties through the use of market-based metrics such as credit default swap pricing levels, and also through traditional credit ratings provided by the major credit rating agencies. Continued adverse economic conditions could increase credit risk and could result in a material adverse effect on NiSource.

NiSource has significant goodwill and definite-lived intangible assets. An impairment of goodwill or definite-lived intangible assets could result in a significant charge to earnings and negatively impact NiSource's compliance with certain covenants under financing agreements.

In accordance with GAAP, NiSource tests goodwill for impairment at least annually and reviews its definite-lived intangible assets for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. Goodwill also is tested for impairment when factors, examples of which include reduced cash flow estimates, a sustained decline in stock price or market capitalization below book value, indicate that the carrying value may not be recoverable. NiSource would be required to record a charge in the financial statements during the period in which any impairment of the goodwill or definite-lived intangible assets is determined, negatively impacting the results of operations. A significant charge could impact the capitalization ratio covenant under certain financing agreements. NiSource is subject to a financial covenant under its five-year revolving credit facility, which requires NiSource to maintain a debt to capitalization ratio that does not exceed 70%. A similar covenant in a 2005 private placement note purchase agreement requires NiSource to maintain a debt to capitalization ratio that does not exceed 75%. As of June 30, 2015, the ratio was 56.0%.

Changes in taxation and the ability to quantify such changes could adversely affect NiSource's financial results.

NiSource is subject to taxation by the various taxing authorities at the federal, state and local levels where it does business. Legislation or regulation which could affect NiSource's tax burden could be enacted by any of these governmental authorities. NiSource cannot predict the timing or extent of such tax-related developments which could have a negative impact on the financial results. Additionally, NiSource uses its best judgment in attempting to quantify and reserve for these tax obligations. However, a challenge by a taxing authority, NiSource's ability to utilize tax benefits such as carryforwards or tax credits, or a deviation from other tax-related assumptions may cause actual financial results to deviate from previous estimates.

Changes in accounting principles may adversely affect NiSource's financial results.

Future changes in accounting rules and associated changes in regulatory accounting may negatively impact the way NiSource records revenues, expenses, assets and liabilities. These changes in accounting standards may adversely affect its financial condition and results of operations.

Transportation and storage of natural gas, as well as the distribution of natural gas, and the generation, transmission and distribution of electricity involve numerous risks that may result in accidents and other operating risks and costs.

NiSource's gas distribution, gas transmission and storage activities, as well as generation, transmission, and distribution of electricity involve a variety of inherent hazards and operating risks, such as gas leaks, downed power lines, accidents, including third-party damages, large scale outages, and mechanical problems, which could cause substantial financial losses. In addition, these risks could result in serious injury or loss of life to employees and the general public, significant damage to property, environmental pollution, impairment of its operations, adverse regulatory rulings and reputational harm, which in turn could lead to substantial losses to NiSource. In accordance with customary industry practice, NiSource maintains insurance against some, but not all, of these risks and losses. The location of pipelines and storage facilities, or generation, transmission, substations and distribution facilities near populated areas, including residential areas, commercial business centers and industrial sites, could increase the level of damages resulting from these risks. The occurrence of any of these events could adversely affect NiSource's financial position and results of operations.

Aging infrastructure may lead to increased costs and disruptions in operations that could negatively impact NiSource's financial results.

NiSource has risks associated with aging infrastructure assets. The age of these assets may result in a need for replacement, a higher level of maintenance costs and unscheduled outages despite diligent efforts by NiSource to properly maintain these assets through inspection, scheduled maintenance and capital investment. The failure to operate these assets as desired could result in NiSource's inability to meet firm service obligations, adversely impact revenues, and result in increased capital expenditures and expenses, which may not be fully recoverable from customers.

NiSource Inc.

Climate change, natural disasters, acts of terrorism or other catastrophic events may disrupt operations and reduce the ability to service customers.

A disruption or failure of natural gas distribution systems or within electric generation, transmission or distribution systems in the event of a major hurricane, tornado, terrorist attack or other catastrophic event could cause delays in completing sales, providing services, or performing other critical functions. NiSource has experienced disruptions in the past from hurricanes and tornadoes and other events of this nature. The cost, availability and sufficiency of insurance for these risks could adversely affect NiSource's results of operations, financial position and cash flows.

There is also a concern that climate change may exacerbate the risks to physical infrastructure associated with heat and extreme weather conditions. Climate change and the costs that may be associated with its impacts have the potential to affect NiSource's business in many ways, including increasing the cost NiSource incurs in providing its products and services, impacting the demand for and consumption of its products and services (due to change in both costs and weather patterns), and affecting the economic health of the regions in which NiSource operates.

A cyber-attack on any of NiSource's or certain third-party computer systems upon which NiSource relies may adversely affect its ability to operate.

NiSource is reliant on technology to run its businesses, which are dependent upon financial and operational computer systems to process critical information necessary to conduct various elements of its business, including the generation, transmission and distribution of electricity, operation of its gas pipelines and storage facilities and the recording and reporting of commercial and financial transactions to regulators, investors and other stakeholders. Any failure of NiSource's computer systems, or those of its customers, suppliers or others with whom it does business, could materially disrupt NiSource's ability to operate its business and could result in a financial loss and possibly do harm to NiSource's reputation.

Additionally, NiSource's information systems experience ongoing, often sophisticated, cyber-attacks by a variety of sources with the apparent aim to breach NiSource's cyber-defenses. Although NiSource attempts to maintain adequate defenses to these attacks and works through industry groups and trade associations to identify common threats and assess NiSource's countermeasures, a security breach of NiSource's information systems could (i) impact the reliability of NiSource's generation, transmission, storage and distribution systems and potentially negatively impact NiSource's compliance with certain mandatory reliability standards, (ii) subject NiSource to harm associated with theft or inappropriate release of certain types of information such as system operating information or information, personal or otherwise, relating to NiSource's customers or employees, and/or (iii) impact NiSource's ability to manage NiSource's businesses.

NiSource's capital projects and programs subject the Company to construction risks and natural gas costs and supply risks.

NiSource is engaged in an intrastate natural gas pipeline modernization program to maintain system integrity and enhance service reliability and flexibility. NIPSCO also is currently engaged in a number of capital projects, including air-quality related improvements to its electric generating stations, as well as the construction of new transmission facilities. As NiSource undertakes these projects and programs, it may not be able to complete them on schedule or at the anticipated costs. Additionally, NiSource may construct or purchase some of these projects and programs to capture anticipated future growth in natural gas production, which may not materialize, and may cause the construction to occur over an extended period of time. NiSource also may not receive material increases in revenue and cash flows until after the completion of the projects and programs.

Sustained extreme weather conditions may negatively impact NiSource's operations.

NiSource conducts its operations across a wide geographic area subject to varied and potentially extreme weather conditions, which may from time to time persist for sustained periods of time. Despite preventative maintenance efforts, persistent weather related stress on NiSource's infrastructure may reveal weaknesses in its systems not previously known to the Company or otherwise present various operational challenges across all business segments. Although NiSource makes every effort to plan for weather related contingencies, adverse weather may affect its ability to conduct operations in a manner that satisfies customer expectations or contractual obligations. The Company endeavors to minimize such service disruptions, but may not be able to avoid them altogether.

ITEM 1A. RISK FACTORS

NiSource Inc.

NiSource is a holding company and is dependent on cash generated by subsidiaries to meet its debt obligations and pay dividends on its common stock.

NiSource is a holding company and conducts its operations primarily through its subsidiaries. Substantially all of NiSource's consolidated assets are held by its subsidiaries. Accordingly, NiSource's ability to meet its debt obligations or pay dividends on its common stock is largely dependent upon cash generated by these subsidiaries. In the event a major subsidiary is not able to pay dividends or transfer cash flows to NiSource, NiSource's ability to service its debt obligations or pay dividends could be negatively affected.

Following the Separation, all of the entities formerly included in NiSource's Columbia Pipeline Group Operations segment have been separated from NiSource and are held by a separate publicly traded company (CPG). The related assets are no longer held by subsidiaries of NiSource, which may negatively affect NiSource's ability to service its debt obligations or pay dividends.

The Separation may not achieve the intended benefits and may result in significant tax liabilities.

NiSource cannot predict with certainty when the benefits expected from the Separation will occur or the extent to which they will be achieved, if at all. Furthermore, there are various uncertainties and risks relating to the process of the Separation that could have a negative impact on our financial condition, results of operations and cash flows, including disruption of our operations and impairment of our relationship with regulators, key personnel, customers and vendors.

As a result of the completion of the Separation, NiSource faces new and unique risks, including having fewer assets, reduced financial resources and less diversification of revenue sources. In addition, the changes in the Company's operational and financial profile may not meet some or all of its stockholders' investment strategies, which could cause investors to sell their NiSource shares and otherwise decrease demand for shares of NiSource common stock. This may cause the relative market price of NiSource common stock to decrease, and the market price of NiSource common stock may be subject to greater volatility following the completion of the Separation.

The Separation was conditioned on the receipt by NiSource of a legal opinion to the effect that the distribution of CPG shares to NiSource stockholders is expected to qualify as tax-free under Section 355 of the U.S. Internal Revenue Code. Even though NiSource has received such an opinion, the Internal Revenue Service could determine on audit that the distribution is taxable. Both NiSource and its stockholders could incur significant U.S. federal income tax liabilities if taxing authorities conclude the distribution is taxable.

AMENDED AND RESTATED
CERTIFICATE OF INCORPORATION
OF
NISOURCE INC.
As Amended Through
May 12, 2015

AMENDED AND RESTATED
CERTIFICATE OF INCORPORATION
OF
NISOURCE INC.

Article I Name

The name of this Corporation is NiSource Inc.

Article II Registered Office

The registered office of the Corporation in the State of Delaware is located at Corporation Service Company, 2711 Centerville Road, Suite 400, in the City of Wilmington, County of New Castle. The name of its registered agent is Corporation Service Company, and the address of said registered agent is 2711 Centerville Road, Suite 400, in said city.

Article III Statement of Purpose

The nature of the business to be conducted and the purposes of the Corporation are to engage in any lawful act or activity for which corporations may be organized under the Delaware General Corporation Law, as amended.

Article IV Classes of Capital Stock

The total number of shares of all classes of stock which the Corporation shall have authority to issue is Four hundred twenty million (420,000,000), of which Twenty million (20,000,000) shares of the par value .01 each are to be of a class designated Preferred Stock and Four hundred million (400,000,000) shares of the par value of .01 each are to be of a class designated Common Stock.

A. Common Stock

1. Subject to the powers, preferences and other special rights afforded Preferred Stock by the provisions of this Article IV or resolutions adopted pursuant hereto, the holders of the Common Stock shall be entitled to receive, to the extent permitted by Delaware law, such dividends as may from time to time be declared by the Board of Directors.

2. Except as otherwise required by Delaware law and as otherwise provided in this Article IV and resolutions adopted pursuant hereto with respect to Preferred Stock, and subject to the provisions of the Bylaws of the Corporation, as from time to time amended, with respect to the closing of the transfer books and the fixing of a record date for the determination of stockholders entitled to vote, the holders of the Common Stock shall exclusively possess voting power for the election of directors and for all other purposes, and the holders of the Preferred Stock shall have no voting power and shall not be entitled to any notice of any meeting of stockholders.

3. Except as may otherwise be required by law, this Amended and Restated Certificate of Incorporation or the provisions of the resolution or resolutions as may be adopted by the Board of Directors pursuant to this Article IV with respect to Preferred Stock, each holder of Common Stock, and each holder of Preferred Stock, if entitled to vote on such matter, shall be entitled to one vote in respect of each share of Common Stock or Preferred Stock, as the case may be, held by such holder on each matter voted upon by stockholders, and any such right to vote shall not be cumulative.

4. Any action required or permitted to be taken by the stockholders of the Corporation must be effected at an annual or special meeting of stockholders of the Corporation and may not be effected by any consent in writing by such stockholders. Except as otherwise required by law and subject to the rights of the holders of any class or any series of Preferred Stock, special meetings of stockholders of the Corporation may be called only by the Board of Directors pursuant to a resolution adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time any such resolution is presented to the Board for adoption) or, subject to the provisions of the Bylaws of the Corporation,

upon the written request of stockholders of the Corporation holding no less than twenty-five percent of the shares of Common Stock issued and outstanding.

5. In the event of the voluntary or involuntary liquidation, dissolution, distribution of assets or winding-up of the Corporation, after distribution in full of the preferential amounts, if any, to be distributed to the holders of Preferred Stock, as set forth in this Article IV or the resolutions adopted with respect to such series under this Article IV, holders of Common Stock shall be entitled to receive all of the remaining assets of the Corporation of whatever kind available for distribution to the stockholders ratably and in proportion to the number of shares of Common Stock held by them respectively. The Board of Directors may distribute in kind to the holders of Common Stock such remaining assets of the Corporation or may sell, transfer, otherwise dispose of all or any part of such remaining assets to any other corporation, trust or other entity and receive payment therefor in cash, stock or obligations of such other corporation, trust or other entity, or a combination thereof, and may set all or make any part of the consideration so received and distributed or any balance thereof in kind to holders of Common Stock. The merger or consolidation of the Corporation into or with any other corporation, or the merger of any other corporation into it, or any purchase or redemption of shares of stock of the Corporation of any class, shall not be deemed to be a dissolution, liquidation, or winding-up of the Corporation for the purposes of this Article IV.

B. Preferred Stock

The express grant of authority to the Board of Directors of the Corporation to fix by resolution or resolutions the designations and the powers, preferences and rights, and the qualifications, limitations or restrictions thereof, of the shares of Preferred Stock that are not fixed by this Amended and Restated Certificate of Incorporation is as follows:

1. The Preferred Stock may be issued from time to time in any amount, not exceeding in the aggregate the total number of shares of Preferred Stock herein above authorized, reduced by the number of shares of Preferred Stock designated under Section C of this Article IV, as Preferred Stock of one or more series, as hereinafter provided. All shares of any one series of Preferred Stock shall be alike in every particular, each series thereof shall be distinctively designated by letter or descriptive words, and all series of Preferred Stock shall rank equally and be identical in all respects except as permitted by the provisions of Subsection B.2 of this Article IV.

2. Authority is hereby expressly granted to and vested in the Board of Directors from time to time to issue the Preferred Stock as Preferred Stock of any series and in connection with the creation of each such series to fix, by the resolution or resolutions providing for the issue of shares thereof, the voting powers, designations, preferences and relative, participating, optional or other special rights, and the qualifications, limitations or restrictions thereof, if any, of such series, to the full extent now or hereafter permitted by the laws of the State of Delaware. Pursuant to the foregoing general authority vested in the Board of Directors, but not in limitation of the powers conferred on the Board of Directors thereby and by the laws of the State of Delaware, the Board of Directors is expressly authorized to determine with respect to each series of Preferred Stock other than the series designated under Section C of this Article IV:

- (a) the designation of such series and number of shares constituting such series;
 - (b) the dividend rate or amount of such series, the payment dates for dividends on shares of such series, the status of such dividends as cumulative or non-cumulative, the date from which dividends on shares of such series, if cumulative, shall be cumulative, and the status of such as participating or non-participating after the payment of dividends as to which such shares are entitled to any preference;
 - (c) the price or prices (which amount may vary under different conditions or at different dates) at which, and the times, terms and conditions on which, the shares of such series may be redeemed at the option of the Corporation;
 - (d) whether or not the shares of such series shall be made optionally or mandatorily convertible into, or exchangeable for, shares of any other class or classes or of any other series of the same or any other class or classes of stock of the Corporation or other securities and, if made so convertible or exchangeable, the conversion price or prices, or the rates of exchange, and the adjustments thereof, if any, at which such conversion or exchange may be made and any other terms and conditions of such conversion or exchange;
 - (e) whether or not the shares of such series shall be entitled to the benefit of a retirement or sinking fund to be applied to the purchase or redemption of shares of such series, and if so entitled, the amount of such fund and
-

the manner of its application, including the price or prices at which shares of such series may be redeemed or purchased through the application of such fund;

- (f) whether or not the issue of any additional shares of such series or any future series in addition to such series or of any shares of any other class of stock of the Corporation shall be subject to restrictions and, if so, the nature thereof;
- (g) the rights and preferences, if any, of the holders of such series of Preferred Stock upon the voluntary or involuntary liquidation, dissolution or winding-up of the Corporation, and the status of the shares of such series as participating or non-participating after the satisfaction of any such rights and preferences;
- (h) the full or limited voting rights, if any, to be provided for shares of such series, in addition to the voting rights provided by law; and
- (i) any other relative powers, preferences and participating, optional or other special rights and the qualifications, limitations or restrictions thereof, of shares of such series;

in each case, so far as not inconsistent with the provisions of this Amended and Restated Certificate of Incorporation or the Delaware General Corporation Law then in effect.

C. Series A Junior Participating Preferred Stock.

The designation and number of shares, and the powers, preferences and rights, and the qualifications, limitations or restrictions thereof, of a series of Preferred Stock are fixed by this Section C of ARTICLE IV as follows:

1. Designation and Amount. The shares of such series shall be designated as “Series A Junior Participating Preferred Stock” (the “Series A Preferred Stock”) and the number of shares constituting the Series A Preferred Stock shall be 4,000,000.

2. Dividends and Distributions.

(a) Subject to the rights of the holders of any shares of any series of Preferred Stock (or any similar shares) ranking prior and superior to the Series A Preferred Stock with respect to dividends, the holders of Series A Preferred Stock, in preference to the holders of Common Stock and of any other junior shares, shall be entitled to receive, when, as and if declared by the Board of Directors out of funds legally available for the purpose, quarterly dividends payable in cash on the 20th day of February, May, August and November in each year (each such date being referred to herein as a “quarterly Dividend Payment Date”), commencing on the first quarterly Dividend Payment Date after the first issuance of a share or fraction of a share of Series A Preferred Stock, in an amount per share (rounded to the nearest cent) equal to the greater of (i) 26 or (ii) subject to the provision for adjustment hereinafter set forth, 100 times the aggregate per share amount of all cash dividends, and 100 times the aggregate per share amount (payable in kind) of all non-cash dividends or other distributions, other than a dividend payable in Common Stock or a subdivision of the outstanding Common Stock (by reclassification or otherwise), declared on the Common Stock since the immediately preceding quarterly Dividend Payment Date or, with respect to the first quarterly Dividend Payment Date, since the first issuance of any share of Series A Preferred Stock or fraction of a share of Series A Preferred Stock. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding Common Stock (by reclassification or otherwise than by payment of a dividend in Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the amount to which holders of Series A Preferred Stock were entitled immediately prior to such event under clause (b) of the preceding sentence shall be adjusted by multiplying such amount by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

(b) The Corporation shall declare a dividend or distribution on the Series A Preferred Stock as provided in paragraph 2(a) of this Section C immediately after it declares a dividend or distribution on the Common Stock (other than a dividend payable in shares of Common Stock); provided that, in the event no dividend or distribution shall have been declared on the Common Stock during the period between any quarterly Dividend Payment Date and the next subsequent quarterly Dividend Payment Date, a dividend of 26 per share on the Series A Preferred Stock shall nevertheless be payable on such subsequent quarterly Dividend Payment Date.

(c) Dividends shall begin to accrue and be cumulative on outstanding shares of Series A Preferred Stock from the quarterly Dividend Payment Date next preceding the date of issue of such shares, unless the date of issue of such shares is prior to the record date for the first quarterly Dividend Payment Date, in which case dividends on such shares shall begin to accrue from the date of issue of such shares, or unless the date of issue is a quarterly Dividend Payment Date or is a date after the record date for the determination of holders of Series A Preferred Stock entitled to receive a quarterly dividend and before such quarterly Dividend Payment Date, in either of which events such dividends shall begin to accrue and be cumulative from such quarterly Dividend Payment Date. Accrued but unpaid dividends shall not bear interest. Dividends paid on the Series A Preferred Stock in an amount less than the total amount of such dividends at the time accrued and payable on such shares shall be allocated pro rata on a share-by-share basis among all such shares at the time outstanding. The Board of Directors may fix a record date for the determination of holders of Series A Preferred Stock entitled to receive payment of a dividend or distribution declared thereon, which record date shall be not more than 60 days prior to the date fixed for the payment thereof.

3. Voting Rights. The holders of Series A Preferred Stock will have the following voting rights:

(a) Subject to the provision for adjustment hereinafter set forth, each share of Series A Preferred Stock shall entitle the holder thereof to 100 votes on all matters submitted to a vote of the stockholders of the Corporation. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the number of votes per share to which holders of Series A Preferred Stock were entitled immediately prior to such event shall be adjusted by multiplying such number by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

(b) Except as otherwise provided in this Amended and Restated Certificate of Incorporation, in any resolution creating a series of Preferred Stock or by law, the holders of Series A Preferred Stock and the holders of Common Stock and any other capital stock of the Corporation having general voting rights shall vote together as one class on all matters submitted to a vote of stockholders of the Corporation.

(c) If at the time of any annual meeting of stockholders for the election of directors a “default in preference dividends” on the Series A Preferred Stock shall exist, the number of directors constituting the Board of Directors of the Corporation shall be increased by two (2), and the holders of the Preferred Stock of all series (whether or not the holders of such series of Preferred Stock would be entitled to vote for the election of directors if such default in preference dividends did not exist) shall have the right at such meeting, voting together as a single class without regard to series, to the exclusion of the holders of Common Stock, to elect two (2) directors of the Corporation to fill such newly created directorships. Such right shall continue until there are no dividends in arrears upon the Preferred Stock. Each director elected by the holders of Preferred Stock (a “Preferred Director”) shall continue to serve as such director for the full term for which he shall have been elected, notwithstanding that prior to the end of such term a default in preference dividends shall cease to exist. Any Preferred Director may be removed by, and shall not be removed except by, the vote of the holders of record of the outstanding Preferred Stock voting together as a single class without regard to series, at a meeting of the stockholders or of the holders of Preferred Stock called for the purpose. So long as a default in any preference dividends on the Preferred Stock shall exist, (i) any vacancy in the office of a Preferred Director may be filled (except as provided in the following clause (ii)) by an instrument in writing signed by the remaining Preferred Director and filed with the Corporation and (ii) in the case of the removal of any Preferred Director, the vacancy may be filled by the vote of the holders of the outstanding Preferred Stock voting together as a single class without regard to series, at the same meeting at which such removal shall be voted. Each director appointed as aforesaid by the remaining Preferred Director shall be deemed, for all purposes hereof, to be a Preferred Director. Whenever the term of office of the Preferred Directors shall end and a default in preference dividends shall no longer exist, the number of directors constituting the Board of Directors of the Corporation shall be reduced by two (2). For the purposes hereof, a “default in preference dividends” on the Preferred Stock shall be deemed to have occurred whenever the amount of accrued dividends upon any series of the Preferred Stock shall be equivalent to six (6) full quarterly dividends or more, and, having so occurred, such default shall be deemed to exist thereafter until, but only until, all accrued dividends on all Preferred Stock of each and every series then outstanding shall have been paid to the end of the last preceding quarterly dividend period.

(d) Except as set forth herein, or as otherwise provided by law, holders of Series A Preferred Stock shall have no special voting rights and their consent shall not be required (except to the extent they are entitled to vote with holders of Common Stock as set forth herein) for taking any corporate action.

4. Certain Restrictions.

(a) Whenever quarterly dividends or other dividends or distributions payable on the Series A Preferred Stock, as provided in paragraph 2 of this Section C, are in arrears, thereafter and until all accrued and unpaid dividends and distributions, whether or not declared, on Series A Preferred Stock outstanding shall have been paid in full, the Corporation shall not:

(i) declare or pay dividends, or make any other distributions, on any shares ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock;

(ii) declare or pay dividends, or make any other distributions, on any shares ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except dividends paid ratably on the Series A Preferred Stock and all such parity shares on which dividends are payable or in arrears in proportion to the total amounts to which the holders of all such shares are then entitled;

(iii) redeem or purchase or otherwise acquire for consideration any shares ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock, provided that the Corporation may at any time redeem, purchase or otherwise acquire shares of any such junior shares in exchange for any shares of the Corporation ranking junior (either as to dividends or upon dissolution, liquidation or winding up) to the Series A Preferred Stock; or

(iv) redeem or purchase or otherwise acquire for consideration any Series A Preferred Stock, or any shares ranking on a parity with the Series A Preferred Stock, except in accordance with a purchase offer made in writing or by publication (as determined by the Board of Directors) to all holders of such stock upon such terms as the Board of Directors, after consideration of the respective annual dividend rates and other relative rights and preferences of the respective series and classes, shall determine in good faith will result in fair and equitable treatment among the respective series or classes.

(b) The Corporation shall not permit any subsidiary of the Corporation to purchase or otherwise acquire for consideration any shares of the Corporation unless the Corporation could, under paragraph 4(a) of this Section C, purchase or otherwise acquire such shares at such time and in such manner.

5. Reacquired Shares. Any Series A Preferred Stock purchased or otherwise acquired by the Corporation in any manner whatsoever shall be retired and, upon the filing of any certificate that may be required by Delaware law, canceled promptly after the acquisition thereof. All such shares shall upon their cancellation become authorized but unissued Preferred Stock and may be reissued as part of a new series of Preferred Stock subject to the conditions and restrictions on issuance set forth in this Article IV or any resolution providing for the creation of any series of Preferred Stock adopted pursuant thereto or as otherwise required by law.

6. Liquidation, Dissolution or Winding Up. Upon any liquidation, dissolution or winding up of the Corporation, no distribution shall be made (a) to the holders of shares ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock unless, prior thereto, the holders of Series A Preferred Stock shall have received \$6,000 per share, plus an amount equal to accrued and unpaid dividends and distributions thereon, whether or not declared, to the date of such payment, provided that the holders of Series A Preferred Stock shall be entitled to receive an aggregate amount per share, subject to the provision for adjustment hereinafter set forth, equal to 100 times the aggregate amount to be distributed per share to holders of Common Stock, or (b) to the holders of shares ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except distributions made ratably on the Series A Preferred Stock and all such parity shares in proportion to the total amounts to which the holders of all such shares are entitled upon such liquidation, dissolution or winding up. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the aggregate amount to which holders of Series A Preferred Stock were entitled immediately prior to such event under the proviso in clause (a) of the preceding sentence shall be adjusted by multiplying such amount by a fraction the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of Common Stock that were outstanding immediately prior to such event.

7. Consolidation, Merger, etc. In case the Corporation shall enter into any consolidation, merger, combination or other transaction in which the shares of Common Stock are exchanged for or changed into other shares or securities, cash and/or any other property, then in any such case each share of Series A Preferred Stock shall at the same time be similarly exchanged or

changed into an amount per share, subject to the provision for adjustment hereinafter set forth, equal to 100 times the aggregate amount of shares, securities, cash and/or any other property (payable in kind), as the case may be, into which or for which each share of Common Stock is changed or exchanged. In the event the Corporation shall at any time declare or pay any dividend on the Common Shares payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the amount set forth in the preceding sentence with respect to the exchange or change of shares of Series A Preferred Stock shall be adjusted by multiplying such amount by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

8. No Redemption. The Series A Preferred Stock shall not be redeemable.

9. Conversion. The Series A Preferred Stock shall not be convertible into Common Stock or shares of any other series of any other class of Preferred Stock.

10. Rank. The Series A Preferred Stock shall rank, with respect to the payment of dividends and the distribution of assets, junior to all series of any other class of Preferred Stock, unless the terms of any such series shall provide otherwise.

11. Amendment. This Amended and Restated Certificate of Incorporation shall not be amended in any manner which would materially alter or change the powers, preferences or special rights of the Series A Preferred Stock so as to affect them adversely without the affirmative vote of the holders of at least two-thirds of the outstanding Series A Preferred Stock, voting together as a single class.

Article V Board of Directors

A. Election and Removal of Directors

1. The Board of Directors shall consist of not less than seven (7) or more than twelve (12) persons, the exact number to be fixed from time to time exclusively by the Board of Directors pursuant to a resolution adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time any such resolution is presented to the Board for adoption), provided, however, this provision shall not act to limit Board size in the event the holders of one or more series of Preferred Stock are entitled to elect directors to the exclusion of holders of Common Stock. Each director who is serving as a director on the date of this Amended and Restated Certificate of Incorporation shall hold office until the next annual meeting of stockholders following such date and until his or her successor has been duly elected and qualified, notwithstanding that such director may have been elected for a term that extended beyond the date of such next annual meeting of stockholders. At each annual meeting of the stockholders of the Corporation after the date of this Amended and Restated Certificate of Incorporation, directors elected at such annual meeting shall hold office until the next annual meeting of stockholders and until their successors have been duly elected and qualified.

2. Notwithstanding the foregoing and except as otherwise provided by law, whenever the holders of any series of Preferred Stock shall have the right (to the exclusion of holders of Common Stock) to elect directors of the Corporation pursuant to the provisions of Article IV or any resolution adopted pursuant thereto, the election of such directors of the Corporation shall be governed by the terms and provisions of Article IV or said resolutions and such directors shall be elected to hold office for a term expiring at the annual meeting of stockholders held in the first year following their election or, if such right of the holders of the Preferred Stock is terminated, for a term expiring in accordance with the provisions of Article IV or such resolutions.

3. Newly-created directorships resulting from any increase in the authorized number of directors or any vacancies in the Board of Directors resulting from death, resignation, retirement, disqualification, removal from office or other cause may be filled only by a majority vote of the directors then in office, even though less than a quorum of the Board of Directors, acting at a regular or special meeting. If any applicable provision of the Delaware General Corporation Law, Article IV or any resolution adopted pursuant to Article IV expressly confers power on stockholders to fill such a directorship at a special meeting of stockholders, such a directorship may be filled at such a meeting only by the affirmative vote of a majority of the combined voting powers of the outstanding shares of stock of the Corporation entitled to vote generally; provided, however, that when (a) pursuant to the provisions of Article IV or any resolutions adopted pursuant thereto, the holders of any series of Preferred Stock have the right (to the exclusion of holders of the Common Stock), and have exercised such right, to elect directors and (b) Delaware General Corporation Law, Article IV or any such resolution expressly confers on stockholders voting rights as aforesaid, if the directorship to be filled had been occupied by a director elected by the holders of Common Stock, then such directorship shall be filled by a

majority vote as aforesaid, but if such directorship to be filled had been elected by holders of Preferred Stock, then such directorship shall be filled in accordance with Article IV or the applicable resolutions adopted under Article IV. Any director elected in accordance with the two preceding sentences shall hold office until such director's successor shall have been elected and qualified unless such director was elected by holders of Preferred Stock (acting to the exclusion of the holders of Common Stock), in which case such director's term shall expire in accordance with Article IV or the applicable resolutions adopted pursuant to Article IV. No decrease in the number of authorized directors constituting the entire Board of Directors shall shorten the term of any incumbent director, except as otherwise provided in Article IV or the applicable resolutions adopted pursuant to Article IV with respect to directorships created pursuant to one or more series of Preferred Stock.

4. Subject to the rights of the holders of any series of Preferred Stock to elect directors under specified circumstances, any director or directors may be removed from office at any time, but only for cause and only by the affirmative vote of a majority of the combined voting power of all of the then-outstanding shares of stock of the Corporation entitled to vote generally, voting together as a single class (it being understood that for all purposes of this Article V, each share of Preferred Stock shall have the number of votes, if any, granted to it pursuant to this Amended and Restated Certificate of Incorporation or any resolution adopted pursuant to Article IV).

5. Notwithstanding any other provision of this Amended and Restated Certificate of Incorporation or any provision of law which might otherwise permit a lesser vote or no vote, but in addition to any affirmative vote of the holders of any particular class or series of the stock of the Corporation required by law, this Amended and Restated Certificate of Incorporation or any resolution adopted pursuant to Article IV, the affirmative vote of a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time any such alteration, amendment or repeal is presented to the Board for adoption), shall be required to alter, amend or repeal this Article V, or any provision hereof.

B. Liability, Indemnification and Insurance

1. Limitation on Liability. To the fullest extent that the Delaware General Corporation Law as it exists on the date hereof or as it may hereafter be amended permits the limitation or elimination of the personal liability of directors, no director of the Corporation shall be liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director. No amendment to or repeal of this Section B.1 shall apply to or have any effect on the liability or alleged liability of any director of the Corporation for or with respect to any acts or omissions of such director occurring prior to such amendment or repeal.

2. Right to Indemnification. The Corporation shall to the fullest extent permitted by applicable law as then in effect indemnify any person (the Indemnitee) who was or is involved in any manner (including, without limitation, as a party or a witness) or is threatened to be made so involved in any threatened, pending or completed investigation, claim, action, suit or proceeding, whether civil, criminal, administrative or investigative (including, without limitation, any action, suit or proceeding by or in the right of the Corporation to procure a judgment in its favor) (a "Proceeding") by reason of the fact that such person is or was a director, officer, employee or agent of the Corporation, or of NiSource Corporate Services Company or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise (including, without limitation, any employee benefit plan) against all expenses including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such Proceeding. Such indemnification shall be a contract right and shall include the right to receive payment of any expenses incurred by the Indemnitee in connection with such Proceeding in advance of its final disposition, consistent with the provisions of applicable law as then in effect.

3. Insurance, Contracts and Funding. The Corporation may purchase and maintain insurance to protect itself and any Indemnitee against any expenses, judgments, fines and amounts paid in settlement as specified in Subsection B.2 of this Section B or incurred by any Indemnitee in connection with any Proceeding referred to in Subsection B.2 of this Section B, to the fullest extent permitted by applicable law as then in effect. The Corporation may enter into contracts with any director, officer, employee or agent of the Corporation in furtherance of the provisions of this Section B and may create a trust fund, grant a security interest or use other means (including, without limitation, a letter of credit) to ensure the payment of such amounts as may be necessary to effect indemnification as provided in this Section B.

4. Indemnification: No Exclusive Right. The right of indemnification provided in this Section B shall not be exclusive of any other rights to which those seeking indemnification may otherwise be entitled, and the provisions of this Section B shall inure to the benefit of the heirs and legal representatives of any person entitled to indemnity under this Section B and shall be applicable to Proceedings commenced or continuing after the adoption of this Section B, whether arising from acts or omissions occurring before or after such adoption.

5. Advancement of Expenses; Procedures; Presumptions and Effect of Certain Proceedings; Remedies. In furtherance, but not in limitation of the foregoing provisions, the following procedures, presumptions and remedies shall apply with respect to advancement of expenses and the right to indemnification under this Section B:

(a) Advancement of Expenses. All reasonable expenses incurred by or on behalf of the Indemnitee in connection with any Proceeding shall be advanced to the Indemnitee by the Corporation within twenty (20) days after the receipt by the Corporation of a statement or statements from the Indemnitee requesting such advance or advances from time to time, whether prior to or after final disposition of such Proceeding. Such statement or statements shall reasonably evidence the expenses incurred by the Indemnitee and, if required by law at the time of such advance, shall include or be accompanied by an undertaking by or on behalf of the Indemnitee to repay the amounts advanced if it should ultimately be determined that the Indemnitee is not entitled to be indemnified against such expenses pursuant to this Section B.

(b) Procedure for Determination of Entitlement to Indemnification.

(i) To obtain indemnification under this Section B, an Indemnitee shall submit to the Secretary of the Corporation a written request, including such documentation and information as is reasonably available to the Indemnitee and reasonably necessary to determine whether and to what extent the Indemnitee is entitled to indemnification (the "Supporting Documentation"). The determination of the Indemnitee's entitlement to indemnification shall be made not later than sixty (60) days after receipt by the Corporation of the written request for indemnification together with the Supporting Documentation. The Secretary of the Corporation shall, promptly upon receipt of such a request for indemnification, advise the Board of Directors in writing that the Indemnitee has requested indemnification.

(ii) The Indemnitee's entitlement to indemnification under this Section B shall be determined in one of the following ways: (A) by a majority vote of the Disinterested Directors (as hereinafter defined), even if they constitute less than a quorum of the Board; (B) by a written opinion of Independent Counsel (as hereinafter defined) if (x) a Change of Control (as hereinafter defined) shall have occurred and the Indemnitee so requests or (y) there are no Disinterested Directors or a majority of such Disinterested Directors so directs; (C) by the stockholders of the Corporation (but only if a majority of the Disinterested Directors presents the issue of entitlement to indemnification to the stockholders for their determination); or (D) as provided in Section B.5(c).

(iii) In the event the determination of entitlement to indemnification is to be made by Independent Counsel pursuant to Section B.5(b)(ii), a majority of the Disinterested Directors shall select the Independent Counsel (except that if there are no Disinterested Directors, the Corporation's General Counsel shall select the Independent Counsel), but only an Independent Counsel to which the Indemnitee does not reasonably object; provided, however, that if a Change of Control shall have occurred, the Indemnitee shall select such Independent Counsel, but only an Independent Counsel to which the Board of Directors does not reasonably object.

(iv) The only basis upon which a finding of no entitlement to indemnification may be made is that indemnification is prohibited by law.

(c) Presumptions and Effect of Certain Proceedings. Except as otherwise expressly provided in this Section B, if a Change of Control shall have occurred, the Indemnitee shall be presumed to be entitled to indemnification under this Section B upon submission of a request for indemnification together with the Supporting Documentation in accordance with Section B.5(b)(i), and thereafter the Corporation shall have the burden of proof to overcome that presumption in reaching a contrary determination. In any event, if the person or persons empowered under Section B.5(b) to determine entitlement to indemnification shall not have been appointed or shall not have made a determination within sixty (60) days after receipt by the Corporation of the request therefor together with the Supporting Documentation, the Indemnitee shall be deemed to be entitled to indemnification and the Indemnitee shall be entitled to such indemnification unless (A) the Indemnitee misrepresented or failed to disclose a material fact in making the request for indemnification or in the Supporting Documentation or (B) such indemnification is prohibited by law. The termination of any Proceeding described in Section B.2, or of any claim, issue or matter therein, by judgment, order, settlement or conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, adversely affect the right of the Indemnitee to indemnification or create a presumption that the Indemnitee did not act in good faith and in a manner which the Indemnitee reasonably believed to be in or not opposed to the best interests of the Corporation or, with respect to any criminal Proceeding, that the Indemnitee had reasonable cause to believe that the Indemnitee's conduct was unlawful.

(d) Remedies of Indemnitee.

(i) In the event that a determination is made, pursuant to Section B.5(b) that the Indemnitee is not entitled to indemnification under this Section B, (A) the Indemnitee shall be entitled to seek an adjudication of his entitlement to such indemnification either, at the Indemnitee's sole option, in (x) an appropriate court of the State of Delaware or any other court of competent jurisdiction or (y) an arbitration to be conducted by a single arbitrator pursuant to the rules of the American Arbitration Association; (B) any such judicial Proceeding or arbitration shall be de novo and the Indemnitee shall not be prejudiced by reason of such adverse determination; and (C) in any such judicial Proceeding or arbitration the Corporation shall have the burden of proving that the Indemnitee is not entitled to indemnification under this Section B.

(ii) If a determination shall have been made or deemed to have been made, pursuant to Section B.5(b) or (c), that the Indemnitee is entitled to indemnification, the Corporation shall be obligated to pay the amounts constituting such indemnification within five (5) days after such determination has been made or deemed to have been made and shall be conclusively bound by such determination unless (A) the Indemnitee misrepresented or failed to disclose a material fact in making the request for indemnification or in the Supporting Documentation or (B) such indemnification is prohibited by law. In the event that (x) advancement of expenses is not timely made pursuant to Section B.5(a) or (y) payment of indemnification is not made within five (5) days after a determination of entitlement to indemnification has been made or deemed to have been made pursuant to Section B.5(b) or (c), the Indemnitee shall be entitled to seek judicial enforcement of the Corporation's obligation to pay to the Indemnitee such advancement of expenses or indemnification. Notwithstanding the foregoing, the Corporation may bring an action, in an appropriate court in the State of Delaware or any other court of competent jurisdiction, contesting the right of the Indemnitee to receive indemnification hereunder due to the occurrence of an event described in subclause (A) or (B) of this clause (ii) (a "Disqualifying Event"); provided, however, that in any such action the Corporation shall have the burden of proving the occurrence of such Disqualifying Event.

(iii) The Corporation shall be precluded from asserting in any judicial Proceeding or arbitration commenced pursuant to this Section B.5(d) that the procedures and preemptions of this Section B are not valid, binding and enforceable and shall stipulate in any such court or before any such arbitrator that the Corporation is bound by all the provisions of this Section B.

(iv) In the event that the Indemnitee, pursuant to this Section B.5(d), seeks a judicial adjudication of or an award in arbitration to enforce his rights under, or to recover damages for breach of, this Section B, the Indemnitee shall be entitled to recover from the Corporation, and shall be indemnified by the Corporation against, any expenses actually and reasonably incurred by the Indemnitee if the Indemnitee prevails in such judicial adjudication or arbitration. If it shall be determined in such judicial adjudication or arbitration that the Indemnitee is entitled to receive part but not all of the indemnification or advancement of expenses sought, the expenses incurred by the Indemnitee in connection with such judicial adjudication or arbitration shall be prorated accordingly.

(e) Definitions. For purposes of this Section B.5:

(i) "Change in Control" means (A) so long as the Public Utility Holding Company Act of 1935 is in effect, any "company" becoming a "holding company in respect to the Corporation or any determination by the Securities and Exchange Commission that any "person" should be subject to the obligations, duties, and liabilities if imposed by said Act by virtue of his, hers or its influence over the management or policies of the Corporation, or (B) whether or not said Act is in effect a change in control of the Corporation of a nature that would be required to be reported in response to Item 6(e) of Schedule 14A of Regulation 14A promulgated under the Securities Exchange Act of 1934 (the "Exchange Act"), whether or not the Corporation is then subject to such reporting requirement; provided that, without limitation, such a change in control shall be deemed to have occurred if (i) any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) is or becomes the "beneficial owner" (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Corporation representing ten percent or more of the combined voting power of the Corporation's then outstanding securities without the prior approval of at least two-thirds of the members of the Board of Directors in office immediately prior to such acquisition; (ii) the Corporation is a party to a merger, consolidation, sale of assets or other reorganization, or a proxy contest, as a consequence of which members of the Board of Directors in office immediately prior to such transaction or event constitute less than a majority of the Board of Directors thereafter; or (iii) during any period of two consecutive years, individuals who at the beginning of such period

constituted the Board of Directors (including for this purpose any new director whose election or nomination for election by the Corporation's stockholders was approved by a vote of at least two-thirds of the directors then still in office who were directors at the beginning of such period) cease for any reason to constitute at least a majority of the Board of Directors.

(ii) "Disinterested Director" means a director of the Corporation who is not or was not a party to the Proceeding in respect of which indemnification is sought by the Indemnitee.

(iii) "Independent Counsel" means a law firm or a member of a law firm that neither presently is, nor in the past five years has been, retained to represent: (A) the Corporation or the Indemnitee in any matter material to either such party or (B) any other party to the Proceeding giving rise to a claim for indemnification under this Section B. Notwithstanding the foregoing, the term "Independent Counsel" shall not include any person who, under the applicable standards of professional conduct then prevailing under Delaware law, would have a conflict of interest in representing either the Corporation or the Indemnitee in an action to determine the Indemnitee's rights under this Section B.

6. Severability. If any provision or provisions of this Section B shall be held to be invalid, illegal or unenforceable for any reason whatsoever: (i) the validity, legality and enforceability of the remaining provision of this Section B (including, without limitation, all portions of any paragraph of this Section B containing any such provision held to be invalid, illegal or unenforceable, that are not themselves invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby; and (ii) to the fullest extent possible, the provisions of this Section B (including, without limitation, all portions of any paragraph of this Section B containing any such provision held to be invalid, illegal or unenforceable, that are not themselves invalid, illegal or unenforceable) shall be construed so as to give effect to the intent manifested by the provision held invalid, illegal or unenforceable.

7. Successor Laws, Regulations and Agencies. Reference herein to laws, regulations or agencies shall be deemed to include all amendments thereof, substitutions therefor and successors thereto.

Article VI

General Powers of the Board of Directors

A. Bylaws

The Board of Directors shall have the power to make, alter, amend and repeal the Bylaws of the Corporation in such form and with such terms as the Board may determine, subject to the power granted to stockholders to alter or repeal the Bylaws provided under Delaware law; provided, however, that, notwithstanding any other provision of this Amended and Restated Certificate of Incorporation or any provision of law which might otherwise permit a lesser vote or no vote, the affirmative vote of a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time any such alteration, amendment or repeal is presented to the Board for adoption), shall be required to alter, amend or repeal any provision of the Bylaws which is to the same effect as any one or more sections of this Article VI.

B. Charter Amendments

Subject to the provisions hereof, the Corporation, through its Board of Directors, reserves the right at any time, and from time to time, to amend, alter, repeal or rescind any provision contained in this Amended and Restated Certificate of Incorporation in the manner now or hereinafter prescribed by law, and any other provisions authorized by Delaware law at the time enforced may be added or inserted, in the manner now or hereinafter prescribed by law, and any and all rights, preferences and privileges of whatsoever nature conferred upon stockholders, directors or any other persons whomsoever by and pursuant to this Amended and Restated Certificate of Incorporation in its present form or as hereinafter amended are granted subject to the rights reserved in this Article.

**Certification Pursuant to
Section 302 of the Sarbanes-Oxley Act of 2002**

I, Joseph Hamrock, certify that:

1. I have reviewed this quarterly Report of NiSource Inc. on Form 10- for the quarter ended June 30, 2015 ;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-16189

NiSource Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

35-2108964

(I.R.S. Employer
Identification No.)

801 East 86th Avenue
Merrillville, Indiana

(Address of principal executive offices)

46410

(Zip Code)

(877) 647-5990

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files.)

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: Common Stock, \$0.01 Par Value:
318,671,280 shares outstanding at October 27, 2015 .

DEFINED TERMS

The following is a list of frequently used abbreviations or acronyms that are found in this report:

NiSource Subsidiaries, Affiliates and Former Subsidiaries

Capital Markets	NiSource Capital Markets, Inc.
CGORC	Columbia Gas of Ohio Receivables Corporation
Columbia of Kentucky	Columbia Gas of Kentucky, Inc.
Columbia of Maryland	Columbia Gas of Maryland, Inc.
Columbia of Massachusetts	Bay State Gas Company
Columbia of Ohio	Columbia Gas of Ohio, Inc.
Columbia OpCo	CPG OpCo LP
Columbia of Pennsylvania	Columbia Gas of Pennsylvania, Inc.
Columbia of Virginia	Columbia Gas of Virginia, Inc.
CPG	Columbia Pipeline Group, Inc.
CPPL	Columbia Pipeline Partners LP
CPRC	Columbia Gas of Pennsylvania Receivables Corporation
NARC	NIPSCO Accounts Receivable Corporation
NDC Douglas Properties	NDC Douglas Properties, Inc.
NIPSCO	Northern Indiana Public Service Company
NiSource	NiSource Inc.
NiSource Corporate Services	NiSource Corporate Services Company
NiSource Development Company	NiSource Development Company, Inc.
NiSource Finance	NiSource Finance Corp.

Abbreviations and Other

AFUDC	Allowance for funds used during construction
AOI	Accumulated Other Comprehensive Income (Loss)
ASU	Accounting Standards Update
BNS	Bank of Nova Scotia
BTMU	The Bank of Tokyo-Mitsubishi UFJ, LTD.
CAA	Clean Air Act
CAMR	Clean Air Mercury Rule
CCRs	Coal Combustion Residuals
CERCLA	Comprehensive Environmental Response Compensation and Liability Act (also known as Superfund)
CO ₂	Carbon Dioxide
DPU	Department of Public Utilities
DSM	Demand Side Management
ECR	Environmental Cost Recovery
ECRM	Environmental Cost Recovery Mechanism
ECT	Environmental Cost Tracker
EERM	Environmental Expense Recovery Mechanism
EGUs	Electric Utility Generating Units
EPA	United States Environmental Protection Agency
EPS	Earnings per share
FAC	Fuel adjustment clause
FASB	Financial Accounting Standards Board

DEFINED TERMS (continued)

FERC	Federal Energy Regulatory Commission
FGD	Flue Gas Desulfurization
FIP	Federal Implementation Plan
FTRs	Financial Transmission Rights
GAAP	Generally Accepted Accounting Principles
GCR	Gas cost recovery
GHG	Greenhouse gases
gwh	Gigawatt hours
IDEM	Indiana Department of Environmental Management
IRP	Infrastructure Replacement Program
IURC	Indiana Utility Regulatory Commission
kV	Kilovolt
LDCs	Local distribution companies
LIFO	Last-in, first-out
MATS	Mercury and Air Toxics Standards
MGP	Manufactured Gas Plant
MISO	Midcontinent Independent System Operator
Mizuho	Mizuho Corporate Bank Ltd.
MMDth	Million dekatherms
NAAQS	National Ambient Air Quality Standards
NYMEX	New York Mercantile Exchange
OPEB	Other Postretirement Benefits
OUCC	Indiana Office of Utility Consumer Counselor
PNC	PNC Bank, N.A.
Pure Air Separation	Pure Air on the Lake LP The separation of NiSource's natural gas pipeline, midstream and storage business from NiSource's natural gas and electric utility business accomplished through the pro rata distribution by NiSource to holders of its outstanding common stock of all the outstanding shares of common stock of CPG. The Separation was completed on July 1, 2015.
ppb	Parts per billion
PUC	Public Utility Commission
PUCO	Public Utilities Commission of Ohio
RA	Resource Adequacy
RAAF	Residential Assistance Adjustment Factor
SEC	Securities and Exchange Commission
SO ₂	Sulfur dioxide
TDSIC	Transmission, Distribution and Storage System Improvement Charge
TSA	Transition Services Agreement
TUAs	Transmission Upgrade Agreements
VIE	Variable Interest Entities
VSCC	Virginia State Corporation Commission

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

1. Basis of Accounting Presentation

The accompanying Condensed Consolidated Financial Statements (unaudited) for NiSource Inc. ("NiSource" or the "Company") reflect all normal recurring adjustments that are necessary, in the opinion of management, to present fairly the results of operations in accordance with GAAP in the United States of America. The accompanying financial statements contain the accounts of the Company and its majority-owned or controlled subsidiaries. The results of operations of the former Columbia Pipeline Group Operations segment have been classified as discontinued operations for all periods presented. See Note 4, "Discontinued Operations," for further information.

Unless otherwise indicated, the information in the Notes to the Condensed Consolidated Financial Statements (unaudited) relates to NiSource's continuing operations.

The accompanying financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2014. Income for interim periods may not be indicative of results for the calendar year due to weather variations and other factors.

The Condensed Consolidated Financial Statements (unaudited) have been prepared pursuant to the rules and regulations of the SEC. Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although NiSource believes that the disclosures made in this quarterly report on Form 10-Q are adequate to make the information herein not misleading.

2. Recent Accounting Pronouncements

In July 2015, the FASB issued ASU 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory*. ASU 2015-11 replaces the current lower of cost or market test with a lower of cost or net realizable value test. The new standard applies only to inventories for which cost is determined by methods other than LIFO and the retail inventory method (RIM). NiSource is required to adopt ASU 2015-11 for periods beginning after December 15, 2016, including interim periods, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-11 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 outlines a single, comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In July 2015, the FASB deferred the effective date for ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim periods. Companies are permitted to adopt ASU 2014-09 on the original effective date of the ASU. NiSource is currently evaluating the impact the adoption of ASU 2014-09 will have on its Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2015, the FASB issued ASU 2015-05, *Intangibles - Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement*. ASU 2015-05 clarifies guidance on determining whether a cloud computing arrangement contains a software license that should be accounted for as internal-use software. NiSource is required to adopt ASU 2015-05 for periods beginning after December 15, 2015, including interim periods, and the guidance is permitted to be applied either (1) prospectively to all agreements entered into or materially modified after the effective date or (2) retrospectively, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-05 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In April 2015, the FASB issued ASU 2015-03, *Interest - Imputation of Interest (Subtopic 835-30) : Simplifying the Presentation of Debt Issuance Costs*. ASU 2015-03 changes the way entities present debt issuance costs in financial statements by presenting issuance costs on the balance sheet as a direct deduction from the related debt liability rather than as a deferred charge. Amortization of these costs will continue to be reported as interest expense. NiSource is required to adopt ASU 2015-03 for periods beginning after December 15, 2015, including interim periods, and the guidance is to be applied retrospectively with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2015-03 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

3. Earnings Per Share

Basic EPS is computed by dividing net income attributable to NiSource by the weighted-average number of shares of common stock outstanding for the period. The weighted-average shares outstanding for diluted EPS includes the incremental effects of the various long-term incentive compensation plans. The numerator in calculating both basic and diluted EPS for each period is reported net income attributable to NiSource. The computation of diluted average common shares for the three months ended September 30, 2014 is not presented since NiSource had a loss from continuing operations on the Condensed Statements of Consolidated (Loss) Income (unaudited) during the period and any incremental shares would have an antidilutive effect on EPS. The computation of diluted average common shares is as follows:

<i>(in thousands)</i>	Three Months Ended	Nine Months Ended	
	September 30,	September 30,	
	2015	2015	2014
Denominator			
Basic average common shares outstanding	318,090	317,390	314,889
Dilutive potential common shares:			
Stock options	—	—	30
Shares contingently issuable under employee stock plans	—	—	649
Shares restricted under stock plans ⁽¹⁾	3,375	3,328	438
Diluted Average Common Shares	321,465	320,718	316,006

⁽¹⁾ Change due to Separation-related adjustments, see Note 15, "Share-Based Compensation."

4. Discontinued Operations

On July 1, 2015, NiSource completed the Separation of CPG from NiSource through a special pro rata stock dividend, distributing one share of CPG common stock for every one share of NiSource common stock held by any NiSource stockholder on June 19, 2015, the record date. The Separation resulted in two stand-alone energy infrastructure companies: NiSource, a fully regulated natural gas and electric utilities company, and CPG, a natural gas pipeline, midstream and storage company. As a stand-alone company, CPG's operations consist of substantially all of NiSource's Columbia Pipeline Group Operations segment prior to the Separation. NiSource retained no ownership interest in CPG. On the date of the Separation, CPG consisted of approximately \$9.2 billion of assets, \$5.6 billion of liabilities and \$3.6 billion of equity.

The results of operations and cash flows for the former Columbia Pipeline Group Operations segment have been reported as discontinued operations for all periods presented. Additionally, the assets and liabilities of the former Columbia Pipeline Group Operations segment were reclassified as assets and liabilities of discontinued operations for all prior periods.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Results from discontinued operations are provided in the following table. These results are primarily from NiSource's former Columbia Pipeline Group Operations segment.

<i>(in millions)</i>	Three Months Ended September 30, 2015			Nine Months Ended September 30, 2015		
	Columbia Pipeline Group Operations	Corporate and Other	Total	Columbia Pipeline Group Operations	Corporate and Other	Total
Net Revenues						
Transportation and storage revenues	\$ —	\$ —	\$ —	\$ 561.4	\$ —	\$ 561.4
Other revenues	—	—	—	94.3	—	94.3
Total Sales Revenues	—	—	—	655.7	—	655.7
Less: Cost of sales (excluding depreciation and amortization)	—	—	—	0.2	—	0.2
Net Revenues	—	—	—	655.5	—	655.5
Operating Expenses						
Operation and maintenance	5.5 ⁽¹⁾	—	5.5	374.8 ⁽¹⁾	—	374.8
Depreciation and amortization	—	—	—	66.4	—	66.4
Gain on sale of assets	—	—	—	(13.6)	—	(13.6)
Other taxes	—	—	—	38.0	—	38.0
Total Operating Expenses	5.5	—	5.5	465.6	—	465.6
Equity Earnings in Unconsolidated Affiliates	—	—	—	29.1	—	29.1
Operating (Loss) Income from discontinued operations	(5.5)	—	(5.5)	219.0	—	219.0
Other Income (Deductions)						
Interest expense, net	—	—	—	(37.1)	—	(37.1)
Other, net	—	—	—	7.8	(0.6)	7.2
Total Other Deductions	—	—	—	(29.3)	(0.6)	(29.9)
(Loss) Income from Discontinued Operations before Income Taxes	(5.5)	—	(5.5)	189.7	(0.6)	189.1
Income Taxes	14.2 ⁽²⁾	—	14.2	80.9	(0.3)	80.6
(Loss) Income from Discontinued Operations - net of taxes	\$ (19.7)	\$ —	\$ (19.7)	\$ 108.8	\$ (0.3)	\$ 108.5

⁽¹⁾ Includes approximately \$5.5 million and \$54.4 million for the three and nine months ended September 30, 2015, of transaction costs related to the Separation.

⁽²⁾ Primarily attributable to the write-off of consolidated state income tax benefits resulting from the Separation.

Other, net	3.5	(0.2)	3.3	7.8	(1.0)	6.8
Total Other Deductions	(11.4)	(0.2)	(11.6)	(32.6)	(1.0)	(33.6)
Income (Loss) from Discontinued Operations before Income Taxes	75.3	(0.2)	75.1	316.3	(1.0)	315.3
Income Taxes	26.6	(0.1)	26.5	116.6	(0.4)	116.2
Income (Loss) from Discontinued Operations - net of taxes	\$ 48.7	\$ (0.1)	\$ 48.6	\$ 199.7	\$ (0.6)	\$ 199.1

⁽¹⁾ Includes approximately \$9.3 million and \$12.8 million for the three and nine months ended September 30, 2014, of transaction costs related to the Separation.

CPG's financing requirements prior to the private placement of senior notes on May 22, 2015 were satisfied through borrowings from NiSource Finance. Interest expense from discontinued operations primarily represents net interest charged to CPG from NiSource Finance, less AFUDC. Subsequent to May 22, 2015, interest expense from discontinued operations also includes interest incurred on CPG's private placement of \$2,750.0 million of senior notes.

Continuing Involvement

Natural gas transportation and storage services provided to NiSource by CPG were \$31.6 million and \$105.4 million for the three and nine months ended September 30, 2015 and \$31.9 million and \$106.3 million for the three and nine months ended September 30, 2014. Prior to July 1, 2015, these costs were eliminated in consolidation. Beginning July 1, 2015, these costs and associated cash flows represent third-party transactions with CPG and are not eliminated in consolidation, as such services have continued subsequent to the Separation and are expected to continue for the foreseeable future.

As a result of the Separation, NiSource and CPG entered into a Transition Services Agreement (TSA). NiSource expects the TSA to terminate within 18 months from the date of the Separation. The TSA sets forth the terms and conditions for NiSource and CPG to provide certain transition services to one another. NiSource will provide CPG certain information technology, financial and accounting, human resource and other specified services. For the period July 1, 2015 to September 30, 2015, the amounts NiSource billed CPG for these services were not significant.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

There were no assets and liabilities of discontinued operations on the Condensed Consolidated Balance Sheet (unaudited) at September 30, 2015.

The assets and liabilities of discontinued operations on the Condensed Consolidated Balance Sheet (unaudited) at December 31, 2014 were:

<i>(in millions)</i>	December 31, 2014	
	Columbia Pipeline Group Operations	
Current Assets		
Cash and cash equivalents	\$	0.5
Accounts receivable, net		149.3
Gas inventory		4.8

Accrued liability for postretirement and postemployment benefits ⁽¹⁾		(58.0)
Regulatory liabilities		294.2
Asset retirement obligations		23.2
Other noncurrent liabilities		84.3
Total noncurrent liabilities	\$	1,616.3

⁽¹⁾ Represents Columbia Pipeline Group segment's overfunded position in NiSource's net underfunded other postretirement plan.

5. Asset Retirement Obligations

Certain costs of removal that have been, and continue to be, included in depreciation rates and collected in the service rates of the rate-regulated subsidiaries are classified as "Regulatory liabilities" on the Condensed Consolidated Balance Sheets (unaudited).

Changes in NiSource's liability for asset retirement obligations for the nine months ended September 30, 2015 and 2014 are presented in the table below:

<i>(in millions)</i>	2015		2014	
Balance as of January 1,	\$	136.2	\$	148.1
Accretion recorded as a regulatory asset/liability		5.9		6.3
Additions		6.4		0.3
Settlements		(4.3)		(1.3)
Change in estimated cash flows ⁽¹⁾		37.0		(7.4)
Balance as of September 30,	\$	181.2	\$	146.0

⁽¹⁾ The current year change in estimated cash flows is primarily attributable to estimated costs associated with the EPA's final rule for regulation of CCRs and changes to cost estimates for certain solid waste management units. See Note 16, "Other Commitments and Contingencies," for additional information on CCRs.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

6. Regulatory Matters

Gas Distribution Operations Regulatory Matters

Significant Rate Developments . On November 25, 2014, Columbia of Ohio filed a Notice of Intent to file an application to adjust rates associated with its IRP and DSM Riders. Columbia of Ohio filed its Application on February 27, 2015, and requested authority to increase revenues by \$24.7 million . On March 26, 2015, PUCO Staff filed Comments recommending that the PUCO approve Columbia of Ohio's application in full. On April 22, 2015, the PUCO issued an Order that approved Columbia of Ohio's application. New rates went into effect on May 1, 2015.

On March 19, 2015, Columbia of Pennsylvania filed a base rate case with the Pennsylvania PUC, seeking a revenue increase of \$46.2 million annually. The case is driven by Columbia of Pennsylvania's capital investment program which exceeds \$197.0 million in 2015 and \$211.0 million in 2016 as well as costs to train and comply with pipeline safety-related operation and maintenance expenditures. Columbia of Pennsylvania's request for rate relief includes the recovery of costs that are projected to be incurred after the implementation of new rates, as authorized by the Pennsylvania General Assembly with the passage of Act 11 of 2012. On August 27, 2015, the parties to the case filed a joint petition for approval of a settlement that features an annual revenue increase of \$28.0 million . New rates are expected to go into effect during the fourth quarter of 2015.

On April 16, 2015, Columbia of Massachusetts filed a base rate case with the Massachusetts DPU. The case, which sought increased annual revenues of approximately \$49.0 million , was designed to support Columbia of Massachusetts' continued focus on providing safe and reliable service in compliance with increasing state and federal regulations and oversight, and recovery of associated increased operations and maintenance costs. Columbia of Massachusetts arrived at a settlement agreement with the Massachusetts Attorney General in the case which was filed for approval with the Massachusetts DPU on August 19, 2015 and approved on October 7, 2015. The settlement agreement provides for increased annual revenues of \$32.8 million beginning November 1, 2015, with an additional \$3.6 million annual increase in revenues starting November 1, 2016. The settlement also provides that Columbia of Massachusetts cannot increase base distribution rates to become effective prior to November 1, 2018.

On April 30, 2014, Columbia of Virginia filed a base rate case with the VSCC seeking an annual revenue increase of \$31.8 million . New rates went into effect in October 2014, subject to refund. On December 10, 2014, Columbia of Virginia presented at hearing a Stipulation and Proposed Recommendation ("Stipulation") executed by certain parties to the rate proceeding that included a base revenue increase of \$25.2 million including recovery of costs related to the implementation of pipeline safety programs. On March 30, 2015, the VSCC issued an Order Remanding for Further Action approving the revenue increase of \$25.2 million contained in the Stipulation, but remanding for further proceedings the single issue of the manner in which fixed costs were to be assigned to the fixed customer charges of each rate class. Following a hearing, the VSCC on August 21, 2015 issued a Final Order resolving the fixed customer charge and allowing Columbia of Virginia to implement new rates.

Cost Recovery and Trackers . A significant portion of the NiSource distribution companies' revenue is related to the recovery of gas costs, the review and recovery of which occur via standard regulatory proceedings. All states require periodic review of actual gas procurement activity to determine prudence and to permit the recovery of prudently incurred costs related to the supply of gas for customers. NiSource distribution companies have historically been found prudent in the procurement of gas supplies to serve customers.

Certain operating costs of the NiSource distribution companies are significant, recurring in nature, and generally outside the control of the distribution companies. Some states allow the recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for the distribution companies to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such tracking mechanisms include GCR adjustment mechanisms, tax riders, and bad debt recovery mechanisms.

Comparability of Gas Distribution Operations line item operating results is impacted by regulatory trackers that allow for the recovery in rates of certain costs such as bad debt expense. Increases in the expenses that are the subject of trackers, result in a corresponding increase in net revenues and therefore have essentially no impact on total operating income results.

Certain of the NiSource distribution companies have completed rate proceedings involving infrastructure replacement or are embarking upon regulatory initiatives to replace significant portions of their operating systems that are nearing the end of their

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

useful lives. Each LDC's approach to cost recovery may be unique, given the different laws, regulations and precedent that exist in each jurisdiction.

NIPSCO has approval from the IURC to recover certain costs for gas transmission, distribution and storage system improvements. On February 27, 2015, NIPSCO filed gas TDSIC-2 which included \$43.3 million of net capital expenditures for the period ended December 31, 2014. Given the Indiana Court of Appeals decision in NIPSCO's electric TDSIC filing (for further information, see "Electric Operations Regulatory Matters" below), NIPSCO elected to dismiss its TDSIC-2 filing in favor of supplying further detailed plan updates in the next proceeding, TDSIC-3. On August 31, 2015, NIPSCO filed TDSIC-3 which included \$75.2 million of net capital expenditures for the period ended June 30, 2015. An order is expected in the first quarter of 2016.

Electric Operations Regulatory Matters

Significant Rate Developments . On July 19, 2013, NIPSCO filed its electric TDSIC with the IURC. The filing included the seven-year plan of eligible investments for a total of approximately \$1.1 billion with the majority of the spend occurring in years 2016 through 2020. On February 17, 2014, the IURC issued an order approving NIPSCO's seven-year plan of eligible investments. The order also granted NIPSCO ratemaking relief associated with the eligible investments through a rate adjustment mechanism. The NIPSCO Industrial Group and the OUCC filed Notices of Appeal with the Indiana Court of Appeals in response to the IURC's ruling. On November 25, 2014, NIPSCO's requested TDSIC factors were approved on an interim basis and subject to refund, pending the outcome of the appeals of the IURC's February 17, 2014 Orders. On April 8, 2015, the Court of Appeals issued an order concluding that the IURC erred in approving NIPSCO's seven-year plan given its lack of detail regarding the projects for years two through seven. The court then remanded the decision to the IURC. On May 26, 2015, NIPSCO filed a settlement on remand which, among other things, requires NIPSCO to file an electric base rate case proceeding by December 31, 2015 and a new seven-year electric TDSIC plan following the filing of its next general rate case proceeding. The settlement agreement was rejected by the IURC on September 23, 2015. The settling parties filed a Petition for Rehearing on September 29, 2015 and were granted a rehearing which was held on October 28, 2015.

On October 1, 2015, NIPSCO filed an electric base rate case with the IURC, seeking a revenue increase of approximately \$148.0 million . As part of this filing, NIPSCO is proposing to update base rates for previously incurred infrastructure improvements, revised depreciation rates, and the inclusion of previously approved environmental and federally mandated compliance costs. A prehearing conference was held on October 29, 2015 and a final order is anticipated in the second half of 2016.

Cost Recovery and Trackers . A significant portion of NIPSCO's revenue is related to the recovery of fuel costs to generate power and the fuel costs related to purchased power. These costs are recovered through a FAC, a standard, quarterly, "summary" regulatory proceeding in Indiana.

Certain operating costs of the Electric Operations are significant, recurring in nature, and generally outside the control of NIPSCO. The IURC allows for recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for NIPSCO to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such mechanisms include electric energy efficiency programs, MISO non-fuel costs and revenues, resource capacity charges, and environmental related costs.

NIPSCO has approval from the IURC to recover certain environmental related costs through an ECT. Under the ECT, NIPSCO is permitted to recover (1) AFUDC and a return on the capital investment expended by NIPSCO to implement environmental compliance plan projects through an ECRM and (2) related operation and maintenance and depreciation expenses once the environmental facilities become operational through an EERM.

On October 21, 2015, the IURC issued an order on ECR-26 approving NIPSCO's request to begin earning a return on \$776.5 million of net capital expenditures for the period ended June 30, 2015. The order also approved a revised capital cost estimate of \$255.3 million for its Phase III multi-pollutant compliance plan projects related to the Michigan City Unit 12 FGD, a decrease from the previous IURC approved cost estimate of \$264.8 million .

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

7. Fair Value

A. Fair Value Measurements

Recurring Fair Value Measurements. The following tables present financial assets and liabilities measured and recorded at fair value on NiSource's Condensed Consolidated Balance Sheets (unaudited) on a recurring basis and their level within the fair value hierarchy as of September 30, 2015 and December 31, 2014 :

Recurring Fair Value Measurements September 30, 2015 (in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of September 30, 2015
Assets				
Price risk management assets:				
Commodity financial price risk programs	\$ 0.1	\$ —	\$ —	\$ 0.1
Available-for-sale securities	34.0	101.4	—	135.4
Total	\$ 34.1	\$ 101.4	\$ —	\$ 135.5
Liabilities				
Price risk management liabilities:				
Commodity financial price risk programs	\$ 16.3	\$ —	\$ 0.6	\$ 16.9
Total	\$ 16.3	\$ —	\$ 0.6	\$ 16.9

Recurring Fair Value Measurements December 31, 2014 (in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2014
Assets				
Price risk management assets:				
Commodity financial price risk programs	\$ 0.1	\$ —	\$ —	\$ 0.1
Available-for-sale securities	28.4	103.5	—	131.9
Total	\$ 28.5	\$ 103.5	\$ —	\$ 132.0
Liabilities				
Price risk management liabilities:				
Commodity financial price risk programs	\$ 14.2	\$ —	\$ 0.1	\$ 14.3
Total	\$ 14.2	\$ —	\$ 0.1	\$ 14.3

Price risk management assets and liabilities primarily include NYMEX futures and NYMEX options which are commodity exchange-traded and non-exchange-based derivative contracts. Exchange-traded derivative contracts are based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards, and options. In certain instances, these instruments may utilize models to measure fair value. NiSource uses a similar model to value similar instruments. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability, and market-corroborated inputs, (i.e., inputs derived principally from or corroborated by observable market data by correlation or other means). Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures. As of September 30, 2015

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

and December 31, 2014 , there were no material transfers between fair value hierarchies. Additionally, there were no changes in the method or significant assumptions used to estimate the fair value of NiSource’s financial instruments.

Commodity price risk resulting from derivative activities at NiSource’s rate-regulated subsidiaries is limited, since regulations allow recovery of prudently incurred purchased power, fuel and gas costs through the ratemaking process, including gains or losses on these derivative instruments. If states should explore additional regulatory reform, these subsidiaries may begin providing services without the benefit of the traditional ratemaking process and may be more exposed to commodity price risk. Some of NiSource’s rate-regulated utility subsidiaries offer commodity price risk products to its customers for which derivatives are used to hedge forecasted customer usage under such products. These subsidiaries do not have regulatory recovery orders for these products and are subject to gains and losses recognized in earnings due to hedge ineffectiveness.

Available-for-sale securities are investments pledged as collateral for trust accounts related to NiSource’s wholly-owned insurance company. Available-for-sale securities are included within “Other investments” in the Condensed Consolidated Balance Sheets (unaudited). Securities classified within Level 1 include U.S. Treasury debt securities which are highly liquid and are actively traded in over-the-counter markets. NiSource values corporate and mortgage-backed debt securities using a matrix pricing model that incorporates market-based information. These securities trade less frequently and are classified within Level 2. Total unrealized gains and losses from available-for-sale securities are included in other comprehensive income (loss). The amortized cost, gross unrealized gains and losses and fair value of available-for-sale debt securities at September 30, 2015 and December 31, 2014 were:

September 30, 2015 <i>(in millions)</i>	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale debt securities				
U.S. Treasury securities	\$ 33.8	\$ 0.3	\$ —	\$ 34.1
Corporate/Other bonds	101.0	0.7	(0.4)	101.3
Total Available-for-sale debt securities	\$ 134.8	\$ 1.0	\$ (0.4)	\$ 135.4
December 31, 2014 <i>(in millions)</i>	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale debt securities				
U.S. Treasury securities	\$ 30.8	\$ 0.3	\$ (0.2)	\$ 30.9
Corporate/Other bonds	100.6	1.0	(0.6)	101.0
Total Available-for-sale debt securities	\$ 131.4	\$ 1.3	\$ (0.8)	\$ 131.9

For the three months ended September 30, 2015 and 2014 , the net realized gain on the sale of available-for-sale U.S. Treasury debt securities was \$0.1 million and zero , respectively. For the three months ended September 30, 2015 and 2014 , the net realized gain on the sale of available-for-sale Corporate/Other bond debt securities was \$0.2 million and \$0.1 million , respectively.

For the nine months ended September 30, 2015 and 2014, the net realized gain on sale of available-for-sale U.S. Treasury debt securities was \$0.2 million and \$0.1 million , respectively. For the nine months ended September 30, 2015 and 2014, the net realized gain on the sale of available-for-sale Corporate/Other bond debt securities was \$0.3 million for each period.

The cost of maturities sold is based upon specific identification. At September 30, 2015 , approximately \$2.2 million of U.S. Treasury debt securities have maturities of less than a year while the remaining securities have maturities of greater than one year. At September 30, 2015 , approximately \$8.7 million of Corporate/Other bonds have maturities of less than a year while the remaining securities have maturities of greater than one year.

There are no material items in the fair value reconciliation of Level 3 assets and liabilities measured at fair value on a recurring basis for the three and nine months ended September 30, 2015 and 2014 .

Non-recurring Fair Value Measurements. There were no significant non-recurring fair value measurements recorded during the nine months ended September 30, 2015 .

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

B. Other Fair Value Disclosures for Financial Instruments. The carrying amount of cash and cash equivalents, restricted cash, notes receivable, customer deposits and short-term borrowings is a reasonable estimate of fair value due to their liquid or short-term nature. NiSource's long-term borrowings are recorded at historical amounts.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate fair value.

Long-term Debt. The fair values of these securities are estimated based on the quoted market prices for the same or similar securities. Certain premium costs associated with the early settlement of long-term debt are not taken into consideration in determining fair value. These fair value measurements are classified as Level 2 within the fair value hierarchy. For the nine months ended September 30, 2015 and 2014, there were no changes in the method or significant assumptions used to estimate the fair value of the financial instruments.

The carrying amount and estimated fair values of financial instruments were as follows:

<i>(in millions)</i>	Carrying Amount as of September 30, 2015	Estimated Fair Value as of September 30, 2015	Carrying Amount as of Dec. 31, 2014	Estimated Fair Value as of Dec. 31, 2014
Long-term debt (including current portion)	\$ 6,576.1	\$ 7,286.7	\$ 8,422.5	\$ 9,505.7

8. Transfers of Financial Assets

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited). The maximum amount of debt that can be recognized related to NiSource's accounts receivable programs is \$515 million.

All accounts receivables sold to the purchasers are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined in part by required loss reserves under the agreements. Below is information about the accounts receivable securitization agreements entered into by NiSource's subsidiaries.

Columbia of Ohio is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CGORC, a wholly-owned subsidiary of Columbia of Ohio. CGORC, in turn, is party to an agreement with BTMU and BNS, under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to commercial paper conduits sponsored by BTMU and BNS. This agreement was last renewed on October 16, 2015; the current agreement expires on October 15, 2016 and can be further renewed if mutually agreed to by all parties. The maximum seasonal program limit under the terms of the current agreement is \$240 million. As of September 30, 2015, \$60.0 million of accounts receivable had been transferred by CGORC. CGORC is a separate corporate entity from NiSource and Columbia of Ohio, with its own separate obligations, and upon a liquidation of CGORC, CGORC's obligations must be satisfied out of CGORC's assets prior to any value becoming available to CGORC's stockholder.

NIPSCO is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to NARC, a wholly-owned subsidiary of NIPSCO. NARC, in turn, is party to an agreement with PNC and Mizuho under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to PNC and a commercial paper conduit sponsored by Mizuho. This agreement was last renewed on August 26, 2015; the current agreement expires on August 24, 2016 and can be further renewed if mutually agreed to by all parties. The maximum seasonal program limit under the terms of the current agreement is \$200 million. As of September 30, 2015, \$37.2 million of accounts receivable had been transferred by NARC. NARC is a separate corporate entity from NiSource and NIPSCO, with its own separate obligations, and upon a liquidation of NARC, NARC's obligations must be satisfied out of NARC's assets prior to any value becoming available to NARC's stockholder.

Columbia of Pennsylvania is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CPRC, a wholly-owned subsidiary of Columbia of Pennsylvania. CPRC, in turn, is party to an agreement with BTMU under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to a commercial paper conduit sponsored by BTMU. The agreement with BTMU was last renewed on March 10, 2015, having a current scheduled termination date of March 9, 2016 and can be further renewed if mutually agreed to by both parties. The maximum seasonal program limit

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

under the terms of the agreement is \$75 million . As of September 30, 2015 , \$10.0 million of accounts receivable had been transferred by CPRC. CPRC is a separate corporate entity from NiSource and Columbia of Pennsylvania, with its own separate obligations, and upon a liquidation of CPRC, CPRC's obligations must be satisfied out of CPRC's assets prior to any value becoming available to CPRC's stockholder.

The following table reflects the gross and net receivables transferred as well as short-term borrowings related to the securitization transactions as of September 30, 2015 and December 31, 2014 for Columbia of Ohio, NIPSCO and Columbia of Pennsylvania:

<i>(in millions)</i>	September 30, 2015		December 31, 2014	
Gross Receivables	\$	347.9	\$	611.7
Less: Receivables not transferred		240.7		327.4
Net receivables transferred	\$	107.2	\$	284.3
Short-term debt due to asset securitization	\$	107.2	\$	284.3

Columbia of Ohio, NIPSCO and Columbia of Pennsylvania remain responsible for collecting on the receivables securitized and the receivables cannot be sold to another party.

9. Goodwill

The following presents NiSource's goodwill balance allocated by segment as of September 30, 2015:

<i>(in millions)</i>	Gas Distribution Operations		Electric Operations		Corporate and Other		Total	
Goodwill	\$	1,690.7	\$	—	\$	—	\$	1,690.7

Goodwill previously allocated to the Columbia Pipeline Group Operations segment was disposed of in conjunction with the Separation. For prior periods, such balances are presented within "Assets of discontinued operations" on the Condensed Consolidated Balance Sheets (unaudited). There were no other changes to the goodwill balance during 2015.

10. Income Taxes

The effective tax rates for the three months ended September 30, 2015 and 2014 were 28.2% and 3.9% , respectively. The effective tax rates for the nine months ended September 30, 2015 and 2014 were 35.8% and 38.7% , respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking, and other permanent book-to-tax differences.

NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2015 and 2014, adjusted for tax expense associated with certain discrete items. The increase in the three month effective tax rate of 24.3% in 2015 versus 2014 is primarily due to the cumulative effect of an estimated annual effective tax rate adjustment resulting from estimated state apportionment changes and other permanent items. The tax rate adjustment in 2015 resulted in a \$1.9 million reduction of income tax expense while the 2014 tax rate adjustment resulted in an increase of \$4.5 million of income tax expense.

The decrease in the year-to-date effective tax rate of 2.9% is primarily due to the impact of the Indiana tax rate change recorded in 2014.

There were no material changes recorded in the third quarter of 2015 to NiSource's uncertain tax positions as of December 31, 2014 .

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**11. Pension and Other Postretirement Benefits**

NiSource provides defined contribution plans and noncontributory defined benefit retirement plans that cover its employees. Benefits under the defined benefit retirement plans reflect the employees' compensation, years of service and age at retirement. Additionally, NiSource provides health care and life insurance benefits for certain retired employees. The majority of employees may become eligible for these benefits if they reach retirement age while working for NiSource. The expected cost of such benefits is accrued during the employees' years of service. Current rates of rate-regulated companies include postretirement benefit costs, including amortization of the regulatory assets that arose prior to inclusion of these costs in rates. For most plans, cash contributions are remitted to grantor trusts.

For the nine months ended September 30, 2015, NiSource contributed \$2.0 million to its pension plans and \$18.3 million to its other postretirement benefit plans.

The following tables provide the components of the plans' net periodic benefits cost for the three and nine months ended September 30, 2015 and 2014 :

Three Months Ended September 30, <i>(in millions)</i>	Pension Benefits		Other Postretirement Benefits	
	2015	2014	2015	2014
Components of Net Periodic Benefit Cost				
Service cost	\$ 7.9	\$ 7.5	\$ 1.4	\$ 1.7
Interest cost	22.8	23.8	6.2	5.9
Expected return on assets	(37.3)	(39.3)	(5.6)	(5.1)
Amortization of prior service cost (credit)	0.1	0.3	(1.1)	(1.4)
Recognized actuarial loss	13.8	10.2	0.7	0.2
Total Net Periodic Benefit Cost	\$ 7.3	\$ 2.5	\$ 1.6	\$ 1.3

Nine Months Ended September 30, <i>(in millions)</i>	Pension Benefits		Other Postretirement Benefits	
	2015	2014	2015	2014
Components of Net Periodic Benefit Cost				
Service cost	\$ 24.3	\$ 22.5	\$ 4.5	\$ 5.7
Interest cost	67.0	71.4	17.8	19.5
Expected return on assets	(117.7)	(117.9)	(15.6)	(15.1)
Amortization of prior service cost (credit)	0.3	0.9	(3.9)	(2.9)
Recognized actuarial loss	41.6	30.6	2.8	0.2
Total Net Periodic Benefit Cost	\$ 15.5	\$ 7.5	\$ 5.6	\$ 7.4

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

As of July 1, 2015, certain NiSource pension and other postretirement benefit plans were remeasured to account for the Separation of CPG. The remeasurement resulted in an increase to the pension benefit obligation, net of plan assets, of \$22.2 million, and net increases to regulatory assets and accumulated other comprehensive loss of \$21.1 million and \$1.1 million, respectively. Net periodic pension benefit cost for the remainder of 2015 increased by \$6.4 million as a result of the remeasurement.

The other postretirement benefits obligation, net of plan assets, decreased by \$43.6 million as a result of the remeasurement. Additionally, the remeasurement resulted in a decrease to regulatory assets of \$34.8 million, an increase to regulatory liabilities of \$8.1 million and a decrease to accumulated other comprehensive loss of \$0.7 million. Net periodic other postretirement benefit cost for the remainder of 2015 decreased by \$0.8 million as a result of the remeasurement.

The following table provides the key assumptions that were used to calculate the pension and other postretirement benefits obligation and the net periodic benefit cost at the measurement dates of July 1, 2015 and December 31, 2014.

	Pension Benefits		Other Postretirement Benefits	
	July 1, 2015	December 31, 2014	July 1, 2015	December 31, 2014
Actuarial Assumptions				
Discount Rate	4.19%	3.81%	4.31%	3.94%
Expected return on assets	8.30%	8.30%	8.15%	8.14%
Health Care Trend Rates				
Trend for 2015	—	—	8.76%	6.90%
Ultimate Trend	—	—	4.50%	4.50%
Year Ultimate Trend Reached	—	—	2022	2021

12. Variable Interests and Variable Interest Entities

In general, a VIE is an entity (1) that has an insufficient amount of at-risk equity to permit the entity to finance its activities without additional financial subordinated support provided by any parties, (2) whose at-risk equity owners, as a group, do not have power, through voting rights or similar rights, to direct activities of the entity that most significantly impact the entity's economic performance or (3) whose at-risk owners do not absorb the entity's losses or receive the entity's residual return. A VIE is required to be consolidated by a company if that company is determined to be the primary beneficiary of the VIE.

NiSource consolidates those VIEs for which it is the primary beneficiary. NiSource considers quantitative and qualitative elements in determining the primary beneficiary. Qualitative measures include the ability to control an entity and the obligation to absorb losses or the right to receive benefits from such entity.

NiSource's analysis includes an assessment of guarantees, operating leases, purchase agreements, and other contracts, as well as its investments and joint ventures. For items that have been identified as variable interests, or where there is involvement with an identified VIE, an in-depth review of the relationship between the relevant entities and NiSource is made to evaluate qualitative and quantitative factors to determine the primary beneficiary, if any, and whether additional disclosures would be required under the current standard.

NIPSCO has a service agreement with Pure Air, a general partnership between Air Products and Chemicals, Inc. and First Air Partners LP, under which Pure Air provides scrubber services to reduce sulfur dioxide emissions for Units 7 and 8 at the Bailly Generating Station. NiSource has made an exhaustive effort to obtain information needed from Pure Air to determine the status of Pure Air as a VIE. However, NIPSCO has not been able to obtain this information and, as a result, it is unclear whether Pure Air is a VIE and if NIPSCO is the primary beneficiary. NIPSCO will continue to request the information required to determine whether Pure Air is a VIE. NIPSCO has no exposure to loss related to the service agreement with Pure Air. Payments under this agreement were \$16.5 million and \$17.0 million for the nine months ended September 30, 2015 and 2014, respectively.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****13. Long-Term Debt**

Prior to the Separation, CPG closed its placement of \$2,750.0 million in aggregate principal amount of its senior notes. Using the proceeds from this offering, CPG made cash payments to NiSource representing the settlement of inter-company borrowings and the payment of a one-time special dividend.

In May 2015, using proceeds from the cash payments from CPG, NiSource Finance settled its two bank term loans in the amount of \$1,075.0 million and executed a tender offer for \$750.0 million consisting of a combination of its 5.25% notes due 2017, 6.40% notes due 2018 and 4.45% notes due 2021. In conjunction with the debt retired, NiSource Finance recorded a \$97.2 million loss on early extinguishment of long-term debt, primarily attributable to early redemption premiums.

14. Short-Term Borrowings

During the third quarter of 2015, NiSource Finance maintained a \$1.5 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of July 1, 2020. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource Finance's \$1.5 billion commercial paper program, provide for issuance of letters of credit and also for general corporate purposes. At September 30, 2015, NiSource had no outstanding borrowings under this facility.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse and Wells Fargo. At September 30, 2015, NiSource had no commercial paper outstanding.

As of September 30, 2015, NiSource had \$14.7 million of stand-by letters of credit outstanding all of which were under the revolving credit facility. At December 31, 2014, NiSource had \$30.9 million of stand-by letters of credit outstanding of which \$14.7 million were under the revolving credit facility.

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited) in the amount of \$107.2 million and \$284.3 million as of September 30, 2015 and December 31, 2014, respectively. Refer to Note 8, "Transfers of Financial Assets," for additional information.

<i>(in millions)</i>	September 30, 2015	December 31, 2014
Commercial Paper weighted average interest rate of 0.82% at December 31, 2014	\$ —	\$ 792.6
Credit facilities borrowings weighted average interest rate of 1.44% at December 31, 2014	—	500.0
Accounts receivable securitization facility borrowings	107.2	284.3
Total Short-Term Borrowings	\$ 107.2	\$ 1,576.9

Given their turnover is less than 90 days, cash flows related to the borrowings and repayments of the items listed above are presented net in the Condensed Statements of Consolidated Cash Flows (unaudited).

15. Share-Based Compensation

The NiSource stockholders originally approved and adopted the NiSource Inc. 2010 Omnibus Incentive Plan ("Omnibus Plan") at the Annual Meeting of Stockholders held on May 11, 2010. Stockholders re-approved the Omnibus Plan as amended at the Annual Meeting of Stockholders held on May 12, 2015. The Omnibus Plan provides for awards to employees and non-employee directors of incentive and nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, performance units, cash-based awards and other stock-based awards and supersedes the long-term incentive plan approved by stockholders on April 13, 1994 ("1994 Plan") and the Director Stock Incentive Plan ("Director Plan"). The Omnibus Plan provides that the number of shares of common stock of NiSource available for awards is 8,000,000 plus the number of shares subject to outstanding awards that expire or terminate for any reason that were granted under either the 1994 Plan or the Director Plan, plus the number of shares that were awarded as a result of the Separation-related adjustments described below. At September 30, 2015, there were 5,705,683 shares reserved for future awards under the Omnibus Plan.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

NiSource recognized stock-based employee compensation expense of \$4.2 million and \$14.2 million for the three months ended September 30, 2015 and 2014, respectively, as well as related tax benefits of \$1.5 million and \$5.5 million, respectively. For the nine months ended September 30, 2015 and 2014, stock-based employee compensation expense of \$15.1 million and \$24.1 million was recognized, respectively, as well as related tax benefits of \$5.4 million and \$9.3 million, respectively.

As of September 30, 2015, the total remaining unrecognized compensation cost related to non-vested awards amounted to \$15.8 million, which will be amortized over the weighted-average remaining requisite service period of 1.8 years.

Restricted Stock Units and Restricted Stock. During the nine months ended September 30, 2015, NiSource granted 660,230 restricted stock units and shares of restricted stock, subject to service conditions. The total grant date fair value of restricted stock units and shares of restricted stock was \$23.9 million, based on the average market price of NiSource's common stock at the date of each grant less the present value of any dividends not received during the vesting period, which will be expensed, net of forfeitures, over the vesting period which is generally three years. As of September 30, 2015, 967,191 non-vested (all of which are expected to vest) restricted stock units and shares of restricted stock were granted and outstanding.

401(k) Match, Profit Sharing and Company Contribution. NiSource has a voluntary 401(k) savings plan covering eligible employees that allows for periodic discretionary matches as a percentage of each participant's contributions payable in shares of common stock. NiSource also has a retirement savings plan that provides for discretionary profit sharing contributions payable in shares of common stock to eligible employees based on earnings results; and eligible exempt employees hired after January 1, 2010, receive a non-elective company contribution of 3% of eligible pay payable in shares of NiSource common stock. For the quarters ended September 30, 2015 and 2014, NiSource recognized 401(k) match, profit sharing and non-elective contribution expense of \$4.8 million and \$7.7 million, respectively. For the nine months ended September 30, 2015 and 2014, NiSource recognized 401(k) match, profit sharing and non-elective contribution expenses of \$19.0 million and \$20.3 million, respectively.

Separation-related Adjustments. Pursuant to the terms of the Employee Matters Agreement, effective July 1, 2015, between NiSource and CPG, the Compensation Committee of the Board of Directors of NiSource Inc. approved an adjustment to outstanding awards granted under the Omnibus Plan in order to preserve the intrinsic aggregate value of such awards immediately before the Separation. The Separation-related adjustments did not have a material impact on either compensation expense or the potentially dilutive securities to be considered in the calculation of diluted earnings per share of common stock.

16. Other Commitments and Contingencies

A. Guarantees and Indemnities. As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit. These agreements are entered into primarily to support or enhance the creditworthiness otherwise attributed to a subsidiary on a stand-alone basis, thereby facilitating the extension of sufficient credit to accomplish the subsidiaries' intended commercial purposes. The total guarantees and indemnities in existence at September 30, 2015 and the years in which they expire were:

<i>(in millions)</i>	Total	2015	2016	2017	2018	2019	After
Guarantees of subsidiaries debt	\$ 6,135.5	\$ 230.0	\$ 291.5	\$ 267.4	\$ 476.0	\$ 500.0	\$ 4,370.6
Accounts receivable securitization	107.2	107.2	—	—	—	—	—
Letters of credit	14.7	—	14.7	—	—	—	—
Other guarantees	54.9	—	—	—	—	1.7	53.2
Total commercial commitments	\$ 6,312.3	\$ 337.2	\$ 306.2	\$ 267.4	\$ 476.0	\$ 501.7	\$ 4,423.8

Guarantees of Subsidiaries Debt. NiSource has guaranteed the payment of \$6,135.5 million of debt for various wholly-owned subsidiaries including NiSource Finance and Columbia of Massachusetts, and through a support agreement for Capital Markets, which is reflected on NiSource's Condensed Consolidated Balance Sheets (unaudited). The subsidiaries are required to comply with certain covenants under the debt indenture and in the event of default, NiSource would be obligated to pay the debt's principal and related interest. NiSource does not anticipate its subsidiaries will have any difficulty maintaining compliance. On October 3, 2011, NiSource executed a Second Supplemental Indenture to the original Columbia of Massachusetts Indenture dated April 1, 1991, for the specific purpose of guaranteeing Columbia of Massachusetts' outstanding unregistered medium-term notes.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Lines and Letters of Credit and Accounts Receivable Advances. During the third quarter of 2015, NiSource Finance maintained a \$1.5 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of July 1, 2020. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource's \$1.5 billion commercial paper program, provide for issuance of letters of credit, and also for general corporate purposes.

At September 30, 2015, NiSource had no borrowings under its five-year revolving credit facility, no commercial paper outstanding and \$107.2 million outstanding under its accounts receivable securitization agreements. At September 30, 2015, NiSource had issued stand-by letters of credit of approximately \$14.7 million for the benefit of third parties. See Note 14, "Short-Term Borrowings," for additional information.

B. Legal Proceedings. The Company is party to certain claims and legal proceedings arising in the ordinary course of business, none of which is deemed to be individually material at this time. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on the Company's results of operations, financial position or liquidity. It is possible that if one or more of such matters were decided against the Company, the effects could be material to the Company's results of operations in the period in which the Company would be required to record or adjust the related liability and could also be material to the Company's cash flows in the periods the Company would be required to pay such liability.

C. Environmental Matters. NiSource operations are subject to environmental statutes and regulations related to air quality, water quality, hazardous waste and solid waste. NiSource believes that it is in substantial compliance with those environmental regulations currently applicable to its operations.

It is management's continued intent to address environmental issues in cooperation with regulatory authorities in such a manner as to achieve mutually acceptable compliance plans. However, there can be no assurance that fines and penalties will not be incurred. Management expects a significant portion of environmental assessment and remediation costs to be recoverable through rates for certain NiSource companies.

As of September 30, 2015 and December 31, 2014, NiSource had recorded an accrual of approximately \$125.4 million and \$126.6 million, respectively, to cover environmental remediation at various sites. The current portion of this accrual is included in "Legal and environmental" in the Condensed Consolidated Balance Sheets (unaudited). The noncurrent portion is included in "Other noncurrent liabilities" in the Condensed Consolidated Balance Sheets (unaudited). NiSource accrues for costs associated with environmental remediation obligations when the incurrence of such costs is probable and the amounts can be reasonably estimated. The original estimates for cleanup may differ materially from the amount ultimately expended. The actual future expenditures depend on many factors, including currently enacted laws and regulations, the nature and extent of contamination, the method of cleanup and the availability of cost recovery from customers. These expenditures are not currently estimable at some sites. NiSource periodically adjusts its accrual as information is collected and estimates become more refined.

Air

The actions listed below could require further reductions in emissions from various emission sources. NiSource will continue to closely monitor developments in these matters.

Climate Change. Future legislative and regulatory programs could significantly restrict emissions of GHGs or could impose a cost or tax on GHG emissions.

National Ambient Air Quality Standards. The CAA requires the EPA to set NAAQS for particulate matter and five other pollutants considered harmful to public health and the environment. Periodically, the EPA imposes new or modifies existing NAAQS. States that contain areas that do not meet the new or revised standards must take steps to maintain or achieve compliance with the standards. These steps could include additional pollution controls on boilers, engines, turbines and other facilities owned by electric generation and gas distribution operations.

The following NAAQS were recently added or modified:

Ozone: On October 1, 2015, the EPA issued a pre-publication final rule to lower the 8-hour ozone standard from 75 ppb to 70 ppb. After the EPA proceeds with designations, areas where NiSource operates that are currently designated as attainment may be re-classified as non-attainment. NiSource will continue to monitor this matter and cannot estimate its impact at this time.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Waste

NiSource subsidiaries are potentially responsible parties at waste disposal sites under the CERCLA (commonly known as Superfund) and similar state laws. Additionally, NiSource affiliates have retained environmental liabilities, including cleanup liabilities, associated with certain former operations.

A program has been instituted to identify and investigate former MGP sites where Gas Distribution Operations subsidiaries or predecessors may have liability. The program has identified 64 such sites where liability is probable. Remedial actions at many of these sites are being overseen by state or federal environmental agencies through consent agreements or voluntary remediation agreements.

NiSource utilizes a probabilistic model to estimate its future remediation costs related to its MGP sites. The model was prepared with the assistance of a third-party and incorporates NiSource and general industry experience with remediating MGP sites. NiSource completes an annual refresh of the model in the second quarter of each fiscal year. No material changes to the estimated future remediation costs were noted as a result of the refresh completed as of June 30, 2015. The total estimated liability at NiSource related to the facilities subject to remediation was \$112.6 million and \$121.5 million at September 30, 2015 and December 31, 2014, respectively. The liability represents NiSource's best estimate of the probable cost to remediate the facilities. NiSource believes that it is reasonably possible that remediation costs could vary by as much as \$25 million in addition to the costs noted above. Remediation costs are estimated based on the best available information, applicable remediation standards at the balance sheet date, and experience with similar facilities.

Additional Issues Related to Individual Business Segments

The sections below describe various regulatory actions that affect individual business segments for which NiSource has retained a liability.

Electric Operations.

Air

NIPSCO is subject to a number of air-quality mandates in the next several years. The mandates, which include the NSR Consent Decree, the Utility Mercury and Air Toxics Standards Rule (MATS), and the Clean Power Plan (CPP), require or may require NIPSCO to make capital improvements to its electric generating stations. The cost of capital improvements associated with the NSR Consent Decree and MATS is estimated to be \$860 million, of which approximately \$41.8 million remains to be spent. The cost to comply with the CPP cannot be estimated at this time. NIPSCO believes that the capital costs are probable of recovery from customers.

Utility Mercury and Air Toxics Standards Rule: On December 16, 2011, the EPA finalized the MATS rule establishing new emissions limits for mercury and other air toxics. NIPSCO's affected units have completed projects to meet the April 2015 compliance deadline. For NIPSCO's remaining affected units, a one-year compliance extension granted by IDEM delays the compliance date until April 2016. NIPSCO continues to implement an IURC-approved plan for the installation of additional environmental controls needed to comply with the MATS extension. On June 29, 2015, the United States Supreme Court remanded the MATS rule back to the United States Court of Appeals for the District of Columbia Circuit for further proceedings. The MATS rule remains in effect until the Court of Appeals issues a ruling. The timing for resolving the process is unclear at this time. NIPSCO will continue to monitor developments in this matter.

Clean Power Plan : On October 23, 2015, the EPA issued a final rule to regulate CO2 emissions from existing fossil-fuel EGUs under section 111(d) of the CAA. The final rule establishes national CO2 emission rate standards that are applied to each state's mix of affected EGUs to establish a state-specific emission rate and mass emission limits. The final rule requires each state to submit a plan indicating how the state will meet the EPA's emission rate or mass emission limit, including possibly imposing reduction obligations on specific units. Initial state plans are required to be submitted to the EPA by September 6, 2016. As part of the initial submittal of state plans, states have the option to request extensions for the submittal of final state plans. If granted an extension by the EPA, a state's final plan must be submitted by September 6, 2018. If a state does not submit a satisfactory plan, the EPA will impose a FIP on that state. A proposed FIP was issued on August 3, 2015, concurrent with the pre-publication final rule. The cost to comply with this rule will depend on a number of factors, including the requirements of the state plan or final FIP and the level of NIPSCO's required CO2 emission reductions. It is possible that this new rule, comprehensive federal or state GHG legislation, or other GHG regulation could result in additional expense or compliance costs that could materially impact NiSource's financial results. NIPSCO will continue to monitor this matter and cannot estimate its impact at this time.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Water

On August 15, 2014, the EPA published the final Phase II Rule of the Clean Water Act Section 316(b), which requires all large existing steam electric generating stations to meet certain performance standards to reduce the effects on aquatic organisms at their cooling water intake structures. Under this rule, stations will have to either demonstrate that the performance of their existing fish protection systems meet the new standards or develop new systems, such as a closed-cycle cooling tower. The cost to comply will depend on a number of factors, including evaluation of the various compliance options available under the regulation and permitting-related determinations by IDEM. NIPSCO estimates that the cost of compliance is between \$4 million and \$35 million, dependent upon study results, agency requirements and technology ultimately required to achieve compliance.

On September 30, 2015, the EPA issued a pre-publication final rule to amend the effluent limitations guidelines and standards for the Steam Electric Power Generating category. Once in effect, this rule will impose new water treatment requirements on NIPSCO's electric generating facilities. A final rule is expected in the fourth quarter of 2015. NIPSCO is currently reviewing the rule and cannot estimate the cost of compliance at this time.

Waste

On April 17, 2015, the EPA released a final rule for regulation of CCRs. The rule regulates CCRs under the Resource Conservation and Recovery Act Subtitle D, which determines them to be non-hazardous. The rule will require increased groundwater monitoring, reporting, recordkeeping and posting related information to the Internet. The rule also establishes requirements related to CCR management, impoundments, landfills and storage. The rule will allow NIPSCO to continue its byproduct beneficial use program.

The publication of the CCR rule resulted in revisions to previously recorded legal obligations associated with the retirement of certain NIPSCO facilities. The actual asset retirement costs related to the CCR rule may vary substantially from the estimates used to record the increased asset retirement obligation due to the uncertainty about the compliance strategies that will be used and the preliminary nature of available data used to estimate costs. Refer to Note 5, "Asset Retirement Obligations," for further information. In addition, in order to comply with the rule NIPSCO will be required to incur future capital expenditures to modify its infrastructure and manage CCRs. As allowed by the EPA, NIPSCO will continue to collect data over time to determine the nature, extent and cost of these future capital expenditures. Given the preliminary stage of this data collection, NIPSCO is unable to estimate a range for these future capital expenditures at this time.

D. Other Matters.

Transmission Upgrade Agreements. On February 11, 2014, NIPSCO entered into two TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs filed a complaint at the FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. On December 8, 2014, the FERC issued an order in response to the complaint finding that it is appropriate for NIPSCO to recover, through the multiplier, substantiated costs of ownership related to the TUAs. The FERC set for hearing the issue of what constitutes the incremental costs NIPSCO will incur, but is holding that hearing in abeyance to allow for settlement. NIPSCO will continue to monitor developments in this matter and does not believe the impact is material to the Condensed Consolidated Financial Statements (unaudited).

Springfield, Massachusetts. On November 23, 2012, while Columbia of Massachusetts was investigating the source of an odor of gas at a service location in Springfield, Massachusetts, a gas service line was pierced and an explosion occurred. While this explosion impacted multiple buildings and resulted in several injuries, no life threatening injuries or fatalities have been reported. Columbia of Massachusetts fully cooperated with both the Massachusetts DPU and the Occupational Safety & Health Administration in their investigations of this incident, which have been concluded. Columbia of Massachusetts believes any costs associated with damages, injuries and other losses related to this incident are substantially covered by insurance. Any amounts not covered by insurance are not expected to have a material impact on NiSource's consolidated financial statements. In accordance with GAAP, NiSource recorded any accruals and the related insurance recoveries resulting from this incident on a gross basis within the Condensed Consolidated Balance Sheets (unaudited).

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

18. Business Segment Information

On July 1, 2015, NiSource completed the Separation. CPG's operations consisted of all of NiSource's Columbia Pipeline Group Operations segment prior to the Separation. Results of the Columbia Pipeline Group Operations segment are included in discontinued operations.

At September 30, 2015, NiSource's operations are divided into two primary business segments. The Gas Distribution Operations segment provides natural gas service and transportation for residential, commercial and industrial customers in Ohio, Pennsylvania, Virginia, Kentucky, Maryland, Indiana and Massachusetts. The Electric Operations segment provides electric service in 20 counties in the northern part of Indiana.

The following table provides information about business segments. NiSource uses operating income as its primary measurement for each of the reported segments and makes decisions on finance, dividends and taxes at the corporate level on a consolidated basis. Segment revenues include intersegment sales to affiliated subsidiaries, which are eliminated in consolidation. Affiliated sales are recognized on the basis of prevailing market, regulated prices or at levels provided for under contractual agreements. Operating income is derived from revenues and expenses directly associated with each segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NiSource Inc.

Note regarding forward-looking statements

The following Management's Discussion and Analysis of Financial Condition and Results of Operations, including statements regarding market risk sensitive instruments, contains "forward-looking statements," within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Investors and prospective investors should understand that many factors govern whether any forward-looking statement contained herein will be or can be realized. Any one of those factors could cause actual results to differ materially from those projected. These forward-looking statements include, but are not limited to, statements concerning NiSource's plans, objectives, expected performance, expenditures, recovery of expenditures through rates, stated on either a consolidated or segment basis, the Separation and any and all underlying assumptions and other statements that are other than statements of historical fact. From time to time, NiSource may publish or otherwise make available forward-looking statements of this nature. All such subsequent forward-looking statements, whether written or oral and whether made by or on behalf of NiSource, are also expressly qualified by these cautionary statements. All forward-looking statements are based on assumptions that management believes to be reasonable; however, there can be no assurance that actual results will not differ materially.

Factors that could cause actual results to differ materially from the projections, forecasts, estimates and expectations discussed in this Quarterly Report on Form 10-Q include, but are not limited to, NiSource's debt obligations and ability to comply with related covenants, changes in NiSource's credit rating; growth opportunities for NiSource's businesses; changes in general economic and market conditions; capital market performance and the impact on our benefit plan assets; regulatory rate reviews and proceedings; increased competition in deregulated energy markets; compliance with environmental laws; fluctuations in weather; climate change, natural disasters, acts of terrorism and other catastrophic events; economic conditions in certain industries; fluctuations in the price of energy commodities; counterparty credit risk; any impairment of goodwill and definite-lived intangible assets; changes in taxation or accounting principles; accidents and other operating risks; aging infrastructure, disruptions in information technology and cyber-attacks; construction risks and natural gas and supply risks; NiSource's ability to meet its debt obligations and pay dividends; NiSource's ability to achieve the intended benefits of the Separation; and other matters set forth in the "Risk Factors" section of this Form 10-Q, many of which are beyond the control of NiSource. In addition, the relative contributions to profitability by each segment, and the assumptions underlying the forward-looking statements relating thereto, may change over time. NiSource expressly disclaims any duty to update, supplement or amend any of its forward-looking statements, whether as a result of new information, subsequent events or otherwise.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2014 .

CONSOLIDATED REVIEW

Executive Summary

NiSource is an energy holding company under the Public Utility Holding Company Act of 2005 whose subsidiaries are fully regulated natural gas and electric utility companies serving customers in seven states. NiSource generates substantially all of its operating income through these rate-regulated businesses. A significant portion of NiSource's operations is subject to seasonal fluctuations in sales. During the heating season, which is primarily from November through March, net revenues from gas sales are more significant, and during the cooling season, which is primarily from June through September, net revenues from electric sales are more significant, than in other months.

For the nine months ended September 30, 2015 , income from continuing operations was \$134.2 million , or \$0.42 per basic share, compared to \$176.7 million , or \$0.56 per basic share reported for the same period in 2014.

The decrease in income from continuing operations was due primarily to the following:

- A loss on early extinguishment of long-term debt of \$97.2 million. Refer to Note 13, "Long-Term Debt," for further information on long-term debt retired in May 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

This decrease in income from continuing operations was partially offset by the following:

- Regulatory and service programs at Gas Distribution Operations increased net revenues by \$60.4 million primarily due to the impacts of the rate cases at Columbia of Pennsylvania and Columbia of Virginia, as well as the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Refer to Note 7, "Regulatory Matters," in the Notes to Consolidated Financial Statements included in NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2014 and Note 6, "Regulatory Matters," of this report for more information.

These factors and other impacts to the financial results are discussed in more detail within the following discussions of "Results of Operations" and "Results and Discussion of Segment Operations."

Platform for Growth

NiSource's business plan continues to center on regulatory and customer initiatives and financial management of the balance sheet.

Regulatory Initiatives

NiSource's utilities continue to move forward on core infrastructure and environmental investment programs supported by complementary regulatory and customer initiatives across all seven states. NiSource utilities remain on track to invest approximately \$1.3 billion during 2015 as part of its \$30.0 billion long-term regulated utility infrastructure investment opportunities across its natural gas and electric utilities. NiSource's goal is to develop strategies that benefit all stakeholders as it addresses changing customer conservation patterns, develops more contemporary pricing structures, and embarks on long-term investment programs. These strategies will help improve reliability and safety, enhance customer services and reduce emissions while generating sustainable returns.

Gas Distribution Operations

- On October 7, 2015, Columbia of Massachusetts received approval of its base rate case settlement by the Massachusetts DPU. The settlement with the Massachusetts Attorney General supports Columbia of Massachusetts' continued effort to modernize its pipeline infrastructure and transform its operations to continue to serve customers safely and reliably. The approved settlement provides for increased annual revenues of \$32.8 million beginning November 1, 2015, with an additional \$3.6 million annual increase starting November 1, 2016.
- Columbia of Pennsylvania has reached a settlement with parties to its base rate case pending before the Pennsylvania PUC. Under terms of the settlement, Columbia of Pennsylvania's annual revenues would increase by approximately \$28.0 million, an outcome which supports continued infrastructure replacement, pipeline safety upgrades and enhanced employee training. The settlement also includes a tariff supporting the expansion of natural gas service into unserved areas. A decision on the settlement from the Pennsylvania PUC, with new rates in effect, is expected during the fourth quarter of 2015.
- On August 21, 2015, Columbia of Virginia received final VSCC approval of its 2014 base rate case. The VSCC reaffirmed the \$25.2 million annual revenue increase. The case supports continued capital investments by Columbia of Virginia to improve its system and accommodate customer growth, as well as initiatives to enhance safety and reliability.

Electric Operations

- NIPSCO's first electric rate case in five years was filed with the IURC on October 1, 2015. The case seeks to update rates to reflect the current costs of generating and distributing power, plus ongoing investments which are delivering substantial benefits to customers, including programs that have reduced the duration of power outages by 40 percent. The request also seeks to create a bill payment assistance program for low-income electric customers during the summer cooling season. If approved as filed, the case would increase revenues by approximately \$148.0 million per year, which includes the continued recovery of environmental trackers. A decision by the IURC is expected in the second half of 2016.
- NIPSCO's Michigan City Unit 12 FGD is set to be placed in service by the end of 2015. The approximately \$255 million project, supported with cost recovery, improves air quality and helps ensure NIPSCO's generation fleet remains in compliance with current environmental regulations. The project also helps ensure that NIPSCO can continue offering low-cost, reliable and efficient generating capacity for its customers.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

- Progress also continued on two major electric transmission projects designed to enhance region-wide system flexibility and reliability. Right-of-way acquisition and permitting are under way for both projects and substation construction has begun. These projects involve an investment of approximately \$500 million for NIPSCO and are anticipated to be in service by the end of 2018.

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for a complete discussion of regulatory matters.

Financial Management of the Balance Sheet

Prior to the Separation, CPG closed its placement of \$2,750.0 million in aggregate principal amount of its senior notes. Using the proceeds from this offering, CPG made cash payments to NiSource representing the settlement of inter-company borrowings and the payment of a one-time special dividend.

In May 2015, using proceeds from the cash payments from CPG, NiSource Finance settled its two bank term loans in the amount of \$1,075.0 million and executed a tender offer for \$750.0 million consisting of a combination of its 5.25% notes due 2017, 6.40% notes due 2018 and 4.45% notes due 2021. In conjunction with the debt retired, NiSource Finance recorded a \$97.2 million loss on early extinguishment of long-term debt, primarily attributable to early redemption premiums.

On June 17, 2015, with consideration of the Separation, Moody's affirmed the NiSource senior unsecured rating of Baa2 and commercial paper rating of P-2, with a stable outlook. Additionally, Moody's affirmed NIPSCO's Baa1 rating and affirmed the Baa2 rating for Columbia of Massachusetts. On June 18, 2015, with consideration of the Separation, Standard & Poor's raised the senior unsecured ratings for NiSource and its subsidiaries to BBB+ and the commercial paper rating to A-2. Standard & Poor's outlook for NiSource and all of its subsidiaries is Stable. On October 27, 2015, Fitch affirmed the senior unsecured ratings for NiSource at BBB-, and the existing ratings of its other rated subsidiaries. Fitch's outlook for NiSource and its subsidiaries is Positive. Although all ratings continue to be investment grade, a downgrade by Fitch would result in a rating that is below investment grade. NiSource is committed to maintaining its investment grade credit ratings.

Ethics and Controls

NiSource is committed to providing accurate and complete financial reporting as well as high standards for ethical behavior by its employees. NiSource's senior management takes an active role in the development of this Form 10-Q and the monitoring of the company's internal control structure and performance. In addition, NiSource will continue its mandatory ethics training program for all employees.

For additional information refer to Item 4, "Controls and Procedures."

Results of Operations

Quarter Ended September 30, 2015

Income from Continuing Operations

Income from continuing operations was \$14.8 million, or \$0.05 per basic share, for the three months ended September 30, 2015, compared to a loss from continuing operations of \$17.2 million, or \$0.05 per basic share, for the third quarter of 2014. Operating income was \$109.7 million, an increase of \$38.6 million from the same period in 2014. All per share amounts are basic earnings per share. Basic average shares of common stock outstanding at September 30, 2015 were 318.1 million compared to 315.4 million at September 30, 2014.

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expense. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the quarter ended September 30, 2015, were \$608.1 million, a \$32.3 million increase from the same period last year. This increase in net revenues was primarily due to increased Electric Operations' net revenues of \$16.2 million and increased Gas Distribution Operations' net revenues of \$13.5 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

- Electric Operations' net revenues increased due primarily to the effects of weather of \$10.2 million, increased trackers, which are offset in expense, of \$6.8 million and a higher return on the environmental capital investment recovery program of \$4.1 million due to an increased plant balance eligible for recovery. These increases were partially offset by lower industrial usage of \$5.1 million.
- Gas Distribution Operations' net revenues increased due primarily to an increase in regulatory and service programs of \$11.6 million, including the implementation of rates under Columbia of Ohio's approved infrastructure replacement program, as well as the impact of new rates at Columbia of Virginia and Columbia of Pennsylvania.

Operating Expenses

Operating expenses for the third quarter of 2015 were \$498.4 million, a decrease of \$6.3 million from the 2014 period. This decrease was primarily due to lower operation and maintenance expenses of \$16.3 million, partially offset by increased depreciation and amortization of \$8.7 million. The decrease in operation and maintenance expenses was primarily due to decreased employee and administrative expenses of \$12.0 million. The increase in depreciation and amortization is primarily due to higher capital expenditures placed in service since the prior year period.

Other Income (Deductions)

Other Income (Deductions) reduced income by \$89.1 million in the third quarter of 2015 compared to a reduction in income of \$89.0 million in the prior year.

Income Taxes

Income tax expense for the quarter ended September 30, 2015 was \$5.8 million compared to a \$0.7 million income tax benefit in the prior year. NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2015 and 2014, adjusted for tax expense associated with certain discrete items. The effective tax rates for the quarters ended September 30, 2015 and 2014 were 28.2% and 3.9%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking, and other permanent book-to-tax differences. The increase in the three month effective tax rate of 24.3% in 2015 versus 2014 is primarily due to the cumulative effect of an estimated annual effective tax rate adjustment resulting from estimated state apportionment changes and other permanent items. The tax rate adjustment in 2015 resulted in a \$1.9 million reduction of income tax expense while the 2014 tax rate adjustment resulted in an increase of \$4.5 million of income tax expense.

Refer to Note 10, "Income Taxes," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Results of Operations

Nine Months Ended September 30, 2015

Income from Continuing Operations

Income from continuing operations was \$134.2 million, or \$0.42 per basic share, for the nine months ended September 30, 2015, compared to income from continuing operations of \$176.7 million, or \$0.56 per basic share, for the nine months ended 2014. Operating income was \$580.4 million, an increase of \$18.2 million from the same period in 2014. All per share amounts are basic earnings per share. Basic average shares of common stock outstanding at September 30, 2015 were 317.4 million compared to 314.9 million at September 30, 2014.

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expense. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the nine months ended September 30, 2015, were \$2,246.7 million, a \$137.2 million increase from the same period last year. This increase in net revenues was primarily due to increased Gas Distribution Operations' net revenues of \$120.5 million and increased Electric Operations' net revenues of \$16.3 million.

- Gas Distribution Operations' net revenues increased due primarily to an increase in regulatory and service programs of \$60.4 million, including the impact of new rates at Columbia of Pennsylvania and Columbia of Virginia and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Additionally, there was increased net revenue from higher regulatory and tax trackers, which are offset in expense, of \$47.8 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

- Electric Operations' net revenues increased due primarily to increased trackers, which are offset in expense, of \$14.7 million and a higher return on the environmental capital investment recovery program of \$7.8 million due to an increased plant balance eligible for recovery. Additionally, there was increased net revenue of \$7.2 million as a result of two electric transmission projects authorized by the MISO and the effects of weather of \$4.4 million. These increases were partially offset by lower industrial usage of \$12.3 million due to reduced steel production and decreased net revenues of \$8.9 million as a result of lower off-system sales opportunities in 2015.

Operating Expenses

Operating expenses for the nine months ended 2015 were \$1,666.3 million, an increase of \$119.0 million from the same 2014 period. This increase was primarily due to higher operation and maintenance expenses of \$86.4 million and increased depreciation and amortization of \$27.9 million. The increase in operation and maintenance expenses was primarily due to increased regulatory trackers, which are offset in net revenues, of \$53.2 million, increased employee and administrative expenses of \$15.1 million and increased environmental costs of \$9.2 million. The increase in depreciation and amortization is primarily due to higher capital expenditures placed in service.

Other Income (Deductions)

Other Income (Deductions) reduced income by \$371.5 million for the nine months ended 2015 compared to a reduction in income of \$274.0 million in the prior year. This increase in deductions is primarily attributable to a loss on early extinguishment of long-term debt of \$97.2 million in 2015.

Income Taxes

Income tax expense for the nine months ended September 30, 2015 was \$74.7 million compared to \$111.5 million in the prior year. NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2015 and 2014, adjusted for tax expense associated with certain discrete items. The effective tax rates for the nine months ended September 30, 2015 and 2014 were 35.8% and 38.7%, respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility ratemaking, and other permanent book-to-tax differences. The decrease in the year-to-date effective tax rate of 2.9% is primarily due to the impact of the Indiana tax rate change recorded in 2014.

Refer to Note 10, "Income Taxes," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Liquidity and Capital Resources

A significant portion of NiSource's operations are subject to seasonal fluctuations in cash flow. During the heating season, which is primarily from November through March, cash receipts from gas sales and transportation services typically exceed cash requirements. During the summer months, cash on hand, together with the seasonal increase in cash flows from the electric business during the summer cooling season and external short-term and long-term financing, is used to purchase gas to place in storage for heating season deliveries and perform necessary maintenance of facilities. NiSource believes that through income generated from operating activities, amounts available under its short-term revolving credit facility, commercial paper program, long-term debt agreements and NiSource's ability to access the capital markets, there is adequate capital available to fund its operating activities and capital expenditures in 2015.

Operating Activities

Net cash from operating activities from continuing operations for the nine months ended September 30, 2015 was \$906.3 million, an increase of \$487.5 million compared to the nine months ended September 30, 2014. The increase in net cash from operating activities from continuing operations was primarily due to the change in inventories and overrecovered gas and fuel costs working capital accounts as a result of lower gas prices and warmer weather in 2015 compared to 2014.

Pension and Other Postretirement Plan Funding. NiSource expects to make contributions of approximately \$2.7 million to its pension plans and approximately \$24.1 million to its other postretirement benefit plans in 2015, which could change depending on market conditions. For the nine months ended September 30, 2015, NiSource has contributed \$2.0 million to its pension plans and \$18.3 million to its other postretirement benefit plans.

Investing Activities

Cash contributions from CPG of \$3,798.2 million were received in conjunction with the Separation, primarily from the settlement of inter-company borrowings and the payment of a one-time special dividend.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

NiSource's capital expenditures for the nine months ended September 30, 2015 were \$923.4 million, compared to \$914.3 million for the comparable period in 2014. NiSource projects 2015 capital expenditures to be approximately \$1.3 billion.

Financing Activities

Long-term Debt. Refer to Note 13, "Long-term Debt," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on long-term debt.

Credit Facilities. During the third quarter of 2015, NiSource Finance maintained a \$1.5 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of July 1, 2020. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource Finance's \$1.5 billion commercial paper program, provide for issuance of letters of credit and also for general corporate purposes. At September 30, 2015, NiSource had no outstanding borrowings under this facility.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse and Wells Fargo. At September 30, 2015, NiSource had no commercial paper outstanding.

NiSource Finance had no borrowings outstanding under its revolving credit facility at September 30, 2015 and \$500.0 million at December 31, 2014 at a weighted average interest rate of 1.44%. In addition, NiSource Finance had no commercial paper outstanding at September 30, 2015 and \$792.6 million in commercial paper outstanding at December 31, 2014, at a weighted average interest rate of 0.82%.

As of September 30, 2015 and December 31, 2014, NiSource had \$107.2 million and \$284.3 million, respectively, of short-term borrowings recorded on the Condensed Consolidated Balance Sheets (unaudited) relating to its accounts receivable securitization facilities. See Note 8, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited).

As of September 30, 2015, NiSource had \$14.7 million of stand-by letters of credit outstanding all of which were under the revolving credit facility. At December 31, 2014, NiSource had \$30.9 million of stand-by letters of credit outstanding of which \$14.7 million were under the revolving credit facility.

As of September 30, 2015, an aggregate of \$1,584.9 million of credit was available under the credit facility and accounts receivable securitization programs.

Debt Covenants. NiSource is subject to a financial covenant under its revolving credit facility, which requires NiSource to maintain a debt to capitalization ratio that does not exceed 70%. A similar covenant in a 2005 private placement note purchase agreement requires NiSource to maintain a debt to capitalization ratio that does not exceed 75%. As of September 30, 2015, the ratio was 63.7%.

NiSource is also subject to certain other non-financial covenants under the revolving credit facility. Such covenants include a limitation on the creation or existence of new liens on NiSource's assets, generally exempting liens on utility assets, purchase money security interests, preexisting security interests and an additional subset of assets equal to \$150 million. An asset sale covenant generally restricts the sale, lease and/or transfer of NiSource's assets to no more than 10% of its consolidated total assets and dispositions for a price not materially less than the fair market value of the assets disposed of that do not impair the ability of NiSource and NiSource Finance to perform obligations under the revolving credit facility, and that, together with all other such dispositions, would not have a material adverse effect. The revolving credit facility also includes a cross-default provision, which triggers an event of default under the credit facility in the event of an uncured payment default relating to any indebtedness of NiSource or any of its subsidiaries in a principal amount of \$50 million or more.

NiSource's indentures generally do not contain any financial maintenance covenants. However, NiSource's indentures are generally subject to cross-default provisions ranging from uncured payment defaults of \$5 million to \$50 million, and limitations on the incurrence of liens on NiSource's assets, generally exempting liens on utility assets, purchase money security interests, preexisting security interests and an additional subset of assets capped at 10% of NiSource's consolidated net tangible assets.

Sale of Trade Accounts Receivables. Refer to Note 8, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on the sale of trade accounts receivable.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

All accounts receivable sold to the purchasers are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined, in part, by required loss reserves under the agreements.

Credit Ratings. On June 17, 2015, with consideration of the Separation, Moody's affirmed the NiSource senior unsecured rating of Baa2 and commercial paper rating of P-2, with a stable outlook. Additionally, Moody's affirmed NIPSCO's Baa1 rating and affirmed the Baa2 rating for Columbia of Massachusetts. On June 18, 2015, with consideration of the Separation, Standard & Poor's raised the senior unsecured ratings for NiSource and its subsidiaries to BBB+ and the commercial paper rating of A-2. Standard & Poor's outlook for NiSource and all of its subsidiaries is Stable. On October 27, 2015, Fitch affirmed the senior unsecured ratings for NiSource at BBB-, and the existing ratings of its other rated subsidiaries. Fitch's outlook for NiSource and its subsidiaries is Positive. Although all ratings continue to be investment grade, a downgrade by Fitch would result in a rating that is below investment grade. NiSource is committed to maintaining its investment grade credit ratings.

Certain NiSource affiliates have agreements that contain "ratings triggers" that require increased collateral if the credit ratings of NiSource or certain of its subsidiaries are rated below BBB- by Standard & Poor's or Baa3 by Moody's. These agreements are primarily for insurance purposes and for the physical purchase or sale of power. The collateral requirement that would be required in the event of a downgrade below the ratings trigger levels would amount to approximately \$26.8 million as of September 30, 2015. In addition to agreements with ratings triggers, there are other agreements that contain "adequate assurance" or "material adverse change" provisions that could necessitate additional credit support such as letters of credit and cash collateral to transact business.

Contractual Obligations. There were no material changes recorded during the nine months ended September 30, 2015 to NiSource's contractual obligations as of December 31, 2014 .

Market Risk Disclosures

Risk is an inherent part of NiSource's energy businesses. The extent to which NiSource properly and effectively identifies, assesses, monitors and manages each of the various types of risk involved in its businesses is critical to its profitability. NiSource seeks to identify, assess, monitor and manage, in accordance with defined policies and procedures, the following principal market risks that are involved in NiSource's energy businesses: commodity price risk, interest rate risk and credit risk. Risk management at NiSource is a multi-faceted process with oversight by the Risk Management Committee that requires constant communication, judgment and knowledge of specialized products and markets. NiSource's senior management takes an active role in the risk management process and has developed policies and procedures that require specific administrative and business functions to assist in the identification, assessment and control of various risks. These include but are not limited to market, operational, financial, compliance and strategic risk types. In recognition of the increasingly varied and complex nature of the energy business, NiSource's risk management process, policies and procedures continue to evolve and are subject to ongoing review and modification.

Commodity Price Risk

NiSource is exposed to commodity price risk as a result of its subsidiaries' operations involving natural gas and power. To manage this market risk, NiSource's subsidiaries use derivatives, including commodity futures contracts, swaps and options. NiSource is not involved in speculative energy trading activity.

Commodity price risk resulting from derivative activities at NiSource's rate-regulated subsidiaries is limited, since regulations allow recovery of prudently incurred purchased power, fuel and gas costs through the ratemaking process, including gains or losses on these derivative instruments. If states should explore additional regulatory reform, these subsidiaries may begin providing services without the benefit of the traditional ratemaking process and may be more exposed to commodity price risk. Some of NiSource's rate-regulated utility subsidiaries offer commodity price risk products to its customers for which derivatives are used to hedge forecasted customer usage under such products. These subsidiaries do not have regulatory recovery orders for these products and are subject to gains and losses recognized in earnings due to hedge ineffectiveness.

There are no material commodity price risk assets or liabilities as of September 30, 2015 and December 31, 2014 .

Interest Rate Risk

NiSource is exposed to interest rate risk as a result of changes in interest rates on borrowings under its revolving credit facility, commercial paper program and accounts receivable programs, which have interest rates that are indexed to short-term market

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

interest rates. Based upon average borrowings and debt obligations subject to fluctuations in short-term market interest rates, an increase (or decrease) in short-term interest rates of 100 basis points (1%) would have increased (or decreased) interest expense by \$0.3 million and \$7.5 million for the three and nine months ended September 30, 2015, respectively, and \$5.6 million and \$13.6 million for the three and nine months ended September 30, 2014, respectively.

Credit Risk

Due to the nature of the industry, credit risk is embedded in many of NiSource's business activities. NiSource's extension of credit is governed by a Corporate Credit Risk Policy. In addition, Risk Management Committee guidelines are in place which document management approval levels for credit limits, evaluation of creditworthiness, and credit risk mitigation efforts. Exposures to credit risks are monitored by the Risk Management function which is independent of commercial operations. Credit risk arises due to the possibility that a customer, supplier or counterparty will not be able or willing to fulfill its obligations on a transaction on or before the settlement date. For derivative related contracts, credit risk arises when counterparties are obligated to deliver or purchase defined commodity units of gas or power to NiSource at a future date per execution of contractual terms and conditions. Exposure to credit risk is measured in terms of both current obligations and the market value of forward positions net of any posted collateral such as cash and letters of credit.

NiSource closely monitors the financial status of its banking credit providers. NiSource evaluates the financial status of its banking partners through the use of market-based metrics such as credit default swap pricing levels, and also through traditional credit ratings provided by major credit rating agencies.

Fair Value Measurement

NiSource measures certain financial assets and liabilities at fair value. The level of the fair value hierarchy disclosed is based on the lowest level of input that is significant to the fair value measurement. NiSource's financial assets and liabilities include price risk assets and liabilities, available-for-sale securities and a deferred compensation plan obligation.

Exchange-traded derivative contracts are generally based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards and options. In certain instances, NiSource may utilize models to measure fair value. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability and market-corroborated inputs, i.e., inputs derived principally from or corroborated by observable market data by correlation or other means. Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures.

Refer to Note 7, "Fair Value," in the Notes to the Condensed Consolidated Financial Statements (unaudited) for additional information on NiSource's fair value measurements.

Off Balance Sheet Arrangements

As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit.

Refer to Note 16, "Other Commitments and Contingencies," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information about NiSource's off balance sheet arrangements.

NiSource's Gas Distribution Operations serve approximately 3.3 million customers in seven states: Ohio, Indiana, Pennsylvania, Massachusetts, Virginia, Kentucky and Maryland. The regulated subsidiaries offer both traditional bundled services as well as transportation only for customers that purchase gas from alternative suppliers. The operating results reflect the temperature-sensitive nature of customer demand with 73% of annual residential and commercial throughput affected by seasonality. As a result, segment operating income is higher in the first and fourth quarters reflecting the heating demand during the winter season.

Regulatory Matters

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Gas Distribution Operations segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Gas Distribution Operations

Customer Usage. Increased efficiency of natural gas appliances and improvements in home building codes and standards has contributed to a long-term trend of declining average use per customer. Residential and commercial usage for the nine months ended September 30, 2015 decreased from the same period last year primarily due to warmer weather compared to the prior year. While historically, rate design at the distribution level has been structured such that a large portion of cost recovery is based upon throughput, rather than in a fixed charge, operating costs are largely incurred on a fixed basis, and do not fluctuate due to changes in customer usage. As a result, the NiSource LDCs have pursued changes in rate design to more effectively match recoveries with costs incurred. Each of the states in which the NiSource LDCs operate have different requirements regarding the procedure for establishing changes to rate design. Columbia of Ohio restructured its rate design through a base rate proceeding and has adopted a "de-coupled" rate design which more closely links the recovery of fixed costs with fixed charges. Columbia of Massachusetts and Columbia of Virginia received regulatory approval of decoupling mechanisms which adjust revenues to an approved benchmark level through a volumetric adjustment factor. Columbia of Maryland has received regulatory approval to implement a residential class revenue normalization adjustment, a decoupling mechanism whereby monthly revenues that exceed or fall short of approved levels are reconciled in subsequent months. In a prior base rate proceeding, Columbia of Pennsylvania implemented a residential weather normalization adjustment charge. In a prior base rate proceeding, NIPSCO implemented a higher fixed customer charge for residential and small customer classes moving toward full straight fixed variable rate design.

Environmental Matters

Currently, various environmental matters impact the Gas Distribution Operations segment. As of September 30, 2015, reserves have been recorded to cover probable environmental response actions. Refer to Note 16, "Other Commitments and Contingencies," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Gas Distribution Operations segment.

Weather

In general, NiSource calculates the weather related revenue variance based on changing customer demand driven by weather variance from normal heating degree-days. Normal is evaluated using heating degree days across the NiSource distribution region. While the temperature base for measuring heating degree days (i.e. the estimated average daily temperature at which heating load begins) varies slightly across the region, the NiSource composite measurement is based on 65 degrees. NiSource composite heating degree days reported do not directly correlate to the weather related dollar impact on the results of Gas Distribution Operations. Heating degree days experienced during different times of the year or in different operating locations may have more or less impact on volume and dollars depending on when and where they occur. When the detailed results are combined for reporting, there may be weather related dollar impacts on operations when there is not an apparent or significant change in the aggregated NiSource composite heating degree-day comparison.

Weather in the Gas Distribution Operations' territories for the third quarter of 2015 was 49% warmer than normal and 57% warmer than the third quarter in 2014.

Weather in the Gas Distribution Operations' territories for the nine months ended September 30, 2015 was 10% colder than normal and 4% warmer than the same period in 2014.

Throughput

Total volumes sold and transported of 163.6 MMDth for the third quarter of 2015 decreased by 2.6 MMDth from the same period last year. This 2% decrease in volumes was primarily attributable to warmer weather and lower off-system sales opportunities.

Total volumes sold and transported of 750.5 MMDth for the nine months ended September 30, 2015 decreased by 11.6 MMDth from the same period last year. This 2% decrease in volume was primarily attributable to warmer weather and lower off-system sales opportunities.

Net Revenues

Net revenues for the third quarter of 2015 were \$310.8 million, an increase of \$13.5 million from the same period in 2014. The increase in net revenues is due primarily to an increase in regulatory and service programs of \$11.6 million, including the implementation of rates under Columbia of Ohio's approved infrastructure replacement program, as well as the impact of new rates at Columbia of Virginia and Columbia of Pennsylvania.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Gas Distribution Operations

Net revenues for the nine months ended September 30, 2015 were \$1,419.8 million, an increase of \$120.5 million from the same period in 2014. The increase in net revenues is due primarily to an increase in regulatory and service programs of \$60.4 million, including the impact of new rates at Columbia of Pennsylvania and Columbia of Virginia and the implementation of rates under Columbia of Ohio's approved infrastructure replacement program. Additionally, there was increased net revenue from higher regulatory and tax trackers, which are offset in expense, of \$47.8 million.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased gas costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three and nine months ended September 30, 2015 was a revenue increase of \$0.5 million and a revenue decrease of \$92.3 million, respectively, compared to a revenue increase of \$10.0 million and \$9.7 million for the three and nine months ended September 30, 2014, respectively.

Operating Income

For the third quarter of 2015, Gas Distribution Operations reported operating income of \$20.0 million, an increase of \$19.2 million from the comparable 2014 period. Operating income increased as a result of higher net revenues, as described above, and decreased operating expenses. Operating expenses were \$5.7 million lower than the comparable period primarily due to decreased regulatory and tax trackers, which are offset in net revenues, of \$4.4 million and lower employee and administrative expenses of \$4.1 million partially offset by increased depreciation of \$3.1 million.

For the nine months ended September 30, 2015, Gas Distribution Operations reported operating income of \$394.9 million, an increase of \$32.5 million from the comparable 2014 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses. Operating expenses were \$88.0 million higher than the comparable period reflecting increased regulatory and tax trackers, which are offset in net revenues, of \$47.8 million, higher employee and administrative expenses of \$13.3 million, increased depreciation of \$11.1 million and higher property taxes of \$6.9 million.

NiSource generates and distributes electricity, through its subsidiary NIPSCO, to approximately 461 thousand customers in 20 counties in the northern part of Indiana. The operating results reflect the temperature-sensitive nature of customer demand with annual sales affected by temperatures in the northern part of Indiana. As a result, segment operating income is generally higher in the second and third quarters, reflecting cooling demand during the summer season.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Electric Operations

Electric Supply

On October 31, 2014, NIPSCO submitted its 2014 Integrated Resource Plan with the IURC. The plan evaluates demand-side and supply-side resource alternatives to reliably and cost-effectively meet NIPSCO customers' future energy requirements over the next twenty years. Existing resources are expected to be sufficient, assuming favorable outcomes for environmental upgrades, to meet customers' needs into the next decade. NIPSCO continues to monitor and assess economic, regulatory and legislative activity, and will update its resource plan as appropriate.

Regulatory Matters

Refer to Note 6, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Electric Operations segment.

Environmental Matters

Currently, various environmental matters impact the Electric Operations segment. As of September 30, 2015, a reserve has been recorded to cover probable and estimable environmental response actions. Refer to Note 16, "Other Commitments and Contingencies," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Electric Operations segment.

Transmission Upgrade Agreements

On February 11, 2014, NIPSCO entered into TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors have agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, which is estimated at \$50.3 million, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs filed a complaint at the FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. On December 8, 2014, the FERC issued an order in response to the complaint finding that it is appropriate for NIPSCO to recover, through the multiplier, substantiated costs of ownership related to the TUAs. The FERC set for hearing the issue of what constitutes the incremental costs NIPSCO will incur, but is holding that hearing in abeyance to allow for settlement. NIPSCO will continue to monitor developments in this matter and does not believe the impact is material to the Condensed Consolidated Financial Statements (unaudited).

Sales

Electric Operations sales quantities for the third quarter of 2015 were 4,451.9 gwh, a decrease of 197.4 gwh compared to the third quarter of 2014. The 4% decrease is primarily attributable to decreases in industrial usage, which was caused by a reduction in steel production due to the high levels of imports that have impacted the steel market since the beginning of 2015.

Electric Operations sales quantities for the nine months ended September 30, 2015 were 12,811.1 gwh, a decrease of 883.1 gwh compared to the same period in 2014. The 6% decrease is primarily attributable to decreases in sales for resale and industrial usage. The decreases in sales for resale relate to fewer opportunities for off-system sales during the first quarter of 2015 due to the milder weather that occurred during that period. The decrease in industrial usage was primarily attributable to a reduction in steel production due to the high level of imports that have impacted the steel market since the beginning of 2015.

Net Revenues

Net revenues were \$293.4 million for the third quarter of 2015, an increase of \$16.2 million from the same period in 2014. The increase in net revenues is due primarily to the effects of weather of \$10.2 million, increased trackers, which are offset in expense, of \$6.8 million and a higher return on the environmental capital investment recovery program of \$4.1 million due to an increased plant balance eligible for recovery. These increases were partially offset by lower industrial usage of \$5.1 million.

Net revenues were \$822.6 million for the nine months ended September 30, 2015, an increase of \$16.3 million from the same period in 2014. The increase in net revenues is due primarily to increased trackers, which are offset in expense, of \$14.7 million and a higher return on the environmental capital investment recovery program of \$7.8 million due to an increased plant balance eligible for recovery. Additionally, there was increased net revenue of \$7.2 million as a result of two electric transmission projects authorized by the MISO and the effects of weather of \$4.4 million. These increases were partially offset by lower industrial usage of \$12.3 million due to reduced steel production and decreased net revenues of \$8.9 million as a result of fewer off-system sales opportunities in 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Electric Operations

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased fuel costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to "Other" gross revenues for the three and nine months ended September 30, 2015 was a revenue increase of \$11.3 million and a decrease of \$13.4 million, respectively, compared to a revenue decrease of \$22.2 million and an increase of \$8.6 million for the three and nine months ended September 30, 2014 , respectively.

Operating Income

For the third quarter of 2015, Electric Operations reported operating income of \$98.5 million, an increase of \$21.6 million from the comparable 2014 period. Operating income increased as a result of higher net revenues, as described above, and lower operating expenses of \$5.4 million. Operating expense decreased primarily as a result of lower employee and administrative expenses of \$7.2 million.

For the nine months ended September 30, 2015, Electric Operations reported operating income of \$214.2 million, a decrease of \$4.5 million from the comparable 2014 period. Operating income decreased as a result of higher operating expenses partially offset by increased net revenues, as described above. Operating expenses increased \$20.8 million primarily as a result of an increase in trackers, which are offset in net revenues, of \$14.7 million and higher environmental costs of \$9.6 million.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

NiSource Inc.

For a discussion regarding quantitative and qualitative disclosures about market risk see “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Market Risk Disclosures.”

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

NiSource’s chief executive officer and its principal financial officer, are responsible for evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). NiSource’s disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including NiSource’s chief executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based upon that evaluation, NiSource’s chief executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to provide reasonable assurance that financial information was processed, recorded and reported accurately.

Changes in Internal Controls

There have been no changes in NiSource’s internal control over financial reporting during the fiscal quarter covered by this report that has materially affected, or is reasonably likely to materially affect, NiSource’s internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

NiSource Inc.

The Company is party to certain claims and legal proceedings arising in the ordinary course of business, none of which is deemed to be individually material at this time. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on the Company's results of operations, financial position or liquidity. It is possible that if one or more of such matters were decided against the Company, the effects could be material to the Company's results of operations in the period in which the Company would be required to record or adjust the related liability and could also be material to the Company's cash flows in the periods the Company would be required to pay such liability.

ITEM 1A. RISK FACTORS

NiSource Inc.

NiSource's operations and financial results are subject to various risks and uncertainties, including those disclosed in NiSource's most recent Annual Report on Form 10-K for the year ended December 31, 2014 and restated in NiSource's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2015. There have been no material changes to such risk factors as most recently restated.

NiSource Inc.
2010 Omnibus Incentive Plan
Restricted Stock Unit Agreement
Amending and Restating the
2013 Performance Share Agreement

This Restricted Stock Unit Agreement (the "Agreement") amends and restates the performance share agreement entered into between NiSource Inc., a Delaware corporation (the "Company"), and [Name of Employee], an Employee of the Company (the "Grantee"), on [date of grant of original performance share Award, 2013] (the "2013 Performance Share Agreement").

Section 1. Amendment and Restatement of Performance Share Award into a Restricted Stock Unit Award . The Company and the Grantee previously entered into the 2013 Performance Share Agreement on [date of grant of original performance share Award, 2013] (the "Date of Grant"). On July 1, 2015, the Company implemented the spin-off of its pipeline and transmission business, comprised of Columbia Pipeline Group, Inc., a Delaware corporation ("CPG") and its affiliates, which made CPG and its affiliates independent and no longer part of the controlled group of corporations of the Company. Based on

- (i) the performance of the Company and satisfaction of the applicable performance metrics under the 2013 Performance Share Agreement from the date of grant of the 2013 Performance Share Agreement until the date immediately before the spin-off of CPG, and
- (ii) the Company's determination to preserve the value of the performance share units granted under the 2013 Performance Share Agreement and in accordance with the adjustment provisions of the NiSource Inc. 2010 Omnibus Incentive Plan and the 2013 Performance Share Agreement,

the Company hereby amends and restates the 2013 Performance Share Agreement with the Grantee and grants to the Grantee in its entirety, on the terms and conditions hereinafter set forth, to provide a new total Award of _____ Restricted Stock Units. The Restricted Stock Units will be represented by a bookkeeping entry (the "RSU Account") of the Company, and each Restricted Stock Unit shall be equivalent to one share of the Company's common stock.

Section 2. Grantee Accounts . The number of Restricted Stock Units granted pursuant to this Agreement shall be credited to the Grantee's RSU Account. Each RSU Account shall be maintained on the books of the Company until full payment of the balance thereof has been made to the Grantee (or the Grantee's beneficiaries or estate if the Grantee is deceased) in accordance with Section 1 above. No funds shall be set aside or earmarked for any RSU Account, which shall be purely a bookkeeping device.

Section 3. Vesting and Lapse of Restrictions .

- (a) Vesting . Subject to the forfeiture conditions described later in this Agreement, the Restricted Stock Units shall vest on February 29, 2016 (the "Vesting Date").
- (b) Effect of Termination of Service . Except as set forth below, if Grantee's Service is terminated for any reason prior to the Vesting Date or the occurrence of any event provided in this Section, the Grantee shall forfeit any Restricted Stock Units that have not yet become vested.
 - (i) Termination Due to Retirement, Death, or Disability . If, before the Vesting Date, the Grantee terminates Service due to the Grantee's Retirement, death, or Disability, the restrictions set forth in part (a) above shall lapse with respect to a *pro rata* portion of such Restricted Stock Units on the date of such termination of Service. Such *pro rata* lapse of the restrictions shall be determined using a fraction, where the numerator shall be the number of full or partial calendar months elapsed between the Date of Grant and the date the Grantee terminates Service, and the denominator shall be the number of full or partial calendar months between the Date of Grant and the Vesting Date that immediately follows the Grantee's termination date. For purposes of this Agreement, "Retirement" means the Grantee's attainment of age 55 and 10 years of Service.

(ii) Termination After a Change in Control. If, before the Vesting Date and within 24 months after a Change in Control of the Company occurs, the Grantee's Service is terminated by the Company other than for Cause, or Grantee terminates Service for Good Reason, all the Restricted Stock Units shall become fully and immediately vested, and all restrictions shall lapse, upon the date of such Termination of Service.

(iii) Termination in Anticipation of a Change in Control. If, before the Vesting Date, (1) a Change in Control has occurred, (2) the Company has terminated the Grantee's Service without Cause during the year before the Change in Control was consummated but after a third party and/or the Company had taken steps reasonably calculated to effect a Change in Control, and (3) it is reasonably demonstrated by the Grantee that such termination of Service was in connection with or in anticipation of a Change in Control, all the Restricted Stock Units shall become fully and immediately vested, and all restrictions shall lapse, on the fifth business day before the date of consummation of a Change in Control of the Company.

(iv) Cause and Good Reason. For purposes of this Agreement, "Cause" shall be deemed to exist if, and only if, the Company notifies the Grantee, in writing, within 60 days of its knowledge that one of the following events have occurred: (1) the Grantee engages in acts or omissions constituting dishonesty, intentional breach of fiduciary obligation or intentional wrongdoing or malfeasance, in each case that results in substantial harm to the Company; or (2) the Grantee is convicted of a criminal violation involving fraud or dishonesty. For purposes of this Agreement, "Good Reason" shall be deemed to exist if, and only if, the Company has failed to cure any of the following conditions within 30 days after receipt of advanced written notice of such conditions by the Grantee: (1) a significant diminution in the nature or the scope of the Grantee's authorities or duties; (2) there is a significant reduction in the Grantee's monthly rate of base salary and opportunity to earn a bonus under an incentive bonus compensation plan maintained by the Company; (3) the Company changes by 50 miles or more the principal location at which the Grantee is required to perform services as of the date of a Change in Control; or (4) the Company or any successor materially breaches this Agreement.

(c) Limitation on Restricted Stock Units. Notwithstanding the previous provisions of this Section, during any calendar year with respect to which the Grantee is a Covered Officer (for purpose of Internal Revenue Code ("Code") Section 162(m)), if the Grantee otherwise would vest in a number of Restricted Stock Units under this Section, the Grantee instead may vest only with respect to a sufficient number of Restricted Stock Units whose aggregate Fair Market Value on the date such restrictions would, when added to the Grantee's "applicable employee remuneration" (as defined in Code Section 162(m)) for the applicable calendar year that does not constitute "qualified performance-based compensation" (as defined in Code Section 162(m)), not exceed the aggregate amount of \$999,999.00 for the applicable calendar year (the "Limitation").

To the extent the restrictions on any Restricted Stock Units do not lapse due to the application of this Section, the restrictions on such Restricted Stock Units shall lapse on the first to occur of:

- (i) the last business day of any subsequent calendar year or years to the extent that the Limitation is not exceeded for such year or years;
- (ii) the date next following the Grantee's termination of Service for any reason other than for Cause; or
- (iii) the first business day of the year next following the year with respect to which the Grantee ceases to be a Covered Officer.

The Company will make all determinations as to whether the lapse of restrictions on any Restricted Stock Units is delayed in accordance with this Section. Such determinations will be made on a uniform and non-discriminatory basis consistent with the requirements under Code Section 409A.

Section 4. Delivery of Shares. Once Restricted Stock Units have vested under this Agreement, the Company will determine the number of Shares represented by the Restricted Stock Units in the Grantee's RSU Account and deliver the total number of Shares due to the Grantee as soon as administratively possible after such date. Notwithstanding any provision to the contrary, if, in the reasonable determination of the Company, a Grantee is a "specified employee" for purposes of Code Section 409A, then, if necessary to avoid the imposition of additional taxes or interest under Code Section 409A, the Company shall not deliver the Shares otherwise payable upon the Grantee's termination and separation of Service until the date that is at least 6

months following the Grantee's termination and separation of Service. The delivery of the Shares shall be subject to payment of the applicable withholding tax liability and the forfeiture provisions of this Agreement. If the Grantee dies before the Company has distributed any portion of the vested Restricted Stock Units, the Company will transfer any Shares payable with respect to the vested Restricted Stock Units in accordance with the Grantee's written beneficiary designation or to the Grantee's estate if no written beneficiary designation is provided.

Section 5. Withholding of Taxes. The Company shall have the power and the right to deduct or withhold, or require the Grantee to remit to the Company, an amount sufficient to satisfy federal, state, and local taxes, domestic or foreign, required by law or regulation to be withheld with respect to any taxable event arising as a result of this Agreement.

Section 6. Securities Law Compliance. The delivery of all or any Shares that relate to the Restricted Stock Units shall only be effective at such time that the issuance of such Shares will not violate any state or federal securities or other laws. The Company is under no obligation to effect any registration of Shares under the Securities Act of 1933 or to effect any state registration or qualification of the Shares that may be issued under this Agreement. The Company may, in its sole discretion, delay the delivery of Shares or place restrictive legends on Shares in order to ensure that the issuance of any Shares will be in compliance with federal or state securities laws and the rules of any exchange upon which the Company's Shares are traded. If the Company delays the delivery of Shares in order to ensure compliance with any state or federal securities or other laws, the Company shall deliver the Shares at the earliest date at which the Company reasonably believes that such delivery will not cause such violation, or at such later date that may be permitted under Code Section 409A.

Section 7. Restriction on Transferability. Except as otherwise provided under the Plan, until the Restricted Stock Units have vested under this Agreement, the Restricted Stock Units granted herein and the rights and privileges conferred hereby may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated (by operation of law or otherwise), other than by will or the laws of descent and distribution. Any attempted transfer in violation of the provisions of this paragraph shall be void, and the purported transferee shall obtain no rights with respect to such Restricted Stock Units.

Section 8. Grantee's Rights Unsecured. The right of the Grantee or his or her beneficiary to receive a distribution hereunder shall be an unsecured claim against the general assets of the Company, and neither the Grantee nor his or her beneficiary shall have any rights in or against any amounts credited to the Grantee's RSU Account or any other specific assets of the Company. All amounts credited to the Grantee's RSU Account shall constitute general assets of the Company and may be disposed of by the Company at such time and for such purposes, as it may deem appropriate.

Section 9. No Rights as Stockholder or Employee.

- (a) Unless and until Shares have been issued to the Grantee, the Grantee shall not have any privileges of a stockholder of the Company with respect to any Restricted Stock Units subject to this Agreement, nor shall the Company have any obligation to issue any dividends or otherwise afford any rights to which Shares are entitled with respect to any such Restricted Stock Units.
- (b) Nothing in this Agreement or the Award shall confer upon the Grantee any right to continue as an Employee of the Company or any Affiliate or to interfere in any way with the right of the Company or any Affiliate to terminate the Grantee's Service at any time.

Section 10. Adjustments. If at any time while the Award is outstanding, the number of outstanding Restricted Stock Units is changed by reason of a reorganization, recapitalization, stock split or any of the other events described in the Plan, the number and kind of Restricted Stock Units shall be adjusted in accordance with the provisions of the Plan. In the event of certain corporate events specified in Article XVI of the Plan, the Committee shall take action in accordance with the procedures and provisions of Article XVI of the Plan; provided that the Grantee shall receive value for each Share subject to this Agreement equal to the value received by each stockholder of the Company as a result of the Change in Control.

Section 11. Notices. Any notice hereunder by the Grantee shall be given to the Company in writing and such notice shall be deemed duly given only upon receipt thereof at the following address: Corporate Secretary, NiSource Inc., 801 East 86th Avenue, Merrillville, IN 46410-6271, or at such other address as the Company may designate by notice to the Grantee. Any notice hereunder by the Company shall be given to the Grantee in writing and such notice shall be deemed duly given only upon receipt thereof at such address as the Grantee may have on file with the Company.

Section 12. Administration. The administration of this Agreement, including the interpretation and amendment or termination of this Agreement, will be performed in accordance with the Plan. All determinations and decisions made by the Committee, the Board, or any delegate of the Committee as to the provisions of this Agreement shall be conclusive, final, and

binding on all persons. This Agreement at all times shall be governed by the Plan and in no way alter or modify the Plan. To the extent a conflict exists between this Agreement and the Plan, the provisions of the Plan shall govern. Notwithstanding the foregoing, if subsequent guidance is issued under Code Section 409A that would impose additional taxes, penalties, or interest to either the Company or the grantee, the Company may administer this Agreement in accordance with such guidance and amend this Agreement without the Consent of the Grantee to the extent such actions, in the reasonable judgment of the Company, are considered necessary to avoid the imposition of such additional taxes, penalties, or interest.

Section 13. Governing Law. This Agreement shall be construed and enforced in accordance with the laws of the State of Indiana, without giving effect to the choice of law principles thereof.

Section 14. Government Regulations. Notwithstanding anything contained herein to the contrary, the Company's obligation to issue or deliver certificates evidencing the Restricted Stock Units shall be subject to all applicable laws, rules and regulations, and to such approvals by any governmental agencies or national securities exchanges as may be required.

Section 15. Entire Agreement; Code Section 409A Compliance. This Agreement and the Plan contain the terms and conditions with respect to the subject matter hereof and supersede any previous agreements, written or oral, relating to the subject matter hereof, including the 2013 Performance Share Agreement. This Agreement is pursuant to the terms of the Company's 2010 Omnibus Incentive Plan (the "Plan"). The Grantee acknowledges that the Restricted Stock Units awarded under this Agreement satisfies any obligation of the Company to provide any additional Restricted Stock Units or other Awards under the Plan and the 2013 Performance Share Agreement as a result of the previously described spin-off of CPG. The applicable terms of the Plan are incorporated herein by reference, including the definition of capitalized terms contained in the Plan, and including the Code Section 409A provisions of Section XIX of the Plan. This Agreement shall be interpreted in accordance with Code Section 409A. This Agreement shall be deemed to be modified to the maximum extent necessary to be in compliance with Code Section 409A's rules. If the Grantee is unexpectedly required to include in the Grantee's current year's income any amount of compensation relating to the Restricted Stock Units because of a failure to meet the requirements of Code Section 409A, then to the extent permitted by Code Section 409A, the Grantee may receive a distribution of cash or Shares in an amount not to exceed the amount required to be included in income as a result of the failure to comply with Code Section 409A.

Section 16. Successors. All obligations of the Company under this Agreement shall be binding on any successor to the Company.

IN WITNESS WHEREOF , the Company has caused this Award to be granted, and the Grantee has accepted this Award, as of the date first above written.

NiSource Inc.
2010 Omnibus Incentive Plan
Restricted Stock Unit Agreement
Amending and Restating the
2014 Performance Share Agreement

This Restricted Stock Unit Agreement (the "Agreement") amends and restates the performance share agreement entered into between NiSource Inc., a Delaware corporation (the "Company"), and [Name of Employee], an Employee of the Company (the "Grantee"), on [date of grant of original performance share Award, 2014] (the "2014 Performance Share Agreement").

Section 1. Amendment and Restatement of Performance Share Award into a Restricted Stock Unit Award . The Company and the Grantee previously entered into the 2014 Performance Share Agreement on [date of grant of original performance share Award, 2014] (the "Date of Grant"). On July 1, 2015, the Company implemented the spin-off of its pipeline and transmission business, comprised of Columbia Pipeline Group, Inc., a Delaware corporation ("CPG") and its affiliates, which made CPG and its affiliates independent and no longer part of the controlled group of corporations of the Company. Based on

- (i) the performance of the Company and satisfaction of the applicable performance metrics under the 2014 Performance Share Agreement from the date of grant of the 2014 Performance Share Agreement until the date immediately before the spin-off of CPG, and
- (ii) the Company's determination to preserve the value of the performance share units granted under the 2014 Performance Share Agreement and in accordance with the adjustment provisions of the NiSource Inc. 2010 Omnibus Incentive Plan and the 2014 Performance Share Agreement,

the Company hereby amends and restates the 2014 Performance Share Agreement with the Grantee and grants to the Grantee in its entirety, on the terms and conditions hereinafter set forth, to provide a new total Award of _____ Restricted Stock Units. The Restricted Stock Units will be represented by a bookkeeping entry (the "RSU Account") of the Company, and each Restricted Stock Unit shall be equivalent to one share of the Company's common stock.

Section 2. Grantee Accounts . The number of Restricted Stock Units granted pursuant to this Agreement shall be credited to the Grantee's RSU Account. Each RSU Account shall be maintained on the books of the Company until full payment of the balance thereof has been made to the Grantee (or the Grantee's beneficiaries or estate if the Grantee is deceased) in accordance with Section 1 above. No funds shall be set aside or earmarked for any RSU Account, which shall be purely a bookkeeping device.

Section 3. Vesting and Lapse of Restrictions .

- (a) Vesting . Subject to the forfeiture conditions described later in this Agreement, the Restricted Stock Units shall vest on February 28, 2017 (the "Vesting Date").
- (b) Effect of Termination of Service . Except as set forth below, if Grantee's Service is terminated for any reason prior to the Vesting Date or the occurrence of any event provided in this Section, the Grantee shall forfeit any Restricted Stock Units that have not yet become vested.
 - (i) Termination Due to Retirement, Death, or Disability . If, before the Vesting Date, the Grantee terminates Service due to the Grantee's Retirement, death, or Disability, the restrictions set forth in part (a) above shall lapse with respect to a *pro rata* portion of such Restricted Stock Units on the date of such termination of Service. Such *pro rata* lapse of the restrictions shall be determined using a fraction, where the numerator shall be the number of full or partial calendar months elapsed between the Date of Grant and the date the Grantee terminates Service, and the denominator shall be the number of full or partial calendar months between the Date of Grant and the Vesting Date that immediately follows the Grantee's termination date. For purposes of this Agreement, "Retirement" means the Grantee's attainment of age 55 and 10 years of Service.

(ii) Termination After a Change in Control. If, before the Vesting Date and within 24 months after a Change in Control of the Company occurs, the Grantee's Service is terminated by the Company other than for Cause, or Grantee terminates Service for Good Reason, all the Restricted Stock Units shall become fully and immediately vested, and all restrictions shall lapse, upon the date of such Termination of Service.

(iii) Termination in Anticipation of a Change in Control. If, before the Vesting Date, (1) a Change in Control has occurred, (2) the Company has terminated the Grantee's Service without Cause during the year before the Change in Control was consummated but after a third party and/or the Company had taken steps reasonably calculated to effect a Change in Control, and (3) it is reasonably demonstrated by the Grantee that such termination of Service was in connection with or in anticipation of a Change in Control, all the Restricted Stock Units shall become fully and immediately vested, and all restrictions shall lapse, on the fifth business day before the date of consummation of a Change in Control of the Company.

(iv) Cause and Good Reason. For purposes of this Agreement, "Cause" shall be deemed to exist if, and only if, the Company notifies the Grantee, in writing, within 60 days of its knowledge that one of the following events have occurred: (1) the Grantee engages in acts or omissions constituting dishonesty, intentional breach of fiduciary obligation or intentional wrongdoing or malfeasance, in each case that results in substantial harm to the Company; or (2) the Grantee is convicted of a criminal violation involving fraud or dishonesty. For purposes of this Agreement, "Good Reason" shall be deemed to exist if, and only if, the Company has failed to cure any of the following conditions within 30 days after receipt of advanced written notice of such conditions by the Grantee: (1) a significant diminution in the nature or the scope of the Grantee's authorities or duties; (2) there is a significant reduction in the Grantee's monthly rate of base salary and opportunity to earn a bonus under an incentive bonus compensation plan maintained by the Company; (3) the Company changes by 50 miles or more the principal location at which the Grantee is required to perform services as of the date of a Change in Control; or (4) the Company or any successor materially breaches this Agreement.

(c) Limitation on Restricted Stock Units. Notwithstanding the previous provisions of this Section, during any calendar year with respect to which the Grantee is a Covered Officer (for purpose of Internal Revenue Code ("Code") Section 162(m)), if the Grantee otherwise would vest in a number of Restricted Stock Units under this Section, the Grantee instead may vest only with respect to a sufficient number of Restricted Stock Units whose aggregate Fair Market Value on the date such restrictions would, when added to the Grantee's "applicable employee remuneration" (as defined in Code Section 162(m)) for the applicable calendar year that does not constitute "qualified performance-based compensation" (as defined in Code Section 162(m)), not exceed the aggregate amount of \$999,999.00 for the applicable calendar year (the "Limitation").

To the extent the restrictions on any Restricted Stock Units do not lapse due to the application of this Section, the restrictions on such Restricted Stock Units shall lapse on the first to occur of:

- (i) the last business day of any subsequent calendar year or years to the extent that the Limitation is not exceeded for such year or years;
- (ii) the date next following the Grantee's termination of Service for any reason other than for Cause, or
- (iii) the first business day of the year next following the year with respect to which the Grantee ceases to be a Covered Officer.

The Company will make all determinations as to whether the lapse of restrictions on any Restricted Stock Units is delayed in accordance with this Section. Such determinations will be made on a uniform and non-discriminatory basis consistent with the requirements under Code Section 409A.

Section 4. Delivery of Shares. Once Restricted Stock Units have vested under this Agreement, the Company will determine the number of Shares represented by the Restricted Stock Units in the Grantee's RSU Account and deliver the total number of Shares due to the Grantee as soon as administratively possible after such date. Notwithstanding any provision to the contrary, if, in the reasonable determination of the Company, a Grantee is a "specified employee" for purposes of Code Section 409A, then, if necessary to avoid the imposition of additional taxes or interest under Code Section 409A, the Company shall not

deliver the Shares otherwise payable upon the Grantee's termination and separation of Service until the date that is at least 6 months following the Grantee's termination and separation of Service. The delivery of the Shares shall be subject to payment of the applicable withholding tax liability and the forfeiture provisions of this Agreement. If the Grantee dies before the Company has distributed any portion of the vested Restricted Stock Units, the Company will transfer any Shares payable with respect to the vested Restricted Stock Units in accordance with the Grantee's written beneficiary designation or to the Grantee's estate if no written beneficiary designation is provided.

Section 5. Withholding of Taxes. The Company shall have the power and the right to deduct or withhold, or require the Grantee to remit to the Company, an amount sufficient to satisfy federal, state, and local taxes, domestic or foreign, required by law or regulation to be withheld with respect to any taxable event arising as a result of this Agreement.

Section 6. Securities Law Compliance. The delivery of all or any Shares that relate to the Restricted Stock Units shall only be effective at such time that the issuance of such Shares will not violate any state or federal securities or other laws. The Company is under no obligation to effect any registration of Shares under the Securities Act of 1933 or to effect any state registration or qualification of the Shares that may be issued under this Agreement. The Company may, in its sole discretion, delay the delivery of Shares or place restrictive legends on Shares in order to ensure that the issuance of any Shares will be in compliance with federal or state securities laws and the rules of any exchange upon which the Company's Shares are traded. If the Company delays the delivery of Shares in order to ensure compliance with any state or federal securities or other laws, the Company shall deliver the Shares at the earliest date at which the Company reasonably believes that such delivery will not cause such violation, or at such later date that may be permitted under Code Section 409A.

Section 7. Restriction on Transferability. Except as otherwise provided under the Plan, until the Restricted Stock Units have vested under this Agreement, the Restricted Stock Units granted herein and the rights and privileges conferred hereby may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated (by operation of law or otherwise), other than by will or the laws of descent and distribution. Any attempted transfer in violation of the provisions of this paragraph shall be void, and the purported transferee shall obtain no rights with respect to such Restricted Stock Units.

Section 8. Grantee's Rights Unsecured. The right of the Grantee or his or her beneficiary to receive a distribution hereunder shall be an unsecured claim against the general assets of the Company, and neither the Grantee nor his or her beneficiary shall have any rights in or against any amounts credited to the Grantee's RSU Account or any other specific assets of the Company. All amounts credited to the Grantee's RSU Account shall constitute general assets of the Company and may be disposed of by the Company at such time and for such purposes, as it may deem appropriate.

Section 9. No Rights as Stockholder or Employee.

- (a) Unless and until Shares have been issued to the Grantee, the Grantee shall not have any privileges of a stockholder of the Company with respect to any Restricted Stock Units subject to this Agreement, nor shall the Company have any obligation to issue any dividends or otherwise afford any rights to which Shares are entitled with respect to any such Restricted Stock Units.
- (b) Nothing in this Agreement or the Award shall confer upon the Grantee any right to continue as an Employee of the Company or any Affiliate or to interfere in any way with the right of the Company or any Affiliate to terminate the Grantee's Service at any time.

Section 10. Adjustments. If at any time while the Award is outstanding, the number of outstanding Restricted Stock Units is changed by reason of a reorganization, recapitalization, stock split or any of the other events described in the Plan, the number and kind of Restricted Stock Units shall be adjusted in accordance with the provisions of the Plan. In the event of certain corporate events specified in Article XVI of the Plan, the Committee shall take action in accordance with the procedures and provisions of Article XVI of the Plan; provided that the Grantee shall receive value for each Share subject to this Agreement equal to the value received by each stockholder of the Company as a result of the Change in Control.

Section 11. Notices. Any notice hereunder by the Grantee shall be given to the Company in writing and such notice shall be deemed duly given only upon receipt thereof at the following address: Corporate Secretary, NiSource Inc., 801 East 86th Avenue, Merrillville, IN 46410-6271, or at such other address as the Company may designate by notice to the Grantee. Any notice hereunder by the Company shall be given to the Grantee in writing and such notice shall be deemed duly given only upon receipt thereof at such address as the Grantee may have on file with the Company.

Section 12. Administration. The administration of this Agreement, including the interpretation and amendment or termination of this Agreement, will be performed in accordance with the Plan. All determinations and decisions made by the

Committee, the Board, or any delegate of the Committee as to the provisions of this Agreement shall be conclusive, final, and binding on all persons. This Agreement at all times shall be governed by the Plan and in no way alter or modify the Plan. To the extent a conflict exists between this Agreement and the Plan, the provisions of the Plan shall govern. Notwithstanding the foregoing, if subsequent guidance is issued under Code Section 409A that would impose additional taxes, penalties, or interest to either the Company or the grantee, the Company may administer this Agreement in accordance with such guidance and amend this Agreement without the Consent of the Grantee to the extent such actions, in the reasonable judgment of the Company, are considered necessary to avoid the imposition of such additional taxes, penalties, or interest.

Section 13. Governing Law. This Agreement shall be construed and enforced in accordance with the laws of the State of Indiana, without giving effect to the choice of law principles thereof.

Section 14. Government Regulations. Notwithstanding anything contained herein to the contrary, the Company's obligation to issue or deliver certificates evidencing the Restricted Stock Units shall be subject to all applicable laws, rules and regulations, and to such approvals by any governmental agencies or national securities exchanges as may be required.

Section 15. Entire Agreement; Code Section 409A Compliance. This Agreement and the Plan contain the terms and conditions with respect to the subject matter hereof and supersede any previous agreements, written or oral, relating to the subject matter hereof, including the 2014 Performance Share Agreement. This Agreement is pursuant to the terms of the Company's 2010 Omnibus Incentive Plan (the "Plan"). The Grantee acknowledges that the Restricted Stock Units awarded under this Agreement satisfies any obligation of the Company to provide any additional Restricted Stock Units or other Awards under the Plan and the 2014 Performance Share Agreement as a result of the previously described spin-off of CPG. The applicable terms of the Plan are incorporated herein by reference, including the definition of capitalized terms contained in the Plan, and including the Code Section 409A provisions of Section XIX of the Plan. This Agreement shall be interpreted in accordance with Code Section 409A. This Agreement shall be deemed to be modified to the maximum extent necessary to be in compliance with Code Section 409A's rules. If the Grantee is unexpectedly required to include in the Grantee's current year's income any amount of compensation relating to the Restricted Stock Units because of a failure to meet the requirements of Code Section 409A, then to the extent permitted by Code Section 409A, the Grantee may receive a distribution of cash or Shares in an amount not to exceed the amount required to be included in income as a result of the failure to comply with Code Section 409A.

Section 16. Successors. All obligations of the Company under this Agreement shall be binding on any successor to the Company.

IN WITNESS WHEREOF , the Company has caused this Award to be granted, and the Grantee has accepted this Award, as of the date first above written.

**NiSource Inc.
2010 Omnibus Incentive Plan**

**Restricted Stock Unit Award Agreement Amendment
Relating to Vested but Unpaid NiSource Restricted Stock Units
for Nonemployee Directors of NiSource Inc.**

This Restricted Stock Unit Award Agreement Amendment (the “Agreement”) is made and entered into as of July 13, 2015, by and between NiSource Inc., a Delaware corporation (the “Company”), and _____, a Nonemployee Director of the Company (the “Grantee”).

Background

A. The Company previously granted to the Grantee Awards of Restricted Stock Units (“RSUs”) in accordance with the terms and conditions of restricted stock unit agreements under the NiSource Nonemployee Director Stock Incentive Plan and the NiSource Inc. 2010 Omnibus Incentive Plan (the “Prior NiSource RSU Agreements”).

B. Under the Prior NiSource RSU Agreements, many of the RSUs are fully vested but will not become payable until a future date (the “Vested NiSource RSUs”).

C. On July 1, 2015, NiSource implemented the spin-off of its pipeline and transmission business, comprised of Columbia Pipeline Group, Inc. (“CPG”) and its affiliates, which made CPG and its affiliates independent and no longer part of the controlled group of corporations of the Company.

D. In connection with the spin-off of CPG and its affiliates, the Company desires to amend the Prior NiSource RSU Agreements to provide the Grantee with a one-time opportunity to elect to invest all or a portion of the Vested NiSource RSUs in alternative investment options and to have such amounts settled in cash at the same time as the Vested NiSource RSUs are settled under the Prior NiSource RSU Agreements.

Agreement

The Company and the Grantee hereby agree to amend each of the Prior NiSource RSU Agreements in the manner described below.

1. The following is added at the end of each of the Prior NiSource RSU Agreements:

Director Investment Election Arrangement. The Grantee may make a one-time election to change the underlying investment of the Grantee’s RSU Account under each Prior NiSource RSU Agreement by executing the Director Investment Election Arrangement form on or after July 13, 2015 and before September 17, 2015. If the Grantee does not complete the Election Form by such date, the Director Investment Election Arrangement as described in this Section will not apply to any Vested NiSource RSUs.

If the Grantee participates in the Director Investment Election Arrangement, the Grantee may elect to invest all or a portion of the Vested NiSource RSUs among the investment options provided to the Grantee and as determined by the Company from time to time in its sole and absolute discretion. The Company may, in its sole discretion, discontinue, substitute, or add investment options after the Grantee makes a one-time election to participate in the Director Investment Election Arrangement. Notwithstanding the foregoing, the investment options under the Director Investment Election Arrangement are to be used for measurement purposes only, and the Grantee’s election of any such investment option, the allocation of any of the Grantee’s Vested NiSource RSUs thereto, the calculation of additional amounts and the crediting or debiting of such amounts to each of the Grantee’s RSU Account under the Prior NiSource RSU Agreements shall not be considered in any manner as an actual investment in any such investment option. The Grantee’s RSU Account under each Prior NiSource RSU Agreement shall continue to be a bookkeeping entry only, and the Grantee shall not have any rights in or to such investments themselves. In addition, if the Grantee elects to participate in the Director Investment

Election Arrangement, each of the Grantee's RSU Accounts shall be distributed in cash at the time of settlement, as provided under the Prior NiSource RSU Agreements.

2. In all other respects, each of the Prior NiSource RSU Agreements shall remain unchanged.

IN WITNESS WHEREOF, the Company has caused this Award to be granted, and the Grantee has accepted this Award, as of the date first above written.

Columbia Pipeline Group, Inc.
2015 Omnibus Incentive Plan

Restricted Stock Unit Award Agreement
Relating to Vested but Unpaid NiSource Restricted Stock Units
for Nonemployee Directors of Columbia Pipeline Group, Inc.

This Restricted Stock Unit Award Agreement (the "Agreement"), is made and entered into as of July 13, 2015, by and between Columbia Pipeline Group, Inc., a Delaware corporation (the "Company"), and _____, a Nonemployee Director of the Company (the "Grantee").

Section 1. Restricted Stock Unit Award. NiSource Inc. ("NiSource") previously granted to the Grantee Awards of Restricted Stock Units ("RSUs") in accordance with the terms and conditions of restricted stock unit agreements under the NiSource Nonemployee Director Stock Incentive Plan and the NiSource Inc. 2010 Omnibus Incentive Plan (the "Prior NiSource RSU Agreements"). Under the Prior NiSource RSU Agreements, many of the RSUs are fully vested but will not become payable until a future date (the "Vested NiSource RSUs"). On July 1, 2015, NiSource implemented the spin-off of its pipeline and transmission business, comprised of the Company and its affiliates, which made the Company and its affiliates independent and no longer part of the controlled group of corporations of NiSource. To preserve the value of the Vested NiSource RSUs, the Company hereby grants to the Grantee, on the terms and conditions hereinafter set forth, an Award of _____ Restricted Stock Units. The Restricted Stock Units will be represented by a bookkeeping entry (the "RSU Account") of the Company, and each Restricted Stock Unit shall be equivalent to one share of the Company's common stock.

Section 2. Grantee Accounts. The number of whole and fractional RSUs granted pursuant to this Agreement shall be credited to the Grantee's RSU Account. The Grantee shall be credited with additional RSUs pursuant to Article XIV of the Plan to reflect dividend equivalents with respect to the period of time between the Date of Grant and the receipt of payment under the Plan. Such dividend equivalent credits will be equal to the dividends or other distributions declared on any Shares underlying the RSUs. Dividend equivalents will be aggregated and credited to the Grantee's RSU Account in the form of additional RSUs based on the Fair Market Value on the dividend payment date. Each RSU Account shall be maintained on the books of the Company until full payment of the balance thereof has been made to the Grantee (or the Grantee's beneficiaries or estate if the Grantee is deceased) in accordance with Sections 4 and 5 herein. No funds shall be set aside or earmarked for any RSU Account, which shall be purely a bookkeeping device.

Section 3. Vesting and Lapse of Restrictions. The RSUs awarded under this Agreement shall be fully and immediately vested as of July 13, 2015.

Section 4. Payment of RSUs. The Company shall distribute the RSUs to the Grantee under each Award as soon as practicable (but in no event later than 60 days) after the date of the Grantee's termination of Service or such other specified date elected by the Grantee under an applicable Prior NiSource RSU Agreement. The Grantee shall be entitled to receive from the Company a number of Shares with an aggregate Fair Market Value on the date of payment equal to the aggregate Fair Market Value of such vested Restricted Stock Units, including the Restricted Stock Units credited to the Participant's RSU Account as dividend equivalents. Payment to the Grantee shall be made in the form of Columbia Pipeline Group, Inc. common stock for all whole and fractional RSUs.

Section 5. Delivery of Shares. If the Grantee dies before the Company has distributed any portion of the vested Restricted Stock Units, the Company will transfer any Shares payable with respect to the vested Restricted Stock Units in accordance with the Grantee's written beneficiary designation or to the Grantee's estate if no written beneficiary designation is provided.

Section 6. Director Investment Election Arrangement. Notwithstanding anything in this Agreement to the contrary, the Grantee may make a one-time election to change the underlying investment of the Grantee's RSU Account by executing the Director Investment Election Arrangement form on or after July 13, 2015 and before September 17, 2015. If the Grantee does not complete the Election Form by such date, the Director Investment Election Arrangement as described in this Section will not apply to any RSUs.

If the Grantee participates in the Director Investment Election Arrangement, the Grantee may elect to invest the amount credited to the Grantee's RSU Account among the investment options provided to the Grantee and as determined by the Company from time to time in its sole and absolute discretion. The Company may, in its sole discretion, discontinue, substitute, or add investment options after the Grantee makes a one-time election to participate in the Director Investment Election Arrangement. Notwithstanding the foregoing, the investment options under the Director Investment Election Arrangement are to be used for measurement purposes only, and the Grantee's election of any such investment option, the allocation of the Grantee's RSU Account thereto, the calculation of additional amounts and the crediting or debiting of such amounts to the Grantee's RSU Account shall not be considered in any manner as an actual investment of the Grantee's RSU Account in any such investment option. The Grantee's RSU Account shall continue to be a bookkeeping entry only, and the Grantee shall not have any rights in or to such investments themselves. In addition, if the Grantee elects to participate in the Director Investment Election Arrangement, the Grantee's RSU Account shall be distributed in cash at the time of settlement.

Section 7. Securities Law Compliance. The delivery of all or any Shares that relate to the Restricted Stock Units shall only be effective at such time that the issuance of such Shares will not violate any state or federal securities or other laws. The Company is under no obligation to effect any registration of Shares under the Securities Act of 1933 or to effect any state registration or qualification of the Shares that may be issued under this Agreement. The Company may, in its sole discretion, delay the delivery of Shares or place restrictive legends on Shares in order to ensure that the issuance of any Shares will be in compliance with federal or state securities laws and the rules of any exchange upon which the Company's Shares are traded. If the Company delays the delivery of Shares in order to ensure compliance with any state or federal securities or other laws, the Company shall deliver the Shares at the earliest date at which the Company reasonably believes that such delivery will not cause such violation, or at such later date that may be permitted under Code Section 409A.

Section 8. Restriction on Transferability. Except as otherwise provided in the Plan, the Restricted Stock Units granted herein and the rights and privileges conferred hereby may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated (by operation of law or otherwise), other than by will or the laws of descent and distribution. Any attempted transfer in violation of the provisions of this paragraph shall be void, and the purported transferee shall obtain no rights with respect to such Restricted Stock Units.

Section 9. Grantee's Rights Unsecured. The right of the Grantee or his or her beneficiary to receive a distribution hereunder shall be an unsecured claim against the general assets of the Company, and neither the Grantee nor his or her beneficiary shall have any rights in or against any amounts credited to the Grantee's RSU Account or any other specific assets of the Company. All amounts credited to the Grantee's RSU Account shall constitute general assets of the Company and may be disposed of by the Company at such time and for such purposes, as it may deem appropriate.

Section 10. No Rights as Stockholder or Nonemployee Director.

- (a) Unless and until Shares have been issued to the Grantee, the Grantee shall not have any privileges of a stockholder of the Company with respect to any Restricted Stock Units subject to this Agreement; provided, however, that the Grantee shall be entitled to receive dividend equivalent credits equal to the dividends or other distributions declared on any Shares underlying the RSUs in accordance with Section 2.
- (b) Nothing in this Agreement or the Award shall confer upon the Grantee any right to continue as a Nonemployee Director of the Company or any Affiliate or to interfere in any way with the right of the Company or any Affiliate to terminate the Grantee's service at any time.

Section 11. Adjustments. If at any time while the Award is outstanding, the number of outstanding Restricted Stock Units is changed by reason of a reorganization, recapitalization, stock split or any of the other events described in the Plan, the number and kind of Restricted Stock Units shall be adjusted in accordance with the provisions of the Plan. In the event of certain corporate events specified in Article XVI of the Plan, any unvested or undistributed Restricted Stock Units may be replaced by substituted Awards or forfeited in exchange for payment of cash in accordance with the procedures and provisions of Article XVI of the Plan.

Section 12. Notices. Any notice hereunder by the Grantee shall be given to the Company in writing and such notice shall be deemed duly given only upon receipt thereof at the following address: Corporate Secretary, Columbia Pipeline Group, Inc., 5151 San Felipe Street, Suite 2500, Houston, TX 77056, or at such other address as the Company may designate by notice to the Grantee. Any notice hereunder by the Company shall be given to the Grantee in writing and such notice shall be deemed duly given only upon receipt thereof at such address as the Grantee may have on file with the Company.

Section 13. Administration. The administration of this Agreement, including the interpretation and amendment or termination of this Agreement, will be performed in accordance with the Plan. All determinations and decisions made by the Committee, the Board, or any delegate of the Committee as to the provisions of this Agreement shall be conclusive, final, and binding on all persons. This Agreement at all times shall be governed by the Plan and in no way alter or modify the Plan. To the extent a conflict exists between this Agreement and the Plan, the provisions of the Plan shall govern. Notwithstanding the foregoing, if subsequent guidance is issued under Code Section 409A that would impose additional taxes, penalties, or interest to either the Company may administer this Agreement in accordance with such guidance and amend this Agreement without the Consent of the Grantee to the extent such actions, in the reasonable judgment of the Company, are considered necessary to avoid the imposition of such additional taxes, penalties, or interest.

Section 14. Governing Law. This Agreement shall be construed and enforced in accordance with the laws of the State of Texas, without giving effect to the choice of law principles thereof.

Section 15. Government Regulations. Notwithstanding anything contained herein to the contrary, the Company's obligation to issue or deliver certificates evidencing the Restricted Stock Units shall be subject to all applicable laws, rules and regulations, and to such approvals by any governmental agencies or national securities exchanges as may be required.

Section 16. Entire Agreement; Code Section 409A Compliance. This Agreement and the Plan contain the terms and conditions with respect to the subject matter hereof and supersede any previous agreements, written or oral, relating to the subject matter hereof, except that the Prior NiSource RSU Agreements that were previously granted by NiSource to the Grantee with respect to only the vested NiSource RSUs shall continue to remain in full force and effect. This Agreement is pursuant to the terms of the Company's 2015 Omnibus Incentive Plan (the "Plan") and in the event of conflicts between this Agreement and the Plan, the Plan shall govern. The Grantee acknowledges that the Restricted Stock Units awarded under this Agreement satisfies any obligation of the Company or NiSource to provide any additional Restricted Stock Units under the Plan and the Prior NiSource Director Plan RSU Agreement as a result of the previously described spin-off of the Company. The applicable terms of the Plan are incorporated herein by reference, including the definition of capitalized terms contained in the Plan, and including the Code Section 409A provisions of Section XIX of the Plan. This Agreement shall be interpreted in accordance with Code Section 409A. This Agreement shall be deemed to be modified to the maximum extent necessary to be in compliance with Code Section 409A's rules.

If the Grantee is unexpectedly required to include in the Grantee's current year's income any amount of compensation relating to the Restricted Stock Units because of a failure to meet the requirements of Code Section 409A, then to the extent permitted by Code Section 409A, the Grantee may receive a distribution of cash or Shares in an amount not to exceed the amount required to be included in income as a result of the failure to comply with Code Section 409A.

IN WITNESS WHEREOF, the Company has caused this Award to be granted, and the Grantee has accepted this Award, as of the date first above written.

DEFINED TERMS

The following is a list of frequently used abbreviations or acronyms that are found in this report:

NiSource Subsidiaries, Affiliates and Former Subsidiaries

CGORC	Columbia Gas of Ohio Receivables Corporation
Columbia of Kentucky	Columbia Gas of Kentucky, Inc.
Columbia of Maryland	Columbia Gas of Maryland, Inc.
Columbia of Massachusetts	Bay State Gas Company
Columbia of Ohio	Columbia Gas of Ohio, Inc.
Columbia of Pennsylvania	Columbia Gas of Pennsylvania, Inc.
Columbia of Virginia	Columbia Gas of Virginia, Inc.
CPG	Columbia Pipeline Group, Inc.
CPPL	Columbia Pipeline Partners LP
CPRC	Columbia Gas of Pennsylvania Receivables Corporation
NARC	NIPSCO Accounts Receivable Corporation
NIPSCO	Northern Indiana Public Service Company
NiSource	NiSource Inc.
NiSource Finance	NiSource Finance Corp.

Abbreviations and Other

AFUDC	Allowance for funds used during construction
AOI	Accumulated Other Comprehensive Income (Loss)
ASU	Accounting Standards Update
BNS	Bank of Nova Scotia
BTMU	The Bank of Tokyo-Mitsubishi UFJ, LTD.
CAA	Clean Air Act
CCRs	Coal Combustion Residuals
CERCLA	Comprehensive Environmental Response Compensation and Liability Act (also known as Superfund)
CO ₂	Carbon Dioxide
CPP	Clean Power Plan
DPU	Department of Public Utilities
DSM	Demand Side Management
ECR	Environmental Cost Recovery
ECRM	Environmental Cost Recovery Mechanism
ECT	Environmental Cost Tracker
EERM	Environmental Expense Recovery Mechanism
EGUs	Electric Utility Generating Units
ELG	Effluent limitations guidelines
EPA	United States Environmental Protection Agency
EPS	Earnings per share
FAC	Fuel adjustment clause
FASB	Financial Accounting Standards Board
FERC	Federal Energy Regulatory Commission
GAAP	Generally Accepted Accounting Principles
GCR	Gas cost recovery
GHG	Greenhouse gases

DEFINED TERMS (continued)

GSEP	Gas System Enhancement Program
gwh	Gigawatt hours
IDEM	Indiana Department of Environmental Management
IRP	Infrastructure Replacement Program
IURC	Indiana Utility Regulatory Commission
kV	Kilovolt
LDAF	Local Distribution Adjustment Factor
LDCs	Local distribution companies
LIFO	Last-in, first-out
MATS	Mercury and Air Toxics Standards
MGP	Manufactured Gas Plant
MISO	Midcontinent Independent System Operator
Mizuho	Mizuho Corporate Bank Ltd.
MMDth	Million dekatherms
MPSC	Maryland Public Service Commission
NAAQS	National Ambient Air Quality Standards
NOL	Net operating loss
NO _x	Nitric oxide and nitrogen dioxide
NSR	New Source Review
NYMEX	New York Mercantile Exchange
OPEB	Other Postretirement Benefits
OUC	Indiana Office of Utility Consumer Counselor
PNC	PNC Bank, N.A.
Pure Air Separation	Pure Air on the Lake LP The separation of NiSource's natural gas pipeline, midstream and storage business from NiSource's natural gas and electric utility business accomplished through the pro rata distribution by NiSource to holders of its outstanding common stock of all the outstanding shares of common stock of CPG. The Separation was completed on July 1, 2015.
ppb	Parts per billion
PUC	Public Utility Commission
PUCO	Public Utilities Commission of Ohio
RDAF	Revenue Decoupling Adjustment Factor
SEC	Securities and Exchange Commission
TDSIC	Transmission, Distribution and Storage System Improvement Charge
TSA	Transition Services Agreement
TUAs	Transmission Upgrade Agreements
VIE	Variable Interest Entities
VSCC	Virginia State Corporation Commission

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

1. Basis of Accounting Presentation

The accompanying Condensed Consolidated Financial Statements (unaudited) for NiSource Inc. ("NiSource" or the "Company") reflect all normal recurring adjustments that are necessary, in the opinion of management, to present fairly the results of operations in accordance with GAAP in the United States of America. The accompanying financial statements contain the accounts of the Company and its majority-owned or controlled subsidiaries. The results of operations of the former Columbia Pipeline Group Operations segment have been classified as discontinued operations for all periods presented. See Note 5, "Discontinued Operations," for further information.

Unless otherwise indicated, the information in the Notes to the Condensed Consolidated Financial Statements (unaudited) relates to NiSource's continuing operations.

The accompanying financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2015. Income for interim periods may not be indicative of results for the calendar year due to weather variations and other factors.

The Condensed Consolidated Financial Statements (unaudited) have been prepared pursuant to the rules and regulations of the SEC. Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although NiSource believes that the disclosures made in this quarterly report on Form 10-Q are adequate to make the information herein not misleading.

2. Recent Accounting Pronouncements

In March 2016, the FASB issued ASU 2016-09, *Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. Among other provisions, the standard requires that all income tax effects of awards are recognized in the income statement when the awards vest or are settled and also allows an employer to make a policy election to account for forfeitures as they occur. NiSource is required to adopt ASU 2016-09 for periods beginning after December 15, 2016, including interim periods, with early adoption permitted if all of the amendments are adopted in the same period. Each amendment has varying transition requirements. NiSource is currently evaluating the impact the adoption of ASU 2016-09 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations*. ASU 2016-08 clarifies the principal versus agent guidance in ASU 2014-09, the new revenue recognition standard. The amendment clarifies how an entity should identify the unit of accounting for the principal versus agent evaluation and how it should apply the control principle to certain types of arrangements. The amendment also re-frames the indicators to focus on evidence that an entity is acting as a principal rather than an agent. ASU 2016-08 has the same effective date and transition requirements as ASU 2015-14. NiSource is currently evaluating the impact the adoption of ASU 2016-08 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. ASU 2016-02 introduces a lessee model that brings most leases on the balance sheet. The standard requires that lessees recognize the following for all leases (with the exception of short-term leases, as that term is defined in the standard) at the lease commencement date: (1) a lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and (2) a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. NiSource is required to adopt ASU 2016-02 for periods beginning after December 15, 2018, including interim periods, and the guidance is to be applied with a modified retrospective approach, with early adoption permitted. NiSource is currently evaluating the impact the adoption of ASU 2016-02 will have on the Condensed Consolidated Financial Statements (unaudited) or Notes to Condensed Consolidated Financial Statements (unaudited).

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****3. Earnings Per Share**

Basic EPS is computed by dividing net income attributable to NiSource by the weighted-average number of shares of common stock outstanding for the period. The weighted-average shares outstanding for diluted EPS includes the incremental effects of the various long-term incentive compensation plans. The numerator in calculating both basic and diluted EPS for each period is reported net income attributable to NiSource. The computation of diluted average common shares is as follows:

<i>(in thousands)</i>	Three Months Ended March 31,	
	2016	2015
Denominator		
Basic average common shares outstanding	320,281	316,587
Dilutive potential common shares:		
Shares contingently issuable under employee stock plans	36	335
Shares restricted under stock plans	1,703	468
Diluted Average Common Shares	322,020	317,390

4. Gas in Storage

Both the LIFO inventory methodology and the weighted average cost methodology are used to value natural gas in storage. Gas Distribution Operations price natural gas storage injections at the average of the costs of natural gas supply purchased during the year. For interim periods, the difference between current projected replacement cost and the LIFO cost for quantities of gas temporarily withdrawn from storage is recorded as a temporary LIFO liquidation credit or debit within the Condensed Consolidated Balance Sheets (unaudited). Due to seasonality requirements, NiSource expects interim variances in LIFO layers to be replenished by year-end. NiSource had a temporary LIFO liquidation debit of \$29.3 million and zero as of March 31, 2016 and December 31, 2015, respectively, for certain gas distribution companies recorded within "Prepayments and other," on the Condensed Consolidated Balance Sheets (unaudited).

5. Discontinued Operations

On July 1, 2015, NiSource completed the Separation through a special pro rata stock dividend, distributing one share of CPG common stock for every one share of NiSource common stock held by any NiSource stockholder on June 19, 2015, the record date. The Separation resulted in two stand-alone energy infrastructure companies: NiSource, a fully regulated natural gas and electric utilities company, and CPG, a natural gas pipeline, midstream and storage company. As a stand-alone company, on the date of the Separation, CPG's operations consisted of NiSource's Columbia Pipeline Group Operations segment prior to the Separation. Following the Separation, NiSource retained no ownership interest in CPG. On the date of the Separation, CPG consisted of approximately \$9.2 billion of assets, \$5.6 billion of liabilities and \$3.6 billion of equity.

The results of operations and cash flows for the former Columbia Pipeline Group Operations segment have been reported as discontinued operations for all periods presented.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

There were no material results from discontinued operations for the three months ended March 31, 2016. Results from discontinued operations for the three months ended March 31, 2015 are included in the table below. These results are primarily from NiSource's former Columbia Pipeline Group Operations segment.

<i>(in millions)</i>	Three Months Ended March 31, 2015		
	Columbia Pipeline Group Operations	Corporate and Other	Total
Net Revenues			
Transportation and storage revenues	\$ 301.1	\$ —	\$ 301.1
Other revenues	38.7	—	38.7
Total Sales Revenues	339.8	—	339.8
Less: Cost of sales (excluding depreciation and amortization)	0.1	—	0.1
Net Revenues	339.7	—	339.7
Operating Expenses			
Operation and maintenance	165.0 ⁽¹⁾	—	165.0
Depreciation and amortization	32.5	—	32.5
Gain on sale of assets	(5.3)	—	(5.3)
Other taxes	19.2	—	19.2
Total Operating Expenses	211.4	—	211.4
Equity Earnings in Unconsolidated Affiliates	15.4	—	15.4
Operating Income from Discontinued Operations	143.7	—	143.7
Other Income (Deductions)			
Interest expense, net	(18.2)	—	(18.2)
Other, net	3.6	0.1	3.7
Total Other Income (Deductions)	(14.6)	0.1	(14.5)
Income from Discontinued Operations before Income Taxes	129.1	0.1	129.2
Income Taxes	46.4	—	46.4
Income from Discontinued Operations - net of taxes	\$ 82.7	\$ 0.1	\$ 82.8

⁽¹⁾Includes approximately \$20.2 million of transaction costs related to the Separation.

CPG's financing requirements prior to the private placement of senior notes on May 22, 2015 were satisfied through borrowings from NiSource Finance. Interest expense from discontinued operations primarily represents net interest charged to CPG from NiSource Finance, less AFUDC.

Continuing Involvement

Natural gas transportation and storage services provided to NiSource by CPG were \$43.6 million and \$42.2 million for the three months ended March 31, 2016 and 2015, respectively. Prior to July 1, 2015, these costs were eliminated in consolidation. Beginning July 1, 2015, these costs and associated cash flows represent third-party transactions with CPG and are not eliminated in consolidation, as such services have continued subsequent to the Separation and are expected to continue for the foreseeable future.

As a result of the Separation, NiSource and CPG entered into Transition Services Agreements (TSAs). NiSource expects the TSAs to terminate within 24 months from the date of the Separation. The TSAs set forth the terms and conditions for NiSource and CPG to provide certain transition services to one another. Under the TSAs, NiSource will provide CPG certain information technology, financial and accounting, human resource and other specified services. For the three months ended March 31, 2016, the amounts NiSource billed CPG for these services were immaterial.

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

There were there were no material assets and liabilities of discontinued operations on the Condensed Consolidated Balance Sheets (unaudited) as of March 31, 2016 and December 31, 2015.

6. Asset Retirement Obligations

Changes in NiSource's liability for asset retirement obligations for the three months ended March 31, 2016 and 2015 are presented in the table below:

<i>(in millions)</i>		2016		2015
Balance as of January 1,	\$	254.0	\$	136.2
Accretion recorded as a regulatory asset/liability		2.2		1.9
Settlements		(0.4)		(0.7)
Change in estimated cash flows		(2.7)		—
Balance as of March 31,	\$	253.1	\$	137.4

7. Regulatory Matters

Gas Distribution Operations Regulatory Matters

Significant Rate Developments . On April 30, 2013, Indiana Governor Pence signed Senate Enrolled Act 560, the TDSIC statute, into law. Among other provisions, this legislation provides for cost recovery outside of a base rate proceeding for new or replacement electric and gas transmission, distribution, and storage projects that a public utility undertakes for the purposes of safety, reliability, system modernization, or economic development. Provisions of the TDSIC statute require that, among other things, requests for recovery include a seven-year plan of eligible investments. Once the plan is approved by the IURC, 80 percent of eligible costs can be recovered using a periodic rate adjustment mechanism. The cost recovery mechanism is referred to as a TDSIC mechanism. Recoverable costs include a return on, and of, the investment, including AFUDC, post-in-service carrying charges, operation and maintenance expenses, depreciation and property taxes. The remaining 20 percent of recoverable costs are to be deferred for future recovery in the public utility's next general rate case. The periodic rate adjustment mechanism is capped at an annual increase of no more than two percent of total retail revenues. On August 31, 2015, NIPSCO filed TDSIC-3 which included an updated seven-year plan of approximately \$800 million with the IURC. On March 30, 2016, the IURC issued an order on TDSIC-3 approving NIPSCO's updated seven year plan in all material respects.

On March 18, 2016, Columbia of Pennsylvania filed a base rate case with the Pennsylvania PUC, seeking a revenue increase of \$55.3 million annually. The case was driven by Columbia of Pennsylvania's ongoing capital investment program which exceeded \$197.0 million in 2015, and is projected to exceed \$220.0 million in 2016 and \$265.0 million in 2017. This case was also driven by operation and maintenance expenditures related to employee training and compliance with pipeline safety regulations. Columbia of Pennsylvania's request for rate relief included the recovery of costs that will be incurred after the implementation of new rates, as authorized by the Pennsylvania General Assembly with the passage of Act 11 of 2012. A decision is expected in the fourth quarter of 2016 with new rates to be implemented in December 2016.

On April 15, 2016, Columbia of Maryland filed a base rate case with the MPSC, seeking an annual revenue increase of \$6.5 million . The case was driven by Columbia of Maryland's ongoing capital investment program and by operations and maintenance expenditures related to compliance with pipeline safety regulations. A decision is expected in the fourth quarter of 2016 with new rates to be implemented in October 2016.

On April 29, 2016, Columbia of Virginia filed a request with the VSCC, seeking an annual revenue increase of \$37.0 million . The case is driven by Columbia of Virginia's ongoing capital program to modernize its infrastructure and to expand and upgrade its facilities to meet customer growth, as well as expenditures related to employee training and compliance with pipeline safety regulations. A VSCC decision is expected in early 2017. Rates are scheduled to become effective, subject to refund, on October 1, 2016.

On April 27, 2016 Columbia of Kentucky filed a notice of intent with the Kentucky PSC stating its intent to file a rate case using a fully-forecasted test period. The rate case will be filed no sooner than 30 days from the date of the notice.

Cost Recovery and Trackers . Comparability of Gas Distribution Operations line item operating results is impacted by regulatory trackers that allow for the recovery in rates of certain costs such as those described below. Increases in the expenses that are the

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

subject of trackers, result in a corresponding increase in net revenues and therefore have essentially no impact on total operating income results.

A significant portion of the distribution companies' revenue is related to the recovery of gas costs, the review and recovery of which occurs via standard regulatory proceedings. All states require periodic review of actual gas procurement activity to determine prudence and to permit the recovery of prudently incurred costs related to the supply of gas for customers. NiSource distribution companies have historically been found prudent in the procurement of gas supplies to serve customers.

Certain operating costs of the NiSource distribution companies are significant, recurring in nature, and generally outside the control of the distribution companies. Some states allow the recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for the distribution companies to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such mechanisms include GCR adjustment mechanisms, tax riders, and bad debt recovery mechanisms.

Certain of the NiSource distribution companies have completed rate proceedings involving infrastructure replacement or are embarking upon regulatory initiatives to replace significant portions of their operating systems that are nearing the end of their useful lives. Each LDC's approach to cost recovery may be unique, given the different laws, regulations and precedent that exist in each jurisdiction.

As further discussed above in this Note 7 under the heading "Significant Rate Developments," on March 30, 2016, the IURC issued an order on TDSIC-3. The order allows NIPSCO to begin earning a return on \$74.1 million of net capital expenditures for the twelve months ended June 30, 2015. NIPSCO filed its latest semi-annual tracker update on February 29, 2016, and the request remains pending with the IURC.

On November 28, 2012, the PUCO approved Columbia of Ohio's application to extend its IRP for an additional five years, allowing Columbia of Ohio to continue to invest and recover on its accelerated main replacements. Columbia of Ohio filed its application to adjust rates associated with its IRP and DSM Riders on February 26, 2016, which requested authority to increase revenues by \$25.9 million. On March 24, 2016, PUCO staff filed comments recommending that the PUCO approve Columbia of Ohio's application. On April 20, 2016, the PUCO issued an order approving Columbia of Ohio's application with rates going into effect April 30, 2016.

On September 12, 2014, Columbia of Ohio filed an application that seeks authority to establish a regulatory asset and defer the expenditures to be incurred in implementing Columbia of Ohio's Pipeline Safety Program. Columbia of Ohio requested authority to defer Pipeline Safety Program costs of up to \$15.0 million annually. By order dated December 17, 2014, the PUCO approved Columbia of Ohio's application, approving a deferral of up to \$15.0 million annually. On March 11, 2016, Columbia of Ohio filed an application to increase the annual deferral authority from \$15.0 million to \$25.0 million. An order is expected before the end of 2016.

On July 7, 2014, the Governor of Massachusetts signed into law Chapter 149 of the Acts of 2014, An Act Relative to Natural Gas Leaks ("the Act"). The Act authorizes natural gas distribution companies to file gas infrastructure replacement plans with the Massachusetts DPU to address the replacement of aging natural gas pipeline infrastructure. In addition, the Act provides that the Massachusetts DPU may, after review of the plans, allow the proposed estimated costs of the plan into rates as of May 1 of the subsequent year. Pursuant to the Act, Columbia of Massachusetts filed its first GSEP plan on October 31, 2014, for the 2015 construction year ("2015 GSEP") proposing to recover \$2.6 million. After review, the Massachusetts DPU approved the Columbia of Massachusetts's 2015 GSEP for effect May 1, 2015 and, in accordance with the Act, Columbia of Massachusetts filed the reconciliation of the 2015 GSEP on April 29, 2016. On October 30, 2015, Columbia of Massachusetts filed its GSEP for the 2016 construction year ("2016 GSEP"). Columbia of Massachusetts proposed to recover an increment of \$6.4 million for the costs associated with the replacement of eligible leak-prone infrastructure during the 2016 construction year for a cumulative proposed revenue requirement recovery of \$9.0 million. Columbia of Massachusetts subsequently revised the cumulative proposed revenue requirement recovery to \$8.2 million. The Massachusetts DPU approved the 2016 GSEP filing on April 29, 2016. New rates went into effect May 1, 2016.

On October 30, 2009, the Massachusetts DPU approved Columbia of Massachusetts's revenue decoupling mechanism that was filed in its base rate case. This allows Columbia of Massachusetts to apply annual adjustments to its peak and off-peak rates. On March 16, 2016, Columbia of Massachusetts filed its 2016 off-peak period RDAF in the amount of \$3.4 million. On April 28, 2016, the Massachusetts DPU approved the rate for effect May 1, 2016.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Columbia of Massachusetts's LDAF allows for the recovery of costs related to pension and other postretirement expense, low income programs, environmental remediation programs, Attorney General expert witness costs and energy efficiency programs. This allows Columbia of Massachusetts to file semi-annually to recover the cost in peak and off-peak rates. On January 29, 2016, Columbia of Massachusetts filed its 2016 off-peak period LDAF reflecting an annual recovery amount of approximately \$42.0 million . On April 29, 2016, the Massachusetts DPU approved the rate for effect May 1, 2016.

Electric Operations Regulatory Matters

Significant Rate Developments . On December 31, 2015, NIPSCO filed a new electric TDSIC seven-year plan of eligible investments for a total of approximately \$1.3 billion covering spend in years 2016 through 2022. On March 24, 2016, a stipulation and settlement agreement was filed with the IURC which, among other things, seeks approval of a seven-year plan that includes a total \$1.25 billion of investments eligible for ratemaking treatment. A final order is anticipated in the third quarter of 2016. NIPSCO expects to make a TDSIC rate adjustment mechanism filing in 2016 to seek recovery and ratemaking relief of such investments.

On October 1, 2015, NIPSCO filed an electric base rate case with the IURC, seeking a revenue increase of approximately \$148.0 million , including certain riders, or approximately \$126.6 million , before certain riders. As part of this filing, NIPSCO is proposing to update base rates for previously incurred infrastructure improvements, revised depreciation rates and the inclusion of previously approved environmental and federally mandated compliance costs. On February 19, 2016, a stipulation and settlement agreement was filed with the IURC seeking a revenue increase of \$72.5 million , before certain riders. A final order is anticipated in the third quarter of 2016.

Cost Recovery and Trackers . A significant portion of NIPSCO's revenue is related to the recovery of fuel costs to generate power and the fuel costs related to purchased power. These costs are recovered through an FAC, a quarterly, regulatory proceeding in Indiana.

Certain operating costs of the Electric Operations are significant, recurring in nature, and generally outside the control of NIPSCO. The IURC allows for recovery of such costs via cost tracking mechanisms. Such tracking mechanisms allow for abbreviated regulatory proceedings in order for NIPSCO to implement charges and recover appropriate costs. Tracking mechanisms allow for more timely recovery of such costs as compared with more traditional cost recovery mechanisms. Examples of such mechanisms include electric energy efficiency programs, MISO non-fuel costs and revenues, resource capacity charges, and environmental related costs.

NIPSCO has approval from the IURC to recover certain environmental related costs through an ECT. Under the ECT, NIPSCO is permitted to recover (1) AFUDC and a return on the capital investment expended by NIPSCO to implement environmental compliance plan projects through an ECRM and (2) related operation and maintenance and depreciation expenses once the environmental facilities become operational through an EERM.

On April 20, 2016, the IURC issued an order on ECR-27 approving NIPSCO's request to begin earning a return on \$800.7 million of net capital expenditures for the period ended December 31, 2015.

As a result of the electric TDSIC IURC Order on Remand that became a final order as of January 16, 2016, NIPSCO was authorized to defer, as a regulatory asset, 100% of all TDSIC costs incurred since March 1, 2014 in connection with its 2014 and 2015 eligible TDSIC investments, until such deferral is recovered as part of a general rate case. Deferrals under this order were immaterial as of March 31, 2016. In the third quarter of 2016, upon receiving an order in NIPSCO's current electric base rate case which includes TDSIC costs through June 30, 2015, NIPSCO expects to defer additional TDSIC costs associated with the remaining 2014 and 2015 eligible TDSIC investments for a future electric base rate case.

8. Risk Management Activities

NiSource recognizes that the prudent and selective use of derivatives may help to lower its cost of debt capital and manage its interest rate exposure. In 2015, NiSource Finance entered into forward-starting interest rate swap agreements with an aggregate notional value of \$1.0 billion to hedge the variability in cash flows attributable to changes in the benchmark interest rate during the periods from the effective dates of the swaps to the anticipated dates of forecasted debt issuances which extend into 2018 . These interest rate swaps are designated as cash flow hedges.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

The effective portions of the gains and losses related to these swaps are recorded to AOCI and are recognized in earnings concurrent with the recognition of interest expense on the associated debt, once issued. If it became probable that a hedged forecasted transaction was no longer going to occur, the accumulated gains or losses on the derivative would be recognized currently in earnings. Earnings could also be impacted if the anticipated dates of forecasted debt issuances change from the dates originally contemplated at inception of the hedging relationships.

Realized gains and losses from NiSource's interest rate cash flow hedges are presented in "Interest expense, net" on the Condensed Consolidated Statements of Income (unaudited). Derivative assets and liabilities on NiSource's interest rate cash flow hedges are presented as "Risk management assets" and "Risk management liabilities," respectively, on the Condensed Consolidated Balance Sheets (unaudited).

NiSource had \$132.5 million and \$17.4 million of derivative liabilities related to these cash flow hedges as of March 31, 2016 and December 31, 2015, respectively.

There was no income statement recognition of gains or losses relating to an ineffective portion of these hedges, nor were there amounts excluded from effectiveness testing for derivatives in cash flow hedging relationships for the three months ended March 31, 2016 and 2015.

NiSource does not expect to settle any cash flow hedges in the next twelve months and no cash flow hedge contracts are set to expire in the next twelve months.

NiSource's derivative instruments measured at fair value as of March 31, 2016 and December 31, 2015 do not contain any credit-risk-related contingent features.

9. Fair Value**A. Fair Value Measurements**

Recurring Fair Value Measurements. The following tables present financial assets and liabilities measured and recorded at fair value on NiSource's Condensed Consolidated Balance Sheets (unaudited) on a recurring basis and their level within the fair value hierarchy as of March 31, 2016 and December 31, 2015 :

Recurring Fair Value Measurements March 31, 2016 <i>(in millions)</i>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of March 31, 2016
Assets				
Risk management assets	\$ 0.4	\$ —	\$ 0.8	\$ 1.2
Available-for-sale securities	—	136.0	—	136.0
Total	\$ 0.4	\$ 136.0	\$ 0.8	\$ 137.2
Liabilities				
Risk management liabilities ⁽¹⁾	\$ 9.8	\$ 132.5	\$ —	\$ 142.3
Total	\$ 9.8	\$ 132.5	\$ —	\$ 142.3

⁽¹⁾Includes \$6.9 million of current risk management liabilities which are included in "Other accruals" on the Condensed Consolidated Balance Sheets (unaudited).

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

Recurring Fair Value Measurements December 31, 2015 (in millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2015
Assets				
Risk management assets	\$ 0.1	\$ —	\$ —	\$ 0.1
Available-for-sale securities	—	128.7	—	128.7
Total	\$ 0.1	\$ 128.7	\$ —	\$ 128.8
Liabilities				
Risk management liabilities ⁽¹⁾	\$ 14.3	\$ 17.4	\$ 0.2	\$ 31.9
Total	\$ 14.3	\$ 17.4	\$ 0.2	\$ 31.9

⁽¹⁾Includes \$9.3 million of current risk management liabilities which are included in "Other accruals" on the Condensed Consolidated Balance Sheets (unaudited).

Risk management assets and liabilities include interest rate swaps and an immaterial amount of NYMEX futures and NYMEX options which are commodity exchange-traded and non-exchange-based derivative contracts. Exchange-traded derivative contracts are based on unadjusted quoted prices in active markets and are classified within Level 1. These financial assets and liabilities are secured with cash on deposit with the exchange; therefore nonperformance risk has not been incorporated into these valuations. Certain non-exchange-traded derivatives are valued using broker or over-the-counter, on-line exchanges. In such cases, these non-exchange-traded derivatives are classified within Level 2. Non-exchange-based derivative instruments include swaps, forwards, and options. In certain instances, these instruments may utilize models to measure fair value. NiSource uses a similar model to value similar instruments. Valuation models utilize various inputs that include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other observable inputs for the asset or liability, and market-corroborated inputs, (i.e., inputs derived principally from or corroborated by observable market data by correlation or other means). Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. Certain derivatives trade in less active markets with a lower availability of pricing information and models may be utilized in the valuation. When such inputs have a significant impact on the measurement of fair value, the instrument is categorized in Level 3. Credit risk is considered in the fair value calculation of derivative instruments that are not exchange-traded. Credit exposures are adjusted to reflect collateral agreements which reduce exposures. As of March 31, 2016 and December 31, 2015, there were no material transfers between fair value hierarchies. Additionally, there were no changes in the method or significant assumptions used to estimate the fair value of NiSource's financial instruments.

In December 2015, NiSource Finance entered into forward-starting interest rate swaps to hedge the interest rate risk on coupon payments arising from \$1.0 billion of forecasted issuances of long-term debt expected to take place by 2018. These swaps are designated as cash flow hedges. In-the-money contracts are presented as "Risk management assets" while out-of-the-money contracts are presented as "Risk management liabilities" in the Condensed Consolidated Balance Sheets (unaudited). Each period the swap instruments will be measured assuming a hypothetical settlement at that point in time. Upon termination of the swap instruments, NiSource will pay or receive a settlement based on the then current fair value. Credit risk is considered in the fair value calculation of each interest rate swap. As they are based on observable data and valuations of similar instruments, the interest-rate swaps are categorized in Level 2 in the fair value hierarchy. There was no exchange of premium at the initial date of the swaps, and NiSource can settle the swaps at any time. For additional information see Note 8, "Risk Management Activities."

Available-for-sale securities are investments pledged as collateral for trust accounts related to NiSource's wholly-owned insurance company. Available-for-sale securities are included within "Other investments" in the Condensed Consolidated Balance Sheets (unaudited). NiSource values U.S. Treasury, corporate and mortgage-backed securities using a matrix pricing model that incorporates market-based information. These securities trade less frequently and are classified within Level 2. Total unrealized gains and losses from available-for-sale securities are included in other comprehensive income (loss). The amortized cost, gross unrealized gains and losses and fair value of available-for-sale securities at March 31, 2016 and December 31, 2015 were:

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

March 31, 2016 (in millions)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale securities				
U.S. Treasury securities	\$ 38.1	\$ 0.8	\$ —	\$ 38.9
Corporate/Other bonds	96.0	1.3	(0.2)	97.1
Total Available-for-sale securities	\$ 134.1	\$ 2.1	\$ (0.2)	\$ 136.0
December 31, 2015 (in millions)				
Available-for-sale securities				
U.S. Treasury securities	\$ 33.7	\$ 0.1	\$ (0.3)	\$ 33.5
Corporate/Other bonds	95.7	0.3	(0.8)	95.2
Total Available-for-sale securities	\$ 129.4	\$ 0.4	\$ (1.1)	\$ 128.7

For the three months ended March 31, 2016 and 2015, there were no net realized gains or losses on the sale of available-for-sale securities.

The cost of maturities sold is based upon specific identification. At March 31, 2016, approximately \$5.5 million of U.S. Treasury securities have maturities of less than a year. At March 31, 2016, approximately \$10.4 million of Corporate/Other bonds have maturities of less than a year.

There are no material items in the fair value reconciliation of Level 3 assets and liabilities measured at fair value on a recurring basis for the three months ended March 31, 2016 and 2015.

Non-recurring Fair Value Measurements. There were no significant non-recurring fair value measurements recorded during the three months ended March 31, 2016.

B. Other Fair Value Disclosures for Financial Instruments. The carrying amount of cash and cash equivalents, restricted cash, notes receivable, customer deposits and short-term borrowings is a reasonable estimate of fair value due to their liquid or short-term nature. NiSource's long-term borrowings are recorded at historical amounts.

The following method and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate fair value.

Long-term Debt. The fair value of outstanding long-term debt is estimated based on the quoted market prices for the same or similar securities. Certain premium costs associated with the early settlement of long-term debt are not taken into consideration in determining fair value. These fair value measurements are classified as Level 2 within the fair value hierarchy. For the three months ended March 31, 2016 there was no change in the method or significant assumptions used to estimate the fair value of long-term debt.

The carrying amount and estimated fair values of these financial instruments were as follows:

(in millions)	Carrying Amount as of March 31, 2016	Estimated Fair Value as of March 31, 2016	Carrying Amount as of Dec. 31, 2015	Estimated Fair Value as of Dec. 31, 2015
Long-term debt (including current portion)	\$ 6,169.3	\$ 6,938.4	\$ 6,382.2	\$ 6,975.7

10. Transfers of Financial Assets

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited). The maximum amount of debt that can be recognized related to NiSource's accounts receivable programs is \$515 million.

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

All accounts receivables sold to the purchasers are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined in part by required loss reserves under the agreements. Below is information about the accounts receivable securitization agreements entered into by NiSource's subsidiaries.

Columbia of Ohio is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CGORC, a wholly-owned subsidiary of Columbia of Ohio. CGORC, in turn, is party to an agreement with BTMU and BNS, under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to commercial paper conduits sponsored by BTMU and BNS. This agreement was last renewed on October 16, 2015; the current agreement expires on October 15, 2016, and can be further renewed if mutually agreed to by all parties. The maximum seasonal program limit under the terms of the current agreement is \$240 million. As of March 31, 2016, \$149.8 million of accounts receivable had been transferred by CGORC. CGORC is a separate corporate entity from NiSource and Columbia of Ohio, with its own separate obligations, and upon a liquidation of CGORC, CGORC's obligations must be satisfied out of CGORC's assets prior to any value becoming available to CGORC's stockholder.

NIPSCO is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to NARC, a wholly-owned subsidiary of NIPSCO. NARC, in turn, is party to an agreement with PNC and Mizuho under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to PNC and a commercial paper conduit sponsored by Mizuho. This agreement was last renewed on August 26, 2015; the current agreement expires on August 24, 2016, and can be further renewed if mutually agreed to by all parties. The maximum seasonal program limit under the terms of the current agreement is \$200 million. As of March 31, 2016, \$166.6 million of accounts receivable had been transferred by NARC. NARC is a separate corporate entity from NiSource and NIPSCO, with its own separate obligations, and upon a liquidation of NARC, NARC's obligations must be satisfied out of NARC's assets prior to any value becoming available to NARC's stockholder.

Columbia of Pennsylvania is under an agreement to sell, without recourse, substantially all of its trade receivables, as they originate, to CPRC, a wholly-owned subsidiary of Columbia of Pennsylvania. CPRC, in turn, is party to an agreement with BTMU under the terms of which it sells an undivided percentage ownership interest in its accounts receivable to a commercial paper conduit sponsored by BTMU. The agreement with BTMU was last renewed on March 9, 2016; the current agreement expires on March 8, 2017, and can be further renewed if mutually agreed to by both parties. The maximum seasonal program limit under the terms of the agreement is \$75 million. As of March 31, 2016, \$68.9 million of accounts receivable had been transferred by CPRC. CPRC is a separate corporate entity from NiSource and Columbia of Pennsylvania, with its own separate obligations, and upon a liquidation of CPRC, CPRC's obligations must be satisfied out of CPRC's assets prior to any value becoming available to CPRC's stockholder.

The following table reflects the gross and net receivables transferred as well as short-term borrowings related to the securitization transactions as of March 31, 2016 and December 31, 2015 for Columbia of Ohio, NIPSCO and Columbia of Pennsylvania:

<i>(in millions)</i>	March 31, 2016		December 31, 2015	
Gross Receivables	\$	474.5	\$	450.8
Less: Receivables not transferred		89.2		204.8
Net receivables transferred	\$	385.3	\$	246.0
Short-term debt due to asset securitization	\$	385.3	\$	246.0

For the three months ended March 31, 2016 and 2015, \$139.3 million and \$(9.3) million was recorded as cash flows from (used for) financing activities related to the change in short-term borrowings due to the securitization transactions, respectively. For the three months ended March 31, 2016 and 2015, fees of \$1.1 million and \$0.8 million associated with the securitization transactions were recorded as interest expense, respectively. Columbia of Ohio, NIPSCO and Columbia of Pennsylvania remain responsible for collecting on the receivables securitized and the receivables cannot be sold to another party.

11. Goodwill

The following presents NiSource's goodwill balance allocated by segment as of March 31, 2016:

<i>(in millions)</i>	Gas Distribution Operations		Electric Operations		Corporate and Other		Total	
Goodwill	\$	1,690.7	\$	—	\$	—	\$	1,690.7

[Table of Contents](#)ITEM 1. FINANCIAL STATEMENTS (continued)**NiSource Inc.****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)****12. Income Taxes**

NiSource's interim effective tax rates reflect the estimated annual effective tax rates for 2016 and 2015, adjusted for tax expense associated with certain discrete items. The effective tax rates for the three months ended March 31, 2016 and 2015 were 38.4% and 35.2% , respectively. These effective tax rates differ from the Federal tax rate of 35% primarily due to the effects of tax credits, state income taxes, utility rate-making, and other permanent book-to-tax differences.

The increase in the three month effective tax rate of 3.2% in 2016 versus 2015 is primarily due to state apportionment benefits in 2015.

There were no material changes recorded in the first quarter of 2016 to NiSource's uncertain tax positions as of December 31, 2015 .

13. Pension and Other Postretirement Benefits

NiSource provides defined contribution plans and noncontributory defined benefit retirement plans that cover its employees. Benefits under the defined benefit retirement plans reflect the employees' compensation, years of service and age at retirement. Additionally, NiSource provides health care and life insurance benefits for certain retired employees. The majority of employees may become eligible for these benefits if they reach retirement age while working for NiSource. The expected cost of such benefits is accrued during the employees' years of service. Current rates of rate-regulated companies include postretirement benefit costs, including amortization of the regulatory assets that arose prior to inclusion of these costs in rates. For most plans, cash contributions are remitted to grantor trusts.

For the three months ended March 31, 2016 , NiSource contributed \$0.8 million to its pension plans and \$4.9 million to its other postretirement benefit plans.

The following tables provide the components of the plans' net periodic benefits cost for the three months ended March 31, 2016 and 2015 :

Three Months Ended March 31, <i>(in millions)</i>	Pension Benefits		Other Postretirement Benefits	
	2016	2015	2016	2015
Components of Net Periodic Benefit Cost				
Service cost	\$ 7.7	\$ 8.2	\$ 1.2	\$ 1.6
Interest cost	22.4	21.7	5.5	5.7
Expected return on assets	(33.2)	(39.3)	(4.3)	(4.8)
Amortization of prior service cost (credit)	(0.1)	0.2	(1.2)	(1.2)
Recognized actuarial loss	15.3	13.5	0.8	1.1
Total Net Periodic Benefit Cost	\$ 12.1	\$ 4.3	\$ 2.0	\$ 2.4

14. Variable Interests and Variable Interest Entities

In general, a VIE is an entity (1) that has an insufficient amount of at-risk equity to permit the entity to finance its activities without additional financial subordinated support provided by any parties, (2) whose at-risk equity owners, as a group, do not have power, through voting rights or similar rights, to direct activities of the entity that most significantly impact the entity's economic performance or (3) whose at-risk owners do not absorb the entity's losses or receive the entity's residual return. A VIE is required to be consolidated by a company if that company is determined to be the primary beneficiary of the VIE.

NiSource would consolidate those VIEs for which it was the primary beneficiary. NiSource considers quantitative and qualitative elements in determining the primary beneficiary. Qualitative measures include the ability to control an entity and the obligation to absorb losses or the right to receive benefits from such entity.

NiSource's analysis includes an assessment of guarantees, operating leases, purchase agreements and other contracts, as well as its investments and joint ventures. For items that have been identified as variable interests, or where there is involvement with an

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

identified VIE, an in-depth review of the relationship between the relevant entities and NiSource is made to evaluate qualitative and quantitative factors to determine the primary beneficiary, if any, and whether additional disclosures would be required under the current standard.

NIPSCO has a service agreement with Pure Air, a general partnership between Air Products and Chemicals, Inc. and First Air Partners LP, under which Pure Air provides scrubber services to reduce sulfur dioxide emissions for Units 7 and 8 at the Bailly Generating Station. NiSource has made an exhaustive effort to obtain information needed from Pure Air to determine the status of Pure Air as a VIE. However, NIPSCO has not been able to obtain this information and, as a result, it is unclear whether Pure Air is a VIE and if NIPSCO is the primary beneficiary. NIPSCO will continue to request the information required to determine whether Pure Air is a VIE. NIPSCO has no exposure to loss related to the service agreement with Pure Air. Payments under this agreement were \$4.9 million and \$5.6 million for the three months ended March 31, 2016 and 2015, respectively.

15. Long-Term Debt

On March 31, 2016, NiSource Finance entered into a \$500.0 million term loan agreement with a syndicate of banks. NiSource Finance may borrow up to \$500.0 million at any time or from time to time before September 30, 2016. Until September 30, 2016, NiSource Finance will pay a fee of 17.5 basis points on any portion of the \$500.0 million commitment that is not borrowed. Any portion of the \$500.0 million commitment that is not borrowed at September 30, 2016 will be forfeited. The term loan matures March 29, 2019, at which point any and all outstanding borrowings under the agreement are due. Interest charged on borrowings depends on the variable rate structure elected by NiSource Finance at the time of each borrowing. The available variable rate structures from which NiSource Finance may choose are defined in the term loan agreement. As of March 31, 2016, NiSource had no outstanding borrowings under the term loan agreement.

On March 15, 2016, NiSource Finance redeemed \$201.5 million of 10.75% senior unsecured notes at maturity.

16. Short-Term Borrowings

NiSource Finance currently maintains a \$1.5 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of July 1, 2020. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource Finance's \$1.5 billion commercial paper program, provide for issuance of letters of credit and for general corporate purposes. At March 31, 2016 and December 31, 2015, NiSource had no outstanding borrowings under this facility.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse and Wells Fargo. At March 31, 2016 and December 31, 2015, NiSource had \$460.0 million and \$321.4 million, respectively, of commercial paper outstanding.

As of March 31, 2016 and December 31, 2015, NiSource had \$14.7 million of stand-by letters of credit outstanding all of which were under the revolving credit facility.

Transfers of accounts receivable are accounted for as secured borrowings resulting in the recognition of short-term borrowings on the Condensed Consolidated Balance Sheets (unaudited) in the amount of \$385.3 million and \$246.0 million as of March 31, 2016 and December 31, 2015, respectively. Refer to Note 10, "Transfers of Financial Assets," for additional information.

<i>(in millions)</i>	March 31, 2016	December 31, 2015
Commercial Paper weighted average interest rate of 1.00% at March 31, 2016 and December 31, 2015	\$ 460.0	\$ 321.4
Accounts receivable securitization facility borrowings	385.3	246.0
Total Short-Term Borrowings	\$ 845.3	\$ 567.4

Given their turnover is less than 90 days, cash flows related to the borrowings and repayments of the items listed above are presented net in the Condensed Statements of Consolidated Cash Flows (unaudited).

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

17. Share-Based Compensation

The NiSource stockholders originally approved and adopted the NiSource Inc. 2010 Omnibus Incentive Plan (“Omnibus Plan”) at the Annual Meeting of Stockholders held on May 11, 2010. Stockholders re-approved the Omnibus Plan as amended at the Annual Meeting of Stockholders held on May 12, 2015. The Omnibus Plan provides for awards to employees and non-employee directors of incentive and nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, performance units, cash-based awards and other stock-based awards and supersedes the long-term incentive plan approved by stockholders on April 13, 1994 (“1994 Plan”) and the Director Stock Incentive Plan (“Director Plan”). The Omnibus Plan provides that the number of shares of common stock of NiSource available for awards is 8,000,000 plus the number of shares subject to outstanding awards that expire or terminate for any reason that were granted under either the 1994 Plan or the Director Plan, plus the number of shares that were awarded as a result of the Separation-related adjustments. At March 31, 2016, there were 5,102,501 shares reserved for future awards under the Omnibus Plan.

NiSource recognized stock-based employee compensation expense of \$4.2 million and \$9.4 million for the three months ended March 31, 2016 and 2015, respectively, as well as related tax benefits of \$1.6 million and \$3.6 million, respectively.

As of March 31, 2016, the total remaining unrecognized compensation cost related to non-vested awards amounted to \$22.9 million, which will be amortized over the weighted-average remaining requisite service period of 2.3 years.

Restricted Stock Units and Restricted Stock. During the three months ended March 31, 2016, NiSource granted 12,760 restricted stock units and shares of restricted stock, subject to service conditions. The total grant date fair value of the restricted stock units and shares of restricted stock was \$0.2 million, based on the average market price of NiSource’s common stock at the date of each grant less the present value of any dividends not received during the vesting period, which will be expensed, net of forfeitures, over the vesting period which is generally three years. As of March 31, 2016, 1,734,966 non-vested (all of which are expected to vest) restricted stock units and shares of restricted stock were granted and outstanding.

Performance Shares. During the three months ended March 31, 2016, NiSource granted 603,665 performance shares subject to service, performance and market conditions. The grant date fair value of the awards was \$11.7 million, based on the average market price of NiSource’s common stock at the date of each grant less the present value of dividends not received during the vesting period which will be expensed, net of forfeitures, over the vesting period which is generally three years. A Monte Carlo analysis was used to value the portion of these awards dependent on market conditions. As of March 31, 2016, 603,665 non-vested (all of which are expected to vest) performance shares were granted and outstanding.

401(k) Match, Profit Sharing and Company Contribution. NiSource has a voluntary 401(k) savings plan covering eligible employees that allows for periodic discretionary matches as a percentage of each participant’s contributions payable in shares of NiSource common stock. NiSource also has a retirement savings plan that provides for discretionary profit sharing contributions payable in shares of NiSource common stock to eligible employees based on earnings results; and eligible exempt employees hired after January 1, 2010 receive a non-elective company contribution of 3% of eligible pay payable in shares of NiSource common stock. For the quarters ended March 31, 2016 and 2015, NiSource recognized 401(k) match, profit sharing and non-elective contribution expense of \$6.6 million and \$6.2 million, respectively.

18. Other Commitments and Contingencies

A. Guarantees and Indemnities. As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit. These agreements are entered into primarily to support or enhance the creditworthiness otherwise attributed to a subsidiary on a stand-alone basis, thereby facilitating the extension of sufficient credit to accomplish the subsidiaries’ intended commercial purposes. At March 31, 2016, NiSource had issued stand-by letters of credit of approximately \$14.7 million for the benefit of third parties.

B. Legal Proceedings. The Company is party to certain claims and legal proceedings arising in the ordinary course of business, none of which is deemed to be individually material at this time. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on the Company’s results of operations, financial position or liquidity. If one or more of such matters were decided against the Company, the effects could be material to the Company’s results of operations in the period in which the Company would be required to record or adjust the related liability and could also be material to the Company’s cash flows in the periods the Company would be required to pay such liability.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

C. Environmental Matters. NiSource operations are subject to environmental statutes and regulations related to air quality, water quality, hazardous waste and solid waste. NiSource believes that it is in substantial compliance with the environmental regulations currently applicable to its operations.

It is management's continued intent to address environmental issues in cooperation with regulatory authorities in such a manner as to achieve mutually acceptable compliance plans. However, there can be no assurance that fines and penalties will not be incurred. Management expects a significant portion of environmental assessment and remediation costs to be recoverable through rates for certain NiSource companies.

As of March 31, 2016 and December 31, 2015, NiSource had recorded an accrual of approximately \$122.0 million and \$123.2 million, respectively, to cover environmental remediation at various sites. The current portion of this accrual is included in "Legal and environmental" in the Condensed Consolidated Balance Sheets (unaudited). The noncurrent portion is included in "Other noncurrent liabilities" in the Condensed Consolidated Balance Sheets (unaudited). NiSource accrues for costs associated with environmental remediation obligations when the incurrence of such costs is probable and the amounts can be reasonably estimated. The original estimates for cleanup may differ materially from the amount ultimately expended. The actual future expenditures depend on many factors, including currently enacted laws and regulations, the nature and extent of contamination, the method of cleanup and the availability of cost recovery. These expenditures are not currently estimable at some sites. NiSource periodically adjusts its accrual as information is collected and estimates become more refined.

Air

The actions listed below could require further reductions in emissions from various emission sources. NiSource will continue to closely monitor developments in these matters.

Climate Change. Future legislative and regulatory programs, including implementation of the EPA CPP, could significantly limit allowed GHG emissions or impose a cost or tax on GHG emissions. Additionally, certain rules that increase methane leak detection and permitting requirements for natural gas facilities could restrict GHG emissions or impose additional costs. The CPP and other federally enacted or proposed GHG reduction measures are subject to numerous legal challenges that could change the way the programs are implemented, and NiSource will carefully monitor all GHG reduction proposals and regulations. In addition to the federal programs, the United States and 194 other countries agreed by consensus to limit GHGs to Nationally Determined Contributions (NDCs) beginning after 2020 in the 2015 United Nations Framework Convention on Climate Change Paris Agreement. The United States has proposed a NDC of a 26-28% reduction from 2005 levels by 2025, a figure that cannot be met with the CPP alone.

National Ambient Air Quality Standards. The CAA requires the EPA to set NAAQS for particulate matter and five other pollutants considered harmful to public health and the environment. Periodically, the EPA imposes new, or modifies existing, NAAQS. States that contain areas that do not meet the new or revised standards or contribute significantly to nonattainment of downwind states may be required to take steps to achieve and maintain compliance with the standards. These steps could include additional pollution controls on boilers, engines, turbines and other facilities owned by electric generation and gas distribution operations.

The following NAAQS were recently added or modified:

Ozone: On October 26, 2015, the EPA issued a final rule to lower the 8-hour ozone standard from 75 ppb to 70 ppb. After the EPA proceeds with designations, areas where NiSource operates that are currently designated in attainment with the standards may be reclassified as nonattainment. NiSource will continue to monitor this matter and cannot estimate its impact at this time.

Waste

NiSource subsidiaries are potentially responsible parties at waste disposal sites under the CERCLA (commonly known as Superfund) and similar state laws. Additionally, NiSource affiliates have retained environmental liabilities, including cleanup liabilities, associated with certain former operations.

A program has been instituted to identify and investigate former MGP sites where Gas Distribution Operations subsidiaries or predecessors may have liability. The program has identified 64 such sites where liability is probable. Remedial actions at many of these sites are being overseen by state or federal environmental agencies through consent agreements or voluntary remediation agreements.

NiSource utilizes a probabilistic model to estimate its future remediation costs related to its MGP sites. The model was prepared with the assistance of a third-party and incorporates NiSource and general industry experience with remediating MGP sites. NiSource completes an annual refresh of the model in the second quarter of each fiscal year. No material changes to the estimated future remediation costs were noted as a result of the refresh completed as of June 30, 2015. The total estimated liability at NiSource

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

related to the facilities subject to remediation was \$109.7 million and \$110.4 million at March 31, 2016 and December 31, 2015, respectively. The liability represents NiSource's best estimate of the probable cost to remediate the facilities. NiSource believes that it is reasonably possible that remediation costs could vary by as much as \$25 million in addition to the costs noted above. Remediation costs are estimated based on the best available information, applicable remediation standards at the balance sheet date and experience with similar facilities.

Additional Issues Related to Individual Business Segments

The sections below describe various regulatory actions that affect individual business segments for which NiSource has retained a liability.

Electric Operations.

Air

NIPSCO is subject to a number of air-quality mandates in the next several years. The mandates, which include the NSR Consent Decree, the Utility Mercury and Air Toxics Standards Rule (MATS) and the CPP, require or may require NIPSCO to make capital improvements to its electric generating stations. The cost of capital improvements associated with the NSR Consent Decree and MATS is estimated to be \$860 million, of which approximately \$27.2 million remains to be spent. The cost to comply with the CPP cannot be estimated at this time. Costs incurred for NSR Consent Decree and MATS compliance are currently being recovered through rates. NIPSCO believes that the costs associated with CPP compliance will be eligible for recovery through rates.

Utility Mercury and Air Toxics Standards Rule: On February 16, 2012, the EPA issued the MATS rule establishing new emissions limits for mercury and other air toxics. Certain affected NIPSCO units have completed projects to meet the April 2015 compliance deadline. For NIPSCO's remaining affected units, a one-year compliance extension granted by IDEM delayed the compliance date until April 2016. On June 29, 2015, the United States Supreme Court remanded the MATS rule back to the United States Court of Appeals for the District of Columbia Circuit for further proceedings. On December 15, 2015, the United States Court of Appeals for the District of Columbia Circuit issued an order remanding the MATS rule to the EPA without vacating the rule. The MATS rule remains in effect while the EPA addresses the issues raised by the United State Supreme Court. The EPA indicates that these issues will be fully addressed in 2016. NIPSCO will continue to monitor developments in this matter. NIPSCO completed an IURC-approved plan for the installation of environmental controls needed to comply with the MATS extension.

Clean Power Plan : On October 23, 2015, the EPA issued a final rule to regulate CO₂ emissions from existing fossil-fuel EGUs under section 111(d) of the CAA. The final rule establishes national CO₂ emission-rate standards that are applied to each state's mix of affected EGUs to establish state-specific emission-rate and mass-emission limits. The final rule requires each state to submit a plan indicating how the state will meet the EPA's emission-rate or mass-emission limit, including possibly imposing reduction obligations on specific units. If a state does not submit a satisfactory plan, the EPA will impose a federal plan on that state. On February 9, 2016, the U.S. Supreme Court stayed implementation of the CPP until litigation is decided on its merits. The cost to comply with this rule will depend on a number of factors, including the outcome of CPP litigation, the requirements of the state plan or final federal plan, and the level of NIPSCO's required CO₂ emission reductions. It is possible that this new rule, comprehensive federal or state GHG legislation or other GHG regulation could result in additional expense or compliance costs that could materially impact NiSource's financial results. NIPSCO will continue to monitor this matter and cannot estimate its impact at this time.

Cross State Air Pollution Rule: On December 3, 2015, the EPA issued a proposed rule to address interstate air quality impacts associated with the 2008 ozone NAAQS. Under the proposed rule, NIPSCO would be required to meet a more stringent NO_x emission allocation. NIPSCO will continue to monitor this matter and cannot estimate its impact at this time.

Water

On August 15, 2014, the EPA issued the final Phase II Rule of the Clean Water Act Section 316(b), which requires all large existing steam electric generating stations to meet certain performance standards to reduce the effects on aquatic organisms at their cooling water intake structures. Under this rule, stations will have to either demonstrate that the performance of their existing fish protection systems meet the new standards or develop new systems, such as a closed-cycle cooling tower. The cost to comply will depend on a number of factors, including evaluation of the various compliance options available under the regulation and permitting-related determinations by IDEM. NIPSCO estimates that the cost of compliance is between \$4 million and \$35 million, dependent upon study results, agency requirements and technology ultimately required to achieve compliance.

On November 3, 2015, the EPA issued a final rule to amend the ELG and standards for the Steam Electric Power Generating category. The final rule became effective January 4, 2016. The rule imposes new water treatment and discharge requirements on

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

NIPSCO's electric generating facilities to be applied between 2018-2023. Based upon a preliminary engineering study, capital compliance costs are currently expected to be in the \$225 million to \$315 million range. NIPSCO believes that the costs associated with ELG compliance will be eligible for recovery through rates.

Waste

On April 17, 2015, the EPA issued a final rule for regulation of CCRs. The rule regulates CCRs under the Resource Conservation and Recovery Act Subtitle D, which determines them to be nonhazardous. The rule will require increased groundwater monitoring, reporting, record keeping and posting of related information to the Internet. The rule also establishes requirements related to CCR management, impoundments, landfills and storage. The rule will allow NIPSCO to continue its byproduct beneficial use program.

The publication of the CCR rule resulted in revisions to previously recorded legal obligations associated with the retirement of certain NIPSCO facilities. The actual asset retirement costs related to the CCR rule may vary substantially from the estimates used to record the increased asset retirement obligation due to the uncertainty about the compliance strategies that will be used and the preliminary nature of available data used to estimate costs. Refer to Note 6, "Asset Retirement Obligations," for further information. In addition, to comply with the rule, NIPSCO will be required to incur future capital expenditures to modify its infrastructure and manage CCRs. Based upon a preliminary engineering study, capital compliance costs are currently expected to be in the \$130 million to \$182 million range. As allowed by the EPA, NIPSCO will continue to collect data over time to determine the specific compliance solutions and associated costs and, as a result, the actual costs may vary. NIPSCO believes that the costs associated with CCR compliance will be eligible for recovery through rates.

D. Other Matters.

Transmission Upgrade Agreements. On February 11, 2014, NIPSCO entered into TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs filed a complaint at the FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. On December 8, 2014, the FERC issued an order in response to the complaint finding that it is appropriate for NIPSCO to recover, through the multiplier, substantiated costs of ownership related to the TUAs. The FERC set for hearing the issue of what constitutes the incremental costs NIPSCO will incur, but is holding that hearing in abeyance to allow for settlement. NIPSCO will continue to monitor developments in this matter and does not believe the conclusion of this matter will result in a material impact to the Condensed Consolidated Financial Statements (unaudited).

⁽¹⁾All amounts are net of tax. Amounts in parentheses indicate debits.

20. Business Segment Information

At March 31, 2016, NiSource's operations are divided into two primary reportable segments. The Gas Distribution Operations segment provides natural gas service and transportation for residential, commercial and industrial customers in Ohio, Pennsylvania, Virginia, Kentucky, Maryland, Indiana and Massachusetts. The Electric Operations segment provides electric service in 20 counties in the northern part of Indiana.

[Table of Contents](#)

ITEM 1. FINANCIAL STATEMENTS (continued)

NiSource Inc.

Notes to Condensed Consolidated Financial Statements (unaudited) (continued)

The following table provides information about business segments. NiSource uses operating income as its primary measurement for each of the reported segments and makes decisions on finance, dividends and taxes at the corporate level on a consolidated basis. Segment revenues include intersegment sales to affiliated subsidiaries, which are eliminated in consolidation. Affiliated sales are recognized on the basis of prevailing market, regulated prices or at levels provided for under contractual agreements. Operating income is derived from revenues and expenses directly associated with each segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NiSource Inc.

Note regarding forward-looking statements

The following Management's Discussion and Analysis of Financial Condition and Results of Operations, including statements regarding market risk sensitive instruments, contains "forward-looking statements," within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Investors and prospective investors should understand that many factors govern whether any forward-looking statement contained herein will be or can be realized. Any one of those factors could cause actual results to differ materially from those projected. These forward-looking statements include, but are not limited to, statements concerning NiSource's plans, objectives, expected performance, expenditures, recovery of expenditures through rates, stated on either a consolidated or segment basis, the Separation and any and all underlying assumptions and other statements that are not historical fact. From time to time, NiSource may publish or otherwise make available forward-looking statements of this nature. All such subsequent forward-looking statements, whether written or oral and whether made by or on behalf of NiSource, are also expressly qualified by these cautionary statements. All forward-looking statements are based on assumptions that management believes to be reasonable; however, there can be no assurance that actual results will not differ materially.

Factors that could cause actual results to differ materially from the forward-looking statements, including projections, forecasts, estimates and expectations discussed in this Quarterly Report on Form 10-Q include, among other things, NiSource's debt obligations; any changes in NiSource's credit rating; NiSource's ability to execute its growth strategy; changes in general economic, capital and commodity market conditions; pension funding obligations; economic regulation and the impact of regulatory rate reviews; compliance with environmental laws and the costs of associated liabilities; fluctuations in demand from residential and commercial customers; economic conditions of certain industries; the price of energy commodities and related transportation costs; the reliability of customers and suppliers to fulfill their payment and contractual obligations; potential impairments of goodwill or definite-lived intangible assets; changes in taxation and accounting principles; potential incidents and other operating risks associated with our business; the impact of an aging infrastructure; the impact of climate change; potential cyber-attacks; risks associated with construction and natural gas cost and supply; extreme weather conditions; the ability of subsidiaries to generate cash; uncertainties related to the expected benefits of the Separation and the matters referenced in the "Risk Factors" section of NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2015, many of which are beyond the control of NiSource. In addition, the relative contributions to profitability by each segment, and the assumptions underlying the forward-looking statements relating thereto, may change over time. NiSource expressly disclaims any duty to update, supplement or amend any of its forward-looking statements, whether as a result of new information, subsequent events or otherwise.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with NiSource's Annual Report on Form 10-K for the fiscal year ended December 31, 2015 .

CONSOLIDATED REVIEW

Executive Summary

NiSource is an energy holding company under the Public Utility Holding Company Act of 2005 whose subsidiaries are fully regulated natural gas and electric utility companies serving customers in seven states. NiSource generates substantially all of its operating income through these rate-regulated businesses. A significant portion of NiSource's operations is subject to seasonal fluctuations in sales. During the heating season, which is primarily from November through March, net revenues from gas sales are more significant, and during the cooling season, which is primarily from June through September, net revenues from electric sales are more significant, than in other months.

NiSource reported lower income from continuing operations of \$179.7 million , or \$0.56 per basic share for the three months ended March 31, 2016 compared to \$192.5 million , or \$0.61 per basic share for the same period in 2015. The lower income from continuing operations during 2016 was due primarily to lower net revenues due to warmer weather partially offset by higher net revenues from regulatory and service programs. Additionally, the lower income from continuing operations was due to increased income taxes resulting from variances in consolidated state apportionment benefits.

For the three months ended March 31, 2016 , NiSource reported operating income of \$381.4 million compared to \$386.3 million for the same period in 2015.

These factors and other impacts to the financial results are discussed in more detail within the following discussions of "Results of Operations" and "Results and Discussion of Segment Operations."

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

As part of our long-term regulated infrastructure investment program, NiSource invested \$301.0 million across our gas and electric utilities during the first quarter of 2016. In total, NiSource expects to invest approximately \$1.4 billion in capital expenditures during 2016.

NiSource believes that through income generated from operating activities, amounts available under its short-term revolving credit facility, commercial paper program, accounts receivable securitization facilities, long-term debt agreements and NiSource's ability to access the capital markets, there is adequate capital available to fund its operating activities and capital expenditures in 2016. At March 31, 2016, NiSource had approximately \$1,049.0 million of liquidity available, consisting of cash and available capacity under its revolving credit facility and accounts receivable securitization programs.

Platform for Growth

NiSource's utilities continue to move forward on core infrastructure and environmental investment programs supported by complementary regulatory and customer initiatives across all seven states in our service area. To date, NiSource has executed against approximately \$2.3 billion of an estimated \$30 billion in total projected long-term regulated utility infrastructure investments. As noted above, NiSource expects to invest approximately \$1.4 billion in capital expenditures during 2016 to continue to modernize and improve its system across all seven states. NiSource's goal is to develop strategies that benefit all stakeholders as it addresses changing customer conservation patterns, develops more contemporary pricing structures, and embarks on long-term investment programs. These strategies will help improve reliability and safety, enhance customer service and reduce emissions while generating sustainable returns.

Additionally, NiSource is pursuing regulatory and legislative initiatives that will allow residential customers not currently on NiSource's system to obtain gas service in a cost effective manner.

The discussion below summarizes significant regulatory developments that transpired during the quarter ended March 31, 2016, including periods prior to issuance of this 10-Q:

Gas Distribution Operations

- On April 20, 2016, the PUCO approved Columbia of Ohio's annual IRP rider. The rider provides for continued support of Columbia of Ohio's well-established pipeline replacement program. This order authorizes approximately \$21 million in increased annual revenue related to 2015 infrastructure investments of approximately \$185 million.
- A decision on Columbia of Massachusetts' 2016 GSEP was issued by the Massachusetts DPU on April 29, 2016. This approval allows for recovery of investments of approximately \$59 million through 2016 and an increase in annual revenues of \$8.2 million, which began on May 1, 2016.
- On March 18, 2016, Columbia of Pennsylvania filed a request with the Pennsylvania PUC to adjust its base rates in support of Columbia of Pennsylvania's continued upgrades and replacement of its infrastructure, and to recover increases in the company's safety-related operating and maintenance costs. The rate request is based on Columbia of Pennsylvania's infrastructure investments and programs which are designed to enhance pipeline safety. If approved as filed, the case would result in a \$55.3 million annual revenue increase. A PUC order is expected by the end of 2016.
- On April 29, 2016, Columbia of Virginia filed a request with the VSCC to adjust its base rates to recover investments and other costs associated with the company's ongoing initiatives to improve the overall safety and reliability of its distribution system and to accommodate increasing demand for service. If approved as filed, the case would result in an annual revenue increase of \$37.0 million. A VSCC decision is expected by early next year.
- On April 15, 2016, Columbia of Maryland filed a request with the MPSC to adjust its base rates to support the continued replacement of aging pipe as well as adopt pipeline safety upgrades. If approved as filed, the case would result in an annual revenue increase of approximately \$6.5 million. A commission order is expected by the end of 2016.
- NIPSCO continues to execute on its seven-year, approximately \$800 million, gas system modernization program to further improve system reliability and safety. On March 30, 2016, the IURC approved the semi-annual tracker update that NIPSCO filed in August 2015, which covered \$74.1 million of investments through mid-2015. NIPSCO filed its latest semi-annual tracker update on February 29, 2016, and that request remains pending with the IURC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Electric Operations

- On March 24, 2016, NIPSCO reached a settlement agreement with the OUCC, industrial customers, the LaPorte County Board of Commissioners and the Indiana Municipal Utility Group on the company's seven-year electric infrastructure modernization plan. The settlement includes the recovery of more than \$1.2 billion of investments and remains focused on electric transmission and distribution investments designed to improve system safety and reliability. An IURC order on the settlement is anticipated in the third quarter of 2016.
- On February 19, 2016, NIPSCO reached a collaborative agreement in its electric base rate case currently pending before the IURC. The settlement, which includes the OUCC, industrial customers, the Indiana Municipal Utility Group and the United Steelworkers, provides a platform for NIPSCO's continued investments and service improvements for customers. The proposed settlement agreement would increase annual revenues by \$72.5 million. An IURC order on the settlement is anticipated in the third quarter of 2016.
- NIPSCO's two major transmission projects remain on schedule with anticipated in-service dates in the second half of 2018. The 100-mile 345-kV and 65-mile 765-kV projects are designed to enhance region-wide system flexibility and reliability. Right-of-way acquisition, permitting and engineering are under way on both projects. NIPSCO expects to provide updated project cost estimates prior to the commencement of line construction later this year.

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for a complete discussion of regulatory matters.

Ethics and Controls

NiSource is committed to providing accurate and complete financial reporting as well as high standards for ethical behavior by its employees. NiSource's senior management takes an active role in the development of this Form 10-Q and the monitoring of the company's internal control structure and performance. In addition, NiSource will continue its mandatory ethics training program for all employees.

For additional information refer to Item 4, "Controls and Procedures."

Results of Operations

Quarter Ended March 31, 2016

Income from Continuing Operations

Income from continuing operations was \$179.7 million , or \$0.56 per basic share, for the three months ended March 31, 2016 , compared to \$192.5 million , or \$0.61 per basic share, for the first quarter of 2015 . Operating income was \$381.4 million , a decrease of \$4.9 million from the same period in 2015 . Basic average shares of common stock outstanding at March 31, 2016 were 320.3 million compared to 316.6 million at March 31, 2015 .

Comparability of line item operating results between quarterly periods is impacted by regulatory and tax trackers that allow for the recovery in rates of certain costs such as bad debt expense. Therefore, increases in these tracked operating expenses are offset by increases in net revenues and have essentially no impact on income from continuing operations.

Net Revenues

Total consolidated net revenues (gross revenues less cost of sales) for the quarter ended March 31, 2016 , were \$940.1 million , a \$63.9 million decrease from the same period last year. This decrease in net revenues was primarily due to decreased Gas Distribution Operations' net revenues of \$67.1 million partially offset by increased Electric Operations' net revenues of \$3.1 million.

- Gas Distribution Operations' net revenues decreased primarily due to lower regulatory, depreciation and tax trackers, which are offset in expense, of \$67.1 million and the effects of warmer weather of \$34.7 million. These decreases in net revenues were partially offset by higher net revenues from regulatory and service programs of \$34.5 million, including the impact of new rates at Columbia of Massachusetts and Columbia of Pennsylvania, as well as the implementation of new rates under Columbia of Ohio's approved infrastructure replacement program.
- Electric Operations' net revenues increased primarily due to higher regulatory and depreciation trackers, which are offset in expense, of \$7.6 million, an increase in the return on the environmental capital investment recovery of \$3.6 million

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

due to an increased plant balance eligible for recovery and higher net revenues of \$3.5 million as a result of two electric transmission projects. These increases were partially offset by the effects of warmer weather of \$4.7 million and lower usage of \$2.1 million.

Operating Expenses

Operating expenses for the first quarter of 2016 were \$558.7 million, a decrease of \$59.0 million from the 2015 period. This decrease was primarily due to lower regulatory, depreciation and tax trackers, which are offset in net revenues, of \$59.5 million, decreased electric generation expenses of \$6.6 million and lower employee and administrative costs of \$6.3 million. These decreases in operation and maintenance expense were partially offset by higher outside service costs of \$15.1 million.

Other Income (Deductions)

Other Income (Deductions) reduced income by \$89.8 million in the first quarter of 2016 compared to a reduction in income of \$89.3 million in the prior year.

Income Taxes

Income tax expense for the quarter ended March 31, 2016 was \$111.9 million compared to \$104.5 million in the prior year. The effective tax rates for the quarters ended March 31, 2016 and 2015 were 38.4% and 35.2%, respectively. The 3.2% increase in the three month effective tax rate in 2016 versus 2015 is primarily due to state apportionment benefits in 2015.

Refer to Note 12, "Income Taxes," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further discussion of income taxes.

Liquidity and Capital Resources

A significant portion of NiSource's operations are subject to seasonal fluctuations in cash flow. During the heating season, which is primarily from November through March, cash receipts from gas sales and transportation services typically exceed cash requirements. During the summer months, cash on hand, together with the seasonal increase in cash flows from the electric business during the summer cooling season and external short-term and long-term financing is used to purchase gas to place in storage for heating season deliveries and perform necessary maintenance of facilities. NiSource believes that through income generated from operating activities, amounts available under its short-term revolving credit facility, commercial paper program, accounts receivable securitization programs, long-term debt agreements and NiSource's ability to access the capital markets, there is adequate capital available to fund its operating activities and capital expenditures in 2016.

Operating Activities

Net cash from operating activities from continuing operations for the three months ended March 31, 2016 was \$303.2 million, a decrease of \$145.0 million compared to the three months ended March 31, 2015. Changes in weather, gas price fluctuations and the related approved rates for recovery significantly impacted regulatory assets, regulatory liabilities and working capital when comparing the two periods. During 2016, over-collected gas costs and service revenues from 2015 were returned to customers resulting in a use of working capital. Conversely, during the comparable period in 2015, under-collected gas costs and service revenues from 2014 were received from customers creating a source of working capital.

Pension and Other Postretirement Plan Funding. NiSource expects to make contributions of approximately \$3.0 million to its pension plans and approximately \$22.2 million to its other postretirement benefit plans in 2016, which could change depending on market conditions. For the three months ended March 31, 2016, NiSource has contributed \$0.8 million to its pension plans and \$4.9 million to its other postretirement benefit plans.

Income Taxes. As of March 31, 2016, NiSource has a recorded deferred tax asset of \$395.4 million related to a Federal NOL carryforward. As a result of being in an NOL position, NiSource was not required to make any cash payments for Federal income tax purposes during the quarters ended March 31, 2016 and 2015. This NOL carryforward expires in 2030, however NiSource expects to fully utilize the carryforward benefit prior to its expiration.

Investing Activities

NiSource's capital expenditures for the three months ended March 31, 2016 were \$301.0 million compared to \$243.5 million for the comparable period in 2015. The increase in capital spend was driven by favorable weather conditions in 2016 which allowed for extended periods of construction. NiSource projects 2016 capital expenditures to be approximately \$1.4 billion.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**NiSource Inc.**

The decrease in net cash from (used for) investing activities for the three months ended March 31, 2016, when compared to the first quarter of 2015, was also attributable to \$500.0 million in proceeds received from the initial public offering of CPPL during the first quarter of 2015.

Financing Activities

Long-term Debt. Refer to Note 15, "Long-term Debt," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on long-term debt.

Credit Facilities. NiSource Finance currently maintains a \$1.5 billion revolving credit facility with a syndicate of banks led by Barclays Capital with a termination date of July 1, 2020. The purpose of the facility is to fund ongoing working capital requirements including the provision of liquidity support for NiSource Finance's \$1.5 billion commercial paper program, provide for issuance of letters of credit and also for general corporate purposes.

NiSource Finance's commercial paper program has a program limit of up to \$1.5 billion with a dealer group comprised of Barclays, Citigroup, Credit Suisse and Wells Fargo.

NiSource Finance had no borrowings outstanding under its revolving credit facility at March 31, 2016 and December 31, 2015. In addition, NiSource Finance had \$460.0 million of commercial paper outstanding at March 31, 2016 at a weighted average interest rate of 1.00% and \$321.4 million in commercial paper outstanding at December 31, 2015, at a weighted average interest rate of 1.00%.

As of March 31, 2016 and December 31, 2015, NiSource had \$385.3 million and \$246.0 million, respectively, of short-term borrowings recorded on the Condensed Consolidated Balance Sheets (unaudited) relating to its accounts receivable securitization facilities. See Note 10, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited).

As of March 31, 2016 and December 31, 2015, NiSource had \$14.7 million of stand-by letters of credit outstanding, all of which were under the revolving credit facility.

As of March 31, 2016, an aggregate of \$1,049.0 million of liquidity was available, including cash and credit available under the revolving credit facility and accounts receivable securitization programs.

The following table displays NiSource's liquidity position as of March 31, 2016:

<i>(in millions)</i>	Three Months Ended March 31, 2016	
Current Liquidity		
Revolving Credit Facility	\$	1,500.0
Accounts Receivable Program ⁽¹⁾		385.3
<i>Less:</i>		
Drawn on Revolving Credit Facility		—
Commercial Paper		460.0
Accounts Receivable Program Utilized		385.3
Letters of Credit Outstanding Under Credit Facility		14.7
<i>Add:</i>		
Cash and Cash Equivalents		23.7
Net Available Liquidity	\$	1,049.0

⁽¹⁾ Represents the lesser of the seasonal limit or maximum borrowings supportable by the underlying receivables.

Not included in liquidity discussed above is a \$500.0 million delayed-draw term loan agreement executed on March 31, 2016. Refer to Note 15, "Long-Term Debt," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further information.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Debt Covenants. NiSource is subject to financial covenants under its revolving credit facility and term loan agreement, which require NiSource to maintain a debt to capitalization ratio that does not exceed 70%. A similar covenant in a 2005 private placement note purchase agreement requires NiSource to maintain a debt to capitalization ratio that does not exceed 75%. As of March 31, 2016, the ratio was 64.4%.

Sale of Trade Accounts Receivables. Refer to Note 10, "Transfers of Financial Assets," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on the sale of trade accounts receivable.

All accounts receivable sold to the purchasers are valued at face value, which approximates fair value due to their short-term nature. The amount of the undivided percentage ownership interest in the accounts receivables sold is determined, in part, by required loss reserves under the agreements.

Credit Ratings. The credit rating agencies periodically review the Company's ratings, taking into account factors such as our capital structure and earnings profile. In 2015, Moody's affirmed the NiSource senior unsecured rating of Baa2 and its commercial paper rating of P-2, with stable outlooks. Moody's also affirmed NIPSCO's Baa1 rating and Columbia of Massachusetts's Baa2 rating, with stable outlooks. In 2015, Standard & Poor's raised the senior unsecured ratings of NiSource and its subsidiaries to BBB+ and NiSource's commercial paper rating to A-2, with stable outlooks. In 2015, Fitch affirmed the NiSource senior unsecured rating of BBB-, commercial paper rating of F3 and the existing ratings of its other rated subsidiaries. Fitch revised its outlook to positive.

The Company is committed to maintaining investment grade credit ratings, however, there is no assurance we will be able to do so in the future. The Company's credit ratings could be lowered or withdrawn entirely by a rating agency if, in its judgment, the circumstances warrant. Any negative rating action could adversely affect our ability to access capital at rates and on terms that are attractive. A negative rating action could also adversely impact our business relationships with suppliers and operating partners.

Certain NiSource subsidiaries have agreements that contain "ratings triggers" that require increased collateral if the credit ratings of NiSource or certain of its subsidiaries are below investment grade. These agreements are primarily for insurance purposes and for the physical purchase or sale of power. As of March 31, 2016 the collateral requirement that would be required in the event of a downgrade below the ratings trigger levels would amount to approximately \$27.5 million. In addition to agreements with ratings triggers, there are other agreements that contain "adequate assurance" or "material adverse change" provisions that could necessitate additional credit support such as letters of credit and cash collateral to transact business.

Equity. NiSource has a shelf registration statement on file with the SEC that originally authorized NiSource to issue 400,000,000 shares of common stock and 20,000,000 shares of preferred stock. As of March 31, 2016, 321,360,285 shares of common stock were outstanding. NiSource has no preferred stock outstanding as of March 31, 2016.

Contractual Obligations. Aside from the previously referenced term loan issuance and repayment of long-term debt, there were no material changes recorded during the three months ended March 31, 2016 to NiSource's contractual obligations as of December 31, 2015.

Market Risk Disclosures

Risk is an inherent part of NiSource's energy businesses. The extent to which NiSource properly and effectively identifies, assesses, monitors and manages each of the various types of risk involved in its businesses is critical to its profitability. NiSource seeks to identify, assess, monitor and manage, in accordance with defined policies and procedures, the following principal market risks that are involved in NiSource's energy businesses: commodity price risk, interest rate risk and credit risk. Risk management at NiSource is a multi-faceted process with oversight by the Risk Management Committee that requires constant communication, judgment and knowledge of specialized products and markets. NiSource's senior management takes an active role in the risk management process and has developed policies and procedures that require specific administrative and business functions to assist in the identification, assessment and control of various risks. These may include but are not limited to market, operational, financial, compliance and strategic risk types. In recognition of the increasingly varied and complex nature of the energy business, NiSource's risk management process, policies and procedures continue to evolve and are subject to ongoing review and modification.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Commodity Price Risk

NiSource is exposed to commodity price risk as a result of its subsidiaries' operations involving natural gas and power. To manage this market risk, NiSource's subsidiaries use derivatives, including commodity futures contracts, swaps and options. NiSource is not involved in speculative energy trading activity.

Commodity price risk resulting from derivative activities at NiSource's rate-regulated subsidiaries is limited, since regulations allow recovery of prudently incurred purchased power, fuel and gas costs through the ratemaking process, including gains or losses on these derivative instruments. If states should explore additional regulatory reform, these subsidiaries may begin providing services without the benefit of the traditional ratemaking process and may be more exposed to commodity price risk. Some of NiSource's rate-regulated utility subsidiaries offer commodity price risk products to its customers for which derivatives are used to hedge forecasted customer usage under such products. These subsidiaries do not have regulatory recovery orders for these products and may be subject to gains and losses recognized in earnings due to hedge ineffectiveness.

NiSource subsidiaries are required to make cash margin deposits with their brokers to cover actual and potential losses in the value of outstanding exchange-traded derivative contracts. The amount of these deposits, which are reflected in NiSource's restricted cash balance, may fluctuate significantly during periods of high volatility in the energy commodity markets.

There are no material commodity risk management assets or liabilities as of March 31, 2016 and December 31, 2015 .

Interest Rate Risk

NiSource is exposed to interest rate risk as a result of changes in interest rates on borrowings under its revolving credit agreement, commercial paper program and accounts receivable programs, which have interest rates that are indexed to short-term market interest rates. Based upon average borrowings and debt obligations subject to fluctuations in short-term market interest rates, an increase (or decrease) in short-term interest rates of 100 basis points (1%) would have increased (or decreased) interest expense by \$1.5 million for the three months ended March 31, 2016 and \$4.9 million for the three months ended March 31, 2015 . NiSource is also exposed to interest rate risk as a result of changes in benchmark rates that can influence the interest rates of future debt issuances. NiSource may use several strategies including interest rate hedges and liability management transactions to manage this risk.

In December 2015, NiSource Finance entered into forward starting interest-rate swaps, to hedge the interest rate risk on coupon payments arising from \$1.0 billion of forecasted issuances of long-term debt expected to take place by 2018. Refer to Note 8, "Risk Management Activities," in the Notes to Condensed Consolidated Financial Statements (unaudited) for further information on NiSource's forward starting interest-rate swaps.

Credit Risk

Due to the nature of the industry, credit risk is embedded in many of NiSource's business activities. NiSource's extension of credit is governed by a Corporate Credit Risk Policy. In addition, Risk Management Committee guidelines are in place which document management approval levels for credit limits, evaluation of creditworthiness and credit risk mitigation efforts. Exposures to credit risks are monitored by the risk management function which is independent of commercial operations. Credit risk arises due to the possibility that a customer, supplier or counterparty will not be able or willing to fulfill its obligations on a transaction on or before the settlement date. For derivative related contracts, credit risk arises when counterparties are obligated to deliver or purchase defined commodity units of gas or power to NiSource at a future date per execution of contractual terms and conditions, or when counterparties are obligated to settle an amount owed to NiSource under a financial agreement. Exposure to credit risk is measured in terms of both current obligations and the market value of forward positions net of any posted collateral such as cash and letters of credit.

NiSource closely monitors the financial status of its banking credit providers. NiSource evaluates the financial status of its banking partners through the use of market-based metrics such as credit default swap pricing levels, and also through traditional credit ratings provided by major credit rating agencies.

Fair Value Measurement

NiSource measures certain financial assets and liabilities at fair value. The level of the fair value hierarchy disclosed is based on the lowest level of input that is significant to the fair value measurement. NiSource's financial assets and liabilities include price risk assets and liabilities, available-for-sale securities and a deferred compensation plan obligation.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Refer to Note 9, "Fair Value," in the Notes to the Condensed Consolidated Financial Statements (unaudited) for additional information on NiSource's fair value measurements.

Off Balance Sheet Arrangements

As a part of normal business, NiSource and certain subsidiaries enter into various agreements providing financial or performance assurance to third parties on behalf of certain subsidiaries. Such agreements include guarantees and stand-by letters of credit.

Refer to Note 18, "Other Commitments and Contingencies," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information about such arrangements.

Other Information

Critical Accounting Policies

There were no significant changes to critical accounting policies for the period ended March 31, 2016 .

Recently Issued Accounting Pronouncements

Refer to Note 2, "Recent Accounting Pronouncements."

NiSource Inc.

RESULTS AND DISCUSSION OF SEGMENT OPERATIONS

Presentation of Segment Information

NiSource's operations are divided into two primary business segments: Gas Distribution Operations and Electric Operations.

NiSource's Gas Distribution Operations serve approximately 3.4 million customers in seven states: Ohio, Indiana, Pennsylvania, Massachusetts, Virginia, Kentucky and Maryland. The regulated subsidiaries offer both traditional bundled services as well as transportation only for customers that purchase gas from alternative suppliers. The operating results reflect the temperature-sensitive nature of customer demand with 72% of annual residential and commercial throughput affected by seasonality. As a result, segment operating income is higher in the first and fourth quarters reflecting the heating demand during the winter season.

Regulatory Matters

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Gas Distribution Operations segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Gas Distribution Operations

Customer Usage. Increased efficiency of natural gas appliances and improvements in home building codes and standards has contributed to a long-term trend of declining average use per customer. Residential and commercial usage for the three months ended March 31, 2016 decreased from the same period last year primarily due to warmer weather compared to the prior year. While historically, rate design at the distribution level has been structured such that a large portion of cost recovery is based upon throughput, rather than in a fixed charge, operating costs are largely incurred on a fixed basis, and do not fluctuate due to changes in customer usage. As a result, Gas Distribution Operations have pursued changes in rate design to more effectively match recoveries with costs incurred. Each of the states in which Gas Distribution Operations operate has different requirements regarding the procedure for establishing changes to rate design. Columbia of Ohio restructured its rate design through a base rate proceeding and has adopted a "de-coupled" rate design which more closely links the recovery of fixed costs with fixed charges. Columbia of Massachusetts received regulatory approval of a decoupling mechanism which adjusts revenues to an approved benchmark level through a volumetric adjustment factor. Columbia of Maryland and Columbia of Virginia have received regulatory approval to implement a revenue normalization adjustment for certain customer classes, which is a decoupling mechanism whereby monthly revenues that exceed or fall short of approved levels are reconciled in subsequent months. In a prior base rate proceeding, Columbia of Pennsylvania implemented a residential weather normalization adjustment. Columbia of Kentucky has had approval for a weather normalization adjustment for many years. In a prior base rate proceeding, NIPSCO implemented a higher fixed customer charge for residential and small customer classes moving toward full straight fixed variable rate design.

Environmental Matters

Currently, various environmental matters impact the Gas Distribution Operations segment. As of March 31, 2016, liabilities have been recorded to cover probable environmental response actions. Refer to Note 18-C, "Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Gas Distribution Operations segment.

Weather

In general, NiSource calculates the weather-related revenue variance based on changing customer demand driven by weather variance from normal heating degree-days. NiSource's composite heating degree days reported do not directly correlate to the weather related dollar impact on the results of Gas Distribution Operations. Heating degree days experienced during different times of the year or in different operating locations may have more or less impact on volume and dollars depending on when and where they occur. When the detailed results are combined for reporting, there may be weather related dollar impacts on operations when there is not an apparent or significant change in the aggregated NiSource composite heating degree-day comparison.

Weather in the Gas Distribution Operations' territories for the first quarter of 2016 was 11% warmer than normal and 23% warmer than the first quarter in 2015, decreasing net revenues approximately \$35 million for the quarter ended March 31, 2016 compared to 2015.

Throughput

Total volumes sold and transported of 344.6 MMDth for the first quarter of 2016 decreased by 57.5 MMDth from the same period last year. This 14% decrease in volumes was primarily attributable to warmer weather and lower off-system sales opportunities.

Net Revenues

Net revenues for the first quarter of 2016 were \$666.6 million, a decrease of \$67.1 million from the same period in 2015. The decrease in net revenues is due primarily to lower regulatory and tax trackers, offset in expense, of \$67.1 million and the effects of warmer weather of \$34.7 million. These decreases in net revenues were partially offset by higher net revenues from regulatory and service programs of \$34.5 million, including the impact of new rates at Columbia of Massachusetts and Columbia of Pennsylvania, as well as the implementation of new rates under Columbia of Ohio's approved infrastructure replacement program.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased gas costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to Other gross revenues for the three months ended March 31, 2016 was a revenue increase of \$9.1 million compared to a revenue decrease of \$63.6 million for the three months ended March 31, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.

Gas Distribution Operations

Operating Income

For the first quarter of 2016, Gas Distribution Operations reported operating income of \$314.9 million, a decrease of \$10.3 million from the comparable 2015 period. Operating income decreased as a result of lower net revenues, as described above, partially offset by decreased operating expenses. Operating expenses were \$56.8 million lower than the comparable period reflecting lower regulatory and tax trackers which are offset in net revenues, of \$67.1 million. This decrease in operating expense was partially offset by higher outside service costs of \$7.0 million and increased depreciation expense of \$5.1 million due to increased capital expenditures placed in service.

NiSource generates and distributes electricity, through its subsidiary NIPSCO, to approximately 463 thousand customers in 20 counties in the northern part of Indiana. The operating results reflect the temperature-sensitive nature of customer demand with annual sales affected by temperatures in the northern part of Indiana. As a result, segment operating income is generally higher in the second and third quarters, reflecting cooling demand during the summer season.

Electric Supply

On October 31, 2014, NIPSCO submitted its 2014 Integrated Resource Plan with the IURC. The plan evaluates demand-side and supply-side resource alternatives to reliably and cost-effectively meet NIPSCO customers' future energy requirements over the next twenty years. Existing resources are expected to be sufficient, assuming favorable outcomes for environmental upgrades, to meet customers' needs for the next decade. NIPSCO continues to monitor and assess economic, regulatory and legislative activity, and will update its resource plan as appropriate.

Regulatory Matters

Refer to Note 7, "Regulatory Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for information on significant rate developments and cost recovery and trackers for the Electric Operations segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

NiSource Inc.
Electric Operations

Environmental Matters

Currently, various environmental matters impact the Electric Operations segment. As of March 31, 2016, liabilities have been recorded to cover probable environmental response actions. Refer to Note 18-C, "Environmental Matters," in the Notes to Condensed Consolidated Financial Statements (unaudited) for additional information regarding environmental matters for the Electric Operations segment.

Transmission Upgrade Agreements

On February 11, 2014, NIPSCO entered into TUAs with upgrade sponsors to complete upgrades on NIPSCO's transmission system on behalf of those sponsors. The upgrade sponsors have agreed to reimburse NIPSCO for the total cost to construct transmission upgrades and place them into service, multiplied by a rate of 1.71 ("the multiplier").

On June 10, 2014, certain upgrade sponsors for both TUAs filed a complaint at FERC against NIPSCO regarding the multiplier stated in the TUAs. On June 30, 2014, NIPSCO filed an answer defending the terms of the TUAs and the just and reasonable nature of the multiplier charged therein and moved for dismissal of the complaint. On December 8, 2014, the FERC issued an order in response to the complaint finding that it is appropriate for NIPSCO to recover, through the multiplier, substantiated costs of ownership related to the TUAs. The FERC set for hearing the issue of what constitutes the incremental costs NIPSCO will incur, but is holding that hearing in abeyance to allow for settlement. NIPSCO will continue to monitor developments in this matter and does not believe the conclusion of this matter will result in a material impact to the Condensed Consolidated Financial Statements (unaudited).

Sales

Electric Operations sales quantities for the first quarter of 2016 were 4,170.7 gwh, a decrease of 212.0 gwh compared to the first quarter of 2015. The 5% decrease is primarily attributable to fewer opportunities for off-system sales in the first quarter of 2016.

Net Revenues

Net revenues for the first quarter of 2016 were \$273.2 million, an increase of \$3.1 million from the same period in 2015. The increase in net revenues is due primarily to higher regulatory and depreciation trackers, which are offset in expense, of \$7.6 million, an increase in the return on the environmental capital investment recovery of \$3.6 million due to an increased plant balance eligible for recovery and higher net revenues of \$3.5 million as a result of two electric transmission projects. These increases were partially offset by the effects of warmer weather of \$4.7 million and lower usage of \$2.1 million.

At NIPSCO, sales revenues and customer billings are adjusted for amounts related to under and over-recovered purchased fuel costs from prior periods per regulatory order. These amounts are primarily reflected in the "Other" gross revenues statistic provided at the beginning of this segment discussion. The adjustment to "Other" gross revenues for the three months ended March 31, 2016 was a revenue increase of \$2.6 million compared to a revenue decrease of \$22.7 million for the three months ended March 31, 2015.

Operating Income

For the first quarter of 2016, Electric Operations reported operating income of \$70.3 million, an increase of \$0.3 million from the comparable 2015 period. Operating income increased as a result of higher net revenues, as described above, partially offset by increased operating expenses of \$2.8 million. The increase in operating expenses was primarily driven by higher outside service costs of \$8.5 million and increased regulatory and depreciation trackers, which are offset in net revenues, of \$7.6 million. These increases were partially offset by lower electric generation expenses of \$6.6 million, decreased employee and administrative costs of \$3.0 million and an environmental accrual in 2015 of \$2.3 million.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

NiSource Inc.

For a discussion regarding quantitative and qualitative disclosures about market risk see “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Market Risk Disclosures.”

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

NiSource’s chief executive officer and its chief financial officer are responsible for evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). NiSource’s disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including NiSource’s chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based upon that evaluation, NiSource’s chief executive officer and chief financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to provide reasonable assurance that financial information was processed, recorded and reported accurately.

Changes in Internal Controls

There have been no changes in NiSource’s internal control over financial reporting during the fiscal quarter covered by this report that has materially affected, or is reasonably likely to materially affect, NiSource’s internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

NiSource Inc.

The Company is party to certain claims and legal proceedings arising in the ordinary course of business, none of which is deemed to be individually material at this time. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on the Company's results of operations, financial position or liquidity. If one or more of such matters were decided against the Company, the effects could be material to the Company's results of operations in the period in which the Company would be required to record or adjust the related liability and could also be material to the Company's cash flows in the periods the Company would be required to pay such liability.

SCHEDULE 2.01 Lenders and Commitments

SCHEDULE 6.01(e) Existing Agreements

TERM LOAN AGREEMENT, dated as of March 31, 2016 (this “*Agreement*”), among **NISOURCE FINANCE CORP.**, an Indiana corporation (the “*Borrower*”), as borrower, **NISOURCE INC.**, a Delaware corporation (the “*Guarantor*”), as guarantor, **PNC BANK, NATIONAL ASSOCIATION**, as administrative agent for the lenders hereunder (in such capacity, the “*Administrative Agent*”), **JPMORGAN CHASE BANK, N.A.**, as syndication agent, **MIZUHO BANK (USA)**, as documentation agent, and the lenders from time to time party hereto.

The parties hereto hereby agree as follows:

Article I
DEFINITIONS

SECTION 1.01. Defined Terms. As used in this Agreement, the following terms have the meanings specified below:

“*ABR*”, when used in reference to any Loan or Borrowing, refers to whether such Loan is, or the Loans comprising such Borrowing are, bearing interest at a rate determined by reference to the Alternate Base Rate.

“*Act*” means the USA PATRIOT Act (Title III of Pub. L. 107-56 (signed into law October 26, 2001)).

“*Administrative Agent*” has the meaning assigned to such term in the preamble hereto.

“*Administrative Questionnaire*” means an Administrative Questionnaire in a form supplied by the Administrative Agent.

“*Affiliate*” means, with respect to a specified Person, another Person that directly, or indirectly through one or more intermediaries, Controls or is Controlled by or is under common Control with the Person specified.

“*Agent Party*” has the meaning assigned to such term in Section 11.01(g).

“*Aggregate Commitments*” means the aggregate amount of the Commitments of all Lenders, as in effect from time to time. As of the date hereof, the Aggregate Commitments equal \$500,000,000.

“*Agreement*” has the meaning assigned to such term in the preamble hereto.

“*Alternate Base Rate*” means, for any day, a rate *per annum* equal to the greatest of (a) the Prime Rate in effect on such day, (b) the Federal Funds Effective Rate in effect on such day plus 1/2 of 1% and (c) 1.0% per annum plus the LIBO Rate applicable to an Interest Period of one month on such day (or if such day is not a Business Day, the immediately preceding Business Day); provided that, for the avoidance of doubt, the LIBO Rate for any day shall be based on the rate appearing on the Bloomberg Page BBAM1 (or on any successor or substitute page of such page determined by the Administrative Agent) on such day. Any

change in the Alternate Base Rate due to a change in the Prime Rate, the Federal Funds Effective Rate or the one-month LIBO Rate shall be effective from and including the effective date of such change in the Prime Rate, the Federal Funds Effective Rate or the one-month LIBO Rate, respectively. For the avoidance of doubt, if the Alternate Base Rate shall be less than zero, such rate shall be deemed to be zero for purposes of this Agreement.

“ **Alternate Source** ” shall have the meaning given to that term in the definition of “LIBO Rate”.

“ **Anti-Corruption Laws** ” means all laws, rules, and regulations of any jurisdiction applicable to the Borrower or its Subsidiaries from time to time concerning or relating to bribery, corruption or money laundering.

“ **Applicable Percentage** ” means, with respect to any Lender, the percentage of the Aggregate Commitments represented by such Lender’s Commitment; provided that, in the case of Section 2.20 when a Defaulting Lender shall exist, “Applicable Percentage” shall mean the percentage of the Aggregate Commitment (disregarding any Defaulting Lender’s Commitment) represented by such Lender’s Commitment. If the Commitments have terminated or expired, the Applicable Percentages shall be determined based upon the aggregate principal amount of Outstanding Loans made or maintained by such Lender as a percentage of all Outstanding Loans; provided that, in the event that a Defaulting Lender shall exist, in accordance with Section 2.20, “Applicable Percentage” shall mean the percentage of all Outstanding Loans (disregarding any Defaulting Lender’s Outstanding Loans) represented by such Lender’s Outstanding Loans.

“ **Applicable Rate** ” means, for any day, (a) with respect to any ABR Loan, the applicable rate per annum set forth adjacent to the caption “ABR Loans” on the Pricing Grid and (b) with respect to any Eurodollar Loan, the applicable rate per annum set forth adjacent to the caption “Eurodollar Loans” on the Pricing Grid.

“ **Arrangers** ” means each of PNC Capital Markets LLC, JPMorgan Chase Bank, N.A. and Mizuho Bank (USA).

“ **Assignment and Assumption** ” means an assignment and assumption entered into by a Lender and an assignee (with the consent of any party whose consent is required by Section 11.04), and accepted by the Administrative Agent, in the form of Exhibit A or any other form approved by the Administrative Agent.

“ **Authorized Officer** ” means the president, chief financial officer or the treasurer of the Borrower; provided that solely with respect to the submission of a Borrowing Request, “ **Authorized Officer** ” shall also mean the assistant treasurer or the treasury operations manager of the Borrower.

“ **Availability Period** ” means the period commencing on the Effective Date to but not including September 30, 2016.

“ **Bail-In Action** ” means the exercise of any Write-Down and Conversion Powers by the applicable EEA Resolution Authority in respect of any liability of an EEA Financial Institution.

“ **Bail-In Legislation** ” means, with respect to any EEA Member Country implementing Article 55 of Directive 2014/59/EU of the European Parliament and of the Council of the European Union, the implementing law for such EEA Member Country from time to time which is described in the EU Bail-In Legislation Schedule.

“ **Bankruptcy Event** ” means, with respect to any Person, such Person becomes the subject of a bankruptcy or insolvency proceeding, or has had a receiver, conservator, trustee, administrator, custodian, assignee for the benefit of creditors or similar Person charged with the reorganization or liquidation of its business appointed for it, or, in the good faith determination of the Administrative Agent, has taken any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any such proceeding or appointment; provided that a Bankruptcy Event shall not result solely by virtue of any ownership interest, or the acquisition of any ownership interest, in such Person by a Governmental Authority or instrumentality thereof; provided, further, that such ownership interest does not result in or provide such Person with immunity from the jurisdiction of courts within the United States of America or from the enforcement of judgments or writs of attachment on its assets or permit such Person (or such Governmental Authority or instrumentality) to reject, repudiate, disavow or disaffirm any contracts or agreements made by such Person.

“ **Beneficiary** ” has the meaning set forth in Section 10.01.

“ **Board** ” means the Board of Governors of the Federal Reserve System of the United States of America.

“ **Board of Directors** ” means, with respect to any Person, (i) in the case of any corporation, the board of directors of such Person, (ii) in the case of any limited liability company, the board of managers (or equivalent) of such Person, (iii) in the case of any partnership, the board of directors (or equivalent) of the general partner of such Person and (iv) in any other case, the functional equivalent of the foregoing.

“ **Borrower** ” has the meaning assigned to such term in the preamble hereto.

“ **Borrowing** ” means Loans of the same Type, made, converted or continued on the same date and, in the case of Eurodollar Loans, as to which a single Interest Period is in effect.

“ **Borrowing Request** ” means a request by the Borrower for a Borrowing in accordance with Section 2.02.

“ **Business Day** ” means any day that is not a Saturday, Sunday or other day on which commercial banks in New York City are authorized or required by law to remain closed;

provided that, when used in connection with a Eurodollar Loan, the term “ **Business Day** ” shall also exclude any day on which banks are not open for dealings in dollar deposits in the London interbank market.

“ **Capital Lease** ” means, as to any Person, any lease of real or personal property in respect of which the obligations of the lessee are required, in accordance with GAAP, to be capitalized on the balance sheet of such Person.

“ **Capital Stock** ” means any and all shares, interests, participations or other equivalents (however designated) of capital stock of a corporation, any and all equivalent ownership interests in a Person other than a corporation (including, but not limited to, all common stock and preferred stock and partnership, membership and joint venture interests or units in a Person), and any and all warrants, rights or options to purchase any of the foregoing.

“ **CERCLA** ” means the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act, 42, U.S.C. Section 9601 et seq.

“ **Change in Law** ” means the occurrence, after the date of this Agreement (or with respect to any Lender, if later, the date on which such Lender becomes a Lender), of any of the following: (a) the adoption or taking effect of any law, rule, regulation or treaty, (b) any change in any law, rule, regulation or treaty or in the administration, interpretation, implementation or application thereof by any Governmental Authority or (c) the making or issuance of any request, rules, guideline, requirement or directive (whether or not having the force of law) by any Governmental Authority; provided, however, that notwithstanding anything herein to the contrary, (i) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules, guidelines, requirements and directives thereunder, issued in connection therewith or in implementation thereof, and (ii) all requests, rules, guidelines, requirements and directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or the United States of America or foreign regulatory authorities, in each case pursuant to Basel III, shall in each case be deemed to be a “Change in Law” regardless of the date enacted, adopted, issued or implemented.

“ **Change of Control** ” means (a) any “person” or “group” within the meaning of Sections 13(d) and 14(d)(2) of the Securities Exchange Act of 1934, as amended, shall become the “beneficial owner” (as defined in Rule 13d-3 under the Securities Exchange Act of 1934, as amended) of more than 50% of the then outstanding voting Capital Stock of the Guarantor, (b) Continuing Directors shall cease to constitute at least a majority of the directors constituting the Board of Directors of the Guarantor, (c) a consolidation or merger of the Guarantor shall occur after which the holders of the outstanding voting Capital Stock of the Guarantor immediately prior thereto hold less than 50% of the outstanding voting Capital Stock of the surviving entity; (d) more than 50% of the outstanding voting Capital Stock of the Guarantor shall be transferred to an entity of which the Guarantor owns less than 50% of the outstanding voting Capital Stock; (e) there shall occur a sale of all or

substantially all of the assets of the Guarantor; or (f) the Borrower or NIPSCO shall cease to be a Wholly-Owned Subsidiary of the Guarantor (except to the extent otherwise permitted under clauses (i), (ii), (iii) or (iv) of Section 6.01(b)).

“ **Code** ” means the Internal Revenue Code of 1986.

“ **Commitment** ” means, with respect to each Lender, the commitment of such Lender to make Loans hereunder as set forth herein. The amount of each Lender’s Commitment is (x) initially the amount set forth on Schedule 2.01 opposite such Lender’s name or (y) the amount set forth in the Assignment and Assumption pursuant to which such Lender shall have assumed its Commitment, as applicable.

“ **Communications** ” has the meaning assigned to such term in Section 11.01(g).

“ **Connection Income Taxes** ” means Other Connection Taxes that are imposed on or measured by net income (however denominated) or that are franchise Taxes or branch profits Taxes.

“ **Consolidated Capitalization** ” means the sum of (a) Consolidated Debt, (b) consolidated common equity of the Guarantor and its Consolidated Subsidiaries determined in accordance with GAAP, and (c) the aggregate liquidation preference of preferred stocks (other than preferred stocks subject to mandatory redemption or repurchase) of the Guarantor and its Consolidated Subsidiaries upon involuntary liquidation.

“ **Consolidated Debt** ” means, at any time, the Indebtedness of the Guarantor and its Consolidated Subsidiaries that would be classified as debt on a balance sheet of the Guarantor determined on a consolidated basis in accordance with GAAP.

“ **Consolidated Subsidiary** ” means, on any date, each Subsidiary of the Guarantor the accounts of which, in accordance with GAAP, would be consolidated with those of the Guarantor in its consolidated financial statements if such statements were prepared as of such date.

“ **Contingent Guaranty** ” means a direct or contingent liability in respect of a Project Financing (whether incurred by assumption, guaranty, endorsement or otherwise) that either (a) is limited to guarantying performance of the completion of the Project that is financed by such Project Financing or (b) is contingent upon, or the obligation to pay or perform under which is contingent upon, the occurrence of any event other than failure of the primary obligor to pay upon final maturity (whether by acceleration or otherwise).

“ **Continuing Directors** ” means (a) all members of the Board of Directors of the Guarantor who have held office continually since the Effective Date, and (b) all members of the Board of Directors of the Guarantor who were elected as directors after the Effective Date and whose nomination for election was approved by a vote of at least 50% of the Continuing Directors.

“ **Contractual Obligation** ” means, as to any Person, any provision of any security issued by such Person or of any agreement, instrument or other undertaking to which such Person is a party or by which it or any of its property is bound.

“ **Control** ” means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ability to exercise voting power, by contract or otherwise. “ **Controlling** ” and “ **Controlled** ” have meanings correlative thereto.

“ **Credit Documents** ” means (a) this Agreement, any promissory notes executed pursuant to Section 2.10, and any Assignment and Assumptions, (b) any certificates, opinions and other documents required to be delivered pursuant to Section 3.01 and (c) any other documents delivered by a Credit Party pursuant to or in connection with any one or more of the foregoing.

“ **Credit Party** ” means each of the Borrower and the Guarantor; and “ **Credit Parties** ” means the Borrower and the Guarantor, collectively.

“ **Creditor Party** ” means the Administrative Agent or any other Lender.

“ **Debt for Borrowed Money** ” means, as to any Person, without duplication, (a) all obligations of such Person for borrowed money, (b) all obligations of such Person evidenced by bonds, debentures, notes or similar instruments, (c) all Capital Lease obligations of such Person, and (d) all obligations of such Person under synthetic leases, tax retention operating leases, off-balance sheet loans or other off-balance sheet financing products that, for tax purposes, are considered indebtedness for borrowed money of the lessee but are classified as operating leases under GAAP.

“ **Debt to Capitalization Ratio** ” means, at any time, the ratio of Consolidated Debt to Consolidated Capitalization.

“ **Default** ” means any event or condition that constitutes an Event of Default or that, upon notice, lapse of time or both would, unless cured or waived, become an Event of Default.

“ **Defaulting Lender** ” means any Lender that (a) has failed, within two Business Days of the date required to be funded or paid, to (i) fund any portion of its Loans or (ii) pay over to any Creditor Party any other amount required to be paid by it hereunder, unless, in the case of clause (i) above, such Lender notifies the Administrative Agent in writing that such failure is the result of such Lender’s good faith determination that a condition precedent to funding set forth in Section 3.02 (specifically identified and including the particular default, if any) has not been satisfied, (b) has notified the Borrower or any Creditor Party in writing, or has made a public statement to the effect, that it does not intend or expect to comply with any of its funding obligations under this Agreement (unless such writing or public statement indicates that such position is based on such Lender’s good faith determination that a condition precedent (specifically identified and including the particular

default, if any) to funding a loan under this Agreement set forth in Section 3.02 cannot be satisfied) or generally under other agreements in which it commits to extend credit, (c) has failed, within three Business Days after request by a Creditor Party, acting in good faith, to provide a certification in writing from an authorized officer of such Lender that it will comply with its obligations to fund prospective Loans; provided that such Lender shall cease to be a Defaulting Lender pursuant to this clause (c) upon such Creditor Party's receipt of such certification in form and substance satisfactory to it and the Administrative Agent, or (d) has become the subject of a Bankruptcy Event or a Bail-in Action.

“ **Documentation Agent** ” means Mizuho Bank (USA), in its capacity as documentation agent for the Lenders hereunder.

“ **Dollars** ” or “ **\$** ” refers to lawful money of the United States of America.

“ **EEA Financial Institution** ” means (a) any credit institution or investment firm established in any EEA Member Country which is subject to the supervision of an EEA Resolution Authority, (b) any entity established in an EEA Member Country which is a parent of an institution described in clause (a) of this definition, or (c) any financial institution established in an EEA Member Country which is a subsidiary of an institution described in clauses (a) or (b) of this definition and is subject to consolidated supervision with its parent.

“ **EEA Member Country** ” means any of the member states of the European Union, Iceland, Liechtenstein, and Norway.

“ **EEA Resolution Authority** ” means any public administrative authority or any person entrusted with public administrative authority of any EEA Member Country (including any delegee) having responsibility for the resolution of any EEA Financial Institution.

“ **Effective Date** ” means the date on which each of the conditions precedent set forth in Section 3.01 have been satisfied or waived by the Lenders in accordance with Section 11.02.

“ **Electronic Signature** ” means an electronic sound, symbol, or process attached to, or associated with, a contract or other record and adopted by a Person with the intent to sign, authenticate or accept such contract or record.

“ **Electronic System** ” means any electronic system, including (i) e-mail, (ii) e-fax, (iii) Intralinks®, Syndtrak®, ClearPar® and (iv) any other Internet or extranet-based site, whether such electronic system is owned, operated or hosted by the Administrative Agent and any of its Related Parties or any other Person, providing for access to data protected by passcodes or other security system.

“ **Environmental Laws** ” means any and all foreign, federal, state, local or municipal laws (including, without limitation, common laws), rules, orders, regulations, statutes, ordinances, codes, decrees, judgments, awards, writs, injunctions, requirements of any

Governmental Authority or other requirements of law regulating, relating to or imposing liability or standards of conduct concerning, pollution, waste, industrial hygiene, occupational safety or health, the presence, transport, manufacture, generation, use, handling, treatment, distribution, storage, disposal or release of Hazardous Materials, or protection of human health, plant life or animal life, natural resources or the environment, as now or at any time hereafter in effect.

“ **Environmental Liability** ” means any liability, contingent or otherwise (including any liability for damages, costs of environmental remediation, fines, penalties or indemnities), of the Guarantor or any of its Subsidiaries directly or indirectly resulting from or based upon (a) violation of any Environmental Law, (b) the generation, use, handling, transportation, storage, treatment or disposal of any Hazardous Materials, (c) exposure to any Hazardous Materials, (d) the release or threatened release of any Hazardous Materials into the environment or (e) any contract, agreement or other consensual arrangement pursuant to which liability is assumed or imposed with respect to any of the foregoing.

“ **ERISA** ” means the Employee Retirement Income Security Act of 1974, as amended from time to time, and the regulations promulgated and rulings issued thereunder.

“ **ERISA Affiliate** ” means any Person who, for purposes of Title IV of ERISA, is a member of the Guarantor’s controlled group, or under common control with the Guarantor, within the meaning of Section 414 of the Code and the regulations promulgated and rulings issued thereunder.

“ **ERISA Event** ” means (a) a reportable event, within the meaning of Section 4043 of ERISA, with respect to a Plan unless the 30-day notice requirement with respect thereto has been waived by the PBGC, (b) the provision by the administrator of any Plan of a notice of intent to terminate such Plan, pursuant to Section 4041(a)(2) and 4041(c) of ERISA (including any such notice with respect to a plan amendment referred to in Section 4041(e) of ERISA), (c) the withdrawal by the Guarantor or any ERISA Affiliate from a Multiple Employer Plan during a plan year for which it was a substantial employer, as defined in Section 4001(a)(2) of ERISA, (d) the failure by the Guarantor or any ERISA Affiliate to make a payment to a Plan required under Section 302 of ERISA, for which Section 303(k) of ERISA imposes a lien for failure to make required payments, or (e) the institution by the PBGC of proceedings to terminate a Plan, pursuant to Section 4042 of ERISA, or the occurrence of any event or condition which may reasonably be expected to constitute grounds under Section 4042 of ERISA for the termination of, or the appointment of a trustee to administer, a Plan.

“ **EU Bail-In Legislation Schedule** ” means the EU Bail-In Legislation Schedule published by the Loan Market Association (or any successor person), as in effect from time to time.

“ **Eurocurrency Liabilities** ” has the meaning assigned to that term in Regulation D of the Board, as in effect from time to time.

“ **Eurodollar** ”, when used in reference to any Loan or Borrowing, refers to whether such Loan is, or the Loans comprising such Borrowing are, bearing interest at a rate determined by reference to the LIBO Rate.

“ **Eurodollar Rate Reserve Percentage** ” of any Lender for the Interest Period for any Eurodollar Loan means the reserve percentage applicable during such Interest Period (or if more than one such percentage shall be so applicable, the daily average of such percentages for those days in such Interest Period during which any such percentage shall be so applicable) under regulations issued from time to time by the Board (or any successor) for determining the maximum reserve requirement (including, without limitation, any emergency, supplemental or other marginal reserve requirement) for such Lender with respect to liabilities or assets consisting of or including Eurocurrency Liabilities having a term equal to such Interest Period.

“ **Event of Default** ” has the meaning assigned to such term in Article VIII.

“ **Excluded Taxes** ” means any of the following Taxes imposed on or with respect to a Recipient or required to be withheld or deducted from a payment to a Recipient, (a) Taxes imposed on (or measured by) its net income or net earnings (however denominated), franchise Taxes and branch profits Taxes, in each case, (i) imposed by the jurisdiction (or any political subdivision thereof) under the laws of which such Recipient is organized or in which its principal office is located or, in the case of any Lender, in which its applicable lending office is located or (ii) that are Other Connection Taxes, (b) in case of a Lender, U.S. federal withholding Taxes imposed on amounts payable to or for the account of such Lender with respect to an applicable interest in a Loan or Commitment pursuant to a law in effect on the date on which (i) such Lender acquires such interest in the Loan or Commitment (other than pursuant to an assignment request by the Borrower under Section 2.19) or (ii) such Lender changes its lending office, except in each case to the extent that, pursuant to Section 2.17, amounts with respect to such Taxes were payable either to such Lender's assignor immediately before such Lender became a party hereto or to such Lender immediately before it changed its lending office, (c) Taxes attributable to such Recipient's failure to comply with Section 2.17(e) or (f), and (d) any Taxes imposed under FATCA.

“ **Extension of Credit** ” means the making by any Lender of a Loan.

“ **FATCA** ” means Sections 1471 through 1474 of the Code, as of the date of this Agreement (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), any current or future regulations or official interpretations thereof and any agreement entered into pursuant to Section 1471(b)(1) of the Code.

“ **Federal Bankruptcy Code** ” means Title 11 of the United States Code (11 U.S.C. § 101 et seq.).

“ **Federal Funds Effective Rate** ” means, for any day, the weighted average (rounded upwards, if necessary, to the next 1/100 of 1%) of the rates on overnight Federal funds

transactions with members of the Federal Reserve System arranged by Federal funds brokers, as published on the next succeeding Business Day by the Federal Reserve Bank of New York, or, if such rate is not so published for any day that is a Business Day, the average (rounded upwards, if necessary, to the next 1/100 of 1%) of the quotations for such day for such transactions received by the Administrative Agent from three Federal funds brokers of recognized standing selected by it; provided that if such rate shall be less than zero, such rate shall be deemed to be zero for purposes of this Agreement.

“ **Foreign Lender** ” means any Lender that is not a U.S. Person.

“ **GAAP** ” means generally accepted accounting principles in the United States of America consistent with those applied in the preparation of the financial statements referred to in Section 4.01(e).

“ **Governmental Authority** ” means the government of the United States of America, any other nation, or any political subdivision of the United States of America or any other nation, whether state or local, any agency, authority, instrumentality, regulatory body, court, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any supra-national bodies such as the European Union or the European Central Bank), and any group or body charged with setting financial accounting or regulatory capital rules or standards (including, without limitation, the Financial Accounting Standards Board, the Bank for International Settlements or the Basel Committee on Banking Supervision or any successor or similar authority to any of the foregoing).

“ **Guarantor** ” has the meaning assigned to such term in the preamble hereto.

“ **Guaranty** ” means the guaranty of the Guarantor pursuant to Article X of this Agreement.

“ **Hazardous Materials** ” means any asbestos; flammables; volatile hydrocarbons; industrial solvents; explosive or radioactive materials; hazardous wastes; toxic substances; liquefied natural gas; natural gas liquids; synthetic gas; oil, petroleum, or related materials and any constituents, derivatives, or byproducts thereof or additives thereto; or any other material, substance, waste, element or compound (including any product) regulated pursuant to any Environmental Law, including, without limitation, substances defined as “hazardous substances,” “hazardous materials,” “contaminants,” “pollutants,” “hazardous wastes,” “toxic substances,” “solid waste,” or “extremely hazardous substances” in (i) CERCLA, (ii) the Hazardous Materials Transportation Act, 49 U.S.C. Section 1801 et seq., (iii) the Resource Conservation and Recovery Act, 42 U.S.C. Section 6901 et seq., (iv) the Federal Water Pollution Control Act, as amended, 33 U.S.C. Section 1251 et seq., (v) the Clean Air Act, 42 U.S.C. Section 7401 et seq., (vi) the Toxic Substances Control Act, 15 U.S.C. Section 2601 et seq., (vii) the Safe Drinking Water Act, 42 U.S.C. Section 300f et seq., or (viii) foreign, state, local or municipal law.

“ **Indebtedness** ” of any Person means (without duplication) (a) Debt for Borrowed Money, (b) obligations of such Person to pay the deferred purchase price of property or services, except trade accounts payable arising in the ordinary course of business which are not overdue, (c) all obligations, contingent or otherwise, of such Person in respect of any letters of credit, bankers’ acceptances or interest rate, currency or commodity swap, cap or floor arrangements, (d) all indebtedness of others secured by (or for which the holder of such indebtedness has an existing right, contingent or otherwise, to be secured by) any Lien on property owned or acquired by such Person, whether or not the indebtedness secured thereby has been assumed, (e) all amounts payable by such Person in connection with mandatory redemptions or repurchases of preferred stock, and (f) obligations of such Person under direct or indirect guarantees in respect of, and obligations (contingent or otherwise) to purchase or otherwise acquire, or otherwise to assure a creditor against loss in respect of, indebtedness or obligations of others of the kinds referred to in clauses (a) through (e) above.

“ **Indemnified Taxes** ” means (a) Taxes, other than Excluded Taxes, imposed on or with respect to any payment made by or on account of any obligation of any Credit Party under any Credit Document and (b) to the extent not otherwise described in (a), Other Taxes.

“ **Indemnitee** ” has the meaning set forth in Section 11.03.

“ **Index Debt** ” means the senior unsecured long-term debt securities of the Borrower, without third-party credit enhancement provided by a Person other than the Guarantor.

“ **Ineligible Institution** ” has the meaning assigned to such term in Section 11.04(b).

“ **Information** ” has the meaning set forth in Section 11.12.

“ **Insufficiency** ” means, with respect to any Plan, the amount, if any, by which the present value of all vested and unvested accrued benefits under such Plan exceeds the fair market value of assets allocable to such benefits, all determined as of the then most recent valuation date for such Plan using actuarial assumptions used in determining such Plan’s target normal cost for purposes of Section 430(b) of the Code.

“ **Interest Election Request** ” means a request by the Borrower to convert or continue all or a portion of any Borrowing in accordance with Section 2.06.

“ **Interest Payment Date** ” means (a) with respect to any ABR Loan, the last Business Day of each March, June, September and December, (b) with respect to any Eurodollar Loan, the last day of the Interest Period applicable to the Borrowing of which such Loan is a part and, in the case of a Eurodollar Borrowing with an Interest Period of more than three months’ duration, the day that is three months after the first day of such Interest Period and (c) with respect to any Loan, the Maturity Date.

“ **Interest Period** ” means with respect to any Eurodollar Borrowing, the period commencing on the date of such Borrowing and ending on the numerically corresponding day in the calendar month that is one, two, three or six months thereafter, as the Borrower

may elect; provided that (a) if any Interest Period would end on a day other than a Business Day, such Interest Period shall be extended to the next succeeding Business Day unless such next succeeding Business Day would fall in the next calendar month, in which case such Interest Period shall end on the next preceding Business Day; and (b) any Interest Period that commences on the last Business Day of a calendar month (or on a day for which there is no numerically corresponding day in the last calendar month of such Interest Period) shall end on the last Business Day of the last calendar month of such Interest Period. For purposes hereof, the date of a Borrowing initially shall be the date on which such Borrowing is made, and thereafter shall be the effective date of the most recent conversion or continuation of such Borrowing.

“ **Lenders** ” means the Persons listed on Schedule 2.01, including any such Person identified thereon or in the signature pages hereto as a Lead Arranger, and any other Person that shall have become a party hereto pursuant to an Assignment and Assumption, other than any such Person that ceases to be a party hereto pursuant to an Assignment and Assumption.

“ **LIBO Rate** ” means, with respect to any Eurodollar Borrowing for any applicable Interest Period, the interest rate *per annum* determined by the Administrative Agent equal to the rate which appears on the Bloomberg Page BBAM1 (or on such other substitute Bloomberg page that displays rates at which US dollar deposits are offered by leading banks in the London interbank deposit market), or, if there shall at any time, for any reason, no longer exist a Bloomberg Page BBAM1 (or any substitute page), the rate which is quoted by another source reasonably selected by the Administrative Agent as an authorized information vendor for the purpose of displaying rates at which U.S. dollar deposits are offered by leading banks in the London interbank deposit market (for purposes of this definition, an “ **Alternate Source** ”), at approximately 11:00 a.m., London time, two (2) Business Days prior to the commencement of such Interest Period as the London interbank offered rate for U.S. dollars for an amount comparable to such Eurodollar Borrowing and having a borrowing date and a maturity comparable to such Interest Period (or if there shall at any time, for any reason, no longer exist a Bloomberg Page BBAM1 (or any substitute page) or any Alternate Source, a comparable replacement rate reasonably determined by the Administrative Agent at such time (which determination shall be conclusive and binding absent manifest error)); provided that, if the LIBO Rate shall be less than zero, such rate shall be deemed to be zero for purposes of this Agreement. It is understood and agreed that all of the terms and conditions of this definition of “LIBO Rate” shall be subject to Section 2.14. The Administrative Agent shall give prompt notice to the Borrower of the LIBO Rate as determined or adjusted in accordance herewith, which determination shall be conclusive and binding absent manifest error.

“ **Lien** ” has the meaning set forth in Section 6.01(a).

“ **Loans** ” means the loans made by the Lenders to the Borrower pursuant to this Agreement.

“ **Margin Stock** ” means margin stock within the meaning of Regulations U and X issued by the Board.

“ **Material Adverse Effect** ” means a material adverse effect on (a) the business, assets, operations, condition (financial or otherwise) or prospects of the Guarantor and its Subsidiaries taken as a whole; (b) the validity or enforceability of any of Credit Documents or the rights, remedies and benefits available to the Administrative Agent and the Lenders thereunder; or (c) the ability of the Borrower or the Guarantor to consummate the Transactions.

“ **Material Subsidiary** ” means at any time the Borrower, NIPSCO and each Subsidiary of the Guarantor, other than the Borrower and NIPSCO, in respect of which:

the Guarantor’s and its other Subsidiaries’ investments in and advances to such Subsidiary and its Subsidiaries exceed 10% of the consolidated total assets of the Guarantor and its Subsidiaries taken as a whole, as of the end of the most recent fiscal year; or

the Guarantor’s and its other Subsidiaries’ proportionate interest in the total assets (after intercompany eliminations) of such Subsidiary and its Subsidiaries exceeds 10% of the consolidated total assets of the Guarantor and its Subsidiaries as of the end of the most recent fiscal year; or

(a) the Guarantor’s and its other Subsidiaries’ equity in the income from continuing operations before income taxes, extraordinary items and cumulative effect of a change in accounting principles of such Subsidiary and its Subsidiaries exceeds 10% of the consolidated income of the Guarantor and its Subsidiaries for the most recent fiscal year.

“ **Maturity Date** ” means the earlier of (a) March 29, 2019 and (b) the date upon which (i) the Commitments are terminated if not previously expired and (ii) amounts payable under this Agreement are accelerated pursuant to Section 8.01 or otherwise.

“ **Moody’s** ” means Moody’s Investors Service, Inc., and any successor thereto.

“ **Multiemployer Plan** ” means a multiemployer plan as defined in Section 4001(a)(3) of ERISA that is subject to Title IV of ERISA and to which the Guarantor or an ERISA Affiliate makes, or is required to make, contributions or otherwise has any liability (including contingent liability).

“ **Multiple Employer Plan** ” means a single employer plan, as defined in Section 4001(a)(15) of ERISA, which (a) is maintained for employees of the Guarantor or an ERISA Affiliate and at least one Person other than the Guarantor and its ERISA Affiliates, or (b) was so maintained and in respect of which the Guarantor or an ERISA Affiliate could have liability under Section 4064 or 4069 of ERISA in the event that such plan has been or were to be terminated.

“ **NIPSCO** ” means Northern Indiana Public Service Company, an Indiana corporation.

“ **Non-Recourse Debt** ” means Indebtedness of the Guarantor or any of its Subsidiaries which is incurred in connection with the acquisition, construction, sale, transfer or other disposition of specific assets, to the extent recourse, whether contractual or as a matter of law, for non-payment of such Indebtedness is limited (a) to such assets or (b) if such assets are (or are to be) held by a Subsidiary formed solely for such purpose, to such Subsidiary or the Capital Stock of such Subsidiary.

“ **Obligations** ” means all amounts, direct or indirect, contingent or absolute, of every type or description, and at any time existing and whenever incurred (including, without limitation, after the commencement of any bankruptcy proceeding), owing to the Administrative Agent or any Lender pursuant to the terms of this Agreement or any other Credit Document.

“ **OFAC** ” means the Office of Foreign Assets Control of the U.S. Department of the Treasury.

“ **Other Connection Taxes** ” means, with respect to any Recipient, Taxes imposed as a result of a present or former connection between such Recipient and the jurisdiction imposing such Tax (other than connections arising from such Recipient having executed, delivered, become a party to, performed its obligations under, received payments under, received or perfected a security interest under, engaged in any other transaction pursuant to or enforced any Credit Document, or sold or assigned an interest in any Loan or Credit Document).

“ **Other Taxes** ” means any and all present or future stamp, documentary or similar Taxes, charges or similar levies arising from any payment made hereunder or from the execution, delivery or enforcement of, or otherwise with respect to, this Agreement, except any such Taxes that are Other Connection Taxes imposed with respect to an assignment.

“ **Outstanding Loans** ” means, as to any Lender at any time, the aggregate principal amount of all Loans made or maintained by such Lender then outstanding.

“ **Parent** ” means, with respect to any Lender, any Person as to which such Lender is, directly or indirectly, a subsidiary.

“ **Participant** ” has the meaning set forth in Section 11.04.

“ **Participant Register** ” has the meaning set forth in Section 11.04.

“ **PBGC** ” means the Pension Benefit Guaranty Corporation referred to and defined in ERISA and any successor entity performing similar functions.

“ **Person** ” means any natural person, corporation, limited liability company, trust, joint venture, association, company, partnership, Governmental Authority or other entity.

“ **Plan** ” means any employee pension benefit plan (other than a Multiemployer Plan) subject to the provisions of Title IV of ERISA or Section 412 of the Code or Section 302 of

ERISA, and in respect of which the Guarantor or any ERISA Affiliate is (or, if such plan were terminated, would under Section 4069 of ERISA be deemed to be) an “employer” as defined in Section 3(5) of ERISA.

“**Pricing Grid**” means the pricing grid attached hereto as Annex A.

“**Prime Rate**” means the rate of interest *per annum* publicly announced from time to time by PNC Bank, National Association as its prime rate in effect at its principal office in Pittsburgh, Pennsylvania; each change in the Prime Rate shall be effective from and including the date such change is publicly announced as being effective.

“**Project**” means an energy or power generation, transmission or distribution facility (including, without limitation, a thermal energy generation, transmission or distribution facility and an electric power generation, transmission or distribution facility (including, without limitation, a cogeneration facility)), a gas production, transportation or distribution facility, or a minerals extraction, processing or distribution facility, together with (a) all related electric power transmission, fuel supply and fuel transportation facilities and power supply, thermal energy supply, gas supply, minerals supply and fuel contracts, (b) other facilities, services or goods that are ancillary, incidental, necessary or reasonably related to the marketing, development, construction, management, servicing, ownership or operation of such facility, (c) contractual arrangements with customers, suppliers and contractors in respect of such facility, and (d) any infrastructure facility related to such facility, including, without limitation, for the treatment or management of waste water or the treatment or remediation of waste, pollution or potential pollutants.

“**Project Financing**” means Indebtedness incurred by a Project Financing Subsidiary to finance (a) the development and operation of the Project such Project Financing Subsidiary was formed to develop or (b) activities incidental thereto; provided that such Indebtedness does not include recourse to the Guarantor or any of its other Subsidiaries other than (x) recourse to the Capital Stock in any such Project Financing Subsidiary, and (y) recourse pursuant to a Contingent Guaranty.

“**Project Financing Subsidiary**” means any Subsidiary of the Guarantor (a) that (i) is not a Material Subsidiary, and (ii) whose principal purpose is to develop a Project and activities incidental thereto (including, without limitation, the financing and operation of such Project), or to become a partner, member or other equity participant in a partnership, limited liability company or other entity having such a principal purpose, and (b) substantially all the assets of which are limited to the assets relating to the Project being developed or Capital Stock in such partnership, limited liability company or other entity (and substantially all of the assets of any such partnership, limited liability company or other entity are limited to the assets relating to such Project); provided that such Subsidiary incurs no Indebtedness other than in respect of a Project Financing.

“**Recipient**” means, as applicable, (a) the Administrative Agent and (b) any Lender.

“**Register**” has the meaning set forth in Section 11.04.

“ **Related Parties** ” means, with respect to any specified Person, such Person’s Affiliates and the respective directors, officers, employees, agents, advisors and representatives of such Person and such Person’s Affiliates.

“ **Required Lenders** ” means, subject to the terms of Section 2.20, Lenders having more than 50% in aggregate amount of the Commitments, or if the Commitments shall have been terminated, of the aggregate amount of the Outstanding Loans of all Lenders.

“ **Responsible Officer** ” of a Credit Party means any of (a) the President, the chief financial officer, the chief accounting officer and the Treasurer of such Credit Party and (b) any other officer of such Credit Party whose responsibilities include monitoring compliance with this Agreement.

“ **Sanctioned Country** ” means, at any time, a country, region or territory which is, or whose government is, the subject or target of any Sanctions.

“ **Sanctioned Person** ” means, at any time, (a) any Person that is the subject or target of Sanctions, (b) any Person operating, organized or resident in a Sanctioned Country or (c) any Person owned or controlled by any such Person.

“ **Sanctions** ” means economic or financial sanctions or trade embargoes imposed, administered or enforced from time to time by (a) the U.S. government, including those administered by OFAC or the U.S. Department of State or (b) the United Nations Security Council, the European Union, any member state of the European Union, or Her Majesty’s Treasury of the United Kingdom.

“ **S&P** ” means Standard & Poor’s Ratings Services, a Standard & Poor’s Financial Services LLC business, and any successor thereto.

“ **Subsidiary** ” means, with respect to any Person, any corporation or other entity of which at least a majority of the outstanding shares of stock or other ownership interests having by the terms thereof ordinary voting power to elect a majority of the Board of Directors of such corporation or other entity (irrespective of whether or not at the time stock or other equity interests of any other class or classes of such corporation or other entity shall have or might have voting power by reason of the happening of any contingency) is at the time directly or indirectly owned or controlled by such Person or one or more of the Subsidiaries of such Person.

“ **Substantial Subsidiaries** ” has the meaning set forth in Section 8.01.

“ **Syndication Agent** ” means JPMorgan Chase Bank, N.A., in its capacity as syndication agent for the Lenders hereunder.

“ **Taxes** ” means any and all present or future taxes, levies, imposts, duties, deductions, withholdings, assessments, fees or other charges imposed by any Governmental Authority,

including any interest, penalties and additions to tax imposed thereon or in connection therewith.

“ **Transactions** ” means the execution, delivery and performance by the Borrower and the Guarantor of this Agreement and the Borrowing of Loans hereunder.

“ **Type** ”, when used in reference to any Loan or Borrowing, refers to whether the rate of interest on such Loan, or on the Loans comprising such Borrowing, is determined by reference to the LIBO Rate or the Alternate Base Rate.

“ **Unused Fee** ” has the meaning assigned to such term in Section 2.12(a).

“ **U.S. Person** ” means any Person that is a “United States Person” as defined in Section 7701(a)(30) of the Code.

“ **U.S. Tax Compliance Certificate** ” has the meaning specified in Section 2.17(e).

“ **Utility Subsidiary** ” means a Subsidiary of the Guarantor that is subject to regulation by a Governmental Authority (federal, state or otherwise) having authority to regulate utilities, and any Wholly-Owned Subsidiary thereof.

“ **Wholly-Owned Subsidiary** ” means, with respect to any Person, any corporation or other entity of which all of the outstanding shares of stock or other ownership interests in which, other than directors’ qualifying shares (or the equivalent thereof), are at the time directly or indirectly owned or controlled by such Person or one or more of the Subsidiaries of such Person.

“ **Withdrawal Liability** ” means liability to a Multiemployer Plan as a result of a complete or partial withdrawal from such Multiemployer Plan, as such terms are defined in Sections 4201, 4203 and 4205 of ERISA.

“ **Withholding Agent** ” means any Credit Party and the Administrative Agent.

“ **Write-Down and Conversion Powers** ” means, with respect to any EEA Resolution Authority, the write-down and conversion powers of such EEA Resolution Authority from time to time under the Bail-In Legislation for the applicable EEA Member Country, which write-down and conversion powers are described in the EU Bail-In Legislation Schedule.

SECTION 1.02. Classification of Loans and Borrowings. *For purposes of this Agreement, Loans may be classified and referred to by Type (e.g., a “Eurodollar Loan”). Borrowings also may be classified and referred to by Type (e.g., a “Eurodollar Borrowing”).*

SECTION 1.03. Terms Generally. *The definitions of terms herein shall apply equally to the singular and plural forms of the terms defined. Whenever the context may require, any pronoun shall include the corresponding masculine, feminine and neuter forms. The words “include”, “includes” and “including” shall be deemed to be followed by the phrase “without limitation”. The word “or” shall not be exclusive. The word “will” shall be construed to have*

the same meaning and effect as the word “shall”. The word “law” shall be construed as referring to all statutes, rules, regulations, codes and other laws (including official rulings and interpretations thereunder having the force of law or with which affected Persons customarily comply), and all judgments, orders and decrees, of all Governmental Authorities. The word “regulation” shall be construed as referring to all regulations, rules, official directives, requests or guidelines (whether or not having the force of law) of any Governmental Authority. Unless the context requires otherwise (a) any definition of or reference to any agreement, instrument or other document herein shall be construed as referring to such agreement, instrument or other document as from time to time amended, restated, supplemented or otherwise modified (subject to any restrictions on such amendments, restatements, supplements or modifications set forth herein), (b) any definition of or reference to any statute, rule or regulation shall be construed as referring thereto as from time to time amended, supplemented or otherwise modified (including by succession of comparable successor laws), (c) any reference herein to any Person shall be construed to include such Person’s successors and assigns, (d) the words “herein”, “hereof” and “hereunder”, and words of similar import, shall be construed to refer to this Agreement in its entirety and not to any particular provision hereof, (e) all references herein to Articles, Sections, Exhibits and Schedules shall be construed to refer to Articles and Sections of, and Exhibits and Schedules to, this Agreement and (f) the words “asset” and “property” shall be construed to have the same meaning and effect and to refer to any and all tangible and intangible assets and properties, including cash, securities, accounts and contract rights. The terms “knowledge of”, “awareness of” and “receipt of notice of” in relation to a Credit Party, and other similar expressions, mean knowledge of, awareness of, or receipt of notice by, a Responsible Officer of such Credit Party.

SECTION 1.04. Accounting Terms; GAAP. Except as otherwise expressly provided herein, all terms of an accounting or financial nature shall be construed in accordance with GAAP, as in effect from time to time; provided that, if the Borrower notifies the Administrative Agent that the Borrower requests an amendment to any provision hereof to eliminate the effect of any change occurring after the Effective Date in GAAP or in the application thereof on the operation of such provision (or if the Administrative Agent notifies the Borrower that the Required Lenders request an amendment to any provision hereof for such purpose), regardless of whether any such notice is given before or after such change in GAAP or in the application thereof, then such provision shall be interpreted on the basis of GAAP as in effect and applied immediately before such change shall have become effective until such notice shall have been withdrawn or such provision amended in accordance herewith. Notwithstanding any other provision contained herein, all terms of an accounting or financial nature used herein shall be construed, and all computations of amounts and ratios referred to herein shall be made (i) without giving effect to any election under Accounting Standards Codification 825-10-25 (previously referred to as Statement of Financial Accounting Standards 159) (or any other Accounting Standards Codification or Financial Accounting Standard having a similar result or effect) to value any Indebtedness or other liabilities of the Borrower or any Subsidiary at “fair value”, as defined therein and (ii) without giving effect to any treatment of Indebtedness in respect of convertible debt instruments under Financial Accounting Standards Board Staff Position APB 14-1 to value any such Indebtedness in a reduced or bifurcated manner as described therein, and such Indebtedness shall at all times be valued at the full stated principal amount thereof.

Article II
THE CREDITS

SECTION 2.01. Commitments. *Subject to the terms and conditions set forth herein, each Lender severally agrees to make term loans to the Borrower in Dollars in not more than five draws from time to time during the Availability Period, in an aggregate principal amount not to exceed such Lender's then-remaining Commitment at such time. Amounts repaid or prepaid in respect of the Loans may not be reborrowed.*

SECTION 2.02. Loans and Borrowing; Request for Borrowing.

(a) Each Loan shall be made as part of a Borrowing consisting of Loans made by the Lenders ratably in accordance with their respective Commitments. The failure of any Lender to make any Loan required to be made by it shall not relieve any other Lender of its obligations hereunder; provided that the Commitments of the Lenders are several and no Lender shall be responsible for any other Lender's failure to make Loans as required.

(b) Subject to Section 2.14, each Borrowing shall be comprised entirely of ABR Loans or Eurodollar Loans or some combination thereof as the Borrower may request in accordance herewith. Each Lender at its option may make any Eurodollar Loan by causing any domestic or foreign branch or Affiliate of such Lender to make such Loan; provided that any exercise of such option shall not affect the obligation of the Borrower to repay such Loan in accordance with the terms of this Agreement.

(c) At the commencement of each Interest Period for any Eurodollar Borrowing, such Borrowing shall be in an aggregate amount that is an integral multiple of \$5,000,000 and not less than \$10,000,000. At the time that each ABR Borrowing is made, such Borrowing shall be in an aggregate amount that is an integral multiple of \$1,000,000; provided that an ABR Borrowing may be in an aggregate amount that is equal to the entire unused balance of the Aggregate Commitments. Borrowings of more than one Type may be outstanding at the same time; provided that there shall not at any time be more than a total of five Borrowings outstanding under this Agreement.

(d) To request a Borrowing, the Borrower shall notify the Administrative Agent of such request by telephone (i) in the case of a Eurodollar Borrowing, not later than 11:00 a.m., New York City time, three Business Days before the date of the proposed Borrowing; provided that, with respect to any Borrowing on the Effective Date, the Administrative Agent shall have received a written indemnification letter substantially consistent with the terms of Section 2.16 concurrently with such request; or (ii) in the case of an ABR Borrowing, not later than 11:00 a.m., New York City time, on the date of the proposed Borrowing. Subject to the terms of the preceding sentence, Borrowings on the Effective Date may be Eurodollar Borrowings. Such telephonic Borrowing Request shall be irrevocable and shall be confirmed promptly by hand delivery or telecopy to the Administrative Agent of a written Borrowing Request in substantially the form of Exhibit C (or such other form as shall be approved by the Administrative Agent) signed by an Authorized Officer of the Borrower. Each such telephonic and written Borrowing Request shall specify the following information:

- (i) the aggregate amount of the requested Borrowing;
- (ii) the date of such Borrowing, which shall be a Business Day;
- (iii) whether such Borrowing is to be an ABR Borrowing or a Eurodollar Borrowing and the aggregate amount of each Type of Borrowing (if applicable); and
- (iv) in the case of a Eurodollar Borrowing, the initial Interest Period to be applicable thereto, which shall be a period contemplated by the definition of the term “Interest Period”.

If no election as to the Type of Borrowing is specified, then the requested Borrowing shall be an ABR Borrowing. If no Interest Period is specified with respect to any requested Eurodollar Borrowing, then the Borrower shall be deemed to have selected an Interest Period of one month’s duration. Promptly following receipt of a Borrowing Request in accordance with this Section, the Administrative Agent shall advise each Lender of the details thereof and of the amount of such Lender’s Loan to be made as part of the requested Borrowing.

(e) Notwithstanding any other provision of this Agreement, the Borrower shall not be entitled to request, or to elect to convert or continue, any Eurodollar Borrowing if the Interest Period requested with respect thereto would end after the Maturity Date.

SECTION 2.03. [Intentionally Omitted].

SECTION 2.04. [Intentionally Omitted].

SECTION 2.05. Funding of Borrowings.

(a) Each Lender shall make each Loan to be made by it hereunder on the proposed date thereof by wire transfer of immediately available funds by 1:00 p.m., New York City time, to the account of the Administrative Agent designated by it for such purpose by notice to the Lenders. The Administrative Agent will make such Loans available to the Borrower by promptly crediting the amounts so received, in like funds, to an account established and maintained by the Borrower at the Administrative Agent’s office in New York City.

(b) Unless the Administrative Agent shall have received notice from a Lender prior to the proposed time of any Borrowing that such Lender will not make available to the Administrative Agent such Lender’s share of such Borrowing, the Administrative Agent may assume that such Lender has made such share available on such date in accordance with paragraph (a) of this Section and may, in reliance upon such assumption, make available to the Borrower a corresponding amount. In such event, if a Lender has not in fact made its share of the applicable Borrowing available to the Administrative Agent, then the applicable Lender and the Borrower severally agree to pay to the Administrative Agent forthwith on demand such corresponding amount with interest thereon, for each day from and including the date such amount is made available to the Borrower to but excluding the date of payment to the Administrative Agent, at (i) in the case of such Lender, the Federal Funds Effective Rate or (ii) in the case of the Borrower, the interest rate applicable to ABR

Loans. If such Lender pays such amount to the Administrative Agent, then such amount shall constitute such Lender's Loan included in such Borrowing.

SECTION 2.06. Interest Elections.

(a) Each Borrowing initially shall be of the Type or Types specified in the applicable Borrowing Request and, in the case of a Eurodollar Borrowing, shall have an initial Interest Period as specified in such Borrowing Request, subject to Section 2.02(d)(i). Thereafter, the Borrower may elect to convert such Borrowing to a different Type or to continue such Borrowing and, in the case of a Eurodollar Borrowing, may elect Interest Periods therefor, all as provided in this Section. The Borrower may elect different options with respect to different portions of the affected Borrowing, in which case each such portion shall be allocated ratably among the Lenders holding the Loans comprising such Borrowing, and the Loans comprising each such portion shall be considered a separate Borrowing.

(b) To make an election pursuant to this Section, the Borrower shall notify the Administrative Agent of such election by telephone by the time that a Borrowing Request would be required under Section 2.02 if the Borrower were requesting a Borrowing of the Type resulting from such election to be made on the effective date of such election; provided, however, with regard to any election pursuant to this Section 2.06 related to a Eurodollar Borrowing, notice of election shall be delivered not later than 11:00 a.m., New York City time, three Business Days prior to the effective date of such election. Each such telephonic Interest Election Request shall be irrevocable and shall be confirmed promptly by hand delivery or telecopy to the Administrative Agent of a written Interest Election Request in substantially the form of Exhibit G (or such other form as shall be approved by the Administrative Agent) and signed by the Borrower.

(c) Each telephonic and written Interest Election Request shall specify the following information in compliance with Section 2.02:

(i) the Borrowing to which such Interest Election Request applies and, if different options are being elected with respect to different portions of such Borrowing, the portions thereof to be allocated to each resulting Type of Borrowing (in which case the information to be specified pursuant to clauses (iii) and (iv) below shall be specified for each resulting Borrowing);

(ii) the effective date of the election made pursuant to such Interest Election Request, which shall be a Business Day;

(iii) whether the resulting Borrowing is to be an ABR Borrowing or a Eurodollar Borrowing; and

(iv) if the resulting Borrowing is a Eurodollar Borrowing, the Interest Period to be applicable thereto after giving effect to such election, which shall be a period contemplated by the definition of the term "Interest Period".

If any such Interest Election Request requests a Eurodollar Borrowing but does not specify an Interest Period, then the Borrower shall be deemed to have selected an Interest Period of one month's duration.

(d) Promptly following receipt of an Interest Election Request, the Administrative Agent shall advise each Lender of the details thereof and of such Lender's portion of each resulting Type of Borrowing.

(e) If the Borrower fails to deliver a timely Interest Election Request with respect to a Eurodollar Borrowing prior to the end of the Interest Period applicable thereto, then, unless such Borrowing is repaid as provided herein, at the end of such Interest Period such Borrowing shall be converted to an ABR Borrowing. Notwithstanding any contrary provision hereof, if an Event of Default has occurred and is continuing and the Administrative Agent, at the request of the Required Lenders, so notifies the Borrower, then, so long as an Event of Default is continuing (i) no outstanding Borrowing may be converted to or continued as a Eurodollar Borrowing and (ii) unless repaid, each Eurodollar Borrowing shall be converted to an ABR Borrowing at the end of the Interest Period applicable thereto.

SECTION 2.07. Termination of Commitments. Unless previously terminated, the Commitments shall (a) terminate and be reduced to zero automatically and permanently at 5 p.m. New York City time on September 30, 2016 (after giving effect to any Loans to be advanced on such date) or, if earlier, concurrently with the funding of all of the Lenders' unadvanced Commitments and (b) reduce in an amount equal to each Lender's Applicable Percentage of each Loan concurrently with the funding thereof by such Lender.

SECTION 2.08. [Reserved].

SECTION 2.09. Optional Reduction or Termination of Commitments.

(a) The Borrower may at any time terminate, or from time to time reduce, the Commitments; provided that each reduction of the Commitments shall be in an amount that is an integral multiple of \$5,000,000.

(b) The Borrower shall notify the Administrative Agent of any election to terminate or reduce the Commitments under Section 2.09(a) at least five Business Days prior to the effective date of such termination or reduction, specifying such election and the effective date thereof. Promptly following receipt of any notice, the Administrative Agent shall advise the Lenders of the contents thereof. Each notice delivered by the Borrower pursuant to this Section shall be irrevocable; provided that a notice of termination of the Commitments delivered by the Borrower may state that such notice is conditioned upon the effectiveness of other credit facilities, in which case such notice may be revoked by the Borrower (by notice to the Administrative Agent on or prior to the specified effective date) if such condition is not satisfied. Any termination or reduction of the Commitments shall be permanent.

(c) Each reduction of the Commitments pursuant to this Section 2.09 shall be made ratably among the Lenders in accordance with their respective Commitments immediately preceding such reduction.

SECTION 2.10. Repayment of Loans; Evidence of Debt.

(a) The Borrower hereby unconditionally promises to pay to the Administrative Agent for the account of each Lender the then unpaid principal amount of each Loan on the Maturity Date.

(b) Each Lender shall maintain in accordance with its usual practice an account or accounts evidencing the indebtedness of the Borrower to such Lender resulting from the Loans made by such Lender, including the amounts of principal and interest payable and paid to such Lender from time to time hereunder.

(c) The Administrative Agent shall maintain accounts in which it shall record (i) the amount of each Loan made hereunder, the Type thereof and the Interest Period applicable thereto, (ii) the amount of any principal or interest due and payable or to become due and payable from the Borrower to each Lender hereunder and (iii) the amount of any sum received by the Administrative Agent hereunder for the account of the Lenders and each Lender's share thereof.

(d) The Register and the corresponding entries made in the accounts maintained pursuant to paragraph (b) or (c) of this Section shall be *prima facie* evidence of the existence and amounts of the obligations recorded therein; provided that the failure of any Lender or the Administrative Agent to maintain such accounts or any error therein shall not in any manner affect the obligation of the Borrower to repay the Loans in accordance with the terms of this Agreement.

(e) Any Lender may request that Loans made by it be evidenced by a promissory note. In such event, the Borrower shall prepare, execute and deliver to such Lender a promissory note payable to such Lender and its registered assigns and in substantially the form of Exhibit F. Thereafter, the Loans evidenced by such promissory note and interest thereon shall at all times (including after assignment pursuant to Section 11.04) be represented by one or more promissory notes in such form payable to the payee named therein and its registered assigns.

SECTION 2.11. Optional Prepayment of Loans.

(a) The Borrower shall have the right at any time and from time to time to prepay any Borrowing in whole or in part, subject to prior notice in accordance with paragraph (b) of this Section.

(b) The Borrower shall notify the Administrative Agent by telephone (confirmed by telecopy) of any prepayment hereunder (i) in the case of prepayment of a Eurodollar Borrowing, not later than 11:00 a.m., New York City time, three Business Days before the date of prepayment or (ii) in the case of prepayment of an ABR Borrowing, not later than 11:00 a.m., New York City time, one Business Day before the date of prepayment. Each such notice shall be irrevocable and shall specify the prepayment date and the principal amount of each Borrowing or portion thereof to be prepaid; provided that, if a notice of prepayment is given in connection with a conditional

notice of termination of the Commitments as contemplated by Section 2.09, then such notice of prepayment may be revoked if such notice of termination is revoked in accordance with Section 2.09. Each such telephonic notice of prepayment shall be confirmed promptly by hand delivery or teletype to the Administrative Agent of a prepayment notice in substantially the form of Exhibit H (or such other form as shall be approved by the Administrative Agent) and signed by the Borrower. Promptly following receipt of any such notice relating to a Borrowing, the Administrative Agent shall advise the Lenders of the contents thereof. Each partial prepayment of any Borrowing shall be in an amount that would be permitted in the case of an advance of a Borrowing of the same Type as provided in Section 2.02, it being understood that the foregoing minimum shall not apply to the prepayment in whole of the outstanding Loans of all Lenders. Each prepayment of a Borrowing shall be applied ratably to the Loans included in the prepaid Borrowing. Prepayments shall be accompanied by accrued interest to the extent required by Section 2.13 and by any amounts payable under Section 2.16 in connection with such prepayment.

SECTION 2.12. Fees.

(a) The Borrower agrees to pay to the Administrative Agent for the account of each Lender an unused fee (the “Unused Fees”), which shall accrue at the applicable rate set forth under the heading “Unused Fees” on the Pricing Grid on the average daily amount of the unused Commitment of such Lender during the period from and including the Effective Date to but excluding the date on which all or any portion of such Commitment terminates. Accrued Unused Fees shall be payable in arrears on the last day of March, June, September and December of each year and on the date on which all or any portion of the Commitments terminate, commencing on the first such date to occur after the date hereof. All Unused Fees shall be computed on the basis of a year of 360 days and shall be payable for the actual number of days elapsed (including the first day but excluding the last day).

(b) The Borrower agrees to pay to the Arrangers and the Administrative Agent, in each case, for its own account and for the account of the other Persons entitled thereto, the fees provided for in the applicable fee letters dated March 8, 2016, executed and delivered with respect to the term loan facility provided for herein, in each case, in the amounts and at the times set forth therein and in immediately available funds. All fees payable hereunder shall be paid in immediately available funds. Fees due and paid shall not be refundable under any circumstances.

SECTION 2.13. Interest.

(a) The Loans comprising each ABR Borrowing shall bear interest at a rate *per annum* equal to the Alternate Base Rate plus the Applicable Rate.

(b) The Loans comprising each Eurodollar Borrowing shall bear interest at a rate *per annum* equal to the LIBO Rate for the Interest Period in effect for such Borrowing plus the Applicable Rate.

(c) Notwithstanding the foregoing, if any principal of or interest on any Loan or any fee or other amount payable by the Borrower hereunder is not paid when due, whether at stated maturity, upon acceleration or otherwise, such overdue amount shall bear interest, after as well as before

judgment, at a rate *per annum* equal to (i) in the case of overdue principal of any Loan, 2% plus the rate otherwise applicable to such Loan as provided above or (ii) in the case of any other amount, 2% plus the rate applicable to ABR Loans as provided above.

(d) Accrued interest on each Loan shall be payable in arrears on each Interest Payment Date for such Loan; provided that (i) interest accrued pursuant to paragraph (c) of this Section shall be payable on demand, (ii) in the event of any repayment or prepayment of any Loan, accrued interest on the principal amount repaid or prepaid shall be payable on the date of such repayment or prepayment, (iii) in the event of any conversion of any Eurodollar Loan prior to the end of the current Interest Period therefor, accrued interest on such Loan shall be payable on the effective date of such conversion and (iv) all accrued interest shall be payable upon termination of the Commitments.

(e) All interest hereunder shall be computed on the basis of a year of 360 days, except that interest computed by reference to the Alternate Base Rate at times when the Alternate Base Rate is based on the Prime Rate shall be computed on the basis of a year of 365 days (or 366 days in a leap year), and in each case shall be payable for the actual number of days elapsed (including the first day but excluding the last day). The applicable Alternate Base Rate or LIBO Rate shall be determined by the Administrative Agent, and such determination shall be conclusive absent manifest error.

SECTION 2.14. *Alternate Rate of Interest. If prior to the commencement of any Interest Period for a Eurodollar Borrowing:*

(a) the Administrative Agent reasonably determines (which determination shall be conclusive absent manifest error) that adequate and reasonable means do not exist for ascertaining the LIBO Rate for such Interest Period; or

(b) the Administrative Agent is advised by the Required Lenders that the LIBO Rate for such Interest Period will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Loans included in such Borrowing for such Interest Period;

then the Administrative Agent shall give notice thereof to the Borrower and the Lenders by telephone or telecopy as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders that the circumstances giving rise to such notice no longer exist, (i) any Interest Election Request that requests the conversion of any Borrowing to, or continuation of any Borrowing as, a Eurodollar Borrowing shall be ineffective and (ii) if any Borrowing Request requests a Eurodollar Borrowing, such Borrowing shall be made as an ABR Borrowing.

SECTION 2.15. *Increased Costs.*

(a) If any Change in Law shall:

(i) impose, modify or deem applicable any reserve, special deposit, liquidity, compulsory loan, insurance charge or similar assessment or requirement against assets of, deposits with or for the account of, or credit extended by, any Lender (except any such reserve requirement described in paragraph (e) of this Section);

(ii) impose on any Lender or the London interbank market any other condition affecting this Agreement or Eurodollar Loans made by such Lender or participation therein; or

(iii) subject the Administrative Agent or any Lender to any Taxes (other than (A) Indemnified Taxes, (B) Taxes described in clauses (b) through (d) of the definition of Excluded Taxes and (C) Connection Income Taxes) on its loans, loan principal, commitments, or other obligations, or its deposits, reserves, other liabilities or capital attributable thereto;

and the result of any of the foregoing shall be to increase the cost to the Administrative Agent or such Lender of making, continuing, converting to or maintaining any Loan (or of maintaining its obligation to make any such Loan) or to reduce the amount of any sum received or receivable by the Administrative Agent or such Lender hereunder (whether of principal, interest or otherwise), then the Borrower will pay to the Administrative Agent or such Lender, as the case may be, such additional amount or amounts as will compensate the Administrative Agent or such Lender for such additional costs incurred or reduction suffered.

(b) If any Lender determines that any Change in Law regarding capital or liquidity requirements has or would have the effect of reducing the rate of return on such Lender's capital or on the capital of its holding company, if any, as a consequence of this Agreement to a level below that which such Lender or its holding company could have achieved but for such Change in Law (taking into consideration its policies and the policies of its holding company with respect to capital adequacy and liquidity), then from time to time the Borrower will pay to such Lender such additional amount or amounts as will compensate it or its holding company for any such reduction suffered.

(c) A certificate of a Lender setting forth the amount or amounts necessary to compensate it or its holding company as specified in paragraph (a) or (b) of this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay the amount shown as due on any such certificate within 10 days after receipt thereof.

(d) Failure or delay on the part of any Lender to demand compensation pursuant to this Section shall not constitute a waiver of its right to demand such compensation; provided that the Borrower shall not be required to compensate a Lender pursuant to this Section for any increased costs or reductions incurred more than ninety days prior to the date that such Lender notifies the Borrower of the Change in Law giving rise to such increased costs or reductions and of its intention to claim compensation therefor; provided, further that, if the Change in Law giving rise to such increased costs or reductions is retroactive, then the ninety day period referred to above shall be extended to include the period of retroactive effect thereof.

(e) The Borrower shall pay (without duplication as to amounts paid under this Section 2.15) to each Lender, so long as such Lender shall be required under regulations of the Board to maintain reserves with respect to liabilities or assets consisting of or including Eurocurrency Liabilities, additional interest on the unpaid principal amount of each Eurodollar Loan of such Lender, from the date of such Loan until such principal amount is paid in full, at an interest rate per annum equal at all times to the remainder obtained by subtracting (i) the LIBO Rate for the Interest Period for

such Loan from (ii) the rate obtained by dividing such LIBO Rate by a percentage equal to 100% minus the Eurodollar Rate Reserve Percentage of such Lender for such Interest Period, payable on each date on which interest is payable on such Loan. Such additional interest determined by such Lender and notified to the Borrower and the Administrative Agent, accompanied by the calculation of the amount thereof, shall be conclusive and binding for all purposes absent manifest error.

(f) If any Lender determines that any law has made it unlawful, or that any Governmental Authority has asserted that it is unlawful, for any Lender or its applicable lending office to make, maintain or fund Eurodollar Loans, or to determine or charge interest rates based upon the LIBO Rate, or any Governmental Authority has imposed material restrictions on the authority of such Lender to purchase or sell, or to take deposits of, Dollars in the London interbank market, then, on notice thereof by such Lender to the Borrower through the Administrative Agent, any obligation of such Lender to make or continue Eurodollar Loans or to convert ABR Loans to Eurodollar Loans shall be suspended until such Lender notifies the Administrative Agent and the Borrower that the circumstances giving rise to such determination no longer exist. Upon receipt of such notice, the Borrower shall, upon demand from such Lender (with a copy to the Administrative Agent), prepay or, if applicable, convert all Eurodollar Loans of such Lender to ABR Loans, either on the last day of the Interest Period therefor, if such Lender may lawfully continue to maintain such Eurodollar Loans to such day, or immediately, if such Lender may not lawfully continue to maintain such Eurodollar Loans. Upon any such prepayment or conversion, the Borrower shall also pay accrued interest on the amount so prepaid or converted.

SECTION 2.16. Break Funding Payments. In the event of (a) the payment of any principal of any Eurodollar Loan other than on the last day of an Interest Period applicable thereto (including as a result of an Event of Default, acceleration or otherwise), (b) the conversion of any Eurodollar Loan other than on the last day of the Interest Period applicable thereto, (c) the failure to borrow, convert, continue or prepay any Loan on the date specified in any notice delivered pursuant hereto (regardless of whether such notice is permitted to be revocable under Section 2.11(b) and is revoked in accordance therewith), or (d) the assignment of any Eurodollar Loan other than on the last day of the Interest Period applicable thereto as a result of a request by the Borrower pursuant to Section 2.19, then, in any such event, the Borrower shall compensate each Lender for the loss, cost and expense attributable to such event. In the case of a Eurodollar Loan, the loss to any Lender attributable to any such event shall be deemed to include an amount reasonably determined by such Lender to be equal to the excess, if any, of (x) the amount of interest that such Lender would pay for a deposit equal to the principal amount of such Loan for the period from the date of such payment, conversion, failure or assignment to the last day of the then current Interest Period for such Loan (or, in the case of a failure to borrow, convert or continue, the duration of the Interest Period that would have resulted from such borrowing, conversion or continuation) if the interest rate payable on such deposit were equal to the LIBO Rate for such Interest Period, over (y) the amount of interest that such Lender would earn on such principal amount for such period if such Lender were to invest such principal amount for such period at the interest rate that would be bid by such Lender (or an affiliate of such Lender) for dollar deposit from other banks in the eurodollar market at the commencement of such period. A certificate of any Lender setting forth any amount or amounts that such Lender is entitled to receive pursuant to this Section shall be delivered to the Borrower and shall be conclusive absent

manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within 10 days after receipt thereof.

SECTION 2.17. Taxes.

(a) Any and all payments by or on account of any obligation of the Borrower hereunder shall be made free and clear of and without deduction for any Taxes, except as required by applicable law. If any applicable law (as determined in the good faith discretion of an applicable Withholding Agent) requires the deduction or withholding of any Tax from any such payment by a Withholding Agent, then (i) the applicable Withholding Agent shall be entitled to make such deduction or withholding and timely pay the full amount deducted or withheld to the relevant Governmental Authority in accordance with applicable law, and (ii) if such Tax is an Indemnified Tax, then the amount payable shall be increased as necessary so that after making all required deductions (including deductions and withholdings of Indemnified Taxes applicable to additional sums payable under this Section) the applicable Recipient receives an amount equal to the sum it would have received had no such deductions or withholdings been made.

(b) In addition, the Borrower shall pay any Other Taxes to the relevant Governmental Authority in accordance with applicable law.

(c) The Borrower shall indemnify each Recipient, within 10 days after written demand therefor, for the full amount of any Indemnified Taxes (including Indemnified Taxes imposed or asserted on or attributable to amounts payable under this Section) paid by such Recipient and reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to the Borrower by a Lender or by the Administrative Agent on its own behalf or on behalf of a Lender, shall be conclusive absent manifest error.

(d) As soon as practicable after any payment of Indemnified Taxes by a Credit Party to a Governmental Authority, such Credit Party shall deliver to the Administrative Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to the Administrative Agent.

(e)

(i) Any Lender that is entitled to an exemption from or reduction of withholding Tax with respect to payments made under any Credit Document shall deliver to the Borrower and the Administrative Agent, at the time or times reasonably requested by the Borrower or the Administrative Agent, such properly completed and executed documentation reasonably requested by the Borrower or the Administrative Agent as will permit such payments to be made without withholding or at a reduced rate of withholding. In addition, any Lender, if reasonably requested by the Borrower or the Administrative Agent, shall deliver such other documentation prescribed by applicable law or reasonably requested by the Borrower or the Administrative Agent as will enable the Borrower or the Administrative Agent to determine

whether or not such Lender is subject to backup withholding or information reporting requirements. Notwithstanding anything to the contrary in the preceding two sentences, the completion, execution and submission of such documentation (other than such documentation set forth in Section 2.17(e)(ii)(A) and (ii)(B) and Section 2.17(f) below) shall not be required if in the Lender's reasonable judgment such completion, execution or submission would subject such Lender to any material unreimbursed cost or expense or would materially prejudice the legal or commercial position of such Lender.

(ii) Without limiting the generality of the foregoing,

(A) any Lender that is a U.S. Person shall deliver to the Borrower and the Administrative Agent on or prior to the date on which such Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower or the Administrative Agent), executed copies of IRS Form W-9 certifying that such Lender is exempt from U.S. federal backup withholding tax;

(B) any Foreign Lender shall, to the extent it is legally entitled to do so, deliver to the Borrower and the Administrative Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Foreign Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower or the Administrative Agent), whichever of the following is applicable:

(1) in the case of a Foreign Lender claiming the benefits of an income tax treaty to which the United States is a party (x) with respect to payments of interest under any Credit Document, executed copies of IRS Form W-8BEN or IRS Form W-8BEN-E (as applicable) establishing an exemption from, or reduction of, U.S. federal withholding Tax pursuant to the "interest" article of such tax treaty and (y) with respect to any other applicable payments under any Credit Document, IRS Form W-8BEN or IRS Form W-8BEN-E (as applicable) establishing an exemption from, or reduction of, U.S. federal withholding Tax pursuant to the "business profits" or "other income" article of such tax treaty;

(2) executed copies of IRS Form W-8ECI;

(3) in the case of a Foreign Lender claiming the benefits of the exemption for portfolio interest under Section 881(c) of the Code, (x) a certificate substantially in the form of Exhibit I-1 to the effect that such Foreign Lender is not a "bank" within the meaning of Section 881(c)(3)(A) of the Code, a "10 percent shareholder" of the Borrower within the meaning of Section 881(c)(3)(B) of the Code, or a "controlled foreign corporation" described in Section 881(c)(3)(C) of the Code (a "U.S. Tax Compliance Certificate") and (y) executed copies of IRS Form W-8BEN or IRS Form W-8BEN-E (as applicable); or

(4) to the extent a Foreign Lender is not the beneficial owner, executed copies of IRS Form W-8IMY, accompanied by IRS Form W-8ECI, IRS Form W-8BEN, IRS Form W-8BEN-E, a U.S. Tax Compliance Certificate substantially in the form of Exhibit I-2 or Exhibit I-3, IRS Form W-9, and/or other certification documents from each beneficial owner, as applicable; provided that if the Foreign Lender is a partnership and one or more direct or indirect partners of such Foreign Lender are claiming the portfolio interest exemption, such Foreign Lender may provide a U.S. Tax Compliance Certificate substantially in the form of Exhibit I-4 on behalf of each such direct and indirect partner; and

(C) any Foreign Lender shall, to the extent it is legally entitled to do so, deliver to the Borrower and the Administrative Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Foreign Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower or the Administrative Agent), executed copies of any other form prescribed by applicable law as a basis for claiming exemption from or a reduction in U.S. federal withholding Tax, duly completed, together with such supplementary documentation as may be prescribed by applicable law to permit the Borrower or the Administrative Agent to determine the withholding or deduction required to be made.

Each Lender agrees that if any form or certification it previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification or promptly notify the Borrower and the Administrative Agent in writing of its legal inability to do so.

(f) If a payment made to a Lender under any Credit Document would be subject to U.S. Federal withholding Tax imposed by FATCA if such Lender were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such Lender shall deliver to the Borrower and the Administrative Agent at the time or times prescribed by Law and at such time or times reasonably requested by the Borrower or the Administrative Agent such documentation prescribed by applicable Law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Borrower or the Administrative Agent as may be necessary for the Borrower and the Administrative Agent to comply with their obligations under FATCA and to determine that such Lender has complied with such Lender's obligations under FATCA or to determine the amount to deduct and withhold from such payment. Solely for purposes of this Section 2.17(f), "FATCA" shall include any amendments made to FATCA after the date of this Agreement. Each Lender agrees that if any documentation it previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such documentation or promptly notify the Borrower and the Administrative Agent in writing of its legal inability to do so.

(g) If any party determines, in its sole discretion exercised in good faith, that it has received a refund of any Taxes as to which it has been indemnified pursuant to this Section 2.17 (including

by the payment of additional amounts pursuant to this Section 2.17), it shall pay to the indemnifying party an amount equal to such refund (but only to the extent of indemnity payments made under this Section with respect to the Taxes giving rise to such refund), net of all out-of-pocket expenses (including Taxes) of such indemnified party and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund). Such indemnifying party, upon the request of such indemnified party, shall repay to such indemnified party the amount paid over pursuant to this Section 2.17(g) (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) in the event that such indemnified party is required to repay such refund to such Governmental Authority. Notwithstanding anything to the contrary in this Section 2.17(g), in no event will the indemnified party be required to pay any amount to an indemnifying party pursuant to this Section 2.17(g) the payment of which would place the indemnified party in a less favorable net after-Tax position than the indemnified party would have been in if the Tax subject to indemnification and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to such Tax had never been paid. This paragraph shall not be construed to require any indemnified party to make available its tax returns (or any other information relating to its Taxes that it deems confidential) to the indemnifying party or any other Person.

(h) For purposes of this Section 2.17, the term “applicable law” includes FATCA.

SECTION 2.18. Payments Generally; Pro Rata Treatment; Sharing of Set-Offs.

(a) The Borrower shall make each payment required to be made by it hereunder (whether of principal, interest or fees, or under Section 2.15, 2.16, 2.17 or 11.03, or otherwise) prior to 12:00 noon, New York City time, on the date when due, in immediately available funds, without set-off or counterclaim. Any amounts received after such time on any date may, in the discretion of the Administrative Agent, be deemed to have been received on the next succeeding Business Day for purposes of calculating interest thereon. All such payments shall be made to the Administrative Agent at its office listed in Section 11.01(b), except that payments pursuant to Sections 2.15, 2.16, 2.17 and 11.03 shall be made directly to the Persons entitled thereto. The Administrative Agent shall distribute any such payments received by it for the account of any other Person to the appropriate recipient promptly following receipt thereof. If any payment hereunder shall be due on a day that is not a Business Day, the date for payment shall be extended to the next succeeding Business Day, and, in the case of any payment accruing interest, interest thereon shall be payable for the period of such extension. All payments hereunder shall be made in Dollars.

(b) If at any time insufficient funds are received by and available to the Administrative Agent to pay fully all amounts of principal, interest and fees then due hereunder, such funds shall be applied (i) first, to pay interest and fees then due hereunder, ratably among the parties entitled thereto in accordance with the amounts of interest and fees then due to such parties, and (ii) second, to pay principal then due hereunder, ratably among the parties entitled thereto in accordance with the amounts of principal then due to such parties.

(c) If any Lender shall, by exercising any right of set-off or counterclaim or otherwise, obtain payment in respect of any principal of or interest on any of the Obligations owing to it resulting in such Lender receiving payment of a greater proportion of the aggregate amount of such

Obligations and accrued interest thereon than the proportion received by any other Lender, then the Lender receiving such greater proportion shall purchase (for cash at face value) participations in the Loans of, or other Obligations owing to, other Lenders to the extent necessary so that the benefit of all such payments shall be shared by the Lenders ratably in accordance with the aggregate amount of principal of and accrued interest on their respective Loans or other Obligations, as applicable; provided that (i) if any such participations are purchased and all or any portion of the payment giving rise thereto is recovered, such participations shall be rescinded and the purchase price restored to the extent of such recovery, without interest, and (ii) the provisions of this paragraph shall not be construed to apply to any payment made by the Borrower pursuant to and in accordance with the express terms of this Agreement or any payment obtained by a Lender as consideration for the assignment of or sale of a participation in any of its Loans to any assignee or participant, other than to the Guarantor, the Borrower or any other Subsidiary or Affiliate of the Guarantor (as to which the provisions of this paragraph shall apply). The Borrower and the Guarantor consent to the foregoing and agree, to the extent they may effectively do so under applicable law, that any Lender acquiring a participation pursuant to the foregoing arrangements may exercise against the Borrower and the Guarantor rights of set-off and counterclaim with respect to such participation as fully as if such Lender were a direct creditor of the Borrower or the affected Guarantor in the amount of such participation.

(d) Unless the Administrative Agent shall have received notice from the Borrower prior to the date on which any payment is due to the Administrative Agent for the account of the Lenders hereunder that the Borrower will not make such payment, the Administrative Agent may assume that the Borrower has made such payment on such date in accordance herewith and may, in reliance upon such assumption, distribute to the Lenders the amount due. In such event, if the Borrower has not in fact made such payment, then each of the Lenders severally agrees to repay to the Administrative Agent forthwith on demand the amount so distributed to such Lender with interest thereon, for each day from and including the date such amount is distributed to it to but excluding the date of payment to the Administrative Agent, at the Federal Funds Effective Rate.

(e) If any Lender shall fail to make any payment required to be made by it pursuant to Section 2.05(b) or 2.18(d), then the Administrative Agent may, in its discretion (notwithstanding any contrary provision hereof), apply any amounts thereafter received by the Administrative Agent for the account of such Lender to satisfy such Lender's obligations under such Sections until all such unsatisfied obligations are fully paid.

(f) None of the funds or assets of the Borrower that are used to pay any amount due pursuant to this Agreement shall constitute funds obtained from transactions with or relating to Anti-Corruption Laws or Sanctions.

SECTION 2.19. Mitigation Obligations; Replacement of Lenders.

(a) Any Lender claiming reimbursement or compensation from the Borrower under either of Sections 2.15 and 2.17 for any losses, costs or other liabilities shall use reasonable efforts (including, without limitation, reasonable efforts to designate a different lending office of such Lender for funding or booking its Loans or to assign its rights and obligations hereunder to another of its offices, branches or affiliates) to mitigate the amount of such losses, costs and other liabilities,

if such efforts can be made and such mitigation can be accomplished without such Lender suffering (i) any economic disadvantage for which such Lender does not receive full indemnity from the Borrower under this Agreement or (ii) otherwise be disadvantageous to such Lender.

(b) In determining the amount of any claim for reimbursement or compensation under Sections 2.15 and 2.17, each Lender will use reasonable methods of calculation consistent with such methods customarily employed by such Lender in similar situations.

(c) Each Lender will notify the Borrower either directly or through the Administrative Agent of any event giving rise to a claim under Section 2.15 or Section 2.17 promptly after the occurrence thereof which notice shall be accompanied by a certificate of such Lender setting forth in reasonable detail the circumstances of such claim.

(d) If any Lender requests compensation under Section 2.15, or if the Borrower is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.17, or if any Lender becomes a Defaulting Lender, then the Borrower may, at its sole expense and effort, upon notice to such Lender and the Administrative Agent, require such Lender to assign and delegate, without recourse (in accordance with and subject to the restrictions contained in Section 11.04, provided that the Administrative Agent may, in its sole discretion, elect to waive the \$3,500 processing and recordation fee in connection therewith), all its interests, rights and obligations under this Agreement to an assignee that shall assume such obligations (which assignee may be another Lender, if a Lender accepts such assignment); provided that (i) the Borrower shall have received the prior written consent of the Administrative Agent, which consent shall not unreasonably be withheld, (ii) such Lender shall have received payment of an amount equal to the outstanding principal of its Loans, accrued interest thereon, accrued fees and all other amounts payable to it hereunder, from the assignee (to the extent of such outstanding principal and accrued interest and fees) or the Borrower (in the case of all other amounts) and (iii) in the case of any such assignment resulting from a claim for compensation under Section 2.15 or payments required to be made pursuant to Section 2.17, such assignment will result in a reduction in such compensation or payments. A Lender shall not be required to make any such assignment and delegation if, prior thereto, as a result of a waiver by such Lender or otherwise, the circumstances entitling the Borrower to require such assignment and delegation cease to apply.

SECTION 2.20. Defaulting Lenders. Notwithstanding any provision of this Agreement to the contrary, if any Lender becomes a Defaulting Lender, then the following provisions shall apply for so long as such Lender is a Defaulting Lender:

(a) fees shall cease to accrue on the Commitment of such Defaulting Lender pursuant to Section 2.12(a); and

(b) the Commitment and the Outstanding Loans of such Defaulting Lender shall not be included in determining whether the Required Lenders have taken or may take any action hereunder (including any consent to any amendment, waiver or other modification pursuant to Section 11.02); provided, that this Section 2.20 shall not apply to the vote of a Defaulting Lender in the case of an amendment, waiver or other modification requiring the consent of such Lender or each Lender affected thereby.

In the event that the Administrative Agent and the Borrower agree that a Defaulting Lender has adequately remedied all matters that caused such Lender to be a Defaulting Lender, then the Applicable Percentage of the Lenders shall be readjusted to reflect the inclusion of such Lender's Commitment and on such date such Lender shall purchase at par such of the Loans of the other Lenders as the Administrative Agent shall determine may be necessary in order for such Lender to hold such Loans in accordance with its Applicable Percentage.

**ARTICLE III
CONDITIONS**

SECTION 3.01. Conditions Precedent to the Effectiveness of this Agreement. This Agreement shall not become effective until the date on which each of the following conditions is satisfied (or waived in accordance with Section 11.02).

(f) The Administrative Agent (or its counsel) shall have received from each party thereto either (i) a counterpart of this Agreement signed on behalf of such party or (ii) written evidence satisfactory to the Administrative Agent (which may include facsimile or electronic transmission of a signed signature page of this Agreement) that such party has signed a counterpart of this Agreement.

(g) The Lenders, the Administrative Agent, the Arrangers and each other Person entitled to the payment of fees or the reimbursement or payment of expenses, pursuant hereto or to certain fee letters executed and delivered with respect to the term loan facility provided for herein, shall have received all fees required to be paid by the Effective Date (including, without limitation, all fees owing on the Effective Date under Section 2.12 hereof), and all expenses for which invoices have been presented on or before the Effective Date.

(h) The Administrative Agent shall have received certified copies of the resolutions of the Board of Directors of each of the Guarantor and the Borrower approving this Agreement, and of all documents evidencing other necessary corporate action and governmental and regulatory approvals with respect to this Agreement.

(i) The Administrative Agent shall have received from each of the Borrower and the Guarantor, to the extent generally available in the relevant jurisdiction, a copy of a certificate or certificates of the Secretary of State (or other appropriate public official) of the jurisdiction of its incorporation, dated reasonably near the Effective Date, (i) listing the charters of the Borrower or the Guarantor, as the case may be, and each amendment thereto on file in such office and certifying that such amendments are the only amendments to the Borrower's or the Guarantor's charter, as the case may be, on file in such office, and (ii) stating, in the case of the Borrower, that the Borrower is authorized to transact business under the laws of the jurisdiction of its place of incorporation, and, in the case of the Guarantor, that the Guarantor is duly incorporated and in good standing under the laws of the jurisdiction of its place of incorporation.

(j) (i) The Administrative Agent shall have received a certificate or certificates of each of the Borrower and the Guarantor, signed on behalf of the Borrower and the Guarantor respectively, by the Secretary, an Assistant Secretary or a Responsible Officer thereof, dated the Effective Date,

certifying as to (A) the absence of any amendments to the charter of the Borrower or the Guarantor, as the case may be, since the date of the certificates referred to in paragraph (d) above, (B) a true and correct copy of the bylaws of each of the Borrower or the Guarantor, as the case may be, as in effect on the Effective Date, (C) the absence of any proceeding for the dissolution or liquidation of the Borrower or the Guarantor, as the case may be, (D) the truth, in all material respects (provided that, in each case, such materiality qualifier shall not be applicable to any representations and warranties that are already qualified or modified by “materiality”, “Material Adverse Effect” or similar language in the text thereof), of the representations and warranties contained in the Credit Documents to which the Borrower or the Guarantor is a party, as the case may be, as though made on and as of the Effective Date and (E) the absence, as of the Effective Date, of any Default or Event of Default; and (ii) each of such certifications shall be true.

(k) The Administrative Agent shall have received a certificate of the Secretary or an Assistant Secretary of each of the Guarantor and the Borrower certifying the names and true signatures of the officers of Guarantor or the Borrower, as the case may be, authorized to sign, and signing, this Agreement and the other Credit Documents to be delivered hereunder on or before the Effective Date.

(l) The Administrative Agent shall have received from Schiff Hardin LLP, counsel for the Guarantor and the Borrower, a favorable opinion, substantially in the form of Exhibit B hereto and as to such other matters as any Lender through the Administrative Agent may reasonably request.

(m) The Administrative Agent and the Lenders shall have received, at least ten Business Days prior to the Effective Date (or such later date approved by the Administrative Agent) all documentation and other information that is required by the regulatory authorities under the applicable “know your customer” and anti-money laundering rules and regulations, including without limitation, the Act.

SECTION 3.02. Conditions Precedent to Each Extension of Credit. The obligation of each Lender to make any Extension of Credit (including the initial Extension of Credit but excluding any conversion or continuation of any Loan) shall be subject to the satisfaction (or waiver in accordance with Section 11.02) of each of the following conditions:

(a) The representations and warranties of the Guarantor and the Borrower set forth in this Agreement (other than the representation and warranty set forth in Section 4.01(f)) shall be true and correct in all material respects on and as of the date of such Extension of Credit, except to the extent that such representations and warranties are specifically limited to a prior date, in which case such representations and warranties shall be true and correct in all material respects on and as of such prior date provided, that, in each case, such materiality qualifier shall not be applicable to any representations and warranties that are already qualified or modified by “materiality,” “Material Adverse Effect” or similar language in the text thereof.

(b) Such Extension of Credit will comply with all other applicable requirements of Article II, including, without limitation Sections 2.01 and 2.02, as applicable.

(c) At the time of and immediately after giving effect to such Extension of Credit, no Default or Event of Default shall have occurred and be continuing.

(d) The Administrative Agent shall have timely received a Borrowing Request in accordance with Section 2.02(d).

Each Extension of Credit and the acceptance by the Borrower of the benefits thereof shall be deemed to constitute a representation and warranty by the Borrower on the date thereof as to the matters specified in paragraphs (a), (b) and (c) of this Section.

ARTICLE IV REPRESENTATIONS AND WARRANTIES

SECTION 4.01. *Representations and Warranties of the Credit Parties.* Each of the Borrower and the Guarantor represents and warrants as follows:

(e) Each of the Borrower and the Guarantor is a corporation duly organized, validly existing and, in the case of the Borrower, authorized to transact business under the laws of the State of its incorporation, and, in the case of the Guarantor, in good standing under the laws of the State of its incorporation.

(f) The execution, delivery and performance by each of the Credit Parties of the Credit Documents to which it is a party (i) are within such Credit Party's corporate powers, (ii) have been duly authorized by all necessary corporate action, (iii) do not contravene (A) such Credit Party's charter or by-laws, as the case may be, or (B) any law, rule or regulation, or any material Contractual Obligation or legal restriction, binding on or affecting such Credit Party or any Material Subsidiary, as the case may be, and (iv) do not require the creation of any Lien on the property of such Credit Party or any Material Subsidiary under any Contractual Obligation binding on or affecting such Credit Party or any Material Subsidiary.

(g) No authorization or approval or other action by, and no notice to or filing with, any Governmental Authority or other Person is required for the due execution, delivery and performance by any Credit Party of this Agreement or any other Credit Document to which any of them is a party, except for such as (i) have been obtained or made and that are in full force and effect or (ii) are not presently required under applicable law and have not yet been applied for.

(h) Each Credit Document to which any Credit Party is a party is a legal, valid and binding obligation of such Credit Party, enforceable against such Credit Party in accordance with its terms, subject to applicable bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights generally and subject to general principles of equity, regardless of whether considered in a proceeding in equity or at law.

(i) The consolidated balance sheet of the Guarantor and its Subsidiaries dated as of December 31, 2015, and the related statements of income, statements of cash flows and retained earnings of the Guarantor and its Subsidiaries for the fiscal year then ended, copies of which have been made available or furnished to each Lender, fairly present the financial condition of the

Guarantor and its Subsidiaries as at such date and the results of the operations of the Guarantor and its Subsidiaries for the period ended on such date, all in accordance with GAAP consistently applied.

(j) Since December 31, 2015, there has been no material adverse change in such condition or operations, or in the business, assets, operations, condition (financial or otherwise) or prospects of any of the Credit Parties.

(k) There is no pending or threatened action, proceeding or investigation affecting such Credit Party before any court, governmental agency or other Governmental Authority or arbitrator that (taking into account the exhaustion of appeals) would have a Material Adverse Effect, or that (i) purports to affect the legality, validity or enforceability of this Agreement or any promissory notes executed pursuant hereto, or (ii) seeks to prohibit the ownership or operation, by any Credit Party or any of their respective Material Subsidiaries, of all or a material portion of their respective businesses or assets.

(l) The Guarantor and its Subsidiaries, taken as a whole, do not hold or carry Margin Stock having an aggregate value in excess of 10% of the value of their consolidated assets, and no part of the proceeds of any Loan hereunder will be used to buy or carry any Margin Stock.

(m) No ERISA Event has occurred, or is reasonably expected to occur, with respect to any Plan that could reasonably be expected to have a Material Adverse Effect.

(n) Schedule SB (Actuarial Information) to the 2014 Annual report (Form 5500 Series) for each Plan, copies of which have been filed with the Internal Revenue Service and made available or furnished to each Lender, is complete and accurate and fairly presents the funding status of such Plan, and since the date of such Schedule SB there has been no adverse change in such funding status which may reasonably be expected to have a Material Adverse Effect.

(o) Neither the Guarantor nor any ERISA Affiliate has incurred or is reasonably expected to incur any Withdrawal Liability to any Multiemployer Plan which may reasonably be expected to have a Material Adverse Effect.

(p) Neither the Guarantor nor any ERISA Affiliate has been notified by the sponsor of a Multiemployer Plan that such Multiemployer Plan is in reorganization or has been terminated, within the meaning of Title IV of ERISA, and no Multiemployer Plan is reasonably expected to be in reorganization or to be terminated, within the meaning of Title IV of ERISA, in either such case, that could reasonably be expected to have a Material Adverse Effect.

(q) No Credit Party is an “investment company”, or a company “controlled” by an “investment company”, within the meaning of the Investment Company Act of 1940, as amended.

(r) Each Credit Party has filed all federal, state and other material income tax returns required to be filed by it and has paid or caused to be paid all taxes due for the periods covered thereby, including interest and penalties, except for any such taxes, interest or penalties which are being contested in good faith and by proper proceedings and in respect of which such Credit Party has set aside adequate reserves for the payment thereof in accordance with GAAP.

(s) Each Credit Party and its Subsidiaries are and have been in compliance with all laws (including, without limitation, all Environmental Laws), except to the extent that any failure to be in compliance, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect.

(t) No Subsidiary of any Credit Party is party to, or otherwise bound by, any agreement that prohibits such Subsidiary from making any payments, directly or indirectly, to such Credit Party, by way of dividends, advances, repayment of loans or advances, reimbursements of management or other intercompany charges, expenses and accruals or other returns on investment, or any other agreement that restricts the ability of such Subsidiary to make any payment, directly or indirectly, to such Credit Party, other than prohibitions and restrictions permitted to exist under Section 6.01(e).

(u) The information, exhibits and reports furnished by the Guarantor or any of its Subsidiaries to the Administrative Agent or to any Lender in connection with the negotiation of, or compliance with, the Credit Documents, taken as a whole, do not contain any material misstatement of fact and do not omit to state a material fact or any fact necessary to make the statements contained therein not misleading in light of the circumstances made.

(v) Each Credit Party and its Subsidiaries have implemented and maintain in effect policies and procedures reasonably designed to ensure compliance by each Credit Party and its Subsidiaries and their respective directors, officers, employees and agents with Anti-Corruption Laws and applicable Sanctions, and each Credit Party and its Subsidiaries and their respective officers and employees and to the knowledge of such Credit Party and its Subsidiaries, its respective directors and agents, are in compliance with Anti-Corruption Laws and applicable Sanctions in all material respects. None of (a) the Credit Parties or its Subsidiaries or to the knowledge of such Credit Party or its Subsidiaries, any of their respective directors, officers or employees, or (b) to the knowledge of the Credit Parties, any agent of the Credit Parties or any of their respective Subsidiaries which agent will act in any capacity in connection with or benefit from the term loan facility established hereby, is a Sanctioned Person. No Borrowing, use of proceeds hereunder or other Transactions will violate Anti-Corruption Laws or applicable Sanctions.

ARTICLE V
AFFIRMATIVE COVENANTS

SECTION 5.01. Affirmative Covenants. So long as any Lender shall have any Commitment hereunder or any principal of any Loan, interest or fees payable hereunder shall remain unpaid, each of the Credit Parties will, unless the Required Lenders shall otherwise consent in writing:

(a) **Compliance with Laws, Etc.** (i) Comply, and cause each of its Subsidiaries to comply, in all material respects with all applicable laws, rules, regulations and orders (including, without limitation, any of the foregoing relating to employee health and safety or public utilities and all Environmental Laws), unless the failure to so comply could not reasonably be expected to have a Material Adverse Effect and (ii) maintain in effect and enforce policies and procedures reasonably

designed to ensure compliance by each Credit Party and its Subsidiaries and their respective directors, officers, employees and agents with Anti-Corruption Laws and applicable Sanctions.

(b) **Maintenance of Properties, Etc.** Maintain and preserve, and cause each Material Subsidiary to maintain and preserve, all of its material properties which are used in the conduct of its business in good working order and condition, ordinary wear and tear excepted, if the failure to do so could reasonably be expected to have a Material Adverse Effect.

(c) **Payment of Taxes, Etc.** Pay and discharge, and cause each of its Subsidiaries to pay and discharge, before the same shall become delinquent, (i) except to the extent the failure to do so could not reasonably be expected to result in a Material Adverse Effect, all taxes, assessments and governmental charges or levies imposed upon it or upon its property, and (ii) all legal claims which, if unpaid, might by law become a lien upon its property; provided, however, that neither any Credit Party nor any of its Subsidiaries shall be required to pay or discharge any such tax, assessment, charge or claim which is being contested in good faith and by proper proceedings and as to which appropriate reserves are being maintained.

(d) **Maintenance of Insurance** . Maintain, and cause each of its Subsidiaries to maintain, insurance with responsible and reputable insurance companies or associations in such amounts and covering such risks as is usually obtained by companies engaged in similar businesses of comparable size and financial strength and owning similar properties in the same general areas in which such Credit Party or such Subsidiary operates, or, to the extent such Credit Party or Subsidiary deems it reasonably prudent to do so, through its own program of self-insurance.

(e) **Preservation of Corporate Existence, Etc.** Preserve and maintain, and cause each Material Subsidiary to preserve and maintain, its corporate existence, rights (charter and statutory) and franchises, except as otherwise permitted under this Agreement; provided that no such Person shall be required to preserve any right or franchise with respect to which the Board of Directors of such Person has determined that the preservation thereof is no longer desirable in the conduct of the business of such Person and that the loss thereof is not disadvantageous in any material respect to any Credit Party or the Lenders.

(f) **Visitation Rights** . At any reasonable time and from time to time, permit the Administrative Agent or any of the Lenders or any agents or representatives thereof, on not less than five Business Days' notice (which notice shall be required only so long as no Default shall be occurred and be continuing), to examine and make copies of and abstracts from the records and books of account of, and visit the properties of, such Credit Party or any of its Subsidiaries, and to discuss the affairs, finances and accounts of the Credit Parties and their respective Subsidiaries with any of their respective officers and with their independent certified public accountants; subject, however, in all cases to the imposition of such conditions as the affected Credit Party or Subsidiary shall deem necessary based on reasonable considerations of safety and security and provided that so long as no Default or Event of Default shall have occurred and be continuing, each Lender will be limited to one visit each year.

(g) **Keeping of Books** . (i) Keep, and cause each of its Subsidiaries to keep, proper books of record and account, in which full and correct entries shall be made of all material financial

transactions and the assets and business of each of the Credit Parties and each of their respective Subsidiaries, and (ii) maintain, and cause each of its Subsidiaries to maintain, a system of accounting established and administered in accordance with generally accepted accounting principles consistently applied.

(h) **Reporting Requirements** . Deliver to the Administrative Agent for distribution to the Lenders:

(i) as soon as available and in any event within 60 days after the end of each of the first three quarters of each fiscal year of the Guarantor (or, if earlier, concurrently with the filing thereof with the Securities and Exchange Commission or any national securities exchange in accordance with applicable law or regulation), commencing with the fiscal quarter ending March 31, 2016, balance sheets and cash flow statements of the Guarantor and its Consolidated Subsidiaries in comparative form as of the end of such quarter and statements of income and statements of common shareholders' equity of the Guarantor and its Consolidated Subsidiaries for the period commencing at the end of the previous fiscal year of the Guarantor and ending with the end of such quarter, each prepared in accordance with generally accepted accounting principles consistently applied, subject to normal year-end audit adjustments, certified by the chief financial officer of the Guarantor.

(ii) as soon as available and in any event within 90 days after the end of each fiscal year of the Guarantor (or, if earlier, concurrently with the filing thereof with the Securities and Exchange Commission or any national securities exchange in accordance with applicable law or regulation), commencing with the fiscal year ending December 31, 2016, a copy of the audit report for such year for the Guarantor and its Consolidated Subsidiaries containing balance sheets and cash flow statements of the Guarantor and its Consolidated Subsidiaries and statements of income and statements of common shareholders' equity of the Guarantor and its Consolidated Subsidiaries for such year prepared in accordance with generally accepted accounting principles consistently applied as reported on by independent certified public accountants of recognized national standing acceptable to the Required Lenders, which audit was conducted by such accounting firm in accordance with generally accepted auditing standards;

(iii) concurrently with the delivery of financial statements pursuant to clauses (i) and (ii) above or the notice relating thereto contemplated by the final sentence of this Section 5.01(h), a certificate of a senior financial officer of each of the Guarantor and the Borrower (A) to the effect that no Default or Event of Default has occurred and is continuing (or, if any Default or Event of Default has occurred and is continuing, describing the same in reasonable detail and describing the action that the Guarantor or the Borrower, as the case may be, has taken and proposes to take with respect thereto), and (B) in the case of the certificate relating to the Guarantor, setting forth calculations, in reasonable detail, establishing Borrower's compliance, as at the end of such fiscal quarter, with the financial covenant contained in Article VII;

(iv) as soon as possible and in any event within five days after the occurrence of each Default or Event of Default continuing on the date of such statement, a statement of

the chief financial officer of the Borrower setting forth details of such Event of Default or event and the action which the Borrower has taken and proposes to take with respect thereto;

(v) promptly after the sending or filing thereof, copies of all reports which the Guarantor sends to its stockholders, and copies of all reports and registration statements (other than registration statements filed on Form S-8) that the Guarantor, the Borrower or any Subsidiary of the Guarantor or the Borrower, files with the Securities and Exchange Commission;

(vi) promptly and in any event within 10 days after the Guarantor knows or has reason to know that any material ERISA Event has occurred, a statement of the chief financial officer of the Borrower describing such ERISA Event and the action, if any, which the Guarantor or any affected ERISA Affiliate proposes to take with respect thereto;

(vii) promptly and in any event within two Business Days after receipt thereof by the Guarantor (or knowledge being obtained by the Guarantor of the receipt thereof by any ERISA Affiliate), copies of each notice from the PBGC stating its intention to terminate any Plan or to have a trustee appointed to administer any Plan;

(viii) promptly and in any event within five Business Days after receipt thereof by the Guarantor (or knowledge being obtained by the Guarantor of the receipt thereof by any ERISA Affiliate) from the sponsor of a Multiemployer Plan, a copy of each notice received by the Guarantor or any ERISA Affiliate concerning (A) the imposition on the Guarantor or any ERISA Affiliate of material Withdrawal Liability by a Multiemployer Plan, (B) the reorganization or termination, within the meaning of Title IV of ERISA, of any Multiemployer Plan or (C) the amount of liability incurred, or which may be incurred, by the Guarantor or any ERISA Affiliate in connection with any event described in clause (A) or (B) above;

(ix) promptly after the Guarantor has knowledge of the commencement thereof, notice of any actions, suits and proceedings before any court or governmental department, commission, board, bureau, agency or instrumentality, domestic or foreign, affecting the Guarantor or any Material Subsidiary of the type described in Section 4.01(g);

(x) promptly after the Guarantor or the Borrower knows of any change in the rating of the Index Debt by S&P or Moody's, a notice of such changed rating; and

(xi) such other information respecting the condition or operations, financial or otherwise, of the Guarantor or any of its Subsidiaries as any Lender through the Administrative Agent may from time to time reasonably request.

Notwithstanding the foregoing, the Credit Parties' obligations to deliver the documents or information required under any of clauses (i), (ii) and (v) above shall be deemed to be satisfied upon (x) the relevant documents or information being publicly available on the Guarantor's website or other publicly available electronic medium (such as EDGAR) within the time period required by such clause, and (y) the delivery by the Guarantor or the Borrower of notice to the Administrative

Agent for distribution to the Lenders, within the time period required by such clause, that such documents or information are so available.

(i) **Use of Proceeds** . Use the proceeds of the Loans hereunder for capital expenditures, working capital and other general corporate purposes, including refinancing of existing indebtedness and not request any Borrowing, nor use, and shall procure that its Subsidiaries and its or their respective directors, officers, employees and agents shall not use, the proceeds of any Borrowing directly or indirectly (i) for the purpose of funding, financing or facilitating any acquisition for which the Board of Directors of the Person to be acquired (or whose assets are to be acquired) shall have indicated publicly its opposition to the consummation of such acquisition (which opposition has not been publicly withdrawn), (ii) in furtherance of an offer, payment, promise to pay, or authorization of the payment or giving of money, or anything else of value, to any Person in violation of any Anti-Corruption Laws, (iii) for the purpose of funding, financing or facilitating any activities, business or transaction of or with any Sanctioned Person, or in any Sanctioned Country or (iv) in any manner that would result in the violation of any Sanctions applicable to any party hereto.

(j) **Ratings** . At all times maintain ratings by both Moody's and S&P with respect to the Index Debt.

ARTICLE VI NEGATIVE COVENANTS

SECTION 6.01. Negative Covenants. So long as any Lender shall have any Commitment hereunder or any principal of any Loan, interest or fees payable hereunder shall remain unpaid, no Credit Party will, without the written consent of the Required Lenders:

(c) **Limitation on Liens** . Create or suffer to exist, or permit any of its Subsidiaries (other than a Utility Subsidiary) to create or suffer to exist, any lien, security interest, or other charge or encumbrance (collectively, "**Liens**") upon or with respect to any of its properties, whether now owned or hereafter acquired, or collaterally assign for security purposes, or permit any of its Subsidiaries (other than a Utility Subsidiary) to so assign any right to receive income in each case to secure or provide for or guarantee the payment of Debt for Borrowed Money of any Person, without in any such case effectively securing, prior to or concurrently with the creation, issuance, assumption or guaranty of any such Debt for Borrowed Money, the Obligations (together with, if the Guarantor shall so determine, any other Debt for Borrowed Money of or guaranteed by the Guarantor or any of its Subsidiaries ranking equally with the Loans and then existing or thereafter created) equally and ratably with (or prior to) such Debt for Borrowed Money; provided, however, that the foregoing restrictions shall not apply to or prevent the creation or existence of:

(i) (A) Liens on any property acquired, constructed or improved by the Guarantor or any of its Subsidiaries (other than a Utility Subsidiary) after the date of this Agreement that are created or assumed prior to, contemporaneously with, or within 180 days after, such acquisition or completion of such construction or improvement, to secure or provide for the payment of all or any part of the purchase price of such property or the cost of such construction or improvement; or (B) in addition to Liens contemplated by clauses (ii) and (iii) below, Liens on any property existing at the time of acquisition thereof,

provided that the Liens shall not apply to any property theretofore owned by the Guarantor or any such Subsidiary other than, in the case of any such construction or improvement, (1) unimproved real property on which the property so constructed or the improvement is located, (2) other property (or improvements thereon) that is an improvement to or is acquired or constructed for specific use with such acquired or constructed property (or improvement thereof), and (3) any rights and interests (A) under any agreements or other documents relating to, or (B) appurtenant to, the property being so constructed or improved or such other property;

(ii) existing Liens on any property or indebtedness of a corporation that is merged with or into or consolidated with any Credit Party or any of its Subsidiaries; provided that such Lien was not created in contemplation of such merger or consolidation;

(iii) Liens on any property or indebtedness of a corporation existing at the time such corporation becomes a Subsidiary of any Credit Party; provided that such Lien was not created in contemplation of such occurrence;

(iv) Liens to secure Debt for Borrowed Money of a Subsidiary of a Credit Party to a Credit Party or to another Subsidiary of the Guarantor;

(v) Liens in favor of the United States of America, any State, any foreign country or any department, agency or instrumentality or political subdivision of any such jurisdiction, to secure partial, progress, advance or other payments pursuant to any contract or statute or to secure any Debt for Borrowed Money incurred for the purpose of financing all or any part of the purchase price of the cost of constructing or improving the property subject to such Liens, including, without limitation, Liens to secure Debt for Borrowed Money of the pollution control or industrial revenue bond type;

(vi) Liens on any property (including any natural gas, oil or other mineral property) to secure all or part of the cost of exploration, drilling or development thereof or to secure Debt for Borrowed Money incurred to provide funds for any such purpose;

(vii) Liens existing on the date of this Agreement;

(viii) Liens for the sole purposes of extending, renewing or replacing in whole or in part Debt for Borrowed Money secured by any Lien referred to in the foregoing clauses (i) through (vii), inclusive, or this clause (viii); provided, however, that the principal amount of Debt for Borrowed Money secured thereby shall not exceed the principal amount of Debt for Borrowed Money so secured at the time of such extension, renewal or replacement (which, for purposes of this limitation as it applies to a synthetic lease, shall be deemed to be (x) the lessor's original cost of the property subject to such lease at the time of extension, renewal or replacement, *less* (y) the aggregate amount of all prior payments under such lease allocated pursuant to the terms of such lease to reduce the principal amount of the lessor's investment, and borrowings by the lessor, made to fund the original cost of the property), and that such extension, renewal or replacement shall be limited to all or a part of the property

or indebtedness which secured the Lien so extended, renewed or replaced (plus improvements on such property);

(ix) Liens on any property or assets of a Project Financing Subsidiary, or on any Capital Stock in a Project Financing Subsidiary, in either such case, that secure only a Project Financing or a Contingent Guaranty that supports a Project Financing; or

(x) Any Lien, other than a Lien described in any of the foregoing clauses (i) through (ix), inclusive, to the extent that it secures Debt for Borrowed Money, or guaranties thereof, the outstanding principal balance of which at the time of creation of such Lien, when added to the aggregate principal balance of all Debt for Borrowed Money secured by Liens incurred under this clause (x) then outstanding, does not exceed \$150,000,000.

If at any time any Credit Party or any of its Subsidiaries shall create, issue, assume or guaranty any Debt for Borrowed Money secured by any Lien and the first paragraph of this Section 6.01(a) requires that the Loans be secured equally and ratably with such Debt for Borrowed Money, the Borrower shall promptly deliver to the Administrative Agent and each Lender:

(1) a certificate of a duly authorized officer of the Borrower stating that the covenant contained in the first paragraph of this Section 6.01(a) has been complied with; and

(2) an opinion of counsel acceptable to the Required Lenders to the effect that such covenant has been complied with and that all documents executed by any Credit Party or any of its Subsidiaries in the performance of such covenant comply with the requirements of such covenant.

(d) **Mergers, Etc.** Merge or consolidate with or into, or, except in a transaction permitted under paragraph (c) of this Section, convey, transfer, lease or otherwise dispose of (whether in one transaction or in a series of transactions) all or substantially all of its assets (whether now owned or hereafter acquired) to any Person, or permit any of its Subsidiaries to do so, except that:

(v) any Subsidiary of the Guarantor (other than the Borrower) may merge or consolidate with or transfer assets to or acquire assets from any other Subsidiary of the Guarantor; provided that in the case of any such merger, consolidation, or transfer of assets to which NIPSCO is a party, the continuing or surviving Person shall be a Wholly-Owned Subsidiary of the Guarantor; and

(vi) the Borrower may merge or consolidate with, or transfer assets to, or acquire assets from, any other Wholly-Owned Subsidiary of the Guarantor, provided, that in the case of any such merger or consolidation to which the Borrower is not the surviving Person, or transfer of all or substantially all of the assets of the Borrower to any other Wholly-Owned Subsidiary of the Guarantor, immediately after giving effect thereto, (A) no Event of Default shall have occurred and be continuing (determined, for purposes of compliance with Article VII after giving effect to such transaction, on a pro forma basis as if such transaction had occurred on the last day of the Guarantor's fiscal quarter then most recently ended), (B)

such surviving Person or transferee, as applicable, shall have assumed all of the obligations of the Borrower under and in respect of the Credit Documents by written instrument satisfactory to the Administrative Agent and its counsel in their reasonable discretion, accompanied by such opinions of counsel and other supporting documents as they may reasonably require and (C) such surviving Person or transferee, as applicable, shall be organized under the laws of the United States or any state thereof; and

(vii) any Subsidiary of the Guarantor may merge into the Guarantor or the Borrower or transfer assets to the Borrower or the Guarantor; provided that in the case of any merger or consolidation of the Borrower into the Guarantor or transfer of all or substantially all of the assets of the Borrower to the Guarantor, immediately after giving effect thereto, (A) no Event of Default shall have occurred and be continuing (determined, for purposes of compliance with Article VII after giving effect to such transaction, on a pro forma basis as if such transaction had occurred on the last day of the Guarantor's fiscal quarter then most recently ended) and (B) the Guarantor shall have assumed all of the obligations of the Borrower under and in respect of the Credit Documents by written instrument satisfactory to the Administrative Agent and its counsel in their reasonable discretion, accompanied by such opinions of counsel and other supporting documents as they may reasonably require; and

(viii) the Guarantor or any Subsidiary of the Guarantor may merge, or consolidate with or transfer all or substantially all of its assets to any other Person; provided that in each case under this clause (iii), immediately after giving effect thereto, (A) no Event of Default shall have occurred and be continuing (determined, for purposes of compliance with Article VII after giving effect to such transaction, on a pro forma basis as if such transaction had occurred on the last day of the Guarantor's fiscal quarter then most recently ended); (B) in the case of any such merger, consolidation or transfer of assets to which the Borrower is a party, the Borrower shall be the continuing or surviving corporation; (C) in the case of any such merger, consolidation, or transfer of assets to which NIPSCO is a party, NIPSCO shall be the continuing or surviving corporation and shall be a Wholly-Owned Subsidiary of the Guarantor; (D) in the case of any such merger, consolidation or transfer of assets to which the Guarantor is a party, the Guarantor shall be the continuing or surviving corporation; and (E) the Index Debt shall be rated at least BBB- by S&P and at least Baa3 by Moody's.

(e) **Sales, Etc. of Assets** . Sell, lease, transfer or otherwise dispose of, or permit any of their respective Subsidiaries to sell, lease, transfer or otherwise dispose of (other than in connection with a transaction authorized by paragraph (b) of this Section) any substantial part of its assets; provided that the foregoing shall not prohibit (i) the realization on a Lien permitted to exist under Section 6.01(a); (ii) any such sale, conveyance, lease, transfer or other disposition that (A) (1) is for a price not materially less than the fair market value of such assets, (2) would not materially impair the ability of any Credit Party to perform its obligations under this Agreement and (3) together with all other such sales, conveyances, leases, transfers and other dispositions, would have no Material Adverse Effect, or (B) would not result in the sale, lease, transfer or other disposition, in the aggregate, of more than 10% of the consolidated total assets of the Guarantor and its Subsidiaries, determined in accordance with GAAP, on December 31, 2015.

(f) **Compliance with ERISA** . (i) Terminate, or permit any ERISA Affiliate to terminate, any Plan so as to result in a Material Adverse Effect or (ii) permit to exist any occurrence of any Reportable Event (as defined in Title IV of ERISA), or any other event or condition, that presents a material (in the reasonable opinion of the Required Lenders) risk of such a termination by the PBGC of any Plan, if such termination could reasonably be expected to have a Material Adverse Effect.

(g) **Certain Restrictions** . Permit any of its Subsidiaries (other than, in the case of the Guarantor, the Borrower) to enter into or permit to exist any agreement that by its terms prohibits such Subsidiary from making any payments, directly or indirectly, to such Credit Party by way of dividends, advances, repayment of loans or advances, reimbursements of management or other intercompany charges, expenses and accruals or other returns on investment, or any other agreement that restricts the ability of such Subsidiary to make any payment, directly or indirectly, to such Credit Party; provided that the foregoing shall not apply to prohibitions and restrictions (i) imposed by applicable law, (ii) (A) imposed under an agreement in existence on the date of this Agreement, and (B) described on Schedule 6.01(e), (iii) existing with respect to a Subsidiary on the date it becomes a Subsidiary that are not created in contemplation thereof (but shall apply to any extension or renewal of, or any amendment or modification expanding the scope of, any such prohibition or restriction), (iv) contained in agreements relating to the sale of a Subsidiary pending such sale, provided that such prohibitions or restrictions apply only to the Subsidiary that is to be sold and such sale is permitted hereunder, (v) imposed on a Project Financing Subsidiary in connection with a Project Financing, or (vi) that could not reasonably be expected to have a Material Adverse Effect.

ARTICLE VII FINANCIAL COVENANT

So long as any Lender shall have any Commitment hereunder or any principal of any Loan, interest or fees payable hereunder shall remain unpaid, the Guarantor shall maintain a Debt to Capitalization Ratio of not more than 0.70 to 1.00.

ARTICLE VIII EVENTS OF DEFAULT

SECTION 8.01. Events of Default. If any of the following events (“*Events of Default*”) shall occur and be continuing:

- (a) The Borrower shall fail to pay any principal of any Loan when the same becomes due and payable or shall fail to pay any interest, fees or other amounts hereunder within three Business Days after when the same becomes due and payable; or
- (b) Any representation or warranty made by any Credit Party in any Credit Document or by any Credit Party (or any of its officers) in connection with this Agreement shall prove to have been incorrect in any material respect (or any such representation or warranty that was otherwise qualified by materiality shall prove to have been false or misleading in any respect) when made; or

(c) Any Credit Party shall fail to perform or observe any term, covenant or agreement contained in Section 5.01(e), 5.01(f), 5.01(h) (other than clause (y) of the last paragraph thereof), 5.01(i), 6.01 or Article VII; or

(d) Any Credit Party shall fail to perform or observe any term, covenant or agreement contained in any Credit Document on its part to be performed or observed (other than one identified in paragraph (a), (b) or (c) above) if the failure to perform or observe such other term, covenant or agreement shall remain unremedied for thirty days after written notice thereof shall have been given to the Borrower by the Administrative Agent or any Lender; or

(e) The Guarantor, the Borrower or any of their respective Subsidiaries shall fail to pay any principal of or premium or interest on any Indebtedness (excluding Non-Recourse Debt) which is outstanding in a principal amount of at least \$50,000,000 in the aggregate (but excluding the Loans) of the Guarantor, the Borrower or such Subsidiary, as the case may be, when the same becomes due and payable (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise), and such failure shall continue after the applicable grace period, if any, specified in the agreement or instrument relating to such Indebtedness; or any other event shall occur or condition shall exist under any agreement or instrument relating to any such Indebtedness and shall continue after the applicable grace period, if any, specified in such agreement or instrument, if the effect of such event or condition is to accelerate, or to permit the acceleration of, the scheduled maturity of such Indebtedness; or any such Indebtedness shall be declared to be due and payable, or required to be prepaid (other than by a regularly scheduled required prepayment), prior to the stated maturity thereof; or

(f) Any Credit Party shall generally not pay its debts as such debts become due, or shall admit in writing its inability to pay its debts generally, or shall make a general assignment for the benefit of creditors; or any proceeding shall be instituted by or against any Credit Party seeking to adjudicate it a bankrupt or insolvent, or seeking liquidation, winding up, reorganization, arrangement, adjustment, protection, relief, or composition of it or its debts under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its property and, in the case of any such proceeding instituted against any Credit Party (but not instituted by any Credit Party), either such proceeding shall remain undismissed or unstayed for a period of 60 days, or any of the actions sought in such proceeding (including, without limitation, the entry of an order for relief against, or the appointment of a receiver, trustee, custodian or other similar official for, any Credit Party or for any substantial part of its property) shall occur; or any Credit Party shall take any corporate action to authorize any of the actions set forth above in this paragraph (f); or

(g) One or more Subsidiaries of the Guarantor (other than the Borrower) in which the aggregate sum of (i) the amounts invested by the Guarantor and its other Subsidiaries in the aggregate, by way of purchases of Capital Stock, Capital Leases, loans or otherwise, and (ii) the amount of recourse, whether contractual or as a matter of law (but excluding Non-Recourse Debt), available to creditors of such Subsidiary or Subsidiaries against the Guarantor or any of its other Subsidiaries, is \$100,000,000 or more (collectively, “**Substantial Subsidiaries**”) shall generally not

pay their respective debts as such debts become due, or shall admit in writing their respective inability to pay their debts generally, or shall make a general assignment for the benefit of creditors; or any proceeding shall be instituted by or against Substantial Subsidiaries seeking to adjudicate them bankrupt or insolvent, or seeking liquidation, winding up, reorganization, arrangement, adjustment, protection, relief, or composition of them or their respective debts under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a receiver, trustee, custodian or other similar official for them or for any substantial part of their respective property and, in the case of any such proceeding instituted against Substantial Subsidiaries (but not instituted by the Guarantor or any Subsidiary of the Guarantor), either such proceeding shall remain undismitted or unstayed for a period of 60 days, or any of the actions sought in such proceeding (including, without limitation, the entry of an order for relief against, or the appointment of a receiver, trustee, custodian or other similar official for, the Substantial Subsidiaries or for any substantial part of their respective property) shall occur; or Substantial Subsidiaries shall take any corporate action to authorize any of the actions set forth above in this paragraph (g); or

(h) Any judgment or order for the payment of money in excess of \$50,000,000 shall be rendered against the Borrower, the Guarantor or any of its other Subsidiaries and either (i) enforcement proceedings shall have been commenced by any creditor upon such judgment or order or (ii) there shall be any period of 30 consecutive days during which a stay of enforcement of such judgment or order, by reason of a pending appeal or otherwise, shall not be in effect; or

(i) Any ERISA Event shall have occurred with respect to a Plan and, 30 days after notice thereof shall have been given to the Guarantor or the Borrower by the Administrative Agent, (i) such ERISA Event shall still exist and (ii) the sum (determined as of the date of occurrence of such ERISA Event) of the Insufficiency of such Plan and the Insufficiency of any and all other Plans with respect to which an ERISA Event shall have occurred and then exist (or, in the case of a Plan with respect to which an ERISA Event described in clauses (c) through (e) of the definition of ERISA Event shall have occurred and then exist, the liability related thereto) is equal to or greater than \$10,000,000 (when aggregated with paragraphs (j), (k) and (l) of this Section), and a Material Adverse Effect could reasonably be expected to occur as a result thereof; or

(j) The Guarantor or any ERISA Affiliate shall have been notified by the sponsor of a Multiemployer Plan that it has incurred Withdrawal Liability to such Multiemployer Plan in an amount which, when aggregated with all other amounts required to be paid to Multiemployer Plans by the Guarantor and its ERISA Affiliates as Withdrawal Liability (determined as of the date of such notification), exceeds \$10,000,000 or requires payments exceeding \$10,000,000 *per annum* (in either case, when aggregated with paragraphs (i), (k) and (l) of this Section), and a Material Adverse Effect could reasonably be expected to occur as a result thereof; or

(k) The Guarantor or any ERISA Affiliate shall have been notified by the sponsor of a Multiemployer Plan that such Multiemployer Plan is in reorganization or is being terminated, within the meaning of Title IV of ERISA, if as a result of such reorganization or termination the aggregate annual contributions of the Guarantor and its ERISA Affiliates to all Multiemployer Plans which are then in reorganization or being terminated have been or will be increased over the amounts

contributed to such Multiemployer Plans for the respective plan year of each such Multiemployer Plan immediately preceding the plan year in which the reorganization or termination occurs by an amount exceeding \$10,000,000 (when aggregated with paragraphs (i), (j) and (l) of this Section), and a Material Adverse Effect could reasonably be expected to occur as a result thereof; or

(l) The Guarantor or any ERISA Affiliate shall have committed a failure described in Section 303(k)(1) of ERISA and the amount determined under Section 303(k)(3) of ERISA is equal to or greater than \$10,000,000 (when aggregated with paragraphs (i), (j) and (k) of this Section), and a Material Adverse Effect could reasonably be expected to occur as a result thereof; or

(m) Any provision of the Credit Documents shall be held by a court of competent jurisdiction to be invalid or unenforceable against any Credit Party purported to be bound thereby, or any Credit Party shall so assert in writing; or

(n) Any Change of Control shall occur;

then, and in any such event, the Administrative Agent (i) shall at the request, or may with the consent, of the Required Lenders, by notice to the Borrower, declare the Commitment of each Lender to be terminated, whereupon the same shall forthwith terminate, and (ii) shall at the request or with the consent of the Required Lenders, by notice to the Borrower, declare all amounts payable under this Agreement to be forthwith due and payable, whereupon all such amounts shall become and be forthwith due and payable, without presentment, demand, protest or further notice of any kind, all of which are hereby expressly waived by the Borrower; provided that in the event of an actual or deemed entry of an order for relief with respect to any Credit Party under the Federal Bankruptcy Code, (1) the Commitment of each Lender hereunder shall automatically be terminated and (2) all such amounts shall automatically become and be due and payable, without presentment, demand, protest or any notice of any kind, all of which are hereby expressly waived by the Borrower.

ARTICLE IX THE ADMINISTRATIVE AGENT

SECTION 9.01. The Administrative Agent.

(a) Each of the Lenders hereby irrevocably appoints the Administrative Agent as its agent and authorizes the Administrative Agent to take such actions on its behalf and to exercise such powers as are delegated to the Administrative Agent by the terms hereof, together with such actions and powers as are reasonably incidental thereto.

(b) The Person serving as the Administrative Agent hereunder shall have the same rights and powers in its capacity as a Lender as any other Lender and may exercise the same as though it were not the Administrative Agent, and such bank and its Affiliates may accept deposits from, lend money to and generally engage in any kind of business with any Credit Party or any of such Credit Party's Subsidiaries or other Affiliates thereof as if it were not the Administrative Agent hereunder.

(c) The Administrative Agent shall not have any duties or obligations except those expressly set forth herein. Without limiting the generality of the foregoing, (i) the Administrative Agent shall

not be subject to any fiduciary or other implied duties, regardless of whether a Default has occurred and is continuing, (ii) the Administrative Agent shall not have any duty to take any discretionary action or exercise any discretionary powers, except discretionary rights and powers expressly contemplated hereby that the Administrative Agent is required to exercise in writing by the Required Lenders, and (iii) except as expressly set forth herein, the Administrative Agent shall not have any duty to disclose, and shall not be liable for the failure to disclose, any information relating to the Borrower, the Guarantor or any of its other Subsidiaries that is communicated to or obtained by the bank serving as Administrative Agent or any of its Affiliates in any capacity. The Administrative Agent shall not be liable for any action taken or not taken by it with the consent or at the request of the Required Lenders (or, if applicable, all of the Lenders) or in the absence of its own gross negligence or willful misconduct. The Administrative Agent shall be deemed not to have knowledge of any Default unless and until written notice thereof is given to the Administrative Agent by the Borrower or a Lender, and the Administrative Agent shall not be responsible for or have any duty to ascertain or inquire into (1) any statement, warranty or representation made in or in connection with this Agreement, (2) the contents of any certificate, report or other document delivered hereunder or in connection herewith, (3) the performance or observance of any of the covenants, agreements or other terms or conditions set forth herein, (4) the validity, enforceability, effectiveness or genuineness of this Agreement or any other agreement, instrument or document, or (5) the satisfaction of any condition set forth in Article III or elsewhere herein, other than to confirm receipt of items expressly required to be delivered to the Administrative Agent and the conformity thereof to such express requirement.

(d) The Administrative Agent shall be entitled to rely upon, and shall not incur any liability for relying upon, any notice, request, certificate, consent, statement, instrument, document or other writing believed by it to be genuine and to have been signed or sent by the proper Person. The Administrative Agent also may rely upon any statement made to it orally or by telephone and believed by it to be made by the proper Person, and shall not incur any liability for relying thereon. The Administrative Agent may consult with legal counsel (who may be counsel for a Credit Party) independent accountants and other experts selected by it and shall not be liable for any action taken or not taken by it in accordance with the advice of any such counsel, accountants or experts.

(e) The Administrative Agent may perform any and all its duties and exercise its rights and powers by or through any one or more sub-agents appointed by the Administrative Agent. The Administrative Agent and any such sub-agent may perform any and all its duties and exercise its rights and powers through their respective Related Parties. The exculpatory provisions of the preceding paragraphs shall apply to any such sub-agent and to the Related Parties of the Administrative Agent and any such sub-agent, and shall apply to their respective activities in connection with the syndication of the term loan facility provided for herein as well as activities as Administrative Agent.

(f) Subject to the appointment and acceptance of a successor Administrative Agent as provided in this paragraph, the Administrative Agent may resign at any time by notifying the Lenders and the Credit Parties. Upon any such resignation, the Required Lenders shall have the right, with the consent of the Borrower (which consent shall not unreasonably be withheld), to appoint a successor; provided that no such consent of the Borrower shall be required if an Event of Default

has occurred and is continuing. If no successor shall have been so appointed by the Required Lenders and shall have accepted such appointment within 30 days after the retiring Administrative Agent gives notice of its resignation, then the retiring Administrative Agent may, on behalf of the Lenders, appoint a successor Administrative Agent which shall be a bank with an office in New York, New York, or an Affiliate of any such bank, in any event having total assets in excess of \$500,000,000 and who shall serve until such time, if any, as an Agent shall have been appointed as provided above. Upon the acceptance of its appointment as Administrative Agent hereunder by a successor, such successor shall succeed to and become vested with all the rights, powers, privileges and duties of the retiring Administrative Agent, and the retiring Administrative Agent shall be discharged from its duties and obligations hereunder. The fees payable by the Borrower to a successor Administrative Agent shall be the same as those payable to its predecessor unless otherwise agreed between the Borrower and such successor. After the Administrative Agent's resignation hereunder, the provisions of this Article and Section 11.03 shall continue in effect for its benefit in respect of any actions taken or omitted to be taken by it while it was acting as Administrative Agent.

(g) Each Lender acknowledges that it has, independently and without reliance upon the Administrative Agent or any other Lender and based on such documents and information as it has deemed appropriate, made its own credit analysis and decision to enter into this Agreement. Each Lender also acknowledges that it will, independently and without reliance upon the Administrative Agent or any other Lender and based on such documents and information as it shall from time to time deem appropriate, continue to make its own decisions in taking or not taking action under or based upon this Agreement, any related agreement or any document furnished hereunder or thereunder.

(h) No Lender identified in this Agreement as a "Lead Arranger", "Documentation Agent" or "Syndication Agent", or that is given any other title hereunder other than "Administrative Agent", shall have any right, power, obligation, liability, responsibility or duty under this Agreement other than those applicable to all Lenders as such. Without limiting the generality of the foregoing, no Lender so identified as a "Lead Arranger", "Documentation Agent" or "Syndication Agent" or that is given any other title hereunder, shall have, or be deemed to have, any fiduciary relationship with any Lender. Each Lender acknowledges that it has not relied, and will not rely, on the Lenders so identified in deciding to enter into this Agreement or in taking or not taking action hereunder.

(i) Notwithstanding anything to the contrary herein or in any other Credit Document, the authority to enforce rights and remedies hereunder and in the other Credit Documents against the Credit Parties or any of them shall be vested exclusively in, and all actions and proceedings at law in connection with such enforcement shall be instituted and maintained exclusively by, the Administrative Agent in accordance with Section 8.01 for the benefit of all the Lenders; provided, however, that the foregoing shall not prohibit (i) the Administrative Agent from exercising on its own behalf the rights and remedies that inure to its benefit (solely in its capacity as Administrative Agent) hereunder and under the other Credit Documents, (ii) any Lender from exercising setoff rights in accordance with Section 11.08 (subject to the terms of Section 2.18(c)) or (iii) any Lender from filing proofs of claim or appearing and filing pleadings on its own behalf during the pendency of a Bankruptcy Event relative to any Credit Party; and provided, further, that if at any time there is no Person acting as Administrative Agent hereunder and under the other Credit Documents, then

(A) the Required Lenders shall have the rights otherwise ascribed to the Administrative Agent pursuant to Section 8.01 and (B) in addition to the matters set forth in clauses (ii), (iii) and (iv) of the preceding proviso and subject to Section 2.18(c), any Lender may, with the consent of the Required Lenders, enforce any rights and remedies available to it and as authorized by the Required Lenders.

(j) Each Lender acknowledges and agrees that the Loans made by it hereunder are commercial loans and not investments in a business enterprise or securities. Each Lender further represents that it is engaged in making, acquiring or holding commercial loans in the ordinary course of its business and has, independently and without reliance upon the Administrative Agent or any other Lender and based on such documents and information as it has deemed appropriate, made its own credit analysis and decision to enter into this Agreement as a Lender, and to make, acquire or hold Loans hereunder. Each Lender shall, independently and without reliance upon the Administrative Agent or any other Lender and based on such documents and information (which may contain material, non-public information within the meaning of the United States securities laws concerning the Borrower and its Affiliates) as it shall from time to time deem appropriate, continue to make its own decisions in taking or not taking action under or based upon this Agreement, any related agreement or any document furnished hereunder or thereunder and in deciding whether or to the extent to which it will continue as a Lender or assign or otherwise transfer its rights, interests and obligations hereunder.

ARTICLE X GUARANTY

SECTION 10.01. The Guaranty.

(d) The Guarantor, as primary obligor and not merely as a surety, hereby irrevocably, absolutely and unconditionally guarantees to the Administrative Agent and the Lenders and each of their respective successors, endorsees, transferees and assigns (each a “**Beneficiary**” and collectively, the “**Beneficiaries**”) the prompt and complete payment by the Borrower, as and when due and payable, of the Obligations, in accordance with the terms of the Credit Documents. The provisions of this Article X are sometimes referred to hereinafter as the “**Guaranty**”.

(e) The Guarantor hereby guarantees that the Obligations will be paid strictly in accordance with the terms of the Credit Documents, regardless of any law now or hereafter in effect in any jurisdiction affecting any such terms or the rights of the Beneficiaries with respect thereto. The obligations and liabilities of the Guarantor under this Guaranty shall be absolute and unconditional irrespective of: (i) any lack of validity or enforceability of any of the Obligations or any Credit Document, or any delay, failure or omission to enforce or agreement not to enforce, or the stay or enjoining, by order of court, by operation of law or otherwise, of the exercise of any right with respect to the foregoing (including, in each case, without limitation, as a result of the insolvency, bankruptcy or reorganization of any Beneficiary, the Borrower or any other Person); (ii) any change in the time, manner or place of payment of, or in any other term in respect of, all or any of the Obligations, or any other amendment or waiver of or consent to any departure from the Credit Documents or any agreement or instrument relating thereto; (iii) any exchange or release of, or non-perfection of any Lien on or in any collateral, or any release, amendment or waiver of, or consent

to any departure from, any other guaranty of, or agreement granting security for, all or any of the Obligations; (iv) any claim, set-off, counterclaim, defense or other rights that the Guarantor may have at any time and from time to time against any Beneficiary or any other Person, whether in connection with this Transaction or any unrelated transaction; or (v) any other circumstance that might otherwise constitute a defense available to, or a discharge of, the Borrower or any other guarantor or surety in respect of the Obligations or the Guarantor in respect hereof.

(f) The Guaranty provided for herein (i) is a guaranty of payment and not of collection; (ii) is a continuing guaranty and shall remain in full force and effect until the Commitments have been terminated and the Obligations have been paid in full in cash; and (iii) shall continue to be effective or shall be reinstated, as the case may be, if at any time any payment, or any part thereof, of any of the Obligations is rescinded or must otherwise be returned by any Beneficiary upon or as a result of the insolvency, bankruptcy, dissolution, liquidation or reorganization of the Borrower or otherwise, all as though such payment had not been made.

(g) The obligations and liabilities of the Guarantor hereunder shall not be conditioned or contingent upon the pursuit by any Beneficiary or any other Person at any time of any right or remedy against the Borrower or any other Person that may be or become liable in respect of all or any part of the Obligations or against any collateral security or guaranty therefor or right of setoff with respect thereto.

(h) The Guarantor hereby consents that, without the necessity of any reservation of rights against the Guarantor and without notice to or further assent by the Guarantor, any demand for payment of any of the Obligations made by any Beneficiary may be rescinded by such Beneficiary and any of the Obligations continued after such rescission.

(i) The Guarantor's obligations under this Guaranty shall be unconditional, irrespective of any lack of capacity of the Borrower or any lack of validity or enforceability of any other provision of this Agreement or any other Credit Document, and this Guaranty shall not be affected in any way by any variation, extension, waiver, compromise or release of any or all of the Obligations or of any security or guaranty from time to time therefor.

(j) The obligations of the Guarantor under this Guaranty shall not be reduced, limited, impaired, discharged, deferred, suspended or terminated by any proceeding or action, voluntary or involuntary, involving the bankruptcy, insolvency, receivership, reorganization, marshalling of assets, assignment for the benefit of creditors, composition with creditors, readjustment, liquidation or arrangement of the Borrower or any similar proceedings or actions, or by any defense the Borrower may have by reason of the order, decree or decision of any court or administrative body resulting from any such proceeding or action. Without limiting the generality of the foregoing, the Guarantor's liability shall extend to all amounts and obligations that constitute the Obligations and would be owed by the Borrower, but for the fact that they are unenforceable or not allowable due to the existence of any such proceeding or action.

SECTION 10.02. Waivers.

(f) The Guarantor hereby unconditionally waives: (i) promptness and diligence; (ii) notice of or proof of reliance by the Administrative Agent or the Lenders upon this Guaranty or acceptance of this Guaranty; (iii) notice of the incurrence of any Obligation by the Borrower or the renewal, extension or accrual of any Obligation or of any circumstances affecting the Borrower's financial condition or ability to perform the Obligations; (iv) notice of any actions taken by the Beneficiaries or the Borrower or any other Person under any Credit Document or any other agreement or instrument relating thereto; (v) all other notices, demands and protests, and all other formalities of every kind in connection with the enforcement of the Obligations, of the obligations of the Guarantor hereunder or under any other Credit Document, the omission of or delay in which, but for the provisions of this Section 10 might constitute grounds for relieving the Guarantor of its obligations hereunder; (vi) any requirement that the Beneficiaries protect, secure, perfect or insure any Lien or any property subject thereto, or exhaust any right or take any action against the Borrower or any other Person or any collateral; and (vii) each other circumstance, other than payment of the Obligations in full, that might otherwise result in a discharge or exoneration of, or constitute a defense to, the Guarantor's obligations hereunder.

(g) No failure on the part of any Beneficiary to exercise, and no delay in exercising, any right, remedy, power or privilege hereunder or under any Credit Document or any other agreement or instrument relating thereto shall operate as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege hereunder or under any Credit Document or any other agreement or instrument relating thereto preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege. This Guaranty is in addition to and not in limitation of any other rights, remedies, powers and privileges the Beneficiaries may have by virtue of any other instrument or agreement heretofore, contemporaneously herewith or hereafter executed by the Guarantor or any other Person or by applicable law or otherwise. All rights, remedies, powers and privileges of the Beneficiaries shall be cumulative and may be exercised singly or concurrently. The rights, remedies, powers and privileges of the Beneficiaries under this Guaranty against the Guarantor are not conditional or contingent on any attempt by the Beneficiaries to exercise any of their rights, remedies, powers or privileges against any other guarantor or surety or under the Credit Documents or any other agreement or instrument relating thereto against the Borrower or against any other Person.

(h) The Guarantor hereby acknowledges and agrees that, until the Commitments have been terminated and all of the Obligations have been paid in full in cash, under no circumstances shall it be entitled to be subrogated to any rights of any Beneficiary in respect of the Obligations performed by it hereunder or otherwise, and the Guarantor hereby expressly and irrevocably waives, until the Commitments have been terminated and all of the Obligations have been paid in full in cash, (i) each and every such right of subrogation and any claims, reimbursements, right or right of action relating thereto (howsoever arising), and (ii) each and every right to contribution, indemnification, set-off or reimbursement, whether from the Borrower or any other Person now or hereafter primarily or secondarily liable for any of the Obligations, and whether arising by contract or operation of law or otherwise by reason of the Guarantor's execution, delivery or performance of this Guaranty.

(i) The Guarantor represents and warrants that it has established adequate means of keeping itself informed of the Borrower's financial condition and of other circumstances affecting the

Borrower's ability to perform the Obligations, and agrees that neither the Administrative Agent nor any Lender shall have any obligation to provide to the Guarantor any information it may have, or hereafter receive, in respect of the Borrower.

**ARTICLE XI
MISCELLANEOUS**

SECTION 11.01. *Notices.* Except in the case of notices and other communications expressly permitted to be given by telephone, all notices and other communications provided for herein shall be in writing and shall be delivered by hand or overnight courier service, mailed by certified or registered mail or sent by telecopy, as follows:

(j) if to any Credit Party, to it at:

801 East 86th Avenue
Merrillville, IN 46410
Attention: Chief Financial Officer and Treasurer
Telecopier: (219) 647-6100;

with a copy to such Credit Party at:

290 West Nationwide Boulevard
Columbus, OH 43215
Attention: Assistant Treasurer
Telecopier: (614) 460-8414;

(k) if to the Administrative Agent, to PNC Bank, National Association at:

PNC Bank, National Association
500 First Ave., (Mail Stop P7-PFSC-O4I)
Pittsburgh, PA 15219
Attention: Kelsey Munsick
Facsimile No.: 412-762-8672

with a copy, except with respect to the Borrowing Request and any Interest Election Request, to PNC Bank, National Association at:

PNC Bank, National Association
500 First Ave., 4th Floor
Pittsburgh, PA 15219
Attention: Laura Macioce
Facsimile No.: 412-762-8672

and

PNC Bank, National Association

155 East Broad St., 7th Floor
Columbus, OH 43215
Attention: Thomas Redmond
Facsimile No.: 614-463-6770

(l) if to any Lender, to it at its address (or telecopy number) set forth in its Administrative Questionnaire.

Notices sent by hand or overnight courier service, or mailed by certified or registered mail, shall be deemed to have been given when received; notices sent by facsimile shall be deemed to have been given when sent (except that, if not given during normal business hours for the recipient, shall be deemed to have been given at the opening of business on the next business day for the recipient). Notices delivered through Electronic Systems, to the extent provided in paragraph (e) below, shall be effective as provided in said paragraph (e).

(d) Notices and other communications to the Lenders hereunder may be delivered or furnished by using Electronic Systems pursuant to procedures approved by the Administrative Agent; provided that the foregoing shall not apply to notices pursuant to Article II unless otherwise agreed by the Administrative Agent and the applicable Lender. The Administrative Agent or the Borrower may, in its discretion, agree to accept notices and other communications to it hereunder by electronic communications pursuant to procedures approved by it; provided that approval of such procedures may be limited to particular notices or communications.

(e) Unless the Administrative Agent otherwise prescribes, (i) notices and other communications sent to an e-mail address shall be deemed received upon the sender's receipt of an acknowledgement from the intended recipient (such as by the "return receipt requested" function, as available, return e-mail or other written acknowledgement), and (ii) notices or communications posted to an Internet or intranet website, including an Electronic System, shall be deemed received upon the deemed receipt by the intended recipient, at its e-mail address as described in the foregoing clause (i), of notification that such notice or communication is available and identifying the website address therefor; provided that, for both clauses (i) and (ii) above, if such notice, email or other communication is not sent during the normal business hours of the recipient, such notice or communication shall be deemed to have been sent at the opening of business on the next business day for the recipient.

(f) Any party hereto may change its address or telecopy number for notices and other communications hereunder by notice to the other parties hereto. All notices and other communications given to any party hereto in accordance with the provisions of this Agreement shall be deemed to have been given on the date of receipt.

(g) Electronic Systems.

(i) The Borrower and each Lender agrees that the Administrative Agent may, but shall not be obligated to, make Communications (as defined below) available to the Lenders by posting the Communications on Debt Domain, Intralinks, Syndtrak, ClearPar or a substantially similar Electronic System.

(ii) Any Electronic System used by the Administrative Agent is provided “as is” and “as available.” The Agent Parties (as defined below) and the Credit Parties do not warrant the adequacy of such Electronic Systems and expressly disclaim liability for errors or omissions in the Communications. No warranty of any kind, express, implied or statutory, including, without limitation, any warranty of merchantability, fitness for a particular purpose, non-infringement of third-party rights or freedom from viruses or other code defects, is made by any Agent Party or any Credit Party in connection with the Communications or any Electronic System. In no event shall the Administrative Agent or any of its Related Parties (collectively, the “Agent Parties”) or the Credit Parties have any liability to any Credit Party, any Lender, Administrative Agent or any other Person or entity for damages of any kind, including, without limitation, direct or indirect, special, incidental or consequential damages, losses or expenses (whether in tort, contract or otherwise) arising out of any Credit Party’s or the Administrative Agent’s transmission of Communications through an Electronic System, except to the extent that such damages, losses or expenses are determined by a court of competent jurisdiction by final and nonappealable judgment to have resulted from the gross negligence or willful misconduct of such Agent Party. “Communications” means, collectively, any notice, demand, communication, information, document or other material provided by or on behalf of any Credit Party pursuant to any Credit Document or the transactions contemplated therein which is distributed by the Administrative Agent or any Lender by means of electronic communications pursuant to this Section, including through an Electronic System.

SECTION 11.02. Waivers; Amendments.

(c) No failure or delay by the Administrative Agent or any Lender in exercising any right or power hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any such right or power, or any abandonment or discontinuance of steps to enforce such a right or power, preclude any other or further exercise thereof or the exercise of any other right or power. The rights and remedies of the Administrative Agent and the Lenders hereunder are cumulative and are not exclusive of any rights or remedies that they would otherwise have. No waiver of any provision of this Agreement or consent to any departure by any Credit Party therefrom shall in any event be effective unless the same shall be permitted by paragraph (b) of this Section, and then such waiver or consent shall be effective only in the specific instance and for the purpose for which given. Without limiting the generality of the foregoing, no Extension of Credit shall be construed as a waiver of any Default, regardless of whether the Administrative Agent or any Lender may have had notice or knowledge of such Default at the time.

(d) Neither this Agreement nor any provision hereof may be waived, amended or modified except pursuant to an agreement or agreements in writing entered into by the Borrower, the Guarantor and the Required Lenders or by the Borrower, the Guarantor and the Administrative Agent with the consent of the Required Lenders; provided that no such agreement shall (i) increase the Commitment of any Lender without the written consent of such Lender, (ii) reduce the principal amount of any Loan or reduce the rate of interest thereon, or reduce any fees or other amounts payable hereunder, without the written consent of each Lender affected thereby, (iii) postpone the scheduled date of payment of the principal amount of any Loan or any interest thereon, or any fees or other amounts payable hereunder, or reduce the amount of, waive or excuse any such payment, or postpone the scheduled date of expiration of any Commitment, without the written consent of each Lender affected

thereby, (iv) change Section 2.18(b) or (c) in a manner that would alter the pro rata sharing of payments required thereby, without the written consent of each Lender, (v) release the Guarantor from its obligations under the Guaranty without the written consent of each Lender, (vi) waive any of the conditions precedent to the Effective Date set forth in Section 3.01 without the written consent of each Lender, or (vii) change any of the provisions of this Section or the definition of “Required Lenders” or any other provision hereof specifying the number or percentage of Lenders required to waive, amend or modify any rights hereunder or make any determination or grant any consent hereunder, without the written consent of each Lender; provided, further, that no such agreement shall amend, modify or otherwise affect the rights or duties of the Administrative Agent hereunder without the prior written consent of the Administrative Agent.

SECTION 11.03. Expenses; Indemnity; Damage Waiver.

(c) The Borrower shall pay (i) all reasonable out-of-pocket expenses incurred by the Administrative Agent and its Affiliates, including the reasonable fees, charges and disbursements of counsel for the Administrative Agent, in connection with the initial syndication of the term loan facility provided for herein, the preparation and administration of this Agreement or any amendments, modifications or waivers of the provisions hereof (whether or not the transactions contemplated hereby or thereby shall be consummated) and (ii) all reasonable out-of-pocket expenses incurred by the Administrative Agent or any Lender, including the reasonable fees, charges and disbursements of any counsel for the Administrative Agent or any Lender, in connection with the enforcement or protection of its rights in connection with this Agreement, including its rights under this Section, or in connection with the Loans made hereunder, including in connection with any workout, restructuring or negotiations in respect thereof.

(d) The Borrower shall indemnify the Administrative Agent, the Syndication Agent, the Documentation Agent, each Lender and each Related Party of any of the foregoing Persons (each such Person being called an “*Indemnitee*”) against, and hold each Indemnitee harmless from, any and all losses, claims, penalties, damages, liabilities and related reasonable expenses, including the reasonable fees, charges and disbursements of any counsel for any Indemnitee, incurred by or asserted against any Indemnitee arising out of, in connection with, or as a result of (i) the execution or delivery of this Agreement or any agreement or instrument contemplated hereby, the performance by the parties hereto of their respective obligations hereunder or the consummation of the Transactions or any other transaction contemplated hereby, (ii) any Loan or the use of the proceeds therefrom, (iii) any actual or alleged presence or release of Hazardous Materials on or from any property now, in the past or hereafter owned or operated by the Borrower, the Guarantor or any of its other Subsidiaries, or any Environmental Liability related in any way to the Borrower, the Guarantor or any of its other Subsidiaries, or (iv) any actual or prospective claim, litigation, investigation or proceeding relating to any of the foregoing, whether based on contract, tort or any other theory, whether brought by a third party or by the Borrower or any of its Subsidiaries, and regardless of whether any Indemnitee is a party thereto; provided that such indemnity shall not, as to any Indemnitee, be available to the extent that such losses, claims, damages, liabilities or related expenses are determined by a court of competent jurisdiction by final and nonappealable judgment to have resulted from the gross negligence or willful misconduct of such Indemnitee. This Section

11.03(b) shall not apply with respect to Taxes other than any Taxes that represent losses, claims, penalties, damages, etc. arising from any non-Tax claim.

(e) To the extent that the Borrower fails to pay any amount required to be paid by it to the Administrative Agent under paragraph (a) or (b) of this Section, each Lender severally agrees to pay to the Administrative Agent such Lender's Applicable Percentage (determined as of the time that the applicable unreimbursed expense or indemnity payment is sought) of such unpaid amount; provided that the unreimbursed expense or indemnified loss, claim, damage, liability or related expense, as the case may be, was incurred by or asserted against the Administrative Agent in its capacity as such.

(f) To the extent permitted by applicable law, (i) the Borrower shall not assert, and does hereby waive, any claim against any Indemnitee for any damages arising from the use by others of information or other materials obtained through telecommunications, electronic or other information transmission systems (including the Internet), and (ii) without limiting the rights of indemnification of any Indemnitee set forth in this Agreement with respect to liabilities asserted by third parties, each party hereto shall not assert, and hereby waives, any claim against each other party, on any theory of liability, for special, indirect, consequential or punitive damages (as opposed to direct or actual damages) arising out of, in connection with, or as a result of, this Agreement or any agreement or instrument contemplated hereby, the Transactions or any Loan or the use of the proceeds thereof.

(g) All amounts due under this Section shall be payable not later than 20 days after written demand therefor.

SECTION 11.04. Successors and Assigns.

(f) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby; provided that, (i) except to the extent permitted pursuant to Section 6.01(b)(ii) and (iii), no Credit Party may assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of each Lender (and any attempted assignment or transfer by a Credit Party without such consent shall be null and void) and (ii) no Lender may assign or otherwise transfer its rights or obligations hereunder except in accordance with this Section. Nothing in this Agreement, expressed or implied, shall be construed to confer upon any Person (other than the parties hereto, their respective successors and assigns permitted hereby and, to the extent expressly contemplated hereby, the Related Parties of each of the Administrative Agent and the Lenders) any legal or equitable right, remedy or claim under or by reason of this Agreement.

(g) (i) Subject to the conditions set forth in paragraph (b)(ii) below, any Lender may assign to one or more Persons (other than an Ineligible Institution) all or a portion of its rights and obligations under this Agreement (including all or a portion of its Commitment and the Loans at the time owing to it) with the prior written consent (such consent not to be unreasonably withheld or delayed) of:

(A) the Borrower (provided that the Borrower shall be deemed to have consented to any such assignment unless it shall object thereto by written notice to the Administrative Agent within ten (10) Business Days after having received notice

thereof); provided, further, that no consent of the Borrower shall be required for an assignment to a Lender, an Affiliate of a Lender, an Approved Fund or, if an Event of Default has occurred and is continuing, any other assignee; and

(B) the Administrative Agent.

(ii) Assignments shall be subject to the following additional conditions:

(A) except in the case of an assignment to a Lender or an Affiliate of a Lender or an Approved Fund or an assignment of the entire remaining amount of the assigning Lender's Commitment or Loans, the amount of the Commitment or Loans of the assigning Lender subject to each such assignment (determined as of the date the Assignment and Assumption with respect to such assignment is delivered to the Administrative Agent) shall not be less than \$5,000,000 unless each of the Borrower and the Administrative Agent otherwise consent, provided that no such consent of the Borrower shall be required if an Event of Default has occurred and is continuing;

(B) each partial assignment shall be made as an assignment of a proportionate part of all the assigning Lender's rights and obligations under this Agreement, provided that this clause shall not be construed to prohibit the assignment of a proportionate part of all the assigning Lender's rights and obligations in respect of such Lender's Loans;

(C) the parties to each assignment shall execute and deliver to the Administrative Agent an Assignment and Assumption, together with a processing and recordation fee of \$3,500, such fee to be paid by either the assigning Lender or the assignee Lender or shared between such Lenders;

(D) the assignee, if it shall not be a Lender, shall deliver to the Administrative Agent an Administrative Questionnaire in which the assignee designates one or more credit contacts to whom all syndicate-level information (which may contain material non-public information about the Borrower and its affiliates and their Related Parties or their respective securities) will be made available and who may receive such information in accordance with the assignee's compliance procedures and applicable laws, including Federal and state securities laws;

(E) without the prior written consent of the Administrative Agent, no assignment shall be made to a prospective assignee that bears a relationship to the Borrower described in Section 108(e)(4) of the Code; and

(F) no assignment shall be made to any Affiliate of any Credit Party.

For the purposes of this Section 11.04(b), the terms "Approved Fund" and "Ineligible Institution" have the following meanings:

“Approved Fund” means any Person (other than a natural person) that is engaged in making, purchasing, holding or investing in bank loans and similar extensions of credit in the ordinary course of its business and that is administered or managed by (a) a Lender, (b) an Affiliate of a Lender or (c) an entity or an Affiliate of an entity that administers or manages a Lender.

“Ineligible Institution” means (a) a natural person, (b) a Defaulting Lender or any of its Subsidiaries or any parent company thereof, or any Person who, upon becoming a Lender hereunder, would constitute any of the foregoing Persons described in this clause (b), (c) the Borrower, any of its Subsidiaries or any of its Affiliates, or (d) a company, investment vehicle or trust for, or owned and operated for the primary benefit of, a natural person or relative(s) thereof.

Subject to acceptance and recording thereof pursuant to paragraph (d) of this Section, from and after the effective date specified in each Assignment and Assumption, the assignee thereunder shall be a party hereto and, to the extent of the interest assigned by such Assignment and Assumption, have the rights and obligations of a Lender under this Agreement, and the assigning Lender thereunder shall, to the extent of the interest assigned by such Assignment and Assumption, be released from its obligations under this Agreement (and, in the case of an Assignment and Assumption covering all of the assigning Lender’s rights and obligations under this Agreement, such Lender shall cease to be a party hereto but shall continue to be entitled to the benefits of Sections 2.15, 2.16, 2.17 and 11.03). Any assignment or transfer by a Lender of rights or obligations under this Agreement that does not comply with this paragraph shall be treated for purposes of this Agreement as a sale by such Lender of a participation in such rights and obligations in accordance with paragraph (e) of this Section.

(h) The Administrative Agent, acting for this purpose as a non-fiduciary agent of the Borrower, shall maintain at one of its offices in The City of New York a copy of each Assignment and Assumption delivered to it and a register for the recordation of the names and addresses of the Lenders, and the Commitment of, and principal amount (and stated interest) of the Loans and other Obligations owing to, each Lender pursuant to the terms hereof from time to time (the “*Register*”). The entries in the Register shall be conclusive (absent manifest error), and the Borrower, the Administrative Agent and the Lenders may treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement, notwithstanding notice to the contrary.

(i) Upon its receipt of a duly completed Assignment and Assumption executed by an assigning Lender and an assignee, the assignee’s completed Administrative Questionnaire (unless the assignee shall already be a Lender hereunder), the processing and recordation fee referred to in paragraph (b) of this Section and any written consent to such assignment required by paragraph (b) of this Section, the Administrative Agent shall accept such Assignment and Assumption and record the information contained therein in the Register. No assignment shall be effective for purposes of this Agreement unless it has been recorded in the Register as provided in this paragraph.

(j) Any Lender may, without the consent of or notice to the Borrower or the Administrative Agent, sell participations to one or more banks or other entities (a “ **Participant** ”), other than an Ineligible Institution, in all or a portion of such Lender’s rights and obligations under this Agreement (including all or a portion of its Commitment and the Loans owing to it); provided that (i) such Lender’s obligations under this Agreement shall remain unchanged, (ii) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations and (iii) the Borrower, the Guarantor and the Administrative Agent shall continue to deal solely and directly with such Lender in connection with such Lender’s rights and obligations under this Agreement. Any agreement or instrument pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to enforce this Agreement and to approve any amendment, modification or waiver of any provision of this Agreement; provided that such agreement or instrument may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver described in the first proviso to Section 11.02(b) that affects such Participant. Subject to paragraph (f) of this Section, the Borrower agrees that each Participant shall be entitled to the benefits of Sections 2.15, 2.16 and 2.17 (subject to the requirements and limitations therein (it being understood that the documentation required under Section 2.17(e) and (f) shall be delivered to the participating Lender)) to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to paragraph (b) of this Section; provided that such Participant agrees to be subject to the provisions of Section 2.19 as though it were an assignee under paragraph (b) of this Section. Each Lender that sells a participation shall, acting solely for this purpose as a non-fiduciary agent of the Borrower, maintain a register on which it enters the name and address of each Participant and the principal amounts (and stated interest) of each Participant's interest in the obligations under this Agreement (the “ **Participant Register** ”); provided that no Lender shall have any obligation to disclose all or any portion of the Participant Register to any Person (including the identity of any Participant or any information relating to a Participant's interest in the obligations under this Agreement) except to the extent that such disclosure is necessary to establish that such interest is in registered form under Section 5f.103-1(c) of the United States Treasury Regulations. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender shall treat each Person whose name is recorded in the Participant Register as the owner of such participation for all purposes of this Agreement notwithstanding any notice to the contrary. For the avoidance of doubt, the Administrative Agent (in its capacity as Administrative Agent) shall have no responsibility for maintaining a Participant Register.

(k) A Participant shall not be entitled to receive any greater payment under Section 2.15 or 2.17 than the applicable Lender would have been entitled to receive with respect to the participation sold to such Participant, except to the extent such entitlement to receive a greater payment results from a Change in Law that occurs after the Participant acquired the applicable participation.

(l) Any Lender may at any time pledge or assign a security interest in all or any portion of its rights under this Agreement to secure obligations of such Lender, including, without limitation, to a Federal Reserve Bank or any central bank, and this Section shall not apply to any such pledge or assignment of a security interest; provided that no such pledge or assignment of a security interest shall release a Lender from any of its obligations hereunder or substitute any such assignee for such Lender as a party hereto.

SECTION 11.05. Survival. *All covenants, agreements, representations and warranties made by the Borrower and the Guarantor herein and in the certificates or other instruments delivered in connection with or pursuant to this Agreement shall be considered to have been relied upon by the other parties hereto and shall survive the execution and delivery of this Agreement and the making of any Loans. The provisions of Sections 2.15, 2.16, 2.17, 10.01(c)(iii) and 11.03 and Article IX shall survive and remain in full force and effect regardless of the consummation of the transactions contemplated hereby, the repayment of the Loans, the expiration or termination of the Commitments or the termination of this Agreement or any provision hereof.*

SECTION 11.06. Counterparts; Integration; Effectiveness; Electronic Execution. *This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. This Agreement, the commitment letter relating to the term loan facility provided hereby (to the extent provided therein) and any separate letter agreements with respect to fees payable to the Administrative Agent constitute the entire contract among the parties relating to the subject matter hereof and supersede any and all previous agreements and understandings, oral or written, relating to the subject matter hereof. Except as provided in Section 3.01, this Agreement shall become effective when it shall have been executed by the Administrative Agent and when the Administrative Agent shall have received counterparts hereof which, when taken together, bear the signatures of each of the other parties hereto, and thereafter shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. Delivery of an executed counterpart of a signature page of this Agreement by facsimile or other electronic imaging shall be effective as delivery of an original executed counterpart of this Agreement. The words “execution,” “signed,” “signature,” “delivery,” and words of like import in or relating to any document to be signed in connection with this Agreement and the transactions contemplated hereby shall be deemed to include Electronic Signatures, deliveries or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature, physical delivery thereof or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act.*

SECTION 11.07. Severability. *Any provision of this Agreement held to be invalid, illegal or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such invalidity, illegality or unenforceability without affecting the validity, legality and enforceability of the remaining provisions hereof; and the invalidity of a particular provision in a particular jurisdiction shall not invalidate such provision in any other jurisdiction.*

SECTION 11.08. Right of Setoff. *If an Event of Default shall have occurred and be continuing, each Lender or any Affiliate thereof is hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held and other indebtedness at any time owing by such Lender to or for the credit or the account of any Credit Party against any of*

and all the Obligations now or hereafter existing under this Agreement held by such Lender, irrespective of whether or not such Lender shall have made any demand under this Agreement and although such Obligations may be unmatured. The rights of each Lender under this Section are in addition to other rights and remedies (including other rights of setoff) which such Lender may have.

SECTION 11.09. Governing Law; Jurisdiction; Consent to Service of Process.

(g) This Agreement shall be construed in accordance with and governed by the law of the State of New York.

(h) Each Credit Party hereby irrevocably and unconditionally submits, for itself and its property, to the nonexclusive jurisdiction of the Supreme Court of the State of New York sitting in the Borough of Manhattan and of the United States District Court of the Southern District of New York sitting in the Borough of Manhattan, and any appellate court from any thereof, in any action or proceeding arising out of or relating to this Agreement, or for recognition or enforcement of any judgment, and each of the parties hereto hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York State or, to the extent permitted by law, in such Federal court. Each of the parties hereto agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this Agreement shall affect any right that the Administrative Agent or any Lender may otherwise have to bring any action or proceeding relating to this Agreement against any Credit Party or its properties in the courts of any jurisdiction.

(i) Each Credit Party hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement in any court referred to in paragraph (b) of this Section. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

(j) Each party to this Agreement irrevocably consents to service of process in the manner provided for notices in Section 11.01. Nothing in this Agreement will affect the right of any party to this Agreement to serve process in any other manner permitted by law.

SECTION 11.10. WAIVER OF JURY TRIAL. EACH PARTY HERETO HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY LEGAL PROCEEDING DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY (WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY). EACH PARTY HERETO (A) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (B) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES HERETO HAVE BEEN

INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION.

SECTION 11.11. Headings. *Article and Section headings and the Table of Contents used herein are for convenience of reference only, are not part of this Agreement and shall not affect the construction of, or be taken into consideration in interpreting, this Agreement.*

SECTION 11.12. Confidentiality. *Each of the Administrative Agent and the Lenders agrees to maintain the confidentiality of the Information (as defined below), except that Information may be disclosed (a) to its and its Affiliates' directors, officers, employees, third party service providers and agents, including accountants, legal counsel and other advisors (it being understood that the Persons to whom such disclosure is made will be informed of the confidential nature of such Information and instructed to keep such Information confidential), (b) to the extent requested by any regulatory authority (including any self-regulatory authority, such as the National Association of Insurance Commissioners), (c) to the extent required by applicable laws or regulations or by any subpoena or similar legal process, (d) to any other party to this Agreement, (e) in connection with the exercise of any remedies hereunder or any suit, action or proceeding relating to this Agreement or the enforcement of rights hereunder, (f) subject to an agreement containing provisions substantially the same as those of this Section, to (i) any assignee of or Participant in, or any prospective assignee of or Participant in, any of its rights or obligations under this Agreement or (ii) actual or prospective counterparty (or its advisors) to any swap or derivative transaction or any credit insurance provider, in each case, relating to the Borrower and its obligations, (g) with the consent of the Borrower or (h) to the extent such Information (i) becomes publicly available other than as a result of a breach of this Section or (ii) becomes available to the Administrative Agent or any Lender on a nonconfidential basis from a source other than a Credit Party or any Subsidiary of a Credit Party. For the purposes of this Section, "Information" means all information received from any Credit Party or any Subsidiary of a Credit Party relating to a Credit Party or any Subsidiary of a Credit Party or its respective businesses, other than any such information that is available to the Administrative Agent or any Lender on a nonconfidential basis prior to disclosure by any Credit Party or any Subsidiary of a Credit Party; provided that, in the case of information received from any Credit Party or any Subsidiary of a Credit Party after the Effective Date, such information is clearly identified at the time of delivery as confidential. Any Person required to maintain the confidentiality of Information as provided in this Section shall be considered to have complied with its obligation to do so if such Person has exercised the same degree of care to maintain the confidentiality of such Information as such Person would accord to its own confidential information. In addition, the Administrative Agent and the Lenders may disclose the existence of this Agreement and information about this Agreement to market data collectors, similar service providers to the lending industry and service providers to the Administrative Agent, the Syndication Agent, the Documentation Agent, the Arrangers and the Lenders in connection with the administration of this Agreement, the other Credit Documents, and the Commitments.*

EACH LENDER ACKNOWLEDGES THAT INFORMATION AS DEFINED IN THE IMMEDIATELY PRECEDING PARAGRAPH FURNISHED TO IT PURSUANT TO THIS AGREEMENT MAY INCLUDE MATERIAL NON-PUBLIC INFORMATION CONCERNING

THE BORROWER AND ITS RELATED PARTIES OR THEIR RESPECTIVE SECURITIES, AND CONFIRMS THAT IT HAS DEVELOPED COMPLIANCE PROCEDURES REGARDING THE USE OF MATERIAL NON-PUBLIC INFORMATION AND THAT IT WILL HANDLE SUCH MATERIAL NON-PUBLIC INFORMATION IN ACCORDANCE WITH THOSE PROCEDURES AND APPLICABLE LAW, INCLUDING FEDERAL AND STATE SECURITIES LAWS.

ALL INFORMATION, INCLUDING REQUESTS FOR WAIVERS AND AMENDMENTS, FURNISHED BY THE BORROWER OR THE ADMINISTRATIVE AGENT PURSUANT TO, OR IN THE COURSE OF ADMINISTERING, THIS AGREEMENT WILL BE SYNDICATE-LEVEL INFORMATION, WHICH MAY CONTAIN MATERIAL NON-PUBLIC INFORMATION ABOUT THE BORROWER, THE OTHER CREDIT PARTIES AND THEIR RELATED PARTIES OR THEIR RESPECTIVE SECURITIES. ACCORDINGLY, EACH LENDER REPRESENTS TO THE BORROWER AND THE ADMINISTRATIVE AGENT THAT IT HAS IDENTIFIED IN ITS ADMINISTRATIVE QUESTIONNAIRE A CREDIT CONTACT WHO MAY RECEIVE INFORMATION THAT MAY CONTAIN MATERIAL NON-PUBLIC INFORMATION IN ACCORDANCE WITH ITS COMPLIANCE PROCEDURES AND APPLICABLE LAW.

SECTION 11.13. USA PATRIOT Act. Each Lender hereby notifies the Credit Parties that pursuant to the requirements of the Act, it is required to obtain, verify and record information that identifies the Credit Parties, which information includes the name and address of the Credit Parties and other information that will allow such Lender to identify the Credit Parties in accordance with the Act.

SECTION 11.14. Acknowledgement and Consent to Bail-In of EEA Financial Institutions. Notwithstanding anything to the contrary in any Credit Document or in any other agreement, arrangement or understanding among any such parties, each party hereto acknowledges that any liability of any EEA Financial Institution arising under any Credit Document, to the extent such liability is unsecured, may be subject to the write-down and conversion powers of an EEA Resolution Authority and agrees and consents to, and acknowledges and agrees to be bound by:

(a) the application of any Write-Down and Conversion Powers by an EEA Resolution Authority to any such liabilities arising hereunder which may be payable to it by any party hereto that is an EEA Financial Institution; and

(b) the effects of any Bail-in Action on any such liability, including, if applicable:

(i) a reduction in full or in part or cancellation of any such liability;

(ii) a conversion of all, or a portion of, such liability into shares or other instruments of ownership in such EEA Financial Institution, its parent undertaking, or a bridge institution that may be issued to it or otherwise conferred on it, and that such shares or other instruments of ownership will be accepted by it in lieu of any rights with respect to any such liability under this Agreement or any other Credit Document; or

(iii) the variation of the terms of such liability in connection with the exercise of the write-down and conversion powers of any EEA Resolution Authority.

SECTION 11.15. Acknowledgments. Each of the Guarantor and the Borrower hereby acknowledges that:

(a) it has been advised by and consulted with its own legal, accounting, regulatory and tax advisors (to the extent it deemed appropriate) in the negotiation, execution and delivery of this Agreement and the other Credit Documents;

(b) neither any Arranger, any Agent nor any Lender has any fiduciary relationship with or duty to the Guarantor or the Borrower arising out of or in connection with this Agreement or any of the other Credit Documents, and the relationship between any Arranger, the Administrative Agent and the Lenders, on one hand, and the Guarantor and the Borrower, on the other hand, in connection herewith or therewith is solely that of debtor and creditor, and, to the fullest extent permitted by law, each of the Guarantor and the Borrower hereby waives and releases any claims that it may have against the Administrative Agent, the Arrangers and the Lenders with respect to any breach or alleged breach of agency or fiduciary duty in connection with any aspect of any transaction contemplated hereby;

(c) it is capable of evaluating, and understands and accepts, the terms, risks and conditions of the transactions contemplated hereby and by the other Credit Documents; and

(d) no joint venture is created hereby or by the other Credit Documents or otherwise exists by virtue of the transactions contemplated hereby among the Arrangers, the Administrative Agent and the Lenders or among the Guarantor, the Borrower and the Lenders.

SECTION 11.16.

IN WITNESS WHEREOF , the parties hereto have caused this Agreement to be duly executed by their respective authorized officers as of the day and year first above written.

PRICING GRID

The “Applicable Rate” for any day with respect to any Eurodollar Loan or ABR Loan, as the case may be, is the percentage (stated in basis points) set forth below in the applicable row under the column corresponding to the Status that exists on such day:

Status	Level I	Level II	Level III	Level IV	Level V
Eurodollar Loans (basis points)	85.0	90.0	95.0	105.0	120.0
ABR Loans (basis points)	0.0	0.0	0.0	5.0	20.0
Unused Fee	7.5	12.5	17.5	22.5	30.0

For purposes of this Pricing Grid, the following terms have the following meanings (as modified by the provisos below):

“ **Level I Status** ” exists at any date if, at such date, the Index Debt is rated either A or higher by S&P or A2 or higher by Moody’s.

“ **Level II Status** ” exists at any date if, at such date, the Index Debt is rated either A- by S&P or A3 by Moody’s.

“ **Level III Status** ” exists at any date if, at such date, the Index Debt is rated either BBB+ by S&P or Baa1 by Moody’s.

“ **Level IV Status** ” exists at any date if, at such date, the Index Debt is rated either BBB by S&P or Baa2 by Moody’s.

“ **Level V Status** ” exists at any date if, at such date, the Index Debt is rated either BBB- by S&P or lower or Baa3 by Moody’s or lower, or, no other Status exists.

“ **Status** ” refers to the determination of which of Level I Status, Level II Status, Level III Status, Level IV Status or Level V Status exists at any date.

The credit ratings to be utilized for purposes of this Pricing Grid are those assigned to the Index Debt, and any rating assigned to any other debt security of the Borrower shall be disregarded. The rating in effect at any date is that in effect at the close of business on such date.

Provided, that the applicable Status shall change as and when the applicable Index Debt ratings change.

Provided further, that if the Index Debt is split-rated, the applicable Status shall be determined on the basis of the higher of the two ratings then applicable; provided further that, if the Index Debt is split-rated by two or more levels, the applicable Status shall instead be determined on the basis of the rating that is one level above the lower of the two ratings then applicable.

Provided further, that if both Moody’s and S&P, or their successors as applicable, shall have ceased to issue or maintain such ratings, then the applicable Status shall be Level V.

EXHIBIT A

ASSIGNMENT AND ASSUMPTION

This Assignment and Assumption (the “ Assignment and Assumption ”) is dated as of the Effective Date set forth below and is entered into by and between [*Insert name of Assignor*] (the “ Assignor ”) and [*Insert name of Assignee*] (the “ Assignee ”). Capitalized terms used but not defined herein shall have the meanings given to them in the Term Loan Agreement identified below (as amended, the “ Loan Agreement ”), receipt of a copy of which is hereby acknowledged by the Assignee. The Standard Terms and Conditions set forth in Annex 1 attached hereto are hereby agreed to and incorporated herein by reference and made a part of this Assignment and Assumption as if set forth herein in full.

For an agreed consideration, the Assignor hereby irrevocably sells and assigns to the Assignee, and the Assignee hereby irrevocably purchases and assumes from the Assignor, subject to and in accordance with the Standard Terms and Conditions and the Loan Agreement, as of the Effective Date inserted by the Administrative Agent as contemplated below (i) all of the Assignor’s rights and obligations in its capacity as a Lender under the Loan Agreement and any other documents or instruments

delivered pursuant thereto to the extent related to the amount and percentage interest identified below of all of such outstanding rights and obligations of the Assignor under the respective facilities identified below (including any guarantees included in such facilities) and (ii) to the extent permitted to be assigned under applicable law, all claims, suits, causes of action and any other right of the Assignor (in its capacity as a Lender) against any Person, whether known or unknown, arising under or in connection with the Loan Agreement, any other documents or instruments delivered pursuant thereto or the loan transactions governed thereby or in any way based on or related to any of the foregoing, including contract claims, tort claims, malpractice claims, statutory claims and all other claims at law or in equity related to the rights and obligations sold and assigned pursuant to clause (i) above (the rights and obligations sold and assigned pursuant to clauses (i) and (ii) above being referred to herein collectively as the “ Assigned Interest ”). Such sale and assignment is without recourse to the Assignor and, except as expressly provided in this Assignment and Assumption, without representation or warranty by the Assignor.

- 1. Assignor: _____
- 2. Assignee: _____
[and is an Affiliate/Approved Fund of [identify Lender]]
- 3. Borrower(s): NiSource Finance Corp., an Indiana corporation
- 4. Administrative Agent: PNC Bank, National Association, as the administrative agent under the Loan Agreement
- 5. Loan Agreement: The Term Loan Agreement, dated as of March 31, 2016, among NiSource Finance Corp., as borrower, NiSource Inc., a Delaware corporation, as guarantor, the Lenders parties thereto, PNC Bank, National Association, as Administrative Agent, and the other agents parties thereto
- 6. Assigned Interest:

ANNEX I

STANDARD TERMS AND CONDITIONS FOR
ASSIGNMENT AND ASSUMPTION

1. Representations and Warranties.

1.1 Assignor. The Assignor (a) represents and warrants that (i) it is the legal and beneficial owner of the Assigned Interest, (ii) the Assigned Interest is free and clear of any lien, encumbrance or other adverse claim and (iii) it has full power and authority, and has taken all action necessary, to execute and deliver this Assignment and Assumption and to consummate the transactions contemplated hereby; and (b) assumes no responsibility with respect to (i) any statements, warranties or representations made in or in connection with the Loan Agreement or any other Credit Document, (ii) the execution, legality, validity, enforceability, genuineness, sufficiency or value of the Credit Documents or any collateral thereunder, (iii) the financial condition of the Borrower, any of its Subsidiaries or Affiliates or any other Person obligated in respect of any Credit Document or (iv) the performance or observance by the Borrower, any of its Subsidiaries or Affiliates or any other Person of any of their respective obligations under any Credit Document.

1.2. Assignee. The Assignee (a) represents and warrants that (i) it has full power and authority, and has taken all action necessary, to execute and deliver this Assignment and Assumption and to consummate the transactions contemplated hereby and to become a Lender under the Loan Agreement, (ii) it satisfies the requirements, if any, specified in the Loan Agreement that are required to be satisfied by it in order to acquire the Assigned Interest and become a Lender, (iii) from and after the Effective Date, it shall be bound by the provisions of the Loan Agreement as a Lender thereunder and, to the extent of the Assigned Interest, shall have the obligations of a Lender thereunder, (iv) it has received a copy of the Loan Agreement, together with copies of the most recent financial statements delivered pursuant to Section 5.01(h) thereof, as applicable, and such other documents and information as it has deemed appropriate to make its own credit analysis and decision to enter into this Assignment and Assumption and to purchase the Assigned Interest on the basis of which it has made such analysis and decision independently and without reliance on the Administrative Agent or any other Lender, (v) if it is a Foreign Lender, attached to the Assignment and Assumption is any documentation required to be delivered by it pursuant to the terms of the Loan Agreement, duly completed and executed by the Assignee; and (vi) it does not bear a relationship to the Borrower described in Section 108(e)(4) of the Code; and (b) agrees that (i) it will, independently and without reliance on the Administrative Agent, the Assignor or any other Lender, and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit decisions in taking or not taking action under the Credit Documents, and (ii) it will perform in accordance with their terms all of the obligations which by the terms of the Credit Documents are required to be performed by it as a Lender.

2. Payments. From and after the Effective Date, the Administrative Agent shall make all payments in respect of the

Assigned Interest (including payments of principal, interest, fees and other amounts) to the Assignor for amounts which have accrued to but excluding the Effective Date and to the Assignee for amounts which have accrued from and after the Effective Date.

3. General Provisions. This Assignment and Assumption shall be binding upon, and inure to the benefit of, the parties hereto and their respective successors and assigns. This Assignment and Assumption may be executed in any number of counterparts, which together shall constitute one instrument. Delivery of an executed counterpart of a signature page of this Assignment and Assumption by telecopy shall be effective as delivery of a manually executed counterpart of this Assignment and Assumption. THIS ASSIGNMENT AND ASSUMPTION SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK.

EXHIBIT I-1

FORM OF

U.S. TAX COMPLIANCE CERTIFICATE

(For Foreign Lenders That Are Not Partnerships For U.S. Federal Income Tax Purposes)

Reference is hereby made to that certain Term Loan Agreement, dated as of March 31, 2016 (as may be amended, restated, amended and restated, extended, supplemented or otherwise modified in writing from time to time in accordance with its terms, the “ Agreement ”; the terms defined therein being used herein as therein defined), between NiSource Finance Corp., an Indiana corporation (the “ Borrower ”), NiSource Inc., as guarantor, the Lenders party thereto, PNC Bank, National Association, as the Administrative Agent, and the other parties thereto.

Pursuant to the provisions of Section 2.17 of the Agreement, the undersigned hereby certifies that (i) it is the sole record and beneficial owner of the Loan(s) (as well as any Note(s) evidencing such Loan(s)) in respect of which it is providing this certificate, (ii) it is not a bank within the meaning of Section 881(c)(3)(A) of the Code, (iii) it is not a ten percent shareholder of the Borrower within the meaning of Section 871(h)(3)(B) of the Code and (iv) it is not a controlled foreign corporation related to the Borrower as described in Section 881(c)(3)(C) of the Code.

The undersigned has furnished the Administrative Agent and the Borrower with a certificate of its non-U.S. Person status on IRS Form W-8BEN or IRS Form W-8BEN-E. By executing this certificate, the undersigned agrees that (1) if the information provided on this certificate changes, the undersigned shall promptly so inform the Borrower and the Administrative Agent, and (2) the undersigned shall have at all times furnished the Borrower and the Administrative Agent with a properly completed and currently effective certificate in either the calendar year in which each payment is to be made to the undersigned, or in either of the two calendar years preceding such payments.

Unless otherwise defined herein, terms defined in the Agreement and used herein shall have the meanings given to them in the Agreement.

FORM OF

U.S. TAX COMPLIANCE CERTIFICATE

(For Foreign Participants That Are Not Partnerships For U.S. Federal Income Tax Purposes)

Reference is hereby made to that certain Term Loan Agreement, dated as of March 31, 2016 (as may be amended, restated, amended and restated, extended, supplemented or otherwise modified in writing from time to time in accordance with its terms, the “ Agreement ”; the terms defined therein being used herein as therein defined), between NiSource Finance Corp., an Indiana corporation (the “ Borrower ”), NiSource Inc., as guarantor, the Lenders party thereto, PNC Bank, National Association, as the Administrative Agent, and the other parties thereto.

Pursuant to the provisions of Section 2.17 of the Agreement, the undersigned hereby certifies that (i) it is the sole record and beneficial owner of the participation in respect of which it is providing this certificate, (ii) it is not a bank within the meaning of Section 881(c)(3)(A) of the Code, (iii) it is not a ten percent shareholder of the Borrower within the meaning of Section 871(h)(3)(B) of the Code and (iv) it is not a controlled foreign corporation related to the Borrower as described in Section 881(c)(3)(C) of the Code.

The undersigned has furnished its participating Lender with a certificate of its non-U.S. Person status on IRS Form W-8BEN or IRS Form W-8BEN-E. By executing this certificate, the undersigned agrees that (1) if the information provided on this certificate changes, the undersigned shall promptly so inform such Lender in writing, and (2) the undersigned shall have at all times furnished such Lender with a properly completed and currently effective certificate in either the calendar year in which each payment is to be made to the undersigned, or in either of the two calendar years preceding such payments.

Unless otherwise defined herein, terms defined in the Agreement and used herein shall have the meanings given to them in the Agreement.

EXHIBIT I-3

FORM OF

U.S. TAX COMPLIANCE CERTIFICATE

(For Foreign Participants That Are Partnerships For U.S. Federal Income Tax Purposes)

Reference is hereby made to that certain Term Loan Agreement, dated as of March 31, 2016 (as may be amended, restated, amended and restated, extended, supplemented or otherwise modified in writing from time to time in accordance with its terms, the “Agreement”; the terms defined therein being used herein as therein defined), between NiSource Finance Corp., an Indiana corporation (the “Borrower”), NiSource Inc., as guarantor, the Lenders party thereto, PNC Bank, National Association, as the Administrative Agent, and the other parties thereto.

Pursuant to the provisions of Section 2.17 of the Agreement, the undersigned hereby certifies that (i) it is the sole record owner of the participation in respect of which it is providing this certificate, (ii) its direct or indirect partners/members are the sole beneficial owners of such participation, (iii) with respect such participation, neither the undersigned nor any of its direct or indirect partners/members is a bank extending credit pursuant to a loan agreement entered into in the ordinary course of its trade or business within the meaning of Section 881(c)(3)(A) of the Code, (iv) none of its direct or indirect partners/members is a ten percent shareholder of the Borrower within the meaning of Section 871(h)(3)(B) of the Code and (v) none of its direct or indirect partners/members is a controlled foreign corporation related to the Borrower as described in Section 881(c)(3)(C) of the Code.

The undersigned has furnished its participating Lender with IRS Form W-8IMY accompanied by one of the following forms from each of its partners/members that is claiming the portfolio interest exemption: (i) an IRS Form W-8BEN or IRS Form W-8BEN-E or (ii) an IRS Form W-8IMY accompanied by an IRS Form W-8BEN or IRS Form W-8BEN-E from each of such partner’s/member’s beneficial owners that is claiming the portfolio interest exemption. By executing this certificate, the undersigned agrees that (1) if the information provided on this certificate changes, the undersigned shall promptly so inform such Lender and (2) the undersigned shall have at all times furnished such Lender with a properly completed and currently effective certificate in either the calendar year in which each payment is to be made to the undersigned, or in either of the two calendar years preceding such payments.

Unless otherwise defined herein, terms defined in the Agreement and used herein shall have the meanings given to them in the Agreement.

**NiSource Inc.
2010 Omnibus Incentive Plan**

2016 Restricted Stock Unit Award Agreement

This Restricted Stock Unit Award Agreement (the “Agreement”), is made and entered into as of [_____] (the “Date of Grant”), by and between NiSource Inc., a Delaware corporation (the “Company”), and [_____] an Employee of the Company (the “Grantee”).

Section 1. Restricted Stock Unit Award. The Company hereby grants to the Grantee, on the terms and conditions hereinafter set forth, an Award of [_____] Restricted Stock Units. The Restricted Stock Units will be represented by a bookkeeping entry (the “RSU Account”) of the Company, and each Restricted Stock Unit shall be equivalent to one share of the Company’s common stock.

Section 2. Grantee Accounts. The number of Restricted Stock Units granted pursuant to this Agreement shall be credited to the Grantee’s RSU Account. Each RSU Account shall be maintained on the books of the Company until full payment of the balance thereof has been made to the Grantee (or the Grantee’s beneficiaries or estate if the Grantee is deceased) in accordance with Section 1 above. No funds shall be set aside or earmarked for any RSU Account, which shall be purely a bookkeeping device.

Section 3. Vesting and Lapse of Restrictions.

- (a) Vesting. Subject to the forfeiture conditions described later in this Agreement, the Restricted Stock Units shall not vest until [_____] (the “Vesting Date”), at which date they will become 100% vested.
 - (b) Effect of Termination of Service Prior to Vesting. Except as set forth below, if Grantee’s Service is terminated for any reason prior to the occurrence of the Vesting Date or event provided in this Section, the Grantee shall forfeit the Restricted Stock Units. Notwithstanding the foregoing, if, before the Vesting Date, the Grantee terminates Service due to the Grantee’s Retirement, death, or Disability, the restrictions set forth in part (a) above shall lapse with respect to a *pro rata* portion of such Restricted Stock Units on the date of termination of Service. Such *pro rata* lapse of restrictions shall be determined using a fraction, where the numerator shall be the number of full or partial calendar months elapsed between the Date of Grant and the date the Grantee terminates Service, and the denominator shall be the number of full or partial calendar months between the Date of Grant and the Vesting Date. For purposes of this Agreement, “Retirement” means the Grantee’s attainment of age 55 and 10 years of Service.
 - (c) Change in Control. Notwithstanding the foregoing provisions, in the event of a Change in Control, the Restricted Stock Units under this Agreement shall vest in accordance with Article XVI of the Plan. In the event of any conflict between Article XVI of the Plan and this Agreement, Article XVI shall control.
 - (d) Limitation on Restricted Stock Units. Notwithstanding the previous provisions of this Section, during any calendar year with respect to which the Grantee is a Covered Officer (for purpose of Internal Revenue Code (“Code”) Section 162(m)), if the Grantee otherwise would vest in a number of Restricted Stock Units under this Section, the Grantee instead may vest only with
-

respect to a sufficient number of Restricted Stock Units whose aggregate Fair Market Value on the date such restrictions would, when added to the Grantee's "applicable employee remuneration" (as defined in Code Section 162(m)) for the applicable calendar year that does not constitute "qualified performance-based compensation" (as defined in Code Section 162(m)), not exceed the aggregate amount of \$999,999.00 for the applicable calendar year (the "Limitation").

To the extent the restrictions on any Restricted Stock Units do not lapse due to the application of this Section, the restrictions on such Restricted Stock Units shall lapse on the first to occur of:

- (i) the last business day of any subsequent calendar year or years to the extent that the Limitation is not exceeded for such year or years;
- (ii) the date next following the Grantee's termination of Service for any reason other than for Cause, or
- (iii) the first business day of the year next following the year with respect to which the Grantee ceases to be a Covered Officer.

The Company will make all determinations as to whether the lapse of restrictions on any Restricted Stock Units is delayed in accordance with this Section. Such determinations will be made on a uniform and non-discriminatory basis consistent with the requirements under Code Section 409A.

Section 4. Delivery of Shares. Once Restricted Stock Units have vested under this Agreement, the Company will determine the number of Shares represented by the Restricted Stock Units in the Grantee's RSU Account and deliver the total number of Shares due to the Grantee as soon as administratively possible after such date. The delivery of the Shares shall be subject to payment of the applicable withholding tax liability and the forfeiture provisions of this Agreement. If the Grantee dies before the Company has distributed any portion of the vested Restricted Stock Units, the Company will transfer any Shares payable with respect to the vested Restricted Stock Units in accordance with the Grantee's written beneficiary designation or to the Grantee's estate if no written beneficiary designation is provided.

Section 5. Withholding of Taxes. The Company shall have the power and the right to deduct or withhold, or require the Grantee to remit to the Company, an amount sufficient to satisfy federal, state, and local taxes, domestic or foreign, required by law or regulation to be withheld with respect to any taxable event arising as a result of this Agreement.

Section 6. Securities Law Compliance. The delivery of all or any Shares that relate to the Restricted Stock Units shall only be effective at such time that the issuance of such Shares will not violate any state or federal securities or other laws. The Company is under no obligation to effect any registration of Shares under the Securities Act of 1933 or to effect any state registration or qualification of the Shares that may be issued under this Agreement. The Company may, in its sole discretion, delay the delivery of Shares or place restrictive legends on Shares in order to ensure that the issuance of any Shares will be in compliance with federal or state securities laws and the rules of any exchange upon which the Company's Shares are traded. If the Company delays the delivery of Shares in order to ensure compliance with any state or federal securities or other laws, the Company shall deliver the Shares at the earliest date at which the Company reasonably believes that such delivery will not cause such violation, or at such later date that may be permitted under Code Section 409A.

Section 7. Restriction on Transferability. Except as otherwise provided under the Plan, until the Restricted Stock Units have vested under this Agreement, the Restricted Stock Units granted herein and the rights and privileges conferred hereby may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated (by operation of law or otherwise), other than by will or the laws of descent and distribution. Any attempted transfer in violation of the provisions of this paragraph shall be void, and the purported transferee shall obtain no rights with respect to such Restricted Stock Units.

Section 8. Grantee's Rights Unsecured. The right of the Grantee or his or her beneficiary to receive a distribution hereunder shall be an unsecured claim against the general assets of the Company, and neither the Grantee nor his or her beneficiary shall have any rights in or against any amounts credited to the Grantee's RSU Account or any other specific assets of the Company. All amounts credited to the Grantee's RSU Account shall constitute general assets of the Company and may be disposed of by the Company at such time and for such purposes, as it may deem appropriate.

Section 9. No Rights as Stockholder or Employee.

- (a) Unless and until Shares have been issued to the Grantee, the Grantee shall not have any privileges of a stockholder of the Company with respect to any Restricted Stock Units subject to this Agreement, nor shall the Company have any obligation to issue any dividends or otherwise afford any rights to which Shares are entitled with respect to any such Restricted Stock Units.
- (b) Nothing in this Agreement or the Award shall confer upon the Grantee any right to continue as an Employee of the Company or any Affiliate or to interfere in any way with the right of the Company or any Affiliate to terminate the Grantee's Service at any time.

Section 10. Adjustments. If at any time while the Award is outstanding, the number of outstanding Restricted Stock Units is changed by reason of a reorganization, recapitalization, stock split or any of the other events described in the Plan, the number and kind of Restricted Stock Units shall be adjusted in accordance with the provisions of the Plan. In the event of certain corporate events specified in Article XVI of the Plan, any unvested Restricted Stock Units may be replaced by substituted Awards or forfeited in exchange for payment of cash in accordance with the procedures and provisions of Article XVI of the Plan.

Section 11. Notices. Any notice hereunder by the Grantee shall be given to the Company in writing and such notice shall be deemed duly given only upon receipt thereof at the following address: Corporate Secretary, NiSource Inc., 801 East 86th Avenue, Merrillville, IN 46410-6271, or at such other address as the Company may designate by notice to the Grantee. Any notice hereunder by the Company shall be given to the Grantee in writing and such notice shall be deemed duly given only upon receipt thereof at such address as the Grantee may have on file with the Company.

Section 12. Administration. The administration of this Agreement, including the interpretation and amendment or termination of this Agreement, will be performed in accordance with the Plan. All determinations and decisions made by the Committee, the Board, or any delegate of the Committee as to the provisions of this Agreement shall be conclusive, final, and binding on all persons. This Agreement at all times shall be governed by the Plan and in no way alter or modify the Plan. To the extent a conflict exists between this Agreement and the Plan, the provisions of the Plan shall govern. Notwithstanding the foregoing, if subsequent guidance is issued under Code Section 409A that would impose additional taxes, penalties, or interest to either the Company or the Grantee, the Company may administer this Agreement in accordance with such guidance and amend this Agreement without the consent of the Grantee to the extent such actions,

in the reasonable judgment of the Company, are considered necessary to avoid the imposition of such additional taxes, penalties, or interest.

Section 13. Governing Law. This Agreement shall be construed and enforced in accordance with the laws of the State of Indiana, without giving effect to the choice of law principles thereof.

Section 14. Government Regulations. Notwithstanding anything contained herein to the contrary, the Company’s obligation to issue or deliver certificates evidencing the Restricted Stock Units shall be subject to all applicable laws, rules and regulations, and to such approvals by any governmental agencies or national securities exchanges as may be required.

Section 15. Entire Agreement; Code Section 409A Compliance. This Agreement and the Plan contain the terms and conditions with respect to the subject matter hereof and supersede any previous agreements, written or oral, relating to the subject matter hereof. This Agreement is pursuant to the terms of the Company’s 2010 Omnibus Incentive Plan (the “Plan”). The applicable terms of the Plan are incorporated herein by reference, including the definition of capitalized terms contained in the Plan, and including the Code Section 409A provisions of Section XIX of the Plan. This Agreement shall be interpreted in accordance with Code Section 409A including the rules related to payment timing for “specified employees” within the meaning of Code Section 409A. This Agreement shall be deemed to be modified to the maximum extent necessary to be in compliance with Code Section 409A’s rules. If the Grantee is unexpectedly required to include in the Grantee’s current year’s income any amount of compensation relating to the Restricted Stock Units because of a failure to meet the requirements of Code Section 409A, then to the extent permitted by Code Section 409A, the Grantee may receive a distribution of cash or Shares in an amount not to exceed the amount required to be included in income as a result of the failure to comply with Code Section 409A.

IN WITNESS WHEREOF, the Company has caused this Award to be granted, and the Grantee has accepted this Award, as of the date first above written.

By: _____

Its: _____

NiSource Inc.
2010 Omnibus Incentive Plan

Performance Share Award Agreement

This Performance Share Award Agreement (the “Agreement”), is made and entered into as of [_____] (the “Date of Grant”), by and between NiSource Inc., a Delaware corporation (the “Company”), and [_____] an Employee of the Company (the “Grantee”).

Section 1. Performance Share Award. The Company hereby grants to the Grantee, on the terms and conditions hereinafter set forth, an Award of [_____] Performance Shares. The Performance Shares will be represented by a bookkeeping entry (the “Performance Share Account”) of the Company, and each Performance Share will be settled with one share of the Company’s common stock to the extent provided under this Agreement and the Plan.

Section 2. Grantee Accounts. The number of Performance Shares granted pursuant to this Agreement shall be credited to the Grantee’s Performance Share Account. Each Performance Share Account shall be maintained on the books of the Company until full payment of the balance thereof has been made to the Grantee (or the Grantee’s beneficiaries or estate if the Grantee is deceased) in accordance with Section 1 above. No funds shall be set aside or earmarked for any Performance Share Account, which shall be purely a bookkeeping device.

Section 3. Performance Period. The “Performance Period” is the period beginning on [_____] and ending on [_____].

Section 4. Vesting and Lapse of Performance Restrictions.

(a) **Performance Restrictions**. The Performance Restrictions shall lapse only upon both the Grantee’s continued employment through [_____] and the date the Committee certifies the following results (including interpolation between the results, expressed as a percentage of the target):

- (i) The Performance Restrictions of fifty percent of the Award shall lapse based on achievement of [cumulative “net operating earnings” per Share] for the Performance Period in accordance with the following schedule:

<u>Cumulative Net Operating Earnings Per Share</u>	<u>Percentage of Award Granted</u>
---	---

- (ii) The Performance Restrictions of fifty percent of the Award shall lapse based on the Company’s positive Relative Total Shareholder Return (“RTSR”) as of the last day of the Performance Period in accordance with the following schedule:

<u>RTSR* Percent Ranking</u>	<u>Percentage of Award Granted</u>
---	---

*Relative Total Shareholder Return (RTSR) is the annualized growth in the dividends and share price of a share of the Company's common stock, calculated using a 20 day trading average of the Company's closing price beginning [] and ending [] compared to the TSR performance of a peer group of companies determined by the Committee at its meeting on [].

Negative TSR for the Performance Period will result in a maximum payout at target regardless of relative performance.

- (b) Committee Certification. As soon as practicable after the end of the Performance Period, the Committee will certify in writing whether the Performance Restrictions have been met for the Performance Period and determine the number of Shares, if any, that will be payable to the Grantee; provided, however, that if the Committee certifies that the Performance Restrictions have been met, the Committee may, in its sole discretion, adjust the number of Shares payable to the Grantee with respect to the Award to reflect the effect of extraordinary events upon the Performance Restrictions, as provided under the Plan. The date of the Committee's certification under this Section shall hereinafter be referred to as the "Certification Date." The Company will notify the Grantee (or the executors or administrators of the Grantee's estate, if appropriate) of the Committee's certification following the Certification Date (such notice being the "Determination Notice"). The Determination Notice shall specify (i) the Company's cumulative net operating earnings per share and Relative Total Shareholder Return for the Performance Period and (ii) the number of Shares payable in accordance with the Committee's certification.
- (c) Effect of Termination of Service Before []. Except as set forth below, if Grantee's Service is terminated for any reason prior to [] or prior to the occurrence of any otherwise applicable vesting event provided in this Section, the Grantee shall forfeit the Performance Shares credited to the Grantee's Performance Share Account. Notwithstanding the foregoing, in the event that Grantee's Service terminates prior to [] as a result of (i) Grantee's Retirement; or (ii) Grantee's Disability; or (iii) Grantee's death and such death occurs with less than or equal to twelve months remaining in the Performance Period, the Grantee (or the Grantee's beneficiary or estate in the case of Grantee's death) shall receive a *pro rata* distribution of Shares after the certification date described in part (a) above; provided that the Committee actually certifies that the Performance Restrictions for the Performance Period have been met. Such *pro rata* grant of Shares shall be determined using a fraction, where the numerator shall be the number of full or partial calendar months elapsed between the Date of Grant and the date the Grantee terminates Service, and the denominator shall be the number of full or partial calendar months elapsed between the Date of Grant and []. Additionally, if the Grantee terminates Service due to death prior to [] with more than 12 months remaining in the Performance Period, the Grantee's beneficiary or estate shall receive, as soon as practicable after the date of termination, a *pro rata* distribution of Shares equal to the number of Shares that the Grantee otherwise would have received had the Performance Restrictions been met at target for the Performance Period. Such *pro rata* grant of Shares shall be determined using a fraction, where the numerator shall be the number
-

of full or partial calendar months elapsed between the Date of Grant and the date the Grantee terminates Service, and the denominator shall be the number of full or partial calendar months elapsed between the Date of Grant and [_____]. For purposes of this Agreement, “Retirement” means the Grantee’s attainment of age 55 and 10 years of Service.

- (d) Change in Control. Notwithstanding the foregoing provisions, in the event of a Change in Control, the Performance Shares under this Agreement shall vest in accordance with Article XVI of the Plan. In the event of any conflict between Article XVI of the Plan and this Agreement, Article XVI shall control.
- (e) Code Section 162(m) Limitation. Notwithstanding the previous provisions of this Section, during any calendar year with respect to which the Grantee is a Covered Officer (for purposes of Internal Revenue Code (“Code”) Section 162 (m)), if the Grantee otherwise would vest in a number of Performance Shares under this Section, the Grantee instead may vest only with respect to a sufficient number of Performance Shares whose aggregate Fair Market Value on the date such restrictions would, when added to the Grantee’s “applicable employee remuneration” (as defined in Code Section 162(m)) for the applicable calendar year that does not constitute “qualified performance-based compensation” (as defined in Code Section 162(m)), not exceed the aggregate amount of \$999,999.00 for the applicable calendar year (the “Limitation”).

To the extent the restrictions on any Performance Shares do not lapse due to the application of this Section, the restrictions on such Performance Shares shall lapse on the first to occur of:

- (i) the last business day of any subsequent calendar year or years to the extent that the Limitation is not exceeded for such year or years;
- (ii) the date next following the Grantee’s termination of Service for any reason other than for Cause,
or
- (iii) the first business day of the year next following the year with respect to which the Grantee ceases to be a Covered Officer.

The Company will make all determinations as to whether the lapse of restrictions on any Performance Shares is delayed in accordance with this Section. Such determinations will be made on a uniform and non-discriminatory basis consistent with the requirements under Code Section 409A.

Section 5. Delivery of Shares. Once Performance Shares have vested under this Agreement, the Company will convert the Performance Shares in the Grantee’s Performance Share Account into Shares and deliver the total number of Shares due to the Grantee as soon as administratively possible after such date, but no later than [_____]. The delivery of the Shares shall be subject to payment of the applicable withholding tax liability and the forfeiture provisions of this Agreement. If the Grantee dies before the Company has distributed any portion of the vested Performance Shares, the Company will transfer any Shares with respect to the vested Performance Shares in accordance with the Grantee’s written beneficiary designation or to the Grantee’s estate if no written beneficiary designation is provided.

Section 6. Withholding of Taxes. The Company shall have the power and the right to deduct or withhold, or require the Grantee to remit to the Company, an amount sufficient to satisfy federal, state, and

local taxes, domestic or foreign, required by law or regulation to be withheld with respect to any taxable event arising as a result of this Agreement.

Section 7. Securities Law Compliance. The delivery of all or any Shares that relate to the Performance Shares shall only be effective at such time that the issuance of such Shares will not violate any state or federal securities or other laws. The Company is under no obligation to effect any registration of Shares under the Securities Act of 1933 or to effect any state registration or qualification of the Shares that may be issued under this Agreement. The Company may, in its sole discretion, delay the delivery of Shares or place restrictive legends on Shares in order to ensure that the issuance of any Shares will be in compliance with federal or state securities laws and the rules of any exchange upon which the Company's Shares are traded. If the Company delays the delivery of Shares in order to ensure compliance with any state or federal securities or other laws, the Company shall deliver the Shares at the earliest date at which the Company reasonably believes that such delivery will not cause such violation, or at such later date that may be permitted under Code Section 409A.

Section 8. Restriction on Transferability. Except as otherwise provided under the Plan, until the Performance Shares have vested under this Agreement, the Performance Shares granted herein and the rights and privileges conferred hereby may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated (by operation of law or otherwise), other than by will or the laws of descent and distribution. Any attempted transfer in violation of the provisions of this paragraph shall be void, and the purported transferee shall obtain no rights with respect to such Performance Shares.

Section 9. Grantee's Rights Unsecured. The right of the Grantee or his or her beneficiary to receive a distribution hereunder shall be an unsecured claim against the general assets of the Company, and neither the Grantee nor his or her beneficiary shall have any rights in or against any amounts credited to the Grantee's Performance Share Account or any other specific assets of the Company. All amounts credited to the Grantee's Performance Share Account shall constitute general assets of the Company and may be disposed of by the Company at such time and for such purposes, as it may deem appropriate.

Section 10. No Rights as Stockholder or Employee.

- (a) The Grantee shall not have any privileges of a stockholder of the Company with respect to any Performance Shares subject to this Agreement, nor shall the Company have any obligation to issue any dividends or otherwise afford any rights to which Shares are entitled with respect to any such Performance Shares.
- (b) Nothing in this Agreement or the Award shall confer upon the Grantee any right to continue as an Employee of the Company or any Affiliate or to interfere in any way with the right of the Company or any Affiliate to terminate the Grantee's Service at any time.

Section 11. Adjustments. If at any time while the Award is outstanding, the number of outstanding Performance Shares is changed by reason of a reorganization, recapitalization, stock split or any of the other events described in the Plan, the number and kind of Performance Shares shall be adjusted in accordance with the provisions of the Plan. In the event of certain corporate events specified in Article XVI of the Plan, any unvested Performance Shares may be replaced by substituted Awards or forfeited in exchange for payment of cash in accordance with the procedures and provisions of Article XVI of the Plan.

Section 12. Notices. Any notice hereunder by the Grantee shall be given to the Company in writing and such notice shall be deemed duly given only upon receipt thereof at the following address: Corporate

Secretary, NiSource Inc., 801 East 86th Avenue, Merrillville, IN 46410-6271, or at such other address as the Company may designate by notice to the Grantee.

Any notice hereunder by the Company shall be given to the Grantee in writing and such notice shall be deemed duly given only upon receipt thereof at such address as the Grantee may have on file with the Company.

Section 13. Administration. The administration of this Agreement, including the interpretation and amendment or termination of this Agreement, will be performed in accordance with the Plan. All determinations and decisions made by the Committee, the Board, or any delegate of the Committee as to the provisions of this Agreement shall be conclusive, final, and binding on all persons. This Agreement at all times shall be governed by the Plan and in no way alter or modify the Plan. To the extent a conflict exists between this Agreement and the Plan, the provisions of the Plan shall govern. Notwithstanding the foregoing, if subsequent guidance is issued under Code Section 409A that would impose additional taxes, penalties, or interest to either the Company or the grantee, the Company may administer this Agreement in accordance with such guidance and amend this Agreement without the Consent of the Grantee to the extent such actions, in the reasonable judgment of the Company, are considered necessary to avoid the imposition of such additional taxes, penalties, or interest.

Section 14. Governing Law. This Agreement shall be construed and enforced in accordance with the laws of the State of Indiana, without giving effect to the choice of law principles thereof.

Section 15. Government Regulations. Notwithstanding anything contained herein to the contrary, the Company's obligation to issue or deliver certificates evidencing the Performance Shares shall be subject to all applicable laws, rules and regulations, and to such approvals by any governmental agencies or national securities exchanges as may be required.

Section 16. Entire Agreement; Code Section 409A Compliance. This Agreement and the Plan contain the terms and conditions with respect to the subject matter hereof and supersede any previous agreements, written or oral, relating to the subject matter hereof. This Agreement is pursuant to the terms of the Company's 2010 Omnibus Incentive Plan (the "Plan"). The applicable terms of the Plan are incorporated herein by reference, including the definition of capitalized terms contained in the Plan, and including the Code Section 409A provisions of Section XIX of the Plan. This Agreement shall be interpreted in accordance with Code Section 409A including the rules related to payment timing for specified employees. This Agreement shall be deemed to be modified to the maximum extent necessary to be in compliance with Code Section 409A's rules. If the Grantee is unexpectedly required to include in the Grantee's current year's income any amount of compensation relating to the Performance Shares because of a failure to meet the requirements of Code Section 409A, then to the extent permitted by Code Section 409A, the Grantee may receive a distribution of Shares in an amount not to exceed the amount required to be included in income as a result of the failure to comply with Code Section 409A.

IN WITNESS WHEREOF, the Company has caused this Award to be granted, and the Grantee has accepted this Award, as of the date first above written.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of NiSource Inc.
Merrillville, Indiana

We have audited the accompanying consolidated balance sheets and statements of consolidated long-term debt of NiSource Inc. and subsidiaries (the "Company") as of December 31, 2015 and 2014, and the related consolidated statements of income, comprehensive income, common stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2015. Our audits also included the financial statement schedule listed in the Index at item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the NiSource Inc. and subsidiaries as of December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

As discussed in Note 22 to the consolidated financial statements, on July 1, 2015 the Company completed the spin-off of its subsidiary Columbia Pipeline Group, Inc.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2015, based on the criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 18, 2016 expressed an unqualified opinion on the Company's internal control over financial reporting.

Deloitte + Touche LLP

Chicago, Illinois
February 18, 2016

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of NiSource Inc.
Merrillville, Indiana

We have audited the internal control over financial reporting of NiSource Inc. and subsidiaries (the "Company") as of December 31, 2015, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on the criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2015, of the Company and our report dated February 18, 2016 expressed an unqualified opinion on those financial statements and financial statement schedule and included an explanatory paragraph relating to the Company's spin-off of its subsidiary Columbia Pipeline Group, Inc. on July 1, 2015.

Attention Ms. Judy Cooper
Director of Regulatory Affairs

Ladies and Gentlemen:

Pursuant to your request, we have conducted a depreciation study related to the gas plant of Columbia Gas of Kentucky, Inc. as of December 31, 2015. The attached report presents a description of the methods used in the estimation of depreciation, the summary of annual depreciation accrual rates, the statistical support for the life and net salvage estimates and the detailed tabulations of annual depreciation.

Respectfully submitted,

GANNETT FLEMING VALUATION

DEPRECIATION STUDY

EXECUTIVE SUMMARY

Pursuant to Columbia Gas of Kentucky, Inc.'s ("CGK" or "Company") request, Gannett Fleming Valuation and Rate Consultants, LLC ("Gannett Fleming") conducted a depreciation study related to the gas plant of CGK as of December 31, 2015. The purpose of this study was to determine the annual depreciation accrual rates and amounts for book and ratemaking purposes.

The depreciation rates are based on the straight line method using the equal life group ("ELG") procedure and were applied on a remaining life basis. The calculations were based on attained ages and estimated average service life, and forecasted net salvage characteristics for each depreciable group of assets.

CGK's accounting policy has not changed since the last depreciation study. However, there have been changes in the life and salvage estimates since the last depreciation study which creates new depreciation rates than what currently are utilized.

Gannett Fleming recommends the calculated annual depreciation accrual rates set forth herein apply specifically to gas plant in service as of December 31, 2015 as summarized by Table 1 of the study. Supporting analysis and calculations are provided within the study.

The study results set forth an annual depreciation expense of \$14.1 million when applied to depreciable plant balances as of December 31, 2015. The results are summarized at the functional level as follows:

SUMMARY OF ORIGINAL COST, ACCRUAL RATES AND AMOUNTS

<u>FUNCTION</u>	<u>ORIGINAL COST</u>	<u>PROPOSED RATE</u>	<u>ANNUAL ACCRUAL</u>
DISTRIBUTION PLANT	\$383,319,781.40	3.37	\$12,906,486
GENERAL PLANT	4,824,680.84	6.47	312,292
UNRECOVERED RESERVE AMORTIZATION	-	-	71,660
AMORTIZABLE PLANT	4,823,336.41	-	800,220
NONDEPRECIABLE PLANT	<u>1,817,112.03</u>	-	<u>-</u>
TOTAL	<u>\$394,784,910.68</u>	<u>3.57</u>	<u>\$14,090,658</u>

PART I. INTRODUCTION

**COLUMBIA GAS OF KENTUCKY, INC.
DEPRECIATION STUDY**

PART I. INTRODUCTION

SCOPE

This report sets forth the results of the depreciation study for Columbia Gas of Kentucky, Inc. ("CGK"), to determine the annual depreciation accrual rates and amounts for book purposes applicable to the original cost of gas plant as of December 31, 2015. The rates and amounts are based on the straight line remaining life method of depreciation. This report also describes the concepts, methods and judgments which underlie the recommended annual depreciation accrual rates related to gas plant in service as of December 31, 2015.

The service life and net salvage estimates resulting from the study were based on informed judgment which incorporated analyses of historical plant retirement data as recorded through 2015, a review of Company practice and outlook as they relate to plant operation and retirement, and consideration of current practice in the gas industry, including knowledge of service lives and net salvage estimates used for other gas companies.

PLAN OF REPORT

Part I, Introduction, contains statements with respect to the plan of the report, and the basis of the study. Part II, Estimation of Survivor Curves, presents descriptions of the considerations and methods used in the service life study. Part III, Service Life Considerations, presents the results of the average service life analysis. Part IV, Net Salvage Considerations, presents the results of the net salvage study. Part V, Calculation of Annual and Accrued Depreciation, describes the procedures used in the calculation of group depreciation. Part VI, Results of Study, presents summaries by

depreciable group of annual depreciation accrual rates and amounts, as well as composite remaining lives. Part VII, Service Life Statistics presents the statistical analysis of service life estimates, Part VIII, Net Salvage Statistics sets forth the statistical indications of net salvage percents, and Part IX, Detailed Depreciation Calculations presents the detailed tabulations of annual depreciation.

BASIS OF THE STUDY

Depreciation

Depreciation, in public utility regulation, is the loss in service value not restored by current maintenance, incurred in connection with the consumption or prospective retirement of utility plant in the course of service from causes which are known to be in current operation and against which the utility is not protected by insurance. Among causes to be given consideration are wear and tear, deterioration, action of the elements, inadequacy, obsolescence, changes in the art, changes in demand, and the requirements of public authorities.

Depreciation, as used in accounting, is a method of distributing fixed capital costs, less net salvage, over a period of time by allocating annual amounts to expense. Each annual amount of such depreciation expense is part of that year's total cost of providing gas utility service. Normally, the period of time over which the fixed capital cost is allocated to the cost of service is equal to the period of time over which an item renders service, that is, the item's service life. The most prevalent method of allocation is to distribute an equal amount of cost to each year of service life. This method is known as the straight-line method of depreciation.

For most accounts, the annual depreciation was calculated by the straight line method using the equal life group procedure and the remaining life basis. For certain General Plant accounts, the annual depreciation is based on amortization accounting.

Both types of calculations were based on original cost, attained ages, and estimates of service lives and net salvage.

The straight line method, equal life group procedure is a commonly used depreciation calculation procedure that has been accepted in jurisdictions throughout North America. Amortization accounting is used for certain General Plant accounts because of the disproportionate plant accounting effort required when compared to the minimal original cost of the large number of items in these accounts. An explanation of the calculation of annual and accrued amortization is presented beginning on page V-8 of the report.

Service Life and Net Salvage Estimates

The service life and net salvage estimates used in the depreciation and amortization calculations were based on informed judgment which incorporated a review of management's plans, policies and outlook, a general knowledge of the gas utility industry, and comparisons of the service life and net salvage estimates from our studies of other gas utilities. The use of survivor curves to reflect the expected dispersion of retirement provides a consistent method of estimating depreciation for gas plant. Iowa type survivor curves were used to depict the estimated survivor curves for the plant accounts not subject to amortization accounting.

The procedure for estimating service lives consisted of compiling historical data for the plant accounts or depreciable groups, analyzing this history through the use of widely accepted techniques, and forecasting the survivor characteristics for each depreciable group on the basis of interpretations of the historical data analyses and the probable future. The combination of the historical experience and the estimated future yielded estimated survivor curves from which the average service lives were derived.

PART II. ESTIMATION OF SURVIVOR CURVES

PART II. ESTIMATION OF SURVIVOR CURVES

The calculation of annual depreciation based on the straight line method requires the estimation of survivor curves and the selection of group depreciation procedures. The estimation of survivor curves is discussed below and the development of net salvage is discussed in later sections of this report.

SURVIVOR CURVES

The use of an average service life for a property group implies that the various units in the group have different lives. Thus, the average life may be obtained by determining the separate lives of each of the units, or by constructing a survivor curve by plotting the number of units which survive at successive ages.

The survivor curve graphically depicts the amount of property existing at each age throughout the life of an original group. From the survivor curve, the average life of the group, the remaining life expectancy, the probable life, and the frequency curve can be calculated. In Figure 1, a typical smooth survivor curve and the derived curves are illustrated. The average life is obtained by calculating the area under the survivor curve, from age zero to the maximum age, and dividing this area by the ordinate at age zero. The remaining life expectancy at any age can be calculated by obtaining the area under the curve, from the observation age to the maximum age, and dividing this area by the percent surviving at the observation age. For example, in Figure 1, the remaining life at age 30 is equal to the crosshatched area under the survivor curve divided by 29.5 percent surviving at age 30. The probable life at any age is developed by adding the age and remaining life. If the probable life of the property is calculated for each year of age, the probable life curve shown in the chart can be developed. The frequency curve presents the number of units retired in each age interval. It is derived by obtaining the

differences between the amount of property surviving at the beginning and at the end of each interval.

This study has incorporated the use of Iowa curves developed from a retirement rate analysis of historical retirement history. A discussion of the concepts of survivor curves and of the development of survivor curves using the retirement rate method is presented below.

Iowa Type Curves

The range of survivor characteristics usually experienced by utility and industrial properties is encompassed by a system of generalized survivor curves known as the Iowa type curves. There are four families in the Iowa system, labeled in accordance with the location of the modes of the retirements in relationship to the average life and the relative height of the modes. The left moded curves, presented in Figure 2, are those in which the greatest frequency of retirement occurs to the left of, or prior to, average service life. The symmetrical moded curves, presented in Figure 3, are those in which the greatest frequency of retirement occurs at average service life. The right moded curves, presented in Figure 4, are those in which the greatest frequency occurs to the right of, or after, average service life. The origin moded curves, presented in Figure 5, are those in which the greatest frequency of retirement occurs at the origin, or immediately after age zero. The letter designation of each family of curves (L, S, R or O) represents the location of the mode of the associated frequency curve with respect to the average service life. The numbers represent the relative heights of the modes of the frequency curves within each family.

The Iowa curves were developed at the Iowa State College Engineering Experiment Station through an extensive process of observation and classification of the ages at which industrial property had been retired. A report of the study which resulted in the classification of property survivor characteristics into 18 type curves,

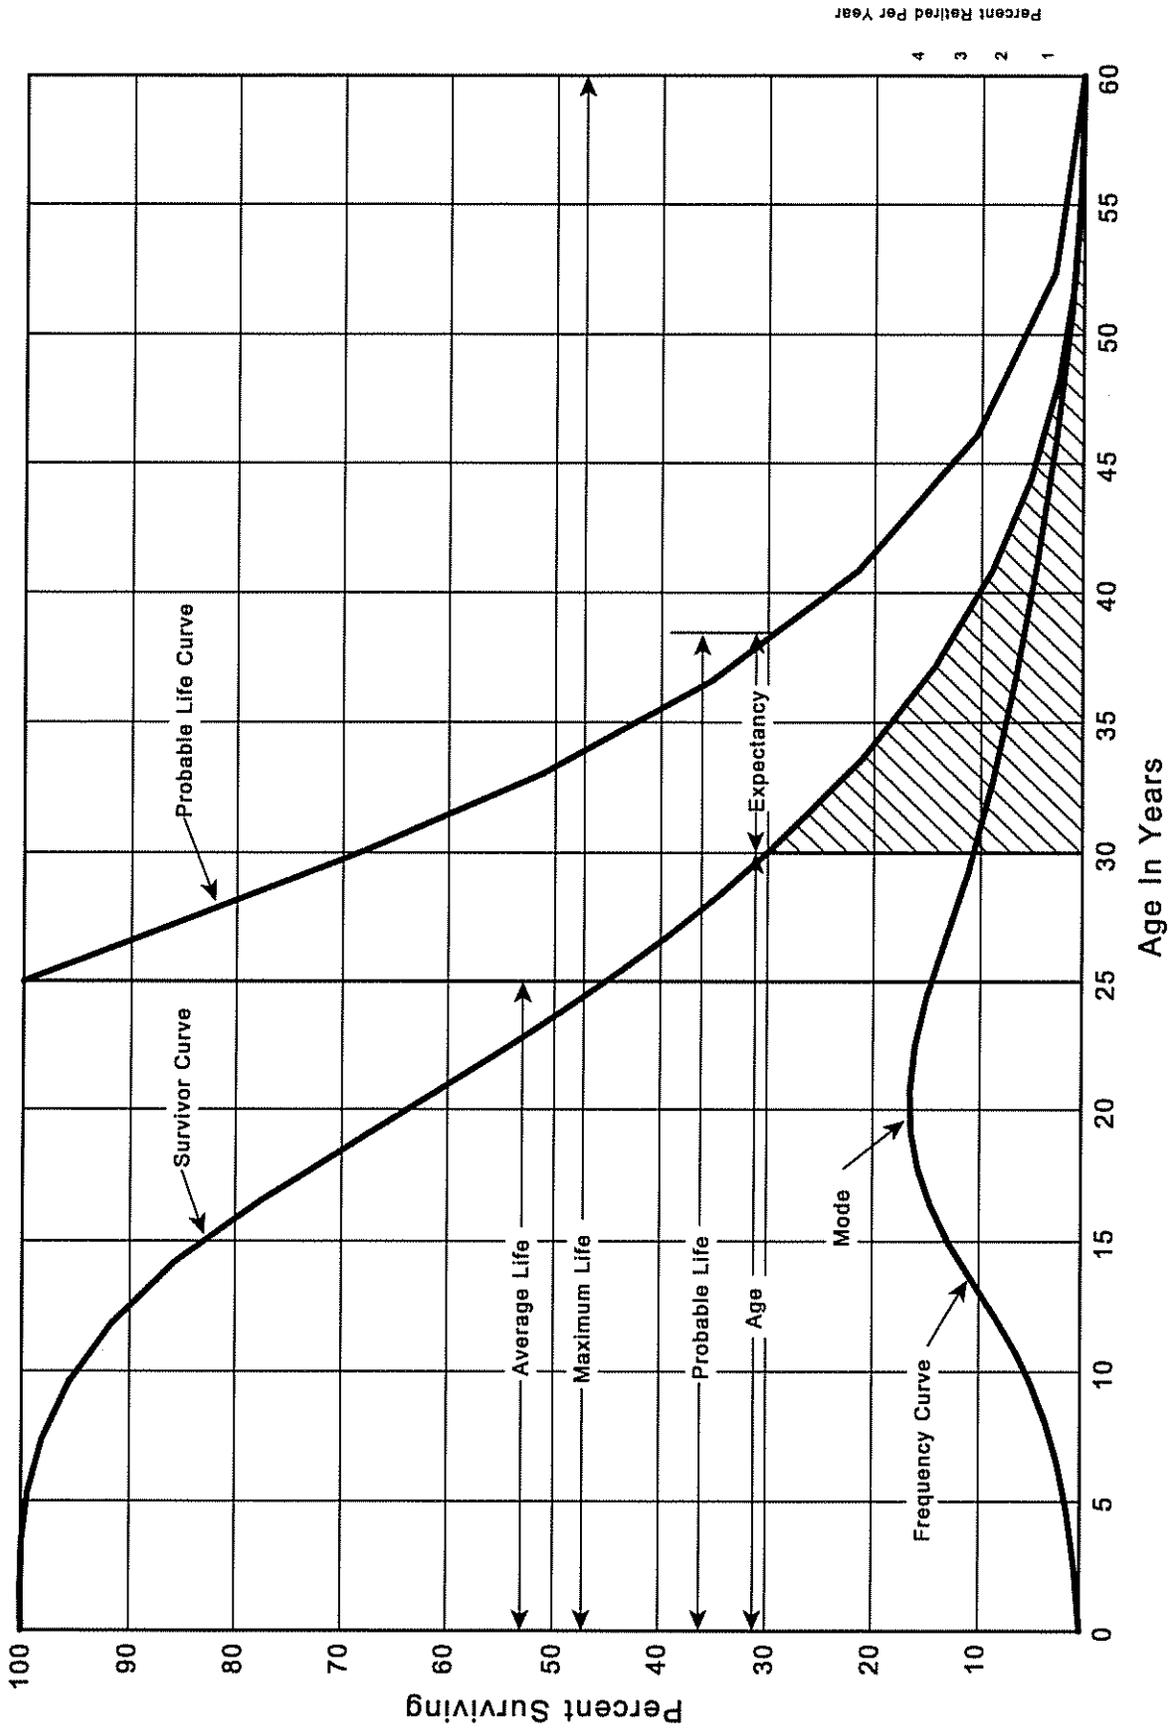

Figure 1. A Typical Survivor Curve and Derived Curves

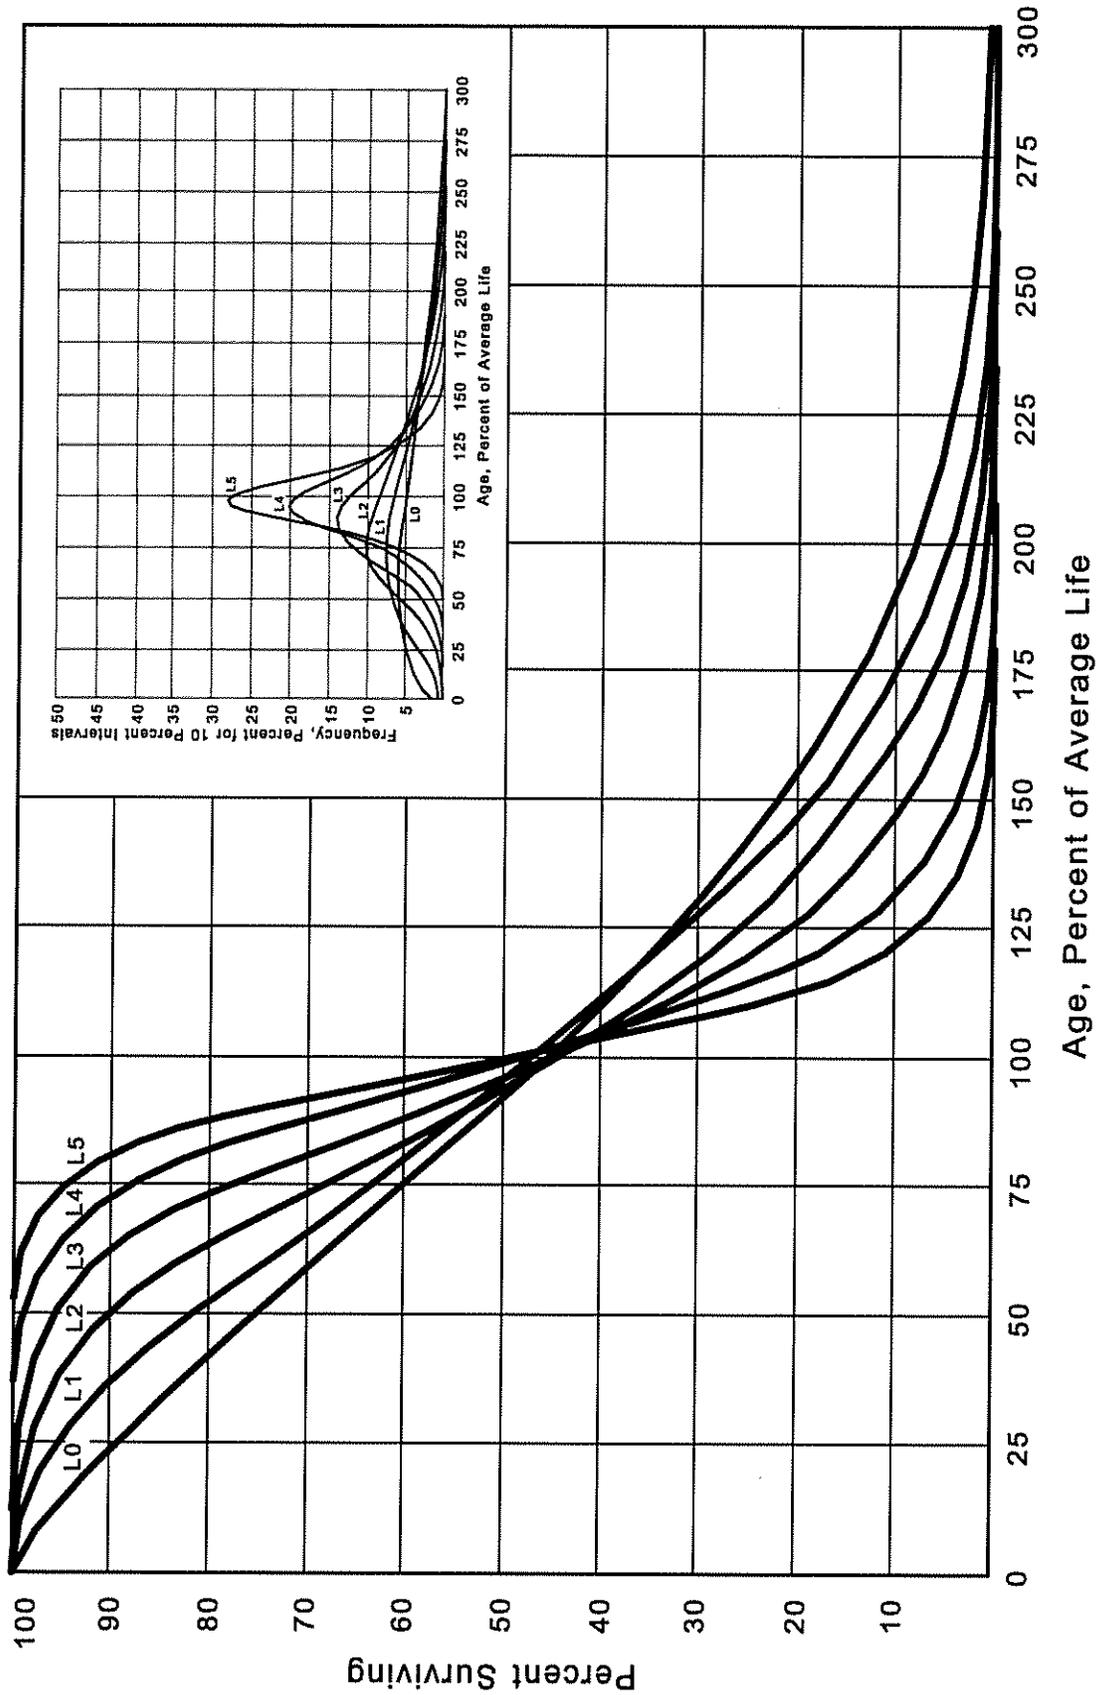

Figure 2. Left Modal or "L" Iowa Type Survivor Curves

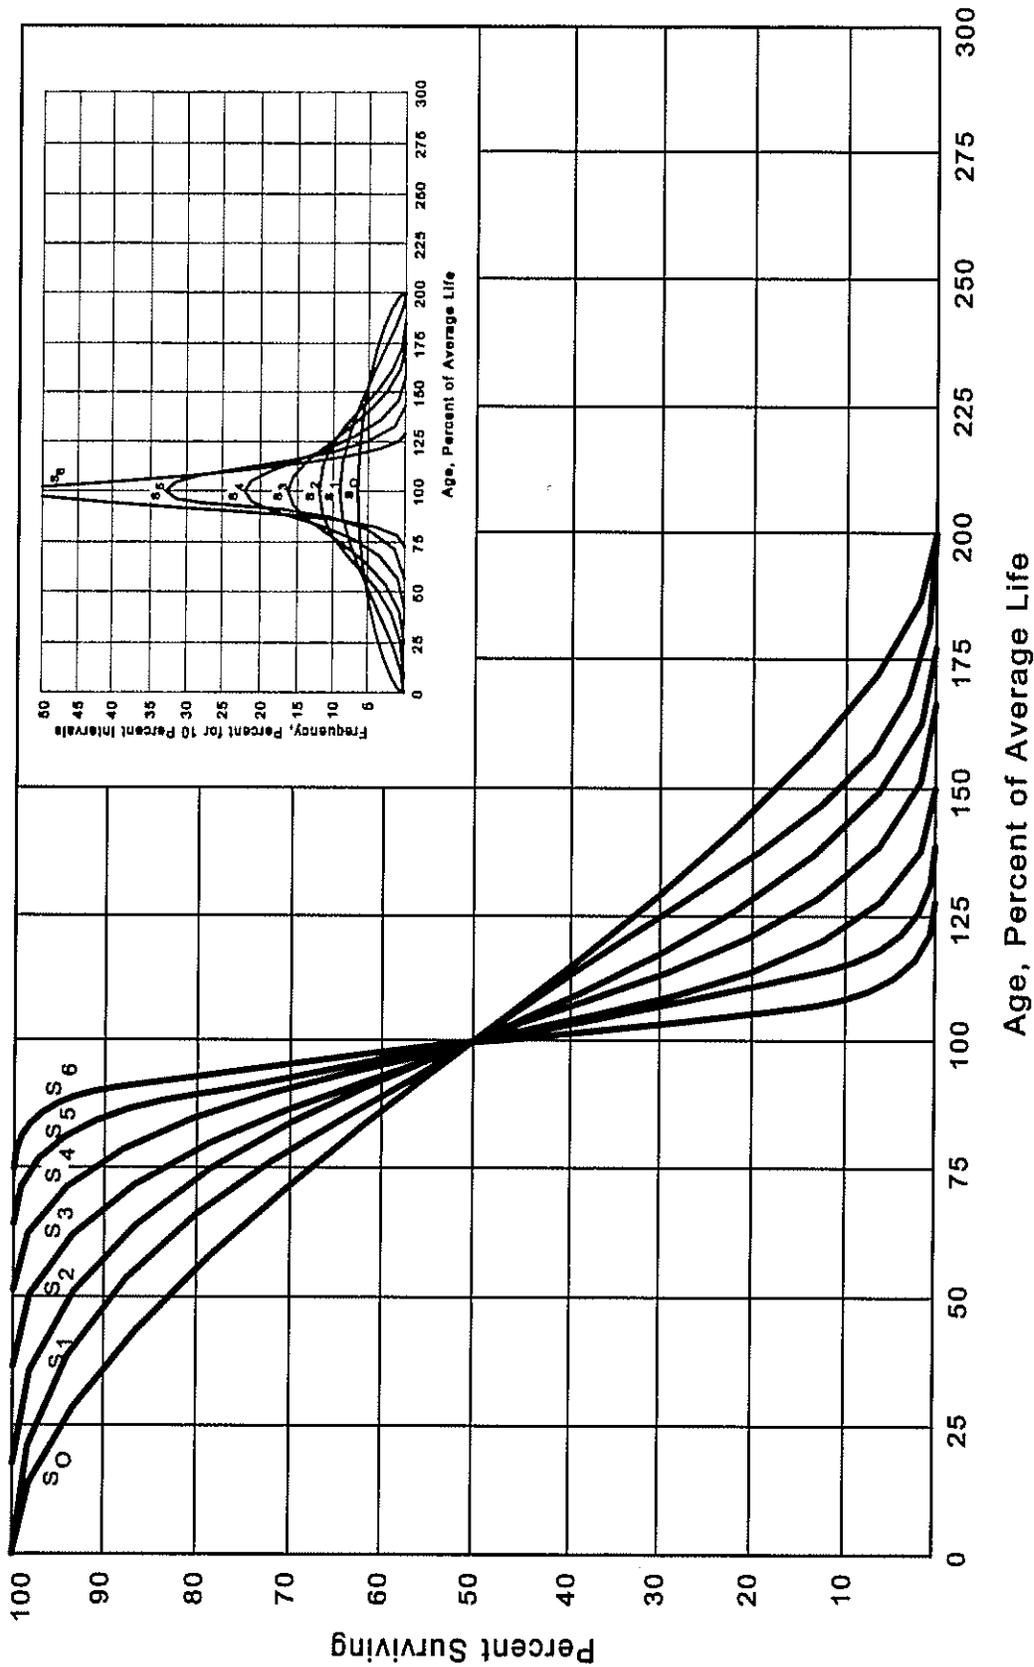

Figure 3. Symmetrical or "S" Iowa Type Survivor Curves

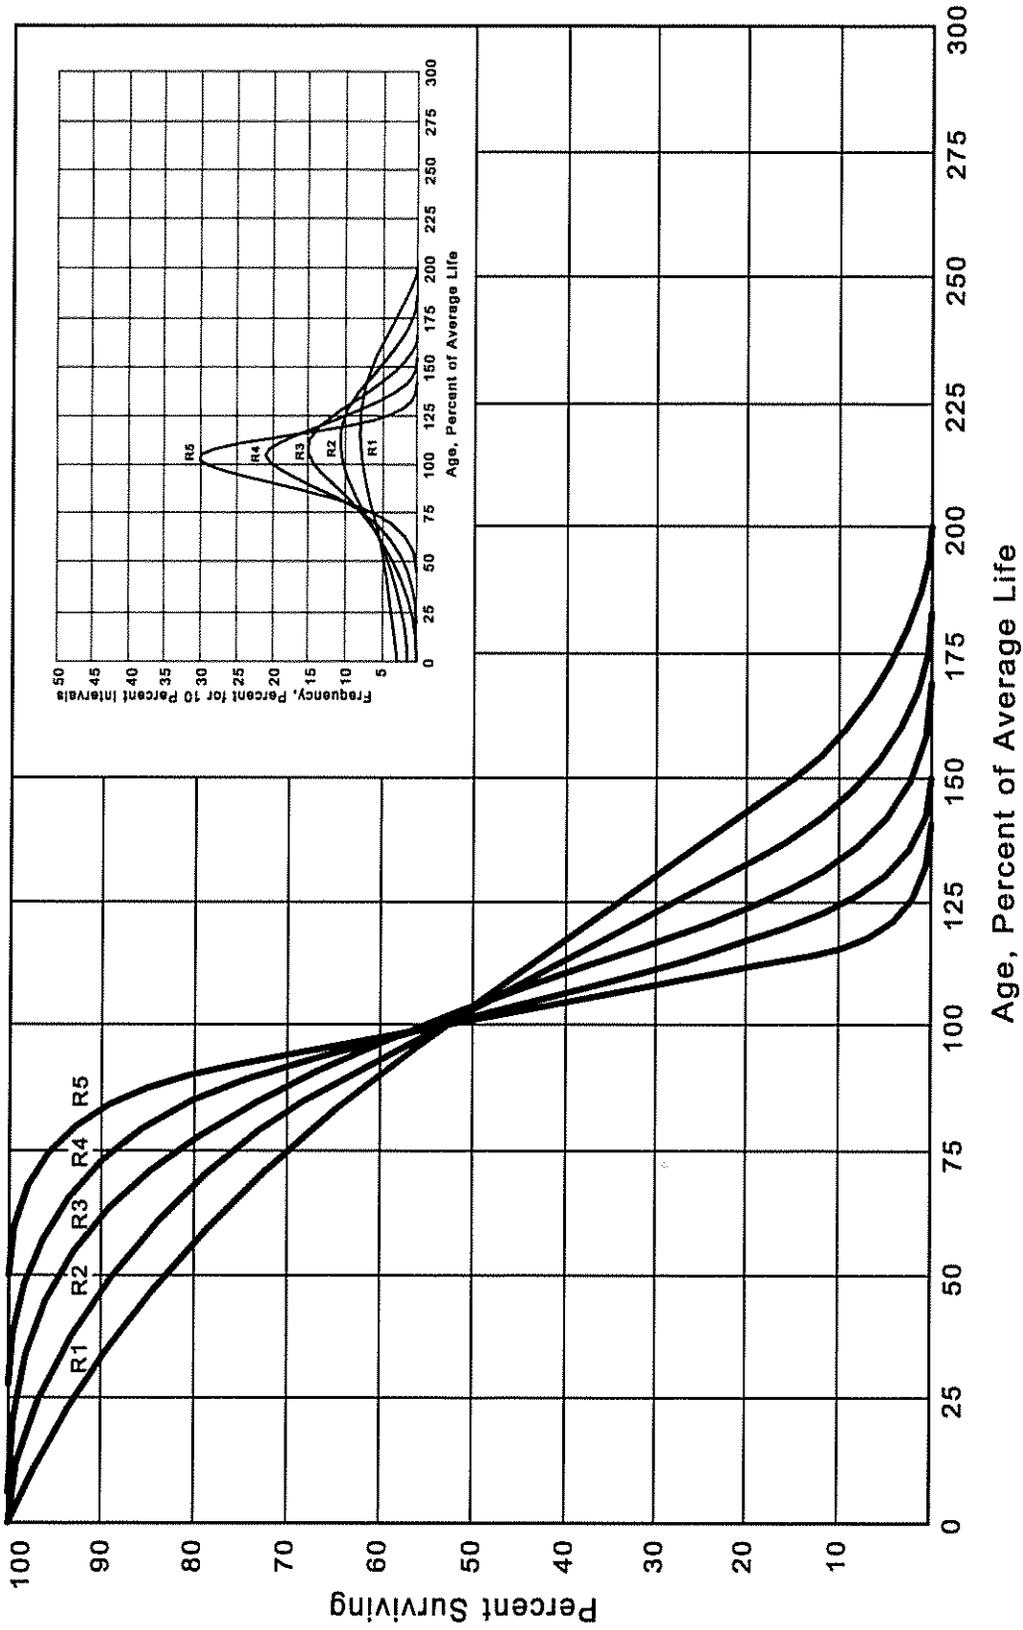

Figure 4. Right Modal or "R" Iowa Type Survivor Curves

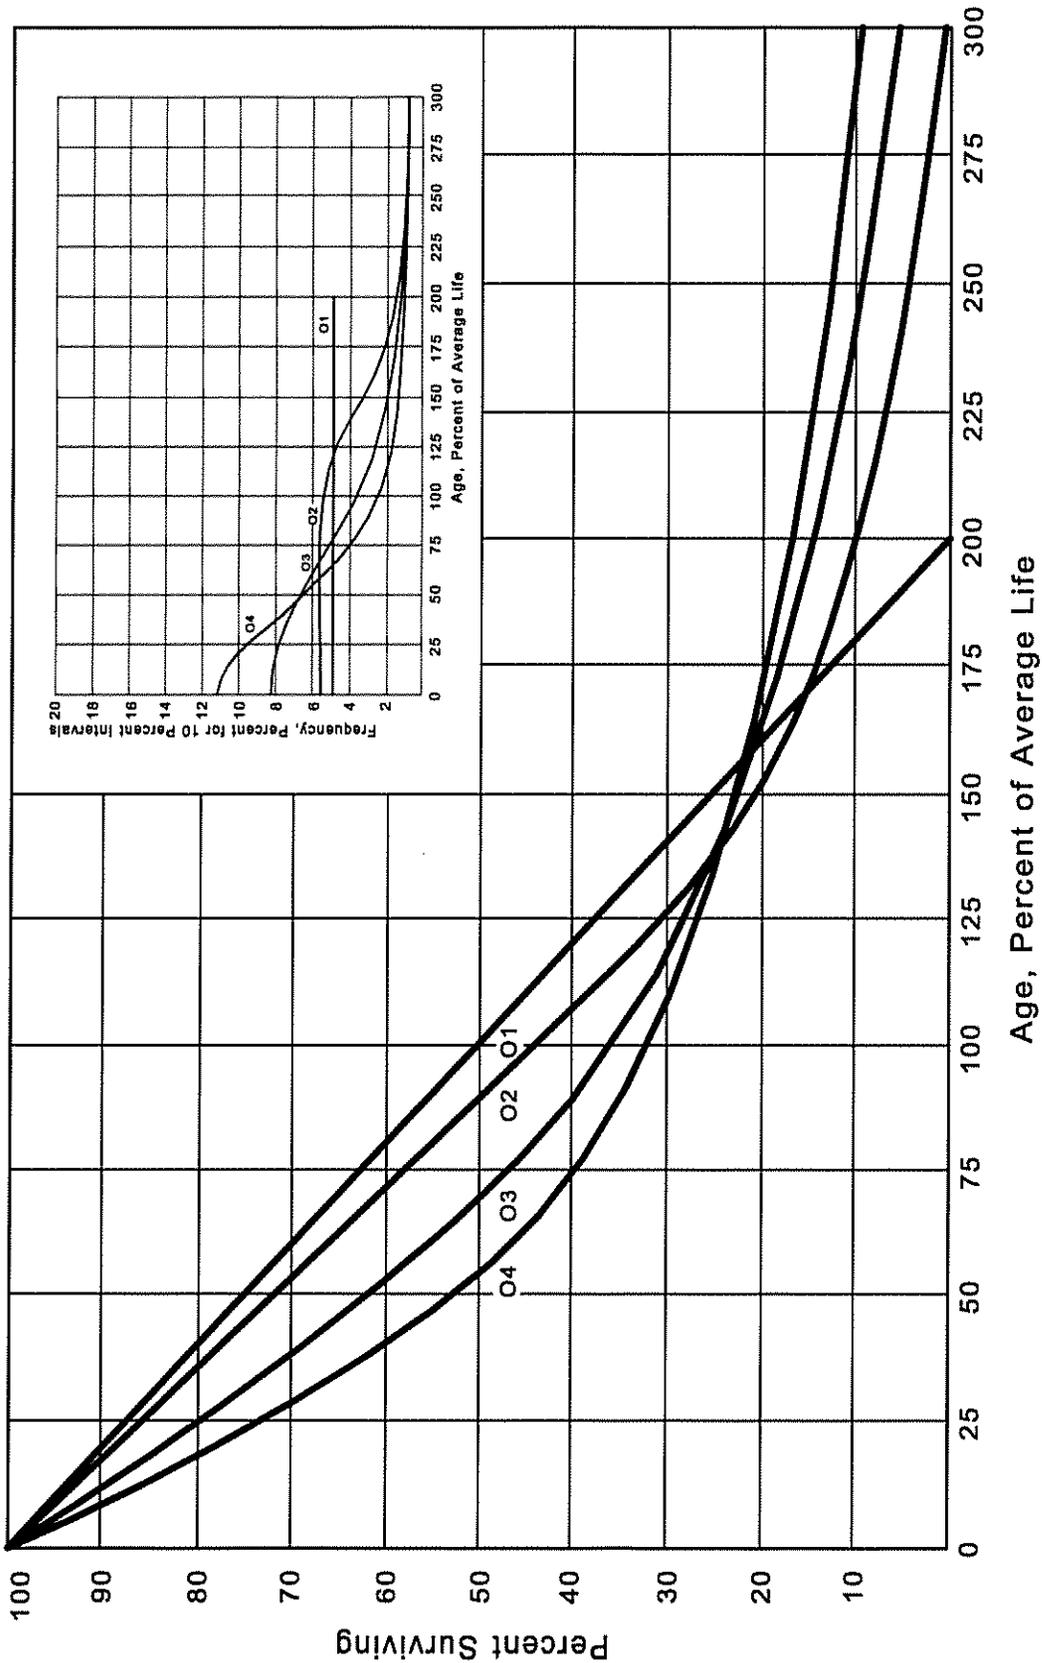

Figure 5. Origin Modal or "O" Iowa Type Survivor Curves

which constitute three of the four families, was published in 1935 in the form of the Experiment Station's Bulletin 125. These curve types have also been presented in subsequent Experiment Station bulletins and in the text, "Engineering Valuation and Depreciation."¹ In 1957, Frank V. B. Couch, Jr., an Iowa State College graduate student submitted a thesis presenting his development of the fourth family consisting of the four O type survivor curves.

Retirement Rate Method of Analysis

The retirement rate method is an actuarial method of deriving survivor curves using the average rates at which property of each age group is retired. The method relates to property groups for which aged accounting experience is available and is the method used to develop the original stub survivor curves in this study. The method (also known as the annual rate method) is illustrated through the use of an example in the following text, and is also explained in several publications, including "Statistical Analyses of Industrial Property Retirements,"² "Engineering Valuation and Depreciation,"³ and "Depreciation Systems."⁴

The average rate of retirement used in the calculation of the percent surviving for the survivor curve (life table) requires two sets of data: first, the property retired during a period of observation, identified by the property's age at retirement; and second, the property exposed to retirement at the beginning of the age intervals during the same period. The period of observation is referred to as the experience band, and the band of years which represent the installation dates of the property exposed to retirement during the experience band is referred to as the placement band. An example of the calculations used in the development of a life table follows. The example includes

¹Marston, Anson, Robley Winfrey and Jean C. Hempstead. Engineering Valuation and Depreciation, 2nd Edition. New York, McGraw-Hill Book Company. 1953.

schedules of annual aged property transactions, a schedule of plant exposed to retirement, a life table and illustrations of smoothing the stub survivor curve.

Schedules of Annual Transactions in Plant Records

The property group used to illustrate the retirement rate method is observed for the experience band 2006-2015 during which there were placements during the years 2001-2015. In order to illustrate the summation of the aged data by age interval, the data were compiled in the manner presented in Schedules 1 and 2 on pages II-11 and II-12. In Schedule 1, the year of installation (year placed) and the year of retirement are shown. The age interval during which a retirement occurred is determined from this information. In the example which follows, \$10,000 of the dollars invested in 2001 were retired in 2006. The \$10,000 retirement occurred during the age interval between 4½ and 5½ years on the basis that approximately one-half of the amount of property was installed prior to and subsequent to July 1 of each year. That is, on the average, property installed during a year is placed in service at the midpoint of the year for the purpose of the analysis. All retirements also are stated as occurring at the midpoint of a one-year age interval of time, except the first age interval which encompasses only one-half year.

The total retirements occurring in each age interval in a band are determined by summing the amounts for each transaction year-installation year combination for that age interval. For example, the total of \$143,000 retired for age interval 4½-5½ is the sum of the retirements entered on Schedule 1 immediately above the stair step line drawn on the table beginning with the 2006 retirements of 2001 installations and ending with the 2015 retirements of the 2010 installations. Thus, the total amount of 143 for age interval 4½-5½ equals the sum of:

$$10 + 12 + 13 + 11 + 13 + 13 + 15 + 17 + 19 + 20.$$

**SCHEDULE 1. RETIREMENTS FOR EACH YEAR 2006-2015
SUMMARIZED BY AGE INTERVAL**

Year Placed (1)	Retirements, Thousands of Dollars										Total During		Age Interval (13)
	During Year										Age Interval (12)	Age Interval (13)

^a Transfer Affecting Exposures at Beginning of Year

^b Transfer Affecting Exposures at End of Year

^c Sale with Continued Use

Parentheses Denote Credit Amount.

In Schedule 2, other transactions which affect the group are recorded in a similar manner. The entries illustrated include transfers and sales. The entries which are credits to the plant account are shown in parentheses. The items recorded on this schedule are not totaled with the retirements, but are used in developing the exposures at the beginning of each age interval.

Schedule of Plant Exposed to Retirement

The development of the amount of plant exposed to retirement at the beginning of each age interval is illustrated in Schedule 3 on page II-14. The surviving plant at the beginning of each year from 2006 through 2015 is recorded by year in the portion of the table headed "Annual Survivors at the Beginning of the Year." The last amount entered in each column is the amount of new plant added to the group during the year. The amounts entered in Schedule 3 for each successive year following the beginning balance or addition are obtained by adding or subtracting the net entries shown on Schedules 1 and 2. For the purpose of determining the plant exposed to retirement, transfers-in are considered as being exposed to retirement in this group at the beginning of the year in which they occurred, and the sales and transfers-out are considered to be removed from the plant exposed to retirement at the beginning of the following year. Thus, the amounts of plant shown at the beginning of each year are the amounts of plant from each placement year considered to be exposed to retirement at the beginning of each successive transaction year. For example, the exposures for the installation year 2011 are calculated in the following manner:

Exposures at age 0	= amount of addition	= \$750,000
Exposures at age ½	= \$750,000 - \$ 8,000	= \$742,000
Exposures at age 1½	= \$742,000 - \$18,000	= \$724,000
Exposures at age 2½	= \$724,000 - \$20,000 - \$19,000	= \$685,000
Exposures at age 3½	= \$685,000 - \$22,000	= \$663,000

**SCHEDULE 3. PLANT EXPOSED TO RETIREMENT
JANUARY 1 OF EACH YEAR 2006-2015
SUMMARIZED BY AGE INTERVAL**

Year Placed	Exposures, Thousands of Dollars											Total at	
	Annual Survivors at the Beginning of the Year											Beginning of	
	2006 (2)	2007 (3)	2008 (4)	2009 (5)	2010 (6)	2011 (7)	2012 (8)	2013 (9)	2014 (10)	2015 (11)	Age Interval (12)	Age Interval (13)

^aAdditions during the year

For the entire experience band 2006-2015, the total exposures at the beginning of an age interval are obtained by summing diagonally in a manner similar to the summing of the retirements during an age interval (Schedule 1). For example, the figure of 3,789, shown as the total exposures at the beginning of age interval 4½-5½, is obtained by summing:

$$255 + 268 + 284 + 311 + 334 + 374 + 405 + 448 + 501 + 609.$$

Original Life Table

The original life table, illustrated in Schedule 4 on page II-16, is developed from the totals shown on the schedules of retirements and exposures, Schedules 1 and 3, respectively. The exposures at the beginning of the age interval are obtained from the corresponding age interval of the exposure schedule, and the retirements during the age interval are obtained from the corresponding age interval of the retirement schedule. The retirement ratio is the result of dividing the retirements during the age interval by the exposures at the beginning of the age interval. The percent surviving at the beginning of each age interval is derived from survivor ratios, each of which equals one minus the retirement ratio. The percent surviving is developed by starting with 100% at age zero and successively multiplying the percent surviving at the beginning of each interval by the survivor ratio, i.e., one minus the retirement ratio for that age interval. The calculations necessary to determine the percent surviving at age 5½ are as follows:

Percent surviving at age 4½	=	88.15	
Exposures at age 4½	=	3,789,000	
Retirements from age 4½ to 5½	=	143,000	
Retirement Ratio	=	$143,000 \div 3,789,000$	= 0.0377
Survivor Ratio	=	$1.000 - 0.0377$	= 0.9623
Percent surviving at age 5½	=	$(88.15) \times (0.9623)$	= 84.83

The totals of the exposures and retirements (columns 2 and 3) are shown for the purpose of checking with the respective totals in Schedules 1 and 3. The ratio of the total retirements to the total exposures, other than for each age interval, is meaningless.

SCHEDULE 4. ORIGINAL LIFE TABLE
CALCULATED BY THE RETIREMENT RATE METHOD

Experience Band 2006-2015

Placement Band 2001-2015

(Exposure and Retirement Amounts are in Thousands of Dollars)

Age at Beginning of Interval	Exposures at Beginning of Age Interval	Retirements During Age Interval	Retirement Ratio	Survivor Ratio	Percent Surviving at Beginning of Age Interval
(1)	(2)	(3)	(4)	(5)	(6)

12.5	323	44	0.1362	0.8638	48.90
13.5	167	26	0.1557	0.8443	42.24
14.5					35.66
Total	<u>44,780</u>	<u>1,606</u>			

Column 2 from Schedule 3, Column 12, Plant Exposed to Retirement.

Column 3 from Schedule 1, Column 12, Retirements for Each Year.

Column 4 = Column 3 Divided by Column 2.

Column 5 = 1.0000 Minus Column 4.

Column 6 = Column 5 Multiplied by Column 6 as of the Preceding Age Interval.

The original survivor curve is plotted from the original life table (column 6, Schedule 4). When the curve terminates at a percent surviving greater than zero, it is called a stub survivor curve. Survivor curves developed from retirement rate studies generally are stub curves.

Smoothing the Original Survivor Curve

The smoothing of the original survivor curve eliminates any irregularities and serves as the basis for the preliminary extrapolation to zero percent surviving of the original stub curve. Even if the original survivor curve is complete from 100% to zero percent, it is desirable to eliminate any irregularities, as there is still an extrapolation for the vintages which have not yet lived to the age at which the curve reaches zero percent. In this study, the smoothing of the original curve with established type curves was used to eliminate irregularities in the original curve.

The Iowa type curves are used in this study to smooth those original stub curves which are expressed as percents surviving at ages in years. Each original survivor curve was compared to the Iowa curves using visual and mathematical matching in order to determine the better fitting smooth curves. In Figures 6, 7, and 8, the original curve developed in Schedule 4 is compared with the L, S, and R Iowa type curves which most nearly fit the original survivor curve. In Figure 6, the L1 curve with an average life between 12 and 13 years appears to be the best fit. In Figure 7, the S0 type curve with a 12-year average life appears to be the best fit and appears to be better than the L1 fitting. In Figure 8, the R1 type curve with a 12-year average life appears to be the best fit and appears to be better than either the L1 or the S0.

In Figure 9, the three fittings, 12-L1, 12-S0 and 12-R1 are drawn for comparison purposes. It is probable that the 12-R1 Iowa curve would be selected as the most representative of the plotted survivor characteristics of the group.

PART III. SERVICE LIFE CONSIDERATIONS

PART III. SERVICE LIFE CONSIDERATIONS

FIELD TRIPS

In order to be familiar with the operation of the Company and observe representative portions of the plant, a field trip was conducted for the study. A general understanding of the function of the plant and information with respect to the reasons for past retirements and the expected future causes of retirements are obtained during field trips. This knowledge and information were incorporated in the interpretation and extrapolation of the statistical analyses.

The following is a list of the locations visited during field trips.

February 4-5, 2013

Lexington Headquarters
Jim Beam Regulating Station
Toyota Regulating Station
Turner Town Border Station

October 27-28, 2008

Lexington Operations Center
Propane Plant District Regulating Station and City Gate Station
Oakwood Drive Regulating Station (#1100)
Spindle Top/Univ. of Kentucky Research Regulating Station
Sewell Station (#1572)
Showalter Regulating Station

March 18-19, 2002

Hampton Ave. District Station
Toyota Plant District Station
Turner Town Border Station
Old Propane Plant
Lexington Office
Winchester Service Center
Measuring and Regulating Station at Rosalie Road
Keeneland Measuring and Regulating Station
Buffalo Trace Measuring and Regulating Station
Jim Beam Regulating Station
Versailles City Gate Station
Osram Sylvania Station

SERVICE LIFE ANALYSIS

The service life estimates were based on informed judgment which considered a number of factors. The primary factors were the statistical analyses of data; current Company policies and outlook as determined during conversations with management; and the survivor curve estimates from previous studies of this company and other gas companies.

For many of the plant accounts and subaccounts for which survivor curves were estimated, the statistical analyses using the retirement rate method resulted in good to excellent indications of the survivor patterns experienced. These accounts represent 94 percent of depreciable plant. Generally, the information external to the statistics led to no significant departure from the indicated survivor curves for the accounts listed below. The statistical support for the service life estimates is presented in the section beginning on page VII-2.

DISTRIBUTION PLANT

375.34	Structures and Improvements - Measuring and Regulating
375.7	Structures and Improvements - Other Distribution System Structures
376	Mains
378	Measuring and Regulating Station Equipment - General
379.1	Measuring and Regulating Station Equipment - City Gate
380	Services
381	Meters
382	Meter Installations
385	Industrial Measuring and Regulating Station Equipment
387.4	Other Equipment - Customer Information Services

GENERAL PLANT

392.2	Trailers
396	Power Operated Equipment

The combined analyses for Account 376, Mains, is used to illustrate the manner in which the study was conducted for the groups in the preceding list. Account 376 represents 51 percent of the total depreciable plant. Aged plant accounting data have been compiled for the years 1939 through 2015. These data have been coded in the course of the Company's normal record keeping according to account or property group, type of transaction, year in which the transaction took place, and year in which the gas plant was placed in service. The retirements, other plant transactions, and plant additions were analyzed by the retirement rate method.

The survivor curve estimate is based on the statistical indications for the periods 1939-2015, 1976-2015 and 1996-2015. The Iowa 70-R1.5 is an excellent fit of the original survivor curve. The 70-year service life is at the upper end, but still within, the typical service life range of 55 to 70 years for mains. The 70-year life reflects the Company's plans and practices of the past and next few years. The previous estimate was the Iowa 70-R1.5. The survivor curve for the cast iron and bare steel mains is truncated as of December 2037 to reflect the main replacement program in place for these mains. This is consistent with the past study.

The survivor curve estimate for Account 380, Services is based on statistical analyses of historical retirement experience for the periods 1939-2015, 1976-2015 and 1996-2015. The 40-R1.5 estimate for Account 380, Services, is an excellent fit of the original survivor curve developed from historical plant retirements for the period 1939 through 2015. The 40-R1.5 survivor curve sets forth the higher rates of retirement starting at approximately age 30. The 40-year average service life is within the typical range of 35 to 50 years for services. The previous estimate was the Iowa 39-R1.5.

Similar studies were performed for the remaining plant accounts. Each of the judgments represented a consideration of statistical analyses of aged plant activity, management's outlook for the future, and the typical range of lives used by other gas companies.

The selected amortization periods for other General Plant accounts are described in the section "Calculated Annual and Accrued Amortization."

PART IV. NET SALVAGE CONSIDERATIONS

PART IV. NET SALVAGE CONSIDERATIONS

SALVAGE ANALYSIS

The estimates of net salvage by account were based in part on historical data compiled for the years 1969 through 2015. Cost of removal and salvage were expressed as percents of the original cost of plant retired, both on annual and three-year moving average bases. The most recent five-year average also was calculated for consideration. The net salvage estimates by account are expressed as a percent of the original cost of plant retired.

Net Salvage Considerations

The estimates of future net salvage are expressed as percentages of surviving plant in service, i.e., all future retirements. In cases in which removal costs are expected to exceed salvage receipts, a negative net salvage percentage is estimated. The net salvage estimates were based on judgment which incorporated analyses of historical cost of removal and salvage data, expectations with respect to future removal requirements and markets for retired equipment and materials.

The analyses of historical cost of removal and salvage data are presented in the section titled "Net Salvage Statistics" for the plant accounts for which the net salvage estimate relied partially on those analyses.

Statistical analyses of historical data for the period 1969 through 2015 contributed significantly toward the net salvage estimates for 11 plant accounts, representing 93 percent of the depreciable plant, as follows:

DISTRIBUTION PLANT

376	Mains
378	Measuring and Regulating Station Equipment - General
379.1	Measuring and Regulating Station Equipment - City Gate
380	Services
381	Meters
382	Meter Installations
383	House Regulators
384	House Regulator Installations
385	Industrial Measuring and Regulating Station Equipment
387.4	Other Equipment - Customer Information Services

GENERAL PLANT

396.00	Power Operated Equipment
--------	--------------------------

Account 376, Mains, is used to illustrate the manner in which the study was conducted for the groups in the preceding list. Net salvage data for the period 1969 through 2015 were analyzed for this account. The data include cost of removal, gross salvage and net salvage amounts and each of these amounts is expressed as a percent of the original cost of regular retirements. Three-year moving averages for the 1969-1971 through 2013-2015 periods were computed to smooth the annual amounts.

Cost of removal was consistent during the overall 47-year period, 1969 - 2015. The practice of applying labor costs to removing pipe versus installing new pipe has not changed. Cost of removal for the most recent five years averaged 27 percent.

Gross salvage has varied slightly; however, the amounts have been minimal. The most recent five-year average of 0 percent gross salvage reflects recent trends of no salvage value for pipe.

The net salvage percent based on the overall period 1969 through 2015 is 15 percent negative net salvage; however, the recent five-year average has trended to

negative 27 percent. The range of estimates made by other gas companies for mains is negative 15 to negative 75 percent. With the overall statistical indication of negative 15 percent and most recent five-year period trends to negative 27 percent as well as higher cost of removal levels within the industry, negative 20 percent was selected for the Company's mains.

The net salvage estimates for the remaining plant accounts were estimated using the above-described process of historical indications, judgment and reviewing the typical range of estimates used by other gas companies. The results of the net salvage for each plant account are presented in account sequence beginning in the section titled "Net Salvage Statistics", page VIII-2.

Generally, the net salvage estimates for general plant accounts were zero percent, consistent with amortization accounting.

**PART V. CALCULATION OF ANNUAL AND
ACCRUED DEPRECIATION**

PART V. CALCULATION OF ANNUAL AND ACCRUED DEPRECIATION

After the survivor curve and salvage are estimated, the annual depreciation accrual rate can be calculated. In the average service life procedure, the annual accrual rate is computed by the following equation:

$$\text{Annual Accrual Rate, Percent} = \frac{(100\% - \text{Net Salvage, Percent})}{\text{Average Service Life}}$$

The calculated accrued depreciation for each depreciable property group represents that portion of the depreciable cost of the group which will not be allocated to expense through future depreciation accruals, if current forecasts of life characteristics are used as a basis for straight line depreciation accounting.

The accrued depreciation calculation consists of applying an appropriate ratio to the surviving original cost of each vintage of each account, based upon the attained age and the estimated survivor curve. The accrued depreciation ratios are calculated as follows:

$$\text{Ratio} = \left(1 - \frac{\text{Average Remaining Life Expectancy}}{\text{Average Service Life}}\right) (1 - \text{Net Salvage, Percent}).$$

The application of these procedures is described for a single unit of property and a group of property units. Salvage is omitted from the depreciation for ease of application.

Single Unit of Property

The calculation of straight line depreciation for a single unit of property is straightforward. For example, if a \$1,000 unit of property attains an age of four years and has a life expectancy of six years, the annual accrual over the total life is:

$$\frac{\$1,000}{(4 + 6)} = \$100 \text{ per year.}$$

The accrued depreciation is:

$$\$1,000 \left(1 - \frac{6}{10}\right) = \$400.$$

Group Depreciation Procedures

When more than a single item of property is under consideration, a group procedure for depreciation is appropriate because normally all of the items within a group do not have identical service lives, but have lives that are dispersed over a range of time. There are two primary group procedures, namely, average service life and equal life group.

Average Service Life Procedure

In the average service life procedure, the rate of annual depreciation is based on the average service life of the group, and this rate is applied to the surviving balances of the group's cost. The accrued depreciation is based on the average service life of the group and the average remaining life of each vintage within the group derived from the area under the survivor curve between the attained age of the vintage and the maximum age.

A characteristic of this procedure is that the cost of plant retired prior to average life is not fully recouped at the time of retirement, whereas the cost of plant retired subsequent to average life is more than fully recouped. Over the entire life cycle, the

portion of cost not recouped prior to average life is balanced by the excess cost recouped subsequent to average life. The recovery of cost is complete at the end of the life cycle, but the distribution of capital cost to annual expense does not match the consumption of service value of plant.

Equal Life Group Procedure

In the equal life group procedure, also known as the unit summation procedure, the property group is subdivided according to service life. That is, each equal life group includes that portion of the property which experiences the life of that specific group. The relative size of each equal life group is determined from the property's life dispersion curve. The calculated depreciation for the property group is the summation of the calculated depreciation based on the service life of each equal life unit.

This procedure eliminates the need to base annual depreciation expense on average lives, inasmuch as each group has a single life. The full cost of short-lived items is accrued during their lives, leaving no deferral of accruals required to be added to the annual cost associated with long-lived items. The depreciation expense for the property group is the summation of the depreciation expense based on the service life of each equal life group.

The table on the following page presents an illustration of the calculation of equal life group depreciation using the Iowa 15-S2.5 survivor curve, net salvage of 0 percent and a December 31, 2015 calculation date.

In the table, each equal life group is defined by the age interval shown in columns 1 and 2. These are the ages at which the first and last retirement of each group occurs, and the group's equal life, shown in column 3, is the midpoint of the interval.

DETAILED COMPUTATION OF ANNUAL AND ACCRUED FACTORS USING THE EQUAL LIFE GROUP PROCEDURE

TOTAL			100.00000						

For purposes of the calculation, the computer is programmed to divide each vintage into equal life groups arranged so that the midpoint of each one-year age interval coincides with the calculation date, e.g., December 31 in this case. This enables the calculation of annual accruals for a twelve-month period centered on the date of calculation.

The retirement during the age interval, shown in column 4, is the size of each equal life group, and is derived from the Iowa 15-S2.5 survivor curve. It is the difference between the percents surviving at the beginning and end of the age interval.

Each equal life group's annual accrual, shown in column 5, equals the group's size (column 4) divided by its life (column 3) and multiplied by the quantity one minus the net salvage percent with the exception of 2015 installations. For 2015 installations, the group annual accrual is equal to the retirements during the interval multiplied by one minus the net salvage percent.

Columns 6 through 10 show the derivation of the annual factor and accrued factor for each vintage based on the information developed in the first five columns. The year installed is shown in column 6. For all vintages other than 2015, the summation of annual accruals for each year installed, shown in column 7, is calculated by adding one-half of the group annual accrual (column 5) for that vintage's current age interval plus the group annual accruals for all succeeding age intervals. For example, the figure 7.36025742981 for 2014 equals one-half of 0.00670000000 plus all of the succeeding figures in column 5. Only one-half of the annual accrual for the vintage's current age interval group is included in the summation because the equal life group for that interval has reached the year during which it is expected to be retired.

The summation of annual accruals (column 7) for installations during 2015 are calculated on the basis of an in-service date at the midpoint of the year, i.e., June 30. Inasmuch as the overall calculation is centered on December 31, 2015, the first figure in column 7, for vintage 2015, equals all of the group annual accrual for the first equal life group plus the accruals for all of the subsequent equal life groups.

The average percent surviving, derived from the Iowa 15-S2.5 survivor curve, is shown in column 8 for each age interval. The annual factor, shown in column 9, is the result of dividing the summation of annual accruals (column 7) by the average percent surviving (column 8).

The accrued factor, shown in column 10, equals the annual factor multiplied by the age of the group at December 31, 2015.

REMAINING LIFE ANNUAL ACCRUAL RATES

The annual depreciation accrual rates are calculated as of December 31, 2015, and based on the straight line remaining life method using the equal life group procedure. For the purpose of calculating the composite remaining life accrual rates as of December 31, 2015, the book reserve for each plant account is allocated among vintages in proportion to the calculated accrued depreciation for the account as of December 31, 2015. The remaining life annual accrual for each vintage is determined by dividing future book accruals (original cost less book reserve) by the composite remaining life for the surviving original cost of that vintage. The composite remaining life is derived by compositing the individual equal life group remaining lives in accordance with the following equation:

$$\text{Composite Remaining Life} = \frac{\sum \left(\frac{\text{Book Cost}}{\text{Life}} \times \text{Remaining Life} \right)}{\sum \frac{\text{Book Cost}}{\text{Life}}}$$

The book costs and lives of the several equal life groups which are summed in the foregoing equation are defined by the estimated future survivor curve.

Inasmuch as book cost divided by life equals the whole life annual accrual, the foregoing equation reduces to the following form:

$$\text{Composite Remaining Life} = \frac{\sum \text{Whole Life Future Accruals}}{\sum \text{Whole Life Annual Accruals}}$$

or

$$\text{Composite Remaining Life} = \frac{\sum \text{Book Cost} - \text{Calc. Reserve}}{\sum \text{Whole Life Annual Accrual}}$$

The composite remaining life calculations were made using computer software that utilizes detailed ELG calculations of whole life future accruals and annual accruals in order to derive the vintage composite remaining lives. The annual accrual rate for each

account is equal to the sum of the remaining life annual accruals divided by the total original cost. The composite remaining life is calculated by dividing the sum of the future book accruals by the sum of the remaining life annual accruals.

CALCULATION OF ANNUAL AND ACCRUED AMORTIZATION

Amortization is the gradual extinguishment of an amount in an account by distributing such amount over a fixed period, over the life of the asset or liability to which it applies, or over the period during which it is anticipated the benefit will be realized. Normally, the distribution of the amount is in equal amounts to each year of the amortization period.

The calculation of annual and accrued amortization requires the selection of an amortization period. The amortization periods used in this report were based on judgment which incorporated a consideration of the period during which the assets will render most of their service, the amortization period and service lives used by other utilities, and the service life estimates previously used for the asset under depreciation accounting.

Amortization accounting is proposed for a number of accounts that represent numerous units of property, but a very small portion of depreciable gas plant in service. The accounts and their amortization periods are as follows:

<u>ACCT</u>	<u>TITLE</u>	<u>AMORTIZATION PERIOD, YEARS</u>
391,	Office Furniture and Equipment	
	Furniture	20
	Equipment	15
	Information Systems	5
394,	Tools, Shop and Garage Equipment	25
395,	Laboratory Equipment	20
398,	Miscellaneous Equipment	15

For the purpose of calculating annual amortization amounts as of December 31, 2015, the book depreciation reserve for each plant account or subaccount is assigned or allocated to vintages. The book reserve assigned to vintages with an age greater than the amortization period is equal to the vintage's original cost. The remaining book reserve is allocated among vintages with an age less than the amortization period in proportion to the calculated accrued amortization. The calculated accrued amortization is equal to the original cost multiplied by the ratio of the vintage's age to its amortization period. The annual amortization amount is determined by dividing the future amortizations (original cost less allocated book reserve) by the remaining period of amortization for the vintage.

PART VI. RESULTS OF STUDY

PART VI. RESULTS OF STUDY

QUALIFICATION OF RESULTS

The calculated annual and accrued depreciation are the principal results of the study. Continued surveillance and periodic revisions are normally required to maintain continued use of appropriate annual depreciation accrual rates. An assumption that accrual rates can remain unchanged over a long period of time implies a disregard for the inherent variability in service lives and salvage and for the change of the composition of property in service. The annual accrual rates were calculated in accordance with the straight line remaining life method of depreciation, using the equal life group procedure based on estimates which reflect considerations of current historical evidence and expected future conditions.

The annual depreciation accrual rates are applicable specifically to the gas plant in service as of December 31, 2015. For most plant accounts, the application of such rates to future balances that reflect additions subsequent to December 31, 2015, is reasonable for a period of three to five years.

DESCRIPTION OF DETAILED TABULATIONS

The service life estimates were based on judgment that incorporated statistical analysis of retirement data, discussions with management and consideration of estimates made for other gas utilities. The results of the statistical analysis of service life are presented in the section beginning on page VII-2, within the supporting documents of this report.

For each depreciable group analyzed by the retirement rate method, a chart depicting the original and estimated survivor curves followed by a tabular presentation

of the original life table(s) plotted on the chart. The survivor curves estimated for the depreciable groups are shown as dark smooth curves on the charts. Each smooth survivor curve is denoted by a numeral followed by the curve type designation. The numeral used is the average life derived from the entire curve from 100 percent to zero percent surviving. The titles of the chart indicate the group, the symbol used to plot the points of the original life table, and the experience and placement bands of the life tables which were plotted. The experience band indicates the range of years for which retirements were used to develop the stub survivor curve. The placements indicate, for the related experience band, the range of years of installations which appear in the experience.

The analyses of salvage data are presented in the section titled, "Net Salvage Statistics". The tabulations present annual cost of removal and salvage data, three-year moving averages and the most recent five-year average. Data are shown in dollars and as percentages of original costs retired.

The tables of the calculated annual depreciation applicable to depreciable assets as of December 31, 2015 are presented in account sequence starting on page IX-2 of the supporting documents. The tables indicate the estimated survivor curve and net salvage percent for the account and set forth, for each installation year, the original cost, the calculated accrued depreciation, the allocated book reserve, future accruals, the remaining life, and the calculated annual accrual amount.

* Indicates the use of an interim survivor curve. Each asset class has a probable retirement date.
 ** 3-Year amortization of unrecovered reserve related to implementation of amortization accounting.
 *** Accrual rate based on individual asset amortization.
 **** Fair Market Value recovered over 30 years.

Columbia Gas of Kentucky, Inc.
CASE NO. 2016-00162
Forecasted Test Period Filing Requirements
807 KAR 5:001 Section 16-(7)(t)

Description of Filing Requirement:

A list of all commercially available or in-house developed computer software, programs, and models used in the development of the schedules and work papers associated with the filing of the utility's application. This list shall include each software, program, or model; what the software, program, or model was used for; identify the supplier of each software, program, or model; a brief description of the software, program, or model; the specifications for the computer hardware and the operating system required to run the program;

Response:

Schedules and work papers presented in this application were prepared with Microsoft Office Excel and Word 2013 software. Word 2013 was used for prepared testimony and other documents. Longview 7 version 7.1 from Longview Solutions was used to support the budget used in this application. Adobe Acrobat XI Pro was used for assembling documents and schedules into Pdf formats for electronic submission. Columbia uses Windows 7 operating systems on IBM personal computers with 2.5 GHz or greater processors and at least 4GB of RAM. There are also references in testimony to software and models used.

Responsible Witness:

Herbert A. Miller, Jr.

Columbia Gas of Kentucky, Inc.
CASE NO. 2016-00162
Forecasted Test Period Filing Requirements
807 KAR 5:001 Section 16-(7)(u)

Description of Filing Requirement:

If the utility had amounts charged or allocated to it by an affiliate or a general or home office or paid monies to an affiliate or a general or home office during the base period or during the previous three (3) calendar years, the utility shall file:

1. A detailed description of the method and amounts allocated or charged to the utility by the affiliate or general or home office for each allocation or payment;
2. The method and amounts allocated during the base period and the method and estimated amounts to be allocated during the forecasted test period;
3. An explanation of how the allocator for both the base period and the forecasted test period were determined; and
4. All facts relied upon, including other regulatory approval, to demonstrate that each amount charged, allocated, or paid during the base period is reasonable;

Response:

Please refer to the attached.

Responsible Witness:

Austin M. Schauer

Columbia Gas of Kentucky, Inc.
Case No. 2016-00162

Filing Requirement #16-7-U(1-4)

Description of Filing Requirement:

If the utility had any amounts charged or allocated to it by an affiliate or general or home office during the test period or during the previous three (3) calendar years, the utility shall file:

1. A detailed description of the method or calculation and amounts allocated or charged to that utility by the affiliate

NiSource Corporate Services Company (NCSC) is regulated by the Public Utility Holding Company Act of 2005 (PUHCA 2005) which was enacted on February 8, 2006. PUHCA 2005 transferred regulatory jurisdiction over public utility holding companies from the U. S. Securities and Exchange Commission (“SEC”) to the Federal Energy Regulatory Commission (“FERC”). Per FERC Order No. 684 issued October 19, 2006, Centralized Service Companies must use a cost accumulation system, provided such system supports the allocation of expenses to the services performed and readily identifies the source of the expense and the basis for the allocation. In compliance with FERC, NCSC uses a billing pool system to collect costs that are applicable and billable to affiliates.

NCSC utilizes a 4-digit billing pool value as part of the required account classification coding, which is used to calculate and bill charges to its NiSource affiliates (known as “contract billing”). NCSC will bill charges directly to a client to the extent possible while any remaining costs are then allocated. Transactions are coded using a 4-digit numeric billing pool to directly bill affiliates when possible.

When it is impractical or inappropriate to charge a Client directly, a 4-digit alphanumeric billing pool is utilized to signify that the costs are to be allocated between multiple NCSC clients. The 4-digit alphanumeric codes align with the following Bases of Allocation which are filed annually with the FERC. Provided below are the Bases of Allocation for the Company, including a description of each basis and its numerator and denominator.

BASIS 1

GROSS FIXED ASSETS AND TOTAL OPERATING EXPENSES

- Fifty percent of the total charges will be allocated on the basis of the relation of the affiliate's gross fixed assets to the total gross fixed assets of all benefited affiliates; the remaining 50% will be allocated on the basis of the relation of the affiliate's total operating expenses to the total operating expenses of all benefited affiliates. All companies may be included in this allocation.

BASIS 2

GROSS FIXED ASSETS

- Charges will be allocated to each benefited affiliate on the basis of the relation of its total gross fixed assets to the sum of the total gross fixed assets of all benefited affiliates. All companies may be included in this allocation.

BASIS 3

NUMBER OF METERS SERVICED

- Charges will be allocated to each benefited affiliate on the basis of the relation of its number of meters serviced to the total number of all meters serviced of the benefited affiliates. This allocation may only be used by the following companies: Columbia Gas of Virginia, Columbia Gas of Kentucky, Columbia Gas of Ohio, Columbia Gas of Pennsylvania, Columbia Gas of Maryland, and Bay State Gas Company.

BASIS 4

NUMBER OF ACCOUNTS PAYABLE INVOICES PROCESSED

- Charges will be allocated to each benefited affiliate on the basis of the relation of its number of accounts payable invoices processed (interface invoices excluded) to the total number of all accounts payable invoices processed of the benefited affiliates. All companies may be included in this allocation.

BASIS 7

GROSS DEPRECIABLE PROPERTY AND TOTAL OPERATING EXPENSE

- Fifty percent of the total charges will be allocated on the basis of the relation of the affiliate's total operating expenses to the total of all the benefited affiliates' total operating expense; the remaining 50% will be allocated on the basis of the relation of the affiliate's gross depreciable property to the gross depreciable property of all benefited affiliates. All companies may be included in this allocation.

BASIS 8

GROSS DEPRECIABLE PROPERTY

- Charges will be allocated to each benefited affiliate on the basis of the relation of its total depreciable property to the sum of the total depreciable property of all benefited affiliates. All companies may be included in this allocation.

BASIS 9

AUTOMOBILE UNITS

- Charges will be allocated to each benefited affiliate on the basis of the relation of its number of automobile units to the total number of all automobile units of the benefited affiliates. All companies may be included in this allocation.

BASIS 10

NUMBER OF RETAIL CUSTOMERS

- Charges will be allocated to each benefited affiliate on the basis of the relation of its number of retail customers to the total number of all retail customers of the benefited affiliates. All companies may be included in this allocation.

BASIS 11

NUMBER OF REGULAR EMPLOYEES

- Charges will be allocated to each benefited affiliate on the basis of the relation of its number of regular employees to the total number of all regular employees of the benefited affiliates. All companies may be included in this allocation.

BASIS 13

FIXED ALLOCATION

- Charges will be allocated to each benefited affiliate on the basis of fixed percentages on an individual project basis. All companies may be included in this allocation.

BASIS 14

NUMBER OF TRANSPORTATION CUSTOMERS

- Charges will be allocated to each benefited affiliate on the basis of the relation of its Transportation Customers to the total of all Transportation Customers of the benefited affiliates. This allocation is only used by the following companies: Columbia Gas of Virginia, Columbia Gas of Kentucky, Columbia Gas of Ohio, Columbia Gas of Pennsylvania, Columbia Gas of Maryland, and Bay State Gas Company.

BASIS 15

NUMBER OF COMMERCIAL CUSTOMERS

- Charges will be allocated to each benefited affiliate on the basis of the relation of its Commercial Customers to the total of all Commercial Customers of the benefited affiliates. This allocation is only used by the following companies: Columbia Gas of Virginia, Columbia Gas of Kentucky, Columbia Gas of Ohio, Columbia Gas of Pennsylvania, Columbia Gas of Maryland, and Bay State Gas Company.

BASIS 16

NUMBER OF RESIDENTIAL CUSTOMERS

- Charges will be allocated to each benefited affiliate on the basis of the relation of its Residential Customers to the total of all Residential Customers of the benefited affiliates. This allocation is only used by the following companies: Columbia Gas of Virginia, Columbia Gas of Kentucky, Columbia Gas of Ohio, Columbia Gas of Pennsylvania, Columbia Gas of Maryland, and Columbia Gas Bay State Gas Company.

BASIS 17

NUMBER OF HIGH PRESSURE CUSTOMERS

- Charges will be allocated to each benefited affiliate on the basis of the relation of its High Pressure Customers to the total of all High Pressure Customers of the benefited affiliates. This allocation is only used by the following companies: Columbia Gas of Virginia, Columbia Gas of Kentucky, Columbia Gas of Ohio, Columbia Gas of Pennsylvania, Columbia Gas of Maryland, and Bay State Gas Company.

BASIS 20

SERVICE COMPANY BILLING (DIRECT AND ALLOCATED) COSTS

- Charges will be allocated to each benefited affiliate on the basis of the relation of its Service Corporation billing costs, in total or by functional group (e.g. IT, Legal, HR, Finance, Audit), to the corresponding total of all Service Company billing costs, (i.e. in total or by functional group). The calculation of Basis 20 will include only those billings for services provided to all NiSource affiliates, excluding Business Unit specific shared service functions (i.e. functions that serve only one particular Business Unit). All companies may be included in this allocation.

Provided below in Table A are the allocation bases charged by NCSC in its Gross Contract Billings from 2012 through 2015. Table B represents Columbia Gas of Kentucky's charges from NCSC during Base and Forecasted Test Period for test months ending August 2016 and December 2017.

Table A

Allocation Basis	2012	2013	2014	2015
Direct Billed to CKY	4,894,794.69	5,379,191.44	6,203,593.59	6,894,337.50
Basis 1	1,776,498.30	2,130,375.09	2,422,333.48	2,367,318.29
Basis 2	27,196.16	40,271.16	31,506.00	21,264.57
Basis 3	-	26.84	23.47	-
Basis 4	-	20,609.46	27,093.36	28,888.79
Basis 7	51,732.24	61,558.62	72,659.58	86,042.24
Basis 8	-	-	36,343.32	34,086.32
Basis 9	15,667.99	17,291.50	15,767.43	6,273.43
Basis 10	2,243,101.18	2,384,153.91	2,569,542.77	2,593,218.29
Basis 11	492,695.37	611,009.20	812,657.74	879,499.72
Basis 13	1,887,138.27	1,004,881.06	823,385.38	900,165.73
Basis 14	18,735.50	15,411.72	13,692.99	14,664.72
Basis 20	1,699,407.85	2,804,300.60	3,053,002.83	2,930,679.41
NCSC Overheads*	342,193.20	406,040.26	433,024.08	656,678.20
Total	13,449,160.75	14,875,120.86	16,514,626.02	17,413,117.21

Table B

Costs	Base Period TME 8/31/16	Forecasted Period TME 12/31/17
Actual (9/15 - 2/16)	9,211,597.39	-
Forecast (using 0 & 12)	9,461,053.56	20,006,017.11
Grand Total	18,672,650.95	20,006,017.11

*NCSC overheads include costs to maintain the service corporation including service company tax expense, interest expense, and accounting and budgeting expense. NCSC overheads are billed to the affiliates based on each company's portion of the total NCSC direct and allocated labor.

2. Method and amounts allocated during the base period and the method and estimated amounts to be allocated during forecasted period;

Please see response to 16-7-U for the method used and amounts allocated during the base period and estimated amounts to be allocated during the forecasted period.

The method for estimating forecasted costs is completed by the Corporate Budgeting Department.

Forecasted numbers are developed during the preparation of the Long Range Plan and are based on approved goals at the Executive Council level. Those goals are based on approved changes to budgets in order to control spending and to ensure responsible appropriation of resources. Examples of possible changes to budgets could be, but are not limited to: decisions or plans to increase or decrease headcount, approved projects, strategies, etc. Forecasts for direct costs are then developed at the individual department level by the budget sponsor, who also determines the appropriate basis for company allocations. The department is the lowest level in the hierarchy that rolls up to the operational segment and then functional area. Budget to goal variances are summarized and approved by the Vice President of Strategic Planning & Budgeting. The forecasts are then loaded into the budget system and verified and reviewed for accuracy.

3. An explanation of how the allocator for both base and forecasted test period was determined;

Allocations among affiliates are made only if it is impractical or inappropriate to charge an affiliate directly.

The billing pools are maintained by the NCSC Accounting Department; and therefore, only a few individuals within NCSC Accounting can create or modify billing pools. Each billing pool can be set up with only one Basis of Allocation, or direct company billing. There are system controls in place that allow certain departments, or groups of departments, to only use billing pools that allocate to companies benefitting from the services being provided. Essentially, a department that supports only the operating affiliates would only be allowed to use billing pools that include the operating affiliates. If an individual would attempt to use a different billing pool, the related accounting systems would prompt an immediate error and not allow data to be input. Additionally, Columbia's Internal Audit group conducts an annual review of cost allocation procedures and makes recommendations related to contract billing processing.

4. All facts relied upon, including other regulatory approval, to demonstrate that each amount charged, allocated, or paid during the base period was reasonable.

NCSC has executed a contract with each affiliate called a Service Agreement, which designates the type of services to be performed, and the method of calculating the charges

for these services. Services rendered under the Service Agreement are provided at cost, including interest charges for financing.

In accordance with Section 2.3 of the Service Agreement, NCSC makes available monthly billing information, called a Contract Billings, to Columbia Gas of Kentucky that reflects all information necessary to identify the costs charged and services rendered for that month. In accordance with the Agreement, Columbia Gas of Kentucky has the right to review and challenge any particular item for which they are billed. Any issues raised are sent to the NCSC Accounting Department for review and resolution, if necessary.

Internal Audit conducts a review of cost allocation procedures and makes recommendations related to executive time reporting, contract and convenience billing processing, and the reconciliation of inter-company transactions. In addition, although there are no formal reports issued by the company's independent certified public accountants regarding the expense allocation methodologies utilized by NCSC, NiSource's independent registered public accountants, Deloitte & Touche LLP, do subject to test NCSC expense allocations for both contract and convenience billings as part of their audit procedures used to support their opinions on the financial statements of NCSC affiliates that are included in the state jurisdictional filings for both FERC and GAAP reporting.

NiSource Inc., including NCSC, underwent a FERC audit, Docket No. FA11-5-000, which covered the period January 1, 2009, through December 31, 2010. The Final Audit Report was issued by the FERC on October 24, 2012. As stated on page nine of the Final Report, the Audit Staff reviewed and tested the supporting details for NCSC's cost allocation methods; additionally, Audit Staff sampled and selected supporting documents to ensure that NCSC's billings and accounting comply within the USOA (Uniform System of Accounts).

Columbia Gas of Kentucky, Inc.
CASE NO. 2016-00162
Forecasted Test Period Filing Requirements
807 KAR 5:001 Section 16-(7)(v)

Description of Filing Requirement:

If the utility provides gas, electric, sewage utility, or water utility service and has annual gross revenues greater than \$5,000,000, a cost of service study based on a methodology generally accepted within the industry and based on current and reliable data from a single time period;

Response:

Please refer to Attachment CEN-1 through CEN-9 by Columbia witness Notestone.

Responsible Witness:

Chad E. Notestone

Columbia Gas of Kentucky, Inc.
CASE NO. 2016-00162
Forecasted Test Period Filing Requirements
807 KAR 5:001 Section 16-(7)(w)

Description of Filing Requirement:

Incumbent local exchange carriers with fewer than 50,000 access lines shall not be required to file cost of service studies, except as specifically directed by the commission. Local exchange carriers with more than 50,000 access lines shall file:

1. A jurisdictional separations study consistent with 47 C.F.R. Part 36;
and
2. Service specific cost studies to support the pricing of all services that generate annual revenue greater than \$1,000,000 except local exchange access:
 - a. Based on current and reliable data from a single time period;
and
 - b. Using generally recognized fully allocated, embedded, or incremental cost principles.

Response:

Not applicable to a gas utility.

Responsible Witness:

None
