**Duke Energy Kentucky
Case No. 2016-00312
Staff First Set of Data Request
Date Received: January 19, 2017**

STAFF-DR-01-002

REQUEST:

Explain in detail why the Intercompany Asset Transfer Agreement should not be amended to include, in Article 4, a section expressly stating that no electric assets or gas assets owned or controlled by Duke Kentucky and having an original book value of \$1,000,000 or more shall be acquired or transferred without the approval of the Kentucky Public Service Commission, unless the assets are obsolete or will not continue to be used to provide the same or similar service to Duke Kentucky or its customers.

RESPONSE:

The language referenced in the question is substantially what is set forth in KRS 278.218. The Intercompany Asset Transfer Agreement, both as initially approved by the Commission, and in its current proposed form, expressly incorporates KRS 278.218 in Article 1, section 1.1 (iii) which provides: "DE Kentucky shall not transfer any Asset hereunder in contravention of KRS 278.218."

Duke Energy Kentucky has already committed, and the Commission has already ordered, that the restriction under KRS 278.218 would apply to transactions involving Duke Energy Kentucky's natural gas utility assets in Case No. 2008-00122.¹ That commitment has not changed. And the Company is not seeking relief from such a requirement by this submittal. Adding the above-stated language to Article 4 is not necessary. Nonetheless, if

¹ See Case No 2008-00122, (Ky P.S.C. Order at 4)(July 18, 2004).

the Commission desires such an amendment, the Company will seek to include it in the final agreement.

PERSON RESPONSIBLE: Legal
