RE: Case No. 2016-00325
North Mercer Water District
ARF – Rate Adjustment

Dear Dr. Mathews:

The North Mercer Water District (District) submits the following comments concerning the Commission Staff Report dated March 22, 2017:

1. The District waives its right to request a Formal Hearing in this Case.
2. The District accepts the findings of Commission Staff with the exceptions noted below. It respectfully requests the Commission to issue, as soon as possible, its Order approving the rates recommended by Commission Staff.

Attachment A of the Commission Staff Report contains a typographical error. Under the 5/8-Inch Meters heading, it shows that the \$7.75 per 1,000 gallons rate is applicable for all usage “Over 10,000 gallons.” It should read for all usage “Over **1,000** gallons.”

In addition, Attachment A omits the Bulk Sales rate. The Application requested that the Bulk Sales rate be increased from \$0.25 to \$0.50 per 80 gallons.

Please make these corrections.

Sincerely,

Gerald Shepersen, Chairman
North Mercer Water District
