KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 1

Responding Witness: Robert M. Conroy

- Q-1. Referring to Application Attachment to Tab 4, P.S.C. No. 18, Original Sheet No. 15.1 (PDF Pg. No. 27):
- a. Explain the circumstances that determine whether KU and LG&E choose to install a kilovolt-ampere (kVA) meter or to apply the formula for adjusting billing demand.
 - b. How many customers are billed under the formula?
- A-1.
- a. The Companies will install a kVA meter only when it is the preferred option of the customer or provides the customer the best economic benefit.
 - b. As of December 31, 2016, KU had 331 PS customers billed on the formula for adjusting billing demand.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 2

Responding Witness: Kent W. Blake

- Q-2. Referring to Application Attachment to Tab 16 - Item A, page 5 (PDF Pg. No. 375), when does management approve the annual budget for the upcoming fiscal year?
- A-2. See the Board resolution dated November 21, 2016 provided in response to AG 1-112.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 3

Responding Witness: Lonnie E. Bellar / David S. Sinclair

Q-3. Referring to Application Attachment to Tab 16 - Item G, page 7 (PDF Pg. No. 463):

- a. Provide the planned maintenance schedule by generating unit, including the beginning/ending date, duration and reasons for the outage (i.e., inspection, overhaul).
- b. Provide a list of all maintenance outages by generating unit, including the beginning/ending date, duration and reasons for the outage (i.e., inspection, overhaul) for the period 2013-2016.
- c. Provide a schedule showing the Henry Hub natural gas prices for the years 2017 and 2018 used in the forecast.

A-3.

- a. See attached.
- b. See attached.
- c. See the forecasted monthly Henry Hub natural gas prices in the following table.

<i>Nominal \$/MMBtu</i>	2017	2018
January	3.23	3.29
February	3.22	3.27
March	3.18	3.21
April	2.93	2.92
May	2.91	2.91
June	2.94	2.94
July	2.98	2.98
August	2.99	3.00
September	2.96	2.99
October	2.98	3.02
November	3.04	3.09
December	3.17	3.24

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 7

Responding Witness: Lonnie E. Bellar

Q-7. Referring to Application Attachment to Tab 16 - Item I, page 100 (PDF Pg. No. 618):

- a. Provide the information separately for KU and LG&E.
- b. Provide the information for actual 2016.
- c. Explain the projected escalation in Line Clearing expenses for the years 2016-2018.
- d. Provide a history of transmission operation and maintenance (O&M) expenses associated with Line Clearing and Storm Restoration separately for KU and LG&E for the period 2012-2014.

A-7.

- a. See attached.
- b. See attached.
- c. The projected increase in Line Clearing expenses for the years 2016-2018 is driven by the conversion from a just in time clearing approach to a "Cycle" based approach, see Thompson testimony Exhibit PWT-2, section 5.1.1.
- d. See attached.

Question 7 (a) - KU Only

\$000's Item	2015 Actual	2016 Forecast	2017 Plan	2018 Plan	2019 Plan	2020 Plan	2021 Plan

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 8

Responding Witness: Lonnie E. Bellar

- Q-8. Referring to Application Attachment to Tab 16 - Item I, page 101 (PDF Pg. No. 619):
- a. Provide the information separately for KU and LG&E.
 - b. Provide information for actual 2016.
 - c. Explain the projected escalation in Misc. Transmission Expense for the years 2016-2018.
- A-8.
- a. See attached for KU. LG&E is not a party to this proceeding.
 - b. See attached.
 - c. The projected escalation in Misc. Transmission Expense for the years 2016-2019 is attributable to expenses to provide credits to transmission costs for certain qualifying transmission customers. These expenses are related to the 2006 settlement agreement in which the Company withdrew from the Midcontinent ISO ("MISO") and as a result is required, for certain customers, (1) to forgive transmission charges for energy sales by those customers into MISO and (2) to provide credits for MISO transmission charges for energy purchases by those customers from MISO. The expense increase in 2017 and 2018 is primarily due to a KU municipal customer that plans to source energy from MISO beginning in 2017 after terminating its wholesale service with KU.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 9

Responding Witness: Lonnie E. Bellar

Q-9. Referring to Application Attachment to Tab 16 - Item I, page 102 (PDF Pg. No. 620):

- a. Explain the scope of activities included under Overhead Lines.
- b. Explain the increases in headcount for Overhead Lines projected in 2016-2018.

A-9.

- a. The scope of activities include projects for the Transmission Expansion Plan, compliance, transmission work to support distribution projects, and overhead programs as described in the following sections of Thompson testimony Exhibit PWT-2:
 - 5.1.2 Capital Reliability Projects/Programs
 - 5.2.1 Replace Defective Line Equipment
 - 5.2.2 Replace Overhead Lines
 - 5.2.6 Replace Line Switches
- b. The headcount increases for overhead lines are for construction resources to install, remove, and replace transmission line assets for projects described in the response to A-9 (a).

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 10

Responding Witness: Lonnie E. Bellar

Q-10. Referring to Application Attachment to Tab 16 - Item I, page 108 (PDF Pg. No. 628):

- a. Provide the actual 2016 information.
- b. Provide the information separately for KU and LG&E for the periods shown and for the Test Year.
- c. Explain the \$3 million jump in O&M expense in 2018.

A-10.

- a. See attached.
- b. See attached for KU. LG&E is not a party to the KU proceeding.
- c. The primary driver of the \$3 million increase in O&M expense from 2017-2018 is the timing and scope of high energy piping and corrosion fatigue inspections that occur during outages.

2016 Annual O&M Expenses
(\$000)

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 11

Responding Witness: David S. Sinclair

Q-11. Referring to the presentation entitled “Energy Supply and Analysis 2017 Business Plan” found in Application Attachment to Tab 16 - Item I, beginning on page 116 (PDF Pg. No. 634) , explain why pages 3, 4 and 11 (a.k.a. PDF Pg. Nos. 118, 119 and 126) are blank.

A-11. These pages were inadvertently left blank. See attached.

Plan Highlights

- Optimize the utilization of existing assets to provide reliable, low cost energy.
- Procure coal and gas necessary to cost-effectively operate generating plants.
- Maximize beneficial use of by-products to minimize pond closure and landfill development costs.
- Provide high quality analysis to enhance decision-making.
- Implement processes required to meet reliability standards.
- Improve analysis capability and knowledge related to retain customer energy usage to support energy efficiency and resource planning efforts.

Major Assumptions

- Analysis needed to support major company initiatives (KPSC filings) and strategic planning can be met by existing staff levels.
- Retirement risk is growing over the planning period but adequate time for training and development is forecasted to occur.
- Training for new employees will not require expenditures beyond recent historical experience for existing employees.
- No material change from historical non-labor expenses.

Plan Risks

- OSS margin risk is minimal due to new KY sharing mechanism.
- A cold winter could push up natural gas prices, negatively impacting customer bills via the FAC during the pending rate case proceeding.
- Trimble County CCRT and landfill will be completed on time.
- Workforce transition due to retirements.
- Timely recovery of municipal share of 2016 ECR costs should FERC and the municipals object to regulatory asset methodology.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 12

Responding Witness: Kent W. Blake

Q-12. Referring to Application Attachment to Tab 16 - Item I, page 185 (PDF Pg. No. 703):

- a. Provide the information separately for KU and LG&E.
- b. Provide information for actual 2016.
- c. Provide the information separately for KU and LG&E for the Test Year.
- d. Explain the projected escalations for the years 2017-2018.

A-12.

- a. See attached KU details. LG&E is not a party to the KU proceeding.
- b. See attached.
- c. See attached. LG&E is not a party to the KU proceeding.
- d. One of the primary drivers for the increase from 2016 Forecast to 2017 and 2017 to 2018 is labor. The 2016 to 2017 increase is related to wage inflation. The increase 2017 to 2018 is primarily due to wage inflation and a decrease in the amount of labor being charged to Capital. One of the largest uses of IT Capital labor in 2017 will be the SAP Upgrade project which is expected to be completed by the end of 2017. In 2018, these employees will begin charging O&M as they work by performing system support, maintenance and small enhancements to the SAP application. Another driver of the year over year increase is hardware/software maintenance, which is due to expected annual increases in current contracts plus the addition of new contracts resulting from new applications or upgrades.

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 13

Responding Witness: Kent W. Blake

Q-13. Referring to Application Attachment to Tab 16 - Item I, page 191 (PDF Pg. No. 709), explain the increases in HW/SW Maintenance expenses projected in 2017 and 2018.

A-13. See response to Question No. 12.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 14

Responding Witness: Kent W. Blake

- Q-14. Referring to Application Attachment to Tab 16 - Item I, page 193 (PDF Pg. No. 711), explain the reasons for the increase in the contingency amount from 2017 and 2018.
- A-14. The annual business plan for IT hw/sw maintenance is managed as a whole based on existing hw/sw maintenance agreements and forecasted business activities. Existing contracts which expire during the forecast period but are expected to be renewed are assumed to increase 4% based on historical trends. The increase in the contingency amount covers potential incremental O&M as a result of unbudgeted capital projects, higher than expected contract renewals and any additional O&M increases not otherwise budgeted.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 15

Responding Witness: Kent W. Blake

Q-15. Referring to Application Attachment to Tab 16 - Item I, page 212 (PDF Pg. No. 730):

- a. Provide the actual 2016 information.
- b. Provide the information separately for KU and LG&E for the periods shown and for the Test Year.
- c. Explain the projected increases in pension expense in 2017 and 2018.

A-15.

- a. See attached.
- b. See attached KU details. LG&E is not a party to the KU proceeding.
- c. The primary driver for the increase between 2016 actuals and the forecast for 2017 and 2018 is due to a decrease in the discount rate of 16 bps for the non-union plan.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 16

Responding Witness: Christopher M. Garrett

Q-16. Referring to Volume 8 of the Application, “KU_Filing_Requirements_(Tabs_47-68)_-_Part_3.pdf, Schedule B-5, page 1 (PDF Pg. No. 129):

- a. Explain why fuel expense is not removed in determining cash working capital.
- b. Provide citations to prior Kentucky PSC decisions issued in the past ten years authorizing a cash working capital allowance calculated in the manner that KU is proposing in this case (i.e., where fuel costs are not removed).
- c. Provide citations to prior regulatory decisions issued in the past ten years that include fuel costs in applying the 45-day formula for determining cash working capital.

A-16. a. The Company uses the formula method also known as the 1/8th formula or 45-day rule to establish cash working capital. The Federal Energy Regulatory Commission and the Kentucky Public Service Commission have recognized this method as an acceptable and appropriate means to determine cash working capital. *See, e.g., Pennsylvania Power Co.*, 12 FERC ¶61,049 (1980). *See also* Company’s Response to AG 1-18. The cash working capital is computed as 45/365 of operation and maintenance costs less purchased power costs. Fuel costs are a component of O&M costs. Purchase power costs are excluded on the assumption that the lag in payment for purchased power is equal to the lag in the receipt of revenue by the utility.

- b. In the cases listed below, the Kentucky Public Service Commission noted its use of the 1/8 formula to establish cash working capital. In none of these cases does the Commission indicate that it has departed from the accepted formula by excluding fuel costs (other than purchased power expense) from Operation and Maintenance Costs when determining cash working capital. This list is not an exhaustive list.

Application of Big Rivers Electric Corporation for An Adjustment of Rates, Case No. 2012-00535 (Ky. PSC Oct. 29, 2013); Adjustment of the Rates, Terms and Conditions of Kentucky Utilities Company, Case No. 2003-00434 (Ky. PSC

June 30, 2004); *Adjustment of the Gas and Electric Rates, Terms and Conditions of Louisville Gas and Electric Company*, Case No. 2003-00433 (Ky. PSC June 30, 2004); *The Application of Kentucky Power Company D/B/A American Electric Power For Approval of An Amended Compliance Plan for Purposes of Recovering the Costs of New and Additional Pollution Control Facilities and to Amend Its Environmental Cost Recovery Surcharge Tariff*, Case No. 2002-00169 (Ky. PSC Mar. 31, 2003); *The Application of Kentucky Utilities Company For Approval of An Alternative Method of Regulation of Its Rates And Service*, Case No. 98-474 (Ky. PSC Jan. 7, 2000); *The Application of The Union Light, Heat, and Power Company for An Adjustment of Rates*, Case No. 92-346 (Ky. PSC July 23, 1993); *Application of The Union Light, Heat and Power Company to Adjust Electric Rates*, Case No. 91-370 (Ky. PSC May 5, 1992); *Adjustment of Gas and Electric Rates of Louisville Gas and Electric Company*, Case No. 10064 (Ky. PSC July 1, 1988); *General Adjustments in Electric Rates of Kentucky Power Company*, Case No. 7489 (Ky. ERC June 27, 1980); *The Filing of A Basic Rate Increase By Salt River Rural Electric Cooperative Corporation of Bardstown, Kentucky Applicable to All Customers*, Case No. 7563 (Ky. ERC Mar. 5, 1980).

Question No. 17

Responding Witness: William S. Seelye

- Q-17. Referring to Schedule M-2.3, page 1 (PDF Pg. No. 343), reconcile the Revenue Adjusted in Schedule M-2.3 to the corresponding Total Revenue at Present Rates as shown in Schedule M-2.1.
- A-17. The amounts by Rate Class in Total Revenue at Present Rates as shown in Schedule M-2.1 are the same as the amounts by Rate Class in Adjusted Billings Including All ECR Revenue at Current Rates as shown in Schedule M-2.3, page 2 (PDF Pg. No. 344). As such, Schedule M-2.3, pages 1 and 2, provides the reconciliation between the two Schedules.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 18

Responding Witness: William S. Seelye

Q-18. Referring to Direct Testimony of Mr. Conroy, page 6:

- a. Provide a schedule showing the hourly loss of load probabilities (LOLPs) used in allocating fixed production costs.
- b. Provide a schedule showing the hourly LOLPs for the years 2013-2016.

A-18.

- a. See the response to PSC 2-97.
- b. The Company did not perform an analysis to calculate LOLPs for the years 2013-2016.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 19

Responding Witness: John P. Malloy / John K. Wolfe

Q-19. Referring to Direct Testimony of Mr. Conroy, page 35:

- a. Provide a schedule showing the projected \$470 million nominal dollar savings by year.
- b. Provide workpapers demonstrating how these projected savings are being reflected in test year O&M expenses.
- c. Quantify the projected savings associated with the proposed DA deployment by year and provide workpapers demonstrating how these projected savings are being reflected in test year O&M expenses.

A-19.

- a. See the table on the following page.

Year	Capital Costs	O&M Costs	Meter Retirement	Benefits	Total Net Benefit (\$M)
2016	\$ 1.0	\$ -	\$ -	\$ -	\$ 1.0
2017	96.6	3.9	-	(1.6)	98.8
2018	111.3	6.6	-	(5.3)	112.6
2019	107.6	8.3	4.1	(31.2)	88.9
2020	3.9	5.1	8.1	(37.6)	(20.5)
2021	-	6.1	8.1	(37.0)	(22.8)
2022	-	6.1	8.1	(37.6)	(23.5)
2023	-	6.2	8.1	(39.6)	(25.3)
2024	7.3	6.3	2.7	(40.0)	(23.6)
2025	-	6.5	0.7	(41.3)	(34.1)
2026	-	6.7	-	(42.6)	(35.9)
2027	-	6.8	-	(45.5)	(38.6)
2028	-	7.0	-	(46.3)	(39.3)
2029	-	7.2	-	(46.9)	(39.7)
2030	8.6	7.4	-	(48.4)	(32.4)
2031	-	7.5	-	(50.0)	(42.4)
2032	-	7.7	-	(51.6)	(43.9)
2033	-	7.9	-	(55.9)	(48.0)
2034	-	8.1	-	(55.0)	(46.9)
2035	-	8.3	-	(56.8)	(48.5)
2036	9.5	8.5	-	(58.7)	(40.7)
2037	-	8.8	-	(60.6)	(51.9)
2038	-	9.0	-	(63.7)	(54.7)
2039	-	9.2	-	(66.5)	(57.3)
	\$ 345.9	\$ 165.3	\$ 39.7	\$ (1,019.8)	\$ (468.9)

- b. O&M savings are not expected to begin until 2019, therefore there are no O&M savings reflected in the test year O&M expenses.

- c. Savings shown reflect combined savings between LG&E and KU. No savings are expected within the test year. Refer to Exhibit PWT-6 in Mr. Thompson's testimony for years 2023 – 2051.

Year	Expected O&M Savings (\$'000s)
2017	
2018	0
2019	50
2020	100
2021	150
2022	180

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 20

Responding Witness: William S. Seelye

Q-20. Referring to Direct Testimony of Mr. Seelye, page 8:

- a) Explain how Mr. Seelye determined that capping the increase to 1 percentage point above the overall increase was reasonable.
- b) Identify any regulatory decisions that adopted the proposal to cap the increase to 1 percentage point above the overall increase was reasonable.
- c) Explain how Mr. Seelye determined that a 15% rate of return was a reasonable threshold for determining whether the rates charged to a particular class should not be increased.
- d) Identify any regulatory decisions that adopted the proposal to assign no increase to a class that was producing a 15% or higher rate of return.

A-20.

- a) Capping the increase for any one class at 1 percent above the overall increase is consistent with the ratemaking principle of gradualism which has long been recognized by the Commission.
- b) Mr. Seelye is unaware of any regulatory decisions that have adopted a specific percentage range capping an increase.
- c) The selection of 15% is based on Mr. Seelye's experience working with electric utility rates.
- d) Mr. Seelye is unaware of any regulatory decisions that have adopted a specific class rate of return for which no increase would be allocated.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 21

Responding Witness: William S. Seelye

Q-21. Referring to Direct Testimony of Mr. Seelye, page 9:

- a) Explain how economic factors impact the rate of return that a class should provide?
- b) Identify other economic factors that Mr. Seelye believes are relevant to determine a class's rate of return.
- c) Define the time period over which KU plans to eliminate subsidies.
- d) Define what Mr. Seelye believes would be an unduly large rate increase for any one major class.
- e) Identify the major rate classes.
- f) Does Mr. Seelye believe that different principles should be applied in applying gradualism to the non-major rate classes? If so, identify the gradualism principles that should be applied.

A-21.

- a) It is Mr. Seelye's position that class rates of return should be equalized over time. He is unaware of specific economic factors that should be considered.
- b) See the response to part a.
- c) KU has not developed a specific time period for the elimination of subsidies.
- d) Mr. Seelye has not formed a pre-determined judgement on what would constitute an unduly large rate increase for any one major class.
- e) For electric, the major classes are Rates RS, GS, PS, TODS, TODP, RTS, and FLS.
- f) Mr. Seelye has not formed a specific set of principles for applying the regulatory concept of gradualism to non-major rate classes.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 22

Responding Witness: William S. Seelye

Q-22. Referring to Direct Testimony of Mr. Seelye, page 27, with respect to the Rate PS (Power Service):

- a) Provide the cost basis for the higher Demand charges applicable to Primary customers.
- b) Provide the cost basis for narrowing the differential in the Energy charges for Secondary and Primary service.

A-22.

- a) The higher demand charges for primary voltage customers is a result of the class rate of return for the rates.
- b) The energy charges were developed based on the results of the class cost of service study.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 23

Responding Witness: William S. Seelye

- Q-23. Referring to Direct Testimony of Mr. Seelye, page 28, provide a copy of the treatise.
- A-23. The Company will make the referenced textbook available to the intervenor for review at a Company location upon request. The textbook referenced by Mr. Seelye is also available to be purchased from <http://www.amazon.com> or other retail book sellers. It may also be possible to borrow the book from a library.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 24

Responding Witness: William S. Seelye

Q-24. Referring to Direct Testimony of Mr. Seelye, page 56, provide documents supporting the statement that LED fixtures have shorter average service lives than conventional fixtures.

A-24. The statement is based on representations from the Company's lighting vendors.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 25

Responding Witness: William S. Seelye

- Q-25. Referring to Direct Testimony of Mr. Seelye, page 68, explain the rationale for applying the Base-Intermediate-Peak (BIP) methodology to transmission fixed costs.
- A-25. The statement on page 68 of Mr. Seelye's testimony is an error. Only production-related costs are allocated based on the BIP methodology. In the cost of service study, transmission-related costs are allocated on the basis of each class's highest non-coincident peak demand during the test period.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 26

Responding Witness: William S. Seelye

Q-26. Referring to Exhibit WSS-4, page 1, provide workpapers showing the derivation of the following:

- a) Fixed Charges (\$/Yr);
- b) Distribution Energy per kilowatt-hour (kWh)
- c) (\$/Yr);
- d) Distribution Energy Costs; and
- e) O&M (\$/Yr).

A-26.

- a) See the response to LFUCG 1-50, part i.
- b-d) The annual Distribution Energy Costs corresponds to the kWh used by each light type multiplied by the energy charge set forth in Lighting Energy Rate LE.
- e) See attached.

Derivation of Operation and Maintenance for LS and RLS

Bill Code	412, 466, 410	413
Bulb	\$7.07	\$7.58
Photocell	\$3.04	\$3.04
Labor	\$38.76	\$38.76
Total	\$48.87	\$49.38
Operation and Maintenance (\$ / yr)	\$8.15	\$8.23
Amount included in Monthly Unit Cost	\$0.68	\$0.69

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 28

Responding Witness: William S. Seelye

Q-28. Referring to Exhibit WSS-12, page 1, provide workpapers showing the derivation of Weighted LOLP factors by Rate Class in native (live EXCEL or compatible format).

A-28. See the response to PSC 2-97.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 29

Responding Witness: William S. Seelye

- Q-29. Referring to Exhibit WSS-16, page 13, explain why energy costs were not similarly allocated between Base, Intermediate and Peak functions.
- A-29. BIP is a methodology used to time-differentiate fixed production costs. The Company's energy costs are not significantly differentiated by time period.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 30

Responding Witness: William S. Seelye

- Q-30. Referring to Exhibit WSS-17, page 49, provide workpapers showing the derivation of the F017 and PROFIX functional vectors.
- A-30. The F017 and PROFIX functional vectors correspond to the BIP methodology discussed in Mr. Seelye's testimony.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 31

Responding Witness: William S. Seelye

- Q-31. Referring to Exhibit WSS-18, page 35, provide the workpapers showing the derivation of each Demand Allocator in native (live EXCEL or compatible) format.
- A-31. Most of the demand allocators were derived from information contained in the spreadsheet attached to the response to PSC 2-97. The BDEM allocator is derived by taking the energy allocator for each class divided by 8,760.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 32

Responding Witness: William S. Seelye

Q-32. Referring to Exhibit WSS-18, page 37, provide the workpapers showing the derivation of each Production Allocation factor in native (live EXCEL or compatible) format.

A-32. See the spreadsheet attached to the response to PSC 2-97.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 33

Responding Witness: John J. Spanos

- Q-33. Regarding the Direct Testimony of Mr. Spanos, provide the following pages from Exhibit JJS-KU-1 in native Excel format with formulas intact:
- a) VI-3 through VI-9; and
 - b) VII-2 through VII-3.
- A-33. a) See the response to KIUC 1-1.
- b) See the response to KIUC 1-3.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 34

Responding Witness: John J. Spanos

Q-34. Regarding the Direct Testimony of Mr. Spanos, confirm from Exhibit JJS-KU-1, Part IX, Detailed Depreciation Calculations:

- a) Is the column titled “Calculated Accrued” the theoretical reserve?
- b) Provide the formula used to calculate the “Calculated Accrued” amounts.

A-34. a) Yes, the column “Calculated Accrued” is the same as the theoretical reserve using the proposed parameters.

- b) Please see the formula set forth on page V-3 of Exhibit JJS-KU-1.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 35

Responding Witness: Gregory J. Meiman

- Q-35. Provide the total amount of short-term incentive compensation included in the base period and forecasted period.
- A-35. See the response to KIUC 1-18.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 36

Responding Witness: Gregory J. Meiman

Q-36. Provide the amount of short-term incentive compensation included in the base period and forecasted period that is related to financial based goals such as earnings, earnings per share (EPS), return on equity, etc. Provide work papers detailing how these amounts were determined.

A-36. See the response to KIUC 1-18.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 37

Responding Witness: Gregory J. Meiman

- Q-37. Provide the total amount of long-term incentive compensation included in the base period and forecasted period.
- A-37. Long-term incentive compensation is not included in the cost of service.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 38

Responding Witness: Gregory J. Meiman

Q-38. Provide the amount of long-term incentive compensation included in the base period and forecasted period that is related to financial based goals such as earnings, EPS, return on equity, etc. Provide work papers detailing how these amounts were determined.

A-38. See the response to Question No. 37.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 39

Responding Witness: Gregory J. Meiman

Q-39. Provide company instructions describing the short-term and long-term incentive compensation plans and which list goals and weightings used to determine the compensation amounts.

A-39. See the response to AG 1-210.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 40

Responding Witness: Christopher M. Garrett

Q-40. Provide a copy of the depreciation study that the current depreciation rates are based upon.

A-40. See the response to AG 1-196.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 41

Responding Witness: John J. Spanos

Q-41. Provide the following parameters used to determine the current depreciation rates for each FERC Account and each Production Plant:

- a) Retirement Year;
- b) Interim Survivor Curve and Life;
- c) Net Salvage Percent;
- d) Remaining Life; and
- e) Book Depreciation Reserve Ratio.

A-41. a-e) The attached schedule sets forth the parameters used to determine the current depreciation rates for each account and each production plant as of the last study date. It should be noted that the remaining life and plant to reserve ratio change when depreciation calculations are conducted, therefore, these amounts should not be compared to calculations in this case.

KENTUCKY UTILITIES COMPANY

SUMMARY OF ESTIMATED SURVIVOR CURVES, NET SALVAGE, ORIGINAL COST, BOOK DEPRECIATION RESERVE AND CALCULATED ANNUAL DEPRECIATION RATES AS OF DECEMBER 31, 2011

ACCOUNT		SURVIVOR CURVE	NET SALVAGE PERCENT	ORIGINAL COST	BOOK DEPRECIATION RESERVE	FUTURE ACCRUALS	CALCULATED ANNUAL ACCRUAL AMOUNT	CALCULATED ANNUAL ACCRUAL RATE	COMPOSITE REMAINING LIFE

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 42

Responding Witness: John J. Spanos

Q-42. Provide explanations for all changes in the retirement years and survivor curves used to calculate the current rates and the proposed rates.

A-42. The attached schedule sets forth a comparison of the retirement dates for generating facilities and the survivor curves for all asset classes.

Depreciation rates are affected by survivor curves, net salvage percents, plant activity, depreciation procedures, reserve to plant ratio and the attained age of the surviving balance of each account. Every account has a change in at least one of these components and some accounts have multiple changes that affect the rates.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 43

Responding Witness: John J. Spanos

- Q-43. Provide the following parameters used to determine the current depreciation rates for each FERC Account for Transmission, Distribution, General and Common plant:
- a) Survivor Curve and Life;
 - b) Net Salvage Percent;
 - c) Remaining Life; and
 - d) Book Depreciation Reserve Ratio.
- A-43. a-d) The schedule provided in response to Question No. 41 sets forth the parameters used to determine the current depreciation rates for each transmission, distribution and general plant account.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 44

Responding Witness: John J. Spanos

- Q-44. Provide an explanation for the differences in the accrual rates for Account No. 312 shown on Schedules B-3.2. Page 1 reflects an accrual rate of 2.81% and page 3 reflects a rate of 3.70%. Please include explanations for all changes in the retirement years, survivor curves and net salvage used to calculate the current rates and the proposed rates.
- A-44. The difference between page 1 and page 3 for Account 312 shown on Schedule B-3.2 is page 1 reflects the currently settled rates and page 3 reflects the proposed rates. The changes in survivor curve and net salvage are shown in Column H and J of Schedule B-3.2.

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 45

Responding Witness: Lonnie E. Bellar

Q-45. Provide the annual O&M expenses associated with Steam Turbine/Generator overhauls for the following periods and provide a listing of overhauls that occurred or are planned to occur in each period:

- a. 2012-2016;
- b. Base Period;
- c. Forecasted Test Year; and
- d. Forecasted 2017 – 2020.

A-45.

- a. See attached.
- b. See attached.
- c. See attached.
- d. See attached.

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 46

Responding Witness: John P. Malloy

- Q-46. Provide a schedule for each Municipal customer of KU showing the following information for each account for each KU Municipal customer for calendar years 2015 and 2016:
- a. Applicable tariff
 - b. Other tariffs that could be applicable to this account.
 - c. Total sum paid
 - d. Customer Class.
- A-46. a-d) The Company does not maintain a list identifying accounts by municipal customer. Attached is the Company's best effort to provide the list in Excel format.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 47

Responding Witness: Robert M. Conroy

- Q-47. For each customer class listed in response to 46(d) above,
- a. Provide the proposed percentage increase to that class.
 - b. Provide the percentage of the total revenue increase requested that will be allocated to that class.
- A-47.
- a. See Schedule M-2.1 at Tab 66 of the filing requirements.
 - b. See Schedule M-2.1 at Tab 66 of the filing requirements.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 48

Responding Witness: John K. Wolfe

- Q-48. For each Municipality served by KU, provide the quantity, size, type, and street address of each street light located within those municipalities. Also indicate:
- a. Which entity owns each street light.
 - b. The anticipated retirement/replacement date for each light fixture.
- A-48. See Attachment 1 which provides a summary of street light type, size and quantity for KU municipalities. Attachments 2 and 3 list street light information specific to LFUCG.
- a. KU is the owner for all street lights listed.
 - b. KU does not proactively retire or replace street light fixtures.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 49

Responding Witness: John K. Wolfe / William S. Seelye

- Q-49. For each type of light located in a municipality served by KU, provide the cost of obtaining the light and annual maintenance.
- A-49. The Company has not performed an analysis of the cost to acquire and maintain the Company's lighting equipment for each municipality served by KU.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 50

Responding Witness: John K. Wolfe

- Q-50. Provide the average time to repair a malfunctioning street light from the time of discovery, either by public reporting or KU representative, to the time the light is restored to operation.
- A-50. In 2016, when repairs could be completed by component replacement (bulb and/or photovoltaic control replacement), KU's average street light repair was 1.99 business days.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 51

Responding Witness: John K. Wolfe

Q-51. For each municipality served by KU, provide a schedule of maintenance and repair calls for each street light located in the municipality and the total cost for each call, including both materials and labor.

KU cannot segregate cost between municipalities, but can determine an average cost for all street light maintenance work completed in 2016. Average cost to maintain a street light in 2016 was \$194.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 52

Responding Witness: John K. Wolfe

- Q-52. Provide any internal policies or procedures with regards to street light maintenance, repair and replacement.
- A-52. KU has no internal policies or procedures regarding street light maintenance repair and replacement. KU follows the tariffs and regulations approved by the Kentucky Public Service Commission regarding guidelines for street light maintenance and repair.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 53

Responding Witness: John P. Malloy

Q-53. Provide any data or research in KU's possession on the benefits both in terms of energy efficiency and cost savings related to the use of LED street lighting.

A-53. LED lighting options are being offered to satisfy customer interest as well as requirements by the Energy Independence and Security Act to eliminate certain fixtures types that do not meet energy efficiency requirements. The energy efficiency requirements can be met using LED options with lighting similar to conventional lighting options no longer available. A life cycle analysis comparing the overall cost for the life of LEDs versus existing lights was not performed.

The energy efficiency benefits of replacing an existing lighting technology with the proposed LEDs are shown in the table below:

Type	Existing HPS (Watts)	Alternative LED (Watts)
Colonial	100	84
Open Bottom	100	57
Cobra Head	150	88
Cobra Head	250	125
Cobra Head	400	243

KENTUCKY UTILITIES COMPANY**CASE NO. 2016-00370****Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017****Question No. 54****Responding Witness: John K. Wolfe**

Q-54. Provide a schedule showing the total miles of electrical line both above and underground in each municipality served by KU.

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 55

Responding Witness: John K. Wolfe

- Q-55. For each municipality served by KU, provide a schedule showing
- a. The total number of utility poles located within the municipality.
 - b. The number of utility poles in the rights of way.
 - c. Provide the annual revenue received in 2015 and 2016 by KU as a result of fees charged for third party attachments to the poles.

- A-55.

- b. KU does not track the number of poles in the public rights-of-way.
- c. The total revenue received by KU as a result of fees charged for third party attachments to KU poles for the 2015 calendar year is \$1,340,855.41. See the response to LFUCG 1-85(a) for the 2016 amount.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 56

Responding Witness: Lonnie E. Bellar

Q-56. Regarding KU response to Commission DR 1-59, state for the years 2013-2015 and the base year the amount of the expense paid for by shareholders and the amount paid out of base rates.

A-56. R&D expenditures are charged above the line and included in base rates.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 57

Responding Witness: Counsel

Q-57. Provide a scheduling showing the dates, expense, and details associated with tickets or subscriptions (including those to Rupp Arena, PGA, and other venues) purchased in the years 2014, 2015, 2016 by:

- a. LKE
- b. KU
- c. LKS
- d. LG&E and KU Capitol LLC
- e. PPL Corp
- f. PPL Electric Utilities Corp
- g. PPL Services Corp
- h. PPL Capitol Funding, Inc.
- i. PPL Energy Funding Corp.
- j. PPL Energy Supply, LLC
- k. PPL Montour, LLC

A-57. a-k. See the Company's objection filed on January 20, 2017.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 58

Responding Witness: Counsel

Q-58. For each municipality served by KU, provide the date, details, and total expense of shareholder-funded community events held within the municipality for the years 2014, 2015, 2016 for the following companies:

- a. LKE
- b. KU
- c. LKS
- d. LG&E and KU Capitol LLC
- e. PPL Corp
- f. PPL Electric Utilities Corp
- g. PPL Services Corp
- h. PPL Capitol Funding, Inc.
- i. PPL Energy Funding Corp.
- j. PPL Energy Supply, LLC
- k. PPL Montour, LLC

A-58. a-k. See the Company's objection filed on January 20, 2017.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 49

Responding Witness: John K. Wolfe / William S. Seelye

- Q-49. For each type of light located in a municipality served by KU, provide the cost of obtaining the light and annual maintenance.
- A-49. The Company has not performed an analysis of the cost to acquire and maintain the Company's lighting equipment for each municipality served by KU.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 50

Responding Witness: John K. Wolfe

- Q-50. Provide the average time to repair a malfunctioning street light from the time of discovery, either by public reporting or KU representative, to the time the light is restored to operation.
- A-50. In 2016, when repairs could be completed by component replacement (bulb and/or photovoltaic control replacement), KU's average street light repair was 1.99 business days.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 51

Responding Witness: John K. Wolfe

Q-51. For each municipality served by KU, provide a schedule of maintenance and repair calls for each street light located in the municipality and the total cost for each call, including both materials and labor.

KU cannot segregate cost between municipalities, but can determine an average cost for all street light maintenance work completed in 2016. Average cost to maintain a street light in 2016 was \$194.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 52

Responding Witness: John K. Wolfe

- Q-52. Provide any internal policies or procedures with regards to street light maintenance, repair and replacement.
- A-52. KU has no internal policies or procedures regarding street light maintenance repair and replacement. KU follows the tariffs and regulations approved by the Kentucky Public Service Commission regarding guidelines for street light maintenance and repair.

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 53

Responding Witness: John P. Malloy

Q-53. Provide any data or research in KU's possession on the benefits both in terms of energy efficiency and cost savings related to the use of LED street lighting.

A-53. LED lighting options are being offered to satisfy customer interest as well as requirements by the Energy Independence and Security Act to eliminate certain fixtures types that do not meet energy efficiency requirements. The energy efficiency requirements can be met using LED options with lighting similar to conventional lighting options no longer available. A life cycle analysis comparing the overall cost for the life of LEDs versus existing lights was not performed.

The energy efficiency benefits of replacing an existing lighting technology with the proposed LEDs are shown in the table below:

Type	Existing HPS (Watts)	Alternative LED (Watts)
Colonial	100	84
Open Bottom	100	57
Cobra Head	150	88
Cobra Head	250	125
Cobra Head	400	243

KENTUCKY UTILITIES COMPANY**CASE NO. 2016-00370****Response to Kentucky League of Cities Initial Data Requests for Information

KENTUCKY UTILITIES COMPANY

CASE NO. 2016-00370

**Response to Kentucky League of Cities Initial Data Requests for Information
Dated January 11, 2017**

Question No. 55

Responding Witness: John K. Wolfe

- Q-55. For each municipality served by KU, provide a schedule showing
- a. The total number of utility poles located within the municipality.
 - b. The number of utility poles in the rights of way.
 - c. Provide the annual revenue received in 2015 and 2016 by KU as a result of fees charged for third party attachments to the poles.

- A-55.
