**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 1**

**Responding Witness: Robert M. Conroy**

- Q-1. Please provide on an on-going basis all of LG&E's responses to all other intervenors' data requests.
- A-1. Under 807 KAR 5:001 Section 8, LG&E requested, and the Commission approved, the use of electronic filing procedures in this proceeding. The U. S. Department of Defense and other Federal Executive Agencies consented to the use of those procedures. All documents are filed electronically and provided to all parties of record.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 2**

**Responding Witness: William S. Seelye**

- Q-2. Please provide a proof of revenues in a Microsoft Excel format with all formulas and links intact which shows the current and proposed revenue for the non-lighting tariffs.
- A-2. See Schedule M-2.1-E and M-2.1-G of Section 16(8)(m) of the Company's Filing Requirements.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 3**

**Responding Witness: William S. Seelye**

- Q-3. Please provide all workpapers in Microsoft Excel format with all formulas and links intact that support LG&E's cost of service and rate design testimony.
- A-3. See the response to PSC 1-53 and 1-54.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 4**

**Responding Witness: William S. Seelye**

- Q-4. LG&E's witness William Seelye's direct testimony states on page 2 that the "Company's class cost of service studies were prepared using methodologies that have been accepted by the Kentucky Public Service Commission ("Commission") in previous rate cases." Please provide copies of orders supporting this claim.
- A-4. See the Commission's Order in Case No. 90-158, dated December 21, 1990, at pages 58 and 63. Also, see the Commission's Orders in Case Nos. 2000-080, 2003-00433, 2008-00252, 2009-00549, 2012-0022, and 2014-00372. These orders are available on the Commission's web site.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 5**

**Responding Witness: William S. Seelye**

- Q-5. Regarding the proposed Time-of-Day Primary Service rate (TODP), please provide the following:
- a. All workpapers supporting the development of the proposed energy charge of \$.03824/kWh.
  - b. Identify all costs that are included in the proposed energy charge.
  - c. Provide all workpapers supporting the peak demand charge of \$6.86 per kVA.
  - d. Identify the cost that this charge of \$6.86 is expected to recover.
  - e. Provide workpapers supporting the development of the intermediate demand charge of \$5.03/kVA.
  - f. Identify the cost that the charge of \$5.03/kVA is expected to recover.
  - g. Provide workpapers supporting the development of the base demand charge of \$3.18/kVA.
  - h. Identify the cost that the charge of \$3.18/kVA is expected to recover.
- A-5.
- a. See the response to PSC 1-53.
  - b. Costs included in the proposed energy charge include fuel and variable operation and maintenance expenses for the test year.
  - c. See the response to part a.
  - d. The peak demand charge is designed to recover a portion of the fixed generation costs incurred by the Company to serve its customers related to peak generation.

The Company retained the same relationship between peak and intermediate charges as currently reflected in Rate TODP.

- e. See the response to part a.
- f. The intermediate demand charge is designed to recover the remaining portion of the fixed generation costs incurred by the Company to serve its customers. The Company retained the same relationship between peak and intermediate charges as currently reflected in Rate TODP.
- g. See the response to part a.
- h. The base demand charge is designed to recover 100% of transmission and distribution demand-related costs as determined by the Class Cost of Service Study.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 6**

**Responding Witness: William S. Seelye**

- Q-6. Please provide all studies and workpapers that support the selection of the intermediate and peak hours for the summer peak months and all other months shown for the Rating Periods in the Time-of-Day Primary Service rate.
- A-6. The selection of the intermediate and peak hours for the summer peak months and all other months for TODP were addressed in the testimony submitted by William S. Seelye in Case No. 2009-00549. Mr. Seelye's testimony filed in Case No. 2009-00549 is available on the Commission's website.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 7**

**Responding Witness: William S. Seelye**

- Q-7. For the Time-of-Day Primary Service rate, please explain why LG&E has increased the ratchet provision for the basic demand charge from 75% to 100%.
- A-7. The increase in the ratchet is discussed on pages 38-50 of the Direct Testimony of William S. Seelye filed in this proceeding.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 8**

**Responding Witness: William S. Seelye**

- Q-8. Please provide a copy of the cost of service studies in Microsoft Excel format with all formulas intact referenced on page 87 of William Seelye's direct testimony.
- A-8. See the response to PSC 1-53.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 9**

**Responding Witness: William S. Seelye**

- Q-9. For LG&E's proposed substitute gas sales service ("SGSS") rate, please provide the following:
- a. All workpapers supporting the development of the demand charge of \$6.27/Mcf of monthly billing demand.
  - b. Identify the costs that are included in the demand charge of \$6.27/Mcf of monthly billing demand.
  - c. Please provide workpapers supporting the development of the proposed distribution charge of \$.3767/Mcf.
  - d. Identify the cost that this charge of \$.3767 /Mcf is expected to recover.
- A-9.
- a.-d. See pages 67-77 of the Direct Testimony of William S. Seelye filed in this proceeding. The derivation of the charges is shown on Exhibit WSS-10. The costs that the charge of \$0.3767/Mcf are designed to recover are shown on Exhibit WSS-10.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 10**

**Responding Witness: William S. Seelye**

Q-10. The Time-of-Day Primary Service rate is available to customers served at primary voltages that range from 2,400 volts to 34,500 volts.

- a. Do any of the customers that are served at 2,400/4, 160 volts utilize the 34,500 volt system. Please explain your answer.
- b. Please provide an estimate of what portion of the primary distribution system is dedicated to 2,400/4,160 volt customers, 7,200/12,470 volt customers, and 34,500 volt customers.

A-10.

- a. LG&E does not track the service voltage and transformation for customers. LG&E has only one customer known to receive transformation from 34.5kV for service at 2,400/4,160V. There are no customers known to receive service at both 34,500V and 2,400/4,160V.
- b. The estimated percentage of customers served from each of the four primary distribution voltages are:
  - 2,400/4,160V                    9%
  - 7,200/12.47V                    89%
  - 13,800V                            2%
  - 34,500V                            <1%

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 11**

**Responding Witness: William S. Seelye**

Q-11. Please provide all workpapers showing the development of the production allocators under the proposed LOLP method.

A-11. See the response to PSC 2-109.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 12**

**Responding Witness: William S. Seelye**

- Q-12. Under the LOLP methodology, please explain how the production demand allocators for the base, winter peak and summer peak were developed. Provide all workpapers supporting the development of those allocators.
- A-12. In the LOLP version of the cost of service study, separate allocators were not developed for the base, winter peak, and summer peak. The same allocator, which is based on the hourly class demand-weighted LOLP, is used for the base, winter peak, and summer peak. See the response to PSC 2-109.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 13**

**Responding Witness: William S. Seelye**

- Q-13. Please explain how energy and purchased power costs were allocated to the various rate classes and provide workpapers showing the development of the energy allocator used to allocate fuel and purchased power expense to the various rate classes.
- A-13. Energy costs and purchased power energy costs were allocated to the rate classes on the basis of loss-adjusted class energy. The loss-adjusted energy allocator was developed using the forecasted kWh sales shown in Schedule M-2.2-E in Section 16(8)(m) of the Company's application grossed up by loss factors from the Company's most recent Loss Study.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 14**

**Responding Witness: William S. Seelye**

Q-14. Please provide the LOLP that was calculated for each hour of the test period.

A-14. See the response to PSC 2-109.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 15**

**Responding Witness: David S. Sinclair / William S. Seelye**

Q-15. Please provide the hourly load data for LG&E by hour for the previous three years.

A-15. See attached.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 16**

**Responding Witness: William S. Seelye**

- Q-16. Please explain how the LOLP methodology was applied to the production demands for the base period, winter peak and summer peak.
- A-16. See pages 90-93 of the Direct Testimony of William S. Seelye filed in this proceeding. Also, see the response to PSC 2-109.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 17**

**Responding Witness: William S. Seelye**

Q-17. If not provided above please provide all workpapers used to develop the LOLP production demand allocators for the base period, winter peak and summer peak.

A-17. See the response to PSC 2-109.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 18**

**Responding Witness: Daniel K. Arbough / Adrien M. McKenzie**

- Q-18. Please provide copies of all publications and credit reports referenced in the direct testimony and exhibits of Mr. Adrien McKenzie and Mr. Daniel Arbough.
- A-18. All of the publications referenced in Mr. Arbough's testimony were included with the application.

See the response for AG 1-282 for the publications and other sources used in the development and preparation of Mr. McKenzie's testimony and exhibits.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 19**

**Responding Witness: Daniel K. Arbough / Adrien M. McKenzie**

- Q-19. Please provide all of Mr. McKenzie's and Mr. Arbough's workpapers, schedules, and exhibits in an electronic spreadsheet with all formulas and links intact.
- A-19. See the response to KIUC 1-42 for Mr. Arbough's workpapers, schedules and exhibits.

The work papers and support documentation requested are provided in response to AG 1-282. See the response to PSC 1-54 for the Excel spreadsheets pertaining to Mr. McKenzie's Direct Testimony and Exhibits.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 20**

**Responding Witness: Daniel K. Arbough / Counsel**

- Q-20. Please provide copies of all credit reports published by Standard & Poor's ("S&P"), Moody's and Fitch Ratings for LG&E, its parent and all of its affiliates issued over the last two years.
- A-20. See the Company's objection filed on January 20, 2017. Without waiver of the objection, see the response to AG 1-266 for reports of LG&E and PPL Corp. The credit reports of LG&E and KU Energy, the parent of LG&E, are attached.

Summary:

LG&E and KU Energy LLC

Rationale

Business Risk: Excellent	Financial Risk: Significant
<ul style="list-style-type: none"> <li>• Operations under a generally constructive regulatory framework in Kentucky.</li> <li>• Large customer base with mainly residential and commercial customers.</li> <li>• Modest operating diversity through integrated electric and natural gas distribution operations.</li> <li>• Timely recovery of approved capital spending supports cash flow generation.</li> </ul>	<ul style="list-style-type: none"> <li>• Financial measures consistent with the "significant" financial risk profile category.</li> <li>• Large capital expenditure program leads to negative discretionary cash flow.</li> <li>• Balanced capital structure supports financial risk profile.</li> </ul>

**Outlook: Stable**

The outlook on LG&E and KU Energy LLC (LKE) reflects the outlook of its parent, PPL Corp. (PPL), because we view the company as a core subsidiary of PPL. The stable outlook on PPL Corp. (PPL) and its subsidiaries is based on the company's "excellent" business risk profile that we view at the upper end of the range and "significant" financial risk profile which is at the lower end of the range. Under our base-case scenario we expect that funds from operations (FFO) to debt will range from 14% to 15% while debt to EBITDA will remain elevated at about 5x.

**Downside scenario**

We could lower the ratings on PPL and its subsidiaries if core credit ratios weaken such that FFO to debt is below 13% and debt to EBITDA exceeds 5x on a consistent basis.

**Upside scenario**

Given our assessment of business risk and our base-case scenario for financial performance, we do not anticipate higher ratings during the outlook period. However, higher ratings would largely depend on PPL achieving FFO to debt of more than 18% on a consistent basis, while maintaining the current level of business risk.

**Standard & Poor's Base-Case Scenario**

Assumptions	Key Metrics			
<ul style="list-style-type: none"> <li>Gross margins grow in the mid-to-high-single digits, primarily benefiting from anticipated base rate increases and recovery of necessary environmental compliance costs.</li> <li>Capital spending of about \$1.1 billion in 2015 and \$900 million in 2016 primarily for environmental compliance needs.</li> <li>Capital structure remains balanced, in line with historical trends.</li> </ul>	2014A	2015E	2016E	
	FFO/debt (%)	20	16-17	16-17
	Debt/EBITDA (x)	5.1	4.5-5.0	4.5-5.0
	OCF/debt (%)	17.4	15-16	15-16

A—Actual. E—Estimate. FFO—Funds from operations. OCF—operating cash flow.

**Business Risk: Excellent**

Our assessment of LKE's business risk profile as "excellent" is based on the strengths of its subsidiaries Louisville Gas & Electric Co. (LG&E) and Kentucky Utilities Co. (KU), vertically integrated utilities that serve more than 1.2 million electric and natural gas customers primarily across Kentucky and with smaller service territories in Tennessee and Virginia. The geographic concentration in Kentucky is partially offset by the large customer base which consists mainly of residential and commercial customers, with no meaningful industrial exposure. LKE's subsidiaries benefit from operations under Kentucky's generally constructive regulatory framework that provides for timely recovery of approved capital expenditures.

LKE's generation fleet has significant coal exposure which should decline somewhat with the 640 megawatt (MW) natural gas combined-cycle generation facility that came on-line in mid-2015. Nevertheless, the company's significant reliance on coal fired generation introduces the potential for incremental costs as environmental compliance rules become more stringent. At the same time, the company's efficient operations and the low-cost coal fired generation contribute to overall competitive rates for customers.

### Financial Risk: Significant

We assess LKE's financial risk profile as being in the "significant" category using the medial volatility financial ratio benchmarks. Under our base-case scenario, capital spending for environmental compliance, maintenance, and new generation projects along with dividends will continue to lead to negative discretionary cash flow. We expect that the timely recovery of planned investments will enable LKE to maintain a balanced capital structure and financial metrics that are appropriate for the "significant" category. Under our base-case scenario, we project that LKE's FFO to debt will range from 16% to 17% over the next few years, while debt to EBITDA will remain elevated but below 5x.

### Liquidity: Adequate

Because we view LKE as a "core" subsidiary of PPL, we assess its liquidity on a consolidated basis with that of its parent.

We assess PPL's liquidity as "adequate" to cover its needs over the next 12 months. We expect that the company's liquidity sources will exceed its uses by 1.1x or more, the minimum threshold for an adequate designation under our criteria and that the company will also meet our other criteria for such a designation. We expect that PPL's liquidity will benefit from stable cash flow generation, ample availability under the revolving credit facilities, and manageable debt maturities over the next few years.

The PPL group has about \$4 billion in revolving credit facilities, with \$815 million available at the parent, \$300 million available at PPL Electric Utilities Corp., \$500 million available at Louisville Gas & Electric Co., \$598 million available at Kentucky Utilities Co., and about \$1.75 billion available at the U.K. operations. The revolving credit facilities mature from 2016 through 2019.

The 'A-2' short-term rating on PPL accounts for its long-term corporate credit rating and our assessment of the company's liquidity as "adequate".

Principal Liquidity Sources	Principal Liquidity Uses
<ul style="list-style-type: none"> <li>• Revolving credit facilities totaling about \$3.5 billion;</li> <li>• Cash on hand of about \$1.5 billion; and</li> <li>• Cash from operations of about \$2.5 billion to \$2.7 billion.</li> </ul>	<ul style="list-style-type: none"> <li>• Debt maturities of about \$2.2 billion, including outstanding commercial paper;</li> <li>• Maintenance capital spending averaging about \$2.3 billion; and</li> <li>• Dividends of about \$1 billion annually.</li> </ul>

## Other Credit Considerations

Our assessment of modifiers does not affect the anchor score.

## Group Influence

LKE is subject to our group rating methodology criteria. We assess LKE as a "core" subsidiary of parent PPL Corp because it is highly unlikely to be sold, is integral to the group's overall strategy, possesses significant management commitment, is a significant contributor to the group and is closely linked to the parent's reputation. Moreover, there are no meaningful insulation measures in place that protect LKE from its parent. As a result, the issuer credit rating on LKE is 'A-', in line with PPL's group credit profile of 'a-'

## Ratings Score Snapshot

## INVESTORS SERVICE

### Rating Action: Moody's upgrades PPL Corp. to Baa2 and LKE to Baa1; outlooks stable

---

Global Credit Research - 11 May 2015

#### Approximately \$ 4.8 billion of debt securities upgraded

New York, May 11, 2015 – Moody's Investors Service today upgraded the senior unsecured ratings of PPL Corporation (PPL) to Baa2 from Baa3 and its LG&E and KU Energy LLC (LKE) subsidiary to Baa1 from Baa2. At the same time, we have revised PPL Corp and LKE's outlook to stable from positive and revised its PPL Electric Utilities (PPLEU Baa1) subsidiary outlook to positive from stable. The rating actions on PPL and LKE are taken in anticipation that PPL's unregulated subsidiary PPL Energy Supply (Supply; Ba2 stable) will be spun off from PPL on June 1, 2015.

Post spinoff, PPL will have lower business risk because all of its material subsidiaries will be regulated utility companies, leading to an improved credit risk profile. The positive outlook on PPLEU's reflects the continued improvement in Pennsylvania's cost recovery mechanisms as well as the growing share of the transmission operations within PPLEU, which have highly favorable credit characteristics.

#### Upgrades:

..Issuer: LG&E and KU Energy LLC

.... Issuer Rating, Upgraded to Baa1 from Baa2

....Senior Unsecured Regular Bond/Debenture, Upgraded to Baa1 from Baa2

..Issuer: PPL Capital Funding, Inc.

....Outlook, Changed To Stable From Positive

..Issuer: PPL Capital Funding, Inc.

....Outlook, Changed To Stable From Positive

..Issuer: PPL Corporation

...Outlook, Changed To Stable From Positive

..Issuer: PPL Electric Utilities Corporation

...Outlook, Changed To Positive From Stable

#### RATINGS RATIONALE

PPL's Baa2 rating reflects the low business risk of its US and UK regulated utilities, offset by substantial debt leverage at the parent holding company. The regulated business is characterized by credit supportive regulatory environments and a currently large capital expenditure program across all major subsidiaries, resulting in substantial negative free cash flow and depressed key credit metrics. As a fully regulated business after the spinoff, PPL will have 70% of its earnings and cash flows coming from a networks or transmission and distribution (T&D) platform and 30% from integrated utilities business, all of which provide good visibility from a recovery, earnings and cash flow perspective.

PPL's consolidated CFO Pre-WC to debt has ranged in the 15% to 16% for the past three years and is expected to decline to the 13% to 14% range going forward after the spin. PPL's retained cash flow (RCF) to debt has been in the 11% to 12% range for the past three years and is expected to fall to about 9% to 10% going forward. These credit metrics position the company reasonably well relative to the range of 11% to 19% for CFO Pre-WC/Debt and 7% to 15% for RCF/debt for the Baa rating category as a lower risk concern under our Regulated Electric and Gas Utility methodology. We consider National Grid Plc (Baa1 stable) as the closest peer comparison to PPL.

#### Liquidity

PPL's liquidity is marginally adequate, but not a significant concern given its low business risk profile after the spin. Due to a high level of capital expenditure, we expect PPL to have more than \$1.5 billion of negative free cash flow after dividends each year, plus about \$1.8 billion of debt refinancing needs over the next eighteen months. While PPL has significant amount of cash on hand (\$1.3 billion at the end of the first quarter of 2015), we expect most of this cash to be used to fund upcoming negative free cash flow. After the spin, the primary source of liquidity will be mainly comprised of \$4 billion of bilateral and syndicated credit facilities issued by various entities throughout the PPL family. As of the end of first quarter 2015, there was about \$2.7 billion of availability remaining out of the \$4 billion total.

#### Outlook

PPL's stable outlook is supported by its strong regulated business operations in the US and UK and our expectation that management will maintain its capital structure with equity issuance as needed in the face of large capital expenditures and pressure to increase dividends.

#### What Could Change the Rating -- Up

The potential for a rating upgrade is low due to the large upcoming capital expenditure program and high level of holding company debt. However, upward pressure could result should its consolidated CFO Pre-WC/debt rise to the high teens and its RCF/debt rises to the mid-teens.

#### What Could Change the Rating - Down

The potential for a rating downgrade could occur should the company increase its debt level, especially at the holding company level. A downgrade could also result should its consolidated CFO-Pre WC/debt falls to the low-teens range or its RCF/debt falls to mid-single digits.

The principal methodology used in these ratings was Regulated Electric and Gas Utilities published in December 2013. Please see the Credit Policy page on [www.moody.com](http://www.moody.com) for a copy of this methodology.

#### Company Profile

PPL Corporation is a utility holding company headquartered in Allentown, PA. It has three areas of regulated operations: UK regulated, Kentucky regulated, and Pennsylvania regulated. UK regulated is a pure wires business in the United Kingdom with no retail exposure. Kentucky regulated operates under a traditional integrated utility model. Pennsylvania regulated is comprised of a transmission business, mostly regulated by FERC, and a

distribution operation regulated by the Pennsylvania Public Utility Commission. After the spin, PPL will control or own about 9,000 MW of generating capacity in the US and sell electricity and natural gas to about 10.3 million customers in the US and UK.

#### REGULATORY DISCLOSURES

For ratings issued on a program, series or category/class of debt, this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the rating action on the support provider and in relation to each particular rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on [www.moodys.com](http://www.moodys.com).

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this rating action, and whose ratings may change as a result of this rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated entity.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see [www.moodys.com](http://www.moodys.com) for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the ratings tab on the issuer/entity page on [www.moodys.com](http://www.moodys.com) for additional regulatory disclosures for each credit rating.

OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at [www.moody.com](http://www.moody.com) under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

For Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for "retail clients" to make any investment decision based on MOODY'S credit rating. If in doubt you should contact your financial or other professional adviser.

For Japan only: MOODY'S Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of MOODY'S Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000. MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

**Opinion****Rating Drivers**

- Supportive regulatory environment
- Large capital expenditure program
- High coal concentration
- Strong and stable financial metrics

**Corporate Profile**

LG&E and KU Energy LLC (LKE: Baa1 stable) is an intermediate holding company with two fully regulated operating subsidiaries -- Louisville Gas and Electric Company (LG&E: A3 stable) and Kentucky Utilities (KU: A3 stable). LKE, through these subsidiaries, owns combined generation capacity of 8.0 GW and provides transmission and distribution services to about 943,000 electricity customers and 321,000 natural gas customers predominantly in Kentucky. LKE is wholly owned by PPL Corporation (PPL: Baa2 stable), a diversified energy holding company headquartered in Allentown, PA.

**SUMMARY RATING RATIONALE**

LKE's Baa1 senior unsecured rating reflects the credit supportive regulatory environment in Kentucky and sound financial performance of its subsidiaries. The credit strength is partially offset by large capital expenditure programs at its subsidiaries and to a lesser extent the lack of fuel diversity. The rating considers the degree of structural subordination that exists at LKE relative to substantial amounts of debt at its operating utility subsidiaries, LG&E and KU. LKE's credit quality is also partially limited by the higher consolidated credit risk profile of PPL.

## DETAILED RATING CONSIDERATIONS

### SUPPORTIVE REGULATION PROVIDES FOR TIMELY COST RECOVERY

We consider the Kentucky Public Service Commission (KPSC) to be supportive of long term credit quality and note that it has approved various tracker mechanisms that provide for timely cost recovery outside of a rate case. LKE utilities' tracker mechanisms include a Fuel Adjustment Clause (FAC), an Environmental Cost Recovery Surcharge (ECR), a Gas Supply Clause (GSC), a Gas Line Tracker (GLT), and a Demand-Side Management Cost Recovery Mechanism (DSM). LKE utilities do not have a decoupling mechanism in place, which subjects their net revenue to weather volatilities. The lack of a decoupling mechanism is less of an issue for non-weather related demand fluctuations because the utilities have the DSM and expect to have modest load growth in 2016.

Due to the high level of planned capital expenditures, LG&E and KU filed a rate case in November of 2014, requesting increases in annual base electricity rates of approximately \$30 million at LG&E and approximately \$153 million at KU and an increase in annual base gas rates of approximately \$14 million at LG&E. The rate settlement agreement of LG&E and KU was approved by the KPSC on June 30, 2015. It provided an annual revenue increase for KU's electricity rates of \$125 million, as expected, confirming the regulatory credit supportiveness. Although it didn't specify an ROE with respect to the base rates, it authorized a 10% return on equity in Environmental Cost Recovery (ECR) and Gas Line Tracker (GLT). The settlement agreement also provides for deferred cost recovery of a portion of the costs related to pensions and KU's Green River retirement. The settlement agreement provided no revenue increase for LG&E's electric operations and a \$7 million increase in LG&E's gas operations.

### LARGE PLANNED CAPITAL EXPENDITURES

Capital expenditures for LKE utilities are expected to remain at elevated levels from 2015-2019. Total capital expenditures are expected to be \$5.5 billion, with \$2.2 billion related to environmental. The total estimated amount represents about 49% of their net book value of property, plant and equipment, which stood at about \$11.3 billion at the end of the third quarter 2015.

While this large capital expenditure amount raises the exposure to possible disallowance, this risk is meaningfully moderated by Kentucky's supportive regulatory environment especially regarding the environmental expenditures through the ECR. The ECR mechanism provides return on construction work during progress, reduces the potential for disallowance, and currently earns a ROE of 10%.

### HIGH COAL CONCENTRATION

LKE's current fuel mix is heavily biased towards coal. Of its 8.0 GW of generating capacity, 5.0 GW (63%) is coal-fired and it provides almost all (95%) of generation. The remaining 37% of the generating capacity is comprised mainly of gas- or oil- fired facilities.

The fuel concentration, though a credit negative, is acceptable for its rating levels because Kentucky is very supportive of the coal industry. Kentucky is one of the leading coal producing states and the coal industry is very important to the local economy. The support is evidenced by the passage of the ECR, which provides the company with highly favorable terms for its investments in coal-related environmental expenditures.

LKE's fuel concentration mix recently began to improve. In June 2015, the 640-MW gas-fired combined generating unit Cane Run 7 started commercial operations. Cane Run replaces some of the older coal plants totaling 234 MW at Tyrone (retired in 2013) and Green River (retired on September 30, 2015), as well as the 563 MW retirement of Cane Run coal plant in 2015. KU and LG&E had also planned to build a 700-MW gas-fired combined-cycle plant at KU's Green River generating site but the companies withdrew that proposal in August 2014 as a result of municipal contract terminations at KU.

### HEALTHY FINANCIAL PROFILE

LKE's financial metrics remain well positioned for its rating. As of September 30, 2015, the ratio of consolidated cash flow before changes in working capital (CFO pre W/C) to debt was 18% for the last twelve months and also averaged 20% for the past three years. Debt to capitalization was 51% for the last twelve months and averaged 50% for the past three years. LKE's financial metrics may decline somewhat over the next few years due to the expiration of bonus depreciation in 2014 and the large capital expenditure program. However, we expect LKE's financial metrics to remain supportive of its rating levels based on the company's targeted capital structure of 52% equity for its utility subsidiaries, which is calculated net of goodwill and fully loaded with rating agency adjustments. LKE's goodwill amounted to \$996 million at the end of September 2015 and in comparison total equity, including the goodwill, was \$4,437 million.

### Structural Considerations

As a holding company, the current rating at LKE factors in the degree of structural subordination that exists at the holding company relative to the debt outstanding at the operating companies. Of the approximate \$5.6 billion of consolidated long-term debt, \$1.125 billion or 20% is issued at the LKE level. Moreover, we observe that the Kentucky utility operations are run as a system from a plant ownership and liquidity perspective. As such, we tend to look at the consolidated LKE as a starting point in rating the parent and its subsidiaries, with the unsecured or Issuer Rating of the subsidiaries being notched up since they hold the operating assets. The consolidated credit profile of PPL also has had constraining effect on LKE's rating. In May 2015, LKE's ratings were upgraded when PPL announced the spin off its unregulated subsidiary, PPL Supply.

### Liquidity Profile

LKE has adequate liquidity. As of September 30, 2015, after accounting for all commercial paper and letter of credits issued, LG&E and KU had all of their \$500 million and \$400 million revolving facilities available. LKE also has a \$75 million syndicated credit facility that expires in October 2018. This credit facility was fully drawn at September 30, 2015. For the past twelve months ending September 2015, LKE had a negative free cash flow of \$553 million which is likely to be more sizeable in the coming years given its utilities' large capital expenditure programs. LKE's next debt maturity is in 2020.

### Rating Outlook

LKE's stable outlook is primarily driven by PPL's stable outlook since LKE's ratings had been constrained by the consolidated risk profile of PPL.

### What Could Change the Rating - Up

A ratings upgrade would require an upgrade at the utility operating subsidiaries as well as PPL Corp.

### What Could Change the Rating - Down

LKE's ratings could be downgraded should one or both of the utility subsidiaries experience an unfavorable rate case outcome or if unanticipated changes were made to the regulatory compact that currently provides for timely recovery of costs and this were to lead to the company's ratios of CFO pre-WC to debt and retained cash flow to debt dropping below 15% and 10%, respectively, for an extended period of time.

Summary:

LG&E and KU Energy LLC

Rationale

Business Risk Rationale	Financial Risk Rationale
<ul style="list-style-type: none"> <li>Regulated, vertically integrated electric and natural gas distribution operations in Kentucky.</li> <li>Generally constructive and stable regulatory framework.</li> <li>Limited scale, scope, and diversity is partially offset by a relatively large customer base, consisting mainly of residential and commercial customers.</li> </ul>	<ul style="list-style-type: none"> <li>Financial measures consistent with the significant financial risk profile category using medial volatility ratio benchmarks.</li> <li>Elevated capital expenditure program, primarily driven by environmental compliance spending, and dividends leads to negative discretionary cash flow.</li> <li>Balanced capital structure supports financial risk profile.</li> </ul>

**Outlook: Stable**

The stable rating outlook on LG&E and KU Energy LLC (LKE) reflects our rating outlook on its parent, PPL Corp. (PPL), because we view LKE as a core subsidiary of its parent. The stable outlook on PPL is based on the company's regulated utility strategy that leads to very low business risk and credit metrics on the lower end of the significant financial risk profile range. Under our base-case scenario we expect that funds from operations (FFO) to debt will range from 13%-14% while debt to EBITDA will remain elevated at over 5x.

**Downside scenario**

We could lower the ratings on PPL and its subsidiaries including LKE, if core credit ratios weaken such that FFO to debt is below 13% on a consistent basis over the next 12 to 18 months, while maintaining the current level of business risk.

**Upside scenario**

Given our assessment of business risk and our base-case scenario for financial performance, we do not anticipate higher ratings during the outlook period. However, higher ratings would largely depend on PPL achieving FFO to debt of more than 18% on a consistent basis over the next 12 to 18 months, while maintaining the current level of business risk.

**Our Base-Case Scenario****Assumptions**

- Gross margins grow in the mid-to-high-single digits, primarily benefiting from various recovery mechanisms, including rate cases.
- Capital spending ranging from \$900 million to \$1 billion annually, primarily for upgrading generation to comply with environmental regulations.
- Elevated capital spending and dividends lead to negative discretionary cash flow.
- Debt maturities are refinanced.

**Key Metrics**

	2015A	2016E	2017E
FFO/debt (%)	16.5	16-18	17-19
Debt/EBITDA (x)	4.9	~4.5	~4.5

A—Actual, E—Estimate. FFO—Funds from operations.

**Business Risk: Excellent**

Our assessment of LKE's business risk profile incorporates the business strengths of its wholly owned subsidiaries Louisville Gas & Electric Co. (LG&E) and Kentucky Utilities Co. (KU), which provide regulated, vertically integrated electric and natural gas distribution services primarily across Kentucky, with smaller service territories in Tennessee and Virginia. The geographic concentration in Kentucky is partially offset by the large customer base of about 1.2 million electric and natural gas customers. The customer base consists mostly of residential and commercial

customers, mitigating the company from fluctuations in demand and resulting in stable and predictable cash flows to the company.

Both of LKE's subsidiaries operate under the stable and credit-supportive regulatory framework in Kentucky, which offers constructive regulatory mechanisms such as fuel and gas supply adjustment clauses and a purchased power pass-through mechanism. These mechanisms protect margins and improve each utility's ability to earn close to their allowed returns.

LKE's subsidiaries have been upgrading their coal-fired generation plants to comply with environmental regulations. However, these significant capital costs can be recovered through an environmental cost recovery mechanism which limits regulatory lag and is supportive of the credit profile. At the same time, the company's efficient operations and the low-cost coal-fired generation contribute to overall competitive rates for customers.

### Financial Risk: Significant

Under our base-case scenario, we project LKE's FFO to debt will range from 16%-19% and debt to EBITDA will be around 4.5x. Over the next few years, we expect credit measures to benefit from use of regulatory mechanisms to recover its invested capital cost in a timely manner. Our assessment also incorporates recently approved rate base increases of \$125 million at KU and \$7 million at LG&E.

We assess LKE's financial risk profile by using the medial volatility financial ratio benchmarks, given the low risk of regulated electric T&D and gas distribution operations combined with higher risk regulated generation.

### Liquidity: Adequate

We assess LKE's liquidity as adequate to cover its needs over the next 12 months. We expect that the company's liquidity sources will exceed its uses by 1.1x or more, the minimum threshold for an adequate designation under our criteria and that the company will also meet our other requirements for such a designation.

We expect that LKE's liquidity to benefit from stable consolidated cash flow generation, \$975 million of consolidated revolving credit facilities, sufficient liquidity support provided by the parent to meet ongoing needs through an intercompany money pool, and manageable debt maturities over the next few years.

### Other Credit Considerations

Our assessment of modifiers does not affect the anchor score.

### Group Influence

LKE is subject to our group rating methodology criteria. We assess LKE as a core subsidiary of parent PPL Corp. because it is highly unlikely to be sold, is integral to the group's overall strategy, possesses significant management

commitment, is a significant contributor to the group, and is closely linked to the parent's reputation. Moreover, there are no meaningful insulation measures in place that protect LKE from its parent. As a result, the issuer credit rating on LKE is 'A-', in line with PPL's group credit profile of 'a-'

Investors' Focus In 2016

What Are The Hot Topics?

# Inside The Investor's Mind When It Comes To Regulated Utilities

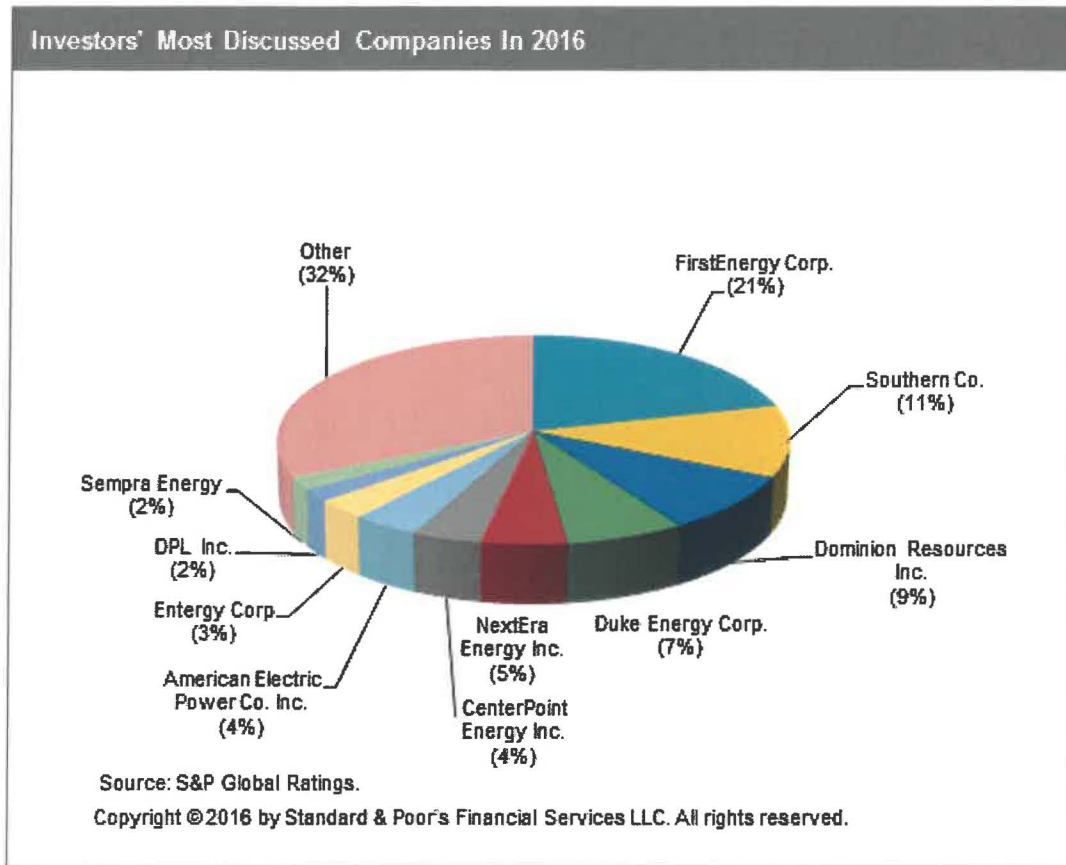

S&P Global Ratings credit analysts on the U.S. regulated utility team have reviewed their 2016 utility-focused investor interactions ahead of the 51st Edison Electric Institute financial conference in Phoenix. This forum is one of the largest financial events for the utility industry and brings together utility representatives, investors, and analysts. Based on our meetings and conference calls with investors in 2016, we have found that six main topics interested investors—mergers and acquisitions (M&A), market prices, alternative corporate structures, affiliate relationships, effective management of regulatory risk, and gas safety.

## Overview

- Investors in regulated utilities generally focused their discussions on utilities with a higher probability of a credit rating change.
- Generally, investors' credit quality questions can be grouped into six broad categories that include M&A, market prices, alternative corporate structures, affiliate relationships, effective management of regulatory risk, and gas safety.

## Investors' Focus In 2016

During the first 10 months of 2016, S&P Global Ratings credit analysts on the U.S. regulated utility team held hundreds of meetings and conference calls with investors who were interested in the credit quality of the utility industry.

As we expected, most of the discussions centered on the credit quality of companies whose credit ratings could potentially change, reflecting those companies that we had upgraded, downgraded, assigned a negative or positive outlook, or placed on CreditWatch during 2016.

## What Are The Hot Topics?

In 2016, most of the investor credit quality questions we fielded fell into the following six broad categories:

- Mergers and acquisitions (M&A);
- Market prices;
- Alternative corporate structures;
- Affiliate relationships;
- Effective management of regulatory risk; and
- Gas safety.

M&A activity was a key industry focus in 2016, with high investor interest in companies that had acquired assets, merged, or changed ownership composition. As a result, DTE Energy Co., Duke Energy Corp., Exelon Corp., Great Plains Energy Inc., ITC Holdings Corp., and Southern Co., all of which were involved in significant acquisitions or mergers, collectively accounted for about 25% of 2016 investor interest.

Utilities with competitive merchant businesses, such as FirstEnergy Corp., American Electric Power Co. Inc., and DPL Inc., also accounted for about 25% of total 2016 investor discussions. These companies' non-regulated businesses are competing in a challenging low commodity price environment that requires key strategic decision-making and seamless execution. Such decisions could include properly sizing the merchant business, selling assets, and closing plants.

Investor discussions regarding complex corporate structures, including master limited partnership and yield companies, accounted for a significant portion of investor conversations. These discussions primarily focused on Dominion Resources Inc. and NextEra Energy Inc., both of which incorporate these structures and comprised about 15% of investor interest in 2016.

Corporate structure was also an important topic regarding our view of affiliate relationships, which is reflected in our notching analysis and the credit quality of many subsidiaries. These relationships, which include parent/subsidiary relationships and insulating measures, were primarily discussed during our investor meetings that centered on Berkshire Hathaway Energy Co., CenterPoint Energy Inc., and Puget Energy Inc. Overall, these conversations comprised about 10% of our 2016 investor discussions.

Effective management of regulatory risk that many utilities have demonstrated, including Entergy Corp. and PNM Resources Inc., accounted for more than 5% of investor interest during 2016. We view overall utility management of regulatory risk as improving. This reflects utilities' implementation of many credit-supporting mechanisms such as decoupling, formula rates, forward-looking test years, and various credit-supportive riders.

Gas safety remains extremely important to credit quality, as reflected in more than 5% of our discussions with investors. This topic was primarily discussed during conversations that centered on Consolidated Edison Inc., PG&E Corp., and Sempra Energy, which are all managing the legal and regulatory fallout from a significant gas leak or explosion.

We expect that these six broad topics will continue to be of keen interest to investors and will remain important overall themes for the Edison Electric Institute 2016 financial conference.

## Bonus Depreciation Extension Has Credit Implications For U.S. Regulated Utilities

The U.S. Congress passed a \$1.15 trillion spending bill on Dec. 18, 2015, that funds the federal government's fiscal 2016 budget and includes five-year extensions of Investment Tax Credits for wind and solar power investments and bonus depreciation on new capital investments. Because of the bonus depreciation extension, U.S. investor-owned regulated utilities will be able to depreciate 50% of capital investments made in 2015, 2016, and 2017. Bonus depreciation then phases down to 40% in 2018 and 30% in 2019.

Standard & Poor's Ratings Services views the extensions as supporting utility credit quality over the next few years. However, how utilities manage potential regulatory risk could dim our otherwise favorable view of the bonus depreciation extensions.

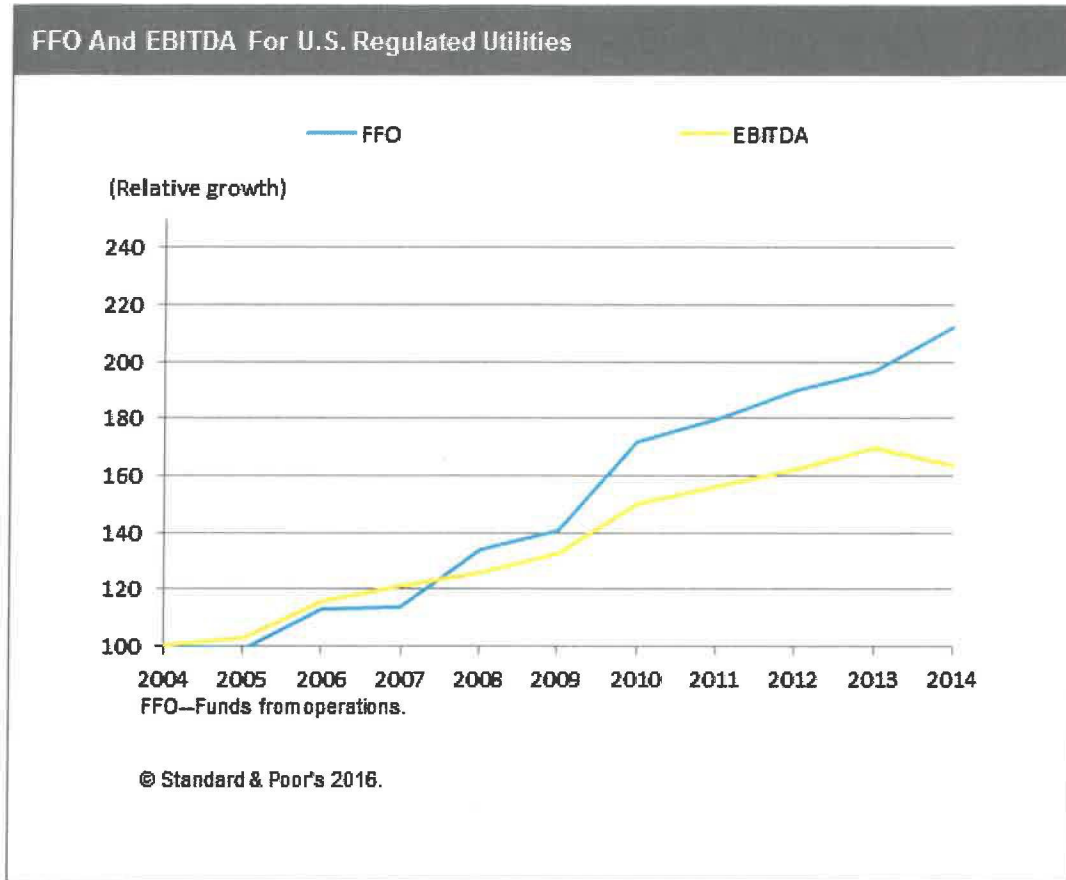

### Overview

- The U.S. Congress recently passed a trillion-dollar-plus spending bill to fund the 2016 fiscal year.
- The bill contains key tax provisions, including the extension of bonus depreciation that affects U.S. regulated utilities.
- The tax provisions should maintain utilities' financial measures, offsetting increasing capital spending.
- Managing regulatory risk remains essential to mitigating possible downward effects of the bonus depreciation extension.

### Extensions Will Help Maintain FFO Growth

From 2004 to 2007, EBITDA growth for investor-owned regulated utilities marginally outpaced funds from operations growth (FFO; see chart 1). However, from 2007 onward, FFO growth overtook EBITDA growth by an increasingly wide margin. Although we can attribute some of this change to historically low interest rates that have kept interest expenses down, an equally important reason is the effect of reduced taxes that stems primarily from bonus depreciation.

Chart 1

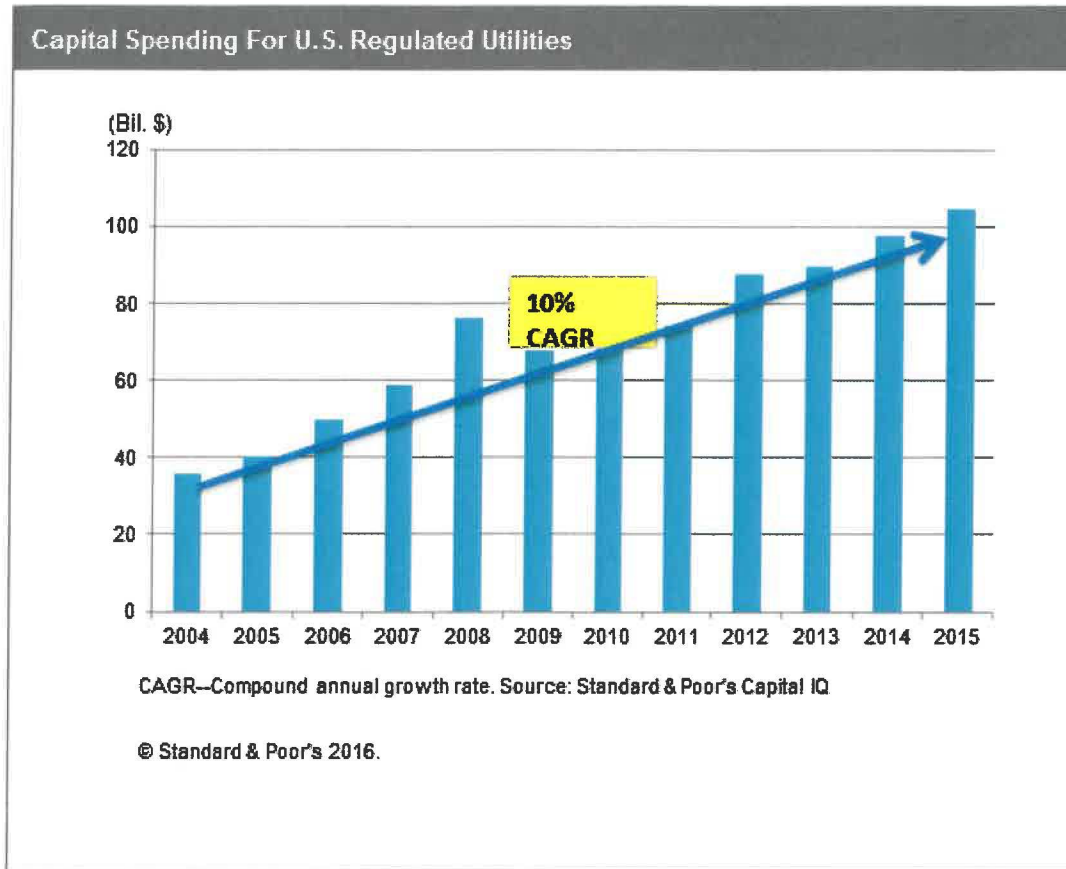

As such, we view the five-year extensions for bonus depreciation as creating opportunities for U.S. regulated utilities to maintain FFO-to-debt ratios.

### Increased Capital Spending Will Likely Continue

We expect that capital spending for U.S. regulated utilities will continue to grow, spurred by infrastructure replacement, new generation spending, and mergers and acquisitions (see chart 2).

Chart 2

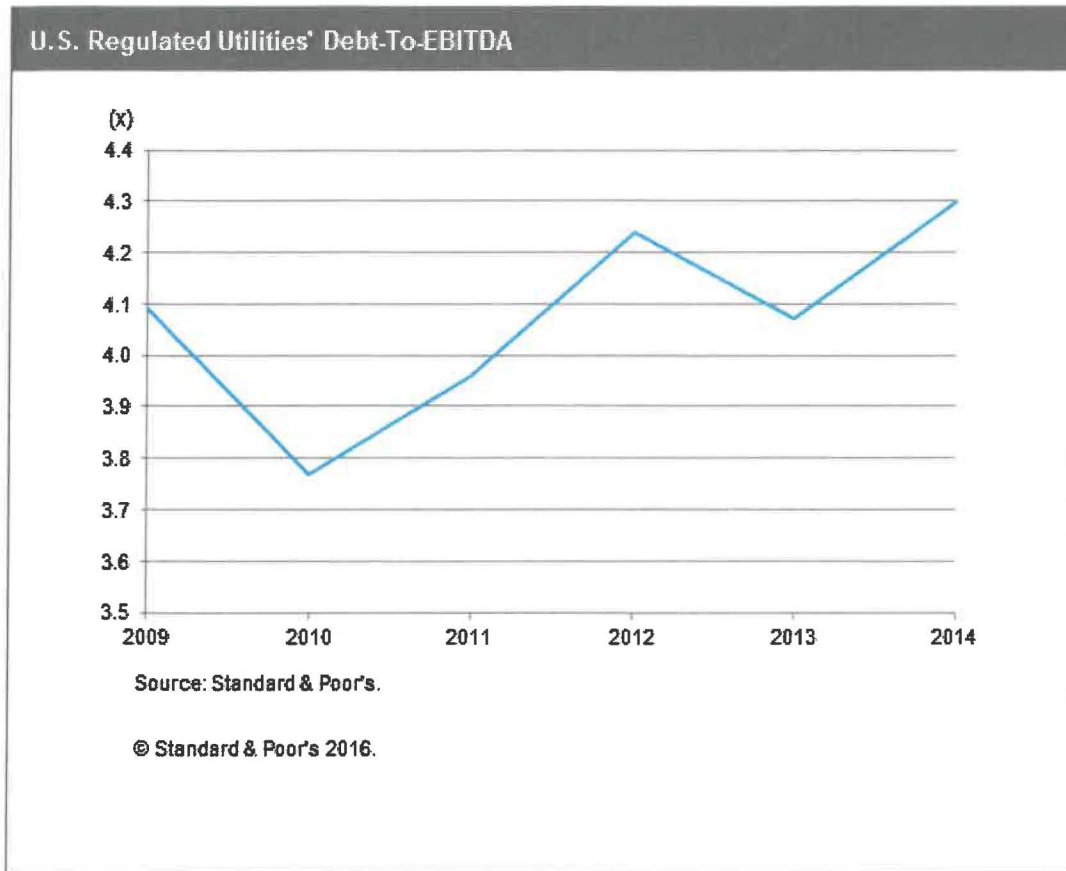

Using broad-based assumptions, including projected levels of capital spending and adjusted debt through 2017, we expect that the bonus depreciation extension will continue to provide the average utility with about 300 basis points of FFO-to-debt headroom in 2016 and 2017, supporting increasing capital spending.

### Bonus Depreciation Has Bolstered FFO In The Past...

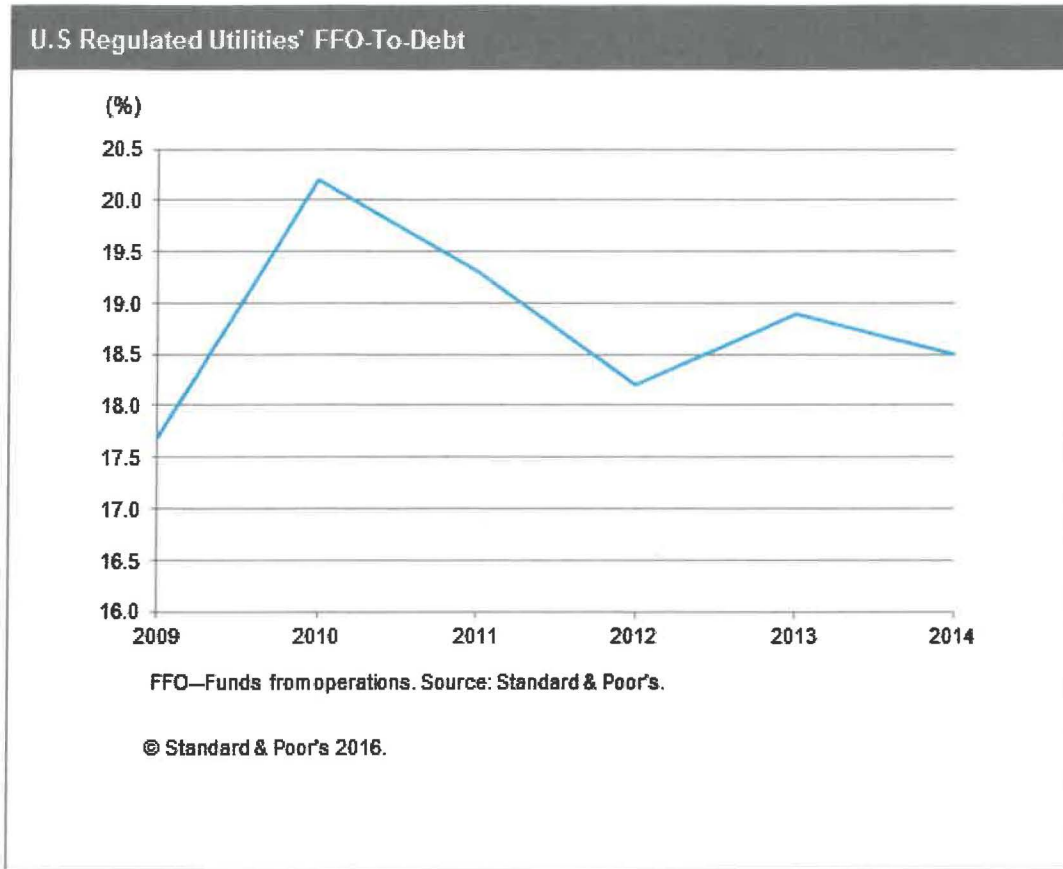

At Standard & Poor's, FFO-to-debt and debt-to-EBITDA are the core ratios that anchor our preliminary cash flow/leverage assessment of a regulated utility's financial risk profile. Lower FFO-to-debt and higher debt-to-EBITDA implies weaker credit quality. As such, we've observed a modest weakening in average debt-to-EBITDA for the U.S regulated utility industry, rising to about 4.3x in 2014 from just under 4.1x in 2009 (see chart 3). This is consistent with our expectations given the industry's growing capital spending that likely contributed to a weaker debt-to-EBITDA ratio.

Chart 3

However, the average historical FFO-to-debt for U.S. regulated utilities remains somewhat steady, and does not show a similar weakening (see chart 4). In fact, average FFO-to-debt was actually higher in 2014 (about 18.5%) than it was in 2009 (about 17.7%). This is again consistent with our expectations and demonstrates that the industry's historical FFO improvement from reduced taxes and interest rates more than offset rising capital spending. This analysis is consistent with our expectations that bonus depreciation extensions will allow utilities to maintain their FFO-to-debt measures despite growing capital spending requirements.

Chart 4

### ...But Regulatory Risk Could Weigh Down Future Benefits

Many regulatory jurisdictions account for bonus depreciation as a build-up of deferred tax liability balances that offset the rate base in future rate cases, potentially impeding future rate base growth. Other regulatory jurisdictions, such as Florida, view the ongoing effect of bonus depreciation as a form of "cost-free" permanent financing that benefits the utility. In these regulatory jurisdictions, bonus depreciation is included in the utility's regulated capital structure and effectively reduces the utilities' overall authorized rate of return. If utilities do not compensate by increasing capital spending or by reducing costs, future cash flow generation could weaken. Accordingly, a poorly managed capital spending program or less-than-effective management of regulatory risk could dim our otherwise favorable view of the bonus depreciation extension.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 27**

**Responding Witness: Daniel K. Arbough**

- Q-27. In an electronic spreadsheet with all formulas intact, please provide the five-year projected and five-year historical capital structure, capital expenditures and capital funding.
- A-27. See attachment being provided in Excel format. Three years of projections have been provided consistent with the filing requirements Section 16(7)(b), Section 16(7)(h)(2) and Section 16(8)(k).

The attachment is being provided in a separate file in Excel format.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 28**

**Responding Witness: Daniel K. Arbough**

Q-28. Please provide a detailed explanation of LG&E's dividend payment and debt financing plans through the test period.

A-28. See the responses to PSC 2-46 and AG 1-97.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 29**

**Responding Witness: Daniel K. Arbough**

Q-29. Do any of LG&E's outstanding long-term debt issues have call provisions? If the answer is "yes," please provide a list of the callable issues with the following:

- a. Outstanding balance
- b. Issuance date
- c. Maturity date
- d. Coupon payment percent
- e. Annual interest expense
- f. Call price (as a percent of par)

A-29. LG&E has one outstanding bond that can be called in the next five years. The one issue can be called beginning in June 1, 2017.

- a. \$60,000,000
- b. April 26, 2007
- c. June 1, 2033
- d. 4.60%
- e. \$2,760,000
- f. 100%

The earliest call date for an LG&E debt issue, subsequent to that listed above, is July 1, 2025.

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 30**

**Responding Witness: Daniel K. Arbough**

- Q-30. Has LG&E performed any debt refinancing feasibility studies on its outstanding debt issues? If the answer is "yes," please provide the following:
- a. A detailed description of the results from the study.
  - b. A detailed description of the conclusion(s) made by LG&E based on the results of the study.
  - c. All debt refinancing feasibility studies in an electronic spreadsheet with all formulas intact.
- A-30. LG&E has not performed any debt refinancing feasibility studies on its outstanding debt issues.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2016-00371**

**Response to First Request for Information of the U. S. Department of Defense  
and other Federal Executive Agencies  
Dated January 11, 2017**

**Question No. 31**

**Responding Witness: Robert M. Conroy**

Q-31. Please provide the following for every LG&E rate case since 2000:

- a. Requested return on equity and the date it was requested.
- b. Authorized return on equity and the date it was ordered.
- c. State whether the authorized return on equity was fully litigated or settled.
- d. Case or docket number.

A-31.

<b>Case No.</b>	<b>Date Filed</b>	<b>Requested ROE</b>	<b>Final Order Date</b>	<b>Authorized ROE</b>	<b>Authorized ROE - Settled or Litigated</b>
