## INTERNET DIGITAL TV MOBILE TELEPHONE What's your favorite way to **Duo?**

Busy schedules and growing technological demands make high-speed Internet an integral part of everyday life for families. With Duo County's fiber network, landline, Digital TV and wireless services, you have everything you need to organize, accomplish and entertain. And you can do it all simultaneously — no interruptions in service while streaming videos, gaming, doing homework or protecting your home by wireless security system. From online shopping to creating lists, sharing on social media and uploading photos/videos to cloud services, and even working from home when the occasion arises, there are so many ways to stay organized and connected so you can enjoy the finest moments in life.

### Find your speed 12 megabytes

Online news, e-mail, shopping, social media, TV and movie streaming, music downloads, online gaming

#### 50 megabytes

Streaming on multiple devices, video chat

#### 100 megabytes

Large file uploads, rich gaming and streaming

#### 1 gigabit

Up to 5 simultaneous HD signals into the home, improves Digital TV and phone services

Thomas E. Preston Duo County Chief Executive Officer

# **Learning.** That's my favorite way to Duo.

There are so many ways in which Duo County's telecommunications services can be beneficial in everyday life. But for me, learning is the most important — and the most fun.

There are so many learning tools at your fingertips. With a tablet, smartphone or computer and a high-speed Internet connection, you can watch a tutorial on just about any school subject, solve many home maintenance problems on your own, listen to podcasts and audio books, and even teach yourself a new hobby. The amount of information available is astounding.

At Duo County, we remain committed to learning how we can better prepare for the future by studying consumer behavior and having conversations about how we can improve. We ask questions like the one posed in this annual report: "What's your favorite way to Duo?" We listen. And we learn what services we can enhance, what isn't working and what new services we should introduce.

It was through these conversations and years of strategic planning that Duo County decided to build a fiber optic network for our service area. Today, with expanded local calling and the availability of Internet speeds that soar to 1 gigabit, the possibilities are endless for how you communicate at home and in your place of business. Duo County is proud to serve as the catalyst for more effective and efficient communication and operation.

So as you read this annual report, please consider the question we are posing to you. What is your favorite way to Duo? Is it watching your favorite shows online? Chatting with friends and family thousands of miles away? Growing your business with the use of reliable high-speed Internet? Keeping your home safe with a landline for emergency calls and a wireless security system? What would you like to see more of in the future?

Then, let us know. We hope you continue to enjoy what you love most about your Duo County services.
