In order for Marathon Petroleum LP (“Marathon”) to evaluate the economics of self or co-generation, Kentucky Power and Marathon will begin negotiations regarding the terms, conditions and pricing for backup and maintenance service within 30 days of a Commission Order approving this provision and will complete negotiations within the next 120 days. Prior to the start of the 120 day negotiation period, Marathon will provide Kentucky Power with specific information regarding the MW size of a potential self or co-generation facility and the type of generation technology being considered.

Kentucky Power reports that, consistent with the timeline established in the Settlement Agreement, it met with representatives from Marathon on February 15, 2018 to begin negotiations regarding the terms, conditions and pricing for backup and maintenance service. The negotiations are ongoing.
