Frankfort, KY 40602

RE: Letcher County Water and Sewer District, Case No. 2017-00211

Dear Ms. Pinson:

The Letcher County Water and Sewer District is in receipt of the PSC Staff Report for the above referenced case. We understand that the PSC Staff have calculated a rate increase of 54.89 percent. However, the Letcher County Water and Sewer District feels a rate increase of this magnitude would be too large of a burden for our customers. We would like to increase our rates by 25% as submitted in the initial application.

Please contact Mark Lewis if you need additional information. His email address is marklws21@gmail.com.

Sincerely,

A handwritten signature in cursive script that reads "Bernard Watts".

Bernard Watts, Chairman
Letcher County Water and Sewer District
