Case No. 2018-00181

Question No. 1

Witness: Michael E. Hornung

- Q-1. Refer to LG&E's Answer, Exhibit A. Provide the kW consumption and kWh consumption for Sanctuary Church for June, July, and August 2018.
- A-1. Please see the table below.

Meter Read Date	Consumption in kW	Consumption in kWh
6/11/2018	76.6	15,800
7/11/2018	84.7	17,800

Question No. 2

Witness: Michael E. Hornung

- Q-2. From the demand data provided in Exhibit A, it appears that Sanctuary Church's high demand occurs during the months of May through December and that the 12-month average ending May 2018 was 61.6 kW. Explain whether LG&E has engaged in any discussions with Sanctuary Church regarding potential demand saving measures that could be implemented to reduce Sanctuary Church's demand consumption. Provide a copy of all documentation related to such discussions.
- A-2. On January 4th, 2017, an employee of LG&E emailed a website link to Mr. Robert Pittman of Sanctuary Church. This link to the company website provided information regarding the commercial rebate options available to LG&E customers. A copy of the email is attached.

In addition, an LG&E energy efficiency contractor, Franklin Energy, spoke with Ms. Melody Lennon of Sanctuary Church on January 23, 2017, to discuss energy saving options.

A timeline of communications related to these issues with Sanctuary Church is also attached.

Robert,

In anticipation of our meeting please look over these options to potentially offset the costs of upgrading your facility...
Newer lighting can often drop your demand.

Account [REDACTED]

Dear Valued Customer,

We recently conducted a rate analysis on the account referenced above. Based on your energy usage, the Power Service (PS) rate would be the proper electric rate for this account. Accordingly, we have changed the rate from General Service (GS) to Power Service (PS). The PS rate will be in effect on the next billing.

We have enclosed copies of both the GS and PS rate schedules for your review. You can also access this information on our website at www.lge-ku.com

If you should have any questions regarding this matter, please contact me at [REDACTED] or through email at [REDACTED].

Sincerely,

Jonathan Cherry

LOUISVILLE GAS AND ELECTRIC COMPANY

**Response to the Commission Staff's First Request for Information
Dated August 27, 2018**

Case No. 2018-00181

Question No. 5

Witness: Michael E. Hornung

- Q-5. Provide a copy of Sojourn Church's bills for each month from January 2014 to April 2016.
- A-5. Due to privacy concerns with providing usage information for a customer who is not a party to this proceeding, LG&E is providing the requested information pursuant to a Petition for Confidential Protection to the Commission only.

LOUISVILLE GAS AND ELECTRIC COMPANY

**Response to the Commission Staff's First Request for Information
Dated August 27, 2018**

Case No. 2018-00181

Question No. 6

Witness: Robert M. Conroy/ Michael E. Hornung

- Q-6. For each month from May 2016 through August 2018, provide a comparison of the monthly bill for Sanctuary Church for services rendered under Rate PS versus the amount that would have been billed under Rate GS.
- A-6. LG&E's tariff sets forth the grandfathering limitations associated with each of its rate schedules. Pursuant to its General Service (GS) Rate Schedule at Original Sheet No. 10, service under that rate is limited to customers whose 12-month-average monthly maximum loads do not exceed 50 kW. Only existing customers with 12-month-average maximum monthly loads exceeding 50 kW who received service under P.S.C. Electric No. 6, Fourth Revision of Original Sheet No. 10 as of February 6, 2009, are permitted to continue to be served under the GS rate, at their option.¹ As such, Sanctuary Church, which didn't become a customer of LG&E until April 18, 2016, is not eligible to receive service under the grandfathering provisions contained in Rate Schedule GS.

Sanctuary Church was placed on Rate GS initially because the prior customer had been served under that rate. If a customer takes service under a rate schedule which contains a minimum or maximum demand parameter (as is the case with Rate Schedule GS), LG&E will review the customer's demand and usage data at least once annually to determine the rate schedule under which Customer will take service until the next review and rate determination. This review and rate determination shall be deemed conclusively to be the correct rate determination for the customer for all purposes and for all periods until LG&E conducts its next review and determination for the customer.² Pursuant to its tariff, LG&E conducted rate reviews of Sanctuary Church's account for several months and learned that its average monthly maximum load was well above the 50 kW threshold.

Based on the customer's demand load characteristics, Sanctuary Church is not eligible for the General Service rate. With a demand averaging over 50kW, only the Power Service rate is currently available for this customer. Under the Filed Rate Doctrine, LG&E is required to strictly follow its tariff.

¹ This provision was approved by the Commission in *In the Matter of: Application of Louisville Gas and Electric Company for an Adjustment of its Electric and Gas Base Rates*, Case No. 2008-00252, Order of February 5, 2009.

² See Original Sheet No. 101.1 of LG&E's tariff under the heading "Customer Rate Assignment".

Notwithstanding these limitations, please see the attached for the requested monetary and consumption details.
