

CASE NO. 2018-00208
WATER SERVICE CORPORATION OF KENTUCKY
CORRECTED RESPONSE TO COMMISSION STAFF'S SECOND INFORMATION REQUEST

4. Refer to the Application, Exhibit 2, Tariff Sheet No.39. Explain whether the Clinton municipal service area has any hydrants served by Water Service Kentucky. If so, provide the rate charged.

Response:

Yes, Clinton Service Area has public hydrants served by Water Service Corporation of Kentucky. The rate is the same as the Middlesboro Service area. The rate currently charged is \$5.40 per hydrant per month. WSKC proposes to increase that rate to \$8.10 per hydrant per month. The proposed tariff filed with the application should not have limited the “Municipally owned hydrants” to Middlesboro.
