Re: Atmos Energy Corporation:
Case No. 2017-00349

Dear Ms. Pinson:

Atmos Energy Corporation submits its responses to the Commission's Initial Data Request.

I certify that the electronic filing is a complete and accurate copy of the original documents to be filed in this matter, which will be filed within two days of this submission and that there are currently no parties in this proceeding that the Commission has excused from participation by electronic means.

If you have any questions about this matter, please contact me.

Very truly yours,

John N. Hughes

Attorneys for Atmos Energy Corporation

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

IN THE MATTER OF:

Application of Atmos Energy Corporation	)
for an Adjustment of Rates	) Case No. 2018-00281
and Tariff Modifications	)

PETITION FOR CONFIDENTIALITY
FOR RESPONSE TO ITEMS 1-35, 1-48, 1-53 and 1-71
OF THE COMMISSION'S
FIRST SET OF INFORMATION REQUEST

Atmos Energy Corporation (Atmos Energy), by counsel, petitions for an order granting confidential protection of certain responses to the initial data request dated September 13, 2018, pursuant to 807 KAR 5:001, Section 13 and KRS 61.878.

Item 35 of the initial request requires Atmos Energy to:

> Provide all wage, compensation, and employee benefits studies, analyses, or surveys conducted since Atmos's last rate case or that are currently utilized by Atmos.

Item 53 requests:

> a. Provide the utility's written compensation policy as approved by the Board of Directors.
> b. Provide a narrative description of the compensation policy, including the reasons for establishing the policy and the utility's objectives for the policy.
> c. Explain whether the compensation policy was developed with the assistance of an outside consultant. If the compensation policy was developed or reviewed by a consultant, provide any study or report provided by the consultant.
> d. Explain when the utility's compensation policy was last reviewed or given consideration by the Board of Directors.

Information contained in PSC 1-35 and 1-53, is the product of extensive internal Atmos analysis of employee benefits and compensation. The information requested includes detailed classification and evaluation system benchmarks and parameters to be utilized by Atmos Energy in connection with its wage and salary plan. This information contains proprietary work product that requires confidentiality in order to retain its commercial value. Additionally, public disclosure of this information would provide competitors with access to exclusive information regarding employee compensation and internal employment/compensation strategies. Such public disclosure could unfairly harm Atmos Energy's competitive position in the marketplace for utility management and skilled workers. Similar information was granted confidential protection in Farmer's RECC Case No. 2016-00365, Order of June 20, 2017 and Columbia Gas of Kentucky Case No. 2013-00169 in orders dated September 27, 2013 and October 29, 2013. This information was also treated as confidential by the Commission in Atmos Energy's prior case, 2017 -00349 dated May 17, 2018.

The Kentucky Open Records Act exempts from disclosure certain confidential or proprietary information. KRS 61.878(1)(c). To qualify for this exemption and, therefore, maintain the confidentiality of the information, a party must establish that disclosure of the information would permit an unfair commercial advantage to competitors of the party seeking confidentiality.

The information sought in the data requests is commercial information that if disclosed could cause substantial competitive harm to Atmos Energy.

These portions of Atmos Energy's Response contain proprietary information that would aid competitors of Atmos Energy and such proprietary information is subject to protection from disclosure pursuant to Kentucky law. This information is not publicly available. It would be difficult or impossible for someone to discover this information from other sources. If this information were available to competitors in this form, they could use it to the competitive detriment of Atmos Energy. This information is not generally disclosed to non-management employees of Atmos Energy and is protected internally by the Company as proprietary information. The disclosure of this proprietary information would result in significant or irreparable competitive harm to Atmos Energy by providing its competitors with non-reciprocal competitive advantage. No public purpose is served by the disclosure of such information.

Item 1-48 of the initial request requires Atmos Energy to:

Provide the following tax data for the most recent calendar year:

a. Income taxes:
(1) Federal operating income taxes deferred - accelerated tax depreciation.
(2) Federal operating income taxes deferred - other (explain).
(3) Federal income taxes - operating.
(4) Income credits resulting from prior deferrals of federal income taxes.
(5) Investment tax credit net.

(a) Investment credit realized.
(b) Investment credit amortized - Pre-Revenue Act of 1971.
(c) Investment credit amortized - Revenue Act of 1971.

(6) The information in Item 48a(1-4) for state income taxes.
(7) A reconciliation of book to federal taxable income as shown in Schedule 48a(1) and a calculation of the book federal income tax expense for the base period using book taxable income as the starting point
(8) A reconciliation of book to state taxable income as shown in Schedule 48a(2) and a calculation of the book state income tax expense for the base period using book taxable income as the starting point.

(9) A copy of federal and state income tax returns for the most recent tax year, including supporting schedules.

(10) A schedule of franchise fees paid to cities, towns, or municipalities during the test year, including the basis of these fees.

b. An analysis of Kentucky Other Operating Taxes as shown in Schedule 48b.

KRS 61.878(1)(k) exempts from public disclosure "all public records or information the disclosure of which is prohibited by federal law or regulation." Federal law codified in 26 U.S.C.A. 5 6103(a), prohibits state officials from publicly disclosing any federal income tax return or its contents, making the requested federal income tax return exempt.

> Returns and return information shall be confidential, and except as authorized by this title ... no officer or employee of any State ... shall disclose any return or return information obtained by him in any manner in connection with his service as such an officer or an employee or otherwise or under the provisions of this section....
>
> The term "return information" means a taxpayer's identity, the nature, source, or amount of his income, payments, receipts, deductions, exemptions, credits, assets, liabilities, net worth, tax liability, tax withheld, deficiencies, overassessments, or tax payments, whether the taxpayer's return was, is being, or will be examined or subject to other investigation or processing, or any other data, received by, recorded by, prepared by, furnished to, or collected by the Secretary with respect to a return or with respect to the determination of the existence, or possible existence, of liability (or the amount thereof) of any person under this title for any tax, penalty, interest, fine, forfeiture, or other imposition, or offense.

The effect of these two statutes is to preclude disclosure of the federal tax return.

Additionally, KRS 131.190(1) requires that all income tax information filed with the Kentucky Revenue Cabinet be treated in a confidential manner:

> **131.190 Information acquired in tax administration not to be divulged -- Exceptions.**
> (1) (a) No present or former commissioner or employee of the Department of Revenue, present or former member of a county board of assessment appeals, present or former property valuation administrator or employee, present or former secretary or employee of the Finance and Administration Cabinet, former secretary or employee of the Revenue Cabinet, or any other person, shall intentionally and without authorization inspect or divulge any information acquired by him of the affairs of any person, or information regarding the tax schedules, returns, or reports required to be filed with the department or other proper officer, or any information produced by a hearing or investigation, insofar as the information may have to do with the affairs of the person's business.

Thus, the requested state income tax return is also confidential and protected from disclosure by KRS 61.878(1)(1), which exempts from the Kentucky Open Records Act "...public records or information the disclosure of which is prohibited or restricted or otherwise made confidential by enactment of the General Assembly."

This information was determined to be confidential in Atmos Energy's prior rate application - Case No 2017-00349.

. Item 1-71 requests:

> To the extent not included in other responses, provide a copy of all exhibits and schedules that were prepared in Atmos's rate application in Excel spreadsheet format with all formulas intact and unprotected and with all columns and rows accessible.

Atmos requests that any exhibits, schedules or other information included in the previously identified responses be treated confidential as well.

Atmos Energy requests that the information be held confidentially indefinitely. The statutes cited above do not allow for disclosure at any time. Given the competitive nature of the natural gas business and the efforts of non-regulated competitors to encroach upon traditional markets, it is

imperative that regulated information remain protected and that the integrity of the tax filings remain secure.

For these reasons, Atmos Energy requests that the items identified in this petition be treated as confidential in their entirety. Should the Commission determine that some or all of the material is not to be given confidential protection, Atmos Energy requests a hearing prior to any public release of the information to preserve its rights to notice of the grounds for the denial and to preserve its right of appeal of the decision.

Certification:

I certify that is a true and accurate copy of the documents to be filed in paper medium; that the electronic filing was transmitted to the Commission on October 12, 2018; that an original and one copy of the filing will be delivered to the Commission within two days; and that no party has been excused from participation by electronic means.

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

IN THE MATTER OF:

Application of Atmos Energy Corporation	**)**
for an Adjustment of Rates	**) Case No. 2018-00281**
and Tariff Modifications	**)**

MOTION TO DEVIATE FROM REGULATION

Atmos Energy Company, (Atmos Energy) by counsel, moves the Public Service Commission ("Commission") to grant authorization pursuant to 807 KAR 5:001 § 22 to deviate from the requirement that it upload an electronic version of all papers filed in this case to the Commission's website using the Commission's E-Filing System. Atmos Energy additionally moves the Commission to grant approval pursuant to 807 KAR 5:001 § 22 to deviate from the requirement that it file with the Commission one copy in paper medium of all papers electronically filed with the Commission. This motion is based on the number, size and nature of the files associated with Mr. Watson's depreciation study attached to his pre-filed testimony more particularly Response to Item 1-64:

Attachment – Watson Alliance Study KY Direct Workpapers Final, 586 Files.
Attachment – Watson Alliance Study Midstates GO Workpapers Final, 142 Files.
Attachment – Watson Alliance Study Shared Services Unit Workpapers Final, 387 Files.

1. On August 21, 2018, Atmos Energy filed its notice of election of use of electronic filing procedures.

2. On that same date, the Commission acknowledged receipt of the notice of election of use of electronic which requires that documents submitted to the Commission in this proceeding must comply with the rules of procedure adopted by the Commission found in 807 KAR 5:001 and that any deviation from these rules must be submitted in writing to the Commission for consideration.

3. 807 KAR 5:001 § 8(3) provides: "All papers shall be filed with the commission by uploading an electronic version using the commission's E-Filing System. In

addition, the filing party shall file one (1) copy in paper medium with the commission as required by subsection (12)(a)2 of this section."

4. 807 KAR 5:001 § 8(12)(a)(2) provides: "A paper shall be consider timely filed with the commission if: “The paper, in paper medium, is filed at the commission's offices no later than the second business day following the successful electronic transmission."

5. Atmos Energy seeks a deviation from the Commission's Rules of Procedure (807 KAR 5:001) for approval to file the attachments referenced above in electronic format on a compact disk (CD), rather than as an upload into the E-Filing system. Each of the depreciation studies is broken out into dozens of folders and sub-folders containing raw and unformatted data files, graphs, statistics, analyses, fitting of the curves, and other supporting data. There are approximately 1,100 files in various program formats, folders and sub-folders, which cannot be assembled into a document capable of electronic submission into the E-File system. Viewing the data on CD allows for easier understanding of the documentation organization supporting each study.

6. Atmos Energy also requests authority to deviate from the Commission's Rules of Procedure by substituting a CD for the paper copy of those attachments, due to the voluminous nature – approximately several thousand pages – and large number of files, folders and sub folders.

7. Atmos has served the Commission and the Attorney General with a CD containing the attachments.

WHEREFORE, Atmos Energy requests deviations from the requirement that parties upload all filings to the Commission's E-Filing System and submit a copy of the filing in to the Commission in paper medium and allow service of a CD of the attachments to the Commission and Attorney General in lieu of the requirements of 807 KAR 5:001.

AMENDED AND RESTATED BYLAWS

OF

ATMOS ENERGY CORPORATION

(as of September 28, 2015)

----- *** -----

ARTICLE I

OFFICES

1.01 Registered Office. The registered office in the State of Texas shall be located in the City of Dallas, County of Dallas, State of Texas. The registered office in the Commonwealth of Virginia shall be located in the City of Richmond, Commonwealth of Virginia.

1.02 Other Offices. The corporation also may have offices at such other places both within and without the State of Texas or the Commonwealth of Virginia as the Board of Directors may from time to time determine or as the business of the corporation may require.

ARTICLE II

MEETINGS OF SHAREHOLDERS

2.01 Place of Meetings. All meetings of shareholders for the election of directors or for any other proper purposes shall be held at such place within or without the State of Texas or the Commonwealth of Virginia as the Board of Directors may from time to time

designate, as stated in the notice of such meeting or a duly executed waiver of notice thereof.

2.02 Annual Meeting. An annual meeting of shareholders shall be held at 11:00 a.m. on the second Wednesday of February of each year, unless such day is a legal holiday, in which case such meeting shall be held at the specified time on the next full business day thereafter which is not a legal holiday, or on such day and at such time as shall be determined by the Board of Directors. At such meeting the shareholders entitled to vote thereat shall elect a Board of Directors and may transact such other business as may properly be brought before the meeting.

2.03 Special Meetings. Special meetings of shareholders may be called by the Chairman of the Board of Directors, the Chief Executive Officer, the President, a majority of the Board of Directors, or as otherwise provided in the Articles of Incorporation, the Texas Business Organizations Code and the Texas For-Profit Corporation Law as defined therein, or the Virginia Stock Corporation Act. All references in these bylaws to the "Articles of Incorporation" are intended to refer to both the Articles of Incorporation, as amended, of the corporation filed with the Virginia State Corporation Commission and the Certificate of Formation of the corporation filed with the Texas Secretary of State.

2.04 Notice of Annual or of Special Meeting. Written or printed notice stating the place, day and hour of the meeting and, in case of a special meeting, the purpose or purposes for which the meeting is called, shall be delivered not less than ten (10) nor more than sixty (60) days before the date of the meeting. However, notice of a meeting of shareholders to act upon an amendment of the Articles of Incorporation, a plan of merger

or share exchange, a proposed sale of all or substantially all of the assets, or the dissolution of the corporation shall be given not less than twenty-five (25) nor more than sixty (60) days before the meeting date. Notice may be given either personally or by mail, by or at the direction of the Chairman of the Board, the Chief Executive Officer, President, Secretary, or the officer or person calling the meeting to each shareholder of record entitled to vote at such meeting. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail, addressed to the shareholder at his address as it appears on the stock transfer books of the corporation, with postage thereon prepaid.

2.05 Notice of Shareholder Proposals. At any annual meeting, only such business shall be conducted as shall have been brought before the annual meeting by or at the direction of the Board of Directors or by any shareholder who complies with the procedures set forth in this Section 2.05.

Except as otherwise provided by the Articles of Incorporation, the only business which shall be conducted at any annual meeting of the shareholders shall (i) have been specified in the written notice of the meeting (or any supplement thereto) given as provided in Section 2.04 of the Bylaws, (ii) be brought before the meeting at the direction of the Board of Directors or the chairman of the meeting or (iii) have been specified in a written notice (a "Shareholder Proposal Notice") given to the corporation, in accordance with all of the following requirements, by or on behalf of any shareholder who shall have been a shareholder of record on the record date for such meeting and who shall continue to be entitled to vote thereat. Each Shareholder Proposal Notice must be delivered or mailed by first class United States mail, postage prepaid, to and received by, the Secretary of the corporation, at the principal executive offices of the corporation, not less than sixty (60)

days nor more than eighty-five (85) days prior to the annual meeting; provided, however, that if less than seventy-five (75) days' notice or prior public disclosure of the date of the annual meeting is given or made to shareholders, notice by the shareholder to be timely must be received by the Secretary of the corporation not later than the close of business on the twenty-fifth (25^{th}) day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure was made. To be included in the corporation's proxy statement for mailing to all shareholders, a Shareholder Proposal Notice must be delivered or mailed by first class United States mail, postage prepaid, to and received by, the Secretary of the corporation, at the principal executive offices of the corporation, not less than one hundred twenty (120) days in advance of the date of the corporation's release of its proxy statement to shareholders in connection with the previous year's annual meeting of shareholders.

Each Shareholder Proposal Notice shall set forth: (i) a description of each item of business proposed to be brought before the meeting; (ii) the name and address of the shareholder proposing to bring such item of business before the meeting; (iii) the class and number of shares of stock held of record, owned beneficially and represented by proxy by such shareholder as of the record date for the meeting (if such date shall then have been made publicly available) and as of the date of such Shareholder Proposal Notice; and (iv) all other information which would be required to be included in a proxy statement filed with the Securities and Exchange Commission if, with respect to any such item of business, such shareholder were a participant in a solicitation subject to Section 14 of the Securities Exchange Act of 1934. No business shall be brought before any meeting of

shareholders of the corporation otherwise than as provided in this paragraph or the Articles of Incorporation.

2.06 Business at Special Meeting. The business transacted at any special meeting of shareholders shall be limited to the purposes stated in the notice thereof.

2.07 Quorum of Shareholders. Unless otherwise provided in the Articles of Incorporation, the holders of a majority of the shares entitled to vote, represented in person or by proxy, shall constitute a quorum at a meeting of shareholders. If, however, a quorum shall not be present or represented at any meeting of the shareholders, the shareholders present in person or represented by proxy shall have the power to adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum shall be present or represented. If the date of the adjourned meeting is at least one hundred twenty (120) days after the date of the original meeting, notice of such adjourned meeting must be provided to shareholders as of the new record date. At such adjourned meeting at which a quorum shall be present or represented, any business may be transacted which might have been transacted at the meeting as originally notified.

2.08 Act of Shareholders' Meeting. With respect to any matter, other than a matter for which the affirmative vote of the holders of a specified portion of the shares may be required by the Texas Business Organizations Code and the Texas For-Profit Corporation Law as defined therein, or the Virginia Stock Corporation Act, the affirmative vote of the holders of a majority of the shares entitled to vote on a matter and represented in person or by proxy at a meeting at which a quorum is present, shall be the act of the

shareholders, unless the vote of a greater number is required by law or the Articles of Incorporation.

2.09 Voting of Shares. Each outstanding share, regardless of class, shall be entitled to one vote on each matter submitted to a vote at a meeting of shareholders, except to the extent the voting rights of the shares of any class are limited or denied by the Articles of Incorporation or are otherwise provided by law. Cumulative voting in the election of directors or otherwise is expressly prohibited by the Articles of Incorporation. At each election for directors, every shareholder entitled to vote at such election shall have the right to vote, in person or by proxy, the number of shares owned by him for as many persons as there are directors to be elected and for whose election he has the right to vote.

2.10 Proxies. At any meeting of the shareholders, each shareholder having the right to vote shall be entitled to vote either in person or by proxy executed in writing by the shareholder or by his duly authorized attorney-in-fact. Any such proxy shall be delivered to the secretary of such meeting at or prior to the time designated by the chairman of the meeting or in the order of business for so delivering such proxies. No proxy shall be valid after eleven (11) months from the date of its execution unless otherwise provided in the proxy. Each proxy shall be revocable unless expressly provided therein to be irrevocable and unless otherwise made irrevocable by law. Unless required by statute or determined by the chairman of the meeting to be advisable, the vote on any question need not be by ballot. On a vote by ballot, each ballot shall be signed by the shareholder voting or by such shareholder's proxy, if there be such proxy.

2.11 Voting List. The officer or agent having charge of the stock transfer books for shares of the corporation shall make, at least ten (10) days before each meeting of shareholders, a complete list of the shareholders entitled to vote at such meeting or any adjournment thereof, arranged in alphabetical order, with the address of and number of shares held by each shareholder, which list, for a period of ten (10) days prior to such meeting, shall be kept on file at the registered office of the corporation and shall be subject to the inspection by any shareholder at any time during usual business hours. Such list shall also be produced and kept open at the time and place of the meeting and shall be subject to the inspection of any shareholder during the whole time of the meeting. The original stock transfer books shall be prima facie evidence as to who are the shareholders entitled to examine such list or transfer books or to vote at any such meeting of shareholders.

2.12 Conduct of Meetings. The Chairman of the Board shall preside over all meetings of the shareholders. If he or she is not present at a meeting, or if there is no person serving in that office, the Chief Executive Officer shall preside at such meeting. If the Chairman of the Board and the Chief Executive Officer are not present at a meeting, or if there are no persons serving in those offices, the President shall preside at such meeting, or, if he or she is not present, a chairman shall be elected at such meeting. The Secretary shall act as secretary of each meeting. If he or she is not present at a meeting, the chairman shall appoint a secretary for such meeting. The chairman of the meeting, at his or her discretion, may adjourn the meeting from time to time, whether or not there is a quorum, and may determine the date, time and place that a meeting so adjourned is to reconvene.

2.13 Order of Business. The order of business of each meeting of the shareholders of the corporation shall be determined by the chairman of the meeting. The Board of Directors may adopt such rules, regulations and procedures for the conduct of any meeting of shareholders that it deems appropriate. Except to the extent inconsistent with such rules, regulations and procedures adopted by the Board of Directors, the chairman of the meeting shall have the right and authority to prescribe such rules, regulations and procedures and to do all such acts and things as are necessary or desirable for the proper conduct of the meeting, including, without limitation, the establishment of an agenda or order of business, the dismissal of business not properly presented, the maintenance of order and safety, limitations on the time allotted to questions or comments on the affairs of the corporation, restrictions on entry to such meeting after the time prescribed for the commencement thereof and the opening and closing of the voting polls.

2.14 Action by Written Consent without a Meeting. Any action required or permitted by law, the Articles of Incorporation or these Bylaws to be taken at a meeting of the shareholders may be taken without a meeting if a consent in writing, setting forth the action so taken, is signed by all of the shareholders entitled to vote with respect to the subject matter thereof. Such consent shall have the same force and effect as a unanimous vote of shareholders.

ARTICLE III

BOARD OF DIRECTORS

3.01 Powers. The business and affairs of the corporation shall be managed under the direction of its Board of Directors which may exercise all such powers of the corporation and do all such lawful acts and things as are not by law, the Articles of Incorporation or these Bylaws directed or required to be exercised and done by the shareholders.

3.02 Number of Directors. The number of directors of the corporation constituting the Board of Directors shall be not less than three (3) or more than fifteen (15). The number of directors shall be determined in accordance with these Bylaws by resolution of the Board of Directors or of the shareholders, but no decrease shall have the effect of shortening the term of any incumbent director. Any change in the range for the size of the Board of Directors or a change from a variable-range to a fixed size Board or vice versa may be effected following shareholder approval.

3.03 Election and Term. All directors elected at each annual meeting of the shareholders shall be elected for a one-year term expiring at the next annual meeting of shareholders. Directors shall be elected by a majority vote of the outstanding shares entitled to vote in the election of directors and represented in person or by proxy at a meeting of shareholders at which a quorum is present. If the number of directors is changed, in no case will a decrease in the number of directors shorten the term of any incumbent director. A director shall hold office from the date of his election until the next annual meeting of the shareholders and until his successor shall be elected and shall

qualify, subject, however, to prior death, resignation, retirement, disqualification or removal from office of such director.

3.04 Nominations of Directors. Nominations for election to the Board of Directors of the corporation at a meeting of shareholders may be made by the Board of Directors, or by any shareholder of the corporation entitled to vote for the election of directors at such meeting. Such nominations, other than those made by the Board of Directors, shall be made by notice in writing delivered or mailed by first class United States mail, postage prepaid, to and received by the Secretary of the corporation, at the principal executive offices of the corporation, not less than sixty (60) days nor more than eighty-five (85) days prior to any meeting of shareholders called for the election of directors; provided, however, that if less than seventy-five (75) days' notice or prior public disclosure of the date of the annual meeting is given or made to shareholders, such nomination shall have been received by the Secretary of the corporation not later than the close of business on the twenty-fifth (25^{th}) day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure was made. Such notice shall set forth: (i) the name and address of the shareholder who intends to make the nomination and of the person or persons to be nominated; (ii) the class and number of shares of stock held of record, owned beneficially and represented by proxy by such shareholder as of the record date for the meeting (if such date shall then have been made publicly available) and of the date of such notice; (iii) a representation that the shareholder is a holder of record of stock of the corporation entitled to vote at such meeting and that the shareholder intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice; (iv) a description of all arrangements or understandings between such

shareholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by such shareholder; (v) such other information regarding each nominee proposed by such shareholder as would be required to be disclosed in solicitations for proxies for election of directors pursuant to the proxy rules of the Securities and Exchange Commission; and (vi) the consent of each nominee to serve as a director of the corporation if so elected. The chairman of the meeting may refuse to acknowledge the nomination of any person not made in compliance with the foregoing procedure.

3.05 Vacancies. Any vacancy occurring in the Board of Directors may be filled by the affirmative vote of a majority of the remaining directors although less than a quorum of the Board of Directors. The term of office of a director elected to fill a vacancy shall continue only until the next annual meeting of the shareholders. Any directorship to be filled by reason of an increase in the number of directors may be filled by election at an annual meeting or special meeting of shareholders called for that purpose or may be filled by the Board of Directors for a term of office continuing only until the next annual meeting of the shareholders; provided, however, that the Board of Directors may not fill more than two such directorships during the period between any two successive annual meetings of shareholders.

3.06 Resignation and Removal. Any director may resign at any time upon giving written notice to the Board of Directors, the Chairman of the Board, the Chief Executive Officer, President or Secretary of the corporation. No director shall be removed during his term of office except for cause and by the affirmative vote of the holders of seventy-five percent (75%) of the shares then entitled to vote at an election of directors. A director

may be removed by the shareholders only at a special meeting called for the purpose of removing him. The notice for such a meeting shall state that the purpose, or one of the purposes of the meeting, is the removal of the director.

3.07 Compensation of Directors. As specifically prescribed from time to time by resolution of the Board of Directors, the directors of the corporation may be paid their expenses of attendance at each meeting of the Board and may be paid a fixed sum for attendance at each meeting of the Board or a stated salary in their capacity as directors. This provision shall not preclude any director from serving the corporation in any other capacity and receiving compensation therefor. Members of special or standing committees may be allowed like compensation for attending committee meetings.

ARTICLE IV

MEETINGS OF THE BOARD

4.01 First Meeting. The first meeting of each newly elected Board of Directors shall be held without further notice immediately following and at the same place as the annual meeting of shareholders unless, by unanimous consent of the directors then elected and serving, such time or place shall be changed.

4.02 Regular Meeting. Regular meetings of the Board of Directors may be held with or without notice at such time and at such place either within or without the State of Texas or the Commonwealth of Virginia as from time to time shall be prescribed by resolution of the Board of Directors.

4.03 Special Meetings. Special meetings of the Board of Directors may be called by the Chairman of the Board of Directors, the Chief Executive Officer or the President,

and shall be called by the Chairman of the Board of Directors, the Chief Executive Officer, the President or the Secretary on the written request of two directors. Written notice of special meetings of the Board of Directors shall be given to each director at least twenty-four (24) hours before the time of the meeting.

4.04 Business at Regular or Special Meeting. Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the Board of Directors need be specified in the notice or waiver of notice of such meeting.

4.05 Quorum of Directors. A majority of the Board of Directors shall constitute a quorum for the transaction of business, unless a greater number is required by law or the Articles of Incorporation. If a quorum shall not be present at any meeting of the Board of Directors, the directors present thereat may adjourn the meeting from time to time, without notice other than announcement of the meeting, until a quorum shall be present.

4.06 Act of Directors' Meeting. The act of a majority of the directors present at a meeting at which a quorum is present shall be the act of the Board of Directors unless the act of a greater number is required by law, the Articles of Incorporation, or these Bylaws.

4.07 Action by Written Consent without a Meeting. Any action required or permitted by law, the Articles of Incorporation or these Bylaws to be taken at a meeting of the Board of Directors or any committee thereof may be taken without a meeting if a consent in writing, setting forth the action so taken, is signed by all members of the Board of Directors or committee, as the case may be. Such consent shall have the same force and effect as a unanimous vote at such meeting. Action by written consent is effective when the last director signs the consent unless the consent specifies a different effective

date, in which event the action taken is effective as of the date specified therein, provided the consent states the date of execution of each director.

ARTICLE V

COMMITTEES

The Board of Directors, by resolution adopted by a majority of the full Board of Directors, may designate from among its members an executive committee and one or more other committees, each of which shall be comprised of two or more members and, to the extent provided in such resolution or in the Articles of Incorporation or in these Bylaws, shall have and may exercise all of the authority of the Board of Directors, except that no such committee shall have the authority of the Board of Directors in reference to (i) amending the Articles of Incorporation, (ii) proposing to the shareholders a reduction in the stated capital of the corporation, (iii) approving a plan of merger, share exchange or conversion of the corporation, (iv) recommending to the shareholders the sale, lease, or exchange of all or substantially all of the property and assets of the corporation otherwise than in the usual and regular course of its business, (v) recommending to the shareholders a voluntary dissolution of the corporation or a revocation thereof, (vi) amending, altering, or repealing the Bylaws of the corporation or adopting new Bylaws for the corporation, filling vacancies in the Board of Directors or filling vacancies in or designating alternate members of any committee, (vii) filling any directorship to be filled by reason of an increase in the number of directors, (viii) electing or removing officers, members of the Board of Directors or members of any committee, (ix) fixing the compensation of any member of a committee, (x) altering or repealing any resolution of the Board of Directors which by its terms provides that it shall not be so amendable or repealable or (xi) approving, authorizing or

recommending to shareholders any other action that the Texas Business Organizations Code and the Texas For-Profit Corporation Law as defined therein or the Virginia Stock Corporation Act requires to be approved by shareholders. No committee shall have the power or authority to declare a dividend, authorize or approve any other type of distribution to shareholders, or to authorize the issuance, sale or contract for sale of shares of the corporation. The Board of Directors shall fill vacancies in the membership of each committee at a regular or special meeting of the Board. Each committee shall keep regular minutes of its proceedings and report the same to the Board when required. The designation of each such committee and the delegation thereto of authority shall not operate to relieve the Board of Directors, or any member thereof, of any responsibility imposed upon it or him by law.

ARTICLE VI

NOTICES

6.01 Methods of Giving Notice. Whenever any notice is required to be given to any shareholder or director under the provisions of any statute, the Articles of Incorporation or these Bylaws, it shall be given in writing and delivered personally or mailed to such shareholder or director at such address as appears on the books of the corporation, and such notice shall be deemed to be given at the time when the same shall be deposited in the United States mail with sufficient postage thereon prepaid. Notice to directors may also be given by telegram or electronic communication including facsimile transmission, and notice given by such means shall be deemed given at the time it is delivered to the telegraph office or transmitted by means of electronic communication.

6.02 Waiver of Notice. Whenever any notice is required to be given to any shareholder or director under the provisions of any law, the Articles of Incorporation or these Bylaws, a waiver thereof in writing signed by the person or persons entitled to said notice, whether before or after the time stated therein, shall be deemed equivalent to the giving of such notice.

6.03 Attendance as Waiver. Attendance of a director at or participation in a meeting shall constitute a waiver of notice such meeting, unless such director at the beginning of the meeting or promptly upon his arrival, objects to holding the meeting or to the transaction of any business at such meeting and who does not thereafter vote for or assent to action taken at the meeting. Attendance of a shareholder at a meeting of shareholders shall constitute a waiver of objection to lack of notice or defective notice of such meeting, unless such shareholder at the beginning of the meeting objects to holding the meeting or to transacting business at such meeting.

ARTICLE VII

ACTION WITHOUT A MEETING BY USE OF

CONFERENCE TELEPHONE

OR SIMILAR COMMUNICATIONS EQUIPMENT

Subject to the provisions requiring or permitting notice of meeting, unless otherwise restricted by the Articles of Incorporation or these Bylaws, shareholders, members of the Board of Directors or members of any committee designated by such Board may participate in and hold a meeting of such shareholders, Board or committee by means of conference telephone or similar communications equipment by means of which all persons

participating in the meeting can hear each other, and participation in such a meeting shall constitute presence in person at such meeting, except where a person participates in the meeting for the express purpose of objecting to the transaction of any business, and in the case of a director, who does not thereafter vote for or assent to action taken at the meeting.

ARTICLE VIII

OFFICERS

8.01 Executive Officers. The officers of the corporation shall consist of a Chief Executive Officer, a President, one or more Vice Presidents, a Secretary, and a Treasurer, and may also include the Chairman of the Board if so designated as an officer by the Board of Directors and such other officers as are provided for in Section 8.03 of this Article. Any Vice President of the corporation may, by the addition of a number or a word or words before or after the title "Vice President", be designated "Senior Executive", "Executive", "Senior", "Trust", "Second" or "Assistant" Vice President. Each officer of the corporation shall be elected or appointed by the Board of Directors as provided in Sections 8.02 and 8.03 of this Article. Any two or more offices may be held by the same person.

8.02 Election and Qualification. The Board of Directors, at its first meeting after each annual meeting of shareholders, shall choose a Chief Executive Officer, a President, one or more Vice Presidents, a Secretary, and a Treasurer, none of whom need be a member of the Board.

8.03 Other Officers and Agents. In addition to the officers enumerated in Section 8.01 of this Article VIII, the corporation may have one or more Assistant

Secretaries and Assistant Treasurers and such other subordinate officers, agents and employees as the Board of Directors may deem necessary, each of whom shall hold office for such period as the Board of Directors may from time to time determine. The Board of Directors may delegate to any officer described in Section 8.01, the power to appoint and to remove any such subordinate officers, agents or employees. Such subordinate officers, agents and employees shall not be entitled to participate in any employee benefit plans of the corporation or to receive any other types of benefits reserved for officers of the corporation.

8.04 Compensation. The compensation of all officers and agents of the corporation shall be fixed by resolution of the Board of Directors.

8.05 Term, Removal and Vacancies. Each officer of the corporation shall hold office until his successor is chosen and qualified or until his death, resignation or removal. Any officer may resign at any time upon giving written notice to the corporation which resignation will not affect the corporation's contract rights, if any, with such officer. Any officer or agent or member of a committee elected or appointed by the Board of Directors may be removed by the Board of Directors whenever in its judgment the best interest of the corporation will be served thereby, but such removal shall be without prejudice to such removed person's contract rights, if any, with the corporation. Election or appointment of an officer or agent or member of a committee shall not of itself create contract rights. Any vacancy occurring in any office of the corporation by death, resignation, removal or otherwise shall be filled by the Board of Directors.

8.06 Chairman of the Board. The Chairman of the Board shall preside at all meetings of the Board of Directors and the shareholders and shall have such other powers and duties as may from time to time be prescribed by the Board, upon written directions given to him or her pursuant to resolutions duly adopted by the Board.

8.07 Chief Executive Officer. The Chief Executive Officer shall have all of the powers and duties as usually pertain to such position, including the power to make and sign contracts and agreements in the name of and on behalf of the corporation and all other powers and duties granted by these Bylaws to the President of the corporation. If the offices of Chief Executive Officer and President are held by two different persons, the Chief Executive Officer shall have supervisory powers over the President, all other officers of the corporation, and the business activities of the corporation.

8.08 President. The President shall be the chief operating officer of the corporation and shall have such powers and duties as usually pertain to such office, except as the same may be modified by the Board of Directors. The President shall have general powers of oversight, supervision and management of the business and affairs of the corporation, shall see that all orders and resolutions of the Board of Directors are carried into effect, and shall have the power to make and sign contracts and agreements in the name and on behalf of the corporation and to do or perform all other acts incident to the office of President or that are authorized or required by law.

8.09 Vice President. Unless otherwise determined by the Board of Directors, one of the Vice Presidents shall, in the absence or disability of the President, perform the duties and exercise the powers of the President. The various Vice Presidents shall

perform such other duties and have such other powers as the Board of Directors shall prescribe.

8.10 Secretary. The Secretary shall attend all meetings of the Board of Directors and of the shareholders, record all the proceedings of the meetings of the Board of Directors and of the shareholders in a book to be kept for that purpose and shall perform like duties for the standing committees when required. He shall give, or cause to be given, notice of all meetings of the shareholders as may be prescribed by the Board of Directors, the Chairman of the Board, the Chief Executive Officer or the President. He shall keep in safe custody the seal of the corporation, and, when authorized by the Board of Directors, affix the same to any instrument requiring it, and, when so affixed, it shall be attested by his signature or by the signature of the Treasurer or an Assistant Secretary.

8.11 Assistant Secretaries. An Assistant Secretary, unless otherwise determined by the Board of Directors, shall, in the absence or disability of the Secretary, perform the duties and exercise the powers of the Secretary. They shall perform such other duties and have such other powers as the Board of Directors may from time to time prescribe.

8.12 Treasurer. The Treasurer shall have the custody of the corporate funds and securities, shall keep full and accurate accounts of receipts and disbursements in books belonging to the corporation and shall deposit all moneys and other valuable effects in the name and to the credit of the corporation in such depositories as may be designated by the Board of Directors. He shall disburse the funds of the corporation as may be ordered by the Board of Directors, taking proper vouchers for such disbursements, and shall render to the Chief Executive Officer, President, and the Board of Directors at its regular meetings,

or when the Board of Directors so requires, an account of all his transactions as Treasurer, and of the financial condition of the corporation.

8.13 Assistant Treasurers. An Assistant Treasurer, unless otherwise determined by the Board of Directors, shall, in the absence or disability of the Treasurer, perform the duties and exercise the powers of the Treasurer. They shall perform such other duties and have such other powers as the Board of Directors from time to time may prescribe.

8.14 Officer's Bond. If required by the Board of Directors, any officer so required shall give the corporation a bond (which shall be renewed as the Board may require) in such sum and with such surety or sureties as shall be satisfactory to the Board of Directors for the faithful performance of the duties of his office and for the restoration to the corporation, in case of his death, resignation, retirement or removal from office, of any and all books, papers, vouchers, money and other property of whatever kind in his possession or under his control belonging to the corporation.

ARTICLE IX

INDEMNIFICATION OF OFFICERS AND DIRECTORS

Subject to any limitation which may be contained in the Articles of Incorporation, the corporation shall indemnify, to the fullest extent permitted by law, any person who was, is, or is threatened to be made a named defendant or respondent in any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, arbitrative, or investigative, any appeal in such action, suit, or proceeding, and any inquiry or investigation that could lead to such an action, suit or proceeding, by reason of the fact that such person is or was a director or officer of the corporation, or, such person who,

while a director or officer of the corporation, is or was serving at the request of the corporation as a director, officer, partner, venturer, proprietor, trustee, employee, agent, or similar functionary of another corporation, partnership, joint venture, sole proprietorship, trust, employee benefit plan, or other enterprise, against judgments, penalties (including excise and similar taxes), fines, settlements, and reasonable expenses (including attorney's fees) actually incurred by such person in connection with such action, suit, or proceeding. In addition to the foregoing, the corporation shall, upon request of any such person described above and to the fullest extent permitted by law, pay or reimburse the reasonable expenses incurred by such person in any action, suit, or proceeding described above in advance of the final disposition of such action, suit, or proceeding.

ARTICLE X

CERTIFICATES FOR SHARES

10.01 Certificates Representing Shares. Unless the Articles of Incorporation or these Bylaws provides otherwise, the Board of Directors may provide by resolution the issue of some or all of the shares of any or all of its classes or series with or without certificates, provided that such resolution shall not apply to shares represented by a certificate until such certificate is surrendered to the corporation. Unless the Texas Business Organizations Code and the Texas For-profit Corporation Law as defined therein, or the Virginia Stock Corporation Act provides otherwise, there shall be no differences in the rights and obligations of shareholders based on whether or not their shares are represented by certificates. In the event that the Board of Directors authorizes shares with certificates, the corporation shall deliver certificates representing all shares to which shareholders are entitled. Such certificates shall be numbered and shall be entered

in the books of the corporation as they are issued, and shall be signed by the Chairman of the Board, the Chief Executive Officer, President or a Vice President, and the Secretary or an Assistant Secretary of the corporation, and may be sealed with the seal of the corporation or a facsimile thereof. The signatures of the Chairman of the Board, the Chief Executive Officer, President, or a Vice President, and the Secretary or an Assistant Secretary, upon a certificate may be facsimiles, if the certificate is countersigned by a transfer agent or registered by a registrar, which may also be facsimiles, either of which is other than the corporation itself or an employee of the corporation. In case any officer who has signed or whose facsimile signature has been placed upon such certificate shall have ceased to be such officer before such certificate is issued, it may be issued by the corporation with the same effect as if he were such officer at the date of its issuance. If the corporation is authorized to issue shares of more than one class, each certificate representing shares issued by the corporation (1) shall conspicuously set forth on the face or back of the certificate a full statement of (a) all of the designations, preferences, limitations and relative rights of the shares of each class authorized to be issued and, (b) if the corporation is authorized to issue shares of any preferred or special class in series, the variations in the relative rights and preferences of the shares of each such series to the extent the same have been fixed and determined and the authority of the Board of Directors to fix and determine the relative rights and preferences of subsequent series; or (2) shall conspicuously state on the face or back of the certificate that (a) such a statement is set forth in the Articles of Incorporation on file in the office of the Secretary of State of Texas and the State Corporation Commission of Virginia and (b) the corporation will furnish a copy of such statement to the record holder of the certificate without charge on written request to the corporation at its principal place of business or registered office. If

the corporation has by its Articles of Incorporation limited or denied the preemptive right of shareholders to acquire unissued or treasury shares of the corporation, each certificate representing shares issued by such corporation (1) shall conspicuously set forth on the face or back of the certificate a full statement of the limitation or denial of preemptive rights contained in the Articles of Incorporation, or (2) shall conspicuously state on the face or back of the certificate that (a) such a statement is set forth in the Articles of Incorporation on file in the office of the Secretary of State of Texas and the State Corporation Commission of Virginia and (b) the corporation will furnish a copy of such statement to the record holder of the certificate without charge on request to the corporation at its principal place of business or registered office. Each certificate representing shares shall state upon the face thereof that the corporation is organized under the laws of the State of Texas and the Commonwealth of Virginia, the name of the person to whom issued, the number and class of shares and the designation of the series, if any, which such certificate represents and the par value of each share represented by such certificate or a statement that the shares are without par value. No certificate shall be issued for any share until the consideration thereof, fixed as provided by law, has been fully paid.

10.02 Restrictions on Transfer of Shares. If any restriction on the transfer, or registration of the transfer, of shares shall be imposed or agreed to by the corporation, as permitted by law, the Articles of Incorporation or these Bylaws, each certificate representing shares so restricted (1) shall conspicuously set forth a full or summary statement of the restrictions on the face of the certificate, or (2) shall set forth such statement on the back of the certificate and conspicuously refer to the same on the face of the certificate, or (3) shall conspicuously state on the face or back of the certificate that

such restrictions exist pursuant to a specified document and (a) that the corporation will furnish to the record holder of the certificate without charge upon written request to the corporation at its principal place of business or registered office a copy of the specified document, or (b) if such document is one required or permitted to be and has been filed under applicable law, that such specified document is on file in the Office of the Secretary of State of Texas or the State Corporation Commission of Virginia and contains a full statement of such restrictions. Unless such document was on file in the Office of the Secretary of State of Texas or the State Corporation Commission of Virginia at the time of the request, as required by applicable law, if the corporation fails within a reasonable time to furnish the record holder of a certificate, upon such request and without charge, a copy of the specified document, the corporation shall not be permitted thereafter to enforce its rights under the restrictions imposed on the shares represented by such certificate. Any restriction on the transfer, or registration of transfer, of shares of the corporation, if reasonable and noted conspicuously on the certificates representing such shares, may be enforced against the holder of the restricted shares or any successor or transferee of the holder, including an executor, administrator, trustee, guardian, or other fiduciary entrusted with like responsibility for the person or estate of the holder. Unless noted conspicuously on the certificates representing such shares, a restriction, even though otherwise enforceable, is ineffective except against a person with actual knowledge of the restriction.

10.03 Transfer of Shares. Upon surrender to the corporation or the transfer agent of the corporation of a certificate for shares duly endorsed or accompanied by proper evidence of succession, assignment or authority to transfer, it shall be the duty of the

corporation to issue a new certificate to the person entitled thereto, cancel the old certificate, and record the transaction upon its books.

10.04 Lost, Stolen or Destroyed Certificates. The Board of Directors may direct a new certificate or certificates to be issued in place of any certificate or certificates theretofore issued by the corporation alleged to have been lost, stolen or destroyed upon the making of an affidavit of that fact by the person claiming the certificate of stock to be lost, stolen or destroyed. When authorizing such issue of a new certificate or certificates, the Board of Directors, in its discretion and as a condition precedent to the issuance thereof, may require the owner of such lost, stolen or destroyed certificate or certificates, or his legal representative, to advertise the same in such manner as the Board shall require and/or to give the corporation a bond in such sum as it may direct as indemnity against any claim that may be made against the corporation with respect to the certificate alleged to have been lost, stolen or destroyed.

10.05 Closing of Transfer Books and Fixing Record Date. For the purpose of determining shareholders entitled to notice of or to vote at any meeting of shareholders or any adjournment thereof, or entitled to receive payment of any dividend, or in order to make a determination of shareholders for any other proper purpose, the Board of Directors may provide that the stock transfer books shall be closed for a stated period but not to exceed, in any case, sixty (60) days. If the stock transfer books shall be closed for the purpose of determining shareholders entitled to notice of or to vote at a meeting of shareholders, such books shall be closed for at least ten (10) days immediately preceding such meeting or such longer period as may be required by law. In lieu of closing the stock transfer books, the Board of Directors may fix in advance a date as the record date for any

such determination of shareholders, such date in any case to be not more than sixty (60) days and, in case of a meeting of shareholders, not less than ten (10) days prior to the date on which the particular action requiring such determination of shareholders is to be taken, except with respect to a meeting of shareholders at which the shareholders will be asked to act on an amendment of the Articles of Incorporation, a plan of merger or share exchange, a proposed sale of all or substantially all of the assets or the dissolution of the corporation, not less than twenty-five (25) days prior to the date on which the particular action requiring such determination of shareholders is to be taken. If the stock transfer books are not closed and no record date is fixed for the determination of shareholders entitled to notice of or to vote at a meeting of shareholders, or shareholders entitled to receive payment of a dividend, the date prior to the day notice of the meeting is mailed or the date on which the resolution of the Board of Directors declaring such dividend is adopted, respectively, shall be the record date for such determination of shareholders. When a determination of shareholders entitled to vote at any meeting of shareholders has been made as provided in this Section 10.05, such determination shall apply to any adjournment thereof, except where the determination has been made through the closing of stock transfer books and the stated period of closing has expired. However, if a meeting is adjourned to a date which is at least one hundred twenty (120) days after the date fixed for the original meeting, the Board of Directors shall fix a new record date and provide notice of such to shareholders.

10.06 Registered Shareholders. The corporation shall be entitled to recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends, and to vote as such owner, and shall not be bound to recognize any equitable

or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof, except as otherwise provided by the laws of the State of Texas and the Commonwealth of Virginia.

ARTICLE XI

GENERAL PROVISIONS

11.01 Dividends. The Board of Directors from time to time may declare, and the corporation may pay, dividends on its outstanding shares in cash, in property, or in its own shares, except if (i) after giving effect to the distribution, the corporation would be insolvent, (ii) the distribution would exceed the surplus of the corporation, (iii) the payment thereof would cause the corporation's total assets to be less than the sum of its total liabilities based on the application of accounting practices and principles that are reasonable under the circumstances, (iv) the payment thereof would cause the corporation to be unable to pay its debts as they become due in the usual course of business, or (v) the declaration or payment thereof would be contrary to any restrictions contained in the Articles of Incorporation. The corporation may make a distribution of its own shares to shareholders, as allowed by applicable law. Such dividends may be declared at any regular or special meeting of the Board, and the declaration and payment thereof shall be subject to all applicable provisions of law, the Articles of Incorporation and these Bylaws.

11.02 Reserves. Before payment of any dividend, there may be set aside out of any funds of the corporation available for dividends such sum or sums as the directors from time to time, in their absolute discretion, deem proper as a reserve fund to meet contingencies, or for equalizing dividends, or for repairing or maintaining any property of

the corporation, or for such other purpose as the directors shall deem conducive to the interest of the corporation, and the directors may modify or abolish any such reserve in the manner in which it was created.

11.03 Reports. The Board of Directors shall, when requested by the holders of at least a majority of the outstanding shares of the corporation, present full and clear written reports, not more often than quarterly, of the amount of business and the financial condition of the corporation.

11.04 Checks. All checks or demands for money and notes of the corporation shall be signed by such officer or officers or such other person or persons as the Board of Directors from time to time may designate.

11.05 Fiscal Year. The fiscal year of the corporation shall be fixed by resolution of the Board of Directors.

11.06 Seal. The corporation may have a corporate seal and, if the Board of Directors adopts a corporate seal, the corporate seal shall have inscribed thereon the name of the corporation and may be used by causing it or a facsimile thereof to be impressed or affixed or in any other manner reproduced.

11.07 Opt-out of Certain Provisions of Virginia Law. The provisions of Sections 13.1-728.1 through 13.1-728.9, "Control Share Acquisitions", of the Virginia Stock Corporation Act shall not apply to the corporation or to acquisitions of common stock of the corporation.

ARTICLE XII

AMENDMENTS

The power to alter, amend, or repeal the Bylaws or adopt new Bylaws, subject to repeal or change by action of the shareholders, is vested in the Board of Directors. Thus, these Bylaws may be altered, amended, or repealed or new Bylaws may be adopted at any regular or special meeting of the Board of Directors by the affirmative vote of a majority of the Board of Directors, subject to repeal or change at any regular or special meeting of shareholders at which a quorum is present or represented by the affirmative vote of seventy-five percent (75%) of the shares entitled to vote at such meeting and present or represented thereat provided notice of the proposed repeal or change is contained in the notice of such meeting of shareholders. The Bylaws may contain any provision for the regulation and management of the affairs of the corporation not inconsistent with applicable law or the Articles of Incorporation.

REQUEST:

Provide the current organization chart, showing the relationship between Atmos and any affiliates, divisions, etc. Show the relative positions of all entities and affiliates with which Atmos routinely has business transactions.

RESPONSE:

Please see page 41 of Exhibit LKG-1 to the Direct Testimony of Laura Gillham for the most current version of the Atmos Energy Corporation Organization Chart.

Respondent: Laura Gillham

REQUEST:

Provide the capital structure at the end of the ten most recent calendar years and each of the other periods shown in Schedule 3a and Schedule 3b.

RESPONSE:

Please see Attachment 1 for the requested capital structure.

REQUEST:

Provide a list of all outstanding issues of preferred stock as of the end of the latest calendar year as shown in Schedule 5.

RESPONSE:

The Company has no outstanding issues of preferred stock.

Respondent: Joe Christian

REQUEST:

Provide the following:

a. A list of all issues of common stock in the primary market during the ten most recent calendar years as shown in Schedule 6a.

b. The common stock information on a quarterly and yearly basis for the five most recent calendar years available, and through the latest available quarter as shown in Schedule 6b.

c. The market prices for common stock for each month during the five most recent calendar years and for succeeding months through the date the application is filed. List all stock splits and stock dividends by date and type.

RESPONSE:

a) Please see Attachment 1.

b) Please see Attachment 2.

c) Atmos Energy has not experienced a stock split in the last 10 years. Also, Atmos Energy does not pay out stock dividends but only pays cash dividends. Please see Attachment 3 for the market price of common stock for each month during the five most recent calendar years and for succeeding months through the date the application is filed.

11/1/2016 - 11/30/2016 [1]	305,000	$ 72.15	$ 71.43	$ 36.74	1.33%	$ 21,778,514
6/1/2016 - 6/30/2016 [1]	390,010	$ 72.73	$ 72.00	$ 33.45	1.33%	$ 27,977,345
5/1/2016 - 5/31/2016 [1]	970,746	$ 73.79	$ 73.05	$ 33.45	1.33%	$ 70,596,970
2/18/2014	9,200,000	$ 44.00	$ 42.46	$ 31.62	3.61%	$ 390,205,000

Note: Common Stock and APIC are recorded in the GL at the Corporate level only (Co 10).

[1] These shares were issued under our at-the-market (ATM) equity distribution program under which we may issue and sell shares of our common stock, up to an aggregate offering price of $200 million. At June 30, 2017, substantially all shares had been issued under this ATM program. On November 14, 2017, we filed a prospectus supplement under our registration statement relating to a new ATM equity distribution program under which we may issue and sell shares of our common stock, up to an aggregate offering price of $500 million. This ATM program expires March 28, 2019. At June 30, 2018, no shares had been issued under this ATM program.

[2] The amounts for fiscal 2018 are as of June 30, 2018, our most recent SEC 10-Q filing.

Atmos Energy Corporation

REQUEST:

Provide Atmos's internal accounting manuals, directives, and policies and procedures.

RESPONSE:

Atmos Energy accounting practices follow Federal Energy Regulatory Commission (FERC) standards and Generally Accepted Accounting Principles (GAAP). Please see Attachment 1 for the Company's capitalization manual and Attachment 2 for the Company's account coding manual, which is intended to provide guidance in applying FERC standards and GAAP to labor and invoice coding within the Atmos Energy accounting system.

Introduction

The primary purpose of the capitalization manual is to provide guidance for coding direct capital project costs and to describe the methods used to capitalize overhead costs and division operating expenses that support the capital activities of the Company. Direct capital project costs represent costs easily associated with the acquisition, development, and/or construction of a capital project. Capital overhead costs represent indirect costs that cannot be directly associated with any particular asset or group of assets but relate to the support of capital activities. Operating expenses that support capital activities, including but not limited to vehicles, heavy equipment and insurance also have a portion of their costs capitalized. The below sections of this manual describe the capitalization of direct project costs, overhead costs and operating expenses in further detail.

As a publicly traded utility company, Atmos Energy's capitalization policy should conform to both GAAP and the FERC Uniform System of Accounts (USOA). Under GAAP, there is no specific authoritative guidance governing the accounting for project costs except as it relates to SOP 98-1 Costs of Computer Software Developed or Obtained for Internal Use (now ASC 350-40). However, consistent with other entities, Atmos Energy analogizes to the guidance in Statement of Financial Accounting Standards (SFAS) No. 67, *Accounting for Costs and Initial Rental Operations of Real Estate Projects* (now ASC 970). For regulatory purposes, the Company's regulators require the utilization of the USOA in all its jurisdictions. The USOA Gas Plant Instructions 3 and 4 provide the relevant guidance concerning project costs. The USOA is also applicable to Atmos Energy for GAAP purposes since, as a public utility company, Atmos Energy is subject to the requirements of SFAS 71, *Accounting for the Effects of Certain Types of Regulations* (now ASC 980).

It should be noted that some work activities can be considered either capital or expense depending on the nature of the activity performed. These occurrences have been identified in the capital activities section of this policy and the proper FERC account has been provided for activities that should be charged to O&M expense. A more comprehensive listing of O&M activities and related FERC accounts has been included in the Account Coding Matrix section of the Account Coding Manual.

The examples of the work activities described in this manual and how they are coded should be a reference tool for employees engaged in these activities. However, it should be noted that there may be instances where the employee must use their professional judgment to determine whether certain costs should be capitalized or expensed. If unsure, the employee should always consult their manager or the Manager of Plant Accounting before coding the invoice and associated labor. Below are some examples of activities that may be considered capital or expense depending on their nature:

- An invoice is received for the mowing of grass around the division general office. As the mowing does not relate to a capital activity it is charged to expense. Another example is for the mowing of grass related to the first clearing and grading of land for a right-of-way. As the mowing relates to the first clearing and grading of the right-of-way it is capitalized (Gas Plant Instruction 7A).

- A customer meter is painted for the first time upon installation. As the painting is associated with the installation of the meter the related charges are capitalized. If the meter is painted subsequent times then the related charges are expensed as they are not associated with the installation of the meter.

- Welds are tested on newly installed pipe. As the testing of welds is associated with new pipe installation the related charges are capitalized. If the testing of welds is associated with existing pipe, then the related charges are expensed.

Labor Activities

Cathodic Protection

Definition: installation and maintenance of cathodic protection equipment if not associated with a steel main or service line installation

Examples:

- installation or replacement of anodes
- installation or maintenance of rectifiers
- extended coverage of existing systems
- replace faulty insulators - Insulators are a substantial component of a cathodic protection system. They serve as a mechanical fitting on the system, similar to the purpose of a leak clamp on a main or service.
- annual CP reads

Labor Coding

All labor associated with the installation of new or replacement/removal of existing equipment:

Project – specific project or functional

Task – CAPITAL

All labor associated with annual CP reads and rectifier checks:

Account – 8740 (Mains and services expenses)
Pipeline Account – 8560 (Mains expenses)

Sub-account – 01000 (Default)

Invoice coding for material, etc.

Invoice coding for the installation of new or replacement equipment:

Project – specific project or functional

Task – CAPITAL

Expenditure type - type that best describes the charges being coded

Cost center - four digit cost center where work is being completed

Invoice coding for annual CP reads and rectifier checks:

Company – three digit company number where work is being completed

Cost center – four digit cost center where work is being completed

Account – 8740 (Mains and services expenses)
Pipeline Account – 8560 (Mains expenses)

Sub-account – sub-account that best describes the charges being coded

Service area – six digit service area where work is being completed

Labor Activities

Fabricate Large Meter Set (Loop)

Definition: fabrication of a large meter set

Examples:
- build meter loop
- pressure test
- prime & paint

Labor Coding

For meter set fabricated for a new installation:

Project – growth functional or specific project

Task – CAPITAL

For meter set fabricated for the replacement of an existing installation:

Project – non-growth functional or specific project

Task – CAPITAL

Invoice coding for material, etc.

Invoice coding for meter set fabricated for a new installation:

Project – growth functional or specific project

Task – CAPITAL

Expenditure type – type that best describes the charges being coded

Cost center – the cost center of the project

Invoice coding for meter set fabricated for the replacement of an existing installation:

Project – non-growth functional or specific project

Task – CAPITAL

Expenditure type – type that best describes the charges being coded

Cost center – the cost center of the project

Labor Activities

Install Leak Clamps

Definition: installation of leak clamps on existing pipe
Examples:

- installation of leak clamp
- check for leaks
- clean-up
- completion of required paperwork
- any other activities necessary for successful completion
- full encirclement/half sole
- Trident tape repairs

Notes:

- Partial encirclements are generally used on fitted risers and are a type of permanent leak repair.
- Full encirclements, normally leak clamps of various brands and types, are used on service lines or mains and are also permanent repairs.
- The technology called "Trident Tape" can be used as either a full encirclement or a partial encirclement permanent repair.

Labor Coding

Installation of leak clamp as a permanent repair (See Gas Plant Instruction 10B(1)). Does not include a temporary repair awaiting capital replacement in the near future.

Project – non-growth functional

Task – CAPITAL

- **Installation of leak clamp as a temporary repair awaiting replacement in the near future. "Near Future" is defined as less than one year. This may vary across the Enterprise depending upon the applicable regulatory body's directives.**

Account – 8870 (Maintenance of mains) for leak clamps on mains, 8920 (Maintenance of services) for leak clamps on services.

Sub-account – 01000 (Default)

Invoice coding for material, etc.

Installation of leak clamp as a permanent repair (See Gas Plant Instruction 10B(1)). Does not include a temporary repair awaiting capital replacement in the near future.

Project – non-growth functional
Task – CAPITAL
Expenditure type – type that best describes the charges being coded
Cost center – the cost center of the project

Installation of leak clamp awaiting replacement in the near future. "Near Future" is defined as less than one year. This may vary across the Enterprise depending upon the applicable regulatory body's directives.

Company – three digit company number
Cost center – four digit cost center where work is being completed
Account – 8870 (Maintenance of mains) for leak clamps on mains, 8920 (Maintenance of services) for leak clamps on services.
Sub-account – sub-account that best describes the charges being coded
Service area – six digit service area where work is being completed

Labor Activities

Install New Main

Definition: installation of distribution main

Examples:

- installation and fusion of pipe
- contractor inspection
- completion of required paperwork
- any other activities necessary to successfully install new main
- design of major subdivision
- securing of right-of-way
- first clearing and grading of right-of-way

Labor Coding

Project – specific project

Task – CAPITAL

Invoice coding for contract labor, material, etc.

Project - specific project

Task – CAPITAL

Expenditure type – type that best describes the charges being coded

Cost center – the cost center of the project

Labor Activities

Install New Meter Set/Loops/Barricades

Definition: installation of customer meter

Examples:
- install meter
- check pressure
- test for leaks
- install barricades to protect meter set from third party damage
- any other activities necessary to successfully complete installation

Labor Coding

Project – growth functional or specific project

Task – CAPITAL

Barricades:

Repairs to barricades should be charged to expense

Account – 8780 (Meter and house regulator expenses)

Subaccount – 01000 (Default)

Invoice coding for material, etc.

Invoice coding for contract labor, material, etc.:

Project – growth functional or specific project

Task – CAPITAL

Expenditure type – type that best describes the charges being coded

Cost center – the cost center of the project

Labor Activities

Install New Service Line

Definition: install new service line from the main to customer premises

Examples:

- installation and fusion of pipe
- securing of right-of-way
- completion of required paperwork
- any other activities necessary to successfully install new service

Labor Coding

Project – growth functional or specific project

Task – CAPITAL

Invoice coding for contract labor, material, easements, etc.

Project – growth functional or specific project

Task – CAPITAL

Expenditure type–type that best describes the charges being coded

Cost center – the cost center of the project

Labor Activities

Install/Replace Regulator/Border Stations

Definition: installation of new and replacement /retirement of existing stations

Examples:

- installation of new station
- replacement of existing station
- removal of existing station

Labor Coding

Project – specific project or non-growth functional

Task – CAPITAL

Invoice coding for contract labor, material, easements, etc.

Project – specific project or non-growth functional

Task – CAPITAL

Expenditure type - type that best describes the charges being coded

Cost center - four digit cost center where work is being completed

Labor Activities

Leak Repairs/Monitoring/Pinpointing

Definition: replace pipe due to leakage / pinpointing

Examples:

- Mechanical Couplings
- Any Constab - Constab is simply a brand name for a particular type of mechanical coupling. They are no different than a slip-fit, etc. All are a newer type of leak clamp.
- Water work due to leakage - These types of leaks involving water occurs on low pressure Cast Iron or Bare Steel main systems. The majority of these types of leaks cause the customers to lose gas service in their homes. All these types of leaks will require either leak clamps or pipe replacement to restore system reliability to the gas delivery system.
- Pinpointing/Monitoring that leads to a capital repair.
- Any Electro fusion

Notes:

- For most divisions replacement of 5-250 feet of pipe is completed under a functional. Replacement of over 250 feet of pipe is completed with a specific project.
- APT: All replacements, regardless of length, are completed on a specific project.
- Louisiana: 5-100 feet of pipe is completed under a functional. Replacement of over 100 feet of pipe is completed with a specific project.

Labor Coding

Project – Leak functional or specific project

Task – CAPITAL

A temporary repair awaiting replacement in the near future; replacement of less than 5 feet of pipe.

Account – 8870 (Maintenance of mains) for mains, 8920 (Maintenance of services) for services

Sub-account – 01000 (Default)

Invoice coding for material, etc.

Project – Leak functional or specific project
Task – CAPITAL
Expenditure type – type that best describes the charges being coded
Cost center – the cost center of the project

A temporary repair awaiting replacement in the near future; replacement of less than 5 feet of pipe.

Company – three digit company number
Cost center – four digit cost center where work is being completed
Account – 8870 (Maintenance of mains) for mains, 8920 (Maintenance of services) for services
Sub-account – sub-account that best describes the charges being coded
Service area – six digit service area where work is being completed

Labor Activities

Leak Survey

Definition: survey of mains and services

Examples:
- any activity involved in leak survey or recheck
- special surveys for system upgrades/uprates

Labor Coding

For leak surveys completed to pinpoint a leak for a capital repair charge to the leak functional.

Project – Leak functional

Task - CAPITAL

Leak surveys conducted for any other reason:

Account – 8740 (Mains and services expenses)

Sub-account – 01000 (Default)

Invoice coding for contract labor, material, etc.

For leak surveys completed in conjunction with a capital repair charge to the leak functional.

Project – Leak functional

Task - CAPITAL

Expenditure type – type that best describes the charges being coded

Cost center – the cost center of the project

Leak surveys conducted for any other reason:

Company – three digit company number

Cost center – four digit cost center where work is being completed

Account – 8740 (Mains and services expenses)

Sub-account – sub-account that best describes the charges being coded

Service area – six digit service area where work is being completed

Labor Activities

Line Locates

Definition: locating underground lines

Examples:
- any activity involved with the location of underground facilities

Labor Coding

All labor associated with locating lines in conjunction with activities described in other sections of this manual as capital work, for example: new construction (such as finding the main for installation of new services), leak repair involving > 5 feet of pipe, or relocation of mains or services.

Project – specific project or functional

Task – CAPITAL

All labor associated with locating lines due to a third party request or in conjunction with activities described in other sections of this manual as expense, for example: leak repair involving less than 5 feet of pipe, retirement of services less than half of the total distance, installation of temporary leak clamps, or repairs to barricades.

Account – 8740 (Mains and services expenses)

Sub-account – 01000 (Default)

Invoice coding for contract labor, material, etc.

All invoices associated with locating lines in conjunction with capital work performed by company personnel.

Project – specific project or functional

Task – CAPITAL

Expenditure type - type that best describes the charges being coded

Cost center - four digit cost center where work is being completed

All invoices associated with locating lines due to a third party request or expense work performed by company personnel.

Company – three digit company number

Cost center – four digit cost center where work is being completed

Account – 8740 (Mains and services expenses)

Sub-account – sub-account that best describes the charges being coded

Service area – six digit service area where work is being completed

Labor Activities

Replace/Retire Existing Main

Definition: replace and retire existing distribution main

Examples:
- installation/removal and fusion of pipe
- completion of required paperwork

Notes:
- A systematic split between CWIP and Cost of Removal will be applied to capital projects for Mains and Services only that include both additions and retirements. The systematic split will be applied to the charge types Labor, Contractor Labor, and Contractor Services from the AP and Payroll sources.
- For most divisions replacement of 5-250 feet of pipe is completed under a functional. Replacement of over 250 feet of pipe is completed with a specific project.
- APT: All replacements, regardless of length, are completed on a specific project.
- Louisiana: 5-100 feet of pipe is completed under a functional. Replacement of over 100 feet of pipe is completed with a specific project.

Labor Coding

Project – functional or specific project number

Task – CAPITAL

All labor associated with the replacement/retirement of main under 5' in length:

Expense account – 8870 (Maintenance of Mains)

Sub-account – 01000 (Default)

Invoice coding for contract labor, material, easements, etc.

Project – functional or specific project

Task – CAPITAL

Expenditure type–type that best describes the charges being coded

Cost center – the cost center of the project

All invoices associated with the replacement/retirement of main under 5' in length:

Company – three digit company number

Cost center – four digit cost center where work is being completed

Account – 8870 (Maintenance of Mains)

Sub-account – sub-account that best describes the charges being coded

Service area – six digit service area where work is being completed

Labor Activities

Replace/Retire Meter Set (Loop)

Definition: replacement and retirement of entire existing meter set (everything to the stop)

Examples:

- removal and replacement of entire set including the meter loop
- check pressure
- test for leaks
- completion of required paperwork
- relight pilot light
- any other activities necessary to successfully complete installation

Labor Coding

For the replacement of the existing meter set:

Project – non-growth functional or specific project

Task – CAPITAL

For the retirement of the existing meter set:

Project – non-growth functional or specific project

Task – CAPITAL

Invoice coding for material, etc.

Project – non-growth functional or specific project

Task – CAPITAL

Expenditure type – type that best describes the charges being coded

Cost center – the cost center of the project

Labor Activities

Replace/Retire Service Line

Definition: replace and retire existing service line

Examples:
- installation/removal and fusion of pipe
- completion of required paperwork
- any other activities necessary to successfully replace/retire service

Notes:
- A systematic split between CWIP and Cost of Removal will be applied to capital projects for Mains and Services only that include both additions and retirements. The systematic split will be applied to the charge types Labor, Contractor Labor, and Contractor Services from the AP and Payroll sources.

Labor Coding

- **All labor associated with the replacement/retirement of existing service line if more than half of the total distance (including riser length) or greater than 5ft. On alley sets, replacement of the riser would typically cover greater than half the service; thus it would be capitalized.**

  Project – non-growth functional
  Task - CAPITAL

- **All labor associated with the replacement/retirement of less than 5ft unless more than half the distance of existing service line is replaced (including riser length).**

  Account - 8920 (Maintenance of Services)
  Sub-account – 01000 (Default)

Invoice coding for contract labor, material, easements, etc.

All invoices associated with the replacement/retirement of existing service line if more than half of the total distance (including riser length) or greater than 5ft.

Project – non-growth functional

Task - CAPITAL

Expenditure type–type that best describes the charges being coded

Cost center – the cost center of the project

All invoices associated with the replacement/retirement of less than 5ft unless more than half the distance of existing service line is replaced (including riser length).

Company – three digit company number

Cost center – four digit cost center where work is being completed

Account – 8920 (Maintenance of Services)

Sub-account – sub-account that best describes the charges being coded

Service area – six digit service area where work is being completed

Labor Activities

Sample/Periodic Meters (Testing)

Definition: the testing or removal/replacement of meters for testing

Examples:

- testing of periodic meters
- removal/replacement of meter for testing (if meter loop is replaced, refer to instructions for replace/retire meter set)
- completion of required paperwork
- any other activities necessary for successful completion

Labor Coding

For the testing and/or removal of meters for testing when the meter is retired:

Project: non-growth functional

Task: CAPITAL

Note: If the entire meter loop is replaced and retired at the same time as the meter removal for testing, time should be charged as provided in the preceding guideline, Replace/Retire Meter Set. Also, if a meter can be returned to service, the testing should be expensed.

Invoice coding for material, etc.

Invoice coding for material, etc. when the meter is retired:

Project – non-growth functional

Task – CAPITAL

Expenditure type – type that best describes the charges being coded

Cost center – the cost center of the project

Labor Activities

Meetings specific to a capital project

Definition: attendance at any meetings specifically related to a capital project

Examples:
- Pre-construction meetings

Labor Coding

Labor for meetings specific to a capital project should be charged to that specific capital project.

Training

Definition: attending training classes

Examples:
- technical training classes
- new software instruction
- safety training

Capital:
All labor associated with training relating to facilities which are not conventional in nature or are new to the company's operations. When it is necessary that employees be trained to operate or maintain plant facilities that are being constructed and such facilities are not conventional in nature or are new to the company's operations, these costs may be capitalized as a component of construction cost.

Expense:
All labor associated with training to specifically operate or maintain plant facilities. Once plant is placed in service, the capitalization of training costs shall cease, and subsequent training costs shall be expensed.

Capitalized Overhead

Capitalized overhead costs are to be accumulated in overhead projects in account 1070 by operating division (and by state for divisions that serve multiple states). On a monthly basis, the overhead accumulated in these projects is to be applied to specific capital projects using a budgeted overhead application rate. The application rate is to be established at the beginning of the fiscal year based upon projected capital expenditures and should be reviewed periodically and revised as necessary to reflect significant changes to the company's capital expenditure plans. At least quarterly, any residual amount remaining in the overhead projects that have not been previously applied to a specific project are to be allocated to capital projects based on project spending during the quarter. Capitalized overhead that is specific to a business unit or state is to be allocated only to the capital projects for that business unit or state. Shared Services capitalized overhead is to be allocated to capital projects across the regulated operations of the company.

For Shared Services, a Capitalized Overhead Study is to be performed each fiscal year to determine the capitalization rates to use for the Shared Services cost centers that support the capital activities of the Company. These rates are to be prepared on a labor and non-labor basis. To determine the rate, the cost center owner (in most cases the Director or Manager of the department) will estimate the number of employee hours that their department will spend on direct capital activities, in support of capital activities and on O&M activities for the upcoming fiscal year (non-employee time such as holidays and PTO are also factored in). The cost center owner will then develop a capitalization rate, for both labor and non-labor, based upon this breakout of employee labor hours. There are some cost centers within Shared Services that support the overall work of the company. These cost centers should utilize a total company capitalization rate that is to be calculated by taking the total company labor capitalization rate (including contract labor) for the latest fiscal year ended. Finally, there are some cost centers within Shared Services that do not support the capital activities of the company and therefore have a capitalization rate of zero. Each month, the Plant Accounting department will use these rates to calculate the Shared Services capitalized overhead by applying the cost center rate to the cost center expenses for that month. A journal entry is to be recorded to credit the O&M account 9200-04863-A&G Overhead Clearing and debit account 1070 for the Shared Services Overhead Project. It should be noted that due to the timing of the month-end close there is currently a one-month lag for these amounts in the general ledger (for example, the June journal entry for Shared Services capitalized overhead would be calculated based upon May cost center activity). On a quarterly basis, the balance in the Shared Services Overhead Project is to be cleared to the capital projects across the regulated operations based on eligible spending during the quarter. If the project is open, then the allocated charges should be attached to the project's work-in-process balance. If the project has become in-service plant then the allocated charges should be recorded to Utility Plant (account 1010) through late-charge unitization.

Capitalized overhead costs can be generally grouped into the below categories:

Administration and Oversight of Activities Directly related to Capital Projects – These costs are related to the supervision, administration, cost analysis and reporting of the activities that are being directly charged to capital projects. The departments/employees that support, supervise and monitor direct project charges should allocate a reasonable amount of their time to capital overhead. An example of this would be an Operations Manager who oversees capital project work.

Support Functions – These are functions that enable the departments that support capital activities to perform their duties. This includes, but is not limited to, facilities management, information technology and accounting functions. Since the support function has a less direct relationship to capital projects the following general question should be answered to determine capitalization eligibility: *Would the function operate with fewer staff if Atmos Energy discontinued the capital program*? Generally, with the exception of certain supervisory and management roles, if the answer is "no" then none of the costs of that function should be capitalized. If the answer is "yes" then the costs of that function should be capitalized.

Capitalization of Division Operating Expenses

As the following division operating expenses are substantially related to employee capital work activities a portion of their costs should be capitalized (See Gas Plant Instruction 3 Components of construction cost). The capitalization of these division operating expenses is to be performed monthly through the General Accounting mass allocation process. Please note that Shared Services operating expenses that support capital activities are capitalized through the overhead process (see page 18 above) so this section is only applicable to the operating divisions. Please see below for further detail:

Vehicles – A percentage of vehicle expense is to be capitalized each month through the mass allocation. The capitalization percentage is to be calculated for each cost center based on the amount of labor dollars capitalized (subaccount 01001-Capital Labor divided by the sum of 01000-Nonproject Labor and 01001-Capital Labor). Only O&M accounts are to be used in this calculation. The capitalization rate will then be multiplied by the balance in subaccounts 03001-Vehicle Depreciation and 03004-Vehicle Expense for all O&M accounts. The result of this calculation is to be recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 03003-Capitalized Transportation Costs. In the following month the balance in account 1070 for capitalized vehicles is allocated directly to capital projects that incurred labor costs (and contract labor for Mid-Tex/APT) based on the cost center on the project. If there are no direct capital project labor costs (and contract labor for Mid-Tex/APT) for the respective cost center then the amount is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

Heavy Equipment – Heavy equipment expense is capitalized each month at 98% through the mass allocation. This rate is multiplied by the balance in subaccounts 04301-Equipment Lease and 04302-Heavy Equipment for all O&M accounts. The result of this calculation is to be recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 04307-Heavy Equipment Capitalized. In the following month the balance in account 1070 for capitalized heavy equipment is allocated directly to capital projects that incurred labor costs (and contract labor for Mid-Tex/APT) based on the cost center on the project. If there are no direct capital project labor costs (and contract labor for Mid-Tex/APT) for the respective cost center then the amount is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

VPP and MIP – The accrual for VPP and MIP is recorded to capital and expense for each business unit based on budget. The business unit capitalization ratio for VPP/MIP takes both employee labor and contract labor into account. The capital portion is recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 07454-VPP & MIP Capital Credit. In the following month the balance in account 1070 for capitalized VPP and MIP is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

Insurance - A percentage of insurance expense is to be capitalized each month through the mass allocation. The capitalization percentage is to be calculated for each cost center based on the amount of labor dollars capitalized (subaccount 01001-Capital Labor divided by the sum of 01000-Nonproject Labor and 01001-Capital Labor). Only O&M accounts are to be used in this calculation. The capitalization rate will then be multiplied by the balance in subaccounts 04070-Insurance Other, 04069-Blueflame Property Insurance and 07121-Insurance Public Liability for all O&M accounts. The result of this calculation is to be recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 04072-Insurance Capitalized. In the following month the balance in account 1070 for capitalized insurance is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

Rent - A percentage of rent expense is to be capitalized each month through the mass allocation. The capitalization percentage is to be calculated for each cost center based on the amount of labor dollars capitalized (subaccount 01001-Capital Labor divided by the sum of 01000-Nonproject Labor and 01001-Capital Labor). Only O&M accounts are to be used in this calculation. The capitalization rate will then be multiplied by the balance in subaccount 04581-Building Lease/Rents for all O&M accounts. The result of this calculation is to be recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 04580-Building Lease/Rent Capitalized. In the following month the balance in account 1070 for capitalized rent is allocated directly to capital projects that incurred labor costs (and contract labor for Mid-Tex/APT) based on the cost center on the project. If there are no direct capital project labor costs (and contract labor for Mid-Tex/APT) for the respective cost center then the amount is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

Restricted Stock - A percentage of restricted stock expense is to be capitalized each month through the mass allocation. The capitalization percentage is to be calculated for each cost center based on the amount of labor dollars capitalized (subaccount 01001-Capital Labor divided by the sum of 01000-Nonproject Labor and 01001-Capital Labor). Only O&M accounts are to be used in this calculation. The capitalization rate will then be multiplied by the balance in subaccounts 07458-Restricted Stock Long-term Incentive Plan Performance Based, 07460-RSU Long-term Incentive Plan Time Lapse and 07463-RSU Management Incentive Plan for all O&M accounts. The result of this calculation is to be recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 07450-Capitalized Restricted Stock. In the following month the balance in account 1070 for capitalized restricted stock is allocated directly to capital projects that incurred labor costs (and contract labor for Mid-Tex/APT) based on the cost center on the project. If there are no direct capital project labor costs (and contract labor for Mid-Tex/APT) for the respective cost center then the amount is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

Uniforms - A percentage of uniforms expense is to be capitalized each month through the mass allocation. The capitalization percentage is to be calculated for each cost center based on the amount of labor dollars capitalized (subaccount 01001-Capital Labor divided by the sum of 01000-Nonproject Labor and 01001-Capital Labor). Only O&M accounts are to be used in this calculation. The capitalization rate will then be multiplied by the balance in subaccount 07443-Uniforms for all O&M accounts. The result of this calculation is to be recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 07444-Uniforms. In the following month the balance in account 1070 for capitalized uniforms is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

Utilities - A percentage of utilities expense is to be capitalized each month through the mass allocation. The capitalization percentage is to be calculated for each cost center based on the amount of labor dollars capitalized (subaccount 01001-Capital Labor divided by the sum of 01000-Nonproject Labor and 01001-Capital Labor). Only O&M accounts are to be used in this calculation. The capitalization rate will then be multiplied by the balance in the following subaccounts (for all O&M accounts):

04582-Building Maintenance; 04585-Railroad easements and crossings; 04590-Utilities; 04801-Company Used Gas

The result of this calculation is to be recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 04599-Capitalized Utility Costs. In the following month the balance in account 1070 for capitalized restricted stock is allocated directly to capital projects that incurred labor costs (and contract labor for Mid-Tex/APT) based on the cost center on the project. If there are no direct capital project labor costs (and contract labor for Mid-Tex/APT) for the respective cost center then the amount is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

Telecom - A percentage of telecom expense is to be capitalized each month through the mass allocation. The capitalization percentage is to be calculated for each cost center based on the amount of labor dollars capitalized (subaccount 01001-Capital Labor divided by the sum of 01000-Nonproject Labor and 01001-Capital Labor). Only O&M accounts are to be used in this calculation. The capitalization rate will then be multiplied by the balance in the following subaccounts (for all O&M accounts):

05310-Monthly Lines and Service; 05312-Long Distance; 05314-Toll Free Long Distance; 05316-Telecom Maintenance & Repair;05331-WAN/LAN/Internet Service;; 05364-Cellular, Radio, Pager Charges; 05376-Cell Service for MDTs, PCs, SCADA and Other Data Related Uses; 05377-Cell Phone Equipment and Accessories; 05380-Video Conference; 05390-Audio Conference

The result of this calculation is to be recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 05399-Capitalized Telecom Costs. In the following month the balance in account 1070 for capitalized restricted stock is allocated directly to capital projects that incurred labor costs (and contract labor for Mid-Tex/APT) based on the cost center on the project. If there are no direct capital project labor costs (and contract labor for Mid-Tex/APT) for the respective cost center then the amount is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

SERP/SEBP – A percentage of SERP/SEBP expense is to be capitalized each month based on the Division President's Fixed Labor Distribution (FLD) capitalization rate. The capitalization rate is updated in October of each fiscal year. The capitalization rate is to be multiplied by the balance in subaccount 07489-NQ Retirement Cost. The result of this calculation is to be recorded by business unit as a debit to account 1070-CWIP and a credit to subaccount 07490-SERP Capitalized. In the following month the balance in account 1070 for capitalized SERP is to be entered into the Plant Accounting system as capitalized overhead and allocated to projects using the same process described on page 18.

Benefits Capitalization

Benefit costs should be capitalized or expensed based on employee labor. Please see the below method for how medical/dental costs are accounted for (other types of benefits follow a similar methodology) in the general ledger:

Step 1: A load rate for Medical/Dental costs is budgeted at the beginning of the fiscal year and applied throughout the year to labor costs. The same rate is applied to Capital and Expense labor, and the resulting amounts go to Capitalized Benefits Load (in account 1070) and Expensed Benefits Load (in account 9260), following the labor for service area and cost center. The offset for these loaded amounts are recorded to the clearing accounts as credits (account 1840).

Step 2: Gross actual costs are booked to the Gross Cost clearing account as debits. Any difference between the total gross cost and the offsetting loaded amounts in the clearing accounts is recorded to Expense Variance (in account 9260) in the Division General Office service area.

Step 3: After the Variance has been booked, an entry is recorded to align Capital and Expense Medical/Dental to Capital and Expense Labor (because the entire variance in Step 2 above is recorded to Expense Variance).

For Shared Services, the benefits variance is recorded to cost center 1463 HR Benefit Variance and is capitalized based on the rate determined in the Shared Services Capitalized Overhead Study.

General Plant Property Threshold

General Plant property is recorded in Gas Plant Accounts 389 through 399. Construction or purchase of general plant property costing less than $1,000, and whose use is individual in nature, generally will not be capitalized. Instead, the purchase will be charged to the appropriate O&M FERC account.

When determining the $1,000 threshold for the general plant property the use of the individual assets being purchased should be considered. Please see the below examples:

- New furniture is purchased for a conference room. The purchase includes a new conference table that costs $750 with six new chairs that cost $100 each. Individually, none of these items is over the $1,000 threshold. However, the conference table and chairs should be viewed as one whole set as this is how the assets will be used when business meetings are conducted (the conference table cannot fulfill its purpose without the chairs). Thus, the entire purchase price of $1,350 should be capitalized as general plant property.

- A new refrigerator is purchased for the break room for $800. As the cost of the refrigerator is less than the $1,000 threshold and as the refrigerator has a use that is individual in nature, then the $800 cost should be expensed to the appropriate O&M FERC account.

Labor Activities

Fixed Labor Distribution Coding

Definition: Specific work activities that should be charged to an employee's fixed labor distribution or "default" coding.

Examples:

- Company Holiday
- EIB, Administrative Leave, Bereavement, Injury on Job, Jury/Witness, Military Duty, PTO Prior Year Taken, STD, Workers' Comp
- Facilities Maintenance
- Floating Holiday
- Maintenance of Company Vehicles
- Meetings, such as safety or any non-project related meetings
- Non-Paid Hours
- Non-Worked Paid Hours
- Office Work-Timesheets, Vehicle Safety checklist, etc.
- PTO
- Re-stocking Trucks (unless material is for a specific capital project)

Notes:
Business unit administrative employees (e.g., VP Finance, VP Human Resources, etc.) will have an FLD capitalization rate. The FLD, including the capitalization rate, is updated in October of each fiscal year and monitored for any material changes.

Accounting for the Costs of Computer Software Developed or Obtained for Internal Use – Statement of Position 98-1

The Accounting Standards Executive Committee (AcSEC) issued Statement of Position 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use (SOP)*, during 1998. The new SOP establishes, for the first time, guidance on accounting for the costs incurred related to internal use software. The overall objective of the SOP is to provide guidance that specifically addresses the accounting for the costs related to designing, developing, obtaining, modifying and/or implementing internal use software and, thereby, eliminate the diversity that exists in practice.

SOP 98-1 requires that companies capitalize qualifying costs incurred during the *application development stage*. All other costs incurred in connection with an internal use software project are to be expensed as incurred. Because the SOP requires certain costs to be capitalized, it may result in many companies reporting higher earnings, at least initially.

The SOP is effective for years beginning after December 15, 1998, but companies can early adopt in fiscal years for which annual reports have not been issued. Initial application of the SOP should be as of the beginning of the fiscal year the SOP is adopted. Restatement or previously issued annual financial statements or adoption by cumulative catch-up is not permitted. If the SOP is adopted prior to its effective date and during an interim period other than the first interim period, all prior interim periods should be restated.

For many companies, SOP 98-1 will require the implementation of new systems or procedures to track internal use software project costs, particularly systems to accumulate payroll information for those employees involved in development activities during the application stage. As a result, we recommend companies begin analyzing the requirements of the SOP and identify procedures and system modifications necessary in order to comply with the SOP and to facilitate deciding whether to adopt early or to wait until next year.

We have prepared this booklet to assist you in adopting the new rules. It addresses the provisions of the SOP and key management implementation considerations. As always, Ernst & Young professionals are available to assist you in adopting SOP 98-1 and addressing the related issues.[1]

SOP 98-1

Given the extent to which software is being used internally and in the absence of any authoritative guidance, the costs associated with internal use software projects had become diverse. In practice, some companies capitalize internal use software costs, whereas other companies expense such costs as they are incurred (the prevalent practice). Still other companies capitalize the cost of obtaining externally developed or purchased software and expense the cost of internally developed software. The SOP is intended to eliminate the diversity in practice that exists in the accounting for internal use software and improve financial reporting for what has become a significant unrecorded asset for many companies. AcSEC believes that the costs of computer software developed or obtained for internal use are specifically identifiable, have determinate lives, relate to probable future economic benefits, and meet the criteria for recognition as an asset in the financial statements. In addition, AcSEC concluded that users of financial statements will find capitalizing internal use software useful because the marketplace inherently considers the technological capabilities, including software, of many entities when establishing market values.

The SOP describes three stages relating to the development of internal use software. These stages are the preliminary project stage, the application development stage, and the post-implementation/operation stage. The following summarizes the activities performed by companies during each of these stages.

Preliminary Project Stage – During this stage companies are allocating resources between projects, determining performance requirements of the software, determining alternatives to meet performance requirements, and meeting and selecting software vendors and consultants.

Application Development Stage – During this stage companies are designing software configuration and interfaces, coding, installing software, and testing.

Post-Implementation/Operation Stage – During this stage companies are likely to be training employees or performing maintenance activities.

[1] Ernst & Young, November 1998

SOP 98-1 requires companies to capitalize qualifying computer software costs incurred during the *application development stage*. All other costs incurred in connection with internal use software must be expensed as incurred. The SOP requires companies to capitalize the following costs incurred during the application development stage:

- External direct costs of materials and services incurred in developing or obtaining internal use software (e.g., cost to purchase software, write program code, employee travel expenses).

- Payroll and payroll related benefits for those employees who are directly involved with and who devote time to the software development project.

- Interest costs incurred during the application development stage. Interest should be capitalized in accordance with FASB Statement No. 34, *Capitalization of Interest Cost*.

In addition, the SOP requires companies to capitalize costs incurred to develop or obtain software that allows for access or conversion of old data by a new system. All other data conversion costs are required to be expensed as incurred. The useful life assigned to capitalized data conversion software should be based on the period such software is expected to provide future utility to the company. In many cases due to the nature of the conversion process, a relatively short-life would be assigned to capitalized data conversion software costs. The costs of internal use software should be amortized on a straight-line basis unless another systematic and rational basis is more representative of its use. In determining the useful life, companies should consider the effects of obsolescence, technology, competition, and rapid changes in software development and operating systems. Given the history of rapid changes in technology, software historically has had a relatively short useful life. Amortization should begin for each component or module when the software is ready for its intended use, regardless of whether the software is placed in service. However, if the functionality of a module is entirely dependent on the completion of other modules, amortization of that module should begin when the other modules upon which it is functionally dependent are ready for their intended use. SOP 98-1 requires companies to evaluate capitalized software costs for impairment in accordance with FASB Statement No. 121, *Accounting for Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of*. The SOP includes the following examples of indicators that internal use software has been impaired:

- The software is not expected to provide substantive service potential.

- A subsequent change occurs in the extent or manner in which the software is used or expected to be used.

- A significant change to the software is made or expected to be made.

- Cost to develop or modify internal use software significantly exceeds the amount originally expected to be incurred (cost overruns) to develop or modify the software.

Additionally, when it is no longer probable that computer software being developed will be completed or placed in service, no further costs should be capitalized and the software should be reported at the lower of its carrying amount or fair value, if any. The SOP contains a rebuttable presumption that uncompleted software has a zero fair value. Companies should consider carefully the useful lives assigned to internal use software. Assigning realistic lives could help mitigate the impact of impairment charges companies might be required to recognize in future years if decisions are made to replace or abandon existing systems.

Table of Activities Related to Software Projects
To determine the appropriate accounting, each activity of a software project, even if performed by a single vendor, should be classified to determine if such costs should be capitalized or expensed. The following table (derived from a similar table included in EITF No. 97-13) summarizes these activities and the appropriate treatment under SOP 98-1 and EITF 97-13.

Steps	Expense	Capitalize	Authoritative Guidance
Preliminary Software Project Stage Activities:			
Conceptual formulation of alternatives	x		SOP 98-1
Evaluation of alternatives	x		
Determination of existence of needed technology	x		
Final selection of alternatives	x		
Application Development Stage Activities:			
Design of chosen path, including software configuration and software interface		x	SOP 98-1
Coding		x	
Installation to hardware		x	
Testing, including parallel processing phase		x	
Data Conversion Costs: a. Costs to develop or obtain software that allows for access of existing data by new system		x	
Data Conversion Costs: b. All other data conversion processes	x		
Post-Implementation/Operation Stage Activities:			
Training	x		SOP 98-1
Application maintenance	x		
Ongoing support	x		
Business Process Reengineering and Information Technology Transformation:			
Preparation of request for proposal (RFP)	x		EITF 97-13
Current state assessment (The process to document the company's current business process, except as it relates to current software structure. This activity is sometimes called *mapping, developing an "as-is" baseline, flow charting, and determining current business process structure*.)	x		
Process reengineering (The effort to reengineer the company's business process to increase efficiency and effectiveness, sometimes called *analysis, determining "best-in-class," profit/performance improvement development, and developing "should-be processes*.)	x		
Restructuring work force (The effort to determine what employee makeup is necessary to operate the reengineered business processes.)	x		
Acquisition of Fixed Assets:			
Purchase of new computer equipment, office furniture, or work stations		x	In accordance with existing accounting policy
Reconfiguration of work area – architect fees and hard construction costs		x	

Code of Federal Regulations (CFR), Title 18; Part 201, Gas Plant Instruction 3: Components of Construction Costs (as of October 1, 2014)

3. *Components of construction cost.* A. The cost of construction properly includable in the gas plant accounts shall include, where applicable, the direct and overhead costs as listed and defined hereunder:

(1) “Contract work” includes amounts paid for work performed under contract by other companies, firms, or individuals, costs incident to the award of such contracts, and the inspection of such work.

(2) “Labor” includes the pay and expenses of employees of the utility engaged on construction work, and related workmen's compensation insurance, payroll taxes and similar items of expense. It does not include the pay and expenses of employees which are distributed to construction through clearing accounts nor the pay and expenses included in other items hereunder.

(3) “Materials and supplies” includes the purchase price at the point of free delivery plus customs duties, excise taxes, the cost of inspection, loading and transportation, the related stores expenses, and the cost of fabricated materials from the utility's shop. In determining the cost of materials and supplies used for construction, proper allowance shall be made for unused materials and supplies, for materials recovered from temporary structures used in performing the work involved, and for discounts allowed and realized in the purchase of materials and supplies.

NOTE: The cost of individual items of equipment of small value (for example, $500 or less) or of short life, including small portable tools and implements, shall not be charged to utility plant accounts unless the correctness of the accounting therefor is verified by current inventories. The cost shall be charged to the appropriate operating expense or clearing accounts, according to the use of such items, or, if such items are consumed directly in construction work, the cost shall be included as part of the cost of the construction.

(4) “Transportation” includes the cost of transporting employees, materials and supplies, tools, purchased equipment, and other work equipment (when not under own power) to and from points of construction. It includes amounts paid to others as well as the cost of operating the utility's own transportation equipment. (See item 5 following.)

(5) “Special machine service” includes the cost of labor (optional), materials and supplies, depreciation, and other expenses incurred in the maintenance, operation and use of special machines, such as steam shovels, pile drivers, derricks, ditchers, scrapers, material unloaders, and other labor saving machines; also expenditures for rental maintenance and operation of machines of others. It does not include the cost of small tools and other individual items of small value or short life which are included in the cost of materials and supplies. (See item 3, above.) When a particular construction job requires the use for an extended period of time of special machines, transportation or other equipment, the net book cost thereof, less the appraised or salvage value at time of release from the job, shall be included in the cost of construction.

(6) “Shop service” includes the proportion of the expense of the utility's shop department assignable to construction work except that the cost of fabricated materials from the utility's shop shall be included in “materials and supplies.”

(7) “Protection” includes the cost of protecting the utility's property from fire or other casualties and the cost of preventing damages to others, or to the property of others, including payments for discovery or extinguishment of fires, cost of apprehending and prosecuting incendiaries, witness fees in relation thereto, amounts paid to municipalities and others for fire protection, and other analogous items of expenditures in connection with construction work.

(8) “Injuries and damages” includes expenditures or losses in connection with the construction work on account of injuries to persons and damages to the property of others; also the cost of investigation of and defense against actions for such injuries and damages. Insurance recovered or recoverable on account of compensation paid for injuries to persons incident to construction shall be credited to the account or accounts to which such compensation is charged. Insurance recovered or recoverable on account of property damages incident to construction shall be credited to the account or accounts charged with the cost of the damages.

(9) “Privileges and permits” includes payments for and expenses incurred in securing temporary privileges, permits or rights in connection with construction work, such as for the use of private or public property, streets, or highways, but it does not include rents, or amounts chargeable as franchises and consents for which see account 302, Franchises and Consents.

(10) “Rents” includes amounts paid for the use of construction quarters and office space occupied by construction forces and amounts properly includible in construction costs for such facilities jointly used.

(11) “Engineering and supervision” includes the portion of the pay and expenses of engineers, surveyors, draftsmen, inspectors, superintendents and their assistants applicable to construction work.

(12) “General administration capitalized” includes the portion of the pay and expenses of the general officers and administrative and general expenses applicable to construction work.

(13) “Engineering services” includes amounts paid to other companies, firms, or individuals engaged by the utility to plan, design, prepare estimates, supervise, inspect, or give general advice and assistance in connection with construction work.

(14) “Insurance” includes premiums paid or amounts provided or reserved as self-insurance for the protection against loss and damages in connection with construction, by fire or other casualty, injury to or death of persons other than employees, damages to property of others, defalcation of employees and agents, and the nonperformance of contractual obligations of others. It does not include workmen's compensation or similar insurance on employees included as “labor” in item 2, above.

(15) “Law expenditures” includes the general law expenditures incurred in connection with construction and the court and legal costs directly related thereto, other than law expenses included in protection, item 7, and in injuries and damages, item 8.

(16) “Taxes” includes taxes on physical property (including land) during the period of construction and other taxes properly includible in construction costs before the facilities become available for service.

(17) “Allowance for funds used during construction” includes the net cost for the period of construction of borrowed funds used for construction purposes and a reasonable rate on other funds when so used, not to exceed without prior approval of the Commission allowances computed in accordance with the formula prescribed in paragraph (a) below, except when such other funds are used for exploration and development or leases acquired after October 7, 1969, no allowance on such other funds shall be included in these accounts. No allowance for funds used during construction charges shall be included in these accounts upon expenditures for construction projects which have been abandoned.

(a) The formula and elements for the computation of the allowance for funds used during construction shall be:

$$A_i = s\left(\frac{S}{W}\right) + d\left(\frac{D}{D+P+C}\right)\left(1-\frac{S}{W}\right)$$

$$A_e = \left[1-\frac{S}{W}\right]\left[p\left(\frac{P}{D+P+C}\right) + c\left(\frac{C}{D+P+C}\right)\right]$$

View or download PDF

A_i=Gross allowance for borrowed funds used during construction rate.

A_e=Allowance for other funds used during construction rate.

S=Average short-term debt.

s=Short-term debt interest rate.

D=Long-term debt.

d=Long-term debt interest rate.

P=Preferred stock.

p=Preferred stock cost rate.

C=Common equity.

c=Common equity cost rate.

W=Average balance in construction work in progress less asset retirement costs (See General Instruction 24) related to plant under construction.

(b) The rates shall be determined annually. The balances for long-term debt, preferred stock and common equity shall be the actual book balances as of the end of the prior year. The cost rates for long-term debt and preferred stock shall be the weighted average cost determined in the manner indicated in subpart D of part 154 of the Commission's Regulations Under the Natural Gas Act. The cost rate for common equity shall be the rate granted common equity in the last rate proceeding before the ratemaking body having primary rate jurisdiction. If such cost rate is not available, the average rate actually earned during the preceding three years shall be used. The short-term debt balances and related cost and the average balance for construction work in progress shall be estimated for the current year with appropriate adjustments as actual data becomes available.

NOTE: When a part only of a plant or project is placed in operation or is completed and ready for service but the construction work as a whole is incomplete, that part of the cost of the property placed in operation, or ready for service, shall be treated as “Gas Utility Plant” and allowance for funds used during construction thereon as a charge to construction shall cease. Allowance for funds used during construction on that part of the cost of the plant which is incomplete may be continued as a charge to construction until such time as it is placed in operation or is ready for service, except as limited in item 17, above.

(18) “Earnings and expenses during construction” includes (a) all revenues derived during the construction period from property which is included in the cost of a project under construction and (b) all expenses which are attributable to the revenues received.

(19) “Training costs”. When it is necessary that employees be trained to operate or maintain plant facilities that are being constructed and such facilities are not conventional in nature or are new to the company's operations, these costs may be capitalized as a component of construction cost. Once plant is placed in service, the capitalization of training costs shall cease, and subsequent training costs shall be expensed. (See Operating Expense Instruction 4.)

(20) “Line pack gas.” Line pack includes the first cost of that quantity of gas introduced into the utility's system necessary to bring the system up to its designed operating capacity or increases therein and which must be maintained in the system in order to sustain such design operating capacity.

(21) LNG “heel” is the first cost of that minimum quantity of liquefied natural gas necessary to be retained in holding tanks and other facilities for purposes of temperature and/or pressure maintenance.

(22) “Studies” includes the costs of studies such as operational, safety or environmental studies relative to plant under construction. Studies mandated by regulatory bodies relative to facilities in service, shall be charged to Account 183.2, Other Preliminary Survey and Investigation Charges.

(23) “Asset retirement costs.” The costs recognized as a result of asset retirement obligations incurred during the construction and testing of utility plant shall constitute a component of construction costs.

Code of Federal Regulations (CFR), Title 18; Part 201, Gas Plant Instruction 4: Overhead Construction Costs (as of October 1, 2014)

4. *Overhead construction costs.* A. All overhead construction costs, such as engineering, supervision, general office salaries and expenses, construction engineering and supervision by others than the accounting utility, law expenses, insurance, injuries and damages, relief and pensions, taxes and interest, shall be charged to particular jobs or units on the basis of the amounts of such overheads reasonably applicable thereto, to the end that each job or unit shall bear its equitable proportion of such costs and that the entire cost of the unit, both direct and overhead, shall be deducted from the plant accounts at the time the property is retired.

B. As far as practicable, the determination of pay roll charges includible in construction overheads shall be based on time card distributions thereof. Where this procedure is impractical, special studies shall be made periodically of the time of supervisory employees devoted to construction activities to the end that only such overhead costs as have a definite relation to construction shall be capitalized. The addition to direct construction costs of arbitrary percentages or amounts to cover assumed overhead costs is not permitted.

C. The record supporting the entries for overhead construction costs shall be so kept as to show the total amount of each overhead for each year, the nature and amount of each overhead expenditure charged to each construction work order and to each utility plant account, and the bases of distribution of such costs.

The FERC Gas Plant Accounts and descriptions can be found in the Electronic Code of Federal Regulations (Title 18, Chapter 1, Subchapter F – Part 201 Uniform System of Accounts Prescribed for Natural Gas Companies) at the following web address http://www.ecfr.gov.

The Capital Maintenance Manual, which is updated by the Plant Accounting department, can be found on the shared drive at S:\PLANT ACCOUNTING\Capital Maintenance Document.

Account Coding Manual

Note: Atmos Energy accounting practices follow Federal Energy Regulatory Commission (FERC) standards and Generally Accepted Accounting Principles (GAAP). The Account Coding Manual is intended to provide guidance in applying FERC standards and GAAP to labor and invoice coding within the Atmos Energy accounting system. If any clarification is needed to ensure proper accounting treatment, please contact Dallas Accounting or the Business Unit Finance Department.

Introduction to the Account Coding Manual

1. Introduction:

The purpose of this manual is to show the proper use of company/account/sub-account combinations. This is one of three documents associated with the Account Coding Manual. The other two documents are the Cost Allocation Manual (CAM) and the Capitalization Manual.

Account Coding Structure:

Atmos' account coding structure enables it to capture the costs for direct and allocable activities. Expenses, assets, and liabilities for Atmos' shared services and other operating division general office divisions are coded to applicable location codes and cost centers as necessary, and are then allocated to the appropriate rate divisions based upon the methodologies described in the Cost Allocation Manual. Allocations recorded in the books and records of the Company are primarily for management control purposes and may not reflect the allocation methodology used for rate making purposes.

Atmos' account coding structure is as follows:

XXX.	XXXX.	XXXX.	XXXXX.	XXXXXX.	XXXX.
Company	Cost Center	FERC Account	Sub-Account	Service Area	Future Use
3 digit	4 digit	4 digits	5 digits	6 digits	4 digits

Within the above coding structure, "Company" and "Cost Center" are primarily utilized for internal management responsibility reporting purposes for Atmos' operating divisions. The FERC account field contains the three-digit FERC USOA account plus one extension digit which in some cases is utilized by the FERC USOA.

The first three digits of the Service Area field are the primary coding utilized for cost allocations within Atmos and is generally referred to as "rate division number". This portion of the field denotes Atmos' various rate divisions as well as the Company's various shared services and operating division general office divisions. These codes are the primary source of information for regulatory reporting and rate activity. The remaining three digits represent "town" location which is utilized only for some accounts. Atmos Pipeline-Texas uses the final three digits of the service area to represent the actual storage or compressor facility; however, this is used for O&M expenses only.

Corporate Structure:

Atmos Energy Corporation, headquartered in Dallas, Texas, and incorporated in Texas and Virginia, is engaged primarily in the regulated natural gas distribution and transmission and storage businesses. We deliver natural gas through regulated sales and transportation arrangements to over three million residential, commercial, public authority and industrial customers in eight states located primarily in the South, which makes us one of the country's largest natural-gas-only distributors based on number of customers. We also operate one of the largest intrastate pipelines in Texas based on miles of pipe.

Operating Segments:

We operate the Company through the following segments:

• The *natural gas distribution segment*, which includes our regulated natural gas distribution and related sales operations.

• The *regulated transmission and storage segment*, which includes the regulated pipeline and storage operations of our Atmos Pipeline —Texas Division.

Atmos Energy Corporation (Atmos or the Company) operates its Regulated Operations through seven operating divisions in eight states. The seven operating divisions and their service areas are:

Division	Service Area
Atmos Energy Colorado-Kansas Division	Colorado, Kansas
Atmos Energy Kentucky/Mid-States Division	Kentucky, Tennessee, Virginia
Atmos Energy Louisiana Division	Louisiana
Atmos Energy Mid-Tex Division	Texas, including the Dallas/Fort Worth metropolitan area
Atmos Energy Mississippi Division	Mississippi
Atmos Energy West Texas Division	West Texas
Atmos Pipeline – Texas Division	Intrastate pipeline business in Texas

These operating divisions are not subsidiaries or separate legal entities. Therefore, by definition, they cannot be considered affiliates of Atmos.

Technical and support services are provided to the operating divisions by centralized shared services departments primarily located at the Atmos headquarters in Dallas. These centralized functions currently include, but are not limited to, accounting, gas supply, human resources, information technology, legal, rates and customer support. The costs for these shared services are allocated to the operating divisions. In addition, for operating divisions that operate in more than one rate jurisdiction, costs from an operating division's general office are allocated to separate rate divisions within the operating division.

Atmos Energy Holdings, Inc. is a wholly owned subsidiary of Atmos. Atmos Energy Holdings and its various wholly owned subsidiaries are separate legal entities and are considered affiliates of Atmos.

Account Coding Matrix – General Office and Customer Expenses:

The below account coding matrix for general office and customer expenses includes operation and maintenance (O&M) activities related to customer accounts (FERC accounts 901-905), customer service and informational (FERC accounts 907-910), Sales (FERC accounts 911-916) and administrative and general (FERC 920-932). Administrative and general costs are O&M expenses that are not chargeable to a particular operating function.

Expense Description	Acct	A&G Account Description
Costs associated with the supervision of call centers, revenue management and other customer accounts related supervision	9010	Customer Accounts – Supervision
Employee labor and contract labor related to meter reading	9020	Customer Accounts – Meter Reading Expenses
Vehicle and fuel expenses related to meter reading	9020	Customer Accounts – Meter Reading Expenses
AMI Tower rent and fees	9020	Customer Accounts – Meter Reading Expenses
Non-supervisor labor for call centers, revenue management and other customer accounts related functions	9030	Customer Accounts – Customer Records and Collection Expenses
Costs associated with collection fees and bill print fees	9030	Customer Accounts – Customer Records and Collection Expenses
Costs associated with uncollectible accounts (bad debt expense)	9040	Customer Accounts – Uncollectible Accounts
Miscellaneous customer accounts related expenses not provided for in other accounts	9050	Customer Accounts – Miscellaneous Customer Accounts Expense
Supervision related to customer service and customer information activities not provided for in other accounts	9070	Customer Service - Supervision
Costs associated with customer informational assistance such as energy efficiency and safety	9080	Customer Service – Customer Assistance Expenses
Required by law advertising related to safety, GCA public notices, etc.	9090	Customer Service – Informational and Instructional Expenses
Costs associated with customer assistance, communication and education not provided for in other accounts	9100	Customer Service – Miscellaneous Customer Service and Informational Expenses
Costs associated with the supervision of marketing and other sales related activities	9110	Sales – Supervision
Costs associated with the marketing and sales activities that promote the use of our natural gas services	9120	Sales – Demonstrating and Selling Expenses
Costs associated with advertising that promotes the use of natural gas services	9130	Sales - Advertising
Costs associated with marketing and sales activities not provided for in other accounts	9160	Sales – Miscellaneous Sales Expenses
Salaries for Shared Services general office employees and other administrative employees not charged to a particular operating function	9200	A&G – Administrative & General Salaries
A&G Overhead Clearing	9200	A&G – Administrative & General Salaries
Office supplies, breakroom supplies, newspapers and magazine subscriptions, janitorial supplies, first aid supplies, United Way expenses, offsite storage	9210	A&G - Office Supplies and Expenses
Costs for communications, administrative and general purposes	9210	A&G – Office Supplies and Expenses
Printing costs for annual reports, budget reports, etc.	9210	A&G – Office Supplies and Expenses
Software support and maintenance	9210	A&G – Office Supplies and Expenses
Hardware equipment support and maintenance	9210	A&G – Office Supplies and Expenses
Building maintenance, pest control, air conditioning repair, lawn care, utilities	9210	A&G – Office Supplies and Expenses
Postage and delivery services	9210	A&G – Office Supplies and Expenses
Telephone services, cell phones, internet and other telecom related charges	9210	A&G – Office Supplies and Expenses
Business oriented meals, entertainment and travel, safety luncheons, meeting snacks and refreshments	9210	A&G – Office Supplies and Expenses
Training, employee development, employee broadcast, AtmoSpirit, books and manuals, continuing education, seminars	9210	A&G – Office Supplies and Expenses
Employee association dues and membership fees	9210	A&G – Office Supplies and Expenses
Expenses transferred to or from general offices or rate divisions	9220	A&G – Administrative Expenses Transferred
Fees and expenses for professional consultants, outside attorneys and other contract labor related to general purposes and not applicable to a particular operating function	9230	A&G – Outside Services Employed
Property insurance premiums and other property insurance related charges	9240	A&G – Property Insurance

Expense Description	Acct	A&G Account Description
Insurance reserves, premiums for public liability and D&O insurance, workers compensation, damage claims, settlements	9250	A&G – Injuries and Damages
Benefits load and variance (medical, dental, pension, OPEB, HSA, life, LTD, 401k match, FACC and other employee benefits)	9260	A&G – Employee Pensions and Benefits
Employer 401K expenses, COLI premiums, CSV and loan interest, Nonqualified retirement costs and Rabbi Trust activity	9260	A&G – Employee Pensions and Benefits
Incentive compensation costs (VPP/MIP/LTIP)	9260	A&G – Employee Pensions and Benefits
Pension and OPEB regulatory asset activity	9260	A&G – Employee Pensions and Benefits
Educational Assistance Program, uniforms, other employee welfare costs	9260	A&G – Employee Pensions and Benefits
Costs related to franchise requirements	9270	A&G – Franchise Requirements
Rate case expenses including amortization of rate case costs	9280	A&G – Regulatory Commission Expenses
General Advertising and Promotional Items	9301	A&G – General Advertising Expenses
Board Meeting expenses, Directors Fees, Directors Retirement	9302	A&G – Miscellaneous General Expenses
Proxy services, transfer agent services, analyst activities and other investor relations costs	9302	A&G – Miscellaneous General Expenses
Building leases/rents in connection with the customer service and general administrative functions of the company	9310	A&G – Rents
Costs associated with the maintenance of general plant	9320	A&G – Maintenance of General Plant

Account Coding Matrix – Field Expenses:

The below account coding matrix for field expenses includes O&M activities related to distribution, transmission, storage and production. It should be noted that some work activities can be considered either expense or capital depending on the nature of the activity. Please see the Capitalization Manual for examples of charges that are capitalized.

Distribution – These expenses relate to the operation and maintenance of our distribution system and are included in FERC accounts 870 – 894.

	Expense Description	Acct	Distribution Account Description
	Above Ground Piping Maintenance	8870	Distribution - Maintenance of Mains
	Aerial Patrols	8740	Distribution - Mains and Services Expenses
	Capping Idle Meter Loops	8930	Distribution - Maintenance of Meters and House Regulators
	Cast Iron Main Leak Repairs less than 5 feet	8870	Distribution - Maintenance of Mains
(1)	Cathodic Protection	8740	Distribution - Mains and Services Expenses
	Cathodic Protection Maintenance	8870	Distribution - Maintenance of Mains
	Change Pressure Charts	8750	Distribution - Measuring and Regulating Station Expenses - General
	Check Non Registering Meters	8740	Distribution - Mains and Services Expenses
	City Requested Dig-Ups	8740	Distribution - Mains and Services Expenses
	Clean and Paint Meters and Loops	8930	Distribution - Maintenance of Meters and House Regulators
	Clean Around Meter and Meter Loops	8930	Distribution - Maintenance of Meters and House Regulators
	Control/Monitor Pressures	8740	Distribution - Mains and Services Expenses
	Corrosion, Evaluates data	8870	Distribution - Maintenance of Mains
	Corrosion, Inspect and monitor for atmospheric corrosion	8870	Distribution - Maintenance of Mains
	Corrosion, Inspect coating on piping at ground surface	8870	Distribution - Maintenance of Mains
	Corrosion, Inspect for internal corrosion	8870	Distribution - Maintenance of Mains
	Corrosion, install, maintain & repair insulators	8870	Distribution - Maintenance of Mains
	Corrosion, Maintains corrosion control equipment	8870	Distribution - Maintenance of Mains
	Corrosion, Operates corrosion control equipment	8870	Distribution - Maintenance of Mains
	Corrosion, Performs cathodic protection interference tests	8870	Distribution - Maintenance of Mains
	Corrosion, Pipeline Casing Survey	8870	Distribution - Maintenance of Mains
	Corrosion, rectifier installation	8870	Distribution - Maintenance of Mains
	Corrosion, Rectifier Maintenance/Bonds & Ground beds	8870	Distribution - Maintenance of Mains
	Corrosion, Rectifier Readings	8870	Distribution - Maintenance of Mains
	Corrosion, Repair coating on piping at ground surface	8870	Distribution - Maintenance of Mains

	Expense Description	Acct	Distribution Account Description
	Corrosion, Retrieving coupons and evaluation of data	8870	Distribution - Maintenance of Mains
	Corrosion, Take pipe to soil readings during repairs	8870	Distribution - Maintenance of Mains
	Corrosion, Taking annual & bimonthly pipe-to-soil readings	8870	Distribution - Maintenance of Mains
	Corrosion, Taking pipe-to-soil readings when uncovered	8870	Distribution - Maintenance of Mains
	Corrosion, Test/Inspect Insulators	8870	Distribution - Maintenance of Mains
	Corrosion, Troubleshoot anodes	8870	Distribution - Maintenance of Mains
	Damage Prevention - Dig Ups	8740	Distribution - Mains and Services Expenses
	Damage Prevention - Line Locates	8740	Distribution - Mains and Services Expenses
	Environmental Expenses	8740	Distribution - Mains and Services Expenses
	Fork Lift Repair - Gas Warehouse	1630	Stores Expense Undistributed
	Fresh Air - Air Liquid - MIC Gases & Rental	8890	Distribution - Maintenance of Measuring and Regulating Station Equipment - General
	Fresh Air - Air Liquid Gases & Rental	8940	Distribution - Maintenance of Other Equipment
	Grass Replacement for Damage O&M related	8740	Distribution - Mains and Services Expenses
	Heavy Equipment - bulk oil and antifreeze	8740	Distribution - Mains and Services Expenses
	Heavy Equipment Repair	8740	Distribution - Mains and Services Expenses
	Heavy Equipment-Diesel	8740	Distribution - Mains and Services Expenses
	Heavy Equipment-Gasoline	8740	Distribution - Mains and Services Expenses
	Heavy Equipment-Tires	8740	Distribution - Mains and Services Expenses
	Inspect For Leaks and Repair - Cast Iron Mains	8870	Distribution - Maintenance of Mains
	Inspect For Leaks and Repair - Poly Mains	8870	Distribution - Maintenance of Mains
	Inspect For Leaks and Repair - Poly Services	8920	Distribution - Maintenance of Services
	Inspect For Leaks and Repair - Steel Mains	8870	Distribution - Maintenance of Mains
	Inspect For Leaks and Repair - Steel Services	8920	Distribution - Maintenance of Services
	Inspection/Maintenance of Regulator/Border Stations	8750	Distribution - Measuring and Regulating Station Expenses - General
	Install & Maintain R-O-W markers	8740	Distribution - Mains and Services Expenses
(1)	Install Leak Clamps as a Temporary Repair	8870	Distribution - Maintenance of Mains
	Investigating Fire Call	8740	Distribution - Mains and Services Expenses
	Investigation of Leak	8740	Distribution - Mains and Services Expenses
	Investigation of Pressure Complaint - Customer	8790	Distribution - Customer Installations Expenses
	Leak Calls	8740	Distribution - Mains and Services Expenses
(1)	Leak Surveys	8740	Distribution - Mains and Services Expenses
(1)	Leak Investigations - Mains	8870	Distribution - Maintenance of Mains
(1)	Leak Investigations - Service Lines	8920	Distribution - Maintenance of Services
(1)	Leak Monitoring	8870	Distribution - Maintenance of Mains
	Light Bulbs/Ballast for Service Center	8800	Distribution - Other Expenses
(1)	Line Locates	8740	Distribution - Mains and Services Expenses
	Maintain Cast Iron Mains	8870	Distribution - Maintenance of Mains
	Maintain District Regulator Stations - Planned	8890	Distribution - Maintenance of Measuring and Regulating Station Equipment - General
	Maintain District Regulator Stations - Reactive	8890	Distribution - Maintenance of Measuring and Regulating Station Equipment - General
	Maintain Mains - Oil & Water Problems	8870	Distribution - Maintenance of Mains
	Maintain Meters-Planned	8890	Distribution - Maintenance of Measuring and Regulating Station Equipment - General
	Maintain Meters-Reactive	8930	Distribution - Maintenance of Meters and House Regulators
	Maintain Poly Mains	8870	Distribution - Maintenance of Mains
	Maintain Poly Services	8920	Distribution - Maintenance of Services
	Maintain Services - Oil & Water Problems	8920	Distribution - Maintenance of Services
	Maintain Steel Mains	8870	Distribution - Maintenance of Mains
	Maintain Steel Services	8920	Distribution - Maintenance of Services
	Maintenance of Above Ground Piping	8870	Distribution - Maintenance of Mains
	Maintenance of Valves	8940	Distribution - Maintenance of Other Equipment
	Manage Vegetation - Reactive	8940	Distribution - Maintenance of Other Equipment
	Measurement	8890	Distribution - Maintenance of Measuring and Regulating Station Equipment - General
	Miscellaneous Customer Work Orders	8780	Distribution - Meter and House Regulator Expenses
	Odorization Readings	8740	Distribution - Mains and Services Expenses
	Oil Spill Cleanup	8870	Distribution - Maintenance of Mains
	Other Maintenance Activities	8940	Distribution - Maintenance of Other Equipment
	Painting Facilities	8740	Distribution - Mains and Services Expenses

	Expense Description	Acct	Distribution Account Description
	Painting Measuring Stations	8890	Distribution - Maintenance of Measuring and Regulating Station Equipment - General
	Pigging Operations	8740	Distribution - Mains and Services Expenses
	Pipeline Integrity work O & M related	8740	Distribution - Mains and Services Expenses
	Pressure Investigations	8740	Distribution - Mains and Services Expenses
	Refilling Gas Bottles for leased bottles	8800	Distribution - Other Expenses
	Regulator & Relief Valve	8890	Distribution - Maintenance of Measuring and Regulating Station Equipment - General
(1)	Relocation of Meter on Customers' Property	8920	Distribution - Maintenance of Services
	Repairing Hand Tools	8740	Distribution - Mains and Services Expenses
(1)	Replace/Retire Existing Main	8870	Distribution - Maintenance of Mains
(1)	Replace/Retire Service Line	8920	Distribution - Maintenance of Services
	Restore Service - Distribution Problem (Town Outage)	8780	Distribution - Meter and House Regulator Expenses
	Restore Service - Pipeline Problem	8740	Distribution - Mains and Services Expenses
	Right of Way/Vegetation Management	8740	Distribution - Mains and Services Expenses
	RTU/SCADA	8740	Distribution - Mains and Services Expenses
	Sensit Gold Leak Detection Equipment	8740	Distribution - Mains and Services Expenses
	System Inspections	8740	Distribution - Mains and Services Expenses
	Test Welds on Existing Pipe	8740	Distribution - Mains and Services Expenses
	Turn On/Off - Other Than Non Pay	8780	Distribution - Meter and House Regulator Expenses
	Valve Maintenance	8940	Distribution - Maintenance of Other Equipment
	Valve Patrol	8740	Distribution - Mains and Services Expenses
	Vehicle - bulk oil and antifreeze	8740	Distribution - Mains and Services Expenses
	Vehicle - car washes, flat repairs, etc.	8740	Distribution - Mains and Services Expenses
	Vehicle Repair	8740	Distribution - Mains and Services Expenses
	Vehicle-Diesel	8740	Distribution - Mains and Services Expenses
	Vehicle-Gasoline	8740	Distribution - Mains and Services Expenses
	Vehicle-Tires	8740	Distribution - Mains and Services Expenses
	Welding qualification tests	8740	Distribution - Mains and Services Expenses

(1): These charges may be either capital or expense based upon the nature of the activity (if it requires installation it will primarily be a capital activity). Please see the Capitalization Manual for examples of activities that are capitalized.

Transmission, Storage and Production – These expenses relate to the operation and maintenance of our transmission assets (FERC accounts 850-867), storage operations (FERC accounts 814-847.8) and production activities (FERC accounts 750-798).

Expense Description	Acct	Transmission Account Description
Aerial Patrols	8560	Transmission - Mains Expenses
Assistance to Engineering on System Operations Issues	8560	Transmission - Mains Expenses
Assistance to Engineering on Uprates & Corrosion Issues	8560	Transmission - Mains Expenses
Cathodic Protection	8560	Transmission - Mains Expenses
Change Pressure Charts	8560	Transmission - Mains Expenses

Valve Patrol	8560	Transmission - Mains Expenses
Welding qualification tests	8560	Transmission - Mains Expenses

Note: Charges classified as expensed or capitalized should be determined to the best of the employee's ability. Please see the Capitalization Manual for examples of charges that are capitalized. If a question arises regarding whether to charge an expenditure to expense or capital please contact your supervisor or contact Dallas Accounting.

Below-the-line Expenses – These are expenses that are not recoverable through our rates. As such, they should be coded to FERC accounts 426.1 – 426.5 and not included in O&M. Employees should consult the Policy on Reimbursements to Employees for Business-Related Expenses to determine if the costs incurred are reimbursable.

Expense Description	Acct	Below-the-line Account Description
Company donations made for charitable, social or community welfare purposes such as United Way donations	4261	Dues and Membership Fees
Payments related to penalties or fines for regulatory violations made by the company	4263	Penalties
Payments related to political activities and lobbying	4264	Expenditures for Certain Civic, Political and Related Activities
Labor related to political activities and lobbying	4264	Expenditures for Certain Civic, Political and Related Activities
Payments related to sporting events or similar entertainment	4265	Other Deductions
Meals and entertainment not related to company business	4265	Other Deductions
Bar tabs related to any company function	4265	Other Deductions
Employee retirement gifts	4265	Other Deductions
Non-recoverable expenses of any kind not included above	4265	Other Deductions

ATMOS ENERGY – Chart of Accounts

Balance Sheet Accounts:

CHART OF ACCOUNTS:

Account: (Utility Plant) – Balance Sheet

1010 - Gas plant in service - The original cost of gas plant owned and used by the utility in its gas operations, and having an expectation of life in service of more than one year from date of installation.

Companies enabled to use this account:

1630 - Stores expense undistributed - The cost of supervision, labor and expenses incurred in the operation of general storerooms, including purchasing, storage, handling and distribution of materials and supplies.

Examples:

Labor:

1. Inspecting and testing materials and supplies when not assignable to specific items.
2. Unloading from shipping facility and putting in storage.
3. Supervision of purchasing and stores department to extent assignable to materials handled through stores.
4. Getting materials from stock and in readiness to go out.
5. Inventorying stock received or stock on hand by stores employees but not including inventories by general department employees as part of internal or general audits.
6. Purchasing department activities in checking material needs, investigating sources of supply, analyzing prices, preparing and placing orders, and related activities to extent applicable to materials handled through stores. (Optional. Purchasing department expenses may be included in administrative and general expenses.)
7. Maintaining stores equipment.
8. Cleaning and tidying storerooms and stores offices.
9. Keeping stock records, including recording and posting of material receipts and issues and maintaining inventory record of stock.
10. Collecting and handling scrap materials in stores.

Supplies and Expenses:

11. Adjustments of inventories of materials and supplies but not including large differences which can readily be assigned to important classes of materials and equitably distributed among the accounts to which such classes of materials have been charged since the previous inventory.
12. Cash and other discounts not practically assignable to specific materials.
13. Freight, express, etc., when not assignable to specific items.
14. Heat, light and power for storerooms and store offices.
15. Brooms, brushes, sweeping compounds and other supplies used in cleaning and tidying storerooms and stores offices.
16. Injuries and damages.
17. Insurance on materials and supplies and on stores equipment.
18. Losses due to breakage, leakage, evaporation, fire or other causes, less credits for amounts received from insurance, transportation companies or others in compensation of such losses.
19. Postage, printing, stationery and office supplies.
20. Rent of storage space and facilities.
21. Communication service.
22. Excise and other similar taxes not assignable to specific materials.
23. Transportation expense on inward movement of stores and on transfer between storerooms but not including charges on materials recovered from retirements which shall be accounted for as part of cost of removal.

7350 - Miscellaneous production expenses - The cost of labor, materials used and expenses incurred in manufacturing gas production operations not includible in any of the foregoing accounts.

Examples:
Labor:
1. Supervising.
2. Cleaning gas works yard of coke dust and other waste materials.
3. Humidifying gas or oil fogging gas at the production plant.
4. Cutting grass and care of the grounds around the gas works.
5. Clearing gas works yard of snow.
6. Janitor service and messenger service.
7. Operating elevators and other conveyances for general use at the gas works.
8. General clerical and stenographic work at gas works.
9. Guarding and patrolling plant and yard.
10. Testing plant instruments not elsewhere provided for.
11. Laboratory labor, except that chargeable to other accounts.
12. Reading manufactured gas meters, and calculating and recording hourly volumes produced.
13. Pumping drips (water) at plant (not provided for elsewhere).
14. Odorizing manufactured gas.
15. Operating, cleaning, and lubricating of air compressors with their tanks, instruments, meters, gauges, and controls when used to supply compressed air into the plant's air system.
16. Operating effluent water treatment systems, including chemical treatment ozonation, filter, and related equipment, including treatment of carbon and residual sludge, and removing spent oxide, and spent filtering materials.
17. Pumping water for cooling and condensing.
18. Cleaning filters and other operating duties of water system.

Materials and expenses:
19. Producer gas transferred from coke oven plant to water gas plant for dilution purposes.
20. Building service, communication service, transportation.
21. First aid supplies and safety equipment.
22. Office supplies, printing and station- ery.
23. Meals, travelling and incidental expenses.
24. Fuel for heating plant, water for fire protection or general use, and similar items.
25. Lubricants, packing, waste, etc.
26. Odorizing chemicals.

27. Hand tools, drills, saw blades, files, etc.
28. Fire protection supplies.
29. Fogging oils, alcohol, etc.
30. Chemicals, filter materials, etc., and payments to others for disposal of plant effluents and waste.
31. Chemicals for water treatment.
32. Research, development, and demonstration expenses.

Account: (Production Expenses) – Income Statement

7540 - Field compressor station expenses - The cost of labor, materials used, except fuel, and expenses incurred in operating field compressor stations.

Examples:

Labor:

1. Supervising.
2. Operating and checking engines, equipment valves, machinery, gauges, and other instruments, including cleaning, wiping, pol- ishing, and lubricating.
3. Operating boilers and boiler accessory equipment, including fuel handling and ash disposal, recording fuel used, and unloading and storing coal and oil.
4. Repacking valves and replacing gauge glasses, etc.

5. Recording pressures, replacing charts, keeping logs, and preparing reports of station operations.
6. Inspecting and testing equipment when not specifically to determine necessity for repairs or replacement of parts.
7. Pumping drips at the station.
8. Taking dew point readings.
9. Testing water.
10. Cleaning structures, cutting grass and weeds, and minor grading around station.
11. Cleaning and repairing hand tools used in operations.
12. Driving trucks.
13. Watching during shut downs.
14. Clerical work at station.

Materials and expenses:
15. Scrubber oil.
16. Lubricants, wiping rags, and waste.
17. Charts and printed forms, etc.
18. Gauge glasses.
19. Chemicals to test waters.
20. Water tests and treatment by other than employees.
21. Janitor and washroom supplies, first aid supplies, landscaping supplies, etc.
22. Employees' transportation and travel expenses.
23. Freight, express, parcel post, trucking, and other transportation.
24. Utility services: light, water, telephone.

7560 - Field measuring and regulating station expenses - The cost of labor, materials used and expenses incurred in operating field measuring and regulating stations.

Examples:
Labor:
1. Supervising.
2. Recording pressures and changing charts, reading meters, etc.
3. Estimating lost meter registrations, etc., except gas purchases and sales.
4. Calculating gas volumes from meter charts, except for gas purchases and sales.
5. Adjusting and calibrating measuring equipment, changing meters, orifice plates, gauges, clocks, etc., not in connection with maintenance or construction.
6. Testing gas samples, inspecting and testing gas sample tanks and other meter engineer's equipment, determining specific gravity and Btu content of gas.
7. Inspecting and testing equipment not specifically to determine necessity for repairs including pulsation tests.
8. Cleaning and lubricating equipment.
9. Keeping log and other operating records, preparing reports of operations, etc.
10. Attending boilers and operating other accessory equipment.
11. Installing and removing district gauges for pressure survey.
12. Thawing freeze in gauge pipes.
13. Inspecting and pumping drips, dewatering manholes and pits, inspecting sumps, cleaning pits, etc., blowing meter drips.
14. Moving equipment, minor structures, etc., not in connection with construction, retirement, or maintenance work.

Materials and expenses:
15. Charts and printed forms, stationery and office supplies, etc.
16. Lubricants, wiping rags, waste.
17. Employees' transportation and travel expense.
18. Freight, express, parcel post, trucking and other transportation.
19. Utility services: light, water, telephone.

7570 - Purification expenses - The cost of labor, materials used and expenses incurred in operating equipment used for purifying, dehydrating, and conditioning of natural gas.

Examples:
Labor:
1. Supervising.
2. Changing charts on fuel meters.
3. Emptying, cleaning and refilling puri- fier boxes.
4. Oiling dip sheets of purifier covers.
5. Removing spent oxide to refuse piles.
6. Revivifying oxide.
7. Taking readings of inlet and outlet pressures and temperature.

8. Unloading and storing glycol.
9. Watching station and equipment.
10. Cutting grass and weeds, and minor grading around equipment and stations.
11. Hauling operating employees, materials, supplies and tools, etc.
12. Inspecting and testing equipment, not specifically to determine necessity for repairs or replacement of parts.
13. Lubricating equipment, valves, etc.
14. Operating and checking equipment, valves, instruments, etc.

Materials and expenses:
15. Liquid purifying supplies.
16. Iron oxide.
17. Odorizing materials.
18. Charts, printed forms, etc.
19. Employees' transportation and travel expenses.
20. Freight, express, parcel post, trucking, and other transportation.

8150 - Maps and records - The cost of labor, materials used and expenses incurred in the preparation and maintenance of storage maps and land records.

Examples:
Labor:
With respect to land records:
1. Supervising.
2. Abstracting titles to date for extension and renewal of leases.
3. Adjusting land and well rentals.
4. Renewing and extending leases or replacing leases not involving additional consideration.
5. Transferring, assigning, pooling, and merging leases.
6. Delivering rental checks.
7. Clerical work in maintaining storage land and lease records.
8. Preparing and maintaining lease expiration calendars.

With respect to maps:
9. Supervising.
10. Preparing maps, well location plats, etc.
11. Reproducing maps (blueprints or photostats).
12. Posting and revising maps.
13. Surveying deeds, leases, rights-of-way, well locations, etc., for map revisions.
14. Maintaining files of maps and tracings.
15. Field checking boundaries, markers, etc. in connection with preparation of maps.

Materials and expenses (general):
16. Reproduction of land and lease records and maps (blueprints, photostats, etc.).
17. Drafting materials and supplies.
18. Surveying materials and supplies.
19. Employees' transportation and travel expenses.

Account: (Storage Expenses) – Income Statement

8200 - Measuring and regulating station expenses - The cost of labor, materials used and expenses incurred in operating underground storage measuring and regulating stations.

Examples:

Labor:

1. Supervising.
2. Recording pressures and changing charts, reading meters, etc.
3. Estimating lost meter registrations, etc. except gas purchases and sales.
4. Calculating gas volumes from meter charts except gas purchases and sales.
5. Adjusting and calibrating measuring equipment, changing meters, orifice plates, gauges, clocks, etc., not in connection with construction or maintenance.
6. Testing gas samples, inspecting and testing gas sample tanks and other meter engineers equipment, determining specific gravity and Btu content of gas.
7. Inspecting and testing equipment not specifically to determine necessity for repairs, including pulsation tests.
8. Cleaning and lubricating equipment.
9. Keeping log and other operating records, preparing reports of operation, etc.
10. Attending boilers and operating other accessory equipment.
11. Installing and removing district gauges for pressure survey.
12. Thawing freeze in gauge pipe.
13. Inspecting and pumping drips, dewatering manholes and pits, inspecting sumps, cleaning pits, etc., blowing meter drips.
14. Moving equipment, minor structures, etc., not in connection with maintenance or construction.

Materials and expenses:

15. Charts and printed forms, stationery and office supplies, etc.
16. Lubricants, wiping rags, waste.

17. Employees' transportation and travel expense.
18. Freight, express, parcel post, trucking and other transportation.
19. Utility services: light, water, telephone.

8210 - Purification expenses - The cost of labor, materials used and expenses incurred in operating equipment used for purifying, dehydrating, and conditioning of natural gas in connection with underground storage operations.

Examples:

Labor:

1. Supervising.
2. Changing charts on fuel meters.
3. Emptying, cleaning and refilling purifier boxes.
4. Oiling dip sheets of purifier covers.
5. Removing spent oxide to refuse piles.
6. Revivifying oxide.
7. Taking readings of inlet and outlet pressures and temperature.
8. Unloading and storing glycol.
9. Watching station and equipment.
10. Cutting grass and weeds, and minor grading around equipment and stations.
11. Hauling operating employees, materials, supplies and tools, etc.
12. Inspecting and testing equipment, not specifically to determine necessity for repairs or replacement of parts.
13. Lubricating equipment, valves, etc.
14. Operating and checking equipment, valves, instruments, etc.

Materials and expenses:

15. Liquid purifying supplies.
16. Iron oxide.
17. Odorizing materials.
18. Charts, printed forms, etc.
19. Employees' transportation and travel expenses in connection with purification and dehydration operations.

20. Freight, express, parcel post, trucking and other transportation.
21. Gas used in operations.
22. Janitor, washroom and landscaping supplies.
23. Lubricants, wiping rags, waste, etc.
24. Utility services: light, water, telephone.

Labor:

1. Supervising.
2. Operating, checking, lubricating, cleaning, and polishing equipment, machinery, valves, instruments, and other local storage equipment.
3. Reading meters, gauges and other instruments, changing charts, preparing operating reports, etc.
4. Pumping inlet and outlet holder drips.
5. Inspecting and testing equipment when not specifically for repairs or replacement of parts.

6. Cleaning structures and housing equipment, cutting grass and weeds, and doing minor grading work around structures and equipment.
7. Cleaning and repairing hand tools used for operations, etc.
8. Operating steam lines for heating storage facilities.

Materials and expenses:
9. Charts for pressure gauges and meters, printed forms, etc.
10. Lubricants, wiping rags, waste, etc.
11. Janitor and washroom supplies, land- scaping supplies, etc.
12. Employee travel and transportation expenses.
13. Freight, express, parcel post, trucking, and other transportation.
14. Utility services: light, water, and telephone.
15. Chemicals.
16. Refrigerants.
17. Research, development, and demonstration expenses.

Account: (Transmission Expenses) – Income Statement

8510 - System control and load dispatching - The cost of labor and expenses incurred in dispatching and controlling the supply and flow of gas through the system.

Examples:

Labor:

1. Supervising.
2. Analyses of pressures for irregularities, as received.
3. Collecting pressures by telephone and radio.
4. Controlling mixture of various gases to maintain proper Btu content.
5. Correspondence and records, typing and maintaining files.
6. Controlling production and storage inputs and withdrawals.
7. Instructing field men to increase or decrease pressures at regulators.

8. Maintaining pressures at compressor stations, key line junctions and regulating stations to divide the available gas during heavy demand periods.
9. Maintaining pressure log sheets.
10. Maintaining proper compression ratios at compressor stations, consistent with economical operations.
11. Maintaining lowest necessary line pressures consistent with satisfactory service.
12. Maintaining well operation record by well classification.
13. Requesting pressure changes at compressor stations, regulating stations, and key line junctions.
14. Rerouting gas during emergencies and planned shut downs.

Materials and expenses:
15. Consultants' fees and expenses.
16. Meals, traveling, and incidental expenses in connection with system load dispatching.
17. Office supplies, stationery and printed forms.
18. Transportation: company and rental vehicles.
19. Utility services: light, water, telephone.

8520 - Communication system expenses - The cost of labor, materials used and expenses incurred in connection with the operation of transmission communications facilities.

Examples:
Labor:
1. Supervising.

2. Operating switchboards, radio equipment, power generators, microwave equipment, etc. (except general office switchboards.)
3. Tagging telephone poles.
4. Testing and replacing telephone batteries, radio tubes, etc.
5. Cutting weeds and grass along telephone rights-of-way and around structures and equipment.
6. Changing radio frequencies.
7. Securing FCC authorization to change frequencies.
8. Taking FCC radio operator tests.
9. Transferring mobile radios between vehicles.
10. Changing locations of telephones and other communications equipment not in connection with maintenance or construction.
11. Inspecting and testing not specifically to determine necessity for repairs.
12. Cleaning and lubricating equipment.
13. Cleaning structures housing equipment.

Materials and expenses:
14. Payments to others for communications services.
15. Telephone batteries, radio tubes, etc.
16. Radio crystals and other materials used in changing radio frequencies.
17. Lubricants, wiping rags, and waste.
18. Employees' transportation and travel expenses.
19. Freight, express, parcel post, trucking, and other transportation.

Account: (Transmission Expenses) – Income Statement

8530 - Compressor station labor and expenses - The cost of labor, materials used and expenses incurred (other than fuel and power) in operating transmission compressor stations.

Examples:

Labor:

1. Supervising.
2. Operating and checking engines, equipment valves, machinery, gauges, and other instruments, including cleaning, wiping, pol- ishing, and lubricating.
3. Operating boilers and boiler accessory equipment, including fuel handling and ash disposal, recording fuel used, and unloading and storing coal and oil.
4. Repacking valves and replacing gauge glasses, etc.
5. Recording pressures, replacing charts, keeping logs, and preparing reports of station operations.
6. Inspecting and testing equipment not specifically to determine necessity for repairs.
7. Pumping drips at the station.
8. Taking dew point readings.
9. Testing water.
10. Cleaning structures housing equipment, cutting grass and weeds, and minor grading around station.
11. Cleaning and repairing hand tools used in operations.
12. Driving trucks.
13. Watching during shut downs.
14. Clerical work at station.

Materials and expenses:

15. Scrubber oil.
16. Lubricants, wiping rags, and waste.
17. Charts and printed forms, etc.
18. Gauge glasses.
19. Chemicals to treat water.
20. Water tests and treatment by other than employees.
21. Janitor and washroom supplies, first aid supplies, landscaping supplies, etc.
22. Employees' transportation and travel expenses.
23. Freight, express, parcel post, trucking, and other transportation.
24. Utility services: light, water, telephone.

8560 - Mains expenses - The cost of labor, materials used and expenses incurred in operating transmission mains.

Examples:

Labor:

1. Supervising.
2. Walking or patrolling lines.
3. Attending valves, lubricating valves and other equipment, blowing and cleaning lines and drips, draining water from lines, operating and cleaning scrubbers, thawing freezes.
4. Taking line pressures, changing pressure charts, operating alarm gauges.
5. Building and repairing gate boxes, foot bridges, stiles, etc., used in line operations, erecting line markers and warning signs, repairing old line roads.
6. Cleaning debris, cutting grass and weeds on rights-of-way.
7. Inspecting and testing not specifically to determine necessity for repairs.
8. Protecting utility property during work by others.
9. Standby time of emergency crews, responding to fire calls, etc.
10. Locating valve boxes or drip riser boxes.
11. Cleaning and repairing tools used in mains operations, making tool chests, etc.
12. Cleaning structures and equipment.
13. Driving trucks.

Materials and expenses:

14. Line markers and warning signs.
15. Lumber, nails, etc., used in building and repairing gate boxes, foot bridges, stiles, etc.
16. Charts.
17. Scrubber oil.
18. Hand tools.
19. Lubricants, wiping rags, waste, etc.
20. Freight, express, parcel post, trucking and other transportation.
21. Employees' transportation and travel expenses.

Account: (Transmission Expenses) – Income Statement

8570 - Measuring and regulating station expenses - The cost of labor, materials used and expenses incurred in operating transmission measuring and regulating stations.

Examples:
Labor:

1. Supervising.
2. Recording pressures and changing charts, reading meters, etc.
3. Estimating lost meter registrations, etc., except gas purchases and sales.
4. Calculating gas volumes from meter charts, except gas purchases and sales.
5. Adjusting and calibrating measuring equipment, changing meters, orifice plates, gauges, clocks, etc. not in connection with construction or maintenance.
6. Testing gas samples, inspecting and testing gas sample tanks and other meter engineers' equipment, determining specific gravity and Btu content of gas.
7. Inspecting and testing equipment not specifically to determine necessity for repairs including pulsation tests.
8. Cleaning and lubricating equipment.
9. Keeping log and other operating records, preparing reports of operations, etc.
10. Attending boilers and operating other accessory equipment.
11. Installing and removing district gauges for pressure survey.
12. Thawing freeze in gauge pipe.
13. Inspecting and pumping drips, dewatering manholes and pits, inspecting sumps, cleaning pits, etc., blowing meter drips.
14. Moving equipment, minor structures, etc., not in connection with maintenance or construction.

Materials and expenses:
15. Charts and printed forms.
16. Lubricants, wiping rags, waste.
17. Employees' transportation and travel expense.
18. Freight, express, parcel post, trucking and other transportation.
19. Utility services: light, water, telephone.

Account: (Distribution Expenses) – Income Statement

8710/8711 - Distribution load dispatching/Oderization - The cost of labor, materials used and expenses incurred in dispatching and controlling the supply and flow of gas through the distribution system.

Examples:

Labor:

1. Supervising.
2. Analyzing pressures for irregularities.
3. Collecting pressures by telephone and radio.
4. Controlling mixture of various gases to maintain proper Btu content.
5. Correspondence and records, typing and maintaining files.
6. Controlling gas-make and inputs to distribution system.
7. Maintaining pressures at key points to divide the available gas during heavy demand periods.
8. Maintaining pressure log sheets.
9. Maintaining lowest necessary line pressures consistent with satisfactory service.
10. Rerouting gas during emergencies and planned shut downs.

Materials and expenses:

11. Consultants' fees and expenses.
12. Meals, traveling, and incidental expenses.
13. Office supplies, stationery and printed forms.
14. Transportation: company and rented vehicles.
15. Utility services: light, water, telephone.

Account: (Distribution Expenses) – Income Statement

8720 - Compressor station labor and expenses - The cost of labor, materials used and expenses incurred in operating distribution compressor stations.

Examples:

Labor:

1. Supervising.
2. Operating and checking engines, equipment valves, machinery, gauges, and other instruments, including cleaning, wiping, pol- ishing, and lubricating.
3. Operating boilers and boiler accessory equipment, including fuel handling and ash disposal, recording fuel used, and unloading and storing coal and oil.
4. Repacking valves and replacing gauge glasses, etc.
5. Recording pressures, replacing charts, keeping logs, and preparing reports of station operations.
6. Inspecting and testing equipment and instruments when not specifically to determine necessity for repairs or replacement of parts.
7. Pumping drips at the station.
8. Taking dew point readings.
9. Testing water.
10. Cleaning structures housing equipment, cutting grass and weeds, and doing minor grading around station.
11. Cleaning and repairing hand tools used in operations.
12. Driving trucks.
13. Watching during shut downs.
14. Clerical work at station.

Materials and expenses:

15. Scrubber oil.
16. Lubricants, wiping rags, and waste.
17. Charts and printed forms, etc.
18. Gauge glasses.
19. Chemicals to test water.
20. Water tests and treatment by other than employees.
21. Janitor and washroom supplies, first aid supplies, landscaping supplies, etc.
22. Employees' transportation and travel expenses.
23. Freight, express, parcel post, trucking, and other transportation.
24. Utility services: light, water, telephone.

Account: (Distribution Expenses) – Income Statement

8740 - Mains and services expenses - The cost of labor, materials used and expenses incurred in operating distribution system mains and services.

Examples:

Labor:

1. Supervising.
2. Walking or patrolling lines.
3. Attending valves, lubricating valves and other equipment, blowing and cleaning lines and drips, draining water from lines, thawing freezes.
4. Taking line pressures, changing pressure charts, operating alarm gauges.
5. Building and repairing gate boxes, foot bridges, stiles, etc. used in distribution mains operations, erecting line markers and warning signs, etc.
6. Cleaning debris, cutting grass and weeds on rights-of-way.
7. Inspecting and testing equipment not specifically to determine necessity for repairs.
8. Protecting utility property during work by others.
9. Standby time of emergency crews, responding to fire calls, etc.
10. Locating and inspecting valve boxes or drip riser boxes, service lines, mains, etc.
11. Cleaning and repairing tools used in mains operations, making tool boxes, etc.
12. Cleaning structures and equipment.
13. Driving trucks used in mains and service operations.
14. Making routine leak survey.
15. Oil fogging.

Materials and Expenses:

1. Line markers and warning signs.
2. Lumber, nails, etc., used in building and repairing gate boxes (foot bridges, stiles, tool boxes, etc.).
3. Charts and printed forms.
4. Scrubber oils.
5. Hand tools.
6. Lubricants, wiping rags, waste, etc.
7. Freight, express, parcel post, trucking and other transportation.
8. Uniforms.
9. Employee transportation and travel expenses.
10. Janitor and washroom supplies.
11. Utility services: light, water, telephone.
12. Gas used in mains operation.
13. Oil for fogging.

Account: (Distribution Expenses) – Income Statement

8750 - Measuring and regulating station expenses—General - The cost of labor, materials used and expenses incurred in operating general distribution measuring and regulating stations.

Examples:

Labor:

1. Supervising.
2. Recording pressures and changing charts, reading meters, etc.
3. Estimating lost meter registrations, etc. except purchases and sales.
4. Calculating gas volumes from meter charts, except gas purchases and sales.
5. Adjusting and calibrating measuring equipment, changing meters, orifice plates, gauges, clocks, etc.

6. Taking and testing gas samples, inspecting and testing valves, regulators, gas sample tanks and other meter engineers' equipment, determining specific gravity and Btu content of gas.
7. Inspecting & testing equipment and instruments not specially to determine necessity for repairs, including pulsation tests.
8. Cleaning and lubricating equipment.
9. Keeping log and other operating records.
10. Attending boilers and operating other accessory equipment.
11. Installing and removing district gauges for pressure survey.
12. Thawing freeze in gauge pipe.
13. Inspecting and pumping drips, dewatering manholes and pits, inspecting sumps, cleaning pits, blowing meter drips, etc.
14. Moving equipment, minor structures, etc., not in connection with maintenance or construction.

Materials and expenses:
15. Charts and printed forms, stationery and office supplies, etc.
16. Lubricants, wiping rags, waste.
17. Uniforms.
18. Employee transportation and travel expenses.
19. Freight, express, parcel post, trucking and other transportation.

Account: (Distribution Expenses) – Income Statement

8770 - Measuring and regulating station expenses—City gate check stations - The cost of labor, materials used and expenses incurred in operating measuring and regulating stations used to measure and regulate the receipt of gas at entry points to distribution systems.

Examples:

Labor:

1. Supervising.
2. Recording pressures and changing charts, reading meters, etc.
3. Estimating lost meter registrations, etc. except purchases and sales.
4. Calculating gas volumes from meter charts, except gas purchases and sales.
5. Adjusting and calibrating measuring equipment, changing meters, orifice plates, gauges, clocks, etc.
6. Taking and testing gas samples, inspecting and testing valves, regulators, gas sample tanks and other meter engineers' equipment, determining specific gravity and Btu content of gas.
7. Inspecting & testing equipment and instruments not specially to determine necessity for repairs, including pulsation tests.
8. Cleaning and lubricating equipment.
9. Keeping log and other operating records.
10. Attending boilers and operating other accessory equipment.
11. Installing and removing district gauges for pressure survey.
12. Thawing freeze in gauge pipe.
13. Inspecting and pumping drips, dewatering manholes and pits, inspecting sumps, cleaning pits, blowing meter drips, etc.
14. Moving equipment, minor structures, etc., not in connection with maintenance or construction.

Materials and expenses:

15. Charts and printed forms, stationery and office supplies, etc.
16. Lubricants, wiping rags, waste.
17. Uniforms.
18. Employee transportation and travel expenses.
19. Freight, express, parcel post, trucking and other transportation.
20. Utility services: light, water, telephone.

Account: (Distribution Expenses) – Income Statement

8780 - Meter and house regulator expenses - The cost of labor, materials used and expenses incurred in connection with removing, resetting, changing, testing, and servicing customer meters and house regulators.

Examples:

Labor:

(a) Removing, reinstalling, and changing or exchanging customer meters and house regulators:

1. Initiating or terminating service, including incidental meter reading.
2. Periodic replacement of meters and house regulators because of age.
3. Changing or exchanging meters and house regulators because of complaints or removal for inspection.
4. Resetting meters on existing connections.
5. Handling meters and house regulators to and from customer premises and meter shop.
6. Listing, tagging, and placing meter labels, etc., for removed and reset meters.
7. Changing position of meters or house regulators on the same premises.
8. Installing or removing blank linings.
9. Unproductive calls, etc.

(b) Turning on and turning off meters, except for failures of customers to pay bills:

10. Turning on meters, including necessary time to insure that gas lines are proper to use and that appliances are in usable condition.
11. Turning off meters including time to make safety precautions.

(c) Other:

12. Supervising.
13. Clerical work on meter history and associated equipment record cards, test cards, and reports.
14. Handling and recording meters for stock.
15. Inspecting and testing meters and house regulators.
16. Inspecting and adjusting meter testing equipment.
17. Driving trucks used in meter operations.

Materials and expenses:

18. Meter locks and seals.
19. Lubricants, wiping rags, waste, etc.
20. Uniforms.

21. Freight, express, parcel post, trucking, and other transportation.
22. Utility services: light, water, telephone, heating.
23. Office supplies, stationery and printing.
24. Employees' transportation expenses.
25. Janitor, washroom, first aid supplies, etc.

8790 - Customer installations expenses - The cost of labor, materials used and expenses incurred in work on customer premises other than expenses includible in account 8780.

Examples:

Labor:

1. Supervising.
2. Altering customer-owned service extensions or meter connections.
3. Investigating and correcting pressure difficulties or stoppages in customer-owned piping.
4. Adjusting and repairing burner pilots because of impurities in the gas or failure of the distribution system.
5. Oiling or spraying noisy customer meters.
6. Investigating and stopping gas leaks on customers' premises caused by defective meter, customer-owned piping, or customer appliances.
7. Inspecting new installations to determine that the customers' equipment and piping are properly installed and connected.
8. Consolidating meter installations, without change of size, due to elimination of separate meters for different service classifications.
9. Investigating and adjusting complaints of service on customers' premises.
10. Gas load surveys including the incidental preparations and replacement of meters.
11. Unproductive calls.
12. Stenographic and clerical work.
13. Janitorial services, etc.
14. Installing demand or test meters.
15. Inspecting, cleaning, repairing and adjusting customer-owned appliances for domestic, industrial, or commercial use, including house heating furnaces and other space heating appliances, hotel and restaurant appliances.
16. Replacing defective parts in customer-owned appliances and salvaging reusable appliance parts.

Materials and expenses:

17. Lubricants, wiping rags, waste, etc.
18. Uniforms.
19. Replacement parts for appliances.
20. Office supplies, printing and stationery.
21. Janitor, washroom, first aid supplies, etc.
22. Employees' transportation and travel expenses.
23. Utility services: light, water, telephone.

Account: (Distribution Expenses) – Income Statement

8870 - Maintenance of mains - The cost of labor, materials used and expenses incurred in the maintenance of distribution mains.

Examples:

1. Supervising.
2. Trenching, backfilling, and breaking and restoring pavement in connection with the installation of leak or reinforcing clamps.
3. Work performed as the result of municipal improvements, such as street widening, sewers, etc., where the gas mains are not retired.
4. Municipal inspections relating to maintenance work.
5. Other work of the following character:

a. Locating leaks incident to maintenance.
b. Cutting off mains without replacement. (Minor cuts not retired.)
c. Repairing leaking joints.
d. Repairing broken mains.
e. Repairing leaks on main drip riser or valve test pipe.
f. Bringing main valve box, main drip riser box, valve test pipe box, or pressure pipe roadway box up to grade.
g. Cleaning, repainting, coating, and wrapping exposed mains.
h. Repacking main valves.
i. Locating and clearing gas main faults.
j. Lowering and changing location of mains.
k. Trenching, backfilling, cutting-in or removal of pipe not retired in connection with the installation of leak clamps, valves, or drips.
l. Watching and lamping open cuts associated with maintenance.
m. Restoration of permanent pavement in connection with work chargeable to maintenance.
n. Emergency stand-by time associated with maintenance.
o. Repairing sewers, drains, walls, etc., when damaged by maintenance work.
p. Making electrolysis tests to maintain life of plant.
q. Repairing property of others damaged by maintenance work.

8920 - Maintenance of services - The cost of labor, materials used and expenses incurred in the maintenance of services.

Examples:

1. Supervising.
2. Testing pipe for leaks and condition of wrapping.
3. Testing for, locating, and clearing trouble on company maintained services.
4. Inspecting and testing after repairs have been made.
5. Reporting on the condition of gas serv- ices to determine the need for repairs.
6. Making minor repairs and changes.
7. Rearranging and changing the location of services not retired.
8. Repairing service valves for reuse.
9. Stopping leaks on service pipes and drip risers.
10. Lowering and raising curb boxes to grade.
11. Replacing less than a complete service when not retired.
12. Installing fittings, valves, drips, frost protection devices, or replacing similar items on existing services.
13. Cutting and replacing pavement, pavement base and sidewalks in connection with maintenance work.

14. Restoring condition of services damaged by fire, storm, leakage, flood, accident or other casualties.
15. Repairing property of others damaged by maintenance work.
16. Transferring services in connection with the installation of new mains.
17. Installing, maintaining, and removing temporary facilities to prevent the interruption of service.
18. Converting low pressure gas distribution service to medium or high pressure service.
19. Relocating and rerouting gas service temporarily during alterations of buildings.
20. Performing work resulting from municipal improvements, such as street widening, sewers, etc.
21. Replacing service valve box or drip riser box.
22. Installing, removing or replacing service valve, drip pot, or drip riser.
23. Repacking service valve.

Account: (Customer Accounts Expenses) – Income Statement

9020 - Meter reading expenses - The cost of labor, materials used and expenses incurred in reading customer meters, and determining consumption when performed by employees engaged in reading meters.

Examples:

Labor:

1. Addressing forms for obtaining meter readings by mail.
2. Changing and collecting meter charts used for billing purposes.
3. Inspecting time clocks, checking seals, etc., when performed by meter readers and the work represents a minor activity incidental to regular meter reading routine.
4. Meter reading—small consumption, and obtaining load information for billing purposes. (Exclude and charge to account 878, Meter and House Regulator Expenses, or to account 903, Customer Records and Collection Expenses, as applicable, the cost of obtaining meter readings, first and final, if incidental to the operation of removing or resetting, sealing or locking, and disconnecting, or reconnecting meters.)
5. Measuring gas—large consumption, including reading meters, changing charts, calculating charts, estimating lost meter registrations, determining specific gravity, etc., for billing purposes.
6. Computing consumption from meter reader's book or from reports by mail when done by employees engaged in reading meters.
7. Collecting from prepayment meters when incidental to meter reading.
8. Maintaining record of customers' keys.
9. Computing estimated or average consumption when performed by employees engaged in reading meters.

Materials and expenses:

10. Badges, lamps, and uniforms.
11. Demand charts, meter books and binders and forms for recording readings, but not the cost of preparation.
12. Postage and supplies used in obtaining meter readings by mail.
13. Transportation, meals and incidental expenses.

Account: (Customer Accounts Expenses) – Income Statement

9030 - Customer records and collection expenses - The cost of labor, materials used and expenses incurred in work on customer applications, contracts, orders, credit investigations, billing and accounting, collections and complaints.

Examples:

Labor:

1. Receiving, preparing, recording and handling routine orders for service, disconnections, transfers or meter tests initiated by the customer, excluding the cost of carrying out such orders, which is chargeable to the account appropriate for the work called for by such orders.
2. Investigations of customers' credit and keeping of records pertaining thereto, including records of uncollectible accounts written off.
3. Receiving, refunding or applying customer deposits and maintaining customer deposit, line extension, and other miscellaneous records.
4. Checking consumption shown by meter readers' reports where incidental to preparation of billing data.
5. Preparing address plates and addressing bills and delinquent notices.
6. Preparing billing data.
7. Operating billing and bookkeeping machines.
8. Verifying billing records with contracts or rate schedules.
9. Preparing bills for delivery, and mailing or delivering bills.
10. Collecting revenues, including collection from prepayment meters unless incidental to meter reading operations.
11. Balancing collections, preparing collections for deposit, and preparing cash reports.
12. Posting collections and other credits or charges to customer accounts and extending unpaid balances.
13. Balancing customer accounts and controls.
14. Preparing, mailing, or delivering delinquent notices and preparing reports of delinquent accounts.
15. Final meter reading of delinquent accounts when done by collectors incidental to regular activities.
16. Disconnecting and reconnecting services because of nonpayment of bills.

17. Receiving, recording, and handling of inquiries, complaints, and requests for investigations from customers, including preparation of necessary orders, but excluding the cost of carrying out such orders, which is chargeable to the account appropriate for the work called for by such orders.
18. Statistical and tabulating work on customer accounts and revenues, but not including special analyses for sales department, rate department, or other general purposes, unless incidental to regular customer accounting routines.
19. Preparing and periodically rewriting meter reading sheets.
20. Determining consumption and computing estimated or average consumption when performed by employees other than those engaged in reading meters.

Materials and expenses:
21. Address plates and supplies.
22. Cash overages and shortages.
23. Commissions or fees to others for collecting.
24. Payments to credit organizations for investigations and reports.
25. Postage.
26. Transportation expenses, including transportation of customer bills and meter books under centralized billing procedure.
27. Transportation, meals, and incidental expenses.
28. Bank charges, exchange, and other fees for cashing and depositing customers' checks.
29. Forms for recording orders for services, removals, etc.
30. Rent of mechanical equipment.

9080 - Customer assistance expenses - The cost of labor, materials used, and expenses incurred in providing instructions or assistance to customers, the object of which is to promote safe, efficient and economical use of the utility's service.

Examples:

Labor:

1. Direct supervision of department.
2. Processing customer inquiries relating to the proper use of gas equipment, the replacement of such equipment and information related to such equipment.
3. Advice directed to customers as to how they may achieve the most efficient and safest use of gas equipment.
4. Demonstrations, exhibits, lectures, and other programs designed to instruct customers in the safe, economical or efficient use of gas service, and/or oriented toward conservation of energy.
5. Engineering and technical advice to customers, the object of which is to promote safe, efficient and economical use of the utility's service.

Materials and expenses:

6. Supplies and expenses pertaining to demonstrations, exhibits, lectures, and other programs.
7. Loss in value on equipment and appliances used for customer assistance programs.
8. Office supplies and expenses.
9. Transportation, meals, and incidental expenses.

9090 - Informational and instructional advertising expenses - The cost of labor, materials used and expenses incurred in activities which primarily convey information as to what the utility urges or suggests customers should do in utilizing gas service to protect health and safety, to encourage environmental protection, to utilize their gas equipment safely and economically, or to conserve natural gas.

Examples:

Labor:

1. Direct supervision of informational activities.
2. Preparing informational materials for newspapers, periodicals, billboards, etc., and preparing and conducting informational motion pictures, radio and television programs.
3. Preparing informational booklets, bulletins, etc., used in direct mailings.
4. Preparing informational window and other displays.
5. Employing agencies, selecting media and conducting negotiations in connection with the placement and subject matter of information programs.

Materials and expenses:

6. Use of newspapers, periodicals, billboards, radio, etc., for informational purposes.
7. Postage on direct mailings to customers exclusive of postage related to billings.
8. Printing of informational booklets, dodgers, bulletins, etc.
9. Supplies and expenses in preparing informational materials by the utility.
10. Office supplies and expenses.

9120 - Demonstrating and selling expenses - The cost of labor, materials used and expenses incurred in promotional, demonstrating, and selling activities, except by merchandising, the object of which is to promote or retain the use of utility services by present and prospective customers.

Examples:

Labor:

1. Demonstrating uses of utility services.
2. Conducting cooking schools, preparing recipes, and related home service activities.
3. Exhibitions, displays, lectures, and other programs designed to promote use of utility services.
4. Experimental and development work in connection with new and improved appliances and equipment, prior to general public acceptance.

5. Solicitation of new customers or of additional business from old customers, including commissions paid employees.
6. Engineering and technical advice to present or prospective customers in connection with promoting or retaining the use of utility services.
7. Special customer canvasses when their primary purpose is the retention of business or the promotion of new business.

Materials and expenses:
8. Supplies and expenses pertaining to demonstration, and experimental and development activities.
9. Booth and temporary space rental.
10. Loss in value on equipment and appliances used for demonstration purposes.
11. Transportation, meals, and incidental expenses.

Account: (Sales Expenses) – Income Statement

9130 - Advertising expenses - The cost of labor, materials used and expenses incurred in advertising designed to promote or retain the use of utility service, except advertising the sale of merchandise by the utility.

Examples:

Labor:

1. Direct supervision of department.
2. Preparing advertising material for newspapers, periodicals, billboards, etc., and preparing and conducting motion pictures, radio and television programs.
3. Preparing booklets, bulletins, etc., used in direct mail advertising.
4. Preparing window and other displays.
5. Clerical and stenographic work.
6. Investigating advertising agencies and media and conducting negotiations in connection with the placement and subject matter of sales advertising.

Materials and expenses:

7. Advertising in newspapers, periodicals, billboards, radio, etc., for sales promotion purposes, but not including institutional or goodwill advertising includible in account 930.1, General Advertising Expenses.
8. Materials and services given as prizes or otherwise in connection with canning, or cooking contests, bazaars, etc., in order to publicize and promote the use of utility services.
9. Fees and expenses of advertising agencies and commercial artists.
10. Novelties for general distribution.
11. Postage on direct mail advertising.
12. Premiums distributed generally, such as recipe books, etc., when not offered as inducement to purchase appliances.
13. Printing booklets, dodgers, bulletins, etc.
14. Supplies and expenses in preparing advertising material.
15. Office supplies and expenses.

9250 - Injuries and damages - The cost of insurance or reserve accruals to protect the utility against injuries and damages claims of employees or others, losses of such character not covered by insurance, and expenses incurred in settlement of injuries and damages claims and the cost of labor and related supplies and expenses incurred in injuries and damages activities. Reimbursements from insurance companies or others for expenses charged will be credited to this account.

Examples:

1. Premiums payable to insurance companies for protection against claims from injuries and damages by employees or others, such as public liability, property damages, casualty, employee liability, etc., and amounts credited to account 228.2, Accumulated Provision for Injuries and Damages; for similar protection.
2. Losses not covered by insurance or reserve accruals on account of injuries or deaths to employees or others and damages to the property of others.
3. Fees and expenses of claim investigators.
4. Payment of awards to claimants for court costs and attorneys' services.
5. Medical and hospital service and expenses for employees as the result of occupational injuries, or resulting from claims of others.
6. Compensation payments under workmen's compensation laws.
7. Compensation paid while incapacitated as the result of occupational injuries. (See Note A.)
8. Cost of safety, accident prevention and similar educational activities.

9260 - Employee pensions and benefits - Pensions paid to or on behalf of retired employees or accruals to provide for pensions or payments for the purchase of annuities for this purpose, when the utility has committed itself to a pension plan. Also include expenses incurred in medical, educational, recreational and administrative expenses in connection with employee pensions and benefits.

Examples:

1. Payment of pensions under a non-accrual or non-funded basis.
2. Accruals for or payments to pension funds or to insurance companies for pension purposes.
3. Group and life insurance premiums (credit dividends received).
4. Payments for medical and hospital services and expenses of employees when not the result of occupational injuries.
5. Payments for accident, sickness, hospital, and death benefits or insurance.
6. Payments to employees incapacitated for service or on leave of absence beyond periods normally allowed, when not the result of occupational injuries, or in excess of statutory awards.
7. Expenses in connection with educational and recreational activities for the benefit of employees.

002	**1131** SS Dallas Media Relations	Costs associated with communicating customer service and safety messages to the media, business and industry leaders. Costs associated with crisis communications functions including training staff on media relations, interviews, press conferences, and press queries to better inform the public and our customers in a crisis. Costs associated with video creation and dissemination to the public to educate customers and stakeholders on the environmental and safe and reliable benefits of natural gas.

Division	Cost Center	Description
002	**1132** SS Dallas Investor Relations	Performs a number of significant activities directly related to attracting capital investment and maintaining important relationships with the investing community. Such activities include, but are not limited to: 1.) Accompanying executive management at all discussions with the investing public and financial press to maintain compliance with SEC Regulation FD, applicable to all publicly trade companies. 2.) Initiating, building and maintaining relationships with the financial analyst community and individual investors, as well as serving as the first point of contact between the Company and institutional and individual investors. 3.) Preparing and presenting financial presentations throughout the year as needed and overseeing the issuance of financial press releases at least four times per year to report and explain the financial performance of the Company. 4.) Keeping executive management apprised of investor opinions and concerns. 5.) Reviewing research reports submitted by analysts and providing accurate feedback to foster reporting accuracy. 6.) Maintaining knowledge of other companies that are considered to be Atmos Energy's peers. 7.) Providing management and the Company's Board of Directors with information regarding developments in the financial markets and perceptions of investors that may have use in formulating the Company's long and short-term practices and policies. 8.) Serving on the Company's 7-member Financial Information Committee to review all SEC filings to ensure appropriate and accurate disclosures are made. 9.) Prepare and provide all operating divisions, treasurer, risk management, and all SSU departments with a comprehensive presentation explaining the strategy, financial performance, rate and regulatory strategy, etc. to use as a communication tool for all stakeholders. 10.) Overseeing the Stock Transfer Agent's administration of the Company's Direct Stock Purchase Plan and Dividend Reinvestment Plan, as well as ongoing plan redesign to ensure best practices. Providing investors with reliable, comprehensive information about the Company is a critical step in attracting equity investment capital. This information may be especially important in attracting non-institutional equity investors who do not have access to the range of analysts' reports, and attracting such investment has both near-term and longer-term direct benefits to the Company. The near-term benefits result from rising equity prices, which immediately translate to lower cost common equity, and ultimately ratemaking benefits through lower rates. For example, increased investment and higher equity prices lowers the yield calculation, as shown in the common Discounted Cash Flow formulation of the cost of capital. In a similar vein, the longer-term benefits derive from providing lower cost equity to maintain and expand the utility system.
002	**1133** SS Dallas Communications	Costs associated with internal and external corporate communications including the annual report to shareholders
002	**1134** SS Dallas IT	Costs associated with the VP, CIO who manages all IT functions, and the direct reports to the CIO
002	**1135** SS Dallas IT E&O, Corporate Systems	Costs associated with the maintenance and support of the Company's information systems (software)
002	**1137** SS Dal-IT Engineering & Operations	Costs associated with the maintenance and support of the Company's data center. Operational services include – ● IT Systems and network engineering ● Service desk ● Desktop support ● Hardware and software maintenance for infrastructure items ● Support and administration of our database and SAP Basis environments ● The IT Qualitiy Assurance (testing) processes, and

Division	Cost Center	Description
002	**1141** SS Dallas Gas Purchase Accounting	Costs associated with the accounting for the utility's distribution gas purchases.
002	**1144** SS Dallas Rate Administration	Costs associated with filing PGA, tariffs and recovering gas costs
002	**1145** SS Dallas Revenue Accounting	Costs associated with the accounting for the utility's distribution gross margin.
002	**1146** SS Dallas IT Enterprise Solutions	Non-capitalizable costs associated with capital projects or SaaS projects. Includes contractor expenses and software maintenance.
002	**1150** SS Dallas Strategic Planning	Costs associated with the VP, Strategic Planning who manages Business Planning & Analysis and Rates & Regulatory Affairs.
002	**1153** SS Dallas Distribution Acctg	Costs associated with the accounting for the utility's distribution revenues.
002	**1154** SS Dallas Rates & Regulatory	Costs associated with rate case and regulatory work. Purpose is to manage the Company's rate strategy for regulated rates as well as the rate and regulatory activity for Atmos' eight state operating area. The primary activity is the establishment of base rates through rate cases or formula ratemaking mechanisms. The department currently has approximately twenty base rate case filings or formula mechanisms to manage in order to effect rate changes in its various jurisdictions as well as monthly, quarterly and annual reports to meet reporting requirements.
002	**1155** SS Dallas Texas Gas Pipeline Acctg	Costs associated with accounting for the Texas and Louisiana gas pipeline systems.
012	**1156** SS Dal-IT Customer Services Systems	Costs associated with developing and supporting Customer Service technologies. Also includes development and support of the interfaces between our internal systems and external vendors; and support and administration of our business intelligence / reporting environment. Costs include labor, software maintenance, and related expenses.
012	**1158** SS CCC IT Support	Costs associated with supporting the IT activities in the Customer Contact Centers. Supports both the Amarillo and Waco customer contact centers, providing telephone and IT support for our contact centers. Costs in this center include hardware maintenance and software maintenance for call center equipment and software, and telephone access charges (not long distance).
002	**1159** SS Dallas VP of Workforce Development	Costs associated with the VP Workforce Development who oversees technical training and employee development activities across the enterprise.
002	**1161** SS Dallas Benefits & Payroll Acctg	Costs associated with management of payroll and benefits departments
002	**1164** SS Dallas IT Security	Costs associated with providing the strategic direction for Cyber Security in the organization. Also includes the costs related to providing telecommunications to the corporate office (lines, equipment, etc.), network operations center and security administration.
002	**1167** SS Dal-IT Enterprise Architecture	Costs associated with setting the strategic architecture for our information systems and infrastructure. Also includes the Project Management function.
002	**1171** SS Dallas Regulatory Accounting	Costs associated with regulatory accounting work on rate cases, special projects and other Commission requests as well as regulatory reporting to utility commissions, government and industry groups. This cost center was created to clearly identify personnel who devote their time to working on the regulatory accounting and reporting side of the business on rate cases, special projects, commission annual reports and other commission requests such as documenting the Company's cost allocation methodologies and capitalized overhead study.
002	**1201** SS Dallas President and CEO	Costs associated with the CEO
002	**1205** SS Dallas SVP Safety and Enterprise Services	Costs associated with the SVP Safety and Enterprise Services.

002	**1209** SS Dallas Safety & Compliance	Costs associated with safety compliance and security
012	**1212** SS CSC-Customer Contact Management	Costs associated with both the Waco and Amarillo Customer Support Centers.

012	**1213** SS Dallas Quality Assurance	Costs associated with monitoring calls to ensure customers are given correct information and that the correct processes and procedures are followed. This cost center was combined with Cost Center 1212 at the beginning of Fiscal 2017.
012	**1214** SS Dallas Workforce Management	Costs associated with forecasting call volume and scheduling agents to ensure we have people available to answer calls. This cost center was combined with Cost Center 1212 near the beginning of Fiscal 2017.
012	**1215** SS Dispatch Operations	Service Orders to Service techs for emergency calls and same day service. To alert first responders of emergency situations and to communicate service order information to the approximately 750 service technicians throughout the regulated divisions. Costs in this center include the labor and related expenses to staff the dispatch function twenty-four hours a day as well as building maintenance and telecom costs.
002/012	**1216** SS Dallas CSO Training & Knowledge Mgmt	Cost associated with the training of CSO employees.
002	**1221** SS Pipeline Administration	This cost center includes employees who work on the pipeline administration function who primarily serve our Louisiana industrial gas customers. These costs are primarily directly charged to TLGP (Trans Louisiana Gas Pipeline) and AELIG (Atmos Energy Louisiana Industrial Gas). The costs in this cost center do not get allocated to the utility companies or APT.
012	**1224** SS Dallas CSO Human Resources	Costs associated with Human Resources in the Customer Service Organization.
012	**1226** SS Dallas Customer Service	Costs of management and administration of customer service organization (revenue management, customer contact and program development). Includes overall CSO management and administration (excluding Human Resources which is included in CC1224) and Regulated Operations initiatives. CSO management provides support to the contact centers as well as other CSO departments.
002	**1227** SS Dallas Business Processes and Change Management	Define and implement business solutions and help employees understand, prepare for, and at on changes necessary to operate our business exceptionally well.
012	**1228** SS Dallas Customer Revenue Management	Costs associated with managing customer revenue functions of billing, payment applications and collections. This center provides day-to-day support and transaction processing for customers in all states served by Atmos. Also includes the outside vendor costs of bill printing, accepting payments and collection agency fees.
002	**1229** SS Dallas Pipeline Safety	Costs associated with the oversight of pipe replacement activities, pipeline safety, employee safety and technical training activities.
002	**1401** SS Dallas Employment & Employee Relations	Costs associated with recruiting, staffing and onboarding, as well as HR compliance processes, operations, audits, investigations and risk management. Purpose is to develop, implement and administer employment related activities including: employee relations, corporate compliance, AA/EEO plans and reporting, responses to regulatory and legal inquiries (EEOC, OFCCP, Drug and Alcohol, MVR's, Vets 100, etc.) selection, hiring and onboarding. Costs charged to this cost center include labor and related expenses, professional association dues, contract labor, legal fees and professional reference books. These costs are a necessary component in providing human resource services to our employees.
002	**1402** SS Dallas Executive Compensation	Costs associated with the compensation committee of the Board of Directors. Costs incurred for executive compensation work for the Human Resources Committee of the Atmos Energy Board of Directors. Also included are costs related to corporate officer annual physical exams paid by the Company. These costs are a necessary component of providing human resource services to the corporate officers that are necessary for the provision of safe and reliable service.
002	**1403** SS Dallas Human Resources - Vice Pres	Costs associated with the VP Human Resources.
002	**1405** SS Dallas Benefits	Costs associated with the management of the Company's benefit plans. The purpose is to ensure Atmos provides its employees the most cost effective benefit plans that are 1) competitive within the utility sector and general industry overall, and 2) consistently applied to all employees. Specifically, this cost center is accountable for: Group Medical Plan and Retiree Medical Plan; Group Dental Plan; Group Vision Plan; Wellness Plans (Compass, Advance Medical and Naturally Slim); Employee Assistance Plan; Group Life Insurance Plan; Optional Life Insurance Coverage (Group Variable Universal Life and Supplemental Term life for employee, dependent spouse and child(ren)); Flexible Benefits Plan; Health Savings Account; Business Travel & Accident Insurance; Service Awards Program; Defined Contribution Plan; Defined

		Benefit Plan; The Master Trust (holds assets of the defined benefit plan); Taxable and Tax Exempt VEBA Trusts; Pension Payments to 1,500 retirees; Collection of Retiree Medical Contributions; Workers' Compensation; Neuromuscular Corporate Solutions; Group Long-Term Disability Plan; Short-Term Disability; Family Medical Leave; and Supplemental Benefits Plan (executive).
002	**1407** SS Dallas Facilities	Costs associated with the management of the Company's facilities (offices)
002	**1408** SS Dallas Employee Development	Costs associated with designing, developing and implementing training and development opportunities for all employees in areas of customer service, leadership, culture shaping and communication. All training and development costs including those that go into the development and delivery of training programs or participant manuals go into this cost center. This cost center also provides training and development support to both customer support centers and all divisions.
002	**1414** SS Tech Training Delivery	Costs associated with technical training delivery
002	**1415** SS Tech Training Prog & Curriculum	Costs associated with the technical training curriculum and program development
002	**1416** SS Dallas Compensation and HRMS	Costs associated with the management of the Company's compensation plans and maintenance of HR employee database. The purpose is to ensure Atmos provides its employees the most cost effective pay plans that are competitive within the utility and pipeline sector and general industry overall. Costs charged to this cost center include labor and related expenses, software maintenance, salary surveys, professional association dues and contract labor. These costs are a necessary component in providing human resources services to our employees.
002	**1417** SS Dallas Corporate Programs	Event and training materials including printing, supplies and other associated training costs.
002	**1420** SS Dallas EAPC	Costs associated with the Shared Services Employee Activities Planning Committee (EAPC). This committee organizes various Dallas employee-related team building activities throughout the year, including the Company's Lincoln Center United Way campaign. This includes meals incurred by the EAPC as well as office supplies and materials. This does not include employee compensation for their work on the EAPC. These costs are a necessary component to providing human resource services to our employees and as such are reasonable and necessary to the provision of safe and reliable service.
002	**1463** SS HR Benefit Variance	Used to accumulate the differences between the actual cost of employee benefits and the budgeted benefits rate
002	**1501** SS Corporate Legal	Costs associated with the Corporate Legal department, which includes the SVP, General Counsel & Corporate Secretary
002	**1502** SS Dallas Corporate Secretary	Costs associated with the Board of Directors and shareholders. Costs such as Director's fees, board meeting expenses, proxy solicitation expenses and NYSE fees are recorded in this cost center.
002	**1503** SS Corporate Governmental Affairs	Costs associated with governmental relations
002	**1504** SS Corporate Records Management	Costs associated with the storage and maintenance of Company records
002	**1505** SS Corporate Gas Contract Administration	Costs associated with maintaining and administrating the Company's gas contracts
002	**1507** SS Corporate Texas Lobbying	Costs associated with lobbying recorded below-the-line.
002	**1508** SS Corporate Energy Assistance	Costs associated with planning, organizing, developing, monitoring and overseeing all aspects of the company's Energy Assistance and Customer Advocacy Program.
002	**1821** SS Gas Supply Executive	Costs associated with the VP, Gas Supply & Services
002	**1822** SS Dallas-Regional Gas Supply	Costs associated with the management of the Regional Supply department for West Texas and Mid-Tex.
002	**1823** SS Dallas Gas Contract Admin	Costs associated with maintaining and administrating the Company's gas contracts for the entire utility operations.
002	**1825** SS Franklin-Gas Control & Storage	Costs associated with supporting Franklin Gas Control and Atmos Energy Storage Operations for all utility areas excluding Mid-Tex.
002	**1826** SS New Orleans Gas Supply & Services	Costs associated with the Director of all the Gas Supply, Planning & Hedging departments.

002	**1827** SS Regional Supply Planning	Costs associated with the management of the Gas Supply Planning department for all utility divisions.
002	**1828** SS Jackson-West Region Gas Supply & Services	Costs associated with the management of the Jackson Gas Supply and Services department which includes the regions of Mississippi, Louisiana, Colorado and Kansas.
002	**1829** SS Franklin-East Region Gas Supply & Services	Costs associated with the management of the Franklin Gas Supply and Services department which includes the regions of Kentucky, Tennessee and Virginia.
002	**1831** SS Dallas Gas Supply	Costs associated with the management of the Gas Supply department related to the Mid-Tex Division.
002	**1833** SS Dallas-Corporate Gas Supply Risk Mgmt	Costs associated with the management of the Company's hedging program. The timing of the fixed physical purchases, and support for fixed purchase plans are services provided by this cost center.
002	**1835** SS Franklin Gas Control	Costs associated with operating the gas control system in Franklin, Tennessee for all areas except Mid-Tex
002	**1836** SS TBS-System Support	Software platform organization utilized to capture gas supply transactions including purchases and transportation activities. To provide support for the Transportation Billing System ("TBS") applications and related processes. The TBS Suite enables divisions to perform gas scheduling and complex billing functions for transportation and industrial sales customers, and provides support for those systems. Cost Center 1836 is the overall management of the TBS group. Costs in these centers include Company labor and related expenses as well as software maintenance fees, contract labor and tools to support the TBS system application.
002	**1837** SS TBS-Application Support	User interface support including training for the TBS system. To provide support for the Transportation Billing System ("TBS") applications and related processes. The TBS Suite enables divisions to perform gas scheduling and complex billing functions for transportation and industrial sales customers, and provides support for those systems. Cost Center 1837 is the application support group that works with end users and is also responsible for loading contract change data into the application. Costs in these centers include Company labor and related expenses as well as software maintenance fees, contract labor and tools to support the TBS system application.
002	**1838** SS TBS-Technical Support	Provide technical support for the TBS suite. To provide support for the Transportation Billing System ("TBS") applications and related processes. The TBS Suite enables divisions to perform gas scheduling and complex billing functions for transportation and industrial sales customers, and provides support for those systems. Cost Center 1838 is the Technical Support group which is responsible for polling all of the electronic meters as well as providing programming support to the TBS application. Costs in these centers include Company labor and related expenses as well as software maintenance fees, contract labor and tools to support the TBS system application.
002	**1839** SS TBS-Transportation & Scheduling	Provide transportation, nomination & scheduling services to the divisions using TBS. To provide support for the Transportation Billing System ("TBS") applications and related processes. The TBS Suite enables divisions to perform gas scheduling and complex billing functions for transportation and industrial sales customers, and provides support for those systems. Cost Center 1839 is the Scheduling Group for the Atmos Utility Divisions. Costs in these centers include Company labor and related expenses as well as software maintenance fees, contract labor and tools to support the TBS system application.
002/012	**1901** SS Dallas Employee Relocation Exp	Used to accumulate costs associated with the relocation of employees to Shared Services. Charges include transportation of household goods, closing costs, incidentals, etc.
002	**1903** SS Dallas Controller – Misc.	Used to accumulate costs which do not specifically relate to another Shared Services Cost Center
002	1904 SS Dallas Performance Plan	Costs of the Management Incentive Plan (“MIP”) and Variable Payment Plan (“VPP”) for individuals in Shared Services Cost Centers. The two plans are intended to provide the Company a means by which it can engender and sustain a sense of personal commitment on the part of its employees (through the VPP) and its executives and senior managers (through the MIP) in the continued growth, development, and financial success of the Company and encourage them to remain with and devote their best efforts to the business of the Company, thereby advancing the interests of the Company and its shareholders. Accordingly, the Company may award to employees, executives and senior managers the respective annual incentive compensation.

002	**1905** SS Outside Director Retirement Cost	Accrued retirement costs for the non-employee members of the Board of Directors. Cost associated with the annual grant of share units to non-employee directors for their service on the Board of Directors. Like all publicly held corporations, Atmos has a board of directors, and the activities of the board benefit the Company and its customers as a whole. These directors require compensation. Part of the compensation package includes annual grants of shares of the Company's stock. The expense recorded in this cost center is not invoiced from a third-party. Rather, it is calculated in accordance with the provisions of ASC 718 Compensation - Stock Compensation (formerly SFAS No. 123R)). Essentially, this standard requires shared-based compensation to be recognized over the requisite service period. The amount of the compensation cost recorded in this cost center is based upon the number of shares granted and the grant date fair value of the stock award.
002	**1908** SS Dallas SEBP	Atmos Energy Corporation has implemented and maintained over the past years a supplemental executive retirement plan as an integral part of its executive compensation program. There are currently three SERP plans in which active corporate officers participate. The SEBP is currently closed to new membership; only employees promoted to or directly appointed to a Management Committee level job are eligible to join the SERP. An account based SERP is now in place to which newly appointed corporate officers are eligible. The SERP has been instrumental in helping the Company to attract, motivate, and retain a high quality senior management team responsible for the leadership of the Atmos organization. To capture the cost associated with these plans, Cost Center 1908 has been established. Annuity benefits from the SEBP and SERP are funded through Rabbi Trusts maintained at State Street Trust and lump sum benefits from the SEBP, SERP and Account Based SERP are paid from Corporate assets. Atmos Energy's Company-Owned Life Insurance (COLI) which is a funding vehicle for benefits paid to former officers who receive an annuity benefit paid out of Corporate assets. The COLI reimburses Atmos for these annuity benefits. The SFAS 87 (now ASC 715) expense related to these annuity benefits is charged to the respective division where the former Corporate officer retired. The SFAS 87 expense for current retired SEBP and SERP participants, the management committee and current active Corporate officers is also accounted for in Cost Center 1908. The SFAS 87 expense for the SEBP and SERP is actuarially determined by an independent third-party actuary in accordance with SFAS 87. The COLI policies were executed on certain executives (now retired) in prior years and are being phased out. Currently, no new policies are being executed. Finally, this Cost Center is used to record the independent actuary's cost to perform the annual SFAS 87 and SFAS 106 calculations required for Atmos Energy's SEC filings. This includes third-party costs associated with the administration of the SEBP (Haynes Boone, State Street, Towers Watson, LCG Associates). These costs are part of the overall executive compensation plan and are not incentive compensation.
002	**1910** SS Corporate Overhead Capitalized	Represents the portion of Shared Services costs that are capitalized through the overhead pool throughout the year. Capitalization rates are based on estimated support of capital activities by each cost center.
002	**1913** SS Dallas Fleet and Corporate Sourcing	Costs associated with managing Atmos' vehicle fleet
002/012	**1915** SS Dallas Insurance	Used for booking insurance costs related to Shared Services.
002	**1953** SS Dallas Enterprise Team Meeting	Used to record expenses related to the Enterprise Team Meeting
002	**1954** SS Dallas Culture Council	This cost center is used to record expenses related to the company’s Culture Council. The purpose of the Culture Council is to sustain and strengthen a unified culture at Atmos Energy. The Culture Council is currently made up of leaders across the company that meet throughout the year to discuss and develop ways of sustaining and strengthening our company culture.

C020 Atmos Energy-Louisiana – Cost Centers

Cost Center	Description	Activities
2401 LA Div Administration	Costs associated with business unit President and executive assistant.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Responsible for short and long term strategic plans c. Lead the business unit in maintaining safe and reliable natural gas service
2402 LA Div Information Technology	Costs associated with the maintenance and support of the business unit's information systems	a. PC Rollout b. PC Support c. Meter reading technology support d. Network support e. Mobile phone provisioning and support f. Field dispatch system support g. File and print server support h. GIS system support i. AMI technology support
2403 LA Div Human Resources	Costs associated with coordinating and directing human resource, safety, and training activities at the business unit level.	a. Employee training and development b. Address employee benefit concerns c. Hiring of personnel d. Address payroll matters
2404 LA Div Rates & Regulatory Affairs	Costs associated with organizing and coordinating rates and regulatory affairs at the business unit level. Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a.Develop and maintain strong business relationships with key regulatory personnel b. Develop a profitable strategic business plan which optimizes the allowed revenue requirement and rate of return c. Manage the preparation, training, and presentation of written and/or oral expert testimony d. Ensure compliance with all Commission orders and regulations e. Coordinate Customer Advisory Boards a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards d. Provide operation support (i.e. media relations at emergency site) e. Prepare customer communication materials and media releases f. Develop message content and design for customer bill inserts g. Coordinate local advertising
2405 LA Div Tech Services	Costs associated with providing coordination and oversight of in-house and outside resources necessary to develop designs, costs estimates, and schedules	a. Coordinate supply chain activities with internal clients and key suppliers to develop optimum inventory levels b. Coordinate investment recovery activities through proactive identification of surplus inventory and non-book assets c. Set local performance measures for key suppliers and develop cost savings initiatives d. Ensure warehouse cycle counts are completed accurately and on schedule e. Work with operations, engineering, and key suppliers to understand requirements, develop material usage forecasts, and develop delivery schedules. f. Coordinate and obtain Right-of-Way when necessary g. Work with Finance to budget, project and manage capital spending

2406 LA Div Engineering Services	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions	a. Design and verification of construction of plant assets. b. Create and maintain maps of Company's physical plant assets c. Support local operations by providing updated maps and responding to requests about our distribution facilities. d. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
2407 LA Div Finance	Costs associated with the organization and coordination of all financial activities at the business unit level.	a. Prepare annual budget b. Financial Reporting c. Analysis of O&M and Capital expenditures d. Revenue / Billing Analysis f. Collections e. Administer and act as liaison with Dallas Accounting for various financial systems g. Monitor and reconcile Main Extension Contracts
2408 LA Div Marketing	Costs associated with the design, development, and implementation of marketing programs for residential, commercial, and industrials customers	a. Develop programs and promotions promoting load building and energy conservation b. Participate in studies and procure data necessary for monitoring market results c. Oversee all sales and marketing functions in all business unit locations d. Maintain and build relationships with key customers and decision makers
2409 LA Div Measurement	Costs associated with the direction of all measurement and corrosion control programs at the business unit level and engineering functions at the business unit level	a. Design and review of new pipe projects (i.e. Growth, Non-Growth, Retirement) b. Oversee outside contractor bidding process as well as the awarding of those contracts c. Work with Operations regarding budgets on pipe projects to ensure cost savings
2411 LA Div Technical Support	Costs associated with providing coordination and oversight of in-house and outside resources necessary to develop designs, costs estimates, and schedules.	a. Coordinate supply chain activities with internal clients and key suppliers to develop optimum inventory levels b. Coordinate investment recovery activities through proactive identification of surplus inventory and non-book assets c. Set local performance measures for key suppliers and develop cost savings initiatives d. Ensure warehouse cycle counts are completed accurately and on schedule e. Work with operations, engineering, and key suppliers to understand requirements, develop material usage forecasts, and develop delivery schedules.
2412 LA Div Corrosion Control	Costs associated with the administration of company wide compliance services, standards, and corrosion activities	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaison between regulatory personnel and field operations e. Monitor all measurement Work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities
2415 LA Div Compliance	Costs associated with the administration of company wide	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits

	compliance services, standards, and corrosion activities	c. Monitor the Operator Qualification program d. Liaison between regulatory personnel and field operations e. Monitor all measurement Work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities
2418 LA Div Safety :Tech Services	Costs associated with the implementation and administration of the business unit's safety and health programs.	a. Coordinate and implement the Occupation Safety and Health Programs of the Enterprise b. Conduct field Safety audits for the Company as well as contractor personnel c. Coordinate and oversee the implementation and administration of required training including OSHA, DOT, and federal Motor Carrier
2421 LA Div Relocation Expense	Costs associated with the relocation of employees within the business unit.	a. Capture expenses related to employee relocations per the company's relocation policy.
2425 LA Div SIIP	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions for System Integrity Investment Program	a. Design and verification of construction of plant assets, particularly those that improve system safety and reliability. b. Create and maintain maps of Company's physical plant assets c. Support local operations by providing updated maps and responding to requests about our distribution facilities. d. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
2431 LA Div Finance - Accounting	Costs associated with the organization and coordination of all financial activities at the business unit level.	a. Prepare annual budget b. Financial Reporting c. Analysis of O&M and Capital expenditures d. Revenue / Billing Analysis f. Collections e. Administer and act as liaison with Dallas Accounting for various financial systems g. Monitor and reconcile Main Extension Contracts h. PGAS billing and measurement
2432 LA Div Finance - Billing	Costs associated with the organization and coordination of all Revenue Systems activities at the business unit level.	a. General administration of revenue and billing systems b. TMD - Technical Master Data c. DIG activities d. Revenue / Billing Analysis f. Collections e. Administer and act as liaison with Dallas Revenue Mgmt g. Monitor and reports for lost and unaccounted for gas
2444 LA Div Pipeline Integrity Management	Costs associated with pipeline integrity.	a. Direct assessment of transmission line High Consequence Areas b. Administer pipeline integrity management program
2444 LA Div Pipeline Integrity Management	Costs associated with pipeline integrity.	a. Direct assessment of transmission line High Consequence Areas b. Administer pipeline integrity management program
2450 LA Div Lafayette Operations	Costs associated with operations and management in the Lafayette, LA area and surrounding communities.	a. General administration responsibilities b. Collections c. Overall management of Lafayette, LA Operations
2451 LA Div Lafayette C&M	Costs associated with operations, and construction	a. compliance b. New Construction Work c. Other Construction Work d. General maintenance. e. line Locates

		f. meter / Regulator testing g. General administration responsibilities
2453 LA Div Lafayette Service	Costs associated with operations and service	a. Customer service requests b. Meter Reading c. Collections d. General administration responsibilities
2454 LA Div Natchitoches Operations	Costs associated with operations and service	a. Customer service requests b. Meter Reading c. Collections d. General administration responsibilities
2455 LA Div Natchitoches Services/C&M	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction Work e. Other Construction Work f. General maintenance g. Line Locates h. General administration responsibilities
2463 LA Div HR Benefit Variance	Costs associated with the variance that occurs between budgeted employee benefits and actual costs	a. Capture the variance between budgeted employee benefits and actual costs.
2467 LA Div Drafting	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions	a. Design and verification of construction of plant assets. b. Create and maintain maps of Company's physical plant assets c. Support local operations by providing updated maps and responding to requests about our distribution facilities. d. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
2470 LA Div Metro East Operations	Costs associated with operations and management in the Metro East area of the Eastern Region of Louisiana	a. General administration responsibilities b. Collections c. Overall management of St Bernard and East Jeff service Areas
2472 LA Div St Tammany C&M	Costs associated with operations, construction, and service	a. New Construction Work b. Other Construction Work c. General maintenance d. Line Locates e. General administration responsibilities
2473 LA Div St Tammany Services	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. General administration responsibilities
2474 LA Div Tangipahoa Services/C&M	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction Work e. Other Construction Work f. Line Locates g. General maintenance. h. General administration responsibilities
2475 LA Div Ascension Service/C&M	Costs associated with operations, construction, and service	a. Customer service requests b. meter Reading c. Collections d. New Construction Work e. Other Construction Work f. line Locates g. General maintenance. h. General administration responsibilities

2476 LA DIV EAC	Costs associated with Employee Activity committee events	a. meals and other events for employees b. food and prizes for fishing and golf tournaments for employees
2515 LA Div Monroe Compliance	Costs associated with the administration of company wide compliance services, standards, and corrosion activities for the Monroe and Natchitoches areas	a. Monitor all measurement work for Monroe and Natchitoches areas b. Data input of meter tests in business unit c. Oversight of corrosion compliance activities d. Compliance e. Meter / Regulator testing
2516 LA Div Western Region Administration	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities within Louisiana's Western Region.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor federal, state, and local regulations pertaining to all functional Areas in order to Ensure compliance c. Develop, recommend, implement, and Monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service. d. Research, recommend, and Administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities.
2532 LA Div Western Sales	Costs associated with the design, development, and implementation of marketing programs for residential, commercial, and industrials customers	a. Develop Programs and promotions promoting load building and energy conservation b. Participate in studies and procure Data necessary for monitoring market results c. oversee all sales and marketing functions in all business unit locations d. maintain and build relationships with key customers and decision makers
2535 LA Div Monroe Operations	Costs associated with operations and management in Monroe, LA area and surrounding cities.	a. General administration responsibilities b. Collections c. Overall management of Monroe and Natchitoches service Areas
2536 LA Div Monroe C&M	Costs associated with operations, construction, and service	a. New Construction Work b. Other Construction Work c. General maintenance. d. line Locates e. General administration responsibilities
2538 LA Div Richland Service/C&M	Costs associated with operations, construction, and service	a. Customer service requests b. meter Reading c. Collections d. New Construction Work e. Other Construction Work f. line Locates g. General maintenance. h. General administration responsibilities
2539 LA Div Monroe Service	Costs associated with operations, construction, and service	a. Customer service requests b. meter Reading c. Collections d. General administration responsibilities
2541 LA-Metairie-E Region Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate Customer Advisory Boards d. Provide operation Support (i.e. media relations at emergency site) e. Prepare Customer communication materials and media releases f. Develop message content and Design for Customer

		bill inserts g. Coordinate local advertising
2542 LA-Monroe-W Region Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate Customer Advisory Boards d. Provide operation Support (i.e. media relations at emergency site) e. Prepare Customer communication materials and media releases f. Develop message content and Design for Customer bill inserts g. Coordinate local advertising
2543 LA-Lafayette Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate Customer Advisory Boards d. Provide operation Support (i.e. media relations at emergency site) e. Prepare Customer communication materials and media releases f. Develop message content and Design for Customer bill inserts g. Coordinate local advertising
4016 LA Div Eastern Region Administrative	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities within the Eastern Region of Louisiana.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor federal, state, and local regulations pertaining to all functional Areas in order to Ensure compliance c. Develop, recommend, implement, and Monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service. d. Research, recommend, and Administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities.
4032 LA Div Eastern Sales	Costs associated with the design, development, and implementation of marketing programs for residential, commercial, and industrials customers	a. Develop Programs and promotions promoting load building and energy conservation b. Participate in studies and procure Data necessary for monitoring market results c. oversee all sales and marketing functions in all business unit locations d. maintain and build relationships with key customers and decision makers
4034 LA Div East Jefferson Service	Costs associated with operations, construction, and service	a. Customer service requests b. meter Reading c. Collections d. General administration responsibilities
4035 LA Div West Jefferson Service	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. General administration responsibilities
4036 LA Div River Parishes Service	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. General administration responsibilities
4039 LA Div East Jefferson C&M # 1	Costs associated with operations, construction, and service	a. New Construction Work b. Other Construction Work c. General maintenance.

		d. Line Locates e. General administration responsibilities
4041 LA Div West Jefferson C&M # 1	Costs associated with operations, construction, and service	a. New Construction Work b. Other Construction Work c. General maintenance. d. Line Locates e. General administration responsibilities
4043 LA Div St Bernard C&M	Costs associated with operations, construction, and service	a. Customer service requests b. meter Reading c. Collections d. New Construction Work e. Other Construction Work f. Line Locates g. General maintenance. h. General administration responsibilities
4044 LA Div River Parishes C&M	Costs associated with operations, construction, and service	a. New Construction Work b. Other Construction Work c. General maintenance. d. Line Locates e. General administration responsibilities
4050 LA Div North Lake Operations	Costs associated with operations and management in the St Tammany, Tangipahoa and Ascension Parish service areas	a. General administration responsibilities b. Collections c. Overall management of North Lake Operations
4051 LA Div Metro West Operations	Costs associated with operations and management in the West Jefferson and River Parishes area of Louisiana	a. General administration responsibilities b. Collections c. Overall management of Metro West operations
4066 LA Div Gas Procurement	Costs associated with Gas Procurement	Costs associated with Gas Procurement

C030 Atmos Energy-West Texas – Cost Centers

Cost Center	Description	Activities
2001 West Texas Div Lubbock Administration	Costs associated with business unit President and executive assistant.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Responsible for short and long term strategic plans c. Lead the business unit in maintaining safe and reliable natural gas service
2002 West Texas Div Lubbock Information Services	Costs associated with the maintenance and support of the business unit's information systems.	a. PC Rollout b. PC Support c. Meter reading technology Support d. Network Support e. Mobile phone provisioning and Support f. Field dispatch system Support g. File and print server Support h. GIS system Support
2003 West Texas Div Lubbock Human Resources	Costs associated with coordinating and directing human resource, safety, and training activities at the business unit level.	a. Employee training and development b. Address Employee benefit concerns c. Hiring of personnel d. Address payroll matters

2004 West Texas Div Lubbock Regulatory Affairs	Costs associated with organizing and coordinating rates and regulatory affairs at the business unit level.	a. Develop and maintain strong business relationships with key regulatory personnel b. Develop a profitable strategic business plan which optimizes the allowed revenue requirement and rate of return c. Manage the preparation, training, and presentation of written and/or oral expert testimony d. Ensure compliance with all Commission orders and regulations
2005 West Texas Div Lubbock Technical Services	Costs associated with providing coordination and oversight of in-house and outside resources necessary to develop designs, costs estimates, and schedules.	a. Coordinate supply chain activities with internal clients and key suppliers to develop optimum inventory levels b. Coordinate investment recovery activities through proactive identification of surplus inventory and non-book assets c. Set local performance measures for key suppliers and develop cost savings initiatives d. Ensure warehouse cycle counts are completed accurately and on schedule e. Work with operations, engineering, and key suppliers to understand requirements, develop material usage forecasts, and develop delivery schedules.
2006 West Texas Div Lubbock Engineering Services	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions.	a. Create and maintain maps of Company's physical plant assets b. Support local operations by providing updated maps and responding to requests about our distribution facilities. c. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
2007 West Texas Div Lubbock Finance	Costs associated with the organization and coordination of all financial activities at the business unit level.	a. Prepare annual budget b. Financial Reporting c. Analysis of O&M and Capital expenditures d. Revenue / Billing Analysis e. Collections
2008 West Texas Div Lubbock Marketing	Costs associated with the design, development, and implementation of marketing programs for residential, commercial, and industrials customers.	a. Develop programs and promotions promoting load building and energy conservation b. Participate in studies and procure data necessary for monitoring market results c. Oversee all sales and marketing functions in all business unit locations d. Maintain and build relationships with key customers and decision makers
2009 West Texas Div Lubbock Measurement Center	Costs associated with the direction of all measurement and corrosion control programs at the business unit level and engineering functions at the business unit level.	a. Design and review of new pipe projects (i.e. Growth, Non-Growth, Retirement) b. Oversee outside contractor bidding process as well as the awarding of those contracts c. Work with Operations regarding budgets on pipe projects to ensure cost savings

2010 West Texas Div Lubbock Revenue Management	Costs associated with the organization and coordination of all revenue management activities at the business unit level.	a. Revenue/Billing Analysts b. Collections c. Variance Analysis
2011 West Texas Div Facilities Replacement 1	Costs associated with replacement facilities.	a. Maintain replacement facilities

3143 CO/KS Div Olathe C&M	Costs associated with construction, maintenance, and service in Olathe, KS	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. New Construction Work f. Other Construction Work g. General maintenance. h. General administration responsibilities i. Collections j. Meter / Regulator testing
3144 CO/KS Div Independence Operations	Costs associated with operations and management in Southern Kansas	a. General administration responsibilities b. Collections c. Overall management of Southern Kansas operations.
3145 CO/KS Div Independence C&M	Costs associated with construction, maintenance, and service in Independence, KS	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. New Construction Work f. Other Construction Work g. General maintenance. h. General administration responsibilities i. Collections j. Meter / Regulator testing
3146 CO/KS Div Yates Center C&M	Costs associated with construction, maintenance, and service inYates Center, KS	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. New Construction Work f. Other Construction Work g. General maintenance. h. General administration responsibilities i. Collections j. Meter / Regulator testing

C070 Atmos Energy-Mississippi – Cost Centers

Cost Center	Description	Activities
5001 MS Div Jackson Administration	Costs associated with the business unit President and Executive Assistant. Also costs associated with coordinating and directing the business unit's political and public activities within state and local arenas.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Responsible for short and long term strategic plans c. Lead the business unit in maintaining safe and reliable natural gas service d. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers e. Facilitate the city franchise renewal process f. Coordinate customer advisory boards g. Provide operation support (i.e. media relations at emergency site) h. Prepare customer communication materials and media releases i. Develop message content and design for customer bill inserts
5002 MS Div Jackson Information Services	Costs associated with the maintenance and support of the business unit's information systems.	a. PC Rollout b. PC Support c. Meter reading technology support d. Network support e. Mobile phone provisioning and support f. Field dispatch system support g. File and print server support h. GIS system support
5003 MS Div Jackson Human Resources	Costs associated with coordinating and directing human resources, safety, and training activities at the business unit level.	a. Employee training and development b. Address employee benefit concerns c. Hiring of personnel d. Address payroll matters
5004 MS-Jackson Regulatory Affairs	Costs associated with organizing and coordinating rates and regulatory affairs at the business unit level	a. Develop and maintain strong business relationships with key regulatory personnel b. Develop a profitable strategic business plan which optimizes the allowed revenue requirement and rate of return c. Manage the preparation, training, and presentation of written and/or oral expert testimony d. Ensure compliance with all Commission orders and regulations e. Coordinate Customer Advisory Boards

5005 MS Div Technical Services	Costs associated with providing coordination and oversight of in-house and outside resources necessary to develop designs, costs estimates, and schedules	a. Coordinate supply chain activities with internal clients and key suppliers to develop optimum inventory levels b. Coordinate investment recovery activities through proactive identification of surplus inventory and non-book assets c. Set local performance measures for key suppliers and develop cost savings initiatives d. Ensure warehouse cycle counts are completed accurately and on schedule e. Work with operations, engineering, and key suppliers to understand requirements, develop material usage forecasts, and develop delivery schedules.f-Coordinate and obtain Right-of-Way when necessary f. Work with Finance to budget, project and manage capital spending
5006 MS Div Jackson Engineering	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions.	a. Design and verification of construction of plant assets. b. reate and maintain maps of the Company's physical plant assets c. Support local operations by providing updated maps and responding to requests about our distribution facilities. d. Maintain construction records for the Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
5007 MS Div Jackson Finance	Costs associated with the organization and coordination of all financial activities at the business unit level.	a. Prepare annual budget b. Financial Reporting c. Analysis of O&M and Capital expenditures d. Revenue / Billing Analysis e. Collections
5008 MS Div Jackson Marketing	Costs associated with the design, development, and implementation of marketing programs for residential, commercial, and industrial customers.	a. Develop programs and promotions promoting load building and energy conservation b. Participate in studies and procure data necessary for monitoring market results c. Oversee all sales and marketing functions in all business unit locations d. Maintain and build relationships with key customers and decision makers
5009 MS Div Jackson Measurement Center	Costs associated with the direction of all measurement programs at the business unit level and with the costs associated with rebuilding meters.	a. Monitor all measurement work for business unit b. Data input of meter tests in business unit c. Routine/rebuild meters d. Tracks and monitors LNU. E. Inputs volumes for large volume customers
5018 MS –Safety – Tech Services	Costs associated with the implementation and administration of the business unit's safety and health programs.	a. Coordinate and implement the Occupation Safety and Health Programs of the Enterprise b. Conduct field safety audits for the Company as well as contractor personnel c. Coordinate and oversee the implementation and administration of required training including OSHA, DOT, and Federal Motor Carrier

5019 MS Div Jackson Meter Reading	Costs associated with meter reading for the Jackson metro area	a. Reads meters b. Helps to investigate high bill complaints with re-reads
5020 MS Div Tech Svc Project Mgmt	Costs associated with project management.	a. Project management.
5021 MS Div Relocation Expense	Costs associated with the relocation of employees.	a. Capture expenses related to employee relocations per the company's relocation policy.
5031 MS Div Southern Region Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities within Natchez, Meridian and the Jackson Metro area.	a. General administration responsibilities b. Collections c. Overall management of the Natchez, Meridian and the Jackson Metro area.
5032 MS Div South Region Marketing	Costs associated with the design, development, and implementation of business development programs.	a. Manage the negotiation, development, and administration of customer sales and service contracts b. Monitor and manage functional area budgets to ensure the most efficient utilization of resources c. Maintain business relationships with builders, architects, engineers, customers, and others to promote the products and services we provide. d. Develop, coordinate, and implement development activities in all markets to ensure that current customers and associated margins are maintained.
5033 MS Div Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards d. Provide operation support (i.e. media relations at emergency site) e. Prepare customer communication materials and media releases f. Develop message content and design for customer bill inserts g. Coordinate local advertising
5034 MS Div Greenville	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing

5035 MS Div Indianola	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5038 MS Div Yazoo City	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5039 MS Div Meridian	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5040 MS Div Natchez	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5067 MS Div Supply Chain	Costs associated with the implementation and administration of the business unit's safety and health programs.	a. Coordinate and implement the Occupation Safety and Health Programs of the Enterprise b.Conduct field safety audits for the Company as well as contractor personnel c. Coordinate and oversee the implementation and administration of required training including OSHA, DOT, and Federal Motor Carrier
5068 MS Div Industrial Drive	Costs associated with maintenance and upkeep of our Industrial Drive location.	a. Utilities b. Maintenance of building c. Costs associated with certain events held at that location.
5070 MS Div Jackson Summary	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities within the Jackson Metro area.	a. General administration responsibilities b. Collections c. Overall management of the Jackson Metro area.

5071 MS Div Jackson Service	Costs associated with activities of all service technicians in the Jackson Metro area.	a. Customer service requests b. High bill complaints c. Collections d. General administration responsibilities e. Meter / Regulator testing
5072 MS Div Jackson Local Office Operations	Costs associated with activities of all customer service associates in the Jackson call center.	a. Customer service requests b. High bill complaints c. Collections d. General administration responsibilities
5073 MS Div Jackson Construction	Costs associated with activities of all construction crews in the Jackson Metro area.	a. New Construction Work b. Other Construction Work c. General maintenance d. Leak repair
5093 MS Div Operating Services	Costs associated with the administration of company wide compliance services, standards, and corrosion activities	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaison between regulatory personnel and field operations e. Oversight of corrosion compliance activities
5096 MS Div Jackson District Vehicle Shop	Costs associated with vehicle maintenance performed on company owned vehicles and equipement	a. Repair company vehicles and equipment b. Performs routine maintenance on company vehicles and equipment
5099 MS PBR	Cost associated with expense items except taxes properly includible in the income account and not provided for elsewhere.	a. General administration responsibilities b. Collections
5131 MS Div Northern Region Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities within the Northern Region of Mississippi	a. General administration responsibilities b. Collections c. Overall management of the Northern Region of Mississippi
5132 MS Div North Region Marketing	Costs associated with the design, development, and implementation of business development programs.	a. Manage the negotiation, development, and administration of customer sales and service contracts b. Monitor and manage functional area budgets to ensure the most efficient utilization of resources c. Maintain business relationships with builders, architects, engineers, customers, and others to promote the products and services we provide. d. Develop, coordinate, and implement development activities in all markets to ensure that current customers and associated margins are maintained.

5134 MS Div Southaven	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5135 MS Div Clarksdale	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5136 MS Div Cleveland	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5139 MS Div Greenwood	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5140 MS Div Grenada	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5142 MS Div Kosciusko	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing

5144 MS Div Louisville	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5145 MS Div Columbus	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5146 MS Div Starkville	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5148 MS Div West Point	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5163 MS Div HR Benefit Variance	Costs associated with the variance that occurs between budgeted employee benefits and actual costs	a. Capture the variance between budgeted employee benefits and actual costs.
5170 MS Div Tupelo	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing

5171 MS Div Amory	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. Compliance e. Construction Work f. General maintenance g. General administration responsibilities h. Meter / Regulator testing
5172 MS Div Amory Storage	Costs associated with operating and maintaining the Amory Storage Field	a. Maintain transmission facilities b. Operations related to injection/withdrawal of gas
5173 MS Div Goodwin Storage Field	Costs associated with operating and maintaining the Goodwin Storage Field	a. Maintain transmission facilities b. Operations related to injection/withdrawal of gas

C080 Atmos Energy-Mid-Tex – Cost Centers

Cost Center	Description	Activities
4101 MDTX-President	Costs associated with business unit President and executive assistant.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Responsible for short and long term strategic plans c. Lead the business unit in maintaining safe and reliable natural gas service.
4102 MDTX- Div IT Manager	Costs associated with the maintenance and support of the business unit's information systems.	a. PC Rollout b. PC Support c. Meter reading technology support d. Network support e. Mobile phone provisioning and support f. Field dispatch system support g. File and print server support h. GIS system support
4103 MDTX-Human Resources	Costs associated with coordinating and directing human resource, safety, and training activities at the business unit level.	a. Employee training and development b. Address employee benefit concerns c. Hiring of personnel d. Address payroll matters
4104 MDTX-Regulatory	Costs associated with organizing and coordinating rates and regulatory affairs at the business unit level.	a. Develop and maintain strong business relationships with key regulatory personnel b. Develop a profitable strategic business plan which optimizes the allowed revenue requirement and rate of return c. Manage the preparation, training, and presentation of written and/or oral expert testimony d. Ensure compliance with all Commission orders and regulations

4105 MDTX-Facilities	Costs associated with building maintenance performed on company owned/leased property	a. Repair company property b. Performs routine maintenance on company property
4106 MDTX-Technical Services Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
4107 MDTX-Finance	Costs associated with the organization and coordination of all financial activities at the business unit level.	a. Prepare annual budget b. Financial Reporting c. Analysis of O&M and Capital expenditures d. Revenue/Billing Analysts e. Collections
4108 MDTX-Marketing	Costs associated with the design, development, and implementation of marketing programs for residential, commercial, and industrial customers.	a. Develop programs and promotions promoting load building and energy conservation b. Participate in studies and procure data necessary for monitoring market results c. Oversee all sales and marketing functions in all business unit locations d. Maintain and build relationships with key customers and decision makers
4109 MDTX-Gas Measurement	Costs associated with organizing, coordinating and overseeing accurate measurement of natural gas	a. Directs and oversees efficient operation of measurement and regulation, and field measurement b. monitors gas quality by sampling and analysis
4111 MDTX-Claims	Costs associated with investigation, administration and fiscal recovery of third party damages to company property	a. Develops and recommends policies, practices and strategies to reduce damages to company assets b. Directs and participates in on-site investigations of significant damages c. Manages and directs negotiations with claimants, insurance companies, attorneys or mediators d. Receives and processes escalated settlements

4113 MDTX-Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards d. Provide operation support (i.e. media relations at emergency site) e. Prepare customer communication materials and media releases f. Develop message content and design for customer bill inserts g. Coordinate local advertising
4118 MDTX-Environmental & Supply Chain	Costs associated with monitoring the business unit's compliance with all applicable environmental laws and Regulations and Supply Chain Management.	a. Environmental regulation interpretation b. Environmental compliance and regulatory support to field operations c. Project management for remediation of former manufactured gas plants d. Environmental permitting support for construction projects e. Coordinate supply chain activities with internal clients and key suppliers to develop optimum inventory levels f. Coordinate investment recovery activities through proactive identification of surplus inventory and non-book assets g. Set local performance measures for key suppliers and develop cost savings initiatives h. Ensure warehouse cycle counts are completed accurately and on schedule i. Work with operations, engineering, and key suppliers to understand requirements, develop material usage forecasts, and develop delivery schedules
4119 MDTX-Compliance Monitoring & Reporting	Costs associated with administration of company wide compliance services, standards, and activities.	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaise between regulatory personnel and field operations e. Monitor all measurement work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities
4121 MDTX-Relocation Expense	Costs associated with the relocation of employees within the business unit.	a. Capture expenses related to employee relocations per the company's relocation policy
4122 MDTX-Measurement Enginering	Costs associated with organizing, coordinating and overseeing accurate measurement of natural gas	a. Directs and oversees efficient operation of measurement and regulation, and field measurement b. monitors gas quality by sampling and analysis
4123 MDTX-Gas Meter Shop	Costs associated with organizing, coordinating and overseeing accurate measurement of natural gas	a. Directs and oversees efficient operation of measurement and regulation, and field measurement b. monitors gas quality by sampling and analysis

4124 MDTX-Construction Mgt Dallas-North	Costs associated with analysis and development of construction and maintenance projects	a. Identifies, develops and provides construction cost estimates for natural gas projects b. Initiates and administers process of solicitation, evaluation and recommendation of external bids c. Coordinates, schedules, and monitors construction activities
4125 MDTX-Engineering Services Northeast	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
4126 MDTX-Engineering Services South	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
4127 MDTX-Engineering Services West	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
4128 MDTX-Engineering Services Programs	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
4129 MDTX-Engineering Services Admin	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
4130 MDTX-Engineering Services Fort Worth	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects

4131 MDTX-Operations-Southwest Region Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
4133 MDTX-Abilene Area Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards d. Provide operation support (i.e. media relations at emergency site) e. Prepare customer communication materials and media releases f. Develop message content and design for customer bill inserts g. Coordinate local advertising
4134 MDTX-Waco Area Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards d. Provide operation support (i.e. media relations at emergency site) e. Prepare customer communication materials and media releases f. Develop message content and design for customer bill inserts g. Coordinate local advertising
4136 MDTX-Fort Worth Area Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards d. Provide operation support (i.e. media relations at emergency site) e. Prepare customer communication materials and media releases f. Develop message content and design for customer bill inserts g. Coordinate local advertising

4137 MDTX-Plano Area Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards d. Provide operation support (i.e. media relations at emergency site) e. Prepare customer communication materials and media releases f. Develop message content and design for customer bill inserts g. Coordinate local advertising
4138 MDTX-Dallas Area Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards d. Provide operation support (i.e. media relations at emergency site) e. Prepare customer communication materials and media releases f. Develop message content and design for customer bill inserts g. Coordinate local advertising
4140 MDTX-Gas Storage & Compression	Gas Storage & Compression	a. Note all costs should be recorded to the corresponding APT cost centers. Mid-Tex cost centers are necessary because personnel are Mid-Tex employees
4141 MDTX-Asset Planning	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions.	a. Create and maintain maps of Company's physical plant assets b. Support local operations by providing updated maps and responding to requests about our distribution facilities. c. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
4144 MDTX-Corrosion & Integrity	Costs associated with pipeline integrity. Costs associated with the direction of all measurement and corrosion control programs at the business unit level and engineering functions at the business unit level.	a. Direct assessment of transmission line High Consequence Areas b. Administer pipeline integrity management program c. Design and review of new pipe projects (i.e. Growth, Non-Growth, Retirement) d. Oversee outside contractor bidding process as well as the awarding of those contracts e. Work with Operations regarding budgets on pipe projects to ensure cost savings

4145 MDTX-Operations Support	Costs associated with administration of company wide compliance services, standards, and activities.	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaise between regulatory personnel and field operations e. Data input of meter tests in business unit f. Oversight of corrosion compliance activities
4147 MDTX-Safety & Insp	Costs associated with the implementation and administration of the business unit's safety and health programs.	a. Coordinate and implement the Occupation Safety and Health Programs of the Enterprise b. Conduct field safety audits for the Company as well as contractor personnel c. Coordinate and oversee the implementation and administration of required training including OSHA, DOT, and Federal Motor Carrier
4153 MDTX-Info Mgt LP Assets	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions.	a. Create and maintain maps of Company's physical plant assets b. Support local operations by providing updated maps and responding to requests about our distribution facilities. c. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
4154 MDTX-Info Mgt HP Assets	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions.	a. Create and maintain maps of Company's physical plant assets b. Support local operations by providing updated maps and responding to requests about our distribution facilities. c. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
4155 MDTX-Right of Way	Costs associated with acquisition of right-of-way agreements and land rights to support construction, maintenance, and operations of gas facilities	a. Researches determine legal ownership b. Prepares right-of-way documents c. Negotiates to obtain land rights from property owners d. Negotiates monetary settlements for property damage e. Maintains land right files
4160 MDTX-GS&D Contract Administration Supply	Costs associated with organizing, coordinating and overseeing Company’s transportation and large volume sales	a. Negotiates new gas transportation sales and delivery contracts b. Researches, analyzes and maintains data relative to large volume sales c. Assists in developing strategies and designing marketing plans and programs
4163 MDTX-GS&D Marketing Manager	Costs associated with organizing, coordinating and overseeing Company’s transportation and large volume sales	a. Negotiates new gas transportation sales and delivery contracts b. Researches, analyzes and maintains data relative to large volume sales c. Assists in developing strategies and designing marketing plans and programs

4164 MDTX-GS&D Industrial Marketing	Costs associated with organizing, coordinating and overseeing Company's transportation and large volume sales	a. Negotiates new gas transportation sales and delivery contracts b. Researches, analyzes and maintains data relative to large volume sales c. Assists in developing strategies and designing marketing plans and programs
4165 MDTX-North Region West Director Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
4166 MDTX-SE Region Meter Reading	Costs associated with Meter Reading	a. Meter Reading
4167 MDTX-Ft Worth-SW Region Meter Reading	Costs associated with Meter Reading	a. Meter Reading
4168 MDTX-Garland Area-North Region Meter Reading	Costs associated with Meter Reading	a. Meter Reading
4169 MDTX-Carrollton West	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
4170 MDTX-Southwest Region Meter Reading	Costs associated with Meter Reading	a. Meter Reading
4172 MDTX- SW Region Round Rock Central	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work f. Other Construction work g. General Maintenance
4173 MDTX-SW Region Sweetwater Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
4174 MDTX-Southeast Region Groesbeck Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance

4175 MDTX-West Storage	Gas Storage & Compression	a. Note all costs should be recorded to the corresponding APT cost centers. Mid-Tex cost centers are necessary because personnel are Mid-Tex employees
4176 MDTX- East Storage & Compression	Gas Storage & Compression	a. Note all costs should be recorded to the corresponding APT cost centers. Mid-Tex cost centers are necessary because personnel are Mid-Tex employees
4177 MDTX-Integrity Management Admin	Costs associated with integrity Management Admin	a.Direct assessment of transmission line High Consequence Areas b. Administer pipeline integrity management program
4178 MDTX-Integrity System Engineering	Costs associated with integrity System Engineering	Costs associated with integrity System Engineering
4231 MDTX-Div North Region Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
4232 MDTX-North Reg Compliance East	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
4233 MDTX-North Reg Compliance WF	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
4234 MDTX-SE Reg Compliance ATH/LNG/COR	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
4235 MDTX-Athens Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
4237 MDTX-Greenville Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance

4239 MDTX-Longview Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
4241 MDTX-Paris Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
4243 MDTX-Sherman Area	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
4244 MDTX-Sherman Area CS	Costs associated with service	a. Customer service requests b. Collections
4245 MDTX-Wichita Area	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
4246 MDTX-Wichita Area CS	Costs associated with service	a. Customer service requests b. Collections
4247 MDTX-North Reg Compliance SHE/PAR	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
4330 MDTX-SE Region South Director Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
4331 MDTX-SW Region West Director Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. 4615 MDTX-Compliance Damage Prevention	Costs associated with compliance Damage prevention	Compliance Damage prevention

C180 Atmos Pipeline – Texas – Cost Centers

Cost Center	Description	Activities
9501 Engineering Services Fort Worth	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
9601 APT-SE Region South Mgr	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities

9602 APT-SW Region West Mgr	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9603 APT – GS&D Marketing Manager	Costs associated with organizing, coordinating and overseeing Company's transportation and large volume sales	a. Negotiates new gas transportation sales and delivery contracts b. Researches, analyzes and maintains data relative to large volume sales c. Assists in developing strategies and designing marketing plans and programs
9604 APT – GS&D Industrial Marketing	Costs associated with organizing, coordinating and overseeing Company's transportation and large volume sales	a. Negotiates new gas transportation sales and delivery contracts b. Researches, analyzes and maintains data relative to large volume sales c. Assists in developing strategies and designing marketing plans and programs
9605 APT-SW Region South Mgr	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9606 APT – GS&D Admin	Costs associated with organizing, coordinating and overseeing Company's transportation and large volume sales	a. Negotiates new gas transportation sales and delivery contracts b. Researches, analyzes and maintains data relative to large volume sales c. Assists in developing strategies and designing marketing plans and programs
9607 APT – Transportation Services	Costs associated with formulation, coordination, negotiation and administration of various contractual and purchasing agreements for obtaining gas and transportation services from local and national suppliers/contractors	a. Estalish natural gas purchases agreements with quality and experienced contractors for use by gas distribution and pipeline services' engineering, construction and operation staffs b. Assumes a key role during contract negotiations for the benefit of the client consistent with procurement practices and established business ethics

9608 APT Carrolton West	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9611 APT – IT Manager	Costs associated with the maintenance and support of the business unit's information systems.	a. PC Rollout b. PC Support c. Meter reading technology support d. Network support e. Mobile phone provisioning and support f. Field dispatch system support g. File and print server support h. GIS system support
9612 APT – Gas Control Admin	Costs associated with monitoring and controlling the flow of natural gas through the pipeline system	a. Monitor and control gas storage facilities and related compression within prescribed guidelines to balance the pipeline system b. Respond to SCADA alarms and appropriately address the condition either by remote control operation or by dispatching appropriate personnel to the site.
9613 APT – Gas Scheduling	Costs associated with administering transportation nomination, scheduling, and confirmation processes	a. Confirms nominations at pipeline interconnections; resolves discrepancies in shippers' nominations; and provides confirmed nominations to Gas Control b. Analyzes and controls capacity utilization when pipeline locations are constrained c. Monitors pipeline web sites on a daily basis, obtains scheduled volumes, reconciles differences from the original or confirmed nominations, and appropriately applies adjustments to affected shipper accounts
9614 APT – Gas Control Operations	Costs associated with monitoring and controlling the flow of natural gas through the pipeline system	a. Monitor and control gas storage facilities and related compression within prescribed guidelines to balance the pipeline system b. Respond to SCADA alarms and appropriately address the condition either by remote control operation or by dispatching appropriate personnel to the site.
9618 APT – Info Mgt LP Assets	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions.	a. Create and maintain maps of Company's physical plant assets b. Support local operations by providing updated maps and responding to requests about our distribution facilities. c. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
9619 APT – Engineering Services Programs	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects

9620 APT – Regulatory	Costs associated with organizing and coordinating rates and regulatory affairs at the business unit level.	a. Develop and maintain strong business relationships with key regulatory personnel b. Develop a profitable strategic business plan which optimizes the allowed revenue requirement and rate of return c. Manage the preparation, training, and presentation of written and/or oral expert testimony d. Ensure compliance with all Commission orders and regulations
9621 APT-Div-President	Costs associated with business unit President and executive assistant.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Responsible for short and long term strategic plans c. Lead the business unit in maintaining safe and reliable natural gas service.
9622 APT – Human Resources	Costs associated with coordinating and directing human resource, safety, and training activities at the business unit level.	a. Employee training and development b. Address employee benefit concerns c. Hiring of personnel d. Address payroll matters
9624 APT – Engineering Services Admin	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
9625 APT – Finance	Costs associated with the organization and coordination of all financial activities at the business unit level.	a. Prepare annual budget b. Financial Reporting c. Analysis of O&M and Capital expenditures d. Revenue/Billing Analysts e. Collections
9626 APT – Marketing Admin	Costs associated with the design, development, and implementation of marketing programs for residential, commercial, and industrial customers.	a. Develop programs and promotions promoting load building and energy conservation b. Participate in studies and procure data necessary for monitoring market results c. Oversee all sales and marketing functions in all business unit locations d. Maintain and build relationships with key customers and decision makers
9627 APT - Gas Measurement Admin	Costs associated with organizing, coordinating and overseeing accurate measurement of natural gas	a. Directs and oversees efficient operation of measurement and regulation, and field measurement b. monitors gas quality by sampling and analysis
9628 APT - Claims	Costs associated with investigation, administration and fiscal recovery of third party damages to company property	a. Develops and recommends policies, practices and strategies to reduce damages to company assets b. Directs and participates in on-site investigations of significant damages c. Manages and directs negotiations with claimants, insurance companies, attorneys or mediators d .Receives and processes escalated settlements

9629 APT – Public Affairs VP	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards d. Provide operation support (i.e. media relations at emergency site) e. Prepare customer communication materials and media releases f. Develop message content and design for customer bill inserts g. Coordinate local advertising
9634 APT – Environmental & Supply Chain	Costs associated with monitoring the business unit's compliance with all applicable environmental laws and Regulations and Supply Chain Management.	a. Environmental regulation interpretation b. Environmental compliance and regulatory support to field operations c. Project management for remediation of former manufactured gas plants d. Environmental permitting support for construction projects e. Coordinate supply chain activities with internal clients and key suppliers to develop optimum inventory levels f. Coordinate investment recovery activities through proactive identification of surplus inventory and non-book assets g. Set local performance measures for key suppliers and develop cost savings initiatives h. Ensure warehouse cycle counts are completed accurately and on schedule i. Work with operations, engineering, and key suppliers to understand requirements, develop material usage forecasts, and develop delivery schedules
9635 APT – Compliance Monitoring & Reporting Admin	Costs associated with administration of company wide compliance services, standards, and activities.	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaise between regulatory personnel and field operations e. Monitor all measurement work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities
9636 APT – Gas Measurement Engineering	Costs associated with organizing, coordinating and overseeing accurate measurement of natural gas	a. Directs and oversees efficient operation of measurement and regulation, and field measurement b. monitors gas quality by sampling and analysis
9637 APT – Gas Meter Shop	Costs associated with organizing, coordinating and overseeing accurate measurement of natural gas	a. Directs and oversees efficient operation of measurement and regulation, and field measurement b. monitors gas quality by sampling and analysis
9638 APT – Construction Mgt Dallas-North	Costs associated with analysis and development of construction and maintenance projects	a. Identifies, develops and provides construction cost estimates for natural gas projects b. Initiates and administers process of solicitation, evaluation and recommendation of external bids c. Coordinates, schedules, and monitors construction activities

9639 APT – Engineering Services Northeast	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
9640 APT – Engineering Services South	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
9641 APT – Engineering Services West	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
9642 APT-SW Region Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9643 APT – Gas Storage & Compression	Cost associated with storage of natural gas	a. Monitors maintenance, capital projects and safety issues at compression and storage sites b. Ensures that Gas Control group receives adequate supply of gas and that pressure volume orders are processed efficiently
9644 APT – Asset Planning	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions.	a. Create and maintain maps of Company's physical plant assets b. Support local operations by providing updated maps and responding to requests about our distribution facilities. c. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation

9645 APT – Corrosion & Integrity	Costs associated with pipeline integrity. Costs associated with the direction of all measurement and corrosion control programs at the business unit level and engineering functions at the business unit level.	a. Direct assessment of transmission line High Consequence Areas b. Administer pipeline integrity management program c. Design and review of new pipe projects (i.e. Growth, Non-Growth, Retirement) d. Oversee outside contractor bidding process as well as the awarding of those contracts e. Work with Operations regarding budgets on pipe projects to ensure cost savings
9646 APT – Operations Support Admin	Costs associated with analysis and development of construction and maintenance projects	a. Identifies, develops and provides construction cost estimates for natural gas projects b. Initiates and administers process of solicitation, evaluation and recommendation of external bids c. Coordinates, schedules, and monitors construction activities
9648 APT – Safety & Insp	Costs associated with the implementation and administration of the business unit's safety and health programs.	a. Coordinate and implement the Occupation Safety and Health Programs of the Enterprise b. Conduct field safety audits for the Company as well as contractor personnel c. Coordinate and oversee the implementation and administration of required training including OSHA, DOT, and Federal Motor Carrier
9650 APT – SCADA/RTU	Costs associated with upkeep and maintenance of SCADA systems to ensure flow of natural gas through the transmission system	a. Installs, troubleshoots and maintains various types of SCAD communications equipment b. Verifies data being sent to host computers from remote sites is accurate and timely c. Provides field equipment installation and maintenance support
9652 APT – Info Mgt HP Assets	Costs associated with the development, design, and maintenance of computer mapping and other computer related functions.	a. Create and maintain maps of Company's physical plant assets b. Support local operations by providing updated maps and responding to requests about our distribution facilities. c. Maintain construction records for Company's physical plant assets as mandated by the Office of Pipeline Safety and Department of Transportation
9653 APT – Right of Way	Costs associated with acquisition of right-of-way agreements and land rights to support construction, maintenance, and operations of gas facilities	a. Researches determine legal ownership b.Prepares right-of-way documents c. Negotiates to obtain land rights from property owners d. Negotiates monetary settlements for property damage e. Maintains land right files

9654 APT-North Region Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9655 APT-North Reg Compliance East	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9656 APT-North Reg Compliance WF	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9657 APT-SE Reg Compliance ATH/LNG/COR	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9658 APT – Athens Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9659 APT – Greenville Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9660 APT – Longview Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9661 APT – Paris Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9662 APT – Sherman Area C&M	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance

9663 APT – Wichita Falls Area	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
9664 APT-SW Region South Director Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9665 APT-SE Reg Compliance BRY/GRO/KAT	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9666 APT-SW Reg Compliance South	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9667 APT-SE Reg Compliance Waco/Desoto	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9668 APT – Bryan North	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9669 APT – Round Rock West	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
9670 APT – Corsicana Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9671 APT – Temple Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9672 APT – Waco Area	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance

9673 APT-SW Region West Director Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9674 APT-SW Reg Compliance EAS	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9675 APT-SW Reg Compliance ABL	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9676 APT – Abilene Area C&M	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
9677 APT – Kerrville Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9678 APT – San Angelo Area C&M	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
9679 APT-Brownwood Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9680 APT-SE Region Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities

9681 APT –Pressure Control	Costs associated with monitoring gas pressure on the gas distribution system	a. Monitors pressure to ensure reliable gas distribution to customers b. Alerts Operations to low or high pressure points on system
9682 APT-SE Reg Compliance GAR	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9684 APT-Northre Region East Director Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9685 APT-North Region East Mgr	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9686 APT-SW Region Ft Worth/Arlington Director Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities

9687 APT-North Region West Mgr	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9688 APT – Plano C&M District	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
9689 APT-SE Region East Director Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9690 APT – Technical Services Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9691 APT – Northside Loop Project	Costs associated with the Northside Loop Pipeline system	a. Accumulates costs of joint-owned system for billing partner
9692 APT-Relocation Expenses	Costs associated with relocation expenses	a. Capture expenses related to employee relocations per the company's relocation policy.
9694 APT – Killeen Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance

9695 APT-SE Region South Director Admin	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9696 APT-SW Region Arlington Mgr	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9697 APT Denton District	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9698 APT – HEB District	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9699 APT-Mesquite District	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9701 APT-Irving District	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance

9702 APT – Bryan South	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9703 APT-Waco Area CS	Costs associated with work performed on the Pipeline System	a. General Maintenance
9704 APT-Wichita Falls Central	Costs associated with work performed on the Pipeline System	a. General Maintenance
9705 APT-Sherman CS	Costs associated with work performed on the Pipeline System	a. General Maintenance
9706 APT-Plano CS	Costs associated with work performed on the Pipeline System	a. General Maintenance
9707 APT-Round Rock East	Costs associated with work performed on the Pipeline System	a. General Maintenance
9708 APT-SE Region Garland District Central	Costs associated with work performed on the Pipeline System	a. General Maintenance
9711 APT – Abilene Area Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards-Provide operation support (i.e. media relations at emergency site) d. Prepare customer communication materials and media releases e. Develop message content and design for customer bill inserts f. Coordinate local advertising
9714 APT – Fort Worth Area Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards-Provide operation support (i.e. media relations at emergency site) d. Prepare customer communication materials and media releases e. Develop message content and design for customer bill inserts f. Coordinate local advertising
9715 APT-Plano Area Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards-Provide operation support (i.e. media relations at emergency site) d. Prepare customer communication materials and media releases e. Develop message content and design for customer bill inserts f. Coordinate local advertising

9716 APT – Dallas Area Public Affairs	Costs associated with coordinating and directing the business unit's political and public activities in regards to state and local arenas.	a. Develops, maintains, and enhances relationships with business and community leaders, local elected officials, and city managers b. Facilitate the city franchise renewal process c. Coordinate customer advisory boards-Provide operation support (i.e. media relations at emergency site) d. Prepare customer communication materials and media releases e. Develop message content and design for customer bill inserts f. Coordinate local advertising
9720 APT-McKinney District	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9721 APT-Garland District	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9722 APT-Arlington South District CS	Costs associated with work performed on the Pipeline System	a. General Maintenance
9723 APT-Rockwall District	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9733 APT-Asset Records	Costs associated with organizing, coordinating and overseeing Company's records	a. RWIP Unitization Close b. Review of Account 1060 balances for MidTex & APT c. Review open configs charges monthly for Atmos Pipeline-Texas to determine status of projects (O&M or Capital status) d. Review open configs charges monthly for MidTex to determine status of projects (O&M or Capital status) e. Review CM+ unit file f. CWIP File
9734 APT-SE Reg Waco Central Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work f. Other Construction work g. General Maintenance
9735 APT-Ft Worth CS North	Costs associated with work performed on the Pipeline System	a. General Maintenance
9736 APT-Ft Worth CS South	Costs associated with work performed on the Pipeline System	a. General Maintenance

9737 APT – Carrollton East	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9738 APT-HEB/Boyd District	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9739 APT- Fort Worth C&M North	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
9740 APT- Fort Worth C&M South	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
9741 APT-Round Rock Central	Costs associated with work performed on the Pipeline System	a. General Maintenance
9745 APT- DeSoto North	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9746 APT- DeSoto South	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9747 APT- Arlington C&M District	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
9748 APT- Compliance Monitoring	Costs associated with administration of company wide compliance services, standards, and activities.	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaise between regulatory personnel and field operations e. Monitor all measurement work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities
9749 APT- Compliance reporting	Costs associated with administration of company wide compliance services, standards, and activities.	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaise between regulatory personnel and field operations e. Monitor all measurement work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities

9751 APT-SE Reg Dallas C&M Central	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9752 APT-Compliance Damage Prevention	Costs associated with compliance Damage Prevention	a.Compliance damage prevention
9760 APT-Eastland Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9765 APT-North Reg Compliance SHE/PAR	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9770 APT-Southeast Region Groesbeck Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9775 APT-Sweetwater Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9776 APT-Stephenville Area	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9777 APT-San Angelo CS	Costs associated with work performed on the Pipeline System	a. General Maintenance
9778 APT-Abilene CS	Costs associated with work performed on the Pipeline System	a. General Maintenance

9780 APT-Construction Management Southwest	Costs associated with analysis and development of construction and maintenance projects	a. Identifies, develops and provides construction cost estimates for natural gas projects b. Initiates and administers process of solicitation, evaluation and recommendation of external bids c. Coordinates, schedules, and monitors construction activities
9781 APT-Compliance Integrity	Costs associated with administration of company wide compliance services, standards, and activities.	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaise between regulatory personnel and field operations e. Monitor all measurement work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities
9782 APT-Compliance Engineering	Costs associated with administration of company wide compliance services, standards, and activities.	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaise between regulatory personnel and field operations e. Monitor all measurement work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities
9783 APT- Finance Admin	Costs associated with the organization and coordination of all financial activities at the business unit level.	a. Prepare annual budget b. Financial Reporting c. Analysis of O&M and Capital expenditures d. Revenue/Billing Analysts e. Collections
9784 APT-Engineering Svc Dal-NW	Costs associated with designing, developing, and executing engineering efforts	a. Design of system mains, regulator and meter settings and corrosion corrosion control protection b. Conducts product evaluation and makes recommendations to standards committee c. Provides engineering specifications, surveys and directions for construction projects
9785 APT-North Reg Boyd Disctrict	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9799 APT-Reg Compliance	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9802 APT-North Reg Compliance DEN/BOYD	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9803 APT-SW Reg Compliance FW	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance

9804 APT- CNG Operations	Costs associated with construction	a. New Construction Work b. Other Construction Work c. General Maintenance
9806 APT-North Reg West Dir	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9808 APT-SE Reg East Mgr	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9809 APT-Ft Worth SW Region Mgr	Costs associated with organizing, coordinating, and directing regional natural gas distribution operation activities at the business unit level.	a. Develop and maintain business relationships with key governmental, regulatory and community offices b. Monitor Federal, state, and local regulations pertaining to all functional areas in order to ensure compliance c. Develop, recommend, implement, and monitor short and long-term strategic plans to achieve profitability and growth while maintaining safe and reliable natural gas service d. Research, recommend, and administer policies, procedures, and operating standards for the efficient and cost effective operations of functional area activities
9810 APT-SW Compliance ARL-IRV	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9811 APT-West Storage	Cost associated with storage of natural gas	a. Monitors maintenance, capital projects and safety issues at compression and storage sites b. Ensures that Gas Control group receives adequate supply of gas and that pressure volume orders are processed efficiently

9812 APT-East Storage	Cost associated with storage of natural gas	a. Monitors maintenance, capital projects and safety issues at compression and storage sites b. Ensures that Gas Control group receives adequate supply of gas and that pressure volume orders are processed efficiently
9813 APT-Garland CS	Costs associated with analysis and development of construction and maintenance projects	a. Identifies, develops and provides construction cost estimates for natural gas projects b. Initiates and administers process of solicitation, evaluation and recommendation of external bids c. Coordinates, schedules, and monitors construction activities
9814 APT-North Reg McKinney District CS	Costs associated with operations, construction, and service	a. Customer service requests b. Meter Reading c. Collections d. New Construction work e. Other Construction work f. General Maintenance
9815 APT-Distribution GIS (North)	Costs associated with administration of company wide compliance services, standards, and activities.	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaise between regulatory personnel and field operations e. Monitor all measurement work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities
9816 APT-PL Marketing Contract Admin	Costs associated with organizing, coordinating and overseeing Company's transportation and large volume sales	a. Negotiates new gas transportation sales and delivery contracts b. Researches, analyzes and maintains data relative to large volume sales c. Assists in developing strategies and designing marketing plans and programs
9817 APT-Compliance Management	Costs associated with compliance & measurement	a. Compliance b. Meter/Regulator testing & maintenance
9818 APT-Project Reporting	Costs associated with administration of company wide compliance services, standards, and activities.	a. Review state and federal rules for business unit b. Work with state regulatory agencies in audits c. Monitor the Operator Qualification program d. Liaise between regulatory personnel and field operations e. Monitor all measurement work for business unit f. Data input of meter tests in business unit g. Oversight of corrosion compliance activities
9819 APT- Operating Suport Hydrotesting	Costs associated with analysis and development of construction and maintenance projects	a. Identifies, develops and provides construction cost estimates for natural gas projects b. Initiates and administers process of solicitation, evaluation and recommendation of external bids c. Coordinates, schedules, and monitors construction activities

C220 Atmos Energy Louisiana Industrial Gas (AELIG) – Cost Centers

Cost Center	Description
8410 AELIG-Corporate	Revenue/cost associated with shared services
8411 AELIG-Marketing	Costs associated with the design, development, and implementation of business development programs.
8412 AELIG-Gas Supply	Costs associated with the management of the Regional Supply department
8413 AELIG-Trading	Costs associated with trading.
8551 TLIG-Administration	Costs associated with business unit President and executive assistant.
8555 TLIG-Operations	Costs associated with operations.
8565 AEH Information Technology	Costs associated with the maintenance and support of the business unit's information systems.
8574 AEH Marketing-New Orleans	Costs associated with the design, development, and implementation of business development programs.
8579 AEH Gas Supply	Costs associated with the management of the Regional Supply department

C221 Atmos Power Systems Inc – Cost Centers

Cost Center	Description
8600 Atmos Power Systems Inc. (Previously Atmos Leasing)	Operations associated with Power Gen facilities Bolivar and Staley

C231 Atmos Pipeline & Storage LLC – Cost Centers

Cost Center	Description
8520 Atmos Pipeline & Storage Corporate	Revenues and expenses associated with core holding company as well as activity related our interest on the North Side Loop joint venture.
8562 AEH Financial Reporting	AEH Financial Reporting

C232 UCG Storage – Cost Centers

Cost Center	Description
8501 UCG Storage – Corporate	Revenue/cost associated with shared services
8502 UCG Storage – Barnsley, KY	Operations related to the Barnsley Storage facility, including Demand charges collected from AEC
8582 AEH Field Operations	AEH Field Operations

C233 WKG Storage – Cost Centers

Cost Center	Description
8530 WKG Storage - Corporate	Costs associated with shared services from various entities
8531 WKG Storage – East Diamond	Costs associated with storage management agreement with WMLLC
8534 WKG Storage – Tar Spring Storage Field	Costs associated with storage management agreement with Tar Spring

C234 Trans Louisiana Gas Storage – Cost Centers

Cost Center	Description
8540 TLGS - Corporate	Revenue/expenses related to operations of TLGS Storage facility primarily intercompany activity with TLGP

C236 Atmos Gathering Company, LLC – Cost Centers

Cost Center	Description
9825 Atmos Gathering Company	Revenues/expenses relating to Shrewsbury, Pioneer, and other various AGC service areas

C301 Atmos Energy Services LLC – Cost Centers

Cost Center	Description
9110 AES – Retail Services	Allocated labor and other operating costs related to Gas Supply Services provided to AEC

C303 Trans Louisiana Gas Pipeline – Cost Centers

Cost Center	Description
9001 TLGP – Lafayette Region	Operating revenue/expense related to activity serviced off the Lafayette Region system

REQUEST:

Provide Atmos's budget instructions, assumptions, directives, manuals, policies and procedures, timelines, and descriptions of budget procedures.

RESPONSE:

Preparation of operating and construction budgets formally begins in late May and culminates with completion of final budgets in late August for the following fiscal year. Budget preparation is based on determining the upcoming annual system requirements necessary for continued safe and reliable operation of the system. In addition, expected customer growth is considered in order to determine any additional support or investment required to support that growth. Budgets are approved at multiple levels beginning with supervisors/managers up through Division leadership. Ultimately, budgets are formally approved by the Board of Directors in September of each year.

Additional reviews are performed by corporate executive operations management and their staff. High level reviews of the division budgets are performed by corporate executive management. The Board of Directors must review and approve the total Company budget before finalization and implementation.

Also, please see Attachment 1 through Attachment 5 for instructions, assumptions and timelines.

PlanIT Review

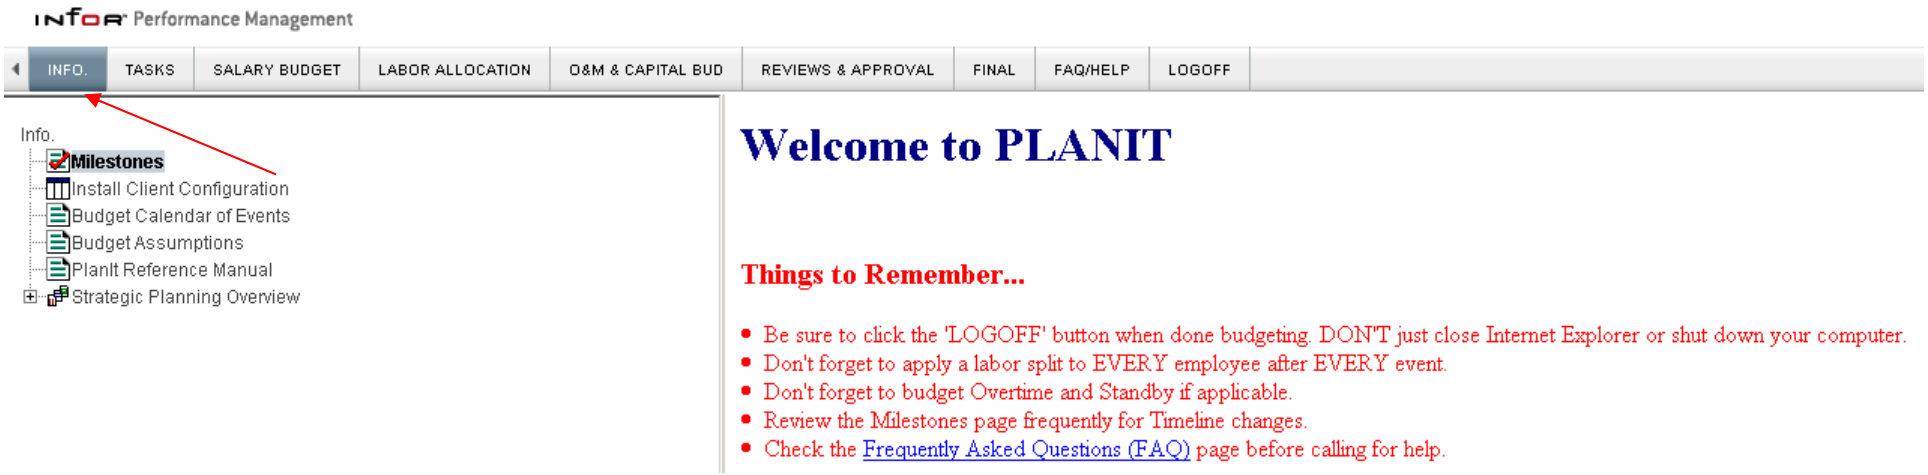
Accessing PlanIt (cont.)

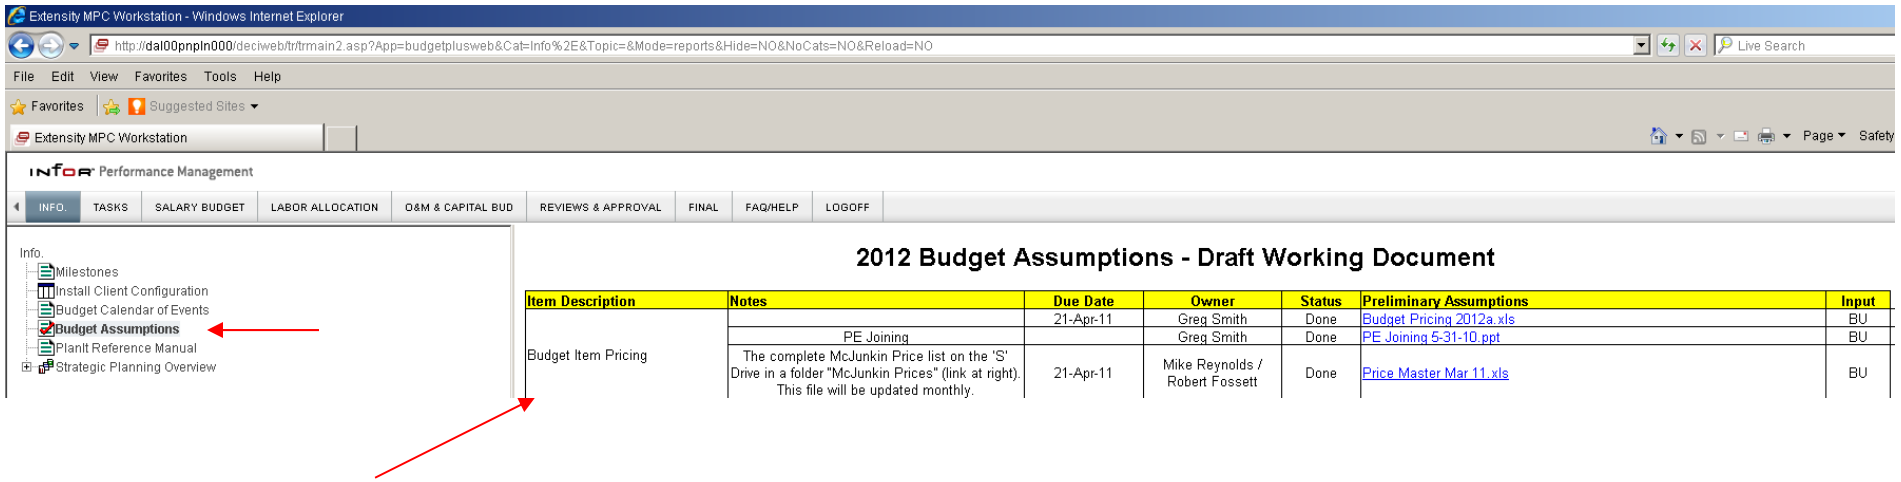
PlanIT welcome screen:



PlanIT Review

Accessing PlanIt (cont.)

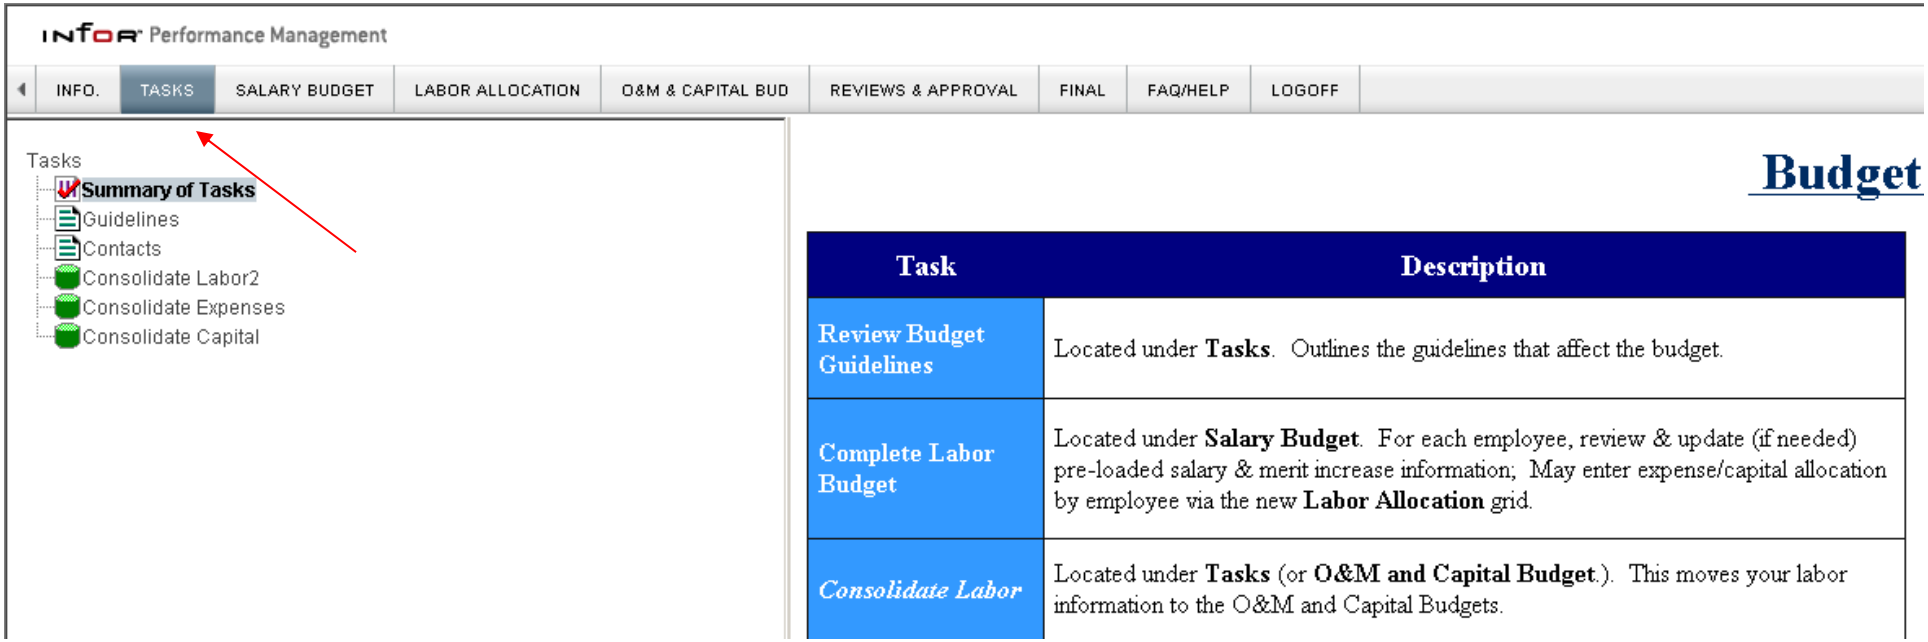
The Budget Assumptions link will take you to the current assumptions page. Please refer to this page as needed during the budgeting process.



PlanIT Review

Accessing PlanIt (cont.)

When you finish reading the information section, you would next click on the tasks tab at the top of the sheet. The following screen will appear:

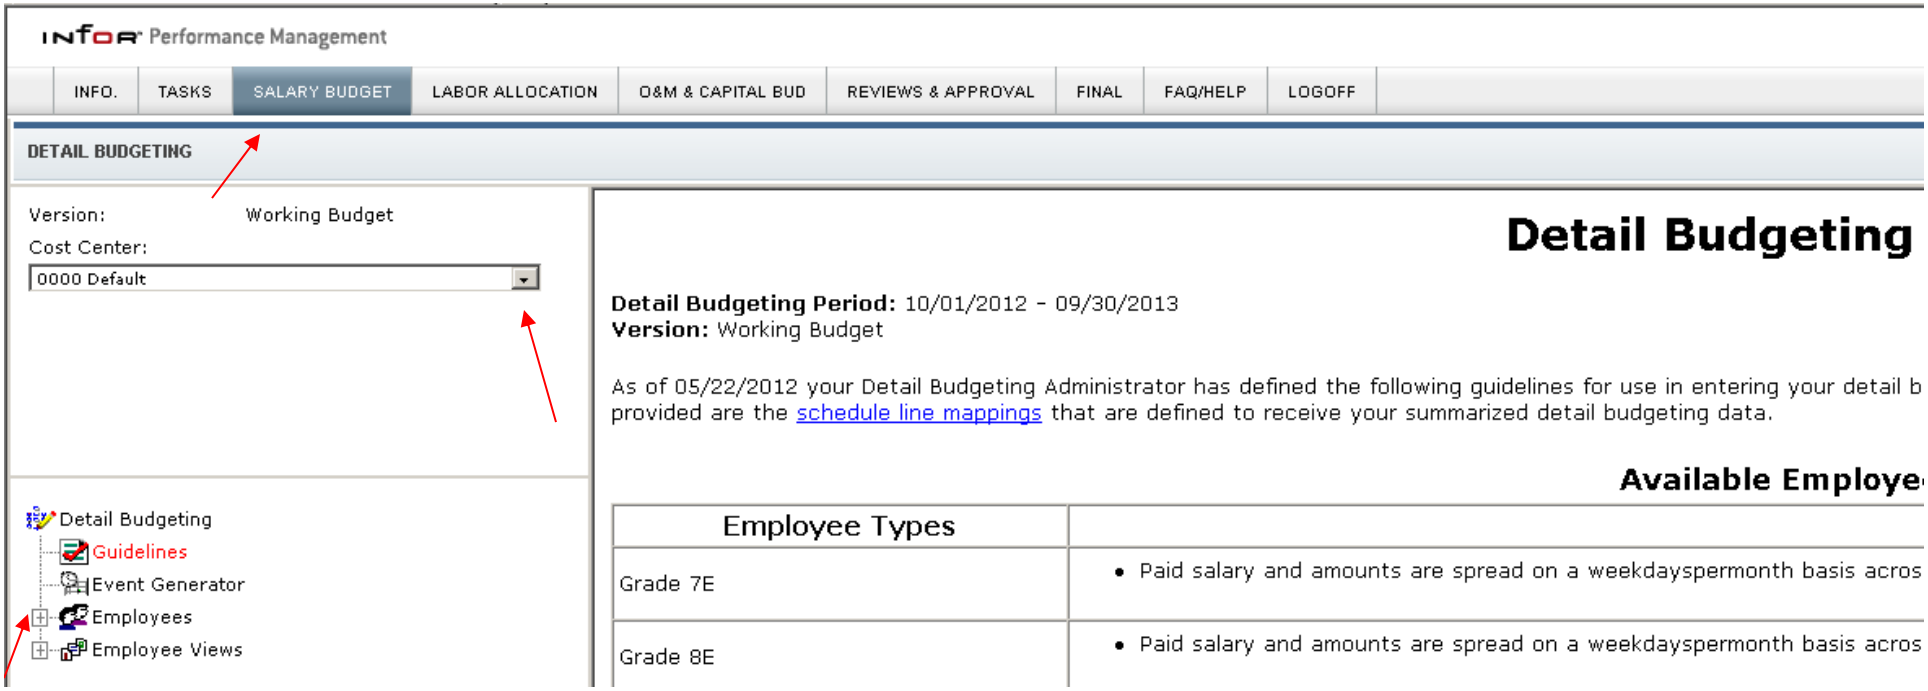


The first screen provides you with a summary description of the different tasks you will need to perform within Planit and the order in which you need to perform them.

PlanIT Review

Labor Entry – Select Employee

- After clicking on the Salary Budget tab, the following screen will appear.
- Select the cost center from the drop down box.
- To see a list of the employees for this cost center, click on the plus (+) sign next to the word "Employees".



PlanIT Review

Labor Entry – Salary Related Notes

• Current salary information has been downloaded from Payroll as of May 5, 2017. Please verify that the current annual salary for each employee is correct.

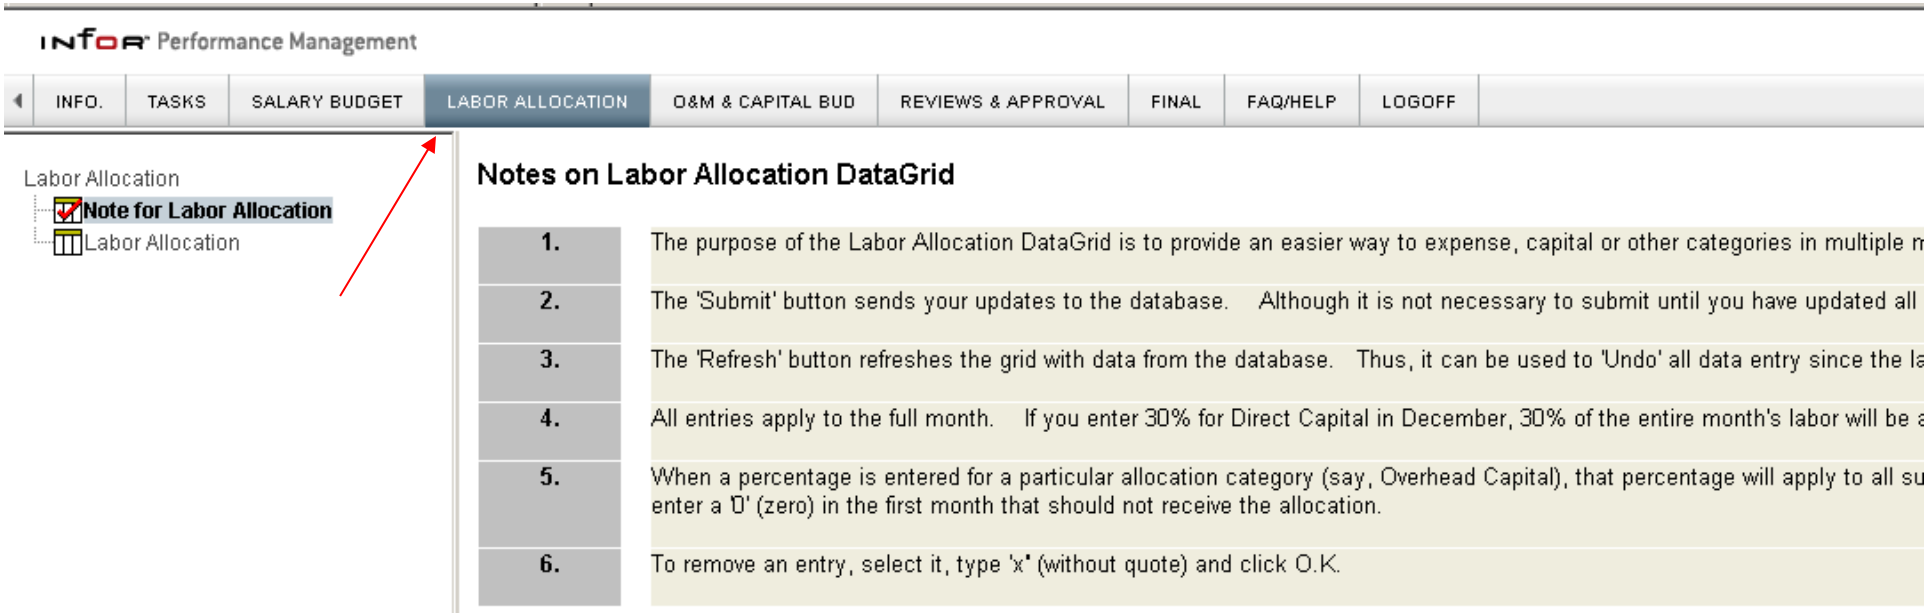
• If you have an employee that was hired after May 5, 2017, you will need to manually add that employee (addressed in a later slide).

• The average Atmos merit increase has been entered at 3.0% (placeholder only) to update the current salary to the amount it will be on Oct. 1. To change the raise percentage, type over the existing amount using whole numbers

PlanIT Review

Labor Entry – Labor Allocation

- To sculpt labor percentages throughout the FY 2018 year, you can use the Labor Allocation Data Grid.



PlanIT Review

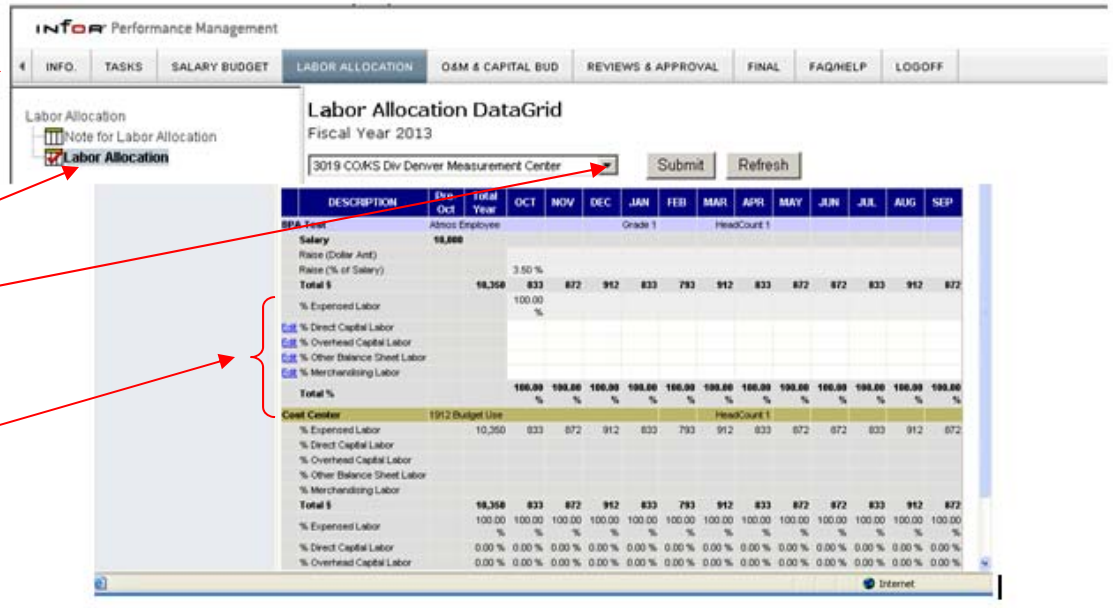
Labor Entry – Labor Allocation (cont.)

NOTE: You can maximize this screen by selecting the small arrow next to **Information** topic to hide the topic menu.

Select the Labor Allocation from the left-hand side.

Select your Cost Center from the drop down menu.

To change this split, select **Edit** next to the allocation you wish to change. Once you enter the new amount, click “OK”, which will appear beside the “Edit” button.



NOTE: You may only have to perform this task for new employees you add.

PlanIT Review

Labor Entry – Labor Allocation (cont.)

• Type the allocation using a decimal format (ex. 95%=.95, 60%=.6, 5%=.05) in the appropriate month(s).

• There is no need to enter the same amount to all the months if an employee has the same rates each month. The grid will calculate the amount for all the months that follow.

• The **% Expensed Labor** line is defaulted to calculate 100% minus the sum of the other %s. Therefore, the **Total %** line should always equal 100%.

• You may edit as many employees on the screen as you want prior to selecting the **Submit** button located at the top of the screen.

• If you have more than 10 employees in your cost center, then you must select the page number at the bottom right-hand side of the grid to see the rest of your employees and the Cost Center Summary.

• When you are done entering your Labor Allocation (i.e. Splits), then you **MUST** select the **Submit** button at the top of the grid for your updates/changes to be accepted.

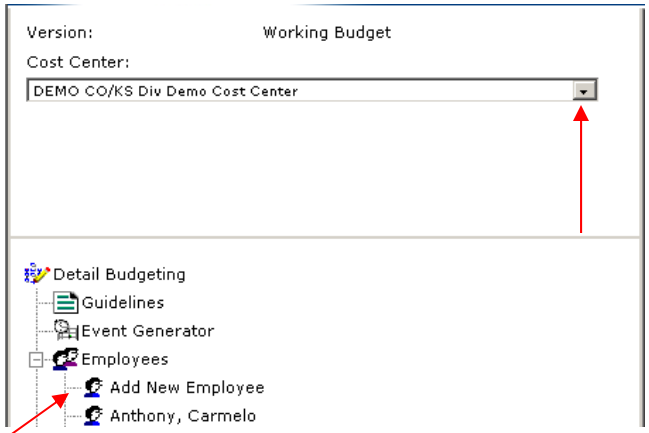
PlanIT Review

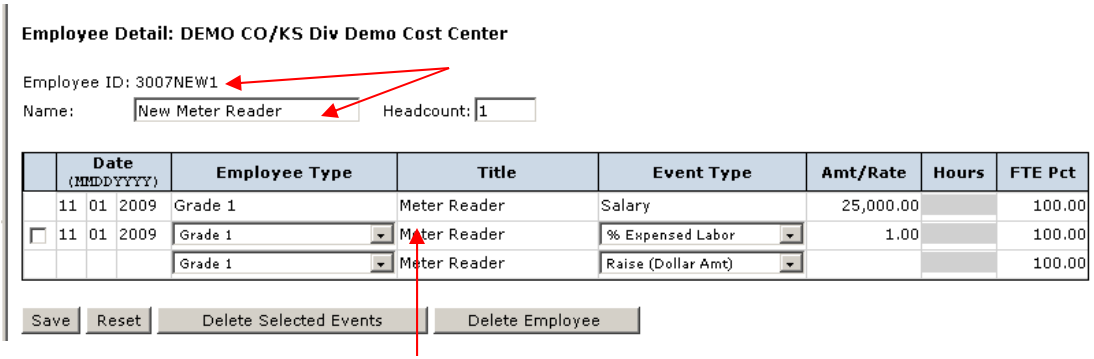
Labor Entry - Adding An Employee

- Select the cost center you want to update from the drop down list.
- Choose “add new employee” from the menu.
  - Make up an employee number using your cost center in the number (ex. 3007NEW1), give the employee a name (ex. New Distribution Operator), and **enter a Headcount of 1**. (They do not count towards your overall headcount. It gets filtered out in the **Salary & Benefits Review**).

    NOTE: If you have an employee hired after May 16th, enter his/her name in the following format: Last Name, First Name

  - On the first line, enter the date the new employee will begin for a new hire (or 10/01/2017 for an existing employee hired after May 5, 2017).
  - Under event type, use the drop down box to choose the appropriate pay grade for a new employee.





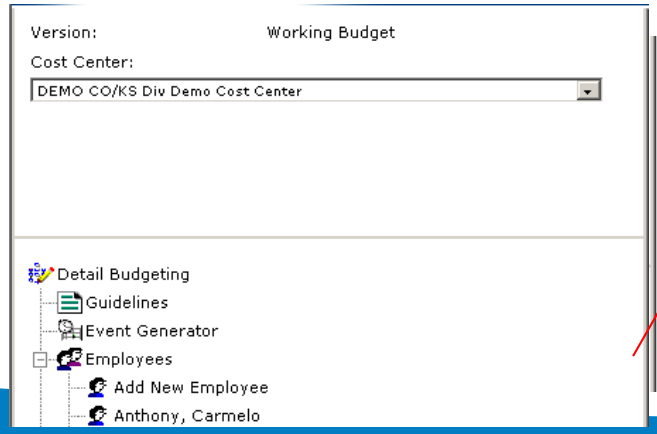
PlanIT Review

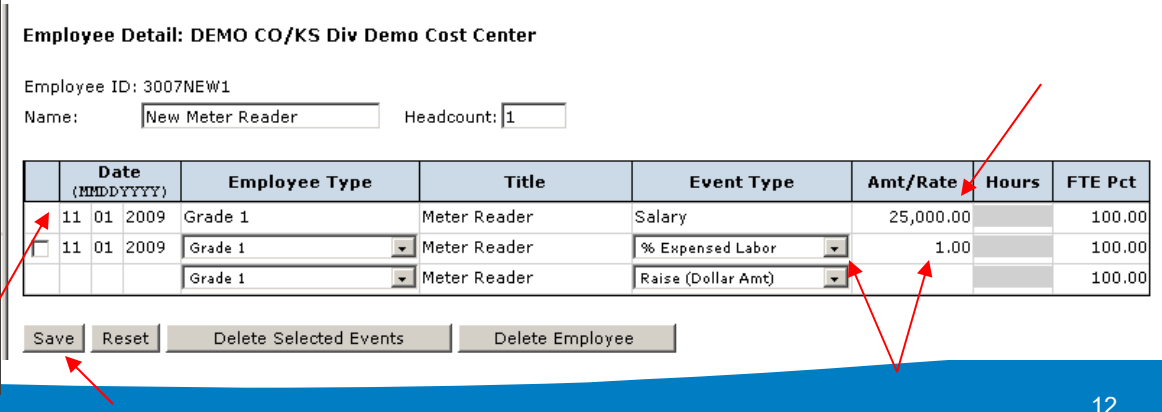
Labor Entry - Adding An Employee

- In the Amt/Rate column, enter the **annual** salary of a new hire. **PLEASE DO NOT ENTER A MONTHLY OR QUARTERLY AMOUNT.**
- Hit the save button. Another blank line will be added.
- On the second line, enter the same date and under event type choose % Expensed Labor.
- Using decimal format, enter the percentage of the overtime labor or employee's labor that should be expensed. **For standby labor, 100% should be expensed.**
- Hit the save button. Another blank line will be added.
- Choose one of two methods to enter capital amounts:

a) Within this same screen on the third line, enter the same date and under event type choose % Direct capital labor or % Overhead capital labor. Using decimal format, enter the percentage of the overtime or employee's labor that should be capitalized. Verify that the expense and capital percentages add up to 1 (100%) and then click the save button.

b) Go to the Labor Allocation grid and assign the labor splits

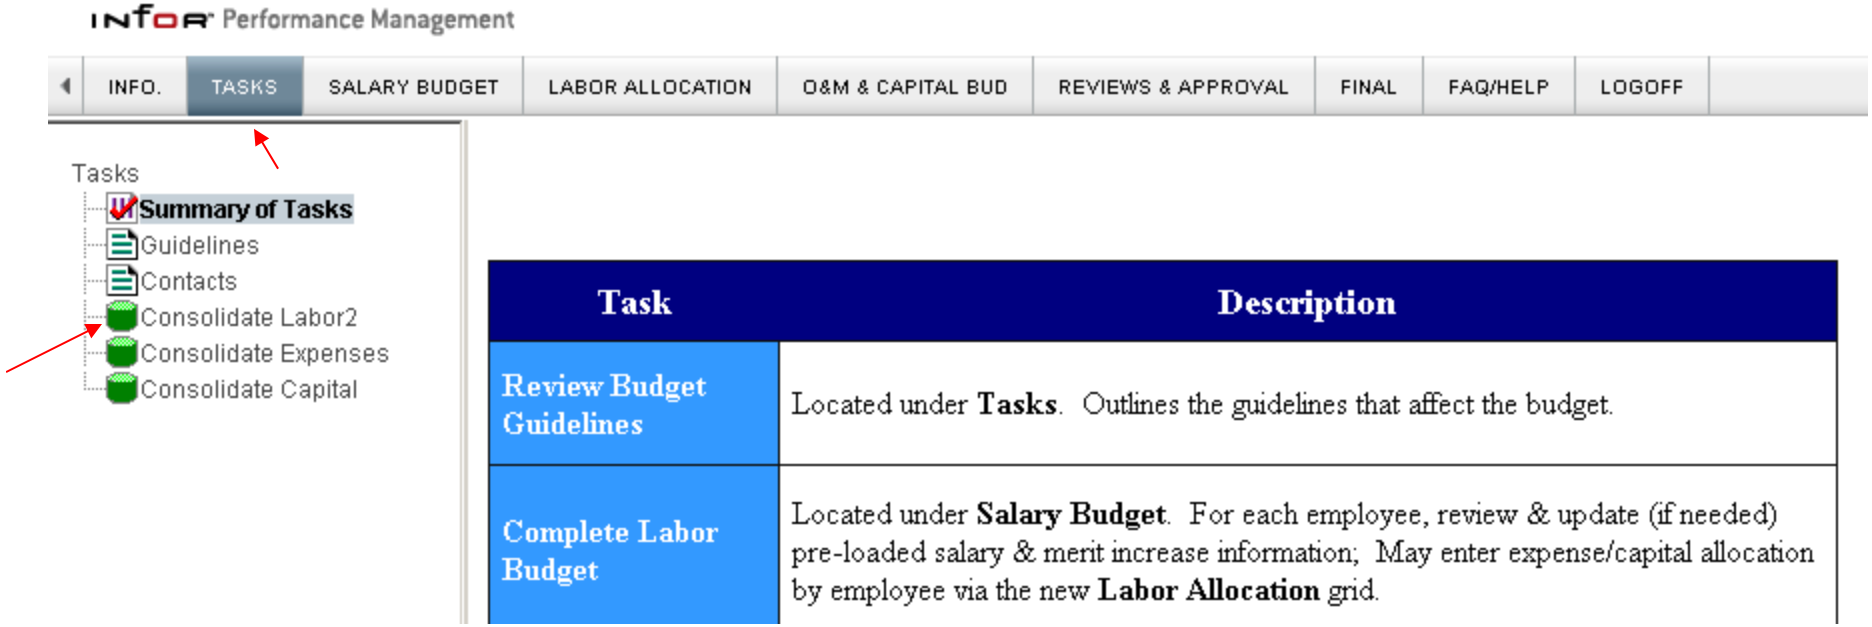




PlanIT Review

Labor Entry (cont.)

- After you have entered and saved all of your labor budget information, you will need to consolidate. This will move your data to the salary reports in the Reviews section.
  - Click on the tasks tab at the top of the screen.
  - Click on the Consolidate Labor2 icon in the task menu.

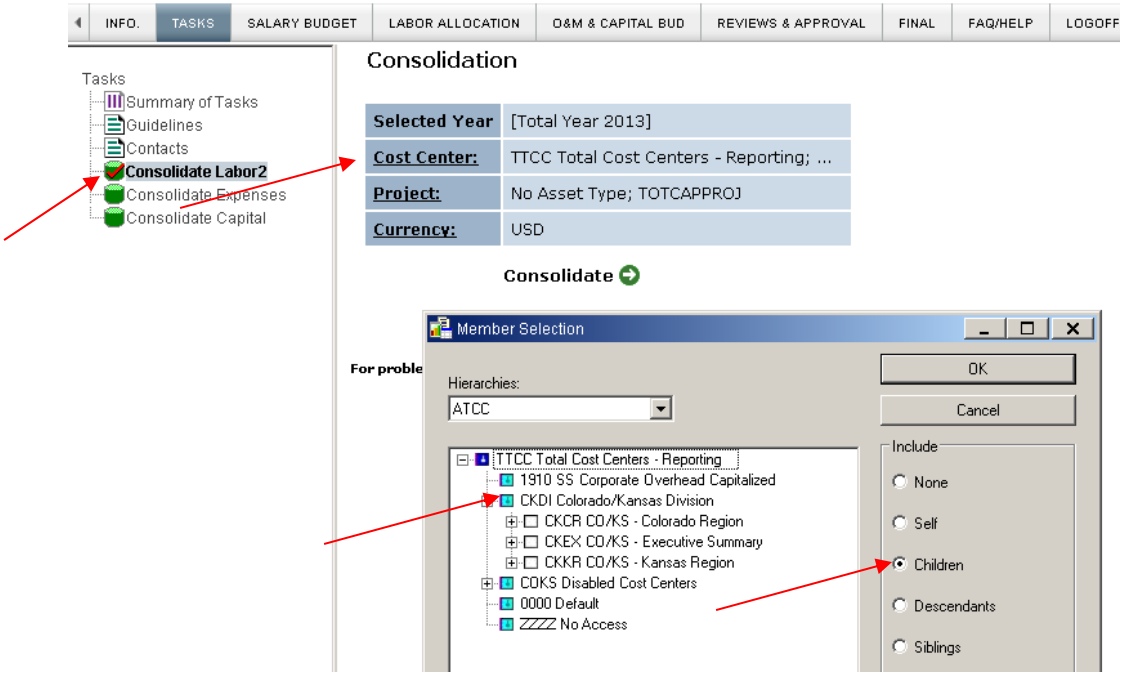


Task	Description
Review Budget Guidelines	Located under **Tasks**. Outlines the guidelines that affect the budget.
Complete Labor Budget	Located under **Salary Budget**. For each employee, review & update (if needed) pre-loaded salary & merit increase information; May enter expense/capital allocation by employee via the new **Labor Allocation** grid.

PlanIT Review

Labor Entry – Consolidating Labor

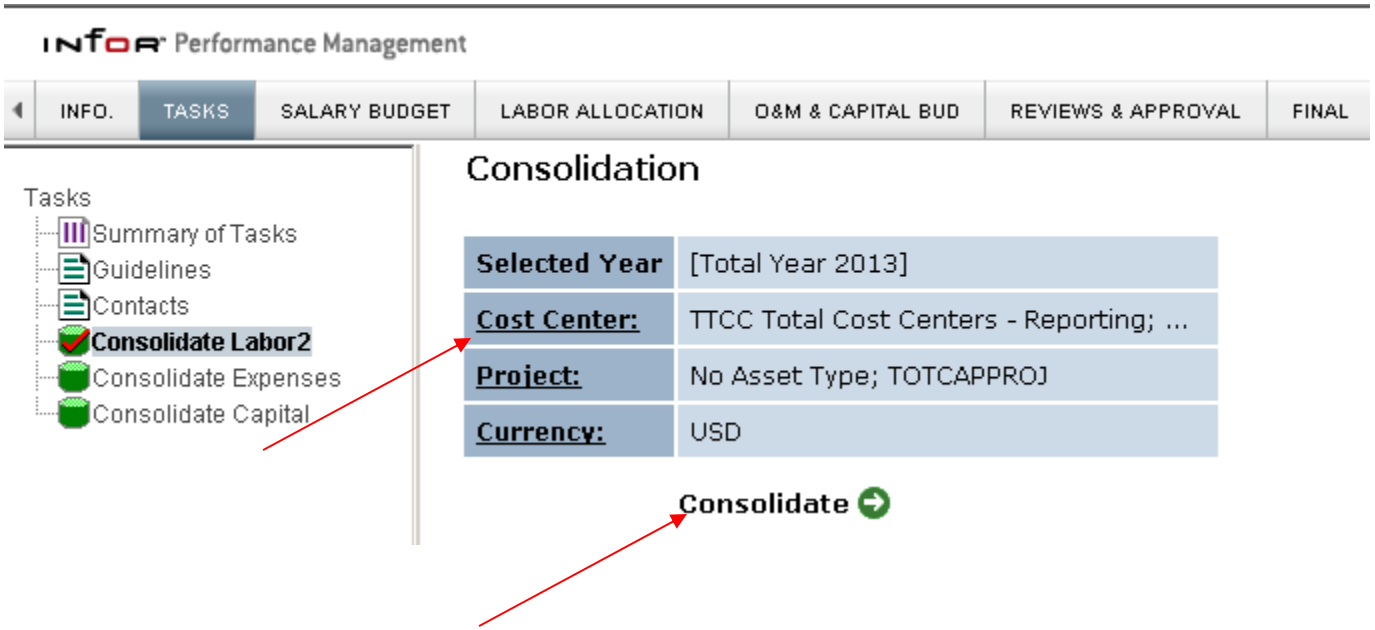
- The selected year will default to “Total Year 2018”.
- Click on the cost center button and choose your cost center (or, if you have multiple cost centers, you can select the “parent” roll up and select “children”, and all of the cost centers under the parent will be selected.)



PlanIT Review

Labor Entry – Consolidating Labor

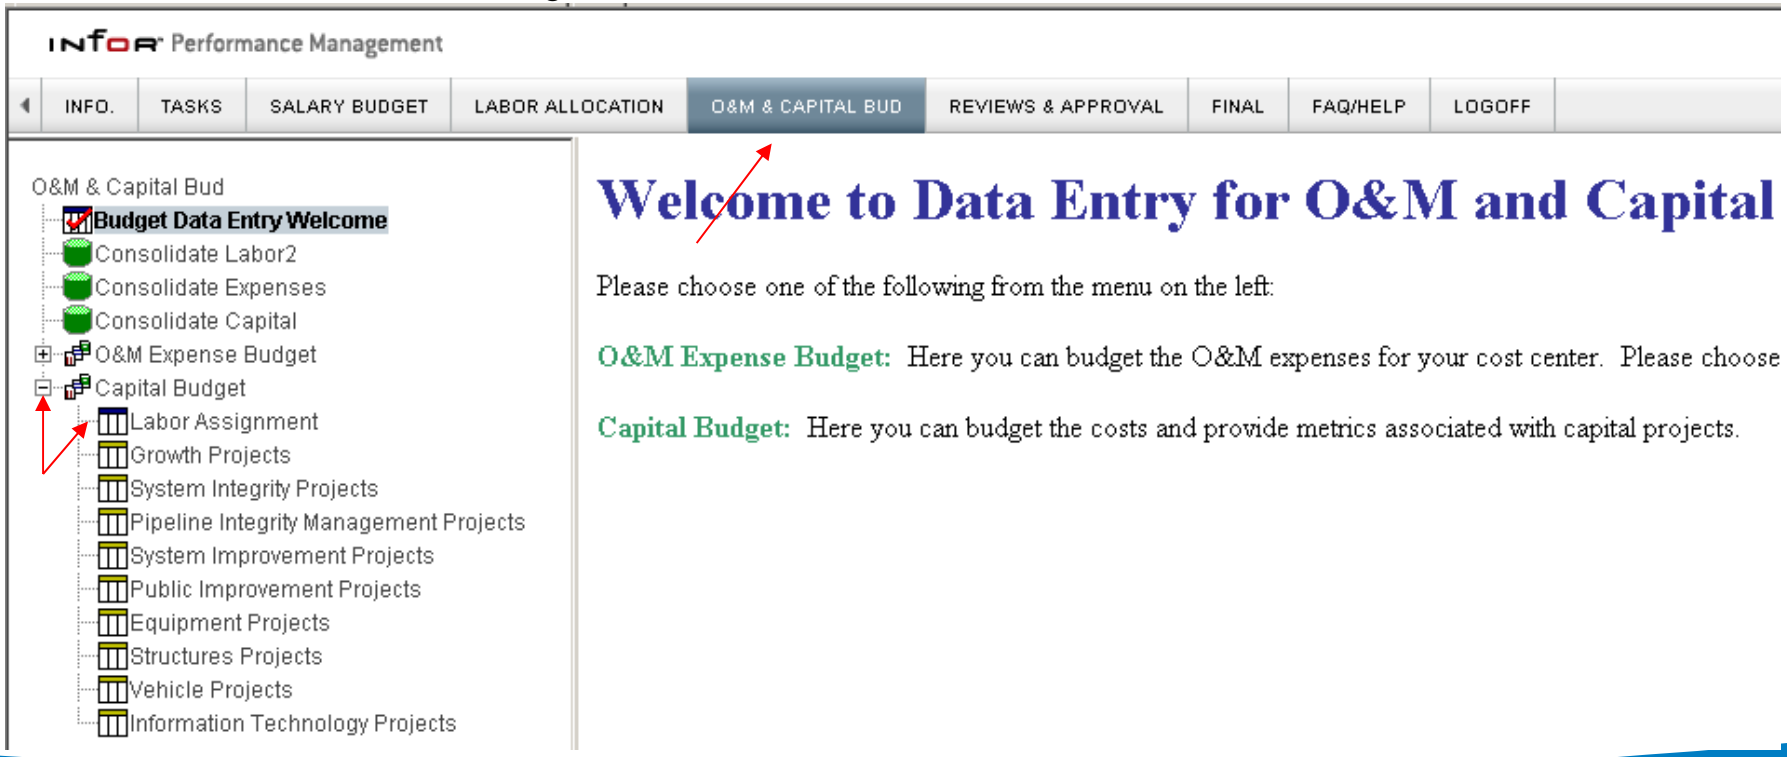
- Click on the Consolidate Button
- You will see a message stating that the "consolidation is running." This process may take a few minutes.



PlanIT Review

Capital Entry

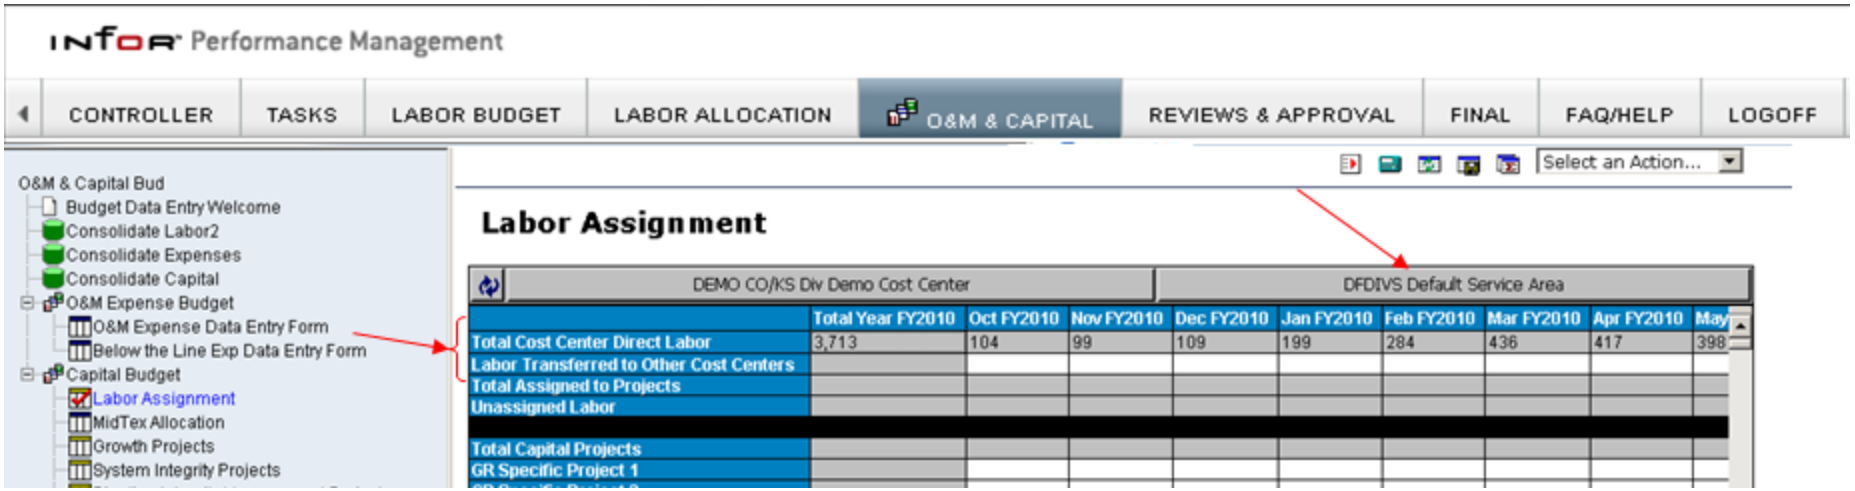
- Click on the O&M and Capital Budget category. Then click on the plus sign (+) next to "Capital Budget" to expand the choices.
- Next, click on Labor Assignment



PlanIT Review

Capital Entry – Labor Assignment

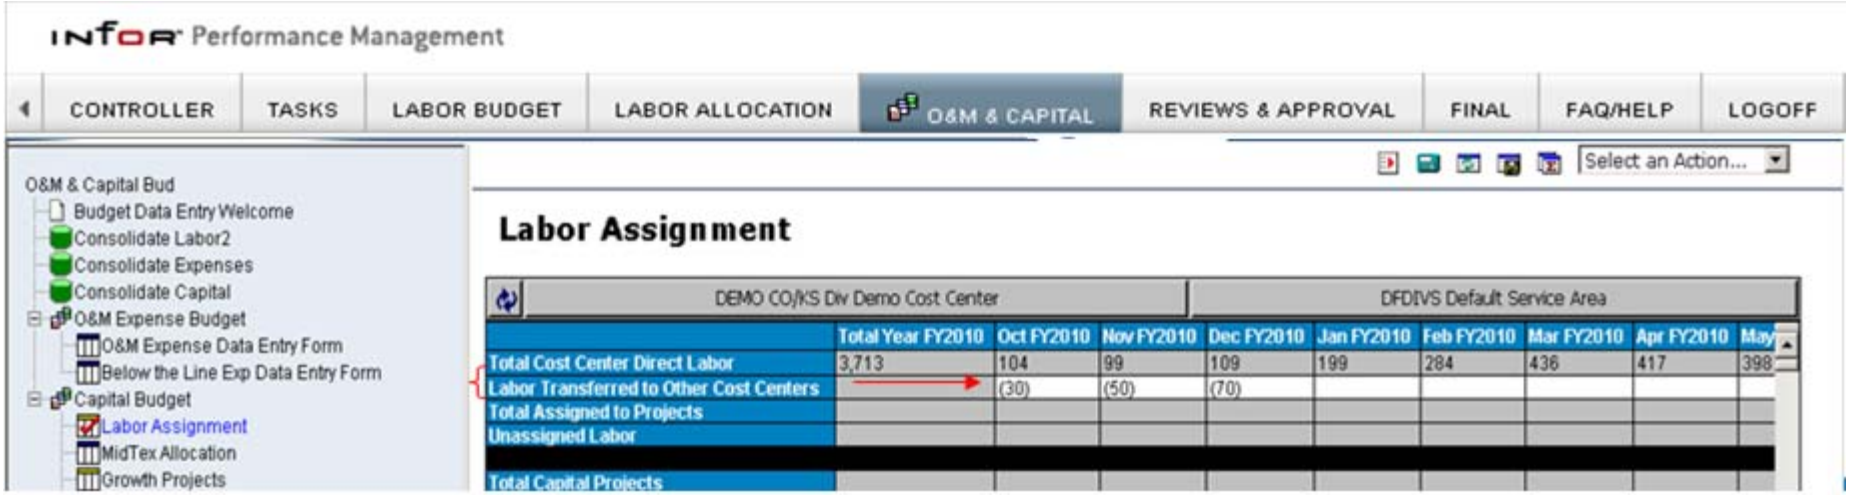
- You **MUST** select your Rate Jurisdiction/Service Area for Capital Projects.
- In the gray area of this spreadsheet you will find your direct capital labor dollars by month that you budgeted in labor budget.
- Notice that there is a white data entry line titled **Labor Transferred to Other Cost Centers**.



PlanIT Review

Capital Entry - Labor Transfers to Other Cost Centers

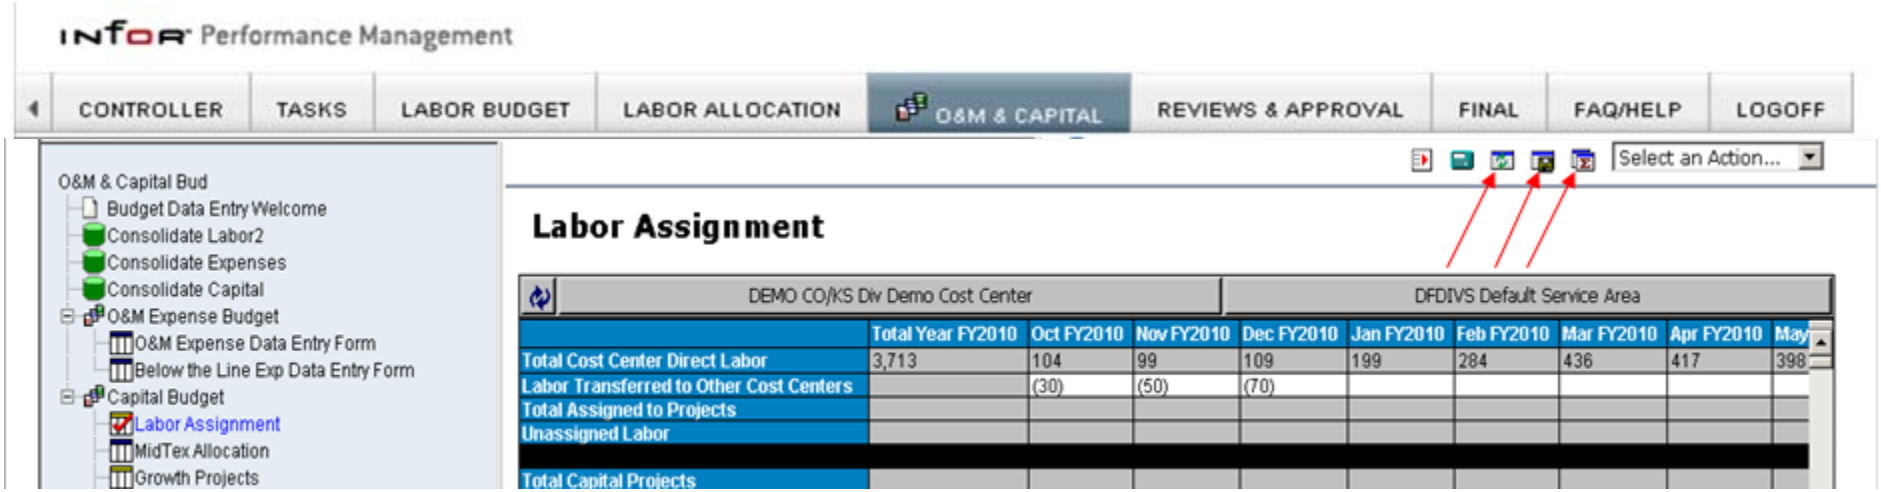
- If you plan to send employees to other cost centers to work on capital projects, you need to key the total dollar by month you expect to transfer. This amount must be keyed in as a negative. You will need to coordinate with the cost center supervisor where these employees will be working so that he/she budgets a corresponding "transferred in" monthly amount in the appropriate project in his/her cost center.



PlanIT Review

Capital Entry - Labor Transfers to Other Cost Centers (cont.)

- When finished, save the data by clicking on the save data icon at the top of the screen.
  - Click the labor assignment calculation.
  - Click the refresh icon to see updated unassigned labor amounts.
- If you do not have any transferred-out labor, there is no need to save.



PlanIT Review

Capital Entry - Labor Transfers to Other Cost Centers (cont.)

- The remaining amounts by month on the unassigned labor line are the labor dollars you must now assign to your capital projects. Make note of the amounts by month.

- To see how much you have left, periodically, you may select the **Save**, **Labor Assignment Calculation,** and **Refresh** icons.

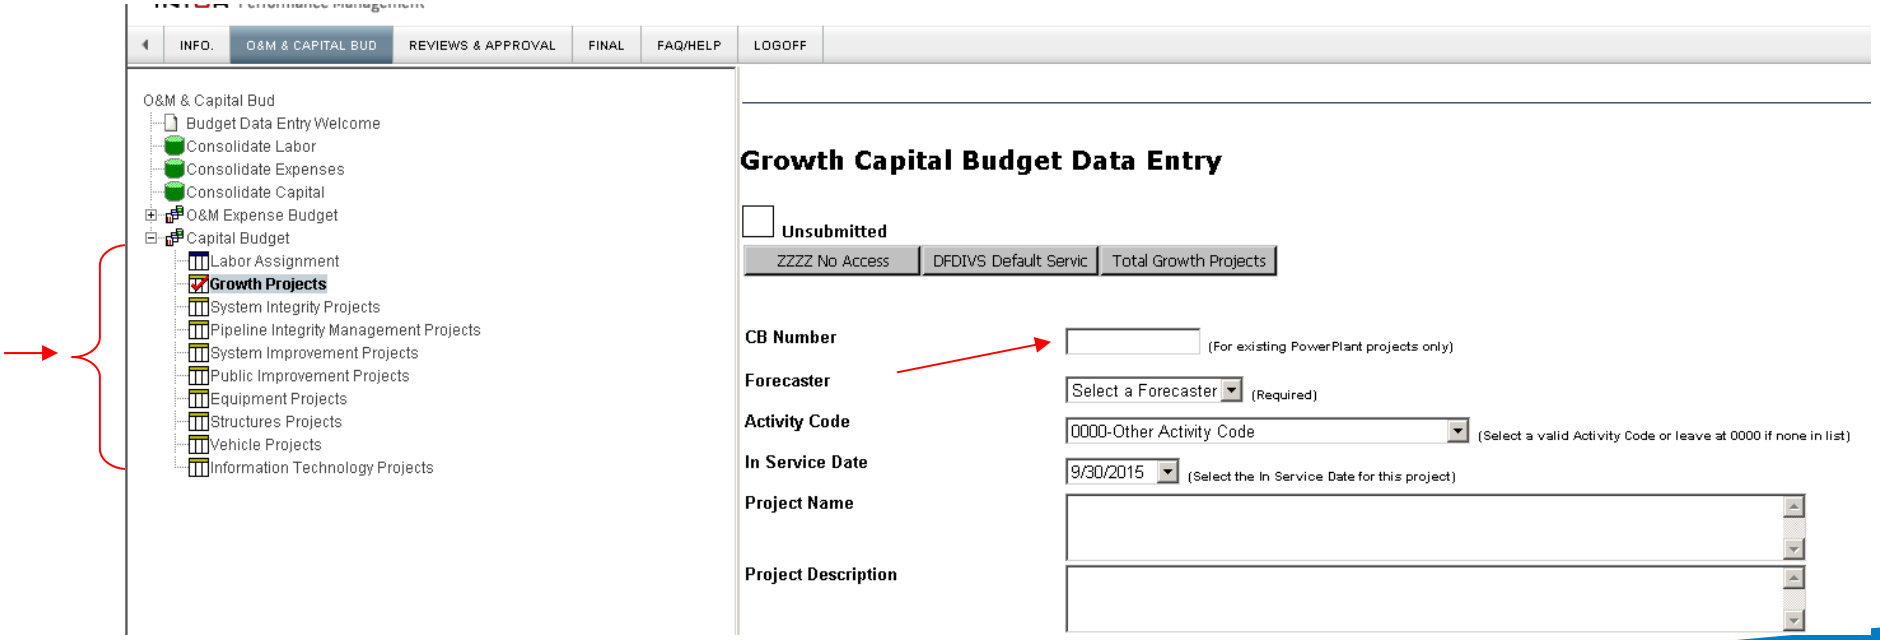
- The second column is titled “Name”. This is the project name that you have or will assign to the particular Project. If you have not entered Projects, then this column will be blank. Once you budget projects and assign them names, this column will be populated.

- The Unassigned Labor line will recalculate. If you still have a balance, then you must either:
  a) Change the amount of an existing project or
  b) Add amounts to additional projects.

PlanIT Review

Capital Entry - Budgeting Projects

- In the menu section under capital budget all of the budget categories are listed.
- The process for entering the budget for each category is the same.
- The only difference is what type of units you will enter into the metrics section.
- If you have a carryover project from FY17, please enter the related CB number in this field. Otherwise, please leave this field blank and a new CB number will be automatically assigned by Plant Accounting after the budget process is complete.

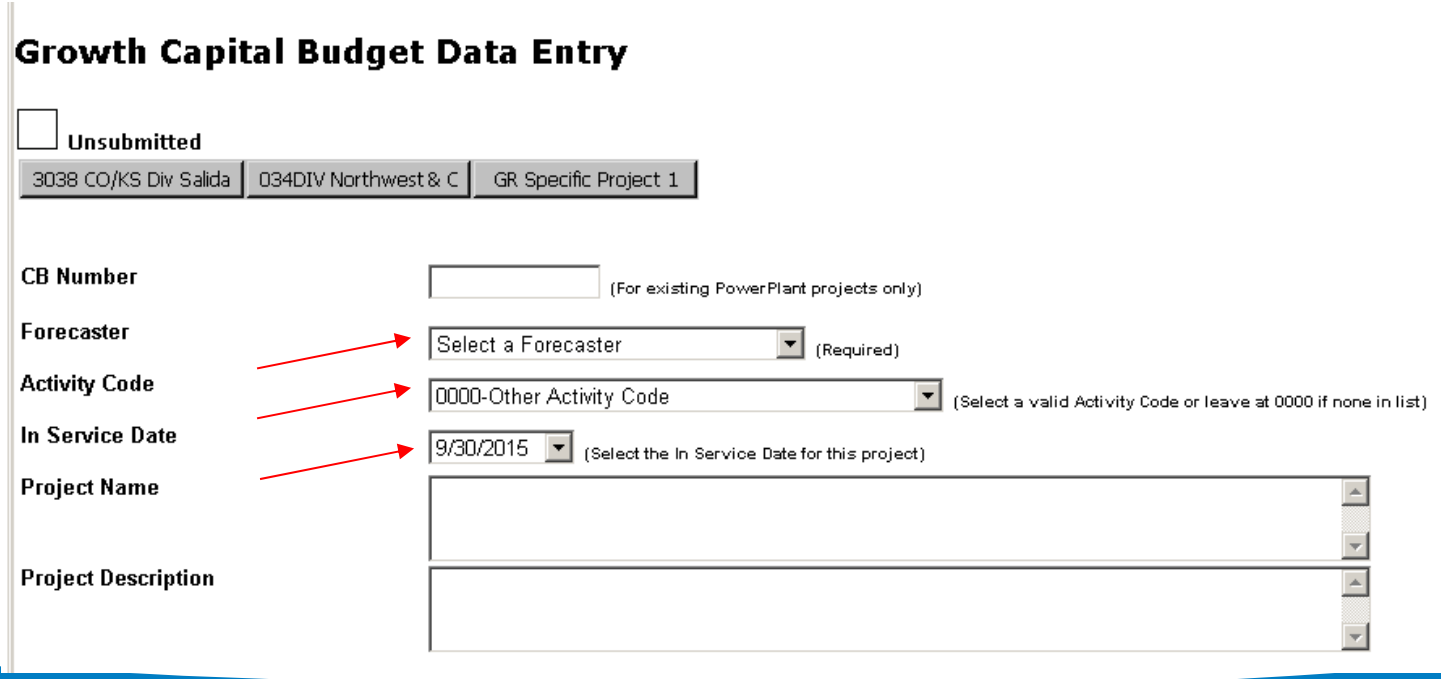


PlanIT Review

Capital Entry - Budgeting Projects

New This Year:

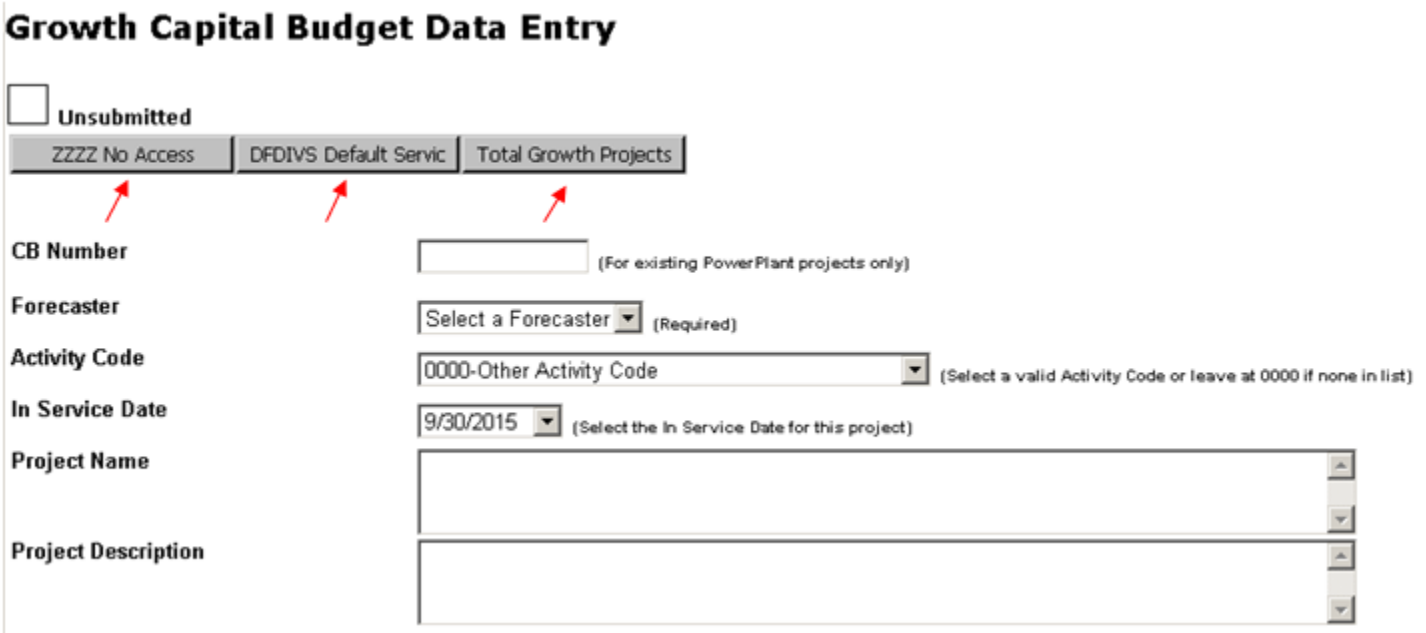
- You must select a "Forecaster" from the drop down list for each project. (This information will be used to populate the Forecast grid for FY18 capital forecasting).
- If a project is associated with specific program (i.e. SSIP, GSRS), please select that Activity Code from the drop down list. Otherwise, leave the field populated with the default of "0000-Other Activity Code".
- Please select the estimated In Service date from the drop down list.



PlanIT Review

Capital Entry - Budgeting Projects (cont.)

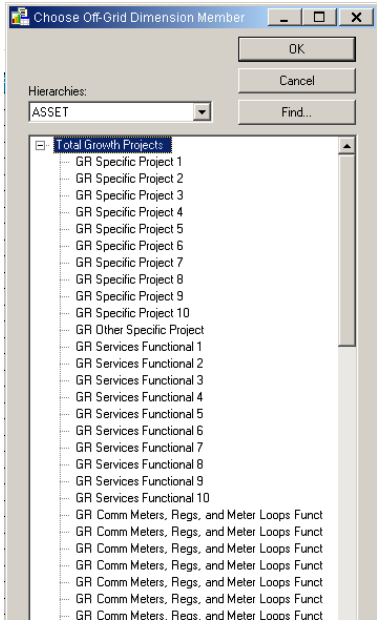
- Choose “Growth Projects” from the left-side menu.
- A data entry screen by month will appear that looks very similar to the O&M entry screen.
- The screen at first will be all gray.
- If your cost center is not listed on the left button at the top of the screen, then click on the button and choose your cost center **WAIT for the screen to refresh before clicking on the grid or any other buttons.**
- Click on the right button that says “Total growth projects”.



PlanIT Review

Capital Entry - Budgeting Projects (cont.)

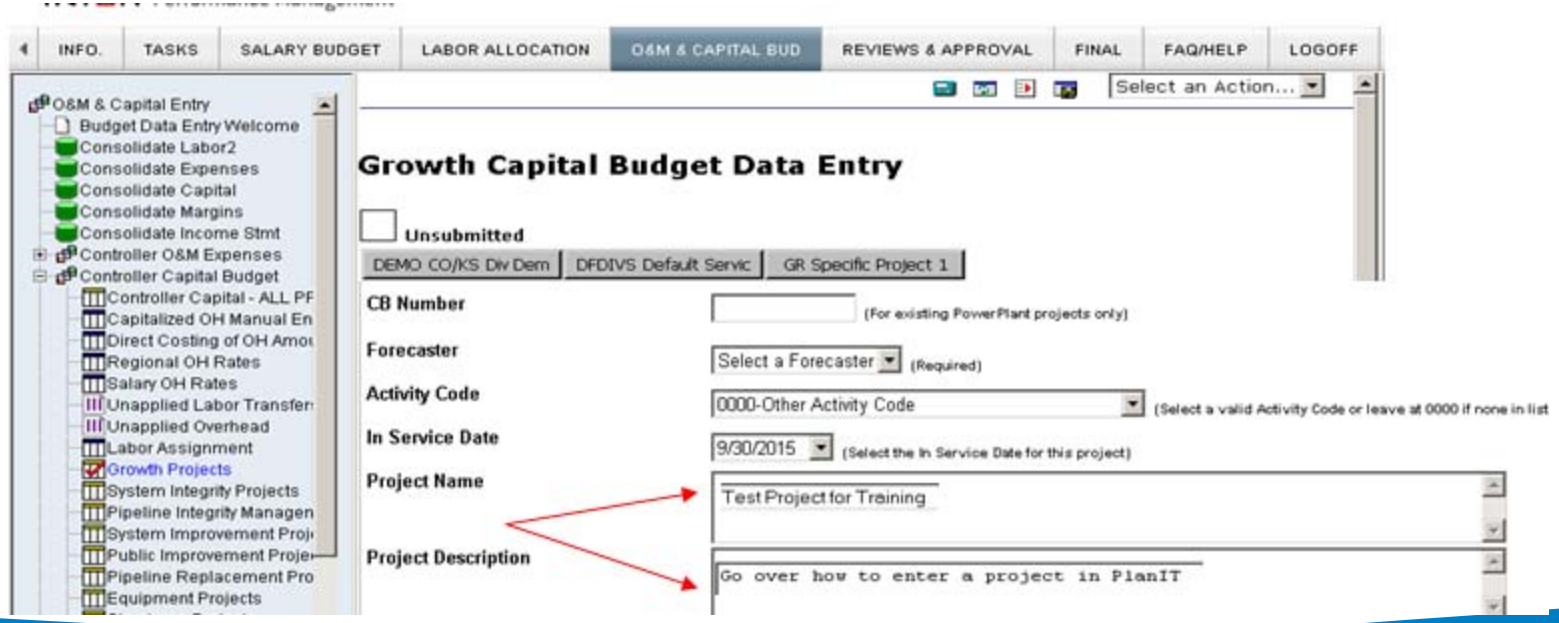
- When you click the total growth projects button, the following window will appear.
- If you carryover functional projects, they will be listed with the specific names. To budget dollars for these activities just click on the appropriate one.
- If you need more projects than what are listed for the project category, you can request that more be added by the Budget and Planning Department.



PlanIT Review

Capital Entry - Budgeting Projects (cont.)

- After choosing any of the projects, your spreadsheet will change into data entry format with white lines available for your dollars by month.
- The **Direct Capital Labor** dollars will be pre-populated if you entered it in via the **Labor Assignment** view.
- Give your specific project a **Name** and **Description**. This will help to identify the project. This description can be as long or short as you want, but should give enough information to justify the project.



PlanIT Review

Capital Entry - Budgeting Projects (cont.)

- If you will be using employees from another cost center on this project, key their labor dollars by month on the **Labor Transferred In** line. (Be sure to coordinate this with the supervisor from their cost center so that they will budget labor transferred out.).

	Total Year FY2013	Oct FY2013	Nov FY2013	Dec FY2013	Jan FY2013	Feb FY2013	Mar FY2013	Apr FY
Direct Capital Labor	2,600	400	500	800	300	300	300	
Labor Transferred In #1	3,000	3,000						
Cost Center #1		3006						
Labor Transferred In #2	3,000		3,000					
Cost Center #2		3009						

- Please make sure that you enter the cost center from which the labor is being transferred in.

- <u>You can only enter the cost center in the “Oct FY2018” column.</u>

PlanIT Review

Capital Entry - Budgeting Projects (cont.)

- Key all other direct labor amounts on the appropriate lines as well as any contract labor, materials without stores overhead (this would be any non-inventory materials), materials with stores overhead (this would be any inventory materials from McJunkin), other expenditures (permits, equipment rental, etc.), AIC/Reimbursements.
- **The AIC/Reimbursements must be a negative number**.

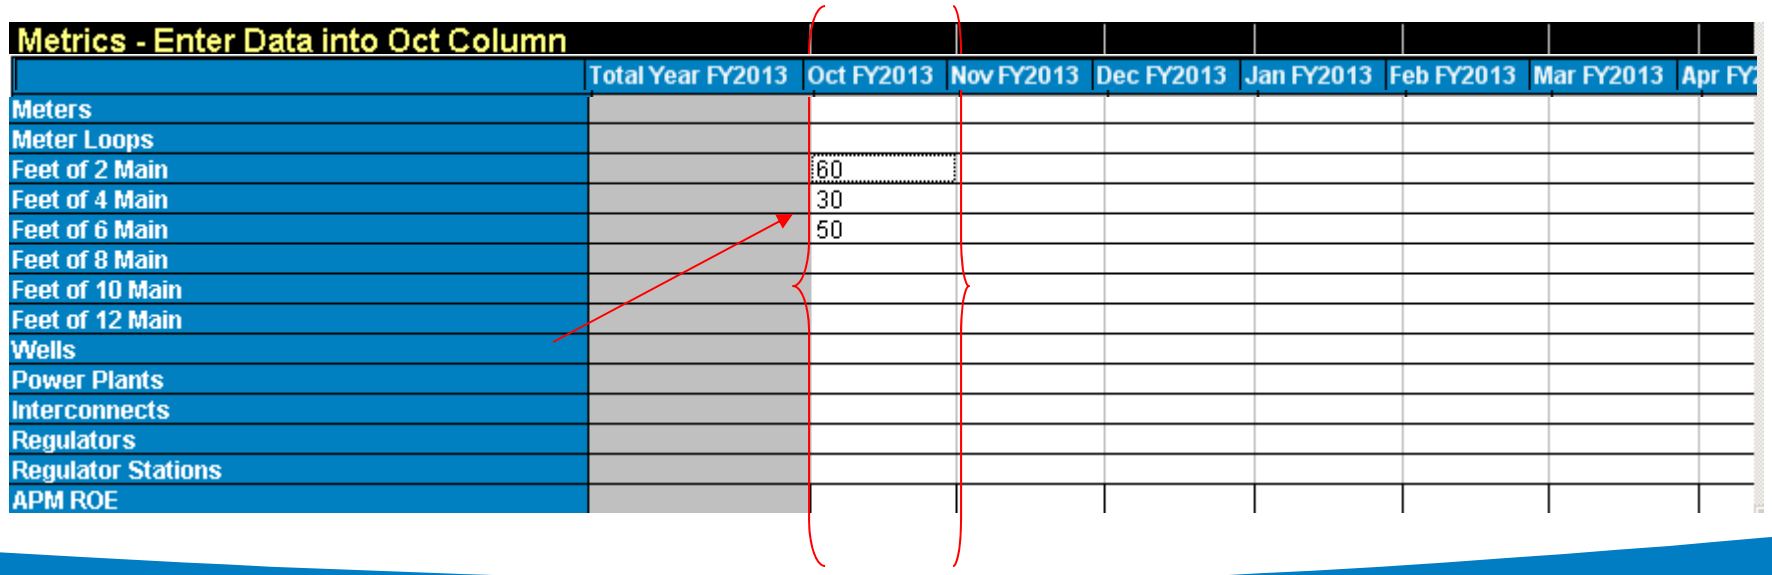
	Total Year FY2013	Oct FY2013	Nov FY2013	Dec FY2013	Jan FY2013	Feb FY2013	Mar FY2013	Apr FY
Payroll Tax								
Contractor Labor		10,000	20,000	15,000	10,000	10,000	30,000	
Materials - without stores		2,000	5,000	4,000	3,200	2,000	2,000	
Materials - with stores		2,000	8,000	3,000	3,200	2,000	2,000	
Direct Rent								
Direct Utilities								
Direct Transportation								
Direct Telecom								
Direct Heavy Equipment								
Stores Overhead								
Expense Reports - Direct								
Other Expenditures								
Gross Direct Capital								
AIC/Reimbursements				(50,000)		(300,000)		
Salvage								
Total Direct Capital								

AIC must be negative numbers.

PlanIT Review

Capital Entry - Budgeting Projects (cont.)

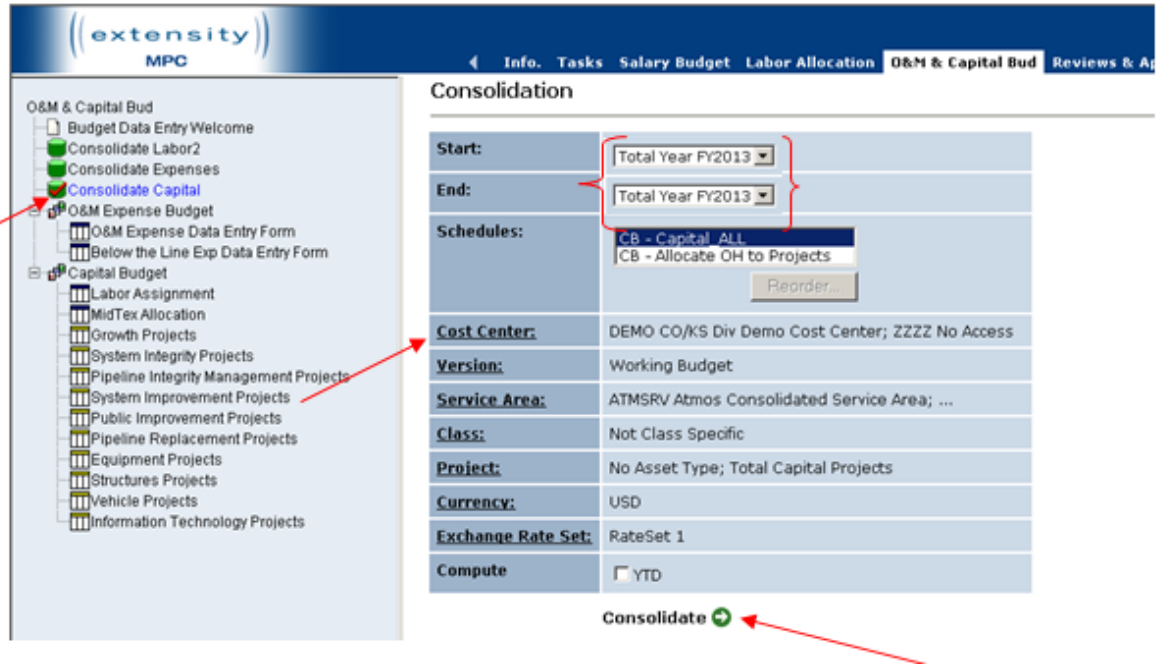
- Enter all your **Metrics** for the Project in the **Oct** column only.
- Enter the appropriate metrics for this project by clicking into the appropriate field and keying the number.
- Please pay attention to whether the metric needed is the number of units or the number of feet.



PlanIT Review

Capital Entry - Budgeting Projects (cont.)

- Once all projects have been entered, a consolidation must be run. Under the O&M and Capital Budget topic, select the “Consolidate Capital” topic.
- Select your Cost Center(s). You may select more than one Cost Center.
- Make sure the year is set to FY 2018 (it should default to this).
- Click on the “Consolidate” button

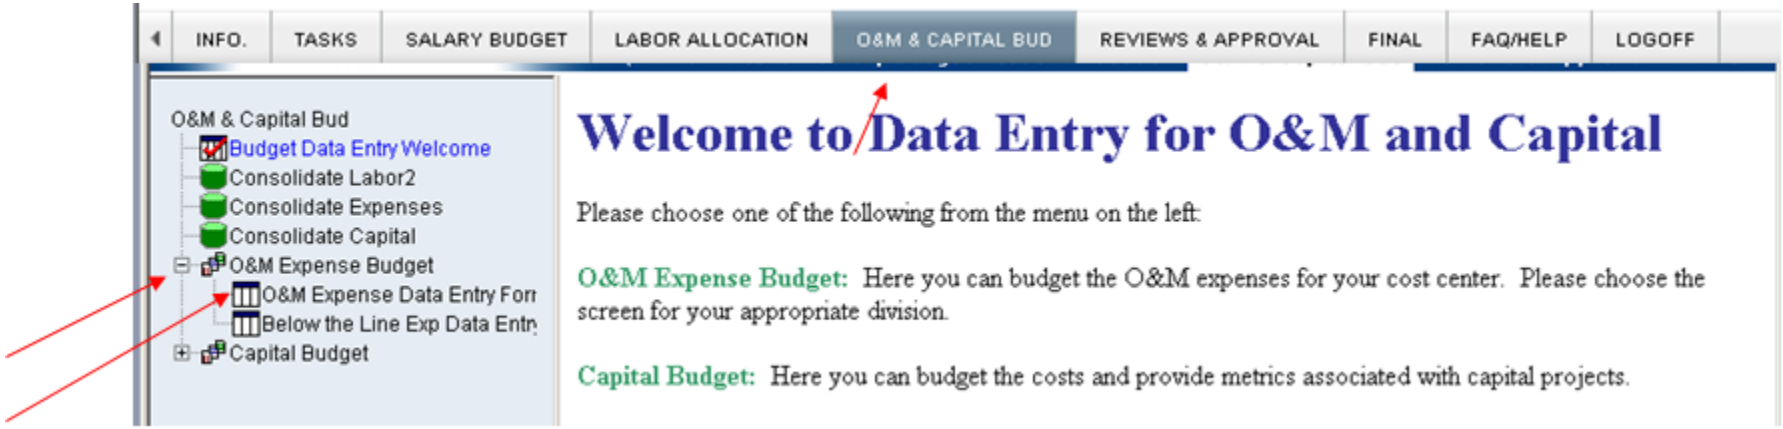


PlanIT Review

O&M Entry

- Click on the O&M and Capital Budget category, then Click on the plus sign (+) next to O&M Expense Budget to expand the choices.

- Click on “O&M Expense Data Entry Form”.



PlanIT Review

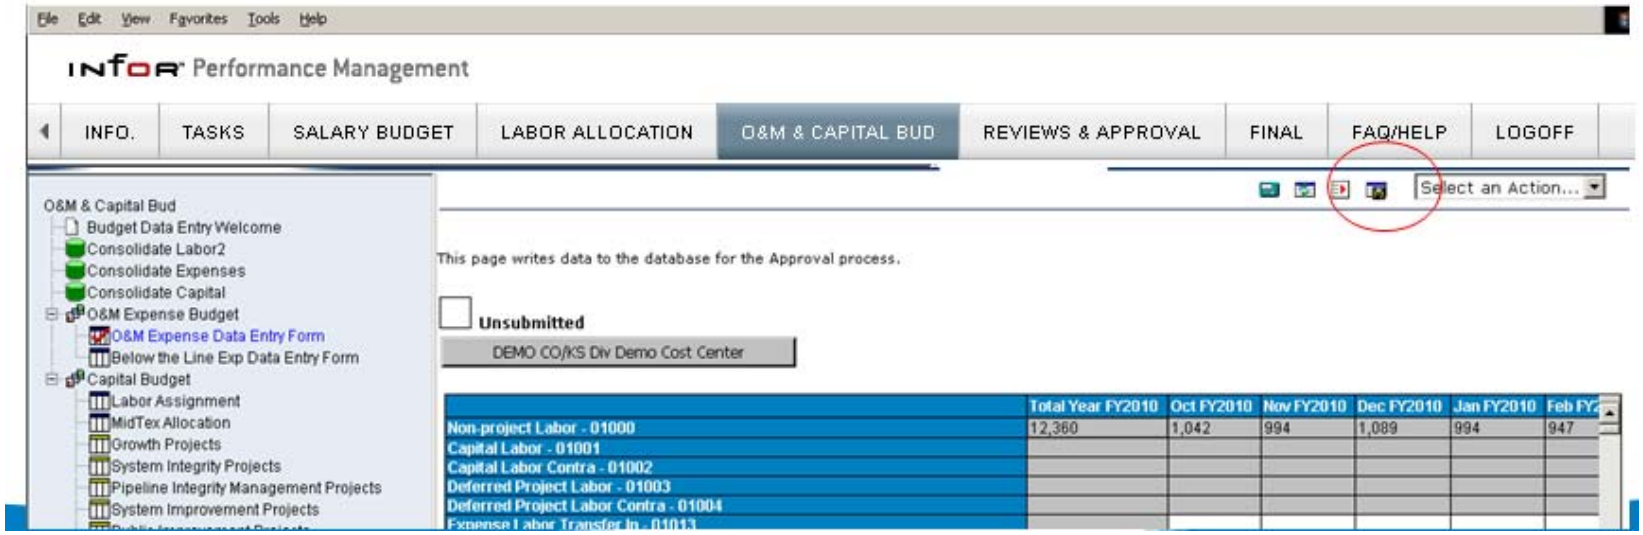
O&M Entry – Entering Expenses

- If you have multiple cost centers, click on the division button and choose your cost center from the drop down list.

PlanIT Review

O&M Entry – Entering Expenses

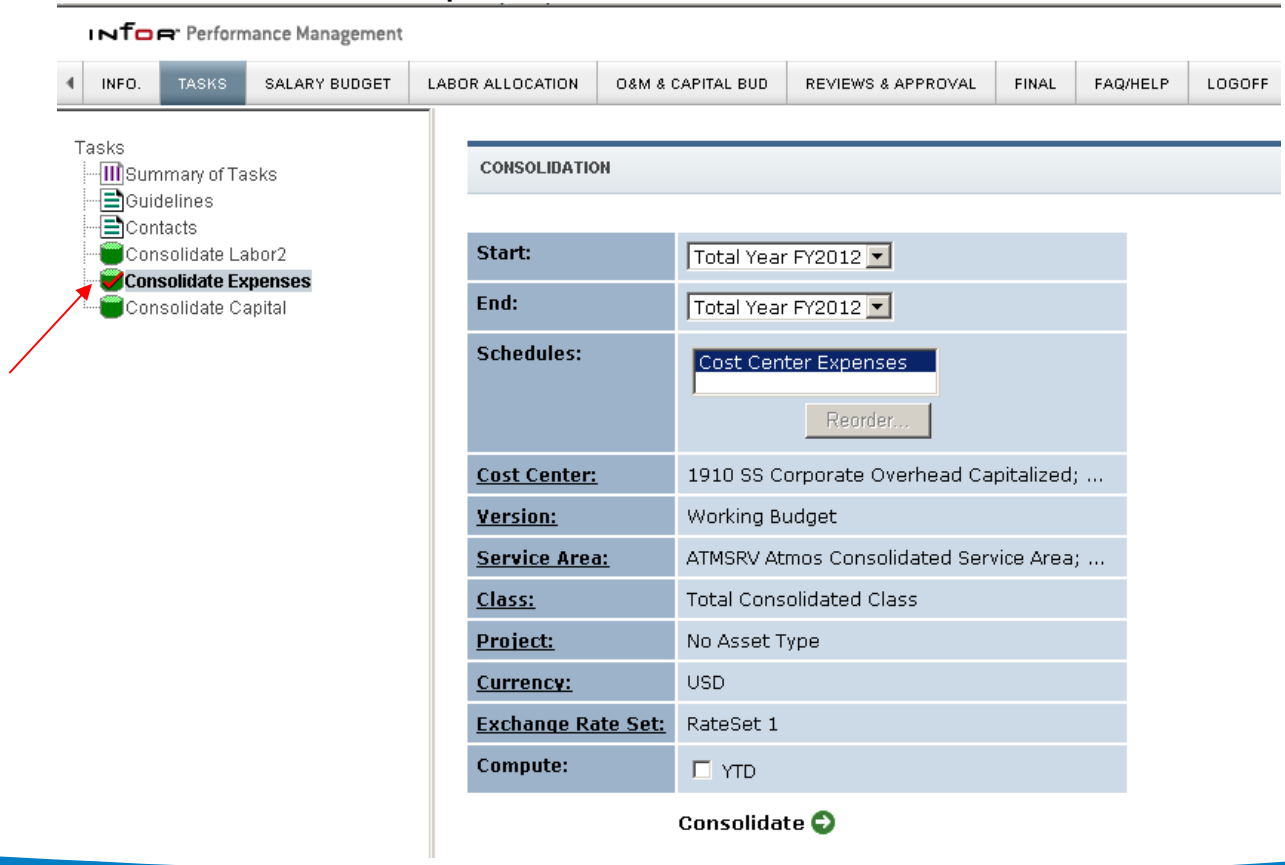
- Click anywhere on the spreadsheet to make it active. Use the scroll keys to move around the spreadsheet.
- Gray lines represent totals or budget lines that will be automatically filled with numbers (ex. Labor and benefits). Nothing can be keyed in these fields.
- Only lines in white can be budgeted. Type the numbers you wish to budget by month on the appropriate sub-account line.
- When you are finished keying your budget, click on the “save work in progress” button the top right of the screen.



PlanIT Review

O&M Entry – Consolidating Expenses

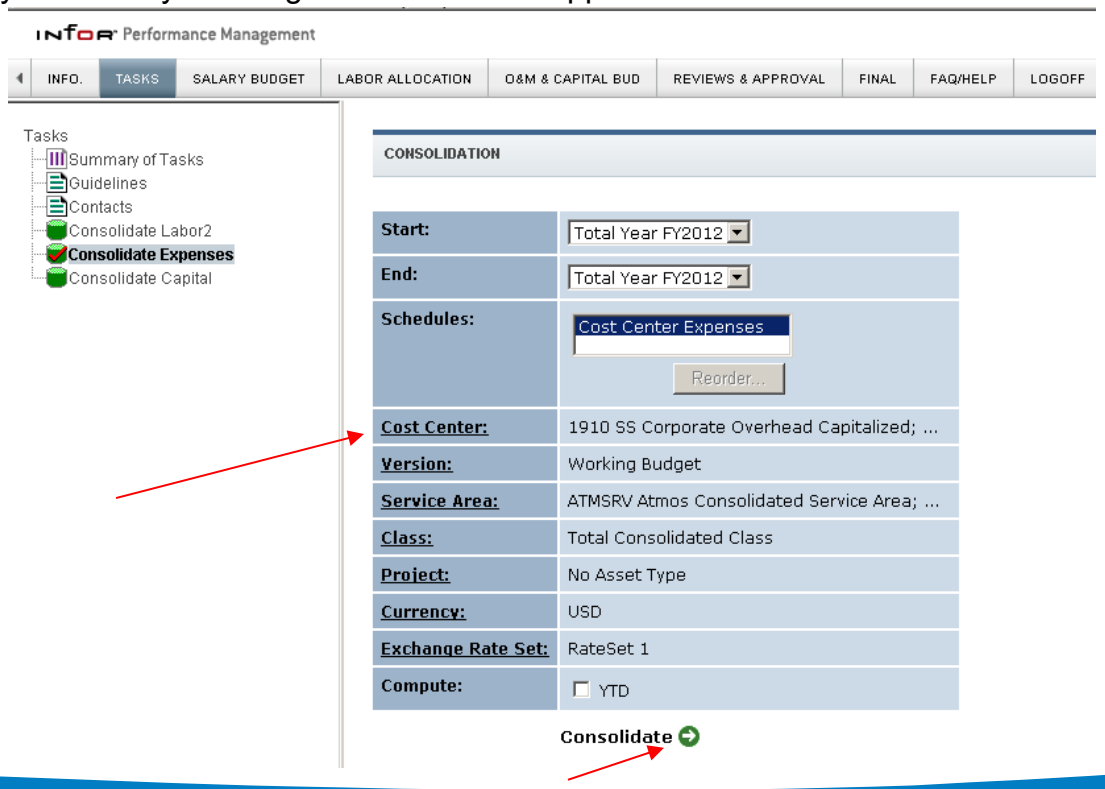
- After you have finished keying your O&M budget, you will need to consolidate.
- Choose Consolidate Expenses from the menu.



PlanIT Review

O&M Entry – Consolidating Expenses

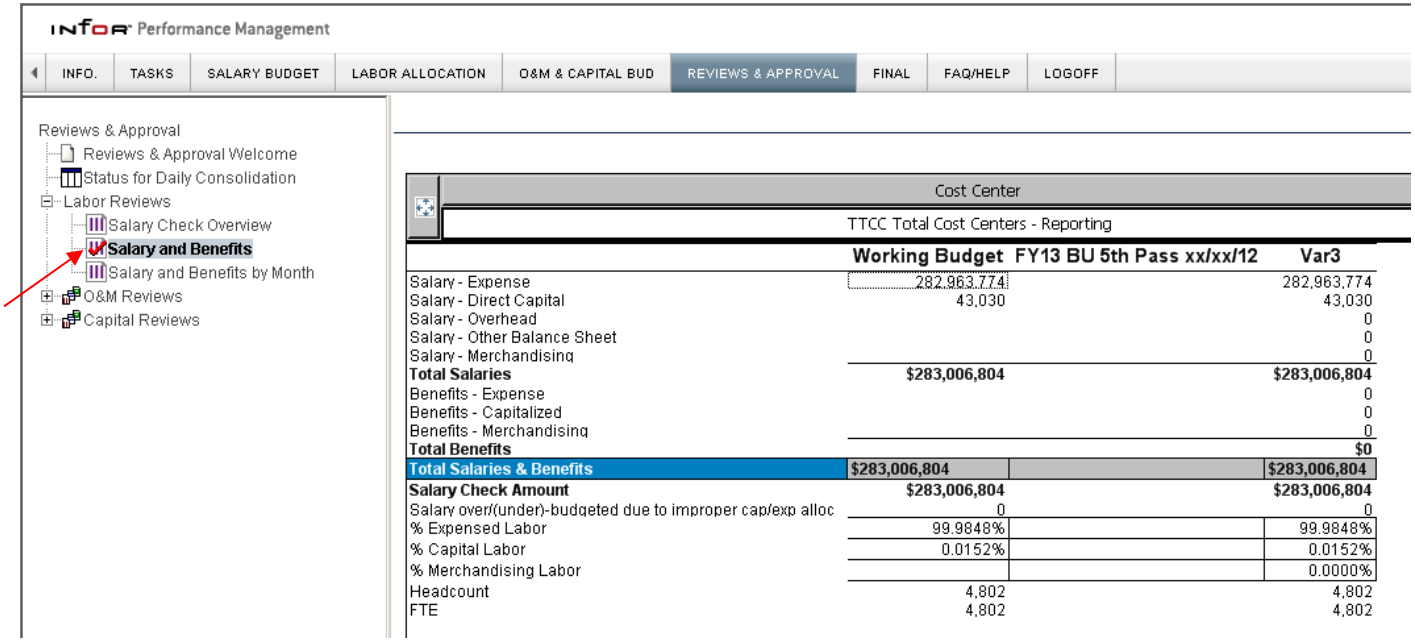
- Make sure your start and end period are Total Year FY2018 (they are defaulted to this).
- Click on the "Cost Center :" link and choose your cost center (or multiple cost centers if you have more than one).
- The schedule should be Cost Center Expenses.
- Click on Consolidate.
- You are ready to review your budget and submit for approval.



PlanIT Review

Reviews & Approval – Labor Reviews

- To access the reviews, click on the "Reviews & Approval" category at the top of the screen, and select the review report you would like to see.
- **Salary & Benefits** – located under the O&M Reviews, this report summarizes the total dollars allocated to expense, capital, and other balance sheet accounts in the Labor Budget. If any labor amount was not allocated appropriately (ie., so that the total allocation = 1, or 100%), you will see a red-highlighted amount on the "Salary over/under budgeted due to improper cap/exp alloc."



Cost Center

PlanIT Review

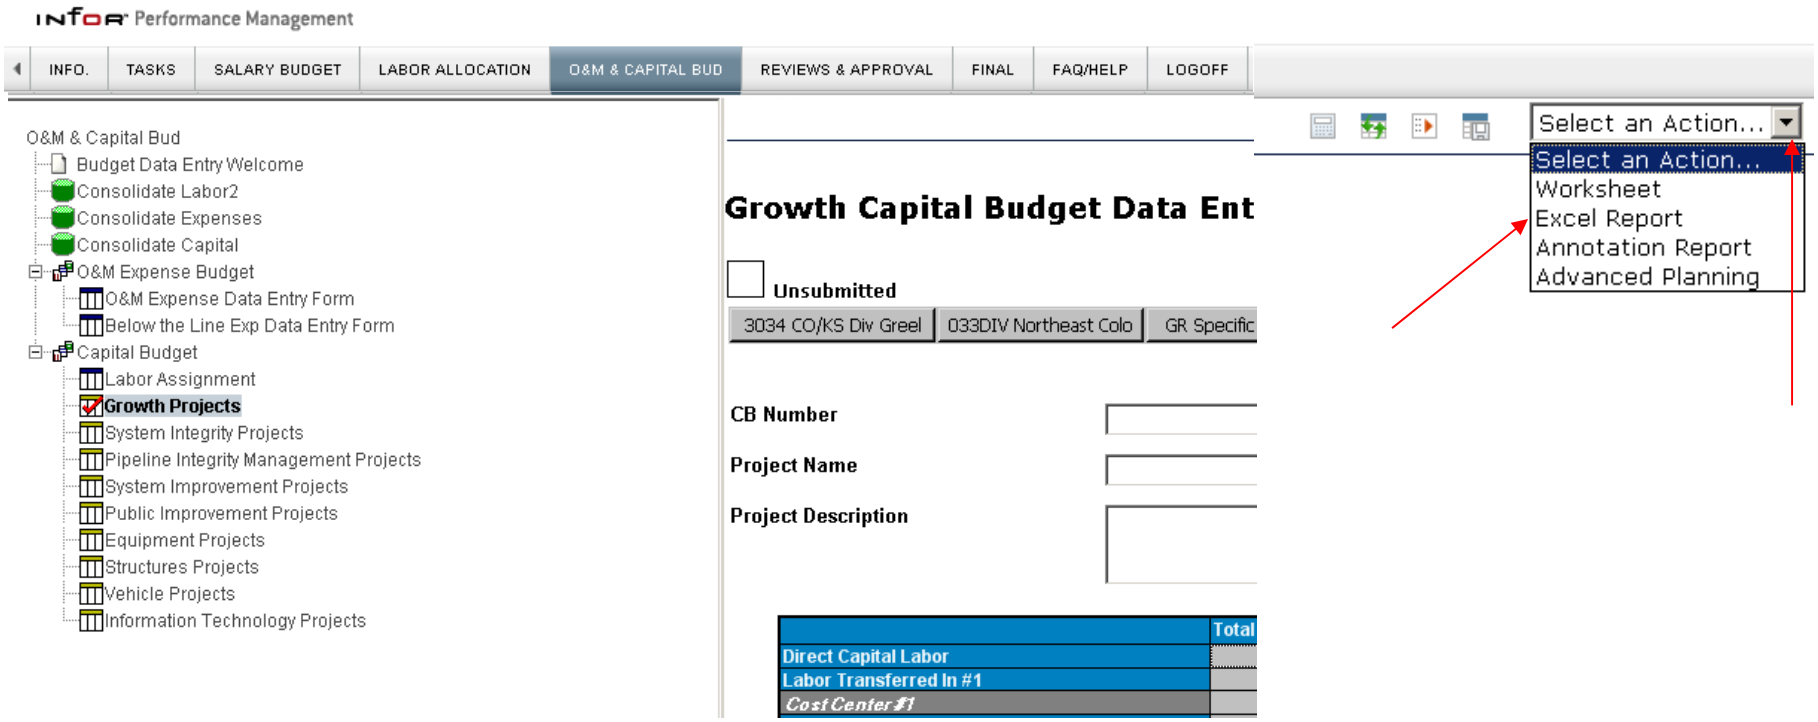
Exporting Data to Excel

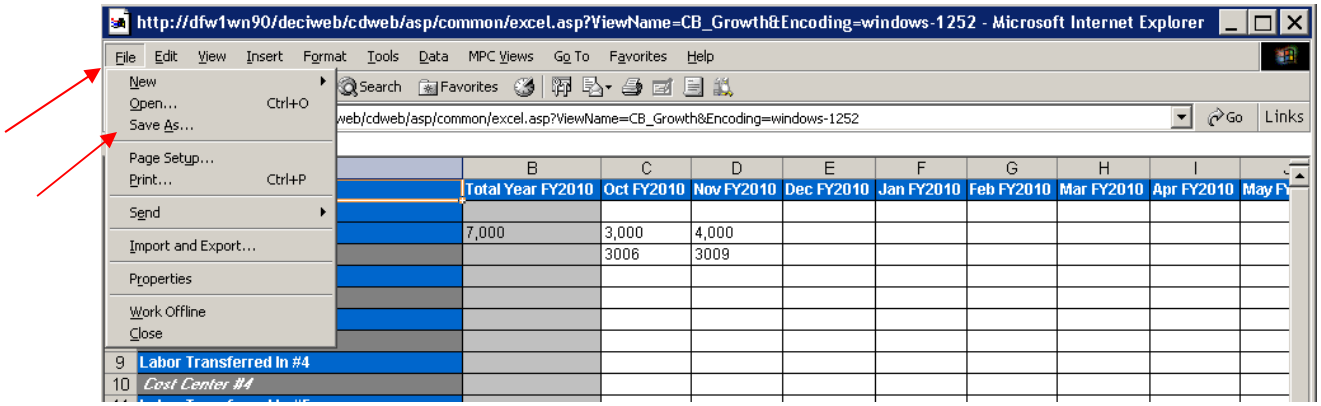
- You may want to export data to Excel for further analysis.
- To do this, select “Excel Report” from the drop down list in the upper right hand corner of a screen.



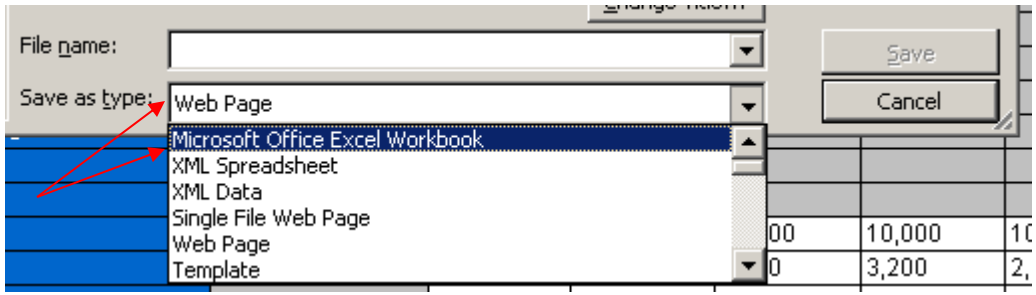
PlanIT Review

Exporting Data to Excel (cont.)

- You will get a HTML version of an Excel file that appears on the screen.
- Just like saving a normal file, click on “File” and then “Save As” and save it on a network drive.



- You will need to change the “Save as type” from “Web Page” to “Microsoft Office Excel Workbook”.



PlanIT Review

Things to Remember...

- Be sure to click the 'LOGOFF' button when done budgeting. Please do not just close Internet Explorer or shut down your computer.

- Please don't forget to apply a labor split to EVERY employee after EVERY event if you are adding a new employee.

- Please Review the Milestones page frequently for Timeline changes.

- On any Review/Report page, click the “refresh” button to see any updates you have made.

2019 Budget Assumptions - Draft Working Document

Item Description	Notes	Owner	Status	Preliminary Assumptions	Input	emailed	completed
Budget Calendar		Joel Bradshaw	Done	2018 Budget Calendar	Planning		
Budget Meeting Schedule		Joel Bradshaw	Done		Planning		
Benefits	Benefits	Kim Pettineo (formally Kim Smith)	Done	..\Benefits\2019 Benefits Budget - preliminary - 4-9-18.xlsx	Planning	N/A	7-May-18

Atmos Energy Shared Services

Fiscal 2019 Budget

Shared Services Budget Guidelines

General Approach to 2019 Shared Services Budgets

- Minimize Costs that Must Be ReCovered by the Business Units
- Set & Achieve Specific Departmental Targets
- Segregate Controllable, Departmental Costs from Enterprise Costs
- Understand Assumptions and Trade-offs on Enterprise Costs
- Aggressively Manage Outside Service, T&E and Labor Costs

2019 Departmental Budget Guidelines

ATMOS energy

- Spending targets will be given to each major Shared Service department

- Each department will be asked to prepare a budget that achieves the target

- Departments achieving the target will not be required to present their budget on July 9th unless there are specific budget issues or new headcount requests that it would like to discuss with Management Committee

- During budget reviews, departments heads should document the risks associated with staying within the given target (i.e. impact on service levels and quality)

- Baseline for labor and benefit expenses will be the 2018 budget with an allowance for merit increases & projected inflation in benefits.

- However, increased salary and benefit costs associated with **unbudgeted** head count increases, out of cycle salary increases and/or promotions in 2018 will not be included when calculating the departmental inflation allowance.

Budget Guidelines – Salary & Headcount

- Merit budget of 3.0%

- Departmental budgeters should **NOT** budget any incremental headcount increases in the first pass of the 2019 budget

- This guidance does not apply to vacancies in the process of rehire

- Planning has pre-loaded current employees as of May 10th

- Planning will load authorized, open positions from Taleo

- Requests for incremental headcount should will be presented to management as part of the July budget reviews (July 9-10)

- Headcount increases that were approved during budget reviews will be added to the budget during the subsequent pass

- **Overall departmental budgets should be achieved in the first pass**

- During budget reviews, challenges with achieving the target should be reviewed with Management Committee for further consideration.

Budget Guidelines – Outside Labor & Services

- Swaps of internal for external labor will require a separate costs analysis demonstrating a net neutral cost or net cost savings

- External contract labor will be supported by standard schedules detailing out total internal and external FTEs and the related costs

- Other outside service costs will require completion of a standard schedule that detail the vendors, expense purpose and expense amount. These amounts should tie out to the total amount budgeted in the 2019 budget

- These schedules will be discussed during July reviews by those departments that are presenting

Budget Guidelines – Input Responsibility

Business Planning will Budget

- ✓Bonus/Retirement Costs
- ✓Building Lease/Rent
- ✓Rabbi Trust/COLI
- ✓Restricted Stock
- ✓Variable Pay Plan

- Human Resources will budget Educational Assistance & Service Awards

- All software maintenance costs & telecom costs should be budgeted by IT (cell phones should be budgeted by each department)

- An FAQ detailing budget input responsibility is available on the PlanIt website

Enterprise/Non-Departmental Costs

Budgeting of Enterprise/Non-Departmental costs will be the responsibility of selected budget holders who are subject matter experts in those areas. These include:

Audit & Tax Fees	Thomas/McDonald
Bank Service Fees	Martinez
Benefits	Robbins
Director and Shareholder	Legal/Accounting
Emp. Assistance, Service Awards & Banquet, etc.	Human Resources
Enterprise Training Programs	Martin
Employee Welfare	Robbins
Insurance	Boyd/Legal
Marketing & Communications	Beauchamp
Non-Departmental Telecom	Acker
Rent	Sanderson
Software Maintenance	Acker
Treasury Fees	Meziere/Schneider

Enterprise/Specialty Costs

- These budget holders are requested to keep expenses flat to prior year budget

- If this is not possible due to the impact of inflationary costs, the budget holder will be asked to bring a detailed schedule showing assumptions used for these costs in the 2017 actual, 2018 budget, 2018 YTD actual and 2018 projection

- Assumptions driving cost inflation should be supported by analysis and data

Capital Budget Guidelines

- All Shared Services IT Capital Projects will be budgeted by IT Department

- IT will coordinate a committee-based IT project identification, review and approval process for IT projects

- Any planned capitalization of departmental labor should be coordinated with IT and transferred to the IT capital budget

2019 BUDGET CALENDAR OF EVENTS - Tentative and Preliminary

	Event	Responsible	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Deliverables

Subject:	Overview for Fiscal 2019 O&M Budget Entry - PlanIt Open to O&M Entry - DUE Friday, June 15th
Attachments:	FY 2019 - O&M Contract Labor (subaccount 06111) Budget Entry; FY 2019 Budget Prep: Vehicle Lease Payments - 03002; FY19 Labor Split Help - Actual Labor 4/17 through 3/18; FY 2019 Budget Prep: Equipment Lease - 04301
Importance:	High

All,

Good afternoon.

PlanIt is officially open for Fiscal Year 2019 O&M entry. Please have all O&M entries into PlanIt by close of business Friday, June 15th. Here are this year's instructions and guidelines:

O&M Guidelines

1. Labor - As in the past, PlanIt is loaded with the enterprise assumed merit increase. Labor is probably the most challenging aspect of the budget process. Please reference back to email received on May 14th. Subject line in email was "FY19 Labor Split Help – Actual Labor 4/17 through 3/18."

2. Other (non-labor) expenses - Please be as aggressive as possible with other O&M expenses.

- Please reference cost center specific files, "FY19 O&M Budget Help Files by Cost Center". Received on May 14th from Marcie.

- Attempt should be made to sculpt the expenses by month by subaccount.

- Vehicle Lease Payment (subaccount 03002) - Please confirm existing leases and their costs as well as any new ones you plan to obtain in Fiscal 2019. The budget will need to have the new leases layered in and the old ones removed in the appropriate months. Please reference back to email received on May 5th.
- Equipment Lease (subaccount 04301) – Please confirm existing leases and their costs as well as any new ones you plan to obtain in Fiscal 2019. The budget will need to have the new leases layered in and the old ones removed in the appropriate months. Please reference back to email received on May 6th.
- Contract Labor (subaccount 06111) - Please reference back to email received on May 3rd. Subject line in email was "FY 2019 - O&M Contract Labor (subaccount 06111) Budget Entry."
- AMI Tower Rent (subaccount 05351) – Please confirm existing AMI tower leases and their costs as well as any new ones you plan to obtain in Fiscal 2019.

3. Overtime & Standby – We have loaded the dollar amounts for overtime and standby using a combination of FY18 budget and actuals as well as adjusting for the colder than normal winter experienced this year. No work should be needed on your end.

4. Below the Line Expenses – As with previous years, the Finance Department will handle the entry of below the line expenses.

Subject: Overview for Fiscal 2019 Capital Budget Entry - PlanIt Open to CAPITAL - DUE Friday, June 15th
Attachments: image001.png; image002.png

Importance: High

All,

Good morning.

PlanIt is now officially open for Fiscal Year 2019 Capital entry. Please have all capital entries into PlanIt by close of business Friday, June 15th. Here are this year's instructions and guidelines:

Capital Guidelines
Please budget your capital projects in the months you expect dollars to post. A more accurate budget as it relates to the timing of spend will translate into easier and better forecasting in 2019.
1. Budgeting of All Capital Projects:
I believe most will recall that the budgeting of any project will initially require you to pick a default cost center, service area, and project number (ex. GR Specific Project 1, Growth Specific Project 2, etc.) before allowing you to enter name, description and dollar amounts. I think you all know what constitutes a good project description versus what does not. As with the last few budget years, we also have the required fields below when initially setting up the project. All four categories must be entered from the pick lists before the system will allow you to enter costs.

- Forecaster

- Activity Code - Not all of the activity codes you are custom to seeing are loaded. The main reason for this new field is a desire to easily see the budgeted dollars associated with our pipe replacement programs and wireless meter reading. You will see our 3 KY PRP activity codes. In addition, the WMR activity code is available. For everything else, you will just use the default of "0000-Other Activity Code" if you do not see one that works.

- Functional / Non-Functional

· In Service Date - This would be the date you expect to place the asset into service. Please take the time to choose the most accurate in-service date (i.e. do not default to 9/30/19). This specific date drives the depreciation forecast. Please note that after you complete the information above in the PlanIt entry screen you will need to click the "Save Project Info" button. This must be done before entering your cost estimates by expenditure type.

[cid:image001.png@01D3FB68.C72270D0][cid:image002.png@01D3FB68.C72270D0]

2. Budgeting of FY '19 Functional Projects (Growth, Non-Growth, & Leak):
We have taken the first step in entering your FY 2019 functional projects. You will notice that one growth functional, one non-growth functional and one leak functional project has already been entered in PlanIt for most operational cost centers. For each of these functionals, we entered dollar amounts based on a review of FY15 actuals, FY16 actuals, FY17 actuals, and FY18 April forecast. It is crucial that you review what was entered and make any necessary adjustments based on expected operational philosophy and environment in FY19. Ownership of the functional projects belongs to the cost center owners.

The following naming convention was used when entering the "Project Name" for these functionals.

cccc.Growth Functional (where cccc = cost center) cccc.Non-Growth Functional (where cccc = cost center) cccc.Leak Functional (where cccc = cost center)

3. Budgeting of FY '19 Kentucky PRP Capital Projects:
All KY PRP projects should be budgeted under the System Integrity category.

Please use the following naming convention when entering the "Project Name" into PlanIt for non-functional KY PRP projects:

PRP.cccc.xxxxxx (where cccc = cost center and xxxxxx = specific project name).
Examples: PRP.2609.Kirkwood 6, PRP.2636 Allen Street Replc., etc...

Please make sure you select 1 of the 3 KY PRP activity codes (2609, 2610, or 2611) from the drop down box when entering these projects. If you have any questions on the PRP budget, please see Robert Arnold, Jim Capps or myself.

4. Budgeting of FY '19 Wireless Metering Reading (WMR) Capital Projects:
Please use the following naming convention when entering the "Project Name" into PlanIt for all WMR capital projects

WMR.cccc.xxxxxx (where cccc = cost center and xxxxxx = specific project name).
Example: WMR.3343.Tower, WMR.3342.Endpoints, etc...

Separate projects need to be budgeted for the purchase of endpoints, antennas, and handheld devices (i.e. please do not setup one big project).

1.) Purchase of Endpoints – The purchase of endpoints/ should be budgeted under System Improvement budget category.
2.) Purchase of Antennas – The purchase of antennas should be budgeted under System Improvement.
3.) Purchase of Handheld Device (Meter Reading Device) – This should be under the Equipment budget category

Please make sure you select the WMR activity code (1472-AMI) from the drop down box when entering these projects.

5. Budgeting of FY '19 Equipment Projects:
You can probably budget most of your expected equipment purchases under one project in PlanIt. Please make sure you detail what you are purchasing in the project description as well as list the unit prices.

Example: 1-Marker Ball Locator $1,000 * 4-Sensit Gold CGI $1,631 ea * 4-Line locators $6,000 ea

In accordance with our Enterprise capitalization policy, any piece of equipment under $1,000 should be expense not capitalize. We do recommend if you are purchasing something large like a backhoe that you create a separate project for it.

REQUEST:

Provide the studies, including all applicable work papers, which are the basis for plant allocations and expense account allocations.

RESPONSE:

Please refer to the Direct Testimony of Greg Waller for an explanation and calculations of the plant allocations. Please refer to the Direct Testimony of Laura Gillham for an explanation of the Company's Cost Allocation Manual.

Respondents: Greg Waller and Laura Gillham

REQUEST:

Describe the procedures Atmos uses to plan and approve construction projects.

RESPONSE:

The objectives of the Company's capital budgeting process are to:

(1) Formalize the process of identifying construction needs and prioritizing capital expenditures;

(2) Assess the economic feasibility of individual construction projects;

(3) Determine overall capital requirements for the planning periods;

(4) Reassess long term system maintenance requirements annually; and

(5) Review past construction projects and work practices, and apply procedural improvements as appropriate.

The Company plans its capital expenditures over five fiscal years, with a focused emphasis on the first year of that five-year period (the upcoming year). We normally begin this process during our third fiscal quarter (April-June) of each year, some four to five months prior to the beginning of the next fiscal year. The process is initiated within the Division by a request from the Finance Department for a "bottom-up" submission of projects from our operations supervisors and operations managers in Kentucky. All proposed projects, vehicles, and equipment must be identified at a high level by need and cost, and all budgets are prepared based upon meeting the five objectives described above. The proposed projects, vehicles, and equipment are reviewed by Kentucky/Mid-States Division's regional Vice Presidents of Operations for collaborative agreements between the regional vice presidents, operations managers, and the Finance Department.

The process is largely complete by late June when projects are entered into the Atmos Energy capital budget system (PlanIt), although finalization of capital expenditures is not completed until late August.

The final proposed budget must be reviewed by the Division's senior management, including the Division President. Additional reviews are performed by corporate executive operations management and their staff. High level reviews of the division budgets are also performed by the Company's senior executives who are presiding members of the Company's Management Committee.

The Capex budget for Kentucky is not officially approved until it, as part of the Company's total Capex budget, is presented to the Company's Board of Directors in September of each year. Upon this approval, all approved projects are transferred into the Atmos Energy capital tracking system (POWERPLANT) and are ready for appropriation.

Our priorities for capital expenditure, listed in order of importance, are:

1. Public Safety
2. System Capacity and Reliability
3. Public Works
4. Customer Growth
5. Fleet / Equipment, and
6. Support of Long Term Technological Programs.

Respondent: Greg Waller

REQUEST:

Provide Atmos's long-term construction planning program.

RESPONSE:

Please see the Direct Testimony of Greg Waller beginning at page 8, line 10 and the Company's response to Staff DR No. 1-11.

Respondent: Greg Waller

REQUEST:

Concerning Atmos's construction projects:

a. For each project started during the last ten calendar years, provide the information requested in the format contained in Schedule 13a. For each project, include the amount of any cost variance and delay encountered, and explain in detail the reasons for such variances and delays.

b. Using the data included in Schedule 13a, calculate the annual "Slippage Factor" associated with those construction projects. The Slippage Factor should be calculated as shown in Schedule 13b.

c. In determining the capital additions reflected in the base period and forecasted test period, explain whether the utility recognized a Slippage Factor.

RESPONSE:

a) Please see Attachment 1 for each of the fiscal years from 2008 through 2017.

The Company Board approves the annual budget for each fiscal year; afterwards, the projects are ready for appropriation. Individual project estimates are submitted by field personnel for project authorization. Each project estimate is separate from the budget allotment. Attachment 1 contains the individual project estimate amount, not the annual original budget.

The Company's capital budgeting system maintains projects in two broad categories - Blanket Functionals and Specific Projects. The Blanket Functionals include total capital authorizations of a similar type such as new services, leak repair, short main replacements, small integrity/reliability projects, etc. Specific projects are uniquely identified, such as a specific highway relocation project, replacement of work equipment, or some larger significant integrity/reliability project. Attachment 1 contains capital projects for each fiscal year.

Each budget center manager is responsible and held accountable for managing his or her overall approved capital budget, including any approved project estimates. If during the course of a project, field management identifies that the costs of the project will exceed approved amounts, a request for supplemental funding may be submitted. All expenditures above the authorized appropriation, unbudgeted projects and variances on budgeted projects must be approved at the appropriate levels within the Company.

Kentucky manages the capital budget on a project basis. However, as mentioned in the Direct Testimony of Greg Waller, the capital budget is developed beforehand when all details of the projects may not be known. Kentucky also works towards managing within the overall fiscal year capital budget, per the below capital categories

The capital budget is categorized by the following major categories (listed alphabetically):

1. Equipment
2. Growth
3. Information Technology (IT)
5. Public Improvements
6. Structures
7. System Improvements
8. System Integrity
9. Vehicles

The two highest priorities for capital budgeting are system integrity, and system improvement. These two capital budget categories focus on customer safety and system reliability. Other priorities include public improvement projects, public work projects and customer growth.

Functional projects, such as short main relocations or service line installations, fall into an annual blanket project for the fiscal year.

Many of our public works projects and highway relocations restrict our time management of the project because of the coordination required between all parties involved. If projects are delayed, they must be budgeted again in the fiscal year in which they are anticipated to occur. Other projects that occur in place of the delayed projects are submitted through the approval process.

b) Please see Attachment 2 for each of the fiscal years from 2008 to 2017.

In FY 2017, the total variance for our capital spending was well within expected tolerance with a small slippage factor.

In FY 2016, the total variance for our capital spending was well within expected tolerance with a small slippage factor.

In FY 2015, the total variance for our capital spending was well within expected tolerance with a small slippage factor.

In FY 2014, system improvement spending was unfavorably impacted by a Hopkinsville 8 inch steel pipe reinforcement from the North side of Hopkinsville to the intersection of Hwy 68/80 bypass and Hwy 41 (Pembroke Rd).

In FY 2013, system integrity functional spending (non-growth and leak) was unfavorable with the majority of it in Owensboro, Paducah, Bowling Green, and Danville.

In FY 2012 there were several factors that led to the slippage factor. Those included a growth project in Danville involving the extension of a 4 inch main for an industrial customer that came in over budget, a new building in Shelbyville that was not budgeted, and being over budget on a 10 inch steel replacement in Nortonville.

In FY 2011, the total variance for our capital spending was well within expected tolerance with a small slippage factor.

In FY 2010 there was a small negative slippage due mainly to a large 8 inch system improvement project in Bowling Green that came in well below budget.

In FY 2009, system integrity spending was unfavorably impacted by an unbudgeted replacement on our 1930's Hopkinsville 10 inch line near Federal Highway 62. In Bowling Green, unexpected rock excavation and higher than expected easement costs caused a replacement project to be approximately $880,000 over budget.

In FY 2008, system integrity spending was approximately $1 million under budget due mainly to one significant project being canceled and another project on our 1930's Hopkinsville 10 inch line coming in significantly under original budget estimates.

c) No. Please refer to the Direct Testimony of Greg Waller, which includes base period and forecasted test period capital data. We relied upon the FY 2019 capital budget as a baseline for projecting detailed capital expenditures for purposes of the test period in this rate application.
