

**COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION**

In the Matter of:

**ELECTRONIC APPLICATION OF LOUISVILLE
GAS AND ELECTRIC COMPANY FOR AN
ADJUSTMENT OF ITS ELECTRIC RATES**

CASE NO. 2018-00295

**RESPONSE AND OBJECTIONS OF SIERRA CLUB, AMY WATERS, AND JOE
DUTKIEWICZ TO THE DATA REQUESTS OF KENTUCKY UTILITIES COMPANY AND
LOUISVILLE GAS AND ELECTRIC COMPANY PROPOUNDED TO SIERRA CLUB**

Intervenors Sierra Club, Amy Waters, and Joe Dutkiewicz (collectively “Sierra Club”) hereby respond and object, as provided below, to the Data Requests of Kentucky Utilities Company and Louisville Gas and Electric Company Propounded to Sierra Club, dated January 31, 2019, in connection with the pending application of Louisville Gas and Electric Company (“LG&E” or “the Company”); together with Kentucky Utilities Company (“KU”), the “Companies”) in the above-captioned matter.

LG&E Request No. 1: “Provide copies of all electronic files in native format with formulas intact used in your analysis. This includes copies of all work papers supporting your testimony, analyses, and conclusions.”

Sierra Club Response to LG&E Request No. 1:

Sierra Club is providing the Companies with copies of all of Dr. Fisher’s electronic files in native format with formulas intact used in his analysis—please refer to the five Excel files that, per agreement among counsel, Sierra Club is providing via email to the Companies. Please note that workpaper #5 contains information designated as *confidential* by the Companies.

Concurrently, Sierra Club is electronically filing with the Commission a PDF version of these workpapers (redacting confidential workpaper #5)—see Appendix A, included at the end of the instant Response and Objections in the electronically filed version. Sierra Club is also mailing to the Commission original copies of Dr. Fisher’s worksheets in the form of Excel files on two CDs—one CD labeled confidential (containing all five workpapers, including confidential workpaper #5) and the other labeled public (containing only non-confidential workpapers #1-#4). Because Sierra Club is providing the Commission with the workpapers in native Excel files on CDs, Sierra Club refrains from additionally providing the Commission with a physical copy of the hundreds of pages that constitute the e-filed, PDF version of the workpapers, which would be wholly redundant and unwieldy.

LG&E Request No. 2: “Please provide all of Sierra Club’s board meeting minutes and materials that relate to their Beyond Coal campaign, analysis of coal plants, views of the future of coal plants, and views of renewables.”

Sierra Club Objection to LG&E Request No. 2:

Sierra Club objects to this request on multiple independent and mutually dispositive grounds, enumerated below. Accordingly, Sierra Club does not intend to produce documents in response—other than to invite the Companies to peruse Sierra Club’s webpages, if they wish to learn about general Sierra Club matters that are not related to these proceedings.¹ The Companies’ request implicates activities and seeks materials that are wholly disconnected from Dr. Fisher’s testimony and are not otherwise remotely pertinent to the ultimate question in these proceedings of whether the Companies’ proposed rates are just and reasonable. If the Company had any doubts or questions about the accuracy and legitimacy of Dr. Fisher’s analysis and conclusions, the Companies could have asked about them—and still may on cross-examination, if Dr. Fisher is a witness at a hearing. Moreover, the Companies’ ultra-broad request encompasses innumerable documents—spanning decades, every state, and hundreds of custodians—and thus cannot possibly be responded to as a practical matter. In addition to the impracticability of Sierra Club gathering and producing all responsive documents, the Companies likewise could not fathomably review the innumerable pages (supposing hypothetically they were produced) in time for use in this case (putting aside their immateriality). Further, the Companies’ request frustrates and chills Sierra Club’s exercise of protected activities. For the foregoing and other

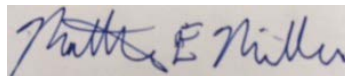

¹ Sierra Club’s website is accessible here: <https://www.sierraclub.org/home>. The Beyond Coal Campaign’s website is accessible here, <https://content.sierraclub.org/coal/>. On these sites (and pages navigable therefrom), one can find a myriad of information about/by the Club and Campaign, such as their general activities, views, and missions, in addition to more focused materials

Case No. 2018-00295
Sierra Club Response (Objection) to KU Request No. 2
Respondent: Matthew Miller, Counsel for Sierra Club

reasons, Sierra Club objects to this data request, invoking the following principles, bases, and authorities, non-exhaustively:

- The requested records are irrelevant (*cf.* Ky. Rules of Evidence (ROE) 401, 402; Ky. Civil Rule (CR) 26.02(1)) or, in the alternative, their probativeness is marginal and substantially outweighed by confusion of issues, undue prejudice, misleading the factfinder, undue delay, and needless presentation of cumulative evidence (*cf.* ROE 403), and are not otherwise reasonably calculated to lead to the discovery of admissible evidence (*cf.* CR 26.02(1)). The request is overbroad, unduly burdensome, oppressive, calculated to take Sierra Club and its staff away from normal work activities, and would require Sierra Club to expend significant resources to provide complete and accurate answers (*cf.* Ky. Civil Rule 26.03(1)).
- The request, if Sierra Club were compelled to respond, would infringe the First Amendment rights of Sierra Club, its staff, and its members (*see, e.g., Perry v. Schwarzenegger*, 591 F.3d 1147, 1159-63 (9th Cir. 2010); *Am. Fed'n of Labor & Cong. of Indus. Organizations v. Fed. Election Comm'n*, 333 F.3d 168, 175-79 (D.C. Cir. 2003)).
- As to certain records, the request seeks communications protected by the attorney-client privilege and materials protected under the work-product doctrine.

Sierra Club reserves the right to assert other reasons, bases, authorities, and objections not enumerated here as may be appropriate.

Objection by: /s/ Matthew E. Miller

Matthew E. Miller
Counsel for Sierra Club

Appendix A

Dr. Fisher's Electronic Workpapers (1-5)

(electronically filed with the Commission in PDF form; concurrently supplied in native Excel form to Companies via email and to the Commission via physical CD)

This data is from the annual FERC Form 1 filing by major electric utilities. Seller Reported are transactions from the Sales for Resale pages 310-311 only. Buyer Reported are transactions from Purchased Power pages 328-329. Any Buyer is a combination of the Buyer Reported and the view from Sales for Resale where the counter-party is the buyer. Any Seller is a combination of the Seller Reported and the Purchased Power transactions where the counter-party is the seller.

NERC Region and NERC Subregion only apply to utility companies. Independent Power Producers, Non-Utility Generators, Marketers and other non-utility type companies will NOT have a NERC or NERC subregion assigned. Please use Unspecified to see this list of companies.

Investor Owned Utilities (IOU) are the primary filers of the FERC Form 1. To see transactions from the view of an Independent Power Producer (IPP), Municipality, Cooperatives, Public Authorities or Federal Agencies please select the Buyer/Seller filter option of Any Buyer or Any Seller. This view may not include all of the transactions by these entities. It only includes those where the IOU is reporting the data.
