## REGULATORY COMMISSION EXPENSES

1. Report particulars (details) of regulatory commission expenses incurred during the current year (or incurred in previous years, if being amortized) relating to format cases before a regulatory body, or cases in which such a body was a party.
2. Report in columns (b) and (c), only the current year's expenses that are not deferred and the current year's amortization of amounts deferred in previous years.

| Line No. | Description (Furnish name of regulatory commission or body the docket or case number and a description of the case) (a) | Assessed by Regulatory Commission (b) | Expenses of Utility (c) | Total Expense for Current Year (b) + (c) (d) | Deferred in Account 182.3 at Beginning of Year (e) |

| Louisville Gas and Electric Company | (1) [X] An Original<br>(2) [ ] A Resubmission | / / | End of 2017/Q4 |

## RESEARCH, DEVELOPMENT, AND DEMONSTRATION ACTIVITIES

1. Describe and show below costs incurred and accounts charged during the year for technological research, development, and demonstration (R, D & D) project initiated, continued or concluded during the year. Report also support given to others during the year for jointly-sponsored projects.(Identify recipient regardless of affiliation.) For any R, D & D work carried with others, show separately the respondent's cost for the year and cost chargeable to others (See definition of research, development, and demonstration in Uniform System of Accounts).
2. Indicate in column (a) the applicable classification, as shown below:

Classifications:

A. Electric R, D & D Performed Internally:
 (1) Generation
  a. hydroelectric
   i. Recreation fish and wildlife
   ii Other hydroelectric
  b. Fossil-fuel steam
  c. Internal combustion or gas turbine
  d. Nuclear
  e. Unconventional generation
  f. Siting and heat rejection
 (2) Transmission
  a. Overhead
  b. Underground
 (3) Distribution
 (4) Regional Transmission and Market Operation
 (5) Environment (other than equipment)
 (6) Other (Classify and include items in excess of $50,000.)
 (7) Total Cost Incurred

B. Electric, R, D & D Performed Externally:
 (1) Research Support to the electrical Research Council or the Electric Power Research Institute

| Line No. | Classification (a) | Description (b) |
|---|---|---|
| 1 | A(1)e: Energy Storage | Amortization for Energy Storage Project at Brown |
| 2 | A(1)e: Other Research Support | Energy Storage Project at Brown: 8 items <$50,000 each plus internal |

RESEARCH, DEVELOPMENT, AND DEMONSTRATION ACTIVITIES (Continued)

(2) Research Support to Edison Electric Institute
(3) Research Support to Nuclear Power Groups
(4) Research Support to Others (Classify)
(5) Total Cost Incurred

3. Include in column (c) all R, D & D items performed internally and in column (d) those items performed outside the company costing $50,000 or more, briefly describing the specific area of R, D & D (such as safety, corrosion control, pollution, automation, measurement, insulation, type of appliance, etc.). Group items under $50,000 by classifications and indicate the number of items grouped. Under Other, (A (6) and B (4)) classify items by type of R, D & D activity.
4. Show in column (e) the account number charged with expenses during the year or the account to which amounts were capitalized during the year, listing Account 107, Construction Work in Progress, first. Show in column (f) the amounts related to the account charged in column (e)
5. Show in column (g) the total unamortized accumulating of costs of projects. This total must equal the balance in Account 188, Research, Development, and Demonstration Expenditures, Outstanding at the end of the year.
6. If costs have not been segregated for R, D &D activities or projects, submit estimates for columns (c), (d), and (f) with such amounts identified by "Est."
7. Report separately research and related testing facilities operated by the respondent.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

| Line No. | Classification (a) | Direct Payroll Distribution (b) | Allocation of Payroll charged for Clearing Accounts (c) | Total (d) |
|---|---|---|---|---|
| 1 | Electric | | | |
| 2 | Operation | | | |

FOOTNOTE DATA

***Schedule Page: 354 Line No.: 70 Column: b***

The balance consists of direct labor associated with plant construction charged to common utility plants.

***Schedule Page: 354 Line No.: 70 Column: c***

The balance consists of indirect and allocated local engineering labor associated with plant construction charged to common utility plants.

***Schedule Page: 354 Line No.: 75 Column: b***

The balance consists of direct labor associated with plant retirement charged to common utility plants.

***Schedule Page: 354 Line No.: 75 Column: c***

The balance consists of indirect and allocated labor associated with plant retirement charged to common utility plants.

| Name of Respondent | This Report Is: | Date of Report (Mo, Da, Yr) | Year/Period of Report |
|---|---|---|---|
| Louisville Gas and Electric Company | (1) [X] An Original<br>(2) [ ] A Resubmission | / / | End of 2017/Q4 |

COMMON UTILITY PLANT AND EXPENSES

1. Describe the property carried in the utility's accounts as common utility plant and show the book cost of such plant at end of year classified by accounts as provided by Plant Instruction 13, Common Utility Plant, of the Uniform System of Accounts. Also show the allocation of such plant costs to the respective departments using the common utility plant and explain the basis of allocation used, giving the allocation factors.
2. Furnish the accumulated provisions for depreciation and amortization at end of year, showing the amounts and classifications of such accumulated provisions, and amounts allocated to utility departments using the Common utility plant to which such accumulated provisions relate, including explanation of basis of allocation and factors used.
3. Give for the year the expenses of operation, maintenance, rents, depreciation, and amortization for common utility plant classified by accounts as provided by the Uniform System of Accounts. Show the allocation of such expenses to the departments using the common utility plant to which such expenses are related. Explain the basis of allocation used and give the factors of allocation.
4. Give date of approval by the Commission for use of the common utility plant classification and reference to order of the Commission or other authorization.

(1) See attached sheet, page 356.1.

(2) See attached sheet, page 356.1.

(3) Depreciation - Electric $6,303,240; Gas $2,831,891. Amortization - Electric $10,224,814; Gas $4,593,757.

Common Utility expense accounts are not maintained but such expenses are allocated to Electric and Gas Departments as follows:

Customer Accounts Expenses (excluding for uncollectable accounts)

Allocated between departments based on average number of customers served by each department for the year ending December 31, 2016.

Customer Service and Informational Expenses

Allocated between departments based on gross revenues from ultimate consumers by departments for the twelve month period.

Administrative and General Expenses

The administrative and general expenses are allocated based on general measures of cost causation.

(4) The property original cost studies made pursuant to the Uniform System of Accounts included a separate classification for Common Utility Plant. Orders were issued in connection with such studies by Public Service Commission of Kentucky on September 16, 1941, and January 5, 1945, and the Federal Power Commission on December 15, 1944.

## AMOUNTS INCLUDED IN ISO/RTO SETTLEMENT STATEMENTS

1. The respondent shall report below the details called for concerning amounts it recorded in Account 555, Purchase Power, and Account 447, Sales for Resale, for items shown on ISO/RTO Settlement Statements. Transactions should be separately netted for each ISO/RTO administered energy market for purposes of determining whether an entity is a net seller or purchaser in a given hour. Net megawatt hours are to be used as the basis for determining whether a net purchase or sale has occurred. In each monthly reporting period, the hourly sale and purchase net amounts are to be aggregated and separately reported in Account 447, Sales for Resale, or Account 555, Purchased Power, respectively.

## PURCHASES AND SALES OF ANCILLARY SERVICES

Report the amounts for each type of ancillary service shown in column (a) for the year as specified in Order No. 888 and defined in the respondents Open Access Transmission Tariff.

In columns for usage, report usage-related billing determinant and the unit of measure.

(1) On line 1 columns (b), (c), (d), (e), (f) and (g) report the amount of ancillary services purchased and sold during the year.

(2) On line 2 columns (b) (c), (d), (e), (f), and (g) report the amount of reactive supply and voltage control services purchased and sold during the year.

(3) On line 3 columns (b) (c), (d), (e), (f), and (g) report the amount of regulation and frequency response services purchased and sold during the year.

(4) On line 4 columns (b), (c), (d), (e), (f), and (g) report the amount of energy imbalance services purchased and sold during the year.

(5) On lines 5 and 6, columns (b), (c), (d), (e), (f), and (g) report the amount of operating reserve spinning and supplement services purchased and sold during the period.

(6) On line 7 columns (b), (c), (d), (e), (f), and (g) report the total amount of all other types ancillary services purchased or sold during the year. Include in a footnote and specify the amount for each type of other ancillary service provided.

| | | Amount Purchased for the Year | | | Amount Sold for the Year | | |
|---|---|---|---|---|---|---|---|
| | | Usage - Related Billing Determinant | | | Usage - Related Billing Determinant | | |
| Line No. | Type of Ancillary Service (a) | Number of Units (b) | Unit of Measure (c) | Dollars (d) | Number of Units (e) | Unit of Measure (f) | Dollars (g) |
| 1 | Scheduling, System Control and Dispatch | 248,418 | MWH | 31,792 | 1,379,976 | MWH | 443,758 |
| 2 | Reactive Supply and Voltage | 248,418 | MWH | 26,172 | 1,379,976 | MWH | 185,790 |
| 3 | Regulation and Frequency Response | | | | 576,779 | MWH | 79,289 |
| 4 | Energy Imbalance | 3,287,000 | MWH | 92,764 | 3,449,000 | | 99,756 |
| 5 | Operating Reserve - Spinning | | | | 576,779 | MWH | 122,898 |
| 6 | Operating Reserve - Supplement | | | | 576,779 | MWH | 122,898 |
| 7 | Other | | | 108 | | | 555,024 |
| 8 | Total (Lines 1 thru 7) | 3,783,836 | | 150,836 | 7,939,289 | | 1,609,413 |

FOOTNOTE DATA

***Schedule Page: 398 Line No.: 7 Column: b***

The Other services amounts are not associated with a number of units or a unit of measure.

***Schedule Page: 398 Line No.: 7 Column: d***

The amount consists of Black Start services.

***Schedule Page: 398 Line No.: 7 Column: e***

The Other services amounts are not associated with a number of units or a unit of measure.

***Schedule Page: 398 Line No.: 7 Column: g***

The amount consists of:

| | |
|---|---|
| MISO Joint Party Settlement Payments | $ 519,140 |
| NRG Joint Party Settlement Payments | 35,911 |
| NextEra Energy prior period adjustment | (27) |
| | $ 555,024 |

***Schedule Page: 398 Line No.: 8 Column: b***

The number of units per ancillary service type cover multiple schedules and should not be accumulated in total.

***Schedule Page: 398 Line No.: 8 Column: e***

The number of units per ancillary service type cover multiple schedules and should not be accumulated in total.

## MONTHLY TRANSMISSION SYSTEM PEAK LOAD

(1) Report the monthly peak load on the respondent's transmission system. If the respondent has two or more power systems which are not physically integrated, furnish the required information for each non-integrated system.
(2) Report on Column (b) by month the transmission system's peak load.
(3) Report on Columns (c ) and (d) the specified information for each monthly transmission - system peak load reported on Column (b).
(4) Report on Columns (e) through (j) by month the system' monthly maximum megawatt load by statistical classifications. See General Instruction for the definition of each statistical classification.

## MONTHLY ISO/RTO TRANSMISSION SYSTEM PEAK LOAD

(1) Report the monthly peak load on the respondent's transmission system. If the Respondent has two or more power systems which are not physically integrated, furnish the required information for each non-integrated system.
(2) Report on Column (b) by month the transmission system's peak load.
(3) Report on Column (c) and (d) the specified information for each monthly transmission - system peak load reported on Column (b).
(4) Report on Columns (e) through (i) by month the system's transmission usage by classification. Amounts reported as Through and Out Service in Column (g) are to be excluded from those amounts reported in Columns (e) and (f).
(5) Amounts reported in Column (j) for Total Usage is the sum of Columns (h) and (i).

NAME OF SYSTEM:

| Line No. | Month (a) | Monthly Peak MW - Total (b) | Day of Monthly Peak (c) | Hour of Monthly Peak (d) | Imports into ISO/RTO (e) | Exports from ISO/RTO (f) | Through and Out Service (g) | Network Service Usage (h) | Point-to-Point Service Usage (i) | Total Usage (j) |

## MONTHLY PEAKS AND OUTPUT

1. Report the monthly peak load and energy output. If the respondent has two or more power which are not physically integrated, furnish the required information for each non- integrated system.
2. Report in column (b) by month the system's output in Megawatt hours for each month.
3. Report in column (c) by month the non-requirements sales for resale. Include in the monthly amounts any energy losses associated with the sales.
4. Report in column (d) by month the system's monthly maximum megawatt load (60 minute integration) associated with the system.
5. Report in column (e) and (f) the specified information for each monthly peak load reported in column (d).

NAME OF SYSTEM:

| Line No. | Month | Total Monthly Energy | Monthly Non-Requirments Sales for Resale & Associated Losses | MONTHLY PEAK Megawatts (See Instr. 4) | MONTHLY PEAK Day of Month | MONTHLY PEAK Hour |

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants)

1. Report data for plant in Service only. 2. Large plants are steam plants with installed capacity (name plate rating) of 25,000 Kw or more. Report in this page gas-turbine and internal combustion plants of 10,000 Kw or more, and nuclear plants. 3. Indicate by a footnote any plant leased or operated as a joint facility. 4. If net peak demand for 60 minutes is not available, give data which is available, specifying period. 5. If any employees attend more than one plant, report on line 11 the approximate average number of employees assignable to each plant. 6. If gas is used and purchased on a therm basis report the Btu content or the gas and the quantity of fuel burned converted to Mct. 7. Quantities of fuel burned (Line 38) and average cost per unit of fuel burned (Line 41) must be consistent with charges to expense accounts 501 and 547 (Line 42) as show on Line 20. 8. If more than one fuel is burned in a plant furnish only the composite heat rate for all fuels burned.

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) *(Continued)*

1. Report data for plant in Service only. 2. Large plants are steam plants with installed capacity (name plate rating) of 25,000 Kw or more. Report in this page gas-turbine and internal combustion plants of 10,000 Kw or more, and nuclear plants. 3. Indicate by a footnote any plant leased or operated as a joint facility. 4. If net peak demand for 60 minutes is not available, give data which is available, specifying period. 5. If any employees attend more than one plant, report on line 11 the approximate average number of employees assignable to each plant. 6. If gas is used and purchased on a therm basis report the Btu content or the gas and the quantity of fuel burned converted to Mct. 7. Quantities of fuel burned (Line 38) and average cost per unit of fuel burned (Line 41) must be consistent with charges to expense accounts 501 and 547 (Line 42) as show on Line 20. 8. If more than one fuel is burned in a plant furnish only the composite heat rate for all fuels burned.

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) *(Continued)*

9. Items under Cost of Plant are based on U. S. of A. Accounts. Production expenses do not include Purchased Power, System Control and Load Dispatching, and Other Expenses Classified as Other Power Supply Expenses. 10. For IC and GT plants, report Operating Expenses, Account Nos. 547 and 549 on Line 25 "Electric Expenses," and Maintenance Account Nos. 553 and 554 on Line 32, "Maintenance of Electric Plant." Indicate plants designed for peak load service. Designate automatically operated plants. 11. For a plant equipped with combinations of fossil fuel steam, nuclear steam, hydro, internal combustion or gas-turbine equipment, report each as a separate plant. However, if a gas-turbine unit functions in a combined cycle operation with a conventional steam unit, include the gas-turbine with the steam plant. 12. If a nuclear power generating plant, briefly explain by footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost units used for the various components of fuel cost; and (c) any other informative data concerning plant type fuel used, fuel enrichment type and quantity for the report period and other physical and operating characteristics of plant.

For a plant equipped with combinations of fossil fuel steam, nuclear steam, hydro, internal combustion or gas-turbine equipment, report each as a separate plant. However, if a gas-turbine unit functions in a combined cycle operation with a conventional steam unit, include the gas-turbine with the steam plant. 12. If a nuclear power generating plant, briefly explain by footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost units used for the various components of fuel cost; and (c) any other informative data concerning plant type fuel used, fuel enrichment type and quantity for the report period and other physical and operating characteristics of plant.

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) *(Continued)*

9. Items under Cost of Plant are based on U. S. of A. Accounts. Production expenses do not include Purchased Power, System Control and Load Dispatching, and Other Expenses Classified as Other Power Supply Expenses. 10. For IC and GT plants, report Operating Expenses, Account Nos. 547 and 549 on Line 25 "Electric Expenses," and Maintenance Account Nos. 553 and 554 on Line 32, "Maintenance of Electric Plant." Indicate plants designed for peak load service. Designate automatically operated plants. 11. For a plant equipped with combinations of fossil fuel steam, nuclear steam, hydro, internal combustion or gas-turbine equipment, report each as a separate plant. However, if a gas-turbine unit functions in a combined cycle operation with a conventional steam unit, include the gas-turbine with the steam plant. 12. If a nuclear power generating plant, briefly explain by footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost units used for the various components of fuel cost; and (c) any other informative data concerning plant type fuel used, fuel enrichment type and quantity for the report period and other physical and operating characteristics of plant.

**Schedule Page: 403 Line No.: -1 Column: d**

Cane Run CT is a peak load service unit.

**Schedule Page: 403 Line No.: -1 Column: e**

LG&E owns 100% of Paddy's Run Unit 11, a 16 MW unit, and Unit 12, a 33 MW unit, and 53% of Unit 13, a 178 MW unit. The remaining percentage of Unit 13 is owned by KU. Paddy's Run Units 11, 12 and 13 are peak load service units. The information presented in here represents LG&E's share.

**Schedule Page: 403 Line No.: -1 Column: f**

No production/operation employees are directly assigned to the Zorn station. Employees from the Cane Run Plant maintain the Zorn station. Zorn station is peak load service unit only and is automatically operated.

**Schedule Page: 402 Line No.: 1 Column: c**

LG&E owns 75% of Trimble County Steam Unit 1, a 566 MW unit, with the remaining 25% owned by IMEA and IMPA. LG&E also owns 14.25% of Trimble County Steam Unit 2, a 838 MW unit, with the remaining percentages owned by KU, IMEA and IMPA. The information presented in here represents LG&E's share.

**Schedule Page: 402.1 Line No.: -1 Column: b**

LG&E owns 53% of Brown CT unit 5, a 123 MW unit, and 38% of Units 6 and 7, 177 MW each. The remaining percentages of Units 5, 6 and 7 are owned by KU. Brown CT units 5, 6, and 7 are peak load service units. The information presented in here represents LG&E's share.

**Schedule Page: 402.1 Line No.: -1 Column: c**

LG&E owns 29% of Trimble County CT units 5 and 6 and 37% of Units 7, 8, 9 and 10. The remaining percentages for Units 5, 6, 7, 8, 9 and 10 are owned by KU. The total Nameplate Ratings for these units are 199 MW per unit and they are peak load servies units. The information presented in here represents LG&E's share.

**Schedule Page: 403.1 Line No.: -1 Column: d**

LG&E owns 22% of Cane Run NGCC, a 808 MW unit, with the remaining percentage owned by KU. The information presented in here represents LG&E's share.

## HYDROELECTRIC GENERATING PLANT STATISTICS (Large Plants)

1. Large plants are hydro plants of 10,000 Kw or more of installed capacity (name plate ratings)
2. If any plant is leased, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, indicate such facts in a footnote. If licensed project, give project number.
3. If net peak demand for 60 minutes is not available, give that which is available specifying period.
4. If a group of employees attends more than one generating plant, report on line 11 the approximate average number of employees assignable to each plant.

PUMPED STORAGE GENERATING PLANT STATISTICS (Large Plants) (Continued)

6. Pumping energy (Line 10) is that energy measured as input to the plant for pumping purposes.
7. Include on Line 36 the cost of energy used in pumping into the storage reservoir. When this item cannot be accurately computed leave Lines 36, 37 and 38 blank and describe at the bottom of the schedule the company's principal sources of pumping power, the estimated amounts of energy from each station or other source that individually provides more than 10 percent of the total energy used for pumping, and production expenses per net MWH as reported herein for each source described. Group together stations and other resources which individually provide less than 10 percent of total pumping energy. If contracts are made with others to purchase power for pumping, give the supplier contract number, and date of contract.

GENERATING PLANT STATISTICS (Small Plants)

1. Small generating plants are steam plants of, less than 25,000 Kw; internal combustion and gas turbine-plants, conventional hydro plants and pumped storage plants of less than 10,000 Kw installed capacity (name plate rating). 2. Designate any plant leased from others, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, and give a concise statement of the facts in a footnote. If licensed project, give project number in footnote.

GENERATING PLANT STATISTICS (Small Plants) (Continued)

3. List plants appropriately under subheadings for steam, hydro, nuclear, internal combustion and gas turbine plants. For nuclear, see instruction 11, Page 403. 4. If net peak demand for 60 minutes is not available, give the which is available, specifying period. 5. If any plant is equipped with combinations of steam, hydro internal combustion or gas turbine equipment, report each as a separate plant. However, if the exhaust heat from the gas turbine is utilized in a steam turbine regenerative feed water cycle, or for preheated combustion air in a boiler, report as one plant.

## TRANSMISSION LINE STATISTICS

1. Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 kilovolts or greater. Report transmission lines below these voltages in group totals only for each voltage.
2. Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report substation costs and expenses on this page.
3. Report data by individual lines for all voltages if so required by a State commission.
4. Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property.
5. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole wood or steel; (2) H-frame wood, or steel poles; (3) tower; or (4) underground construction If a transmission line has more than one type of supporting structure, indicate the mileage of each type of construction by the use of brackets and extra lines. Minor portions of a transmission line of a different type of construction need not be distinguished from the remainder of the line.
6. Report in columns (f) and (g) the total pole miles of each transmission line. Show in column (f) the pole miles of line on structures the cost of which is reported for the line designated; conversely, show in column (g) the pole miles of line on structures the cost of which is reported for another line. Report pole miles of line on leased or partly owned structures in column (g). In a footnote, explain the basis of such occupancy and state whether expenses with respect to such structures are included in the expenses reported for the line designated.

TRANSMISSION LINE STATISTICS (Continued)

7. Do not report the same transmission line structure twice. Report Lower voltage Lines and higher voltage lines as one line. Designate in a footnote if you do not include Lower voltage lines with higher voltage lines. If two or more transmission line structures support lines of the same voltage, report the pole miles of the primary structure in column (f) and the pole miles of the other line(s) in column (g)
8. Designate any transmission line or portion thereof for which the respondent is not the sole owner. If such property is leased from another company, give name of lessor, date and terms of Lease, and amount of rent for year. For any transmission line other than a leased line, or portion thereof, for which the respondent is not the sole owner but which the respondent operates or shares in the operation of, furnish a succinct statement explaining the arrangement and giving particulars (details) of such matters as percent ownership by respondent in the line, name of co-owner, basis of sharing expenses of the Line, and how the expenses borne by the respondent are accounted for, and accounts affected. Specify whether lessor, co-owner, or other party is an associated company.
9. Designate any transmission line leased to another company and give name of Lessee, date and terms of lease, annual rent for year, and how determined. Specify whether lessee is an associated company.
10. Base the plant cost figures called for in columns (j) to (l) on the book cost at end of year.

| Size of Conductor and Material (i) | COST OF LINE (Include in Column (j) Land, Land rights, and clearing right-of-way) Land (j) | Construction and Other Costs (k) | Total Cost (l) | EXPENSES, EXCEPT DEPRECIATION AND TAXES Operation Expenses (m) | Maintenance Expenses (n) | Rents (o) | Total Expenses (p) | Line No. |

| Louisville Gas and Electric Company | (1) [X] An Original (2) [ ] A Resubmission | / / | End of 2017/Q4 |

TRANSMISSION LINE STATISTICS (Continued)

7. Do not report the same transmission line structure twice. Report Lower voltage Lines and higher voltage lines as one line. Designate in a footnote if you do not include Lower voltage lines with higher voltage lines. If two or more transmission line structures support lines of the same voltage, report the pole miles of the primary structure in column (f) and the pole miles of the other line(s) in column (g)
8. Designate any transmission line or portion thereof for which the respondent is not the sole owner. If such property is leased from another company, give name of lessor, date and terms of Lease, and amount of rent for year. For any transmission line other than a leased line, or portion thereof, for which the respondent is not the sole owner but which the respondent operates or shares in the operation of, furnish a succinct statement explaining the arrangement and giving particulars (details) of such matters as percent ownership by respondent in the line, name of co-owner, basis of sharing expenses of the Line, and how the expenses borne by the respondent are accounted for, and accounts affected. Specify whether lessor, co-owner, or other party is an associated company.
9. Designate any transmission line leased to another company and give name of Lessee, date and terms of lease, annual rent for year, and how determined. Specify whether lessee is an associated company.
10. Base the plant cost figures called for in columns (j) to (l) on the book cost at end of year.

## TRANSMISSION LINES ADDED DURING YEAR

1. Report below the information called for concerning Transmission lines added or altered during the year. It is not necessary to report minor revisions of lines.
2. Provide separate subheadings for overhead and under- ground construction and show each transmission line separately. If actual costs of competed construction are not readily available for reporting columns (l) to (o), it is permissible to report in these columns the

SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
2. Substations which serve only one industrial or street railway customer should not be listed below.
3. Substations with capacities of Less than 10 MVa except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.
4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).

|---|---|---|---|
| Louisville Gas and Electric Company | (1) [X] An Original<br>(2) [ ] A Resubmission | / / | End of 2017/Q4 |

## SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
2. Substations which serve only one industrial or street railway customer should not be listed below.
3. Substations with capacities of Less than 10 MVa except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.
4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).

SUBSTATIONS (Continued)

5. Show in columns (I), (j), and (k) special equipment such as rotary converters, rectifiers, condensers, etc. and auxiliary equipment for increasing capacity.
6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any substation or equipment operated under lease, give name of lessor, date and period of lease, and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.

| Louisville Gas and Electric Company | (1) [X] An Original<br>(2) [ ] A Resubmission | / / | End of 2017/Q4 |

**TRANSACTIONS WITH ASSOCIATED (AFFILIATED) COMPANIES**

1. Report below the information called for concerning all non-power goods or services received from or provided to associated (affiliated) companies.
2. The reporting threshold for reporting purposes is $250,000. The threshold applies to the annual amount billed to the respondent or billed to an associated/affiliated company for non-power goods and services. The good or service must be specific in nature. Respondents should not attempt to include or aggregate amounts in a nonspecific category such as "general".
3. Where amounts billed to or received from the associated (affiliated) company are based on an allocation process, explain in a footnote.

| Line No. | Description of the Non-Power Good or Service (a) | Name of Associated/Affiliated Company (b) | Account Charged or Credited (c) | Amount Charged or Credited (d) |

Costs between Louisville Gas and Electric Company and Kentucky Utilities Company are either charged directly or are allocated by certain assignment methods described below that most accurately distribute the costs.

LG&E and KU Services Company (LKS) either directly charges or allocates the costs of service among the affiliated companies using one of several methods that most accurately distributes the costs. The method of cost allocation varies based on the department rendering the service. Any of the methods may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes in the business, but are generally determined annually. The assignment methods used by LKS and PPL Services are as follows:

**Contract Ratio** - Based on the sum of the physical amount (i.e. tons of coal, mmbtu of natural gas) of the contract for coal and natural gas fuel burned for the immediately preceding twelve consecutive calendar months, the numerator of which is for an operating company and the denominator of which is for all operating companies. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Corporate Information Security Ratio** - This ratio allocates the cost of cyber security

| Name of Respondent<br>Louisville Gas and Electric Company | This Report is:<br>(1) X An Original<br>(2) _ A Resubmission | Date of Report<br>(Mo, Da, Yr)<br>/ / | Year/Period of Report<br>2017/Q4 |
|---|---|---|---|

FOOTNOTE DATA

activities using an allocation consistent with the methodology used by third party insurers providing cyber security insurance to the organization. The methodology assigns a percentage of the premium based on the various risks (e.g., number of employees, the number of customers, etc.). The total of the percentages equals 100%. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Departmental Charge Ratio** – A specific department ratio based upon various factors. The departmental charge ratio typically applies to indirectly attributable costs such as departmental administrative, support, and/or material and supply costs that benefit more than one affiliate and that require allocation using general measures of cost causation. Methods for assignment are department-specific depending on the type of service being performed and are documented and monitored by the Budget Coordinators for each department. The numerator and denominator vary by department. The ratio is based upon various factors such as labor hours, labor dollars, departmental or entity headcount, capital expenditures, operations and maintenance costs, retail energy sales, charitable contributions, generating plant sites, average allocation of direct reports, net book value of utility plant, total line of business assets, electric capital expenditures, substation assets and transformer assets. The Departmental Charge Ratio will only be used with prior approval by the Controller when other applicable ratios would not result in the fair assignment of costs. These ratios are calculated on an annual basis. Any changes in these ratios will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in any of these ratios from that used in the prior year.

**Electric Peak Load Ratio** – Based on the sum of the monthly electric maximum system demands for the immediately preceding twelve consecutive calendar months, the numerator of which is for an operating company and the denominator of which is for all operating companies. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Facilities Ratio** – Based on a two-tiered approach with one tier based on the number of employees by department or line of business and the other tier based on the applicable department or line of business ratio. The numerator for the number of employees is the number of employees by department or line of business at the facility and the denominator is the total employees at the facility. The numerator and denominator for the applicable department or line of business for the service provided as described in this document. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Generation Ratio** – Based on the annual forecast of megawatt hours, the numerator of which is for an operating company and the denominator of which is for all operating companies. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

| Name of Respondent | This Report is: | Date of Report (Mo, Da, Yr) | Year/Period of Report |
|---|---|---|---|
| Louisville Gas and Electric Company | (1) X An Original<br>(2) _ A Resubmission | / / | 2017/Q4 |

FOOTNOTE DATA

**Network Users Ratio** – Based on the number of IT network users at the end of the previous calendar year. A two-step assignment methodology is utilized to properly allocate costs to the proper legal entity. The numerator for the first step of this ratio is the total number of network users for each specific company, and the denominator is the total number of network users for all companies in which an allocator is assigned (i.e. LG&E, KU, LKS and PPL). For the second step, the ratio of LKS network users, to total network users will then be allocated to the other companies (LG&E, KU, and LKC) based on each company's ratio of LKS labor hours to total LKS labor hours. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Non-Fuel Material and Services Expenditures** – Based on non-fuel material and services expenditures, net of reimbursements, for the immediately preceding twelve consecutive calendar months. The numerator is equal to such expenditures for a specific entity and/or line-of-business as appropriate and the denominator is equal to such expenditures for all applicable entities. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Number of Customers Ratio** – Based on the number of retail electric and/or gas customers. This ratio will be determined based on the actual number of customers at the end of the previous calendar year. In some cases, the ratio may be calculated based on the type of customer class being served (i.e. Residential, Commercial or Industrial). The numerator is the total number of each Company's retail customers. The denominator is the total number of retail customers for both LG&E and KU. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Number of Employees Ratio** – Based on the number of employees benefiting from the performance of a service. This ratio will be determined based on actual counts of applicable employees at the end of the previous calendar year. A two-step assignment methodology is utilized to properly allocate LKS employee costs to the proper legal entity. The numerator for the first step of this ratio is the total number of employees for each specific company, and the denominator is the total number of employees for all companies in which an allocator is assigned (i.e. LG&E, KU and LKS). For the second step, the ratio of LKS to total employees will then be allocated to the other companies (LG&E, KU and LKC) based on each company's ratio of labor hours to total labor hours. LKC has no employees, but non-utility related labor is charged to it. In some cases, the ratio may be calculated based on the number of employees at a specific location for the first step with the ratio of LKS to total employees being allocated based on labor hours of the

|---|---|---|---|

FOOTNOTE DATA

employees at the specific location. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Number of Meters Ratio** – Based on the number or types of meters being utilized by customer classes within the system for the immediately preceding twelve consecutive calendar months. The numerator is equal to the number of meters for each utility and the denominator is equal to the total meters for KU and LG&E. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Number of Transactions Ratio** – Based on the number of transactions occurring in the immediately preceding twelve consecutive calendar months, the numerator of which is for an operating company and the denominator of which is for all operating companies. The Controller’s organization is responsible for maintaining and monitoring specific product/service methodology documentation for actual transactions related to LKS billings. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Ownership Percentages** – Based on the contractual ownership percentages of jointly-owned generating units, information technology, facilities and other capital projects. This ratio is updated as a result of new jointly-owned capital projects and is based on the benefit to the respective company. The numerator is the specific company’s forecasted usage. The denominator is the total forecasted usage of all respective companies.

**Revenue Ratio** – Based on the sum of the revenue for the immediately preceding twelve consecutive calendar months, the numerator of which is for an operating company and the denominator of which is for all operating companies. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Revenue, Total Assets and Number of Employees Ratio** – Based on an average of the revenue, total assets and number of employees ratios. The numerator is the sum of Revenue Ratio, Total Assets Ratio and Number of Employees Ratio for the specific company. The denominator is three – the number of ratios being averaged. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Total Assets Ratio** – Based on the total assets at year end for the preceding year. In the

| Name of Respondent<br>Louisville Gas and Electric Company | This Report is:<br>(1) X An Original<br>(2) __ A Resubmission | Date of Report<br>(Mo, Da, Yr)<br>/ / | Year/Period of Report<br>2017/Q4 |
|---|---|---|---|

FOOTNOTE DATA

event of joint ownership of a specific asset, asset ownership percentages are utilized to assign costs. The numerator is the total assets for each specific company at the end of the preceding year. The denominator is the sum of total assets for each company in which an allocator is assigned (LG&E, KU and LKC). This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Total Utility Plant Assets Ratio** – Based on the total utility plant assets at year end for the preceding year, the numerator of which is for an operating company and the denominator of which is for all operating companies. In the event of joint ownership of a specific asset, ownership percentages are utilized to assign costs. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Transmission Ratio –**The Transmission Coordination Agreement (TCA) provides "the contractual basis for the coordinated planning, operation, and maintenance of the combined" LG&E and KU transmission system. Pursuant to the terms of the TCA, LG&E/KU "operate their transmission systems as a single control area." The TCA establishes cost and revenue allocations between LG&E and KU. The Transmission Ratio is based upon Schedule A (Allocation of Operating Expenses of the Transmission System Operator) of the TCA. Transmission System Operator Company allocation percentages are calculated during June of each year to be effective July 1st of each year using the previous year's summation of the Transmission Peak Demands as found in FERC Form 1 for Kentucky Utilities Company (KU) and Louisville Gas & Electric Company (LG&E) page 400 line 17(b).

**Ultimate Users Ratio** – Based on the number of ultimate users of an IT product or service (i.e., software, hardware, mobile devices, etc.) at the end of the previous calendar year. A two-step assignment methodology is utilized to properly allocate costs to the proper legal entity. The numerator for the first step of this ratio is the total number of ultimate users for each specific company, and the denominator is the total number of ultimate users for all companies in which an allocator is assigned (i.e. LG&E, KU, LKS and PPL). For the second step, the ratio of LKS ultimate users, to total ultimate users will then be allocated to the other companies (LG&E, KU, and LKC) based on each company's ratio of LKS labor hours to total LKS labor hours. This ratio is calculated on an annual basis. Any changes in the ratio will be determined no later than May 1st of the following calendar year, and charges to date will be reallocated for any significant changes in the ratio from that used in the prior year.

**Vehicle Cost Allocation Ratio** – Based on the costs associated with providing and operating transportation fleet for all affiliated companies including developing fleet policy, administering regulatory compliance programs, managing repair and maintenance of vehicles and procuring vehicles. Such rates are applied based on the specific equipment employment

FOOTNOTE DATA

and the measured usage of services by the various company entities. This ratio is calculated monthly based on the actual transportation charges from the previous month. The numerator is the department labor charged to a specific company. The denominator is the total labor costs for the specific department. The ratio is then multiplied by the total transportation costs to determine the amount charged to each company.

## General Information - (1) (Ref Page: 101)

| | Name | Address | City | State | Zip |
|---|---|---|---|---|---|
| Provide name and title of the Officer having custody of the general corporate books of account | Kent W. Blake, Cheif Financial Officer | | | | |
| Provide Address of Office where the general Corporate books are kept | | 220 West Main Street | Louisville | KY | 40202 |
| Provide the Address of any other offices where other coprorate books are kept if different from where the general corporate books are kept | | | | | |
| | | | | | |

## General Information (2,3,4) (Ref Page: 101)

| | Explain |
|---|---|
| Provide the name of the State under the laws which respondent is incorporated and date | |
| If incorporated under a special law give reference to such law | |
| If not incorporated state that fact and give the type of organization and the date organized | |
| | Kentucky July 2, 1913 |
| If at any time during the year the property of respondent was held by a receiver or trustee | |
| give (a) the name of receiver or trustee | |
| (b) date such receiver or trustee took possession | |
| (c) the authority by which the receivership or trusteeship was created and | |
| (d) date when possession by receiver or trustee ceased. | |
| | Not Applicable |
| State the classes or utility and other services furnished by respondent during the year in each State in which the respondent operated. | |
| | Respondent furnishes electric and natural gas services in Metro Louisville and adjacent territory in Kentucky. |

## General Information - (5) (Ref Page: 101)

| | Yes/No | Date |
|---|---|---|
| Have you engaged as the principal acountant to audit your financial statements an accountant who is not the principal account for the previous years certified financial statements? | | |
| Enter Y for Yes or N for No | N | |
| If yes, Enter the date when such independend accountant was initially engaged | | |

## Corporations Controlled by Respondent (Ref Page: 103)

| Name of Company (a) | Type (b) | Business (c) | Percent Voting Stock (d) |
|---|---|---|---|
| Not Applicable | | | 0.00000000 |

## Security Holders and Voting Powers - Part 1 (Ref Page: 107)

| | Explain | Date | Total |
|---|---|---|---|
| 1. Give date of the latest closing of the stock book prior to end of the year, and state the purpose of such closing: | Stock books not closed during the year. | | |
| 2. State the total number of votes cast at the latest general meeting prior to end of year for election of directors or the respondent and the number of such votes cast by proxy | | | |
| Total: | | | 21,294,223 |
| By Proxy: | | | 21,294,223 |
| 3. Give the date and place of such a meeting | Louisville, KY | 10/9/2017 | |
| Voting Securities | | | |
| Number of votes as of Date: | | | 21,294,223 |

## Security Holders and Voting Powers - Part 2 (Ref Page: 107)

| | Name | Address | Total Votes | Common Stock | Preferred Stock | Other |
|---|---|---|---|---|---|---|
| 4. Total votes of all voting securities | | | 21,294,223 | 21,294,223 | 0 | 0 |
| 5. Total number of all security holders | | | 1 | 1 | 0 | 0 |
| 6. Total Votes of Security Holders listed below | | | | | | |
| | LG&E and KU Energy LLC | Louisville, KY | 21,294,223 | 21,294,223 | 0 | 0 |

## Important Changes During the Year (Ref Page: 108)

| | Explain |
|---|---|
| Give particulars concerning the matters indicated below. | |
| 1. Changes in and important additions to franchise rights: | See Note 4 of Notes to Financial Statements on page 123. |
| 2. Acquisition of ownership in other companies by reorganization, merger or consolidation with other companies: | None. |
| 3. Purchase or sale of an operating unit or system: | During September 2016, Louisville Gas and Electric Company ("LG&E") completed the sale of 73 rail cars owned by LG&E. The sale resulted in a gain of $76,448 in Account 102 (Electric Plant Purchased or Sold). In December 2016, LG&E filed a request with the Commission seeking approval to clear the balance of Account 102 to Account 151 pursuant to the Kentucky Public Service Commission's January 2, 1997 Order in Case No. 92-493, requiring that the gain on the sale of railcars depreciated through the Company's fuel adjustment clause (FAC) be passed to customers through the Company's FAC. The use of Account 151 is also consistent with the entries approved by the FERC under Docket No. AC10-137-000 for a similar rail car sale completed in 2009 by the Company. In December 2016, LG&E received FERC authorization in FERC Docket No. AC17-17-000 to clear the balance of Account 102 to Account 151. |
| 4. Important leaseholds (other than leaseholds for natural gas lands) thant have been accquired or given assigned or surrendered: | None of a material nature. |
| 5. Important extension or reduction of transmission or distribution system: | None. |
| 6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees. | LG&E received FERC authorization in FERC Docket No. ES17-41-000 for up to $500 million in the form of money pool debt, commercial paper or any other type of short-term loan through November 30, 2019. LG&E's money pool balance was zero at December 31, 2017 and December 31, 2016. LG&E's commercial paper program limit is $350 million as of April 30, 2013. As of December 31, 2017 and December 31, 2016, the outstanding commercial paper balance is $199 million and $169 million, respectively.<br><br>LG&E has a revolving credit facility totaling $500 million. The facility was approved by the Kentucky Public Service Commission Order, Case No. 2015-00138 on July 2, 2015. The Kentucky Public Service Commission approved an extension of the credit facility in Case No. 2016-00361 on December 9, 2016. On January 29, 2017, LG&E amended this revolving credit facility to extend the termination date from December 31, 2020 to January 29, 2022. There were no borrowings outstanding under this facility at December 31, 2017 and December 31, 2016.<br><br>On October 26, 2017, LG&E executed a $200 million term loan with US Bank due October 25, 2019. Upon execution, an initial $100 million was drawn on the term loan at an interest rate of 1.74%. A second draw of $100 million was made on January 11, 2018. This agreement was executed pursuant to FERC Order Docket No. ES17-41-000 issued September 18, 2017. |
| 7. Changes in articles of incoporation or amendments to charter: Explain the nature and purpose of such changes or amendments. | None. |
| 8. State the estimated annual effect and nature of any important wage scale changes during the year. | During the first quarter of 2017, exempt and non-exempt employees received routine wage increases in accordance with annual salary reviews. There were no changes to wage scales during the second or third quarters of 2017. The LG&E IBEW ratified a three-year contract including wage increases effective in the fourth quarter of 2017. |
| 9. State briefly the status of any materially important legal proceedings pending at the end of the year and the results. | See Notes 4 and 10 of Notes to Financial Statements on page 123. |

## Important Changes During the Year (Ref Page: 108)

| | Explain |
|---|---|
| 10. Describe briefly any materially important transactions not disclosed elsewhere in this report in which an officer, director, or associated company was a party or had a material interest. | None. |
| 11. Estimated increase or decrease in annual revenues caused by important rate changes. | N/A |

## Balance Sheet - Assets and Other Debits (Ref Page: 110)

| a. Rate for Borrowed Funds | | | |
| b. Rate for Other Funds | | | |

**General Description of Construction Overhead Procedure - Components of Formulat (Ref Page: 218) - NOTES**

LOCAL ENGINEERING:

Salaries and expenses of Gas Distribution Operations personnel engaged in construction work, but not assignable to a particular capital project, are charged to engineering clearing projects. Examples of such charges are: work with the construction budget, cost of estimating, preparation of field reports, conferences on construction matters, and general supervision of construction projects. Each month, the costs accumulated in these clearing projects are allocated to specific capital projects owned by Gas Distribution based on the monthly spend by project. The labor and expenses of engineers and other personnel who are directly assigned to a particular capital project are charged to that project.

EMPLOYEE BENEFITS:

Vacation, holiday, sick and other off-duty payments, medical, dental, group life insurance, long-term disability, 401(k), retirement income account and pension costs, are charged to construction by applying overhead rates to direct labor.

Employee bonuses, known as Team Incentive Awards, are charged to construction by applying overhead rates to direct labor.

ADMIN AND GENERAL:

The allocation of administrative and general expenses to construction is based on a study of the estimated time engaged in construction activities by persons and departments charging time to FERC Account 920. The administrative and general salaries and expenses (FERC Account 920-921) applicable to construction are allocated to all construction projects on the basis of total direct costs.

VEHICLE:

Vehicle costs are allocated to construction based on labor charges from the departments to which the vehicles are assigned. The costs of vehicles are allocated by the pro-rata share of monthly labor incurred from each department which owns vehicles.

Note:
LG&E does not capitalize AFUDC.

## 22200500 Louisville Gas and Electric Company 01/01/2017 - 12/31/2017

### Compressor Stations (Ref Page: 508)

| Name of Station and | Number of Units (b) | Certified Horsepower (c) | Plant Cost (d) | Fuel or Power (e) | Fuel or Power Type |
|---|---|---|---|---|---|
| Magnolia Compressor Station | 7 | 11,560 | $37,743,614.00 | $320,586.00 | Natural Gas |
| Muldraugh Compressor Station | 9 | 9,545 | $46,521,081.00 | $63,990.00 | Natural Gas |
| Field Compressor Stations for Self-Use to | 0 | 0 | $0.00 | $0.00 | |
| Recover Underground Storage Gas | 0 | 0 | $0.00 | $0.00 | |
| Doe-Run-Brandenburg, Ky, and Laconia, In. | 10 | 1,365 | $6,006,685.00 | $130,155.00 | Gas/Electricity |
| Muldraugh-Muldraugh, Ky. | 1 | 30 | $114,905.00 | $15,130.00 | Electricity |
| Center Compressor Station | 2 | 2,070 | $16,783,976.00 | $77,007.00 | Natural Gas |

## Compressor Stations (Ref Page: 508) (Part Two)

| Name of Station and | Other (f) | Gas for Comp Fuel MCF | Total Comp Hours | Comp operating at Time | Date of Station Peak (j) |
|---|---|---|---|---|---|
| Magnolia Compressor Station | $2,326,499.00 | 90,940 | 7,490 | 6 | 12/26/2017 |
| Muldraugh Compressor Station | $3,012,079.00 | 131,124 | 1,082 | 4 | 3/14/2017 |
| Field Compressor Stations for Self-Use to | $0.00 | 0 | 0 | 0 | |
| Recover Underground Storage Gas | $0.00 | 0 | 0 | 0 | |
| Doe-Run-Brandenburg, Ky, and Laconia, In. | $1,903,726.00 | 14,825 | 10,476 | 0 | |
| Muldraugh-Muldraugh, Ky. | $0.00 | 0 | 4,909 | 0 | |
| Center Compressor Station | $124,293.00 | 24,966 | 3,469 | 2 | 12/19/2017 |

Note:
Doe-Run-Brandenburg, Ky. and Laconia, In., column (b):
Of total 10 compressors only 3 were in operation in 2017, with a total of 915 horsepower, column (c).

Doe-Run-Brandenburg, Ky. and Laconia, In., column (e):
Of total amount, $54,220.96 is gas and $75,933.78 is electricity.

Doe-Run-Brandenburg, Ky. and Laconia, In., column (j):
Station Peak not applicable for field compressors.

Muldraugh-Muldraugh, Ky., column(j):
Station Peak not applicable for field compressors.

## Gas Account - Natural Gas (Ref Page: 520)

| Description | Amt MCF |
|---|---|
| 28. Total Deliveries | 56,955,928 |
| GAS UNACCOUNTED FOR | |
| Production System Losses | 0 |
| Gathering System Losses | 0 |
| Transmission System Losses | 0 |
| Distribution System Losses | 0 |
| Storage System Losses | 830,616 |
| Other Losses (Specify) | |
| Sales and Transports | 909,544 |
| 36. Total Unaccounted For | 1,740,160 |
| Total Deliveries and Unaccounted For For (Line 28 and 36) | 58,696,088 |

Note:
Gas purchases include volumes recorded in Natural Gas Transmission Line Purchases (803).

Transportation gas is reported on the following lines:
Gas of Others Received for Distribution – 12,681,828 Mcf
Deliveries of Gas Distributed for Others – 12,996,437 Mcf

Other Gas Withdrawn from Storage represents net withdrawal of gas from storage recorded in Gas Withdrawn from Storage--Debit (808.1).

Other Gas Delivered to Storage represents net deliveries of gas to storage recorded in Gas Delivered to Storage--Credit (808.2).

**OATH**

Commonwealth of Kentucky )
) ss:
County of Jefferson )

Kent W. Blake makes oath and says
(Name of Officer)

that he/she is Chief Financial Officer of
(Official title of officer)

Louisville Gas and Electric Company
(Exact legal title or name of respondent)

that it is his/her duty to have supervision over the books of account of the respondent and to control the manner in which such books are kept; that he/she knows that such books have, during the period covered by the foregoing report, been kept in good faith in accordance with the accounting and other orders of the Public Service Commission of Kentucky, effective during the said period; that he/she has carefully examined the said report and to have the best of his/her knowledge and belief the entries contained in the said report have, so far as they relate to matters of account, been accurately taken from the said books of account and are in exact accordance therewith; that he/she believes that all other statements of fact contained in the said report are true; and that the said report is a correct and complete statement of the business and affairs of the above-named respondent during the period of time from and including

January 1, 20 17, to and including December 31, 20 17

K W Blake
(Signature of Officer)

subscribed and sworn to before me, a Notary Public, in and for the State and County named in the above this 27th day of March, 20 18

(Apply Seal Here)

My Commission expires August 31, 2019

Rhonda Q. Anderson
(Signature of officer authorized to administer oath)

**[Persons making willful false statements in this report may be punished by fine or imprisonment under KRS 523.040 and 523.100.]**

**Louisville Gas and Electric Company**
**Case No. 2018-00295**
**Forecasted Test Period Filing Requirements**
**(Forecasted Test Period 12ME 4/30/20; Base Period 12ME 12/31/18)**

**Filing Requirement**
**807 KAR 5:001 Section 16(7)(l)**
**Sponsoring Witness: Christopher M. Garrett**

**Description of Filing Requirement:**

*The annual report to shareholders or members and the statistical supplements covering the most recent two (2) years from the application filing date.*

**Response:**

There are no annual reports to LG&E's shareholders during the period referenced. LG&E does not publish a statistical supplement.

Federal securities rules generally require the delivery of annual reports to public shareholders when requesting their vote via certain proxy solicitations. During the period in question, the common stock of LG&E has been wholly-owned by LG&E and KU Energy LLC, which is a wholly-owned subsidiary of PPL Corporation.

Copies of the audited annual financial statements and other financial information of LG&E relating to the period described are provided in Filing Requirement 807 KAR 5:001 Section 16(7)(p) [Tab No. 46].

**Forecasted Test Period Filing Requirements**
**(Forecasted Test Period 12ME 4/30/20; Base Period 12ME 12/31/18)**

**Filing Requirement**
**807 KAR 5:001 Section 16(7)(o)**
**Sponsoring Witness: Daniel K. Arbough**

## Description of Filing Requirement:

*Complete monthly budget variance reports, with narrative explanations, for the twelve (12) months immediately prior to the base period, each month of the base period, and any subsequent months, as they become available.*

## Response:

The Companies have only one monthly budget variance (performance) report used for management reporting to the CEO and executive officers. Certain information responsive to this request is being provided under seal pursuant to a Petition for Confidential Protection.

See attached for the monthly reports for:

- The twelve months prior to the base period - January 2017 through December 2017.
- Each month of the base period - As of the date of the filing only the months of January 2018 through July 2018 are available. The Company will provide this data for the remaining periods requested in the upcoming months as it becomes available.

### Variance Explanations

• Lower margins primarily due to lower sales volumes from warmer than average weather resulting in lower retail electric base energy and demand revenue of $12 million.

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms.

(3) The possible violation issues for YTD Actual is believed to be minimal risk.

(4) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

• In both Louisville and Lexington, January 2017 ranked as the second warmest in the past 20 years. The month of February has also begun with a similar weather pattern and mild temperatures. Retail load continues to be impacted by these conditions.

• LKE employees' continued focus on the customer experience has led to another J.D. Power award. LG&E was named the top-ranking utility in the Midwest segment in the newly released J.D. Power and Associates 2016 Calendar-Year Gas Business Customer Satisfaction Study. In the survey, the Company also was recognized as the top performer nationwide in the customer service category. Between LG&E and KU, the Utilities were the top-ranked utility within their respective segments in all four J.D. Power studies this past year.

• The Company filed over 3,400 responses to data requests (first round with intervenors) in its rate cases at the KPSC, and is addressing responses to 1,500 supplemental data requests which are due on February 20. The formal public hearing has also been scheduled to begin on May 2.

• Company representatives were joined by Lexington city and community leaders to unveil KU's new publicly available electric vehicle charging station. LKE has installed three charging stations in Louisville and two in Lexington. There are three additional stations planned for both the LG&E and KU service territories during 2017.

### Significant Future Events

• Regarding the Kentucky rate cases, intervenor testimony will be filed March 3, and the Company's rebuttal testimony will be submitted April 14.

## Income Statement: Actual vs. Budget (YTD) - LKE Consolidated — January 2017

**($ Millions)**

| | YTD Actual | YTD Budget | YTD Variance | Comments |
|---|---|---|---|---|
| **Revenues:** | | | | |
| Electric Revenues | $ 251 | $ 268 | $ (17) | Due primarily to lower sales volumes driven by mild weather. |
| Gas Revenues | 48 | 54 | (7) | Due primarily to lower sales volumes driven by mild weather. |
| **Total Revenues** | 299 | 322 | (24) | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 72 | 78 | 6 | Primarily due to decreased generation as a result of mild weather. |
| Gas Supply Expenses | 24 | 29 | 6 | Due to lower gas usage (mild weather). |
| Purchased Power | 5 | 5 | (0) | |
| Other Electric Cost | 14 | 14 | 0 | |
| **Total Cost of Sales** | 115 | 126 | 11 | |
| **Gross Margin:** | | | | |
| Electric Margin | 160 | 171 | (11) | Lower margins primarily due to lower sales volumes from warmer than average weather resulting in lower retail electric base energy and demand revenue. |

| As of December 31, 2016 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.
Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.
Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

|---|---|---|---|
| **Financial Metrics** | **Actual** | **Forecast** | **Budget** |
| ROE(4) | 9.7% | 9.5% | 9.8% |

### Variance Explanations

• Lower current month margins primarily due to lower sales volumes from warmer than average weather resulting in lower retail electric base energy and demand revenue of $19 million.

• Lower margins YTD primarily due to lower sales volumes from warmer than average weather resulting in lower retail electric base energy and demand revenue of $31 million.

(1) Full year forecast amount shown represents target.
(2) Net of cost recovery mechanisms.
(3) The possible violation issues for YTD Actual is believed to be minimal risk.
(4) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

• February 2017 represented the warmest February on record for both Louisville and Lexington. Louisville also reached 81 degrees on the 24th, setting a new all-time high for the month. Retail sales continue to be impacted by these conditions.

• LKE filed nearly 1,500 responses to supplemental data requests in the rate case proceeding and is currently analyzing intervenors' testimony from 34 different witnesses. The Company's rebuttal testimony will be submitted on April 14.

• After the Companies' 2011 ECR plans were approved by the KPSC, the Commission hired an external consultant to monitor and report on the construction progress for the approved projects. LKE filed its final quarterly report to the KPSC in January. The Company received a letter of acknowledgement from the KPSC noting that the approved projects achieved an outstanding safety record and were completed significantly under budget and on schedule. The KPSC also commended our efforts in keeping its consultant and the KPSC informed regarding the progress of the projects as well as the Company's professionalism during the review.

• Two of LKE's Research and Development projects have been honored by the Electric Power Research Institute ("EPRI"). The Company's electric vehicle charging station program was recognized with a "Technology Transfer" award for applying EPRI methods and standards in designing and deploying its charging stations. LKE also received a similar honor for its 10-megawatt universal solar facility at E.W. Brown Generating Station.

• The Trimble County Landfill Project received its permit from the Kentucky Division of Waste Management, the second of three key environmental regulatory approvals needed to begin construction of the landfill. The final permit is still being processed by the Corps of Engineers.

• The court dismissed PPL as a defendant and also dismissed the remaining federal law claim involving alleged operation of the Cane Run facility under an expired air permit. The court had previously dismissed the other federal law claims regarding dust emissions from the Cane Run power plant in 2014. The court has directed the parties to file briefs addressing whether the court should exercise supplemental jurisdiction to hear the state law claims remaining in the case.

### Significant Future Events

•Regarding the Kentucky rate cases, a formal public hearing is scheduled to begin on May 2.

## Income Statement: Actual vs. Budget (Month) - LKE Consolidated

**Financial Strength Factor (40% Weighting) -- Low Business Risk Grid:**

| Moody's Thresholds | Sub-Factor Weighting | A | Baa | Ba |
|---|---|---|---|---|
| CFO pre-WC / Debt | 15.0% | 19% - 27% | 11% - 19% | 5% - 11% |
| CFO pre-WC + Interest / Interest | 7.5% | 4.5x - 6x | 3x - 4.5x | 2x - 3x |
| CFO pre-WC - Dividends / Debt | 10.0% | 15% - 23% | 7% - 15% | 0% - 7% |
| Debt / Capitalization | 7.5% | 40% - 50% | 50% - 59% | 59% - 67% |

| As of December 31, 2016 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.
Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.
Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — February 2017

**($ Millions)**

| | 2/28/2017 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |

### Variance Explanations

• Lower current month margins primarily due to lower sales volumes from warmer than average weather resulting in lower retail electric base energy of $4 million.

• Lower margins YTD primarily due to lower sales volumes from warmer than average weather resulting in lower retail electric base energy and demand revenue of $34 million.

• Higher current month O&M due to the timing of maintenance and outage expenses of $2 million, employee benefits and burden costs of $2m and higher allocated and indirect costs for the month of $4 million.

### Major Developments

• On April 19th, LKE filed an agreement signed by virtually all parties in the rate case proceeding, except AT&T and the Kentucky Cable Television Association (who had raised issues in the case related to pole attachments), which addressed substantially all issues in the case. This agreement is not expected to impact PPL's earnings projections. It provides for a 9.75 percent return on equity using the utilities' filed capital structure. Other adjustments from the utilities' filed position on the required revenue increase relate to the timing of cost recovery, such as depreciation rates. Under the terms of the agreement, the Companies agreed to withdraw their current request for a certificate of public convenience and necessity on its proposed full deployment of advanced meter systems and instead will establish a collaborative with interested parties in this proceeding to address their issues with LKE's proposal. The agreement does provide for approval of the utilities' distribution automation project and recovery of its proposed transmission modernization and steel service line replacement programs through LG&E's gas line tracker mechanism. The public hearing is scheduled to begin May 9th.

• During the 2017 Kentucky General Assembly, the Senate confirmed Governor Bevin's appointments of Michael J. Schmitt and Robert J. Cicero, as Chairman and Vice Chair, to the KPSC.

• For both Louisville and Lexington, March 2017 ranked as the seventh warmest March in the last 30 years. This follows the warmest February on record for these cities. The first quarter 2017 also ranked as the warmest first quarter in Lexington over the previous 30 years, and the second warmest in Louisville during the same period.

• KU has completed the Ghent refined coal transaction with Goldman Sachs. It replaces a one year operation agreement with Tinuum and allows KU to sell its coal to Goldman Sachs and repurchase it after the coal is treated. KU will also provide a site license and coal yard services. The transaction will save customers $9.8 million annually and over $43 million for the entire project.

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms.

(3) Includes Management O&M, Variable Cost of Production and Mechanism operation and maintenance expenses

(4) The possible violation issues for YTD Actual is believed to be minimal risk.

(5) Excludes goodwill and other purchase accounting adjustments.

### Significant Future Events

• An Order from the KPSC in the rate case proceeding is expected on or around June 30, 2017, with new rates going into effect on July 1st of this year.

Note: Schedules may not sum due to rounding.

## Income Statement: Actual vs. Budget (Month) - LKE Consolidated — March 2017

(2) For LG&E and KU this excludes purchase accounting adjustments and corresponding goodwill.

**Financial Strength Factor (40% Weighting) -- Standard Business Risk Grid:**

| Moody's Thresholds | Sub-Factor Weighting | A | Baa | Ba |
|---|---|---|---|---|
| CFO pre-WC / Debt | 15.0% | 22% - 30% | 13% - 22% | 5% - 13% |
| CFO pre-WC + Interest / Interest | 7.5% | 4.5x - 6x | 3x - 4.5x | 2x - 3x |
| CFO pre-WC - Dividends / Debt | 10.0% | 17% - 25% | 9% - 17% | 0% - 9% |
| Debt / Capitalization | 7.5% | 35% - 45% | 45% - 55% | 55% - 65% |

| As of December 31, 2016 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

| **Financial Metrics** | Actual | Forecast | Budget |
| ROE[5] | 9.8% | 9.8% | 9.8% |

### Variance Explanations

Lower YTD margins primarily due to lower sales volumes from warmer than average weather resulting in lower retail electric base energy and demand revenue of $35 million.

Lower MTD O&M due to the timing of maintenance and outage expenses of $4m.

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms.

(3) Includes Management O&M, Variable Cost of Production and Mechanism operation and maintenance expenses

(4) The possible violation issues for YTD Actual is believed to be minimal risk.

(5) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

A second Stipulation and Recommendation was filed with the KPSC in the 2016 rate case resulting in the resolution of all issues with all parties in the case. LG&E and KU are preparing for the hearing in the case which will begin May 9th. An Order from the KPSC is still expected on or around June 30, 2017, with new rates going into effect on July 1st of this year.

The Company continues its outstanding safety performance with a number of recent milestones and awards:
• Cane Run and Paddy's Run employees are celebrating more than one year without a recordable injury and received the Governor's Safety and Health Award in May.
• The Central Service Shop team, a combination of LG&E and PIC (a generation-services contractor) employees who maintain and repair plant equipment and parts at Riverport, recently completed more than 16 years without a lost-time incident and 175,000 hours without a recordable incident.
• Ohio Falls employees completed more than two years without a recordable injury and 10,000 hours without a lost-time incident.
• E.W. Brown employees celebrated a year in March without a recordable injury.
• LG&E was recognized by the American Gas Association with a Safety Achievement Award by experiencing the lowest incident rate for the number of days away from work, restricted or transferred (DART) among companies of its size and type.

LG&E and KU, along with IBEW Local 2100 and the LG&E and KU Foundation, were recognized for their fundraising efforts during Metro United Way's 2016 campaign. The Company continued its trend of raising over $1 million for the campaign.

### Significant Future Events

## Income Statement: Actual vs. Budget (YTD) - LG&E

April 2017

($ Millions)

| | YTD | | | |
|---|---|---|---|---|
| | Actual | Budget | Variance | Comments |
| **Revenues:** | | | | |
| Electric Revenues | $ 352 | $ 359 | $ (7) | Due primarily to lower sales volumes driven by mild weather in Q1. |
| Gas Revenues | 141 | 168 | (27) | Due primarily to lower sales volumes driven by mild weather in Q1. |
| **Total Revenues** | 494 | 527 | (34) | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 102 | 101 | (2) | |
| Gas Supply Expenses | 60 | 84 | 24 | Due primarily to lower gas usage as a result of mild weather. |
| Purchased Power | 15 | 17 | 2 | |
| Other Electric Cost of Production | 4 | 5 | 1 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 8 | 8 | (0) | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 13 | 13 | 1 | |
| **Total Cost of Sales** | 203 | 229 | 26 | |
| **Gross Margin:** | | | | |
| Electric Margin | 214 | 220 | (6) | See explanations above. |
| Gas Margin | 77 | 79 | (2) | |
| **Total Gross Margin** | 291 | 299 | (8) | |
| **Operating Expenses:** | | | | |
| O&M | 106 | 109 | 2 | |
| Depreciation & Amortization | 48 | 49 | 1 | |
| Taxes, Other than Income | 9 | 10 | 1 | |
| **Total Operating Expenses** | 164 | 167 | 4 | |
| Other income (expense) | (2) | (2) | (0) | |
| EBIT | 125 | 130 | (5) | |
| Interest Expense | 23 | 23 | 0 | |
| **Income from Ongoing Operations before income taxes** | 102 | 107 | (5) | |
| Income Tax Expense | 39 | 41 | 2 | |
| **Net Income (loss) from ongoing operations** | **$ 63** | **$ 66** | **$ (3)** | |

Note: Schedules may not sum due to rounding.

## Income Statement: Actual vs. Budget (YTD) - KU

**April 2017**

**($ Millions)**

| | YTD | | | |
|---|---|---|---|---|
| | **Actual** | **Budget** | **Variance** | **Comments** |
| **Revenues:** | | | | |
| Electric Revenues | $ 564 | $ 613 | $ (49) | Due primarily to lower sales volumes driven by mild weather in Q1. |
| Gas Revenues | 0 | 0 | 0 | |
| **Total Revenues** | 564 | 613 | (49) | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 146 | 167 | 21 | Primarily due to decreased generation as a result of mild weather. |
| Gas Supply Expenses | 0 | 0 | 0 | |
| Purchased Power | 23 | 23 | 0 | |
| Other Electric Cost of Production | 7 | 9 | 2 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 14 | 13 | (1) | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 10 | 11 | 0 | |
| **Total Cost of Sales** | 201 | 223 | 22 | |
| **Gross Margin:** | | | | |
| Electric Margin | 363 | 391 | (27) | See explanations above. |
| Gas Margin | 0 | 0 | 0 | |
| **Total Gross Margin** | 363 | 391 | (27) | |
| **Operating Expenses:** | | | | |
| O&M | 122 | 127 | 5 | Lower O&M primarily due to timing of plant maintenance, lower storm restoration and vegetation management. |
| Depreciation & Amortization | 71 | 71 | 1 | |
| Taxes, Other than Income | 10 | 10 | 0 | |
| **Total Operating Expenses** | 202 | 209 | 6 | |
| Other income (expense) | (2) | (2) | 0 | |
| EBIT | 160 | 180 | (21) | |

(1) Short-term Debt YTD actual reflects average daily balances. All other average balances use the average of the beginning and ending balances.

(2) Total expense line includes additional revolving credit items. Total will not match sum of PCB, FMB, and STD.

| Credit Facilities ($ Millions) | Committed Capacity | Borrowed(3) | Letters of Credit Issued | Unused Capacity |
|---|---|---|---|---|
| LKE | $ 300 | $ 113 | | $ 187 |
| LG&E | 500 | 183 | | 317 |
| KU | 598 | 26 | $ 198 | 374 |
| TOTAL | $ 1,398 | $ 322 | $ 198 | $ 878 |

(3) LG&E and KU borrowed amounts represent commercial paper issuances. LKE borrowed amount includes bank revolver and debt with PPL.

(1) Actuals represent a trailing 12 months.

(2) For LG&E and KU this excludes purchase accounting adjustments and corresponding goodwill.

**Financial Strength Factor (40% Weighting) -- Standard Business Risk Grid:**

| Moody's Thresholds | Sub-Factor Weighting | A | Baa | Ba |
|---|---|---|---|---|
| CFO pre-WC / Debt | 15.0% | 22% - 30% | 13% - 22% | 5% - 13% |
| CFO pre-WC + Interest / Interest | 7.5% | 4.5x - 6x | 3x - 4.5x | 2x - 3x |
| CFO pre-WC - Dividends / Debt | 10.0% | 17% - 25% | 9% - 17% | 0% - 9% |
| Debt / Capitalization | 7.5% | 35% - 45% | 45% - 55% | 55% - 65% |

| As of December 31, 2016 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| **Issuer** | **Moody's** | **Moody's** | **Moody's** |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated

**April 2017**

**($ Millions)**

| | 4/30/2017 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 16 | $ 106 | $ (90) | Primarily due to LKE other excess cash from dividends in budget not used to pay down CEP Reserves. |

## Variance Explanations

Lower margins YTD primarily due to lower sales volumes from warmer than average weather resulting in lower retail electric base energy and demand revenue and lower gas margins.

Lower O&M MTD primarily driven by lower storm restoration, vegetation management, maintenance and outage expense, and labor due to lower overtime and vacancies.

Lower O&M YTD primarily driven by lower storm restoration, vegetation management, maintenance and outage expense, and labor due to lower overtime and vacancies, partially offset by higher allocated and indirect costs.

## Major Developments

The formal hearing in the rate case proceeding was held on May 9 and 10 and was followed by the filing of responses to post-hearing data requests and briefs from LKE and certain intervenors. These milestones were consistent with the procedural schedule and completed the record in the case. An Order from the KPSC is still expected on or around June 30, 2017, with new rates going into effect on July 1st of this year.

The Company was honored recently for its workplace and wellness initiatives. LKE received the United States Defense Department's highest state-level award, the Employer Support of the Guard and Reserve Award, for providing support to employees serving in the Kentucky National Guard and Reserve. LKE was also recognized by the Worksite Wellness Council of Louisville for the second consecutive year as a Platinum Award Winner for its wellness programs, and was awarded the Health Champion Designation Award by the American Diabetes Association.

(1) Full year forecast amount shown represents target.

(2) Includes net impact of proposed settlement stipulation adjustments of deferred AMS Capital and O&M expense, lower depreciation expense and the offsetting revenue reduction included in margins.

(3) Net of cost recovery mechanisms and variable costs of production.

(4) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(5) The possible violation issues for YTD Actual is believed to be minimal risk.

(6) Excludes goodwill and other purchase accounting adjustments.

## Significant Future Events

There are no significant future events to report at this time.

Note: Schedules may not sum due to rounding.

(1) Short-term Debt YTD actual reflects average daily balances. All other average balances use the average of the beginning and ending balances.
(2) Total expense line includes additional revolving credit items. Total will not match sum of PCB, FMB, and STD.

| Credit Facilities ($ Millions) | Committed Capacity | Borrowed[(3)] | Letters of Credit Issued | Unused Capacity |
|---|---|---|---|---|
| LKE | $ 300 | $ 114 | | $ 186 |
| LG&E | 500 | 190 | | 310 |
| KU | 598 | 38 | $ 198 | 362 |
| TOTAL | $ 1,398 | $ 342 | $ 198 | $ 858 |

(3) LG&E and KU borrowed amounts represent commercial paper issuances. LKE borrowed amount includes bank revolver and debt with PPL.

| As of December 31, 2016 Issuer | Senior Unsecured Moody's | Senior Secured Moody's | Commercial Paper Moody's |
|---|---|---|---|
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.
Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.
Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated

**May 2017**

## Variance Explanations

Lower margins MTD primarily due to lower sales volumes resulting in lower retail electric base energy and demand revenue of $5 million and lower retail rate mechanism revenue of $2 million.

Lower margins YTD primarily due to lower sales volumes resulting in lower retail electric base energy and demand revenue of $39 million, lower retail rate mechanism revenue of $5 million and lower gas margins of $2 million partially offset by $2 million of other margin components.

Lower O&M MTD primarily due to lower labor and burdens of $4 million, lower maintenance and materials of $3 million, lower storm and vegetation management expenses of $2 million and other smaller variances combined $3 million.

Lower O&M YTD primarily due to lower maintenance and outage expenses of $5 million, lower storm and vegetation management expenses of $4 million, lower labor and burdens of $3 million and lower uncollectible expense of $1 million and other smaller variances combined $5 million.

## Major Developments

The Company continues to build on its outstanding customer satisfaction performance as it recently won another J.D. Power award. KU ranked first (with a score of 761) and LG&E second (with a score of 743) among the mid-sized utilities in the Midwest region of the 2017 Electric Utility Residential Customer Satisfaction study. LKE also won four awards last year and has earned a total of 20 awards for overall customer satisfaction. These results reflect employee's continued focus on the customer experience.

The KPSC issued orders in the rate case proceeding on June 22nd approving, with certain modifications, the proposed stipulations filed in April and May. On June 29th, the KPSC issued additional orders correcting certain revenue requirement and rate calculations and making other technical corrections. These orders modified the stipulations and reflect a $57 million electric base rate increase for LG&E, a $52 million electric base rate increase for KU, and a $7 million gas base rate increase for LG&E, based on an authorized return on equity of 9.7 percent. Consistent with the stipulations, the orders also approved LKE's request for implementing a Distribution Automation program and its withdrawal of a request for a Certificate of Public Convenience and Necessity for the Advanced Metering System program. The new rates and all elements of the orders became effective July 1, 2017. The KPSC also adjusted the return on equity for our ECR mechanism to be consistent with the rate case order.

Governor Matt Bevin has appointed Talina Rose Mathews, the current executive director of the KPSC, to serve as a Commissioner. Talina replaces former Commissioner Daniel Logsdon, who resigned in June, just prior to the end of his term, to pursue other interests. She assumed the position immediately and will serve a four-year term. An economist by background, Talina brings a wealth of experience in the utility sector and state government. The appointment is subject to confirmation by the Senate.

LG&E long-term gas main replacement project is nearing completion as LG&E completed the installation of plastic pipe in the final section of its system. This initiative began in 1996 when the Company established a program to replace 540 miles of aging cast iron, wrought iron and bare steel natural gas pipelines, for replacement, primarily with more durable plastic natural gas pipelines. This upgrade program enabled LKE to enhance the safety of our system for customers well in advance of its peers, and allowed for additional infrastructure upgrades.

A very significant milestone was achieved recently as the Trimble County Landfill Project received its permit from the Corps of Engineers, representing the final regulatory approval needed to begin construction of the landfill. The approval marked the completion of a nine year process which overcame many external challenges. LKE is currently evaluating construction bids and expects to award the contract in the next few months.

LKE earned 15 communications awards in various categories during the recent Utility Communicators International conference. The 2017 Better Communications Competition receives entries from utilities of all sizes across the U.S. and Canada. The conference is expected to be held in Louisville next year.

As expected, the Kentucky Waterways Alliance and the Sierra Club recently filed a citizen suit complaint against KU alleging discharges at the E.W. Brown plant in violation of the Clean Water Act and Resource Conservation and Recovery Act. This action follows prior notices of intent to file a citizen suit submitted in October and November 2015 and October 2016. We will continue to defend the lawsuit and attempt to work toward a satisfactory solution.

(1) Full year forecast amount shown represents target.

(2) Includes net impact of proposed settlement stipulation adjustments of deferred AMS Capital and O&M expense, lower depreciation expense and the offsetting revenue reduction included in margins.

(3) Net of cost recovery mechanisms and variable costs of production.

(4) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(5) The possible violation issues for YTD Actual is believed to be minimal risk.

(6) Excludes goodwill and other purchase accounting adjustments.

## Significant Future Events

There are no significant future events to report at this time.

Note: Schedules may not sum due to rounding.

## Income Statement: Forecast vs. Budget - LKE Consolidated — June 2017

($ Millions)

| | Full Year | | | |
|---|---|---|---|---|
| | Q2 Forecast | Budget | Variance | Comments |
| **Revenues:** | | | | |
| Electric Revenues | $ 2,883 | $ 3,017 | $ (134) | Due primarily to lower sales volumes driven by mild weather in Q1, a reduction in the electric load forecast for the remainder of 2017, and lower than budgeted KPSC rates effective July 1, 2017. |
| Gas Revenues | 298 | 329 | (31) | Due primarily to lower sales volumes driven by mild weather in Q1 and lower than budgeted KPSC rates effective July 1, 2017. |
| **Total Revenues** | 3,181 | 3,346 | (165) | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 787 | 813 | 26 | Primarily due to decreased generation as a result of mild weather. |
| Gas Supply Expenses | 110 | 135 | 26 | Due primarily to lower gas usage as a result of mild weather. |
| Purchased Power | 59 | 60 | 1 | |
| Other Electric Cost of Production | 38 | 41 | 3 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 75 | 74 | (1) | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 71 | 93 | 22 | Primarily due to lower depreciation rates. |
| **Total Cost of Sales** | 1,139 | 1,216 | 77 | |
| **Gross Margin:** | | | | |
| Electric Margin | 1,865 | 1,948 | (83) | See explanations above. |
| Gas Margin | 178 | 183 | (4) | See explanations above. |
| **Total Gross Margin** | 2,043 | 2,130 | (87) | |
| **Operating Expenses:** | | | | |
| O&M | 719 | 749 | 30 | Lower O&M primarily due to cost savings across all business units for the year partially offset by increased indirect charges from PPL. |
| Depreciation & Amortization | 378 | 395 | 18 | Primarily due to lower depreciation rates. |
| Taxes, Other than Income | 60 | 61 | 1 | |
| **Total Operating Expenses** | 1,157 | 1,205 | 48 | |
| Other income (expense) | (9) | (8) | (1) | |
| EBIT | 877 | 917 | (40) | |
| Interest Expense | 217 | 217 | 0 | |
| **Income from Ongoing Operations before income taxes** | 660 | 700 | (40) | |
| Income Tax Expense | 251 | 267 | 16 | |
| **Net Income (loss) from ongoing operations** | **409** | **433** | **$ (24)** | |
| Special Item - EEI | (1) | 0 | (1) | |
| Discontinued Operations | 1 | (0) | 1 | |
| **Net Income (loss)** | $ 410 | $ 433 | $ (24) | |
| KY Regulated Financing Costs | (30) | (30) | (0) | |
| **KY Regulated Net Income** | $ 379 | $ 403 | $ (24) | |
| Earnings Per Share - Ongoing | $ 0.55 | $ 0.58 | $ (0.03) | |

Note: Schedules may not sum due to rounding.

| Debt / Capitalization | 7.5% | 35% - 45% | 45% - 55% | 55% - 65% |

| As of December 31, 2016 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — June 2017

($ Millions)

| | 6/30/2017 | YTD Budget | Variance | Comments |

| Average Utility Capitalization ($ millions) | $8,911 | $9,030 | $9,174 |

### Variance Explanations

Lower MTD ECR margins of $1 million due to lower rate base and cost of capital along with rate case outcome relative to filed position including $4 million of lower revenues offset by lower depreciation and O&M.

Lower YTD margins primarily due to lower sales volumes resulting in lower retail electric base energy and demand revenue of $40 million, lower retail rate mechanism revenue of $6 million, lower gas margins of $3 million and rate case outcome relative to filed position.

Lower MTD O&M primarily due to lower labor and burdens of $2 million, lower maintenance and materials of $2 million and the rate case outcome relative to filed position.

Lower YTD O&M primarily due to lower outside service expense of $8 million, lower storm and vegetation management expenses of $5 million, lower plant maintenance of $4 million, lower labor and burdens of $4 million and the rate case outcome relative to filed position.

(1) Full year forecast amount shown represents target.

(2) Includes net impact of approved rate case outcome for deferred AMS Capital and O&M expenses, lower depreciation expense and the offsetting revenue reduction included in margins.

(3) Net of cost recovery mechanisms and variable costs of production.

(4) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(5) The possible violation issues for YTD Actual is believed to be minimal risk.

(6) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

In the recent EEI 2016 Reliability Benchmarking Survey, LKE's Electric Distribution Operations achieved a top quartile performance for System Average Interruption Duration Index (SAIDI) and Customer Average Interruption Duration Index (CAIDI) metrics, and a second quartile ranking for System Average Interruption Frequency Index (SAIFI). LKE's SAIDI represented its lowest figure over the last ten years, and CAIDI was its lowest metric since 2010. Through July of this year, LKE's SAIDI, CAIDI and SAIFI reliability metrics are favorable compared to 2016.

LKE was recognized during the Kentucky Gas Association and Southern Gas Association ("SGA") annual conferences. Gas Operations was honored with the Kentucky Gas Association Accident Prevention Award for Excellence in Safety for having a zero DART rate, which represented the lowest rate among peer companies and groups. This achievement marks the 18th consecutive year LKE has captured the award. The Company's 2016 Summer Stretch video, "Dig Safety: Dig Safely," also won the SGA Safety Excellence Video Award.

The contract between KU and the USW was ratified after weeks of negotiations. The new contract period extends from August 1, 2017 through August 1, 2020. A one-year wage re-opener between KU and the IBEW was also negotiated and ratified. Among other things, the USW contract calls for annual wage increases of 3%, 2% and 2%. The IBEW wage increase was set at 3%. These increases are consistent with the assumptions included in our recent rate case award.

Old Dominion Power Company (KU's operational unit in Virginia) filed a notice of intent with the Virginia State Corporation Commission to increase its rates. The amount of the request is not included in the notice of intent but we expect to seek an additional $6 million in annual revenues (about a 9% increase).

### Significant Future Events

Old Dominion Power Company (KU's operational unit in Virginia) plans to file for its rate increase on September 29, 2017, with rates expected to become effective July 1, 2018, pending approval from the Commission.

## Income Statement: Actual vs. Budget (YTD) - LKE Consolidated — July 2017

($ Millions)

| | YTD | | | |
|---|---|---|---|---|
| | Actual | Budget | Variance | Comments |
| **Revenues:** | | | | |
| Electric Revenues | $ 1,641 | $ 1,725 | $ (84) | Due primarily to lower sales volumes as a result of mild weather and lower than budgeted rate case revenues. |
| Gas Revenues | 186 | 213 | (27) | Due primarily to lower sales volumes driven by mild weather in Q1. |
| **Total Revenues** | 1,827 | 1,937 | (111) | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 450 | 479 | 29 | Primarily due to decreased generation as a result of mild weather. |
| Gas Supply Expenses | 73 | 96 | 23 | Due primarily to lower gas usage as a result of mild weather. |
| Purchased Power | 33 | 35 | 2 | |
| Other Electric Cost of Production | 21 | 24 | 3 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 42 | 41 | (1) | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 41 | 46 | 5 | Primarily due to lower depreciation rates. |
| **Total Cost of Sales** | 660 | 721 | 61 | |
| **Gross Margin:** | | | | |
| Electric Margin | 1,061 | 1,108 | (47) | See explanations above. |
| Gas Margin | 106 | 109 | (3) | |
| **Total Gross Margin** | 1,167 | 1,216 | (49) | |
| **Operating Expenses:** | | | | |
| O&M | 401 | 425 | 24 | Primarily due to lower outside service expense, lower maintenance, lower storm and vegetation management expenses, lower labor and burdens, lower uncollectible expense and other smaller variances. |
| Depreciation & Amortization | 211 | 216 | 5 | Primarily due to lower actual capital spend and closings and the impact of the settled versus as filed depreciation rates. |
| Taxes, Other than Income | 34 | 35 | 1 | |

## Income Statement: Actual vs. Budget (YTD) - LG&E — July 2017

**($ Millions)**

| | YTD | | | |
|---|---|---|---|---|
| | Actual | Budget | Variance | Comments |
| **Revenues:** | | | | |
| Electric Revenues | $ 662 | $ 683 | $ (20) | Due primarily to lower sales volumes as a result of mild weather and lower than budgeted rate case revenues. |
| Gas Revenues | 186 | 213 | (27) | Due primarily to lower sales volumes driven by mild weather in Q1. |
| **Total Revenues** | 848 | 895 | (47) | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 181 | 181 | 0 | |
| Gas Supply Expenses | 73 | 96 | 23 | Due primarily to lower gas usage as a result of mild weather. |
| Purchased Power | 28 | 33 | 5 | Lower intercompany and market purchases driven by mild weather. |
| Other Electric Cost of Production | 7 | 9 | 1 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 16 | 16 | 0 | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 22 | 24 | 3 | |
| **Total Cost of Sales** | 328 | 360 | 32 | |
| **Gross Margin:** | | | | |
| Electric Margin | 415 | 427 | (12) | See explanations above. |
| Gas Margin | 106 | 109 | (3) | |
| **Total Gross Margin** | 520 | 535 | (15) | |
| **Operating Expenses:** | | | | |
| O&M | 177 | 191 | 13 | Primarily due to lower outside service expense, lower maintenance, lower storm and vegetation management expenses, lower labor and burdens, lower uncollectible expense, and other smaller variances. |
| Depreciation & Amortization | 85 | 87 | 2 | |
| Taxes, Other than Income | 17 | 18 | 1 | |
| Other income (expense) | (3) | (2) | (0) | |
| EBIT | 238 | 237 | 1 | |
| Interest Expense | 40 | 40 | 0 | |
| **Income from Ongoing Operations before income taxes** | 198 | 197 | 1 | |
| Income Tax Expense | 76 | 75 | (0) | |
| **Net Income (loss) from ongoing operations** | **$ 122** | **$ 121** | **$ 0** | |

Note: Schedules may not sum due to rounding.

(1) Actuals represent a trailing 12 months.
(2) For LG&E and KU this excludes purchase accounting adjustments and corresponding goodwill.

**Financial Strength Factor (40% Weighting) -- Standard Business Risk Grid:**

| Moody's Thresholds | Sub-Factor Weighting | A | Baa | Ba |
|---|---|---|---|---|
| CFO pre-WC / Debt | 15.0% | 22% - 30% | 13% - 22% | 5% - 13% |
| CFO pre-WC + Interest / Interest | 7.5% | 4.5x - 6x | 3x - 4.5x | 2x - 3x |
| CFO pre-WC - Dividends / Debt | 10.0% | 17% - 25% | 9% - 17% | 0% - 9% |
| Debt / Capitalization | 7.5% | 35% - 45% | 45% - 55% | 55% - 65% |

| As of December 31, 2016 Issuer | Senior Unsecured Moody's | Senior Secured Moody's | Commercial Paper Moody's |
|---|---|---|---|
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — July 2017

**($ Millions)**

| | 7/31/2017 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 31 | $ 17 | $ 15 | Primarily related to reclass between Accounts Payable and funding accounts. |
| Accounts Receivable (Trade) | 416 | 425 | (9) | |
| Inventory | 257 | 239 | 18 | |
| Deferred Income Taxes | 0 | 0 | 0 | |
| Regulatory Assets Current | 19 | 20 | (1) | |
| Prepayments and other current assets | 86 | 41 | 44 | Primarily due to accounts receivable related to refined coal. |
| **Total Current Assets** | 809 | 742 | 67 | |
| Property, Plant, and Equipment | 11,688 | 11,887 | (199) | |
| Intangible Assets | 90 | 92 | (2) | |
| Other Property and Investments | 1 | 1 | 0 | |
| Regulatory Assets Non Current | 831 | 919 | (88) | Primarily due to MTM adjustment of Swaps, a pension funded status adjustment due to change in discount rate decrease in ARO balance. |
| Goodwill | 997 | 997 | 0 | |
| Other Long-term Assets | 78 | 81 | (2) | |
| **Total Assets** | **$ 14,494** | **$ 14,718** | **$ (224)** | |
| Liabilities and Equity: | | | | |
| Current Liabilities: | | | | |
| Accounts Payable (Trade) | $ 268 | $ 219 | $ 49 | Primarily due to timing of actuals. |

| Average Utility Capitalization ($ millions) | $8,913 | $9,012 | $9,174 |

### Variance Explanations

Lower MTD margins primarily due to lower sales volumes from unseasonably mild weather, resulting in lower retail electric base energy and demand revenue of $12 million, and other margin components.

Lower YTD margins primarily due to lower sales volumes from unfavorable weather, resulting in lower retail electric base energy and demand revenue of $51 million, lower ECR revenue of $7 million, lower gas margins of $3 million and other offsetting margin components.

Lower MTD O&M primarily due to lower labor and burdens of $4 million and lower outside service expense of $3 million.

Lower YTD O&M primarily due to lower outside service expense of $9 million, lower labor and burdens of $8 million, lower storm and vegetation management expenses of $6 million, lower plant maintenance of $3 million and lower materials of $4 million.

(1) Full year forecast amount shown represents target.

(2) Includes net impact of approved rate case outcome for deferred AMS Capital and O&M expenses, lower depreciation expense and the offsetting revenue reduction included in margins.

(3) Net of cost recovery mechanisms and variable costs of production.

(4) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(5) The possible violation issues for YTD Actual is believed to be minimal risk.

(6) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

LKE's service territory continues to be adversely impacted by unseasonably mild weather in the region. The first eight months of 2017 have been the worst for temperature-driven load in the 20-year history used for weather normalization purposes. The probability of the cumulative degree day count experienced for this eight month period is .41%. Four of the eight months were more than one standard deviation on the negative side of expected temperatures with three of those months being January, February and August, historically our highest sales months.

LKE completed the traditionally hazardous "Summer Stretch" (June 1 – August 31) with only five recordable injuries excluding hearing-loss cases. This ties the lowest number of incidents during a Summer Stretch since LKE began its strategic focus on summer safety. There were also no employee injuries during the month of August.

The Business First newspaper announced that the Company has earned a "Partners in Philanthropy Award" for being an outstanding corporate citizen. LKE moved up one spot to a fourth-place ranking in the large-company category. LKE has been ranked among the top 5 business philanthropists in the region each year since it began competing for the designation in 2012. The Company also received an "Innovative Partnership Award" for our efforts to transform a run-down urban lot into a greenspace which the community can enjoy.

LKE once again has been named as one of the top 10 utilities in economic development by Site Selection magazine. This marks the eighth year the Company has received this honor since 2000.

As part of the Company's participation in mutual assistance organizations, LKE has released support personnel to various states to assist with hurricane restoration efforts. More than 50 of LKE's contractors were dispatched to Texas supporting American Electric Power's Hurricane Harvey restoration efforts. These resources have been redeployed to Florida to be a part of the over 400 LKE employee and contractor support personnel which are assisting Duke Energy Florida and Florida Power & Light with Hurricane Irma.

### Significant Future Events

Old Dominion Power Company (KU's operational unit in Virginia) plans to file for its rate increase on September 29, 2017, with rates expected to become effective July 1, 2018, pending approval from the Virginia State Corporation Commission.

| As of December 31, 2016 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — August 2017

**($ Millions)**

| | 8/31/2017 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 15 | $ 18 | $ (3) | |
| Accounts Receivable (Trade) | 403 | 429 | (27) | |
| Inventory | 264 | 240 | 24 | Lower fuel burn due to unfavorable weather has resulted in higher than budgeted coal inventory levels. |
| Regulatory Assets Current | 19 | 22 | (3) | |
| Prepayments and other current assets | 82 | 39 | 43 | Primarily due to higher accounts receivable related to refined coal, dividends receivable and other accounts receivable offset by accounts receivable from affiliates. |
| **Total Current Assets** | 782 | 748 | 34 | |
| Property, Plant, and Equipment | 11,740 | 11,930 | (189) | |
| Intangible Assets | 89 | 91 | (2) | |

| Average Utility Capitalization ($ millions) | $8,927 | $8,992 | $9,174 |

### Variance Explanations

Lower margins MTD primarily due to lower net retail electric base energy and demand revenue, lower ECR revenue and other margin components.

Lower margins YTD primarily due to lower sales volumes from unfavorable weather, resulting in lower retail electric base energy and demand revenue of $53 million, lower ECR revenue of $8 million and lower gas margins of $3 million and other offsetting margin components.

Lower O&M YTD primarily due to lower outside service expense of $10 million, lower labor and burdens of $11 million, lower storm and vegetation management expenses of $7 million, lower plant maintenance of $4 million and lower materials of $4 million.

### Major Developments

LKE once again has been recognized among the best in the nation as it has been named one of the top Healthiest 100 Workplaces in the U.S. The winners were honored at the Fitbit Captivate Conference in Chicago for their commitment to employee health and exceptional corporate wellness programs. Thousands of companies competed for the award on a local level, with more than 400 advancing as national finalists. LKE was also honored earlier this year with the Worksite Wellness Council of Louisville's Platinum Award and the Health Champion Designation Award from the American Diabetes Association.

Old Dominion Power (KU's operational unit in Virginia) filed a request with the Virginia State Corporation Commission for an increase of $6.7 million (10 percent) in its base rates. If approved, the new rates will become effective July 1, 2018.

### Significant Future Events

There are no significant future events at this time.

(1) Full year forecast amount shown represents target.

(2) Includes net impact of approved rate case outcome for deferred AMS Capital and O&M expenses, lower depreciation expense and the offsetting revenue reduction included in margins.

(3) Net of cost recovery mechanisms and variable costs of production.

(4) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(5) The possible violation issues for YTD Actual is believed to be minimal risk.

Note: Schedules may not sum due to rounding.

(1) Short-term Debt YTD actual reflects average daily balances. All other average balances use the average of the beginning and ending balances.

(2) Total expense line includes additional revolving credit items. Total will not match sum of PCB, FMB, and STD.

| Credit Facilities ($ Millions) | Committed Capacity | Borrowed(3) | Letters of Credit Issued | Unused Capacity |
|---|---|---|---|---|
| LKE | $ 300 | $ 159 | | $ 141 |
| LG&E | 500 | 190 | | 310 |
| KU | 598 | (0) | $ 198 | 400 |
| TOTAL | $ 1,398 | $ 349 | $ 198 | $ 851 |

(3) LG&E and KU borrowed amounts represent commercial paper issuances. LKE borrowed amount includes bank revolver and debt with PPL.

| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.
Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — September 2017

($ Millions)

| | 9/30/2017 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 40 | $ 60 | $ (20) | Primarily due to a decrease in cash at the non-utility companies partially offset by an increase of cash at the Utilities. |
| Accounts Receivable (Trade) | 369 | 396 | (27) | |
| Inventory | 264 | 252 | 12 | |
| Regulatory Assets Current | 20 | 22 | (2) | |
| Prepayments and other current assets | 75 | 38 | 37 | Primarily due to higher accounts receivable related to refined coal, higher other accounts receivable, and higher notes receivable from affiliates; which are partially offset by accounts receivable from affiliates. |
| **Total Current Assets** | 769 | 768 | 1 | |
| Property, Plant, and Equipment | 11,794 | 11,982 | (188) | |
| Intangible Assets | 88 | 90 | (2) | |
| Other Property and Investments | 1 | 1 | 0 | |
| Regulatory Assets Non Current | 796 | 923 | (127) | Primarily due to pension funded status adjustments, decrease in ARO balances and market adjustments for interest rate swaps. |
| Goodwill | 997 | 997 | 0 | |
| Other Long-term Assets | 70 | 80 | (11) | Primarily due to lower collateral on interest rate swaps, lower primary survey and investigation charges, lower life insurance and other deferred debits, partially offset by higher Cane Run 7 LTPC assets. |
| **Total Assets** | **$ 14,515** | **$ 14,842** | **$ (327)** | |
| Liabilities and Equity: | | | | |
| Current Liabilities: | | | | |
| Accounts Payable (Trade) | $ 291 | $ 222 | $ 69 | Primarily due to timing of actuals. |
| Dividends Payable to Affiliated Companies | 0 | 0 | 0 | |
| Customer Deposits | 57 | 55 | 3 | |
| Derivative Liability | 5 | 6 | (1) | |
| Accrued Taxes | 52 | 44 | 8 | |
| Regulatory Liabilities Current | 15 | 19 | (4) | |
| Other Current Liabilities | 293 | 238 | 55 | Primarily due to ARO reclassification from long term to current in actuals versus the budget which assumed a static balance as of September 2017 when the budget was finalized. |
| **Total Current Liabilities** | 713 | 584 | 129 | |
| Debt - Affiliated Company | 559 | 695 | (136) | Used tax settlements and dividends from utilities to pay down CEP reserves. |
| Debt [(1)] | 4,857 | 5,034 | (177) | |
| **Total Debt** | 5,417 | 5,729 | (313) | |
| Deferred Tax Liabilities | 1,909 | 1,874 | 35 | |
| Investment Tax Credit | 130 | 129 | 1 | |
| Accum Provision for Pension & Related Benefits | 345 | 410 | (66) | Decrease primarily from funded status adjustment due to change in discount rate. |
| Asset Retirement Obligation | 261 | 357 | (96) | Primarily due to ARO settlements, lower revaluations, and reclassifications from long term to current. |
| Regulatory Liabilities Non Current | 873 | 852 | 21 | |
| Derivative Liability | 24 | 28 | (4) | |
| Other Liabilities | 178 | 186 | (8) | |
| **Total Deferred Credits and Other Liabilities** | 3,720 | 3,837 | (117) | |
| **Equity** | 4,666 | 4,691 | (25) | |
| **Total Liabilities and Equity** | **$ 14,515** | **$ 14,842** | **$ (327)** | |

[(1)] Includes all ST and LT debt. See Financing Activities page for details.

| Average Utility Capitalization ($ millions) | $8,938 | $8,987 | $9,174 |

### Variance Explanations

Lower MTD margins primarily due to lower net retail electric base energy and demand revenue.

Lower YTD margins primarily due to lower sales volumes from unfavorable weather, resulting in lower retail electric base energy and demand revenue of $53 million, lower ECR revenue of $9 million and lower gas margins of $3 million and other offsetting margin components.

Lower O&M MTD primarily due to lower labor and burdens of $4 million and lower outside service expense of $2 million.

Lower O&M YTD primarily due to lower labor and burdens of $14 million, lower outside service expense of $10 million, lower storm and vegetation management expenses of $7 million, lower plant maintenance of $4 million and lower materials of $5 million.

(1) Full year forecast amount shown represents target.

(2) Includes net impact of approved rate case outcome for deferred AMS Capital and O&M expenses, lower depreciation expense and the offsetting revenue reduction included in margins.

(3) Net of cost recovery mechanisms and variable costs of production.

(4) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(5) The possible violation issues for YTD Actual is believed to be minimal risk.

(6) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

KU announced its intention to retire Brown units 1 and 2 on or about March 1, 2019, coming out of the 2018-2019 winter season and approaching the termination of existing municipal contracts at the end of April 2019. Environmental compliance costs under the coal combustion residuals regulation and plans for the landfill at the site, drove the analysis that led to this conclusion. The retirement of this 272MW of coal-fired generation capacity with a projected future average capacity factor of approximately 20% was the most economic decision for our customers and is consistent with the assumptions in the current version of our 2018 business plan. No replacement capacity is needed given projected reserve margins following the municipal contract termination.

The contract between LG&E and the IBEW was ratified and covers the period from November 11, 2017 through November 10, 2020. The agreement provides for annual wage increases of 3%, 2.5% and 2.5%, among other provisions that give the Company added flexibility.

LKE recently concluded its annual Power of One employee fundraising campaign which benefits United Way agencies across the state as well as Fund for the Arts and Crusade for Children. For the first time in the 13-year history of the campaign, total funds raised exceeded $2 million. The 100th anniversary campaign of Metro United Way and a 68% payroll participation rate drove this memorable result.

LKE has filed responses to the second and third round of data requests regarding the Virginia rate case.

LG&E recently entered into a $200 million two year term loan credit facility with US Bank and made the first of two $100 million draws. The second draw is expected to occur in early 2018. This loan has a variable rate of Libor plus 50 basis points and will be reset every 30 days, with an initial rate of 1.74 percent. The proceeds will be used to pay down LG&E commercial paper balances, providing cost-effective liquidity prior to LG&E's next first mortgage bond issuance.

### Significant Future Events

The Virginia State Corporation Commission will conduct on site audits regarding the Virginia rate case for two separate weeks in November. These visits are consistent with past practice.

## Income Statement: Actual vs. Budget (Month) - LKE Consolidated — October 2017

## Income Statement: Actual vs. Budget (YTD) - LKE Consolidated — October 2017

**($ Millions)**

| | YTD | | | |
|---|---|---|---|---|
| | Actual | Budget | Variance | Comments |
| **Revenues:** | | | | |
| Electric Revenues | $ 2,361 | $ 2,505 | $ (144) | Due primarily to lower sales volumes as a result of unfavorable weather and lower ECR revenues. |
| Gas Revenues | 229 | 255 | (25) | Due primarily to lower sales volumes driven by unfavorable weather in Q1. |
| **Total Revenues** | 2,590 | 2,760 | (169) | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 637 | 679 | 42 | Primarily due to decreased generation as a result of unfavorable weather. |
| Gas Supply Expenses | 83 | 105 | 21 | Due primarily to lower gas usage as a result of unfavorable weather. |
| Purchased Power | 48 | 50 | 2 | |
| Other Electric Cost of Production | 30 | 35 | 5 | Primarily due to decreased generation as a result of unfavorable weather and a reclassification of resale expense to revenues in actuals. |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 61 | 62 | 1 | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 57 | 74 | 16 | Primarily due to lower actual capital spending and in-service dates and the impact of the settled versus as filed depreciation rates which is offset in margins. |
| **Total Cost of Sales** | 916 | 1004 | 88 | |
| **Gross Margin:** | | | | |
| Electric Margin | 1,537 | 1,616 | (79) | See explanations above. |
| Gas Margin | 137 | 140 | (3) | |
| **Total Gross Margin** | 1,675 | 1,756 | (82) | |
| O&M | 579 | 624 | 45 | Primarily due to lower labor and burdens, lower outside service expense, lower storm and vegetation management expenses, lower plant maintenance and lower materials. |
| Depreciation & Amortization | 309 | 323 | 14 | Primarily due to lower actual capital spending and in-service dates and the impact of the settled versus as filed depreciation rates, which is offset in margins. |
| Taxes, Other than Income | 50 | 51 | 1 | |
| Other income (expense) | (6) | (6) | 0 | |
| EBIT | 731 | 753 | (22) | |
| Interest Expense | 179 | 180 | 1 | |
| **Income from Ongoing Operations before income taxes** | 552 | 573 | (21) | |
| Income Tax Expense | 209 | 218 | 10 | |
| **Net Income (loss) from ongoing operations** | **343** | **355** | **(12)** | |
| Special Item - EEI | (1) | 0 | (1) | |
| Discontinued Operations | 1 | 0 | 0 | |
| **Net Income (loss)** | $ 343 | $ 355 | $ (12) | |
| KY Regulated Financing Costs | (25) | (25) | (0) | |
| **KY Regulated Net Income** | 318 | $ 330 | $ (12) | |
| Earnings Per Share - Ongoing | $ 0.46 | $ 0.48 | $ (0.01) | |

Note: Schedules may not sum due to rounding.

## Income Statement: Actual vs. Budget (YTD) - LG&E — October 2017

**($ Millions)**

| | YTD | | | |
|---|---|---|---|---|
| | Actual | Budget | Variance | Comments |
| **Revenues:** | | | | |
| Electric Revenues | $ 959 | $ 1,004 | $ (45) | Due primarily to lower sales volumes as a result of unfavorable weather and lower ECR revenues. |
| Gas Revenues | 229 | 255 | (25) | Due primarily to lower sales volumes driven by unfavorable weather in Q1. |
| **Total Revenues** | 1,188 | 1259 | (71) | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 253 | 255 | 2 | |
| Gas Supply Expenses | 83 | 105 | 21 | Due primarily to lower gas usage as a result of unfavorable weather. |
| Purchased Power | 41 | 48 | 7 | Lower intercompany and market purchases driven by unfavorable weather. |
| Other Electric Cost of Production | 11 | 13 | 2 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 23 | 25 | 2 | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 30 | 37 | 8 | Primarily due to lower actual capital spending and in-service dates and the impact of the settled versus as filed depreciation rates which is offset in margins. |
| **Total Cost of Sales** | 441 | 482 | 42 | |
| **Gross Margin:** | | | | |
| Electric Margin | 610 | 636 | (26) | See explanations above. |
| Gas Margin | 137 | 140 | (3) | |
| **Total Gross Margin** | 747 | 776 | (29) | |
| O&M | 257 | 280 | 23 | Primarily due to lower outside service expense, lower labor and burdens, lower storm and vegetation management expenses, lower plant maintenance and lower materials. |
| Depreciation & Amortization | 125 | 131 | 6 | Primarily due to lower actual capital spending and in-service dates and the impact of the settled versus as filed depreciation rates, which is offset in margins. |
| Taxes, Other than Income | 25 | 26 | 1 | |
| Other income (expense) | (3) | (3) | (0) | |
| EBIT | 338 | 336 | 1 | |
| Interest Expense | 58 | 59 | 1 | |
| **Income from Ongoing Operations before income taxes** | 280 | 278 | 2 | |
| Income Tax Expense | 106 | 106 | (0) | |
| **Net Income (loss) from ongoing operations** | **$ 173** | **$ 171** | **$ 2** | |

Note: Schedules may not sum due to rounding and exclude purchase accounting adjustments and corresponding goodwill.

## Income Statement: Actual vs. Budget (YTD) - KU

**October 2017**

**($ Millions)**

| | YTD | | | |
|---|---|---|---|---|
| | Actual | Budget | Variance | Comments |
| **Revenues:** | | | | |

| As of December 31, 2016 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — October 2017

($ Millions)

| | 10/31/2017 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 13 | $ 60 | $ (47) | Primarily due to a decrease in cash at the non-utility companies. |
| Accounts Receivable (Trade) | 358 | 372 | (14) | |
| Inventory | 266 | 260 | 6 | |
| Regulatory Assets Current | 22 | 25 | (3) | |
| Prepayments and other current assets | 74 | 36 | 38 | Primarily due to higher accounts receivable related to refined coal, higher other accounts receivable, higher prepayments, higher preliminary survey charges and higher clearing accounts; which are offset partially by lower provision for accounts receivable bad debt. |
| **Total Current Assets** | 734 | 754 | (20) | |
| Property, Plant, and Equipment | 11,867 | 12,066 | (199) | |
| Intangible Assets | 88 | 90 | (2) | |
| Other Property and Investments | 1 | 1 | 0 | |
| Regulatory Assets Non Current | 797 | 925 | (128) | Primarily due to pension funded status adjustments, decrease in ARO balances and market adjustments for interest rate swaps. |
| Goodwill | 997 | 997 | 0 | |
| Other Long-term Assets | 60 | 80 | (20) | Primarily due to lower collateral on interest rate swaps, lower primary survey and investigation charges, lower life insurance and other deferred debits and lower Cane Run 7 LTPC assets. |
| **Total Assets** | **$ 14,544** | **$ 14,912** | **$ (369)** | |
| Liabilities and Equity: | | | | |
| Current Liabilities: | | | | |
| Accounts Payable (Trade) | $ 322 | $ 216 | $ 107 | Primarily due to timing of actuals. |
| Dividends Payable to Affiliated Companies | 0 | 0 | 0 | |
| Customer Deposits | 57 | 55 | 3 | |
| Derivative Liability | 4 | 6 | (2) | |
| Accrued Taxes | 70 | 37 | 33 | Primarily due to timing of property tax payments expected to occur during the month in the budget. |
| Regulatory Liabilities Current | 11 | 19 | (8) | |
| Other Current Liabilities | 273 | 230 | 42 | Primarily due to ARO reclassification from long term to current in actuals versus the budget which assumed a static balance as of September 2016 when the budget was finalized. |
| **Total Current Liabilities** | 737 | 563 | 174 | |
| Debt - Affiliated Company | 578 | 705 | (128) | Used tax settlements and dividends from utilities to pay down CEP reserves. |
| Debt (1) | 4,823 | 5,100 | (277) | |
| **Total Debt** | 5,401 | 5,805 | (405) | |
| Deferred Tax Liabilities | 1,909 | 1,874 | 35 | |
| Investment Tax Credit | 130 | 129 | 1 | |
| Accum Provision for Pension & Related Benefits | 347 | 410 | (63) | Decrease primarily from funded status adjustment due to change in discount rate. |
| Asset Retirement Obligation | 260 | 355 | (95) | Primarily due to ARO settlements, lower revaluations and reclassifications from long term to current. |
| Regulatory Liabilities Non Current | 872 | 851 | 21 | |
| Derivative Liability | 23 | 28 | (5) | |
| Other Liabilities | 178 | 186 | (8) | |
| **Total Deferred Credits and Other Liabilities** | 3,719 | 3,833 | (114) | |
| **Equity** | 4,687 | 4,711 | (24) | |
| **Total Liabilities and Equity** | **$ 14,544** | **$ 14,912** | **$ (369)** | |

(1) Includes all ST and LT debt. See Financing Activities page for details.
Note: Schedules may not sum due to rounding.

## Balance Sheet - KU

**October 2017**

**($ Millions)**

| | 10/31/2017 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 9 | $ 5 | $ 4 | |
| Accounts Receivable (Trade) | 202 | 216 | (13) | |
| Inventory | 124 | 128 | (4) | |
| Regulatory Assets Current | 10 | 18 | (8) | |
| Prepayments and other current assets | 102 | 21 | 81 | Primarily due to higher accounts receivable related to refined coal, higher other accounts receivable, higher prepayments, higher notes receivable from LG&E, higher preliminary survey charges and higher clearing accounts; which are partially offset by lower accounts receivable from associated companies. |
| **Total Current Assets** | 447 | 387 | 60 | |
| Property, Plant, and Equipment | 6,668 | 6,778 | (110) | |
| Intangible Assets | 13 | 13 | (0) | |
| Other Property and Investments | 0 | 0 | 0 | |
| Regulatory Assets Non Current | 382 | 434 | (52) | Primarily due to a pension funded status adjustment and decrease in ARO balance due to lower actual accretion and depreciation expense versus budgeted. |
| Goodwill | 0 | 0 | 0 | |
| Other Long-term Assets | 48 | 57 | (9) | |
| **Total Assets** | **$ 7,558** | **$ 7,670** | **$ (112)** | |
| Liabilities and Equity: | | | | |
| Current Liabilities: | | | | |

| Average Utility Capitalization ($ millions) | $8,946 | $8,987 | $9,174 |

### Variance Explanations

Lower margins MTD primarily due to lower net retail electric base energy and demand revenue and lower ECR revenue partially offset by higher gas margins.

Lower margins YTD primarily due to lower sales volumes from unfavorable weather, resulting in lower retail electric base energy and demand revenue of $55 million, lower ECR revenue of $10 million and other offsetting margin components.

'Lower O&M MTD primarily due to lower labor and burdens of $4 million.

Lower O&M YTD primarily due to lower labor and burdens of $19 million, lower outside service expense of $12 million, lower storm and vegetation management expenses of $6 million, lower plant maintenance of $5 million and lower materials of $5 million.

(1) Full year forecast amount shown represents target.

(2) Includes net impact of approved rate case outcome for deferred AMS Capital and O&M expenses, lower depreciation expense and the offsetting revenue reduction included in margins.

(3) Net of cost recovery mechanisms and variable costs of production.

(4) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(5) The possible violation issues for YTD Actual is believed to be minimal risk.

(6) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

LKE announced that the Company will request that the KPSC extend some of its current Demand Side Management programs through December 31, 2025. All of the current programs are set to expire December 31, 2018. Some of the existing programs are no longer cost-effective and will not be renewed as a result of a variety of factors including the abundance of more energy-efficient appliances and devices and lighting in homes and businesses. The request allows the Company to continue offering customers, especially some of our most vulnerable ones, energy efficiency choices and it also provides programs which engage the industrial segment for the first time. DSM expenses are generally a direct pass-through to customer bills. If LG&E and KU's new plan is approved, residential customers' bills would be reduced $20 to $30 annually in 2018, and $35 to $45 in 2019.

Ohio Falls Unit 8 was recently declared in service for operation. This marked the last of the eight units to be rehabilitated with the new runner technology from Voith Hydro that increased each unit's generating capacity from 10 MW to 12.6 MW, thus increasing the total capacity of the Ohio Falls Station from 80 MW to 109 MW. The overall project maintained an outstanding safety record with only two minor recordables over the project. The project scope included not only the increase in generating capacity, but the rewinding of seven of the unit's generators, upgrade of the electrical power and control systems, as well as site restoration scopes.

### Significant Future Events

In January 2018, the Company plans to file a request for a certificate of public necessity and convenience with the KPSC for full scale deployment of advanced metering systems.

(1) Short-term Debt YTD actual reflects average daily balances. All other average balances use the average of the beginning and ending balances.

(2) Total expense line includes additional revolving credit items. Total will not match sum of PCB, FMB, and STD.

| Credit Facilities ($ Millions) | Committed Capacity | Borrowed(3) | Letters of Credit Issued | Unused Capacity | Money Pool Loans |
|---|---|---|---|---|---|
| LKE | $ 300 | $ 179 | | $ 121 | |
| LG&E | 500 | 112 | | 388 | $ 43 |
| KU | 598 | - | $ 198 | 400 | |
| TOTAL | $ 1,398 | $ 291 | $ 198 | $ 909 | $ 43 |

(3) LG&E and KU borrowed amounts represent commercial paper issuances. LKE borrowed amount includes bank revolver and debt with PPL.

**Financial Strength Factor (40% Weighting) -- Standard Business Risk Grid:**

| Moody's Thresholds | Sub-Factor Weighting | A | Baa | Ba |
|---|---|---|---|---|
| CFO pre-WC / Debt | 15.0% | 22% - 30% | 13% - 22% | 5% - 13% |
| CFO pre-WC + Interest / Interest | 7.5% | 4.5x - 6x | 3x - 4.5x | 2x - 3x |
| CFO pre-WC - Dividends / Debt | 10.0% | 17% - 25% | 9% - 17% | 0% - 9% |
| Debt / Capitalization | 7.5% | 35% - 45% | 45% - 55% | 55% - 65% |

| As of December 31, 2016 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — November 2017

**($ Millions)**

| | 11/30/2017 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 12 | $ 60 | $ (48) | Primarily due to a decrease in cash at the non-utility companies. |
| Accounts Receivable (Trade) | 376 | 386 | (10) | |
| Inventory | 272 | 266 | 6 | |
| Regulatory Assets Current | 24 | 26 | (2) | |
| Prepayments and other current assets | 68 | 36 | 31 | Primarily due to higher accounts receivable related to refined coal, higher other accounts receivable and higher preliminary survey charges; which are offset partially by lower provision for accounts receivable bad debt. |
| **Total Current Assets** | 751 | 774 | (22) | |
| Property, Plant, and Equipment | 11,939 | 12,120 | (181) | |
| Intangible Assets | 87 | 89 | (2) | |
| Other Property and Investments | 1 | 1 | 0 | |
| Regulatory Assets Non Current | 797 | 927 | (130) | Primarily due to pension funded status adjustments, decrease in ARO balances and market adjustments for interest rate swaps. |
| Goodwill | 997 | 997 | 0 | |
| Other Long-term Assets | 60 | 80 | (20) | Primarily due to lower collateral on interest rate swaps, lower prepaid insurance, lower primary survey and investigation charges, lower life insurance and other deferred debits and lower Cane Run 7 LTPC assets. |
| **Total Assets** | **$ 14,632** | **$ 14,988** | **$ (355)** | |
| Liabilities and Equity: | | | | |
| Current Liabilities: | | | | |
| Accounts Payable (Trade) | $ 337 | $ 215 | $ 122 | Primarily due to timing of actuals. |
| Dividends Payable to Affiliated Companies | 86 | 0 | 86 | Dividends are considered declared and paid in the same month in the budget. |
| Customer Deposits | 57 | 55 | 3 | |
| Derivative Liability | 4 | 6 | (2) | |
| Accrued Taxes | 74 | 48 | 26 | Primarily due to timing of property tax payments expected to occur in the budget. |
| Regulatory Liabilities Current | 8 | 19 | (12) | Primarily lower due to lower fuel costs in the FAC liability. |
| Other Current Liabilities | 267 | 192 | 75 | Primarily due to ARO reclassification from long term to current in actuals versus the budget which assumed a static balance as of September 2016 when the budget was finalized and checks outstanding in actuals. |
| **Total Current Liabilities** | 833 | 535 | 298 | |
| Debt - Affiliated Company | 579 | 713 | (134) | Used tax settlements and dividends from utilities to pay down CEP reserves. |
| Debt [(1)] | 4,870 | 5,168 | (298) | |
| **Total Debt** | 5,449 | 5,881 | (432) | |
| Deferred Tax Liabilities | 1,909 | 1,874 | 35 | |
| Investment Tax Credit | 129 | 129 | 0 | |
| Accum Provision for Pension & Related Benefits | 349 | 410 | (61) | Decrease primarily from funded status adjustment due to change in discount rate. |
| Asset Retirement Obligation | 261 | 353 | (92) | Primarily due to ARO settlements, lower revaluations and reclassifications from long term to current. |
| Regulatory Liabilities Non Current | 871 | 852 | 19 | |
| Derivative Liability | 22 | 27 | (5) | |
| Other Liabilities | 177 | 187 | (10) | |
| **Total Deferred Credits and Other Liabilities** | 3,719 | 3,832 | (114) | |
| **Equity** | 4,632 | 4,740 | (108) | |
| **Total Liabilities and Equity** | **$ 14,632** | **$ 14,988** | **$ (355)** | |

[(1)] Includes all ST and LT debt. See Financing Activities page for details.
Note: Schedules may not sum due to rounding.

## Balance Sheet - LG&E

**November 2017**

**($ Millions)**

| | 11/30/2017 | YTD Budget | Variance | Comments |

### Variance Explanations

Lower margins YTD primarily due to lower sales volumes from unfavorable weather, resulting in lower retail electric base energy and demand revenue of $55 million, lower ECR revenue of $11 million and other offsetting margin components.

Lower O&M YTD primarily due to lower labor and burdens of $23 million, lower outside service expense of $12 million, lower storm and vegetation management expenses of $6 million, lower plant maintenance of $7 million and lower materials and other expenses of $6 million.

(1) Full year forecast amount shown represents target.

(2) Includes net impact of approved rate case outcome for deferred AMS Capital and O&M expenses, lower depreciation expense and the offsetting revenue reduction included in margins.

(3) Net of cost recovery mechanisms and variable costs of production.

(4) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(5) The possible violation issues for YTD Actual is believed to be minimal risk.

(6) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

There were various filings made at the KPSC related to the effects of the Tax Cuts and Jobs Act on retail rates. In LKE's response, we disclosed the timing of our next rate review and suggested a mechanism to provide the net positive benefits of the Tax Act to customers in the interim only. Negotiations with parties to the case are ongoing.

On December 28, 2017, the U.S. District Court for the Eastern District of Kentucky entered an order granting our motion to dismiss the citizen suit filed by the Sierra Club and Kentucky Waterways Alliance against the EW Brown facility. This was a substantial victory because the case involved claims that, if we lost, could have had significant financial and operational exposure for the Company. The opinion is well reasoned and should provide a solid record in the event of an appeal by the plaintiffs. Any appeal would have to be filed on or before January 29, 2018.

The Company achieved outstanding key performance indicators during 2017. LKE achieved its lowest recordable injury rate in the company's history of 0.97. This figure was considerably lower than the 1.22 EEI top quartile level for the group of comparable utilities and closer to the EEI top-performer rate of 0.91. The Company's other operational metrics such as EFOR, SAIDI, and SAIFI were also well below budget and favorable to industry top quartile benchmarks.

The Utilities continue their strong base of excellent customer service. In the second of four surveys for the J.D. Power Electric Residential Study, KU and LG&E ranked first and second, respectively, among 13 utilities in the Midwest Midsize segment.

The Company installed four diesel generators at Cane Run Station and two diesel generators at Trimble County Station as part of an effort to modernize its black start capabilities. Each site has a building to house the generators, which are roughly each 3MW in size. The units are available and went into service at the end of December.

### Significant Future Events

In January, LG&E and KU filed a Certificate of Public Convenience and Necessity with the KPSC to install 1.3 million advanced meters across its service territories. The total capital investment is projected to be about $320 million. In Kentucky, about 35 percent of all meters are advanced meters and, with LKE's proposal, this figure would grow to about 95 percent.

The Company continues to work on the deployment of 25 vehicles and 30 full time employees to assist in restoration efforts in Puerto Rico. The tentative schedule has employees arriving on the island around January 25.

| **Issuer** | **Moody's** | **Moody's** | **Moody's** |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — December 2017

($ Millions)

| | 12/31/2017 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 30 | $ 14 | $ 16 | Increase primarily due to timing of cash receipts at the utilities. |
| Accounts Receivable (Trade) | 453 | 426 | 26 | |
| Inventory | 254 | 253 | 0 | |
| Regulatory Assets Current | 18 | 22 | (4) | |
| Prepayments and other current assets | 73 | 34 | 40 | Primarily due to higher accounts receivable related to refined coal, higher other accounts receivable, higher prepayments and higher preliminary survey charges; which are offset partially by lower provision for accounts receivable bad debt. |
| **Total Current Assets** | 827 | 750 | 78 | |
| Property, Plant, and Equipment | 12,029 | 12,170 | (141) | |
| Intangible Assets | 86 | 88 | (2) | |
| Other Property and Investments | 1 | 1 | 0 | |
| Regulatory Assets Non Current | 795 | 929 | (134) | Primarily due to a pension funded status adjustment, decrease in ARO balance due to settlements and revaluation and market adjustments for interest rate swaps. |
| Goodwill | 997 | 997 | 0 | |
| Other Long-term Assets | 66 | 80 | (13) | Primarily due to lower collateral on interest rate swaps, lower prepaid insurance, lower primary survey and investigation charges, lower life insurance and other deferred debits and lower Cane Run 7 LTPC assets; partially offset by higher Brown 6 and 7 LTSA assets. |
| **Total Assets** | **$ 14,802** | **$ 15,015** | **$ (213)** | |
| Liabilities and Equity: | | | | |
| Current Liabilities: | | | | |
| Accounts Payable (Trade) | $ 344 | $ 219 | $ 126 | Primarily due to timing of actuals. |
| Dividends Payable to Affiliated Companies | 0 | 0 | 0 | |
| Customer Deposits | 58 | 55 | 3 | |
| Derivative Liability | 4 | 6 | (2) | |
| Accrued Taxes | 66 | (4) | 71 | Primarily due to timing of property tax payments and federal tax settlement expected to occur in the budget. |
| Regulatory Liabilities Current | 9 | 19 | (10) | Primarily due to reclassification of ECR and FAC from Regulatory Assets Current. |
| Other Current Liabilities | 279 | 207 | 72 | Primarily due to ARO reclassification from long term to current in actuals versus the budget which assumed a static balance as of September 2016 when the budget was finalized and other accruals not included in the budget. |
| **Total Current Liabilities** | 761 | 502 | 260 | |
| Debt - Affiliated Company | 625 | 845 | (220) | Used tax settlements and dividends from utilities to pay down CEP reserves. |
| Debt [(1)] | 5,002 | 5,150 | (148) | |
| **Total Debt** | 5,627 | 5,995 | (368) | |
| Deferred Tax Liabilities | 866 | 1,917 | (1,051) | Decrease primarily due to recognition of excess deferred taxes as a result of tax reform. Amounts at Utilities were reclassed to regulatory liabilities. |
| Investment Tax Credit | 129 | 129 | 0 | |
| Accum Provision for Pension & Related Benefits | 365 | 410 | (45) | |
| Asset Retirement Obligation | 271 | 351 | (81) | Primarily due to ARO settlements, lower revaluations and reclassifications from long term to current. |
| Regulatory Liabilities Non Current | 2,036 | 852 | 1,183 | Primarily due to the reclassification from Deferred Tax Liabilities. |
| Derivative Liability | 22 | 27 | (5) | |
| Other Liabilities | 162 | 184 | (22) | Primarily due to a favorable settlement with BREC related to the HMPL lawsuit and lower provision for post retirement benefits. |
| **Total Deferred Credits and Other Liabilities** | 3,850 | 3,870 | (20) | |
| **Equity** | 4,563 | 4,648 | (85) | |
| **Total Liabilities and Equity** | **$ 14,802** | **$ 15,015** | **$ (213)** | |

[(1)] Includes all ST and LT debt. See Financing Activities page for details.
Note: Schedules may not sum due to rounding.

## Balance Sheet - LG&E — December 2017

| Total | -0.45% | | | |

**Variance Explanations**

Higher margins YTD primarily due to higher sales volumes from favorable weather, resulting in higher retail electric base energy revenue of $12 million.

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms and variable costs of production.

(3) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(4) The possible violation issues for YTD Actual is believed to be minimal risk.

(5) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

**Major Developments**

The Tax Act case settlement is progressing as planned and all indications suggest the KPSC is working toward an Order in the case.

KU established a new all-time weekend peak load of 4,560 MW’s on January 6, 2018. LG&E and the Combined Utilities’ system also set new winter weekend peak loads of 1,777 MW’s and 6,337 MW’s, respectively. In addition, all-time weekend total daily energy usage records were set for KU and the Combined Utilities’ system, and a winter weekend record for LG&E.

LKE requested approval from the KPSC to modify the previously granted CPCN for Phase II of the Brown landfill. The request is driven by the announced retirements of Brown Units 1 and 2 which reduces the projected amount of coal combustion residuals (“CCR”) produced at the site. As a result of these changes, Phase III of the landfill will also not be required. Additionally, the Company is required to cap and close any remaining surface area of the existing main pond not covered by the landfill or paved areas. The unit retirements have also resulted in a significant decrease in the projected cost for the CCR Rule Process Water System from the filed $71.7 million to $25.1 million. All of these modifications were assumed in the 2018 Business Plan. Construction on the Phase II landfill is expected to begin in August 2018 with commercial operation before the end of 2019.

The Company submitted, as planned, an application for a Certificate of Public Convenience and Necessity for the Advance Metering System.

Three of LG&E and KU's Research and Development projects have been honored by the Electric Power Research Institute (“EPRI”). The Company's energy storage site at Brown was recognized with a “Technology Transfer” award for applying EPRI methods and standards. LKE also received similar honors for a project that allows the Company to operate selective catalytic reduction (SCR) at lower loads and temperatures, and another one for conducting aquatic life studies designed to assess the impact of cooling water withdraw.

The Company was awarded an EEI Emergency Response Award for outstanding assistance with restoration efforts for Hurricanes Harvey and Irma.

The Archdiocese of Louisville has signed a contract with LKE and will become the Company’s first Business Solar customer pending approval from the KPSC. LKE will own and operate the solar facility which will be a 30 kW roof-mounted array.

House Bill (“HB”) 227 was introduced in the Kentucky Legislative Session and assigned to the House Natural Resources and Energy Committee where it was favorably voted out of committee. The next step is a full House floor vote. According to HB 227, new private solar customers will still be able to offset their energy use with private solar generation but, if the customer generates more energy than needed, the utility will purchase the energy at the same rate as it would pay any other qualified generator from which the utility would purchase energy (i.e. variable cost) versus the currently required all-in retail rate. The proposed legislation “grandfathers” in current net metering customers under their current plan for the next 25 years.

**Significant Future Events**

The Company continues to assist with restoration efforts in Puerto Rico as the crew has worked more than 7,600 hours without any safety incidents. A second team will replace the current crew around February 25th.

| As of December 31, 2017 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| **Issuer** | **Moody's** | **Moody's** | **Moody's** |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

### Variance Explanations

Lower MTD margins primarily due to lower sales volumes from unfavorable weather, resulting in lower retail electric base energy revenue of $12 million.

Lower YTD O&M primarily due to lower storm and bad debt expense and timing of plant maintenance and other costs.

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms and variable costs of production.

(3) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(4) The possible violation issues for YTD Actual is believed to be minimal risk.

(5) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

The month of February brought very warm and wet weather across the service territories. On February 20, Louisville and Lexington recorded all-time February high temperatures of 82 and 81 degrees. Ohio River flooding has been the worst in the Louisville area since 1997 and required both LKE's gas and electric businesses to proactively turn-off certain electric and gas customers.

The KPSC approved LKE's first Business Solar customer contract. The contract is with the Archdiocese of Louisville and LKE will own and operate the solar facility which will be a 30 kW roof-mounted array.

The KPSC approved LG&E and KU's (as well as Duke Energy KY and East Kentucky Power Cooperative's) participation in Regional Equipment Sharing for Transmission Outage Restoration (RESTORE), including the terms of potential asset transfers under the arrangement.

The Company continues to assist with restoration efforts in Puerto Rico. The first crew worked more than 17,000 hours without any recordable safety incidents and only one first aid case. A second team was dispatched and will return around April 6.

### Significant Future Events

The KPSC issued an Order including a revised procedural schedule for the Advanced Metering Systems (AMS) case. The first round of data requests will be received April 2, with responses due April 13. Intervenor testimony will be filed May 18, and the Company's rebuttal testimony will be filed June 15. A formal hearing has not been scheduled, but would be expected early in the third quarter.

## Income Statement: Actual vs. Budget (YTD) - LKE Consolidated — February 2018

**($ Millions)**

| | YTD | | | |
|---|---|---|---|---|
| | **Actual** | **Budget** | **Variance** | **Comments** |
| **Revenues:** | | | | |
| Electric Revenues | $ 513 | $ 494 | $ 20 | Due primarily to higher off-system sales revenue in January related to favorable weather and higher than budgeted YTD fuel recovery. |
| Gas Revenues | 97 | 108 | (11) | Due primarily to lower sales volumes as a result of unfavorable weather in February. |
| **Total Revenues** | 610 | 602 | 8 | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 155 | 138 | (17) | Due primarily to increased fuel costs in January to source off-system sales and higher than budgeted YTD fuel prices. |
| Gas Supply Expenses | 47 | 54 | 7 | Due primarily to lower gas volumes as a result of unfavorable weather in February. |
| Purchased Power | 9 | 10 | 1 | |
| Other Cost of Production | 7 | 7 | (0) | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 10 | 11 | 2 | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 12 | 12 | 0 | |
| **Total Cost of Sales** | 240 | 232 | (8) | |
| **Gross Margin:** | | | | |
| Electric Margin | 322 | 317 | 5 | See explanations above. |
| Gas Margin | 49 | 53 | (4) | |
| **Total Gross Margin** | 370 | 370 | 0 | |
| O&M | 115 | 121 | 6 | Lower primarily due to lower storm and bad debt expense and timing of plant maintenance and other costs. |
| Depreciation & Amortization | 67 | 67 | 0 | |
| Taxes, Other than Income | 11 | 11 | 0 | |
| Other income (expense) | (3) | (2) | (1) | |
| EBIT | 174 | 168 | 6 | |
| Interest Expense | 37 | 39 | 2 | |
| **Income from Ongoing Operations before income taxes** | 137 | 129 | 8 | |
| Income Tax Expense | 30 | 33 | 3 | |
| **Net Income (loss) from ongoing operations** | **108** | **97** | **11** | |
| Special Item - (Non Operating Income) | 0 | 0 | 0 | |
| Discontinued Operations | (0) | 0 | (0) | |
| **Net Income (loss)** | $ 108 | $ 97 | $ 11 | |
| KY Regulated Financing Costs | (6) | (6) | (0) | |
| **KY Regulated Net Income** | 101 | $ 91 | $ 11 | |
| Earnings Per Share - Ongoing | $ 0.15 | $ 0.12 | $ 0.02 | |

| Debt / Capitalization | 7.5% | 35% - 45% | 45% - 55% | 55% - 65% |

| As of December 31, 2017 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

### Variance Explanations

Lower YTD O&M primarily due to lower storm and bad debt expense and timing of plant maintenance and other costs.

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms and variable costs of production.

(3) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(4) The possible violation issues for YTD Actual is believed to be minimal risk.

(5) Excludes goodwill and other purchase accounting adjustments.

### Major Developments

On March 20, 2018, the KPSC issued an order approving, with certain modifications, the settlement agreement in the Tax Cuts and Jobs Act ("TCJA") proceeding. Those modifications increased the estimated credit for customers by approximately $27 million. LG&E gas rate reductions were not modified significantly from the settlement agreement. On March 26, 2018, LG&E and KU filed a petition for reconsideration and request for hearing with the KPSC, taking exception with the KPSC's modifications and the process, and also requested certain relief from implementing the amounts represented by the additional reductions until the matter is fully resolved. On March 28, 2018, the KPSC issued an Order granting LKE's request for rehearing and amending its previous Order by suspending the approved rates, allowing LG&E and KU, on an interim basis, to return savings related to the TCJA at the rates agreed to in the settlement. A procedural schedule was issued and the Company's direct testimony was filed on April 6. A formal hearing on the matter is scheduled for May 24.

The KPSC approved PPL's proposal to create two new holding companies positioned between the corporation and its utilities. A similar restructuring proposal remains before the Pennsylvania Public Utility Commission (PUC) for approval.

The KPSC issued an order in LG&E's gas franchise dispute with Louisville Metro and ruled in LG&E's favor on all issues. Specifically, the order found that the franchise fee should be recovered as a separate line item on customers' bills and should be charged only to those customers within the jurisdiction of the municipality setting the franchise fee. As a result, no such franchise fee will be collected because of a provision in the current franchise agreement with Louisville Metro that the fee would be zero in the event the KPSC ruled in LG&E's favor.

On March 22, 2018, KU reached a settlement agreement regarding its ongoing rate case in Virginia. New rates, inclusive of TCJA impacts, will be effective June 1, 2018 and do not have a significant impact on KU. The settlement agreement is subject to review and approval by the VSCC.

On the last day of the legislative session, HB 227 (net metering reform) was effectively eliminated from passage as the Senate recommitted the bill to the Natural Resources Committee.

Note: Schedules may not sum due to rounding.

(1) Short-term Debt YTD actual reflects average daily balances. All other average balances use an average monthly balance.

(2) Total expense line includes additional revolving credit items. Total will not match sum of PCB, FMB, and STD.

| Credit Facilities ($ Millions) | Committed Capacity | Borrowed(3) | Letters of Credit Issued | Unused Capacity | Money Pool Loans |
|---|---|---|---|---|---|
| LKE | $ 375 | $ 237 | | $ 138 | |
| LG&E | 700 | 337 | | 363 | $ 0 |
| KU | 598 | 78 | $ 198 | 322 | 0 |
| TOTAL | $ 1,673 | $ 652 | $ 198 | $ 823 | $ 0 |

(3) LG&E borrowed amount includes commercial paper issuances and $200M Term Loan. KU borrowed amount represent commercial paper issuances. LKE borrowed amount includes bank revolver and debt with PPL.

**Financial Strength Factor (40% Weighting) -- Standard Business Risk Grid:**

| Moody's Thresholds | Sub-Factor Weighting | A | Baa | Ba |
|---|---|---|---|---|
| CFO pre-WC / Debt | 15.0% | 22% - 30% | 13% - 22% | 5% - 13% |
| CFO pre-WC + Interest / Interest | 7.5% | 4.5x - 6x | 3x - 4.5x | 2x - 3x |
| CFO pre-WC - Dividends / Debt | 10.0% | 17% - 25% | 9% - 17% | 0% - 9% |
| Debt / Capitalization | 7.5% | 35% - 45% | 45% - 55% | 55% - 65% |

| As of December 31, 2017 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — March 2018

**($ Millions)**

| | 3/31/2018 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 27 | $ 14 | $ 13 | Increase primarily due to timing of cash receipts at the utilities. |
| Accounts Receivable (Trade) | 424 | 451 | (27) | |
| Inventory | 212 | 218 | (6) | |
| Regulatory Assets Current | 12 | 1 | 11 | Primarily due to ECR regulatory asset reclassification to regulatory liability |
| Prepayments and other current assets | 69 | 73 | (4) | |
| **Total Current Assets** | 745 | 758 | (13) | |
| Property, Plant, and Equipment | 12,135 | 12,183 | (49) | |
| Intangible Assets | 84 | 84 | (0) | |
| Other Property and Investments | 1 | 1 | 0 | |
| Regulatory Assets Non Current | 793 | 792 | 0 | |
| Goodwill | 997 | 997 | 0 | |
| Other Long-term Assets | 79 | 73 | 6 | |
| **Total Assets** | **$ 14,834** | **$ 14,888** | **$ (55)** | |
| Liabilities and Equity: | | | | |
| Current Liabilities: | | | | |
| Accounts Payable (Trade) | $ 301 | $ 330 | $ (29) | |
| Dividends Payable to Affiliated Companies | 0 | 0 | 0 | |
| Customer Deposits | 59 | 58 | 1 | |
| Derivative Liability | 4 | 4 | (0) | |
| Accrued Taxes | 73 | 72 | 1 | |
| Regulatory Liabilities Current | 63 | 38 | 25 | Primarily due to higher than budgeted DSM, and ECR regulatory asset reclassification. |
| Other Current Liabilities | 257 | 294 | (36) | Primarily due to ARO reclassification from current to non-current in actuals and decrease in credit cash adjustment for outstanding checks not yet funded versus the budget which assumed a static balance as of December 2017 when the budget was finalized. |
| **Total Current Liabilities** | 758 | 797 | (39) | |
| Debt - Affiliated Company | 637 | 639 | (2) | |
| Debt [(1)] | 5,074 | 5,085 | (11) | |

**Reconciliation of Allowed Return to**
**12 months ended March 2018 Regulatory Return**
**and ROE from Ongoing Operations**

| | | | |
|---|---|---|---|
| Allowed Return [1] | | 9.76% | |
| Adjustments (net tax): | | | |
| Change in capitalization - non mechanism | 0.28% | | Growth in capitalization (rate base) between rate cases does not earn a return |
| Change in ROE from average mechanism rate base growth | 0.00% | | Mechanisms have a real-time return |
| Change in weighted cost of debt | 0.04% | | |
| Change in margins | 0.06% | | Higher revenue |
| Change in allowed expenses | 0.47% | | Lower expense |
| | | 0.86% | |
| Actual Regulated ROE | | 10.62% | |

[1] Based on the most recent base rate filings with test years ending 6/30/18 KPSC, 12/31/16 FERC, 12/31/14 VA.
Note the allowed return is a blended rate of the previous authorized ROE of 10% after 7/1/16 and the current authorized ROE of 9.7% after 7/1/17

### Variance Explanations

Lower YTD O&M primarily due timing of plant maintenance costs, lower materials, lower storm and vegetation management costs, bad debt expense and labor costs.

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms and variable costs of production.

(3) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(4) The possible violation issues for YTD Actual is believed to be minimal risk.

(5) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

LKE filed direct testimony in the Tax Cuts and Jobs Act on April 6 and submitted data responses to requests from the KPSC and the Attorney General on April 20. No intervenor testimony was filed.

LG&E and KU continue their strong base of excellent customer service. Through three of four wave periods for the J.D. Power Electric Residential Study, KU and LG&E ranked first and fourth, respectively, among 15 utilities in the Midwest Midsize segment.

The spring outage season for power plant maintenance is nearing completion. Ten planned steam unit outages have taken place this year with $23 million in capital investment through April. No significant unexpected matters arose during inspections and the planned work.

KU earned national recognition as one of 43 utilities that have been designated a 2018 Environmental Champion by Market Strategies International.

LKE earned a Chartwell's 2018 Best Practices Award in Outage Communications. LKE won the Bronze Outage Communications Award for its transformation of the estimated restoration time process, improving efficiency and enabling a better customer service experience.

### Significant Future Events

The formal hearing date for the Tax Cuts and Jobs Act will take place on May 24.

The formal hearing date for LKE's Advanced Metering Systems proceeding has been scheduled for July 24.

## Income Statement: Actual vs. Budget (Month) - LKE Consolidated — April 2018

| As of December 31, 2017 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

### Variance Explanations

Higher margins MTD primarily due to higher sales volumes from favorable weather, resulting in higher retail electric base energy revenue of $13 million.

Higher margins YTD primarily due to higher sales volumes from favorable weather, resulting in higher retail electric base energy revenue of $19 million partially offset by lower demand revenue of $3 million, lower gas margins of $5 million and other margin components of $3 million.

Lower O&M YTD primarily due timing of plant maintenance costs ($2 million), lower materials ($3 million), lower storm and vegatation management costs ($2 million), labor costs ($3 million) and bad debt expense.

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms and variable costs of production.

(3) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(4) The possible violation issues for YTD Actual is believed to be minimal risk.

(5) Excludes goodwill and other purchase accounting adjustments.

Note: Schedules may not sum due to rounding.

### Major Developments

The formal hearing was held in the Tax Cuts and Jobs Act case based on the Company's petition for reconsideration. LKE is responding to post-hearing data requests and briefs will then be filed no later than June 29. We expect an Order from the Commission after the July 4 holiday.

SERC delivered the exit presentation regarding the audit of the Critical Infrastructure Protection ("CIP") and Operations & Planning ("O&P") reliability standards. The results of the audit were excellent with no violations or areas of concern related to the CIP standards, while finding only one minor potential violation and one minor area of concern related to the O&P standards. The audit staff was complimentary of LKE's workforce and the Company as a whole, and mentioned that they viewed LKE as one of its top performing entities.

[redacted] has signed a contract for the purchase of a 1,000 share subscription to the Solar Share program. This brings the total subscriptions to 1,943 shares, pushing the Company closer to the 2,000 share level required to begin construction of the first 500-kilowatt section of the initiative. In addition, the inaugural Business Solar project for the Archdiocese of Louisville was unveiled recently at a press conference. The Archbishop Joseph E. Kurtz and several Company representatives celebrated the launch of a 33.6 kW on-site roof mounted solar array that LKE will own, operate, and maintain.

The Virginia State Corporation Commission issued an Order approving the settlement in the Virginia rate case. The new rates became effective June 1, 2018.

LKE was recognized at the annual Worksite Wellness Conference hosted by the Worksite Wellness Council of Louisville. For the third year in a row, the Company received a Platinum Award for its programs and initiatives supporting wellness. The award qualifies the Company for the national competition which focuses on the 100 Healthiest Employer Award.

For the second consecutive year, the Company received the ESGR (Employer Support of the Guard and Reserve) Pro Patria Award — the United States Defense Department's highest state-level award for providing support to employees serving in the Kentucky National Guard and Reserve. This follows earlier national recognition from being named a finalist for the 2018 Secretary of Defense Employer Support Freedom Award.

A storm event which began on May 31 and continued through June 2, ranked as the 11th largest storm in Company history since we began tracking them in the current manner. The event resulted in 82K customers affected, 766 downed wires, and 33 broken poles. The Company restored 95 percent of customers within 24 hours.

### Significant Future Events

The formal hearing date for LKE's Advanced Metering Systems proceeding will occur on July 24.

## Income Statement: Actual vs. Budget (YTD) - LKE Consolidated

**May 2018**

**($ Millions)**

| | YTD | | | |
|---|---|---|---|---|
| | **Actual** | **Budget** | **Variance** | **Comments** |
| **Revenues:** | | | | |
| Electric Revenues | $ 1,183 | $ 1,142 | $ 42 | Due primarily to higher sales volumes from favorable weather. |
| Gas Revenues | 172 | 185 | (12) | Due primarily to lower sales volumes as a result of unfavorable weather in February and lower than budgeted YTD gas cost recovery. |
| **Total Revenues** | 1,356 | 1,326 | 30 | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 338 | 309 | (30) | Due primarily to higher fuel costs related to higher sales volumes from favorable weather. |
| Gas Supply Expenses | 78 | 84 | 6 | Due primarily to lower gas volumes as a result of unfavorable weather in February and lower than budgeted YTD gas prices. |
| Purchased Power | 26 | 26 | (0) | |
| Other Cost of Production | 15 | 15 | 0 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 24 | 28 | 3 | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 30 | 30 | 1 | |
| **Total Cost of Sales** | 511 | 492 | (20) | |
| **Gross Margin:** | | | | |
| Electric Margin | 752 | 738 | 15 | See explanations above. |
| Gas Margin | 92 | 97 | (5) | See explanations above. |
| **Total Gross Margin** | 844 | 834 | 10 | |
| O&M | 306 | 320 | 14 | Lower primarily due to timing of plant maintenance costs, lower materials, lower storm and vegetation management costs, labor costs and bad debt expense. |
| Depreciation & Amortization | 168 | 169 | 1 | |
| Taxes, Other than Income | 27 | 28 | 1 | |
| Other income (expense) | (4) | (5) | 1 | |
| EBIT | 339 | 312 | 27 | |
| Interest Expense | 94 | 98 | 4 | |
| **Income from Ongoing Operations before income taxes** | 245 | 214 | 30 | |
| Income Tax Expense | 50 | 49 | (1) | |
| **Net Income (loss) from ongoing operations** | **195** | **165** | **30** | |
| Special Item - (Non Operating Income) | (9) | 0 | (9) | Due to Kentucky state tax reform resulting in a reduction of the Kentucky Corporate income tax, a $9 million deferred tax expense was recorded related to the revaluing of non-utility deferred taxes. |
| Discontinued Operations | (0) | 0 | (0) | |
| **Net Income (loss)** | $ 186 | $ 165 | $ 21 | |
| KY Regulated Financing Costs | (15) | (15) | (0) | |
| **KY Regulated Net Income** | 171 | $ 150 | $ 21 | |
| Earnings Per Share - Ongoing | $ 0.26 | $ 0.21 | $ 0.05 | |

Note: Schedules may not sum due to rounding.

| As of December 31, 2017 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

### Major Developments

The Company continues to build on its outstanding customer satisfaction performance as it won another J.D. Power award. KU ranked first (with a score of 755) among the mid-sized utilities in the Midwest region of the 2018 Electric Utility Residential Customer Satisfaction study. LG&E, however, slid from 2nd to 7th based upon colder weather causing higher bills (gas heat) this winter. We are evaluating why such a large slide.

Business First, the weekly business journal for Greater Louisville, announced LG&E and KU as the winner of the Healthiest Employer Award among businesses with 1,500-4,999 employees. The Company last won the award in 2016 and was named a finalist in 2017.

LKE has reached the 2,000 share level required to begin construction of the first 500-kilowatt section of its Solar Share (Community Solar) program. The Company has closed on the site for the program and is targeting to have the system in operation by the first quarter of 2019.

The Company continues its outstanding safety performance as a number of locations have achieved recent milestones:
- Electric Distribution employees at the Elizabethtown Operations Center recently won the Edison Electric Institute Safety Achievement Award for completing 14 years and 563,079 work hours without a lost-time injury. This was a significant accomplishment for a work group that averages just 20 employees who serve 37,420 customers across nine counties.
- In May, Cane Run, Ohio Falls and Paddy's Run employees collectively achieved one year without a recordable injury.
  - Ohio Falls employees have also achieved three years without a recordable injury.
- Also in May, E.W. Brown employees completed one year, or more than 270,000 work hours, without a recordable injury.

LKE earned 10 communications awards in various categories during the recent Utility Communicators International conference. The 2018 Better Communications Competition receives entries from utilities of all sizes across the U.S. and Canada. The conference was held in Louisville this year.

KU has earned national recognition from the research firm Market Strategies. It is one of 15 utilities that have been designated a 2018 trusted utility brand by business customers. The research firm conducted a survey of 35 questions among almost 9,000 business consumers served by 60 of the largest utilities in the U.S.

The hearing for the Advanced Metering System (AMS) case was held on July 24th.

### Variance Explanations

Higher YTD margins primarily due to higher sales volumes from favorable weather, resulting in higher retail electric base energy revenue of $23 million partially offset by lower demand revenue of $3 million, lower gas margins of $5 million and other margin components of $2 million.

Lower YTD O&M primarily due to the timing of plant maintenance costs ($3 million), lower materials ($3 million), lower labor costs ($3 million) and lower bad debt expense ($1 million).

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms and variable costs of production.

(3) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(4) The possible violation issues for YTD Actual is believed to be minimal risk.

(5) Excludes goodwill and other purchase accounting adjustments.

### Significant Future Events

KPSC Orders are expected in the AMS, Tax Act and DSM/Energy Efficiency Program cases in Q3.

KU and LG&E expect to file a base rate case with the KPSC on September 28th (legal notice of intent to file a case made with KPSC August 27th; newspaper notices with requested rate changes begin September 21st).

Note: Schedules may not sum due to rounding.

## Income Statement: Actual vs. Budget (YTD) - LKE Consolidated — June 2018

($ Millions)

| | YTD Actual | YTD Budget | YTD Variance | Comments |
|---|---|---|---|---|
| **Revenues:** | | | | |
| Electric Revenues | $ 1,433 | $ 1,390 | $ 43 | Due primarily to higher sales volumes from favorable weather. |
| Gas Revenues | 185 | 197 | (12) | Due primarily to lower sales volumes as a result of unfavorable weather in February and lower than budgeted YTD gas cost recovery. |
| **Total Revenues** | 1,618 | 1,587 | 31 | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 407 | 377 | (30) | Due primarily to higher fuel costs related to higher sales volumes from favorable weather. |
| Gas Supply Expenses | 81 | 87 | 6 | Due primarily to lower gas volumes as a result of unfavorable weather in February and lower than budgeted YTD gas prices. |
| Purchased Power | 31 | 31 | 0 | |
| Other Cost of Production | 18 | 18 | 0 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 30 | 34 | 5 | Due primarily to elimination of some DSM programs in the 2018 filing with the KPSC. |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 36 | 37 | 1 | |
| **Total Cost of Sales** | 602 | 584 | (18) | |
| **Gross Margin:** | | | | |
| Electric Margin | 914 | 897 | 17 | See explanations above. |
| Gas Margin | 102 | 106 | (5) | See explanations above. |
| **Total Gross Margin** | 1,016 | 1,003 | 13 | |
| O&M | 368 | 380 | 12 | Lower primarily due to the timing of plant maintenance costs, lower materials, lower labor costs and lower bad debt expense. |
| Depreciation & Amortization | 201 | 203 | 2 | |
| Taxes, Other than Income | 33 | 34 | 1 | |
| Other income (expense) | (3) | (6) | 3 | |
| EBIT | 411 | 380 | 30 | |
| Interest Expense | 113 | 118 | 4 | |
| **Income from Ongoing Operations before income taxes** | 297 | 263 | 35 | |
| Income Tax Expense | 60 | 57 | (3) | |
| **Net Income (loss) from ongoing operations** | **237** | **205** | **32** | |
| Special Item - (Non Operating Income) | (9) | 0 | (9) | Due to Kentucky state tax reform resulting in a reduction of the Kentucky Corporate income tax, a $9 million deferred tax expense was recorded related to the revaluing of non-utility deferred taxes. |
| Discontinued Operations | (0) | 0 | (0) | |
| **Net Income (loss)** | $ 228 | $ 205 | $ 22 | |
| KY Regulated Financing Costs | (18) | (19) | 1 | |
| **KY Regulated Net Income** | 210 | $ 187 | $ 23 | |
| Earnings Per Share - Ongoing | $ 0.31 | $ 0.26 | $ 0.06 | |

Note: Schedules may not sum due to rounding.

**Financial Strength Factor (40% Weighting) -- Standard Business Risk Grid:**

| Moody's Thresholds | Sub-Factor Weighting | A | Baa | Ba |
|---|---|---|---|---|
| CFO pre-WC / Debt | 15.0% | 22% - 30% | 13% - 22% | 5% - 13% |
| CFO pre-WC + Interest / Interest | 7.5% | 4.5x - 6x | 3x - 4.5x | 2x - 3x |
| CFO pre-WC - Dividends / Debt | 10.0% | 17% - 25% | 9% - 17% | 0% - 9% |
| Debt / Capitalization | 7.5% | 35% - 45% | 45% - 55% | 55% - 65% |

| As of December 31, 2017 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated — June 2018

**($ Millions)**

| | 6/30/2018 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 39 | $ 14 | $ 25 | Increase primarily due to timing of cash receipts at the utilities. |
| Accounts Receivable (Trade) | 402 | 452 | (50) | Due primarily to differences in actual vs. budget accounts receivable lag factors. |
| Inventory | 229 | 224 | 5 | |
| Regulatory Assets Current | 11 | 6 | 5 | |
| Prepayments and other current assets | 73 | 77 | (3) | |

### Major Developments

A July 20th storm event caused extensive, widespread damage across the LKE system, taking down 1,360 wires, and damaging 209 poles and other equipment across the Company's distribution and transmission infrastructure. Nearly 175,000 customers were impacted, ranking this among the top five storms to affect the LKE system. Crews worked as quickly and safely as possible to assess damage, make repairs and restore service with additional help provided by partner utilities from Wisconsin, Indiana, Ohio, Missouri, Tennessee, Arkansas, and Kentucky. Winds measured at 83 miles per hour damaged two cooling towers at the EW Brown plant leading to a Brown Unit 3 outage. Total costs are expected to be approximately $16 million, split evenly between capital and operating expenses.

Recognition:
- LKE was recognized by Site Selection magazine as a top ten utility in the area of economic development. The Company has received this honor six times since 2012.
- LKE was recognized as one of the top employee-giving campaigns for the 2018 Fund for the Arts campaign.
- LKE was one of 13 Interactive Voice Response ("IVRs") selected to receive the 2018 Gold Stethoscope Award as a "Balanced Company" by IVR Doctors and Market Strategies International.
- LKE will also receive the bronze Best Practice Award from Chartwell in the self-service category for its IVR Time Extension Automation project.

KU and the IBEW recently ratified a three-year labor agreement through 2021. The agreement covers approximately 68 employees.

Oral arguments were presented on August 2nd at the U.S. Court of Appeals for the Sixth Circuit in the Sierra Club and Kentucky Waterways Alliance appeal of the ruling by the U.S. District Court for the Eastern District of Kentucky granting LKE's motion to dismiss the citizen suit filed by these parties related to water discharges at KU's EW Brown power plant. A decision is likely several months away, and any party dissatisfied with the decision may petition for discretionary review by the U.S. Supreme Court.

### Variance Explanations

Higher margins YTD primarily due to higher sales volumes from favorable weather, resulting in higher retail electric base energy revenue of $24 million partially offset by lower demand revenue of $4 million, lower gas margins of $5 million and other margin components of $3 million.

Higher O&M MTD primarily due to July 20th storm event ($7.5 million), partially offset by lower labor and burdens ($2 million).

Lower O&M YTD primarily due to the timing of plant maintenance costs ($6.5m), lower labor costs ($4m), lower materials ($2m), and lower vegetation management ($1m); partially offset by the July 20th storm event (-$7.5m).

Lower financing costs YTD primarily due to lower than anticipated interest rates.

(1) Full year forecast amount shown represents target.

(2) Net of cost recovery mechanisms and variable costs of production.

(3) Includes Management O&M, variable cost of production and mechanism operation and maintenance expenses

(4) The possible violation issues for YTD Actual is believed to be minimal risk.

Note: Schedules may not sum due to rounding.

### Significant Future Events

KPSC Orders are expected in the AMS, Tax Act and DSM/Energy Efficiency Program cases in Q3.

KU and LG&E expect to file a base rate case with the KPSC on September 28th (legal notice of intent to file a case August 27th; newspaper notices with requested rate changes begin September 21st).

## Income Statement: Actual vs. Budget (Month) - LKE Consolidated

**July 2018**

**($ Millions)**

| | MTD | | | |
|---|---|---|---|---|
| | Actual | Budget | Variance | Comments |
| **Revenues:** | | | | |
| Electric Revenues | $ 260 | $ 267 | $ (6) | Due primarily to lower fuel prices, lower DSM program spend, and lower ECR capital and expenses. |
| Gas Revenues | 12 | 12 | (0) | |
| **Total Revenues** | 272 | 278 | (7) | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 71 | 73 | 2 | |
| Gas Supply Expenses | 2 | 2 | (0) | |
| Purchased Power | 5 | 6 | 0 | |
| Other Cost of Production | 3 | 3 | 0 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 5 | 8 | 3 | |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 6 | 6 | 0 | |
| **Total Cost of Sales** | 92 | 98 | 6 | |
| **Gross Margin:** | | | | |
| Electric Margin | 170 | 171 | (1) | |
| Gas Margin | 9 | 9 | (0) | |
| **Total Gross Margin** | 179 | 180 | (1) | |
| O&M | 66 | 61 | (5) | Higher primarily due to July 20th storm event, partially offset by lower labor and burdens. |
| Depreciation & Amortization | 34 | 34 | 1 | |

## Income Statement: Actual vs. Budget (YTD) - LKE Consolidated — July 2018

($ Millions)

| | YTD Actual | YTD Budget | YTD Variance | Comments |
|---|---|---|---|---|
| **Revenues:** | | | | |
| Electric Revenues | $ 1,693 | $ 1,656 | $ 36 | Due primarily to higher sales volumes from favorable weather, partially offset by lower demand, lower DSM program spend, and lower ECR capital and expenses. |
| Gas Revenues | 197 | 209 | (12) | Due primarily to lower sales volumes as a result of unfavorable weather in February and lower than budgeted YTD gas cost recovery. |
| **Total Revenues** | 1,890 | 1,866 | 24 | |
| **Cost of Sales:** | | | | |
| Fuel Electric Costs | 478 | 450 | (28) | Due primarily to higher fuel costs related to higher sales volumes from favorable weather. |
| Gas Supply Expenses | 82 | 88 | 6 | Due primarily to lower gas volumes as a result of unfavorable weather in February and lower than budgeted YTD gas prices. |
| Purchased Power | 36 | 37 | 1 | |
| Other Cost of Production | 21 | 22 | 0 | |
| Mechanism - ECR, DSM & GLT - Operation and Maintenance | 35 | 42 | 8 | Due primarily to elimination of some DSM programs in the 2018 filing with the KPSC and lower ECR expenses. |
| Mechanism - ECR, DSM & GLT - Depreciation and Property Tax | 42 | 43 | 1 | |
| **Total Cost of Sales** | 694 | 682 | (13) | |
| **Gross Margin:** | | | | |
| Electric Margin | 1,084 | 1,068 | 16 | See explanations above. |
| Gas Margin | 111 | 116 | (5) | See explanations above. |
| **Total Gross Margin** | 1,195 | 1,184 | 11 | |
| O&M | 434 | 441 | 7 | Lower primarily due to the timing of plant maintenance costs, lower labor costs, lower materials, and lower vegetation management; partially offset by the July 20th storm event. |
| Depreciation & Amortization | 235 | 237 | 2 | |
| Taxes, Other than Income | 39 | 39 | 1 | |
| Other income (expense) | (4) | (7) | 3 | |
| EBIT | 484 | 459 | 25 | |
| Interest Expense | 133 | 138 | 5 | Lower primarily due to lower than anticipated interest rates. |
| **Income from Ongoing Operations before income taxes** | 351 | 321 | 30 | |
| Income Tax Expense | 71 | 72 | 1 | |
| **Net Income (loss) from ongoing operations** | **280** | **249** | **31** | |
| Special Item - (Non Operating Income) | (9) | 0 | (9) | Due to Kentucky state tax reform resulting in a reduction of the Kentucky Corporate income tax, a $9 million deferred tax expense was recorded related to the revaluing of non-utility deferred taxes. |
| Discontinued Operations | 0 | 0 | 0 | |
| **Net Income (loss)** | $ 271 | $ 249 | $ 21 | |
| KY Regulated Financing Costs | (21) | (22) | 1 | |
| **KY Regulated Net Income** | 250 | $ 227 | $ 23 | |
| Earnings Per Share - Ongoing | $ 0.37 | $ 0.31 | $ 0.06 | |

Note: Schedules may not sum due to rounding.

**Financial Strength Factor (40% Weighting) -- Standard Business Risk Grid:**

| Moody's Thresholds | Sub-Factor Weighting | A | Baa | Ba |
|---|---|---|---|---|
| CFO pre-WC / Debt | 15.0% | 22% - 30% | 13% - 22% | 5% - 13% |
| CFO pre-WC + Interest / Interest | 7.5% | 4.5x - 6x | 3x - 4.5x | 2x - 3x |
| CFO pre-WC - Dividends / Debt | 10.0% | 17% - 25% | 9% - 17% | 0% - 9% |
| Debt / Capitalization | 7.5% | 35% - 45% | 45% - 55% | 55% - 65% |

| As of December 31, 2017 | Senior Unsecured | Senior Secured | Commercial Paper |
|---|---|---|---|
| Issuer | Moody's | Moody's | Moody's |
| LKE | Baa1 | | |
| LG&E | | A1 | P-2 |
| KU | | A1 | P-2 |

**Definitions**

Issuers assessed **A** are judged to have upper-medium-grade intrinsic, or standalone, financial strength, and thus subject to low credit risk absent any possibility of extraordinary support from an affiliate or a government.

Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

## Balance Sheet - LKE Consolidated

**July 2018**

**($ Millions)**

| | 7/31/2018 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 20 | $ 15 | $ 5 | |
| Accounts Receivable (Trade) | 416 | 466 | (51) | Due primarily to differences in actual vs. budget accounts receivable lag factors. The lag factors have been updated in the forecast. |
| Inventory | 234 | 224 | 10 | |
| Deferred Income Taxes | 0 | 0 | 0 | |
| Regulatory Assets Current | 10 | 2 | 8 | |
| Prepayments and other current assets | 77 | 80 | (3) | |
| **Total Current Assets** | 757 | 787 | (30) | |
| Property, Plant, and Equipment | 12,318 | 12,449 | (130) | |
| Intangible Assets | 81 | 81 | (0) | |
| Other Property and Investments | 1 | 1 | 0 | |
| Regulatory Assets Non Current | 792 | 788 | 5 | |
| Goodwill | 997 | 997 | 0 | |
| Other Long-term Assets | 73 | 76 | (3) | |
| **Total Assets** | **$ 15,020** | **$ 15,179** | **$ (158)** | |
| Liabilities and Equity: | | | | |
| Current Liabilities: | | | | |
| Accounts Payable (Trade) | $ 301 | $ 336 | $ (35) | Primarily due to lower capital expenditures and timing of actuals. |
| Dividends Payable to Affiliated Companies | 0 | 0 | 0 | |
| Customer Deposits | 59 | 58 | 1 | |
| Derivative Liability | 4 | 4 | (1) | |
| Accrued Taxes | 60 | 79 | (18) | Primarily due to the deferred taxes on TCJA credit in which actuals were recorded on the regulatory liability balance through June and 2018 Budget had spread the deferreds evenly over the year. Since TCJA regulatory liability builds up in first part of year and begins to amortize in latter part of year there is a difference in methodology for the 2018BP between budget and actuals. This has been addressed in the forecast. |
| Regulatory Liabilities Current | 76 | 77 | (2) | |
| Other Current Liabilities | 241 | 279 | (38) | Primarily due to decrease in credit cash adjustment for outstanding checks not yet funded versus the budget which assumed a static balance as of December 2017 when the budget was finalized and settlement of WKE indemnification. |
| **Total Current Liabilities** | 741 | 834 | (92) | |
| Debt - Affiliated Company | 746 | 785 | (40) | |
| Debt [(1)] | 5,137 | 5,190 | (53) | |
| **Total Debt** | 5,883 | 5,976 | (93) | |
| Deferred Tax Liabilities | 876 | 901 | (25) | |
| Investment Tax Credit | 127 | 127 | (0) | |
| Accum Provision for Pension & Related Benefits | 262 | 252 | 9 | |
| Asset Retirement Obligation | 244 | 242 | 1 | |
| Regulatory Liabilities Non Current | 2,055 | 2,013 | 42 | |
| Derivative Liability | 16 | 20 | (4) | |
| Other Liabilities | 141 | 150 | (8) | |
| **Total Deferred Credits and Other Liabilities** | 3,721 | 3,706 | 15 | |
| **Equity** | 4,675 | 4,664 | 11 | |
| **Total Liabilities and Equity** | **$ 15,020** | **$ 15,179** | **$ (158)** | |

[(1)] Includes all ST and LT debt. See Financing Activities page for details.
Note: Schedules may not sum due to rounding.

## Balance Sheet - LG&E — July 2018

**($ Millions)**

| | 7/31/2018 | YTD Budget | Variance | Comments |
|---|---|---|---|---|
| Assets: | | | | |
| Current Assets: | | | | |
| Cash and Cash Equivalents | $ 9 | $ 5 | $ 4 | |
| Accounts Receivable (Trade) | 178 | 209 | (31) | Due primarily to differences in actual vs. budget accounts receivable lag factors. The lag factors have been updated in the forecast. |
| Inventory | 103 | 102 | 1 | |
| Regulatory Assets Current | 10 | 5 | 5 | |
| Prepayments and other current assets | 51 | 51 | (0) | |
| **Total Current Assets** | 351 | 372 | (21) | |
| Property, Plant, and Equipment | 5,451 | 5,523 | (72) | |
| Intangible Assets | 6 | 6 | 0 | |
| Other Property and Investments | 1 | 1 | 0 | |
| Regulatory Assets Non Current | 404 | 403 | 1 | |
| Goodwill | 0 | 0 | 0 | |
| Other Long-term Assets | 22 | 14 | 8 | |
| **Total Assets** | **$ 6,235** | **$ 6,318** | **$ (84)** | |
| Liabilities and Equity: | | | | |
| Current Liabilities: | | | | |
| Accounts Payable (Trade) | $ 171 | $ 199 | $ (28) | Primarily due to lower capital expenditures and timing of actuals. |
