Response to Commission’s Request for Information

Question No. 1

Responding Witness: Sheila Murphy

Q-1. Explain in detail the manner in which you measure, calculate, and track water loss, and:

a. Identify whether you use any manual form (including Excel spreadsheet) or electronic or mechanized system to calculate and track water loss.

b. Provide a copy of any form used (including Excel spreadsheet).

c. Identify the source of any form or system used.

A-1. Beech Grove Water System calculates water loss on a monthly basis by using the master meter usage and customer usage. Beech Grove Water purchases all water therefore is a distribution system only. We have AMI customer meter reading system. The difference in water sold and water purchased is our water loss. We then adjust for flushing, fire department usage and line breaks.

b. See attached spreadsheet

**Question No. 7**

**Responding Witness: Sheila Murphy**

Q-7. State whether you believe it is reasonable, proper, and appropriate for the Commission to require jurisdictional water utilities to maintain and use the updated Commission Form described and attached as Appendix A to this Order. Fully explain your answer.

A-7. Beech Grove Water System is currently using Kentucky Rural Water excel spreadsheet to report water loss. We believe it is reasonable, proper, appropriate to maintain a water loss record. This keeps water loss to a minimum and water system running efficient.
CERTIFICATE OF SERVICE

In accordance with 807 KAR 5:001, Section 8, I certify that Beech Grove Water System’s electronic filing of this Response is a true and accurate copy of the same document being filed in paper medium; that the electronic filing was transmitted to the Public Service Commission on January 9, 2019; that there are currently no parties that the Public Service Commission has excused from participation by electronic means in this proceeding; and that an original paper medium of this Response will be delivered to the Public Service Commission within two business days.
