CASE NO. 2018-00394

Response to Commission's Request for Information

Question No. 1

Responding Witness: Gayle Haney

- Q-1. Explain in detail the manner in which you measure, calculate, and track water loss, and:
- a. Identify whether you use any manual form (including Excel spreadsheet) or electronic or mechanized system to calculate and track water loss.
 - b. Provide a copy of any form used (including Excel spreadsheet).
 - c. Identify the source of any form or system used.
- A-1. Water loss is calculated based upon the amount of gallons purchased, less the amount of water sold to customers. Any water used for flushing is considered accounted for water. All other is loss is due to water main leaks and breaks.
- a. The District uses the Public Service Commission form in Excel format.
 - b. Form included.
 - c. Public Service Commission form. Updated form also included.

Response to Commission's Request for Information

Question No. 2

Responding Witness: Gayle Haney

- Q-2. Explain in detail your understanding of the information to be provided in each of the categories on the Water Statistics page (reference page 30) of the annual report required of jurisdictional water utilities, accessed through the Commission's website.
- A-2. The information provided on reference page 30 of the annual report is information taken from each monthly water loss report. Water purchased, water sold; residential, commercial, industrial, and bulk loading station. System flushing and fire protection are included as accounted for water. All other loss is due to line breaks and or leaks. The water loss percent should be the same as the annual water loss form.
