ELECTRONIC INVESTIGATION
INTO THE MEASURING
RECORDING, AND REPORTING OF
WATER LOSS BY KENTUCKY'S
JURISDICTIONAL WATER
UTILITIES

CASE NO. 2018-00394

CERTIFICATION OF RESPONSE OF FLEMING COUNTY WATER ASSOCIATION TO COMMISSION'S REQUEST FOR INFORMATION

This is to certify that I have supervised the preparation of Fleming County Water Association’s Response to the Commission’s Request for Information. The response submitted on behalf of Fleming County Water Association is true and accurate to the best of my knowledge, information, and belief formed after a responsible inquiry.

Date: 1-8-2019

Kevin Cornette, Superintendent
Fleming County Water Association
FLEMING COUNTY WATER ASSOCIATION
CASE NO. 2018-00394
RESPONSE TO COMMISSION’S REQUEST FOR INFORMATION

QUESTION NO. 1

RESPONDING WITNESS: KEVIN CORNETTE

Question 1: Explain in detail the manner in which you measure, calculate, and track water loss, and:

a. Identify whether you use any manual form (including Excel Spreadsheet) or electronic or mechanized system to calculate and track water loss.

b. Provide a copy of any form used (including Excel Spreadsheet).

c. Identify the source of any form or system used.

Response 1: Fleming County Water Association calculates water loss on a monthly basis by using the master meter usage reports with the numbers of gallons sold to all customers, which is generated by the billing system after all meters are read each month. The Master Meter Readings provide the total amount purchased from our suppliers, and the billing system provides the total amount sold to our customers. The difference between water sold and water purchased is our water loss after adjusting for flushing, fire hydrant usage, and line breaks, and other usages as identified on our reporting form.

a. Fleming County Water Association uses an excel spreadsheet provided by Kentucky Rural Water Association.

b. See attached Spreadsheet.

c. Kentucky Rural Water Association provided the spreadsheet.

RESPONSE TO COMMISSION’S REQUEST FOR INFORMATION

QUESTION NO. 2

RESPONDING WITNESS: KEVIN CORNETTE

Question 2: Explain in detail your understanding of the information to be provided in each of the categories on the Water Statistics Page (reference Page 30) of the annual report required of jurisdictional water utilities, accessed through the Commission’s website.

Response 2: Water Statistics (reference Page 30)

1. This section includes all water produced and purchased in entered.
2. Fleming County Water Association does not produce water.
3. Fleming County Water Association purchases all water it sells and enters that amount here.
4. Total amount of gallons purchased.

6. This section represents the Total of water sold to Fleming County Water Association Customers.
7. Total of water sold to Residential Customers Only.
8. Total of water sold to Commercial Customers Only.
9. Total of water sold to Industrial Customers Only.
10. Fleming County Water Associations does not have a Bulk Loading Station.
11. Fleming County Water Association does not resale water.
12. Fleming County Water Association does not have other sales.
13. Total of all Water Sales calculated.

15. The section represents all Other Water that is Used
16. Fleming County Water Association does not have a Water treatment Plant
Response 2: Continued

17. Flemming County Water Association does not have a Wastewater Plant
18. Flemming County Water Flashes Monthly, and enters the total here.
19. Flemming County Water Association enters Fire Department Usage here.
20. Other Water Usage, such as theft, meter failure, weather related events.
21. Total of Water used for Other Usages is totaled here

23. Water Loss
24. Tank Overflows entered here. Flemming County Water Association has not
    had Tank Overflows.
25. Known Line Breaks are entered here.
26. Known Line Leaks that have been repaired are entered here.
27. Other leaks that are accounted for are entered here.
28. Total Line Loss of known leaks, breaks, and overflows are calculated
    here.
32. Water Loss Percentage
33. Total Water Loss Percentage is Total Line Loss found in Line 28 divided
    by Total Water Purchased in Line 4.
