**Garrard County Water Association
Case No. 2018-00394
Commission Staff's Initial Request for Information Supplemental Response**

1. Explain in detail the manner in which you measure, calculate, and track water loss, and:
 - a. Identify whether you use any manual form (including Excel spreadsheet) or electric or mechanized system to calculate and track water loss.
 - b. Provide a copy of any form used (including Excel spreadsheet).
 - c. Identify the source of any form or system used.

Response:

1. Garrard County Water Association calculates its water loss on a monthly basis from our master meter reports along with the number of gallons sold to all of our customers, which is generated by our software system after all meter readings are entered each month. The master meter readings provide us with the total gallons purchased from our suppliers and our billing system provides us with the total gallons sold to our customers.
 - a. Garrard County Water Association uses an Excel spreadsheet to track water loss.
 - b. Please see the attachment filed with the Garrard County Water Association's responses filed on January 14, 2019.
 - c. Garrard County Water Association created the spreadsheet.
