CASE NO. 2018-00394

Response to Commission's Request for Information

Question No. 1

Responding Witness: Corinth Water District

Q-1. Explain in detail the manner in which you measure, calculate, and track water loss, and:

- a. Identify whether you use any manual form (including Excel spreadsheet) or electronic or mechanized system to calculate and track water loss.
- b. Provide a copy of any form used (including Excel spreadsheet).
- c. Identify the source of any form or system used.

A-1. The District measures, calculates and tracks water loss monthly using master meter readings, customer water meter readings, loading station, flushing reports, fire department and water leak reports.

- a. At this time we do not use a manual form or Excel, We use a document we created in Microsoft Word. This is the form we have used for several years now.
- b. Word Document Attached.
- c. To calculate our loss for the month, we add the amount of water billed, the loading station, flushing, Fire Dept. gallons, other (leaks, misreading adjustment) and then divided that amount by the amount purchased the difference is the unaccounted water loss. This must be below the 15% mark.
