Re: Electronic Application of Jackson Energy Cooperative Corporation for a General
Adjustment in Existing Rates
Case No. 2019-00066

Dear Mr. Pinney:

Pursuant to the Commission's request, I have attached to this letter the billing from my firm that is related to the above-referenced rate application on behalf of my client, Jackson Energy Cooperative. Throughout the rate case, I did not create separate billing for this matter, but instead included the charges for the rate case on our firm's monthly invoices. I have reviewed the invoices and since they contain reference to many other matters, I have pulled out the charges related to the rate case to create the attached billing. In addition, there are occasions on which I spend time at Jackson Energy's headquarters on various matters and I did not necessarily keep track of my specific time related to the rate case during those blocks of time. I would estimate that additional time as being approximately eight hours which would consist of meeting with Jackson Energy's management and Mr. John Wolfram and my time spent drafting the application. This eight hour period would be in addition to the attached invoice and would be billed at the same hourly rate.

If the Commission would prefer to see the original invoices, please just let me know and I can forward those to you, though I would request confidentiality for the unrelated billing entries.

I am pleased to report that use of this streamlined procedure has resulted in much less legal expense than our past rate cases, since there has been no hearing and only one round of data requests.

Please let me know if you have any additional questions or concerns.

Sincerely,

Clayton O. Oswald
