Private Fire Service charges shall apply to all connections which provide service only for private fire protection facilities whether supplied through a fully metered service or an unmetered service with a detector check valve and bypass meter. Customer charges are lump sum charges according to the applicable service size with zero water usage. In case of a fire, charges for water usage shall be in accordance with Simpson County Water District Tariff Section II. F. Fire Protection. Charges for all water usage shall be computed in accordance with prevailing Simpson County Water District rates for general service. Where a detector check valve with a bypass meter is used, the water usage shall be based on the combined volume of water used through both the detector check valve (estimated) and the bypass meter. All rates are subject to a 10 percent late payment charge if paid after due date.

A person may examine this application at the System's Office located at 108 Morgantown Road, Franklin, KY 42134. A person may also examine this application at the PSC located at 211 Sower Boulevard, Frankfort, Kentucky, Monday through Friday, 8:00 a.m. to 4:30 p.m. or on the PSC website at <http://psc.ky.gov>; telephone: (502) 564-3940. The proposed rates are required under the terms of an agreement between Simpson County Water District and the United States Department of Agriculture. KRS 278.023 does not grant the Public Service Commission any discretionary authority to modify or reject any portion of the agreement between United States Department of Agriculture and Simpson County Water District or to defer the issuance of all necessary orders to implement the terms of that agreement. Comments regarding this application filing may be submitted to the PSC through its Web site or by mail to PO Box 615, Frankfort, KY 40602.

The Simpson County Water District will be replacing 5.0 miles of aging infrastructure, constructing 2.5 miles of water transmission system and a pump station to increase available supply, and extending 1.5 miles of main to serve new customers. Water Revenue Bonds for up to \$1,529,500 are planned to be sold to the United States Department of Agriculture to finance the project. The proposed rates will produce sufficient revenue to meet the debt repayment schedule and operating expenses.
