5. Description of Changes in Service Territory:

As explained in this application and in the attached exhibits, KU and Clark Energy have individually agreed to the requested territorial changes for this residential subdivision. The proposed territorial boundary changes serve the purposes of KRS 278.016 by avoiding unnecessary encumbrance of the landscape and will promote the orderly development of retail electric service.

The Stivers, Stivers and Blaser subdivision, located at 6602 to 7090 Athens Boonesboro Road in Ford, Kentucky, crosses both KU and Clark Energy service territories. The developer established property lines for twenty individual lots when it subdivided the land, creating seven lots (#'s 1-7) in KU territory; two lots (#'s 19-20) in Clark Energy territory; and eleven lots (#'s 8-18) in "split" territory covering both KU and Clark Energy territories. KU and Clark Energy agree to redraw the certified territorial boundary to match the existing individual property lines, thus eliminating the split territory issue with lot #'s 8-18 and equitably dividing the lots between the two utilities. As indicated on the site map, KU will serve lot # 1 through lot # 11 and Clark Energy will serve lot #12 through lot # 20.

The territorial maps and other attachments provided constitute the entire agreement between KU and Clark Energy.

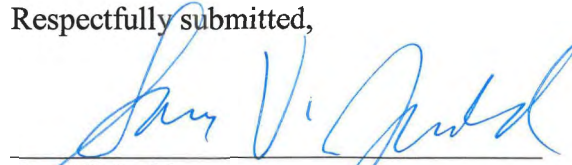

6. Agreement and Maps:

Application Exhibit 1 of this filing includes the summary list identifying KU and Clark Energy personnel familiar with the specifics of the facilities available, the reason for the change and purposes served under KRS 278.016, and copies of the territorial (quadrant) map, detailed site map, and agreement signed by both parties for the properties involved.

**WHEREFORE**, KU hereby requests, pursuant to KRS 278.018, that the Commission enter an order approving the updates to the Quadrant Map to reflect the current requested service territory change and the agreement between KU and Clark Energy.

Dated: November 22, 2019
