RE: Proposal to supply natural gas to Navitas – September 2019

Dear Mr. Hartline:

Sparta Energy, LLC hereby presents the following proposal to supply natural gas to the B&W gas pipeline:

For the time period from September the 1st till the 30th, 2019:

a.- Supply 4,500 MCF each month during the aforementioned period at a rate of \$2.96/MCF.

It is our dearest interest that Navitas' customers get the best pricing for their gas. As you might know, Sparta Energy, LLC produces its natural gas in Fentress, Morgan and Scott Co (TN) – selling this locally produced gas generates jobs, wealth and stability close to the home of your clients. Please also take into account that by purchasing directly from the producer Navitas will not incur the transportation costs charged by Spectra.

As an additional proof of our commitment, should Navitas receive a better offer than the one presented in this document, for gas delivered at the Spectra-Morgan #3 gas station, we will improve that offer with a 3% discount, thus providing the lowest price for gas to Navitas' customers thanks to the price improvement offered and also due to the Spectra transportation cost savings the that the customers currently incur at that delivery point.

Sincerely,

Juan J. Duran
Controller, for Sparta Energy, LLC

RE: Proposal to supply natural gas to Navitas – October 2019

Dear Mr. Hartline:

Sparta Energy, LLC hereby presents the following proposal to supply natural gas to the B&W gas pipeline:

For the time period from October the 1st till the 31st, 2019:

a.- Supply 4,500 MCF each month during the aforementioned period at a rate of \$3.02/MCF.

It is our dearest interest that Navitas' customers get the best pricing for their gas. As you might know, Sparta Energy, LLC produces its natural gas in Fentress, Morgan and Scott Co (TN). Selling this locally produced gas generates jobs, wealth and stability close to the home of your clients. Please also take into account that by purchasing directly from the producer Navitas will not incur the transportation costs charged by Spectra. For further ratification, just as in all past transactions, this price is exclusive of any B&W Pipeline transportation costs and it will be sold to Navitas at the B&W entry point.

As an additional proof of our commitment, should Navitas receive a better offer than the one presented in this document, for gas delivered at the Spectra-Morgan #3 gas station, we will improve that offer with a 3% discount, thus providing the lowest price for gas to Navitas' customers thanks to the price improvement offered.

As every month, if we do not receive any reply from Navitas declining our offer at least one day prior to the end of the current month, we will keep the current status and continue to supply Navitas with our gas.

Sincerely,

Juan J. Duran
