Frankfort, KY 40601

RE: Case No. 2019-00434  
Water Rate Study

Dear Ms. Bridwell:

The final Order dated January 29, 2020, in the referenced case stated, "Todd District should file for an adjustment in base rates or file for an alternative rate filing within one year of the date of the filing of this Order to ensure that its rates are sufficient." Also, the final Order in Case No. 2020-00227 stated, "Todd District shall include an adjustment to account for the decrease in purchased water expense related to Logan-Todd Commission's decrease in its rate...".

To comply with these Orders the District engaged the Kentucky Rural Water Association to perform a rate study and assist with filing an ARF application. The rate study based on calendar year 2019 has been completed. The rate study concluded a rate increase is not needed or recommended at this time.

Since a change in rates does not appear to be necessary to ensure rates are sufficient, an ARF application does not appear necessary. The enclosed rate study report includes computations and supplemental information for the Commission's review. In the event a different conclusion is reached or additional information is needed with this review, please contact Carla Moody, Office Manager, at 270-265-2229 or [tcwd00@gmail.com](mailto:tcwd00@gmail.com) so appropriate steps can be taken.

Sincerely,

James W. Lear, Vice Chairman
