

**COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION**

In the Matter of:

Electronic Application Of Kentucky Power)	
Company For A Certificate Of Public Convenience)	
And Necessity To Construct A 138 kV)	Case No. 2020-00062
Transmission Line And Associated Facilities)	
In Pike And Floyd Counties (Kewanee-Enterprise)	
Park 138 kV Transmission Line Project))	

Notice of Modification of Kewanee 138 kV Substation Layout

The Kewanee 138 kV Substation layout has been updated from that provided with the Company’s application. The modifications are designed to improve system operations, reliability, and safety.

Changes to the layout include the relocation of the 34.5kV transformer and distribution bay resulting in a source/load/source/load ring bus arrangement. The 138 kV capacitor bank will be relocated to the new 34.5 kV transformer position along with the addition of a 138 kV high-side circuit switcher. These changes are not expected to impact the transmission lines or ROW, or affect the station footprint.

The changes will not affect the project cost.

The Company will file “as built drawings” of the project, including the substation, upon completion of the project in accordance with paragraph 5 of the Commission’s December 29, 2020 Order.

Respectfully submitted,

Mark R. Overstreet
