**Duke Energy Kentucky  
Case No. 2020-00085  
STAFF First Set of Data Requests  
Date Received: June 23, 2020**

**STAFF-DR-01-003  
SUPPLEMENTAL**

**REQUEST:**

If a utility provides multiple services, such as both electric and gas residential service, provide the information requested for each service separately. For those customers that receive combined service, provide each service separately if separately served or combined if billed on a combined basis. Provide the average total bill for all customers for:

- a. 2017 as a year, not each month;
- b. 2018 as a year, not each month;
- c. 2019 as a year, not each month; and
- d. Each month in 2020.

Total bill is defined as including charges for current service and past service that is unpaid, including the accumulation of fees.

**SUPPLEMENTAL RESPONSE:**

Please see STAFF-DR-01-003 Supplemental Attachments 1 and 2 updating information through August 2020. The table shows the average total bills for all customers including past due amounts. While Duke Energy Kentucky's combination gas and electric customers receive one bill, they receive separate charges for gas and electric services. Please see the response to STAFF-DR-01-004 Supplemental for a detailed explanation of the arrears amounts and the calculations of the average bills.

SUPPLEMENTAL**

**REQUEST:**

If a utility provides multiple services, such as both electric and gas residential service, provide the information requested for each service separately. For those customers that receive combined service, provide each service separately if separately served or combined if billed on a combined basis. Provide the average total bill for all customers in each class for:

- a. 2017 as a year, not each month;
- b. 2018 as a year, not each month;
- c. 2019 as a year, not each month; and
- d. Each month in 2020.

Total bill is defined as including charges for current service and past service that is unpaid, including the accumulation of fees.

**SUPPLEMENTAL RESPONSE:**

Please see Supplemental STAFF-DR-01-003 Attachments 1 and 2 updating information for 2020 information available as of this filing. Attachment 1 shows the data and calculations of the average bills with and without arrears. Attachment 2 shows the Company's combined (gas and electric arrears numbers by month and class).

The tables below show the average total bills by class (residential and non-residential) including arrears (past due amounts) through August. The Company does not have historical datasets that show current bills and past due amounts associated with prior

bills by billing account. The Company has standard reports that show total arrears by month and class (residential and non-residential) – see Attachment 2. Arrears are not separated in these historical reports by electric and gas service. The Company’s CMS billing system tracks past due amounts and payments for each account, and the receivables tables in CMS are updated on a real-time basis as payments are received. When past-due bills are charged-off, the billing system moves the unpaid electric charges to a separate electric charge-off account, and it moves the unpaid gas charges to a gas charge-off account.

The “Grand Total Incl. Arrears” column shows the total average bills (gas plus electric) including past due amounts by class and time period. The “Grand Total” column shows the current average bills by class and time period.

**REQUEST:**

If a utility provides multiple services, such as both electric and gas residential service, provide the information requested for each service separately. For those customers that receive combined service, provide each service separately if separately served or combined if billed on a combined basis. Provide the average bill for current service for all customers for:

- b. 2018 as a year, not each month;
- c. 2019 as a year, not each month; and
- d. Each month in 2020.

**SUPPLEMENTAL RESPONSE:**

The table below shows the average bills for current service for all customers through August. Please note the month labels show data as of the end of that month. For example, the row “1/1/2020” shows data for the entire month of January 2020.

**SUPPLEMENTAL**

**REQUEST:**

If a utility provides multiple services, such as both electric and gas residential service, provide the information requested for each service separately. For those customers that receive combined service, provide each service separately if separately served or combined if billed on a combined basis. Provide the average bill for current service for all customers in each class for:

- a. 2017 as a year, not each month;
- b. 2018 as a year, not each month;
- c. 2019 as a year, not each month; and
- d. Each month in 2020.

The differences between request 3 and request 5, and request 4 and request 6 should provide the average arrearage for all customers and for each class, respectively.

**SUPPLEMENTAL RESPONSE:**

The following updated tables show the average bills for current service by class (residential and non-residential) through August. The table shows how the average bills are calculated – total revenues divided by customer counts by class and service type. The Grand Total column is calculated as the sum of the gas and electric revenues divided by the sum of the gas and electric customer counts.

**REQUEST:**

Provide the following information for January 1, 2015, until December 31, 2019. If a utility provides multiple services, such as both electric and gas residential service, provide the information requested for each service separately. For those customers that receive combined service, provide each service separately if separately served or combined if billed on a combined basis. Further, provide the following information by class.

- a. Provide monthly totals of service termination notices issued to customers only for nonpayment of bills.
- b. Provide monthly totals of service terminations for customers only for nonpayment of bills.
- c. Provide the total number of customers for each month.

This information should be provided so as not to duplicate customer counts. The information requested in this request should be presented similarly to the residential-only information provided in Case No. 2019-00366.<sup>1</sup> For reference, refer to Louisville Gas and Electric Company and Kentucky Utilities Company's response to Post-Formal Conference Request for Information filed with the Commission on March 6, 2020.

**SUPPLEMENTAL**

**REQUEST:**

Provide a detailed explanation and breakout of any cost increases and decreased income (by customer class if applicable) the utility has experienced as a result of the COVID-19 State of Emergency.

**SUPPLEMENTAL RESPONSE:**

Duke Energy Kentucky's response pertains to the period between March 2020, and July 31, 2020. As such, the information provided herein does not reflect the total financial impact of the pandemic. Duke Energy Kentucky reserves the right to supplement this response.

Please see STAFF-DR-01-014 Supplemental Attachment for a breakdown through July of incremental costs and decreased income due to lower volumes by customer class.

Total incremental costs through July are \$1.295 million. Incremental costs are split into six categories for Duke Energy Kentucky-Electric and Duke Energy Kentucky-Gas. Categories include bad debt/charge offs, credit card fees, pandemic assistance for qualifying employees, safety related expenses, cost for remote work, and other expenses. Many of these costs are expected to continue to be borne by Duke Energy Kentucky over the coming months as the impacts of the pandemic continue.

Total decreased income through July is \$5.902 million. Decreased income includes two categories, (i) the reduction in weather normalized volumes and (ii) waived fees.

- Total decreased income due to lower volumes through July is \$4.398 million. The calculation compares actual billed base revenues in 2020 and 2019 by customer class for March through July, adjusted for weather.
- Total fees waived through July are \$1.504 million. This includes \$1,491,668 of non-assessed late payment fees (please see STAFF-DR-01-012 Supplemental Attachment) and \$12,290 of return check fees waived.
