PSC Case 2020-121

In Re Matter of: ELECTRONIC SOUTHERN WATER AND SEWER
DISTRICT METER REPLACEMENT SURCHARGE MONITORING

NOTICE OF SOUTHERN DISTRICT'S INTENT
ON FILING AN AMENDED ANNUAL REPORT

Comes Southern Water and Sewer District "Southern", by and through counsel, and provides the Public Service Commission with notice that Southern intends on supplementing the Annual Progress Report tendered on May 7, 2021.

Shortly after tendering the annual progress report in 20-121 on May 7, 2021, Southern reached out to PSC staff to ensure that said report was sufficient. After discussions with PSC staff, Southern was informed that it would be helpful if Southern supplemented the report to include information about Southern's water loss percentages since Southern converted from the flat rate to volumetric billing around October 2020. Additionally, Southern will update the report to include more detailed information regarding master meters.

Southern would welcome any additional input from the PSC or PSC Staff regarding any additional information that should be included in said report.

WHEREFORE, Southern provides notice to the PSC that it intends on filing an amended annual progress report in Case 20-121 by the end of May 2021.
