Southern Water

February 21 · 🌐

In an effort to maintain affordable water services for our community, Southern announces the creation of a new email account dedicated to finding and eliminating any individuals that receive water from Southern Water & Sewer District but do not pay a bill (aka theft of services). Anyone with information regarding any person or entity that is engaged in this theft of water services is encouraged to email theft@southernwatersewerdistrict.com. All information garnered can remain anonymous.
