

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC SOUTHERN WATER &)	CASE NO.
SEWER DISTRICT METER REPLACEMENT)	
SURCHARGE MONITORING)	2020-121

**Southern Water & Sewer District's Response
to PSC Staff's 12TH Request for Information**

Comes now Southern Water & Sewer District and provides the following response to the KY Public Service Commission Staff's 12th Request for Information.

1. Confirm that all costs associated with installing the ten master meters have been paid. If this cannot be confirmed, state what costs are outstanding and provide the total outstanding.
 - a. ANSWER: Yes
 - b. Answered by Randy Conley.
2. Provide the total cost to purchase and install the ten master meters.

a. ANSWER:

Southern Water contracted with Albon Meade & Sons Construction to install access for nine (9) of the master meter locations and install the access covers for the master meters. The first master meter location was prepared in house by Southern Employees. The cost of preparing these nine (9) masters meter locations

and installing the access covers for said master meters totaled \$61,650. See attached invoice.

Wascon Inc. provided many of the parts used in the installation of these ten master meters including telemetry, solar panels, batteries and related equipment. The total purchase price of these parts used in the construction of the master meters was \$93,940. See attached invoice.

Finally, Southern purchased some electrical equipment such as bolts, nuts, washers, etc from State Electric. Southern is currently attempting to located the invoices associated with this expense and will supplement this response once Southern finds the same. Southern anticipates this expense to be relatively small.

b. Answered by Randy Conley

CERTIFICATION

These responses are true and accurate to the best of preparer's knowledge, information and belief formed after reasonable inquiry.
