

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

PSC Case 2020-121

In Re Matter of: ELECTRONIC SOUTHERN WATER AND SEWER  
DISTRICT METER REPLACEMENT SURCHARGE MONITORING

---

NOTICE OF FILING

STATUS OF MASTER METER PROJECT

---

Comes Southern Water and Sewer District “Southern”, by and through counsel, and provides the Public Service Commission with notice of the current status of the Master Meter Project.

As the PSC is aware, Southern is in the process of purchasing and installing master meters throughout its distribution system. Prior to purchasing additional master meters and related equipment, Southern feels it is necessary to consult with their current SCADA/Telemetry representatives to ensure that Southern purchases the correct equipment to as seamlessly as possible incorporate into our existing system.

As of early November, these SCADA/Telemetry representatives have not responded to our inquires, such as output parameters required by the types of meter output heads to be compatible with the SCADA/Telemetry that is to be reported remotely. In order to ensure compatibility and accurate master meter reporting/information, Southern is awaiting this technical information prior to preparing specifications for bidding out master meters. As soon as information is received and analyzed, Southern intends to proceed with this project.

WHEREFORE, Southern provides notice to the PSC of the current status of the Master Meter Project.

Respectfully Submitted on this the 17<sup>th</sup> day of November 2021 by;
