Re: Wholesale Water Rate Calculations

Dear Billy:

We have made the required rate calculations for fiscal year 2020-2021, as per the terms of our contract. A copy of these calculations is enclosed, as well as a copy of the fiscal year 2018-2019 true-up calculations.

Based on these calculations, the rate charged to the Southeast Daviess County Water District will increase to a rate of \$2.35 per thousand gallons for the fiscal year beginning June 1, 2020.

The ultimate per unit cost to Southeast District is dependent upon annual water usage and the costs contractually allocated to your district. Future year calculations may result in fluctuations in the rate per thousand gallons. The formal calculation will continue to be prepared annually.

Please contact me with any questions, or if you need further information.

Sincerely,

Keyin D. Frizzell
General Manager

RE: Wholesale Water Rate Increase

Dear Billy,

Due to the wholesale rate increase from OMU, East Daviess County Water Association will increase the wholesale rate charged to Southeast Daviess County Water.

Based on the calculations, the rate charged to Southeast Daviess County Water District will increase to a rate of \$2.59 per thousand gallons beginning June 1, 2020.

Please let me know if you need any further information.

Sincerely,

Agnes Johnson
Office Manager
