

Exhibit A

March 16, 2020

Mr. William Higdon, Manager West Daviess County Water District 3400 Bittel Road Owensboro, KY 42301

Re: Wholesale Water Rate Calculations

Dear Billy:

We have made the required rate calculations for fiscal year 2020-2021, as per the terms of our contract. A copy of these calculations is enclosed, as well as a copy of the fiscal year 2018-2019 true-up calculations.

Based on these calculations, the rate charged to the West Daviess County Water District will increase to a rate of \$2.80 per thousand gallons, for the fiscal year beginning June 1, 2020.

The ultimate per unit cost to West District is dependent upon annual water usage and the costs contractually allocated to your district. Future year calculations may result in fluctuations in the rate per thousand gallons. The formal calculation will continue to be prepared annually.

Please contact me with any questions, or if you need further information.

Sincerely,

Kevin D. Frizzell

General Manager
