# Contents

Foreword by Paul L. Joskow xi

Introduction: A Postscript, Seventeen Years After xv

- The Deregulation Revolution xv
- The Results of Deregulation in the Structurally Competitive Industries xviii
- Changes in Utility Regulatory Practices—Aggregate Revenue Requirements xxiii
- Changes in Utility Regulatory Practices—Rate Structures xxviii
- The Anomalies and Distortions of Partial Deregulation xxxii

---

## Preface i

### Volume I Economic Principles

#### Part I

#### The Institution of Regulated Monopoly

#### I

Introduction: The Rationale of Regulation and the Proper Role of Economics 1

#### The Regulated Sector 2

##### The Legal Rationale 3

##### The Distinction in Practice 8

##### The Economic Rationale 11

##### The Economics of Regulation 12

##### Economics and Nonconomics, Science and Prescription 14

##### What Can Economics Contribute? Principles and Institutions 15

#### 2

#### The Traditional Issues in the Pricing of Public Utility Services 20

##### The Limited Attention to Quality of Service 21

##### Regulating the Rate Level 25

##### Supervision and Control of Operating Costs and Capital Outlays 26

##### Determination of the "Rate Base" 35

##### Selection of the Permitted Rate of Return 42

##### Problems in Measuring the Cost of Capital 45

##### Should the Rate Be Adjusted for Changes in Prices? 51

##### The Standard of Comparable Earnings 51

##### The Problem of Rewards and Incentives 53

Regulating Rate Structures 54  
 Appendix A: Explanation of Mathematical Derivation of Cost of Capital Formula 58

Part II

Economic Principles of Rate Making

3

Marginal Cost Pricing 63

The Central Economic Principle: Marginal Cost Pricing 65  
 Problems of Defining Marginal Cost 70  
 Specifying the Time Perspective 70  
 Specifying the Incremental Block of Output 75  
 Identifying Marginal Cost When a Large Proportion of Costs Are Common 77

Tempering Principle with Practicality—or One Principle with Another 83

4

The Application of Long- and Short-Run Marginal Costs 87

The Distribution of Capacity Costs 87  
 The Shift to Long-Run Marginal Costs 88  
 Peak Responsibility 89

The Appropriate Time Pattern of Rates 103  
 Changing Relationship of Capacity to Demand 103  
 Changing Cost Levels: Reproduction versus Original Capital Costs 109

5

Decreasing Costs and Price Discrimination 123

The Occasions for Discrimination 123  
 The Nature and Prevalence of Decreasing Costs 124  
 Implications and Solutions 130  
 Technological Progress and Overhead Costs 134

Principles of Discrimination 137  
 Who Deserves the MC Price? 140  
 The Proper Limits of Discrimination 142

6

Rate-Making in the Presence of Competition 159

The Central Role of Long-Run Marginal Costs 160  
 The Impact on Competition at the Secondary Level 166  
 The Impact at the Primary Level and Other Institutional Considerations 175  
 Conclusions 180

7

Qualifications: Practicability, Externalities, Second-Best and Noneconomic Considerations 182

Administrative Considerations 184  
 Noneconomic Considerations 189  
 Externalities 193

The Problem of Second Best 195  
 Conclusion 198

**Volume II Institutional Issues**

Introduction i

**1 Monopoly and Protectionism**

The Association of Regulation with Monopoly Protectionism and Conservatism 11

• Transportation 14

*The Motor Carrier Act of 1935* 14

*The Problems Created by Exempt Carriers* 18

*Price Cutting by the Railroads* 21

*The Orientation of Regulatory Policy* 24

• The Tendency of Regulation to Spread 28

• Community Antenna Television 32

A Few Warning Notes 46

**2**

**Incentives and Distortions 47**

The A-J-W Effect 49

Incentive Plans 59

The Problem of Intercompany Coordination 64

• The Imperfect Adaptation of Business Structure: Electric Power 70

Regulatory Planning 77

The Adjudicatory Role and Its Consequences 86

Conclusion: The Inherent Limitations of Regulation 93

**3**

**Positive Influences on Public Utility Performance 95**

Evidence of Good Performance 95

Internal Motivations 101

*The Profit Motive* 101

*Managerialism* 101

Technological Factors 102

Market Factors 102

*Elasticity of Demand* 102

*Competition* 103

The Threat of Government Enterprise 104

The A-J-W Effect 106

The Role of Regulation 108

**4**

**The Role and Definition of Competition: Natural Monopoly 113**

Economics of Scale 116

• Evolution of the Natural Monopoly Concept 117

• The Essential Prerequisite of Natural Monopoly 119

• Cases of Apparently Increasing Costs 123

Competitive Certification versus Centralized Planning and

Responsibility 126

• The National Telecommunications Network 127

*The Above-890 Decisions* 129

*The MCI Cases* 132

*The Communications Satellite* 136

Alien Attachments 140  
 If Competitors Want to Enter, How Natural Can Monopoly Be? 146  
 • Natural Gas Transmission 152  
 Economies of Scale 153  
 Coordinated Investment Planning 157  
 The Role of Competitive Considerations 158  
 Competition for Existing Business versus Protectionism 165

**5**  
 Destructive Competition and the Quality of Service 172  
 The Theory and Prerequisites of Destructive Competition 173  
 The Theory Applied 178  
 The Case of Trucking 178  
 • Does Trucking Pass the Tests? 178  
 Would Quality Standards Suffice? 185  
 The Effect on Industry Performance 186  
 • Stock Exchange Brokerage Commissions 193  
 • The Regulation of Nonprice Competition: Air Transport 209  
 • The Issue of Cream-Skimming 220  
 • The Economic Case for Unrestricted Cream-Skimming 221  
 • Possible Cases against Cream-Skimming 223  
 • The Imperfections of Competition Case 223  
 • The Discrimination Problem 224  
 • The Promotional Case 233  
 • Externalties, Option Demand and the Tyranny of Small Decisions 236  
 • Offsetting Imperfections and the Problem of Second Best 241  
 • Noneconomic Considerations 243  
 • Conclusion: The Benefits and Dangers of Discriminatory Competition 246

**6**  
 The Role and Definition of Competition: Integration 251  
 Financial Integration 256  
 • Combination Companies 264  
 • Transportation 268  
 • Electric and Gas 276  
 • Horizontal and Geographic Integration 281  
 • Vertical Integration in Communications 290  
 • Financial Integration: The Problem of Judgment 306  
 • Intercompany Coordination 307  
 • Piggyback Service 309  
 • Power Pooling 314

**7**  
 The Insitution of Regulated Monopoly: Reprise 324  
 The Imperfections of Regulated Monopoly 325  
 The Choice among Imperfect Systems 327  
 The Insitution of Regulated Monopoly: Reprise 324  
 Integration, Coordination, and Competition as Partial Alternatives 324  
 The Imperfections of Regulated Monopoly 325  
 The Choice among Imperfect Systems 327  
 Selected Bibliography 331  
 Index, Volumes I and II 345
