Clarification of Expenses to be Considered for Reimbursement

Farmdale District is seeking to be reimbursed from Surcharge Funds for the items set forth below:

• South Benson Project Expenses

\$ 8,350.00 Engineering Services
220.00 Advertising for Bids
7,181.69 Construction Overrun
\$ 15,757.69 Total

These expenses were not covered by grant funds and Farmdale Water seeks to be reimbursed for these expenses from its Surcharge Funds. On September 2, 2022, Farmdale District filed a motion to this effect into the record of this proceeding. The motion stated that in addition to seeking reimbursement for \$8,350.00 for engineering services and \$220.00 for the cost of advertising the project for bids, that Farmdale District would seek reimbursement following project completion for other project costs occurring due to change orders. The Project is complete, and the costs associated with the change orders are now known. Farmdale District is seeking to be reimbursed from its Surcharge Funds for the costs associated with the South Benson Project that were not covered by the \$100,000 grant from the Franklin County Fiscal Court that was used to cover the majority of the expenses associated with this Project.

Reimbursement is appropriate because the Project was designed and completed with the objective of reducing water loss, and the Project was designed

and constructed after Farmdale District began collecting the Surcharge proceeds.

Farmdale District has not experienced any leaks in this area of its system since the Project was completed.

• Ground Penetrating Radar

\$ 16,290.00 Sensors & Software LMX100-GPR

This expense is appropriate for reimbursement from Surcharge Funds because it was purchased after Farmdale District began collecting the Surcharge proceeds, and it is used to locate lines that are leaking. Farmdale District has many asbestos cement and PVC lines without tracer wire in its system. This device enables Farmdale District to locate its lines and efficiently repair leaks.

• Supporting Invoices

Invoices for the ground penetrating radar, engineering services, construction of the South Benson Project, and advertising fees, as well as documentation of the amount of the grant used in construction of the South Benson Project are included as an **Attachment** following this Clarification. As will be set forth in another filing, Farmdale District seeks to use its remaining Surcharge Funds to replace its customer meters.

Huston Wells

Franklin County Judge/Executive

January 21, 2022

Clifford Toles, Chairman Farmdale Water District 100 Highwood Drive Frankfort, KY 40601

Dear Mr. Toles,

Congratulations. On January 20, 2022, Franklin County Fiscal Court voted in favor of a grant, not to exceed an amount of \$100,000.00, to the Farmdale Water District to assist with Project # WX21073028 in the Farmdale Water District service area. Drawdowns for this grant will be pending receipt of final Kentucky Clearinghouse review.

Attached please find a disbursement form for making drawdown requests of the grant as costs are incurred. Please submit invoices and other pertinent documentation with the draw requests after those have been approved for payment by the Water District Board. Please submit cancelled checks for the presented invoices to either Attn: Ann Northcutt, 321 West Main Street, Frankfort, KY 40601 or ann.northcutt@franklincounty.ky.gov.

Thank you for your efforts in the Farmdale area toward reliable services for Franklin County citizens. We look forward to working with you on your goal.

Sincerely,

Huston Wells

Franklin County Judge Executive
