NOTICE OF PUBLIC MEETING

AEUG MADISON SOLAR, LLC, (Madison Solar) is proposing to construct and operate a 100 MW solar energy project in Madison County, Kentucky. The proposed Madison Solar project will be located within a project area of approximately 1,100 acres situated south of Lost Fork Road (KY 3377), primarily north of Three Forks Road, east of Interstate 75, and primarily west of Red House Road (KY 388). A public meeting to inform the community about the project and to answer questions about the project will take place on August 6, 2020 between 6 p.m. and 8 p.m. in the Ground Floor Community Room #013 at the Richmond branch of the Madison County Public Library (507 West Main Street, Richmond). Due to the ongoing global pandemic, this meeting will be conducted in compliance with guidance from U.S. Centers for Disease Control and guidelines from the Office of the Governor intended to reduce the potential spread of COVID-19. Attendance at this meeting will be limited to no more than 25 people to allow social distancing, and pre-registration will be required. Per the executive order of the Governor, all in-person attendees will be required to correctly wear masks that will potentially prevent the spread of illness. Seating in the room will be set up to allow social distancing for the duration of the meeting, and attendees will be asked to not move the seats, this due to the meeting being held indoors, in an enclosed space. Hand sanitizer and masks will be available on-site for attendees. Madison Solar will make a large-scale (24 inches by 36 inches) layout map of the proposed solar facility, which otherwise would have been made available to the public for inspection at a public meeting, available to the public by displaying the map in the entrance to the Richmond branch of the Madison County Public Library on the day of the public meeting. Due to the extraordinary circumstances of this time, the meeting also will be made available for public participation through a digital "virtual" meeting. The digital meeting will be available through Microsoft Teams, which can be accessed through a web browser, and will also be accessible through a call-in number. Given the on-going public health situation and limited attendance cap intended to limit the potential spread of COVID-19, Madison Solar strongly encourages participation in this meeting virtually and via the call-in option. Pre-registration will also be required for participation in the virtual meeting and the call-in meeting. Registration is free of charge. To Register email MadisonCountySolar@acciona.com or call Austin Roach at (312) 870-1436. The proposed photovoltaic solar project will consist of solar panels with an approximate maximum height of 6 feet, inverters, associated wiring and balance of system, and a substation. The power generated by the project will be linked to the electric transmission grid via the Three Forks-Dale 138Kv line. Anyone with questions about the August 6, 2020 public meeting or Madison Solar may request information by emailing Austin Roach at MadisonCountySolar@acciona.com or calling him at (312) 870-1436.

July 21, 2020

Dear Madison County resident,

My name is Adam Stratton and I work for a renewable energy company that is developing the Madison Solar Project, which we bought last year from Tenaska. We are also a developer of renewable energy projects across the United States. I wanted to provide you with some information about ACCIONA, our company, and the Madison Solar Project, an exciting project we are hoping to bring to Madison County. The Madison Solar Project is an estimated \$120 million dollar project that will create up to 300 jobs during peak construction and will add to the local revenue stream for local government including, but not limited to schools, first responders and roadways.

I put together this package with the hopes it will show you a bit more about us and our projects. Enclosed, please find an invitation to a drive-thru dinner. That dinner will be followed by a virtual meeting, where we will share more about solar energy and the project. Also, please find the announcement for a public meeting about the project that will be happening on August 6.

Inside please find:

- A letter from our CEO
- An invitation to Drive-Thru BBQ and virtual meeting
- Notice of Public Meeting
- A project area map
- About ACCIONA one pager

We know that solar energy is new to Madison County, but we are excited to invest in your community and we look forward to learning more about you.

If you have any questions about the Madison Solar Project, I encourage you to email me at astratton@acciona.com or to call me at (312) 870-1480.

Sincerely,

Adam W Stratton

July 21, 2020

Dear Madison County families and businesses,

I am writing to introduce myself, tell you about our local solar development, and to share with you a bit about ACCIONA. We have built and we operate more than 10,000 MW of renewable energy around the globe. In the United States, we own and operate about 1,000 MW of renewables. Our corporate headquarters is in Chicago, but our teams live across the nation in Nevada, the Dakotas, Texas, Oklahoma, Iowa, and Illinois. Our hope is that soon we will have a new address in Madison County.

I am proud to work for ACCIONA because we design every project to have a positive impact on the community where it is located. When ACCIONA builds a project, we are in it for the long haul. We are in it to bring benefits to community, the economy and the environment. Our project company, AEUG Madison Solar, LLC, is engineering the project in Madison County to operate for more than 30 years.

Over the life of the project, we will get to know each other very well. I am excited to learn more about your community. For example, I hope to participate in Berea's Spoonbread Festival and I can't wait to try Richmond's restaurants. Mostly, I look forward to meeting many of you and learning about your community's rich history.

Some things I want to share about our project: We anticipate more than 200 jobs will be created during peak construction of the project. Where possible, we like to hire local contractors for work on our projects. Once operational, my team will be hiring a team of five technicians to work on the site. To fill those jobs, we'll be looking for local residents who have a desire and commitment to the work and to the environment. Of course, we'll also be part of the local economy, working with local businesses to maintain our vehicles, help with landscaping, and feed our team and guests.

Our project will pay local taxes, which will go to the county to support local schools, first responders and roadways. Our projects also include a commitment to support local education and environmental and wellness efforts. We hope to have a lot more to share about that in the coming months.

I thank you for taking the time to learn a bit more about us. If you have any questions, I invite you to email my team at MadisonCountySolar@acciona.com. If you want to learn about ACCIONA, I invite you to visit our website at www.acciona.com.

All my best,

Rafael Esteban
CEO
Acciona Energy USA Global LLC

You're Invited to a Drive-Thru BBQ

The ACCIONA team is excited to connect with you on the evening of Monday, August 3, to talk about our new solar energy project planned for Madison County. We invite you to a free “drive-thru” dinner between 5:00-6:30 p.m. to be followed at 7:00 p.m. with an on-line, virtual presentation about the project.

Out of an abundance of caution during the COVID-19 situation, all meals will be served to go. You don't even need to leave your vehicle! Just pull up, and grab your take out, family style meal of pulled pork (or pulled chicken) mac & cheese and green beans provided by local favorite Smokin' Jax!

This offer is limited to the first 65 families that respond. To reserve your meal, and to get the link for the online meeting, shoot us an email at MadisonCountySolar@acciona.com or call Austin Roach at (312) 870-1436.

NOTICE OF PUBLIC MEETING

AEUG MADISON SOLAR, LLC, (Madison Solar) is proposing to construct and operate a 100 MW solar energy project in Madison County, Kentucky. The proposed Madison Solar project will be located within a project area of approximately 1,100 acres situated south of Lost Fork Road (KY 3377), primarily north of Three Forks Road, east of Interstate 75, and primarily west of Red House Road (KY 388). The proposed photovoltaic solar project will consist of solar panels with an approximate maximum height of 6 feet, inverters, associated wiring and balance of system, and a substation. The power generated by the project will be linked to the electric transmission grid via the Three Forks-Dale 138Kv line. Anyone with questions about the August 6, 2020 public meeting or Madison Solar may request information by emailing Austin Roach at MadisonCountySolar@acciona.com or calling him at (312) 870-1436.

Project Area Map

The Proposed Madison County Project will be situated on approximately 1,100-acres north of the city of Richmond, Kentucky. It is located south of Lost Fork Road (KY 3377), primarily north of Three Forks Road, east of Interstate 75 and primarily west of Red House Road (KY 388).

ACCIONA in the US

- ACCIONA is a leading supplier of renewable energy, water technology solutions, civil infrastructure and concessions projects.
- One of the main renewable energy operators in the world, with 30 years' experience and 10,240 MW under ownership.
- With almost two decades of experience in the United States, ACCIONA holds a portfolio that is 100% renewable energy.
- Own and operate more than 850 MW in the US. The company has a pipeline of projects to add more than 1,000 MW of Solar PV by 2023.
- 28.8 Million gallons of water desalinated daily in Florida.
- The company is carbon neutral and committed to 100% renewable energy.

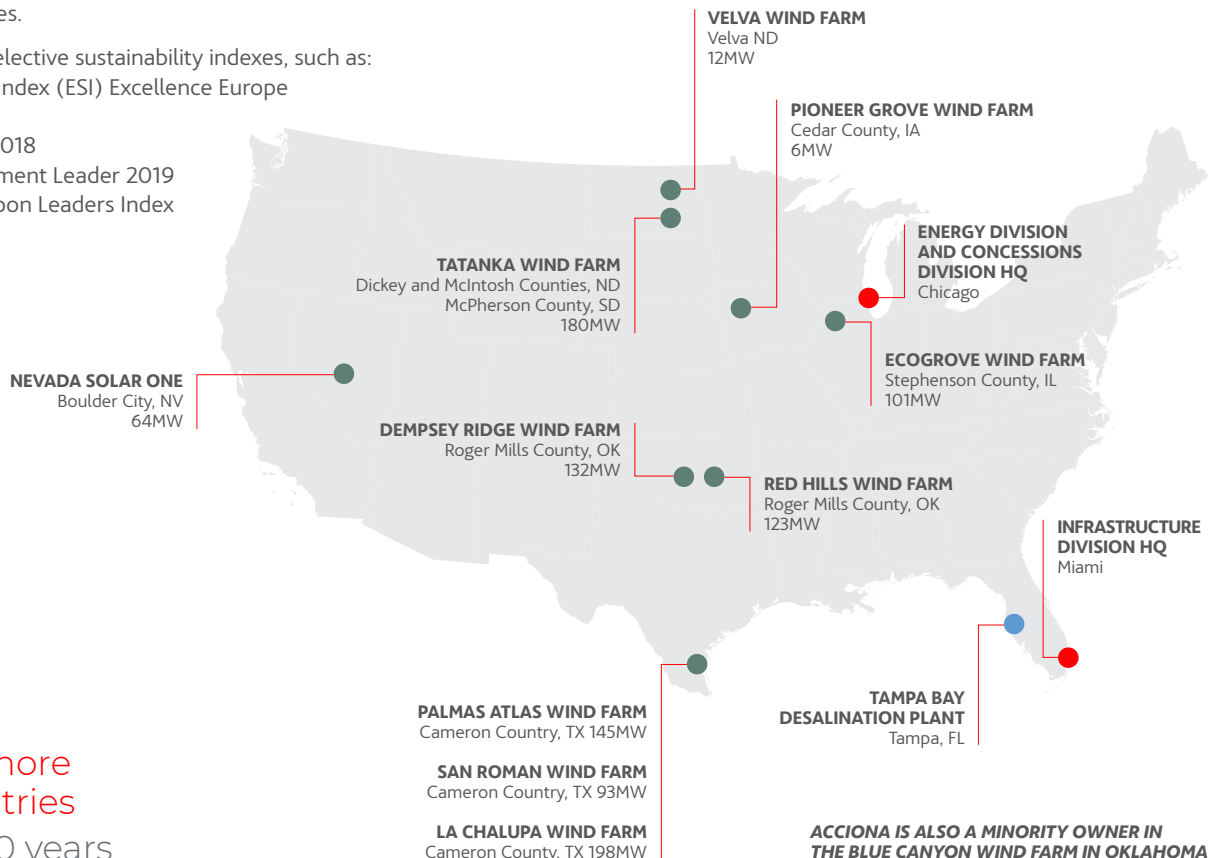

Employs more than 200 professionals across the US with headquarters in Chicago and Miami.

Develops customized renewable energy and infrastructure solutions for clients in the private and public sector. The company launched its US concessions offerings in 2019.

Leads in infrastructure and construction innovation to improve safety and cut project timelines.

ACCIONA features in selective sustainability indexes, such as:

- Ethibel Sustainability Index (ESI) Excellence Europe
- FTSE4Good
- CDP Water Security 2018
- CDP Supplier Engagement Leader 2019
- MSCI Global Low Carbon Leaders Index

ACCIONA IS ALSO A MINORITY OWNER IN THE BLUE CANYON WIND FARM IN OKLAHOMA

Presence in more than 40 countries

More than 100 years of experience

FLAGSHIP PROJECTS

ENERGY INFRASTRUCTURE

ACCIONA has ownership in ten operational wind farms, and one concentrated solar plant.

- More than 850MW of renewable energy capacity and a robust pipeline of future wind and solar PV projects in PJM, ERCOT and SPP.
- ACCIONA develops, constructs, and operates renewable energy projects across the US.

WATER INFRASTRUCTURE

- ACCIONA operates one of the largest desalination plants in the US, which supplies 10% of the clean water for Tampa, Florida.
- The company also helped to preserve healthy water levels in the protected Carmel River and Seaside to supply Monterrey, California.

FEATURED PROJECT

PALMAS ALTAS WIND FARM (145 MW)

Renewable energy for more than 43,000 homes in Texas

LOCATION: Cameron County, Texas

CONFIGURATION: 46 AW125/3150 ACCIONA Nordex wind turbines

INVESTMENT: Around \$200M

PRODUCTION: Equivalent to the consumption of 43,000 Texas homes

TATANKA WIND FARM (180 MW)

Our largest installation in the US

LOCATION: North Dakota and South Dakota, US

CONFIGURATION: One hundred twenty 1.5 MW wind turbines

INVESTMENT: \$381M

PRODUCTION: equivalent to the consumption of 60,000 US homes
