Re: Crittenden-Livingston Water District
Crittenden-Livingston AMR Meter Replacement Project
Application for PSC Approval

Dear Director:

Enclosed is the application for approval for the Crittenden Livingston Water District to enter into a Fund C loan agreement with the Kentucky Infrastructure Authority. This project will replace approximately 1400 meters within Livingston and Crittenden Counties with AMR meters. The District wishes to replace the remaining meters that were not replaced with the original KIA Fund B loan in 2012 so that the entire district will have the same type of meters and radios, greatly reducing the time needed to read meters. Please review the documents and let me know if there are any deficiencies. All items filed electronically are a true representation of the original documents to be filed at a later date with the Commission. If you have any questions or require any further information, please do not hesitate to contact me.

Sincerely,

Kyle Cunningham
Infrastructure Coordinator
