Re: Case No. 2020-00262
Bracken County Water District

Dear Ms. Bridwell:

Bracken County Water District's bulk water loading stations are coin-operated and are capable of only handling quarter coins. Increases in the rate for these stations can only be made in increments of \$0.25 per 1,000 gallons. As a result, Bracken District proposes to increase the rate for bulk water loading stations by \$0.25 per 1,000 gallons even though the proposed purchased water adjustment factor is \$0.18 per 1,000 gallons.

Please note that for Calendar Year 2020, Bracken County Water District sold 150,000 gallons through its bulk water loading stations. These sales represented approximately 0.11 percent of its total sales.

Sincerely,

Stoll Keenon Ogden PLLC

Gerald E. Wuetcher
