

**APRIL**

# BLUEGRASS WATER

Utility Operating Company

A CSWR Managed Utility

Dear Customer:

We know that you have many questions about your water and the Coronavirus (COVID-19).

## **IS MY TAP WATER SAFE TO DRINK?**

Yes. The CDC, the EPA and the World Health Organization (WHO) have all gone on record to state that current water treatment systems dismantle the virus and keep our water safe to consume. In addition, our chlorination and chloramination processes remove pathogens from drinking water as well.

[\(Learn more about the science behind water disinfection here.\)](#)

## **WHAT ABOUT MY SEWER SYSTEM?**

We continue to monitor wastewater around-the-clock, in real time, to ensure the safety of communities. The most important thing you can do to ensure a healthy sewer system is to only flush flushable items! [Read about what you should and should not flush here.](#)

## **WE'RE HERE 24/7, 365**

We're here for any questions you have, and our and emergency teams remain on duty for any trouble that may arise: 1-866-752-8982. We also encourage you to follow us on our [website](#), [Facebook](#) and [Twitter](#) as we post updates often.

We hope you and your family are remaining safe.

Yours in Health,

**Josiah Cox**

President

# BLUEGRASS WATER

Utility Operating Company

A CSWR Managed Utility

Dear Customer:

You've undoubtedly heard much about the importance of access to water in the COVID-19 pandemic.

Personal hygiene and rigorous handwashing is an important way we all can do our part to slow the spread of infection. Washing your hands with soap and water is an incredibly effective way to battle the coronavirus. [Learn more about the science about how soap and water kills the virus.](#)

## **WE'RE HERE 24/7, 365**

## **BLUEGRASS WATER**

**Utility Operating Company**

A CSWR Managed Utility

Dear Customer:

The COVID-19 pandemic has thrown a lot of uncertainty into our lives.

Many cyberattack groups are using this uncertainty to their advantage in an attempt to gain information from people by posing as government agencies or utility companies. We are aware of this issue and doing all we can to protect our customers from any attacks of the sort. We will never ask you for personal information, account information or other sensitive subject matters over email. [Learn more about CSWR's commitment to cyber security during COVID-19 here.](#)

### **WE'RE HERE 24/7, 365**

# BLUEGRASS WATER

Utility Operating Company

A CSWR Managed Utility

**Dear Customer:**

Did you know that homeowners use double to quadruple the amount of water in the summer compared to the rest of the year? This is mostly due to using more water outside to keep their lawns lush and their gardens green.

However, our watering efforts usually go by the wayside. It's estimated that nearly half of water used outdoors either evaporates, gets lost in the wind, or turns into runoff because of overwatering.

We've got some good news! Here are a [few ways you can use less water outdoors](#).

We're here for any questions you have. Call us at 1-866-752-8982 or follow us on our [website](#), [Facebook](#) and [Twitter](#).
