INTERCONNECTION AND NET METERING GUIDELINES

Betsy Rudd Bennett

Dear Ms. Bridwell:

Joint Intervenors Mountain Association and Earth Tools, Inc., hereby file their position regarding public hearing or request for the matter to be decided based upon the written record. Please also find attached for electronic filing in the above-captioned matter *Motion to File Late*.

Arnita Gadson

Joint Intervenors respectfully restate their position from supplemental briefing that formal hearing is not necessary and would not be a useful format for working through the issues presented by parties and updating the guidelines. However, the collaborative process has worked well to this point and an informal conference would allowing for parties to meet and attempt to develop a consensus proposal for consideration by the Commission on changes to the current interconnection guidelines.
