WATER LOSS REDUCTION PLAN,)
SURCHARGE AND MONITORING)**

MOTION FOR EXTENSION OF TIME TO SUBMIT
QUALIFIED INFRASTRUCTURE IMPROVEMENT PLAN

Hyden-Leslie County Water District (“Hyden-Leslie District”) moves the Public Service Commission (“Commission”) for an additional 14 days in which to submit a qualified infrastructure improvement plan. In support of its Motion, Hyden-Leslie District states:

1. On November 6, 2020, the Commission issued Orders in the above-styled cases in which it directed Hyden-Leslie to submit to the Commission a qualified infrastructure improvement plan within 120 days. This plan currently must be submitted no later than March 6, 2021.

2. Hyden-Leslie District’s general manager has been working diligently on the plan, but several unforeseen events have limited his ability to complete the plan within the specified time period. Throughout this period, several employees, including the general manager, contracted COVID-19 or exposed to persons who had contracted it and were required to quarantine. In late February, Hyden-Leslie District’s service area experienced significant power outages due to the ice storms and heavy snow, which significantly disrupted Hyden-Leslie District’s operations. Over last weekend, Hyden-Leslie District’s service area experienced heavy

rains and significant flooding. Hyden-Leslie District is currently addressing major service issues related to this flooding.

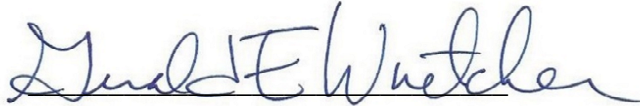

3. Hyden-Leslie District requests an additional 14 days to complete and file its qualified infrastructure improvement plan

4. This request is made in good faith and is not made for purposes of delay.

WHEREFORE, Hyden-Leslie County Water District requests an Order permitting it to submit its qualified infrastructure improvement plan no later than March 20, 2021.

Dated: March 2, 2021

Respectfully submitted,

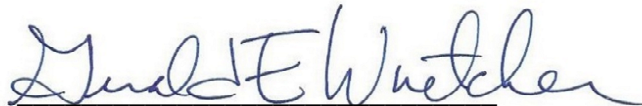

Gerald E. Wuetcher
