JOINT MOTION FOR INFORMAL CONFERENCE

Kentucky Utilities Company (“KU”) and Louisville Gas and Electric Company (“LG&E”) (collectively, “Companies”) hereby respectfully move the Kentucky Public Service Commission (“Commission”) to issue an order scheduling an informal conference in these proceedings beginning at 9:30 a.m. (EDT) on Thursday, April 15, 2021 and continuing through Friday, April 16, 2021 at the offices of Stoll Keenon Ogden PLLC at 500 West Jefferson Street, Suite 2000, Louisville, Kentucky. The Companies request an informal conference to discuss the issues in the

case and for the possibility of resolving some or all of those issues by stipulation and recommendation.

Intervenors and Staff will have the option to attend in person under applicable COVID-19 protocols, attend remotely through Webex videoconferencing technology, or both. The conference will be conducted using the following parameters:

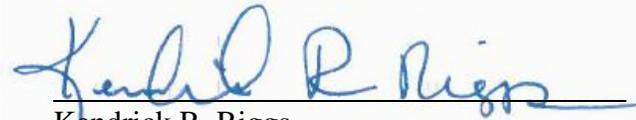

1. Two pre-meeting WebEx training sessions will be offered to all parties and Staff conducted by an IT professional with high proficiency in WebEx.
2. All persons physically attending the meeting will be subject to the then-in-effect COVID-19 protocols, including but not limited to masks and temperature checks.
3. The 20th floor of the firm's offices at 500 West Jefferson Street is essentially a floor of conference rooms. All rooms are reserved for the conference all day each day. Restroom facilities are located on the floor. The offices for the firm's attorneys and staff are physically separated from the conference rooms by access-controlled doors. Most of the firm's attorneys and staff continue to work remotely from their offices.
4. Under current COVID-19 restrictions including mandatory masks and social distancing protocols, the largest conference room in the firm's Louisville office can accommodate up to 17 people. Please see the attached pdf file for the floor plan for firm's 20th floor at 500 West Jefferson Street.
5. The main conference room is equipped with two large Cisco Videoconference Monitors, full room cameras, and full room audio.
6. A technology moderator will be physically present in the main conference room and will be responsible for running the main meeting on a laptop connected to the large video monitors. Persons attending remotely will be able to view, hear, and participate in any discussions in this room.
7. Exhibits may be provided to the moderator either in advance or in real time for display on the large monitors, for all in person attendees to review. A protocol will be developed for efficient sharing of exhibits with the moderator to display.
8. For standard file formats (PDF, Word, Excel), displayed documents can be made available to all participants virtually so anyone attending the meeting remotely can download and view the documents.
9. Remote users will be able to see both the physical meeting room and documents displayed on the main monitors via a remote WebEx session.

10. Each party who is physically present at SKO Louisville will have its own private conference room for breakout meetings. SKO's Louisville office has 7 conference rooms in addition to the main conference room. Up to six of these conference rooms can be provided to individual intervenor parties. One of these conference rooms can accommodate up to 7 persons under current COVID19 restrictions. This also can be used for the intervenor private breakout room.
11. Internet connectivity will be provided but all attendees physically at the meeting will be expected to bring their own devices for use in breakout rooms or the main meeting room.
12. In addition to the technology moderator, there will be additional support staff physically present at SKO's Louisville office to manage connection issues and to assist virtual and physically-present users to the extent possible.

WHEREFORE, the Companies request the Commission issue an order scheduling the requested informal conference for the purpose of discussing the issues in the case.

Dated: March 18, 2021

Respectfully submitted,
