July 11, 2022

KENTUCKY UTILITIES COMPANY

**Response to Walmart Inc.'s Supplemental Request for Information
Dated February 5, 2021**

Case No. 2020-00349

Question No. 1

Responding Witness: Eileen L. Saunders

- Q-1. Please refer to the Direct Testimony of Eileen L. Saunders. At Ex. ELS-1, p. 13, the document states in reference to tools available to customers with an AMI meter that customers will be able to "[d]ownload or export data to spreadsheets to Green Button Download enabled products to facilitate additional review or analysis." Further, at Ex. ELS-2, p. 12, the Company states that it will create a portal that "[p]rovides customers the ability to download usage data in various formats, including Green Button format, which is the national standard."
- a. Do the phrases "Green Button Download" or "Green Button format" as set forth in the exhibits to Ms. Saunders' testimony mean a broader system that would enable "Connect My Data," or does the Company only intend to provide Green Button "Download My Data" capabilities?
- b. Is there a plan to enable third-party access to customer usage data such as through API or through Green Button Connect My Data?
- A-1. Green Button Download and Green Button Connect My Data are two separate capabilities as shown below and discussed in more detailed on the Green Button website: <https://www.greenbuttondata.org/residential.html>

- a. "Green Button Download" and "Green Button format" are both in relation to the existing Green Button "Download My Data" capability, which is currently available for customers with an AMI meter through MyMeter web portal. If the Companies' AMI proposal is approved, "Download My Data" will be available to any customer receiving an AMI meter upon meter installation.

Additionally, the Companies plans to implement Green Button “Connect My Data” to give customers additional flexibility to use the usage data for their unique needs.

- b. Yes, see the response to part a. Additionally the Companies currently support enabling third-party access by allowing customers to identify third-parties and provide them with a unique account to access the MyMeter portal. This functionality is shown on page A-12 of Exhibit ELS-1.
